LOSS OF LIFE REPORTED IN HEAVY STORM

Six Killed and Many Injured by Rain and Wind From Washington to Canada.

New York, Nov. 18.—(AP)—Rain storm left in its wake today a death list of at least six persons and a string of damaged cities, towns and villages extending from Washington to the Canadian border.

High winds and rain that caused serious damage and the loss of one life in Washington, threatened a new flood in New England, hit the metropolitan district of New York, upper New York State and some parts of Pennsylvania with unusual severity.

Slippery roads and a heavy mist were responsible for the death of three persons who were drowned near Syracuse when their automobile plunged down a 30-foot embankment into a canal. A motorist was killed by a train on a grade crossing at Hawthorne, N. J., when rain obstructed his vision, and another man was drowned near Salamanca, N. Y., when a ferry boat was swept from its moorings.

Upper New York State reported heavy damage from flooded streams. The town of Philadelphia, N. Y., was flooded when the banks of the Indian River overflowed.

In Ogdensburg, Plattsburgh, Canada and Salamanca also there were flood conditions.

A gale between Reading and Pottstown, Pa., wrecked barns, a small schoolhouse and a 75-foot iron bridge. Several other towns in Berks County, Pa., were damaged.

In the Winosky Valley in Vermont the Red Cross sent out warnings of possible fire danger as wood was received from the Weather Bureau in Washington indicating a storm of 24 hours or longer duration.

Forecasts of cold weather, however, indicated that new floods might not be serious.

Washington, Nov. 18.—(AP)—The National Capital turned today to the task of bringing order out of the tangle of tornado-straw wreckage in the eastern section of the city.

Sweeping out of the South on the wings of a 53-mile gale, the devastating twister left a swath of destruction late yesterday from Alexandria, Va., to Hyattsville, Md. It unroofed houses, felled trees, overturned automobiles and tore down transmission wires. A negro woman was struck and killed by lightning, more than 200 were injured and property damage was estimated at several millions dollars in Washington alone.

The federal and municipal governments and the Red Cross were quick to meet the situation. The War Department immediately volunteered the services of all its army forces in the vicinity of Washington, the Red Cross dispatched its relief workers to the scene and the local authorities mobilized police and firemen for service in the stricken area.

Schoolhouses were thrown open for the night to residents whose homes had been made uninhabitable and the Red Cross and the army supplied coats and blankets.

Only the eastern half of the city felt the effects of the tornado and the western half, at height of the storm, pursued its usual routine, unaware of the havoc being wrought on the other side of the capital.

In Alexandria, the Red Cross reported that 25 were in a serious condition at hospitals and that 75 had been treated for injuries in their homes. Seventy-five buildings and dwelling houses were damaged and property loss was estimated at \$500,000.

Half a million dollars damage was done at the Anacostia Naval Air

Delinquent Tax Payers Get Busy In Mecklenburg

Charlotte, Nov. 18.—(AP)—The threat of prosecution and possible jail terms for delinquent Mecklenburg County taxpayers is bringing results, according to D. M. Abernethy, chairman of the county tax commission. The list reduced from 300 to 150 Wednesday was cut considerably below the latter figure yesterday and was still being trimmed today by the number who hurried to the county courthouse to make their returns.

Two weeks ago, approximately 1,750 taxpayers were notified that all who had not made returns by November 15 would be prosecuted. Those who are still delinquent in payment of their 1926 taxes, will head the list, Mr. Abernethy said.

TODAY

Germany Rolling the Stone Artificial Rubber.
One Language is Plenty.
No Socialism Needed.

(By Arthur Brisbane)
Copyright 1927, by Star Co

Ancients imagined unfortunate Sisyphus, rolling his stone up a hill, only to have it roll back, then pushing it up again.

Germany is the 1927 Sisyphus, her heavy reparations bill is the stone—millions paid out and hundreds of millions to be paid.

If the "plan" goes on, Germany must pay in the year 1927-28 1,750,000,000 gold marks, or \$437,000,000 odd and each year thereafter \$225,000,000 in gold.

The world asks, "Can the thing be done, and if it can, will Germany do it, or find a way out, and what could the Allies, especially this nation, do about it if Germany should refuse the gigantic annual tribute?"

Germany, perhaps, COULD pay. She saves the cost of a huge army and navy, permitted no longer. And hundreds of thousands that would be idle soldiers, living on workers, are now at work, helping Germany to under-sell the rest of the world.

And Germany is ruled now, by the brains of Germany, no longer by the decaying remainder of the ancient Hohenzollern money lending family.

Of one thing be sure. Adversity is a good school. Germany has been through it and has graduated. Speculators now selling German industrial and bank stocks short, will rue it.

Recently this column, commenting on the alleged plan of Firestone and Ford to grow their own rubber, suggested that artificial rubber might come before the Ford-Firestone trees begin turning out tires.

Today Germany announces synthetic rubber, alleged to be made for less than natural rubber.

If Germans work at that as they did at aniline dyes rubber plantations may go to join the extinct cochineal industry. And synthetic rubber may pay one-third of Germany's reparations.

Professor Tasilo Schultheiss teaches only Latin, Greek and religion, but knows seventy-seven languages, in addition to the Greek and Latin. Some discouraged may ask: "What's the use of my trying, when one man can know so much?"

For your comfort, remember that Homer, Dante and Shakespeare knew, each, only one living language and they are the three greatest writers. It's not how many

OIL SQUABBLE ABOUT ENDED

Washington Officials Optimistic Over Developments in Mexico Oil Field.

Washington, Nov. 18.—(AP)—Washington officials looked optimistically at the Mexican situation today as a result of the latest development in the controversy that has raged around the oil law of that country.

Declaring the law's disputed sections 14 and 15 unconstitutional insofar as they applied to the case at hand, the Mexican Supreme Court has issued an order restraining the department of industry, commerce and labor from cancelling drilling permits held by the Mexican Petroleum Company, an American concern, one of several that have sought to test the validity of the oil statutes.

Under Mexican law, however, four similar decisions from the Supreme bench will be necessary before these articles can finally be declared unconstitutional. Three additional actions instituted by the Mexican Petroleum Company are already being adjudicated and it was hoped that a sweeping decision would follow.

Sections 14 and 15 of the oil law, which became effective at the beginning of this year provided that beginning December 31, 1926, foreign operators should apply for concessions confirming right to oil land obtained prior to the adoption of the constitution of 1917. Upon failure to comply, these rights could be assigned to others.

The Washington government contended that the law was retroactive and confiscatory.

REMUS HELPS SELECT JURY AT HIS TRIAL

Wife Slayer Apparently Satisfied With Progress of Trial at Cincinnati.

Cincinnati, Ohio, Nov. 18.—(AP)—George Remus, held the upper hand today in naming jurors to sit in his murder trial.

The Ohio law gave him six successive peremptory challenges, one to the prosecution and then a final one to the man who shot and killed his wife in Eden Park here less than two months ago.

With that power the short, stout, barrister who deserted the law to try to become bartender to dry America, only to revert to it when he found himself emmeshed in its toils, could nish for at least half a dozen or women acceptable to him.

Indications from the Remus' legal camp, a cell-library on the fifth floor of the Hamilton County jail-courthouse building, were that Remus was satisfied with most of the tentative jurors already seated and might not ask that more than one or two be excused.

In that event he would not lose the right to exercise the remaining peremptory challenges, but would force the prosecution immediately to remove the last person to whom it could take legal exception.

The Remus position of attorney or lawyer for himself, was jeopardized yesterday when Judge Chester F. Shook admonished him to be silent after ruling had been made from the bench under penalty of withdrawal of the right to defend himself.

Remus, appearing in his fourth spectacular demonstration before the tentative jury and against Charles P. Taft, 2nd, county prosecutor, brought the wrath of Judge Shook upon himself by continuing one-sided arguments after the court had ruled.

