MR. COOLIDGE NOT FAVORING RELIEF FUNDS

Farm Relief And Flood Issue Not What The President Would Have Them.

Washington, Feb. 18.—(AP)—President Coolidge is out of sympathy with the course congress is pursuing in respect to appropriations, farm relief and flood control and he believes the changes for tax reduction now are critically endangered.

He feels that the two houses have been too liberal in appropriating general funds and that as a result tax reduction is correspondingly remote. He has noted that in addition to the \$65,000,000 increase in the proposed tax curtailment voted by the house, congress has added \$8,000,000 to the army appropriation in excess of what he thought necessary, and has doubled the shipping board appropriation.

TEN MISSING IN ACCIDENT ON BIG BOAT

Thirty Persons Swept From Decks of Ferryboat into San Francisco Bay last Night.

San Francisco, Feb. 18.—(AP)—At least ten persons were missing today when police and rescuers checked their reports in an effort to ascertain the number of casualties in the accident to the ferry boat Peralta, from whose decks an unknown number of passengers were swept into San Francisco Bay.

Revised figures showed that ten persons believed to have been on the boat last night when her passenger laden prow dipped into the bay today had failed to return to their homes. The number of passengers swept into the water was undetermined and investigators were without any means of checking. Estimates of passengers were that from 30 to 100 persons were plunged overboard. The official list showed seventeen had been rescued.

What caused submerging of the forward part of the boat as she sped toward Oakland with a heavy load of commuters during the evening rush hour likewise remained undetermined.

LOCALS WIN CAGE GAME

An uninteresting game because of lack of opposition, Greenville high school defeated Scotland Neck last night at Gorman's warehouse by the score of 50 to 13. Although the visitors fought hard they were completely outclassed at every department of the game, even when members of the second team of the Greenville Club were on the floor.

Picking of individual stars of the contest was difficult because of the fact that virtually all members of the clubs participated prominently in the scoring.

Hudkins Beats Baker in N. Y.

New York, Feb. 18—(AP)—Ace Hudkins has out maneuvered Sammy Baker in the scramble for the role of challenger in the welterweight division.

Through ten rounds of torrid boxing in Madison Square Garden last night Hudkins bombarded the one time regular army sergeant with a ceaseless two fisted attack to carry off a judge's decision.

Baker dropped to the canvas twice before the furious drives of the Nebraskan, taking counts of nine on each occasion in the second and sixth rounds.

In keeping with his reputation as the wild cat of pugilism, Hudkins, ripped out with his customary slim-bank tactics without a letup which frequently drew frenzied reprisals from the outclassed but game Mitchell field boxer.

Hudkins was given seven of the rounds while the rest went to Baker. By his victory Hudkins has made the count two to one in his series with Baker, the Nebraskan holding the edge. Ace was whipped by Baker in the first meeting on a technical knockout in the seventh round last summer and in a return engagement, Hudkins carried off a ten-round decision.

Umpires Learn Rules

Chicago, Feb. 18—(AP)—American League umpires whose favorite role is laying down the law, were busy today learning the rules they enforce. E. S. Barnard, president of the American League, was the "professor."

FORTUNES FOR THE FORESIGHTED IN REAL ESTATE

Many of America's wealthiest families laid the foundations of their great fortunes in the shrewd purchase of real estate. Some of them followed the principle of "buying at the fringe" and letting natural growth and expansion of the city add steadily and constantly to the value of their holdings.

Others bought improved property in strategic locations, and the passing years not only added materially to the annual income drawn therefrom, but substantially increased the value of the original holdings.

Follow the example of those who have profited. In our own city there are scores of men who are prosperously circumstanced because they took advantage of real estate opportunities such as we present to you today. Follow their example and reap the same reward. H. A. White & Sons, Realtors and General Insurance. Est. 1895.

