## GENEVA CONFERENCE EXPERTS INSTRUCTED TO FIX STATUS OF THE THREE NAVAL POWERS

**Agreement Will Include Building Program and Clarification of Principals.**

Geneva, June 21.—(AP)—The executive committee of the tripartite Naval Conference under the Presidency of Hugh S. Gibson of the United States decided today to invoke a meeting of the technical experts of Great Britain, the United States and Japan.

The experts were instructed, first to exchange views and reach an agreement on the existing status of the three navies, including building programs and second to begin study of the three sets of proposals placed before the conference yesterday, with a view to clarification of their real purport.

Geneva, June 21.—(AP)—With a basic, if tentative, policy fairly outlined for each participating nation, the three power conference was ready today to embark upon concrete discussion of further naval limitation.

Distinctly, the position of the big three may be stated as:  
United States—Extension of the 5-5-3 ratio to all warships, with definite tonnage limits for cruisers, destroyers and submarines.

Great Britain—Further limitation of battleships, reduction in size and armament of both capital ships and cruisers and extension of the 5-5-3 ratio to 10,000 ton cruisers, but no mention of application to auxiliaries.

Japan—A naval holiday on the basis of the status quo and a ban on battleships construction.

In each case the plans submitted embodying the above tentative policies comprise much complicated technical detail, thus providing a maximum basis for discussion and possibly, for compromise as the conference gets down to work.

Although the proposals are widely divergent, there was hope that the delegations would be able to combine them into an harmonious whole at this juncture. The work started by the Washington naval limitation conference in 1922. That task will not be an easy one was freely admitted; yet no one said it is impossible of fulfillment.

This morning the executive committee of the conference had before it the problem of deciding whether the phases of disarmament raised at yesterday's plenary session should be referred to technical committees for consideration forthwith, or whether it would be wiser to hold further round table discussions of the conference as a whole.

The latter course, it was held in some quarters would allow more light to be shed on the ideas proffered, and the general discussion might enable a reconciliation between the various proposals.

The American delegation had not yet taken a position for either alternative. Mr. Gibson smilingly told representatives of the World Press: "We are not insisting on anything; we are merely trying to devise ways and means of getting to a solution satisfactory to all."

The British deem it very doubtful that the Japanese will agree to application of the 5-5-3 ratio to cruisers. One Japanese official declared:

"Our offer represents a very big step beyond what we consented to at Washington. We did considerable scrapping of ships even before the Washington conference."  
As for the Japanese recommendation, the Americans after a cursory examination, believed they would seriously interfere with American freedom in naval construction. The British proposals, it was stated, would be difficult of acceptance, the American having no faith in the wisdom of decreasing the size of battleships and cruisers. They were particularly dubious about decreasing the size of cruisers guns, which was fixed at the Washington conference, with the five participating powers concurring, after the special needs of American national safety were duly considered.

Admiral Saito, the Japanese spokesman, addressing the delegates declared he believed that if sympathetic consideration were taken of individual conditions and requirements of the various nations, an acceptable agreement would be reached. But he said it was most important to prevent expansion of armaments without simultaneously endangering national security. He then proposed that for a stipulated period the naval powers should promise to refrain from entering upon new building programs or in any way increasing naval strength.

In statement last night explaining their proposals, the American delegation said if existing construction programs were completed, the United States would have to scrap immediately about 60,000 tons of auxiliary and combatant surface vessels and 80,000 additional tons of such craft upon completion of its

### Own Successor?

Despite the fact that his party, the Free State Party, lost its majority in the last election, President Cosgrave may succeed himself as head of Ireland. Minority parties were uniting with the Government to keep the Republicans out of power.

## EARL CARROLL IS IMPROVING

### Warden Snook At Atlanta Penn Says Carroll is in Much Better Shape.

Atlanta, Ga., June 21.—(AP)—The spectre of death that Mrs. Earl Carroll saw hovering over her producer husband when he entered the Atlanta Federal Penitentiary on June 8 apparently has been chased away by a warden who armed himself with psychology.

Carroll, who collapsed nearly two months ago at Greenville, S. C., while being brought here from New York, observed the thirteenth day of his incarceration by walking around the prison hospital late yesterday and partaking of an iced fruit drink that topped off his second meal since breakfast.

Warden John W. Snook placed only one restriction on the tongue of 3,000 inmates whom he instructed to talk with Carroll whenever he wished to talk; nobody was to refer in the producer's presence to "the Bath Tub Party" that caused him to be sent among them for a year and a day. Warden Snook says it worked.

"He is in a greatly improved condition, both mentally and physically," he said. "He sat up four and a half hours Sunday and from all indications he will be able to be about in a few days."

Meanwhile Carroll is under the constant care of men attendants. He is frail but he talks frequently and cheerfully. His diet would do credit to an active man.

During the long afternoons attendants read to him and talk of high spots in the day's news, the relative chances of major league baseball teams perhaps but never of the Theatre. Even if his attendants are informed, talk of the Theatre is taboo. Lights are put out at 10 o'clock.

Warden Snook says Carroll is exceptionally popular with hospital men and prisoners. Evidently there is popularity for him elsewhere for there are "bushels" of letters, Epistles from relatives, friends and fanatics are delivered to him and in turn sent to his secretary in New York for response.

He is permitted to write three letters a week but whether he does is, in the prison understanding, "nobody's business."

## TOBACCO MEN LEAVING FOR CONVENTION

**Fifty Members of Local Market Attend United States Association Session.**

About fifty members of the Greenville tobacco market will leave today and tomorrow for Morehead City to attend the annual convention of the Tobacco Association of the United States. Tobaccoists from many sections of North Carolina and other states will be in attendance.

Numbers of important matters will be considered, principal among them being the setting of dates for the opening of the various markets. One of the main features of recreation of the convention will be a fox hunt. Hounds from different parts of the state are already on the way to Morehead City, and will lead the party on one of the greatest hunts of the year.

## Motorcycle Cop And Auto Thieves Stage Gun Fight

New York, June 21.—(AP)—A gun battle between a lone motorcycle policeman and two alleged automobile thieves, during a sixty-mile an hour chase down First Avenue, ended early today when the fleeing car crashed against another machine. One of its two occupants was captured.

Pedestrians and motorists rushed for safety as the automobile and motorcycle speeded down First Avenue from Ninth street to Fifty-ninth street.

No one was hit although one of the shots fired from the fleeing car tore away the shield on the patrolman's cap.

The prisoner said he is Thomas McDonnell, 16.

## Coolidge Invited To Farmers Picnic

Rapid City, S. D., June 21.—(AP)—The opportunity of seeing 10,000 farmers at one time has been opened to President Coolidge and it has been indicated that he will avail himself of the chance.

The farmers will assemble in Ardmore, S. D., nearly a 100 miles from Rapid City, for a picnic, an invitation for which has been presented to Mr. Coolidge by a delegation from the city. The picnic will be held July 16 and the farmers are expected to come from South Dakota, Nebraska and Wyoming.

