Price: Five Cents

LIGHT SALES OF LEAF HERE THIS MORNING

Market Yesterday Sold 1,134,708 Lbs. of Tobacco for \$151,231.09.

Official figures of the opening sales of the Greenville tobacco market made public this morning by K. W. Cobb, secretary of the Tobacco Board of Trade, show that the market sold a total of 1,134,708 pounds of tobacco for \$151,231.09. The average was given at \$13.32.

Sales were light today because of the almost incessant downpour of rain starting yesterday and continuing through the night, and indications this morning were that the floors would be cleared of today's offerings by the noon hour.

No congestion is expected on the local market this season because of increased facilities in warehouses and redrying plants, tobaccoists said today, and indications point to completion of sales daily.

Buyers of the large companies operating on the local market this season bought liberally of the offerings in the opening sale yesterday, although the quality was poor and not near up to the usual standard of that usually offered for sale here. Opinion was expressed that averages would have been much higher had the tobacco not been damp from exposure to rain which had held sway in virtually all parts of the country prior to and during the opening of the market.

Farmers were today urged to use every precaution to keep their tobacco dry as possible and in good condition. Wet tobacco is hard to handle and by the time it is placed on the floors ready for inspection of the buyers the quality in many instances is badly impaired. Growers are urged to give this matter careful attention and in this way assure themselves of improvement of prices.

Despite an almost continuous downpour of rain, the opening sales yesterday were largely attended. People who had never attended sales in this city were on hand, and expressed amazement at the stupendous scene that greeted their eyes on the various warehouse floors.

While the crowd was greatly decreased today by continued rainfall, quite a number of curious spectators were on hand this morning at the opening of sales to listen to the voice of the auctioneers as they passed from one pile of tobacco to another. The prices that resulted in a continuous flow of money into the pockets of the tobacco growers of this community.

It is expected each sale will be largely attended all through the week, because of the intense interest generally manifested in the sale of bright leaf this year, and by the end of the week the public will be able to determine more definitely the trend of prices. Compilation of sales on the Greenville tobacco market are made daily by members of the Tobacco Board of Trade. These figures are checked and re-checked until the tobaccoists know to a fraction of a cent and the infinitesimal part of a pound the result of a day's activities. This method enables them to be accurate at all times, and to know exactly what the market is doing. It also keeps the public authentically informed of how the industry is progressing.

Raleigh, N. C., Sept. 5.—(AP)—

With a large crop on hand and prices ranging well below last year's scale, tobacco growers of the eastern Carolina tobacco belt, according to reports received here today, had before them suggestions that a part of the crop be kept off the market.

The Raleigh News and Observer today reported that at Kinston, where there is a million pounds were sold today, a proposal had been advanced that the farmers "haul about 400,000 pounds of the shabbiest tobacco in their pack-houses out in the barnyard and leave it there." The paper said the idea had "gained rapid headway."

The Wilson Times, published in the heart of the tobacco belt, advised farmers to use for fertilizer all their tobacco which will not bring three cents a pound.

"It is worth more than that for fertilizer to make any crop," and at the same time, they will cause the balance of the crop to bring more money," the paper said.

Around six million pounds of tobacco were sold yesterday. While most markets reported it impossible to determine the average price, it was calculated at not a great deal more than 12 cents.

Unfavorable weather was held partly responsible for the small sales as compared with the 1927 opening record of 10,000,000 pounds. Warehousemen were quoted as saying the grade of the crop was as low as they had ever seen. The crop is described as bulky but lacking in weight.

Five Killed In Plane Crash At Pocatello, Idaho

Pocatello, Idaho, Sept. 5.—(AP)—Seven persons, five of them passengers, homeward bound from a Labor Day outing, were dead today as a result of the crash here yesterday of the air mail plane of National Parks Airways, Inc.

The dead were Mrs. Mona Schaper and her two children, Carl, 6 and Roma, 18 months; Jesse S. Richards, secretary of the Ogden, Utah, chamber of commerce; Floyd A. Timmer, an Ogden newspaper reporter; W. A. MacLean, Portland, Ore., traveling representative for a magazine publishing company and Paul V. Wheatley, pilot.

The plane, a Universal-Fokker Monoplane, flying low for a landing, went into a nose dive when the pilot headed into the wind, and crashed to the ground, rolling over several times and crushing the passengers.

G. C. Miller, airways extension supervisor for the department of commerce, was here investigating the accident.

GREEN LEADS FOR GOVERNOR IN MICHIGAN

Republican Governor Assured of Renomination By Primary Returns Today.

Detroit, Sept. 5.—(AP)—Having piled up an impressive majority in the out-state counties, Governor Fred W. Green, Republican, seemingly was assured of renomination today. In returns from 1,245 out of 3,184 precincts in the state from yesterday's primary, the governor had a lead of more than 95,000 over George W. Welsh, former Lieutenant Governor. The figures were: Green, 156,535; Welsh, 61,028.

In two precincts in Wayne county (Detroit), the governor apparently had carried every out-state county reporting, including those that claimed particular strength. One had been counted, but these, too, gave Green a lead. William S. Comstock, Democrat, was unopposed for the gubernatorial nomination.

United States Senator Arthur H. Vandenberg, Republican, was renominated without opposition, to fill a vacancy and also for the full term commencing next March 4. He will be opposed at the November election by Mayor John W. Basley, Democrat, of Battle Creek, unopposed in the primary.

In the congressional districts, the outstanding contest in the primary was in the ninth district, but partial returns indicated the renomination of Representative J. C. McLaughlin over R. Glenn Dunn, of Ludington, without Democratic opposition. The nomination was equivalent to election. Representative John C. Ketcham seemingly was renominated in the fourth district, and Representative Grant Hudson appeared safe in the sixth. The three cornered Democratic contest in the sixth still was undecided.

