

DRY FORCES GATHER AT ASHEVILLE

Plan Campaign To Bring About Defeat of Gov. Al Smith of New York.

Asheville, July 19.—(AP)—Southern dry Democrats assembled here to formulate plans for the defeat of Governor Al Smith, of New York, Democratic nominee for President, went into executive session this morning to draft a statement of purposes and map out a plan of campaign.

The resolutions committee which was charged with the task of drafting the statement and campaign plans is composed of two representatives from each of the southern states under the chairmanship of Dr. Arthur J. Barton, Baptist leader of Atlanta. Their report this morning was the principle order of business.

Newspaper men were excluded from the group together indicated they wished to meet in private.

Bishop James D. Cannon, Jr., of Richmond, who with Dr. Barton began the movement for the conference during the Democratic national convention at Houston, declined to discuss his plans with the newspapermen.

Coolidge Goes Angling Again On Brule River

Superior, Wis., July 19.—(AP)—Faced with a period of unusual quiet in executive affairs, President Coolidge proposed today to suit his activities to the requirements of the day and preferred the open air to his office.

His canoe was ordered to be ready at an early hour with John Larock, President Coolidge's Indian guide, at hand to pole the craft up the rapids into the wilder stretches of the Brule. His angling rods also had been prepared for a fishing excursion.

Curious to see her husband engaged in the pastime which keeps him away from the lodge many hours every day, Mrs. Coolidge had expressed a desire to follow him today. Her son, John, had offered to paddle for her and a canoe was arranged for them.

President Coolidge is learning to paddle a canoe, although he does no longer take daily lessons from his guide with the enthusiasm that characterized his first days of apprenticeship.

Mr. Coolidge's technique at casting is improving greatly. He noticed this himself from the fact that he no longer derived much pleasure from angling in the pools near the lodge where the fish were plentiful and easily caught. His chief pleasure now comes from trying to hook trout in the swiftly moving waters of the stream with dry flies.

C. & O. WILL SPEND SEVERAL MILLIONS

Richmond, Va., July 19.—(AP)—The board of directors of the Chesapeake & Ohio railway has authorized the expenditure of \$21,144,724 in an improvement program throughout the system, involving additional shops and facilities. President W. J. Harahan announced today.

Every Minute

Every minute fire destroys over \$1,000 worth of property in the United States. Modern methods of building plus fire-safe materials make a structure fire-safe at little or no extra cost. The savings in upkeep, in fuel and insurance are so much velvet. We can help you plan to save your share of the fire loss. See us before building.

Fail in Attempt To Escape From Federal Prison

Atlanta, July 19.—(AP)—Atlanta federal penitentiary was beset from within by two desperate prisoners armed with smuggled weapons last night.

With three other long term convicts, they were in solitary confinement today while a guard was nursing a minor scalp wound, the only casualty of a 30-minute gun battle. An immediate investigation was promised.

A near riot was precipitated during an exercise period in the prison yard about dusk when Roy Gardner and Joe Ubaytis, serving 50-year terms for mail robbery and notorious as "escape artists," were apprehended at the inner hall Guard Capt. Clarence L. Parker and Guard Bunce, who found the pair in the act of climbing an improvised ladder were confronted with drawn revolvers. Bunce was clipped on the head.

Before the remainder of the prisoners knew what had happened the plotters had marched Parker and two other guards who had been drawn to the scene, through the first gate toward freedom. On nearing the second gate they opened fire on tower sentries, using the guards as shields. Baked in this effort, perhaps mainly because Captain Walker threw his keys through the gates rating, they surrendered to a score or so of armed guards.

Meanwhile the prisoners in the yard left unattended set up a fearful clamor. Guards herded them into their cell blocks with difficulty, although none of the several hundred was injured.

Prisoners identified at the office of Warden John W. Snook solely as "Carrigan," Ohio and "Andrews and his son," convicted of mail robbery in New Jersey, were placed in solitary confinement as confederates, although only Gardner and Ubaytis joined in the actual delivery attempt.

