## MAKE FINAL PREPARATION FOR HOP-OFF

### Friendship Fliers Delayed at New Foundland by Strong Winds.

Trepassey, N. F., June 6.—(AP)—Last minute preparations for the attempts of the monoplane Friendship to cross the Atlantic were made today. Only a strong wind from the north-northwest delayed the start.

The three fliers, Miss Amelia Earhart, Wilmer Stultz, pilot, and Louis Gordon mechanic, had a good sleep last night and awoke with renewed determination to get away as soon as a moderation or shift in the wind should make it safe to try to lift the plane with its heavy load of gasoline from the harbor and head it out over the ocean. Early in the forenoon Stultz and Gordon went out to the plane.

Although the refueling was thought to have been completed yesterday they decided to put a little more gasoline aboard. They attended also to a few other details of final preparations. Miss Earhart did not go to the plane with them at that time.

The sky was clear and the fliers were hopeful that the start could be made some time today.

New York, June 6.—(AP)—A change for the worse in the next thirty-six hours over the ocean route the Friendship must travel was predicted last night by Dr. James H. Kimball, head of the New York weather bureau.

He said that the barometer was falling at Valencia, Spain, with southerly winds blowing. This, he said, coupled with the easterly winds and clouds over Ireland "indicates that a low pressure area is moving northward across the path of the fliers. How long this condition will remain is a problem."

New York, June 6.—(AP)—Miss Amelia Earhart, member of the crew of the trans-Atlantic monoplane Friendship, made it plain today that the only stake she hoped to win by the flight was "the privilege of flying and the pleasure of having a hand in a fine adventure."

In a message from Trepassey, N. F., to George Palmer Putnam, New York publisher and one of the flight's backers, she read:

"Please do not point across that the only stakes I win is the privilege of flying and the pleasure of having a hand in a fine adventure, whose success will be a real forward step in aviation development and perhaps something of an inspiration for women."

Mr. Putnam declared Miss Earhart is receiving no compensation for the flight.

## LISTS CAMPAIGN EXPENDITURES TODAY

Washington, June 6.—(AP)—Making its final pre-convention report, the senate investigating committee today listed the campaign expenditures of all Presidential candidates in both parties at \$731,087.75 of which amount more than half was attributed to Secretary Hoover.

## Drive For Herbert Hoover On In Real Earnest Now

Kansas City, June 6.—(AP)—The drive to clinch the Republican presidential nomination for Herbert Hoover is on, but whether it succeeds depends on the ability of his managers to overcome the many obstacles opponents are plying in his way.

Encouraged by national committee decisions which in the last two days have brought 23 delegates definitely under the Hoover banner, his backers are expressing increased confidence that he can go over on an early ballot.

The convention will be in a full blast a week hence, but at this stage of the preliminaries many of the men who will play a big hand in the selection of the nominee are not yet on the scene.

Lowden is still to come. Curtis of Kansas is an absentee. Mellon, the man who has not yet fully shown his hand, won't be here until Sunday. Leaders of the so-called farm revolt are just beginning to show up.

Until the whole picture is complete, and some of the big unconstructed delegates reach the convention city, hold their caucuses and chart their course, the final word can not be written. Even then, many party leaders point out that no national convention is bomb proof against the numerous uncertainties which crop up at any

## CHANG TSO-LIN IS DEAD FROM BOMB INJURIES

### Former Peking Dictator Dead Today By Unconfirmed Dispatches.

Tokyo, June 6.—(AP)—Although official confirmation is still lacking, latest reports received in Tokyo including dispatches to the Japanese News Service, Rengo, indicate that Marshal Chang Tso-lin, former Peking dictator, is dead.

A Mukden dispatch to Rengo states that Japanese advisers, who yesterday flatly denied the death of the Manchurian war lord, are now disinclined to give a flat denial.

Moreover, tending to confirm the belief that Chang has died of his injuries suffered in Monday's bomb explosion, it was stated that no one is entering Chang's room nor is allowed to leave it. In addition urgent messages have been sent to Chang's sons and other members of his family.

## NOTED STOCK BROKER DEAD

### E. B. Scales, Former Millionaire, Dies In New York Virtual Pauper.

New York, June 6.—(AP)—Eugene B. Scales, who came to New York from New Orleans 21 years ago with 28 cents and a \$200 diamond ring and in two years ran it into a fortune of \$8,000,000 on the New York stock exchange, died yesterday of heart disease. There is little of his fortune left. He was 70 years old.

For years he was a power on the cotton and wheat exchanges, making and losing several fortunes, but after reverses which led last year to a petition in bankruptcy he listed liabilities of \$59,600 and his assets at nothing.

Mr. Scales was born in Dallas, Texas, but moved to Paris, Texas, when a young man and opened a general store. After a few years he sold out and bought into the Central Texas Cotton Oil Company.

Making a small fortune in that he opened brokerage offices in Temple, Brownwood, Waco, Corsicana and Taylor and became a member of the New Orleans, New York and Chicago cotton exchanges.

He retired from the market in 1910 with his \$8,000,000 winnings but returned in two years to suffer immediate heavy losses. He laughed his losses away until in 1914 he said his fortune was gone. The next year, however, he stepped into the war wheat market and amassed another fortune. He went along quietly then until last year again he announced his fortune was gone.

A tall gaunt figure with a pleasuring southern drawl, he was a striking figure among the traders on the floor.

