OIL MAGNATE TESTIFIES AT OIL INQUIRY

Robert Stewart Tells Of His Part in Three Million Dollar Deal Today.

Washington, Feb. 2.—(AP)—Robert W. Stewart, Standard Oil magnate whose figure has bulked large in the investigation of the operations of the Continental Trading Company of Canada, was called on today by the Senate Teapot Dome committee for a first hand story of his part in the deal in which the hastily formed corporation made profits of three million dollars on American oil within a short time and then suddenly went out of existence.

The chairman of the board of the Indiana Standard concern was interrogated by Senator Walsh of Montana, whose efforts at solving the mystery of the now discontinued corporation are as persistent as were those that led to the unearthing of the Teapot dome and Elk Hills Naval Oil lease scandals four years ago.

Some six feet of committee tables separated the dynamic prosecutor and the rather vast bulk of the once country lawyer who has come to dominate affairs of one of the largest oil companies in the United States. The scene was laid in the ornate Democratic conference room of the Senate office building where many startling bits of testimony were given in the 1924 inquiry.

Stewart described Humphreys as a "picturesque" character. It was from Humphreys that the Continental, whose contracts was guaranteed by Stewart, Harry P. Sinclair, lessee of Teapot Dome, and others, obtained the millions of barrels of oil at \$1.50 which they sold back to Sinclair and Standard subsidiaries for \$1.75.

He said H. M. Bickmer, western oil man, first took Stewart to him and Humphreys wanted to sell oil from the Mexico field on a stock transfer proposition.

"I said, gentlemen, I can't do that," the witness said.

"A stock transfer would involve a continued liability in stock dividends. I said I would buy oil when produced at as good a price as anyone else."

"Humphreys needed money and he insisted on the stock deal all summer."

Stewart said that finally "my friend, Beman Daws, came along" and his company, the Pure Oil of Ohio, bought some stock holdings giving Humphreys the money he needed.

"In October we heard that the Pure Oil had gotten in there and gotten fifty per cent of the Mexico field production."

Walsh read correspondence between Stewart and Blackmer which was furnished the committee by E. G. Seubert, president of the Standard of Indiana, asking the meaning of a statement from Blackmer to Stewart that Humphreys was "ripe" for a trade.

"Oh bless your heart, I am not going to try to interpret that," Stewart replied.

Stewart insisted that Humphreys was seeking him out and that he was not seeking out the Denver operator.

"I wanted to trade with Humphreys, but not on his terms" the witness added.

"Certainly, you were all after that oil down there," Walsh observed.

"Yes, we all were," Stewart replied.

Previously he had stated that in 1924 a shortage of oil was feared and many oil companies were trying to get the oil which was coming in on the Mexico field.

At one point in the correspondence it appeared that Blackmer was seeking Stewart's advice and Walsh wanted to know if this was due to the fact that Stewart controlled Blackmer's company, the Midwest.

"Bless you, no," Stewart said with a chuckle. "I don't think Blackmer ever followed anybody's orders in his life. And I am certain Senators on this committee who know Blackmer will agree."

Blackmer is now in Europe and has refused to heed subpoenas in the Fall-Singling Oil conspiracy trial as well as citations to appear for contempt of court.

Walsh interrupted the reading once to observe that the correspondence made no reference to stock transfer.

"Don't you think that a little peculiar?" the Senator asked.

Detroit's 3 P's New Ford Cooks Eggs No Price War. Mr. Knudsen's Idea. (By Arthur Brisbane) Copyright 1927, by Star Co.

Detroit is proud, prosperous and producing. With the cities attached to it as Brooklyn is to New York Detroit has 1,700,000 population, actual names and addresses.

And Detroit is enjoying the great exhibition of titian's paintings ever seen in America. 25 fine examples of the great Venetian's work and city could be proud of that.

Francis Kleinberger of New York who knows pictures, bought the Titians that Mr. Altman gave to New York City, and 70 per cent of all the Altman pictures, and now buys for Colonel Friesman proves by this collection that the best investment is a fine oil painting.

For instance one of Titian in Detroit's exhibition is a portrait of Philip the second of Spain from the collection given by the late Mrs. Emory to Cincinnati.

That picture was one of four owned by the Barbarigo family in Padua. Dr. Von Bode, head of the Berlin museum bought the four pictures forty years ago for \$7,500. But the museum wouldn't pay \$5,000. Lenbach the artist took two of them after his death Mrs. Lenbach sold them for \$330,000. Later Mrs. Emory bought one, now here, for \$430,000.

Colonel Friesman has one of the four, a portrait of the Boge Gratta and Lord Lancelotti, who married the Princess Mary has another.

The four that add for \$7,500 are now \$1,500,000.

Edsel Ford is one of the best Titians, a "Man in Brown". Jules Bach, of New York, lent "Venus and Mars," and Jacob Epstein, of Baltimore, lent "Portrait of a Senator."

A good antique is a good investment, but you can no longer buy four good Titians for \$7,500.

This writer talked with Henry Ford, saw new cars dropping off the line, and a new airplane engine on which Ford is working, the model engine of 50 horse power comes up to his expectations and he will build one to develop 1,000 horse power.

Ford means to build an airplane carrying six of those 1,000 horse power engines.

Talk about a "terrible automobile price war" is nonsense. Mr. Sloan, president of General Motors and Mr. Ford had lunch together the other day and argued that in the future as in the past building a great many cars by one manufacturer is a good thing for all manufacturers. The thing is to create a national automobile appetite, then feed it with quality and value.

Ford, having solved his new car problem, turns to other things, and says the only way to cook an egg is "put it on in cold water, raise it to a boil, boil it for two minutes lift it off the stove and let it stay in the hot water six minutes longer."

Like other wise men Henry Ford has learned that health is a matter of diet. He was sending a copy of the life of Luigi Corrado to Albert D. Lasker who recently gave a million.