Mine Workers Ready to End Wage Dispute

Indianapolis, July 19.—(AP)—District officers of the United Mine Workers of America today were free to negotiate with coal operators on any "mutually satisfactory" basis, provided all agreements be submitted to a district convention or referendum.

Thus one of the basic principles of the union policy in the bituminous coal fields—the uniform wage scale for union miners—was discarded by a decision yesterday of the international policy in an attempt to cope with the depressed conditions of the country.

With the abandonment of the

base wage, the famous Jacksonville agreement, which assured union miners \$7.50 per day and \$1.08 per ton from 1924 to 1927 was dropped as no longer an effective basis for wage negotiations. It was the expiration of this agreement April 1, 1927, which resulted in the present bituminous coal suspension.

It was made plain, however, that pending negotiation of new agreements the Jacksonville scale would prevail.

The new union policy will affect about 150,000 miners in the central competitive field (Western Pennsylvania, Ohio, Indiana and Illinois) and the outlying districts of Missouri, Kansas, Oklahoma, Idaho, Montana, Wyoming and Nevada. Many of the miners in these fields have been idle since the suspension fifteen months ago.

KNIGHTS TEMPLAR TO MEET NEXT AT MINNEAPOLIS

Detroit, July 19.—(AP)—Minneapolis, Minn., today was awarded the 1931 triennial convolve of the grand encampment of Knights Templar of the United States. The next convolve probably will be held the latter part of June, 1931.

ASSASSIN OF GEN. OBREGON ADMITS CRIME

(Continued From Page One) Effective suffrage; no re-election." Various means of making such

succession possible, however, were being discussed in the capital.

These means included the appointing by Congress of a provisional President to assume office on the expiration of Calles' term in December.

It was generally believed that if this plan were followed that Aaron Saenz, former Minister of Foreign Affairs and now governor of Nuevo Leon, would be named provisional President. Saenz was among the foremost of Obregon's supporters

and is a brother-in-law of one of Calles' daughters.

A general election might then be called and Calles offer himself for re-election without violating the clause in the constitution concerning direct succession.

Other suggestions were that a constitutional amendment allowing

Calles to succeed himself in the present emergency might be asked or that the constitutional amendment that extends the presidential term to six years might be interpreted as applying to President Calles, who was elected for a four-year term. This would retain him in office until 1930.

Women Delight in its marvelous handling ease

Offering smartness and distinction never before attained in any low-priced six and reflecting exceptional good taste in appointments and upholstery, the Pontiac Six is a car which invariably wins feminine admiration. And that admiration turns to sheer delight when they leave the back seat and drive the car themselves.

They know the Pontiac Six is a dependable car. And they quickly discover an ease of handling that makes every mile a pleasure. The powerful four-wheel brakes answer the lightest touch. The big motor is smooth, quiet and responsive, and the clutch and transmission are exceptionally easy acting.

Every day you see more and more women at the wheels of Pontiac Sixes—because Pontiac provides, at a price within reach of almost every purse, everything that women demand in a motor car of their own.

Social & Personal

Mrs. Paul Jones of Farmville was here today.

Mrs. Guy C. Taylor and Mrs. Zolie Collins of Kinston, were here yesterday.

Mrs. J. D. Rodgers and Miss Elizabeth Rodgers left today for Cairo, Ga.

Miss Elizabeth Thornton of Dunn is visiting Miss Lois Herring.

Mrs. C. W. Hearne has returned from a visit to relatives in Red Springs.

Mr. and Mrs. C. H. Edwards and Mr. and Mrs. W. P. Moore left today for Virginia Beach.

C. C. Hughes, of Winston-Salem, was here today.

Mr. and Mrs. W. M. Moore spent yesterday in Grimesland.

Mr. and Mrs. J. J. White and little daughter, Josie Barnes, have returned from Virginia Beach.