## Drive For Herbert Hoover On In Real Earnest Now

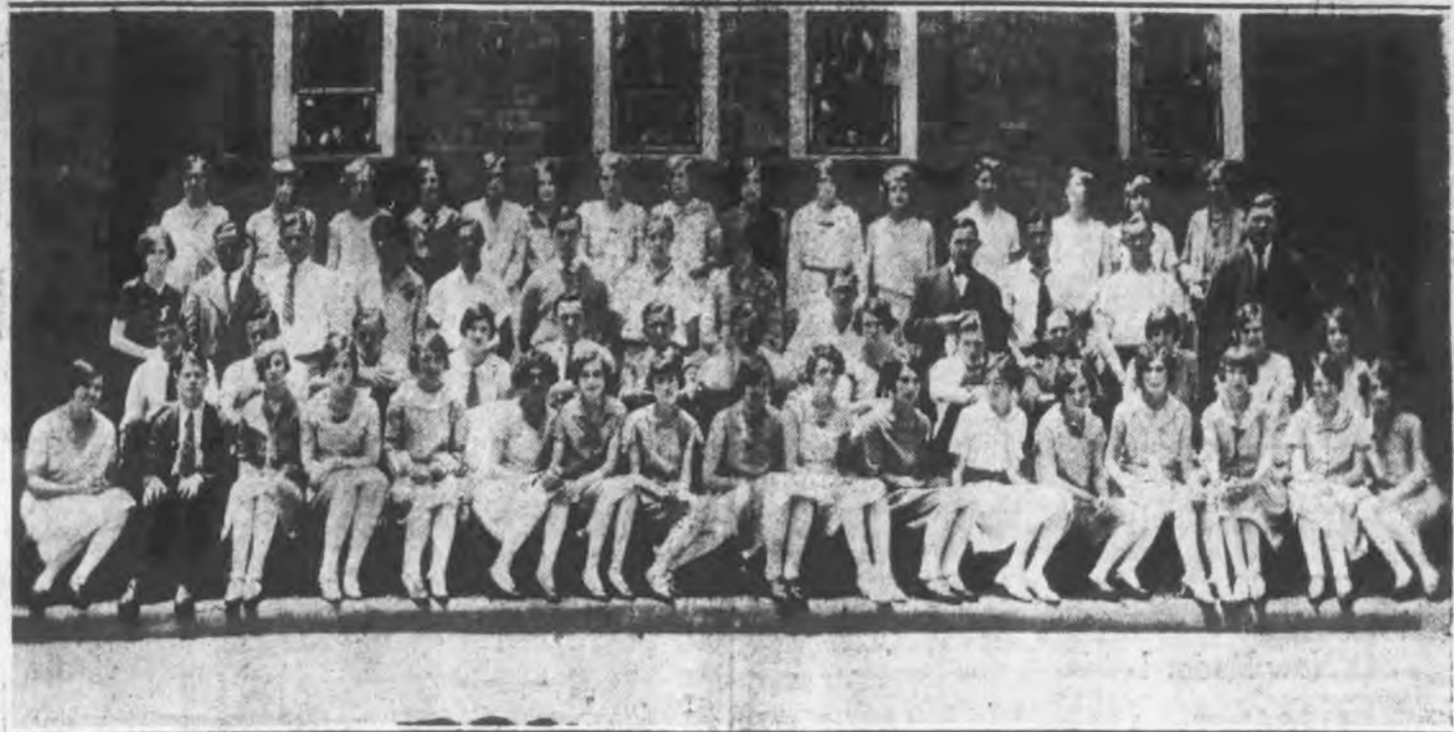

time in political maneuverings. One of these is considered in some quarters as apt to come to a head as a result of the disappointment expressed in the corn belt over President Coolidge's veto of the McNary-Haugen farm bill. The farm leaders have served notice that they will be on hand to press their claims, but so far there has been little concrete evidence of their program getting under way.

No one in the Hoover camp, where there has been activity for days, professes to be worried over the outlook. James W. Good, the Hoover campaign generalissimo, in a statement made public today said that national committee decisions seating Hoover delegates from Florida, Louisiana and Mississippi, will, of course, disappoint anyone who hoped that Mr. Hoover could be topped of a block of southern delegates.

Both sides are making every effort to get proxies for absent national committee members, for use particularly when the fight for control of the 26 delegates from Texas reaches the show down stage, perhaps late today.

One of the results of the committee votes taken yesterday was to keep Perry Howard, negro national committeeman, in the saddle in Mississippi.

## GREENVILLE HIGH SCHOOL GRADUATING CLASS

Pictured above are members of the graduating class of the Greenville High School, who last night received their diplomas at the concluding program of the commencement exercises. The class of 1928 was composed of sixty-six members, the largest graduating class in the twenty-five years' history of the Greenville public schools.

## FLIERS NOT TO RACE FOR THE POLAR REGION

### Prospective Expedition to Antarctic Not in Nature of Race, Backer Says.

New York, June 6.—(AP)—The prospective expeditions of Captain George Wilkins and Commander Richard E. Byrd, to the Antarctic are not in the nature of a race to the pole, said a statement by Dr. Isaiah Bowman, president of the American Geographical Society which has endorsed and is contributing to both expeditions.

On the contrary, said Dr. Bowman the flights coordinate each other, the two fliers covering separate sections of the huge unexplored region. On one side of the great mountain range known to extend into the antarctic will be flying Commander Byrd. On the other side Captain Wilkins, each gathering data to make a complete record of the country.

The plans of Commander Byrd, he said call for a flight from the ice barrier to the South Pole and beyond, so as to explore a part of the antarctic plateau. Captain Wilkins is to fly from a point in the Ross sea near the ice barrier along the ice where the coast is believed to lie toward Graham land. This plane is to be equipped with pontoons so that at the completion of his flight he can land alongside one of the many whalers which cruise in that part of the ocean and be picked up.

Captain Wilkins, said Dr. Bowman, will leave Panama on a Norwegian whaler about Nov. 1 and will begin his flight about January 1, just as Commander Byrd begins his work on base stations at the ice barrier.

The antarctic flight of Captain Wilkins will be equal to if not longer than his flight from Alaska to Spitzbergen. It is over dangerous unexplored territory probably beset by dangerous fogs and strong winds sweeping down off the ice cap.

Captain Wilkins in his long flight over the unknown coast of the Ross sea, he said, will photograph the details of ice border, glacier tongues and mountains, visible from his plane. In this way he will be able to select sites for the Meteorological stations which he has long planned to establish.

The object of these stations would be coordinate weather reports from already established stations in the southern hemisphere, and establish a sounder basis for long range weather forecasts.

## APPROVE BRIDGE OVER CURRITUCK SOUND

Washington, June 6.—(AP)—The application made by the Currituck and Dare Bridge Corporation for approval of plans for a bridge over Currituck Sound, one mile north of Point Harbor, N. C., was approved by the War Department today.

## HELD IN CONNECTION WITH AUTO CRASH

Raleigh, June 6.—(AP)—Haywood Knight, Wake county, today was held in jail here in connection with the death of a Mrs. Harrison, victim of an automobile crash three weeks ago in Granville county.

Knight, convicted in Wake superior court this week for operating an automobile without proper lights and Daniel Holloway, his companion, were ordered held upon receipt of word from Sheriff E. D. Hunt of Granville county.

## Brewer Delivers Address At Closing Exercises Of Greenville High School

Stressing the need of education in public life of today, Dr. Charles E. Brewer, of Raleigh, president of Meredith College, delivered the annual literary address at the graduating exercises of Greenville High School held in the campus building at the Eastern Carolina Teachers College here last night.

The speaker refrained from any flights of oratory, but confined himself to plain, commonsense talk in which he attempted to show the importance of education and its bearing upon the future life of the world.

