## HUNDREDS OF FAMILIES DRIVEN FROM HOMES BY BREAK OF RIVER LEVEE

### St. Francis Levee wall Crashes Near Ken- nett, Mo., Spreading Waste and Destruction Over Five Mile Area.

Kennett, Mo., June 16.—(AP)—A desperate fight for homes and crops was lost early today when the St. Francis river levee six miles north-west of here gave way spreading waste and destruction over a five-mile area. Hundreds of families have been driven from their homes.

Weakened by seepage which persisted in spite of anything that could be done by the 3,000 farmers, professional and business men who worked on into the night, the levee wall crashed at 1:30 this morning. The crevasse, 150 feet wide at the start, had increased to 300 feet by 5 o'clock.

Two score workmen who were on the dyke at the time it went over were warned as the dirt began to move, and had fled to safety as the wall they were strengthening swept inward before the pressure of the crest of the flooded river.

A proclamation was issued by the mayor of Kennett early today asking all business houses to close and requesting that all available men be sent to strengthen the levee in anticipation of the third rise, which is expected to reach its highest proportions Tuesday or Wednesday of next week. Authorities believe the crest of this flood will be a foot and a half higher than the one which swept the levee aside this morning.

Along the river north to Campbell workmen were making a strenuous effort to strengthen the weakened levee to prevent a further inundation of the adjacent farm lands.

Five companies of national guardsmen have been on duty in the territory for several days.

Newport, Ark., June 16.—(AP)—Flood waters of the White river today spread out fan-like over approximately 40,000 acres of land some of it newly cultivated and the 800 residents of the valley in the lower part of Jackson county camped in improvised homes on higher ground.

The main levee at Stephens, 12 miles south of Newport, crashed last night, but a warning broadcast 24 hours previously enabled farmers, tenants and their livestock to (Continued On Page Six)

### Society Ball Has Tragic Ending

London, June 16.—(AP)—A brilliant society ball at which members of the Royal family and numerous titled persons were present ended abruptly last night when a tragic accident took place causing the death of a maid and the injury of several other persons.

The ball was at the home of Walter Guinness, minister of agriculture in Groveton place.

While Princess Mary, Viscountess Lascelles, many Dukes, Dutchesses and other prominent society members were dancing on the ground floor, two maids crawled to a skylight several stories above to watch the guests in the main lobby below.

Suddenly the maids crashed through the glass. They did not fall clear to the main floor where all the dancers were gathered, but landed on the second floor lobby hitting two guests who were seated there.

One of the maids was instantly killed and the other was gravely injured. The two guests suffered only slight hurts. Then, to add to the confusion, the night watchman while investigating the accident fell on the stairs and broke his leg.

### Gold Strike Is Celebrated By Colorado Town

Ripple Creek, Colo., June 16.—(AP)—Visitors from many sections of the country were assembled in this gold mining town today to celebrate the gold strike in 1891.

### Coolidge Defers Visit to Offices at Superior, Wis.

Superior, Wis., June 16.—(AP)—Faced by a steady downpour of rain in Superior while at his lodge 33 miles away the sun was shining brightly. President Coolidge decided early today to postpone his first call to the executive offices until later in the day.

The deep waters of the Brule, babbling around Cedar Island lodge called him instead to try his luck some more with the rod and reel. Apparently satisfied with his first fishing experience yesterday Mr. Coolidge ordered his fishing tackle brought out while he took a long walk through the estate familiarizing himself thoroughly with its layout.

Both he and Mrs. Coolidge were reported as having passed a very restful first night at the summer residence, after a long evening quietly spent by a big log fire. Mrs. Coolidge, although suffering with effects from the long journey from Washington, decided to remain at the lodge, enjoying the cool breeze sweeping off Lake Superior.

## BOLL PLANE DUE TO HOP OFF SUNDAY

### Friendship, However, May Be Delayed for Several Days by Bad Weather.

Harbor Grace, N. F., June 16.—(AP)—Tentative plans for a take-off for Europe tomorrow morning were announced today by Oliver Le Boutillier, pilot of the monoplane Friendship. Le Boutillier, with Miss Mabel Boll and Arthur Argles, copilot, gave up any idea of flying today because of unfavorable weather reports from ships at sea.

Le Boutillier said that if conditions were right the start would be made tomorrow morning at 4:30 o'clock, eastern standard time.