Mr. and Mrs. W. C. Jones have moved from Charles street to the house formerly occupied by Mr. and Mrs. H. C. Sugg on Ninth street.

Carl Goerch of Washington, was here today enroute to Greensboro to attend the press convention.

Mrs. J. F. Barr and daughter, Eleanor, and Mrs. A. H. Forbes, have returned from a visit in Pinehurst, Raleigh and Durham.

Mr. and Mrs. H. E. Savage, of Asheville, are here for a visit to relatives.

Miss Mary Exum Rose, of Franklin, is the guest of Mr. and Mrs. J. H. Rose.

S. T. Carson, Reid Gaskins, W. C. Braswell and Jack Edwards have returned from Baltimore and Washington.

R. J. Cobb, of Norfolk, was here yesterday.

Farabow-Jones.

Mr. and Mrs. Solomon M. Jones request the honour of your presence at the marriage of their daughter Annie Gertrude to Mr. Sidney Sharp Farabow on Thursday, the second of August at eight o'clock in the evening at the Methodist Episcopal Church Bethel, North Carolina.

Winterville Club.

There will be a special meeting of the Winterville Home Makers Club at the Baptist church at four o'clock. All members and friends are urged to be present. Miss Nice will meet with us.

Mr. Young in Hospital.

Friends here of J. K. Young will be sorry to learn that he is in hospital in Morristown, N. J., for treatment.

REV. JOHN COWELL AT COLLEGE SUNDAY EVENING.

Rev. John C. Cowell, Jr., of Fayetteville, will conduct the Y. W. C. A. services Sunday evening at 7 o'clock. Service will be in time for attending 8 o'clock services in the own churches. There will be special music.

The public is cordially invited to attend this service.

Mr. Wolz III.

Friends of W. L. Wolz will regret to learn that he is ill.

GEORGIA HOME BAND TO GIVE CONCERT HERE.

A band from the Georgia Industrial Home at Macon, Ga., will give concert at East Carolina Teachers college Friday evening, July 20th, 8:30 o'clock. Admission will be free.

INSTALL NEW HYDRANTS IN BUSINESS DISTRICT

Three new hydrants are being installed at the intersection of Evans, Third, Fourth and Fifth streets, taking place of the old style hydrant that has been in use here for a number of years.

The new hydrant has a capacity of three six inch streams, and will afford as much water as the fire department pumper needs.

The old hydrants will be used in other sections of the city.

The larger hydrant, it was stated, greatly increases protection of the business district, insuring greater water pressure in case of fire.

Returns From Tour.

Miss Julia Wingate has returned from a trip to Washington, D. C., Philadelphia, Atlantic City and New York. Miss Wingate won this trip in the Reflector Tour Campaign.

Mrs. J. B. Spillman Gives Endowment as Memorial to Mother

One of the most beautiful tributes ever given a mother was recently paid by Mrs. J. B. Spillman, to the memory of her mother, Mrs. C. A. Haste, near Edenton, Chowan county, who died a few weeks ago. The tribute was in the form of an endowment of one thousand dollars, which Mrs. Spillman gave to the Woman's Missionary Society of the Memorial Baptist church, to be used to carry on the work of missions through the local society. The endowment is to be called the "Fannie Monroe Gift." The interest will be paid to the society each year on "Mother's Day," and the thousand dollars will be paid in full at Mrs. Spillman's death.

In speaking of the gift, Mrs. Spillman said: "The happiness my mother enjoyed in living the Christian life and her willingness to pass into the 'Great Beyond' prompts me to make this gift."

SOCIETY FOLK ACCUSED OF BEING "SNOBBISH"

New York, July 19.—(AP)—Society folk who bathe at the ultra-fashionable Bailey's beach at Newport have been accused of "snobishness" for a reputed bar to members of the theatrical profession.

Dorothy Jordan, opera singer, who is the wife of Captain Harry Oelrichs, nephew of Mrs. William K. Vanderbilt, was so peeved over it all that she summoned reporters to the offices of the actors' equity and gave vent to her feelings.