Should the President accept, he would see a large portion of the Black Hills territory this summer; he has already decided to go in the Northern Hills for the Western celebration at Deadwood in August.

A trip to Belle Fourche, also to the north, for a round-up next month is under consideration and the President has received an invitation to attend an Indian picnic war at the Pine Ridge Indian Agency.

## Submit Plans To End Strike

Chicago, June 21.—(AP)—Illinois mine workers today submitted to operators of the State conditions for terminating the bituminous coal strike which Harry Fishwick, president of the miners said "virtually amounted to a renunciation of the Jacksonville agreement with minor changes in working conditions."

Operators immediately went into conference to discuss the condition laid down by the mine workers, and the wage adjustment conference which began today with submission of the miners' demands was adjourned until tomorrow.

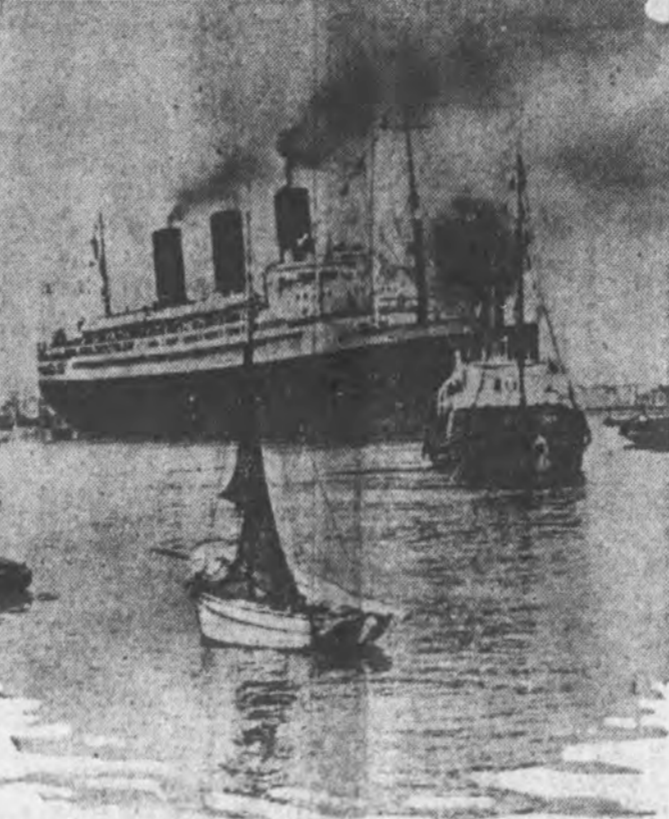

## NEGRO CHARGED WITH ATTEMPT TO ASSAULT 7-YEAR-OLD CHILD

Tarboro, June 21.—(AP)—Johnny Hill, 17 year old negro youth, was in jail here today, awaiting trial on charges of attempting to criminally attack the seven year old daughter of a prominent farmer near here.

The negro is alleged to have invited the child to her father's stable where he went to feed the stock.

BONDS WORTH \$70,000 STOLEN AT NEW YORK  
New York, June 21.—(AP)—The Garfield National Bank reported to the police today that bonds worth \$70,000 were stolen from the desk of R. W. Poor, chairman of the board of directors, some time between 1:30 and 4 p. m. yesterday. The bonds were of the Bridgeport Conn., Improvement Company.

## FRANCE'S LARGEST LINER

The liner Ile de France, the largest flying the French flag, is coming to the United States. Picture shows the ship after its launching at Saint Nazaire.

## Vigorous Defense Of Duke Endowment Marks Hearing Of P. and N. Railroad Case

Charlotte, N. C., June 21.—(AP)—A vigorous defense of the "sacredness" of the nature of the endowment creating the Duke Endowment featured the first session today of the hearing being conducted by H. C. Davis, examiner for the Interstate Commerce Commission into request of the Piedmont and Northern Railway for permission to extend its lines.

Cameron Morrison, counsel for the electric line, and L. E. Jeffries of Washington, vice-president and chief counsel of the Southern Railway, were the chief figures in a verbal exchange during which Mr. Morrison challenged Mr. Jeffries "to make good his most brutal assault on this noblest and most sacred document. Mr. Morrison said the indenture would be placed in evidence expressing the wish that "this sacred document" will not be made the basis of "common publicity."

"We are going to put it in evidence and challenge the opposition to make good his most brutal assault on this, the noblest and most sacred instrument ever executed in North Carolina," Mr. Morrison said. "Mr. Duke is dead and gone but the indenture specifically states to whom his wealth was given."

The indenture had been demanded yesterday by Mr. Jeffries who claimed that the endowment through ownership of stock in the Duke Power Company tended to create a situation detrimental to the steam railroads of the section. W. S. Lee, president of the Southern Power Company, on cross-examination late yesterday had refused to give Mr. Jeffries a copy of the indenture. Mr. Lee was still on the stand when the passage occurred this morning but soon was dismissed and E. Thomason of Charlotte, vice-president and general manager of the P. and N. called.

At yesterday's session it had been announced that Examiner Davis would be permitted to peruse the document and decide whether or not it had a bearing on the case. Today, however, it was introduced.

Excerpts from the indenture were read showing that hospitals, educational institutions, churches, orphanages and other benevolent and charitable institutions were designated to receive the income from the principle fund of the endowment forever.

Examiner Davis interrupted the reading and Mr. Morrison said he wanted to answer Mr. Jeffries who he said had been "rather severe in his assault on the trust."

"Nobody has assaulted the trust," interjected Mr. Jeffries. "The criticism was not severe," the examiner commented.

Mr. Morrison asserted that an attempt was made to show that the indenture was "a monstrous document."

On cross-examination today Mr. Lee said that the Duke Endowment owns 103,000 shares of stock of the Aluminum Company of America; 316,028 shares of Duke Power Company stock and 795 shares of stock of Judson Mills of Greenville, S. C., having a total approximate value of \$42,000,000. Stocks held by the Duke Power Company of Charlotte included 36,690 shares

of the Western Carolina Power Company; 58,591 shares of preferred stock of the Southern Power Company as well as common of which the amount was not specified; 56,112 shares of preferred stock of the Great Falls Power Company and 141,884 shares of common; 155,315 shares of the Wateree Power Company; 108,000 shares of the Southern Public Utilities Company, 10,000 shares in the Piedmont and Northern Railway and other stocks in smaller amounts.

Mr. Jeffries brought out that the P. and N. officials have signed agreements with merchants and other shippers in some towns along the line of the proposed extension whereby the P. & N. would receive half of each agreeing shippers' freight traffic. Counsel for the electric line agreed to produce these agreements.

It also was developed that directors of the Duke interests were in numerous instances, the heads of great manufacturing concerns or chains of mills in the Carolinas.