Trepassey, N. F., June 15.—(AP)—A delay of several days in the departure of the monoplane Friendship for Europe appeared probable today in the flight of reports of unfavorable weather at sea. Pilot Wilmer Stultz said that it was impossible under these conditions to set a definite date for the hop off with his companions, Miss Amelia Earhart and Louis Gordon.

### Estranged Wife Returns Home

Hollywood, Cal., June 16.—(AP)—The separation which last Monday estranged Margaret Myers Tully from her husband, Jim Tully, former tramp, prize fighter and now successful author has ended with her return to their Hollywood home.

"The day I separated from Jim was the saddest day of my life," Mrs. Tully, also a writer, said tonight. "This is the happiest."

## Local Kiwanians Ask For Earlier Opening Of Tobacco Market

Members of the Greenville Kiwanis club meeting in regular twice-a-month session at the Rotary club home last night, signed a petition asking the United States Tobacco Association to provide an earlier date for the opening of Eastern Carolina tobacco markets. The petition will be presented at the annual session of the Tobacco Association to be held at Old Point Comfort, Va., the last of this month.

The session last night was one of the best in weeks, being featured by an address by Dr. F. R. Taylor, of Raleigh, representing the educational department of the State Board of Health, who is in Pitt county assisting the health department in public health educational work.

One of the outstanding features in connection with the musical program were two song numbers by Miss Bessie Brown with Mrs. M. K. Blount acting as instrumental accompaniment. Miss Smith furnished instrumental accompaniment for the number of club songs.

J. Frank Harrington presided over the meeting. The evening's program was in charge of Dr. K. T. Futrell.

The petition to the Tobacco Association requesting an earlier opening of the Eastern Carolina markets was presented by C. B. Rowlett, secretary and received the signature of the entire club membership. Mr. Rowlett called attention to the hardship worked in this section on account of the late opening in previous years, and said that urgent action was necessary to convince the U. S. Association of

## Kansas City Returns To Normal After Convention

Kansas City, June 16.—(AP)—The Republican convention is over for everybody but the street sweepers. The delegates, who for four days tried with varying success to find their seats in convention hall, are on their way-home after nominating Herbert Hoover and Charles Curtis for president and vice president. The Kansas Senator was nominated on the first ballot at the brief final session yesterday afternoon. The vote was 1052 to 34. This was later made unanimous as a roaring, welcome went up for the majority Senate floor leader.

Kansas City to which conventions are no novelty is returning rapidly to its usual everyday tasks and watching the street cleaners sweep up the few evidences left of the great political gathering.

The shouting is ended, but the arm bands, hat bands, and brass bands, candidates' photographs and recommendations linger until the white wings can do something about it. Plain and fancy sweeping is going on apace and night fall will find the convention city quite itself again.

As the Republican host wended its way homeward, the bottom dropped out of the market for plaster elements, G. O. P. monograms, combination rattlers and bells and balloons, the noisemaking devices and banners and canes, knowing no political allegiance were packed for shipment to Houston to be coupled in the street fakers with the Democratic Donkey replacing the Republican Pachyderm.

Before the echo of the final, "the eyes have it", from the lips of chairman George H. Moses died away there was a wild scurrying of men and women who had trains to catch. Many of the uninitiated were thrown for a loss by the dial system in vogue in the Kansas City telephone system.

Hotel lobbies which have had no one-way traffic signs for a week as crowds moved constantly about but not going anywhere, were filled last night and this morning with visitors on their way out. Bellboys who have had nothing to exercise but their voices and feet as they carried baggage bags to taxicabs.

No tears are shed by harrassed hotel workers as the visitors departed. A maid at one hotel was smiling with relief as elevator attendant filled with delegates passed her floor. She wore a worried look, too, and one hurrying delegate stopped to ask about it. "I'm for going on apace and night fall will find the convention city quite itself again."

The band, cliff dwellers throughout the session of the convention has come down from the rafters of convention hall where the musicians played to an audience they could not see and never knew whether it was applauding its pieces or something on the platform.

The convention leaves one problem that may never be solved. What has become of all the assistant sergeants at arms? The sergeants in arms had more assistants than there were either delegates or newspaper men and there were plenty in both classes.

