HURRICANE MOVING TO GULF COAST

No Concern Felt if Storm Continues Course; Heavy Damage Reported.

Jacksonville, Fla., Aug. 9.—(AP)—The government weather bureau at Jacksonville announced today that the tropical disturbance which struck the east coast and raced through the citrus section to the west coast was centered at 8 a. m. "near the Gulf coast" about 40 or 50 miles north of Tampa and moving slowly to the east in a northerly direction.

The bureau said that due to the storm it now felt no concern over indications were that it probably would strike the northeast corner of the East Gulf if it continued its present course.

Wire communication in the Tampa area, as well as in part of the east coast region was still seriously crippled today, prohibiting any systematic check of the damage left in the wake of the storm. It appeared, however, that there would be little to change previous reports of serious injury to citrus crops, highways, power, telegraph and telephone lines, and more moderate damage to dwellings and business houses.

Meanwhile, the somewhat astonishing absence of any reports of fatalities in the storm area gave relief agencies headed by the Red Cross, reason to believe organized relief would not be needed, although nothing definite had been ascertained along the line.

While homes in scattered cities and towns throughout the central citrus belt were unroofed by the wind, which reached a maximum speed of 110 miles an hour, only buildings of the flimsiest construction apparently had been wrecked, except at Jupiter, on Tuesday, where several houses were reported destroyed.

Couples with the astonishing news that no lives had been reported lost, were fragmentary calculations of millions in damage from West Palm Beach to Melbourne on the east coast, and across almost to Tampa on the west.

These three points formed extremities of a storm belt square, the other sides of which remained to be determined by the westward course of the storm, which appeared to be diminishing in intensity. Storm warning were raised at first west of Mobile, indicating that the disturbance was bound for the Apalachicola curve of the Gulf coast line.

Out of 23 cities and towns in the zone of winds ranging from 40 to 110 miles an hour in velocity, complete dribblings of information that gave almost identical accounts of devastation. This held true for all except the Lake Okechobee district where flood waters were threatening crops and small communities, as tributaries rose under the impetus of 18 inches of rainfall in 24 hours. The lake has risen two feet.

Heading inland at the Palm Beaches on Tuesday, where minor damage occurred, the storm struck Jupiter, unroofing houses at will and snapping power lines on every hand. Much of the east coast spent Tuesday night and last night in darkness, to be joined in this plight last night by towns of the central area. Then the storm raked ruthlessly over Fort Pierce, Vero Beach and Stuart, where collective damage estimates ranged as high as \$5,000,000.

Next the disturbance dug into the sparsely settled east central lake country where St. Cloud was menaced for a time, by East Lake Tappanville. By late afternoon yesterday the rich hillsides and small cities of the central citrus belt began to feel the shrieking gale.

Already the coast citrus area in spots resembled a winter scene, with orchards stripped of leaves and green fruit. Myriad "snowballs" of young oranges, representing fortunes, littered the ground beneath the bare trees.

Several towns and cities of the central belt were cut off in the midst of their efforts to give the outside world an idea of what was going on.

Meanwhile a check of radio stations indicated that heavy shipping on the east coast was proceeding normally today after weathering with minor damage, the worst of the hurricane. The Algonquin, a Mallory Line steamer, was safe and undamaged after a night of anxiety. She was proceeding to New York with 300 passengers and four men who were picked up in a small boat during the storm. The "Havana Special" southbound east coast train, New York to Miami, reached its destination many hours late, after spending a night in anxiety in the storm area.

May Become King

Rumors from authoritative sources say that a monarchy will be proclaimed soon in the republic of Albania with President Ahmed Bey Zogu as king.

REPUBLICAN IS NOMINEE IN MISSOURI

Patterson Wins Out in Primary For U. S. Senate; Kansas Race Doubtful.

St. Louis, August 9.—(AP)—Roscoe C. Patterson of Springfield, Mo., United States district attorney at Kansas City, was apparently nominated as Republican candidate for United States Senator in Tuesday's primary. His plurality over Nathan Frank of St. Louis, continued to climb today.

Patterson was 5,383 votes ahead of Frank on the basis of returns from 2,428 precincts out of 4,140. The vote of St. Louis, 95,589, Frank 91,204, and David M. Proctor, Kansas City 78,479.

The lead of Charles M. Hay, dry leader of the state, over James A. Collet, a wet and whose campaign was sponsored by Senator James A. Reed, stood at 21,531 with 3,659 precincts tabulated. Hay had 155,369 and Collet 133,838.

Topeka, Kans., August 9.—(AP)—With Clyde M. Reed, Parsons publisher and champion of the farmer in demands for lower freight rates, heading the state ticket on the Republican side as the result of Tuesday's statewide primaries, the Democratic standard bearer remained in doubt early today.

Chauncey D. Little, Olathie former Congressman, held a lead of only 2,719 votes over Edward T. Hackney of Wellington, with 574 of the state's 2,666 precincts unreported. Little's lead was cut into overnight by the outstanding strength of Hackney, who was considered still in the running.

Reed's lead over his closest opponent in a field of six candidates was increased to nearly 30,000 overnight with only 156 precincts out. His nomination was regarded as a clean cut victory for farmers in whose interest he long has been active.

Death Fails To Stop Vaudeville At Shelby, N. C.

Shelby, N. C., Aug. 9.—(AP)—The show must go on no matter what may intervene, and the partners of E. W. Wilson, Bristol, Tenn., business man, vaudeville actor and show owner, today continued their engagement here despite his death as a result of an automobile accident near Gaffney, S. C., yesterday.

Wilson failed to answer his call for the matinee of a road show here yesterday afternoon. He had left Greenville, S. C., the last night on Tuesday afternoon, in his automobile which also was used as a comedy car. He was due to play a comedy part in yesterday's bill.

Another actor stepped into Wilson's role. Soon his partner, Jay Mason, joint owner, with Wilson, of the show, was called by Gaffney. He identified the body of a man found unconscious beside an overturned automobile on Tuesday evening as that of Wilson.

Mason said that Wilson owned several cigar stores in Bristol where his mother, Mrs. Margaret S. Wilson, lives. He also is survived by a young daughter.

The body was sent from Gaffney to Bristol today.

And the show went on.

Recovers From Injuries. Charlotte, Aug. 9.—(AP)—Mrs. Clarence Keuster, wife of the secretary of the Charlotte Chamber of Commerce, was recovering today from injuries received when two street cars collided at the car barns here late yesterday.

FRENCH ACE DIES RESULT OF INJURIES

Maurice Drouhin Fatally Injured While Making Test Flight Yesterday.

