

CUBS HOLD ON TO TOP PLACE IN NATIONAL

(By The Associated Press)
Another reason why the Chicago Cubs are leading the National League has been added to a growing list. Eddie Pick, recently acquired by Manager Joe McCarthy from the Kansas City Blues, broke up a pitchers' battle yesterday with a line drive home run over the right center field fence at Ebbets Field. The Cubs as a unit couldn't do much with the pitching of Norman Platt, but Guy Bush was ever more of a puzzle to Wilbert Robinson's Dodgers and the Cubs won 1-0. Chicago has won every game it has played with Brooklyn this season.

The Pittsburgh Pirates were idle so the Chicago victory increased that team's margin in first place to a full game.

Virgil Barnes let the world's champion Cardinals down with one hit in the first game of a double-header, the Giants winning 5-0. St. Louis came back to win the next 7-3, behind Bob McGraw's effective twirling. Manager Bob O'Farrell kept Barnes out of the hall of fame with a single in the second inning. Frisch and Hornsby went hitless in both games. Home runs were contributed by Lindstrom, Harper and Schube.

The Gehrig-Ruth home-run marathon was interrupted in Detroit by Earl Whitehall, whose southpaw slants gave the "Tigers a 6-3 victory" over the Yankees in the stand-out game of the American League. Any Yankee defeat at this stage of the season is an upset.

Whitehall fanned Ruth and Gehrig each twice.

Washington made it five straight from the Cleveland Indians, by winning by a 10-9 score in seven innings. McAllister's tribe knocked Horace Lisenbee out of the box with a seven run bombardment in the fourth inning but the Senators got to Levens and Schaute and drove them out. Rain stopped the game.

The Athletics pounded three St. Louis pitchers hard and won a slugfest from the Browns, 14-11. Simmons of Philadelphia, stole home in the fifth.

The Boston Red Sox lashed into an old stride at Chicago and Ray Schalk's team beat them 4-1. Thomas gained his 13th victory of the year and was not scored on until the ninth.

HIGH SCORES MARK OPENING OF GOLF PLAY

By O. BO KELLER
(For Associated Press.)

St. Andrews, July 11.—(AP)—igus, the son of Pergus, who is reputed to have founded St. Andrews, must have turned at least one somersault in his vaulted tomb before the first day's play was done in the 36 hole qualifying test for the British open championship scores above 80 were the rule at noon.

Said Bobby Jones, the present champion, "if I take a 76 hitting the shots as well as I did this morning what will I have if a begin missing these shots?" Bobby also said, concerning his putting—(deleted by censor.)

I traveled the 18 holes with the champion and his comments were warranted. He used 35 putts. He went 18 holes with never a birdie. He holed one putt of a dozen feet and that was his only one-putt green, and it saved a par for him. He missed a putt of one yard for a birdie two at number 11. He missed two putts of six feet. He missed one of seven, and a couple more under a dozen feet. In a word his main difficulty was that he could not get the ball into the hole, which is quite a serious difficulty.

"I expected it," said Big Bob Jones, his father, gloomily. "He went over to Glen Eagles yesterday and played a round on some slow greens and then he came back to fast ones."

Bobby's two fat sixes came somewhat as a result of accidents. The gallery was too eager all the way round. They scurried like rabbits across in front of the tees and Bobby's fine drive at the fifth hole, inconvenient bunker, a six resulted. The other six came on the road hole when his second shot, a powerful iron, kicked curiously into a bunker. He then missed a six foot putt at the home hole for a birdie 3 and 76.

Bobby is safe so far as qualification is concerned. So is Bill Mehlhorn and some other Americans. Young Haley is batting nobly. I dug up some scandal on young Haley. You remember he was a considerable figure in the recent amateur championship. Nobody knew who he was. They got his middle initial wrong. They named him Edwin H. Haley. His name is Edwin W. Haley. The "W" stands for Wayne. He confessed to me last night that he is a lineal descendant of "Mad" Anthony Wayne who captured Tippecanoe in the name of Jehovah and the Continental Congress.

"I had to pull the rope at the unveiling of a statue of my revered ancestor at Valley Forge," said Mr. Haley. "I pulled the wrong rope and the tent came down on my head."