"The whole thing is snobbish and un-American," she said. "I have just enough Irish in me to give them a swat in the eye."

"I know many actors and actresses who are ladies and gentlemen of the highest type. So-called society people are glad enough to call upon the theatrical profession for aid in giving benefits. And they dance with them in night clubs and cabarets why aren't they good enough to associated with us as social equals?"

Some Golf Shot.

Brookline, Mass.—Lightning does hit in the same place twice. Mrs. Frances W. Capper made a 150-yard hole at the Chestnut Hill Golf Club in one. Forthwith she teed up another ball and did it again.

Noted Astronomer Lectures in City

The lecture at East Carolina Teachers College last evening by the astronomer, Dr. A. M. Harding, was a unique combination of instruction and entertainment. He brought out the spectacular facts of relationship of space and time in showing graphic charts, pictures, maps, and photographs illustrating his points. These were of scientific value, but were used for the purpose of helping the audience see and understand.

His photographs of the sun spots and fringes of light around the sun and his photographs of the moon were especially fine. Interest was added to these by his statement that this is the year for the sun spots, which come every five and a half years. He said that the aurora borealis, seen here recently, was connected with the appearance of the sun spots, and would perhaps be seen time and again this year with other interesting astronomical phenomena.

The planets and the constellations came in for a large share of the lecture and interesting pictures and maps revealed their relative sizes. The photographs of the milky way and of nebulae were especially good.

He told the story of Perseus thus bringing in the myths that gave the names to the constellations in the northern heavens, and explained the naming of the heavenly bodies by the Greeks. He showed charts

that had the fantastical picturing of the mythical creatures with the position of the stars forming the constellations, but made it clear that there was actually no resemblance between the animals and the figures formed by the constellations.

The people in the audience who were familiar with the facts and figures he gave were interested in seeing the photographs and charts and to see the means by which he caught popular attention. Those who were not familiar with the facts caught glimpses of the wonder world above us that could lead them to further interest in a study of the heavenly bodies. They also could gain some familiarity with the more common facts and figures that would enable them to follow casual references to the heavenly bodies in news items. On the whole, it was decidedly worth while.

The next entertainment, in the summer series will be a concert by Martino-Rossi, a baritone, and will be on next Monday evening, July 23. This is one included in the season ticket.

Sun Restores Use of Voice.

New York—Miss Katherine Locke of Youngstown, Ohio, back from Africa, is the first white woman to have visited the Gion of Marakesh in his 3000-year-old home in the Atlas Mountains. She motored across the Sahara and found that the hot sun restored the use of her lost voice.

Values Not "Sales"

Bring Keen Shoppers to This Store

Here Are Seasonable Items That You Can Save On

Holding the Public Good Will

Our opinion is that a Value that is good today will also be good tomorrow and every day.

If an article, for example, is worth \$4.98, that is a just price to sell it for. To reduce the price would be to admit that it was not properly priced in the beginning. We never have two prices for the same article. However, we do continuously keep our prices as low as is consistent with current market conditions and re-placement costs. We never name comparative prices.

Here you receive the same fair consideration every day which means that your Dollar always buys 100 cents' worth—no less, no more! And that 100 cents' worth is measured in the most liberal way possible.

Operating without spasmodic "sales" or other unnecessary price-changing methods, selling for cash only and giving the customer the full benefit of the far-reaching buying power of this countrywide institution, we have found it possible not only to win the good will of the public but to continue to hold it.

THE SOUTH MOVES FORWARD

In its issue of July 12, the Manufacturers Record declares that more and more each day the South is awakening to a realization of its vast resources and that the soundness of the march of progress in this section presages an almost boundless advancement during the coming years.