GENERAL HAIG TO BE LAID TO REST FRIDAY

London, Feb. 2.—(AP)—The hymn of the church militant, "Onward Christian Soldiers," will be played when the body of Field Marshal Earl Haig leaves Westminster Abbey tomorrow.

At the request of Lady Haig there will be no funeral music or dirges when the world and the British empire pay their last tribute to the war leader.

In the procession of many titled and famous men who will accompany the body to the abbey from St. Columba's church, where it lay in state today, will be two faithful servants of the field marshal. They will have the place of honor immediately behind the gun carriage carrying the coffin. The carriage will be that of the gun which fired the first British shot in the world war. It was used in the burial of the unknown soldier.

The faithful retainers are Sergeant Secret, Haig's servant for 50 years, and an old warhorse which carried Haig through the French campaigns. The horse is now in the possession of King George, who loaned it to grace the funeral.

Hundreds of wreaths surrounded the body in St. Columba's. The customary white flowers have given place to red poppies. Among those who ordered wreaths of poppies were the king, the prince of Wales, King Albert of Belgium, and the representatives of many foreign governments.

The substitution of the poppies was in tribute to Earl Haig's institution of the poppy fund for disabled soldiers.

On his coffin lay poppies scattered by his widow near his helmet, baton, sword and medals.

Alison B. Houston, American ambassador, will represent President Coolidge at the funeral tomorrow. The Prince of Wales will represent King George. Marshal Foch, generalissimo of the allied and associated armies in the World War, heads the list of distinguished soldiers who will act as pall bearers. The others are: Field Marshal Lord Methuen, Field Marshal Sir Claude Jacob, Field Marshal Sir William Robertson, General Lord Byng, Sir Hugh Trenchard, Admiral Earl Jellicoe, Admiral Earl Beatty, Baron de Ceynck, of the Belgian army, Marshal Petain, of France, and General Sir Ian Hamilton.

Burial will be on the Earl's estate near Bemersyde, Scotland. The Earl's son and heir, a boy of ten, who is at home recovering from an illness, had not been told today of his father's death.

PITT PREACHER IS VICTIM OF HEART ATTACK

Rev. J. W. Rumley Died at Farnville Last Night Following Attempt to Take his Life.

Funeral services were conducted at Farnville this afternoon at 2:30 o'clock for Rev. J. W. Rumley, 62, former Methodist minister, who was found dead in the bathroom of his home last night about nine o'clock, a victim of a severe heart attack.

Two cuts on Mr. Rumley's left arm led to belief that he had attempted to take his life. Physicians, however, declared that the wounds were not serious enough to have been fatal and that death resulted from intense emotion accompanying the attempt to commit suicide.

The funeral was conducted from the Methodist church by Rev. J. W. Harrell, pastor, interment following in Forest Hill cemetery.

Mr. Rumley, one of the best known ministers of the Methodist faith in this section of the state, had been in ill health for several years and suffered protracted spells of despondency. He was a native of Carters county. He served in the Methodist conference for a number of years and held many important pastorates. Prior to his retirement he was pastor of the Farnville church.

He is survived by a widow, who was Miss Marnie Hasket, of this city; one daughter and four sons; Miss Mary Louise, Julian, Charles Bernard and Francis Rumley, all of Farnville.

Resumes Flight To South America

Atlanta, Ga., Feb. 2.—(AP)—Captain Joseph Donnellan flying to South America on a good will tour, took off here at eight thirty this morning for Miami, Fla.

The flight, which started from Chicago Monday for the purpose of demonstrating the practicability of long distance flights with small planes, has been delayed by adverse weather.

First Casualties From Nicaragua Brought Home

Norfolk, Va., Feb. 2.—(AP)—The first casualties are home from Nicaragua—four wounded marines who returned through this port yesterday, landing with the ammunition ship Nitro from Corinto.

With those wounded were twenty others, suffering from malaria and other tropical ailments. The wounded: Captain Richard Livingstone, Philadelphia, wounded in the right arm in the fighting at Quinala December 30.

Lieutenant Merton Richel, Quantico, Va., serious gunshot wound in face.

Private Lee Harvey Hooks, New Orleans, wounded in back by exploding bomb.

Private Robert Hershell Collins, Cobbtown, Ga., wounded in shoulder and leg.

TWO CHILDREN BURNED TO DEATH

Cumberland, Md., Feb. 2.—(AP)—Two children were burned to death today in a fire which wrecked their apartment home but did not spread to a garage beneath it. Dorsey Carroll, father of the children, had left for his day's work before the fire, thought to have been due to an overheated stove, broke out. W. O. Devore, passing on the street, saw the flames and succeeded in arousing Mrs. Carroll but they were unable to reach the children, Paul, 4 years old, and Doralina, four months.

Committee Will Report On Plush Factory Stock Sale During Afternoon

A. M. Moseley, chairman of the committee soliciting stock to make possible the coming to this city of a branch of the Philadelphia Plush manufacturing concern, stated this morning that they would hold a meeting this afternoon to determine how much stock had been subscribed.

The sum of \$60,000 is necessary to make establishment of the plush factory of the concern possible. It was stated last week when committee members began their work.

While no information was given today as to success of the campaign, numbers of business men to whom expressed hope that the total amount of stock required in the project had been disposed of. The committee has done considerable work, especially during this week, and the meeting this afternoon is looked forward to with more than general interest by the citizenship.

The proposal of the Philadelphia concern to establish a branch plant here has been explained to virtually all civic and business organizations of the city by committee members and much enthusiasm has been aroused. Both bankers and far-sighted representatives of business and industry reported that they had investigated the financial rating of the Philadelphia factory and found it to be in A-1 condition. It has been a paying proposition from the beginning, and holds forth great inducement to communities desiring manufacturing industries of the kind.

"This is Greenville's opportunity of breaking in on manufacturing," Mr. Moseley said today, "and we cannot afford to let the matter pass without giving it the attention it deserves. Other communities, it is understood, are keenly competing with Greenville and have offered inducements of a most glittering nature."