I asked Mr. Haley how he happened to lose his match to Mr. H. D. Gillies in the amateur championship.

"I played like 'Mad' Anthony," he said.

I went over to Glen Eagles to see Bobby shoot his 67 which tied the course record, the hotel is huge, it has wings and a court and corridor Tom Webster, the famous English cartoonist, was stopping there not long ago. About dinner time he rang for help in his room. He ordered a taxicab.

"Which door, sir," asked the attendant.

"The door of this room," replied Mr. Webster. "I want it to take me down to dinner."

St. Andrews, Scotland, July 11.—(AP)—On two rain soaked courses qualification play for the British open golf championship began this morning. Conditions were much to the liking of Americans.

Pools of water dotted the historic fairways of the old St. Andrews course. There was heavy rain before the first pair teed off and more rain threatened.

Bill Mehlhorn was the first of some dozen Americans among the 207 competitors to tee off. He was paired with an amateur, W. A. Gordon Brown of the royal and ancient Troyn played the new St. Andrews course.

Bobby Jones, defending his title teed off, three quarters of an hour after Mehlhorn. The champion played the old course, where Cyril Tolley and Charles Mayo of New York, were the first pair out, qualification play consists of 18 holes today on one course and 18 tomorrow, on the other.

Bobby Jones teed off in a pouring rain with a breeze blowing off the North Sea. The downpour did not keep a gallery of about a thousand from following him.

Jones covered the trap out in 38 and two above par.

Bobby made the first brilliant shot of his round at the famous short eleventh. With the wind at his back and the Eden River in front, he placed the ball a yard from the pin. He missed his putt for what seemed a certain two.

His total round was 76.

Rene Gollas, French entrant turned in a 71, which early this afternoon was the lowest card.

Salisbury Top Durham Bottom In Piedmont

Raleigh, July 11.—(AP)—Raleigh played at Winston-Salem today. Rocky Mount at High Point, and Salisbury at Durham in the Piedmont League lineups.

The Caps Saturday defeated Durham 4-2 to get on the top side of the 500 mark, in third place, topped by Salisbury on top, and Rocky Mount in second position. Winston-Salem in fourth, High Point fifth, and Durham at the bottom comprised the standings.

The rain has had its part in the second half race, for with but nine days of play passed, four postponed games are already on the calendar.

New York, July 11.—(AP)—Speed a right uppercut and a left jab appear to be what Jack Sharkey is perfecting for his fight with Jack Dempsey here the night of July 21.

Sharkey's vaunted left has been noticeably absent in his early training sessions and right hand hook the punch that erased Jimmy Maloney from the heavyweight picture, has been on display only once or twice, and then under pressure. The right hook, according to a member of the Bostonian's staff is being developed under cover. The uppercut is being brought into play often and yesterday Sharkey used it effectively on Leo Gates, Paul Vavaler, Johnny Nrban and Marc Polo.

Sparing Partners Fare Bad In Dempsey's Camp

Saratoga Lake, N. Y., July 11.—(AP)—The life of a sparring partner is short and bitter in the training campaign of Jack Dempsey, for the best a shock absorber can get is the worst of it.

Two new heavyweights coming in today passed a trio or the way out, and the looks of relief in the eyes of the departing guests could be matched only by the anxiety of the boys who had just appeared for socking duty with the former champion of them all.

After asking waivers on Jack Hildebrand, Pietro Corri and Bill Baley, Leo P. Flynn handed them releases and one way transportation south simultaneously. The usefulness of Hildebrand, a Syracuse heavyweight ceased with two successive knockouts at Dempsey's hands in the last two workouts. Pietro Corri, strong man from Austria, had been badly battered and Baley was found too light for the rugged going. Bill, a lightweight hails from Nashville, Tenn.

Both newcomers, Chief Metoquah a 18-pound Indian from Oklahoma and Marty Gallagher, an Irish lad from Washington, D. C., were ordered to bear their part of the boxing burden today.

AN EXPOSE OF SPIRITISM

The American public for some years past, has been keenly interested in spiritism. The mystery of the seance and the medium has attracted the attention of many and thousands have been misled and deceived by apparent occult performances that were, in reality, no more than tricks of sleight-of-hand artists.