## BYRD PLANE WILL CARRY FIRST MAIL

**Mail Pilot's License to Be Presented Commander At Ceremonies Today.**

New York, June 21.—(AP)—Take off for France of the four man crew of the monoplane "America" will be impossible tonight, or tomorrow morning and present atmospheric conditions do not look favorable for a hop off any time tomorrow. James H. Kimball, weather bureau meteorologist announced today.

"It doesn't look so good now," he said shortly before noon, "as it did before we got the detailed report of the later morning. There is a storm that has been moving northeast from Hatteras since Sunday night that makes a departure tonight or in the morning impossible.

"That storm is now east of Nantucket and south of Halifax. It is of considerable intensity. There were whirls of 48 miles an hour last night off Nantucket and that was not at the center of the disturbance."

"The prospect for an ocean flight any time tomorrow is not as bright as it was before we got the latest reports on the movements of this storm center, which is heading directly for the Grand Banks."

New York, June 21.—(AP)—The first official trans-Atlantic air mail will be carried by the America Paris-bound monoplane of Commander Richard E. Byrd.

While the America today remained earthbound because of continued stormy conditions over the Atlantic, Grover A. Whalen, vice-president of the American Transoceanic Company, sponsors of the flight, announced that Postmaster General New has designated the plane as an official mail carrier.

Ceremonies at which Postmaster John Kiley of New York offered a mail pilot's license to Commander Byrd were arranged for this afternoon. The America's mail closed at 10 o'clock last night.

Clarence D. Chamberlain and Charles A. Levine, respectively pilot and passenger in the trans-Atlantic flight of the Bellanca monoplane Columbia, carried mail across the ocean, although the move did not have the sanction of the Postoffice Department.

The stamps were cancelled by the Hempstead, L. I., postmaster. Postmaster-General New later called for explanation of the transaction and a detailed report was sent to Washington.

A storm center that moved outward from the Virginia Capes kept the America in its hangar at Roosevelt Field yesterday. The weather bureau announced that there were no signs of clearing before tonight or Wednesday morning. As soon as the weather man gives the word, however, Byrd said that he is ready to start.

## Virginia Tobacco Man Speaks Here

Brooker Cunningham, prominent tobaccoist and broker of Farmville, Va., stopped over in Greenville last night enroute to Morehead, City where he will attend the annual session of the Tobacco Association of the United States.

Mr. Cunningham addressed the Men's Federation this morning, and told in an interesting way of what is being accomplished by the church of today.

Mr. Cunningham is the father of Booker Cunningham, Jr., who was connected with the local market some years ago.

## U. S. Tobacco Association To Meet Tomorrow

Morehead City, June 21.—(AP)—Everything was in readiness today for the annual session of the U. S. Tobacco Association which commences here tomorrow for three days.

Delegates began arriving today from Kentucky, Virginia, North and South Carolina, Georgia and other states. National and international trade conditions, crop prospects will be chiefly talked in convention hall.

A varied program calls for a mid-summer fox hunt in local woods, ocean trips and golf matches. A. B. Carrington, Danville, Va., is president of the Association.

## TODAY

Asia to California.  
Tuberculosis and Cancer.  
A New War Horse.  
Socialistic Motherhood.  
(By Arthur Brisbane)  
Copyright 1927, by Star Co.

Anton Koenecke, German pilot planning the Berlin to San Francisco non-stop flight, expects to make it in sixty hours, dropping letters in New York, as he flies over San Francisco, possibly Washington also, will observe that such a flight would bring airships in a straight line from Asia to San Francisco.

It would pay the Pacific coast states to prepare their own defensive air fleets in view of government inactivity. A few bomb dropping planes could do damage costing more than all the world's air fleets combined.

A Frenchman, Doctor Calmette has developed an anti-tubercular vaccine, so successful that its use for all children is suggested. There is no injection of tuberculous germ, the vaccine merely "suggests" the disease, and rouses to activity the anti-tubercular bacilli in the body. The new remedy, called "BGG" was tried on monkeys and other animals for thirteen years in the Pasteur Institute before experiments were made on humans. "BGG" is said to reduce consumption in 25 cases out of twenty-six.

The famous American doctor, William J. Mayo, believes that science will find a way to immunize against cancer. A woman, Doctor Maud Slye, of Chicago, has bred mice in which cancer can be by means developed, and other mice invariably born with cancer.

When consumption and cancer "conquered" as they will be menaced by microcosmic enemies. They already know how to deal with the deadly plague from Asia, one of which "The Black Death," wiped out nearly half the population of Europe.

Russia has placed in Canada big orders for "range" horses, and Canadians ask, "Should we sell them knowing that they will probably be used for Russian cavalry?" Canada does not want to offend Russia, a big customer, buying farm implements in great quantities, and for cash.

Canada can safely sell to Russia all the horses Russia will buy. Horses cannot fly. Modern war tanks can go through them like a sharp knife through cheese. Air men, tank men, and long range guns would want no better target than out-of-date cavalry regiments. The horse is slow and arrow. The British have built for land battles a real "charger," recently exhibited.

## Reynolds Dies In New York

Winston-Salem, June 21.—(AP)—Messages received here today state that Harper H. Reynolds, 70, Stuart Va., died in a Baltimore hospital this morning.

Deceased was for a number of years engaged in the manufacture of tobacco in Winston-Salem, his plant being known as the "Red Elephant Tobacco Works" he was a brother of the late R. J. Reynolds founder of the tobacco plant here by that name. Since leaving this city Mr. Reynolds has been engaged in farming and other pursuits in Virginia.

## VAN SWERINGEN DIRECTED TO ANSWER QUESTIONS ABOUT STOCK PURCHASES

Washington, June 21.—(AP)—O. P. Van Sweringen, Cleveland railroad operator, was directed by the Interstate Commerce Commission today to answer a series of questions relating to railroad stock purchases and financing which he declined to answer last week on the advice of his attorneys.

## ROCKY MOUNT CONCERN INVOLUNTARY BANKRUPT

Raleigh, June 21.—(AP)—A. B. Schlichter, May F. Schlichter and Rena Fishel, Rocky Mount, owners of the Standard Lumber Company have been ordered to appear in federal court here July 6 to show cause why the company should not be adjudged bankrupt following petition of involuntary bankruptcy filed here.

Creditors are the Scotland Neck Lumber Company and A. F. Baker Norfolk.

## FIFTY FLIERS PREPARE FOR PACIFIC TRIP

**Flight to Honolulu Develops Into Race Between Army, Navy and Civilians.**

San Francisco, June 21.—(AP)—The impending aerial conquest of the Pacific resolved itself into a race among aviators today as well as a challenge to the elements when a check up revealed that fifty flights over its expanse are in prospect.

San Francisco to Honolulu; Dallas to Hong Kong and Seattle to Tokyo, were the routes the bird-men selected to conquer, while the Army and Navy showed signs of vying with civilians in an effort to acquire some of the glory.