Paris, August 9.—(AP)—Maurice Drouhin, one of France's foremost pilots, died today from injuries received in the final test flight of the plane in which he hoped shortly to realize his life's ambition—flight from Paris to New York.

When the plane Arc-en-Ciel (Rainbow) crashed on the landing field at Orly airdrome yesterday it killed the mechanic Lanmet, Manuel, another member of the trans-Atlantic crew was injured, as was Gnanoli, an engineer.

The plane was roaring close to the ground at about 125 miles an hour when spectators noticed a huge wing wobbling. The engines were cut off and the machine shot almost perpendicularly into the air to a height of about 450 feet. Then it slid to one side and crashed to the ground.

The ill-fated plane was of novel design and built entirely of wood. Reme Couzinet, 24 year old designer of the machine, had sunk all his savings into the project and what he could gather from friends. He was plunged into despair today at the tragic death of two of his collaborators and the wreck of all of his hopes when success seemed within his grasp. By a strange chance it was the first flight that Couzinet had not gone up in the machine which had performed satisfactorily in all previous tests.

Joseph Lebrun, who was to have gone on the plane on his trans-Atlantic flight in the capacity of navigator, had intended to go on the fatal flight. He arrived at the field a half hour too late however.

JUGO SLAVIA TODAY FACED BY CIVIL WAR

Death of Stefan Raditch Causes Deep Anxiety in Nations of Europe Also.

Vienna, Aug. 9.—(AP)—Death of Stefan Raditch, fiery Croatian peasant leader, as a result of a shooting in the Chamber of Deputies is causing deep anxiety in Europe as well as Jugos-Slavia.

The belief was held in some quarters today that the situation contained at least the possibility of civil war for Jugos-Slavia unless strong outside influences were efficiently exerted.

Troops were parading today in the streets of Zagreb, where Raditch died last night at the age of 55. Police also appeared in strong force and all places of entertainment were closed.

There was an uneasy feeling that demonstrations would occur. These it was feared, might lead to greater disturbances in view of the intense resentment of the Croats against the Jugos-Slav government party whom they hold responsible for the shooting.

That such disorders might not long remain local was the fear that was causing deep anxiety elsewhere than Jugos-Slavia. The bitterness of the Croats towards what they regard as Serbian domination is well known. The prospect of a peaceful reconciliation seemed to be hopeless at present, especially since a parliamentary commission has voted in favor of ratifying the Nettuno convention with Italy in the face of bitter Croatian opposition.

The Nettuno convention permits Italians to own land along the Dalmatian coastal plane region. Mfi Prebitchevitch, leader of the peasants, upon hearing of Raditch's death, immediately issued a summons for the executives of the party to assemble on Saturday.

The fire of hatred between the elements which go to make up the kingdom of the Croats, Serbs and Slovenes flared with the shooting of Raditch on June 20. Puncta Raditch, a radical Deputy, infuriated at frequent interruptions in the national assembly whipped out his pistol and fired six shots into a group of Croats. Raditch's nephew, Paul, and another Deputy were killed and four others, including Raditch, wounded.

Commander Dies in Peru. Lima, Peru, August 9.—(AP)—Commander John J. Luchsinger, Jr., a member of the American naval mission to Peru died yesterday at Bella Vista hospital.

Nearly Entire Island Destroyed By Volcano; Thousand Lives Lost

Batavia, Java, Aug. 9.—(AP)—According to a report transmitted by a resident of Timor, nearly the entire island of Paloech, in the Dutch East Indies, has been destroyed by the eruption of the Rokotinda volcano on August 4 and 5. Six villages were destroyed by fire. The death toll was believed to be nearly a thousand.

Six hundred persons were injured when hit by fragments thrown out of the crater. Further casualties were caused by the submersion of the whole seaboard of the island through an earthquake accompanying the eruption. Paloech island also known

as Rusa Rajah Island, lies about five miles off the north coast of Flores Island, one of the larger of the Malay Archipelago Islands. It is about four miles in diameter and rises to a peak 4,593 feet high which is covered with trees to its summit.

The remainder of the islanders, numbering 5,000, were stated to be safe and ample provisions available. It was feared that nine native boats enroute from Celebes Island to Paloech foundered with their crews. The Dutch residents of Timor are proceeding to the scene of the disaster.

Revolution Produces "Big Four" In China

Peking, Aug. 9.—(AP)—Four men are riding on the crest of the Nationalist Triumph, thrown up by the tide of the Revolution and have become by common assent the "Big Four" of Chinese Nationalism.

When in conference, as they were recently at the Tomb of Dr. Sun Yat-Sen near Peking and are now supposed to be in Nanking, they form the greatest concentration of power in the country. The sword is still a great deal mightier in China than the pen or any other symbol of civilian authority.

Chiang Kai-Shek is recognized as the commander-in-chief but his control over his fellow group commanders is much less than that of Foch over his American and British Allies in France in 1918.

This quartet presents a striking diversity of character and appearance. Chiang Kai-Shek is of middle height, slender, handsome, rigid and formal.

In his carriage dressed in well-tailored uniform of Olive Drab, a Sam Browne belt setting off his trim figure. There is pride in his bearing and self-consciousness, even a little of the theatrical, for Chiang seems never to forget for long that he is playing a leading role in a big drama. His face easily betrays his emotions. He has more sentiment and imagination than most of his fellows, too much, perhaps, ever to become the strong man in China.

Better cast for that role is Feng Yu-Shiang, the one-time Christian General. He appeared for the Sun Yat-Sen Memorial clad in a dirty blue cotton uniform, wrinkled and sagging with muddy wrap puttees. Chinese cloth shoes, the ensemble topped by a straw hat covered against the threatening weather with the scum-green oiled cloth cover that is a part of the uniform of the second group. His swarthy, rufous face was further darkened by a heavy beard which had reached the stage where it is impossible to tell whether it is the result of intention or a week's neglect of the razor. But for all his uncouth ex-

terior, Feng was the dominating figure of the group. His tall, robust but loosely held figure radiates the impression of latent power. Feng is six feet tall and weighs 220 pounds. His heavy features, even in rare moments of smiling, tell of intensity and seriousness. His proved capacity for manual or mental work, his powers of concentration and sustained effort set him apart among Chinese leaders. His shabbiness is an indication of living no better than the rank and file of his forces. He wears their clothes, eats their ration.

Mild, self-effacing, apparently timid, Yen Shi-Shang of Shansi is anything but the typical war lord. He is under middle height, rather dumpy and stooped, usually dressed in a loose baggy type of uniform now known in China as the Sun Yat-Sen uniform, with long tunic reaching almost to the knee and full black trousers.