Investigate Bank Account of Police

Philadelphia, Sept. 5.—(AP)—Records showing huge bank accounts, alleged by District Attorney John Managhan to be owned by high police officials, were under examination today in connection with the grand jury investigation of the activities of Philadelphia bootleggers and gangsters.

Unless the source of this reported wealth can be satisfactorily explained, Mr. Managhan declared, it would be considered tantamount to prima facie evidence of graft and corruption in office.

The prosecutor said it was not likely that a police official could accumulate big bank accounts in half dozen banks and possess safely deposit boxes filled with securities on the salary he receives from the city.

Mrs. Armstrong Dead.

Davidson, Sept. 5.—(AP)—Mrs. Eliza Armstrong, 89, widow of the late Pink Armstrong, prominently connected in this section, died at her home near Denver last night. Funeral services will be conducted from Bethel Methodist Church, of which she had been a member since she was 12 years old, at 10 o'clock Thursday morning.

She is survived by three sons, the Rev. Frank Armstrong of North Wilkesboro; Charlie and Albert Armstrong of Denver, as well as several grandchildren and two great grandchildren.

LEVINE PLANE IS RELEASED IN CHERBOURG

Acosta Must Pay Fine for Violation of Government Landing Regulations.

Paris, Sept. 5.—(AP)—After having entangled himself and three pilots who flew with him to Cherbourg with the French authorities, Charles A. Levine was homeward bound today on the Liner Leviathan.

Flying to catch the boat in his new plane "Queen of the Air" piloted by Bert Acosta, Levine placed Acosta, himself and two Dutch pilots, Menken and Wickham, who went for a ride, in an embarrassing position. When the plane arrived at the aviation field at Cherbourg from Paris yesterday, Gendarmes asked somewhat icily, where the log book and passports were.

Levine, somewhat flurried, dug hastily through his baggage and produced his passport. A dispatch from Cherbourg to the Paris edition of the Chicago Tribune said today that he was reprimanded by officials before being allowed to embark on the Leviathan.

Acosta and the Dutchmen as well as the plane, were detained. The field is the property of the French Navy, and after communicating with the Minister of Marine in Paris, the naval authorities finally announced that Acosta would be permitted to fly the plane back to Le Bourget.

Cherbourg, France, Sept. 5.—(AP)—The "Queen of the Air," the plane in which Charles A. Levine had projected a flight to America but which he used instead for an unlicensed trip from Paris to the naval flying field here, was released by the naval authorities today. Bert Acosta, Levine's pilot, was told by the prefecture that he could fly back to Paris and could take with him the Dutch pilots Menken and Wickham, who came along yesterday just for the ride.

There was an "if" in the release. The proviso was that Acosta, Menken and Wickham must deposit a thousand francs each to guarantee payment of any possible fines for violation of the government regulation respecting landing on the field here. All three complied.

None of the men had been held in custody, but the plane itself was guarded overnight because it carried no log book and the men had no legal identity papers. Levine himself managed to find a passport in his baggage in time to permit him to board the Leviathan and sail for America.

It developed that he had asked for permission to land on the naval field but apparently had not awaited receipt of the official approval before carrying his plan into effect.

"It is because I am Levine that I am subjected to all possible vexations," he grumbled, once he was safe aboard the Leviathan.

FRENCH ACES FORCED DOWN AT MOROCCO

Trans-Atlantic Aspirants Await Further Orders On the Flight From Paris.

Casablanca, Morocco, Sept. 5.—(AP)—After an air jaunt southward from here this morning, the French trans-Atlantic flight aspirants Jean Assolant and Rene LeFebvre, returned to Casablanca and telegraphed Paris for orders. They indicated that they had abandoned for the time being their project of flying either to South or North America with Armod Lotti as passenger.

The machine came down here late yesterday afternoon after it had taken off from Le Bourget Field with New York as its announced destination. An oil leak caused the halt in the project. This was repaired overnight but some further mechanical difficulties are understood to have developed on the attempt today to reach St. Louis, Senegal. That is the usual hopping off place for aviators who cross the South Atlantic to Brazil.

The French indicated that they rather expect to be recalled to Paris.

Borah Hopes Senate Will Ratify Pact Against War

Washington, Sept. 5.—(AP)—Senate ratification of the Kellogg-Briand peace treaty recently signed at Paris is the hope and expectation of Senator Borah of Idaho, chairman of the foreign relations committee, who long has worked for world peace.

"I am of the opinion that the treaty will be ratified by the Senate at the next session of Congress," Senator Borah said. "I regard the signing of the multilateral treaty, or the treaty to outlaw war, as I prefer to call it, by the fifteen nations and the action of the other nations since as the most important step in the cause of peace that ever has been taken.

"It is in a sense an embodiment or a crystallization of a profound conviction of the people everywhere and in all countries that war should no longer be accepted as an instrument for the settlement of international disputes.

"I have seen it stated that the treaty does not amount to much because there is no force behind it. I regard this treaty as just as binding as any other treaty. There is nothing behind any treaty except the private word of the nations who sign it. If a government makes a treaty to furnish an army and does not see fit to do so, there is no way to enforce that treaty.

"There is just the same obligation, the same national honor, in a treaty not to go to war as there is a treaty to go to war. I think the signing of this treaty is a great triumph in the cause of peace."

CURTIS OUT FOR HIGHER TARIFF WALL

Republican Vice-Presidential Nominee Speaks at Rally at Boston.

Boston, Sept. 5.—(AP)—The country was called upon today by Senator Curtis, the Republican vice-presidential nominee, to decide between the Republican and Democratic parties at this election on an issue of higher or lower tariff duties.

Democrats, he declared, were "certain" to seek downward revision of the tariff. He reiterated his pledge to lead a Republican legislative more for a higher tariff wall.