"The establishment of this factory would result in other enterprises coming to the city. That's exactly what we want—more industries, more payrolls—and year around prosperity."

MUST MARRY GIRL OR DIE

Maharajah of Indore Says He Will Die if He Doesn't Wed Seattle Woman.

Bombay, British India, Feb. 2.—(AP)—The Daily newspaper Sandhya says that the former Maharajah of Indore has sent this telegram to his private secretary in regard to an amendment to the pending radio measure to ban "jazz" music over the air.

"Inform all if marriage with Miss Miller cannot take place I shall die."

The paper also says that the former ruler having up to the present failed to arrange for the American girl to be initiated into Hinduism, has been urged to turn to Islam. A telegram has been sent him and Miss Miller suggesting they embrace Islam "which alone can end your present deplorable controversy and offer peace of heart and soul if followed in the true faith."

Islam offers protection to emigrants and beggars alike," the telegram continues. "It can lead them to spiritual and worldly loftiness."

The sender, who is a Punjab Moslem, asks the former Maharajah to reply by wire so that arrangements for the conversion can be made.

Mother and Father And Four Children Burned to Death

Philadelphia, Feb. 2.—(AP)—A father and mother and four of their five children were burned to death in a fire which wrecked their homes in West Philadelphia today.

The victims were burned to death by sleep.

The dead: Armande Mandel, 33, a baker, Cecilia, 29, his wife, Anna, 8, Ophelia, 6, Henry, 4, Armande, Jr., 2.

The other children, Albert, 7, was found struggling to open a door by firemen. The shock of the fire had left him speechless and he was unable to tell attendants at a hospital what had happened. He was only slightly burned.

Marine Flyer Begins Flight To Nicaragua

Washington, Feb. 2.—(AP)—Lieut. George H. Towner, marine corps aviator, hopped off here at 6:25 o'clock this morning in a tri-motored Fokker transport plane for Miami, Fla., the air stop to be made on a flight to Nicaragua.

Towler, accompanied by sergeant, Lieut. James B. McHugh, relief pilot and radio operator, and Corporal Robert Wenzel, mechanic, will turn the ship over to marine forces in Nicaragua for use with the other two flown over the same course in recent weeks.

For the 950-mile hop to Miami, Lieut. Towner carried nearly 600 gallons of gasoline. He expected to reach the Florida City in about ten hours. A departure for Managua is scheduled for tomorrow morning.

Two machine guns were mounted on the plane.

TACNA ARICA ISSUE BEFORE PAN CONFAB

Report Expected to Provide Ground for Discussion Heard at Havana Today.

Havana, Feb. 2.—(AP)—A report which was expected to provide ground for the discussion of the Tacna Arica case before the public international law committee of the pan-American conference today.

The report was prepared by Orceles Ferrara, Cuban ambassador to Washington, on the general topic of treaties. It discussed the procedure in cases where changes have occurred in conditions which prevailed at the time of the signature of a treaty.

The treaty of Ancon, signed in 1893 after war between Peru and Chile, provided that a plebiscite be held ten years after the date of signature to determine the ownership of the provinces of Tacna and Arica. A plebiscite was attempted under the direction of the United States in 1925-1926. The attempt failed and the issue is still pending.

Proposals for pan-American cooperation in air, land, sea and river traffic were submitted to the committee on communications for further consideration. Ambassador Henry P. Fletcher, United States, on Monday announced that the United States would have no objection to the extension of the projected commercial aviation convention to include all nations whether they are members of the pan-American union or not.

Another matter before the public international law committee was consideration of the duties of countries in time of civil war in neighboring states.

It was pointed out in the public international law committee by Dr. Alejandro Alvarez, of Chile, that revision of the pre-war maritime code concerning the rights of neutrals was necessary. Dr. Alvarez said the great war had shown that the Hague convention could not always be applied to this continent. He pointed to the United States and Chile as examples. The United States and Chile, he said, in addition to enormous neutral world trade, shared a great coast line, while Chile found its coasts the scene of naval engagements between conflicting powers.

It was time, Dr. Alvarez added, that the American nations proclaimed that the property of neutrals should be inviolable from seizure in time of war.

LINDBERGH MAKES SHORTEST FLIGHT OF GREAT AERIAL TOUR

San Juan, Feb. 2.—(AP)—Col. Charles A. Lindbergh today made the shortest flight of his great aerial tour, flying from St. Thomas, Virgin Islands, to San Juan, where he landed at 1:37 this afternoon (11:33 central standard time). The flight occupied two hours and five minutes, for he flew over the island of St. Croix, lying some miles south of St. Thomas.

Lindbergh took off from St. Thomas at 11:50 a. m. 9:50 central standard time) and had favorable weather. Thousands had gathered along the sea front and at Escambron flying field.

GIVES DETAILS OF KILLING OF PARKER CHILD

Detective Testifies at Hickman Sanity trial At Los Angeles Today.

Los Angeles, Feb. 2.—(AP)—In a shell of prosecution thunder, the details of the kidnaping and slaying of little Marian Parker have flooded into the records of the sanity trial of William Edward Hickman as a part of the youth's defense.

Hickman's attorneys started their raid on what had been accepted as prosecution territory yesterday when the first witness to take the stand after the long line of defense positions had been read was detective Lieutenant Richard Lucas, one of the Los Angeles police officers who brought the "fox" back to Los Angeles from Oregon, the scene of his capture.

"They followed up that witness with the reading of a copy of a confession and an outline of motives in the crime as they had been penetrated by the kidnaper and slayer.

Defense counsel said they intended to call other members of the police force to corroborate Lucas' testimony and to give additional details of Hickman's sojourn in the Pendleton, Ore., jail and the subsequent trip to Los Angeles.

District Attorney Asa Keyes, at the close of yesterday's court session, said that the defense move in issuing subpoenas for prosecution witnesses pointed to an admission of all of the facts and was an indication that the defense would attempt to picture these facts as the actions of an insane man.

