

### THE WEATHER

Fair tonight and Thursday, cooler on the coast and probably light front in west and north central portions tonight; slowly rising temperature Thursday in interior.

## TARIFF FINDS WAY IN FIGHT IN COLORADO

### Question Is Chief Reliance of Republicans Against Democratic Attack.

By BYRON PRICE  
(Associated Press Staff Writer)  
Denver, Colo., Sept. 26.—(AP)—That old-timer of campaign issues, the protective tariff, is finding its place in the sun this year in the Rocky Mountain country. It is the chief reliance of the Republicans against a rather impressive Democratic attack on the Republican just inside the Pacific seaboard.

For several political generations this section has been immensely interested in tariff subjects affecting the products of the ranch and mine. In recent years there has been a great increase in sugar beet production, especially in Colorado, Wyoming and Montana, and this year the Hoover managers are using an assurance of continued protection against Cuban sugars imports as a rallying point among the farmers. The Democrats counter with an assurance that the sugar industry will be just as safe under the Democratic tariff plank of 1928 as it would be under the Republicans.

Of course the prohibition and religious issues also are present, and some voters may be lost or won over Boulder dam. The Boulder controversy is pretty much submerged over the mountain territory, however, and prohibition and religion do not cut as deeply as in some other sections. Wets and Catholics are by no means strangers here. In 1926 Nevada proposed modification of the Eighteenth Amendment by a popular vote of almost four to one and in the same year Montana repealed her state dry act by a much narrower margin. Montana has a Catholic senator in the person of Thomas J. Walsh, and Arizona has another in the person of Henry P. Ashurst.

The presumptive historical background of most of these states is Republican, but party lines are disturbed here as elsewhere. The Republicans still count the whole West as safe, but the Democrats are extraordinarily hopeful, particularly as to Montana, New Mexico, Arizona and Colorado.

Although he did not mention the tariff in his speech here last Saturday night, Governor Smith's visit to this state nevertheless left behind it a trail of tariff discussion. A farm delegation after seeing the nominee and talking at length with one of his political advisors, announced that he favored retention of adequate tariff protection for sugar. On his special train in Wyoming, Smith later denied that he had given any such assurance. The Colorado Republicans took advantage of the situation to accuse him of double dealing. They had on hand a Hoover-pledged farm delegation on Monday night to greet Senator Curtis, who made a tariff speech.

There are elements of concern for both sides in this Colorado situation, taken as a whole, but it is disputed whether there is any real prospect of Colorado tumbling out of the Republican column.

Denver recently has elected an out and out wet to Congress and the Democrats count on impressive majorities here, in Pueblo, and in the southern tier of counties where there are many voters of Mexican extraction and many Catholics. They also hope to make serious inroads on the ordinary Republican farm sections, and among the coal miners. The president of the State Federation of Labor, who was LaFollette's Colorado manager in 1924, is working for Smith, and the head of the Farmers Union is a Democrat. Much faith is placed in the leadership of the Democratic governor, William H. Adams, a candidate for reelection, who always heretofore has been able to attract many Republican votes to the Democratic ticket.

The Republicans have been quarreling in this state, while the Democrats appear united except for the inevitable defections on prohibition and religion. The Methodist ministers and the Anti-Saloon league are well organized against the Democratic national ticket. The Klan, once a real power in the state, is attempting a comeback.

### Duke Opens Religious School.

Durham, N. C., Sept. 26.—(AP)—The School of Religion at Duke University formally was opened yesterday with an enrollment of 75 students, as compared with the enrollment of 15 in the fall of 1926.

President Few declared the school should serve as an influential force being faced with a "tremendous responsibility, but at the same time with an inspiration opportunity."

### Al Jolson's Bride

Ethel Ruby Keeler, 19-year-old dancer, and Al Jolson, singer of "mammy" songs, are on their European honeymoon. They were married at Port Chester, N. Y.

## HEAVY SALES CONTINUE ON LEAF MARKET

### Over Million and Quarter Pounds of Tobacco Offered for Sale Today.

The Greenville tobacco market has sold 16,506,174 pounds of tobacco this season, according to information given out today by K. W. Cobb, secretary of the Greenville Tobacco Board of Trade.

Heavy sales continued on the market yesterday with 1,231,192 pounds of leaf being disposed of for a total sum of \$221,034.54, at an average price of \$17.95.

A considerable amount of damaged tobacco was again in evidence yesterday, despite constant requests of tobaccoists that this grade be held off the floors until it had been reworked and gotten in condition for marketing.

While the price situation yesterday was slightly less favorable than the day before, this was attributed to the inferior grades of the leaf in evidence on all nine of the mammoth warehouse floors. A revival of prices was looked for today with a million and a quarter pounds of leaf awaiting disposition.

### High Water Ruins Foxes

Goldboro, N. C., Sept. 26.—(AP)—High waters in the Neuse river swamps have driven foxes by the score out into the open country, residents of the county reported yesterday. More than a dozen were killed or captured over the past week-end, it was estimated.

## Congressman Warren To Speak At Ayden Sept. 27; Other Speakers Coming

Congressman Lindsay Warren, of Washington, will carry the Democratic campaign to Ayden Thursday evening when he is scheduled to address the voters of the community in the auditorium of the High School building. He will be introduced by K. A. Pittman, Ayden and Greenville attorney.

This announcement was made today by W. E. Hooks, of Ayden, chairman of the Pitt County Democratic Executive committee, who was in Greenville conferring with prominent party members concerning progress of the campaign over the county. He stated that considerable progress had been made in organization of Democratic clubs. Five hundred members have been added to the club in Greenville alone with indications that this number will be swelled to no little extent by the date of the election in November.

Mr. Hooks said that extensive plans had been made for the appearance in Greenville Thursday evening of Mrs. Palmer Jermon and Miss Mary Henderson, who are scheduled to speak at 7:30 o'clock, concerning issues of the present presidential campaign. Both of these ladies have long been in the limelight of the social and political life of the State, and their coming here in the midst of one of the most vigorous campaigns in years has attracted more than passing interest among hundreds of women voters in this territory.

Both ladies, Mr. Hooks said, are forceful speakers. They are well acquainted with all issues of the campaign to elect a President and other national and state officers and

## QUITS PARTY TO GIVE SMITH HIS SUPPORT

### Presidential Nominee of Farm-Labor Group Announces Change Today.

Charlotte, N. C., Sept. 26.—(AP)—The vice presidential nominee of the Farmer-Labor party has withdrawn from the ticket to give his unqualified support to Governor Alfred E. Smith and the Democratic party.