The vice-presidential nominee spoke at a rally at Norumbega park here and his prepared address was devoted entirely to another discussion of the tariff situation.

"In my opinion," he said, "the tariff should be raised and not lowered. The slightest suspicion that the Democrats will lower the tariff should give them the chance, while the certainty that they will take that action should be enough to settle all doubts as to which way you should vote.

"Interpret as you may the ambiguous declaration on the tariff adopted by the Democratic national convention at Houston, you all know that the traditional Democratic policy has been a tariff for revenue only and basically that is all it ever will be."

Senator Curtis declared that Governor Smith, the Democratic Presidential nominee, "indicated" that his "idea of a protective tariff is the Underwood bill."

"Meantime Martin W. Littleton, a Democratic member of the sixty-second congress," he continued, "describing the effects of the Underwood tariff," said:

"New York is at this moment the center of the most remarkable pessimism I have ever known. There is a sense of depression and dismay here that I have not seen before in this great city during the seventeen years I have known it."

"On February 24, 1914, Governor Walsh of Massachusetts, and Mayor Curley, of Boston, were asked by a committee selected at a meeting of the unemployed, to throw open the armories and other public buildings for sleeping purposes; to distribute food to those out of work; and to provide employment for the idle. These conditions of distress were nation-wide and the country was saved from a staggering calamity only by the outbreak of the European war and the rush orders for American goods.

"The war has ended with the resumption of industrial activity abroad our customs are overwhelmed with imports. Each year shows a threatening increase of foreign imports, despite the high rates of the existing Republican act, the total for the calendar year 1927 amounting to 4,184 million dollars."

Kellogg On Way Back Home Today

Cherbourg, France, Sept. 5.—(AP)—With various governments still announcing adherence to the treaty renouncing war of which he was one of the chief negotiators, Secretary Kellogg was returning to America today aboard the Leviathan.

The cruiser Detroit which brought the secretary and his party from Ireland, sped him on his way home with a salute of 18 guns while the band played Star Spangled Banner.

Mrs. Kellogg was presented with five large bunches of flowers by the chamber of commerce when the Detroit reached Cherbourg—to decorate their cabin on the voyage home.

SMITH FINDS PLENTY WORK TO DO TODAY

Presidential Candidate Awaits Gong to Send Him Into Political Ring.

Albany, N. Y., Sept. 5.—(AP)—In his double capacity as chief executive of the state of New York and Democratic presidential candidate, Governor Smith is finding plenty of work to keep him busy while waiting for the gong that will send him into the national ring for the supreme test of his political career.

State tasks continue to occupy the nominee both day and night and it now looks as if he will not temporarily divert himself of his gubernatorial regalia for the bigger job ahead until after the middle of September. The governor himself was responsible for this deduction when he said yesterday that "they" evidently meaning his political advisers, had mapped out no program for him for all of next week.

Today and for the remainder of the present week he will continue to devote his attention to duties at the state capital and at the executive mansion, working in a game of golf here and there as time permits. Mrs. Smith is putting most of her time at the residence on Eagle street getting her husband's "things ready" for the long and trying days of the campaign.

The special train that will take the Democratic standard bearer on his first extensive speaking tour is rapidly being made up, but details as to its composition are being withheld pending publication of its route and stopping points.

Not the slightest rumble of what issue or issues the governor plans to discuss in his first speech has come to the surface thus far from any official or semi-official source, although there has been considerable unofficial speculation, varying along with the sections that might be visited.

PROBE LARGE SHORTAGE IN CARNES CASE

Auditors Engaged In Checking Accounts of Missing Baptist Secretary.

Atlanta, Sept. 5.—(AP)—Complete rehabilitation of the Home Mission Board of the Southern Baptist convention, a \$5,000,000 arm of the church, today was in the hands of a joint committee charged with investigating "a possibly large shortage" in the accounts of Clinton S. Carnes, missing board treasurer.

What was termed by church authorities "an apparent shortage" was not revealed because a firm of auditors was still in the midst of a laborious check. The executive committee of the church, in special session here, however, last night passed a resolution sympathizing with the Home Board "in the calamity that has overtaken it." The executive committee pledged "the full resources and honor" of the convention in meeting obligations.

In pursuance of an agreement between the executive committee and the Home Board, a joint subcommittee composed of three members from each organization, was functioning today in an effort to work out a satisfactory plan of rehabilitation, although it will be handicapped by the lack of records on possible outstanding notes and the like. Carnes, who dealt with many banks in his capacity as treasurer, vanished August 15, after telling his chauffeur that he was going to Raleigh, N. C., for a few days. No word of his whereabouts has been heard since, although the convention enlisted the press and the police in an extensive search a few days after the disappearance.

Meanwhile, special and general counsel of the church was taking steps to protect the interests of the church and creditors and to hold in tact the personal fortune of the missing treasurer, which was believed considerable. A bonding company was notified. Carnes was bonded for \$50,000. The family of the missing executive placed the Carnes personal assets at the disposal of the Home Board until the situation had been clarified.

John W. Mackay died in San Francisco in 1902. Mrs. Mackay was known in the west as a brilliant hostess and as a patron of art and music.

The funeral arrangements will await the return next Tuesday of her son, Clarence, who sailed today on the Limer Majestic from England.

Pirates And Bugs Championship Game Postponed Today

Goldboro, Sept. 5.—(AP)—The scheduled post season game today between Goldboro and Wilmington of the Eastern Carolina League was postponed today on account of wet grounds. Weather permitting, two games will be played tomorrow, it was announced, a morning game here and an afternoon game at Wilmington.

HOOVER MAY CARRY FIGHT TO THE SOUTH

Considers Thundering Down On The Very Ramparts of Democracy Stronghold.