Details of the confession offered little news as they had been made known both at the time the prisoner wrote his first confession, and again when he wrote at least one other. The "motive statement" frequently had been mentioned hitherto and at one time the object of contention between defense and prosecution.

It gave his motive in the slaying as fear that the kidnaped girl would make trouble if not sent home on that day and would spread an alarm. Hickman also blamed a sudden impulse to kill the school girl after he had tied her in a chair in his apartment.

From the witness stand Lucas, to whose wrist Hickman was handcuffed during the trip down the coast, told of discussing with the prisoner "fits" thrown by Hickman in the Pendleton jail.

"He threw a fit in the jail at Pendleton," testified the huge police detective. "The next day, Christmas, he threw another. He asked me on the train what I thought of it. I said I thought it was a pretty poor one.

"He laughed and said: 'Well, what judge do you suppose I'll get?'"

He was told it would probably be Judge Hardy (Judge Hardy disqualified himself at the beginning of the sanity trial).

"That's fine," he said. "He won't hang me. He doesn't believe in capital punishment. But I guess I'll throw a fit for him in court anyway."

On the motive for killing the girl, Lucas quoted Hickman as saying: "Everybody was looking for me, and I was scared. Then I made up my mind to kill her."

Lucas said Hickman told him that the little girl was unconscious but not dead when he began to dismember her body.

State Property Given Appraisal

Raleigh, Feb. 2.—(AP)—North Carolina's property, included in her education, charitable and correctional institutions and homes, has been appraised at \$44,359,118, according to a statement issued today by Governor A. W. McLean, as director of the budget.

The general assembly provided bonds in the sum of \$21,238,500 for permanent improvements at these institutions and homes, up to and including such funds as have been allocated to them by June 30, 1931, from the bonds authorized by the 1927 session.

The statement shows that the land, buildings and other permanent improvements are assessed at a valuation of \$23,918,971 and bonds allocated to them for permanent improvements amount to \$15,275,500. The property valuation of the correctional and charitable institutions totals \$20,440,146, with bonds for improvements amounting to \$8,994,000.

A GOOD NAME

"Tobaccoists" the name
chosen for Greenville's en-
try in the Eastern Carolina
Baseball league is a wise
choice and is really repre-
sentative of one of the city's
greatest industries. Far and
wide Greenville is becom-
ing better and better known
as a tobacco center while
Pitt County is the world's
largest producer of bright
leaf tobacco. The name
"Tobaccoists" is indeed a
good one for the Greenville
team.

HOLDING THE MIRROR
UP TO LIFE

Those who find fault
with the theatre or the press
should condemn public taste
not stage and newspaper,
says Richard Bennett, vet-
eran actor.

The playwright, he ex-
plains simply holds the mir-
ror up to nature. The
World War and Volsteadism
filled this country with dis-
respect for law, and with a
demand for sex appeal in its
literature and drama. The
stage gives the public what
it wants, like the newspap-
ers, says Mr. Bennett.

It sounds simple enough.
Artists of any kind, newspa-
pers and similar agencies
for reporting life or pictur-
ing it, have no responsibility.
They are simply engaged
in distributing the intellec-
tual necessities of life. A
grocer sells coffee and bac-
on because people like cof-
fee and bacon. A theatre
or newspaper retails "inso-
lence," "lack of respect for
honored traditions and con-
ventions," "obscenity," be-
cause the market is good for
such mental commodities.
This is a counsel of despair.
Fortunately all playwrights
and all publishers do not
subscribe to it.—Asheville
Times.

MEREDITH OBSERVES
FOUNDERS DAY

Raleigh, Feb. 2.—(AP)—Meredith
College today observed Founders'
Day, 37 years since North Carolina
Episcopalists found the institution here
for young women on the original
site one block from the state cap-
itol.
State Senator J. M. Broughton,
Raleigh, was down for the principal
address at chapel exercises while
this afternoon the faculty entertain-
ed friends of the institution
and numbers of the senior class.
Students enjoyed a half-holiday.

ABOUT
TOWN

"Have you subscribed for any
stock to the Philadelphia Plush
manufacturing concern desirous of
locating in Greenville?" a local
citizen asked of the writer of this
column today.

We assured him that we had not
yet subscribed for stock but had
been writing several thousand
words daily with the idea of bring-
ing the new industry to the city.

"But why should you do all of
that?" he questioned.

Simply because we realize that
Greenville is in need of manufac-
turing industries of this kind to in-
sure its future development and
expansion. We know that manu-
factories of this kind have always
been an asset to any city, and
Greenville is no exception.

"Well, I believe I'll do my part
in bringing the concern to the city. I
may not buy much of the stock, but
I'll certainly take my share."

With this brief remark the gen-
tleman left our company. But in a
short while we heard he had lived
up to his promise, although the ex-
pectation when uttered did not ap-
pear to be obligatory.

"Extermination of rats is one of
the greatest problems the county
has before it at this time," said
members of the county department
of agriculture, speaking to the
writer of this column today.

Two demonstrations dealing
with the extermination of rats will
be held in Pitt county February 6
and 7. They will be under the su-
pervision of men who have seen
long service in this department of
work and who actually realize the
immense damage being done by
rodents in different parts of the
country.

"Persons interested in these dem-
onstrations are urged to be present
and see exactly what late methods
destruction are doing to safeguard
the interests of the farmer."

"Greenville and Pitt county ex-
tend a cordial welcome to Miss
Nice, farm demonstration agent
who recently assumed duties as di-
rector of the home demonstration
department of the county," declar-
ed members of the court house
this morning.

"Miss Nice has been extensive
service in this line of work and
comes to Greenville fully prepared
to render service of the most com-
petent and commendable nature.
She last had charge of demon-
stration work in the state of Kentucky,
and from all reports created quite
an enviable reputation."

"Pitt county farm women should
do well to co-operate with Miss
Nice and help her in every way
possible to make this work what it
should be."

