

HAHN FAILS TO SET NEW INDOOR MARK

New York, Feb. 14 (AP)—For the third time this season Lloyd Hahn has failed to establish a new indoor running mark chiefly because of conditions over which he had no control.

With the announced intention of seeking to shatter Jimmy Connelly's world record for the two-thirds of a mile, Hahn appeared in a special event at the Elks intercollegiate meet here last night only to find that Connelly and Willie Goodwin, scheduled to furnish the opposition for him, had failed to put in an appearance. Despite the fact that he had no one to push him to his best stride, Hahn failed in his effort by only four fifths of a second. He covered the distance in 2 minutes, 44 2-4 seconds, being paced for two laps by a high school runner and finishing the last four laps alone. Connelly's world mark, set five years ago, is 2:43 3-5.

Early in January Hahn established a new record for the half mile only to see it disallowed because the track on which it was made lacked board markers. A few weeks later, the Boston A. A. star came within two seconds of his own record for the thousand yards despite the fact that the field was inadvertently sent around the track one lap too many and Hahn's time for the 1,000 yards, as a consequence, failed to include his usual last lap spurt to the tape.

Can't Glare at Officials.
Chicago, Feb. 14 (AP)—The American privilege of glaring at the officials, whether it be in baseball, boxing or tennis, was saved to the tennis players of the land, it was learned today, by "Big Bill" Tilden, when his right was on trial at the United States lawn tennis meeting last Saturday.
Advocates of the English code offered a regulation forbidding the players glaring at the officials. Tilden rose with some choice remarks and some very impressive glaring, and the rule against dirty looks was voted down.

LOWER ADMISSION PRICES AND HIGHER SALARY LIMIT FOR THE VIRGINIA LEAGUE

Richmond, Va., Feb. 14 (AP)—Lower admission prices and a higher salary limit will feature the reorganized Virginia League this season.

Continuance of the league with Richmond, Norfolk, Portsmouth and Petersburg as members was voted at a meeting held here yesterday. Wilson and Kinston, North Carolina cities, will not be members during the 1928 season. The opening date was fixed for April 18 and Labor Day named as the official close.

The player limit will remain at 14 with each club limited to four class players and required to have four men with only one year of professional experience. The latter ruling is expected to aid in the development of the sandlot players.

Admission prices were generally lowered and the salary limit placed at \$3,000 including manager, as against \$2,250 last year, exclusive of manager.

W. G. Bramham of Durham, N. C., was elected president.

"Barnyard Golfers" Vie For National Title

Horse shoe pitchers of all ages in all kinds of togs are tuning up at St. Petersburg, Fla., for the national championship tournament there February 20. Frank Jackson (left) 53 year old ex champion from Kellerton, Iowa and "Putt" Mossman (right), Des Moines, Iowa, are outstanding contenders for the crown now held by C. C. Davis (inset), Columbus, Ohio, who will defend it.

St. Petersburg, Fla. — (AP) — Such sports as baseball and boxing have their thousands of fans, but the "barnyard golfers" get a share of the limelight February 20 with the holding of the National Horse Shoe Pitchers Association's national championship tournament here.

The greatest shoe flingers in the country are entered to compete for the \$5,000 in cash prizes. Frank Jackson, 53 years old, of Kellerton, Iowa, and "Putt" Mossman, Des Moines, Iowa, both former champions, already have arrived and

are training daily for the unique event which attracts hundreds of spectators and nationwide attention.

C. C. Davis, Columbus, O., defending champion; Jimmy Risk, the Montpelier, Ind., high school boy who last year tossed such an accurate she be also tossed a scare into the veteran; France Olin, Cuyahoga Falls, Ohio, and Blair Nuamaker, Cleveland are among the entrants.

Grandstands are behind the throwing fields and the large crowds attending the tournament

get a great thrill when a shoe circles the spike. As the contest narrows the excitement becomes greater and prolonged cheering follows good throws.

Although the "barnyard" sport is an ancient one, its development into the tournament class is yet so recent that no standard costume has been adopted. Some of the contestants appear in business suits minus coats and occasionally ties, others prefer athletic shirts with long trousers, while golfing attire also is popular. The contestants vary as widely in age as in costumes.

Tilden and Hunter Ready to Defend American Titles

New York, Feb. 14 (AP)—William T. Tilden, 2nd, and Francis T. Hunter, ranking number one and two players, respectively, on the national tennis list, are ready to compete for the United States in either the American zone or interzone Davis cup play.