Pointing out that the eyes of the nation are turning toward the Southland and that the section is destined to become the world's richest spot, the Record says:

"In the whole history of Southern development there was never a period like the present. Many years ago there was considerable activity in the projection of industrial operations in Texas; Alabama became noted for its energy in the development of its iron interests; West Virginia and Virginia in the organization of coal mining companies, and the Carolinas in the building of cotton mills. Here and there other evidences of progress were seen throughout the South, but at no time was the movement general covering the entire South, and at no time until recently were there signs of such diversification of activity covering practically every stage of human affairs, with the capital of the South, which has been rapidly accumulating of recent years, vying with the capital of the North and West which has been pouring so liberally into this section on great constructive enterprises.

"The South is no longer compelled to stand hat in hand begging for the incoming of outside capital. Its own people have been accumulating wealth. They are investing it freely in Southern activities and, as the Manufacturers Record often predicted years ago, the virility of development by the people of the South themselves has stimulated a tremendous interest on the part of capitalists from other sections to take an active part in Southern development. Gigantic enterprises representing individually millions and tens of millions, and in the aggregate many hundreds of millions, are being established in the South all the way from Maryland and Virginia to Texas by many of the foremost business leaders of America.

"Big bridge operations representing an aggregate projected outlay of more than a hundred million dollars are under way. Enormous rayon plants are being built and others are being

projected by many of the nation's foremost business men. Hydro-electric development is going on apace and practically every electric power company—whether operating by water, or by lignite as is being so freely done in Texas—finds the demand for its power growing more rapidly than its supply. All of these companies are constantly put to it to expand their facilities rapidly enough to keep pace with the pressing demand for light and power.

"And so the story runs through the whole trend of Southern life. Everywhere there is optimism, rampant optimism, as to the boundless future of this section. Men of the North and West, commanding hundreds of millions of capital, are turning their attention to the South. The people of the South, stirred to greater optimism and enthusiasm than they have known since the dark days of the Civil War, are showing to the world the metal of which they are made. The movement, widely diversified as to the interests and industries represented, the vastness of their operations and the sound financial forces back of them, all presage an almost boundless advancement thru the coming years.

The South's supremacy in textile manufacturing is no longer questioned by anyone. All doubt on that point has been banished by the logic of things accomplished. The new giant of industries—rayon—is almost startling the business world with the rapidity of its progress, and this whole industry is concentrating on the South. American interests like the du Ponts and other great capitalists are putting many tens of millions into rayon plants in the South, while French, Italian and German interests are duplicating the magnitude of these investments. Existing plants and those under contract represent an aggregate of at least \$100,000,000. Apparently no other section is even being considered for rayon mills.

"As a nitrate fixation center for the country, as a factor of tremendous ever-increasing importance in the iron and steel industry, as a producer of 40 per cent of the world's oil output, having an output of sulphur of our entire production and 85 per cent of the world's supply, as a future source of supply for the nation's potash needs, the South's strategic situation has no parallel in the world.

"According to able chemists and industrial experts the next great industry which is already beginning its Southward trek is the paper business, and the future situs of this industry is unquestionably to be in the South.

"These are but a few of the myriad facts available to show that a mighty industrial revolution, the greatest the nation has ever seen, is under way. From the over-congested centers of population, North and West alike, there is a distinct trend of industry toward the South. The foremost bankers and general business men of America fully realize this situation and recognize that a mighty relocation of industry is now making a start in this direction.

"About forty years ago, Col. A. K. McClure of Philadelphia then one of the

country's most highly esteemed editors and public men, after a study of the South warned his own beloved Pennsylvania and the rest of the country that they did not possess the advantages of the South, and pointing to the certainty of vast developments in this section said to his readers in the North, "we cannot war with destiny," and the destiny of the South he painted in glowing colors. Destiny is now making a nationwide impression as to the present and future of the South."

ABOUT TOWN

"Mexican President-elect Killed by Cartoonist," boldly declared a headline on a North Carolina daily newspaper.

A man read the glaring letters slowly. He read it again, and then again.