East Carolina Teachers' College, on Tuesday evening, will present Mr. Kringsberg and Miss Esmeralda Martini in an expose of the fallacies of spiritism. This is done by performing many of the thrilling spooky tricks employed by the leading mediums of America and Europe.

Miss Martini, while blindfolded, accurately describes numerous articles for her audience. The concert given by these performers is absolutely clean, high class and very enjoyable and the mystic features clever, laughable and entertaining.

5 reasons

Why YOU Should Own Your Home

FIRST—You cease paying for the upkeep of another man's property. Money that went to the landlord each month will now be invested in your own dwelling. Owning a home makes you independent.

SECOND—A home with its grounds provides the only proper environment for rearing children. Their playmates are the children of other homeowners. Owning a home makes you a better father.

THIRD—Similarly you choose your neighbors. Instead of being people you must tolerate, they become friends you want to know. Owning a home brings you friends.

FOURTH—You are afforded the opportunity of living in truly residential section: trees, lawns and flowers in place of noisy streets. Owning a home brings wholesome surroundings.

FIFTH—Being a landowner, you enter more wholeheartedly into the affairs of your community. Its interests are yours. Owning a home makes you a better citizen.

We have helped hundreds of Greenville people to own their homes—Let us help you.

SAUCE FOR THE GOOSE

There was unanimous recognition of the American position that trade barriers particularly as regards Europe, have cut down the volume and distribution of goods to people who want and need them.

Thus the report back to this country of the American delegation at the Stockholm Congress of the International Chamber of Commerce now concluded in an atmosphere of great good will. And that clause specifying Europe as the place where customs duties should be lowered was not put in merely to swell the cable toils. Nothing has been more pronounced, not to say humorous, than the effort of the American business representatives to show their European colleagues that protective tariffs are at one and the same time beneficial for America and detrimental to Europe.

All would be rosy if it could be effectively proved that we are sensible in taxing imports and that Europe is silly in taxing imports. But it is a bit difficult.

**Would Put Curfew
Back Into Effect**

Charlotte, July 11.—(AP)—The curfew law would go back into effect if James L. Webb, of Shelby, had the power to put it into effect he told the Meclenburg county grand jury here today.

"There is no doubt of it, gentlemen," he told the jury in his charge "and we may as well be frank and admit that we, as a people, have drifted away from some of the fundamentals which our forefathers adhered to. What we need more than anything else is a revival of the old fashioned Christian religion which is the bedrock of our civilization. When we observe the moral code, the State laws are seldom violated."

Judge Webb's charge contained a lecture for parents asserting that "good character is built in childhood and nowhere else."

He urged that children be kept off the streets at night and that full respect be shown for the law of slander.

**Seek Robbers at
Hendersonville**

Hendersonville, July 11.—(AP)—Police in a dozen nearby towns and cities were assisting Henderson county officers today in a wide search for two men who drove up to a filling station here early today robbed the proprietor, R. C. Burnett, of \$343 in a bold daylight holdup, and roared away in a fast new roadster.

The robbery evidently had been carefully planned and the men apparently knew that the filling station safe contained the Sunday sales. They drove into the filling station drive shortly after 7 o'clock and asked for five gallons of gas, handing him a \$10 bill in payment. Mr. Burnett told them he would have to get the change from the safe, and one of the men followed him into the office. The change, but just as he handed the money to the customer, he

draw a pistol and commanded Mr. Burnett to hold up his hands, saying: "Guess I'll take all of that," referring to the contents of the safe.

The roadster bore a North Carolina license plate and was seen by a number of persons, but they paid no particular attention to it. He opened his safe and made the

MOB VIOLENCE PASSING

In returning a verdict of "guilty" against a school principal who took part in the flogging of a woman and her son, a Georgia jury has done a great service for that state. There are others, alleged to have had a part in the flogging, who are soon to come to trial, and it is to be hoped that the juries selected to try them will take action similar to the Acree jury. Once bearing the reputation of the home of lynchings and mob rule, the South is gradually bringing to the eyes of the world that the law is stronger than the individual and mob violence will not be countenanced.