The address was heard by sixty-six young men and women comprising the graduating class of the school this year. It was the largest class in the history of the institution, and its members were given deafening applause by the great crowd that packed the auditorium and overflowed into the balconies.

Lined across the stage two deep, with two spot lights from the balconies playing upon them, the graduates formed a striking picture of life and beauty—one that will live long in the memories of Greenville people. The class was predominated by young women, each carrying large bouquets that added color and life under the glare of the powerful spot lights played upon them as a concluding feature.

Superintendent J. H. Rose presented Dr. Brewer, who told the students some of the things which he had learned in life's hard school. He said thousands of people throughout the country were asking the question, "Why Educate?" Many of them look at the query from false perspectives, while others realize its true significance and are making it count in their daily lives.

Some seem to think education is for profession men and women, or for others intent on increasing their social or financial prominence. This is the wrong conception. Education is a means of multiplying the talents which the Supreme Creator has given to every man and the person that fails to take advantage of it can not hope to render any great service in behalf of humanity.

"Everybody has a gift," he asserted. "It is our duty to improve this gift through preparation in education. It takes time to get training to make this preparation for a fuller life—but it is worth it in the long run. It has proven so in all great lives—men and women who stand out prominently in the life of the world."

Lots of people argue that life is too short for so much time spent in this kind of preparation. This is false impression. You will find life far too long without it. You will be outstripped in the swift race—by the side of men and women who, looking ahead into the future, have prepared themselves for this great period of probation on earth.

He gave a graphic portrayal of the years which Moses spent in preparation for leading his children into the "promised land." He told of the time which Jesus Christ spent getting in readiness for the great work God had planned for Him: "It would not have been possible for either Jesus or Moses to accomplish what they did without this effort to insure success of their ambitions. He said the men who succeed in life are willing to work hard for what they get. Getting an education may be hard work, but it is worth the price in the joy and pleasure which the student receives from his labors out on life's broad highway.

"Young people should give careful consideration to what they wish to do in life," he declared. He told

of the change of vision, change of mind and ideals accompanying the unfolding of the life of youth, and warned against hasty decisions as to what line of profession to follow as a life work. He told of the four times Dr. E. C. Brooks, great educational leader of North Carolina, changed his mind before finally deciding to consecrate his life to the cause of education.

"The state would have experienced a great loss had this man decided to follow some other line of activity."

The speaker also told of his own decision in early life, of the vocations appealing to him at different ages, and finally came down to where he decided to enter the field of education.

He stressed the need of personality. "The ability of being able to adapt one's self to changing conditions is an invaluable asset. Education, he said, prepares a man for any great emergency and fits him for eventualities which occur from time to time.

At conclusion of the address Supt. Rose awarded prizes for those whose record of attendance was outstanding with \$5.00 in gold given by the superintendent himself as recognition of the eleven years which the young woman had attended school without being either absent or tardy.

## FIND NO TRACE OF LOST ITALIA IN NORTH LAND

### Two Expeditions Unable to Pick up Clue To Fate of General Nobile and Party.

Kings Bay, Spitzbergen, June 6.—(AP)—Two expeditions searching Northern Spitzbergen for the missing dirigible Italia have found no trace of it.

The ice breaker Braganza, which today was off North Cape, Northern Land, found no clue to the fate of General Umberto Nobile and his crew along the northern coast of West Spitzbergen. This region had long been held a likely place to hunt for the Italia.

The ship reported that it had found messages indicating that another expedition seeking the Italia had been unsuccessful. This expedition of four Alpinists guided by a hunter named Kremer, took an easterly course overland from Kings Bay.

Another wide territory will be explored by Captain Sora and four Alpine troops which were landed by the Braganza on New Friesland. This peninsula separates Widje Fjord from Hinloffen Strait.

Reports from Russia that wireless messages had been picked up from the Italia stating that she had landed on Franz Josef Land met with much skepticism at Kings Bay since it was generally accepted here that the airship was not down there that far east.

The Soviet rescue commission has decided to send an expedition both to Franz Josef Land and Novaya Zemlya, being convinced that the airship would be found in that region.

## PERSHING IS CALLED HOME

### Kansas City Developments Believed Responsible For Departure From Paris.

Paris, June 6.—(AP)—The Paris Herald today said General John J. Pershing had received a sudden call to return home and sailed unexpectedly on the Leviathan yesterday, leaving Paris for Cherbourg in an automobile after the boat train had departed. General Pershing had expected to remain in France indefinitely in connection with his work with the Battle Monuments Commission.

The paper said that the situation at Kansas City was believed by some to be responsible for the general's hasty departure since he had been mentioned as a dark horse for the Republican presidential nomination.

General Pershing barely caught the Leviathan as the giant liner was getting under way.

The general's automobile broke down twice between Paris and Cherbourg. He reached port an hour after the fenders had gone to the liner. He hired a fast launch and reached the ship just as the gangways were being hauled in.

## Funeral Services W. B. Wilson, Jr., Be Held Tomorrow

The body of Walter B. Wilson, Jr., late American Vice Consul at Shanghai, China, reached this city today, and was taken to the home of his father, Mr. B. W. Wilson. Funeral services will be conducted at the grave in Cherry Hill cemetery tomorrow afternoon at 4:35 o'clock, by Rev. L. R. Jones, pastor of Jarvis Memorial Methodist church.

## SIX ARMED MEN TAKE PAYROLL

### Gun Fight Features \$65,000 Robbery of the Detroit News Today.

Detroit, June 6.—(AP)—Six men armed with revolvers and sawed-off shotguns held up the business office of the Detroit News in "Wild West" style shortly after 11 o'clock this morning and escaped with a greater part of the newspaper's payroll after wounding two officers, one probably fatally.

The payroll amounted to approximately \$65,000, but the robbers dropped some of the money in escaping. The amount obtained was not determined pending a check-up.

Leaving their car parked in front of the newspaper plant, the robbers dashed up a stairway to the second floor of the newspaper building. Some of them covered the 150 or more employees in the business office with shot guns while others leaped over the top of the cashier's cage and hurriedly scooped up all the money in sight.

Warning the employees to stand back, the robbers then rushed from the building into the heavy traffic on Lafayette Boulevard where they were engaged in an exchange of shots with two officers. More than a dozen shots were fired. None of the bandits was believed wounded.

## Mississippi To Be Independent At Houston Meet

Jackson, Miss., June 6.—(AP)—Mississippi will send an unstructured delegation to the Democratic convention in Houston by action of the state convention which yesterday pursued an independent course and swept aside the desires of the extremist factions on the wet and dry issue.