The clash with Taft came when Remus, for the second time, chose a strategic point for interrogating a venireman.

THREE KILLED IN SNOWSTORM

Northern Illinois, Indiana and Wisconsin in Grip of Snow and Sleet Blizzard.

Chicago, Nov. 18.—(AP)—A swirling blizzard of sleet and snow that followed close on the heels of a freezing gale from the Northwest almost halted traffic in Northern Illinois and Indiana and Southern Wisconsin, blanketed the States under two inches of snow and was charged with the responsibility for three deaths in Chicago.

Three people were killed and many injured in automobile accidents throughout the section. In Chicago wrecked cars were drawn alongside the curb as they occupied the South, and garage owners reported themselves swamped under emergency calls.

Hundreds of Chicago's floating population were caught unaware and hunted lodging in the police stations.

Street car officials ordered plow crew on duty and the street cleaning department here was prepared to mobilize shoveling brigades necessary to keep traffic open.

Air Mail Pilot McGinn who took off on the Eastern trip last night was forced to return and the mail was forwarded by train.

Weather Bureau officials predicted continued snow and sub-freezing temperatures for today.

Snow and cold prevailed throughout the lake States. Mayor Thompson, on a hunting trip in Wisconsin, was reported almost snowbound, while Governor Green of Michigan, with another hunting party was snowed in and telephoned that he did not expect to get clear before the end of the week.

Ponder This, Will You

Columbia, N. C., Nov. 18.—(AP)—Although modern in many respects, this little Eastern North Carolina town with its brick schoolhouses and paved streets continues to observe the curfew bell which rings on winter evenings at eight and on summer evenings at nine o'clock.

Thringing having changed from ancient law to home custom, finds all juveniles off the streets and at home.

OHIO KIDDIES' GIFT TO YOUNG KING OF RUMANIA

Children of Sandusky, Ohio, have sent this box of American paints, brushes and pencils to six-year-old King Michael of Rumania, as an expression of friendship and sympathy. Photo shows Andrew Gordon, who wrote letter accompanying gift, and ban her sent with present. (Int'l. Ill. News.)

SEES EARLY ACTION FOR TAX MEASURE

Senator Curtis Says Congress Will Dispose of Tax Question by February.

Washington, Nov. 18.—(AP)—Disposition of the contests over the seats of senators Smith of Illinois and Vare of Pennsylvania, both republicans, by the Christmas holidays is planned by Senate leaders.

Senator Curtis, the republican leader, wants congress in a position to adjourn by the opening of the national party conventions next June and to that end he is hoping for early action on the tax reduction bill as well as the Smith-Vare case.

The tax measure, which is promised the senate before the Christmas holidays by the house, can be disposed of, Senator Curtis believes, by February, and certainly before March 15.

Flood legislation, involving appropriations, likewise must start in the house, the Kansas senator feels, but this, too, he would push through to an early conclusion.

Meanwhile, senate attention is focused on the contest against senator Smith and Vare which are based on the charges of excessive expenditures in their party campaigns as revealed by the senate campaign funds committee headed by senator Reed, democrat, Missouri.

There is a growing feeling that if an agreement is reached where by an early date will be set for a vote on the contests that the senators may be allowed to assume their seats, pending disposition of their cases.

However, it is certain that their right to take the oath of office on the opening day will be challenged, thereby forcing the issue immediately before the senate.

If the two senators are rejected, republicans would have only 46 votes by the documents. But on the question of organizing the senate, it is expected that senator shipstead, Farmer-Labor, of Minnesota, will vote with the republicans, giving them an equal standing. Then, senator Black, democrat, of South Carolina, has said he would vote with the republicans on this point, thus virtually assuring republican control of organization, at least.

Disposition of these two problems—organization and the Smith-Vare cases—before Christmas will put the senate in a position to go full speed ahead on its legislative program early in the year.

GREENSBORO MEN HELD ON ARSON CHARGE

Wilmington, N. C., Nov. 18.—(AP)—H. T. Ireland and J. L. Bird, prominent Greensboro business men, were indicted by the New Hanover County Grand Jury today on charges of arson growing out of the burning of the Carolina Beach hotel near here early in September.

Will Not Pay Suicide Policy

Columbia, S. C., Nov. 18.—(AP)—The Philadelphia Life Insurance Company will not be required to pay the \$5,000 policy held by Richard F. Wright, Georgia Tech football star, who committed suicide May 29, 26, by the terms of a disputed verdict yesterday by Judge Ernest F. Cochran in the suit brought by the estate of young Wright against the insurance company in Federal court here. Before entering Georgia Tech, Wright was a Sumter, S. C. High School football star.

Dr. A. H. Armstrong, of Georgia Tech faculty, testified at a trial that notes indicating suicide were found after the young man's death.

The insurance company declined to pay the policy on the grounds that it was issued July, 1922, and carried a "suicide clause" operative for two years.

The directed verdict was given on motions of both sides.

HEAVY SALES OF TOBACCO HERE TODAY

Over Million Pounds Of Leaf Brings Season's Total to Over 51,000,000.

With over a million pounds of tobacco on the floors of the seven large warehouses, season sales on the Greenville tobacco market today passed the 51,000,000 pound mark. It was indicated at the noon hour that sales would be completed during the afternoon.

The market yesterday sold 795,052 pounds of bright leaf for \$21,907.94 at an average of \$26.65. This brought the season's sales to 49,933,534, according to information given out this morning by K. W. Cobb, secretary of the tobacco Board of Trade.

Greenville set a new record yesterday by passing the number of pounds of tobacco disposed of here last season. With several more weeks to go, it is conservatively estimated that the market will be able to bring the season's sales up to fifty-five or sixty million pounds. Total number of pounds sold last year amounted to over forty-nine millions.

The success of the Greenville market this season is the result of untiring co-operation between members of the local Tobacco Board of Trade, business interests and the hundreds of farmers served from various parts of the belt. Numbers of growers who had never visited this market before, brought their offerings here this year. They expressed complete satisfaction at the consideration which they received on every hand and declared themselves mighty well pleased at the price situation.

SHIP WRECKED BY EXPLOSION EARLY TODAY

One Killed and Three Injured When Fuel Tank Explodes Aboard the Jacob.

Baltimore, Nov. 18.—(AP)—A terrific explosion wrecked the steamer Jacob today, killing one man, injuring three others and blowing at least one man overboard.

The explosion occurred on the first deck of the vessel where workmen were said to have been engaged with an acetylene torch near a fuel tank.

Every ambulance in the city was summoned to the yards of the Union Shipbuilding Company at Fairfield, on the southern edge of town, where the ship had put in for repairs.

Thirty-five men were at work on board the vessel, and police had reports of a large number of injured.

Witnesses told of seeing pieces of the ship falling in every direction.

Harry Hughes, an employee of the shipbuilding concern was the first to reach the wreckage.

"I heard a terrific blast and ran outside," he said. "I saw pieces of the ship falling in every direction. I went to the aid of the injured men but I don't know how many there were."

The dead man was identified as Todvil Simonsen of this city, a lugger and crane-man.

First examination at Baltimore Hospital revealed that Carson had a broken neck. All of the injured were thrown 25 to 30 feet by the blast.

The awning deck of the freighter, a piece of steel 18 by 12 feet, was hurled to the deck of the steamer Columbia nearby.

Like the explosion in Pittsburgh on Monday last, when more than a score of persons were killed, acetylene torch and gas tank were believed the cause of today's blast.

"I was working amidship with an acetylene torch preparing to cut loose some stuff," said Carson, "when something happened and I don't know what it was, there was a big roar and I was thrown to the deck and came to here in the hospital."

"Whatever it was it cut loose down in the bunkers beneath me." The Jacob was an oil burning freighter which went to the rocks near San Francisco some time ago and was towed here for scrapping.

