League for Revolutionary Defense Organized Among Farmers of Mexico.

Mexico City, Nov 29-(AP)-A militant nation-wide body to uphold the policies of the Calles administration is to be organized throough Mexico. It is described as similar in purpose to the "Black Shirts." the followers of Premier Moussolini in Italy, and it has been suggested that the Mexican milltants be termed the "The White

By the formation of these "White Shirts", the newly organized "league for revolutionary dfense" inends to strengthen its hand against what it terms the reactionaries.

The farmers throughout Mexican countryside and also the other residents there would be organized under military lines. Similar organizations would be effected in the towns and cities. All would be pledged to give their lives, if necessary in fighting in defense of the principals of the Mexican revolutionary government (the Calles and | Oberegon policies).

Supporters of the policies of President Cales and General Obregon formed the league a few day's ago One of these organizers is congressman Soto Ygama, leader of the Agrarian movement and the Agrarian political forces. The purpose of the league is to fight "reactionary elements". These were specifically announced by the organizers as "the Knights of Columbus, the league for the defense of religious liberty, and all the enimies of the revolutionary government'

Mexican labor in the meantime has begun the circulation of a testimonal of appreciation for the policites of the Calles administration. It is planed to present it to him next year when his presidential term ends, with the signatures of 2,000,000 Mexican workers. The testimonial will be bound in a great Album and will point out that the ple generally.

Money For Everybody. Cancer and Fear. \$300,000 of Whiskers.

(By Arthur Brisbane) Copyright 1927, by Star Co

Turkey has 481,137 excess women according to a census just taken. Kemal Pasha decided that one wife is enough for one Turk, so surplus women are taking up work of all kinds. That is better than a dull Harem, and one Turk among many

Fighting kills off men-always has, which accounts for polycamy one man could not possibly keep several women happy and contented. That accounts for veils on their faces and prison-like Harems.

Kemal's interesting experiment abolishing polygamy, will cause more rapid increase of population, for one thing, and perhaps restore the ancient glory of the Turk, a powerful race admired for gallantry by all their enemics except the Armenians.

Mr. Jacob Coxey, who led his famous army to Washington thirtyfour years ago, evolves a new plan at the age of seventy three. He would have the government lend money to citizens at one-half of one per cent interest a year. "Interest the economic Hookworm

of the nation," says he. The economic Hookworm for the borrower probobly would be scarcity of collateral, unless Mr. Coxey's plan would not allow the government to demand collateral.

The worst of cancer is fear. Cancer is a variegated disease, including growth of various kinds. Tawen in time, a cancer is no more dangerous than a bad splinter that might cause blod poisoning if not removed.

Each cancer begins very small. If near the surface, detected and removed promptly - that's an end of it. If allowed to grow, it sends out particles of itself that grow elsewhere. A cancer in the thumb will reappear in the armpit.

When you notice any abnormal growth, however small, see a doctor Calles policies are of benefit to the that knows something-or, failing working classes and to common peo that, go to a hospital and ask for a specialist.

Don't be afraid of the word "canand outlaw bands" in the states of |cer"; it is not the word that kills. There is NO CURE FOR CAN-CER, except the surgeon's knife, and in some cases Radium. Medicine is later. Infantry artillery calvalry and worthless, although frauds recom-

HAVE you never bent over a tidy red tin and caught that marvelous P. A. fragrance? Only a great tobacco could smell as good as that, You prove how good it is on the very first fire-up. What a taste, Men!

Cool as an immigration-officer. Sweet as getting in. Mild and mellow as you expect a smoke to be, yet with that full-bodied flavor that makes every puff a pleasant experience. I wish I could put the taste right on your tongue, but you'll have to do that.

P.A. in a pipe is cool and long-burning, right to the bottom of the bowl. This one brand is bought by more men than any other tobacco in the world. There's only one way to account for that-P. A.'s quality!

The sooner you get started, the better. A load of P. A. in the bowl of your pipe will be a load off your mind. And I don't mean that for any wise-crack. No matter what your present program is, try Prince Albert on the word of a friend. I'm telling you straight, you'll make no mistake.