By JAMES L. WEST
(Associated Press Staff Writer)
Washington, Sept. 5.—(AP)—Now that Herbert Hoover has definitely decided to carry the political warfare to the home ground of his opponent, Alfred E. Smith, he is seriously considering a march upon the very ramparts of democracy, the solid South.

The pressure for him to make a trip into that section is almost as great as that for him to visit Newark and New York City, where he will speak on September 17 and October 17, respectively. He probably will yield to it by going to North Carolina or Tennessee for one speech near the dividing line between the two states.

Some recent callers at the Hoover headquarters have told the Republican nominee that there is more than a possibility that he can break the solid South for the first time since reconstruction days and have urged that he make a special campaign tour into that territory.

Hoover has been inclined to discount some of the reports that have come to him regarding the situation in Virginia, North Carolina and Georgia and he probably will wait for a greater crystallization of sentiment before he reaches his final decision. He has limited himself to a few speaking trips and naturally his desire is that these should take him where his personal appearance might be expected to do his cause the most good.

Having started the preparation of his Newark speech, the Republican candidate is expected to devote the major portion of the remainder of the week to its completion. Should he follow this course, his fishing trip to Chesapeake Bay necessarily would have to be put over until next week.

Beyond a general statement that he will devote much of his Newark speech to a discussion of labor questions, Hoover declines to forecast what subjects he will discuss there or in New York City.

Before resuming work today at his personal headquarters here, the nominee sought the latest figures on the Wisconsin primaries in which there was a three cornered race for the Republican gubernatorial nomination and in which Senator Robert M. LaFollette, Jr., was a candidate for renomination.

The Democrats are claiming the state and even the most optimistic of the Republican leaders concede that the contest there is likely to be very close.

Mrs. John Mackay Dies In New York

Roslyn, N. Y., Sept. 5.—(AP)—Mrs. John W. Mackay, mother of Clarence H. Mackay, of the Postal Telegraph company, died early today at her son's estate here.

Heart disease was the cause of death. At her bedside were her three grandchildren, Mrs. Kenneth O'Brien, Mrs. Irving Berlin and John W. Mannet.

Mrs. Mackay was born in Brooklyn and was about 85 years old. She met and married John W. Mackay in the west. He was born in Ireland and joined the gold rush of 49 to California. With three partners he sank in the rich Comstock Lodge the shaft of the famous Banana mine. In six years this mine produced \$300,000,000.

With part of his fortune he founded the Commercial Cable company which has developed into the present Postal Telegraph and Cable Corporation. Clarence H. Mackay is chairman of its board of directors.

John W. Mackay died in San Francisco in 1902. Mrs. Mackay was known in the west as a brilliant hostess and as a patron of art and music.

The funeral arrangements will await the return next Tuesday of her son, Clarence, who sailed today on the Limer Majestic from England.

MANY PLANES SPEED OFF IN AERIAL DERBY

Albert Jacobs Leads Two Score Participants On Cross Country Trip to Angeles.

Pittsburgh, Sept. 5.—(AP)—Earl Rowland, of Wichita, Kas., piloting his Cessna 'A' plane in the cross-country air race, was the first of the trans-continental racers to land at McKeesport. Rowland brought his plane down at 10:25 a. m. Western Daylight Time.

He won the Bettis field prize of \$500 for the first arrival there. The second arrivals at McKeesport were Theodore Taney and Robert Dake, of Pittsburgh, in their American Moth. They landed six minutes after Rowland.

W. H. Emery, Jr., of Bradford, Pa., flying a Travelair, was third to reach Bettis field. Other arrivals in their order of landing were: Fourth, Theodore W. Kenyon, Boston, in a Challenger; fifth, James S. Charles of Richmond, Va., in an Alexander Eagle Rock; sixth, Tex Rankin of Portland, Ore., flying a Waco 10.

Roosevelt Field, N. Y., Sept. 5.—(AP)—Albert R. Jacobs of Philadelphia, departing at 5:42 a. m. standard time today in a Waco 10 plane, led a takeoff of almost two score entries in the first of four cross country air races to Los Angeles. He carried Sam Lowden, also of Philadelphia, as a passenger.

Hundreds of spectators who had waited through a chill, gray dawn were at the field as the starter's flag dropped and sent Jacobs' craft roaring down the field at the head of a great air parade over a 3,000 mile route.

Subsequent contestants left the ground at one minute intervals. Daniel R. Robertson, piloting a Curtiss Robin, started second, and was followed by Leslie C. Miller in a Curtiss plane.

The planes headed for Harrisburg, Pa., the first of 16 stops which will be made over a two-day journey to the Pacific coast. Another stop today will be at Williamsport, Pa., and the airmen will spend the night at Columbus, Ohio.

Other contestants, their planes and the order in which they took off were:

J. W. Hunt, Lone Eagle biplane; A. H. Kreider, challenger biplane; Eugene J. Detmer, Travelair biplane; George W. Brill, Travelair biplane; S. H. Turner, Berliner monoplane; Theodore Taney, American Moth; H. A. Speer, International; Don S. Phillips, Challenger; Earl Rowland, Cessna 'A'; Theodore W. Kenyon, Challenger; Douglas H. Davis, Travelair; Sebastian L. Pond, challenger; Stuart Chadwick, Waco 10; A. K. Owen, Pitcairn; Stahoff P. Gilley, Curtiss Robin; Warren R. Smith, Swallow; Harry Smiley, Eagle Rock; S. J. Wittman, Travelair; Wilford B. Gerbracht, Pitcairn; Alfred H. Stanley, Waco 10; George W. Hopkins, Stinson Junior; W. N. Emery, Jr., Travelair; George Zinn, Jr., Challenger; M. E. Greenberg, Lincoln-Page; L. E. Connell, Swallow; John E. Carberry, Oh Moth; Paul D. Charles, Berliner; D. G. Jackson, Swallow; Tex Rankin, Waco 10; Arthur W. Killips, Waco 10; S. A. Riley, Travelair; W. E. Nichol, Mohawk Pinto; Louis E. Derryberry, Travelair.