Dr. H. Q. Alexander of near Charlotte, long a prominent figure in North Carolina and president of the Farmers' Union for many years, in making his decision public last night said he was dissatisfied with the Farmer-Labor platform.

Dr. Alexander accepted the nomination on September 19th while a member of the North Carolina legislature. In writing the Farmer-Labor party headquarters at Denver, the Carolinian said that while the Farmer-Labor platform was more progressive and more humanized than those of the "dominant parties", it was "guilty of one grave sin of omission and a lesser one of commission."

"It contains no definite specific declaration on the money question," he continued, adding that the "sin of omission" was a plank which sought "to discredit the Catholic church, and is of course a thrust at Governor Smith."

"I was not a Smith supporter before the convention, but I am now," he concluded.

"Another reason for my withdrawal," Dr. Alexander explained, "is also on account of my health. I am not physically able to make a campaign. I don't intend to encumber the ticket under this condition."

Intermittent showers during the week and heavy rains yesterday and the day before added to the discomfort of the residents, many of whom had not had time to rebuild roofs.

It was expected momentarily that the road between Belle Glade, one of the hardest hit towns and Lake Okeechobee, would become impassable because of the flow water.

Scenes comparable only to those of Flanders Field of a decade ago, have been described from the Lake Okeechobee area.

But bodies of dead men, who fell on the field of battle eventually were buried. Because of the necessity of preserving sanitary conditions in the storm wrecked area, however, many funeral pyres are being built, for the cremation of the bodies washed up by the flood waters, more than a week later. Funeral fires cast a ghastly aspect over some sections of the Everglades last night, as bodies were burned.

A report reaching here last night told of 165 bodies having been cremated around the Belle Glade section yesterday.

With such tales of destitution, it is considered small wonder that from every nook and corner of the United States, messages of relief in the form of money and supplies, have been pouring into the Red Cross.

"A complete tragedy," was the way the situation was summed up by A. A. D. Rahn, chairman of a survey committee for the Imperial Council, along with state representatives of the National Masonic organization. Mr. Rahn has completed a survey of the situation and recommended that funds be furnished by the organization, accordingly.

Many Homeless At Kinston As Result Of Flood Waters

Kinston, N. C., Sept. 26.—(AP)—A house-liver at flood crest here today, water was pouring over the Norfolk Southern tracks and inundating a residential section of South Kinston and Lincoln City, a negro settlement. Two hundred persons were homeless, more than half of them white. In the village of Arpsville, water stood eight feet deep.

Local authorities indicated they could handle the situation without outside assistance. The flood was reported to be not so serious as the 1924 overflow.

Caswell Cotton Mills has suspended operations due to water in the boiler room. Water is five feet deep in the shop of the Kinston Carolina Railroad. Several large lakes have been created on three sides of the city by the overflow. One of them is nearly two miles long.

## MORE FUNDS ARE NEEDED IN FLORIDA

### Red Cross Asked For \$12,000,000 For Relief Of Storm-Stricken District.

West Palm Beach, Fla., while the storm swept area of southeast Florida today was gradually striving back to the goal of normalcy, national headquarters of the American Red Cross at Washington had been appealed to for a fund of \$12,000,000, to be subscribed by the American people, for the purpose of permanently rehabilitating the devastated area.

The Palm Beach County chapter of the Red Cross addressed an appeal to the national headquarters for the huge sum in a formal report of the toll of the hurricane, which more than a week ago thrust its weight against the lower East Coast of the State, leaving a path of carnage and untold property destruction.

The report placed the number of dead in the disaster at "in excess of 2,300"—the exact number may never be known—and the number of refugees at 12,200, men, women and children who lost their all in the blow and subsequent flood of Lake Okeechobee, which was lashed into a fury unknown in the annals of the State's history.

While means of alleviating the situation were being worked out, the remaining citizens bent all efforts toward bringing order out of chaos.

Intermittent showers during the week and heavy rains yesterday and the day before added to the discomfort of the residents, many of whom had not had time to rebuild roofs.

It was expected momentarily that the road between Belle Glade, one of the hardest hit towns and Lake Okeechobee, would become impassable because of the flow water.

Scenes comparable only to those of Flanders Field of a decade ago, have been described from the Lake Okeechobee area.

But bodies of dead men, who fell on the field of battle eventually were buried. Because of the necessity of preserving sanitary conditions in the storm wrecked area, however, many funeral pyres are being built, for the cremation of the bodies washed up by the flood waters, more than a week later. Funeral fires cast a ghastly aspect over some sections of the Everglades last night, as bodies were burned.

A report reaching here last night told of 165 bodies having been cremated around the Belle Glade section yesterday.

With such tales of destitution, it is considered small wonder that from every nook and corner of the United States, messages of relief in the form of money and supplies, have been pouring into the Red Cross.

"A complete tragedy," was the way the situation was summed up by A. A. D. Rahn, chairman of a survey committee for the Imperial Council, along with state representatives of the National Masonic organization. Mr. Rahn has completed a survey of the situation and recommended that funds be furnished by the organization, accordingly.