"What kind of a faction is a cartoonist?" he asked somebody standing near him. An explanation was offered. Understanding began to dawn in the face of the inquirer. He smiled at his own lack of imagination and walked off down the street, apparently forgetting that such a thing as a president had existed in Mexico.

"That was a merry crowd composing the motorcade from Wilmington today," commented a Greenville business man who was numbered among those who helped welcome the visitors at the court house this afternoon.

"This was the second trip the Wilmington people have made us during the last two years. They visit different parts of the state for the purpose of establishing good will and also to bring to attention of the public the 'Feast of the Pirates', held in that city, annually.

"The attraction last year was one of the most gorgeous spectacles ever staged in this part of the country. It is possible many Greenville people, now spending sometime at Wrightsville Beach, will witness the event again this year.

"Greenville is always glad to extend a cordial welcome to good will delegations. We like to have company and the more they come the better the majority of us like it."

"It is gratifying to note the boys' movement is meeting with success," a Reflector reader told the writer after reading of some of the activities of the city's juvenile element.

"It is very important to provide something to occupy the minds of our youngsters during vacation season. It helps keep them out of mischief, and gives them a chance of developing into strong, healthy men.

"The city league, combined with various swimming activities, has furnished considerable diversion for the boys so far. All of them apparently have derived much pleasure from the experiment and will be ready to continue with it again next season."

"Tobacco barns are going a full blast in many sections of Eastern North Carolina," one of Greenville's traveling men told the writer today.

"The whole countryside is perfumed by the odor of curing tobacco. This is the most delightful aroma in the world to me. It may be because of the golden harvest made possible through the production of the tobacco crop.

"Anyway, when the barns begin activity we know that it will not be long before the markets open and the voice of the auctioneer will be heard on the auction house floors.

"This is the most important industry in this part of the country and the opening of the market is of paramount consideration to every man, woman and child, it matters not what plane of life he may represent."

Best Peach Crops in Years.
Chicago, July 19.—(AP)—Reports from the government bureau of agricultural economics today indicate Georgia, the Carolinas, Washington and California have the best peach crop in years, the movement to market already on a big scale is rapidly increasing and peak shipments of Georgia Elbertas are expected by July 25.

The forecast of total peach production this season has been increased to nearly 65,000,000 bushels, which is 45 per cent more than the 1927 crop.

Rise of Sox Is Cause of Complication

By WILBUR J. CHAPMAN
(Associated Press Sports Writer)
The rise of the Chicago White Sox to a place among the elite has developed complications of a special nature for Professor Russell (Lena) Blackburne. "How to behave when Babe Ruth is at bat," henceforth will be a much more vital question to the ambitious young men of Prof. Blackburne than the conduct expected, say, in helping a lady into a patrol wagon, or other conveyance.

Some doubt regarding the dues of Mr. Ruth could be noticed among the White Sox in the ninth inning at the Lanke stadium yesterday. The Babe swished a bat at Ted Lyons with perfect ease. Two of the Yankees were out. Combs and Koenig were on base, and the White Sox led by 8 to 5. Lena was firm in his refusal to passing the winning run to first base with the result that the Babe combed his 36th homer in the right field bleachers to nose out the Chicagoans by 9 to 8.

The Cleveland Indians broke out of their slump—if losing to the Yankees when they are interested may be construed as a slump—by thumping the Red Sox in 10 innings at Boston, six to five. The Athletics took another from the Tigers in Philadelphia 5 to 1. The other American League teams were idle. The Pirates would be champions of the world if the other fifteen teams wear the Phillies and the Braves. The Buccaneers made it nine straight against this opposition by slamming the Bostonians, 6 to 3 yesterday, as a few terrified witnesses stood by powerless to halt

the brutality. Burleigh Grimes won his 15th victory.
The Reds raised their stock somewhat by taking two decisions from the Robins 11 to 10 and 2 to 1, while other first division teams remained idle.