In convicting Acree, Georgia has added to its own glory and that of the South. The day of mob violence and hooded bands in the South is fast drawing to a close.

With the formal opening of its airport, Raleigh is keeping pace with other modern cities. Airports are essential to progress in commercial aviation, which everyone knows is at hand, and only a few years hence the city without its airport will no doubt be considered unmodern.

prizes totaling \$9,750, to be divided into five awards, from \$5,000 to \$250.

For the San Francisco-Spokane air race, prizes of \$5,000 have been posted and as awards in the national air races over the local course \$15,000 has been provided for prize money.

Major John T. Fancher, commander of the aviation squadron of the national guard of Washington, is manager of the races. Walter Evans is president and Charles R. Hebbert is treasurer of the National Air Derby association, which is in charge of financial arrangements for the flights.

USE YOUR HANDS

While a level head is the first requirement to safe operation of an automobile, hands are also necessary for the operation of the vehicle and for the purpose of letting others know just what you intend to do at all times.

The last General Assembly, realizing that many accidents are the result of one motorist not knowing what the other is going to do, made a law requiring uniform hand signals for motorists. This law went into effect July 1, but to stand on our busy streets and watch the passing automobiles, one would not think that such a law had ever been passed.

Since the law went into effect, we have noted that very few local motorists are observing it, others taking their own chances on what the other fellow intends to do and letting the other fellow in turn guess their intentions.

The use of hand signals by motorists, is now a LAW and a good law, and motorists should be made to observe it for their own safety and the safety of others. The entire system of hand signalling requires but three movements of the hand, one for a right turn, one for a left turn, and one to indicate that the car is to be brought to a stop. Any person capable of operating a motor vehicle can learn the signals in just a few moments, and there is no excuse for the law not being obeyed.

**Boy Killed When
Struck by Auto**

Morganton, July 11.—(AP)—Robert Moody, 8 year old son of Palm Moody, of Morganton, was killed, and two other persons injured when Moody struck a car driven by Carl H. Schrum, of Asheville, at the intersection of White street and highway number ten about 7 o'clock this morning.

Both machines were badly damaged by the collision, which occurred when Mr. Moody was taking his wife to her work at a knitting mill. Mrs. Moody was slightly hurt and the boy was thrown thru the windshield and died on his way to a hospital.

Mr. Schrum, with his wife, sister and a boy cousin who had been visiting them, were on their way

to Lincolnton. The occupants of the Schrum car escaped injury, with the exception of the boy, who was slightly hurt.

**RED AIRPLANE WRECKED
WHEN LANDS NEAR BULL**

Shelbyville, Ky.—(AP)—A blue-grass bill is the latest addition to the perils of airplaning.

William Van Arsdall, of Harrodsburg, Ky., made an emergency landing in his bright red plane in the pasture of a farm near here. While he went for help a bull grazing in the pasture sighted the machine and charged it.

When Van Arsdall returned he found wings coverings and struts ripped and cracked. Strips of red cloth covered the ground and the fuselage and elevators of the plane were badly damaged.

FORSAKES LOVER TO KEEP CHILD

Forced to choose between her fiance and her child, Mrs. Dorothy Caruso Ingram decided the latter needed her most and broke her engagement to Alexander P. Moore, former Ambassador to Spain. Trustees of the estate of Enrico Caruso, her first husband, decided she could not remarry and remain guardian of little Gloria Caruso, with whom she is shown in this new photo.

Market Report Cotton-Stocks-Grain

COTTON
New York, July 11.—(AP)—Buyers inspired by the official increase of Saturday was renewed in the cotton market at the opening today. First prices were steady at an advance of 7 to 8 points, and active months showed net gains of 15 to 16 points in the early trading, all new crop positions, making new high records for the season.

October sold up to 27 1/2 and January to 17 1/2. Stop orders were uncovered on the advance and after their execution, prices slipped off 3 or 4 points, but the market showed a very steady tone at the end of the first hour.

The demand tapered off somewhat after the early advance and there were early reactions of 8 to 10 points from the bid under realizing, October selling off to 17 1/2 and January to 17 1/2. At mid-day October was selling around 17 1/2 with the general market showing net advances of about ten to eleven points.