## QUICK RESCUE NOBLE PARTY NOW POSSIBLE

### Italian Flier Forced Down in Attempt to Reach Kings Bay Area.

Kings Bay, Spitzbergen, June 16.—(AP)—Speedy rescue by air of General Umberto Nobile and five men adrift with him on the ice seemed today to be possible.

The large twin motored Savoia-Marchetti flying boat, enroute from Milan, left Vadsoe, Norway, at midnight for a 12 hour flight to Kings Bay. This is the first plane available which is judged to be of sufficient size to pick up the marooned men.

At Kings Bay preparations were made for the speedy departure of the plane to the castaways. Provisions, shoes, medicines, guns and collapsible rubber boats were ready to be stored aboard the plane for its flight of some 220 miles to the region north of Northeast Land where Nobile and his men are stranded.

The flying boat has a radio and in its search can be guided by the base ship Citta Di Milano, which has been in touch with General Nobile by wireless. From Nobile's exact position of the castaways and ice conditions in their neighborhood will be learned to aid the plane as it flies northward. Latest advice indicated that the north-west wind was opening up the ice field, making rescue by plane practicable.

Vadsoe, Norway, June 15.—(AP)—Major Maddalena, Italian flier who hopped off at midnight for Kings Bay to join in the Noble rescue work, met with a mishap today. He was forced to come down in Varanger Fjord.

His plane is being towed to Vadsoe. Hope for the possible rescue of the Noble party today by Major Maddalena was dashed by his mishap.

The Major's large twin-motored Savoia-Marchetti flying boat was the first plane expected at Kings Bay judged to be of sufficient size to pick up the marooned men. There are two planes now in northern Spitzbergen piloted by Norwegian fliers, but these machines are too small to do much more than reconnoitre.

## BRITISH WIN TENNIS CUP

### America Defenders Downed for Coveted Honor of Wightman Cup Today.

Wimbledon, England, June 16.—(AP)—England today captured the Wightman cup signifying women's tennis team supremacy by winning four out of seven matches from the United States.

The English gained the coveted trophy by downing the American defenders in the final doubles match in which Mrs. M. Holcroft Watson and Miss Eileen Bennett defeated Miss Helen Wills and Miss Penelope Anderson, 6-2, 6-1.

This was the first time the English had beaten the Americans for the Wightman cup since 1925 when they won out at Forest Hills by the same margin of four matches to three. The English victory today also tied the count in total victories won since the cup was placed in competition, each having now taken the cup three times—England in 1924, 1925 and 1928, and the United States in 1923, 1926, and 1927.

The English girls' team triumphed after the Americans had staged a spectacular rally featuring singles victories by the two Californians, Miss Helen Wills and Miss Helen Jacobs, and drawn to even terms at three matches apiece.

In the deciding doubles encounter the British pair's perfect team play told and enabled them to race through the Americans' opposition in speedy fashion. Miss Bennett and Mrs. Watson recently won the hard court doubles championship of France and today proved themselves fully as good on turf.

### FIRE DOES DAMAGE AT CHARLOTTE, N. C.

## SEN. M'NARY CONFERS WITH SEC. HOOVER

### Oregon Senator Now Ready to Abandon the Equalization Fee After Conference.

Washington, June 16.—(AP)—Senator McNary, Republican, Oregon, co-author of the McNary-Haugen farm relief bill vetoed by the President, conferred with Secretary Hoover, Republican presidential nominee today. McNary after the conference, said he found Secretary Hoover "sympathetic and anxious to relieve the distress of our farm population."

A statement issued by the Oregon Senator after the conference was accepted as indicating he was willing to abandon the equalization fee of the farm relief bill.

"In my judgment the enactment of the bill that passed the last session of Congress with the omission of the equalization fee would improve the condition of agriculture," he said. "At least it would supply the basis upon which helpful legislation could be fashioned."

McNary said if the remedy was tried and found to be ineffective in his opinion Congress and the administration would unite in an effort to devise a more effective remedy that would prove sound.

"In the absence of the President, who I believe to be in accord, I have discussed the subject with the Republican nominee, Mr. Herbert Hoover, and found him sympathetic and anxious to relieve the distress of our farm population, and I speak for 7,000,000 million farmers and their able leaders the same fine offer of assistance and consideration to the end that farm relief legislation may be enacted and approved at the next session of Congress."