Years of Service in MODEL T FORDS
Expenditure of few dollars may enable you to get thousands of miles from your old car
THE Model T Ford is still a great car. It led the motor industry for twenty years and it is used today by more people than any other automobile. More than eight million Model T Fords are in active service in city, town and country, and many of them can be driven for two, three and five more years and even longer at very small up-keep expense.
The cost of Model T parts and of necessary labor is unusually low because of established Ford policies.
The labor charge for tuning up the motor is only \$1. This includes replacement of commutator case, brush and vibrator points if necessary. Grinding valves and cleaning carbon runs from \$3 to \$4. Overhauling carburetor, \$1.50. Installing new pistons or connecting rods, \$6. Tightening main bearings, \$6. For a labor charge of \$20 to \$25 you can have the motor and transmission completely overhauled.
The labor charge for replacing rear axle shaft, drive shaft pinion or drive gear is \$5. All sockets and joints of front end can be tightened for \$1.50.
The steering gear can be completely overhauled for a labor charge of \$3.50. Muffler repaired for \$1.
The labor charge for repainting the Coupe is \$25. Sedan, \$25. Touring Car, \$20. Top deck of Coupe or Sedan can be replaced for a labor charge of \$4.
All of these prices are approximate, of course, because the cost of materials needed will depend on the condition of each car. They show, however, the low cost of putting the Model T Ford in shape for thousands of miles of additional service.
See the nearest Ford dealer, therefore, and have him estimate on the cost of reconditioning your Model T Ford. He will tell you, in advance, exactly how much the complete job will cost.

METHODISTS CLIMBING IN CITY LEAGUE

The Sunday school teams made good use of the first day in over a week that they could play ball and squeezed three games into the afternoon.

Methodist 7; Presbyterians 5

In the opener, Hill, for the Presbyterians, was a little wild, and two passes, two hits, by Sawyer and Taylor, and one error, netted three runs in the first inning.

Bases were still full when Dail settled down and finally struck out the last Wildcat batter. He had 7 strike outs, and 6 Methodists fell before the slants of Hill and Johnson.

Methodist 9, Christians 0

Feeling unbeatable after their first victory, the Methodist continued their winning streak at the expense of the Christians, who were the league leaders until today, by a score of 9 to 0.

Score by innings: Christians 000 000 000 043 23-9

Immanuel 8, Presbyterians 6

Eight hits and seven bases on balls gave Immanuel 9 runs against the "Wildcats" with Johnson in the box, while Madrin also allowed the Presbyterians 8 hits and gave 3 passes, for a total of 6 runs.

Paul Hatem had a perfect day at bat, with two doubles and a single as did Hardee, with a two bagger and two singles.

Score by innings: Presbyterians 103 02-6 Immanuel 222 38-9

HE'S READY TO MEET HEENEY

Here is a new portrait of Gene Tunney, world's heavyweight title holder, who will meet Tom Heenev in a championship bout in New York July 26.

Green Noses Out White By Close Score

In a neatly played and enjoyable game yesterday, the Green team, which had not played before, but which had lost a game by forfeit, managed to trail the White 4 to 0 gradually gained back their 4 runs, tied the score in the next to the last inning, and put across the winning tally in the last half of the last inning.

Settle pitched a consistent game, giving but two passes and keeping his head under fire. He had five strikeouts and Dennis seven.

scare to keep the Villians from a ghost of a chance to win, but steady pegging away drew them up a run in an inning, until they put over a run final tally.

Score by innings: Greenvillians 13111-7 White Ghosts 40200-6

Dayton, Ky.—Jack Duffy, Toledo, won from Tommy Crowley, Pittsburgh, (10). Sidney Click, Indianapolis, outpointed Buddy Lee, Cincinnati, (6).

GREENVILLE DROPS GAME TO GOOCHMEN

Lee Gooch's ready bat was mainly responsible for the Fayetteville Highlanders' 6 to 5 victory over Greenville at Fayetteville yesterday afternoon.