Contrary to published reports that the international doubles champions would compete only in the interzone competition or not at all, Tilden and Hunter announced here that they were ready to accede to the wishes of the Davis cup committee even should they be forced to give up their contemplated trip abroad early this summer.

New Golf Professional.

Winston-Salem, Feb. 14 (AP)—Pat Petranek, of Nutley, N. J., a former pro at Petersburg and Virginia Beach, Va., and Asheville, today had accepted an offer to become golf professional at Westover park golf club near here. He is expected to take up his duties on March 1.

Fetzer To Talk Athletics.

Winston-Salem, Feb. 14 (AP)—A talk on athletics by coach Robert Fetzer of the University of North Carolina will feature the annual meeting of Forsyth alumni of that institution here on Thursday evening.

Dan Barry Made Umpire.

Chicago, Feb. 14 (AP)—Dan A. Barry, named an American league umpire by President E. S. Barnard yesterday, is the first Boston man ever to be appointed to the league staff and is one of the few ever to receive such an appointment without having had previous professional experience.

Barry won his appointment by excellent work as a college baseball official over a 15-year period. William M. "Bick" Campbell, for four years an arbiter in the southern association, was another appointment of President Barnard to the American league staff of umpires.

PREDICTS NO TAX LEGISLATION THIS YEAR

Washington, Feb. 13.—(AP)—The prediction that there would be no tax legislation at this session of congress was made today by Representative Garner, of Texas, democratic leader on the house ways and means committee which drafted the \$289,000,000 revenue measure now awaiting action by the senate.

The Texas representative declared that if the tax bill, which requires that public senate leaders are holding up until receipts from the income tax payments become known, should be brought to the senate floor the democrats would intiate a move to attach a tariff rider to the measure.

ROTARY CLUB TALKS ABOUT NEW HOSPITAL

Move to Secure Funds From Duke Foundation Discussed at Meeting Last Night

A move to secure funds from the Duke Foundation for a hospital in this city were discussed at the regular weekly meeting of the Rotary club last night. A committee was appointed to work in conjunction with a similar committee from the Kiwanis club in their effort to ascertain whether such a sum could be procured for this city and to obtain information as to what action will be necessary to make the institution possible.

One of the series of vocational talks was made by James T. Little, who discussed the cotton industry.

Announcement was made by President Rogers that next Monday night's meeting a Rotary anniversary program would be rendered in celebration of the 23 birthday of Rotary International.

Probably the most interesting talk of the evening was made by Rotarian P. C. Harding who spoke on Valentine Day, its origin and meaning. He traced the celebration of the day back to a similar occasion covered by mythological works, and told how in later dates the day became known as St. Valentine's day in memory of a priest St. Valentine, who during the days of the reign of Claudius the Cruel in early Rome, secretly married young couples after Claudius had issued a decree that there should be no more marriages until he rescinded the order. As a result of doing these things St. Valentine was beheaded under orders of Claudius the Cruel on the 14th day of February.

Because of his aid in bringing the young people together, the anniversary of his death has since been celebrated throughout the world.

He traced the origin of the written Valentine from the fifteenth century until the present day. The talk was one of the most informative delivered before the club in sometime, and was listened to with much interest by the entire membership.

Eureka Laundry Makes Improvements

The Eureka Laundry, corner of 11th and Clark streets, today announced extensive improvements in their equipment and plant, and now is considered one of the most modern and best equipped laundries to be found anywhere, according to information given out by R. C. Horton, owner.

The Eureka Laundry at this time easily represents a value of \$15,000. One of the latest improvements and perhaps the major one made since Mr. Horton's purchase of the plant, is the installation of the famous "Royal Calander" Flat Work Ironer, the very latest and very best machine of its kind on the market today.

Other additions and improvements to the plant include the adding of five hundred square feet of space and additional wash wheel, an extractor and one linen press. Six hand ironers are employed, while the new flat work ironer requires six operators for it. The Eureka Laundry employs only highly experienced and efficient labor, thus insuring the maximum quality of work. Two trucks are used and besides covering Greenville daily, these trucks also work Winterville, Ayden and adjacent towns and communities. In all there are eighteen employees at the plant.

The excellence of the work done by the Eureka Laundry can also be attributed to the efficient and well experienced organization of employees. Mr. Jack Jackson, a well known Pitt County resident, has been with the laundry for four years. Mrs. Smith is also employed in capacity of salesman, as is Mr. Jackson. Mr. Norman Dixon is superintendent of the Wash department; Mrs. H. C. Horton is office manager.