SNAPPY STORY OF 1928 HAS CLARA BOW AS STAR

Bringing Clara Bow to the screen for her fourth starring picture with Paramount "Get Your Man," comes to White's Theatre on Monday and Tuesday. The mad-cap flapper of the screen, whose brilliant work in "Dancing Mothers," "Minty" and "Kid Boots" brought her to stardom for "It," "Rough House Rosie" and "Hula" has in her latest picture the same sort of role which won her laurels in her former parts.

The locale of the story is France where Miss Bow is an American tourist endeavoring to see Parisian life alone. There she meets a young Frenchman, (Charles Rogers) and is forced to remain all night with him in a wax-works museum when the doors are locked by the night watchman who believes the place to be empty.

Here, in the midst of mechanical figures which execute famous historical events such as coronations, murders, lynchings and imprisonments, the two fall in love, but not until they have encountered many grotesque models. The complications are increased when it is learned that the boy has been engaged for 17 years to a girl he does not love. The remainder of the picture is a series of comedy situations in which Miss Bow tries to break down the French betrothal tradition.

Miss Bow and Rogers, seen together for the first time since their success in "Wings," make an ideal combination. Josef Swickward and Harvey Clarke, screen veterans, play the father parts with Clarke supplying some extremely funny eccentric comedy. Josephine Dunn, who will be remembered in "Fireman, Save My Child," "Swim Girl," "Swim," and others, is once more "the other girl."

ABOUT TOWN

"Greenville people should be proud of the high school band and orchestra, numbers of people were heard to remark yesterday following the annual concert of the two musical organizations given at the East Carolina Teachers college the night before.

"The high school band is without question one of the best organizations of its kind in Eastern North Carolina. Its members have been receiving splendid training under direction of Mr. Roberson and have developed unusual skill for their age.

"Local people should not fail to support the musical department of the school whenever an opportunity is presented. This will inspire the young men and women to try all the harder to become talented musicians.

"We are doing everything possible to beautify Greenville," members of the street committee of the Board of Aldermen, declared today but this will be impossible without assistance of the public.

"There are numbers of unsightly lots along the principal streets of the city, and the owners are making no effort to improve their appearance. In many instances these places are literally covered with rubbish and junk and we are unable to do anything about it simply because it is no violation of any city ordinance. People who own the property have been asked repeatedly to clean-up, but one might as well be talking to a stone wall.

"Lack of civic pride is responsible for this condition. It is to be hoped owners of such lots will get busy and make them present a more inviting appearance. It may be done at small expense and even increase the value of the property."

THE PROPER COURSE

Just what the outcome of the Alma Petty Gattin trial will be we cannot venture to say, but regardless of the outcome, and regardless of the apparent guilt of the accused, we cannot but feel that the Rev. Mr. Pardue betrayed a confidence placed in him because he was a minister of the Gospel. If Alma Gattin is guilty of the murder of her father, and the matter was preying upon her mind, no doubt sooner or later she would have revealed it to someone else and the truth would have been out. In the meantime, as we see it, the course to be followed by the Rev. Mr. Pardue should have been one of prayer for the unfortunate soul and patience until the time should come when moved to do that which was right, she should confess to the world her wicked crime and ask her just punishment.

BE THERE

Next Thursday, February 23, is the day, one o'clock is the time, and the court house is the place for the holding of the public mass meeting to discuss the possibilities of water transportation for Greenville. At that time government engineers will be present to discuss the matter with the local people, and if we can show that we want and need water transportation here, indications are that the government will take steps immediately to put Tar River in condition to accommodate a boat line up to this point and make provision to keep the channel open in the future. A survey of local business now being made to ascertain the tonnage of certain commodities shipped to and from this city, reveals that water transportation rates would save this community a hundred thousand or more dollars each year.

In the face of these facts we cannot afford to be without water transportation, but we cannot get it unless we forcefully present these facts to the government representatives when they visit this city next Thursday. Every business man and individual of this city and community should be vitally interested in this project and should be on hand for the meeting. Let nothing keep you away.

