MERCHANTS TO PROTEST HIGH FREIGHT RATE

Proposed Increase of N. C. Railroads Would Cost Shippers \$1,000,000 Annually

"The Merchants Association of North Carolina are opposed to any increase of freight rates such as that contained in the revision which the railroads of the state will present to the Corporation Commission at the hearing set for August 2," members of the local association stated this morning.

"The State Association will send a delegation to the capital city to fight an increase which would take over a million dollars annually out of the pockets of shippers and retailers in this state. The revised rate would mean an increase of 20 per cent in shipments and merchants feel like this would be working an additional hardship on them.

"Willard Lowell, executive secretary of the North Carolina Merchants Association, in a statement on the subject made public today, promised to file a vigorous protest to the proposed increase.

In his statement Mr. Lowell had the following to say:

"The North Carolina Corporation Commission has before it a petition of the common rail carriers of the State to revise the intrastate class rates and to cancel the exceptions to the Southern Classification as now shown in the North Carolina Exception Sheet. The case has been set for hearing in Raleigh at 10:30 a. m., August 2.

"What the railroads are really asking is that the Corporation Commission raise the level of the intrastate rates to that of the interstate rates to that of the interstate rates and in addition thereto to cancel exceptions to the Southern Classification which are now applicable to this state.

"The importance of this case can be somewhat visualized when it is stated that if the petition of the carriers is granted, freight rates in North Carolina will be increased approximately 20 per cent and if the North Carolina Exception Sheet to the Southern Classification is cancelled there will be a still further increase in rates of from 10 per cent to 20 per cent, which increases, I am reliably informed will cost the shippers and receivers of the freight in North Carolina more than a million dollars annually.

"The North Carolina Merchants Association feels that this is by far the largest and most important case affecting intrastate freight rates that has been filed in many years and in carrying out one of the principal objects of its organization, namely, "To safeguard the interests of all merchants of North Carolina," it will vigorously oppose the application of the railway companies and will prepare exhibits showing just how the proposed changes will effect merchants in various lines.

Rickard Blames Radio For Loss In N. Y. Fight

New York, July 28.—(AP)—"Come to our show and see Rickard's fight" no longer will be placarded in front of theatres through the length and breadth of the land, according to no less an authority than George Lewis Rickard himself. Nor will private householders be able to gather around a three tube set and hear a blow by blow description from ringside—unless the broadcast companies hit upon some method of "adequately reimbursing" the promoter. Rickard trembles at the very mention of television.

Tex blames the radio for his loss of between \$150,000 and \$250,000 on the Tunney-Heene fight, and will permit no further broadcasts of his events unless the ante is raised. Without revealing the exact nature of his agreement with the national broadcasting company, which paid him \$15,000 for the air rights to the championship battle, the promoter intimated that he could at any moment cut off the broadcasting and added that the question of arriving at an equitable figure was one for the radio industry itself to answer.

Today found both principals vanished from the public view—Tunney to the home of his mother and later to the estate of friends in Connecticut and Heene to a country place in New Jersey.

Boxing experts were agreed that Tunney proved himself a surpassing champion in his defeat of Heene, but many expressed doubt regarding his drawing ability, regardless of his knockout.

Millionaire Lumberman Dead. Minneapolis, Minn., July 28.—(AP)—Thomas Barlow Walker, 88, millionaire lumberman and art collector, died early today.

AMELIA HELPS PILOT HER TRAIN

"Now I feel at home," said Amelia Earhart, first woman to fly across the Atlantic, when she donned overalls and climbed into the locomotive cab to pilot her train from Pittsburgh to Greensburg, Pa.

FOUR KILLED IN COLLISION OF TWO BOATS

Speedboat Crashes into Side-Wheeler Passenger Boat at Holland, Mich.

Holland, Mich., July 28.—(AP)—Four Holland youths were killed and two companions were suffering from injuries today as the result of a collision last night between a speedboat in which they were riding and the Goodrich Line passenger steamer, City of Holland.

The dead are Paul Landwehr, 21, son of A. A. Landwehr, millionaire furniture manufacturer of Holland, John C. Nyström, 14, Earl Van Lente, 18, and Jon Arends, 32, all of Holland.

Robert Mendrano, 24, of New York, and George Lyle, 21, Los Angeles aviator, were injured. Witnesses said the speedboat, piloted by Landwehr, circled the steamer, a side Wheeler type, several times breasting waves left in its wake, when suddenly the steering apparatus failed and the small craft crashed head on into the whirling paddle blades of the City of Holland. The speedboat was crushed beneath the surface and crushed, but Mendrano and Lyle were knocked clear of the boat by the force of the collision. The others were trapped and either killed or drowned.

Boats were lowered from the City of Holland and Mendrano and Lyle rescued. Early today the bodies of the other four had not been recovered.

CONVICT SHOT DOWN WHILE ATTEMPTING ESCAPE

Salt Lake, July 28.—(AP)—Grayson Moses, 19 year old white convict, was shot and killed about 7 o'clock this morning while attempting to escape from a gang working on clearing a road right-of-way near Duquille. He was serving a four month's sentence on the Rowan county chaling gang. Carl Talbort, guard, fired the shot.

Talbort called to Moses to halt and when he failed to do so, shot, he said, to scare the boy. Moses, who was about 170 feet away, was killed.

Moses was sent to the Rowan county jail from Catawba county for auto theft. He had served two weeks. His home is said to be at Valdese, Burke county.

Coroner's jury rendered a verdict that Talbort's action was justified.

Fail to Act On Dodge Merger

Baltimore, July 28.—(AP)—A special meeting of the stockholders of Dodge Brothers, Inc., held here today adjourned until Monday morning without taking any action on the proposed merger with the Chrysler Corporation. The adjournment was moved by a representative of a merger committee after it had been announced that the committee did not have on deposit the 90 per cent of stock necessary for consummation of the merger.

SWEDEN NOT HOSTILE TO ITALIA CREW

Survivors Pass Through Country on Train Without Hostile Demonstration.

Stockholm, Sweden, July 28.—(AP)—Although there have been inquisitive onlookers at every station, the passage of the survivors of the Italia through Sweden has not been attended by any hostile demonstration.

Captain Alberto Maliano, whose leg was amputated after gangrene set in, was not returning with his comrades aboard their special car to Italy today. He was left behind on the base ship Citta Di Milano at Narvik since he was to sail to make the journey home.

A little girl handed General Umberto Nobile a bunch of flowers at the small country station of Vindeby.

The commander of the Italia remarked to a newspaperman later, "Tell your paper there is much bitterness in my heart but I was deeply affected by the magnanimity of this sweet little Swedish girl who in a lovely manner handed me beautiful flowers."

The car of the Italians was coupled to the train so that everyone could pass through it freely and they were not segregated in any manner. They took their meals in the general's dining car.

General Nobile said he did not know whether he would return to Spitzbergen to participate in the search for the six members of the airship crew still missing and for Roald Amundsen and the five men with him. He must first learn the orders of the Italian government.

The Citta Di Milano will stay at Narvik for a week awaiting two new Italian seaplanes before going to Spitzbergen.

COOLIDGE TO RELIEVE HOOVER AT EARLY DATE

Washington, July 28.—(AP)—President Coolidge expects to accept Secretary Hoover's resignation at an early date and to relieve him of all Cabinet duties. The chief executive rapidly is narrowing down available candidates for Commerce Secretary and hopes to announce an appointment soon.

Secretary Hoover was charged by President Coolidge to look into certain matters pertaining to the commerce department while on the Pacific coast. It was indicated that Mr. Hoover had about completed his task and that Mr. Coolidge therefore left the time had approached to leave the presidential nominee free to occupy himself exclusively to his campaign.

HELD ON CHARGE OF CRIMINAL OPERATION

Asheville, July 28.—(AP)—Mrs. Connie Lawrence, 27, of West Asheville, was in a hospital here today in a serious condition, and Mrs. Maude McCall was free under bail of \$2,500, charged with having performed a criminal operation on Mrs. Lawrence. Tom West, also of Asheville, was being held in default of \$2,500 bond charged with having promoted and paid \$10,000 for the operation.

POLICE READY TO DEAL WITH STRIKE ISSUE

New Bedford Strikers Prepare for Parade as Police try to Prevent Violence.

New Bedford, Mass., July 28.—(AP)—An augmented police force was hopeful today that the biggest threat to the peace of this city since 28,000 textile operatives walked out 15 weeks ago might pass quietly but was ready to deal in summary fashion with untoward developments.

Strikers prepared a petition bearing 5,000 names to Mayor Charles S. Ashley seeking a permit to parade. Some of the strikers said they would parade this afternoon whether the permit was granted or not.

The New Bedford Textile Council warned its members against any part in the demonstration arranged by the so-called "radical" textile workers' union.

New Bedford's 300 city police were augmented by 150 police from other cities and numerous deputy sheriffs and reserve officers.

The 75 men sent from Boston were a picked force comprising many members of that city's riot squad.

A possibility that state police might enter the scene was averted, in a conference at the state house in Boston between Gov. Alvan T. Fuller and former U. S. Senator William M. Butler, who has long been connected with textile interests here.

The heavy emergency forces were thought to foreshadow refusal of a permit by the mayor. A ten per cent wage reduction precipitated walk-out 16 weeks ago.

BIG BAG FORCED TO LAND IN VIRGINIA

Williamsburg, Va., July 28.—(AP)—A microphone lecturer and movie camera men did not stop their work when the non-rigid ship TC-10 was forced to land near here yesterday afternoon when the lowly verticle fixed surface buckled and threw out the rudder. No one was injured.

The description of historic points in Williamsburg, however, was changed to a description of the forced landing as ships were made in the bag to let out gas and effect a landing. The big ship came down in a cornfield and was moved about 50 yards across the field before the gas escaped.