Mr. H. C. Horton, brother of Mr. R. C. Horton is assistant manager, and is one of the most experienced laundries in the south, having been identified with large Norfolk laundries before coming to Greenville. Mr. R. C. Horton came here from Raleigh where he was connected with various laundries.

PAID FOR MANUFACTURING, FREIGHT AND SELLING COSTS
EARNINGS 1¢

Swift & Company's Cattle Dollar

A thousand pound beef steer will yield on an average of 550 pounds of beef and 150 pounds of hide and other finished by-products.

Swift & Company, at its various packing plants, buys thousands of cattle each week, transforms them into beef and by-products, sells the beef to retail dealers and the by-products to various kinds of manufacturers to be worked up into forms which the consumer desires.

From every dollar which Swift & Company received in 1927 from sales of beef and by-products an average of 85 cents was paid to the producer of live stock for his animal; 14 cents was required to pay manufacturing, freight and selling costs, and one cent remained as earnings. Out of his 85 cents the farmer has to pay the cost of the animal and the expense of feeding and marketing before he makes any profit.

The story of beef is an interesting one. Something of this, as well as many other details of the packing industry, are told in the new Swift & Company Year Book for 1928.

If the comic Valentine you receive tonight "gets under your skin," it's a sure sign that you are, to an extent, guilty of the faults set forth in caricature. However, don't let this bother you. Just strive harder to overcome your faults so that others will see you as you would like to be seen.

Just a few weeks ago there was much talk about Greenville's chances at securing a branch plant of a Philadelphia plush manufacturing concern. A stock solicitation campaign was carried on by a committee of local citizens and the report of the success of the campaign was reported to the Philadelphia headquarters of the concern. Since that time we have had no word as to the action taken in the matter and we are wondering if again we have momentarily enjoyed a pipe dream. Definite news as to the outcome of the proposition, we are sure, would be appreciated.

Now comes a movement on the part of the Kiwanis and Rotary clubs to endeavor to procure an endowment fund to aid in the establishment of a hospital here, or to make some provision for taking care of indigent patients at our private institution. Such a movement, if carried to completion, will mean much to Greenville and Pitt County, and we are hoping that there will be no let-up on the part of the sponsoring organizations until something along this line has been accomplished. Sad to say, in the past there have been many good movements started here, only to die out before the desired goal has

been reached. Let's hope that the matter of a hospital is tackled with a more determined and dor-or-die attitude.

With the building of a new bridge over Tar River here, the present plans are to tear down the old bridge when the new one is completed, but there are numbers of citizens who feel that this should not be done and we join with them in this opinion. Engineers who have given the matter some study, declare that the old bridge is good for many more years, and if permitted to stand would help greatly to relieve possible traffic congestion over the new bridge or could be devoted entirely to pedestrian travel. At present the old bridge is part of the state highway system and to be permitted to stand after the completion of the new bridge it must again be taken over by the county, whose duty it will be to furnish the necessary funds for upkeep and bridge tending. As we understand it, there would be no difficulty in getting the bridge turned back to the county by the state commission and we believe that the expense the county would have to go to keep this bridge open would, in the long run, prove a good investment. At least let's give the matter careful study and consideration before we permit the old bridge to be torn down.

Hold Two For Bank Robbery In Rockingham Graham, N. C., Feb 14—(AP)—Grady Pugh and Nettie Jackson, arrested in Rockingham county two weeks ago on a charge of robbing a Reedsville jewelry store, were in jail here today to face charges of having robbed the Elon College Bank, Alamance county, a short time before the jewelry store was entered. The pair was taken to Piteboro about ten days ago in connection with investigation of the robbery of the Peoples Bank and Trust Co. at Bennett, the result being officers said, that the woman was identified as having a part in that robbery. Three Elon college students, however, have identified Pugh and the Jackson woman as having been seen in the community the day the bank was robbed, and the couple was placed in jail here to await trial along with Will Haskin. Haskin also was arrested in Rockingham county a day or so after the other two and likewise has been identified in connection with the Elon robbery.

MORITZ EVENT St. Moritz, Switz., Feb 14—(AP)—Irving Jaffee of the United States staged the most thrilling race of the winter Olympic speed skating today capturing the 10,000 meter heat from Bert Evensen, of Norway by one tenth of a second. Jaffee let Evensen pace him most of the distance and then caught him in the home stretch with a tremendous spurt.

ABOUT TOWN

"It is to be deeply regretted that the county commissioners have decided to discontinue the work of protecting Pitt county's timberlands from fire," a local citizen interested in forest fire protection, mentioned to the writer of this column today.