There are no insignias of rank. His manner in the presence of his fellow Generals is retiring deprecating. His small, white hands, with slender fingers move in conciliatory gestures or are clasped in front of the breast in the Chinese form of salutation. Here is a man patently without sinister ambitions, one in whom confidence naturally is reposed.

The fourth member is a newcomer to this lofty plane, Litsung-Jen, native of Kwangsi and leader of the powerful military clique that bears the name of that province, home of fighting men. Small, slight, alert, he views the world with something like amused detachment and confidence in his destiny. He disputes with Chiang Kai-Shek and the sartorial leader of the quartet for his steel blue tunic is moulded to his frame, his Sam Browne gleams, his breeches are gathered into smart high black boots, adorned with silver spurs, a Russian model cap rides jauntily on his bullet head. A youthful, swaggering aspect belies his experience and known capacity for leadership.

NEW CRISIS DEVELOPS IN CHINA TODAY

Japan Warns Both Governments to Respect Rights or Take Consequences.

Tokyo, August 9.—(AP)—Indications are seen of a new crisis in China. Japan has sent formal warnings to both governments against acts regarded as inimical to Japan's interests.

To Chang Hsueh-Liang, military governor of Manchuria, word went that he must not put the province under the domination of the Nanking nationalist government. A note was sent that Nanking government stating that unless the nationalists changed their attitude toward Japan's interests in China, "the Japanese government may be obliged to take such measures by the treaties."

Nanking has already notified Japan of its abrogation of commercial treaties granting extraterritorial rights to Japanese. Japan's claim that this brokation is illegal has been ignored by Nanking. Premier Tanaka told the cabinet meeting that he had reliable information that Chang Hsueh-Liang and Kai-shek, nationalist military commander, had worked out the draft of an agreement to extend the nationalists rule into Manchuria.

SMITH TIED DOWN TO HIS OFFICE WORK

N. Y. Governor has little Time for Recreation Since he Became Party Head.

Albany, N. Y., Aug. 9.—(AP)—Fond as he is of swimming and golf, Governor Smith is finding it next to impossible to squeeze a turn of either form of exercise to increasingly crowded days as a Presidential nominee.

When his main worries were those of the Chief Executive of the State of New York, Smith usually found time on nice afternoons to play at least nine holes at one of the golf links near Albany, or on a hot day to slip away for a swim. But now that his campaign for the Presidency is getting into full swing those days seem to be about over.

Since his return Sunday night from a short vacation on Long Island, the Governor has been tied down to his office by a combination of State and campaign business which has kept him from the golf course and the swimming pool down on the farm of Lieutenant Governor Corning, his favorite retreat. Occasionally, while working away at his desk at the Capitol, he glances out of the window, then realizing what he is missing, tells visitors he's too busy to answer the call of out-doors.

Golf and swimming are the only sports which the Governor really likes, and it was to get some of both that he went to Long Island for a few days recreation. As for fishing, he makes no pretense either of being an angler or of enjoying the sport unless the fish are biting briskly. His idea of a dull time is to sit out in the sun waiting in vain for a nibble.

After he gets his acceptance speech rounded into form, decides what he will do about William Allen White's charges against his legislative record, and makes sure that his proposed debate on his political career with Dr. John Roach Straton is a go, the nominee hopes to get away from Albany for a few days rest and recreation before his notification here August 22. After that he also plans to get in a short vacation before launching into the speaking campaign which probably will keep him on the move from shortly after Labor Day until election.

Hoover had an engagement today with Senator George H. Moses of New Hampshire, Chairman of the Notification Committee, to go over the program for the ceremonies the day after tomorrow at the University Stadium.

Tomorrow he will confer with Dr. Hubert Work, Chairman of the Republican National Committee, who will arrive here then from Washington and Chicago. Other party leaders also will arrive from practically every State in the Union during Friday, and the nominee's time will be well taken up with conferences with them.

His delegation was chosen over delegates favorable to Mayor John L. Booth of American Fork.

SUBMARINE VICTIMS AT POLA TODAY

Last Message Sent by Operator on Italian Boat Interrupted by Death.

Pola, Italy, Aug. 9.—(AP)—The last message sent by the telegraph operator aboard the submarine F-14 which was interrupted by death, was:

"We are all gathered at the prow—gas is advancing inexorably—we are dying. Long live—"

The bodies of the 27 victims of the disaster lie today in the largest room of the naval hospital which has been transformed into a chapel ardente and decorated with floral tributes received not only from Pola but from the entire Italian peninsula.

Moving scenes occurred in the chapel when relatives of the victims insisted on giving a last tender embrace to the dead.

Officials and other prominent persons were arriving today to participate in the funeral tomorrow. This will be held at the expense of the state and will assume the character of a solemn homage to the navy. The victims will be buried according to the desire of their families, either at Pola or at whatever part of Italy is indicated.

Nobile Visits Mussolini Today

Rome, Aug. 9.—(AP)—Premier Mussolini today received General Umberto Nobile who presented to him his first report of the Italia disaster.

The Italian Premier some time ago informed the Cabinet that a complete investigation would be made into all phases of the north pole dirigible.

BIG SEND OFF PLANNED FOR HERB HOOVER

California to Send Candidate out Next Week With Tumultuous Farewell.

Stanford University, Calif., Aug. 9.—(AP)—California will give its foremost citizen, Herbert Hoover, a tumultuous farewell when it sends him forth next week in quest of the Presidency.

Moving southward from his home here a week from today, the Republican Presidential nominee will be the center of attention in four cities, if he accepts the invitations which have poured in upon him. These are Santa Barbara, Pasadena, Los Angeles and Long Beach.

At the last named place the nominee will be greeted by thousands of other native born Iowans, who will be gathered there for their annual picnic. Usually from 30,000 to 40,000 persons attend this function each August. Since his self-imposed silence will be lifted with the delivery of his acceptance speech here Saturday, the nominee is expected to deliver addresses at all of these places, with the principal ones in the civic center at Los Angeles, where he will be formally welcomed by city officials and at the outing Iowans.

Hoover had an engagement today with Senator George H. Moses of New Hampshire, Chairman of the Notification Committee, to go over the program for the ceremonies the day after tomorrow at the University Stadium.

Tomorrow he will confer with Dr. Hubert Work, Chairman of the Republican National Committee, who will arrive here then from Washington and Chicago. Paint Turk As Henpecked Hubby

Williamston, Mass., Aug. 9.—(AP)—A new picture of harem life in which the Turk was painted as the most henpecked of husbands was given the Institute of Politics today by Madame Halide Edib, Turkish feminist.

In olden times the ruling classes did maintain harems according to the western conception but even then the women were influential and through bribery and palace intrigue ruled the Sultan and the state from behind the veil. "It is scarcely possible to imagine what bloody events were brought to pass through their secret and pernicious influence," she said.