### Postpone Flight From Ontario To Mexico City, Mex.

Detroit, June 16.—(AP)—After receiving reports of unfavorable weather between Washington, D. C., and the Carolinas, Jaquin Pecheo, Mexico City aviator, announced this morning that his projected non-stop flight with Fritz Vieler from Walker field near Windsor, Ont., to Mexico City had been postponed until tomorrow morning.

Detroit, June 16.—(AP)—Forecast of unfavorable weather conditions over the Carolinas today made uncertain the time of departure of the big Stinson monoplane in which Jaquin Pecheo and Fritz Vieler, Mexico City aviators, hope to make a non-stop flight from Windsor, Ont., to the Mexican capital.

They had planned to take off on their 2,400-mile flight at 6 a. m. but there were predictions of heavy rainstorms and strong cross winds in the Carolina district. As a result, it was thought the flight would not be started before noon.

### Hoover To Retain Post As Commerce Secretary; Curtis Is Congratulated

Washington, June 16.—(AP)—For the present at least, Herbert Hoover intends to retain his post of Secretary of Commerce, and if he has formulated any other plans, they remain a closely guarded secret.

Within the next week or so, however, it is expected that Mr. Hoover's program will begin to take on a definite outline, as he consults with party leaders returning from the Kansas City convention and received their advice and opinions on the conduct of the campaign.

On Thursday, a special committee from the Republican national committee, headed by Ralph Williams of Oregon, is to meet the nominee at the Willard Hotel here for an expression of his wishes as to the national chairmanship.

Until this has been done no one will be named to succeed William M. Butler of Massachusetts, the incumbent. A number of men are in line for the job, including Secretary Work, James W. Good, Claudius Houston, Walter F. Brown and Williams and Butler.

Just how soon Mr. Hoover will resign from the Cabinet and devote his entire time to the campaign today was a subject for speculation.

A brief statement made public late yesterday by the nominee's secretary, George Akerson, and with his approval, said merely:

"For the present, Mr. Hoover will remain as Secretary of Commerce. He will continue his duties in the department just as he always has done."

While Senator Curtis was being nominated for the vice-presidency yesterday, Mr. Hoover dispatched to him a message of congratulations.

"I wish you to know," he said, "how greatly I welcome your nomination and your cooperation in the task we have before us. The party is to be congratulated upon your selection."

He is a young man of much business promise and is popular in business and social circles.

Immediately following the wedding a reception was given at the home of the bride's mother, Mrs. Mann which was attended by numbers of out of town friends and local friends of the young couple. During the reception Mr. and Mrs. Brown left by motor for Raleigh where they board a north-bound train for Northrup points. Mrs. Brown wore a modish frock of blonde crepe trimmed with lace and brown, with which she wore blonde slippers and gloves. Her hat and coat, made cape effect were of black.

Among the out-of-town guests who attended the wedding were Dr. and Mrs. M. I. Fleming and Mrs. H. M. Arent of Rocky Mount, Mrs. Nana Fleming Brown of Greenville, Mr. and Mrs. Jack Dillon of Statesville; Mrs. Nannie Fleming White, Mrs. Curtis Perkins, Mrs. James L. REV. LEE SADLER TO PREACH SPECIAL SERMON SUNDAY AFTERNOON

Rev. Lee Sadler, pastor of Hanover Christian church, Richmond, Va., is conducting a ten days revival in the Ayden Christian church. From night to night he is bringing soul-stirring, gospel messages and great crowds are hearing him. Mr. Sadler was a former pastor of the Eighth Street Christian church, Greenville, and while here endeared himself to the hearts of the Greenville people. A great number of the members of the local church and friends are hearing him each evening.

Mr. Sadler is a member of the national committee of fifteen who are directing plans of our brotherhood at large for celebration of the 1900th anniversary of Pentecost in 1930. He has a great message on "The Passion and Power of Pentecost." He will deliver this message at 3 p. m. Sunday, June 17 in the Ayden Christian church. The pastor, members and friends of the local church are invited to this service.

The meeting will close Wednesday evening.

Marmion Dancers at College

The Marmion Dancers who are to appear at East Carolina Teachers College next Friday evening, opening the summer series of entertainments, will give the same program of drama dances here that they gave in Carnegie Hall, with the New York Symphony, wonderful, colorful messages in dance with music by great musicians.