The Citizens' flight committee in charge of arrangements for the San Francisco-Honolulu flight announced that 36 aviators unofficially had entered the contest. Formal entry will be possible only when the books are opened in the near future, and the aviators are allowed to post bonds as evidence of good faith.

W. E. Easterwood, Jr. of Dallas, Texas, who offered a prize of \$25,000 for the first aviator to fly an airplane from Dallas to Hong Kong, announced that eight aviators had contracted to make the attempt.

B. H. Griffin of Oklahoma City, has announced plans for hopping off here the latter part of July on a flight to Honolulu, which he said might end in Japan. Griffin's flight antedates the time set for the mainland-to-Hawaii flight for which James D. Dole of Hawaii, has offered \$25,000 prizes. The San Francisco-Honolulu flyers are expected to compete for the Dole prize also, under rules which require the flight to start in August.

The Navy Department at Washington announced the possibility that the dirigible Los Angeles, at present being overhauled at its Lakewood, N. J., station, might attempt a San Francisco-Honolulu non-stop flight.

Lieutenants Lester J. Mallian and Lieut. Albert Hagenberger, army pilots just arrived at San Diego, declared they would attempt a San Francisco-Honolulu flight. Ellison, who for the last two winters has been a pilot in Arctic exploration undertaken by Captain George H. Wilkins, said he would attempt the flight alone.

It was announced in Seattle that beside the \$25,000 already raised here for the projected hop to Tokyo, a similar sum was being raised in the Japanese capital for the same flight.

Ernest L. Smith, air mail pilot, announced here he expected to hop off on a Honolulu flight within ten days.

Richard Grace, the Hollywood aviator, was reported enroute to Honolulu aboard the steamer Manukia, with a monoplane stored in the hold. Unverified reports state in the hold. Unverified reports stated that Grace intended to attempt to hop from the islands to San Francisco and if successful to try flying back again.

## BIGGER PERCENTAGE OF DIVORCES THAN MARRIAGES

Raleigh, June 21.—(AP)—Divorce mills in North Carolina are operating on full time, figures compiled by the United States department of commerce show.

The percentage of increase in divorces in North Carolina in 1925 was 12 times the percentage of increase in marriages as compared with figures for 1924.

Figures on divorces in the state in 1925, the last year for which statistics were available, show there were 1875 as compared with 1468 in 1924.

The number of marriages in the state in 1925 was 23,337, compared with 23,190 the preceding year.

## MEDICAL EXAMINATIONS BEGAN IN RALEIGH TODAY

Raleigh, June 21.—(AP)—The four day examination for 133 applicants for licenses to practice medicine in the state began today.

## SLOVAKI AIRMEN PLAN TO FLY TO NEW YORK CITY

Pague, Czechoslovakian, June 21.—(AP)—Two Czechoslovakian aviators, Captain Franz Malkovsky and Lieutenant Ludwlg Pavlovsky, announced today their intention to fly from Prague to New York and return in August. Their plane and its motors will be of Czechoslovak manufacture.

CONDITION OF DREW UNCHANGED TODAY  
San Francisco, June 21.—(AP)—The condition of John Drew, actor who is critically ill in a hospital here was reported unchanged today. Mr. Drew is suffering from arthritis and complications. His condition has been grave for more than a week.

## RALEIGH GROCER HELD AT EMPORIA

Raleigh, June 21.—(AP)—Lignall Hood, local grocer, who was under \$2,000 bond on charge of selling 21 gallons of whiskey, has been arrested in Emporia, Va., and deputies have gone for him in Emporia where it is understood he will try to resist extradition.

## ANNUAL SESSION OF B. Y. P. U. OPENS TONIGHT

Raleigh, June 21.—(AP)—The 18th annual session of the Baptist Young Peoples Union begins at Meredith College tonight with addresses by J. B. Lambdin, Nashville, Tenn. General Field Secretary; and Dr. John L. Hill, Nashville, book editor, along inspirational lines.

## NEGRO CHARGED WITH ATTEMPT TO ASSAULT 7-YEAR-OLD CHILD

Tarboro, June 21.—(AP)—Johnny Hill, 17 year old negro youth, was in jail here today, awaiting trial on charges of attempting to criminally attack the seven year old daughter of a prominent farmer near here.

## Warden Snook At Atlanta Penn Says Carroll is in Much Better Shape.

Atlanta, Ga., June 21.—(AP)—The spectre of death that Mrs. Earl Carroll saw hovering over her producer husband when he entered the Atlanta Federal Penitentiary on June 8 apparently has been chased away by a warden who armed himself with psychology.

## GENEVA CONFERENCE EXPERTS INSTRUCTED TO FIX STATUS OF THE THREE NAVAL POWERS

Geneva, June 21.—(AP)—The executive committee of the tripartite Naval Conference under the Presidency of Hugh S. Gibson of the United States decided today to invoke a meeting of the technical experts of Great Britain, the United States and Japan.

PIRATES WIN FROM CHICAGO ON YESTERDAY

Splitting even on their own two game series, the league leading Pirates and Cubs turned their batting barrages upon slightly less formidable foes today.

When the Pirates downed their challengers, the Cubs, by 4 to 3 yesterday, they not only retained their narrow margin of leadership in the league, but also held the lead in the private duel between the two clubs.

The decisive hit of the game, however, was a homer from the bat of Johnny Gooch, Pirate catcher, in the sixth with two men on.

As though purposely giving the whole stage to the Pirate-Cub battle, rain drenched out the only other two games scheduled, both in the American league.

Road trips ending, the Giants looked forward to a fat few weeks with the eastern teams after meeting many hard knocks in the west.

Among those already at play in an effort to win a place among the select in the qualifying round were the names of G. T. Trescott, Charleston, S. C., Pete Marzoni, Birmingham, Emmett Spicer, Chas. Lee Harris and Nelson Giddens, Memphis, and Waite Gunn, Atlanta.

The low 32 men of today's qualifying round will play tomorrow to decide the first flight, with championship play beginning Thursday.

One hundred and eighty two entries had been registered this morning although the list was yet open for others who possibly will drift to the course before noon.

The Charlotte Country Club team of Jack Heath, Ed Reid, Fred Laxton and Bill Goebel, won the Pro-Amateur match yesterday with 311 while Fred Hayt's Myers Park Country Club team composed of T. W. Balmer, Gene Cook, Paul Haddock and Hayt were second with 320 strokes.

Leads Navy Eight

D. T. EDDY

Annapolis, Md.—(AP)—Daniel Thomas Eddy has brushed aside two Naval Academy customs in landing the berths of captain and stroke of the Middy crew.

He achieved the unusual by stroking the varsity last year, when only an outstanding college stroke, the New York oarsman was chosen to lead this year's eight. Eddy rated among last season's grid stars.

Battle On For Amateur Golf Championship

Charlotte Country Club, Charlotte June 21.—(AP)—The battle for the amateur Golf Championship of Dixie is on in earnest.

