## RELIEF FROM HOT WEATHER IS PROMISED

Cooling breezes follow in wake of sweltering weather in the South.

ATLANTA, Ga., Sept. 17.—(AP)—Relief from the blanket of heat that has swathed the south in its sweltering folds for several days was believed in sight today, as cooling breezes swept inland from the Atlantic coast and rains fell in Florida last night.

A mercury yesterday to new records at various places, with Americus, Ga., registering an unofficial 107 as the highest of the day. Atlanta, and Memphis had official season's records with 97 degrees, while Columbus, Ga., had 104 degrees, equalling Thursday's high.

While from Kentucky to Georgia and through the Carolina's the south sweltered with temperatures ranging up to 100, cool breezes broke the blanket over Virginia and in Florida a downpour late yesterday sent the mercury tumbling 19 degrees at St. Petersburg. Miami reported no "heat wave" there with a temperature in the comfortable 80's.

For Georgia and the Carolina's there was some hope in the prediction of the weatherman who while saying it would continue fair, added comfortably "not quite so warm."

Alabama where temperature of 110 and above were registered in Mobile, Montgomery and Birmingham yesterday, was likely to feel the full effect of a blazing sun today as the forecast was "fair and continued warm Saturday and Sunday." The same applied to most of the other sections of the south, except those mentioned above.

## MOSQUITOES TAKE CHARLOTTE, N. C.

Charlotte, N. C., Sept. 17.—(AP)—A swarm of mosquitoes descending on the city with the extension of the record smashing hot weather today had city health authorities taking precautions to prevent any more additions to the horde that can be helped.

City Health Officer Dr. W. A. McPhail today issued a call to householders to co-operate in ridding the city of the pest and inspectors of the department were spraying unusually liberal quantities of oil on ditches and other places where pools of water are found.

The health officer attributed the pest to long absence of mosquitoes causing householders to become careless, strong winds blowing many into the city from the outside and the extreme heat.

A continuation of the health officer said is likely to cause the city to be overrun.

## SMITH FAILS TO COMMENT ON McADOO STATEMENT

NEW YORK, Sept. 17.—(AP)—Governor Al E. Smith, potential candidate for the Democratic Presidential nomination declared to comment today on the announcement by William G. McAdoo that he would not be a candidate.

## To Test Life of Bridge Over Pee Dee River

CHARLOTTE, N. C., Sept. 17.—(AP)—The six-year life of the \$300,000 concrete bridge over the Pee Dee River at Swift Island, eight miles east of Albemarle, will come to an end as far as highway traffic is concerned next Tuesday when the middle of November, it will be officially closed for the beginning of significant engineering tests sponsored by the government, State Highway Commission, and various other organizations. A free ferry, maintained by the State Highway Commission will take care of all traffic until the completion of the new \$320,000 State Highway Bridge about the middle of November. It was learned from J. B. Pridgen, of Charlotte, sixth district engineer, who is in charge of the tests, that the bridge now under construction is located a quarter of a mile above the site of the present span, which conclusion of the tests to begin Tuesday is expected to leave a pile of debris.

RALEIGH, Sept. 17.—(AP)—Tests at the Swift Island Bridge spanning the Pee Dee River, Tuesday, Wednesday and Thursday of next week will be more or less theoretical, it was said at the State Highway Department today.

## TODAY

A Wall of Water  
One Million for Two Fists  
To Impress Other Nations  
Money Helps Science  
(By Arthur Brisbane)  
Copyright 1927, by Star Co.

Tens of thousands are homeless in Jan. Their homes being swept away by the typhoon and tidal wave, and thousands are dead. The disaster, as described by eye witnesses was literally awful.

First came a heavy rumbling sound from the ocean in the midst of a dreadful windstorm. Then a wall of water, ten feet high, rolled in from the sea, sweeping houses, cattle and men before it, and washing fishing boats up into the rice fields. Airplanes surveying the disaster report great rice areas covered by the sea.

At almost the same time, a tidal wave twenty-five feet high, accompanied, perhaps caused by a terrific gale swept the west coast of Mexico. Telegraph and telephone poles and wires were washed away, and no details have been received of this calamity near home. It is conceivable that a great earthquake at the bottom of the Pacific may have caused disaster on either side of the ocean.

It was reported in New York today that one million dollars have already been paid to Tunny as an advance on his fight receipts—the idea being to thwart gentlemen anxious to attach his share of the money for alleged claims.

Tunny enlisted in the marines "for a chance to fight," never having done any boxing before he went to France. He little thought that boxing for sport, on Uncle Sam's payroll at \$50 a month would enable him later to make more than a million dollars in a few minutes.

Mayor Walker of New York, who contemplates the Venetian canals and says "Henry Ford couldn't make a living in this town," is mistaken. Ingenious minds adapt themselves to circumstances. If all our streets had been water Ford would have built fifteen million power boats instead of fifteen million automobiles.

Ford proves his powers of adaptation by suddenly abandoning an automobile of which he had sold 15,000,000 copies, to create an entirely new car, adding 78 per cent to his River Rouge plant. Building new factory extensions costing

## Woman Flier Says She Is No "Bluffer"

NEW YORK, Sept. 17.—(AP)—Ruth Elder, Paris-bound aviatrix from Dixie, today sought a chance to "prove to people I can fly an airplane alone—that I'm no bluffer or faker."

After revealing a double venture into matrimony, and passing a physical examination for an air pilot's license, the comely 23-year-old flier from Lakeland, Fla., was determined to qualify for her license to dispel any doubt as to her ability in the air before her projected hop to Paris by which she hopes to become the Lindbergh of her sex.

In the midst of preparations for her proposed take off Monday morning the young aviatrix appeared at a dinner determined to complete the field work and nervous, but trans-oceanic adventure in which ten persons have disappeared.

She clarified her matrimonial status when she disclosed that Lyle Womac, salesman of Lakeland, Fla., was her second husband, but wept and pleaded that the first of the two marriages be kept out of the papers when she was asked if she was a widow or a divorcee.

## FLAT BROKE

Berman, wizard of the Julian Petroleum scandal, handled \$67,000,000 according to reports, is now broke and has surrendered in San Francisco.

## PUTS BAN ON CROP REPORT

Secretary Jardine Today Prohibited Issuance of Forecast of Price Trend.

WASHINGTON, Sept. 17.—(AP)—The Department of Agriculture has prohibited the issuance in the future of forecasts of crop price trends under order of Secretary Jardine.

The ban against the predictions resulted after the department's Chief had received a flood of protests both from Southern members of Congress and leading cotton interests against its recent report on cotton price trends which caused breaks in several markets of the country. At a cabinet session which lasted two hours, the longest since President Coolidge took office, the report and the protests received careful consideration and following the session Mr. Jardine issued his prohibiting order.

The President also after the cabinet meeting announced that the regarded price trend forecasts by government departments as hazardous but he added the clarifying of the situation would be left in the hands of the agriculture officials.

Secretary Jardine supplemented his order with a statement declaring that the forecasts were "based on statistics representing production, world stocks, consumption and the usual relation of the prospective supply to price." Similar reports had been prepared monthly for two years by the department, he added, for the aid of farmers in planning their marketing and production programs. Opinions among the department officials held that such price forecasts were of immeasurable value to producers, but it was apparent the general public is not prepared to protect itself against "persons who use the information for unfair advantage."

Four Southern Senators, Caraway, Arkansas; Sheppard, Texas; Heflin, Alabama; and Harris, Georgia, all Democrats, registered protests with Jardine, declaring that the bureau of agriculture economics of the department in its crop reports should confine itself to actual statistics and under no circumstances make conjectures as to future price trends. Two Senators, Heflin and Harris, also asked for the immediate discharge of the responsible employee, but at the department it was indicated no such action would be taken.

## Four Killed By Bolt Lightning Near Mt. Airy

Mount Airy, N. C., Sept. 17.—(AP)—Four persons were dead today, killed by the same bolt of lightning late yesterday afternoon at a tobacco barn out in the country from here. At the same time two mules and a dog were also victims of the same bolt and a fifth human being missed death by inches and suffered severe shock.

Tom McCreary, 62, his son, Ben McCreary, 18, his daughter Callie McCreary 13, and Harvey R. Butcher 20, were hanging tobacco in the barn when the bolt struck the building and killed them instantly. The two mules and the dog were just outside and were killed when the bolt jumped from the structure. A brother of Mr. McCreary, who was standing in front of the barn was knocked down and badly shocked and a shoe torn off his foot. The storm was a small one, little rain falling.

## VACATION HAS TRAGIC ENDING NEAR TUXEDO

Woman in automobile plunges to death over embankment into Lake Summit.

HENDERSONVILLE, N. C., Sept. 17.—(AP)—A summer vacation which was in reality a honeymoon, war brought to a tragic and sudden end at Lake Summit, near Tuxedo, last night shortly before 10 o'clock when Mrs. J. R. Berck Bickler, bride of a few months, plunged in an automobile over a steep embankment into the deep water below before the horrified gaze of her husband, who stood by powerless to save her.