"Harem" in the ordinary sense of the word is really equivalent to the Anglo-Saxon word "home" and has a sacred and exclusive significance," Madame Edib continued. "The harems of high society were centers of family life. The women it is true were rather secluded but they went about all the same busy themselves with the needs of their homes and ruled their husbands and homes with a rod of iron. The Turkish husband is a surprisingly henpecked one and Turkish wives make it their business to see that he continues to be so in spite of Byzantine example and the Islamic privilege of men."

STRONG PLEA FOR SUPPORT GOV. SMITH

Senator Robinson Declares South Has No Reason to Object to Tammany

Hope, Ark., Aug. 9.—(AP)—In his first extended discussion of the subject since his nomination for the Vice Presidency by the Democratic party, Senator Joseph T. Robinson made a strong defense of Tammany Hall in a speech here today and declared the South had no reason to object to Governor Smith, the Presidential nominee on the Tammany score.

Devoting most of his address as the principal speaker at Hope's Annual Watermelon Festival to a discussion of Tammany, Senator Robinson reviewed briefly its record since the day of Thomas Jefferson and said "Tammany was Jefferson's principal ally and agent in winning his fight for the masses."

A brief tribute to Governor Smith, Senator, took a thrust at ministers who have attacked the Presidential nominee because of his Catholicism.

"In the light of recent history those ministers who have converted their pulpits into political rostrums invite laughter when they whisper that if Mr. Smith became President the Priests will dominate the Government," he declared.

After citing a number of instances to show that Tammany has always been friendly to the South, Senator Robinson said:

"Now it is said at Smith must not be President because he is a member of Tammany Hall and in this campaign has the support of the organization. Whatever political mistakes or sins may have been committed in the name of Tammany, they cannot be attributed to Governor Smith."

"This is an unshakable spirit. Tammany does not give direction to his public acts. Frankness and fearlessness of Smith have drawn the fire of criticism. He towers above mediocrity, scorps dissimulation and takes the public into his confidence. It is bad policy to penalize honesty and courage. It is unjust to plume hypocrisy and insincerity. When his achievements as a great Democratic executive have been made known his fitness for leadership in this political crisis will be undoubted."

Jefferson formed an alliance with Tammany, Senator Robinson said. "When the founder of the Democratic party realized the necessity for a political force to oppose the Federalists under Hamilton."

"Jefferson foresaw the dangers to be feared from the creation of a ruling class composed only of gentlemen, aristocrats and plutocrats," he continued. "Tammany was Jefferson's principal ally and agent in winning his fight for the masses."

"Considered as a whole, so offensive. It is one of friendship to the South throughout the long period which followed the Civil War when our civilization was threatened with perversion and destruction through the process known as 'Reconstruction'."

"When Jefferson Davis was imprisoned and threatened with humiliation and disgrace, it was a Tammany Sachem Charles O'Connor who boldly took charge of his defense, without fee, and directed it to a successful conclusion."

"The Democratic nominee for President, Samuel J. Tilden, was a member of the organization. Who will say that he was unworthy of the confidence and support of Democrats in the South or elsewhere?"

Four Textile Suits Filed At Charlotte

Charlotte, Aug. 9.—(AP)—Textile interests were involved in a financial controversy in which large sums of money were in question in four suits on file today in Mecklenburg Superior Court.

W. H. Bell sued City Commissioner W. R. Robertson for approximately \$77,000 and F. D. Alexander for approximately \$62,000.

A. P. Rhyne sued Mr. Alexander for approximately \$30,000 and Mr. Robertson for approximately \$57,000. H. M. Victor, holder of certain securities, was made a party in an effort to have a commissioner appointed to sell the securities. The securities were stock in the Holly Manufacturing Company and certain notes. The latter, however, had already been converted into cash, the complaint said.

The facts as to the controversy were not brought out in the complaints, which merely demanded payment of the notes. While the suits were for a total of more than \$200,000, the detailed figures indicated duplication in some instances, thereby reducing the actual total.

BRENNAN WILL BE BURIED AT CHICAGO, ILL.

Several Simple Rites Planned For Political Leader's Funeral Tomorrow.

Chicago, Aug. 9.—(AP)—Severely simple funeral services, the kind George E. Brennan himself might have arranged, will be conducted tomorrow for the man upon whom Illinois Democrats had pinned their hopes for leadership in the present state and national campaign.

A private service at the home and services at Our Lady of Mount Carmel church have been planned. Immediately following the Democratic national committee's death early yesterday the family requested that there be no floral tributes.

Pallbearers have been chosen from among the men with whom Mr. Brennan was closely associated by ties of friendship, politics and business. Two of the pallbearers will be police captains—Daniel Gilbert and Richard P. Gill, who were close friends of Mr. Brennan. Two others, George Fitzgerald and John Scullans, are cousins. Michael Igoe and Fred C. Hatchel, the other pallbearers, were closely associated with Mr. Brennan in politics and business, respectively.

It is Igoe whose name has been most frequently heard in all discussions concerning a successor to the leadership of Illinois Democrats. Igoe, minority leader in the lower House of the State Assembly has been in steady sympathy and support of the Brennan party rule. He is one man, according to many other party leaders, whose leadership would draw Carter H. Harrison, former mayor, back into the Cook county fold.

Complete Auto Trip To Many Parts of Nation

Mr. and Mrs. T. J. Sachse, of Winstead, Conn., arrived in Greenville Tuesday evening after completing a 3,220 mile automobile camping trip through the northwestern part of the United States. They will spend several days in Greenville at the home of Mrs. Sachse's parents, Mr. and Mrs. Frank Ray, Pitt street.

Mr. and Mrs. Sachse left their Connecticut home on the 14th of July. They visited points of interest in New York, Ohio, Indiana, Illinois, Missouri, Kentucky and the western part of North Carolina. The last stop was made at Winston-Salem where many of the largest tobacco factories of the nation are located.

While in Kentucky, Mrs. Sachse said, they visited the Mammoth Cave, considered one of the most interesting places in the country by reason of its immensity and wild beauty.

Some time was spent at Jackson, Missouri. Mr. Sachse's home town where they visited relatives and renewed old acquaintances. Points of interest were visited in all of the states which they passed through and they had ample opportunity to observe crop conditions along the way. The crop situation, Mr. Sachse declared, seemed generally good in all states. Rain was badly needed in some sections, and vegetation had begun to show the need of more moisture. Only in Missouri did the plants show actual signs of damage.

A tent was erected at each stop and the travelers enjoyed life in open air all the way through.