"The board has failed to provide any amount of money sufficient to continue this important work during the present year. As a result about \$300 worth of fire fighting equipment will be withdrawn from the county for use in other localities where the seriousness of the forest fire demon is really appreciated.

"It is a matter of public record that forest fire wardens saved many times the amount appropriated in timber values during 1927. "The loss by forest fires will amount to several thousands of dollars annually even with proper protection, but with no fire fighting equipment at the command of capable wardens it is naturally expected this will be greatly increased.

"The commissioners no doubt realize the seriousness of this situation, and it is difficult to understand just why they should have failed to provide for forest protection in the annual budget."

"The Older Boys conference which closed here Sunday afternoon was one of the most successful during the nine years the work has been going on," G. A. Witherspoon, associate secretary of the North Carolina Y. M. C. A. movement, remarked to the writer yesterday.

"Greenville people co-operate in our plan of entertainment in a most commendable way. Over a hundred homes were thrown open to the three hundred boys attending the conference, and every effort was made to make the boys enjoy themselves.

"I do not recall another occasion of the kind when conference delegates received a finer impression of community hospitality. The Y. M. C. A. is deeply appreciative of the public attitude and believe the boys returned home with a splendid impression of Greenville and the great locality in which it is located."

"It is gratifying to note that citizens of Tarboro will send a delegation to the public meeting to be held in the courthouse in the city February 23, to discuss the opening of Tar River to navigation," declared a member of one of our leading civic organizations today. "This is one of the most important questions that has come up for consideration in months and unless it receives attention it deserves months, even years will pass, before the government will become sufficiently interested to bring it up again. "Deepening Tar river for navigation would be one of the greatest strokes taken in behalf of industry in years, and would result in the lowering of freight rates and many other advantages now being derived by communities with water rates. "We have already received assurance of more industries if water transportation is made possible. "This in itself is sufficiently encouraging to cause every business man of the section to attend the meeting at the courthouse and use

their influence in behalf of the issue. "Remember the date of the meeting and see to it that you are present to do your part by the future development of this wonderful locality."

"The coming of "Billy" Sunday to Greenville Sunday, April 22, is being received with more than general interest by people in all sections of the state," members of the committee on arrangements told the writer of this column today.

"Mr. Sunday is unquestionably one of the greatest preachers of the present generation. He has been instrumental in saving thousands of men and women who even now would be following the pathway of sin and corruption had it not been for the powerful, irresistible appeal of the great evangelist.

"The coming of such a character to this section for the first time evokes naturally will attract thousands of people who probably never go to a place of worship more than one time a month, even if they happen to make it that often. "Greenville should undergo one of the greatest periods of revival in history during Mr. Sunday's stay and hundreds should be lined up on the side of law and righteousness.

"With a radio broadcasting station placed in the tabernacle, the sermons of this mighty champion of the Bible could be heard in many parts of the country, and Greenville would receive more publicity than it has received before in months. The committee on arrangements should make an effort to see that these messages go into the ether and let them play their part in carrying peace and goodwill into thousands of other homes throughout this great nation of ours."

STATE MAKES RECORD CROP OF TOBACCO

Sales in North Carolina Close Approach Largest Production in Country.

Raleigh, Feb. 14—(AP)—Sales of bright leaf tobacco in North Carolina to February 1 aggregating 456,030,000 pounds with about 16 million pounds yet unaccounted for, give North Carolina a close approach to the largest production of tobacco that any state has ever made, William A. Graham, state commissioner of agriculture, reported today.

The nearest approach was to that of Kentucky in 1919 when the blue grass state made 512 million pounds. The average price of the tobacco in North Carolina for the current season will be in the neighborhood of 23 cents, while the January average was 1907 cents a pound, Mr. Graham said in his January sales report.

A remarkable jump from last year's 361,908,000 pounds to this year's 456,030,000 pounds sold to February 1 was noted. While last year's total crop was reckoned at million pounds, this year's probably will total more than 475 million pounds produced by the farmers, Mr. Graham said.

"At 23 cents average, this will give about \$110,000,000 for the crop," the report said. "When the manufacturers get hold of it, they will increase its selling value several fold."

"Six markets of the old belt showed twice the farmers' sales that they did for the preceding year. While the average price is about two cents a pound less than last year, the increase of about 10 million pounds in production makes quite a sizable increase in the aggregate value of the crop. The way the price has held up is evidence that there has been a terrific demand for this type of tobacco. Farmers should think twice before planning for further expansion of this crop, the federal department says. It is inevitable that Georgia will increase her acreage."