Taking off at intervals of five minutes some seventy fencers were traversing the links of the Charlotte country club three hours after the official start of the annual Southern Golf Association tournament.

Among those already at play in an effort to win a place among the select in the qualifying round were the names of G. T. Trescott, Charleston, S. C., Pete Marzoni, Birmingham, Emmett Spicer, Chas. Lee Harris and Nelson Giddens, Memphis, and Waite Gunn, Atlanta.

The Charlotte Country Club team of Jack Heath, Ed Reid, Fred Laxton and Bill Goebel, won the Pro-Amateur match yesterday with 311 while Fred Hayt's Myers Park Country Club team composed of T. W. Balmer, Gene Cook, Paul Haddock and Hayt were second with 320 strokes.

The Spartansburg Country Club team was third.

Harold Galloway of La Grange, Ga., won the low gross trophy while W. B. Uhler of Spartanburg had the low net score.

The players were starting off in pairs and according to the starting line up it will be 3:45 P. M. at the earliest before all get on the course.

Yesterday's Results

Table with 2 columns: League and Results. Rows include Piedmont League (Raleigh 5-6; High Point 3-1), Virginia League (Richmond 5; Portsmouth 2), South Atlantic (Asheville 6; Columbia 4), Southern Association (Memphis 3; Atlanta 4), and National League (Pittsburgh 4; Chicago 0).

LEFT-OVER PIE DOUGH Roll out left-over pie dough very thin, cut into small rounds or diamonds, drop a bit of very stiff jelly on each and bake. Or, brush each with egg yolk, sprinkle with grated orange rind or cinnamon, and bake.

ADMINISTRATOR'S NOTICE North Carolina—Pitt County. The undersigned having this day qualified as Administrator of the estate of W. F. Stokes, deceased, notice is hereby given to all persons indebted to said estate to make immediate settlement with the undersigned Administrator, and all persons holding claims against said estate are hereby notified that they are required to file their claims duly verified with the undersigned Administrator on or before twelve months from the date hereof or this notice will be pleaded in bar of recovery of said claims.

GIRL TRAINING FOR U. S. SINGLE SCULL HONORS

MISS ELEANOR DESMOND

Philadelphia—(AP)—Miss Eleanor Desmond of this city soon will be ready to challenge any girl in the United States for the single sculls championship.

Miss Desmond is 22 years old, five feet seven inches tall and weighs 128 pounds. She rows in a one-piece bathing suit. She is training under George W. Allison, one-time local scull and quarter-mile champion.

"By August Miss Desmond will be able to meet any girl sculler in the country," Allison says. "A number of girls row single sculls at Worcester, Mass., and I am anxious to arrange a race with them. I think she has a good chance of winning."

Kinston Wins From Petersburg

Raleigh, June 21.—(AP)—Another graduate of the State University diamond rose to the high boards of the Virginia league today. This time it was Bill Ferebee, Kinston ace, who yesterday handed Petersburg a 2-0 let-down.

Richmond, after four days of defeat, handed the leading Portsmouth outfit a 5-2 defeat with Deacon Jeff doing the mound work. The win put the colts in third place.

The Wilson-Norfolk contest was postponed, due to rain.

Stroking a New York crew, Lambert, too is a strictly New York product, born in the city and prepared for college at Irving School, Tarrytown, where he started on the gridiron.

Lambert, 21 years old, is a husky youth, six-two tall and weighing 180 pounds.

It is a waste of time to can vegetables that can be stored, such as mature beets, turnips, carrots parsnips, sweet potatoes, winter squash and pumpkin.

Columbia's Captain

ERIC LAMBERT

New York—(AP)—Eric Clare Lambert, captain of the first all-sophomore varsity crew in the history of rowing at Columbia ranks among the most versatile rowing leaders the Lions have ever had.

Stroking a New York crew, Lambert, too is a strictly New York product, born in the city and prepared for college at Irving School, Tarrytown, where he started on the gridiron.

Lambert, 21 years old, is a husky youth, six-two tall and weighing 180 pounds.

It is a waste of time to can vegetables that can be stored, such as mature beets, turnips, carrots parsnips, sweet potatoes, winter squash and pumpkin.

Where They Play

Table with 2 columns: League and Locations. Rows include Piedmont League (High Point at Raleigh), Virginia League (Kinston at Petersburg), South Atlantic League (Macon at Greenville), American League (St. Louis at Chicago), and National League (Chicago at St. Louis).

Chicago—Chicago may lose the National Collegiate games because of poor patronage, and if it does, Col. Charles A. Lindbergh may be to blame.

At the 1927 meet of June 11 only 4,000 spectators turned out, and apologists explained that thousands who would have attended were at home with ears glued to the loud speakers.

Any way the event was costly to its sponsors, and officials are inclined to offer it to a city which will give better support to a meet which, still in its infancy, already attracts track and field athletes from colleges all over the nation.

They have equipped their tractors with headlights.

Hunter Defeats Kigscode Today In Tennis Match

Wimbledon, England, June 21.—(AP)—Francis T. Hunter, the only surviving American besides William T. Tilden in the men's singles of the Wimbledon lawn tennis tournament advanced to the third round today by defeating the veteran English player, Lieut. Col. Algernon Kingscode, in straight sets at 6-3, 6-3, 6-4.

Hunter displayed masterly tennis and reminded the fans of his 1921 form in which he reached the final against W. M. Johnston.

Hunter's puncher drive was finding the corners and the wet courts appeared to suit his style of play better than that of his opponent both are hard drivers, and they gave one of the best exhibitions seen since the start of the tournament.

### QUITS CAREER TO PERSERVE INDIAN SONGS

ATALOO—CHICKASAW SINGER

Muskogee, Okla.—(AP)—Ataloo, Indian singer who was on her way to a successful career on the concert stage, has come back to her people, the Chickasaws, the preserve of tribal melodies and legends which are rapidly being forgotten. Ataloo's name means "little flower." She has given concerts before churches and clubs in New York but a suggestion that she ought to help her people preserve their harvest songs, their laments and their weird chants inspired her to return. She will remain for an indefinite period at Biscarie College for Indians.

### Boys Committee To Give Swimming Party Tomorrow

C. W. Porter, director of the Boys' Work campaign, stated this morning that arrangements had been completed for the swimming party to be given at Public Landing tomorrow afternoon. He said that all boys had been requested to assemble at the high school building promptly at one o'clock so there would be no delay in getting away.

The ball game which was scheduled to have been played this morning between teams of the Episcopal Sunday School and the Immanuel Baptist church, has been postponed until Thursday morning at 10 o'clock owing to some misunderstanding in dates.

Mr. Porter said the ball clubs of all the churches were getting in trim for the many clashes to take place during the summer months. He expects to be able to furnish some real baseball as soon as the league really gets under way.