A crowd of searchers and several divers, including a deep sea veteran, were toiling tirelessly today in an effort to raise the car, a big sedan, believed to contain the body of the woman.

In their midst stood Mr. Bickler almost overcome by the tragedy, yet watching intently for some trace of his wife as the volunteer workers and county officers, led by Mr. Bickler, worked the mountains for a summer vacation two weeks ago from their home in Bellevue, Fla. Friday night they decided to take a drive. At a point about 200 yards above the Lake Summit dam, on a highway which winds around the lake, Mr. Bickler noticed the brake bands on his machine were burning. He got out to adjust them, leaving the engine running.

After working on the bands very briefly, he called his wife to pull on the emergency brake to test it. Instead, she grasped the gear lever and threw the engine into reverse, backing swiftly over the bank before Mr. Bickler could intervene. Bickler's aid but could be of little assistance until Clarence Edney, member of the Hendersonville police force, brought a diver. With the aid of grappling hooks, the sedan was located in about 15 feet of water. It was caught on top of a high stump, and as it was being pulled to the surface slipped from the hooks and fell into water estimated about 90 feet deep.

## MAN HELD FOR MURDER AT MURPHY, N. C.

MURPHY, N. C., Sept. 17.—(AP)—Constable John Bright, charged with having killed Wayne Moore, 19-year-old Cherokee county youth from the crowded factory town Baptist church here and shot him to death before the boy's mother, Mrs. Will Moore, is now in the county jail awaiting a preliminary. He was apprehended late last night in the Owl Creek section.

Officers said today they had discovered no motive for the slaying, which occurred Thursday night just at the close of the sermon by the pastor at the church.

Bright entered the building, stepped to young Moore, and whispered in his ear. The young man followed Bright from the church and was in turn startled by a woman's screams and two shots. Moore was found dying from his wounds.

Bright made no statement concerning the shooting.

## Wall Of Silence Features Tariff Question Today

Washington, Sept. 17.—(AP)—The American and French governments are maintaining a wall of silence on the official negotiations in the controversy arising out of the French discriminatory tariff against American goods.

The French government is still withholding from publication its note of counter-proposals to the American suggestion of a new most-favored-nation commercial treaty, while this government is not expected to forward its reply until early next week to Paris.

## SETS NEW RECORD

Frank Lockhart, Indiana racing driver, yesterday set a new record for the Charlotte speedway when he circled the mile and a quarter wooden bowl at a speed of 138.8 miles per hour.

## LOCAL SALES STILL HEAVY

Tobacco Market Has Sold 9,210,844 lbs. of Leaf During Present Season.

The Greenville tobacco market has sold a total of 9,210,844 pounds of bright leaf tobacco during the present season for a round sum of \$1,674,319.27, according to an official report of sales made public this morning by K. W. Cobb, secretary of the Tobacco Board of Trade. The average price was \$18.18.

The report of the secretary also shows that the market handled 5,203,062 pounds of tobacco during the present week. The total amount paid out was \$940,344.92. The average price was \$18.07.

Farmers were today being urged to market the crop more slowly. Congestion, it was believed, has been largely responsible for the present price situation.

It was estimated today that about 1-6 of the present crop had been offered for sale during the nine days the market has been open.

## BOLL WEEVIL DOES DAMAGE

Pitt Crop Greatly Reduced By Weevil infestation This Year.

The boll weevil has wrought considerable damage to the cotton crop of Pitt County, according to a statement made yesterday afternoon by L. F. Worthington, well-known farmer of the Ballard's Cross Roads district, who said that his crop had been reduced at least a third compared with last year's production.

Mr. Worthington brought several cotton bolls to the Reflector office, and demonstrated the damage which the weevil is doing. Almost every boll opened showed weevil infestation. In many instances the life of the fruit had been sapped entirely.

The Ballard's Cross Roads man said he had approximately sixty acres of cotton under cultivation this year and that he would not average over one-half of a bale to the acre. On the same land last year he averaged a bale and a half and two bales to the acre.

He reported that other farmers of his community had suffered similar loss.

## Middle Tobacco Belt Preparing For Opening Day

Durham, N. C., Sept. 17.—(AP)—The Piedmont today pointed to the opening of the middle belt tobacco market here, at Roxboro, Oxford, Henderson, Creedmoor, Faison Springs, Abbeville, Sanford, Mebane and Burlington.

The Durham Tobacco Board of Trade met to elect officers for the ensuing year. Representatives from various tobacco firms and war-brokers comprise the board.

Discussion at the meeting was the effect that business conditions would improve with the opening of the market with prospects this year for a big season.

## McADOO WILL NOT RUN FOR PRESIDENCY

Believes He Can Do More To Advance Democracy As Private Citizen

Washington, Sept. 17.—(AP)—William G. McAdoo has informed his friends that he will not be a candidate for the Democratic Presidential nomination in 1928.

His decision has been communicated to George F. Milton, publisher of the Chattanooga, Tenn., Times. In a letter sent in response to a request from Mr. Milton that he announce his candidacy.

The letter, together with the one from Mr. Milton to which it was a reply, was made public today at Mr. McAdoo's law offices here. Declaring that his "chief concern" was the "supremacy of Democratic principles and progressive policies," Mr. McAdoo said that "perhaps I can do more to advance these objects as a private citizen than as a candidate for the Presidency."

"I prefer to stand aside," he added, "in order that the field may be clear, so far as I can clear it, if the development of a leadership that can more effectively gain these ends."

"I shall not, therefore, be a candidate for the Democratic Presidential nomination in 1928." In his letter Mr. McAdoo recalled the Madison Square Garden convention of three years ago, at which, on 91 ballots, he led the field of candidates, declaring that "if the Democratic situation should again develop in such a way as to cause a repetition of the inconclusive and disastrous fight in the New York convention of 1924, it would be calamitous and the party would be reduced again to impotence in a Presidential contest."

"Everything possible should be done," he continued, "to prevent the 1928 convention from degenerating into a mere struggle of individuals for personal preferment at the expense of principles and policies of fundamental importance to party character and to the welfare of the nation, however legitimate, and every selfish purpose should be subordinated to them."

"My chief concern is the supremacy of Democratic principles and progressive policies for these mean the preservation, unimpaired, of the Constitution of the United States; the suppression of nullification and the enforcement of law, without which stable government is impossible and without which the blessings of liberty will disappear; justice to agriculture, without which the farmers cannot get their rightful share of national prosperity; and social and economic justice for all classes without which human opportunity cannot be widened."

After declaring that he would not be a candidate next year, Mr. McAdoo said:

"But the struggle for the preservation of the Constitution is in integrity, for the defeat of nullification, for obedience of law and for the stern suppression of crime, for incorruptible government, for impartial justice, social and economic, for orderly progress and for wider human opportunities, must be carried on and every earnest patriot must see that it is carried on, in an effort to achieve those things, I shall, as a private citizen, be glad to co-operate with all those who deem them essential to the public welfare."

## Levine Defers Flight To India

Cranwell, England, Sept. 17.—(AP)—Charles A. Levine postponed his projected long distance flight to India after two unsuccessful attempts to get the monoplane Columbia off the ground this morning.

Levine and his British pilot, Capt. Walter Hinchcliffe, made their first attempt at 10:30 o'clock and another half an hour later. Each time the plane kept solidly on the ground, the tail refusing to lift. Levine said he would study a method of reducing the weight of the load carried and that he would take off tomorrow morning.

Today's attempts were made after a quarrel between Levine and Hinchcliffe, the former seeking to hold off because of the wet condition of the field, soaked after a heavy rain, and the latter declaring it was now or never.

## WILL NOT RUN

William G. McAdoo today announced that he will not be a candidate for the Democratic Presidential nomination in 1928.

## MISTRIAL IN AYDEN SUIT

Superior Court Adjourned Yesterday After Disposing of the Kinlaw-Venters Case.

The civil term of Pitt County Superior Court which convened in this city last Monday morning, with Judge W. C. Harris, of Raleigh, presiding, was brought to an end yesterday afternoon about six o'clock with disposition of the case of Kinlaw vs. Venters, involving suit for \$75. The plaintiff failed to recover.

Attention of the court Thursday afternoon was called yesterday morning was centered around condemnation proceedings of the town of Ayden against E. A. Lancaster in which city officials were suing for the acquisition of a piece of land owned by Lancaster for extension of the town cemetery. The jury failed to reach a decision and Judge Harris ordered a mistrial.

The case involved the sum of \$900 which the town of Ayden had agreed to pay Lancaster for the property. He declined, contending that the sum was not sufficient. The town immediately instituted condemnation proceedings, which resulted in the trial just completed.

Another term of civil court will convene here Monday, September 26th. Although the calendar has not been completed for this term, it was stated today that it would contain numbers of cases.