This company is a unique example of an entire family devoted to the art. The mother has long been famous in the dramatic world and has been the teacher, manager, and counselor of her three daughters, each one showed marked talent, she grew up and each has specialized in some field of creative work in connection with her art, while all have worked together in creating the drama-dance.

Not only the dances, but the costumes, the setting, the lighting effects are all original with them, and represent the best in the dramatic, decorative, musical, and rhythmic arts.

Teach your child what he learns with the least resistance and in the end, says "Children, the Magazine for Parents," the sum total of his knowledge will outweigh what he would have learned under a standardized course in what the neighbor's children his age know.

Watch his natural aptitudes and develop them. If there is something he must learn but cannot grasp, wait. Try the same thing on him later; there will come a time when he will learn it easily and thoroughly.

Some children do not memorize easily; to force them to is a nervous strain and harmful. But the same child who cannot memorize even simple nursery rhymes may have infinite patience and use real intelligence in constructing a bridge of merit or making an intricate block design of artistic qualities. When you take his time and nervous and mental energy to learn something you think it would be nice for him to know you are diverting his efforts from their natural and more important channels.

Food Habits Change.

"Food habits are changing just as rapidly as dress habits," according to Water and Light Commission, local Kelvinator distributor in this territory. Can you imagine the smart woman of today wearing the cackle-shell hats and sweeping gowns that her grandmother adored? Her modern daughter has developed a more hygienic viewpoint in dress. She realizes the advantages of a healthy body. A pleasing appearance and abundant vitality are necessities to the modern housewife.

The ever present problem of food offers an even more striking basis for comparison. Think of grandmother's pantry and the market at her disposal. Canned goods were practically unknown and fresh meats hard to get. Farmers brought their produce into the city at day-break. Merchants must sell it early or it would spoil.

What a difference from our present!

ABOUT TOWN

"Well, the Republican convention
is over and I am glad of it," em-
phatically declared a local politician
today, discussing the final session at
Kansas City yesterday.

"With Hoover and Curtis stand-
ard bearers in the forthcoming cam-
paign the Grand Old Party ought to
get away to a good start.

"The two candidates were se-
lected by overwhelming votes, and evi-
dently uphold the principles upon
which the party wishes to conduct
its campaign.

"Now that we know how things
stand in the ranks of this party, we
ought to be able to go along tranqui-
lly until the Democrats start
picking candidates at Houston, Tex-
as. That will be the last great bat-
tle of votes until November when
both parties will go to the polls and
pick the two men to direct the des-
tines of the nation for the next
four years."

"Have you contributed to the Chil-
dren's baseball fund," questioned a
loyal baseball fan today.

"The public is not responding to
this cause as liberally as they
should.

"\$215.00 is a mighty small sum
of money compared with the great
benefits which children between six
and 12 years of age would receive
from the diversion at the remainder
of the ball games played on the local
diamond this season.

"We have a long way to go be-
fore the total sum is raised. If
everybody would respond as liberally
as they should the fund would be
raised in comparatively short time.

"If you haven't done your part
by the children, get busy and do it
now."

"Herbert Hoover is deeply grate-
ful for the high honor which mem-
bers of his party conferred upon
him at Kansas City," mentioned a
local political observer today, refer-
ring to the message which the
secretary of commerce wired con-
vention members yesterday.

"Any man who had been so signi-
fically honored by his party should
be duly appreciative. Herbert Hoover
the man who has risen from a poor
orphan child to one of the outstand-
ing figures of the nation, is not the
type to let such an honor pass with-
out an expression of appreciation.

"He has been in the public lime-
light many years, and whether the
people generally feel that he should
be rewarded with White House hon-
ors will be determined at the Nov-
ember election."

"What about that firm of exten-
sive reputation to be located in
Greenville?" questioned a local busi-
ness man today.

We gave him the desired informa-
tion. He expressed surprise, de-
claring it was the first intimation he
had had of the firm's coming.

We asked him why he didn't read
the Reflector every night and in
that way keep abreast of the time.
"I do most of the time," he re-
plied. "But, sometimes, the paper
is misplaced before I get home and
I have to content myself until the
next day.

We advised him to be more care-
ful about the handling of the paper
to see that it is placed at his read-
ing table every evening, whether
he should return or not.