Patronage Trial Gets Under Way At Biloxi, Miss.

Biloxi, Miss., Sept. 5.—(AP)—The first of the patronage trails involving alleged solicitation of funds for support in Federal office distribution in Mississippi was set for hearing today in Federal court before Judge Edwin R. Holmes with the prospect of more or less long-drawn-out legal entanglements.

Stiles McGilchrist, of the United States Attorney General's office, prosecuting, armed to fight each step of defense counsel in indicated attempts at postponements, quashing of indictments returned by the recent federal grand jury and other maneuvers. McGilchrist planned to demand trial at the present session.

The Republican defendants in today's case, E. L. Patton, negro, of Jackson; William A. Miller of Wiggins and J. C. Tannehill, indicted in the alleged bartering of the postmaster's office at Wiggins, were surrendered by their bondsmen upon opening of court yesterday.

The latter two were alleged in the indictments to have solicited \$500 from Loral A. Krohn for their support in effecting Krohn's appointment as Wiggins postmaster.

Perry W. Howard, negro Republican National committee man from Mississippi, is among others indicted on charges of violating the federal patronage act. Howard's case was set for hearing at the November term of court at Jackson.

we do not believe that the State Highway Commission or anybody else can possibly keep the new dam and the new street leading to the bridge in passable condition. The District Commissioner has been invited to visit this city and give careful study to the situation, and we sincerely hope that his report will be such as to favor the keeping of the old bridge for emergency use, until the approaches to the new bridge are paved next spring. If the Highway Commission will see the situation as it really is, it cannot do other than keep the old bridge standing if it desires to be fair to the people of this city and section.

ABOUT TOWN

"Inferior grades of tobacco predominated at the opening of the Greenville tobacco market yesterday," a prominent tobaccoist told us today.
"This is generally the case when the market opens, but it is possible that more of this kind of tobacco was in evidence this year than ever before.
"When good tobacco begins moving, it is natural to suppose that there will be quite an improvement in the price situation, and that the farmers will derive considerable more for their offerings.
"Farmers who have never sold on this market would do well to give it a trial this season and become convinced that it leads the state in prices and services rendered."

"Several hundred Greenville children will begin their daily trek to city schools when the 1928-29 session opens next Monday morning," we were reminded by one of the leading educators of the city today.

"This is always a season of rejoicing and regret in the life of the American child, but as soon as he gets broken in good, becomes interested in school activities, he soon forgets the pleasures of vacation and the easy life led during the summer months.

"Greenville boys should return to school this session in much better physical trim than in years, because of the recreation afforded through the municipal playground movement during the summer months. Numbers of youngsters took part in the forms of entertainment provided by the playground committee, and have shown marked improvement from a physical and moral standpoint.

"It may seem rather hard to give up the pleasures of vacation, but after all, it isn't so bad when one considers the improvement to intellectual powers through the many opportunities afforded by the public school of today."

"Another plane headed for America across the dangerous westward route," observed a reader of this paper today, speaking of the take-off of the three French fliers from Paris to New York.

"The whole world will watch this flight with interest, because of the fact that many fliers have lost their lives in an attempt to make the same passage. It is a dangerous undertaking at the best, and the intrepid young airmen have the best wishes of the whole world as they speed towards America in their great venture."

"Farmers' Field Day and Picnic will be held at the Upper Costal Plain Test Farm, Rocky Mount, Thursday, September 6", E. F. Arnold, director of the Pitt County Department of Health, told the writer this morning.

"The program for the occasion, both morning and evening, ought to be of interest to every farmer in this part of the country in that

he will be given an opportunity of hearing and seeing some of the best informed agriculturists in the state.
"The two principal addresses of the day will be delivered by Hon. W. A. Graham, commissioner of agriculture, and Hon. Cameron Morrison, former governor of North Carolina. These two men are fully acquainted with some of the problems affecting the grower and what they will have to say should be of more than passing interest to everybody.
"Make it a point to attend this meeting and hear what the farmers have in view for the coming year."

Highs Begin Grid Activity On Thursday

First football practice of the season for Greenville High School will be held at the fair grounds tomorrow afternoon at four o'clock, according to announcement made today by C. W. Porter, director of high school athletics.
All those who wish to try out for the team this season have been asked to meet Coach Porter at the high school gymnasium at 3:30 o'clock for assignment of lockers in the dressing room.
Coach Porter stated that material for this season should be unusually good as result of the number of promising youngsters contained on the second string last season. Six letter men will be missing from the line-up this season, but with a splendid nucleus to building around

the coach hopes to be able to round out a smooth working machine.
Youngsters destined to stand out prominently in the local grid firmament this season are Bostic, captain-elect; Respass, quarter; Hicks, end; Anthony and Wilson, tackles; King, end; Eason, half back; Hearne, lineman; Clark, backfield, and several others.

Coach Porter said he hoped to be able to turn out an organization even better than that last season which went to the semi-finals at Chapel Hill in the state championship, only to be eliminated by Wilmington who later won the championship.

The new high school gymnasium will aid materially in development of the club this season, in that it provides a place where the team can be together after practice or game and go over the mistakes that were made, discuss them and know how to meet the same situation if it arises again.
All boys interested in football are urged to go out and try for the team. Everybody will have an equal chance.