REFUSES TO HEAD DURHAM ANTI-SMITHS

Dr. R. L. Flowers, of Duke University, Declines Chairmanship of Organization.

Durham, July 28.—(AP)—Dr. R. L. Flowers, vice-president and secretary of Duke University, has refused to accept the chairmanship of the Durham County Anti-Smith Democratic Club to which he was elected at the organization meeting held early this week.

In announcing his declination last night, Dr. Flowers branded as false any statement that the university "had gone into politics." He said he intended to vote for Hoover but "Duke University is no more responsible for what I say tonight than the University of North Carolina is responsible for what Lathrop Morehead will have to say."

Morehead, a Chapel Hill alumnus, declined he could "no longer follow blindly whomever the Democratic party chooses to put in the nation's highest office," and was going to do all in his power to aid in defeating Governor Smith, but would support the state Democratic ticket.

Morehead said John Crouch would continue acting head of the anti-Smith club which, he added, would align itself with the Anti-Saloon League and with Bishop Cannon's movement.

The statement that the movement was growing "by leaps and bounds" came from acting chairman Crouch. It announced that Lawyer J. Rainey, local pastor, would go into Chatham county in an effort to organize a similar club among the Democrats of that neighborhood. The Rev. C. A. Upchurch, superintendent of the North Carolina Anti-Saloon League addressed the meeting here, attended by about 50 persons.

DR. HAMMOND MISSING AT RED SPRINGS

Absence of Flora MacDonald Professor Causes Apprehension to Friends.

Red Springs, July 28.—(AP)—Missing nearly two weeks, Dr. H. C. Hammond, acting president of Flora MacDonald College, is being sought by friends, who expressed apprehension for his well being.

Dr. Hammond, vice president and teacher of Bible, has been in charge of the college during the absence of the president, Dr. C. G. Vardell, now on sick leave at Blowing Rock. At first the disappearance of the teacher caused no alarm. But as the days have passed his friends became worried, and yesterday turned to Robeson county authorities for assistance in making a search.

In his home, a letter was found marked "In case of accident," which gave the names of persons he wished notified in case of his death.

Dr. Hammond was described as about 60 years old, slender and erect, in carriage, weight 139; his height is five feet seven inches. He is supposed to have driven away in his four cylinder Buick automobile of an old model.

Dr. Hammond was last seen here on the night of July 16 when he registered for supper at a local hotel. He had an engagement for July 19, with Harvey White of Graham, but failed to keep it. Sunday he was to preach for the Rev. J. B. Black in the local Presbyterian church. The minister did not know of Dr. Hammond's absence and no services were held when the latter failed to arrive.

The persons named in the "In case of accident" letter, and all known relatives of the missing teacher have been communicated with and nothing of his whereabouts learned. A telegram was sent Monday with request that it be mailed to his summer home near Clayton, Ga., and relatives are on their way there now to make a search of the house. The nearest relatives are a sister, Mrs. A. H. Ruth, Shelbyville, Tenn., and a brother-in-law, George C. Rogers, of Atlanta.

Dr. Hammond came to Flora MacDonald College about five years ago from South Carolina. He lived alone here after his wife died two years ago.

Flora MacDonald College is a Scotch Presbyterian institution and is maintained largely by the clan McNeil, who form the larger part of the population of this community. There was no summer session.

College officials were at a loss to explain Dr. Hammond's disappearance. His nearest relatives, they understood, are a brother-in-law, George Rogers, of Atlanta, and a sister, Mrs. E. H. Ruth, of Shelbyville, Tenn. In the note he left in his home, he asked that these people be notified "in case of accident." The note also left instructions about where his will might be found.

REFUSES TO PAY ALIMONY AND REMAINS IN JAIL

Billows, Cal., July 28.—(AP)—Samuel W. Reid, who has been called northern California's "alimony martyr," today began his fourth year in jail for refusal to pay his wife the sum ordered by the court after she had been granted a divorce.

Reid exhibited the same degree of defiance that he did when he committed to jail. He refused to pay alimony until his minor child has been given into the custody of someone other than his former wife.

Eruptive Volcano Spreads Terror in Manila Territory

Manila, July 28.—(AP)—Western Albany province was held in a grip of terror today as the volcano Mayon began a new rampage, shooting tons of lava hundreds of feet into the air, while the entire countryside shook and rumbled in a series of earthquakes.

Swayed by superstition and fear of the volcano, many of the natives fled at the beginning of the phenomenon. A few hours later, as the flow of lava showed no signs of abating and the earthquakes and rumblings continued, the few persons remaining in the town of Libog, near the foot of the mountain, fled to safety.

This was said to be the worst eruption of Mayon since 1900 when the crater was particularly violent. A new crater was opened about 500 feet from the summit of the mountain this morning. When the first discharge of molten lava struck the earth at the base of the mountain it splashed about half a kilometer.

SMITH BEGINS WEEK-END OF QUIET TODAY

After Conference with Ritchie, New York Governor Dismisses Politics for Play.

New York, July 28.—(AP)—Thoughts of the White House took second place to a desire for rest in the mind of Governor Smith today. Keyed up by words of encouragement from the Governor of a border state—Ritchie of Maryland—Smith dismissed politics from his mind for a week-end vacation at Hampton Bays, on Long Island.

The Governor of New York met the Governor of Maryland here last night.

Although nothing was given out to the public regarding their conversation, no one doubted that they were in complete harmony as to the lines on which the Democratic Presidential campaign should be conducted.

Particularly on prohibition, the two Governors are of about the same mind. Ritchie, like Smith has been assailed for his views. He has emphasized states' rights.

Shortly after the arrival of Governor Smith, with his family, from Albany late yesterday, Ritchie, called on the Democratic Presidential nominee at his suite in the Baltimore hotel. With him was Howard Bruce, Democratic national committeeman from Maryland. Both had dinner with the New York Governor.

Both Ritchie and Bruce returned to Maryland on the midnight train. They were highly optimistic as to Smith's chances in November.

Smith came to New York yesterday in time to confer with Ritchie, but too late in the day to see James M. Cox, former Governor of Ohio and the Democratic nominee in 1920, who like the Maryland Governor thinks the situation, from the Democratic standpoint is shaping up in fine fashion.

Gilbert Sold To Brooklyn

Atlanta, July 28.—(AP)—Walter Gilbert, Atlanta third baseman, today was sold to Brooklyn of the National League and Jay Partridge second baseman, was purchased by the Braves from the Cardinals.

The players will report to their clubs immediately.

Commits Suicide

Mobile, Ala., July 28.—(AP)—Dargan Ledyard, widely known Mobile business man and head of a brokerage firm here, committed suicide at his home early today, following a recent operation, was given as the cause.

TUNNEY MAY RETIRE FROM FISTIC RING

World's Champion Fighter to Make Important Announcement Next Week.

Greenwich, Conn., July 28.—(AP)—Gene Tunney, who successfully defended his heavyweight title against Tom Heene at the Yankee stadium in New York Thursday night, will make announcement "of the greatest importance" next week, according to Sam F. Pryor, Jr., one of the champion's closest friends.

Although Tunney is undoubtedly staying at his friend's home, Pryor declared today that the champion preferred to remain in seclusion until he makes his announcement. He intimated that Tunney's announcement will be to the effect that he has retired from the ring and will not again defend the title which he won from Jack Dempsey on September 23, 1926, at Philadelphia.

Pryor said the champion was fully aware of the rumors and reports that he could retire and leave the heavyweight title open, and that his announcement will answer these reports.

The champion recently purchased a farmhouse and several acres of land in Stamford and will take occupancy when alterations are completed. It is reported that he will open a gymnasium there for training boxers and will give his personal attention to it.

Tunney's immediate plans call for a tour of Europe with Thornton Wilder, the novelist, after which he will probably go south for the winter, and then return to his Stamford Place which he intends to make his permanent home.

Tabs Bootleggers

Harry Niles, fingerprint expert of Portland, Ore., has been assigned to the federal prohibition enforcement department to take charge of a new system of fingerprinting liquor law violators.

SUCCESSORS TO SIMMONS ON INCREASE

Party Leaders Wait Developments For Democratic Committee Appointment.

Raleigh, July 28.—(AP)—The list of potential successors to Senator F. M. Simmons on the Democratic national executive committee continued to grow today as party leaders awaited developments.

The names of R. A. Doughton, commissioner of revenue, J. Q. Gilkey, of Marion, one of the original Smith supporters, and Senator-Elect S. C. Brawley, of Durham, were added to the list of possible choices for the post. Josephus Daniels, Cameron Morrison, Governor McLean and Josiah W. Bailey had been previously mentioned.

Meantime Senator Simmons maintained the silence which he has broken since the nomination of Governor Smith only by his unexplained resignation from the national committee. Which was forwarded this week to Chairman John J. Raskob. After the latter had called upon the Senator to designate a state financial chairman.

The senator, who assumed leadership of the pre-convention fight against the New York governor has said his reasons for resigning should be obvious and he did not care to complicate the situation by making any statement at this time.

Odus M. Mull, state chairman, said yesterday he had written Senator Simmons asking that the veteran Democratic leader fix a time for a conference. The senator had said he intended to confer with the state chairman, and would issue a statement thereafter.

Mull let it be known that he was receiving a great number of suggestions regarding the proper course to be taken in the situation caused by the vacancy on the national committee. Some of his advisors have suggested that the state committee be called together to nominate a successor to Senator Simmons, but Governor McLean, who is on vacation in Wisconsin, is reported as being opposed to this procedure on the ground that it might cause dissension.

Hope that there would be no contest was expressed by former Governor Morrison.

"I think the position should be filled promptly, but I hope there will be no contest about it," he said. "If my party really wants me, I shall accept but I have never sought those positions and am not doing so now."

Say Calles Will Retire Dec. 1st

Mexico City, July 28.—(AP)—Intimate friends of President Calles say that he told them he will retire from the Presidency on December 1.

