Declaration of Mem ber From Utah Comes After Conference With President.

Washington, June 8.-(AP)-Congress will be called in special session in October, Senator Root, of Utah, declared today after a conference with President Coolidge.

On leaving the White House, the itah Senator represented the Present as being convinced of the risdom of the session.

The senator, who is a member of finance committee tenate which handles tax legislation, added that there "is no doubt" the call being issued so that Congress can get a running start on its legislative program.

Senator Smoot declared that the def ciency appropriation bill failed of action at the close of last session, tax reduction and settlement of election contests were problems that must be taken up at an early date along with flood control mea-

Mr. Smoot predicted that the Republicans would have no difficulty in organizing the senate. If the spe dal session is called on October 1 there seemed no doubt that Congress would be able to adjourn in May or early in June.

Public opinion the senator continued has fairly well shaped Itself on the important problems which Co.gress would be called upon to deal with and in his opinion there should be no major difficulties in solving these questions:

Vir. Smoot believed the Smith and Vare Senate election contests would be handled expeditiously, and that pas age of the deficiency bill, which failed in the March filibuster this year was of prime importance.

After the deficiency bill has been disposed of, he believed tax legislation should be taken up and then if flood measures have been shaped Congress should turn its attention

Battle flags of th ePittsburg Pirates and New York Yankees still are flying at the top of the major leagues despite the efforts of 14 other clubs to lower them.

All the homerun power in the bats of Ruth and Gehrig was needed by the Yankees yesterday to repulse the charging White Sox, but the league leaders managed to turn back their rivals by a count of 4 to 1.

Yanker hits off the pitching of Alphonse Thomas numbered only one less than the White Sox gathered in from the slants of Waite Hoyte, but the Yankers hits were long ones that counted runs. Ruth made his 18th homer, Gehrig his fourteenth and Pat Collins added another, while Clancy, of the White Sox, cracked out one for the visiters only tally

In the four times they have met the Yankees now have won three games from the White Sox. The present series which opened with the Yank victory yesterday has three more games to run.

Opening their series against the Giants, the National league leaders were as successful as the Yankees. Despite two New York homers the Pirates kept up the Giant killing streak they started at the polo grounds last month, getting 16 hits off the notoriously poor New York pitching and winning 9 to 6.

Chicago's 7 to 6 victory over Brooklyn meanwhile sent the Cubs to third place above the Giants and only a few points below the Card-

As Connie Mack's revised line up won a hitting match from the Browns 11 to 9, a bit of added drama appeared in a fist fight beween pitcher Gaston, of the Browns and a spectator who was "Ridding" him as Gaston walked from the field after being batted off the mound.

'The Boston Braves' 12 to 5 victory over the St. Louis Cardinals was remarkable chiefly for the lack of consideration with which the visiters treated the champions touted pitching staff, while the Senators 10-8 decision over the Cleveland Incians was partly due to the hitting of Tris Speaker against his old

According to reported medical cpinion a young man of respectable family stole an automobile because he had five abscessed teeth. But perhaps he also wanted a nice car and lacked the money to pay for it.

On June 16 President Coolidge will betake him to the "wide open spaces of the West, hoping while there to remove or reduce the equally wide political disgruntlement of that section. A revision of the tariff and a farm relief bill would more effectively serve the purpose, but that would produce political disgruntle ment among his staunchest supporters in the East, and so it is hoped to win the West by the glad hand and personal charm. The success of such a large order on the Coolidge temperament is in required to have it inspected," volved in doubt.

The Colorado and Southern railroad claimed in its petition for abandonment that it lost money on its passenger service to the district over a long period.

The Georgetown Loop, one of the most wondrously scenic rail routes in the Colorado Rockies, has for years been a major attraction for tourists. It was considered one of the most remarkable engineering feats in railroad construction, winding along steep mountain sides and over hanging trestles to a height of thore than 12,000 feet.

Automobiles and busses will now transport sightseers to the district slthough an occasional freight train will be seen carrying away ore from the workings that are still in operation in this district.

They were taken to the embassy soon after their arrival last evening from Kottbus, near Klinge, where they were forcde down Monday while trying to reach Berlin on their trans-Atlantic flight from New York.

The airmen went to bed after an informal dinner at the empassy with the hochs and songs of al Berlin ringing in their ears. Had they flown direct to Berlin from New York the welcome given them could hardly have been more enthusiastic than the demonstration when they landed at the Tempel hofer field last evening.

As they drove from the flying field in the ambassadorial car, they were cheered repeatedly, the automobile making its way through the crowded streets only with the aid of a police vanguard. Such enthusiasm has not been seen since Fiel ! Marshal Von Hindenburg made his triumphal entry into the capital as president-elect in 1925.