Columbia Comers And Spartanburg Furnish Thrills

(By the Associated Press)
Columbia's Comers and the Spartanburg Spartans furnished the thrills to yesterday's South Atlantic Association offerings—the Palmetto state capital team grabbing off both ends of a double header but not until they had been forced to the limit each time.
The score in the first was 3 to 1, both teams playing errorless and contesting every inch. In the wind-up affair, the Comers nosed out

the Spartans 6 to 5. Knoxville won a hair line decision over Charlotte 1 to 0. Each team hit safely six times and dived honors afield with only one error each. Poetz hurled for the Bees while Walker worked for the Smokies.
Augusta won a 4 to 0 encounter from Asheville, rain halting the affair in the sixth inning.
Macon and Greenville were rained out.

Mosquito Bite Causes Death.
Gastonia, Sept. 5.—(AP)—A mosquito bit on her leg which became infected caused the death here today of Annie Frances White, five-months-old daughter of Henry White of Bessemer City.

Recommend
COLE'S ORIGINAL
HOT BLAST HEATER
The Great Utility Heater
If you need heat—you need this stove of a hundred uses. A million now in operation. Wherever you go you see a Cole's. Insist upon the Original. Accept no substitute.
Built by the Largest Mfrs. of Heating stoves in the World.
Noted for its Reliability—Safety—Powerful Heat—ease of control.
Cleanliness a remarkable fuel economy.

MOST FIRES in homes originate in the basement. Why not build the first floor of concrete, insuring fire safety and getting construction that actually grows stronger with age? The additional cost for these advantages is usually less than 2 per cent more than for ordinary wood joist construction. Select Security Portland Cement when you build.

Better Oil

More Power

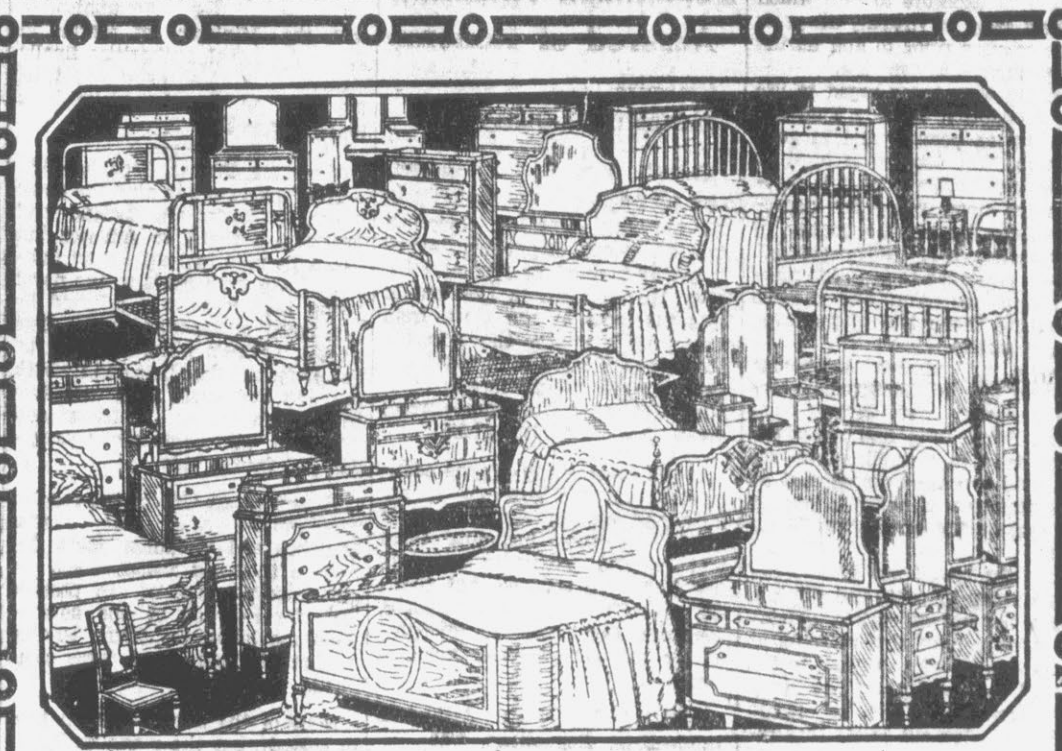

when you use this oilier oil you feel the difference for it stops friction—and this test proves it holds up motor speed and gives more power

"STANDARD" MOTOR OIL

"Standard" Greases, Transmission Oil and Gear Compound are made with the same care as "Standard" motor fuels and motor oils.

"Standard" Wins In Fifty-Hour Test

In his engine laboratory, a large truck manufacturer made a fifty-hour test to compare "Standard" Motor Oil with other oils under the same operating conditions—all power generated being used to overcome friction. With other well-known oils, the number of revolutions per minute had dropped fifty per cent at the end of the fifty hours. With "Standard" Motor Oil not only was the initial speed five per cent greater, but this speed was maintained throughout the test.
Since this test was at idling speeds, the motorist can appreciate that it indicates less friction and motor wear in starting—less wear in continuous operation.

MR. FARMER

GORMAN'S MARKET REPORT

The opening sales were not as large as last season. Gorman's finished at 4:30 (our house lacking four rows of being filled). We sold 276,654 pounds for \$37,973.89, averaging \$13.72. We had no fine tobacco and lots of very common primings, our prices ranging from 3c to 35c. With fair and drying weather, we believe the primings will sell better. Work your tobacco as dry as possible, don't be too anxious to get rid of it. This Bright Crop in our opinion has been over-estimated in weight and we believe all Cigarette types will sell better as we get into the crop when this over-estimate is realized by the Manufacturers. Come in to see our sales, compare our prices with the others and we believe you will realize that it will pay you to sell at GORMAN'S.

J. N. Gorman & Sons

Social & Personal

Mrs. W. R. Jones and Miss Mary Washington spent yesterday in Wilmington.

Mrs. Arthur B. Corey returned Monday from a visit to relatives in Norfolk, Va.

Miss Beadie Sitterson, who has been the guest of Miss Mabel Glenn Best, has returned to her home in Kingston.