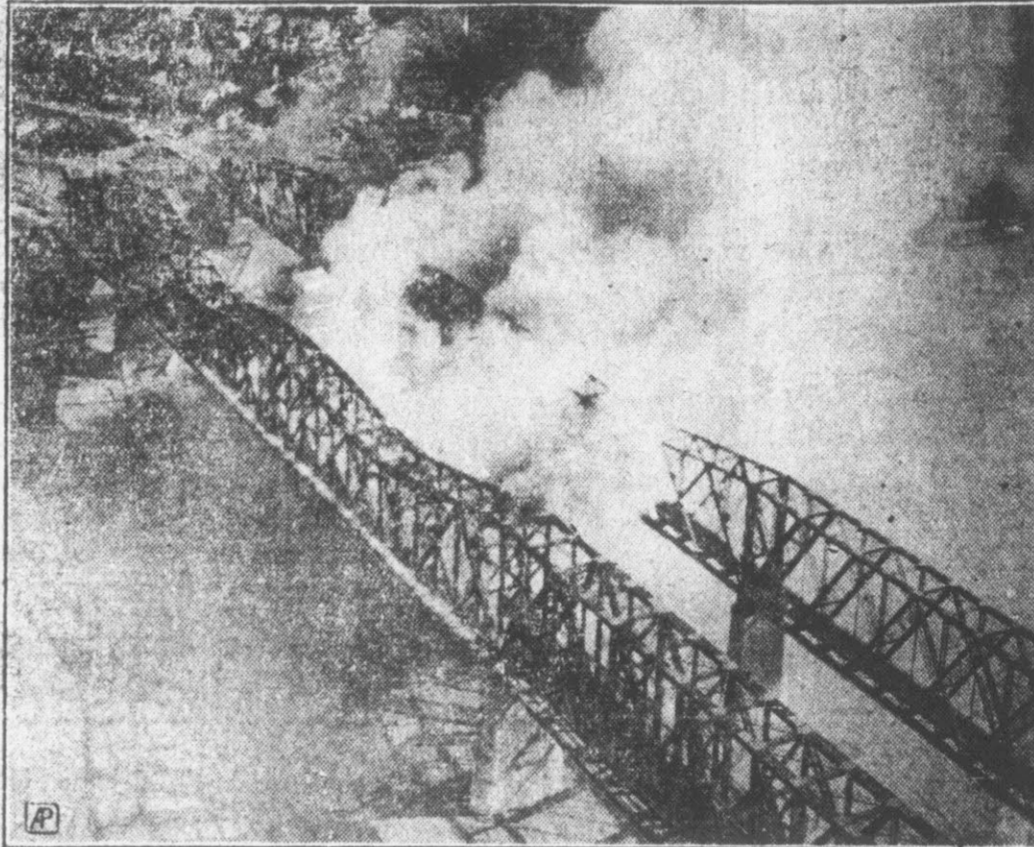

Many Homeless At Kinston As Result Of Flood Waters

Kinston, N. C., Sept. 26.—(AP)—A house-liver at flood crest here today, water was pouring over the Norfolk Southern tracks and inundating a residential section of South Kinston and Lincoln City, a negro settlement. Two hundred persons were homeless, more than half of them white. In the village of Arpsville, water stood eight feet deep.

Local authorities indicated they could handle the situation without outside assistance. The flood was reported to be not so serious as the 1924 overflow.

Caswell Cotton Mills has suspended operations due to water in the boiler room. Water is five feet deep in the shop of the Kinston Carolina Railroad. Several large lakes have been created on three sides of the city by the overflow. One of them is nearly two miles long.

## BURNING BRIDGE MAROONS TOURISTS

Vehicular traffic between Memphis and Arkansas was paralyzed when fire destroyed a large section of the wooden floor work of the \$4,000,000 Harahan bridge over the Mississippi river. Hundreds of automobiles on both sides of the river were caught behind the blaze.

## ROBINSON TO BEGIN FIGHT IN ARKANSAS

### Senator Abandons Rod and Reel, and Gets Ready For Second Speaking Tour.

Hot Springs, Ark., Sept. 26.—(AP)—The fishing rod and reel were placed back on the shelf today by Senator Joe T. Robinson who found that vacation time had passed all too quickly and that the hour was near at hand for him to return to the stump in his quest for the vice-presidency.

Loath to leave until the very last minute the quiet retreat on the shore of Lake Catherine 12 miles from here, where he has been residing since Sunday, the Senator arranged to arrive at his home in Little Rock only a short time before his scheduled departure at 11:15 p. m. over the Missouri Pacific line for Springfield, Mo.

In that city tomorrow night he will deliver the first speech on a tour which calls for his carrying the Democratic banner through the southwest of the Pacific coast and thence eastward into the farm section of the central west. His last scheduled speech on the trip will be delivered at Fargo, N. D., on October 23.

So far he had not been advised by the Democratic national committee where he will be sent to wind up the campaign although it is regarded as probable that he will be asked to continue from the Dakotas into the mid-west farm belt, through southern Illinois into Ohio and possibly West Virginia.

It has also been suggested that he return to Bowling Green, Ky., and Atlanta, Ga., to deliver addresses which were cancelled because of the delay resulting from his trip to West Palm Beach with the first relief train sent from Miami into the storm stricken area.

## Two Indictments Returned Against Clinton S. Carnes

Atlanta, Sept. 26.—(AP)—Indictments against Clinton S. Carnes, missing treasurer of the Southern Baptist Home Mission Board, today numbered two and involved an aggregate sum of more than \$150,000.

The church official vanished from his home here on August 15, and a checkup revealed a shortage of approximately \$1,000,000 in his accounts on the basis of an audit ordered by the board. No trace of him since has been found, although the board members expressed the belief that he had fled to South America.

The first indictment involving \$69,000 of church funds was returned early this month, and the second yesterday after a further check of the Carnes' accounts. Bonds totaling \$100,000 were fixed by the court.

COOLIDGE TO DELIVER ARMISTICE ADDRESSES

Washington, Sept. 26.—(AP)—President Coolidge expects to deliver addresses at Fredericksburg, Va., on October 9 and at Armistice Day ceremony November 11.

The scene of the Armistice Day ceremony has not yet been decided upon.

## Several Policemen Held On Conspiracy Charges At Philadelphia Today

Philadelphia, Sept. 26.—(AP)—A police captain and 22 policemen were arrested today on charges of extortion, bribery and conspiracy. Among the prisoners were seven sergeants and two city hall detectives. The police captain is Charles Cohen. They were taken into custody in the office of District Attorney Monaghan, where they had been under examination for four hours. All were placed in cells in City hall to await a hearing before Judge Edwin O. Lewis, who ordered the current grand jury investigation of bootlegging, gang warfare and corruption.

Two other police captains, half a dozen city detectives and Matthew Patterson, Republican organization ward leader and a member of the Pennsylvania House of Representatives, have been arrested hitherto in connection with police bribery. They are at liberty under heavy bail awaiting further hearings. Patterson surrendered yesterday

to the district attorney, who had issued a warrant charging him with complicity in the collection of \$12,175 protection money from bootleggers. Police Captain Charles W. Schoenleber, who was alleged to have received \$7,440 of this fund, previously had been arrested. The third commander of a police district under arrest is Captain William Knoke.

Monaghan said the evidence on which Cohen and his subordinates were arrested was obtained in a raid by federal authorities last December on a 75-gallon still in South Philadelphia. Records seized in the raid, the prosecutor stated, revealed that the owner of the still had paid Captain Cohen \$75 a week for protection, while the policemen of the district had received a total between \$200 and \$300 a week.

During their examination, the district attorney said, some of the policemen had admitted taking bribes.

## Describes Smith As a Friend Of The War Veteran

Raleigh, Sept. 26.—(AP)—Governor Smith was described as a friend to world war veterans who has proved his friendship by his official record in a radio address broadcast from here today by Col. John D. Langston of Goldsboro, recently appointed to organize veterans for the Democratic ticket. In contrast, the Republican administration of the veterans' bureau was severely condemned by Col. Langston.

The speaker charged that under the Republican administration "plunder and graft" invaded the bureau, resulting in "one of its directors taking up his abode in the federal penitentiary," and that money appropriated by Congress for rehabilitation and care of the disabled had been dissipated by "unworthy members of the ring of the veterans' bureau."