## PRESIDENT OF U. D. C. IS DEAD

### Honorary President Of Organization Passed Away Early Today.

Newtown, June 21.—(AP)—Mrs. Fannie Ransom Williams, 71, nationally known for her activities in the United Daughters of the Confederacy and honorary president of that organization, elected for life in 1923 died at her home here this morning at 4:20 o'clock after a week's illness following a stroke of paralysis.

Funeral services will be held Wednesday afternoon at the Presbyterian church here of which Mrs. Williams was a member. Confederate veterans of Catawba county will act as honorary pall bearers and world war veterans as active pall bearers. She was a daughter of Major Robert Ransom of the Confederate Army and Mrs. Mammie Hunt Ransom.

She was born in Washington, D. C. and spent four years of her childhood near Richmond, Va., while her father directed confederate forces there. She was educated at Wilmington, N. C., and in New York and was a former member of Catawba college faculty here.

Mrs. Williams was organizer in 1903 of the Newtown Ransom Chapter, U. D. C. and had been its president for the past 19 years. She was a former president of the state organization serving in 1909, 1910 and 1911. In 1913 she was elected recording secretary-general of the National organization in New Orleans and in 1919 was named registrar general. At the national convention at Washington in 1923 she was elected honorary president for life.

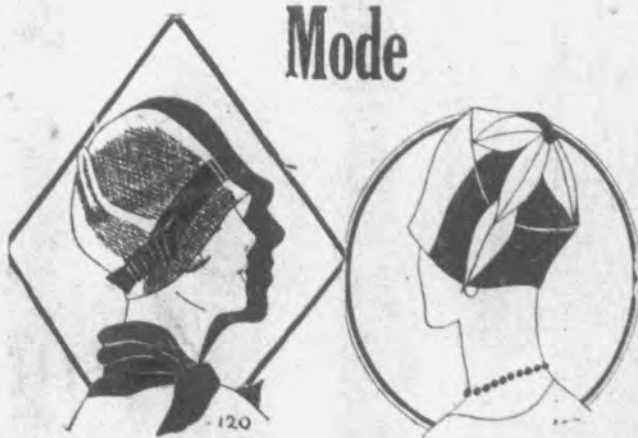

Although engaged in national activities of the U. D. C. her chief work was among confederate veterans and widows of Catawba county.

Mrs. Williams served also in Red Cross work during the World War and shook hands with every Catawba county boy as he left for service during the World War. She married Frank M. Williams in 1882. Surviving her are seven children: R. R. Williams Asheville; Mrs. H. L. Hicks, Rocky Mount; D. M. Williams, Durham; Miss Fannie Williams, Newtown; Mrs. M. B. Aderholt Elizabethtown; Macon M. Williams, Lenoir and Mrs. W. C. Thompson, of Davidson, all of whom were with her when she died.

**WELL-WATCHED ROMANCE**

Newspaper reporters are closely watching for signs of romance between John Coolidge, son of the President, and Florence Trumbull, daughter of the Governor of Connecticut, now that vacation days have arrived. John has been a house guest of the Trumbulls at Plainville, Conn., following Florence's graduation from Mount Holyoke College.

selfes hoarse more than a quarter of a century ago over Dewey, home from Manila; we rushed Prince Henry of Prussia all over this continent to loud huzzaing; we gave Roosevelt, back from Africa, a boisterous reception; we were stirred to the very depths of our hearts when the marching hosts paraded on their return from the war in France; we feted foreign Generals until regard for their health forced them to decline more banquets and speeches; we have kept in practice with Channel swimmers and other favorites of the hour; but the last ounce of lung-power, the last yard of ticker tape, the most ornate scrolls and cherished medals, were reserved for Lindbergh. He deserved it. But would it all have been a less generous mark of attention if he had been occasionally allowed to sleep, eat and rest like a normal human being?—N. Y. World.

**BRYAN READY TO GO AFTER DIETRICH**

Raleigh, June 21.—(AP)—Chief of Police J. W. Bryan, of Raleigh, today awaited word from Cleveland, Ohio, to come after J. E. Dietrich, former local decorator-florist employe, wanted in connection with the Wilson police scandal investigation and also on a serious charge.  
Dietrich is the missing witness in the grand jury investigation into allegations that a local policeman sold him whiskey. He is also wanted for a statutory offense charge, a cafe owner being the prosecuting witness.  
Chief Bryan plans to go personally to the Ohio city after the man.

**COTON SPINNING MORE ACTIVE DURING MONTH OF MAY**

Washington, June 21.—(AP)—Cotton spinning was more active in May than in April, the Census Bureau's monthly report today indicated.  
Active spindle hours for May totaled 9,001,712,285 or an average of 244 hours per spindle in place compared with 8,804,578,361 and 238 for April this year and 7,505,896,215 and 199 for May last year.  
Spinning spindles in place May 31 totaled 36,874,608 of which 32,906,580 were operated at some time during the month, compared with 36,943,340 and 32,892,442 in April this year and 37,700,130 and 32,267,410 in May last year.  
The average number of spindle operated during May was 40,205,691 or at 109.0 per cent. capacity on a single shift basis compared with 39,070,417 and 105.8 for April this year and 33,524,928 and 88.9 for May last year.

**WHAT'S IN A NAME?**

Raleigh, June 21.—(AP)—What's in a name?  
S. E. Truelove, who is alleged to have abandoned his wife and family in Raleigh has been arrested in San Antonio, Texas, according to a telegram received by the sheriff's office here today.  
Extradition papers are being obtained and deputies expect to leave for Texas soon to see that Truelove does not run so smoothly again.

### STOCK MARKET

New York, June 21.-(AP)—The ability of the stock market to absorb early professional selling today, predicted on them large gain and record-breaking total of broker's loans, caused a speedy resumption of constructive operations which were impartially distributed among railroad and industrial. Talk of competitive buying of Chicago and Alton and Peoria and Eastern, the outlook for more favorable terms being obtained by the Nickelplate for its Pere Marquette shares on the expiration of the current option, and pool operations in American Can, Postum Corporation, J. B. Thompson and Canada Dry Jinger Ale caused the list to recover early general losses of 1 to 3 points.

The closing was irregular. Total sales approximated 1,800,000 shares.

### GRAIN

Chicago, June 21.-(AP)—With harvesting reported as having commenced in Kansas where rainfall has been frequent during the last few days, wheat prices today averaged a little higher. Favorable reports from spring wheat territory, however, tended to act as an offset and so too did news of export demand.

Wheat closed unsettled, 1-8 to 3-4 net higher; corn 7-8 to 1-3-8 up; oats 1-3 decline to 1-4 advance and provisions a shade to 15 down.

### SUGAR

New York, June 21.-(AP)—Raw sugar 1-16 lower at 42 1/2. Refined unchanged.

### SEAPLANE RACE ENDRANT KILLED IN FLIGHT TODAY

Varex (Italy), June 21.-(AP)—Lieutenant Silvio Borra, one of Italy's intants for the Schneider cup seaplane races, was killed today when a 600 horsepower racing machine in which he was making an initial flight, fell into Lake Varese.