"Miss Ferguson accomplished
much good during her administra-
tion as director of this department
and has gone to a territory where
her efforts are more extensive in
every way. She did much for the
farm women of Pitt county, and is
to be highly commended."

"We have been talking about
hogs and hominy for the last year
or so," said members of the Board
of Agriculture today.

"We know that the raising of
hogs is one of the greatest assets
many of our most prosperous com-
munities of the nation could have
and we are doing everything possi-
ble to interest Pitt county people
in encouraging the raising."

"If you are a farmer and desire
to do something to increase your
revenue why not try the plan of
raising hogs and poultry. Growers
of other sections have found the
venture advantageous and it stands
to reason this section should."

"What in the world became of
the Reflector yesterday?" inquired
a reader of this column yesterday.
We informed him that the paper
was a little late on account of one
of two workmen being out.

"Well we can appreciate a pre-
dicament like that, but for good-
ness sake don't let the blamed thing
be behind very often."

"The Reflector has been coming
to our house as far back as I re-
member, and it is just like getting
money from home to most of the
family—especially to some of the
boys who have been away for a few
years and really appreciate this
expression."

"Try and get out as early as you
can and rest assured we appreciate
what you are doing to give the
county a newspaper of the first
water."

"It is gratifying to note that
building and loan associations of
Greenville are in prosperous condi-
tion," declared one of our innum-
erable readers today.

"It is extremely gratifying to us
because of the fact the building
and loan institutions are the most
valuable assets a town has. They do
more towards the development of
a town and city than any other
organization. This, however, is
largely determined by the financial
and moral support which citizens
give the institution.

"The report of the State Insur-
ance Commission was to the effect
that Greenville had one of the best
building and loan associations to be
found anywhere in a town of this
size? They are functioning in a
most commendable way, and assure
our citizens of continued expansion
of the business and residential sec-
tions.

"If you are not a building and
loan enthusiast we urge you to get
busy immediately and become a
member."

No Delay to Train

The delay in the train on Tues-
day was only slight and was
repaired in time for the night pas-
senger train to get over. The ac-
cident was caused by the hard wind
catching the draw, which was being
closed after leaving a steamer
pass, and sending it together with
such force as to knock the guard
rails several inches out of place.

Beaumont Harbor of Refuge

Congressman Harry Skinner has
secured a favorable report from the

War Department for an appropri-

of \$1,000,000 for this purpose. Mr.
Skinner will go before the River
and Harbor committee and urge that
the appropriation bill, which should
be placed in the river and harbor
appropriation bill, should be passed
by the House, the North Carolina
Senators will no doubt see to it that the ap-
propriation is tacked on to it in the
Senate as a part of an amendment.

Warren Regrets
Action Against
Road Building

Opposition to the resolution
passed Monday by the state high-
way commission that no additional
bonds will be asked of the 1929
general assembly. Charles man
Hickey Warren, who is a member
of the house committee on roads,
said that the action of the highway
commission will be regarded with
great disappointment in eastern
Carolina.
Mr. Warren said:
"The highway program in North
Carolina is far from finished, and
especially is this true in the eastern
and western sections. It has always
been my understanding that the
present gasoline tax will take care
of another reasonable bond issue,
and there is no dispute in the state
over the fact that the bond issue
method is the only way to build
roads. The road system has done
more to promote happiness and
good feeling in our state than any
other agency, and I do not believe
that the people will be content with
a partially finished system. Much
of the money allotted to the east-
ern counties has been used in nec-
essary but costly bridge construction,
and in the western counties diffi-
cult engineering has made road
building expensive. As a result, in

some sections there are many un-
connected links.
After all, the legislature is su-
preme. They will have to pass
down on some of these roads.
I think we had better have a
system. There will be plenty of
sentiment to go on before the next
legislature meets."

POLITICAL BREACH BETWEEN SMITH AND McADOO WIDENING

Washington, Feb. 2.—(AP)—The political breach between William G. McAdoo and Governor Smith of New York that began with the 1924 democratic convention stood at greater dimensions today, with indication that it would continue so long as Smith is a presidential possibility.

Bringing up the old rivalry for the first time in the present campaign, McAdoo in Richmond, Va., last night denounced the Governor's views on prohibition enforcement, attacked his utterances on the enforcement situation in his own state and sounded a warning to the democratic party that it must never send a "wet" to the White House.

Describing the issue as one that must be fought to a conclusion in the 1928 campaign, McAdoo said "the supreme need is to put law enforcement in the White House."

Suicide to Gain Freedom
Santa Fe, N. M., Feb. 2.—(AP)—Suicide has brought the freedom from "temptations of the city" which W. Barton French, scion of a prominent New York family, told friends he sought.

Arriving here Tuesday from his ranch near Bland, N. M., he went to the home of Guy Shannon. Yesterday Shannon discovered him in a bath room with a bullet in his head. A coroner's jury found he came to his death from a self-inflicted wound.

GYPSY HEADRESS

Paris.—(AP)—Heads swathed in scarves, gypsy fashion, are appearing in smart gatherings at theatres and concerts. The turbans are excuses for big ear rings, the newest and smartest ones set with brilliant and so heavy that they can not be worn except in pierced ears. More often the rings are attached to the headress.

FORD FLIVVER PLANE RETURNS TO DETROIT

Detroit, Feb. 2.—(AP)—Completing the last leg of his return flight from Asheville, N. C., where he landed last week in a Ford flivver monoplane, Harry J. Brooks landed at the Ford airport here at 1:15 p. m. today. He flew here from Cleveland.

It was announced that preparations would be started immediately for a second attempt to break the world's record for light planes. The date of the flight, Brooks said, is indefinite. He left here at 6 a. m. January 24 on an attempted non-stop flight to Miami, Fla., but he formed on the wings of the flivver plane and forced him down at Asheville.

Brooks attributed his failure to reach his goal to inadequate weather reports.

