#### Candidates For Presidential Nomination Told Campaigns Must be Clean.

Washington, Dec. 30.-(AP)-AH candidates for the republican presidential nomination and their campaign managers were warned today George W. Bean, national committeeman for Florida, that their pre-convention campaigns must be waged "in the same dignified way" in the south as they will be in the north or sentiment will react against them.

Any attempt, he declared, to send contesting delegations to the Kanas City convention in the hope of blocking a nomination for any parricular candidate will "stir strife" with bad results to the perons responsible.

Denying that the southern deleauons could be "delivered" to any agie man, the committeeman de tared that the delegates from the buth would go to Kansas City "unrestricted and unpurchaseable" and that he is in sympathy with Coolage policies.

### THE COMING OF THE AIRPLANE

at expiration of time time paid.

The airplane industry is being developed just as were railroads and automobiles. It takes pioneering, courage and faith in the project.

Twenty years ago the conservative individua wouldn't ride in an automobile. Today, he won't ride in an airplane. But the fact remains that automobiles are as common today as bath tubs.

Most people do not realize that well established air ties and uniform enforcelines are handling mail, passengers and express over our whole nation. They operate on schedule up and down the Pacific Coast, in the Rocky Mountain states, through to Chicago and the

These lines have all had to develop under adverse conditions just as did the first railroads and the first automobiles. The pioneering planes have had vast distances of mountains, timber and deserts to cover, with between, without guiding lights and with other in- clors around town we have been numerable obstacles to contend with. Only men with able reason our efforts have met the pioneering spirit would with absolute failure.

But with leap year at hand we attempt to surmount such are hopeful of receiving more con-

#### WHY NOT "UNIFORM ACCOUNTING" FOR CRIMINALS?

Establishment of criminal statistics in every state of the Union, is recommended by the National Crime Commission.

Based upon the findings of an investigating committee, headed by former Governor Frank O. Lowden, of Illinois, the report states that America has more crime than any other civilized nation and has the world's worst criminal statisties. Annual police reports were termed little less

than ridiculous. The statistical bureaus recommended by the Crime Commission, coupled with central identification bus reans also suggested, would be of enormous assistance to the Federal Census Bureau in tabulation of crimi-

nal data. In civil affairs such as operating railroadd, publica

the law requres uniform reports of the most intricate | | character and private companies to furnish reports to state and federal governments so that public officials can check them in the mallest detail.

In public affairs and police court records, why cannot the same uniformity and thoroughness be applied? Why should the criminal be encouraged in carrying on his work due to tack of public information regarding his crimes? Why not keep as accurate a check on criminals as we do in honest and legitimate business?

Why blame the war, the modern jazz age, bootleg liquor, the movies, revolvers or our large cities for the "crime profession?" Instead of warring on the criminal, we pass more laws urther restricting law-abid ing citizens, in the hope that he crminal will be checked by a new law. He laughs at such tactics knowing the more laws we have, the more loopholes there are for him to crawl through and evade punishment, Uniform laws, uniform penalment would get results.

#### London Becomes Alarmed Over Food Shortage

Tondon, Dec. 35.—(AP) London lersh to get anxious about its food e dy today as snow fell again in e parts of southwest England I the weather bureau declared it ere was a possibility of a further neral fall.

Produce and vegetables are carce and expensive. Dairy farmers in some districts were unable to send their milk to the city and poured hundred of gallons away because of lack of transportation.

Should the predicted general fall of snow occur the plight of the rural districts would be serious. Airplanes and armored tanks are being used in relief work.