## Second A. E. F. Takes Possession City of Paris

Paris, Sept. 17.—(AP)—The second A. E. F. has taken possession of Paris with the arrival of General Pershing and the headquarters staff.

The Legionnaires knew they were sure to be well received, but the magnificent reception exceeded their expectations, and many veterans were visibly moved by the wild enthusiasm of the crowds and heard once again the familiar cry "Vive L'Amerique!"

Everything is being done to make the visit pleasant. Each detachment, as it arrives, finds all arrangements made for its convenience and comfort. Some 1,200 came in a body with General Pershing and National Commander Howard Savage. Several thousand were already here, and the bulk of the 24,000 pilgrims are advancing on the capital from various ports of embarkation, so that by tonight the attendance at the Legion convention opening Monday is expected to be about complete.

## I. D. Norwood Buried Friday At Hobgood, N. C.

I. D. Norwood, 63, died Thursday afternoon at one o'clock at the home of his brother, R. H. Norwood, who resides near the Country Club, following an illness of about three months from brain blood pressure. Funeral services were conducted at the home yesterday at one o'clock by Rev. W. S. Hadden, pastor of the Presbyterian Church, burial taking place at Hobgood.

## ATTEMPT TO CROSS OCEAN FAILS AGAIN

McIntosh's Flight To New York Bailed By Winds and Fog Of Stormy Atlantic.

Ballybunion, County Kerry, Irish Free State, Sept. 17.—(AP)—Another attempt to conquer the unruly Atlantic by a non-stop flight from East to West has failed.

The great blue and brown monoplane Princess Xenia, owned by the American tinsplate heir, William B. Leeds and named for his wife, came to rest on Beale Strand near the mouth of the Shannon last night, after her pilots, Captain MacIntosh and Commandant James C. Fitzmaurice had fought vainly with violent head winds and blinding fog over the sea.

The plane was under the protection of civic guards today while the airmen told the story of their attempt to reach New York from the Baldonnell airdrome, near Dublin.

MacIntosh and Fitzmaurice deeply disappointed over the failure of their long planned effort, were unscathed by the fight against the elements over the ocean and their forced return to land. They were in the air a little less than 44-1/2 hours.

Leaving Baldonnell Field yesterday afternoon, they made good progress across Ireland only to encounter a forty mile headwind soon after passing out to sea over the Galway coast, fifty miles to the north of Ballybunion.

Then came a dense fog. They continued grimly for a time, but, finding it impossible to steer a true compass course, they decided that best judgment dictated a return, and swung the nose of the plane back toward Ireland, emptying one gasoline tank to lessen the chance of a crash in landing.

For an hour or more after regaining the coast they cruised to and fro at an extremely low altitude, peering through the mist and seeking a favorable landing place. Circling about and passing back and forth a number of times along the coastline, they at length brought their ship down and made their way to a hotel for a rest.

"We and the machine are o. k.," said Commandant Fitzmaurice, who like Captain MacIntosh, saw aerial service in the World War. "The engine ran perfectly and we returned only because in the circumstances it was impossible to steer a true compass course." Fitzmaurice, a commandant in the Irish Free State air force, succeeded Captain Anthony Wreford, originally chosen as MacIntosh's companion, when Wreford withdrew owing to an injury to his knee which he considered would affect his control of the heavy plane.

## Ten Arrests In Flogging Case At Birmingham

Birmingham, Ala., Sept. 17.—(AP)—With the number of arrests on flogging indictments, returned by the Jefferson County Grand Jury, brought to ten by the jailing late last night of Lee Clayton on a charge of kidnapping, more arrests were expected today in connection with masked whippings are due, according to officials. Clayton was confined in the Jefferson County jail and bond set at \$20,000. This had not been met early today. Others under arrest and their charges are: Andy Glaze, kidnapping; Ellis Ratliffe, kidnapping; Ira Davis, kidnapping; Eugene Boss, kidnapping; Louis C. Albright, kidnapping; W. J. Worthington, kidnapping and bribery; Julius Lumpkin, two counts of perjury, and C. J. Seale, kidnapping.

Trials for the men will be set for an early date, according to Attorney General Charlie C. McCall, who led presentation of the evidence to the Grand Jury. Worthington and Albright are bond while others remain in jail. Following an illness of about three months from brain blood pressure, the body was continued by Judge Seale on the request of Assistant Attorney General John H. Hays on Friday.

## GIANTS TAKE SECOND PLACE PENNANT RACE

(By the Associated Press.)  
Out of a scuffling series with St. Louis the New York Giants had emerged today in second place in the National League, but how long they can hold their place and whether they can catch the speeding Pirates are matters for speculation.

After dividing three double headers with the Red Birds, the Manhattan entry yesterday snatched the deciding contest of the seven game conflict 6-3. Burleigh Grimes held the world's champions to eight hits while his mates got to Sherdel and Johnson for 12. Meanwhile the Pittsburgh club, pennant bound with a lead of four and a half games belted the Boston Braves for the sixth time in a row. The score was 4-3. It was the ninth consecutive win for the Bucs and the 13th straight setback for the Braves.

Joe McCarthy's Chicago Cubs also but passed out of the pennant picture when they lost their third straight to Brooklyn 4-3. Charlie Root, ace of the Chicago pitching staff, lasted only seven innings. The Yanks rapped the ball for 13 safe hits in their 7-2 victory over the Chicago White Sox. Babe Ruth blasted out his 53rd home run of the year and is now only six homers away from his 1921 record. A homer by Wilky Moore, who did the flinging for the Hugmen, made Ruth's clout seem puny. It was Moore's manipulator of the "sinker" ball that credited him with his 17th victory of the season.

Connie Mack's Athletics scored their sixth straight win in downing the St. Louis Browns 6-3. Ty Cobb connected for three hits, boosting his string of consecutive hitting to thirteen safeties in the last 16 times at bat.

Harry Heilmann's hitting was chiefly responsible for Detroit's 4-3 win over the Boston Red Sox. He poked out three safeties, a homer with one on, and a double and single.

### Sewanee Grid Star Dies Of Neck Fracture

Nashville, Tenn., Sept. 16.—(AP)—George Rice, quarterback and end on the football team of the University of the South at Sewanee, who suffered a fracture of the neck in the leading out there Wednesday afternoon, died at 3:30 o'clock this morning at a local hospital.

He was conscious almost to the last. His father, John S. Rice, of Houston, Tex., will reach here this afternoon.

Rice, during his three years on the university campus at Sewanee, had been one of the most popular figures and was counted one of the Sewanee football stars. It was expected that Rice, the coming grid season he would prove one of the outstanding quarterbacks in the Southern Conference.

### Some Thought He Was "Through"

JACK BRITTON

New York.—(AP)—If honorary degrees were bestowed on boxers, Jack Britton probably would have most of them.

Out of the wear and tear of 21 years in the ring, the former welterweight champion, now 40 years old, and maybe more, has saved such wizardry and such a physique that he can still give boxing lessons to the younger generation.

His legs are not so young and perhaps he moves a little more slowly, but in the veteran brain is stored a knowledge of the fine art of boxing.

In feinting, in riding away with the punches, in moving just enough—this way and that—so that the opponent's blows miss—in all these things Jack Britton is still a past master. He wields a sneaky left hook and short, straight, jabbing punches that are effective. In the clinches he is at his best, tying up his opponent and working ceaselessly with sharp rights and lefts.

Those who thought the "grand old man" was "through" were a little surprised recently when a sparring partner remarked ruefully that he took more punishment in training from Britton than he did from Jack Sharkey. And then the veteran stepped before the boxing commission and his magnificent physical condition brought admiration and consent to his continuing age to the contrary notwithstanding. And finally, those who still thought he was "through" changed their minds when the veteran went ten rounds to win a decision over a sturdy youth of 24, who only a year ago was good enough to fight for the welter title.

The young man, George Levin, who was an infant when Britton began his boxing career, radiated his admiration for the old master at the end of the bout. While he patted the veteran on the back of the neck with one gloved hand and shook hands with the other, he said:

"You're a great old kid."

### JOINS CUBS

Arthur Nehf, hero of Giants' world series triumphs and lately with Cincinnati, has signed with Cubs and hopes to help twirl them into a championship.

## HOT WEATHER PLAYS HAVOC ON GRIDIRON

Raleigh, Sept. 17.—(AP)—As North Carolina College football squads completed another week of pre-season practice today one of the chief items in the mind of coaches centered around the ability of their squads to hold up or break in the face of unusual warm weather conditions.

All mentors seemed to agree that the heat as it was, visit to campuses the last three days would tend to hinder what before the hot weather spell came, was good showing of gridiron performers. A North Carolina State College, the 92 degree mark built trouble to Coach Tebell's Wolfpack. A few of the husky men going through strenuous formations under a burning sun in mid-afternoon, were forced to pause. Some vomited. One, a halfback in executing a perfect forward pass play was smothered under defense players and had to be sent to the showers, having lost his senses for three hours.