Mr. and Mrs. Sachse will go to Winston-Salem from Greenville, where he will enter the real estate business.

Mull Closes Organization Plans Today

Raleigh, Aug. 9.—(AP)—State Chairman O. M. Mull brought his week's organization activities to a close today by a conference at Wilson with Democratic leaders of the second district.

The first district was organized yesterday at Bayview when Congressman Lindsay Warren was host at a barbecue attended by Mull and various district and county party leaders. Returning to Raleigh last night the chairman met a number of leading Democrats including his predecessor as head of the state committee, Attorney General Dennis G. Brummitt, and Assistant Attorney General Walter Siler.

Senator Simmons was visited here yesterday by R. O. Everett, one of the active Anti-Smith leaders in Durham before and during the Houston convention, who has since stated his purpose to support the full Democratic ticket. After the conference, Everett endorsed former Gov. Cameron Morrison for the vacancy on the national executive committee created by the recent resignation of Senator Simmons.

Painter Dies At Charlotte, Charlotte, Aug. 9.—(AP)—Funeral services were held here today for F. P. Robertson, painter, who was fatally injured late yesterday when his automobile overturned near Jefferson, S. C.

He died while being brought to Charlotte hospital.

New Filling Station Opens.
Twenty-five gallons of gas will be given away absolutely free to the persons suggesting the best name for the New Texas Company Filling Station located on Evans street, next to the postoffice, according to announcement made by the management today.

This station has just been completed, and is possibly one of the most attractive of its kind to be found in this section of the State. It is ideally located, and may be reached by traffic going up and down the street in this section.

The contest to name the station is open to every person in Greenville. Everybody is urged to visit the location and in that way put themselves in position to provide a name in keeping with the style of architecture and environment.

All names must be placed in a box at the filling station by six o'clock Wednesday afternoon, August 15th.

List your property with us for results. H. A. White & Sons, Realtors. Phone 49.

Gilbert Succeeds H. E. Austin In Masonic Activities

J. J. Gilbert, well known member of the Masonic lodge of this city, today received commission of appointment of District Deputy Grand Master of the Fifth Masonic District.

He succeeds H. E. Austin, who recently resigned because of ill health. The appointment was made by R. C. Dunn, of Enfield, Grand Master of North Carolina Masonic bodies.

Mr. Gilbert is fully qualified to take charge of the duties of his new appointment having occupied every office in the local lodge and also taken an active part in other Masonic affairs.

Summer Camp For Boys Now Seems Likely

Many of the boys of Greenville will be delighted to learn that the camp which they have talked of all summer is now a distinct probability. All that is needed is an assurance that enough boys will go to make it a self supporting proposition and the camp will be held.

Camp Leach is the place under consideration, and the week from Tuesday, August 21 to Tuesday, August 28, is the time when it may be held. This is a particularly advantageous time to get away from town, giving a good forest and shore rest just before September and school again. The preparations have been made under the direction of the Summer Civic Playground sponsored by the Greenville Schools, and the camp will be held under the same direction. This assures a high grade of camp, which will be open to Boy Scouts and non-Scouts as well. Any boy in Greenville who wishes, may go, but it will be necessary to act quickly, if we have the camp. The opportunity to rent the site will be gone if we do not seize it immediately. Consequently, it will do no good to say, next week, that you expected to go. If you want to go, sign your application immediately, for by Saturday morning of this week, it must be decided. The camp will cost \$8.00 for the week, \$2.00 of which must be decided. The camp will cost Application blanks may be secured from the Director of Playgrounds, Mr. Totten, or from the office of Supt. of Schools Rose, in the Evans School, or from the editor of the Greenville News, Mr. H. K. Thomas, at the Renfrow Printing Company. These must be returned with deposit, not later than the first mail Saturday morning, to any

Entertain Auxiliary.

Following an interesting business meeting a pleasant social hour was enjoyed. A delicious ice course was served by the hostesses.

of the three places from which they may be secured.
The camp will be managed by a group of responsible adults, with the Director of Playgrounds and Mr. Thomas in charge. Skilled assistance in swimming and water

sports will be available, and a considerate, but friendly watch will be maintained over the boys at all times. Excellent opportunity will be given for boys to get instruction in the Junior Life Saving work. Camp Leach has been pointed

but by the State leaders in Scouting and Y. M. C. A. work as one of the best, if not the best, camps in North Carolina. A Scout camp of about 100 has been there this year, and for several previous seasons. There is now a camp from

Nash County which has been there for five years, and numbers now 150 persons. This speaks well enough for the site. Greenville should have a camp of 50 to 60 boys enjoying the life and benefiting by its development features. It has

been considered possible to conduct the camp with a smaller group, but a half a hundred is the goal at which we should aim.
Send or bring in your application NOW, and if we do not have the camp, your deposit will be re-

turned. But the way to have a fine week in a splendid camp is to get that application in immediately.

do not participate in a presidential election.

Where statistics are obtainable, as in Illinois, it has been proved that the women are largely responsible for swelling the non-voting total but the number is not sufficient to absolve the male vote from all blame. It would be impossible in limited space to make a thorough survey of conditions throughout the country, but it is worth while to consider an individual state. Maryland is immediately contiguous to the national capital. In intelligence, material wealth and pure Americanism it is equal to, if not above, the average. How does Maryland conduct itself in a presidential election? In 1920 it had a voting population of 862,391. The votes cast for all presidential candidates aggregated 416,743—just 50 per cent. There was even a smaller vote, 358,630, in 1924. When in a state like Maryland more people let a presidential election go by default than cast a ballot, one wonders what is the matter with our body politic.

There would be some excuse for these civic slackers if the election laws discouraged voting, but they do not. Many statutes are extremely liberal. The trouble may be that the gospel of the moral obligation of the ballot is not preached with sufficient emphasis. It ought to be made plain that the men and women who can vote and who do not vote are unworthy citizens. They undermine the foundations of democracy. This is as true as Holy Writ, and yet there are millions and millions of this class in this republic. How are they to be awakened to the performance of their solemn duty? The solution of this problem should be sought by all parties and all citizens.—Washington Post.

ABOUT TOWN

"No, sir, I don't have any desire to go up in one of these new-fangled flying machines," declared an old citizen of Greenville today, discussing the number of airplane wrecks that have occurred the last few days.

"Others may blaze the way for aviation if they like, but I for one shall keep myself on the ground."

The Good Lord knows it is dangerous enough down here. But up there in the clouds, where one has nothing to hold him up, it is doubly dangerous.

"No, thank you, sir—if you don't mind, I'd just as soon continue on the ground the rest of my life."

"Who was the friend that sprung the 'creation' joke on you the other day?" quizzed one of our feminine readers today.