He agreed the suggestion was a
good one—at least it might prevent
him from missing some of the im-
portant developments of the com-
munity in which everybody is in-
tensely interested.

"We are bound to lick the Golds-
boro Manufacturers," declared a fol-
lower of the local ball club who has
missed only two games since the
opening of the league season.

"The visitors are going to do their
best to take the bacon home with
them by reason of the way their
standing in the percentage column
would be affected by a loss.

"Greenville, on the other hand,
can't afford to lose another game
this week. That cellar position looks
entirely too lonely. We may like
isolation at times, but way down at
the bottom of the column is too far
away from the top for comfort.

"With good attendance, the To-
racconis will find themselves nos-
ing their way upward to higher
things."

"How's business?" interrogated a
traveling man of the writer of this
column a day or so ago.

We told him it is always good in
Greenville.

"That's the truth, he agreed. "I
don't remember ever coming here
when people didn't seem busy. The
majority of the business houses in-
variably seem to have about all they
can do. My orders are better than
any other town of similar size in
Eastern North Carolina.

"Greenville is truly the best busi-
ness town in this part of the state.
It is setting a pace others are go-
ing to find it hard to follow.

"You people have splendid re-
sources; you have crossed the thresh-
old into a new era and should
realize many of the ambitions cher-
ished in past years."

"R. T. Fountain has been chosen
as candidate for lieutenant gover-
nor of North Carolina as result of
the withdrawal of J. D. Langston, of
Goldsboro," reminded a Reflector
reader today, commenting on the
political situation in North Caro-
lina.

"The Goldsboro man withdrew
because of party harmony, believing
that a second primary would have
the withdrawal of J. D. Langston, of
Goldsboro," reminded a Reflector
reader today, commenting on the
political situation in North Caro-
lina.

POLICE GUARD HOOVER'S HOME

The Washington police department assigned a guard to Herbert Hoover's home on S street as soon as the commerce secretary's nomination as the republican presidential standard bearer seemed certain. The custom of guarding presidential nominees' homes was established some years ago.

FATHER'S DAY

Tomorrow is Father's
Day. Men and women in all
walks of life should not fail
to observe it in every way
possible. It is an occasion of
greatest solemnity, especial-
ly for those who are unfor-
tunate enough to have lost
their fathers.

Poor old Dad. How he
has persevered from day to
day for our sakes. How he
has toiled and labored
month in and month out;
year in and year out to give
us our rightful place in so-
ciety. His mission on earth
has not been an easy one.
But he has never complain-
ed. He is of the uncom-
plaining kind. He accepts
whatever becomes his duty,
and "carries on" despite
misfortune and adversity.

Until a few years ago
Dad had never been given
a place in public observ-
ances. All of us went out
to church one Sunday in the
year to pay honor to the
memory of Mother. She has
always been the guiding star
of the American household.

So one day some woman
in some part of the country
proposed that we set aside
a day for Dad. We did.
And tomorrow it is our sol-
emn duty to go out to church
—listen to the preacher
elaborate upon the life and
ministry of the head of the
family. We should consid-
er well what the ministers
have to say. They talk from
the silent depths of the
heart seldom penetrated by
the business man of the
present day.

But it is not only at church
we should honor our fath-
ers. We should keep him
in mind the entire day. We
should consecrate ourselves
to his welfare and happi-
ness. We should highly re-
solve that each day of his
life shall be one of sunshine
and happiness. It is our
duty to lift the burden from
his shoulders and to smooth
the wrinkles from the fore-
head of a head which has
grown hoary with passing
years.

Do your duty by him while
he yet remains with you. In
a few short years he will
pass away to join millions
of other fathers and moth-
ers resting in the cities of
the nation's dead. Give him
flowers now. They will
sweeten the silent hours of
coming years.

CARDINALS WING WAY TO VICTORY

By HERBERT W. BARKER, Associated Press Sports Writer. The St. Louis Cardinals, champions of 1926 and near-repeaters last season, have winged their way to the top of the National League standings.

Two weeks of better than 300 per cent baseball climaxed by a thrilling 14 inning triumph over Brooklyn yesterday enabled the Cardinals to climb over the Cincinnati Reds and head the parade in John Heydler's circuit for the first time since the first few days of the current campaign.