Three Held On Murder Charge

Hendersonville, N. C., Nov. 18.—(AP)—Report on the analysis of the viscera of Lydia Case, 20, Henderson County girl, whose body was found in a barn near here Saturday, will not be ready before late this week, Coroner A. L. Beck has been informed by State Chemist Walter M. Allen, the coroner said today. Report on the viscera of Ezel Lydia, Henderson County youth, who was found dead at his home Saturday, is expected about the middle of next week.

Three young men are being held in connection with the girl's death. Events preceding the death of the youth, relatives said, point to the possibility that he was poisoned by alleged bootleggers.

GORDON QUILTS COMMITTEE IN OIL JURY CASE

Tells Justice Siddons He is Convinced There Has Been Contempt of Court.

Washington, Nov. 18.—(AP)—District Attorney Gordon resigned today from the special committee of three appointed by Justice Siddons of the District of Columbia Supreme Court to determine whether there had been a criminal contempt of court in the Fall-Sinclair oil trial jury scandal.

In a letter to Justice Siddons Mr. Gordon said he and the special government oil counsel had filed the affidavits on which a mistrial in the case was ordered an add:

"I was then, and I know, as were also the special government counsel, convinced that there was reasonable cause to believe that a criminal contempt of the court had been committed, and I and those with whom I was associated were ready and willing to prosecute such persons against whom the court might see fit to issue a rule to show cause, or a citation, why they should not be adjudged in contempt of court; and the affidavits thus presented to and filed in court were the basis and cause of the action of the court on November 2, 1927, in withdrawing a juror and discharging the jury from further consideration of the case and declaring a mistrial."

Washington, Nov. 18.—(AP)—Efforts to discredit the testimony of William J. McMullin whose disclosures in the Grand Jury investigation of the Fall-Sinclair mistrial created a sensation, were characterized by District Attorney Peyton Gordon as attempts to obstruct justice and to intimidate a government witness.

McMullin called the District Attorney by telephone late yesterday from Philadelphia to inform him that he was being annoyed by persons whose interests were undetermined and that others were seeking derogatory information about him from his neighbors.

Although still under summons, he had been permitted to return to his home with instructions to communicate immediately with the district attorney's office should any such efforts come to his attention.

Before the Grand Jury he declared that his associates and superiors of the Burns Detective Agency had deliberately falsified reports on the movements of the trial jurors in order to bring about a mistrial if the defense thought one necessary.

Day's counsel, Daniel Theobald, today withdrew the request for a reduction in bond. Mr. Wright said he had moved for the reduction on his own initiative and that his client after reading the newspapers, directed him to let the bond stand at the original sum.

Calling attention of the court to publications that Day was making an effort to have his bond reduced in order that he might more comfortably and agreeably file the jurisdiction," Mr. Wright said: "What sane, sensible and inflexible nonsense; a fair parallel to the exhibition of purple hysterics concerning Mr. Day which has so impeded the sensible affairs of the courthouse."

"Since then, in my official capacity," Gordon added, "I have presented to the grand jury evidence on every phase of the situation, and have quite positive views as to who should be prosecuted and the course I should pursue in that capacity."

"In these circumstances it would seem to me that to act in my official capacity to make an inquiry into a matter of which I am already cognizant, which I have already decided in my own mind, and as to which I am already convinced might, as to the action, I should take place in an anomalous and inconsistent position."

UNION LEAGUE WILL SUPPORT MR. COOLIDGE

Pennsylvania Political Organization Endorses Administration of President.

Washington, Nov. 18.—(AP)—From the Union League of Philadelphia, for sixty-five years a factor in Pennsylvania politics, President Coolidge has received an endorsement of his administration and a promise that it will support him in any course which he, as "a national leader may choose to outline for the future."

This announcement, notable for its similarity to the President's Black Hills statement brought forth a slight reaction from Mr. Coolidge when it was made last night in Philadelphia and he waited calmly until a prolonged applause had subsided to launch into a discussion of American prosperity and development, detailing his plans for the future in the most comprehensive way he has ever done except Congress.

The first public reference to Mr. Coolidge's political future made in his presence since he announced in South Dakota that he did not intend to run for re-election next year came from William C. Sprull, president of the Union League and former governor of Pennsylvania, as he presented the executive with the League's gold medal for conspicuous public achievement.

"We wanted you to come here," Mr. Sprull said, "because we wanted you to see what a worth while people think of you, and your works, how they respect your presence, admire your courage and how they will stand by you as a national leader to whatever course you choose to outline for your future."

The President's address was repeatedly interrupted by applause especially when he pledged himself to a high protective tariff and stated an opposition to putting the government in business.

"Without the influence of the protective tariff," he added, "it would never have been possible for our country to reach its present stage of diversified development with its liberal rate of wages, its unprecedented distribution of wealth and its high standards of living. If these conditions are to be maintained, that policy will have to be continued."

Declaring that the United States has reached a new era in which its prosperity, "because of economy in national expenditures," may begin to be diverted to a development of its resources and defenses, Mr. Coolidge told the league that he has in mind a bigger navy, with more cruisers and submarines, development of a Gulf to the Atlantic waterway and of the Colorado and Columbia river projects, control of the Mississippi River, a larger merchant marine, provided by private capital, another "moderate" tax reduction and further cutting down of the national debt.

"These," he said, "will be some of the rewards of a judicious management of the national finances. But let it be remembered that reduction is possible solely on account of economy," and then he added amid laughter and applause that "anybody can spend the money, somebody else has saved."

Fords Deny Any Obligations To Lincoln Holders

Detroit, Nov. 18.—(AP)—Henry and Edsel Ford assumed no obligations to reimburse stockholders of the Lincoln Motor Company when they purchased the assets of that company at a receivership sale in 1922, according to a statement issued today by Edsel Ford.

The statement was made in connection with the filing of a suit in chancery against the Fords by Henry M. and Wilfred C. Poland, former president and vice president respectively of the Lincoln Company on behalf of the former stockholders. The suit seems approximately \$4,000,000 on the ground that the Fords verbally agreed to make such reimbursements.

Held For Bigamy

Asheville, N. C., Nov. 18.—(AP)—George M. Watson, 23, of Henderson, is in the Black Mountain jail in default of \$2,000 bond, following his marriage carry this week to Miss Dorothy E. Austin, 18, of Ridgecrest, and subsequent arrest on charges of bigamy. Officers who arrested Watson said that about two years ago the young man went to California and returned with a young woman who said he had married.

Greenville-Wilmington Highs Clash This Afternoon

GREENVILLE'S HOPES FOR FOOTBALL CHAMPIONSHIP

Top Row—Porter, coach; Forbes, Wilson, Clark, Dudley, King, Palmer, Hodges, Harvey, Eason, Skinner, Thomas, manager. Bottom Row—Robertson, Hicks, Anthony, Smith, Briley, Whedbee, captain; Ferguson, Res. Mills, Rosie, Tucker.

LOCAL OUTFIT IN FINE TRIM FOR THE GAME

Greenville High School football team left this morning for Warsaw where this afternoon they will play Wilmington in semi-finals of the eastern division of the State championship elimination series. The team was accompanied by numbers of supporters who will furnish sideline support while the game is in progress.

The club went through final practice at the fair grounds yesterday afternoon, and Coach Porter expressed himself as entirely satisfied with the team's condition. He said the boys were in the best form of the season and would be in position to give the Wilmington Wildcats strenuous opposition at every stage of the contest.

It was understood today that Wilmington would operate a special train to the game. In this instance hundreds of "rooters" will be on the sidelines furnishing moral support for the Cats. While Greenville's transportation plans were not staged upon such an elaborate scale, it was indicated at the noon hour today that the city would be well represented. A bus left Porter Hotel station at twelve o'clock. It was followed by numbers of automobiles bearing high school students and others interested in the outcome of the championship battle.