The eight delegates-at-large who with the 28 district delegates will cast the state's twenty votes at Houston include Governor T. G. Bilbo, who favored an instructed delegation against any wet candidate, Senator Pat Harrison who opposed instruction and Senator Hubert D. Stephens.

The convention however, took a stand for prohibition by voting retention and enforcement of the 18th amendment and almost unanimously defeated a proposal to commend Governor Smith of New York, as a courageous and experienced leader able to lead the party to victory in the November election.

The dry faction lost its proposal to instruct the delegation against a wet candidate for the presidency by 38 votes.

## ERICKSON BALLOON DECLARED RACE WINNER

Washington, June 6.—(AP)—The army air corps balloon carrying Capt. W. E. Keppner and Lieut. William O. Erickson, both of whom are attached to Scott Field, Illinois, today was officially declared winner of the national elimination balloon race held from Pittsburgh on Memorial Day.

## Southern Cross Fliers Plan Hop-Off Tomorrow

Suva, Fiji, June 6.—(AP)—The Southern Cross will hop off at 3:00 p. m. tomorrow from the beach at Naselai, 16 miles from here, on its 1,750-mile flight to Brisbane, Australia. Flight Commander Charles Kingsford-Smith announced late tonight.

This would be 9 o'clock Wednesday night, central standard time. A stretch of sand three miles long, described by Kingsford-Smith as "equal to the best runway in the world" will serve to get the Southern Cross in the air in continuation of its long flight from Oakland, Cal. to Sydney, Australia.

The government yacht Pioneer will leave at 7:30 a. m. tomorrow (1:30 p. m. Wednesday central standard time). For Naselai carrying 800 gallons of petrol and a supply of lubricating oil.

The four aviators, Kingsford-Smith, Charles Ulm, co-pilot, Harry Lyon, navigator, and James Warner, radio operator, will hop off from Albert Park, where they landed after a 3,138-mile flight from Hawaii, at 10:45 a. m. (4:45 p. m. Wednesday central time) for the beach at Naselai.

## FLOOD WATERS STILL RISING IN LOWLANDS

### Traffic Disrupted by Constantly Swelling Streams in Mississippi Valley.

Montgomery, Ala., June 6.—(AP)—Isolated towns and villages dotted the turbulent courses of scores of streams in Alabama, Mississippi and Louisiana today, as the second overflow in those states within two months took a short cut to the gulf under leaden skies.

Spurred to fury by unaccustomed rainfall over a period of five days, creeks had become torrential rivers almost overnight. As a consequence the coastal plain counted six dead, "hundreds of thousands of dollars" in crop losses, and watched thousands of trapped tourists struggle helplessly in the muck of impassable highways.

To this drab scene was added the threat of continued rains "which caused lowland communities by the score to prepare for evacuation in the possibility that the exigency demand such a course."

Southern and central Alabama, as usual in a coastal plain flood, bore the brunt of damage and discomfort, burdened not only by the worst rainfall since 1902 in some localities, but also saddled with a torrent of water released by the lowering of 24 flood gates on three power dams above Montgomery.

Four of the five railroads running through Mobile had practically suspended operations, while travel on all highways was virtually impossible. Alabama towns cut off, or nearly so, included Thomasville, where 12.10 inches (official) of rain fell in 24 hours; Suggsville, Netherby, Chattahoochee, Vinegar Bend, Evergreen, Brewton, Sparta, Plomaton and Wilmer. Through rail traffic was diverted to Pensacola to avoid this area, throwing transcontinental trains many hours late.

Probably the worst flood conditions in the area occurred at Covington, La., where water was standing from 12 to 18 inches in the streets and a \$40,000 highway bridge near the city was washed away. At Pearl River, La., 12.90 inches of rain fell in 48 hours.

Mississippi towns affected were Meridian, where Sawashee Creek had formed many families to move to higher ground; Hattiesburg, recaptured of 14.17 inches of rain fall since Friday; McLean, Leakesville and Prudden, none of which could be raised either by telegraph or telephone; Lufkin, Magnolia, Latonia, Poplarville and Pickynue.

Fatalities occurred in the flood area yesterday near Birmingham where an automobile skidded off a rain-soaked highway, killing three men. Near Mobile as the result of the plunging of a hand car through a draw bridge during a blinding rain, drowning one of the occupants; and at Marion and Hammond, La., where a fisherman and a negro were drowned.

## CHICAGO GIRL BEIGNS AS QUEEN OF UNIVERSE

Galveston, Tex., June 6.—(AP)—Adjudged the most beautiful of 48 bathing girls, ten of whom were from foreign countries, Miss Ella Van Huseon of Chicago, today started her reign as "beauty queen of the universe."

She was awarded that title at the conclusion of the third annual international pageant of pulchritude here last night after having been acclaimed as "Miss United States," in competition with 31 American girls Monday evening. She competed in the finals with 10 foreign beauties.

# RAIN AGAIN STOPS WORK IN MAJORS

By the Associated Press.

Thirteen postponements have been washed into the major league calendar the last two days. After halting six of the eight games scheduled on Monday, rain yesterday prevented seven contests. In the only big league game of the day the Washington Senators, aided by homers by Goslin and Reeves, beat the Browns at St. Louis 4 to 1. Garland Braxton was touched for three hits and the Browns one run in the first inning but allowed only four safeties thereafter. The Senators got only eight hits off Jack Ogdin, former Baltimore ace, but four of them were for extra bases. Only five hundred persons saw the game, played in a heavy mist.

At Lewisburg, Pa., leaders of the national game gathered to pay tribute to one of its most famous scullites. Presentation was made to Bucknell University of the Christy Mathewson Memorial Gateway to the College Memorial Stadium while Commissioner Landis declared the "big six" was the man who made baseball truly the national game it is today. Mathewson, who died in 1925, was graduated from Bucknell before he gained fame as one of the big league's greatest pitchers.

## Thousands Attend Epsom Downs Derby

Epsom, England, June 6.—(AP)—Duplicating the victory of his sire, Spon Kop, Felstead, a rank outsider at 33 to 1, captured the historic English Derby at Epsom Downs today leading in a field of nineteen horses over the famous mile and a half course. Flamingo, quoted at 9 to 2, was second, a length and a half behind the winner, while Black Watch, quoted at 33 to 1, was third, six lengths behind Flamingo.

It was the 148th running of the great English classic and the usual great crowds of English racing enthusiasts was on hand at the course since the spectators having waited 24 hours for favorable positions. Felstead, a bay colt by Spon Kop out of Felkington, is owned by Sir Hugo Cunliffe-Owen.