Futures closed firm, 3 1/2 to 4 1/2 points higher, spot steady, middling 17.65.

Sugar Cane (La.)—1,940,000 tons.
Sugar Beets—6,980,000 tons.

STOCK MARKET
New York, July 11.—(AP)—Constructive forces were again at work in today's stock market which responded to the unexpected increase in the filled orders of the U. S. Steel Corporation and prospects of good crops and a continued ease of money rates. Pools, plentifully supplied with funds, lifted more than a score of issues to new peak prices for the year.

Despite the setbacks recently given to pending railroad mergers by the I. C. C., there was a persistent demand for the stocks of carriers identified with consolidation. Total sales approximately 1,800,000 shares.

LORD MAYOR DISCOVERS HE IS ALSO ADMIRAL

London.—(AP)—The Lord Mayor of London, Sir Rowland Blades, while looking through some dusty old records, discovered that he is also an Admiral.

He immediately assumed the ancient role of "Admiral of the Port," his hereditary right, and journeyed in his robes of office to the Royal Albert Dock to lend official importance to the Port of London as a landing and embarkation port for passengers.

He was piped aboard the liner Arandora, last of five new vessels in the London-South American service, with all the official ceremony given to an Admiral of the Fleet.

AVIATION TO BE PROBLEM IN CONGRESS

Development in Flying Receiving Much Attention of Legislators.

Washington, July 11.—(AP)—Congress absent from Washington during the period that American aviators have added bright pages to aerial history, probably will return to the capitol this fall with an ear more sympathetically inclined toward requests for funds for aviation purposes.

While the legislators last session provided more liberally than usual in authorizing five year building programs for the army and navy air services and also in creating assistant secretaries in the war, navy and commerce departments to look after aviation activities, it is expected that the needs of aviation will be studied more carefully than ever this winter.

It is regarded here as certain that there will be no disposition to curtail either of the two building programs one of which contemplates delivery and maintenance of 1,000 first class fighting planes for the navy at the end of three years and the other looking to provision for 1,200 planes for the army at the end of the same period.

From expressions that have been made on the Lindbergh Chamberlin Byrd and the Hawaiian flights, it is obvious that members of Congress have been paying close attention to what has been going on in the air and those that have spoken have had only words of praise and admiration.

Acting Chairman James of the house military committee is conducting an inspection tour which contemplates a visit to all army aviation posts along the Pacific coast: Hawaii, Panama and the flying fields of the Southwest.

Convict Killed At Caledonia Farm

Raleigh, July 11.—(AP)—Earl Loftin, 20, convict, yesterday was killed at Caledonia prison farm, Halifax county, and Clay Griffin, 31, another prisoner was brought to state prison here, charged with the slaying, Supt. George Ross Pon reported.

Loftin revealed plans of Griffin for an escape. Mr. Pon said he was informed, and an argument followed in which it was alleged, Griffin struck Loftin with a shovel. The latter succumbed to a fractured skull and died in 30 minutes. The body will be taken to the home at Goldsboro for burial and Griffin will be held here, pending trial in Halifax county Superior court.

Loftin, Goldsboro youth, was serving from one to three years, following conviction in Wake county Superior court in January, 1926, for larceny and receiving.

Griffin, whose home is listed in prison records at 707 E. Russell St. High Point, was serving a four to five year sentence after conviction in Guilford county of breaking and entering in May, 1926.

MRS. FRANK HAWKS

Houston, Texas.—(AP)—Mrs. Frank M. Hawks of Houston is accompanying her husband on the 4,000 mile national air tour which started from the Ford airport at Dearborn near Detroit.

When the four planes return to Detroit July 12 after visiting 24 cities Mrs. Hawks will have completed one of the longest flights ever undertaken by a woman.

More Information Needed in Charge Corrupt Politics

Indianapolis, July 11.—(AP)—William H. Remy, Marion county prosecutor, today called upon Lloyd C. Hill, attorney for D. C. Stephenson, to deliver to the prosecutor certain alleged documentary evidence which is supposed to substantiate Stephenson's charges of political corruption in Indiana.