Several Cases In Court Yesterday

Mrs. Harris Breaks Arm.
The many friends of Mrs. J. L. Harris will regret to learn that she broke her arm yesterday.

Miss Burnette Entertains.
Bethel, Sept. 4.—Miss Dorce Burnette was hostess at a lovely party Wednesday evening from 8:30 until 11 o'clock when she charmingly entertained in honor of her house guest, Miss Laura Moore of New Bern.

The rooms were a scene of loveliness, shaded lights and beautiful cut flowers being effectively used for decorations. Bridge and rook was enjoyed throughout the evening. After a number of interesting progressions block cream and cake was served.

Those enjoying Miss Burnette's hospitality were Misses Ethel and Arsenia Moore of New Bern, Mr. and Mrs. E. Z. Malvrey, Miss Helen Briley and Messrs. Hugh Briley and William Flanagan of Greenville, Wilbur Smith of Ayden, Mr. and Mrs. Charlie James of Parmele, Myron M. Teel of Greenville, Bursk Manning, Clifton Moore, Johnnie Nelson and Misses Mildred Brown and Alice Moore James of Bethel.

From Now Until Election.
Voters of every political faith from one end of the country to the other have followed the Editorial Page of THE WORLD during Presidential years as one of the outstanding expressions of journalistic independence and fearlessness in America. During the next two months it will have much to say of transcendent national importance. Its opinions will be carefully weighed by candidates and eagerly sought by its contemporaries. For \$1 per month you can have THE WORLD together with THE SUNDAY WORLD sent to you by mail. Address your subscription to THE WORLD, 63 Park Row, New York City.

Announcement.
I will open my music class September 10th. All those wishing to take will notify me at once.
Mrs. Harvey Ward, phone 292-W

Fire Department Called Out Today
The fire department was called to a residence on Fourth street this morning, but the fire was extinguished before their arrival. The alarm resulted from a piece of paper catching fire on a cook stove, it was stated.

Coolidge Develops Into Expert Shot
Superior, Wis., Sept. 5.—(AP)—Elusive clay pigeons and a blooded English setter puppy have put the fever of the hunt in the veins of President Coolidge, and he is going down to Old "Kaintuck" this winter to follow the dogs.

Breaking as many as 24 out of 25 of the whirling objects shot from the specially installed traps at Cedar Island Lodge has made Mr. Coolidge think he is better than an average shot and he wants to try his skill on live game.

When Pal Alto, five months old pup, was presented him yesterday, the Chief Executive turned to Col. E. W. Starling of his staff and said:

"Have this dog ready by winter, for I am going down to Kentucky this winter for some hunting"; the dog is to be trained by Colonel Starling's brother at Hopkinsville.

The President today arranged to show newspapermen and photographers that he has mastered the art of transpooting. He invited them to the summer White House to witness an exhibition of skill, some of which he displayed recently in hitting a crane in full flight while on the river at Lewis, Wis.

SURE We Will Make You A Liberal Allowance For Your Old Watch! Bring It In!

A MAN'S Strap watch. Sturdy, handsome and masculine in its finely built 14k filled green or white gold Wadsworth case. Marvelously accurate because it is a TAVANNE "One of the few great watches of the world." The price is \$45.00.

The new Buick is the new Style

More than handsome... more than luxurious... a wonderful new type of motor car beauty... a thrilling turning point in body design

It will be imitated, of course! The new, the fine and the beautiful always inspire emulation. But so great is the cost of building the magnificent new Fisher bodies for the Silver Anniversary Buick that imitation will be possible only to much costlier cars, and even these will find difficulty in following where Buick leads!

\$1,500,000 has been expended in manufacturing the dies alone for the new Buick bodies; and the gracefully curving side panels which form one of their distinguishing characteristics represent the most expensive steel paneling work employed on any automobile in the world!

But it is not in the matchless grace and beauty of exterior design alone that the Silver Anniversary Buick eclipses other cars. The velvet mohair upholstery in the closed models—the hardware and fittings—the many appointments of luxury and convenience—are all of the richest quality; and the bracing of the bodies, which imparts strength and durability and freedom from squeaks and rattles, is the most efficient and effective known to motor car practice.

In dashing beauty—as in fleet, powerful performance—the world holds no equal for the Silver Anniversary Buick with Masterpiece Bodies by Fisher.

It is more than handsome, more than luxurious—it marks a thrilling turning point in body design. And the motoring public, buying in such tremendous volume as to force the great Buick factories to work day and night to supply the demand, is elevating it to the prominence of a vogue!

Market Report Cotton--Stocks--Grain

COTTON MARKET

New York, Sept. 5.—(AP)—Reports of unfavorable weather conditions in the south and bullish features in the weekly review of the weather bureau were reflected in advances of about 23 to 27 points in the cotton market early today, but reactions followed under southern selling and realizing trading was fairly active on the early advance, later tapering off. The mid-afternoon market was quiet and about steady at reactions of 10 to 14 points from the best.

Futures closed very steady, 6 to 15 points higher; spot quiet; middling 19.25.

GRAIN MARKET

Chicago, Sept. 5.—(AP)—Bearish sentiment prevailed in the wheat pit today and prices averaged lower than yesterday. Sales for northwest account were responsible for part of the weakness in a market readily influenced, and news from the growing crop areas and the harvest fields was almost universally favorable. Export demand was light. September corn had less support than the later months, which rallied on the dips but stayed in narrow limits.

Wheat closed easy 5-8 to 1 lower; corn firm, 1-4 to 7-8c higher; oats irregular 1-8c lower to 1-8c up and provisions firm, to 15c higher.