Felstead's victory was before a record crowd of nearly one million spectators who massed historic Epsom Downs and it was estimated at an equivalent of at least \$15,000,000 were wagered on the race, including the great Calcutta sweepstakes.

Epsom Downs, England, June 6.—(AP)—Thousands thronged historic Epsom Downs for the 148th running of the Derby today. Twenty-two crack three year olds were entered.

Threatening weather failed to dampen the enthusiasm as indications were that a quarter of a million persons would see the race. Lord Rosebery's stables at Durdan, near the Downs, housed not only the Rosebery's colt, Cameford, but also Lord Derby's Fairway, the favorite; Flamingo and Bubbles, 11 one of the two French entries. Twenty foot and six mounted police watched the horses or slept close by.

It was figured that half a million pounds had been wagered on these four horses alone and that three millions were at stake either in wagers or sweepstakes on all three horses entered.

## Patriots Lick Capital City

(By The Associated Press.) Greensboro found little difficulty in trouncing Raleigh 9 to 4 yesterday and increasing their leadership percentage in the Piedmont league. Despite offering a crippled team the Patriots touched three Capital hurlers for 17 hits.

The Pointers, holder of second berth, lost heavily in percentage ground when the Winston-Salem Twins played tight ball on a muddy field and won 5 to 2. The win gave the Twins still further margin over the second division clubs. Salisbury and Durham divided a double header and held pat, the rejuvenated Bulls snapping out of the night-game losing streak and taking the night cap 6 to 4 after losing the opener 4 to 3.

## Goldbugs Hold Their Lead

(By The Associated Press.) Results of yesterday's games affected percentages in the Eastern Carolina league but little.

The Goldbugs held their comfortable leadership margin with a 6 to 4 win over Greenville for the second successive day. Wilmington, persistent trailers of the first position club, likewise took a win at the hands of Rocky Mount by a count of 7 to 5, and pushed forward. Wood's homer in the ninth with one man on base broke the tie and proved the Bues' Waterloo.

The Stemmers staged a comeback in the late stages of the game to defeat Fayetteville 8 to 7, cutting down the third position holder's margin of lead over the second division aggregations.

## OVER THE BAR AT SIX FEET SIX

A high jump of six feet six inches, the best since new jumping standards were introduced two years ago, was made by Robert W. King of Stanford, national and intercollegiate champion, at the New York Athletic Club games. The cross bar on the new standards is more easily knocked off than the old one.

## LOCALS LOSE TO GOLDBUGS

Greensboro made it two straight from Greenville by taking yesterday afternoon's contest by the score of 6 to 4. Johnson, pinch-hitting for Carver, blasted Greenville's hope of winning the game with a single in the eighth frame that resulted in breaking of the 4 to 4 clinch which the visitors succeeded in effecting during their half of the eighth.

Not content with providing the badly needed hit, this fellow Johnson went to the mound in the 9th frame and prevented the Tobaccoists increasing their score.

Kinston comes to Greenville this afternoon for a two game series. The two contests are expected to provide some of the most sensational playing of the season by reason of Kinston's acquisition of new players and their ability to come through with more victories.

The box score of yesterday's game follows:

Club	W.	L.	Pct.
Greensboro	21	13	.618
Wilmington	19	14	.576
Fayetteville	17	16	.515
Greenville	18	19	.486
Kinston	14	20	.412
Rocky Mount	14	21	.400

Club	W.	L.	Pct.

Lincoln, Neb.: Ace Hudkins, Omaha, won a technical knockout over Buck Holley, Oakland, Calif. (2). St. Paul: Mickey Walter, middleweight champion, defeated Jack Mulcne, St. Paul (10).

## Charlotte Has Set New Record

(By The Associated Press.) The Charlotte team of the South Atlantic Association has set some kind of a new record.

In a wild first inning against Knoxville yesterday the Hornets, every one of them, hit safely and scored a run before the frame was over and ten runs had been chalked up on the scoreboard.

Teams have batted around in an inning before but it is problematical whether every man secured a hit and made a run, the batters generally being helped out by errors or bases on balls.

This early lead came in handy, the smokies doing some pounding of their own and exerting the Hornets in their 19 to 12 victory.

Augusta and Asheville provided the other extreme in baseball, battling ten innings before the league leaders were able to win 3 to 2. Each team made seven hits.

# SPORTS SLANTS

By ALAN J. GOULD

Associated Press Sports Writer. New York, June 6.—(AP)—In the same week that little Bill Johnston's definite retirement from competitive tennis is made known, the Californian's oft-rival and comrade in arms, Big Bill Tilden, is set forth as the guide of youth in a new Davis cup quest.

The domain of tennis or any other sport has had few stranger turns than this. Eight years ago Little Bill and Big Bill youths themselves (that in the competitive sense, although also champions, made the last American Davis cup pilgrimage to Europe together. In eight years Tilden and Johnston each figured in only three losing Davis cup matches. There has not been and may never be an international record to match theirs, great though the present French combination of LaCoste and Cochet looms.

Nine years ago Tilden and Johnston first met in the finals for the national singles championship. Little Bill won but it was the last time. Why? Because for months afterward Tilden devoted hours daily to perfection of a backhand stroke, his weakness against Johnston. He developed probably the greatest offensive back hand shot tennis has ever known.

Johnston's defeat by Tilden certainly were the most heart-breaking of his career. For in several of their matches for national championship honors it seemed that Little Bill would come through. Perhaps the Californian's most dramatic stand in 1925. He was then supposed to have passed his peak for Tilden had whipped him easily in two previous years but Little Bill had a few big shots left.

Their match at Forest Hills went five thrilling sets and Johnston led in the fifth, 3-2, but Tilden rallied to win the four straight games and the championship.

## Virginia League Disbands Today

Richmond, June 6.—(AP)—Following an announcement by W. G. Bramham, president of the Virginia League, that the league no longer existed in organized baseball, the Norfolk and Richmond clubs remaining in the league after the withdrawal of Petersburg and Portsmouth two days ago, have disbanded.

Mr. Bramham in his announcement also said that the players' agreements and contracts were no longer valid. Eleventh hour efforts to obtain berths for the Norfolk and Richmond clubs in the Piedmont League failed and the decision to disband came after a conference between Frank Lawrence, owner of the Norfolk club, and George Barnes, owner of the Richmond club.