### Mayor Directs Hazing Probe

New York, June 21.-(AP)—Mayor James J. Walker today personally headed one of the three investigations into the hazing of three Jewish internes by colleagues at Kings county Hospital, in what city officials described as having the appearance of a "religious war."

Six of the physicians, arrested on charges of assault preferred by the internes, were held in bail for further hearing. They denied the charges and refused to discuss the incident.

The three doctors said they were seized in their beds, bound, gagged and ducked into a bath tub of icy water. Two charged they were painted with ink or shoe polish. They told police that pillow cases were drawn over their heads but that of the twenty or more men who took part in the attack they recognized six.

Mayor Walker declared that "if those men were hazed especially because they were Jews or of any other faith, I will see that the guilty ones are prosecuted to the last ditch."

"I will conduct an investigation to ones will not be allowed to remain in the city service. You can depend upon that," he said.

The other investigations were being conducted by Bird S. Coler, commissioner of public welfare, and the committee on internes of the medical board of the hospital.

Coler declared the attack seemed like a bad religious war, pointed out that kings county hospital is the only institution under his jurisdiction where christian physicians outnumber their colleagues of the Jewish faith. There are 62 christians as against 92 Jews in the city's entire hospitals.

The chairman of the hospital's committee on internes said no action against the six accused doctors will be taken until they have had a court hearing.

The victims of the attack were Dr. Hyman Solovay, a graduate of Cornell University; Dr. Louis Barrow, of Fargo, N. D., a graduate of the University of Louisville and Dr. Edward Katske, of Lincoln, Nebr., who was graduated from the University of Nebraska.

They charged that prejudice against those of their faith dated back 10 years, when they alleged another Jewish interne was escorted to the Grand Central Terminal and ordered to leave town.

The six arrested as a result of the hazing were Drs. Lorimer B. Armstrong, Charles C. Adams, William Willis, Kenneth Clough, William B. Stratton and Frank Haman.

### KANSAS COUNTIES SO DRY BULL FROGS TWO YEARS NEVER LEARNED TO SWIM

Wichita, Kan.—(DWS)—While floods swept regions of eastern Kansas last Spring, there are two sections west of here that have suffered from acute drought. Wheat crops in Grant and Seward counties are menaced by the Hessian fly. Other counties in the wheat belt have had too much rain.

In reporting conditions around Ulysses, Grant County, Frank Thompson, a large wheat grower, stated he could prove "there are two-year-old bull frogs in my neighborhood that have never learned to swim." Ed Fitzgerald, of Liberal, Seward County, corroborates this statement.

Both counties are near the center of the Great Kansas hard wheat belt.

### FATHER WHO PAYS FOR LAW COURSE

Champaign, Ill.—(AP)—A 31-year-old "newsboy" with a wife and two children has won a doctor's degree in the college of law at the University of Illinois.

He is Dudley Woodbridge, and he has delivered The Champaign News-Gazette since 1917.

Sometimes Woodbridge studied as he walked his route, on which he averaged 20 miles a day. The \$1,600 to \$1,800 he earned each year as "paper boy" defrayed most of the expenses of his education.

He has accepted an assistant professorship of jurisprudence at Williams mand Mary College, Williamsburg, Va.

### CAMPS CALL 100,000

New York.-(AP)—Four hundred Y. M. C. A. summer camps, distributed among every state in the Union, will open in the last week in June and early in July.

During the season they will be attended by more than 100,000 persons.

### JAPANESE CONFERENCE EXPERTS INSTRUCTED TO FIX STATUS OF THREE NAVAL POWERS

(Continued From Page One)

present building program.

On the equal basis, great Britain would have to scrap about 40,000 tons in the same categories completing her present program.

The reduction of Japan was placed at about 40,000 tons.

"If the plans outlined in the American proposal were adopted on for the basis of 90,000 tons of submarines for the U. S. and the British Empire respectively, and 54,000 tons for Japan," the statement read, "no scrapping of submarines would be necessary until the present building program were brought to completion."

In conclusion the statement says that these plans would stop competitive building—the chief object of the conference—would avoid scrapping new construction and enable moderate replacement and building schedules.

### Washing, June 21.-(AP)—The Japanese naval limitation proposal was favorably received at official circles in Washington today as displaying not only a conciliatory spirit but a showing of satisfaction with her navy's present strength and a willingness to remain in a position of comparative inferiority in all classes of auxiliary ships to Great Britain and the United States. The British proposal, however, was regarded as unsatisfactory by the officials here insofar as they affect questions decided at the Washington conference and which the administration feels should not be discussed at the present conference because of the absence of two of the signatories of the 1922 treaties. Japan's reply was taken to indicate that she admits she needs no larger navy than she now has. The Japanese navy at present is on a ratio of 5 to 3 with England in the matter of modern cruisers and the same ratio holds between Japanese and the U. S. for submarines while for destroyers between the two latter countries, the ratio is about 5 to 1. The British acceptance of the 5-3 ratio for cruisers, the proposal to reduce destroyers would be completely suitable to this country since America's largest destroyer is 1,215 tons, it was viewed here. Reduction of submarines to 1,500 tons would also be practically immaterial to the United States since only the five V-1 type submarines are above this tonnage.

### CLEAN KIDNEYS BY DRINKING LOTS OF WATER

Take Salts To Flush Kidneys If Bladder Bothers Or Back Hurts

Eating too much rich food may produce kidney trouble in some form says a well-known authority, because the acids created excite the kidneys. Then they become overworked get sluggish, clogged up and cause all sorts of distress, particularly back-ache and misery in the kidneys region, rheumatic twinges, severe head aches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, begin drinking lots of good water and also get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to flush clogged kidneys and stimulate them to activity; also to neutralize the acid in the system so that they no longer irritate, thus often relieving bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia water drink which millions of men and women take now, and then to help keep the kidneys and urinary organs clean thus often avoiding serious kidney disorder.

**Salesman For Face Cream**

**Learns a Good Lesson**

Mr. Vandivier, New York, writes: "I was a salesman of creams for healing pimples, blemishes, etc., but when my face broke out with blotches, pimples and blackheads, I tried one salve after another with no results. I found it as impossible to sell skin creams as a bald-headed man finds selling hair tonic. Finally I decided I would have to get at the cause—constipation. I was amazed to find that within a few days after taking CARTER'S LITTLE LIVER PILLS my skin took on a new healthy look." Drugs 25c. and 75c. red packages. Try to-night—To-morrow refreshed.

# Do you get these 5 ALL-IMPORTANT QUALITIES in the shortening you buy?

Unless you do, you don't know the new satisfaction that comes from the use of a perfect shortening. See for yourself how FLUFFO supplies every single one of these essentials.