It appeared probable today that efforts would be made in some quarters to induce him to change his mind. Should these fail, it was thought that Governor Aaron Saez of the state of Nueva Leon, would succeed to the Presidency to which the late General Alvaro Obregon was elected.

There had been some doubt as to whether the proposal that Calles be named provisional President for a two-year term until an election could be held would be legal. The decision of President Calles not to succeed himself served further to clear the political atmosphere.

The so-called Obregon amendments to the constitution will be the principal business of the special session. These amendments are expected to reduce further the influence of the Labor party, to which the Obregonistas are opposed.

FIVE CONVICTS SHOOT WAY OUT OF TEXAS JAIL

Sergeant Killed and Two Others Injured On Houston Prison Farm.

Houston, Texas, July 28.—(AP)—Though pursued throughout the night by 35 bloodhounds and 100 armed men, the five convicts who shot their way out of the imperial state prison farm near Richmond, late yesterday, were still at large this morning in the swamps and cane brakes along the Brazos river, 20 miles south of here.

Eight convicts, who had been cultivating cotton, joined the break, killing Henry Ward, prison sergeant in charge of blood hounds. One was captured shortly afterward near the farm, while two were later taken following a running gun fight with officers, in which two deputies were wounded, one perhaps fatally. Both the latter convicts were wounded.

Tom Davis, Richmond deputy, was shot through one lung with buckshot charge from a shot gun while Frank T. Bell, also of Richmond was wounded in the shoulder.

The break began when the convicts pulled Jim Jeeter, their guard, off his horse and disarmed him. Jeeter was ordered to remount and flee for his life, but when he did, R. H. Tucker, a convict, who was later recaptured, fired a charge of buckshot at him, according to prison officials.

A few of the shot gazed Jeeter's arm, but he escaped and spread the alarm. Ward, who was guarding nearby, galloped to Jeeter's aid, and was killed by a buckshot charge. A coroner's inquest revealed the officer had been shot through the neck with a revolver after he fell from his horse.

Taking Ward's horse and guns, the men fled across the farm and into adjacent marsh and underbrush.

The party divided, and four of the men commandeered a passing automobile, 8 miles away, continuing toward Richmond. Just outside the town, they were met by Davis, Bell and another deputy.

Using the driver and occupants of the commandeered car as a shield the convicts pretended surrender, and then fired on the officers, who were outlined in the headlights of two cars.

The officers returned the fire, and two convicts, one shot through the shoulder, the other through the wrist, surrendered, while their mates fled across a field.

Prison officials said the convicts still at large, who had divided into two parties, included Fred Burkett, serving ten years and Johnny Collins, serving two years.

R. B. Carter, serving 99 years and Alvin Ireland serving 20 years were announced as the two convicts wounded and captured.

G. O. P. Approval Of Tariff Issue Assured Today

Washington, July 28.—(AP)—Republican approval of a revision of the tariff act by the 71st Congress seemed assured today with an announcement by Senator Smoot, of Utah, chairman of the senate finance committee, in favor of such a move.

Senator Smoot was chairman of the platform committee at the Republican national convention and speaks with some authority for his party but he took pains to say that he has not discussed the question with Herbert Hoover.

Smoot declared principally for revision of the tariff rates on farm products. He wants increased duties, believing the agricultural import problem has grown beyond the present tariff act even with its flexible provision permitting the President to make 50 per cent increase in duties.

"That will go far to solve the farm problem," Smoot declared. "Last year we imported more than \$2,500,000,000 in food stuffs, there is your farm problem."

However, if tariff revision is taken up, Smoot said he would favor a complete overhauling of the present act and believed some reductions would be in order.

MOVIE PRODUCER IN BREACH OF PROMISE SUIT

Los Angeles, July 28.—(AP)—Charles H. Christie, motion picture producer, was accused of "seduction, breach of promise to marry, and breach of promise to employ," in a suit for \$1,847,500 damages filed by Alys Murrell, film actress, here today.

Seeing Red. Huntington, W. Va., (AP)—Fire department trucks will be distinguished on Huntington streets as night by one red and one white headlight.

HOOVER OFF ON JOURNEY TO OREGON

Republican Presidential Nominee to Make Motor Journey Through the West.

Stanford, University, Cal., July 26.—(AP)—His home coming celebration over in San Francisco, Palo Alto and intermediate towns, Herbert Hoover today turned his face northwards for a five day motor and railway journey that will take him to Oregon.

On the journey, set to start almost with the dawn, his son, Allan, his secretary, George Akerson, Assistant United States Attorney William J. Donovan, and thirteen of the newspaper correspondents and the photographers who accompanied him cross the continent from Washington, were prepared to go along.

From Palo Alto the route lay to San Francisco and across the San Francisco Bay by ferry, and northward through Sausalito Valley and Petaluma country, and on into the red wood district to Bull Flat, on the Bull Creek near the El River, where camp will be made for the night after a run of 290 miles. Resuming the trip early Sunday morning, the party will pass through Eureka, a great lumber shipping center and the largest seaport between San Francisco and Portland Oregon.

A short distance north of this city, the party will get the first sight of the Pacific on the trip, and then the route will skirt the ocean for 50 miles to Crescent City, where the turn inland will be made. In mid-afternoon the cavalcade will

INTERIOR SECRETARY TAKES OATH

Roy O. West, new secretary of the Interior, taking the oath of office before W. B. Acker, chief clerk of the department. Secretary West succeeds Dr. Hubert Work, who resigned to become chairman of the republican national committee.

REPUBLICANS WAITING IN THE SOUTHLAND

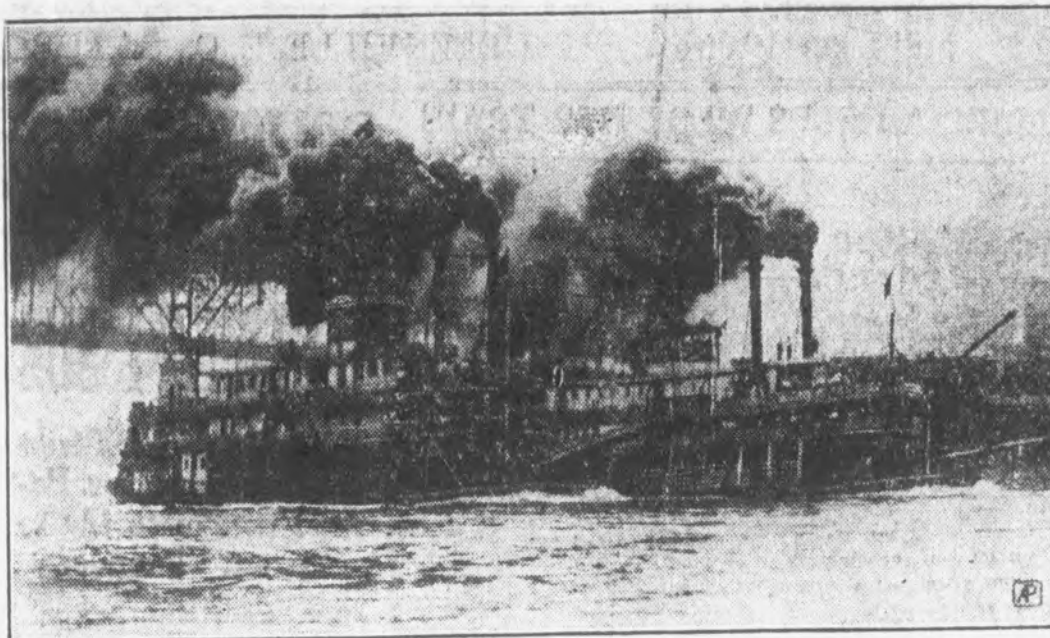

Washington, July 28.—(AP)—Republicans are pursuing a watchful waiting policy in the south and are watching pretty closely.

Party leaders of North Carolina were called into conference yesterday by Chairman Work of the national committee who is going thoroughly over the southern situation. Charles A. Jonas, Republican committeeman for North Carolina, reported on the outlook for Herbert Hoover.

Brownlow Jackson, chairman of the Republican state committee, and Stuart W. Cramer, Charlotte textile manufacturer, accompanied Jonas, and it was the view of the North Carolinians that the national party would not make a drive in the south, leaving the work to its representatives there.

Rooster Hatches a Family.
Lake City, Fla., (AP)—Everybody including father, works in Mrs. W. F. Flemming's poultry house. Her bantam rooster sat for a week alongside a setting hen. Mrs. Flemming gave him six eggs and he has hatched a family of four and is caring for his special flock.

STEAMBOATS RACE FOR OHIO RIVER TITLE

Memories of other days were brought back when two rival Ohio river packets, the Chris Greene of Cincinnati and the Betsy Ann of Pittsburgh, raced from Cincinnati to New Richmond, Ohio, for the title of queen of the river. The Chris Greene (right) won over the 20-mile course in two hours and a half.

FINDING OF SKELETON RESULTS IN ARREST

Dahlonga, Ga., July 28.—(AP)—Discovery of a human skeleton buried on his farm, following disappearance about a year ago of George Walden, a tenant, led to the arrest of Ab Smith, Lumpkin county farmer.

When Walden, a youth of 18 years dropped out of sight, Smith reported the boy had never returned from a fishing trip. Recently, officers said, they were told by the farmer that he had heard from Walden in South Carolina.

Two men working in Smith's fields on last Thursday uncovered the skeleton which lay in a shallow grave. Officers are investigating whether any identification may be made. Meanwhile Smith is held in jail where he is being questioned.

Now on display!

The news is out! The whole thrilling story of the Silver Anniversary Buick awaits you at our Buick showroom! And it is news that is completely revising the motor car ideals of America!