Peacock Loses Its Tail.
 "Pride goeth before destruction," hath a proverb well said. So, at least learned a proud peacock belonging to Mrs. Lucy Hudson, several days ago. There was a ten-ant house in Mrs. Hudson's yard out of which a family of negroes had just moved. They had left a fire in the fireplace. The peacock, which was very tame, and in the habit of going in the house whenever it felt like it, walked in and in its graceful way swept got too near the fireplace. Its tail caught on fire. The terrified bird flew out of the house, through the air with its tail in flames. Mrs. Hudson happened to see it, and, calling for assistance, she caught the bird and saved it from being deprived of its beautiful coat of feathers.

Several Explosions.

Whether the boys of the town thought it was Christmas or the Fourth of July, or were trying to make out people think that Sp- was bombarding the town, we are not able to say, but from the way cannon crackers were being exploded early last night we must say there was something wrong in town.

The Improved Order of Red Men will render service in times of prosperity and in times of adversity; to do some little simple thing now and then; that's our motto. You don't have to go around the world looking for big things to accomplish, keeping your head in the stars. I expect to pass through this world but once and the good things that I can do, let me do them now, for I shall not pass this way again.

History records the fact that in the ages long ago Jacob, who was a simple farmer, dug a well. It was the age in which the pyramids were being built, and Jacob, an old-fashioned farmer in the ages long ago, did a simple kindly deed. He bared his back to the summer sun and took a pick and a shovel and delved in the earth and dug a well. Two thousand years afterwards Jacob looked out from the heavens and saw the son of man drinking at that well, and today the foot-sore and weary traveler may quench his thirst at Jacob's well. It is a great mission, my sisters and brothers, to serve the fraternity and in doing so, to serve the community. True Redmanship prompts immediate action of good deeds. We believe the public should know that in their wigwams where the Improved Order of Red Men meet, there prevails a spirit of splendid fraternal fellowship. We believe the public should know that they group themselves together to do service to needy humanity, handed from a platter of love with no strings tied to it. Men everywhere seek to possess that which our fraternity has to offer, a strong grip on life and an abiding faith in a loyal and patriotic citizenship.

Again, we believe the public should know that men who join hands in the Totemic Band of Freedom, friendship and charity, courageously move forward in their various vocations better equipped to climb over the rough places along life's pathway. These are some of the reasons why we have grown as a fraternal body and reason why we should continue to grow. Who can measure the possibilities of our fraternal service which is in keeping with the magic touch of a friendly hand, reaching forth from the heart of Redmanship to fit the needs of our coming generations.

TWO KILLED IN PLANE CRASH

Columbia Girls Burned to Death When Plane Crashed to Earth This Morning.

Columbia, S. C., Feb. 18.—(AP)—Two Columbia girls were burned to death today when the airplane in which they were passengers crashed at the edge of the city. The pilot escaped. The girls were a Miss Holt and a Miss Rogers, each about 17 years old, their first names were not immediately available. Don Diegel of Cheraw, the pilot, was taken to a hospital after he had managed to extricate himself from the burning wreckage. A heavy wind was blowing this morning and the pilot and Dr. G. A. Bunch, who was at the field with the girls endeavored to persuade them not to go up. They insisted. It was said, and the plane took off. A heavy gust of wind struck it and blew it against a flood light tower at the Southern Railway freight yards at Andrews. The plane burst into flames as it struck the ground. The girls were caught in the wreckage and their bodies incinerated. Diegel apparently was not seriously injured.

LEVIATHAN TO MAINTAIN HER SCHEDULE

Southampton, Eng., Feb. 18.—(AP)—Freed from the grip of a sandbank, the United States liner Leviathan is expected to maintain her schedule. The ship on which Commodore Harold A. Cunningham was making his first trip as master ran aground on a bramble bank, a soft bar, when entering port. Three tugs tried futilely to pull her off. Finally the flood tide eased the vessel off and she docked four hours late. Commodore Cunningham, then a pilot, had guided the vessel safely through many a mine field and submarine zone during the war. The Leviathan is in the hands of a Trinity house pilot when she stuck on the bank. Inspection revealed the ship's hull was not damaged. The passengers included Eamon de Valera, Irish republican leader.