FLUFFO is PURE, made only from the best vegetable oils, refined and re-refined. Its CREAMINESS comes from aerating or "fluffing" the shortening, so that it mixes evenly with sugar and flour. The airtight can brings it to you as FRESH and sweet as the day it was packed. FLUFFO is made from one of the most DIGESTIBLE vegetable oils known, and it does not break down and smoke at proper cooking temperatures.

And here at last is a shortening that has no pronounced FLAVOR of its own—just the delicate richness a perfect shortening should have.

Once you use FLUFFO, you'll always use it. Get a can from your grocer. Try it at our risk. Your money back if you are not absolutely satisfied.

# Daily News Letter

Gossip of Staff Correspondents at World Centers of Population

Paris. (INS).—There will be no special prison for Legionnaires during the American Legion Convention here in September. Jean Chippie, newly appointed Paris Police Commissioner, hopes there will be no necessity for any prison at all.

"We are preparing to do all possible to co-operate with the Legion authorities during the Legionnaires stay in Paris," M. Chippie declared in an exclusive interview with International News Service. "It is easily understood that with 30,000 visitors in the city police intervention may be necessary from time to time. But to say that I ever thought for a minute of inaugurating a special prison, jail, gaol, brig, or whatever else you want to call it, especially for the American Legionnaires, is absolutely false."

M. Chippie is a small man but he has a way of emphasizing his statements to show that his stature is the only thing about him that is small.

"The first thing I thought of," continued the man who is responsible for order in Paris, "when I took over the Prefecture, was how best to co-operate with authorities of your Legion during their convention. After much deliberation and many conferences with my staff I asked the legion to designate a certain number of delegates to function with my officers. This the Legion has agreed to do and I see no reason why we cannot work together in perfect harmony and do a great deal of good."

The Commissioner stressed the fact that most people look upon the police as organs of "punishment," whereas he prefers to consider them as "protectors."

"Why does it never occur to persons who say I plan a special prison jail," declared M. Chippie, "that we are here to aid Americans and offer them protection whenever they need it?"

Edward Herriot's story of "Marianne Rechner" is soon to appear on the French screen.

Gaston Ravel and Tony Lekain are arranging the scenario.

Herriot recently responded to an appeal made to him as Minister of Public Instruction for betterment of the French movies, by offering his well-known book for cinema use.

Work will begin in two months. Great interest is shown in the plans for picturing the life of famous Madame Rechner. So far the principal roles have not been assigned.

Dogs and cats can now travel throughout France as comfortably as men and women. June first was red letter day in animal history because of the order passed, allowing them the freedom of the bus and trains.

The Prefecture of Police found some provision necessary for the safe transportation of animal pets. France has hundreds of dumb animals which they love and pamper. Railroads and other companies for transportation had formerly refused to carry them with the result that the unhappy animal was usually hidden or camouflaged to represent some other form. Monkeys, parrots, dogs and cats will now be treated with the greatest courtesy on any French line if the following terms are complied with.

"Animals must be transported in closed baskets. They must not leave their baskets or disturb other passengers. Dog or cat owners must hold their baskets on their knees and tell the conductor immediately of the animal's presence. The price for pets will be the same as that paid by other persons according to the class chosen."

One of the speediest and most efficient typists in Europe is a Parisienne Mlle. Piauf, who performed brilliantly in an international typewriting contest held before the close of the Paris Fair. She typed at an average speed of 99 words a minute. Mlle Piauf developed her remarkable speed while working in the Labor Department of the League of Nations at Geneva, where she began her duties shortly after the Armistice. Last year her average speed was only 94 words per minute.

Madame Lempereur, prompter at the Comedie Française, was recently elected an officer of the Academy.

She is the empress among Paris reporters for she has held her post for thirty years, and has known all the most famous French actors.

"Women always know their roles better than men," she declared, "although they tell us that we have not heads. Also, the best actors, who never have to be reminded of their parts, always insist upon the prompter's presence."

"Women always know their roles better than men," she declared, "although they tell us that we have not heads. Also, the best actors, who never have to be reminded of their parts, always insist upon the prompter's presence."

## Race To Honolulu Attracts Four Airmen From South

Routes of the early proposed trans-Pacific flights from San Francisco to Tokyo and Manila. Left to right are Lieut. Jess Windham; Lieut. Douglas Davis, and Paul Redfern. Lieut. Windham and Siera plan also to continue to Guam or Tokyo and thence to Manila, a total of 6,000 miles.

Atlanta. (AP).—Four Southerners in three planes intend to enter the proposed air race across the Pacific from San Francisco to Honolulu.

The objective of Lieutenants Jess Windham and Ben Stern of Memphis Tenn. who plan to hop off from San Francisco on the morning of July 3, eventually will be Manila.

The flight will be financed by Memphis capital. The plane, an Eagle, will be equipped with the same type of motor that Colonel Charles Lindbergh used in his hop across the Atlantic.

The itinerary of the flight as mapped out by Windham and Stern will be to Honolulu on the first leg thence to Guam or Tokyo, and ultimately to Manila, P. I., a total distance of 6,000 miles.

Paul Redfern, Savannah, Ga., aviator, plans to have his airplane ready to start from Atlanta August 1 for San Francisco, where he will enter the Honolulu flight.

Redfern has a record of approximately 1,840 hours in the air and during his several years service with the United States customs office here has gained experience which is expected to be of value to him on his Pacific flight.

He says he will make only one stop between Atlanta and San Francisco.

Like Colonel Lindbergh in his trans-Atlantic flight, Lieutenant Douglas Davis of Atlanta, plans to do his own navigating and to fly alone.

He will use a monoplane, the construction of which he will supervise, capable of a speed of 125 miles an hour with a load of 500 gallons of gasoline.

Lieutenant Davis is 25 years old and began flying when 18 enlisting in the army air corps and receiving his training at Maxwell Field, Montgomery, Ala., and at Arcadia, Fla. He was made an instructor and since his discharge in 1920 has been flying continuously.

Paul Redfern, Savannah, Ga., aviator, plans to have his airplane ready to start from Atlanta August 1 for San Francisco, where he will enter the Honolulu flight.

Like Colonel Lindbergh in his trans-Atlantic flight, Lieutenant Douglas Davis of Atlanta, plans to do his own navigating and to fly alone.

He will use a monoplane, the construction of which he will supervise, capable of a speed of 125 miles an hour with a load of 500 gallons of gasoline.

Lieutenant Davis is 25 years old and began flying when 18 enlisting in the army air corps and receiving his training at Maxwell Field, Montgomery, Ala., and at Arcadia, Fla. He was made an instructor and since his discharge in 1920 has been flying continuously.

Paul Redfern, Savannah, Ga., aviator, plans to have his airplane ready to start from Atlanta August 1 for San Francisco, where he will enter the Honolulu flight.

Redfern has a record of approximately 1,840 hours in the air and during his several years service with the United States customs office here has gained experience which is expected to be of value to him on his Pacific flight.

He says he will make only one stop between Atlanta and San Francisco.