New Masterpiece Bodies by Fisher more brilliant and beautiful than any heretofore known—a tremendous increase in power in what was already the most powerful automobile engine of its size—new elements of speed, pick-up and acceleration far beyond any previous standard... these are high-light features of a car so new, so advanced and so epochal that it is winning universal recognition as the great car of the world.

Visit our Buick showroom. See the Silver Anniversary Buick—today!

Social & Personal

Charles Thomas Munford, 3rd, of New York, is visiting his grandparents, Mr. and Mrs. C. T. Munford. Mrs. A. M. Hill of Darlington, S. C., is the guest of Mr. and Mrs. Leon R. Meadows.

Mrs. C. M. Warren and children returned today from a visit in Tarboro.

Mr. and Mrs. Whitley Rawl, of Greenville, S. C., are the guests of Mr. and Mrs. E. E. Rawl.

Mrs. George Powell and little daughters are spending some time at Nagahend.

Mr. and Mrs. C. A. White and children are visiting relatives in Beaufort.

Mr. and Mrs. H. A. White, Mr. and Mrs. W. W. Lee and children, Miss Dorothy White and Miss Mary Bell Minnetree are spending the week-end in Morehead.

Mr. and Mrs. E. B. Allsbrook and Mrs. Jennie Ives left this morning for Minnesota Beach.

Mr. and Mrs. W. C. Jones and children left today for a visit in Rosboro.

Mr. and Mrs. Leo Burks and children have returned from Owensboro, Ky., where they have been for the past few months. They are making their home with Mrs. S. B. Underwood on East Eighth street.

Mr. Burks will leave Monday for Waycross, Ga., to be on the tobacco market.

Mr. and Mrs. A. J. Rock are spending some time with their sister, Mrs. J. N. Tingle on Summit street.

Jack Froelich, of High Point, is here for the week-end.

Mrs. Moore and son, Raymond, of Mount Holly are the guests of her sister, Mrs. C. H. Edwards.

Walter Pender and Preston Pender, of Johnson, S. C., spent Thursday with Mr. and Mrs. A. J. Moore.

Mrs. William Winslow and little daughter, of Goldsboro, are visiting Mrs. W. M. McDonald.

M. R. Harris has purchased a home in College View and is moving in today.

Tillett-Parker. Marshallville, July 28.—On Thursday morning, July 28th, Miss Anne Parker was married to Mr. Wilbur Fisk Tillett of Greenville, N. C., at the home of the bride's father in Lanes Creek township. The ceremony was performed by the bride's pastor, Rev. M. D. L. Preslar in the presence of the immediate family. The bride wore a modish outfit of dark blue, with tan accessories and a corsage of roses and lilies of the valley. Immediately after the ceremony the couple left for a motor trip. They will be at home in Greenville after the first of September.

Mrs. Tillett is the daughter of Mr. B. F. Parker, one of Union county's most substantial citizens. She was educated at the North Carolina College for Women and has been a most successful teacher in the state. During the past year she taught in the Thomassville graded schools and prior to that time she taught in Marshallville, Greenville and other towns in eastern North Carolina.

Mr. Tillett is a son of the late Mr. James W. Tillett of Durham. He is a graduate of Duke University and is head-buyer of the American Tobacco Company in Greenville. Both Mr. and Mrs. Tillett have many friends throughout the state who will be interested in the announcement of their marriage.

NOT WHAT YOU EARN but what you save is what counts. There is little satisfaction in working from year to year without having anything to show for your efforts.

Nobody can expect to continue at the highest earning ability throughout a lifetime. There is sure to come a time when earning power diminishes from natural causes, and even before that time, sickness, accident or a turn of fortune may destroy much of one's earning power.

The average young man believes always that there is plenty of time to start saving. He little realizes the earning power of money multiplied by years. He does not appreciate the power of habits formed early in life and their resistance to change in later years.

If you have earned ten thousand dollars in a year and spent it all you are exactly where you started but if you have earned only one thousand dollars and saved two hundred you are ahead of where you were a year ago.

Start today and save the Building and Loan way. Books for our 51st series are now open. Come in today and take shares to the limit. Home Building & Loan Association, phone 49. Est. 1906.

MRS. WARREN ENTERTAINS BRIDGE CLUB

At her home on West Fourth street, yesterday afternoon, Mrs. B. S. Warren entertained at an enjoyable meeting of her bridge club. Garden flowers were used for decorations. Sandwiches and Coca Cola were served on arrival.

High score was made by Mrs. R. E. Martin, who was presented with a jar of candy.

At the conclusion of a number of games, the hostess served a delicious ice course.

Several guests were present.

Paris Adds To Museum. Paris, (AP)—The seventeenth century Hotel de Lauzun has been bought by the city for \$100,000 to give the Carnavalet Museum more space.

Alumnae Give Annual Minstrel.

The Alumnae Association of East Carolina Teachers College gave its annual minstrel last night in the college auditorium. It was well attended and very much enjoyed by all. One of the outstanding features of the program was the Kazoo-Jazz orchestra. Many of the black faces among the actresses displayed real talent in their roles.

"THE ANYBODY FAMILY" TO BE PRESENTED SUNDAY

The Senior League of Jarvis Memorial M. E. Church will give a play at 7:15 Sunday evening in the Sunday School Auditorium of the church. The public is cordially invited to be present.

The play, "The Anybody Family On Sunday Morning," is especially appropriate for young people and church work.

The cast is as follows:

Mr. Anybody.....Sammy Carson
Mrs. Anybody.....Julia Woodard
Mallicent, age 18.....Carlyle Corey
Gwendolyn, age 15.....Louise Curry
Robert, age 12.....Frank Lowe, Jr.
Jane, age 9.....Martha Scoville
Willie, age 6.....John Johnston

First Open Air Services Sunday At Court House

Rev. R. J. Bamber, pastor of the Eighth Street Church of Christ, will deliver the sermon at the first of a series of open air services to be held on the court house lawn tomorrow evening. The services will extend through the month of August and prominent members of the clergy will speak each Sunday evening.

While Mr. Bamber had not given out his subject today, it was stated that he would discuss a problem of more than passing interest to the church-going people of the community. All of the sermons will be particularly strong and forceful and everybody is urged to turn out in large numbers.

The hour of service is eight o'clock. It was stated today.

DEVILS DEVOUR BLUEBIRDS.

League Leaders Lose Their First Game.

The Red Devils, who at our last appearance were in last place in the Patriotic League, are again locked in a triple tie with the Green and White teams as a result of a win over the leading Bluebirds. This was a close contest for three innings, after which it became rather one-sided, a fact all the more remarkable since the Birds had previously won every game in the series.

Starting off in big league style, each team cut down the first three batters by snappy infield play. In the second, Ed Wells survived on an error, and came in while Dail and Sawyer were dying at first, before Lautares popped to Summerill to end the inning. Blue tied the score in their half, Summerill gaining first on an error and scoring on Warren's hit. Summerill began his own undoing in the next by passing Thomas and George Clark. A hard hit grounder gave Wells a base, and Blue settled down to get the next two men. Dail singled, scoring two men, and making three runs for the Devils.

Blue substituted Seago for Summerill, and later, after the smoke of battle had cleared away, Bamber took up the hurling burden. This is the first time Blue has been forced to resort to relief hurlers. In the last two innings, the Red batsmen ran their score up to a total of 12. A valiant effort on the part of the Blues to preserve their record of wins brought in five runs in the fourth. Williams and Swartz lived on errors, Andrews on a pass and Seago on an error. Summerill, after being passed, got caught off second for the first out Sawyer threw Bamber out. Warren singled and scored on after Seaville was hit. Total, five runs. Another rally in the last frame was nipped in the bud, leaving the final score 12 to 4.

Red and Green will play off their tie on Monday and Blue and White clash on next Tuesday. The league season is about half over now and becomes closer with each game. Every team has yet a reasonably good chance to emerge champions.

PATRIOTIC LEAGUE.

Standing of the Clubs.

Club	W.	L.	Pct.

Hoist Truck To Fire. Bridgeport, Conn. (AP)—When firemen had difficulty fighting a blaze on the third floor of a garage here, a fire engine was placed on an elevator and taken to the fire, which was then quickly extinguished.

Ends Sleuthing Career. London, (AP)—The Nemesis of the Troughs has retired from Scotland Yard. He is William Rixon, divisional detective inspector, who won the title through his 26-year record as a member of the celebrated police force.

Beardless Barber. Portland, Me. (AP)—Tony Bruni is only 14, but he has been a barber for a year and a half. He took up the trade after school hours.

Three Expeditions To Antarctic Give Airplane Its Severest Test

By JOHN L. COOLEY

(Associated Press Science Editor)

(c) 1928, The Associated Press.

New York (AP)—Down to the dead land that towers above the bottom of the world three bands of explorers sail in the next few months to pit the airplane against the defenses of nature's most formidable stronghold—Antarctica.

Whether aircraft that can carry men across the oceans, across the Arctic wastes, even to the north pole, will surmount the barriers of gale and storm, ice and mountain, that have kept the south polar continent a land of mystery will soon be determined by Com. Richard E. Byrd, Capt. Sir Hubert Wilkins, Com. Douglas George Jeffery, Royal Navy, retired, and their respective parties. Aviators have great faith in the modern plane, but they know that this task is the hardest ever assigned to it. The Antarctic weather is the worst in the world.

The Byrd expedition starts on its \$500,000 venture about the middle of August. Most of the 55 men and virtually all of the elaborate equipment will travel to Dundee, New Zealand, aboard the barkentine Samson, although the commander himself plans to leave a month later. From New Zealand the explorers will steam across the southern ocean to the Bay of Whales, a threshold to Antarctica on the Ross Sea ice barrier, there to establish the base of operations. They hope to reach this point by January 1, summertime in the Antarctic.

The Wilkins expedition, smaller than Byrd's, plans to leave a California port in October, proceeding first to Panama, where it will board a whaler for the long voyage to the Ross Sea, where it, too, will start work. A whaling vessel will bring the little party north when its work is over.