The Reds, unfortunately for them, picked yesterday to lose to the Phillies and now rate in second place, 15 per cent points back of the leaders.

Jim Bottomley's thirteenth home run of the season, with two on in the 14th, gave Bill McKenzie's clan its 5 to 2 victory over the Dodgers.

The Reds fought hard to avert defeat at Philadelphia but failed by the margin of a single run 3 to 7.

The New York Giants, who were traded by Pittsburgh for Burleigh Grimes, allowed only six hits and two runs and scored three runs.

Boston Braves proceeded to lose their seventh straight game, this time to the Cubs, 5 to 4, without Hornsby.

The New York Yankees, just their 11th contest of the season to St. Louis, 5 to 4, despite Babe Ruth's 24th homer of the year.

The Philadelphia Athletics, who the Yanks led to eight and a half games by pounding out an easy 12 to 5 verdict over the Indians at Cleveland.

Washington made it two in a row over Detroit 5 to 4 in 10 innings.

Danny MacFayden came within two innings of pitching a no-hit game as the Boston Red Sox beat the White Sox at Chicago, 3 to 1.

The Cincinnati Reds, who have a right-handed pitcher from the Braves in trace for Marner, Clarkson and Canwell, pitchers and Spohrer, catcher.

**NEW YORK COTTON**  
New York, June 16.—(AP)—Early declines were followed by moderate rallies in the cotton market today as the prospects for showery weather in the south. Prices eased later under renewed realizing or liquidation and some local selling, with October declining to 20.50, or 19 points net lower.

October closed at 20.52, with the general market closing steady at net declines of 15 to 17 points.

Futures closed steady, 15 to 18 points lower; spot quiet; middling 21.00.

**CHICAGO GRAIN**  
Chicago, June 16.—(AP)—Despite a good rally at one time, wheat prices ranged lower today, largely as a result of suspicious weather in the American and Canadian northwest. Reports of heavy rain in sections of Kansas with a forecast which suggested more, had only a temporary market effect. However, with connections southwest were on the selling side.

Wheat closed unsettled 7-8 to 1-3-8 net lower; corn unchanged to 3-4 up; oats at 1-8 to 1-2 to 5-8 advance, and provisions unchanged to a rise of 10.

**STOCK MARKET**  
New York, June 16.—(AP)—Renewal of selling pressure in today's stock market disclosed the presence of a number of weak spots, particularly among the higher price specialties. Earlier declines of one to nearly seven points were cut down, and in a number of cases, wiped out by the late rally, which was stimulated by the covering operations of "bear" traders.

Inasmuch as the 5-1-2 per cent call money rate carries over the week-end, credit conditions were not much of a factor in today's market. Some difference of opinion exists as to the course of the money market next week, with many bankers inclined to the opinion that call rates will be stiffer, at least temporarily when the income tax and dividend checks return to the banks for payment.

Radio, Wright and DuPont each broke 6 points to new lows on the current reaction, although Radio had regained all its loss in the last hour. International Harvester dropped 6 1-2 points. Case Threshing 4 1-2. American Bank Note 4 and Otis Elevator, Curtiss Aeroplane, American International and International Telephone A sold down 3 to near 5 points. General Motors dipped to 175 5-8, recovered its loss and climbed more than a point higher.

The closing was irregular. Total sales approximated 1,300,000 shares.

**HOOPER TO RETAIN POST AS COMMERCE SECRETARY**  
CURTIS IS CONGRATULATED

(Continued from page one)

Charles Curtis and today he rested at his home here after an enthusiastic celebration of his triumph at the Republican national convention.

Surrounded by his friends, the Kansas Senator last night received the congratulations of thousands on his selection as running mate for Herbert Hoover. It was a welcome such as the sun flower state reserves for illustrious native sons. And it reflected the popularity of the Republican vice-presidential nominee which has known in his many ventures since his aged Kaw grandmother Julie Poppo, turned him from her tepee with the admonition:

"Go back to your white ancestors, my boy."

Accompanied by his son Harry, a Chicago attorney, the Senator arrived by automobile about two hours after he was nominated at Kansas City. As few persons knew of his intention to come directly here there was no reception committee waiting. Those who did know of his plans were busy arranging a celebration at the state capital.