"How is the outlook for today?" Coach Porter was asked as he prepared to leave for the scene of battle. "Fine," was the laconic response. "We are going down to Warsaw to win and if hard playing counts for anything, we are going to return home with a whole side of bacon trailing behind us." Wilmington and Greenville are probably more evenly matched than any other clubs participating in championship battles this season. While the Cats have more weight, it is generally conceded that Greenville has it on them in speed and endurance. Comparative figures compiled from scores of recent games, give Greenville a slight advantage, but according to opinion of Coach Porter, this will count for little when the clubs actually come together.

"The best of dope may be upset in a game like this," he declared, "and the winner today will not be known until the final play has been made."

Sport Jots

Atlanta, Ga., Nov. 18.—(AP)—Winter sports are beginning to show their kaleidoscopic shadow over Dixie as King football prepares for the last assault of a long campaign.

Its tennis, golf, track and basketball that are taking the picture although the old "Stope Pipe" League is beginning to warm up to baseball chatter.

Florida last year tried out the plan of a West Coast Golf League for men and the plan worked so well that now a nine club circuit or women players is being formed. They start play soon.

Thirteen cities of the Florida Gulf area opened their West Coast Golf League yesterday for men and women players. Last winter the league had only eight clubs but a number of cities of the Interior have come into the loop.

Cross country teams of the Southern Conference will vie at Chapel Hill tomorrow in their annual five mile jaunt. The Tar Heels won the event last year at Athens, Ga., and have another strong team. So have several others.

Pinehurst has already started running its golf tournaments that will grow "bigger and better" each month from now until early April. The leading pros will move that way in the winter after they have

concluded play on the lower California coast, in Texas and Florida.

Albany, Ga., also offers a golfing attraction this month in the form of a Thanksgiving day tournament, for players from several Southern States. Joe Kirkwood, the Australian trick shot expert, is looking after the club arrangements there for the tournament.

Then there is the Florida open, the Florida amateur, the Miami Beach open and a dozen other golfing events of first magnitude remaining. On top of all that for Florida is the opening of a tennis league soon with ten west coast cities entering.

Black Gold, winner of the Kentucky Derby several years ago, will be among the famous running horses at New Orleans this winter for the racing season which opens early in the year and goes to the annual climax, the New Orleans derby, an event of national attraction. Boo won the derby last spring.

Plans for the Southern open, which was held in Atlanta last March, with prizes of \$12,000 and which drew most of the nation's leading pros and amateurs, including Bobby Jones, have not been announced yet. This event created interest of near national open proportions.

Duke Has Heavy Schedule For 1928

Durham, Nov. 18.—(AP)—Duke University will undertake one of the stiffest football schedules ever attempted by a North Carolina team in 1928 it became known today. A total of ten games will be played four with State teams and six with outside eleven.

At least four of the games will be inter-sectional. The University of South Dakota will be seen at Hanes field on October 6 and on October 27 Georgetown University will be played at Washington. Boston college is booked for a game at Boston on October 12.

The schedule will include another game with the Navy which was met this year. The date for this game has not yet been announced but is expected to be made public tomorrow.

Games with Davidson, North Carolina State, the University of North Carolina and Wake Forest College have been booked but the exact dates have not been determined although it is probable that all will be played during November leaving the outside games for October and late September.

The Blue Devils broke into inter-sectional class this year with games with Boston College and the Navy

Great Player Relaxed

Ann Arbor, Mich.—(AP)—Louis Gilbert, Michigan back, is a great athlete because he is relaxed and unconcerned, Coach "Tad" Wieman declares.

Wieman says he never knew two men in his life more unconcerned in the heat of battle than Gilbert and Benny Friedman, last year's All-American quarterback, whom Gilbert succeeded as a forward-passing partner of Bennie Osterbaan.

Call Phone 602, Eureka Laundry.

Teams Play For Odd Trophies

Chicago, Nov. 18.—(AP)—Three of the five Western Conference football games in tomorrow's closing program involved the yearly ownership of odd collegiate souvenirs, highly treasured by the successful teams.

Michigan and Minnesota fight for a lease on the "Little Brown Jug" Purdue and Indiana in their annual battle, decide the transfer of the old oaken bucket. Illinois and Ohio fight for the "Ill-Back" and little wooden turtle which has many football scores inscribed on its back.

MANY TEAMS RESTING FOR THANKSGIVING

Atlanta, Ga., Nov. 18.—(AP)—AP though most of the major football squads of Dixie will be resting tomorrow for Thanksgiving Day battles, enough of them will have contests to attract more than passing interest.

Vanderbilt and Maryland, the only game between Southern Conference teams, will focus attention on Nashville where the old lines, carrying an eleven that has shown much latent power will attempt to administer the Commodores their first beating of the year.

The other conference teams in action during the week-end all have non-conference opponents.

Georgia playing Mercer tomorrow at Athens remembers its 20 to 0 superiority of a year past over the Bears.

Georgia Tech expects to atone for a 7-6 dubbing received at the hands of Oglethorpe in '26.

North Carolina goes to Durham to play Duke. The Tar Heels won last year 6-0.

Kentucky will also go visiting to the Centre at Danville. The Colonials upset the Wild Cats last autumn, 7 to 0.

Furman emerged triumphant over the Citadel a year ago, 7 to 0.

Micky Walker And Berlenbach To Meet Soon

Chicago, Nov. 18.—(AP)—Micky Walker, middleweight champion and Paul Berlenbach, former holder of the light heavyweight title, are expected to meet in a fight tomorrow in a fight training camp in a round match at the Coliseum next Friday night.

Walker will be Walker's second appearance against a former champion of the world, in his campaign to win the crown and gain three world titles. Two weeks ago he polished off Mike McTigue before the bell ended the very first round. Now that death has removed the great opponent for his mid-Atlantic title in "Tiger" Flowers, Walker's campaign for the light heavyweight throne can roll on unimpeded by edicts of boxing commission.

DUKE AND CAROLINA ALL SET FOR STRUGGLE

Duke University, Nov. 18.—(AP)—The end of the game to settle the question of honors in the Dixie conference finds Duke and Carolina ready for the "assault" here after a week of drills on defensive positions and other prize ball adventures.

Both teams are that both eleven will play with the same eleven that started last week when the Blue Devils faced Davidson and the Tar Heels battled State.

Fuller named as Jones' successor. Duke University, Nov. 18.—(AP)—Myron Fuller, who coached football at the University of North Carolina in 1926, is expected to be named as successor of Ted Jones at Yale word from the East is expected here today.

Fuller at present is a line coach of the Elis.

Silenced By Defeat

Washburn loses a football game. Washburn loses a regular tackle feels so humiliated he will not speak to any person until he must answer referees in the class rooms the Monday after the defeat. Lyons has suffered a season of silence for Washburn has lost nearly all the scheduled games.

YALE WILL FIND STRONG OPPONENT IN HARVARD

Yale has had a very successful season, except for Georgia they have not been beaten. Even though they seem to outclass Harvard on paper, this year's classic at Boston will find Harvard fighting harder than ever. Here are some of the best from both teams: Upper, left to right, Tad Jones, Yale coach; Fishwick, star Eli end; Crosby, one of Harvard's best backs; French, Crimson tackle; below, left to right, Horween, Harvard coach; Pruit, captain Harvard, and Hoben, Yale's brilliant quarterback.

GRINNELL ELEVEN HAS HARD LUCK SEASON

Grinnell, Iowa. — Grinnell College, smallest of the Missouri Valley conference schools, is making a strong bid for the hard luck honors in the present football campaign. In five times out the Pioneers have yet to win a game. Grinnell's team has put the goal line behind it but twice this year, while its opponents have heaped up 140 points. Grinnell's best effort was in its opening game with Penn College at Okaloosa, Iowa. The game ended a 6-6 tie. Scores of the other games: Kansas 19, Grinnell 0; Nebraska 58,

Grinnell 0; Drake 26, Grinnell 0; Marquette 31, Grinnell 0.