Missouri Offers Reed As Democratic Hope

Friends of Senator James E. Reed of Missouri (left) have put him squarely into the race for the democratic presidential nomination. At the upper right is the Kansas City home of Senator and Mrs. Reed, who are shown below on the steps of its veranda. The Senator's study is shown at the lower left.

Kansas City.—(AP)—Missouri still tells how 20 years ago, when James E. Reed was prosecutor of Jackson county, in which Kansas City is situated, he tried 287 cases in two years and got 285 convictions. It has been largely as a prosecutor of hat he dreamed evil in public affairs that Reed has been a prominent figure in the United States senate since 1911, attracting national attention which now prompts his friends to offer him to the democratic party as its nominee for president.

for he has the front porch. The broad veranda fronts the large brick house into which Senator and Mrs. Reed moved only last summer, after having maintained their residence for many years at a downtown hotel. The home stands in the center of a three-acre lawn facing the east with a hill sloping toward it across Cherry Street. In the basement of this residence Senator Reed has his library and his "work shop"—the latter a long room, simply but comfortably furnished, with a fireplace, an open end and at the other a door leading into the library. Here are valuable mementoes of a public career which began in 1880 and treasured pictures, including those of his parents. Ohio, native state of seven pres-

MOTORS TAKE SWAINS FATHER FOR BRIDES

Bloomburg, Pa.—(AP)—Cupid is roaming farther and father afield in carrying out his work in these days of automobiles, marriage records in this part of Pennsylvania reveal.

There was a time when young men drove to see their "best girl" with horse and buggy. The range of Cupid's activities in those days was about eight or ten miles, particularly in rural districts.

Now however, marriage licenses reveal in increasing numbers of swains finding brides at distances of 25 to 50 miles.

ANGLERS ARE TRAINING FOR CASTING TOURNEY

Orlando, Fla.—(AP)—Modern followers of Isaac Walton, who was content with a simple pole and line are swinging rod and reel over Lake Eola here in preparation for the Southern Casting championship, February 9.

Nationally known anglers including Mr. and Mrs. W. W. Williams, Cleveland, the former the defending titleholder; Mr. and Mrs. Lou Hart, Indianapolis, champions of Indiana, and Dr. J. W. Pinkham, Abury Park, N. J., 1924 surf cast champion are already here and

numerous other entrants are expected.

Practice is being concentrated upon distance and accuracy the men specializing in throwing the five-eighths ounce weights and the women using the one-half ounce.

HOME ECONOMICS TAUGHT IN 292 STATE SCHOOLS

Raleigh, Feb. 2.—(AP)—Of the 544 accredited white high schools in the state, 292 have courses in home economics, with 319 teachers. Miss Rebecca Cushing, state supervisor of home economics education, reported to the state board of education today.

All but ten of the 160 counties of the state now have home economics departments, she reported.

Will Recover From Injuries.

Durham, Feb. 2.—(AP)—Physicians said today that E. B. Page, Jr., young son of a Durham couple would recover from painful burns received to the face and body as a result of a stove explosion in the home here.

The parents also received burns on their hands and arms in extinguishing the flames which enveloped the child.

LEUNASALPETER is a high analysis nitrogen fertilizer, one hundred pounds containing as much nitrogen as 167 pounds of nitrate of soda. It is a double salt, combining the quick action of the nitrate with the slower and more lasting action of the ammonia.

LEUNASALPETER costs less per unit of nitrogen, and will also save considerable money in freight, handling and hauling. Experience has proved its value as a more effective, more economical top-dresser. MADE BY THE WORLD'S LARGEST NITROGEN PRODUCERS. For sale by dealers everywhere.

STUDEBAKER

The Great Independent

Behind every Studebaker and Erskine car are \$105,000,000 in actual net assets and great modern research and engineering facilities.

Behind Studebaker Performance Records —engineering genius!

As a result of the engineering genius in Studebaker motor cars, Studebaker now holds all the highest endurance and speed records (from 1 mile to 25,000 miles) for fully equipped stock cars, regardless of power or price. Headed by D. G. Roos, Studebaker's engineering staff leads the industry in point of actual achievement.

It is the work of genius to produce such a car as The Studebaker Commander—the car that went 25,000 miles in less than 23,000 minutes. Nothing else on earth ever ran so far so fast. Studebaker engineering genius is reflected, too, in the increase of the power of The Studebaker Dictator from 45 to 70 h. p.—with greater economy of operation—and with no increase in price.

Studebaker spends millions to make sure
Engineering and laboratory facilities for experimentation and research are of the utmost importance. Studebaker provides its brilliant staff of research men headed by W. S. James, former section chief of the U. S. Bureau of Standards, with the most complete facilities that money can buy.

In Studebaker's laboratories technicians test all raw materials. Over the diversified roads and grades of Studebaker's million-dollar Proving Ground, Studebaker and Erskine models are driven in extended tests of speed and mechanical endurance.

Studebaker gives more; costs less
Because Studebaker builds bodies, engines and chassis for Studebaker cars, profits of outside manufacturers are reduced to a minimum. These savings are passed on to you in the form of higher quality materials and the highest type of precision workmanship—at a low One-Price price.

Before you buy a car, take the wheel of one of the new Studebakers. It will reveal the most advanced engineering of 1928 combined with Studebaker's 76-year-old traditions of quality.

THE CHASTENING

HERE NEXT WEEK

Last season Edith Wynne Mathison and Charles Rann Kennedy were welcomed back to their native city, London, after fourteen years' absence with a cordiality and enthusiasm that knew no bounds. As for Margaret Gage, she was received at once as a genuine "discovery."

Her Lad in "The Chastening" was greeted as a sacred revelation. And it is interesting to note that the beauty of her voice and diction was especially commented upon in all the criticisms—no small triumph for the first appearance of a young American actress in London town!