Jeffery a veteran of the last Shackleton expedition to Antarctica, sails south from New York in September, expecting to return in May. He is chartering a ship.

Something more than a spirit of adventure, more than a desire to give the airplane another strenuous workout, is sending these pioneers into the most inhospitable region on the globe. The vast south polar continent, nearly as large as the United States and the mainland of Canada together, is the last great geographical challenge to science. Buried under a colossal ice-cap, it has given only fragmentary interviews to the geologist, meteorologist, oceanographer, paleontologist, biologist and the other biographers of the planet Earth.

Now, however, science is taking to the air, and given good luck its representatives with the forthcoming expeditions should see and learn more about the Antarctic in a few days than the men of sledging days saw and learned in years.

The persistent efforts of explorers since the time of the famous Captain Cook have gleaned such scant information about this frozen land that even today sections of its outline must be drawn by guess. Parts of the coast and their immediate hinterlands have been explored

rather thoroughly and have yielded valuable data, but the narrow stretches of the far interior seen by Amundsen, Scott and Shackleton are the only recorded glimpses of the continent's heart.

Three Antarctica lies, surrounded and covered by ice—a huge white dome with the South Pole near its center, perched on a plateau nearly two miles high, and the remainder of its 5,000,000 square miles tapering to the Atlantic, Pacific and Indian oceans.

The ice-cap is believed to extend down to the sea at nearly all points. It terminates generally in towering, unscalable ice cliffs from which break huge bergs, covering the oceans with white mountains and closely packed ice that hold ships at bay.

Parts of the east are more accessible than others, and it is from two such points that the three expeditions purpose to operate. A glance at the map shows two great indentations or gulfs—one, Ross Sea, opposite New Zealand, the other, Weddell Sea, across from South America.

The Byrd and Wilkins parties plan to launch their aerial assaults on the interior from Ross Sea, or rather from the ice barrier that chokes more than half of that ocean arm. It was from this barrier that Amundsen and Scott started on their trips to the pole. Jeffery expects to attack from the shore of the Weddell Sea, and will therefore be across the continent from the other two leaders.

The three zones of flight, as mapped in advance, will hardly overlap, if at all. Byrd plans to fly eastward over what is called King Edward VII Land; in addition, he will attempt a flight to the South Pole, which Amundsen and Scott reached after laborious sledge journeys.

Sir Hubert proposes an eastward flight along the unmapped, unseen coast between Ross Sea and Graham's Land, the western boundary of Weddell Sea. He does not contemplate a hope to the pole.

Jeffery's effort will start from a base on the west coast of Graham's Land. He plans to do his exploring eastward to Coat's Land, which lies on the other side of Weddell Sea. He may also try a trip to the pole and across the continent to Ross Sea.

Resents Liberty With Hero. Paris, (AP)—A Napoleon who gets married after the campaign in Italy instead of before is shown as a general before he is a captain and is made to rip up history instead of kingdoms, has caused Abel Gance, producer of the original film of Napoleon, to bring lawsuit against the American corporation to whom he sold his film. The French court has ruled the film must be shown in its original form or as modified by the author.

Oldest Bishop Active. Jackson, Tenn. (AP)—Bishop Isaac Lane, 95, of the Colored Methodist church, claims to be the oldest bishop of any denomination. Once a slave, he still addresses his congregation regularly.

SIR GEORGE WILKINS

COM. RICHARD E. BYRD

COM. DOUGLAS GEORGE JEFFERY

Archbishop Resigns

Saddened by rejection of the revised alternative prayer book, the Most Rev. Randall Thomas Davidson, Archbishop of Canterbury, has resigned as head of Church of England.

HAGEN GOING STRONG IN CANADIAN OPEN

Reeddale Golf Club, Toronto, Ont., July 28.—(AP)—Playing marvelous golf in an effort to maintain his lead in the Canadian open golf championship, Walter Hagen, British open titleholder, stroked the first nine holes of the third 18-hole round this afternoon in 33, three under par. With this start, it was generally conceded he would finish in 67 or 68, and carry a formidable lead into the final 18-hole round late this afternoon.

Scared c' Dors.

Washington.—A Sandino follower prefers to lose his pants rather than take a chance on being bitten by a lying devil dog. Advances from Nicaragua are that a dozen rebels hung up a dozen pairs of pants to dry. A marine aviation patrol came along. The rebels fled, leaving the pants flapping in the breeze.

New Music Plan.

New York, July 28.—(AP)—A plan for adapting canned music to any photoplay, reducing orchestra costs has been booming various stocks, and leading to reports of mergers under way.

Boys and Girls

Are especially invited to take shares in our new series.

They will find here the spirit of courtesy and will learn something about the handling of money.

Boys and Girls will be men and women of tomorrow—what the world will be in the future depends on the boys and girls of today.

The habit of thrift will do more to build character and lay the foundations of success than any other single habit.

Come in boys and girls and learn about our thrift plans.

Books for our 51st series are now open.

Thorough chilling gives fruits—and drinks—new flavor, new deliciousness

GENERAL ELECTRIC Refrigerator

Just an ordinary grapefruit, after a brief stay in a General Electric Refrigerator, becomes a real treat! Just a simple salad has a festive air when it is chilled to the proper point of crispness! In fact, ordinary meals assume somewhat the nature of a function when thorough chilling has given food new flavor.

And the convenience of having a General Electric Refrigerator! No cleaning out of clogged drainpipes.

Just a quiet machine with all its moving parts enclosed in one hermetically sealed steel casing. It doesn't even need oiling. This is the refrigerator for the home of today.... and for the future.

The range of models and prices is wide. Come in. Make close comparisons between these refrigerators and all others. Your interest will be welcome, your questions will gladly be answered.

Time payments can be arranged if desired.

It has been suggested that if some folks would spend as much time practicing their religion as they do now quarreling about it, there would soon be little quarreling.

Maybe the reason some kids get lost nowadays is because they can't reach their mother's skirts to hold on to them.

Tunney drew \$266 per second for fighting Heeney. Just think how extravagant these birds are who will waste their energy fighting over politics.

On the statement of a Republican paper that the Democratic Party must be judged by its past performances rather than its promises, we are wondering how the Republican Party can hope for victory in November if it is to be guaged by a similar standard.

THE BOLTERS

Robert L. Owen, Democratic Senator from Oklahoma until 1925, says that he will support Hoover for President. The veteran Senator Simmons of North Carolina, who opposed the nomination of Gov. Smith, resigns as a member of the Democratic National Committee, for reasons not stated but easily inferred. On the other hand, Democratic headquarters boast of the conversion of the Republicans Raskob and Woodin as spelling a shift of business leaders to the New York Governor.

We welcome the frankness of these men, and applaud their independence. There is nothing sacred in a party label. If any Democrat feels that Mr. Hoover should be made President it is his political duty to do what he can by argument and example to further that action. If any Republican feels that the Governor of New York should be elected he is in honor bound to do what he can to aid the Democratic candidate. Open action is far preferable to campaigning by whispers and innuendo. And, whether Democrats or Republicans, the bolters will have plenty of good company in this most complex of contests.

Because it is a complex and unusual campaign any attempt to read the result from the lists of conspicuous bolters will be more than usually vain. The election will be decided by something close to 40,000,000 voters; how many of these are changing sides we shall not know, and then only approximately, when the votes are counted—N. Y. World.

ABOUT TOWN

"Well, we dropped four straights in a row," laconically remarked one of the readers of this column today. "Next week we ought to get a new start in life and see if we can't win four straights in a row."
"Lots of people will laugh when we make this assertion, but it isn't laughing matter."
"To be real honest, we ought to be winning some of these old ball games. The first thing we know we will be so far in the cellar it will be impossible for us to crawl out in time to reach the top of the standing of clubs column before the ending of the season."
"Therefore the advisability of our boosting the boys on to victory even though it looks like they can't do anything but lose."
"Try the experiment and let's see how it will work out."

"Is business always good in Greenville," a traveling salesman from another city asked a representative of this paper yesterday.

He was informed that it was most of the time, especially during the fall and winter months.

"I believe it," he declared. "I have been coming here for the last two years and I do not remember a single time my orders were not large—in fact, larger and more regular than any town of similar size in Eastern North Carolina."

We took a good squint at the fellow. We knew we lived in one of the best towns to be found anywhere on the globe, but somehow we didn't think business held up all the year around. We gave expression to the thought. Our friend shook his head in a depreciatory manner.

"Your business men seem to be on the alert all of the time. They may be pressed hard financially at times but, one would never know it by the way they settle the bills."
"You have a good town, old man and my advice to any person hunting a good place to live is, go to Greenville."

"What's the score?" a woman asked of the crowd of sport fans gathered in front of the Reflector office Thursday evening to get returns on the Tunney-Heeney fight.

The crowd of masculines turned around to the automobile that came to a halt in the middle of Evans street and looked at the comely-looking woman sitting at the wheel.

Several mouths flew open at one time to give the desired information but for some inexplicable reason no sound emanated therefrom.

They at first thought they knew what the lady was talking about, but she got her sports terms so terribly jumbled they weren't sure whether she was questioning about the ball game between Greenville and Wilmington or the big fight which had been in progress in New York City only a few minutes.

Finally one of the masculines, more bold and fearless than the remainder, stepped up to the side of the car and said, "Tunney seems to be leading."

Evidently satisfied, the lady stepped on the gas and soon the big car passed out of the traffic jam occasioned by her unexpected stop among hundreds of people gathered along the sidewalks and in the streets to hear details of the greatest fistic encounter of the season.

Not many people heard the lady ask the question. And not many heard the reply. But we happened to be one of those standing nearby and really enjoyed the timid way the interrogation was presented to the men and the courteous, almost deferential manner in which it was answered.