Other coaches experienced similar trouble as they strove to put their charges through scrimmages before the week-end came with a day of idleness.

The coming week will witness Duke and State teams in action on Friday, followed by Wake Forest, Carolina and Davidson on Saturday. Duke meets Furman at Durham while State is at home in Raleigh to Elon. Wake Forest goes to Chapel Hill for the annual classic of Deacon and Tar Heel. Davidson plays the Citadel of South Carolina at Gastonia.

What mode of attack these five members will unlose to thrill football fandom remains more or less a secret as athletic fields will be posted land with the public barred from the final drills. But it is no secret that coaches Tebell at State, Collins at Carolina and Younger at Davidson, are thinking in terms of forward passes. Collins has no less than seven candidates for the Big Blue team left halfback position. The fact that Coach Baldwin over at Wake Forest has candidates of speedy ability lined up in backfield combinations indicated a promising Deacon offensive of young yet not too inexperienced players.

Coach Dehart of Duke has a bunch of sophomores at work with a sprinkling of veterans, from which to pick four backfield stars. Mc-Ninch and Buis seem destined to do the Blue Devil punting. Dehart's biggest job at the present is with his linemen of uncertain and untried quality.

Two backfields continue to scrimmage against each other in the heavy workouts under the rigid Notre Dame system. One was composed of Donnan Young, Ford and Shuford, while the other had Gray, Lassiter, Ferrell and Block.

### SEEKS FORWARD PASSER FOR UNIVERSITY SQUAD

Chapel Hill, Sept. 15.—(AP)—From the seven candidates possessing knowledge of the passing game Coach Chuck Collins today sought to pick a dependable forward passer for varsity work when the University of North Carolina eleven takes the gridiron this month.

Johnson, Ford, Lester, Sandline and Deane hard at work having the pigskin to receivers at various distances.

Interested in real estate? Consult us. H. A. White & Sons, Real Estate and General Insurance, Est. 1895.

### "Old Faithful" Of Pacific League

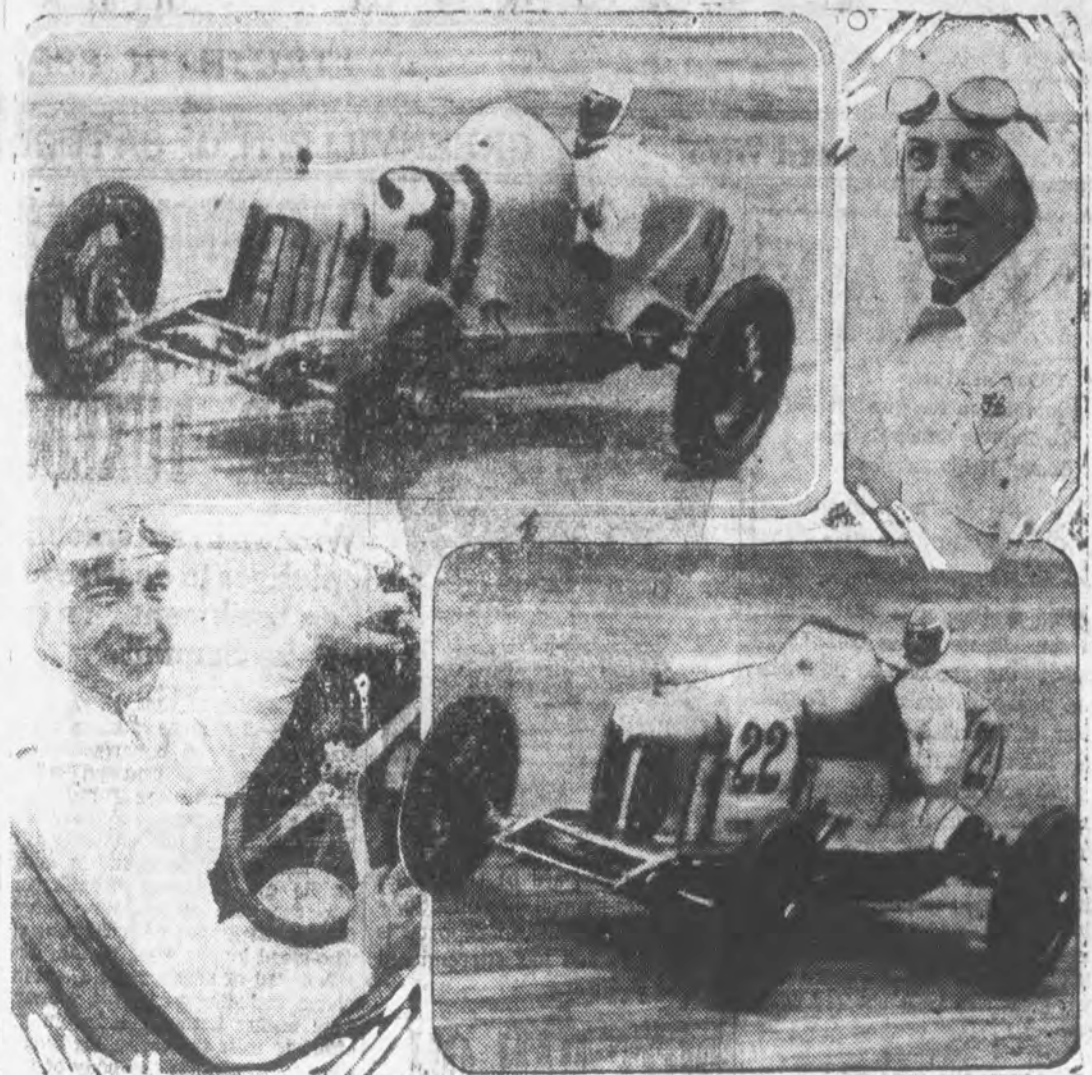

Oliver Mitchell, left handed pitcher of the San Francisco Seals, has twirled himself into the title of "Old Faithful" by winning more games for his club since he joined it than any other moundman in the Pacific Coast league. Mitchell is working his sixth season for the Seals and has averaged 20 games a year. He started out as a first baseman. He pitched a year for Cincinnati and signed with the Seals in 1922.

## AMERICAN PASSENGER AUTOS

### LINE UP FOR RACING CLASSIC

Stock cars of the type that will race at the Carolina Speedway. Harry Hartz, ruling A. A. A. champion (upper right), and Peter de Paolo (lower left) are among the drivers.

Charlotte, N. C. — (AP) — Days of stock-car races will be brought back to cheering spectators in the grandstands of the Carolinas Speedway here on September 19, when most of the famous makes of American passenger automobiles line up for a 75-mile contest, the opening event of the fall racing classic of the South.

The tiny "bugs", small, powerful racing cars, also are to test their speed in 25, 50 and 100-mile events, but officials of the speedway say the revival of stock-car racing has drawn the eyes of sporting fans. The standard car races will be the first held on an A. A. A. track in years.

Chosen at random from the stock, but given hours and hours of

tuning at high speed, the cars lined up on the narrow white ribbon of the great board track will be identical with the automobiles of the highways. Windshields, running boards, tops and fenders, however, will be stripped. The engines and running gear will be checked by technical experts of the American Automobile Association.

A Charlotte officials believe the stock car events will mark a revival of the intense rivalry between manufacturers back in the early days of the automobile.

"What the people want," said Fred J. Wagner, veteran official starter, who will officiate here, "is something in which they can be personally interested. Two men drive different makes of car. Their

favorite manufacturer enters a mount. They want to see their personal judgment vindicated. They will attend such a race and take a keen personal interest."

Behind the steering wheels of the stock cars, as well as the special racers, will be such drivers as Harry Hartz, ruling A. A. A. champion; Peter de Paolo, Leon Duray, Cliff Woodberry, Al Melcher, Fred Comer, Tony Gullotta, Frank Lockhart and Eddie Hearn.

The track record at Charlotte is 136.6 miles per hour, made by Bennie Hill in a 25-mile dash, November 11, 1926. The world record for a mile on board speedways is 144.2 held by Frank Lockhart. The pilots of the special racers will have this mark to shoot at here.

### Indiana Racer Makes Record At Charlotte

Charlotte, Sept. 17.—(AP)—Frank Lockhart, Indiana racing driver, will have the position in the three sprint races over the Charlotte Speedway oval here in Monday's card, by virtue of his record breaking performance yesterday, when he circled the mile and a quarter oval in 32.2 seconds, at a rate of 138.8 miles per hour.

Lockhart's mark eclipsed that established the day before by Peter de Paolo who circled the oval in 33.3 seconds or at 138 miles an hour to better the existing record of 136 miles per hour, established by Bennie Hill.

Twelve of the thirteen entries qualified with speeds ranging from 130.8 miles per hour to that set by Lockhart, and the 13th driver, Doc Shattuck, was technically qualified. In speed tests Shattuck made excellent time, but refused to race against a stop watch.

Others drivers qualified were: Harry Hartz, Tony Gullotta, Al Melcher, Cliff Woodberry, Eddie Hearn, Leon Duray, Babe Stapp, Ralph Snowberger, Dave Evans and Earl Devore.