With the bases loaded in the first inning, the Highlander manager slammed the old spheroid over left field fence, virtually clinching the game for his teammates.

Greenville, however, took the offensive in the sixth frame and with a total of five hits sent three runners racing across the rubber. They succeeded in adding another in the ninth but this was not sufficient to overcome the run lead which the Highlanders annexed in the seventh.

Allen was sent to the box but retired during the first frame in favor of Joliff who succeeded in holding the heavy hitting Highlanders to a minimum of hits during the remainder of the game.

The box: Greenville Ab. R. H. O. A. E. Crosjean, ss 5 1 2 3 2 0 Daniels, lf 5 2 3 3 0 0 Bailey, lb 5 0 3 7 1 0 Williams, 2b 5 0 2 0 3 0 Crowe, 3b 3 1 0 0 0 0 Wilson, lf 1 0 0 0 0 0 Finlator, rf 2 1 0 3 0 0 Walden, cf 3 0 2 3 0 0 Abbott, c 4 0 1 4 2 0 Allen, p 0 0 0 0 0 0 Joliff, p 3 0 0 1 2 0

BILL TILDEN DROPS OFF DAVIS TEAM

Paris, July 19.—(AP)—William T. Tilden was dropped from the American Davis Cup tennis team today, announced Joseph Wear, chairman of the American Davis Cup committee, because he had violated the amateur rules in writing about the Wimbledon tennis tournament while playing in it.

The announcement was concurred in by Samuel H. Collum, president of the United States Lawn Tennis Association.

Tilden's removal caused a complete change of the American team. William T. Hunter and John Hennessey will represent the United States in the singles and George Lott and Hennessey in the doubles.

Collum said he would decide what to do after he returned. Both recognized that they must continue to act during the cup matches regardless of their feelings.

New York, July 19.—(AP)—Officials of the United States Lawn Tennis Association were busily engaged this morning in drawing up an official statement, for release later in the day, in connection with the disbarment of "Bill" Tilden as a member of the American Davis cup team.

This is too serious a matter to comment upon except officially," he said. "The official statement will be ready early this afternoon."

Fills Frisch's Shoes

Andy High of the St. Louis Cardinals, given a chance to fill Frisch's place at second base when the Fordham Flash was injured, has been playing a stellar game at the keystone sack for the Cards.

GENE TUNNEY HAS HOLIDAY

Speculator, N. Y., July 19.—(AP)—Dangerously near fighting weight, Tunney, who will risk his world's heavyweight title against Tom Heenev, the powerful New Zealand blacksmith, just a week hence, was given a holiday today.

The champion was down to 160 pounds, almost the weight he will carry when he enters the ring against Heenev, and from now on his days of strenuous preparation are few. He will probably work hard tomorrow and again next Monday.

During the next 24 hours Tunney will decide whether he will fly to New York with Commander Richard Byrd, on the day of the titular fight or travel by motor. If he chooses a motor he will stop to visit James J. Corbett, former heavyweight champion at Washington Falls, N. Y.

Tunney was given a vivid picture of air travel yesterday when a party of friends "cracked up" while returning to New York after making a flight here to watch him workout. None was hurt seriously.

Despite the accident, Tunney insisted that he would carry out his plans to fly to New York on the day of the fight. He knew, however, that this plan would be strenuously opposed by Tex Rickard, promoter of the titular contest. The champion was prepared to pass on Rickard's objection to his contemplated flight while resting today.

Another of Tunney's visitors yesterday was Jim Corbett.

Fights Last Night

(By the Associated Press)

Brooklyn—Tod Morgan, Seattle, outpointed Eddie Cannon Ball Martin, New York, (15). Andy Divodi, New York, won from Harry Wallace, New York, foul, (1). Domick Petrone, New York, defeated Al Rube Goldberg, New York, (8). Ernie Ossie, New York, technically knocked out Joe Corbett, New Bedford, Mass., (1).