Waving to neighbors, who call him "Charlie," the Senator greeted his sister, Mrs. Rome Colvin, and expressed a desire to go "straight to bed." He did. The home was kept quiet until dinner was served by Mrs. Colvin.

Then the homecoming became more formal. Three patrolmen took up positions in front of the house to handle traffic. As the word went out that "Charlie" was home, most everyone started for the state house via Topeka Boulevard where the Senator lives.

With flag day decorations still in place, Curtis banners were added and the city soon had the appearance of having long waited his arrival.

"My main desire was to go straight to bed," the Senator said in a brief speech at the capitol. "I have not had a night's sleep in the last five days. And I spent those wakeful nights working for the presidential nomination. I was proud to accept the second place on the ticket when it was offered to me unthought."

"I am glad to be on the ticket with that able and experienced man, Herbert Hoover."

Governor Paulen said the Kansas delegation "was proud we made so much impression upon the delegates at the national convention that there was scarcely any opposition to Curtis' nomination for the vice presidency."

The Senator's daughter, Mrs. Leona Curtis Knight, delegate from Rhode Island, who seconded her father's nomination, and his sister, Mrs. Edward Everett Gann, of Washington, D. C., arrived during the reception and cheered with the crowd when Senator Curtis was introduced. Another daughter, Mrs. C. P. George, wife of an army officer at Fort Sill, Okla., also expressed her pleasure over her father's success.

## RED OAK NEWS

The social season in our community opened last Sunday, June 10, when Mrs. Penner L. Allen, nee Miss Ethel Timberlake, gave a barbecue dinner in honor of her 24th birthday. The house was profusely decorated with dahlias, Dorothy Perkins roses and blue hydrangeas.

Out in the front yard under the branches of the old oak trees that have stood for generations, a table was erected. On this table was spread a most bountiful dinner consisting of barbecue, pickles, slaw, ham, fried chicken, sandwiches, cakes, and many other tempting dainties. The centerpiece was a lovely iced cake, with Mrs. Allen's name and age in pink on it. This was baked and given as a surprise to her by Mrs. W. T. Allen, Mr. Jessie Aldridge, of Vanceboro, returned thanks at the table.

Those partaking of the feast were: Mr. and Mrs. James Allen and children, Virginia, James and John Kirby, Mr. and Mrs. W. T. **HUNDREDS OF FAMILIES DRIVEN FROM HOMES BY BREAK OF RIVER LEVEE**

(Continued from page one)

The only loss reported today was to crops.

After the break, Lieutenant L. B. Washburn of the U. S. engineers' office at Memphis, took 200 men and cut a new gap in the dyke a short distance north of Stephens so the pressure on the lower levees would be lessened.

Water through the Stephens' crevasse will cover a considerable portion of the lower part of Eastern Woodruff county. The greatest volume will empty back into the White river near Clarendon, Ark. South of high levee protects the town. Where of the Clarendon the flood will cover thousands of acres subject to overflow.

Another volume of water was sweeping down the Black river close behind the crest of the first rise and will add to the stages of the White in its lower reaches.

Newport, Ark., June 16.—(AP)—Flood water was driving 700 families to "high ground" in two river valleys of eastern Arkansas today, and four villages awaited the coming of a muddy torrent, even as they waited last year.

The signal for evacuation went out through the darkness of White river valley last night when Stevens levee melted at a vulnerable point 10 miles south of Newport. Three hundred men dropped their levee tools and fled the trap formed by the mounting water, spreading a warning as they went.

Previously about 300 families had moved out of danger, and 400 more, alert for danger, joined them in town on high ground throughout the valley. The Red Cross had already taken a hand, and today was organizing its forces to care for the refugees who had not found shelter with relatives and friends in nearby towns and communities.

No apprehension was felt for their safety, but the refugees had before them the facts computed by army engineers, that 600,000 or more acres of their farm land had already disappeared beneath the rising tide, and more was threatened.

Government engineers in charge of Lieut. T. B. Washburn of Memphis dispatched crews to the north of the Stephens break to cut the levee as a doubtful means of lowering pressure. It was soon evident that their gesture had not even checked the immediate flow of water.

The villages of Auverne, Shoffner, Welton and Tupelo were in the path of the flood between the White and Cache, two of east Arkansas' unruly triplets. The third, St. Francis, felt the force of high water along the Arkansas-Missouri line.