Three stock cars entered in the 75-mile event for models listed by manufacturers have qualified. Tori Rooney roared over the boards yesterday at 98 miles an hour to qualify, while Gil Anderson and L. L. Corum qualified with speeds of 97 and 99 miles per hour, respectively. The remainder of the stock car entries will be given qualifying tests today.

### HIKING TO CHICAGO TO SEE BIG FIGHT

Greenwood, S. C., Sept. 17.—(AP)—Roy Burkette, one-armed football star and athlete, of Greenwood, is on his second day of a long hike to Soldier Field to see the Dempsey Tunney mix-up next Thursday night. Burkette, who is predicting a knockout by the former champion, although he has no money for a wager, left here yesterday on his long journey aloft to the Illinois city, expecting to cover the distance in the seven days remaining before the fight.

## Tunney Says He Will Knock Dempsey Out

By EDWARD J. NEH.  
(Associated Press Sports Writer)  
Lake Villa, Ill., Sept. 16.—(AP) One of the greatest moments in Gene Tunney's life is less than a week away, yet the prospect does not especially thrill him.

"Strangely enough, the greatest 'kick' the fight game has ever given me came not in my defeat of Jack Dempsey last fall, nor when my hand was raised in victory at the close of my first professional match with Dan O'Dowd in Jersey City," the heavyweight champion said today.

"My greatest moment came in April, 1919, in France. I had fought my way to the finals of the A. E. F. tournament, a series of elimination boxing matches, to determine the best fighting men of their weights in a fighting army. I fought Ted Jamison for the championship at 170 pounds. I won, and the victory was the sweetest, the most thrilling of my career.

"Next Thursday night in Soldier Field, I'll fight Jack Dempsey again. I was confident of victory at Philadelphia last fall. Of this time, I am certain. To me the fight offers the opportunity of finishing the job I started then. This time I must knock Dempsey out to prove to the scoffers that there is no question of my superiority, that I am a real champion, and did not win my title on a 'fluke'."

Proud of his standing as king of the fistie universe, Tunney admitted that the scoffing that greeted his one-sided victory, the cries of "fake" last fall, hurt him to the core.

"More than anything else," he said, "I want to prove that my victory was no fluke. There is only one way to do it beyond a question of a doubt. I must knock out Jack Dempsey, but even that knockout can never equal the thrill that A. E. F. title gave me in France."

Gene felt that his workout yesterday, his first in four days, was his best since coming to the Cedar Crest Country Club more than two weeks ago. Tunney punched the light and heavy bags for four rounds before, boxing six rounds with three sparring partners.

After today's workout, Tunney will rest Saturday and box again Sunday before hanging up the training gloves. Light workouts will keep him in trim Monday and Tuesday. He will leave for Chicago late Wednesday or early Thursday morning.

# Wait for the NEW FORD

ENTIRELY new Ford car is almost ready. Road tests show unusual speed, pick-up and stamina. Beautiful new low body lines will delight you.

## DAILY DAY AT MEMORIAL BAPTIST SUNDAY SCHOOL

Tomorrow is Daily Day at Memorial Baptist Sunday School. Special effort is being made to have very member present. New members and visitors will receive a cordial welcome.

## Pitt Capital Gets Limelight Again Today

Greenville swung into the limelight again this week. This time it came through the editorial section of the Atlanta Journal when that paper reproduced the picture of the airplane load of tobacco brought from Ahoskie territory and sold on the opening of the Greenville tobacco market Tuesday, Sept. 6. A news story of this unusual feat gained considerable circulation over wires of The Associated Press, and it is a source of gratification locally that the picture has gained wide publicity.

The School situation in Greenville demands your attention. Register now for the School Improvement Election. 17-18

## American Author Dies

Antwerp, Belgium, Sept. 17.—(AP) Henry Milner Ridout, noted American author, died today aboard the Canadian Pacific steamship Mountnaim just as the ship was entering the Scheldt.

## ADMINISTRATOR'S NOTICE

Having qualified as administrator of the estate of J. J. Laughinghouse, deceased, late of Pitt County, North Carolina, this is to notify all persons having claims against the estate of said deceased, to exhibit them to the undersigned at Greenville, N. C. on or before the 17th day of September, 1928, or this notice will be pleaded in bar of their recovery. All persons indebted to said estate, will please make immediate payment. This the 17th day of September, 1927. Ned Laughinghouse, Administrator. Estate of J. J. Laughinghouse. 9 17 17w 4wks

Her Color Went Black. She Was Frightened To Death. Mrs. Waite, New Brighton, writes: "If I could only write as I can talk I would have many sufferers relieved of that deadly indigestion and gastritis. I must have had a severe attack as my color went black. Friends thought I was going to die and recommended CARTER'S LITTLE LIVER PILLS. All I can say is, your pills are a wonderful laxative and I take one after meals and at bedtime, and in this way I keep free from constipation and its torturing results. Indigestion or gastritis never bothers me now." They are small, easy to swallow and can be taken by children as well as adults. Remember! this is a Doctor's formula, free from Mercury, Calomel, poisonous drugs, and a safe vegetable laxative. CARTER'S LITTLE LIVER PILLS. All druggists—25c and 75c, red packages.

## FORM COUNTY HISTORICAL ASSOCIATION

A meeting with a view to establishing a Pitt County Historical Association was held on Friday afternoon at 2:30 at the Court House. Miss Lucy Cherry Crisp, the County Historian, presided. It was decided to do two things for the present: To effect a temporary organization, and to have an historical exhibit at the county fair in October.

The following officers were selected for the temporary organization: Miss Crisp, chairman; Miss Tabith De Viscont, of Farmville, secretary; Judge F. M. Wooten, chairman of the Constitution committee; and Mrs. Carl Turnure, of Farmville, other member of the Constitution committee. It is planned to appoint a local committee from each community of the county immediately, and this list will be published later.

The exhibit at the fair will occupy a booth. It will consist not only of objects of historical note, but also any interesting relic and antiques which will portray the life of a former period. The local committee of each community will be in charge of collecting and receiving these objects.

The meeting Friday afternoon was attended by a number of interested people from various parts of the county. Some time in the late fall a larger meeting will be announced at which a permanent organization will be formed.

## Call Meeting To Discuss Coming Of Billy Sunday

A special meeting is called of all the church boards, or officers of the various churches of the city, to meet at the Memorial Baptist Church at 3 o'clock Sunday afternoon to consider the desirability of having "Billy Sunday" and his workers hold a meeting in the city of Greenville next year.

An offer from the famous evangelist has lately been received by the Ministers' Union to come to Greenville during April and May of 1928. The ministers of the city desire the counsel and judgment of the church boards and other interested workers concerning this important undertaking. We want your co-operation and counsel, brethren in this matter. Do not fail to come to the meeting Sunday afternoon.

R. J. HAMBER, Pres. Ministers Union.

Have you registered for the School Improvement Election. A new registration is required. 16-17

## GOT RID OF POISON

Kentuckian Finds Black-Draught a Great Aid In Relieving Constipation, and Soon Feels O. K.

Catlettsburg, Ky.—Mr. Miles Hopkins, of 1218 Center Street, this city, says:

"There was a time when my health was not so good. I suffered a great deal from gas pains. My system was saturated with poison which was not properly eliminated. From time to time I had severe headaches, and I felt sluggish and dull. I knew of Black-Draught as a medicine for constipation, so I thought I would try it. For a while I took a small dose every night until my system was rid of the accumulated poison."

"I gained in weight and my general health was good. That experience made me realize the merits of Black-Draught. I kept it in my home and when I begin to feel lifeless and dull, I take a dose, after which I feel O. K. again."

"People generally do not realize the risk they take in allowing constipation to run on. I try to keep my system cleansed, and I find Black-Draught a great aid in doing this."

## Betrothed

ELIZABETH LOUISE BRANDON

Atlanta—(AP)—A romance of school days will result in the marriage of Elizabeth Louise Brandon, a member of one of the most aristocratic Southern families, to John Howard Candler, at her home in Richmond, Va., October 12. Mr. Candler is the grandson of Asa Candler, millionaire soft drink manufacturer.

When Miss Brandon came to a fashionable boarding school in Atlanta five years ago, she met young Candler. He was a student at Emory University to which his grandfather had given several million dollars. After she returned to her home, he left Emory and later took a job in Miss Brandon's home city.

The engagement has just been announced by her parents, Mr. and Mrs. George C. Brandon.

Candler is only 22 years old. While Miss Brandon has never been formerly introduced to society, she is popular in the younger social set of Richmond and Atlanta.

## Rotary Clinic For Cripples Opens Sept. 26.

Cheer has been brought to the hearts of many cripples of this county by the possibility of improvements through the treatment offered them by the Rotary Orthopaedic Clinic of Washington, N. C. This clinic is held each month in the Federal building. The next meeting will be on Monday, Sept. 26th.