"Why do you wish to know that?" we inquired.

"It was old as the hills," she declared.

"What do you mean—'old as the hills'—the joke or the one who sprung it?"

"The joke, of course."

"Well, it was about creation—it was supposed to be old."

Being a woman she had to have the last word. But we didn't hear it. We were too busy trying to get off the premises without reaping the results of physical violence.

"You got back from the South Carolina tobacco market mighty quick," a local tobacconist who attended the opening of the South Carolina and border markets was told today.

"It's the truth," he replied. "But I stayed there long enough to see what I wanted to see. We always go down to see how the leaf sells on the markets, and it doesn't take long to form an opinion."

"Numbers of Greenville tobacco men will remain in this belt until the opening of the market here on August 28th. After that time they will be busy taking care of our own crop."

"The season bids fair to be one of the greatest in history of the market. We are planning to sell exactly seventy million pounds of leaf. With two new warehouses and improvements to factories there is no reason on earth why we should not be able to do so."

"Dollar Day," said the secretary of the Greenville Merchants Association, will be held next Tuesday, August 14th.

"We plan to make this event the most successful during the two years the movement has been under way. Twelve merchants, representing the largest and most important firms in town, will take part in the affair, and indications point to great success."

"Dollar Day is a semi-annual occasion held for the purpose of giving Greenville and people of this trade territory an opportunity of enjoying some of the countless bargains which local merchants have on their shelves. None of these goods is old and shoddy. It is tight up to the minute and will be bought without the slightest hesitancy by the hundreds who flock to the stores during the one day the great trade event is in progress."

"It will pay you, Mr. and Mrs. Shopper, to visit Greenville next Tuesday and avail yourself of the opportunity to purchase from the largest and most extensive stocks the city has ever had before."

Would Wipe Out Sectionalisms

Charlottesville, Va., Aug. 9—(AP)—Advice to wipe out the evils of sectionalism stood out today in the trend of a discussion of Southern problems before the University of Virginia's Institute of Public Affairs.

From two sources, one from without, the other from within, came the warning to do away with antiquated barriers, and the voice from within, that of Mrs. Sarah Lee Pain, member of the Virginia House of Representatives, held forth the hope of untrammeled progress.

"Nothing more significant is happening," she declared, "than the rise to power and influence of groups of Liberal leaders in the South. The South is experiencing a remarkable economic development—and an even more remarkable renaissance. It is at this moment in the throes of political unrest, the results of which none can foretell, that we can see the struggle, the groping for expansion."

With Mrs. Pain's hopeful address, came a warning that the South, as well as other parts of the Nation,

must do away with "special antagonism" and develop a national spirit. It was voiced by Dr. Ralph R. Lounsbury, New York attorney and constitutional law lecturer, speaking on "Sectionalism and National Politics".

"The South has been the compound victim of its political solidarity," said Dr. Lounsbury. "Few national policies are shaped with it in view, and not until, by its self-emancipation from political tradition, would hope seem imminent for a consideration which it otherwise is due."

Mrs. Pain held a different view, reaching her conclusion that the

Liberal spirit was leading to freedom on the belief that a new generation was imbued with the desire to recapture the industrial leadership of the Old South before the Civil War.

Studebaker alone has ball bearing spring shackles

restful riding!

Like the jewels of a watch, patented ball bearing shackles furnish frictionless support for each spring end—poise the chassis on polished balls of steel, sealed in lubricant sufficient for 20,000 miles and more of unattended service. These 172 polished steel balls, rolling in lubricant, permit unhampered action of Studebaker's pliant springs—give to Studebaker's hydraulic shock absorbers their lightning-fast control of every recoil—provide a sum total of travel-ease no other motor car at any price has ever offered.

This restful riding supplements Studebaker's brilliant performance . . . proved by the fact that Studebaker holds more official records for speed and stamina than all other manufacturers combined . . . including the greatest record in the entire history of transportation—25,000 miles in less than 23,000 consecutive minutes.

Drive before you buy!

You may doubt that Studebaker has created the smoothest riding cars ever built—until you ride in a new Studebaker. Let us take you today, in the model of your choice, over any route you select—the rougher the better. You'll lose your doubts before you've gone a mile. You'll also know that no other car can equal Studebaker in ease of steering, acceleration and braking.

According to the census of 1920, which gives the latest official figures, there were at that time in the United States, in round numbers, 60,800,000 males and females 21 years of age and over. The total vote for President in 1920 was 26,674,171. In 1924 the population had increased to 112,000,000, but the vote for the presidential nominees of all parties, including Prohibitionists, Socialists, Progressives and Laborites, was only 29,000,000. It is true that we must deduct from the non-voting population the 4,000,000 negro men and women of voting age in the ten states of the Solid South; the 3,000,000 illiterate men and women in other states; the non-voters in penitentiaries, asylums and eleemosynary institutions; some voters in four states, Alabama, Louisiana, Oregon, and Rhode Island, where a property qualification is the requisite, and, finally, aliens, vagrants, tramps, delinquent taxpayers and persons under guardianship. Even with all these non-voters, not more than 8,000,000 in all, wiped off the slate, there is still an imperative necessity for turning on the searchlight and discovering why from 20,000,000 to 25,000,000 American citizens

ERRORS HELP ROCKY MOUNT TRIM LOCALS

Having five bobbles chalked up against them, Greenville Tobaccoists dropped the opening game of the current series with Rocky Mount at the fair grounds here yesterday afternoon by the score of 8 to 3.

Allen pitched an invincible brand of ball for the Abbotmen, but in the fifth inning after repeated misuses by his teammates, he became possibly less effective and Rocky Mount began piling up a score which the locals at no time threatened to overcome.

The five tallies came off of one scratch hit and a series of errors that prolonged the inning until the visitors had done sufficient damage to enable them to walk off the diamond a short while later with another scalp dangling from their belts.

Out of four trips to the plate, Allen, attempting frantically to make up for the miserable brand of fielding, secured three hits out of four times at bat. One of the bingles was good for the entire circuit, the ball going over the right field fence.

Byrd showed an unusual amount of stuff all through the exhibition, although the Abbotmen secured six hits. Using a slow ball whose slowness proved baffling to the locals, the Buc hurler found sailing fairly easy in every stage of the game. He managed to keep the six hits fairly well scattered and this kept him far out of the danger zone.

The Buccaneers will end the series here this afternoon. Tomorrow will find the Abbotmen playing in Fayetteville with the Highlanders fighting hard to get revenge for the two games dropped to the Tobaccoists during a recent visit here.