STOCK MARKET

New York, Sept. 5.—(AP)—Frequent shifts of speculative sentiment, with wide swings in some of the high priced specialties, characterized today's stock market. Extreme nervousness of professional traders and small speculators was attributed to the increase of \$214,000,000 in stock exchange member loans reported yesterday, and fears of a large gain in the weekly federal reserve figures which will be made public after the close of the market tomorrow.

Call money held steady at 7 per cent throughout the morning although banks called \$15,000,000 in loans.

Warner Bros. issues were again the sensational features. The common stock opened 3 1/2 points lower at 112, rallied to 112, broke to 111 and rallied to around 117 by early afternoon. The stock opened at 114 1/2, rallied to 127, dropped to 113 and rebounded to 121. Erratic fluctuations in these issues brought about heavy selling by frightened investors and speculators in other sections of the list, particularly the motors. White motors dropped 5 1/4 points, International Harvester 4 1/4, General Motors 3, Hupp 2 1/2 and Montgomery Ward, General Railway Signal, American Linsend and several others yielded 2 points or more.

New leaders were brought forward in the early afternoon and the market staged a vigorous recovery under the leadership of Radio, which rallied more than 7 points to 22 1/2. Park & Tilford was another strong feature, climbing nearly 5 points to a new peak at 87 3/8 on reports of expanding earnings. Gold Dust, American and Foreign Powder, Brunswick Balke Colender and Barnsdall A also moved into new high ground during the afternoon recovery.

Rails showed consistent strength with Kansas City Southern a strong feature.

GIANTS LOSE SOME GROUND IN NATIONAL

By HERBERT BARKER (Associated Press Sports Writer)

It would seem to an unbiased observer that Jack Scott has been around baseball long enough to know that old "Cy" Williams is poison in his own backyard. Jack apparently forgot all about "Cys" reputation at Philadelphia yesterday and so the New York Giants lost a golden opportunity to shave a full game off the National League lead of Bill McKechnie's St. Louis Cardinals. It was like this: The Giants had rudely bumped Jimmy Ring and the Phils into somewhat ignominious defeat in the first game of a double header, 9 to 4, and were leading 7 to 6 in the second when Scott, reclaimed from Toledo, entered the box to pitch the ninth inning against the tail-enders. He got rid of Thompson but Klein singled. Leach was retired on a pop fly and it appeared the game was over. Enter Mr. Williams, waving a bat menacingly. Jack served one down Cy's "alley" and the old timer clouted it over his favorite right field wall, scoring behind Klein and pulling the game out off he fire, 8 to 7. Instead of gaining ground, the Giants really lost some, for the Chicago Cubs also put on a ninth inning rally at the expense of the Pittsburgh Pirates and advanced to within an eye-lash of the second place Giants. The figures in this mathematical tangle were: New York, 57-48 and Chicago 57-46. The Pirates' defeat, suffered by a score of 9 to 8 when Hargreave's throw wild in an attempted double play in the ninth inning, put the Pirates back into fifth place, a point behind the Cincinnati Reds who, with the Cards, had a day of idleness. Getting two hits during the set-to, Paul Wauer, great Pirate outfielder, ran his hit collection to 200 for the season, the first National Leaguer to perform the feat. Heinie Manush of the St. Louis Browns, reached the 200 mark on Monday. Brooklyn took both ends of a double header with the Boston Braves, 3 to 2 in ten innings, and 9 to 2. In the American League, the Athletics came back strong after their double Labor Day reverse at Washington, and trounced the Senators, 9 to 2. The Chicago White Sox, taking their second double header in as many days from Detroit, stepped into a fourth place tie with the Senators. The score in each game was 3 to 2. The St. Louis Browns bunched hits in three innings to down the Cleveland Indians 9 to 6, for the third straight game.

NEUSE AND CAPE FEAR RIVERS AT FLOOD STAGE Raleigh, N. C., Sept. 5.—(AP)—The Neuse and Cape Fear rivers today were headed to overflow stages, the Weather Bureau here predicted. The Neuse was expected to be two feet above bank level at Smithfield today, while a 39-foot stage, four feet out of its banks, was forecast for the Cape Fear at Fayetteville.

Quake Shakes Los Angeles. Los Angeles, Sept. 5.—(AP)—A slight earth quake of about fifteen seconds duration shook the downtown district of Los Angeles at 6:40 a. m., today.

NEUSE AND CAPE FEAR RIVERS AT FLOOD STAGE

Raleigh, N. C., Sept. 5.—(AP)—The Neuse and Cape Fear rivers today were headed to overflow stages, the Weather Bureau here predicted. The Neuse was expected to be two feet above bank level at Smithfield today, while a 39-foot stage, four feet out of its banks, was forecast for the Cape Fear at Fayetteville.

Quake Shakes Los Angeles.

Los Angeles, Sept. 5.—(AP)—A slight earth quake of about fifteen seconds duration shook the downtown district of Los Angeles at 6:40 a. m., today.

FARRELL OUT OF GOLF CHAMPIONSHIP

New York, Sept. 5.—(AP)—The professional golfers association championship gets under way at Baltimore next month, but Johnny Farrell, open champion of these United States, will not be in it. Johnny putted himself out of the tournament in the metropolitan district's qualifying round at Fresh Meadow yesterday.

SEVENTY-EIGHT GOLFERS STARTED OUT

On the 36-hole qualifying test with the ten best scores to get in. After taking a 16 in the morning round and 36 on the first nine of the last 18, Johnny, a late starter, discovered he needed a total of 150 if he wanted to qualify. Although badly off his game he remained in the running until the 17th hole. Cyril Walker, former National open champion; Bobby Cruickshank, runner up to Bobby Jones in the same event in 1923; Joe Turnesa, runner up to Walter Hagen in the P. G. A. Tournament last year, and Mike Brady, of the Winged foot club, also failed to qualify. Leo Diegel led the qualifiers with 69-68—137. Paris, 70.