Governor Smith was credited with being responsible for the New York bonus act providing \$45,000,000 for world war veterans, and for a large number of other measures, many of them pushed through against Republican opposition, in behalf of the soldiers.

"I appeal to the Democratic veterans of the state to stand firm for the man who has been the friend of their unfortunate comrades," Col. Langston said, "and let Alfred E. Smith demonstrate to the nation the ability that has made him the idol of the veterans of your sister state."

Hassell To Attempt Ocean Flight Again Sometime Next Year

Copenhagen, Denmark, Sept. 26.—(AP)—Bert Hassell, American flyer, who arrived here today from Greenland with his trans-Atlantic companion, Parker Cramer, announced that he would make another attempt next year to fly from the United States to Stockholm by way of Greenland.

Hassell and Cramer, who were rescued in Greenland after having been stranded in the Arctic wastes, arrived at Copenhagen aboard the steamer Fulton.

## AL SMITH TO MAKE SPEECH AT ST. PAULS

### Democratic Nominee To Be Entertained By Committee At Minneapolis Today.

By D. HAROLD OLIVER  
(Associated Press Staff Writer)  
St. Paul, Minn., Sept. 26.—(AP)—An overnight ride through the mountainous regions of Montana brought Governor Smith into North Dakota today, but he faced another day and night journey by train before reaching the twin cities of Minnesota.

Tomorrow night at St. Paul he is to deliver his fifth speech of the campaign, following a reception at Minneapolis.

There were indications that the "minnie" probably would elaborate at St. Paul on some of the issues he already had discussed, particularly farm relief and allied topics that might appeal to the northwestern independent political elements.

Mandan, across the Missouri river from Bismack, the capital, was the first stop on the Governor's schedule today. Governor Walter Maddock and other North Dakotans planned to board the special shortly before noon.

At his first night press conference on his special train last night, Governor Smith made it plain that he was choosing his campaign themes as he goes along.

"I have not any set method," he said. "The ideas just come to me." He reiterated that his Oklahoma City speech would be his last on the question of religion in politics, and said his personal political impression after his two-day visit to Montana was that everything appeared all right.

Asked if he had noticed any evidences of "the distress about which you have been told about in New York," in the farm regions he has visited, the Governor replied: "What do you mean by evidences—physical evidences?"

"Yes," the reporter returned, "lack of painted houses, run-down condition of farms, fences and so forth."

"I could not say as to that because I have not seen any farms. They have been so far away from the railroad track that you could not tell whether they were painted or not."

He added that he did not regard such scenes, if any existed, as "a barometer of conditions."

"That may be carelessness," he explained, and continued, "I have not been looking out of the windows while we have been traveling. I have been working. The only thing I have seen so far are the cities. All the other times I have been obliged to stay at my knitting."

Asked if any State leaders had told him about the condition of the farmers, whether they were suffering or in prosperous circumstances, he Governor said he did not think such information could be obtained, except through statistics.

"You cannot tell anything about the financial condition by looking at him," he said.

The Governor said he had received telegrams from all over the country expressing approval of the way in which he presented the question of party responsibility in his Helena speech, and that he had received more congratulatory messages on his Oklahoma City address than any he had made.

Detroit Man Claims He Shot Wife While Walking In Sleep

Detroit, Sept. 26.—(AP)—A plea that he was walking in his sleep when he shot and killed his wife, has been entered as a defense for Chester Kutzlub, 43, on trial here charged with murder.

William Cohen, representing the defendant, in his opening statement, said Kutzlub killed his wife while suffering from "somnambulism" and somnambulism.

Somnambulism was defined by the attorney as a state of sleep in which some of the sense and voluntary powers are partly awake, and "somnolentia" as the lapsing over of profound sleep in the domain of apparent wakefulness.

Kutzlub testified he apparently was walking in his sleep at the time he shot his wife and told of an attempt at suicide after discovering the deed. He said the report of the gun awakened him.

Three children of the couple testified their father walked in his sleep on an average of three times a week and asserted their parents never quarreled.

Felices who answered a call to the Kutzlub home on the night of the shooting, April 6, had told of finding the husband, grief-stricken, holding his wife in his arms. Mrs. Kutzlub died a few hours after being removed to a hospital.

### ANNOUNCE 1927 TAX ASSESSMENT

Raleigh, N. C., Sept. 25.—(AP)—An assessed valuation of \$2,934,013.735 for the tax year 1927, has been fixed as a basis for taxation of a North Carolina property, it was announced today by the State Board of Assessment.

This figure represents an increase of more than \$139,000,000 over the 1926 figure, \$2,794,831,069, and is second only to the 1920 figure, the first after a general revaluation of property which was \$3,156,000,000.

# NEW MEXICAN PRESIDENT TO BEGIN DEC. 1

## Emilio Portes Gil Elected To Succeed Late President Calles Last Night.

Mexico City, Sept. 26.—(AP)—Emilio Portes Gil, secretary of the interior, was elected today to succeed the late President Calles as president of Mexico on December 1. His election by deputies and senators meeting in a joint session last night was unanimous.

Portes Gil, a supporter of prohibition, is one of the new civilians who has ever been chief executive of Mexico. He has virtually secured the support of the big military figures who met with President Calles after he had renounced the presidency and pledged their support to the choice of Congress.

Portes Gil will serve from the time Calles' term expires until February 5, 1930, when a president is chosen in a general election on the third Sunday of November 1929. He succeeded Calles.

The assassination of General Obregon, elected as successor to Calles will not mark the end of the program which he mapped out in his campaign. Portes Gil having announced after his election that he would carry this out.

"My policy will be inspired by the highest principles of social equity and justice," Portes Gil said in a statement after his election.

"My task will be to continue the policies developed by President Calles in all branches of public administration and also to procure the fulfillment of the social program outlined by the late General Obregon."

Only one name appeared on the ballots which were slips of paper in the Mexican national colors, that of Portes Gil.

### In National Politics Today

(By The Associated Press)

Washington—National Republican chairman Work said Mrs. Wilbur, sometimes speaks under auspices of national committee, sometimes "on her own."

Baltimore—Senator Bruce issued statement by James A. McGrath, Baltimore attorney asserting Senator Curtis had given him and two others a drink of whiskey from a bottle which he carried in his pocket at Pimlico Race track; one of those mentioned issued denial.

Omaha—Senator Curtis denied charge made by McGrath, terming it a "wilful" malicious and deliberate "lie."

Washington—Hoover received reports on farm states from Governor Hammill of Iowa, and Walter J.