ONLY THREE PLAYERS MISSING IN FINALS. Cleveland, Aug. 9—(AP)—Only three of the eight seeded players were missing today as eight municipal tennis stars battled to enter the semi-finals of the National Public Parks Tournament.

Ted Drewes, St. Louis, leading the title which he has won the last four years, was to play Dennison L. Mitchell, Washington. Drewes advanced yesterday at the expense of Gus Amsterdam, Philadelphia, with the loss of a single set, while Mitchell had to play five sets and three hours to eliminate Milford Meyer, Philadelphia, seeded number six.

Lester Stoenen, 17 year old Los Angeles, Star, was paired with Louis Schaeffer, Buffalo. Stoenen, picked as Drewes' greatest threat, had a narrow escape yesterday when he was forced to fight five sets to down Elmer Ruddy Baltimore. Schaeffer had an easy time with John Metz, Memphis.

Winston Salem On Top in Piedmont

(By The Associated Press) The Winston-Salem Twins clambered into first berth of the Piedmont League yesterday, after training closely on the heels of the Pointers for some days.

The drama was enacted when the Colonials played the role of winner in a double bill over High Point while Winston-Salem was slugging out a victory over the Greensboro Patriots.

The first affair went to Salisbury where their early lead could not be overcome, but the nightcap was a sad story. The Pointers slugged out the apple with a vim in the second inning and overcame a one-run Colonial lead by pushing over four scores. Salisbury returned in their half of the stanza to get two tallies, leaving High Point with still a one-run margin. The teams then danced through four tense innings without either being able to use the chalk. Heavy stickwork in the ninth netted the Colonials the two needed markers to win. Jones, spry first sacker, cracked out two circuit tickets, and got another clean hit out of four times at the bat.

Home runs by Reinholz, vans and Meeks, two by the last named, accounted for all of the Twins' runs. Fogleman started for Winston-Salem but gave way to Cy Smith in the sixth when the Patriots unleashed a stiff attack and scored their only three markers.

The Durham-Raleigh affair was postponed on account of rain.

Spinners Go On Hitting Rampage

(By The Associated Press) Columbia fans will probably never forget the game their South Atlantic Association team played with Greenville yesterday—not for any particular brilliant ball playing but rather for lack of it.

The Spinners took personal liberties with the offerings of three Comer hurlers and made 22 hits good for a 21 to 9 victory. One peculiar feature of the game was that not a home run was recorded among the 37 hits and promiscuous scoring.

Each team made four errors. Asheville continued its domination over Charlotte by taking the last game and the series 13 to 6. Joe Poetz was no puzzle to the Tourists and they found him for 14 safeties.

Chapman and Cooke homered for the league leaders while Jones did the same for the Bees. Spartanburg and Macon quit even-Stephen after a pair of contests had been waded through. The Peaches hit McNeill rather freely to take the opener 6 to 2 but the Spartans came back and walked away with the nightcap 10 to 4 when three Peach hurlers were ineffective.

Stormy Davis hit a homer, a double and a sacrifice fly to drive in six of the runs used by Augusta in defeating Knoxville 11 to 6. The Smokies got to Stauffer for 21 hits but had 17 men stranded on the bases.

Fix Him To Lick Tuney. Bridgeport, Conn.—Steve Haydu has caused the arrest of two city fellows who convinced him that under their system of training he could get a match with and defeat Gene Tunney. Part one of the system was the payment of \$700 by Steven.

Wilmington Wins Two Exhibitions

(By The Associated Press) The Wilmington Pirates waded through shallow water yesterday to win both ends of a double bill but failed to gain materially on the leadership established by the Goldbugs in the Eastern Carolina League.

Goldsboro also won. Lee Gooch's Highlanders were the prey of the Pirates yesterday suffering their defeats, 4 to 3 and 7 to 5. The initial mixup was close and exciting, Gordon's home run with one on in the eighth being responsible for the final scores to total as they did. The nightcap was just another ball game, with Wilmington scoring the entire seven in the second inning.

The Buz won their victory at the tune of 4 to 0 over the Kinston Eagles. The win came through hitting Dudley sharply in pinches while Richmond was holding the Eagles to 9 scattered blows. Though Dudley gave up but seven hits, several of them counted for extra bases.

While Greenville played airtight ball for the first five stanzas, the Buz sent over five runners in the sixth and won the game 6 to 3. Out of four trips to the rubber, Allen garnered three hits, one a circuit twister for Greenville. Poor backing was given Allen by his mates while he was on the mound.

GIANTS SET SWIFT PACE IN NATIONAL

By WILLIAM J. CHIPMAN (A. P. Sports Writer) Nobody knows how John McGraw is doing it, but—there he is. With a record of nineteen victories and twenty-five defeats in the first half of his campaign against western foes the master mind of Coogan's Bluff settled into the fastness of the Giant dugout two weeks ago and prepared to think his way through an eighteen game siege by the enemy from the west.

The New York team alone of all the eastern defenders bettered the 500 mark in the western invasion which closed yesterday, but bettered it to the tune of thirteen victories and only four defeats—765 baseball.

Anything approaching that pace in the 27 remaining games against the western clubs, coupled with a normal gaunt against the east, would bring Mr. McGraw in for some very anxious consideration along about next September 30.

The Cardinals nevertheless must remain favorites for the National League flag—so long as they play a steady game and keep their games lost column in better shape than that of the Giants. Cardinal pitching again had an off-day at the Polo grounds yesterday when Willie Sherrel and Harold Haid took racking which netted the Giants a 10 to 5 victory.

The success of the Giant arms in hand-to-hand fighting with the leaders reduced the margin of the Cardinals to four and one-half games.

After posing as contenders, or semi-contenders, through two-thirds of the season, the Robins finally have assumed their normal position, with every assistance from the thoughtful Pirates. Ray Kremcr surprised himself with a neat game yesterday as the Buccaneers fought through to their third one run decision in Brooklyn in two days, and their seventh straight in the east. The score was 4 to 3.

Market Report Cotton--Stocks--Grain

NEW YORK COTTON
New York, Aug. 9.—(AP)—The cotton market was extremely weak and unsettled today, not only losing the advances which followed the publication of the government crop report yesterday but breaking into new low ground under heavy liquidation and more or less heavy selling. The December contract which had sold at 20.33 on the advance yesterday, broke to 18.67, or 166 points from that figure and 136 points below yesterday's close.

Calling subsided somewhat below the 18-4 cent level, however, and the mid-afternoon market was less active, prices showing rallies of 20 or 25 points from the lowest.

CHICAGO GRAIN
Chicago, Aug. 9.—(AP)—Grain values were on the jump today, suddenly reversing the recent extreme downward course of prices. European buying estimated at 2,500,000 bushels of all grains accompanied the advance. There was fear of a surprise in the United States government crop report this afternoon and another bullish factor was unlocked for sharp upturns today in wheat quotations at Liverpool.