ALEXANDER HEADS STATE FOX HUNTERS

Fayetteville, N. C., Nov. 18.—(AP)—Tross Alexander, of Statesville, today takes up the office of president of the North Carolina Fox Hunters Association. At the election last night, R. J. Ballard and W. H. Hendricks, of Greensboro, were named secretary and assistant secretary, respectively. J. P. Costner, of Henriett, with his bitch "Miss Fashion" was a heavy scorer in the contests for honors, winning the sweepstakes and several other events.

OPERATION FATAL TO THE "DEACON"

Tiger Flowers of Atlanta, Ga., former world's middleweight champion, and a church deacon as well as a crack boxer, dies in New York following a minor operation. Flowers, aged 35, took the title from Harry Greb, but later lost it to Mickey Walker on a much disputed decision.

SOUTH DAKOTA TO PLAY DUKE NEXT FALL

Duke University, Nov. 18.—(AP)—The strong University of South Dakota eleven will come to Hanes field here October 6, next fall, for a game with the Duke Blue Devils, the schedule showed today. Other big football teams are being considered for opponents for Duke, officials said.

Deacon: Ready for Panthers

Wake Forest, Nov. 18.—(AP)—With Capt. Ober, halfback, and Pfeiffer, veteran center, in shape for play the Deacons today wound up their week of preparation for the High Point battle here tomorrow. It was not known definitely whether Coach Baldwin would use Ober against the Panthers, inasmuch as the possibility was advanced that Ober might be saved for the more strenuous game with Mercer at Asheville on Thanksgiving day.

Ban Johnson Back at Home

Chicago, Nov. 18.—(AP)—Ban Johnson, former president of the American League, was back home today from a long visit with specialists at Excelsior Springs, Mo. His condition was greatly improved and he expects to remain here for several weeks before returning to that health resort, or taking a southern trip with Mrs. Johnson who accompanied him back. Personal business matters brought him back to Chicago, Mr. Johnson said.

GENERAL ELECTRIC Refrigerator

Guaranteed by General Electric

The name of General Electric is on these refrigerators. Fifteen years of research in the General Electric laboratories have developed their simplified mechanism. Tests and counter-tests assure the efficiency of each machine before it leaves the factory. One hermetically sealed casing holds all the mechanism. It also holds a permanent supply of special oil. There is no machinery under the cabinet . . . none in the basement. Study the refrigerator you buy from every angle. Is it roomy? Has it moving parts to get out of order? Is it quiet? Consider all these things. Study the General Electric Refrigerator and ask questions about it. And, if you want a descriptive booklet, just mail the coupon below.

TIME IS RIPE FOR BASEBALL HERE

A meeting looking to the formation of an organized baseball league for Eastern North Carolina will be held in Goldsboro Monday night, and Greenville has been asked to be represented. For the past several years we have been without baseball and we believe the time is now ripe for baseball here.

A strictly amateur team for Greenville at this stage is now an impossibility and if we are to have baseball, strictly organized ball is the only solution. Our experience in the past should be sufficient to convince us that outlaw ball, as played in this section, was merely a race of dollars, and proved very unprofitable for the backers of the various clubs.

There is no doubt the citizens of Greenville and the vicinity would like to again see baseball here and with this in view it is to be hoped that Greenville representatives will be on hand for the discussion to be held in Goldsboro.

Still Issuing Victory Medals

Washington, Nov. 18.—(AP)—The issue of Victory Medals to which every soldier who participated in the World War is entitled has reached a total of 1,256,555 out of more than double that number eligible to receive the emblem. War Department estimators believe they will still be issuing Victory Medals several decades from now as they are still issuing campaign badges and other decorations which date back as far as the Civil War. During the last fiscal year 1,200 medals for the Spanish War and Philippine insurrection service alone were called for.

ABOUT TOWN

"They are out for Warsaw!"

This and other expressions of a similar nature were heard about the city today as the Greenville High School football team prepared to leave for Warsaw where this afternoon they will meet Wilmington Wildcats in championship elimination series of the Eastern Division of North Carolina.

"What is the outlook this morning?" Coach Porter was asked as he climbed into his car and headed toward Warsaw.

"The best in the world!" was the encouraging response. "We are going to meet the Wildcats, prepared to win, and if we fail, it will not be because we did not try."

Numbers of Greenville people accompanied the boys on this trip to win the greatest game of the season, and it was indicated that if moral support counted for anything, victory would be certain.

"The Greenville Merchants Association is always on the lookout for the interests of its membership," C. B. Rowlett, secretary of the organization stated this afternoon.

"We have been instrumental in

the discontinuance of the selling of... We not only want it, but are ready to do our part in making it financially possible.

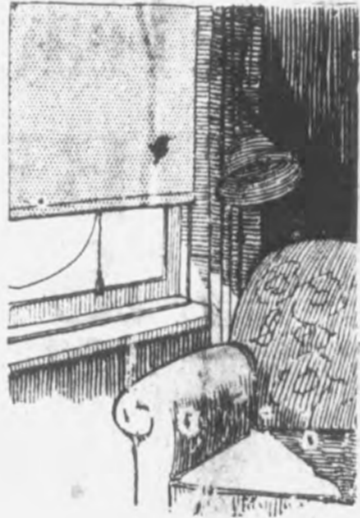

With such sentiment in evidence... We are always delighted to have distinguished visitors meet with us' members of the county board of education stated today.

"Greenville wants baseball." This is the consensus of opinion prevailing among the majority of people here, and especially since it was announced that a meeting would be held in Goldsboro Monday evening at seven o'clock for the purpose of discussing plans for the formation of a league.

"Of course we are ready to take part in organized baseball!" numbers of followers of the national

TO NEW HEIGHTS

A long sought goal, fifty million pounds of tobacco in a single season, was today passed on the Greenville tobacco market, and with approximately twelve more weeks to go, indications point to a season's total close to sixty millions.

While the Greenville tobacco market is fast approaching the position of the largest market in the world, there is nothing freakish or sensational in the growth of the market. During its thirty-five years of history, each year it has gained in size and prestige until it has become recognized as "The Best Market in the State," and if the present strides of growth continue it will not only be the best but the largest as well.

In a few words the success of the Greenville tobacco market is the result of untiring efforts and close cooperation between everyone connected with the market, as well as the growers of the entire belt. Looking ever to the interest of the grower, local tobaccoists have labored early and late and in appreciation of this fact each year more growers have selected Greenville as the best and proper place to sell their tobacco.

Even though the season is not yet finished and a greater goal will have been attained by that time, we take this opportunity to congratulate all those connected with the Greenville market for their efforts in behalf of the growers, the market and the city, and to the growers of the section we extend our congratula-

LITTLE MISS JANE FORBES ENTERTAINS
 Little Miss Jane Forbes entertained about forty little friends Wednesday afternoon at the home of her parents, Mr. and Mrs. F. J. Forbes. The party was in honor of her sixth birthday. A pink and white color scheme was carried out. The guests enjoyed games and stories and each tried their luck at fishing, from the fish pond, and caught attractive favors.
 The dining table was decorated with silver candle holders with pink candles. The center piece was a pink and white birthday cake with six candles. An ice course and mints were served. Little Miss Forbes received quite a number of attractive gifts.

Note of Thanks
 We wish to express thanks to our many friends for their expressions of love and sympathy, in various ways, during our recent loss of husband and father.
 Mrs. Ashley Whiehard and Children.

LIBRARY NEWS

"Let the Library Serve Pitt County"
 Library Hours—2 to 9 p. m.