Kohler, Republican nominee for Governor of Wisconsin.

New York—National Democratic chairman Raskob said in radio address that economic rehabilitation of farm dress that American prosperity lies

states.

Kansas City—Senator Borah declared that prohibition legislation causing unrest in South; termed farm relief and dry laws only two real issues of campaign with former paramount.

Charlotte, N. C.—Dr. H. Q. Alexander, withdrew as vice presidential nominee of Farmer-Labor party to support Democratic party.

## TWO HURT WHEN CARS LOCK WHEELS NEAR BETHEL

Leon Kittrell of Ayden, is confined in a local hospital today suffering from injuries of a minor nature received in an automobile accident on the Greenville-Bethel highway last night. The car which he was driving locked wheels with another car owned by Earl Brown, of Greenville, but driven by Archie Williams, colored, while going around a curve one mile from Bethel, both cars being badly damaged by the impact.

Brown received painful bruises but the other occupants of the car escaped without injuries. Williams was held in the Bethel jail until this morning awaiting a report on the condition of Kittrell, who at first was thought to have been in a precarious condition.

Brown was bound for the Williamson Fair and Kittrell was headed toward Greenville when the wreck occurred.

Recover Stolen Car. An automobile belonging to Chas. Herr of Florida, stolen here last night, was recovered by members of the local police department this morning. The car was taken while Herr and members of his party were eating supper at the Parkerson dining room on Dickinson avenue. The automobile was said by police to be in good condition and none the worse for its use by the thief or thieves. Herr and his party were members of a Chautauqua troop that played in Winterville last night.

PAUL WHITEMAN IS COMING TO GREENVILLE

Paul Whiteman, himself, and his famous orchestra will be in Greenville on the evening of October 11. This will be the opening attraction in the fall series of entertainments offered by East Carolina Teachers College.

The "jazz king" and the thirty men composing his orchestra open the season on October first at Carnegie Hall, in New York City, and then start on an extensive tour. This engagement is among the earliest, therefore the people of eastern North Carolina will get the first opportunity to hear the new program that has been so widely advertised. New pieces written especially for this orchestra will be combined with popular numbers. They have only two other engagements in North Carolina, and neither of these is in the eastern section.

If you have property to sell, consult with us. It will pay you well. H. A. White & Sons, Realtors, General Insurance, 403 Evans St., phone 49.

U. D. C. To Meet Thursday. The United Daughters of the Confederacy will meet with Mrs. R. G. Fitzgerald, Thursday afternoon at 3:30 o'clock. Mrs. A. J. Moore and Mrs. J. L. Brinkley will be assistant hostesses. As this is the last meeting of the year all members are urged to be in attendance.

GRIMESLAND P. T. A. ENTERTAINS TEACHERS

The P. T. A. of Grimesland entertained the teachers last Monday evening from eight to ten at the school building. The high school room was beautifully decorated with baskets of cut flowers.

Mr. J. L. Worthington, our principal, introduced all the teachers. Mr. J. J. Elks, chairman of the school board, welcomed them on behalf of the committee. The teachers responded to the welcome after which welcomes were extended from the different organizations and the churches of the town.

Miss Power, director of the Radcliffe Chautauqua, which showed here last week, was present and made a few remarks about the Chautauqua.

Mrs. A. S. Porter, chairman of the entertainment committee, then took charge of the meeting.

The entertainment consisted of a suitcase race in which six men of the town participated. Dr. Drewry being the successful contestant was awarded a cigar and a paper race in which Mr. J. P. Wilson was the successful contestant, he being awarded a handkerchief.

Delicious refreshments were served during which Miss Ruth Lewis and Mrs. W. H. Drewry each gave a reading which everyone greatly enjoyed.

WARD MAKES SERIOUS CHARGE AT FAYETTEVILLE

Fayetteville, N. C., Sept. 25.—(AP) Hallet S. Ward, former Congressman from the first district, in a Democratic campaign address here yesterday declared his belief that Frank R. McNinch, of Charlotte, anti-Smith Democratic leader, and Frank Hampton, secretary to Senator F. M. Simmons, "had a hand in secret workings" within the party of the anti-Smith forces. The speaker said he would retract his charges if investigation proves them unfounded.

Twenty More Babies Enter Baby Show

The Baby clinic that was held yesterday was a huge success, and the little ones seemed to enjoy the examinations very much indeed. The Pitt County Health Department doctors and nurses under the direction of Doctor Futrell, Miss

Fentris, and Miss McKee, worked yesterday and today it is said now that some of the babies that were examined are in tip top shape—and stand a very wonderful chance of walking away with some of the many beautiful prizes that will be awarded at the Pitt County Fair on Hygiene Day, which is Friday, October 5th. That day is designated to the little ones—for it is the first time in the history of the Pitt County Fair that they have ever had a Grand Prize baby show. It may be said also that one of the city's officials had the pleasure of seeing the health chart after the examination had been made, and this official was so surprised that he is going to have his baby examined according to this wonderful health chart. Folks, it is your baby show and it is up to Greenville to SUPPORT it. It may be some time before we again have the pleasure of having an official Baby Show Director as capable as Verne Newcombe to arrange another show as fine as this one is arranged. This young man is in demand all over the country at the present time—and immediately after completing the Baby Show in Greenville he leaves for Birmingham, Alabama, where he will begin arrangements for another show, on October the 8th.

Today there were twenty more babies examined for the Health and Beauty Chart. The race is on in full blast for the Grand Prize Loving Cup and the \$50.00 in gold, and it seems that there will be more interest displayed as the time of closing nears. The loving cups have been purchased from Tolar Jewell Company who are the official jewelers for this event.

## ABOUT TOWN

"Resources and possibilities of Pitt county are unlimited", Carroll Holmes, son of J. W. Holmes, prominent Farmville business man, told members of the Rotary club here Monday night.

"Pitt county holds forth wonderful opportunities for development, and a man or woman that starts out to render real service in this progressive period will be well rewarded for all labor expended in the effort. Numbers of others will agree with the young lawyer recently admitted to the Pitt county bar, and feel confident his vision will mean much to the community he has chosen to spend his life.

"The tobacco situation will be discussed at the courthouse Friday afternoon under auspices of the Eastern Carolina Chamber of Commerce", a member of the tobacco industry told us today.

"At this meeting problems confronting the grower at this time will receive consideration. Prices and reduction of acreage will form the main points of discussion.

"This is the first time such a meeting has been held here in quite awhile and it is more than likely numbers of planters will turn out to see exactly how the plan of relief sounds to them."