STOCK MARKET
New York, Aug. 9.—(AP)—High money rates again proved too great in operations for the advance in today's stock market. Scores of issues were run up 1 to 8 points on a resumption of pool operations in early trading, but the scarcity of money caused a general selling movement later which cut down many of the early gains and sent a number of issues 1 to 4 points below yesterday's final quotations.

Call money renewed at 7 per cent but despite the attractiveness of the high rate, banks called about \$15,000,000 in loans. Time money was quoted at 6 1/4 per cent, the highest rate since July, 1921, with no great amount available even at that high figure. Rumors of another increase in the New York Federal Reserve Bank rediscount rate after the close of the market, were freely circulated but they were without official confirmation.

Amusement shares turned weak on a denial of the many rumors in circulation during the past few days, most of them involving the new talking pictures. Warner Bros. A dropped nearly 4 points. Fox Film 2-1-2, Pathe 2-1-2 and Paramount Famous Lasky 1-1-2 below yesterday's final quotations. Coty sold down 4 points. Western Union reacted 3 1/2 and Coca Cola 3.

Early gains in Radio, General Motors, Warren Brothers, Consolidated Gas and other high priced specialties were substantially reduced in the afternoon selling movement.

Establishment of a new high record by St. Louis Southwestern at 91 3/4 or 4 3/4 points above last night's close, was the only development of interest in the railroad group.

Futures closed easy 140 to 148 points lower; Spots quiet; middling 18.95.

GENE TUNNEY PLANS TO WED MISS LAUDER

South Bristol, Maine, August 9.—(AP)—Gene Tunney, whose retirement as heavyweight champion is estimated to have cost him a million dollars or more in potential ring earnings is to marry the granddaughter of one of the early Pittsburgh millionaires.

His engagement to Miss Mary Josephine Rowland Lauder, granddaughter of George Lauder, one of the organizers of the Carnegie Steel Company and a cousin of Andrew Carnegie, was announced yesterday by Mrs. George Lauder, Jr., his fiancée's mother. Island near here, home at John's Island near here. The marriage will take place in New York in the late autumn or winter the announcement said. Tunney is with his fiancée and her family at John's Island.

The announcement confirms reports, current since he announced his retirement from the ring on July 31 after defeating Tom Heeney, that a forthcoming marriage was the real reason for his retirement. Since he won the championship three years ago, Tunney has earned approximately \$2,000,000.

Miss Lauder is the daughter of the late George Lauder, Jr., prominent yachtsman of ten years ago, who inherited a fortune from his father and increased it during his lifetime. Her family is listed in the social register and she is a member of the Junior League of New York and Greenwich Conn. She is a graduate of the Lenox school and the Finch school for girls of New York and Versailles France.

She is tall and dark, a striking brunette as compared to Tunney, who is fair. She is an episcopalian. He is a Catholic. Miss Lauder is 21 years old and first met Tunney when she was 16. Tunney is 30 years old.

Giant Of Dogdom Visits Greenville

Ilak, claimed to be the world's largest dog shown above with his master, Bill Strother, will make his appearance in Greenville Friday and Saturday at the store of Blount-Harvey Company, Strother, once the world's champion human, but now retired from the hazardous business, is here on a visit and has made arrangements with Blount-Harvey Company for the display in order that persons of this city and section might have opportunity to see the Giant of the Dog Family.

Bill Strother, a native of Stantonsburg, and previous to taking up the hazardous business of selling and needs no introduction to Greenville people now. A few years ago while chumming a building at Burbank, Cal., he fell forty feet, and was picked up with a broken ankle and painful bruises. While convalescing he fell in love with his nurse, who became Mrs. Strother as soon as he was able to leave the hospital for a honeymoon. Mr. and Mrs. Strother and Ilak are spending the summer with his mother at Stantonsburg.

Getting back to the subject of Ilak, his history is a varied one and space prevents an effort to give it in detail here. Ilak is an Alaskan Wolf Hound weighing close to 200 pounds and stands six feet on his hind legs as shown in the picture above. Like his master, Ilak has a career and has appeared in several motion pictures at a salary of \$350 a week.

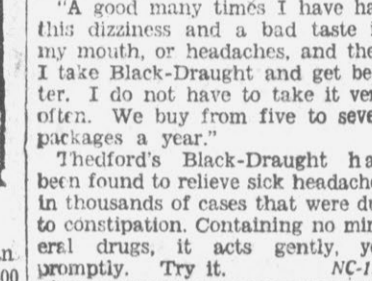

Bill declares that he wants all his friends and everybody else, for that matter, to see Ilak while he is here and it is for this reason that he has arranged for the display at the Blount-Harvey Company.

The hours of the appearance are as follows: Friday, 9:00 to 11:00; 12:00 to 2:00 and 4:00 to 6:00. Saturday, 11:00 to 2:00; 3:00 to 5:00 and 7:00 to 9:30.

DIZZY, NO APPETITE

Since Taking Black-Draught This Man Is Eager For His Meals and Feels Much Better.

Harrisburg, N. C.—Mr. M. F. Pink, of this place, says: "It must have been fully twenty-five years ago that I began taking Black-Draught regularly. It wasn't so long after I married. "I was in town one day, and while talking to a friend I sloped over to pick up something. When I straightened up, I felt dizzy. I spoke to him about this and how I had not felt like eating. "My friend told me to take some Black-Draught. I knew my mother had used it, and so I bought a package. When I got home, I took a good, big dose, and the next night, another. In a few days I felt much better. I was hungry and the dizziness was gone. "A good many times I have had this dizziness and a bad taste in my mouth, or headaches, and then I take Black-Draught and get better. I do not have to take it very often. We buy from five to seven packages a year. "Theford's Black-Draught has been found to relieve sick headaches in thousands of cases that were due to constipation. Containing no mineral drugs, it acts gently, yet promptly. Try it. NC-193

Enjoy **ESSEX Super 6** performance

and save enough to pay for a vacation

The same public discernment which made Essex the world's largest selling "Six," gives picture-like vividness to this car's enormous excess of value.

It is impressive to know that point for point the Essex Super-Six equals or excels any car up to \$300 or \$400 greater cost. But cold figures can't express the drama of this Chicago school teacher who writes:

"I looked at several costlier cars first, but I liked the Essex much better in every way, and I saved enough to pay almost all expenses of my European trip."

Or this Ohio business man: "My Essex gives me every fine car quality and performance ability which our former costlier car gave, and we saved enough to pay for the whole family's touring vacation."