Hornsbys, who led the St. Louis Cardinals to a pennant and world championship in 1926, has been with two clubs since then. Manager in 1926, he was only a captain last year and the beginning of this season, but now he is a full fledged manager again. Hornsby was traded by the Cardinals to the New York Giants for Frisch and Ring and then moved farther East to Boston for Welch and Hogan.

George Sisler, after being considered a St. Louis institution as star of the Browns and later manager of the St. Louis entry in the American league, was sold to Washington last winter and without playing regularly for the Senators has made his National League debut as first baseman for the Braves.

Sisler batted .327 last year and led the American league in stolen bases. His American league batting average for 12 years is .344, and he batted .420 in 1920. Hornsby believes Sisler will play great ball for the Braves. Only 35 years of age.

Sisler batted .327 last year and led the American league in stolen bases. His American league batting average for 12 years is .344, and he batted .420 in 1920. Hornsby believes Sisler will play great ball for the Braves. Only 35 years of age.

## FORMER STARS TEAMING WITH HORNSBY BOLSTER THE BRAVES

Three men once rated as players of the first magnitude join Manager Rogers Hornsby in a new Boston infield combination. Sisler, the latest addition, once was one of the American League's biggest threats at bat, at bat and on the paths. The Rajah and Bell helped the Cardinals in their 1926 world's championship. Farrell, though a mere youth, has starred in the majors.

By BRIAN BELL, Associated Press Sports Writer.

New York, (AP)—The Boston Braves have a baseball quartet recruited from three different choirs. The addition of George Sisler to the infield has given Rogers Hornsby's National League team an all-star cast in the inner defenses. All the players may or may not be stars now, but they have been. Washington furnished Sisler, the Giants Hornsby and Farrell and St. Louis was Bell's former address.

The new manager himself is hitting the ball at a terrific rate and may pass the 400 mark for the fourth time in his baseball life, although he is not likely to equal his mark of 424, a modern batting record established in 1924.

Hornsbys, who led the St. Louis Cardinals to a pennant and world championship in 1926, has been with two clubs since then. Manager in 1926, he was only a captain last year and the beginning of this season, but now he is a full fledged manager again. Hornsby was traded by the Cardinals to the New York Giants for Frisch and Ring and then moved farther East to Boston for Welch and Hogan.

## NATIONALIST PARTY WINS IN MANILA

Manila, P. I., June 5.—(AP)—The Nationalist party, favoring a platform of non-cooperation in the plea for immediate independence for the Philippines, swept Manila in yesterday's election, local returns indicated. No returns have been received from the provinces.

## MRS. ROSE AND LITTLE DAUGHTER RECOVER

Friends of Mrs. J. H. Rose will be glad to learn that she and her little daughter, Ruby June, who have been in the hospital, have recovered. They are spending some time with relatives in Alabama.

## A MEDITATION

Backward, turn backward, oh, time in your flight  
And make me a child again just for tonight.  
The years race onward so terribly fast  
There'll only be a few more before I reach the last.  
It's a sad, sad thought for bodies to grow old  
But our Spirits can stay as young as the lambs in the fold.  
When anybody is bent with decrepitude and age,  
I'll still feel young if I am an old sage.

As I go about my daily duties each day,  
I wonder if I'm performing them in the right way.  
But there is one grand thought if we do our best  
The Good Lord has promised that He will do the rest.  
If our frame is feeble and we totter and fall  
We'll be taken up by Jesus each one and all.  
By trusting in His power and not in our own,  
We'll not be left a moment entirely alone.

It is said when we are aged we become a child again  
But it won't be youth, no, not like it was then.  
Altho if we are faithful until the Final Day,  
The Lord will say come, and be young alway.  
So let's be ready when Gabriel blows his trumpet,  
And when the Chariot passes, into it we will jump  
On to Gloryland we'll go with a loud shout of joy,  
We know we'll be young then, no age will annoy.

When we cross over the River there will be no night,  
Our struggles will be over, we'll have won our last fight.  
We'll be young and happy as we walk the Golden Streets  
And sing Hallelujah with all the Saints we meet.  
No more heartaches nor sorrows like we have on this earth,  
Our souls will be filled with great joy and mirth.  
There will be no old age to shadow our pathway,  
When we get to Heaven where there's perpetual day.  
—Pattie E. Lanier.

## Pre-School Clinics.

Is your six year old child physically fit to enter school next fall? It is the hope of the Health Department, co-operating with the school authorities, that every child entering school next September for the first time shall be in the best possible physical condition, and as far as possible, free from any demonstrable physical defects. It is further hoped that these children shall all be vaccinated against smallpox and Diphtheria before school opens. One child out of every five in Pitt county repeats its grade and many times it is due to bad health caused from some disease or defect which might easily be corrected. For the purpose of thoroughly examining and vaccinating children who enter school the first term, the Health Department will hold clinics at the various school buildings. Each clinic will be conducted by some local physician. Parents are urged to take their children to the clinic in order that they may have the best possible chance to keep up their work in school.

Places and dates for the clinics are as follows:  
West, Greenville School—June 7 at 2 p. m.  
Model School—June 8 at 10 a. m.  
Evans Street School—June 8 at 2 p. m.  
Bell Arthur School—June 11 at 10 a. m.  
Grimesland School—June 12 at 10 a. m.  
Ayden Grammar School—June 13 at 10 a. m.  
Stokes School—June 14 at 10 a. m.  
Belvoir School—June 15 at 10 a. m.  
Fountain School—June 18 at 10 a. m.  
Clay Root School—June 19 at 10 a. m.  
Pitt County Health Dept.

## FULLER TO PREACH ON IMPORTANT SUBJECT

On Thursday evening at 8 o'clock in the big tabernacle in Washington, Dr. Ellis A. Fuller, who is now conducting a revival meeting in that city, will preach on the subject, "What Must a Man Believe About Jesus In Order To Be Saved?" This is one of Dr. Fuller's greatest messages, and upon the request of friends has been changed from Wednesday evening to Thursday evening in order that the people from the surrounding towns might hear the message without interference with the regular Wednesday evening prayer services. Hundreds of gospel loving people from Greenville should avail themselves of the opportunity of hearing Dr. Fuller, who is easily one of the strongest preachers in the south.

## SOUTH CAROLINA MINISTER REPORTED RESTING QUIETLY

Charleston, S. C., June 5.—(AP)—The Rt. Rev. William A. Guerry was reported as resting quietly today at Riverside infirmary where he was taken after being shot Monday by the Rev. J. Herbert Woodward, who committed suicide.