"This is your fair and you should support it", R. G. Fitzgerald, director of the Pitt County Department of Education, told members of the Rotary club in regular weekly session Monday night, speaking of the Pitt county fair which opens next week.

Mr. Fitzgerald is well acquainted with development of the different departments of the fair by reason of his close association with the officials of the institution. He realizes that the attraction can never be made the great success it ought to be if the people do not cooperate as they should. He stressed the need of everybody taking an active interest in the various departments and in that way show the outside world what Pitt county has to offer in the way of resources and possibilities.

"The county schools always have splendid educational exhibits at the fair. These are conducted under direction of members of the Department of Education, who realize that a competitive spirit should have a good effect upon the students.

"Go out and see what your coun-

ty is doing in the way of agriculture, education and industry", Mr. Fitzgerald told the Rotarians. You will profit by the experience".

"We want every Democrat in Pitt county to have his name in these books", said W. E. Hooks today, referring to the signing up of members to the Pitt county Democratic club.

"Clubs are being organized in every precinct of the county. Every Democrat should see to it that his name is placed on the club's books and in that way let other members of the party know that he is representing everything the party stands for.

"I have been successful so far in getting up people in the many precincts of the county and hope to have every real Democrat ready for battle when election day rolls around."

"The opening of the Eastern Carolina Chamber of Commerce has brought the usual number of young women to Greenville for the fall and winter season", commented a local citizen today, as he observed the throngs of young people crowding the sidewalks of the business district.

"One thousand young women coming into the city within a space of two or three days certainly adds life to the part of the town in which the college is located and also in other sections when visiting days roll around.

"Greenville extends a cordial welcome to the students and hopes they will find the term both pleasant and profitable."

"Just because man hits the bull's eye ever now and then is no reason for him to think he is the only straight shooter in the world", observed a business man today, yielding to a philosophical trend of thought.

"I've seen many a fellow go down in defeat after covering himself with glory on some other occasion. It's one of life's ironies—this mixture of success and defeat. If everything was success, it wouldn't be long before we tired of it. A little adversity from time to time tempers a man and gives him a keen appreciation of the blossoms plucked from life's hard field of battle."

"In case you didn't get the opportunity of coming to Greenville while the fall fashion show was in progress, you should come now and look over the stocks before they are depleted by the heavy buying of shoppers from Greenville's fifty mile trade territory", said a member of the Merchants Association today.

"Greenville merchants probably have the most extensive offerings than ever before. Values compare favorably with the larger cities and

go to show that quality and prices go hand in hand here.

"If you haven't done your fall and winter shopping, get busy and do so while you have the opportunity of selecting the best the stores have to offer."

### Probe Smuggling Of Arms Into Pen At Atlanta, Ga.

Atlanta, Sept. 26—(AP)—Warden John W. Snook disclosed today that two Department of Justice agents have been here a week investigating the manner in which two pistols were by Roy Garner, Louis Brandt, and others in a recent attempt to escape, were smuggled into the Federal penitentiary.

The Atlanta Constitution said today that unconfirmed reports from Washington were to the effect that the two operatives also had been ordered to begin a "secret inquiry into affairs" at the prison, but Warden Snook said he was unaware of it if such instructions had been given.

The warden said he was not in a position to discuss reports published in the Constitution that an undercover agent had been "planted" in the prison since the first of the year, later being transferred to Leavenworth after having been interviewed by one of the operatives now here.

A Detroit prisoner, Peter Hansen, whose records show was committed for a year and a day for prohibition law violation, was linked by the Constitution in this unconfirmed rumor after the newspaper said an investigation by it had failed to reveal any record of his conviction in Detroit, where he was committed the first of the year.

While a prisoner here, Hansen was said to have communicated

#### Notice

By a resolution this September 3, 1928, adopted by the Board of County Commissioners for Pitt County, said Board was authorized to borrow \$75,000.00, and to issue therefor the following notes in the following amounts and maturities: \$25,000.00 due January 1st, 1929. \$50,000.00 due February 1st, 1929. Said notes bearing date of October 1st, 1928, with interest.

And notice is hereby given that proposals will be received at 12:00 o'clock, Noon, October 1st, 1928, for the purchase of said notes. The right to reject any bid or proposal is reserved.

This notice is given in accordance with Article 3, Section 60, of the County Finance Act of 1927.

J. C. Gaskins,  
Clerk to the Board of County Commissioners.  
Sept. 26-4t.

Those in charge of the campaign in this county urge the ladies especially to attend the speakings and it is to be hoped that they will turn out in goodly numbers.

#### LEOPOLD AND LOEB

Despite the fact that Leopold and Loeb were convicted and sent to prison with a recommendation that would prohibit any chance of future parole, now comes the statement that the finding of an error in the mittimus makes the two criminals eligible for parole in six years.

The News and Observer, declaring that the first error in the Leopold-Loeb case was when the two young men escaped the gallows and that public opinion will rebel at their ever again being given their freedom, says:

Because of an error in the 'mittimus' Leopold and Loeb perpetrators of one of the most revolting crimes of this generation, it is said, will be eligible for parole in seven years.

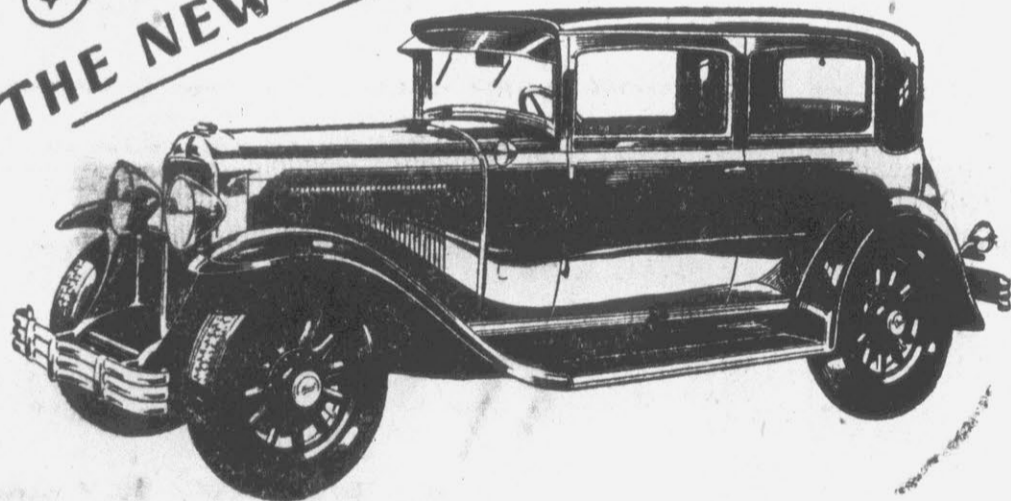

"The statement to this effect from Chairman Hinton Clabaugh, of the Illinois State Board of Pardons and Paroles, does not elaborate on the error. Whatever error there was occurred in the formal commitment of the two men to the Joliet prison. It is technical error. It is an error that legal minds hunting for fine distinctions may find but that popular judgment will not find, appreciate or approve.