Instead, however, according to a copyrighted article in the Indianapolis Times, Hill turned over to D. C. Stephenson in favor of Ed Jackson, the First National Bank of Columbus, Ohio, is dated September 12, 1923.

Jackson was at that time Secretary of State. The check is endorsed Ed Jackson.

AIRMAN KILLED WHEN PLANE CRASHES TO EARTH

Counterfeiting Is Discovered At Tenn. Penn

Nashville, Tenn., July 11.—(AP)—With nothing definite announced except that an investigation was in progress efforts were continued today to pin the guilt for counterfeiting operations discovered in the State penitentiary here.

One \$20 bill, four \$10 bills and two of \$5 denominations, all raised from \$1, were put into circulation recently from within the prison walls, according to Warden A. A. McCorkle.

Federal operatives have been watching the institution for the source of the spurious currency for several days, and Warden McCorkle stated that early last week he admitted a government operative named Anderson, giving him entire freedom of all departments of the institution. On Friday the warden said, another government investigating agent came to the institution and requested the counterfeit bills which the warden had obtained as evidence. The request was refused, the warden explained because the bills already had been turned over to another department.

Warden McCorkle denied report that he had refused federal operatives admittance to the penitentiary and stated that he was willing to co-operate with them "in any reasonable and orderly investigation" of the counterfeiting.

United States District Attorney A. V. McLane would make no statement last night regarding the counterfeiting or the reports of misunderstandings between the federal and state officials.

TWO KILLED IN PRAIRIE IN PROVINCES OF CANADA

Calgary, Alta., July 11.—(AP)—Two persons were known to have been killed in a series of storms that swept the prairie provinces of Canada, over the week-end.

The two deaths occurred near Wetaskiwin, Alta.

ROBINSON PLEADS "NOT GUILTY" IN TRUNK MURDER CASE

London, July 11.—(AP)—The final act of the drama known as the "trunk murder" commenced today Bailey this morning when John Robinson, a 6-year-old clerk, pleaded not guilty to the charges of murdering Mrs. Minnie Bonatti wife of an Italian waiter.

Mrs. Bonatti's dismembered body was discovered in a trunk at Charing Cross Station in May.

CRUSHED TO DEATH WHILE DOCKING BOAT

Assassin

BORYS KOWARDA

Warsaw, Poland.—(AP)—The revolutionary disturbances in Russia between 1917 and 1920 upset Borys Kowarda, his father testified at his trial for the assassination of a soviet official.

Kowarda, a 19 year old high school student of Vilna, Poland, was sentenced to life imprisonment for the fatal shooting of Pierre Volkoff, soviet minister to Poland, but the jury recommended that President Moscicki commute the sentence to 15 years.

Valter Patrick Hurt In Wreck

Walter Patrick is confined in a local hospital suffering from shock and probably internal injuries received last night when the car in which he was riding was crashed into by a hit-and-run driver on the highway between Griffin and Grangers. Reports today were to the effect that Patrick was resting nicely, but the full extent of his injuries had not been determined.

The car which Patrick was riding had just collided with another car driven by J. M. Daughtrie of this city. Patrick, it is said, was sitting in his car discussing the collision with Daughtrie, when another car, running at a rapid rate of speed, hit the automobile in which Patrick was sitting. Patrick was knocked unconscious.

The driver of the hit-and-run car had not been apprehended of officials stated this morning.

LENGLER GOES ON TRIAL FOR COMPLICITY IN MURDER OF MELLETT

Canton, Ohio, July 11.—(AP)—A panel of 4 names was summoned for jury service today in the first degree murder trial of S. A. Lengler, former police chief, charged with complicity in the assassination of Don R. Mellett, Canton newspaper publisher last July.

Four other men who were members of a conspiracy against the militant editor's life received prison terms.

CLEMENCEAU SAID TO BE MUCH IMPROVED

Paris, July 11.—(AP)—Former Premier Georges Clemenceau, who has been suffering from influenza for several days, is improved today and is not considered to be in any danger, it was learned at his home here this afternoon.