A bulletin issued by Dr. J. J. LaRoche, his personal physician, and Dr. Robert S. Cathcart said that "Some symptoms show slight improvement." His pulse was 106, temperature 101 and respiration 32. His condition, the doctors declared,

## "LINDBERGH GIRL" DARES OCEAN

Amelia Earhart of Medford, Mass., social worker in Boston and amateur aviatrix, is co-pilot of the Friendship, tri-motored seaplane bent on a Boston-to-London flight. Boston calls her "the Lindbergh girl," seeing similarity between her profile and that of the Lone Eagle.

ed, is still regarded as serious and some days may elapse before he is out of danger.  
Factors in favor of his recovery, they said, are that his constitution is unusually strong and that his mental attitude makes him a model patient.

## Is a Business That Isn't Worth Advertising Worth Patronizing?

Occasionally we see a man in business—actually trying to establish a business—who says he does not advertise because he would have to increase his prices if he did.

It is not often we see such a man in business because a man with such limited business vision seldom remains in business long enough to be seen.

The truth of the matter is that the merchant who does not advertise and increase his volume of sales must increase his prices on the limited amount of stuff he sells and actually charge more than the merchant who by the use of regular advertising turns his goods three or four times to the other fellow's once. It is simply the old story of the nimble nickle.

The nationally advertised brands of goods, with few exceptions, are the best and lowest-priced products that we can buy today. The big busy store that advertises and draws trade for miles around is always the best and cheapest place to trade, and has always been so.

No one ever hears it said of the big mail-order houses that their great advertising expenditures in sending out millions of catalogs and follow-up literature, including large monthly supplements on groceries, clothing, dry goods, shoes, furniture, hardware, farm implements, paints, wall paper, etc., made them charge more for their goods.

But you do hear just the opposite. Ask any farmer who buys goods of a mail-order house why he patronizes them and he will tell you that he believes he does a little better in the way of price. If you ask him why their prices are lower than the local stores, he will tell you that it is because of the great amount of business they do through sending out catalogs and other advertising matter regularly to every farm home throughout the country.

The home newspaper affords the only effective means of counteracting the trade-pulling influence of these mail-order catalogs in taking business away from your home community.

By the use of regular space in the local paper a merchant can soon educate the home folks to appreciate the fact that he is doing every thing he can to serve them to the very best of his ability. This cannot be done as quickly and successfully in any other manner than by advertising.

Advertising is the economic factor of business. Without it few buyers would know of the exceptional values offered and the turnover would be reduced to almost nothing. Merchants would be compelled to increase their prices in order to remain in business, and higher prices would mean fewer buyers and business failure to those merchants who have not taken time to study and learn the real value of persistent advertising.

Of course, there are some moochers in business who get by on the other fellow's advertising and efforts to boost business and keep it at home.

## COTTON MARKET.

New York, June 6.—(AP)—Prospects for more favorable weather in the south and rather better weekly crop and weather reports than expected, seemed responsible for declines in the cotton market today. Early losses of about 5 to 13 points were followed by rallies on trade, buying and covering, but the market eased off again during the afternoon, when active months showed net declines of about 8 to 24 points.

Futures closed barely steady, 29 to 33 points lower; spot quiet, middling 20.85.

Cotton futures closed:

## STOCK MARKET

New York, June 6.—(AP)—Frequent shifts of speculative sentiment characterized today's stock market, with the major activities on the side of rising prices. Prices started upward soon after the opening and then dipped sharply in what Wall Street characterized as a "secondary reaction," some of the losses running from 3 to nearly 6 points. Strong buying support was quickly provided and the market headed upward again in the early afternoon.

Call money again renewed at 6 1/2 per cent, but there was a plentiful supply of funds available at that rate and commercial paper rates continued firm. The abundance of money available on call undoubtedly stimulated the afternoon recovery.

Weekly steel trade reviews reported a further slight recession in output, but the seasonal decline has been gradual and a record breaking production is looked for in the first six months of the year. A further softening of commodity prices carried pig iron quotations to the lowest levels since 1915. Steel shares nevertheless received good support, particularly those engaged in the manufacture of so-called special steels. The weekly statement of the American Petroleum Institute confirmed private reports of a substantial increase in crude oil production last week. Freight car traffic figures showed some improvement, leading to the hope that the returns will shortly begin to show gains over the corresponding weeks of last year.

Bullish demonstrations in the market centered largely in issues in which special developments are reported to be pending. Allied Chemical, American Linseed and Advance Rumely common and preferred all touched new high re-

ords on gains of 3 to 5 points. The brisk demand for Western Electric Instrument was in anticipation of increased earnings through the manufacture and sale of airplane instruments. Freeport Texas, Coty, Vanadium Steel, Patio Mines and Producers & Refiners also showed substantial gains.

The closing was irregular. Total sales approximated 3,100,000 shares.

## Rockefeller Funds Used for Education Of Southern Negro

Nashville, Tenn., June 6.—(AP)—Here to deliver the commencement address at Fisk University, leading negro college, John D. Rockefeller, Jr., drew attention to the fact that the enormous Rockefeller endowments of education all over the United States had their origin in contributions to the education of the southern negro.

Gifts by his father to negro schools operated by the Baptist church led to the creation of the national educational board which developed gradually into an organization of unlimited educational scope. It was while on an inspection trip of negro schools through the south that the idea of creating the board occurred to Mr. Rockefeller.

It soon became apparent, he said, that there could be no substantial progress achieved by concentrating on the education of one race. Great attention was given to the agricultural training and to educational ideas that would lead to direct economic betterment. The board was thus led into general educational endowment.

## SCHOOL FINDS ATHLETICS BENEFIT WEAK-MINDED

Stockholm.—(AP)—Training mentally deficient children in sports and athletics tends to brighten their minds and give them a more wholesome and normal outlook on life, it has been announced at the institution for weak minded boys at Saltsjeden, Sweden.

By encouraging the boys to play football and to compete in running and jumping the head instructor said he found a practical and efficient remedy. Whereas the boys had been clumsy slow and careless in the beginning, they gradually became alert, nimble-footed and appreciably keener.

## ENGLAND IS MARKET FOR U. S. NEAR-BEER

Boston.—(AP)—Boston is shipping near-beer to England. While some Americans envy the British their beer and ale there is a growing demand in England for the near-beer that American brewers have been forced to develop.

The British steamer Port Napier left the Cunard pier a few days ago carrying a consignment of American near-beer, brewed in the Roxbury district of Boston, to satisfy English demand.

## Husbands Are Alternates

Washington.—(AP)—Two women delegates from Connecticut to the Democratic national convention, profiting by a recent state ruling that delegates can choose their own alternates, have announced that their husbands will accompany them.