"And what a face she has for it!" said Bernard Shaw. Said William Poel, founder of the Elizabethan Stage Society: "It is a long time since I sat out the performance of a play so well written and acted with so much finish. I really had thought this kind of art has come to an end, so completely has it disappeared from our stage."

These are the three players who will appear in "The Chastening" at East Carolina Teachers College in the Campus Building on next Wednesday evening at 8 o'clock.

A. B. Corey Again Chosen C. M. T. C. Chairman for Pitt

Mr. Arthur B. Corey has been formally notified by Mr. Albert L. Cox, state aid, that he has been re-appointed to represent the C. M. T. C. Association in Pitt County as chairman of the committee in charge of the enrollment of applicants for the C. M. T. camps this summer.

This re-appointment brings all activities in behalf of this summer's C. M. T. camps for Pitt County, under his direct supervision.

Plans for the camps, which Mr. Corey has received provide for the appointment of separate quotas to each county so as to give a fair allotment of vacancies to all parts of the State.

Mr. Corey says that, regardless of quota for this county, every acceptable young man in the county has an opportunity to apply and may be accepted.

He hopes the response to the government's offer of thirty days camp life and training, with necessary expenses paid by the government, will exceed the quota, and that Pitt County will have the distinction of being first over the top.

Only those who complete enrollment at an early date can be assured of attending camp.

Complete enrollment, Mr. Corey explained, includes the proper filling out of an application blank, accompanying it with a certificate of character from a reputable citizen and physical examination, vaccination and inoculation, usually performed, free of charge, by a local physician.

Mr. Ground Hog Scurries Back To Hole Today

Today was "Ground Hog day here and everywhere.

According to legend, Mr. Hog cautiously emerged from his long period of seclusion to determine the state of the weather.

In Greenville he saw his shadow and promptly scurried back to his place of incarceration, leaving the superstitious and believers in black magic predicting forty more days of bad weather.

And it really seemed Mr. Hog new his "stuff,"—to employ a little parlance of the street—for the mercury took a slight but distinct drop during the morning, this being accompanied by the chill fingers of Jack Frost, king of winter.

The legend about Mr. Hog may hold good, but Greenville and Pitt county people were mighty glad to see fair weather after two days of clouds and fog.

COTTON MARKET.

New York, Feb. 2.—(AP)—The cotton market showed increased weakness today under continued liquidation and southern selling in cables and talk of an easing spot basis in some of the southern markets.

Prices made new low ground for the movement, breaking below the 17 cent level for March and October with the general market 15 to 36 points net lower and ruling within 4 or 5 points of that level in mid-afternoon.

Futures closed steady, 10 to 34 lower.

GRAIN

Chicago, Feb. 2.—(AP)—Despite rallies due largely to reports suggesting considerable winter killing in Illinois and Indiana, wheat prices averaged lower today. Later assertions of rain in the southwest acted as a bearish influence and so likewise did unexpected lower quotations on wheat at Liverpool, as well as predicted increasing wheat shipments from Argentina.

Wheat closed heavy 1-2 to 11-8 net lower. Corn 5-8 to 1-2 down. Oats 3-8 to 1-2 off and provisions varying from 12c decline to a rise of 7c.

STOCK MARKET.

New York, Feb. 2.—(AP)—Major speculative activity in today's stock market was again on the up-side, although weakness cropped out in the oils, most of which sank to new low ground, and some of the minor specialties. Violent advances again took place in a number of business appliances, public utility and independent steel shares. Motor and baking issues also presented several points of strength.

Despite the continuance of the 3 1-2 per cent rediscount rate by the Philadelphia, Boston and St. Louis federal reserve banks, some uneasiness was still apparent over the credit situation. Call money dropped from 4 1-2 to 4 per cent as the February dividend and interest disbursements returned to the banks. Directors of the New York federal reserve bank held their weekly meeting after the close of the market.

The urgent retreat of the short interest accelerated the rise in many of the specialties. International business machines soared 11 points, Burroughs adding machine 9 Fidelity-Phenix Insurance and Warren Bros., each advanced about 7 points and Montana Power, Vandalum Steel, Transue and Williams, Peoples Gas, Gold Dust and several others climbed 3 to 6 points. Packard, Studebaker and General Motors led the rise in the motor group and National Biscuit and Ward Baking B headed the rise in the baking issues.

Fox film turned heavy on the announcement of new financing. Brooklyn Edison, Orto Rican Tobacco, Christie Brown and American Zinc preferred also were under selling pressure. Atlantic Refining and Houston Oil which broke sharply in the early trading, recovered part of their losses by early afternoon.

The closing was strong. Total sales approximated 2,100,000 shares.

NOTICE OF SALE

In the district court of the United States for the Eastern District of North Carolina.

James H. Pou, H. S. Ward and M. L. Corey, Receiver for Tobacco Growers Cooperative Association, vs.

Eastern Carolina Warehousing Corporation.

NOTICE OF JUDICIAL SALE Pursuant to orders, executed by his Honor, I. M. Meekins, Judge of the Federal Court for the Eastern District of North Carolina, and duly filed in the above cause, the undersigned Receiver of Eastern Carolina Warehousing Corporation will offer for sale at public auction on the day and at the hour hereinafter noted the real estate embraced in the description hereinbelow given.

Friday, February 24, 1928, at 11:00 A. M.