Crippled children and disabled men and women with clubbed feet, deformed backs, crippled hands, arms and legs who are unable to pay for treatment are having their deformities corrected free of charge through this clinic. At the first session of this clinic on August 26, thirty-five cripples reported for examination and treatment.

This clinic, which is sponsored and supported by the Rotary Club of Washington and Beaufort county, brings Dr. J. S. Gaul, one of the leading orthopaedic surgeons of the state, to Washington on Monday following the fourth Saturday of each month for the examination and treatment of the indigent cripples of Beaufort and adjacent counties. Every disabled resident of Pitt county is invited to attend the clinic.

Don't forget to register for the School Improvement Election, Books are now open. 16-17

## Takes pictures Tobacco Market For The Movies

M. Z. Moore, of the Eastern Carolina Production Company, was in Greenville this week with his director and camera man taking pictures of the activities on the Greenville tobacco market. This picture shows tobacco from the plant bed to the finished product. It will be six reels long and featured by a good plot.

The picture should be finished in about 30 days and will be shown in East Carolina about October 15th. It will also be shown in all parts of the country and will no doubt

create much interest in development of the tobacco industry. Mr. Moore is a native of Pitt County.

# About Town

"I wish the city would pad the garbage cans in front of Hill Horse's drug store so loitering husbands wouldn't wear out the seats of their trousers so rapidly," confided an anxious wife to the writer of this column this morning.

The scribe told the lady he would confer with members of the Board of Aldermen regarding the situation, and see what they would do about it.

This particular wife likes to stay at home at night to rest up. Her husband suffers from an infection known as the "wanderlust" and immediately after supper seeks his appointed post on the garbage can in front of the above mentioned drug store.

The lady is in a dilemma. She simply doesn't know what to do. That was the reason she took the matter up with the newspaper.

Probably it may be of some consolation to her to know there are countless numbers of wives scattered throughout this great nation of ours who would be supremely happy to patch their husbands' trousers daily if they had the slightest notion it would cause them to take a perch on some friendly old garbage can downtown at night.

But, as has been remarked by critics since time immemorial, "Women are curious creatures—when they get what they want they don't want it."

The cotton market is just as mercurial as a woman—it is subject to a change at any moment," observed a prominent member of the local market glancing over market report this morning.

"Only a few days ago the market dropped with such suddenness that it sent both bulls and bears shivering to some place of refuge. The recurring revival instilled new hope in the hearts of those with plenty of the staple on hand, but the drop yesterday caused the human heart to take several somersaults before it could become accustomed to the situation."

"The cotton planter is deserving of everything he gets, and in my opinion there ought to be some way of holding up so many reports until they find out exactly what production is going to be."

"Business down in our part of the country is undergoing a revival," Lloyd Turnage, well known Ayden business man remarked while on a visit to Greenville this morning.

"There is every reason to believe business will be good this fall and winter. Crop conditions seem to be about as good as they have been in years. If the price situation is what it should be there is no reason in the world why Pitt County farmers and business men should not reap a great financial harvest. The wise grower will liquidate as many outstanding obligations as possible. In this way alone will he be able to face next year with clear consciousness of having done his duty. Pay what you owe and then invest the rest of your earnings in something sound and profitable."

Greenville may not be the largest town in the State, but it is one of the best business towns to be found anywhere.

This opinion was expressed today by a prominent official on a short stay here. It was his first visit to the thriving capital of Pitt County but he expressed opinion that it would not be the last.

He was surprised at the evidence of prosperity apparent upon every hand.

"Everything seems to be in a hustle and bustle about town, especially down in the section where tobacco sales are in progress. I had no idea the tobacco industry was what it is, although I knew the city ranked high in that particular field."

"Sour grapes."

No, we do not refer to the fable of the fox and grapes, but to a young man in Greenville who thought he had a date with a fair young woman, and later came to find out that conflicting notes of her diary caused her to spend the evening in the company of a previous "date."

It's curious the way things work out sometimes. It was especially queer the way this case developed.

The young man who had the pleasure of partaking of the "sour grapes" had a terrible weakness for a young woman in the city. He was especially interested in her so one ever noticed it. But she did not want to give him an inferiority complex, which caused his aspiration to soar with the stars.

Later on a friendly neighbor, a "summer" called the "fair" one of his name and reminded her of the she had given him a few nights before.

She told him to fill it. She then proceeded to hunt on her dining room floor and found the leaf with the date upon it had vanished.

She called up the gentleman of

"sour grapes" fame and told him of the circumstance involved. Of course, he believed her. But, disappointment was bitter, and application of "grapes" fearfully sour. Now dear reader, if you want any more information about this episode apply to the undertaker, for that's where we'll land if we divulge anything more.

## PLANT BLUE GRASS SEED; RAISE CROP OF TOMATOES

Pittsburg, Kansas—(INS)—Early last Spring, a prominent resident of the town ordered some fancy "Blue Grass" seed to sow in the lawn of his home. The seed was delivered and carefully planted. The owner left shortly afterward for a tour of Europe. Upon returning to his home, he was confronted with a yard literally covered with fine, large, red tomatoes.

## Congratulatory Telegrams

New York—More telegrams of congratulation and well wishes are sent by Jewish people than any other group in the United States the Western Union Telegraph Co. has found out, in compiling a record of messages of a non-business nature.

We have a service for you.

## Shoots Self And Then Kills Wife

Norfolk, Va., Sept. 17.—(AP)—Brooding over his estrangement from his wife who yesterday was granted a separation and \$50 a month alimony, William H. Schmitt, 41, vice-consul for Ecuador and Peru and superintendent of the Portsmouth plant of the Standard Oil Co., at Portsmouth, last night probably fatally wounded his wife, then took his own life.

Physicians late last night pronounced Mrs. Schmitt's condition as extremely critical, but would not state the probable outcome of her injuries.

In the note to his five children, who under the court separation decree were to divide their time between their parents, said: "Dad has stood by you to the bitter end and sells his love for you with his last drop of blood."

## Back to the Primitive

Cheyenne Agency, S. D.—Sioux Indians will kill and cook an entire beef without the use of firearms, cooking utensils or matches at the Forest City Bridge celebration and rodeo here September 21-22. They will slay the animal with a bow and arrow.

## FREES HIMSELF

Representative T. Alan Goldborough, by his own eloquence obtained his freedom from the State Asylum at Springfield. His wife had tried to commit him as insane.

## Recall Election At Greensboro Drawing Interest

Greensboro, N. C., Sept. 16.—(AP)—Local interest was today centered in developments at the office of City Clerk Sherrill where candidates in the recall election of September 26 must be filed for office before midnight.

Although the withdrawal of T. P. Murphy, former mayor, from the race in opposition to four of the present councilmen, created considerable excitement and surprise, it was indicated today that the other three candidates who have filed against Mayor E. B. Jeffress and Councilmen Ridenhour, White, and Ford would stand by their guns and fight the matter through to the finish. Mr. Murphy withdrew yesterday afternoon after announcing himself the previous day.

City Clerk Sherrill continued to report the heaviest enrollment in years and the books will be open for additional names until nine o'clock tomorrow night. Interest in the recall election is intense, and the recall forces do not appear to be worried because Mr. Murphy dropped from the race. Recall of the four incumbents is

sought on the ground that they have failed to make good on alleged campaign promises, have failed to institute reforms in certain of the city departments, and have not indicated any tendency to operate the city government in a more economical manner than their predecessors.

## GLID DOME OF INVALIDES OVER TOMB OF NAPOLEON

(By International News Service)

PARIS—Untouched for sixty years the great dome of the Invalides, beneath which lies Napoleon's Tomb is to be regilded. Work cannot proceed, however, until the government grants the necessary credits of \$125,000.

The Dome is one of the architectural features of Paris. It is considerably larger than the Dome of St. Paul's in London and rivals the dome of St. Peter's in Rome.

Louis XIV had the Invalides constructed. The dome is made of massive lead and was first gilded in 1715 at a cost of \$40,000. One hundred years later it was regilded at a cost of \$50,000. Since then it has been retouched in 1853 and 1867. Effects of the weather have destroyed nearly all of the gilding and the Dome is now in dull gray in color.

Museum Gets Old Painting  
Charleston, S. C.—A painting by Chao Meng Fu, artist at the court of Kubla Khan when Marco Polo was its guest, has been purchased by Miss Laura M. Bragg, director of the Charleston Museum. The picture, painted in 1312, is on exhibition.

## Notice North Carolina—Pitt County In the Superior Court

Jennie Barfield  
vs.  
Willie Barfield

The defendant above named will TAKE NOTICE that an action entitled as above has been commenced in the Superior Court of Pitt County to have the bonds of matrimony heretofore solemnized between the plaintiff and the defendant dissolved; and the defendant will further take notice that he is required to appear at the court house in Greenville on Monday, the 17th day of October, 1927, and answer or demur to the complaint in said action, for the plaintiff will apply to the Court for the relief demanded in said complaint.