Sixty-six warehouses operated in the old belt and 30 in the new belt during January with total sales from farmers amounting to 25,344,687 pounds, aggregating \$5,527,065. The old belt average was \$19.13 while that for the new belt was \$18.75 per hundred pounds. All markets reported their average prices except Kinston.

The January sales showed these six leaders in volume, Winston-Salem, 8,938,108 pounds, Durham 5,422,612, Oxford 2,240,576, Henderson 2,561,922, Rocky Mount 2,975,802, Wilson 1,227,686, and these six leaders in average selling price, Mehane \$25.06, Durham \$22.34, Paquay Springs \$22.19, Roxboro \$21.85, Henderson \$21.36, Aberdeen \$21.15.

Up to February 1, the department reported these leaders in the season's producers' sales: Wilson 67,874,902 pounds, Greenville 55,764,202, Winston-Salem 51,580,970, Rocky Mount 34,861,463, Kinston 34,046,620, Durham 21,437,274, Henderson 18,290,524.

AYDEN MAN IS LAID TO REST

Funeral Services For Ormond Edwards Held in Ayden Yesterday Afternoon.

Funeral services for Ormond Edwards, Ayden young man who was found dead about two miles from town early Sunday morning, were conducted from his home in Ayden yesterday afternoon at 2:30 o'clock by Rev. R. H. Broom, pastor of the Methodist church of that place, interment following in the Ayden cemetery. He was about 28 years of age.

The dead body of young Edwards was found in his automobile about two miles west of Ayden Sunday morning at about three o'clock. He is believed to have been a victim of a sudden heart attack, death being almost instantaneous. He had gone out in the county about ten o'clock Saturday night to make radio adjustments and was returning home when stricken. The body was not found until about three o'clock Sunday morning when his long absence caused relatives to institute search for him.

The deceased was the son of W. M. Edwards, one of the best known merchants of Ayden. He was employed in the radio department of an Ayden furniture store and had been closely identified with the social, religious and business life of the community.

He is survived by a wife, who before her marriage was Miss Eloise Canady, of Oxford, his parents, Mr. and Mrs. W. M. Edwards, two sisters and two brothers and numbers of other relatives.

One Bandit Snot To Death and Two Others Wounded

Chicago, Feb. 14—(AP)—Detective sergeant Thomas Cooper, failed to "stick 'em up" in answer to a bandit quartet's commands last night but when the smoke cleared away one robber lay dead, two were probably mortally wounded while the fourth fled.

The shooting took place in a southside restaurant where the sergeant had stopped for lunch. Four men entered the place, one of them seized Miss Blanch Wilson, proprietor, by the throat.

As she screamed Cooper fired. The bandit leader dropped to the floor at the first shot. Two others, unarmed attempted to rush the policeman but they too fell.

The fourth man ran. The dead leader was believed to be Charles Green 26.

Edward Smith, 23 with four shots in his body, was reported dying at a hospital, as was Jack Gold, 30, shot once.

GEORGE WENTZ HELD ON ASSAULT CHARGE

Wilmington, Feb. 14—(AP)—George Wentz, charged with assaulting an usher while a road show he was connected with was giving a program here, had his choice today of forfeiting a \$50 bond or appearing in recorder's court for trial on the charge. The usher told police that Wentz charged him last night with giving door checks to friends that when he expressed resentment at the charge he was struck by Wentz.

A warrant was issued and Wentz was arrested while the show was in progress, a \$50 bond being arranged.

LINDY HOME AGAIN AFTER LONG FLIGHT

(Continued from page one)

over the hangars from the northwest. Circling the field several times to inspect the ground, the Lone Eagle landed and taxied his plane to a hangar.

Trusting his long legs out of the cabin of the plane he was met by the reception committee and many of his comrades of the national guard and air mail routes. After posing for pictures he saw the plane placed safely in the hangar and then gave a short interview to newspapermen. Afterward Col. Lindbergh was taken to the home of a friend to spend the night. "We" were at home again, the plane somewhat travel stained and the pilot weary.

Lindbergh said he had enjoyed the trip, although the flying was done in the worst weather possible, according to the weather bureau.

The flyer asked to be allowed to retire early to get some rest for the exhibition which had been planned today as a tribute to the school children of St. Louis. The program called for a flight by Col. Lindbergh over the Mississippi river between the cads and the free bridges with

the children lined up along the levee. The flight was planned as an acknowledgement of the gift of a bust of the flyer to himself from the children.

He said he had no plans beyond making an airmail flight over his old route to Chicago next week.