"The first great error in the Leopold and Loeb case was their escape from hanging. If there was ever a need for capital punishment it was there. The next error was on the part of the prison administration which gave to these sons of wealth who are pampered pets in Joliet jobs as private secretaries to the chaplain and the warden.

"Common sense will not stand for the legal outrage that any mistake in a paper writing, separate and apart from the conviction and the sentence of these two master criminals, shall now set them free."

# THE NEW BUICK IS THE new style

### An entirely new scheme of body lines and contours... the most costly paneling employed on any automobile in the world... and the richest upholsteries and appointments ..... distinguish Buick's new Masterpiece BODIES by FISHER

The Silver Anniversary Buick is kindling more interest—drawing more people to the display rooms—winning more praise—and creating a demand so sweeping and so insistent that Buick's vast factories have reached new levels of production in attempting to keep pace.

—all because it is not only the most brilliant performing automobile of the day, but also because it marks a new style—a thrilling new mode of car design—more beautiful, more luxurious and more graceful than any the world has known!

An entirely new scheme of

THE SILVER ANNIVERSARY

# HARD HITTERS IN ATHLETIC'S OUTER GARDEN

By HERBERT W. BARKER (Associated Press Sports Writer)

As if by usual consent contenders in baseball's two major league pennant battles have settled into a perfect lock-step which, if maintained, in unbroken rhythm, automatically will carry the St. Louis Cardinals and the New York Yankees into the world's series.

The Cardinals and the New York Giants have matched strides for several days with McKechnie's men always a jump ahead in their fight for the second National League pennant in three years. In the American League, Miller Huggins Yankees have been content to win when the Philadelphia Athletics won and to lose when their only rivals saw fit to do likewise.

With the end of the campaign only five days away, the Cards today led the Giants by a single game while the Yankees enjoyed a two game margin over the Athletics.

There was no change in the situation yesterday for the leaders in each league were returned victoriously.

The Giants and the Cardinals, however, both had close calls.

The Giants apparently were doomed to defeat at the hands of Eppa Rixey and the Cincinnati Reds when the last half of the ninth opened. Here Rixey gave Bob O'Farrell, a pinch hitter, the only pass he issued. O'Doul ran for O'Farrell but was forced out at second by Welch. The latter, however, scored the tying run on Andy Reese's triple to right field. Joe Stripp fruitlessly protested that spectators had interfered with his fielding of the ball. In this crisis, Leslie Mann came through with a single, scoring Reese with the run that gave the Giants a 4 to 3 victory.

The Cardinals were given a terrific battle at Brooklyn but finally edged out a 4 to 3 win in 15 innings. Douthitt's Texas League double scored Rabbit Maranville with the winning run.

The Chicago Cubs all but passed out of the pennant picture when they were beaten by the Phillies, 5 to 2.

The Pittsburgh Pirates needed most of their 17 hits to score a 13 to 8 victory over the Boston Braves.

The Yanks socked George Grant and Bill Payne for six runs in the first inning and had no trouble coasting to a 10 to 1 triumph over the Cleveland Indians.

Jimmy Dykes got five straight hits as the Athletics crushed the Browns 9 to 5.

In the only other American League engagement, Washington strengthened its hold on fourth place by turning back the Chicago White Sox again, 3 to 0.

## MANDELL IS STILL LIGHTWEIGHT CHAMPION

Flint, Mich., Sept. 26.—(AP)—Sammy Mandell was still lightweight champion of the world today due to the foresight of his manager, Eddie Kane.

Although he was the victim of a technical knockout at the hands of Jimmy Goodrich in the second round of a ten round bout here last night, Mandell's title was not affected because of a stipulation inserted in the articles of the agreement by Kane, that provided the Buffalo veteran must weight in over the lightweight limit of 135 pounds.

A roundhouse right swing that landed early in the first round broke the champion's collar bone and although he finished the session he was unable to respond to the call at the start of the second round.

## LITTLE WORLD SERIES OPENS TODAY

Rochester, N. Y., Sept. 26.—(AP)—The Little World Series for the Class A championship of organized baseball opens here this afternoon.

Rochester of the International League and Indianapolis of the American Association, won their respective circuit races by narrow margins and look to be evenly matched.

## NOTRE DAME SHORT OF GRID MATERIAL

Chicago, Sept. 26.—(AP)—Now is the time for all good supporters of Notre Dame to join with Knute Rockne in bemoaning with the scarcity of football material at South Bend.

It has been reported that Notre Dame's current football team will not measure up to the usual high Rockne standard, and there may be some truth in the gossip, if Rockne's analysis of his squad is any criterion.

Rockne is just a little more pessimistic this year than usual as he meditates over the loss of all except two regular linemen from last year's squad, although a smile spreads over his face as he watches a host of light, speedy, backs tear around the end or work a pretty lateral pass for a substantial gain against the freshmen.

# CARDINALS AND YANKS HOLD LEAD

New York, Sept. 26.—(AP)—It wouldn't have taken more than one guess to pick the heaviest hitting outfield in baseball last year. The Yankee combination of Ruth, Meusel and Combs wrought havoc on all sides. This season, however, its edge run power has waned, especially since July, so much so that the Athletics now boast the heaviest attack of any of the four clubs in the closing pennant scramble.

The Yankee trio boasted a combined average of .350 with the stick in 1927 but the latest unofficial averages show a falling off to .317, with the chief reservist, Ben Paschal, around in the same notch. The Athletics are ten points higher with a mark of .327 for the four who have seen the most service—Simmons, Miller, Cobb and French.

The reversible Giant outfield forces offer considerable contrast. The strongest trio at bat, averaging around .320, consists of Welsh, Ott and O'Doul. The combination of Welsh, Reese and Mann is barely able to muster an average of .300 but it is more effective against southpaw pitching. The youthful Ott is the hardest natural nutter in the collection but Welsh and Reese have been setting a terrific pace lately.

The Cardinals have a great slugger in Chick Hafey, who hits them earnestly and far but it takes his excellent mark of around .340 to

## Leads Georgia Tech

Facer Fund, husky center, will captain this year's Georgia Tech gridiron team.

pull the St. Louis average to .304 for the outer garden as a whole.