This 16th day of September 1927.

## Cotton--Stocks--Grain

**COTTON**  
New York, Sept. 17.—(AP)—An opening advance was followed by reactions in the cotton market here today but after easing off from 21.75 to 21.25, under a renewal of inaction and Southern selling, December rallied on covering and closed at 21.30.

The general market closed steady with an advance of 18 points.

**CHICAGO GRAIN**  
Chicago, Sept. 17.—(AP)—Misleading advance trade report from Winnipeg as to wheat crop report to be issued this morning had a decided bearish influence today on the wheat market here. The report, contrary to predictions yesterday, was construed here as bearish. The selling side of the wheat market was also advantageous today because export demand for North American wheat was only fair with sales of but 400,000 bushels in positions.

Wheat closed heavy 1 3-4 to 2 1-4 net lower, corn 1 1-8 to 2 1-4 down; oats 1-4 to 3-4 to 7-8 off.

**COTTON SEED OIL**  
New York, Sept. 17.—(AP)—Cotton seed oil closed steady; prime summer yellow 10.30; prime crude 8.70 to 9.00; September 10.30; October 10.20; November 10.50; December 10.20; January 10.55; February 10.60; March 10.80; April 10.85; sales 6,400.

**WEEKLY GRAIN**  
Chicago, Sept. 17.—(AP)—Near misses are becoming the order of the day here as to corn and wheat. Just at present the corn crop of the United States has the lead as a wonder wheat, but the Canadian wheat crop is a close second.

Reports today from authoritative sources indicate that favored by extraordinary heat conditions, a great area of domestic corn which was harvested a few weeks ago, is now in a fair way to make a crop. Meanwhile the Canadian government has increased by 100,000,000 bushels the official estimate of the Canadian wheat yield as compared with a month previous.

Reflecting such an unusual outlook for grain, the price of corn was 107-8 to 116 a bushel lower this morning than was the case one week back and wheat showed 61-2 to 8 drop. On the other hand oats were at a decline of only a shade to 1-2 and provisions varied from 65-10 to 62-10 advance.

**COTTON GOODS**  
New York, Sept. 17.—(AP)—A erratic cotton market following the issuing of the government cotton crop report caused hesitation and quiet in cloth markets for several days. A steady rise in prices was checked in the gray goods and increased 13 per cent. Printed goods sold steadily till cotton began to decline. New spring prices are to be made shortly. Some of the linehems advanced 11-2 cents a yard. Bleached cottons advanced another 1-2 cent on 4-4 goods, denims advanced 1-2 cent and tickings 1 cent. Cotton blankets were advanced five per cent. Print cloths and sheetings reacted 1-4 cent a yard from the extreme top asked after cotton rose last week and when cotton began to decline this week.

**POTATOES**  
Chicago, Sept. 17.—(AP)—Potatoes receipts 1280; on track 311; total U. S. shipments 937 cars; trading slow, market dull; Wisconsin sacked 100-100; 140 to 170; Minnesota sacked round white 130 to 155; Idaho sacked round 135 to 155; sacked russets 225 to 250.

**GOVERNMENT BONDS**  
New York, Sept. 17.—(AP)—U. S. Government Bonds close: Liberty 4 1-4 103.10; Second 4 1-4 100.17; Third 4 1-4 101.2; Fourth 4 1-4 104; Treas. 3 108.30.

**CASH GRAIN**  
Chicago, Sept. 17.—(AP)—Wheat number 2 hard 1.29 1-2; corn number 2 mixed 92 1-2; number 2 yellow 92 3-4; oats number 2 white 48 to 50 1-2; number 3 white 46 3-4 to 47; rye number 2 97; clover 18.80 to 20.25.

### Local Boy Scouts Victorious Over Mosquito Regiment

Twenty-four members of the local organization of Boy Scouts, headed by Scoutmaster C. W. Porter, spent last night camping out at Old River, five miles northwest of this city.

The boys returned to the city this morning, each showing signs of loss of sleep, and much wear and tear.

As led to the cause of the unusual appearance, the boys breathed one word—"sketeers."

Scoutmaster Porter said they were forced to keep a fire burning all night in an effort to drive away the mosquitoes, but that the more smoke created the more concerned became the mosquito attack. He declared they were the only smoke-eating insects he had ever seen, and that he hoped they would be the last.

Several members of the organization passed second class tests. All members will be cited for bravery for withstanding the repeated onslaught of invading regiments of mosquitoes, the scoutmaster said.

### New Registration For School Election

The schedule for the registration of the school improvement election to be held on October 17 is as follows:

Monday, Tuesday and Wednesday September 19, 20, 21, at Hill Home drug store, Thursday and Friday, September 22 and 23 at Denton's drug store, Dickinson Avenue; Saturday, September 24, courthouse office of the register of deeds; Monday and Tuesday, September 25 and 27, at Hill Home drug store; Wednesday and Thursday, September 30 and October 1 at the courthouse.

A new registration is required for this election.

### DEEP SEA FISHING SEASON TO BE IN FULL SWING SOON

Raleigh, Sept. 17.—(AP)—The deep sea fishing season will be in full swing in the vicinity of Morehead City and Beaufort about the first of October. Captain J. A. Nelson, State Fisheries Commissioner, said today. The fall season is approaching and the sport fish from the deep are doing their seasonal moving to within the range of the coast sportsmen.

The inside summer fishing for trout and smaller fish is passing out and the lovers of big fishing are sheathing their light summer tackle as well as light underclothes and wearing and lumbering up their high caliber machinery, to wrestle with the fighting finny sports from beyond the twelve mile limit. Captain Nelson reports.

### METHODIST CHURCH EXPERIENCES GROWTH

Charlotte, N. C., Sept. 17.—(AP)—The Methodist Episcopal Church, South of the Carolinas is not losing members but on the contrary is experiencing an encouraging growth in membership, despite what may have been said and written to the contrary, according to Bishop Edwin D. Moulton, head of the Church in the two States.

The Western North Carolina Conference last year had a net gain of 1,221 members, and the Eastern conference gained 1,259, according to figures given out by Bishop Moulton. The upper region of South Carolina made a net gain of 1,461 and the lower section 610 members. Recent newspaper editorials and statements indicating loss in membership were criticized by Bishop Moulton.

### WEEKLY STOCK REVIEW

New York, Sept. 17.—(AP)—Violent bidding for a number of high priced industrials, several of which are used in the compilation of "averages," gave the stock market the appearance of strength this week, although the general run of stocks made little progress. Trading was almost entirely of a professional nature, with the bulk of the buying supplied by powerful financial pools. On at least three days of the week one fifth of the day's entire volume of business was in the General Motors issues, which mounted to record high prices on reports that last month's sales were the largest of any since the corporation's history. Although the weekly steel trade reviews reported little actual change in the situation, the steel shares displayed a firm undertone on reports that the New Haven and Pennsylvania Railroads would be in the market with record-breaking rail orders in 1928. N. S. Steel common sold above 100 for the first time since the devaluation of the 40 per cent stock dividend. Broker loans again attracted widespread attention when the week's increase of nearly \$43,000,000 in federal reserve funds carried the total to the record-breaking sum of nearly \$1.4 billion dollars. Money rates stiffened temporarily but the renewal rate was back to 3 1-2 per cent in the closing day of the week.

Gossip of Staff Correspondents at World Centers of Population

New Haven, Conn.—(INS)—Mass production in industry, the ability to turn out thousands of motor cars, all of a pattern in a fairly short time and at fairly small cost, can be traced back through the years to a birthplace in New Haven. The creator was Eli Whitney, who gained larger fame as inventor of the cotton gin. Modern users of mass production, to the number of over 25,000 people, have been here in the first week of September to look over the Seventh Annual New Haven Machine Tool Exposition, being held as usual in Mason Laboratory of Mechanical Engineering at Yale University under direction of the American Society of Mechanical Engineers.

New Haven was selected as the home of the largest exposition of the sort in the United States because of the historical associations with the founders of the great manufacturing system used throughout the country. Eli Whitney, patron saint of the manufacturers is recalled to memory all over the district where the exhibit is held, and his descendants visit the institution.

About a century ago several ingenious New England mechanics, at the instigation of Eli Whitney, who was then engaged in making firearms, conceived and worked out a system whereby firearms of superior quality could be manufactured with extreme rapidity and at very low cost. The system has become known as the "Interchangeable" or "American" system. From firearms the system was introduced to the manufacture of clocks, watches and sewing machines. Then it spread to the bicycle and through that to the automobile industry. Closer home yet, even it is used in making washing machines, vacuum cleaners and the manifold electric devices which enter so intimately into every day life. And recently it has been adapted to making air craft.

"Upon this system of manufacture Eli Whitney's fame should properly rest as much as upon his more widely recognized invention of the cotton gin," say the men guiding the exposition here.

