By the Associated Press. Major league teams were on edge cday for get-away skirmishes to clear the decks for the season's second siege of intersectional warfare, scheduled to begin at some points along the baseball front as early as tomorrow. The Reds and the Cubs already were on their way east, while the Giants and the Robins lay idle, awaiting a brief resumption of their intra-city strife at the Pole Grounds tomorrow.

Six teams won twice yesterday The Reds licked the Cubs twice only by showing the greatest competitive spirit. There was a 6 to 0 victory over Charlie Root in the morning behind the fine pitching of the veteran Eppa Jeptha Rixey. In the afternoon Ford's single in the tenth provided the winning margin in a 2 to 1 victory, sent the Reds east with a lead of three full games.

The crippled Pirates sagged lower into the second division after the Cardinals scored victories, 10 to 1, and 4 to 3.

The Boston Braves walloped the Phillies 5 to 3 and 11 to 5. Horrsby had two homers.

The Giants rolled the Robins over by a 9 to 1 score in the morning. The score was tied at 2-2 in the 'afternoon when it rained.

Margins Narrow In East Carolina

By The Associated Press) While doubleheaders did not serve to shift relative positions of clubs in the first division of the Eastern Carolina league yesterday margins were dangerously narrowed.

Fayetteville's leadership was drop-ped to 577 when the Highlanders were able to only take the night cap of a double bill with Wilmington, 4 to0; 2 to 7.

Both the Pirates and Goldsboro took advantage of the day's results by becoming bedfellows in the second berth with a precentage of .571. Goldsboro's gain came when a tie score was accepted in the tenth inning of the first game with Kinston and the second clinched by a 5

to 2 score. Rocky Mount gave up fourth position to Greenville after dropping a double bill by the scores of 4 to 2 and 5 to 3.

Kinston was still resting in the cellar.

PLENTY OF REAL NITRATE AND SETTING LOTS OF COOD LIME 1 N

CALCIUM NITRATE

(Nitrate of Lime) ...
15% Nitrogen = 18.2% Ammonia 28% Lime (56% limestone equivalent)

CALCIUM NITRATE BASF supplies both lime and nitrogen in the most soluble and available form. Its nitrogen is quick-acting, gives a strong vigorous growth, and assures bumper yields.

The lime it contains not only improves your soil, but increases the feeding value of your corn or other feed crops. A side application of 100-200 lbs. per acre on your corn this year will convince you that CALCIUM NITRATE is the best side-dressing that you can buy.

To the People of Pitt County:

I greatly appreciated the vote given me for Judge of the Coun-Court four years ago, and I shall again be a candidate in the Democratic Primary on Saturday, June 2, 1928.

I am not a politician and I do not represent any faction. I do not ask for this office for personal profit, but in order to render service for the public good. To help make Pitt County a better place in which to live is my ambition.

If I am nominated and elected to this office, it shall be my purpose to give everyone a square deal and to administer justice with equality, fairness and impartiality to all according to law and the dictates of an honest conscience

Assuring you that your support would be most sincerely appre-