THREE MORE CANDIDATES IN PRESIDENTIAL FIELD

Columbus, Ohio, Feb. 18.—(AP)—Three more presidential candidates were brought into the Ohio fight between Senator Frank B. Willis and Secretary Hoover for control of the state's delegation today. Former Governor Frank O. Lowden, of Illinois, Senator Charles Curtis, of Kansas, and Senator James E. Watson, of Indiana, each have authorized Willis candidates for delegates to name their second choice. Willis headquarters announced. These written consents already have been received, it was stated.

Lindy Flying Again.

St. Louis, Feb. 18.—(AP)—Col. Charles A. Lindbergh left Lambert-St. Louis field in a monoplane at 10:35 a. m. today for Chicago to inspect the air mail route over which he will carry mail next Monday and Tuesday.

Dids' Learn Much.

Raleigh, Feb. 18.—(AP)—The State Parental Education Institute, praised by nationally known men and women as an outstanding event, was a failure, as far as one little golden-haired lady of five years is concerned. She romped around the club building here while her mother attended the sessions. Then she went home and asked by an older brother why she attended the meeting, she replied: "I went to learn something about children, but I didn't learn much."

TEN MISSING IN BIG ACCIDENT ON BOAT

(Continued From Page One)
sons and the navy rescue party picked up five or six. Others were taken in by the life boats from the Peralta. Whether any of the luckless passengers swam the 300 or 400 yards to Goat island or the several hundred yards to the key route pier in Oakland was doubtful, as none had been found this morning.

MRS. GATLIN SAYS MOTHER WAS KILLED

(Continued from page one)
but she denied several points among them that she had told the minister where the body had been taken. She said she did not know what had become of the body until it was found in the basement of the home in a shallow grave but that her mother had told her it had been carried away in an automobile and that is what she told the pastor declaring she did not tell him the body had been placed in a trunk and kept in a closet in the house for several days. Mr. Pardue came into the courtroom during her examination and took his seat behind the prosecution table outside the railing. It was right after this that she exclaimed "see, if what I am saying is not true Mr. Pardue." On brief cross-examination she said "Mr. Pardue, face me with anything but the facts." She asserted also that she was talking to the minister about whether "one had to confess" and that she was not penitent. "I was seeking information, I was worried about my mother's soul," she added. Solicitor Graves presented an alleged telegram signed "Alma" and addressed to her father at Franklinton, N. C., dated March 10, two months after his death. The telegram said, "mother died last night". Alma denied that she had sent the telegram or signed it but under the insistence of the solicitor admitted she wrote all but the signature and permitted it to be sent. She said she had written the telegram at the suggestion of friends because she did not want to reveal her secret. She also said similar telegrams had been sent to other towns but denied that she had authorized an advertisement in a textile journal although a friend had suggested it as a possible means of finding the missing father. She told the solicitor that if there had been a preliminary hearing she might have gotten out on bail instead of staying in jail five months but added "this trial had to be". She had told the story only to her attorneys, she said, and explaining reasons for not telling of the killing said her mother threatened to kill

with 120,000,000 others in asking President Coolidge, "Why didn't you get ready?" The conference at Havana is about over. And as Mr. Rogers says, Uncle Sam is to be congratulated on going into a conference without losing anything, no battleships scrapped to oblige nations that couldn't afford to compete, no silly promise not to fortify Guam, or do anything without the consent of Britain, France or Japan. The Argentine republic wanted to rewrite the United States tariff, to compete with American farmers. But the Argentine didn't have Balfour as representative, so this country said no. We can handle little republics. Britain is too much for us. Last year, this country spent \$600,000,000 for radio products, machines and parts. 1928 will see the first radio presidential campaign. The world changes swiftly, adapting itself readily to new methods. Radio employs 300,000 people, and broadcasting reaches 90,000,000.