Harry Chitwood Questioned In Murder Charge

Columbia, Tenn., July 11.—(AP)—Harry H. Chitwood, University of Tennessee student and Warren, Pa., book agent, today faced a rigid cross-examination by the State on his testimony in behalf of Lilard Foutch, Jr., Nashville, charged with the murder in June, 1926, of Mrs. Mildred Marr Ruff, who is supposed was his fiancée.

Chitwood, who claimed to have been an intimate friend of the girl when she was Mildred Marr, testified she attempted to commit suicide on one occasion in his presence and was forcibly restrained by him. It is Foutch's contention that the girl shot herself to death as they sat in a porch swing.

Chitwood's testimony came as a bombshell and he was held over three days for further questioning. He explained he had kept silent for nearly a year because he was interested only in seeing that Foutch's rights were protected. He finally came and told Foutch his story, he said.

The defense has Euclid Williams, another friend of the girl and Mrs. Estelle Holman, a nurse, to support its contention that she was melancholy and given to brooding over the alleged suicide of her mother.

Mrs. Ruff had been married secretly 215 days before her death to Paul Ruff, who was summoned from Mississippi by the news.

Commander Byrd Gets Long Needed Rest In France

Rouen, France, July 11.—(AP)—Commander Richard E. Byrd was his usual cheerful self this morning, a night's rest at the villa of his Annapolis classmate, B. B. Howard, at the exclusive seaside resort of Cabourg, did much to clear away the effects of enthusiastic French hospitality. Saturday night at Le-touquet, was sleepless for Byrd as he was suffering from ptomaine poisoning.

Drives through quaint towns and winding highways of Normandy with a minimum ceremonial also did much to bring the commander back to normal, after a week of festivities.

BLUE MONDAY IN BERLIN WHEN NO FLIERS ARRIVE

Berlin.—(AP)—A Sunday may be counted as almost lost unless somebody arrives from overseas in an airplane, according to the cartoon of the "Der Blaue Montag" (the Monday), the comic section of the "Montag Morgen."

The cartoonist, despite four men with their families sitting on the grass by an aridome and playing cards. The expression on the faces is clearly one of boredom. One of the card sharks breaks the silence by saying disgustedly "Already the second week, and no new one flier has arrived." The caption of the cartoon is, "A quiet Sunday."

Artist's Idea Of Proposed Naval Airship

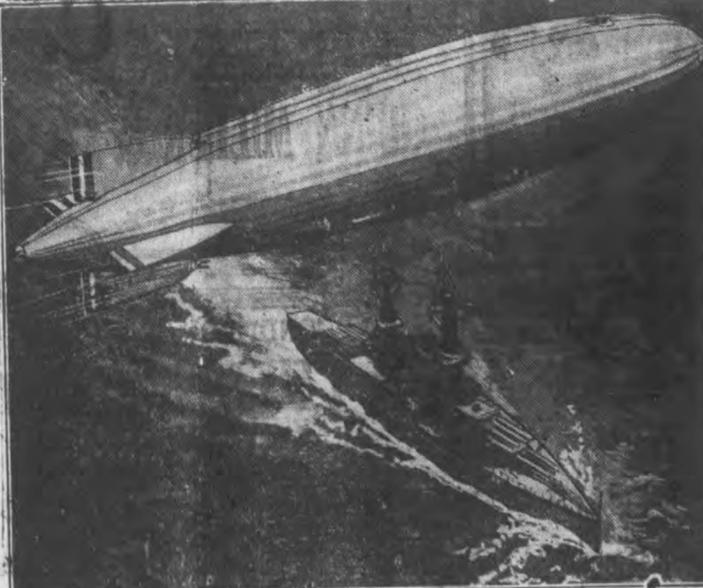

Photo shows an artist's conception of the proposed new navy dirigible of 6,500,000 cubic feet gas capacity flying over a battleship.

Machine guns are visible projecting from the stern, upper and lower rudders, the side, top, prow and cabin. The propellers operated from interior engines are shown along the lower side.

Details of the ship, which would be the world's largest dirigible, have not been announced. Secretary Wilbur has approved the report of the Airship Competition board awarding first prize to the Goodyear Tire and Rubber company for its design. The winning design embraces provisions for carrying five airplanes as protection, with inclined runways for launching them.