Wesleyan University, Connecticut's second largest educational institution, is troubled, like many other colleges, with lack of room for its students. Wesleyan, like Yale tried to solve the problem of limiting its freshmen class but even that hasn't helped much. So this year some ninety Wesleyan students will be forced to live off the campus as compared with sixty last year. A large dormitory, to bear the name of "Harrison Hall" is being erected but will not be finished until another spring rolls around.

The next sizeable structure to be erected for the benefit of Yale University will be gymnasium. A site for the new building, with adequate outdoor room for the students, is being assembled near the main plant of the institution, and some announcement concerning the new structure is to be expected before the winter is over. Another fall, probably will see work started on the large new law school plant, near which the new gymnasium is to be built, and work on the proposed Sterling Library also seems not far distant.

## TODAY

Continued from Page One

\$22,000,000 to provide production of 12,000 new cars a day.

An automobile fight is coming and when the dust settles you will find all those that understand the automobile business selling more cars than they ever sold.

With big wages and prosperity, the two car man and the four car family are increasing. Thirty million new cars will take the places of twenty-two million old cars now running in the United States.

Dr. Mees, who directs Mr. Eastman's scientific laboratories in Rochester, says science will end war by making it to beasty and too expensive.

Another force greater than science in our civilization is working to end war, and that force is ORGANIZED MONEY.

Money has discovered that war kills more dollars than men. That it creates heavy income taxes, and other troubles, organized money knows that future wars would result, at the very start, in confiscation of capital to meet expenses. Organized money, which usually gets what it wants, doesn't want war, a cheerful fact.

A young man who had been pronounced dead was brought to life fifteen minutes later by an injection of adrenalin, a life substance

secured by one of the mysterious glands. Doctors hope that many apparently dead may be saved. They even hint at artificial creation of life. They may create that which may be lacked life but how will they create THOUGHT? the great Darwin, explaining much by "Evolution" was baffled when it came to explaining the development of the eye sight.

The Spanish government will search for gold and silver thrown into the sea from Spanish galleons attacked by the British in Vigo Bay, 225 years ago.

Spain could find greater treasure, without risk of failure by harnessing her waterfalls and establishing more public schools for the education of children.

## PUTS BAN ON CROP REPORT

(Continued from page one)

Federal Department at Washington, William A. Graham, State Commissioner of Agriculture, says that the State Department's policies will be in no way affected by Federal policies, was the authentic word to the department today.

A sharper line of demarcation was recently drawn between the two departments and it is not improbable that there will be a still greater reparation of the work, it was added.

Information received at the State department today was to the effect that commissioner Graham was chairman of the committee at New Orleans yesterday which in the name of the New Orleans Cotton Exchange submitted a resolution condemning the government cotton price predictions.

The report in question, attributed to the Federal department of Agriculture, expressed the opinion that cotton prices would decline within the next few months and brought a protest in New Orleans at "A Pronouncement which may be considered as a governmental opinion on the future prices."

The department statement here said commissioner Graham has been dubious of such reports, bearing on cotton estimates and he recently declined to put the department on record as favoring their continuance. This occurred when a Federal representative visited him at the Capitol.

As a matter of fact, it was said, he not only declared to continue with the reports, but added that any information committing the State Department of Agriculture to a defense of these reports would be unauthorized and would not have his sanction.

Mr. Graham has not returned from New Orleans.

## Germany Endorses War Referendum

Berlin—(AP)—Ambassador Houghton's advocacy of a popular referendum on war has the unqualified approval of Prof. Albrecht Mendelssohn-Bartholdy of Hamburg, executive secretary of the Carnegie Endowment for International Peace and prominent authority on international law. His endorsement of the ambassador's plan has appeared here as a preface to a German translation of the referendum plan.

"The outstanding merit of Ambassador Houghton's proposal to take a decision to go to war out of the hands of governments and to make the people effected decide it for themselves, is its sterling honesty," he says. "Others have made suggestions that looked good too. But they were suggestions of the kind that governments might accept with mental reservations, and they were full of loopholes."

"One might reply to Mr. Houghton," continued Mendelssohn-Bartholdy, "that democracies are more extensible, more nationalistic, more credulous than governments or premen officials, in whose hands, as we all know, the decision for war or peace lies. Quoting Jeremiah Smith, the regenerator of Hungary: 'Would the people of Germany and Austria have chosen peace in 1914? Would the people of the United States in 1898?'"

"Nobody knows. But there ought to be no more wars, with all believers swearing they never wanted war and no one being able to explain why it was waged at all."

"State outside of the League of Nations, like the United States and Russia, could subscribe to the Houghton plan without any impairment of their sovereignty."

"The great feature of the plan is that it would definitely lay down the duty of a government toward its people—a violation of which by a government would automatically release its people from allegiance to it at a crucial time when the state needs the allegiance of all its citizens. For that reason alone, the duty would be strictly observed by all governments."

"Ambassador Houghton's plan is our plan, and we will give it our whole-hearted support, in Germany, in Europe and in the world."

## TWO PRISONERS PARDONED TODAY

RALEIGH, Sept. 17.—(AP)—Two convicted slayers, Buck Dees and Henry Hunt, sentenced at the January term of Robeson Superior court to serve five to ten years for second degree murder, were today pardoned by Governor McLean. The act of clemency followed recommendation from trial Judge Barnhill and Solicitor McNeill.

Clara Scratch, convicted in Lenoir county for assault with a deadly weapon and sentenced to serve six months; Joseph Oldham, convicted of house breaking in Chatham county and given four years; and William Bailly, convicted in Wayne county of Bigamy and sentenced to four to seven years, were also pardoned.

# LET'S GO TO CHURCH

## WHAT DO I OWE TO THE CHURCH

(By REV. R. J. BAMBER)

There are those who seem to take delight in "flinging" at the church. They do not seem to realize that nearly everything they prize in Christian civilization is due to the church of Jesus Christ.

In 1760 Voltaire said, "Ere the beginning of the nineteenth century Christianity will have disappeared from the earth." Now the room in which he uttered that statement has been a way station for the Bible Society in which for a number of years it has been piled ceiling high with Bibles on their way to Christianize the nations. During the intervening years Christianity has had its greatest growth. In the year 1500 A. D. there were 100,000,000 nominal Christians in the world; in 1800 there were 200,000,000; and at present with a world population of about 1,700,000,000, there are over 600,000,000, or about one-third of the entire population of the globe.

In our own country Christianity has grown more than five times faster than the population. One

hundred years ago there was said to be one professing Christian to every fifteen of the population, and now there is one in every three, and excluding children, one in every two, nearly. Christianity grew more rapidly in the last century than in the previous eighteen centuries.

"Take the church out of the world today and the light of the world would be lost, and the salt would lose its savor. The church is more Christian today than it ever was before, and this better church is making a better world."

A great body of legislation is growing up regulating railways, monopolies, trusts, child labor, the labor of women, the hours of labor protection against dangerous machinery, unsanitary conditions and related matters. The social conscience is at work. Public and private charities and philanthropies have multiplied a thousand fold and social justice is everywhere apparent.

The church of the Lord Jesus Christ is bringing about these blessings and conditions and we owe the church our generous and enthusiastic support. Let us give it our best and highest.

## CHURCH DIRECTORY

### Eighth Street Church of Christ

R. J. Bamber, Pastor  
Church School at 9:45 a. m.—W. E. Hooker, Supt. Be on time. Classes for all, graded and departmentalized.

6:45 p. m.—F. W. B. League.

8:00 p. m.—Evening worship.

Wednesday evening—Mid-week prayer service.

A welcome awaits you at all our services.

### Multiply Air Speed By Six Since 1913

Calshot Air Station, England.—(AP)—The advance in air speed since 1913, when the Schneider Cup race was first held, seems incredible when it is recalled that the winner, a French airplane, only reached a speed of 44.7 miles an hour.

England captured the trophy in 1914 with a speed of 55.3 miles an hour, while the next meet in 1919 at Bournemouth, England, resulted in no award. In 1920 Italy won with 102.5 miles, and it repeated the victory in 1921 with a speed of 117.4 miles.

Great Britain recaptured the trophy in 1922 with a speed of 146.5 miles, but lost it again in 1923 to the United States when Lt. D. R. Rittenhouse made 177.38 miles an hour at Cowes, England, in his Curtiss D-12 biplane. In 1925, when the next race was held at Baltimore, Lt. J. H. Doolittle retained the trophy for the United States with a speed of 232.57 miles an hour in his Curtiss racer.

Italy won back the award in 1927 when Major Mario de Bernardi made 246.49 miles an hour in his "Mach-Flat" at Hampton Roads, Va.

The Schneider Maritime Aviation Cup was presented in 1912 to the Aero Club of France by M. Jacques Schneider, a French sportsman and aviator, with a view to developing high speed airplanes, it is a magnificent trophy of gold, silver and bronze, valued at \$5,000.

The country winning the cup is required to schedule and hold the race on the following year. The Schneider Cup course is a triangular course of 188.86 nautical miles.