"We like to see things of this kind. It shows men haven't lost all of the old time Southern chivalry, even though members of the opposite sex make a mistake in their sports terms."

Our advice to the ladies is, get your sports designations straight and then ask all the questions you like. If you don't get the proper answers stop all the traffic in town until you do.

The juvenile element around Greenville were terribly wrought up over Tunney's victory over the barrel chested Tom Heeney Thursday night. Numbers of youngsters, ranging in age from five to ninety, gathered in front of the Reflector office and watched the progress of the fight with more genuine interest than has been exhibited in any fight the past year.

One of the eight years old became so deliciously enthused when Tunney finally delivered the knockout blow that he shouted at a crowd of his little friends, standing across the street directly under the voice of the megaphone man. "What in tarnation did he knock Heeney out?"

The youngsters laughed uproariously and in spasms at the use of a baseball term for the ending of a prize fight.

"What in tarnation, you say?—the eleventh!" and with this they laughed so loud that the voice of the ballgame man was drowned and he took his head back in the office disgusted at the vociferous reception accorded a mistaken young American.

STUDENTS BELIEVED LOST IN NORTH

Trappers and mounted police have been asked to search for a party of four Iowa college students believed lost without sufficient supplies in northern Saskatchewan. The party had started a canoe journey from Winnipeg to the Hudson Bay country. Gordon Armstrong (left) and Max J. Kane were members of party.

Negro Killed In Affray.
Greenville, S. C., July 28.—(AP)—Henry Harris, an aged negro, was killed and Carmell Lester, a younger negro, was seriously wounded in a shooting affray at a revival meeting at the Reedy River Baptist church near here last night. Lad and Otis Davis, brothers, are in the county jail charged with the shooting.

The shooting started, witnesses said, when someone threw a rock into the Davis brothers' automobile and they retaliated with bullets. Harris was killed, it was said, when he tried to get his son, who was in the line of fire, out of danger.

Asheville Man Killed.
Asheville, July 28.—(AP)—Farnum B. Brown, 20, died in a hospital here last night as the result of injuries received July 7 when his motorcycle hit a telephone pole. Both legs were broken in the accident. The youth came here from Florence, S. C.

Weather Outlook For Next Week.
Weather outlook for the week beginning Monday: South Atlantic and East Gulf States: Frequent afternoon thundershowers in Florida and along the East Gulf coast, and mostly fair elsewhere except for a period of showers about Thursday or Friday, temperature near normal.

STATE FIREMEN TO MEET ON AUGUST 6th

New Bern, July 28.—New Bern firemen are making extensive plans for the 41st annual state firemen's convention and tournament here during the week of August 6 to be the best in the history of the organization. Over 1500 firemen are expected from the 125 member towns.

Prizes aggregating \$1500 will be offered to the winners in the annual truck and reel races to be held here Thursday, Aug. 9. Prizes of \$1000 in cash, a gold cup and four silver cups will be given in the motor boat races August 10 and 11, as closing features of the convention.

Outboard motor races will be held Friday and free for all boat races will be staged Saturday on Trent river at the country club. They will be held under the auspices of the American Power Boat Association and promises to be outstanding racing events of the south for the year.

Entries will come from a wide territory between Miami and Detroit.

PREFERS SHIP DECK TO EVERYTHING ELSE

New York, July 28.—(AP)—Captain Robert Dollar, who has just completed his sixth trip around the world, prefers the deck of one of his steamships or the ground whereon to keep his feet.

He has never ridden in an airplane, doesn't intend to and has the seaman's contempt for aviators who get lost on trans-Atlantic and other flights.

"What would think of one of my ship captains if he came blundering into port and started asking where he was?" the 85-year-old Pacific coast shipping magnate asked. "If they (the trans-Atlantic aviators) start from Nova Scotia they are as apt as not to land in Philadelphia."

He believes, however, that regular trans-Atlantic routes will eventually be established.

Hurt In Plane Wreck.

Washington, July 28.—(AP)—Charles E. Robbins, Assistant Secretary of War, suffered the fracture

of two ribs and a broken collar bone today in an airplane accident during a flight from Columbus, Ohio, toward Washington. The plane landed at Somerset, Pa., where Colonel Robbins was placed in a hospital.

High Jumper Is Beauty.

Amsterdam.—Uncle Sam seems to have lost in the Olympic already in one respect. His neighbor, the lady of the snow, has the fairest daughter at the games. Ethel Catherwood, Canadian high jumper, is photographed more than anybody else.

Drills Dry Hole.

New York, July 28.—(AP)—Harry Sinclair encountered Tex Rickard at the recent cauliflower show which proved more red than golden. Harry asked how come there was a deficit. "I just drilled a dry hole, Harry," explained the promoter.

Eastman To Put On Show.

Rochester, N. Y., July 28.—(AP)—Many prominent folks have been invited to a show which George Eastman will put on Monday to demonstrate some motion picture process. Some forecasts are that it is films in color.

Washoe Valley, Nev., (AP)—Mil-

dred Cliff, 11, lacked the \$3 to attend the Nevada junior farm bureau camp here. She arranged with Katherine Lewers, University of Nevada art teacher, to dig angelforms for the latter's prize ducks at five cents a dozen. When the camp opened she had the money.

QUALITY AT LOW COST

THE sensational popularity of the Bigger and Better Chevrolet is due in great measure to the fact that it is the biggest automobile in the world available at such low prices.

It is built on a wheelbase of 107 inches—and on this longer wheelbase Fisher craftsmen have designed bodies of marvelous beauty with wide, deep-cushioned seats . . . ample head and leg room . . . and generous seating capacity.

Translated into terms of comfort, safety and utility—this additional size is of vital significance in the low-price field. For it means that the buyer of a low-price car can now secure the balance and roadability that only a longer wheelbase can provide—plus the restful comfort of ample room for both driver and passengers.

Come in for a demonstration—and bring the family along. See for yourself what a difference the Bigger and Better Chevrolet provides in seating and riding comfort.

AMERICA IS ALL SET FOR BIG OLYMPIC

By ALAN J. GOULD,
Associated Press Sports Editor.

Amsterdam Stadium, Amsterdam, July 28.—(AP)—With flags flying in cool breezes under overcast skies and forty thousand spectators jamming the great elliptical amphitheater, the ninth Olympiad was formally opened this afternoon in a spectacular ceremony.

Just as a naval signal man wigwagged the opening command, the sun broke through for a few brief minutes to make a sparkling picture as a chorus of twelve hundred sang the Dutch national anthem from a location across the field from the official tribune.

Rain throughout most of the morning did not prevent Amsterdam from turning out en masse with the result that the stadium gates were closed a half hour before the ceremony started at 2 o'clock. Thousands were turned away in a last minute crush which caught many late arriving Americans unprepared.

Amsterdam, Holland, July 28.—(AP)—What is likely to be the most spectacular battle for world's athletic honors any Olympic ever has witnessed starts tomorrow when 2,500 stars from 47 nations meet in the first five events of the week's championship track and field program.

Once again it is America against the world. Uncle Sam's agile youths are equipped for the big battle despite a succession of training difficulties and are once more favorites but facing the stoniest combined threat their supremacy ever had.

Four years ago it was the Finns and the Britons who upset Yankee prestige especially on the track. The opposition is doubly strengthened this time for Germany is returning to the Olympic fold for the first time since 1912 and France has the most conspicuous set of title contenders she has had in many a moon.

In the running events in which record-breaking prospects depend entirely upon the condition of the much-maligned stadium track, the United States is better equipped than in any Olympiad since the war. Especially are her hopes high in the middle distances. In the field events, where the texture of the cinders has no effect, there looms a Herculean battle of brawn and skill with the Americans pressed harder than ever, even in their pet events such as the shotput and the hammer.

Rival speed, brawn and skill will figure in tomorrow's opening events which include the shotput and high jump finals as well as the 400 meter hurdles, 800 meter run and 100 meter dash, the starting classic of the Olympics.

America ought at least to split even in the two field events for the quartet of Yankee jumpers led by the Olympic champion, Harold Osborn, of the Illinois A. C., and the Stanford stalwart, Bob King, appear to be the class of the field. In the shotput, America has four men capable of record performance, to pit against the German ace, Emil Hirschfeld, whose world's mark of 51 feet, 9 5/8 inches has just been put on the record books.

John Kuck, of the Los Angeles A. C., has been showing the best form among the Americans with Herman Brix, University of Washington star, next best, but the Stanford pair of Eric Krenz and Herlow Rothert are capable of rising to winning heights in a pinch.

The Germans are banking heavily on the giant Hirschfeld who in a final practice session showed the sixteen-pound ball the astounding distance of 52 feet, one inch, under conditions which he will likely encounter during actual Olympic competition. The Teuton figures the long waits between puts, probably as much as 45 minutes, will mean churning up of the circle so yesterday he worked out on a soft surface, covering his feet with sand before putting the shot.

Two other German-American tests promise to feature the opening day, the first giving the initial comparison to be among rival sprint kings and the second exhibiting the 800 meter form of Lloyd Hahn, the Boston A. A. "Express," and Dr. Otto Peltzer, former record holder, not forgetting the capabilities of Douglas Lowe, British holder of the Olympic title, and Seraphin Martin, French star, who set a new world's record for the distance a fortnight ago.

The German sprint forces suffered a last minute blow by the elimination of Dr. Friedrich Wichmann, who pulled a tendon, but the Teutons still have a pair of speed merchants in Richard Cortis and Hubert Houben to pit against the quartet of flying Americans, Frank Wykoff, Bob McAllister, Henry Russell and Claude Bracey. Some of them are likely to meet before the day's second trials are completed, but the real tests in the semi-finals and finals are scheduled for Monday.