WHAT CHILDREN'S BOOK WEEK MEANS

Hardly anyone believes now that children's reading is a mere waste of time. But the reading of wise books is a waste of time. It is very essential that all children should have the right sort of books, and now during this children's book week we have the opportunity to think seriously of the selection and the influence of good books.
 We find a much wider range of selection than formerly—two, should be varied so the children may acquire universal knowledge. Character is formed through reading. Parents should be as particular as to their children's books and magazines in the home exert a more powerful influence than most parents realize. Here, in Greenville, we are fortunate enough to have a good library with a good librarian who is capable of helping parents select the most helpful and worth while books—those that build and do not destroy the high ideal of life.
 The schools have co-operated this week in placing this children's book week before the public. Last spring the West Greenville school had a book shower and fifty books were added to the school library. This week teachers are having the children make posters, write themes and in the chapel talks and English work have stressed the idea of good books. The Evans school had a very successful book shower. The Model school has used the idea to catalogue the fifth and sixth grade books in their school library. Work in English and chapel has also been done in the

Duke Got Too Rough

Suing for divorce in Bridgeport, Conn., Duchess Elsie Moore Toronia declared that Duke Marino Toronia was in the habit of smashing her on the head with a chair when in a playful mood.

other schools. Children's book week means the calling attention to the fact that our children are reading and asks us as parents what are our children reading?

JURY TO RECEIVE SERMONS CASE TODAY

Bayboro, Nov. 18.—(AP)—The jury in the Sermons brothers trial in progress here for several days, prepared to consider the case today following the charge by Superior Court Judge W. C. Harris, of Raleigh.

Arguments were completed by ten attorneys, Virgil Lee and Luther Sormons, of Fort Barnwell, were included in connection with the death of federal prohibition agent W. T. Lewis, Moore county, during an alleged liquor quarrel last summer near here.

KELVINATOR ANNOUNCES NEW CABINET DESIGNS

One of the leading tendencies in recent years in the designing of home equipment has been toward the beautification of those humbler, essential articles of furniture whose very usefulness had previously condemned to the inartistic. Now we have come to understand better that beauty and service may go hand in hand to the greater cheerfulness and attractiveness of the home.
 Perhaps the most neglected of these has been the refrigerator, which because of its hitherto necessary restriction to the kitchen, pantry or back porch, seemed to call for or require no attention

and offer no possibility of being dressed up. The development of electric refrigeration, however, has changed the picture, for the home refrigerator may now be placed where convenience dictates and its uses multiplied. Thus it becomes fitting to apply decorative treatment to the refrigerator in harmony with its surroundings and truly dignifying the important service it performs.

In keeping with this new trend Kelvinator has just announced a line of colored decorated cabinets, the first four of which consist of cream, apple green, turquoise blue and Chinese red.

The primary purpose of these refrigerators is, of course, to supply the home with needful refrigeration of such attractive appearance as to permit its use wherever convenience would best be served, without any suggestion of incongruity.

It also opens the possibility of being employed as supplementary existing refrigeration as people catch the idea of how one of these beautiful cabinets might be fitted elsewhere in their homes; such as breakfast rooms, nurseries and play rooms, billiard and card rooms, etc. and looking as if they belonged there.

We have only to look at the automobile business during the last few years to realize that this is a period when people want and buy more than one particular utility or convenience. Motor car manufacturers have certainly capitalized on this new tendency. Its application to the electric refrigeration business is perfectly reasonable and offers what would seem to be a profitable outlet for such a product. —(Adv.)

Soldiers After President's Cup

Washington, D. C.—(AP)—With two successive defeats at the hands of the Marines in their annual grid-iron battles for the President's Cup, the All-Army eleven comes to Washington November 19, determined to even the score of victories.

But to accomplish this, it will have to beat what is regarded as the greatest offensive machine the Sea Soldiers have turned out in years.

President Coolidge first offered the championship cup for the two divisions of the regular service in 1924, and it was won by the Army. The Marines defeated the Army in 1925 and again the following year, largely through the brilliant playing of Jimmy Levey, halfback.

Levey is back this season and has a mate, John Buchow, whose running attack has been one of the sensations of the season. On the other hand, Army is bringing 12 veterans in its squad of 32 men. Bertelman, Kjelstrom and Lindsey, three of the stars, have played in all the President Cup contests.

The Marines this year have defeated Washington College, William and Mary, St. Bonaventure, Catholic University, Dayton University and the strong St. Xavier team. Against this record, the All-Army shows victories over Milligan College and High Point, and a tie with Auburn.

The two elevens are composed of service stars, many of whom have been prominent figures in college football. Major Van Riet, of West Point coaching fame, tutors the Army team at Fort Benning, Ga., while J. T. Keady directs the Marines at Quantico, Va.

RESTLESS GUNS MAY SAVE ARMY TEDIOUS CHORE

MAJ. GEN. C. C. WILLIAMS

Washington.—(AP)—Some millions of Americans with vivid recollections of war time troubles in keeping rust off their rifles, machine guns and "75's" will be interested to learn that future American armies probably won't have the same kind of chores to do.

In his annual report, made public today, Major General Clarence C. Williams, chief of army ordnance, states that efforts are being made to substitute rust proof steel for the present metal parts in army fighting equipment.

"Extensive investigation of commercial stainless steel for use in rifles, machine gun barrels and other components is being carried on with the object of eventually making as many components of this type of material as practicable," says Gen. Williams. "Such use, if perfected, would result in far-reaching economy."

Winter Resort Hats

Paris.—(AP)—The favorite sport hat for winter resort wear has a swathed band of crepe de chine around the crown and a moderate turn-down brim.

The bands are of pale pastel colors on hats of white, straw color and light tints. The hat is usually of felt, but sometimes of finely woven straw. The band must be tightly wrapped, and the ends tucked under without sign of bow or knot.

Boxer Broke, \$258,000 Gone

Chicago.—(AP)—Pete Sarmiento the brown boy from the Philippines has returned to his native land virtually "broke" after having earned \$258,000 with his fists in American rings in the last four years. To add to his troubles, Sarmiento is partially blind.

After engaging in one or two more bouts, to get a nest egg, Sarmiento, a one-time dangerous threat in the featherweight and bantamweight ranks, intends to open a barber shop in Manila.

Sarmiento spent his money as fast as he could make it. He gave it away. He bought expensive clothes, four or five suits at a time; bought costly automobiles, made reckless loans and otherwise let a fortune slip through his fingers.

Then, when his ring days were reaching an end, he became thrifty, but it was too late. When he left Chicago, his one-time fortune was reduced to his passage to the Philippines and a few hundred dollars.

Since the first of the year, Sarmiento fought with the sight of his left eye partially destroyed. Ring-side fans, screaming in the excitement of the thrilling battles he usually put up, did not know that, and the little brown boxer carried gamely on.

NEWSPAPERMAN CHOSEN ASSISTANT TO McLEAN

Raleigh, Nov. 18.—(AP)—Macon Dunnagan, widely known newspaperman of North Carolina, has been selected by Governor McLean as his assistant to succeed A. W. Mewshaw, who resigned some time ago.

Governor McLean announced Mr. Dunnagan would assist him generally and also be connected with the budget bureau.

Four Entombed Miners Rescued

Johnstonburg, South Africa, Nov. 18.—(AP)—Rescue parties working furiously to dig out eighteen natives miners and one European entombed 3,000 feet underground in the crown mines by a fall of rock, today succeeded in rescuing two of the natives. Four men, two dead and two alive, were extracted yesterday.

A Johannesburg dispatch to the London Daily Express says that the Rockfall was due to an earthquake which shook the entire region and that the residents are perturbed by the increasing frequency of earth tremors of which there have been 550 this year.

CRUDE OIL IS MINED ON FARM OF TEXAN

Jacksonboro, Tex.—(AP)—Oil is "mined," not pumped, on the W. D. Stinehouse farm near here.

Stinehouse's mine is believed to be the only one in the country producing oil in paying quantities. It is 50 feet deep. At the bottom of the shaft is a reservoir, and a seepage process is used to get the oil from the sand into the reservoir.