THE PEDDLER

A few days ago a peddler selling silk hosiery stopped in s at the door of an Asheville home, and, according to information reaching this office, began interviewing the lady of the house.

As soon as he reached a period, the lady started talking. "I am so glad you called," she said, whereupon the salesman had visions of a fine order. "I am on the finance committee of our church," the lady continued, "and I know how how much you are interested in all our local enterprises, so I am going to let you make a subscription to our pastor's salary. I am so glad you called this morning."

The peddler swallowed his Adam's apple a time or two, sparred for words that were not contained in his prospectus, and finally said, "Well, you see, lady, I do not live here. My home is in Atlanta, and the family gives something to the church there, so I guess you'll have to pass me up.'

The lady was a member of that finance committee because she had powers of salesmanship herself, and continued to press her argument why the man selling

Complete details of the new model will be available this FRIDAY

in this city

FRIDAY of this week will unquestionably be one of the most important days in the entire life of the automobile industry. On that day, complete details of the new Ford will be available in this city.

You will be surprised when you get the facts about the new Ford car, for you never have dreamed that such a really fine car could be produced at a low price. As Henry Ford himself says -

"The new Ford car embodies the best results of our experience in making 15,000,-000 automobiles. We consider it our most important contribution thus far to the progress of the motor industry, to the prosperity of the country, and to the daily welfare of millions of people."

The new Ford car is distinctly a new and modern car, designed to meet new and modern conditions. It is more than a new automobile. It is the advanced expression of a wholly new idea in modern, economical transportation.

An entirely new car in every respect

The minute you see it-ride in ityou will realize that it is not a mere refinement of the former model T Ford, but a new car from radiator cap to rear axle! Many features of it are exclusive Ford developments. Some are wholly new in

The new Ford car has exceptional beauty of line and color. It is, in every respect, a new and modern car, designed and created to meet modern conditions.

automobile practice. There is nothing quite like it in quality and price.

The new Ford car has unusual beauty of line and color. . . . It has a 40-horsepower engine. . . . It will do 55 and 60 miles an hour with ease and has actually run 65 miles an hour on road tests. . . . It is quiet and smooth-running at all speeds. . . . It is remarkably quick on the get-away. . . . It has specially designed mechanical four-wheel brakes. . . . It has hydraulic shock absorbers. . . . It has a standard, selective gear shift. . . . It is quick and easy to handle in traffic and steady and sure on the open road. . . . It runs 20 to 30 miles on a gallon of gasoline, depending on your speed. And it has the stamina and reliability that you need for mile-after-mile and yearafter-year service.

The new Ford car will sell at a surprisingly low price

When you think of such features as these, you think instinctively of a car costing much more than the new Ford. The low price is as unusual as the appearance and performance of the car itself.

The low prices of the six body types are undoubtedly lower than you thought they would be when you first heard that Ford was making a new car. They are, in fact, lower than we thought they could possibly be when we started to make this car.

We determined to bring new comfort, beauty, speed, safety, economy and reliability within reach of everybody who drives a car, and then forced ourselves to find ways to make the low prices possible.

The new Ford car is the result of years of careful planning. Every part of it has been tested and retested in actual practice. There is no guessing as to whether it will be a successful model. It has to be. There

The new Ford has unusual speed and power. It will do 55 and 60 miles an bour with ease and bas run 65 miles an hour on road tests.

is no way it can escape being so, for it is the sum total of all we have learned about motor car building in the lifetime of the Ford business.

Some of the features of the new Ford car

In this connection we call your particular attention to the new engine; the new pump, splash and gravity oil system; the multiple dry-disc clutch; the new pump and thermo-syphon cooling system; the new battery, coil and distributor ignition; the low center of gravity and minimum unsprung weight which combine with the hydraulic shock absorbers to make the new Ford such an easy-riding car; the irreversible steering gear, with the column and the housing of the steering gear mechanism welded into a single all-steel unit; the seamless, all-steel torque tube; the new one-piece, welded, steel-spoke wheels; the three-quarters-floating rear axle in a forged-steel housing of exceptional strength; the theft-proof coincidental lock; and the aluminum pistons which were selected after many tests because of their light weight and heatconducting qualities.