The result of the final American workouts have established Wykoff and Russell as the principal American hopes. McAllister, who is expected to surprise than he did in pushing Wykoff to the limit in the American final at Cambridge but fears are expressed that he has worked too hard. Bracey apparently has failed in an attempt to regain his best spring condition. The first joint tests for Hahn and

IN FINE FORM FOR OLYMPIC SWIM

Eleanor Garratti, San Raphael, Cal., swimmer, has shown speed in workouts at Haarlem, Holland, where the American Olympic swimming teams are in training.

Fights Last Night

Chicago—Babe Ruth, Louisville, Ky., defeated Henry Lenard, Chicago, (10).

San Francisco—Billy Defoe, St. Paul, and Billy Burke, San Francisco, drew (8).

Denver—Lou Scozza, Buffalo, defeated Max Rosenblum, New York (10).

San Francisco—Santiago Zorrilla, Pannama, defeated Bud Taylor, Terre Haute, Ind. (10).

Tampa, Fla.—Sid Terris, Chapel Hill, N. C., knocked out Rufing Alvarez, Spain (7). Mike Pizzo, Tampa, knocked out Kid Bombero, Tampa, (4). Jack Kirten, Cades, S. C., knocked out Big Boy Earle, Lakeland, Fla. (2).

Peltzer since the American defeat of the German indoors at New York during the winter brings together a pair whose conditioning has been one of the most interesting chapters of Olympic history now in the making. Both have trained apart from the pack, applying special methods according to their own formulae, Hahn under the over-watchful eye of Jack Ryder, Boston A. C. coach, and Peltzer on his own.

But there the similarity ends. Hahn's workouts have been over varying routes but all evidencing his remarkable speed and stamina. They've been open and above board these workouts of Hahn's while Peltzer's training has been accompanied by the utmost secrecy. Ever since the Teuton injured his ankle in field sports two months ago, his condition and ability to regain his record breaking form of 1926 have been doubtful even in the German camp where he has been regarded as the big enigma.

SIMMONS IS HITTING HARD IN AMERICAN

Chicago, July 28.—(AP)—"Goose" Goslin, the Washington outfielder who can hit but not throw, is finding his hitting leadership in the American league in a precarious position. At least that is what the figures released today and including games of Wednesday showed.

The reason that Goslin's leadership is in danger is because Al Simmons, a member of Connie Mack's famous aggregation of old timers and youngsters has started to hit. During the week Simmons played in eight games and collected 14 hits to boost his average from .369 to .378, only 14 points less than the average of the Mighty Goslin, who slipped a few points.

But Simmons is not alone in his drive on Goslin's honors. Lou Gehrig of the Yankees has been steadily climbing and is now only two points behind the Athletic outfielder.

Following Goslin, Simmons and Gehrig among the regulars were Manush, St. Louis, .354; Lazzeri, New York, .348; E. Miller, Philadelphia, .347; Myer, Boston, .336; Cobb, Philadelphia, .331; E. Rice, Washington, .325 and Fonseca, Cleveland, .325.

In accord with Simmons rise in the individual hitting column the Athletics have moved within striking distance of the New York Yankees in team batting. Only five points separate the league leaders, the runner-up the Yankees having an average of .362, three points less than last week.

Unable to lay claim to much of anything else in the league the Boston Red Sox are tied for top honors with St. Louis in team fielding. Both the Browns and Red Sox are playing defensive ball with an average of .975. In contrast the Yankees again dropped to a tie for sixth place. Six points below the leaders.

Alvin Crowder of St. Louis who a week ago held the leadership among the moundmen, now ranks second. Hoyt of the Yankees has won one more game. Hoyt's record is 12 and 2 while Crowder has dropped a like number and won 11.

In stolen bases, Johnny Mostil of the Chicago White Sox has an advantage of one over Myer of Boston and Rice of Detroit with his record.

Pointers Divide With Patriots

(By The Associated Press)

The Pointers, recently elevated to leadership in the Piedmont League, gained their margin by avoiding a double bill with the Colonials yesterday, while the Patriots, deposited leaders, dropped their game to the Twins.

The Pointers clinched the initial game of the bill 10 to 6, without incident, and the Colonials came back with a rush to swamp their opponents, 13 to 10, in the night-cap.

The Twins' winning run was pushed over in the ninth when Reinholz beat out an infield hit to shortstop with two men out and the bases loaded. The so-called 4 to 3. Both teams hammered the pill at a terrific pace, the Twins getting 16 blows and the Patriots 12.

Another defeat for the Bulls sank this aggregation further into the cellar. The Raleigh Caps bunched hits in the eighth and were able to score five runs for a 8 to 3 margin in score after the Bulls had secured and held an early advantage. Monty Weaver was pitching a steady game until this fatal stanza when Dennis connected with an infield hit that bounded over Taylor to score the tying run.

BUCS BLANK ABBOTTMEN

The Buccaneers took charge of the Tobaccoists at Rocky Mount yesterday afternoon and when the dust of battle had cleared away the score stood, Bucs, 8; Greens, 0.

According to old heads who have seen many good teams play all brands of baseball, the Bucs turned the affair into a regular field day and ran bases until their legs gave out and absolutely refused to be subjected to further activity.

Buchanan, a new face in the ranks of the Greenville pitching staff, started out like wildfire, but the Bucs not on his delivery in the third stanza and sent three runners racing over the rubber.

To relieve this situation, Manager Tommy Abbott called in another of his recent hurling acquisitions, who succeeded in changing the tide of battle for a couple of innings. The Buccaneers, however, wouldn't be stopped, and in the sixth frame sent two more fleet-footed runners around the circuit. Three more crossed the rubber in the seventh, giving them a lead which the visitors at no time threatened to overcome.

Davis pitched airtight ball for the Bucs, and while the Tobaccoists touched him for seven bingles they were so well scattered that they failed to net anything in the way of scores.

The fielding feature of the day was Red Brandes' catch of Tommy Abbott's line drive to short. The entire Bucs infield is credited with spectacular work.

Brandes, with a double and two singles to his credit, was easily the outstanding star of the day.

Goldsboro Takes Two From Kinston

(By The Associated Press)

Jimmy Teague's Goldbugs "strutted their stuff" yesterday and took both games of a double bill from the Eagles here by their ability to hit in pinches and later to hit anything offered. The opening game went to Goldsboro 5 to 4, and the nightcap, 14 to 1. With the wins they leaped forward to regain prestige in the percentage column.

The Pirates clinched their sixth straight game, defeating the Highlanders, 3 to 1. McKay, youthful southpaw, held Fayetteville helplessly for seven innings. In the 9th the Highlanders filled the bases with only one out but McKay arose

HORNSBY IS STILL UP TO OLD TRICKS

New York, July 28.—(AP)—Rogers Hornsby took advantage of pitching which suited his fancy in the week ending Wednesday, and boosted his batting average to .397 while Paul Waner, the runner-up, was slipping back to .368, lessening the tension which grew when the Rajah skidded the elder Waner climbed a bit in the previous week. The figures are based on averages released today and including games of last Wednesday.

Hornsby now seems well on the way to his seventh batting championship of the National League. The same averages show Larry Benton of New York, setting a burning pace for the pitchers with 16 victories and four defeats for a mark of .800. Red Lucas, Cincinnati, is in second place, as usual, this time with ten victories and three defeats for .789. A veteran in the National League, Artie Nehf has bored his way into the championship pitching circle with 9 victories and three defeats and a percentage of .750.

Nehf's record includes the Chicago victory over New York in fifteen innings last Saturday. Nehf pitched thirteen innings and obviously deserved whatever credit any Chicago pitcher had coming to him. Fortunately under the National League scoring instructions, the official scorer was able to give the game to Nehf.

Carl Mays of Cincinnati, with a percentage of .800, nominally is tied with Benton for pitching lead, but the blonde submarine expert has won only four and lost one, classing him among the irregulars.

Burleigh Grimes of Pittsburgh, leads the hurlers in shutouts, he has four.

St. Louis players are numerous among the various individual leaders, but Del Bissontette of Brooklyn, has regained the runs batted in title from Jim Bottomley. Del, third ranking man in home runs with 18, has driven 82 runs home.

Cardinal stars at the top include Taylor Douthett in total hits, 132; Frank Frisch in stolen bases, 16; and Bottomley in three specialties: runs scored, 85; doubles, 32; and triples 13. In addition to holding these honors Sunny James remains second in home runs to Hack Wilson, who tops the league with 23. Bottomley has 21.

The individual batters following Hornsby and Waner are: Grantham, Pittsburgh, .358; Bottomley, St. Louis, .355; Slater, Boston, .354; Lindstrom, New York, .348; Roetger, St. Louis, .341; Douthett, St. Louis, .338; Scott, Pittsburgh, .333; and Frisch, St. Louis, .332.

Team batting finds the Pirates skipping merrily along in front with 308 but the Cards are clubbing a dangerous .296 and are rising. The Giants are third, with .284, one point more than the Reds can show. The Cubs lead in team fielding with .974. Cincinnati and St. Louis are tied for second, each having .973. The Reds double play total now has reached 121.

Asheville Beats Macon at Last

Asheville fans are breathing easier now for they have found out that the jinx Macon has exerted over their leading baseball team is not a permanent thing. Ten straight victories for the Peaches over the Tourists had threatened to make a real race of the South Atlantic Association pennant chase and it is exactly that condition now with a three game lead separating Asheville from the Georgians.

Cy Moore toiled for seven innings yesterday like he was intent on making it even straight for the Goodmen but weakened in the last two frames and the Skylanders did all their scoring to win by a four to three count.

Columbia won a double header from Knoxville, six to two and four to two. The Smokes made seven errors in the two games and these coupled with timely hitting were responsible for the Comer victories.

Augusta hitters had their eyes in the first game of a twin bill at Greenville and made 17 hits good for a 10 to 8 verdict but the Spinners came back on the nightcap to even the count made seven to nothing.