Instead of a derrick, the symbol of an oil well, a crude tripod of oak logs stands above the large hole in the earth leading to the shallow oil sands.

Woman Auto Dealer

Hudson, Wis.—(AP)—Taking over the control of a flourishing automobile business, Mrs. Martha B. Clymer in six months has made a success of what was considered man's work. She is now the only accredited woman agent for a light car in the Northwest.

She is the widow of Otis E. Clymer, former big league baseball star. Four State and federal highways pass on front of Mrs. Clymer's garage where she frequently is on the job from 7 a. m. to 11 p. m.

Text Book Commission Meets

Raleigh, Nov. 18.—(AP)—The State Textbook Commission, in whose hands rests what books thousands of North Carolina public school pupils shall study, met here today to consider subjects for the five year period beginning next September.

Members said only texts relating to language and hygiene would be changed.

Catalogue Galore

Goldboro, Nov. 18.—(AP)—North Carolina furnishes thousands of customers for mail order houses, as evidenced by a decision today of a large Eastern company to use Goldboro for a catalogue distributing center.

Some 60,000 catalogues will be mailed from here to Eastern North Carolina, South Carolina and Virginia, through 1,650 postoffices.

John Flanagan Buggy Co.

OXFORD FORESEES COLLEGE AIR RACES

Oxford, Eng.—(AP)—Oxford undergraduates are taking to aviation and there are more than 75 certified pilots in the student body.

As a result of their activity in the university, the government has assigned four airplanes to the Oxford air squadron. Seventy-five more undergraduates are now receiving air training in these machines.

The preliminary ground training is carried on within Oxford where students have access to five air-

plane engines and a full outfit of airplane parts. The students then go to a royal air force station nearby for their flying experience.

To stimulate flying, university authorities are permitting aviation during school time.

It is considered possible here that airplane races between Oxford and Cambridge may some day be acknowledged sports, as popular as boat racing, cricket, rugby and soccer.

TRY OUR WANT ADS

New Minister at Sanford
Sanford, Nov. 18.—(AP)—The Rev. Frank C. Hawkins today took up his duties as pastor of the First Baptist church here. A native of Anderson, S. C., Mr. Hawkins recently gave up his pastorate at Kingstree, S. C.

Hear "Close-up" Music Played on the astounding EDISONIC
"Close-up music" is Thomas A. Edison's latest achievement. Like the close-up of the movies, it brings the artist right to you. Instead of a thin outline of far-away sound, Edisonic music is near, surging, vibrant; it literally floods the room. And it is complete music... music with a new dimension in which each instrument, each voice, each note, stands out in beautifully rounded relief... Here at last is perfect musical re-creation... developed by the genius who 50 years ago gave the phonograph to the world. Come in and hear Mr. Edison's new Edisonic... we believe that it will give you an entirely new conception of how rich, how lovely, how real, re-created music can be.
When you see the Schabert Edisonic at \$135, and the Beethoven Edisonic at \$225, you will be impressed with their decorative beauty. You will agree that either cabinet would be lovely purely as a piece of furniture, enriching any room in which it may be placed. Then realize that it also holds the key to long hours of perfect music and you will say "No ordinary phonograph can remotely compare with the Edisonic!"
The Schabert Edisonic \$135
You could make your family no lovelier gift than the gift of "Close-up" music. Pictured in the Edisonic finished in two-tone English Brown Mahogany, it's "the gift that's never forgotten."
Edisonic Close-up Music
Here is a visualization of the same music as Re-Created by the new Edisonic. The music, like this picture, is close up, is complete. There is full detail -- form to every sound. There is depth, perspective, beauty... the living artist seems present in the room.

COTTON

New York, Nov. 18.—(AP)—A further decline in the cotton market early today was followed by rallies on covering and trade buying. Active months sold up 25 to 30 points but the volume of business tapered off at the advance and there were slight reactions during the mid-afternoon. Futures closed steady, 9 to 19 points higher. Spot steady; middling 19.80.

GRAIN

Chicago, Nov. 18.—(AP)—Despite unusual strength shown today by the corn market, wheat tended downward. Export demand for North American wheat was slack, and purchases being estimated at only 250,000 bushels. Accompanying upward swings of the corn market was a report from a Chicago crop authority indicating that in twelve out of the last 15 years the final official estimate on corn yield has been lower than the November 1 estimate. Wheat closed unsettled 1-2 to 5-8 net lower; corn 1 7-8 to 2 1-2 up; oats at 1-8 to 1-4 advance and provisions varying from 20 decline to a rise of 2 to 5.

SUGAR

New York, Nov. 18.—(AP)—No changes occurred in raw sugar early today. The undertone was firm with holders asking 4.71 for Cuban duty paid and buyers inclined to hold off. No sales were reported. Price changes in raw futures were narrow. The undertone was firm, reflecting the steadiness of the spot situation and the firm London market. In refined there were good withdrawals on old contracts although new business was light. Prices were unchanged at 5.30 to 5.80 for fine granulated.

LIVERPOOL COTTON

Liverpool, Nov. 18.—(AP)—Cotton spot quiet; prices easier. December 10.43; March 10.51; May 10.61; September 10.11; October 10.01.

COTTON SEED OIL

New York, Nov. 18.—(AP)—Cotton seed oil closed at 10.55 to 10.56 for yellow 10.55 to 10.56; white 9.00; January 10.60; February 10.73; March 10.88; April 10.95; May 11.06; June 11.11; November 10.56; December 10.61; sales 31,800.

STOCK MARKET

New York, Nov. 18.—(AP)—Despite the record breaking volume of brokers' loans, the stock market again forged upward today under the stimulus of heavy buying by operators for the advance. Convinced that the market had

NOT YET FELT THE FULL EFFECT OF THE TREMENDOUS REINVESTMENT DEMAND CREATED BY THE RETIREMENT OF SECOND LIBERTY BONDS, BOOLS CONTINUED TO MARK UP A LONG LIST OF ISSUES, DIVIDING THEIR ENERGIES BETWEEN LOW AND MEDIUM PRICED MOTORS AND SPECIALTIES AND HIGH PRICED INDUSTRIALS.

Wall Street was inclined to place a bullish interpretation on the Philadelphia speech of President Coolidge and on the favorable report on investment buying made by Professor Seligman of Columbia University after an exhaustive survey of the subject undertaken at the direction of the General Motors Corporation. The day's trade news was rather colorless in character, although a few more "Christmas dividends" made their appearance during the day. General Motors, U. S. Steel common and other so-called pivotal industrials continued to move within a relatively narrow range. Heavy buying of Hubb, Puckard and Mack Truck, all of which recorded substantial gains; featured the motor group. Union Carbide, Midland Steel Products preferred, International Paper, Montgomery Ward and Freeport Texas, all of which reached new high ground, also changed hands in rather large volume. The close was strong. Total sales approximated 2,500,000 shares.