"The new Ford car embodies the best results of our experience in making 15,000,000 automobiles. We consider it our most important contribution thus far to the progress of the motor industry, to the prosperity of the country, and to the daily welfare of millions of people."

Henry Ford

Steel forgings are used throughout except, of course, for the engine castings. More steel forgings, in fact, are used in the new Ford than in almost any other car, regardless of price.

WE ARE able to sell this new Ford car at a low price because we have found new ways to give you greater value without a great increase in our own costs. Because we own our own ore mines, coal mines and timber lands and the source of most of our raw materials. Because we make virtually every part used in the new Ford car. Because it is the Ford policy to make a small profit on a large number of cars, rather than a large profit on a small number of cars.

There is nothing like it in quality and price

No other manufacturer can possibly duplicate the new Ford car at the Ford price because no other manufacturer does business the way we do. The public made this business possible. We believe we should share our profits with the public by continually giving greater and greater value for the money.

There are good and substantial reasons, therefore, why the new Ford car is the most unusual value ever offered in a lowprice car.

By all means, learn about the new Ford on Friday when it is officially announced in this city. You will know then that there is nothing quite like it anywhere in quality and price.

STOCK MARKET

New York. Nov 29 (AP) -Resumption of the upward price movment in tody's market with the lowering of call money rates from 4 1-2 to four per cent. Violent advances of five to seventeen points took place in some of the high priced specialties while many of the rail and industrial leaders moved up o uoint or awo.

Speculative interest largely in shares of automobile accessory, steel and other companies likely to benefit from Henry Ford's business. Mildand Steel Products prefered, which is Ford's business. Midland Steel Products preferred. which is understood to have an order for automobile frames soared 17 points to 220, or more than double the year's low of 106. Stewart Warner Speedmeter moved up more than four points to a new top and there was a brisk demand for Timken Roller bearing and Briggs body other reported recipients of Ford orders.

With about \$300,000,000 to be distributed this month in the form of dividends and interest, operators for advance anticipated a sustained investment demand.

The closing was strong. Total sales approximated 2,600.000 shares

Talks Psychology Of Welfare Work At Raleigh Today

Raleigh, Nov 29-(AP)-The fam ily, welfare work, psychology of welfare work and its many branches were among subjects discussed at today's meeting of the fourth district welfare workers here.

bitions and hope of the human race stands and will ever stand, Dr. Earnest Groves of the University of North Carolina said.

Mrs. Kate Burr Johnson, state commissioner of public welfare, re- door of a soft drink parlor on Ash viewed work of the state board of charities and public welfare and reports were made from the counties in the district: Caswell, Durham, Franklin, Halifax, Harnett, Johnston, Moore, Nash, Orange, Person, Wake and Warren.

Police Storm

Boston, Nov 29-(AP)-A gun bat tle between sixty policemen who beeged a south end house and its four inhabitants for hours ended at daybreak today when riot squads stormed the building and dragged out two negroes and two women one of whom was white. Scores of shots were fired. Tear bombs were used.

The men set up a barricade when police attempted to quell a disturbance resulting from an all night Several thousand persons vere attracted to the scene by the sound of firing as police and the men exchanged shots.

DIES OF INJURIES RECEIVED IN CRANKING FRIEND'S CAR

Statesville, Nov. 29 .- (AP)-John Atkins, 44, of Elkin, died at a local hospital here today as a result of nuries received while cranking a car for a friend last Sunday. The brakes of the car were off and when the machine started, Mr. Atkins was knocked down, the car passing over his body. His spine was broken, his right leg fractured and he suffered internal injuries. He was brought to the hospital here Sunday night.

The body was taken to Elkin today for burial.