New Warehouse—Greenville, N. C. All that certain tract or parcel of land in the Town of Greenville, Pitt County, North Carolina, more particularly described and defined as follows, to-wit:

That certain lot of land beginning at an iron stake on the South side of Twelfth Street, the Atlantic Coast Line Railroad Company's line; thence Eastward with the South side of Twelfth Street 177 feet to an iron stake at T. M. Hooker's corner; thence at right angles from Twelfth Street Southward with T. M. and T. E. Hooker's Western line about 330 feet to Thirteenth Street; thence Westward with the North side of Thirteenth Street 152 feet to an iron stake at the Atlantic Coast Line Railroad Company's line; thence Northward with the Atlantic Coast Line Railroad Company's line about 330 feet to the iron stake at the beginning, being all of Lots Nos. 74 and 86 as shown by a map made by H. F. Price for H. P. Straus, June 5th 1899, said lots containing 1 1-4 acres more or less and being same land conveyed to the Greenville Manufacturing Company by deed dated May 8th, 1901, from D. C. Artgur and wife, which deed is duly recorded in the Register's office of Pitt County in Book A-7, at page 214, to which reference is hereby made, and thereafter conveyed to the Pitt Lumber and Manufacturing Company by the said Greenville Manufacturing Company by deed of record in the Pitt County Registry, and being the same parcel of land that was conveyed to the Pitt Lumber and Manufacturing

Company by that deed recorded in Book G-11, at page 521, of the Pitt County Registry.

All of the above mentioned sales will be conducted on the premises described. The real estate described above will be offered for sale as a unit or will be sub-divided by the Receiver and offered for sale in smaller units or parcels of a subdivision, within the discretion of the Receiver.

The general terms of the sales will be that the property shall be

sold for one-third cash, the balance payable in two equal installments, due one and two years from date of sale, the deferred payments to bear interest at the rate of six per cent from date of confirmation, to be secured by notes of the purchaser and standard first mortgage on the property conveyed. High bidder for each parcel offered for sale will be required to deposit with the Receiver certified or cashier's check for 10 per cent of the amount of his bid. All real estate shall be sold subject to the right of the Re-

ceiver to remove from the said real estate all personal property, including warehouse scales, within sixty days after confirmation of the sale. All bids and proceedings at such sale will be subject to confirmation or rejection by the Court. Upon confirmation of any sale, the 10 per cent deposited by the bidder shall be applied on the bidder's required cash payment.

lion dollars to the university of Chicago to be spent finding out why so many men die just after fifty years of age.

"That's a good idea of Lasker's," Ford says.

Cornaro was the ancient venetian who lived foolishly up to forty was given up to die by his doctors, then became interested, regulated his diet later wrote to the Pope, "I had to live to be ninety to know that the world is beautiful" and died at 105.

Cornaro who built some of the finest palaces in Venice, and originated a plan to drain the venetian marshes, lived for 80 years on 12 ounces of food, and 16 ounces of light wine per day. Don't mention the wine to your prohibition friend, it might hurt his feelings.

Henry Ford drinks only water, which all the doctors in Europe and some of the best in America would tell him is a great mistake.

W. S. Knudsen, president of Chevrolet, and R. H. Grant, boss of distribution, seemed quite contented in the General Motors building, which cost \$12,000,000, and now is easily worth \$25,000,000.

Mr. Knudsen says Chevrolet turned out 32,000 of the new type cars in January and will produce 110,000 this February.

Mr. Knudsen, whose business is getting work done, says one trouble with our young people is they never have any opportunity to do real work, until they come out of high school, or college, as the case may be. Then it is too late for many of them to learn.

He suggests a lull in study between primary and high school, or high school and college, devoted to practical training and real work.

Couple Wedded on Partnership Plan

Annapolis, Md., Feb. 2.—(AP)—Famous as a haven for eloping couples, Maryland today presented what was described as a "partnership marriage."

In the cellar of a college fraternity house, Walter W. Phillips, of Camden, N. J., St. Johns college student, was married to Miss Margaret J. Rochester, of Baltimore. The syncopating strains of a jazz band replaced the deep throated organ. Bridal bouquet and wedding ring were dispensed with.

Fraternity brothers of the groom were dressed in bridesmaid attire but did not attend the ceremony. They waited on the floor above, harmonizing with the jazz orchestra, and then cheered the couple as they emerged from the basement. The best man relieved the monotonous line of his tuxedo by wearing light striped socks, meant to be plainly visible.

"We have our own code of ethics," Phillips said. "We do not consider the marriage ceremony essential but realize that we have to conform in some measure to the rules of society. We approached the ceremony in the same state of mind. For the world's 'until death do us part,' we mentally substituted 'until love dies'."

"My marriage is just a partnership. It is similar to, but not the same as companionate marriages. We decided to get married with certain understandings. For instance, neither one is obligated to support the other."

Old Deeds Turn Up
Rockland, Me. (AP)—A warranty deed 114 years old, and a quit claim dated an even century ago have been registered at the Knox county register of deeds office for the first time. For many years the deeds were lost, but recently they were found in a piece of antique furniture sold by a local dealer.

Pelice Force Looking Up
Bangor, Maine (AP)—Years ago Bangor police were asked occasionally to help find a stolen horse and buggy. In later years came requests to look for purloined motor cars. And now comes a plea from an unlucky aviator, whose plane was stolen from a Denver, Colo.

AFRAID TO EAT

Bloating Spells, from Indigestion, Put an Oklahoma Man in a Miserable Fix, But He Found Relief.

Swink, Okla.—In describing how he suffered from indigestion, Mr. S. T. Strain, of this place, says: "I have been a user of Black-Draught for four or five years. I have been taking it for stomach trouble. I suffered after eating with bloating and a tight feeling."

"I had spells when I could not eat much of anything. I had severe headaches. I would be nauseated and hurt a lot. I was in a pretty bad fix."

"I began taking Black-Draught. It seemed to help me wonderfully. I hadn't found anything that benefited me as Black-Draught did. I certainly can recommend it."

"There were times when I just did without anything to eat until I was too weak to go. I was just miserable, and when I ate, my system seemed clogged."

"I had very severe headaches. So I didn't know just what to do. I knew I couldn't work if I didn't eat. Seemed like what I spit up was bitter as could be. I took Black-Draught pretty regularly and got where I could eat, and I don't have to take it so regularly now." NC-177

BEWARE THE COUGH OR COLD THAT HANGS ON

Persistent coughs and colds lead to serious trouble. You can stop them now with Croomulion, an emulsified creosote that is pleasant to take. Croomulion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Croomulion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Croomulion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. (adv.)