Mrs. Martin Caine, Naugatuck, and Mrs. Edward J. Keegan, Wiltonville, both delegates at large, have chosen their husbands as alternates.

## Dies As Result Of Burns

Asheville, June 6.—(AP)—Burned by electricity, J. N. Stevenson, 22, of Raleigh, employe of the Carolina Power and Light Company here, died at an Asheville hospital last night. Stevenson came in contact with 6500-volts of current while working on a switchboard at a company plant. The body was sent to Raleigh for burial this morning.

## Grange and Pyle Part Ways

Chicago, June 6.—(AP)—A parting of the ways for C. C. Pyle and Harold (Red) Grange, the former University of Illinois "galloping ghost," was seen today by Grange's father.

Possibilities of a break between the two have been current in sport circles. Grange's father said he knew nothing about the case and that "there was probably something to it."

## Note of Thanks

To the Boys and Girls of Evans Street School, Greenville, June 6.

My dear boys and girls: I wish to thank you very much for the beautiful loving cup which was given me in your name last night.

It is very pretty and it makes me happy to be so remembered but it also makes me feel very unworthy for this is an honor I think I do not deserve.

I know that we have the finest boys and girls in the world here in Greenville and I have enjoyed every minute that I have worked with you at Evans Street School.

I love you all, and wish you the happiest sort of a summer vacation. Believe me always to be, sincerely your friend,

MRS. SAVAGE

## TRY OUR WANT ADS

# Greater gas mileage

It may surprise motorists and mechanics who know most about oil to read this proof of how a different oil

**"STANDARD" MOTOR OIL**

Standard Greases, Transmission Oil and Cedar Compound are made with the same care as "Standard" motor fuels and motor oils.

**ACTUALLY INCREASES GASOLINE MILEAGE**

Tests were made by a motor car manufacturer by driving cars for two thousand miles cross country, comparing "Standard" Motor Oil with other well-known brands. The same gasoline was used in all cars. The use of "Standard" Motor Oil showed increases of from 7 to 11% in the number of miles per gallon of gasoline.

This is because "Standard" Motor Oil forms the best seal between piston and cylinder wall, thus insuring a more perfect combustion and a more powerful piston stroke. More power means more miles per gallon of gasoline.

# Prize Winning Letter

Below the letter written by Mrs. C. C. Hilton on "Why I send My Clothes to the Eureka Laundry".

"Above all things, value health," says a famous doctor. And that is why the modern housewife is learning to appreciate more and more the value of the laundry. She knows, by doing so, that her health is safeguarded to a greater extent, and that she thereby procures a longer and happier life. Every wife has tried at some time to cut down expenses by doing part or all of the family washing. This means that she must devote the most of two days each week to just that—washing one day and ironing the next. But the average housewife can't devote the majority of two days to just doing that because the house must be cared for and the meals prepared. Consequently, she attempts to accomplish all, and suffers physically as a result.

It is an accepted fact that laundry-washed clothes are cleaner. The housewife could not possibly wash and rinse her clothes in as much water as is employed by the Eureka Laundry in caring for clothes; that is, passing the clothes thru nine washings with about forty gallons of water to each washing. Likewise, it would be impossible for the home tub or washer to acquire every improved laundry equipment—such as is employed by the Eureka Laundry—thereby insuring the best results. Too, the housewife naturally lacks the scientific knowledge required for the preparation of the soaps, starches and purifying agents which is employed in the care of clothes handled by the Eureka Laundry, and which is the true source of spotlessness of Eureka Laundry-washed clothes. Therefore, the author does not hesitate to state that Eureka Laundry-washed clothes (ouch par) in the classification of immaculateness.

If every local housewife could realize that the Eureka Laundry not only safeguards her health and improves the appearance of her clothes, but also insures a longer life for her clothes and helps to keep the wolf "Expense" away from the door, there would never be another family home-washing. The softened water which the Eureka Laundry employs completely removes every germ and bit of dirt which might be a fabric destroyer. And the cylinder washers gently swish the articles of clothing instead of rubbing them, thus lengthening the life of the threads in the materials. Too, only agents which have been chemically tested are employed in the laundering of the clothes—thus eliminating the danger of the clothes being eat or rotted by cheap and unsafe "laundry-aids."

The average family washing for Damp Wash service at the Eureka Laundry costs from \$1.00 to \$1.50, while the same work at home would cost approximately \$2.50—including laundress' hire and meals, washing agents, heat applied, etc. The average family washing for complete service at the Eureka Laundry costs from \$1.50 to \$2.00, while the same work at home would cost approximately \$3.50. So it is easily understood why the Eureka Laundry abets economy.

Therefore, I am forced to concede that it is not only economical from a financial standpoint to send my clothes to the Eureka Laundry, but also it is a preservation of health, insures longer life for my clothes, and guarantees their appearance—thus performing a four-fold duty.

MRS. C. C. HILTON.

Colored Schools Have Auspicious Final Exercises

Finals of the Industrial Graded and High School in the Auditorium on Monday night was a credit to the teachers and a compliment to the school authorities. The Home Economics Department exhibit was the best in the history of this school. The annual sermon and commencement address were delivered by two of the representative men of the negro race, Dr. L. T. McDowell of Durham and Dr. George D. Carnes, presiding elder of the A. M. E. church, each gave excellent advice and inspiration to the largest class fifteen in the history of the school. Prof. J. H. Rose, the city superintendent, told the great audience that cooperation was helpful and that he saw evidences of cooperation in the contributions for science equipment. Hon. E. G. Planagan delivered the diplomas to the fifteen graduates and referred to length of service that the father of Violet B. Cherry had given his company. Mr. W. E. Hooker presented certificates and prizes. The graduates: Rosber Johnson, Henry Turnage, Charles Williams, Thelma Lang, Virgil A. Gorham, Odessa Chapman, Bernice West, Bettie Dudley, Portia Dudley, Annie Mae Ford, Olivia Gorham, Mary Louise Gorham, Violet Cherry, Fanny M. Parker, Alvania Clark, presented to the principal a beautiful token for his service. The state department has given this school an accredited rating the only one for negroes in the county. Greenville thus goes forward as the educational center of eastern Carolina.

HARRY THAW PREVENTED FROM LANDING IN ENGLAND

Southampton, England, June 6.—(AP)—Harry Thaw, arriving at Southampton today aboard the

Aquitania for a visit to England, was refused permission to land by the immigration officials. Thaw had obtained a British visa before sailing, but nevertheless was not allowed to land. He has informed that the home office had issued an order of prohibition and it is supposed that he will be obliged to return to New York on the Aquitania.