All persons who oppose the granting of this pardon are invited to forward their protests to the Commissioner of Pardons without delay. This the 18th day of November, 1927. O. D. Dixon. Nov. 18-17w-2wk

NOTICE OF SALE

Under and by virtue of the power of sale contained in that certain deed of trust executed by Edward Soper and wife, Malvinia Soper to J. H. Blount, trustee, under date of April 19th, 1924, of record in Book E-15, at page 116, of Pitt County Registry and default having been made in the payment of the notes secured thereby, the undersigned will offer for sale to the highest bidder for cash, the following parcel of land before the courthouse door in Greenville, North Carolina, Monday, December 12th, 1927, at 12:00 o'clock noon, described as follows to-wit: Lying, being and situate in the City of Greenville, Pitt County and State of North Carolina, and beginning on the East side of Pitt Street extended at a stake, 52 feet from the south-east intersection of Pitt and Mill Streets and running thence eastwardly and parallel with Mill Street 110 feet to a stake; thence southwardly and parallel with Pitt Street 50 feet to a stake; thence westwardly and parallel with first line 110 feet, to a stake on Pitt Street; thence northwardly

with Pitt Street, 50 feet to the beginning, being the same lot of land described in a deed dated June 20th, 1917, from Walter B. Wilson, Jr. to James Ellison & Company, which is recorded in the office of the Register of Deeds for Pitt County in Book H-12, page 273, same being the same parcel of land conveyed by the said James Ellison & Co. to Edward Spier under date of November 26th, 1918, and recorded in Book L-13, page 62 of the Pitt County Registry. This sale will be made subject to Deed of Trust to H. A. White, on which there is due about \$500.00. The 10th day of November, 1927. J. H. BLOUNT, Trustee Blount & James, Attorneys. 11 12 27 17w 4wks

Wednesday, November 30th, 1927 At 12:00 O'clock Noon the following described lands: On the North by Lot No. 121, on the East by Lot No. 134 on the South by Front Street, on the West by the

other one-half of lot No. 122 said lot containing one-fourth (1-4) acre, and being the identical lot conveyed by J. G. James and wife Mary James, to Derry Green, as will appear by reference to Book Y-3, page 129, in the office of the Register of Deeds in Pitt County. This the 9th day of November, 1927. Dink James, Commissioner 17w-2w

Daughters of Confederacy Honor Girl

Charleston, S. C., Nov. 18.—(AP)—For the past year, twelve year old Mary Vaughan has ministered unselfishly to the comfort of an aged couple, a Confederate veteran and his wife, in her home town, Clarksville, Va., and now she faces a tangible reward.

Mary has been selected to receive the Mollie Day Daffan cup by the United Daughters of the Confederacy, in annual convention here. The trophy, offered this year for the first time, goes to the child performing the most outstanding deed of individual service to a Confederate veteran or a Confederate veteran's widow.

The aged Clarksville couple, both entebled by their eighty years and more of age, have found their life brightened each day by Mary's kindness, according to those who reported the instance to the committee of award. Hardly a day passed but Mary visited them. She went after their mail, swept the floor and even did small laundering for the grateful pair. Never a cake or other dainty entered the Vaughan home that the veteran and his wife did not receive, a bounteous share.

The cup, which Mary did not know about, stands almost three feet in height and is now in custody of Mrs. R. E. King, of Parismouth, Va., who will take it to Mary. It is planned to have the cup exhibited in other cities to inspire kindred acts in other children of the Confederacy—of which organization Mary is a member.

The trophy was awarded by Miss Kate Daffan, of Ennis, Texas as a memorial to her mother.

LOSS OF LIFE REPORTED IN HEAVY STORM

(Continued from page one)

tion, while by a freak of the elements, the property for the army flying unit just across Bolling Field went unscathed. Eight Navy seaplanes were wrecked, a hangar unroofed and barrack buildings shaken. Damage at Washington Navy Yard was estimated at \$100,000.

The Weather Bureau declared the storm the worst that Washington has experienced within the fifty years covered by its records. Tornado, it said, had its origin in a waterpout down the Potomac, adding that there is very little difference fundamentally between the two phenomena beyond fact that one originates over water and the other over land.

With the cessation of the heavy rain that had drenched Northern New York for more than 36 hours, the flood menace appeared to be passing today. Streams had reached their high water peak and were beginning to subside in many sections.

At Watertown the Black River which runs through the city, was rising, but no damage had resulted. The rainfall there was four inches in a little more than 24 hours.

Three bridges on the State highway system between Malone and Ogdensburg were reported washed away, while other highway bridges were submerged.

SEIZE AMMUNITION AT NEW ORLEANS

New Orleans, Nov. 18.—(AP)—Five men were arrested and 7,500 rounds of ammunition was seized on two ships, one due to sail to Mexico and the other to Honduras, by customs officials here today.

Nursing Record in Two Continents Hard to Equal

Nurse Waite of New Brighton writes: "After fifty-five years of tireless labor nursing mankind, I am now retiring. While nursing in New York, in my early twenties, I was poisoned by food, my sister nurse recommended your wonderful CARTER'S LITTLE LIVER PILLS. The doctor told me that I would have died had I not taken the pills.

I am never without them and have prescribed them for thousands of my patients who were suffering with indigestion, gas and sour stomach, biliousness, sick headache and constipation. These pills are indeed a wonderful laxative, being purely vegetable, small and easy to take, children, as well as older people can swallow them easily."

BRITISH FLYER SEEKS COMMERCIAL AIR ROUTE OVER AFRICAN JUNGLES

Sir Alan Cobham (left), famous British flyer, is off from England on a 20,000 mile African air tour to map a commercial route from Cairo to Cape Town across the dark continent. The map shows his route. Two views are shown of his all-metal flying boat.

Rochester, England.—(AP)—On the largest and fastest all-metal flying boat in the world, Sir Alan Cobham, noted British aviator who won fame and fortune last year through his flight to Australia, is undertaking one of the most ambitious flights ever undertaken in the name of commercial aviation.

From a start here on the English Coast Nov. 17 he plans to fly some 20,000 miles through the dark heart of Africa with the object of surveying the airway for the establishment of a trans-African air service from Capetown to Cairo. At the same time he will survey aerial lanes linking the trans-African route with all the British territories on the west coast.

It is the first time that a flying boat has attempted to fly around the mystery continent. Sir Alan will cover in a few hours territory which took the noted explorers, Stanley and Livingstone, months of hacking their way through the jungle.

Sir Charles Wakefield is backing the flight, as he did the Australian pioneering flight last year. Sir Alan's machine is the latest "Short

Thunderstorm at E. City Elizabeth City, N. C., Nov. 18.—(AP)—Elizabeth City was today reeling from the mild sensation occasioned by a thunderstorm of mid-summer intensity which visited the city last night. The storm was attended by a high wind, but no damage of consequence except the blowing down of electric light wires in a residential section, was reported.

languages you know, but what you have to say in some ONE language.

A learned gentleman says Socialism is back of Mexico's troubles. The same Socialism "that caused both the French and the Russian revolutions."

If Rousseau, Voltaire and the rest were Socialists they did not know it. The philosophical head of the League for Political Education could find political education in Taine's history of the "Ancient Regime."

Real revolutions are caused by facts, not theories, Socialist or otherwise. Misery, plus guiding intelligence cause revolutions.

French peasants, so poor that they had to be forbidden by law to eat human bodies, dead of the plague, did not need Socialism to move them, when they found leadership.

Some of our soldiers are being trained as veterinarians. A five-months course, with 700 hours of study, teaches them the difference between glanders and a hog spavin.

How nice, if some of those soldiers could also be taught flying. Teaching of soldiers to be veterinary surgeons now is like teaching civilians to drive a hansom cab—after the arrival of the taxi.

Russia teaches aviation in public schools, and has organized a body of 4,000,000 citizens directly inter-

ested in flying. That should interest "big money" and big money should order the government to change its veterinary school to a flying academy.

Will Rogers, rare combination of philosophy and wit, said he rode all day through one Kansas cornfield, and "this country is so busy gathering corn you can't get 'em to town to holler for relief."

Some farmers may "holler" when they read of the relief scheme invented by big steel men. "Carnegie Steel" and other companies increase prices \$1 a ton. The people will like it and pay it.

If farmers could add 25 cents a bushel of wheat, to the price of corn or wheat and make the people pay it and like it, they wouldn't need to "holler" for help.

Manolescu, who wanted to make Prince Carol king, in place of the child Michael, is "afraid Rumania is heading toward a republic."

That could hardly be much worse than the sort of government Rumania has had, depending on unsatisfactory accidents of birth.

To say the Rumanians couldn't govern themselves better than they have been governed, may be true, but isn't much of a compliment to the Rumanians.