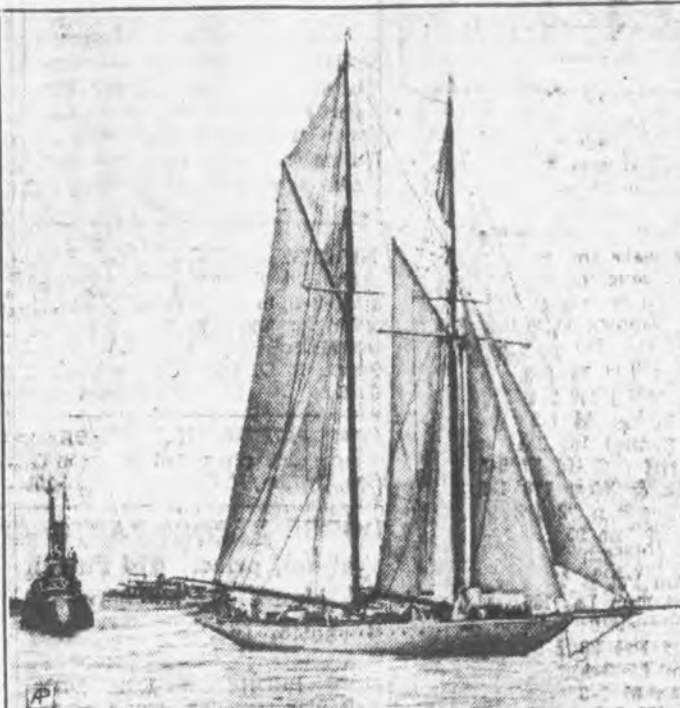

Rhinehart hit two homers in the second battle. Waiter Hunter, of Charlotte, connected for his third and fourth circuit blow of the last two games when Charlotte beat Spartanburg 7 to 3. Novak and Jones poked long ones for the losers.

Jumping Daps Over. San Francisco. (AP)—The petrified skeleton of a frog which may have done its jumping in the Eocene period was found at a depth of 355 feet by workmen sinking a shaft in the construction of San Francisco's aqueduct system.

to the occasion and struck out Benedict and Saunders. Schofield robbed the Highlanders of two hits by sensational catches.

Buchanan and Fergus were gently touched by Rocky Mount for 11 at-bats to score 8 runs while the Greenties secured but seven safeties and found themselves unable to push over a run. Three double plays added to the drive of the Bucs, lessening the chances of the visitors to score.

ELENA WINS YACHT RACE TO SPAIN

The schooner yacht Elena, owned by William B. Bell of New York, won the King's cup given by Alfonso XIII of Spain, finishing first in the trans-Atlantic race for class A boats from New York to Santander, Spain, in 16 days.

French Withdraw From Parade At Olympic Opening

Amsterdam Stadium, July 28.—(AP)—International controversy growing out of a French official being punched by a Dutch Olympic Stadium gatekeeper, fell like a bombshell in the midst of the spectacular olympic opening this afternoon.

The entire French delegation withdrew from the opening parade and failed to take the Olympic oath, the situation reaching diplomatic proportions when Franz Reichel, secretary of the French Olympic committee, told the Associated Press he would consult the French ambassador on whether to compete in the games.

The steadfast Dutch contention that "it's all due to the bad weather" was not supported by Reichel's formal statement of difficulties involving use of the stadium by the French team.

The French delegation withdrew from the opening parade and failed to take the Olympic oath, the situation reaching diplomatic proportions when Franz Reichel, secretary of the French Olympic committee, told the Associated Press he would consult the French ambassador on whether to compete in the games.

Market Report

Cotton--Stocks--Grain

COTTON MARKET.

New York, July 28.—(AP)—The cotton market closed steady today after a 5 to 6 points decline in early dealings, prices rallied 22 to 26 points.

Prospects for more favorable weather in the eastern belt appeared to be partly offset by rains in the eastern portion of the south-western belt. October contracts down to 20.71 and December to 20.52 and rallied 5 to 6 points from Liverpool. Private cables from Liverpool reported London and Continental liquidation, owing to the threatened lockout at Lancashire with some trade calling. Cloth and yarn business was restricted.

Futures closed barely steady; four to seven points higher. Spot steady; middling 21.10.

	High	Low	Close	P. C.
Jan. 20.44	20.69	20.43	20.63	20.52
Mar. 20.40	20.62	20.40	20.57	20.49
May 20.31	20.56	20.31	20.46	20.40
Oct. 20.73	20.95	20.71	20.87	20.81
Dec. 20.54	20.76	20.52	20.69	20.62

GRAIN MARKET.

Chicago, July 28.—(AP)—Corn values gathered strength today right from the outset, and finished at the day's top-most point. The bulk of today's receipts of corn here were applied either on old sales or on July contracts, and thus failed to depress the cash market. Wheat prices averaged lower most of the time today, but finished at an advance owing to sympathy with the late strength displayed by corn.

Corn closed firm, 7-8c to 1-3-4c net higher, wheat unchanged to 1-3-4c up, oats 1-4c to 1-8c off, and provisions varying from 7c decline to a rise of 5c.

STOCK MARKET.

New York, July 28.—(AP)—A further substantial recovery in prices took place in today's stock market. Buying orders were distributed over a fairly broad list, but centered largely in the high-priced industrial specialties, motors, farm implements, steel and public utilities.

The gains ran from 1 to 6 points. Bullish enthusiasm was created by the relative ease of call money in the face of approaching month-end settlements, and the fact that the market had definitely broken out of the narrow trading area within which it had been moving, on the upside. Favorable earnings reports and the optimistic tenor of the weekly mercantile reviews also helped to stimulate buying.

Montgomery-Ward regained its old position as a market leader by climbing nearly 6 points to a new high record at 178 3-4. Commercial solvents jumped 5-8 points, Hudson Motors 4-8 and Radio, Eastman Kodak, Case Threshing, Electric Auto Lite, Lambert and International Telephone advanced 2 to nearly 4 points.

The closing was strong. Total sales aggregated 1,000,000 shares.

"OLD IRONSIDE" GROWS YOUNG AS WORKERS TOIL ON FRAMED SHIP

About seventy percent of the frigate "Constitution" will be of new construction when the vessel, ravaged by the decay of 132 years, has been reconstructed and floated again. Lieutenant John A. Lord (right) is in charge of rebuilding the ship, shown at the left in drydock at the Boston Navy Yard. Below is reproduced a sketch of the historic craft when it was the pride of the American navy.

Boston, (AP)—Shedding the decay of 132 years, "Old Ironsides" is growing young again. As the days pass in the drydock at the Boston Navy Yard the old frigate tells new ribs forming in her massive frame, new strength growing in her ancient hull.

But renewing the youth of the Constitution is a herculean task. Lieutenant John A. Lord, U. S. N., grizzled master builder of such steel superdreadnaughts as the New York and the Arizona and designer and builder of wooden craft, too, is surgeon-in-charge of the operation.

Lieutenant Lord says the task in hand is like no other ever undertaken in marine engineering. Seventy percent of the ship must be replaced, including her most vital parts. Original methods had to be devised, for she had reached a state of almost complete decay.

Lord has put two years of planning into the work now being carried forward. All he had to begin with was a dry dock. Wooden ship-building at the yard ended 50 years ago. An improvised shipyard had to be assembled, with shops, lumber, sawmills and planing machine. From the wooden shipyards of his home state, Maine, he assembled a small but expert force of workers. These were augmented with Navy yard workers, specially qualified.

Some of the equipment is quite ancient, as machinery goes. A futtock saw, brought in from Portsmouth, N. H., to saw out those crooked timbers which, scarfed together, make the ship's ribs, is 70 years old.

Where she lies in drydock now, the dismantled hull of the famous fighting ship is almost lost behind a screen of scaffolding and bracing. A cradle had to be thrust tightly about her bottom to hold her firmly together—a new method.

Within the ship, too, a small forest of braces and shoring has sprung up between the four decks. As he clambered up and down ladders, through hatches and down into the bottom-most part of the ship, Lieutenant Lord explained that all this was necessary. The danger of collapse has to be reckoned with in every step of the work, as decayed supporting timbers are removed and replaced by sturdy oak beams. In the bow, the sides are held together by a mass of steel cables.

The work is like reconstructing a worn-out four-story building in which the first floor must be torn out and repaired first.

In the bottom a new keelson was installed, which with a sister keelson, makes the ship's center-line longitudinal strength 90 per cent greater. New futlocks fashioned of live-oak from Florida, kept for 73 years under water, are placed between the frame-ribs before the old are removed. All is bolted together with bar-copper everywhere replacing iron. Where the new creosote-drenched "ceiling" or inner planking approaches the berth deck, the old craft's lines are as fair and pretty as those of any maiden ship awaiting launching.

From Delaware have come great curved white-oak roots, and from West Virginia, long, straight white oak timbers. With modern methods of preservation, the rebuilt Constitution should have a longer life than she had in prospect when first built.

England has locked up Lord Nelson's flagship Victory in a drydock. But even after repairs she will never sail the high seas again.

"The Constitution," says Lieutenant Lord, "nearly as old and in a similar decayed condition, will be fully restored, permitting her to appear again on the high seas, fully equipped and rigged, staunch and seaworthy, in all her glory."

LOWEST PRICED SEDANS

2,000,000 WILLYS-OVERLAND CARS AND GOING STRONG!

with quality, beauty and style dominating

In definite dollar-for-dollar value there are no 4-door enclosed cars on the market comparable to the Whippet Four and Whippet Six Sedans.

The perfected Whippet Four offers such desirable features as full force-feed lubrication, silent timing chain, extra leg room and powerful 4-wheel brakes. The new Whippet Six, in addition to these, provides a 7-bearing crankshaft, Invar-strut pistons, 109 1/2-inch wheelbase and many other advantages.

Such notable values as these Sedans are possible only because of the skill and experience gained in the production of more than 2,000,000 high quality motor cars.