Douthitt covers a lot of ground in center but has not been hitting consistently. Harper and Holm, who divide the right field responsibilities, also are somewhat erratic. Defensively, the veteran Yankee trim is the best of the lot. There aren't two better throwing arms in the business than those of Ruth and Meusel while Combs is a ball-hawk. The loss of Eddie Roush cut down some of the defensive skill of the Giant outfield but Welsh has proved a capable successor.

## BAKER FACES REAL CRISIS OF CAREER

New York, Sept. 26.—(AP)—Sammy Baker, rugged little fighting man from Mitchel Field, faces the real crisis of his career tonight. He meets Young Corbett the third of Fresno, Calif., in a return 12 round bout at Ebbets Field with a battle for the welterweight championship the reward of victory.

This pair tangled at Madison Square Garden recently, Corbett getting the decision although the fans, in general, seemed to think that Baker had won. Having had time to study Corbett's puzzling Southpaw style, Baker hopes to turn the tables on the westerner and thus earn the right to meet the winner of the forthcoming titular battle between Dundee and his negro conqueror, young Jack Thompson of San Francisco.

## MAY STAGE DUGAN FIGHT IN CHARLOTTE

Greensboro, Sept. 26.—(AP)—The Sid Terris-Billy Dugan fight, called off Monday night because of cold weather and poor crowd, will not be staged in Greensboro, promoters said today.

## MOORE HOPES TO RETURN TO MOUND IN SPRING

Holla, Okla., Sept. 26.—(AP)—Wiley Moore, New York Yankee pitcher recently temporarily returned to his own request, believes a winter of light work on his farm near here will bring his injured pitching arm back into condition, and that he will be able to return to the Yankee lineup in the spring.

# MELLON SAYS HE IS NOT IN LIQUOR GAME

## Writes Letter to Charlotte Man Denying Statements About His Connections.

Charlotte, N. C., Sept. 25.—(AP) Donald Mellon, secretary of the Treasury, has written a letter to a Charlotte man denying statements that he is connected with the liquor business in any way and that he was "the biggest liquor distiller in the world" prior to prohibition, was made by Andrew W. Mellon, Secretary of the Treasury, in a letter made public here today by C. M. Bell, chairman of the Mecklenburg County Republican Executive Committee.

Secretary Mellon took cognizance of statements said to have been made by Democratic party speakers in the State, when Mr. Setzer telegraphed him for "the truth of the situation." The particular statement to which Mr. Setzer referred was one made at Kannapolis by J. L. Campbell of Charlotte.

The secretary's denial was made in a telegram stating that Democratic speakers in this city have made charges that I owned and controlled more liquor than any man in the United States; also that I was the biggest distiller of whiskey; and you requested that I send to you, as chairman of the Republican County Executive Committee of Mecklenburg county, a statement of the facts as they relate to the charge.

In response to your request I have to say that the Democratic speakers' statements are completely false. I never was actively engaged in the distilling business and since taking office have had no interest in or connection with the distillation of liquor or any liquor business.

In this connection I am sending you a copy of a letter which I have written within a few days to the associated State superintendent of the Anti-Saloon League of West Virginia, in response to a similar request, and my answer as stated covers the whole of the subject.

The West Virginia letter follows: "I once owned some stock in a distillery company as I owned stock in many other business enterprises. The stock in this company was disposed of before I took office as Secretary of the Treasury. In fact, the distilling ceased from doing any of its manufacturing business over three years before prohibition amendment went into effect, and the entire business was wound up. At no time was I ever actively engaged in the distilling business. I have no interest in or connection with the distillation of liquor or of any liquor business."

### REIGN COUNT TO BE RACED AGAIN

Chicago, Sept. 25.—(AP)—Reign Count, winner of the Kentucky derby and leading purse winner of the turf season, will be raced another year. John D. Hertz, owner, announced today upon the arrival of the great three-year old in Chicago from a successful campaign in the East.

"Reign Count has won his last races with such ease that he must be an unusual thoroughbred," said Hertz. "Because of this we are going to race him another year before retiring him to stud to give him an opportunity of possibly stamping himself as one of the two or three great horses in turf history."

### CHICHESTERS PILLS

### SHOVELS OF COAL

Every winter you waste a lot of money—chase it up the flue, so to speak. And you will keep on wasting money until you regulate your heating plant.

In a ton of coal there are about 250 fair-sized shovelfuls. Well, every day that your heating plant is without a regulator, you waste three shovelfuls of coal.

Figure what this means in dollars and cents. A ton of coal costs, say, \$16. At this rate each of the 250 shovelfuls costs a little more than six cents. Three shovelfuls of coal a day wasted is nineteen cents a day wasted—108¢ through away.

Can you afford to waste nineteen cents worth of coal every winter's day? Of course you can't.

Stop the waste with a Heat Regulator. The Regulator will pay for itself with the money. But that isn't all. A Heat Regulator will give you just the heat you want at the time you want it—not too much and not too little.

**S. T. HICKS**  
GREENVILLE, N. C.

## Leon Cash Says B. & L. Protects Home Builder

The building and loan associations of North Carolina and the nation stand as a bulwark against unsound practices in home financing, a bulwark that is steadily growing in strength and in power for good for American home life, states Leon Cash, of Winston-Salem, president of the North Carolina League of Building and Loan Associations. He explains the essential difference in fairness between the building and loan method of home financing and other financial plans which are sometimes advocated by their promoters as "the building and loan plan."

Some of these schemes may seem like the building and loan idea on first consideration. "Presidential" Cash, but when an analysis is made of all their operations, they will be found to differ from the home loan plan through them will be at a great disadvantage of the reasonable return secured by the building and loan association for its services.

The close of the World War initiated an era of unprecedented activity in home building. The building and loan associations, for 100 years the chief factor in home financing, responded in a remarkable way to the demand, their assets leaping upwards to mount to over \$1,000,000,000 in 1926. The life insurance companies also entered the field of home financing and today these two agencies are financing 90 per cent of American home building. The life insurance companies have, as a rule, confined their loans to the more expensive type of

LOOK OVER OUR LINE

of high grade furniture. If you need anything of that kind you certainly cannot afford to make your purchases without seeing our display and comparing it with other furniture. Comparisons are not odious to us. We always gain by them. We expect to win with you if you will make the comparison we suggest.

**Home Furniture Co.**  
"Right Price Furniture Store"  
Cor 8th St. and Dickinson Ave.  
Phone 79

houses. The building and loan associations are not thus limited. While they have financed the construction of many expensive homes, they have continued to be practically the only fair source to which the budgets of small homes can turn for aid. The extent of this service can be seen in the fact that houses ranging in cost from \$1,500 to \$3,000 constitute about 80 per cent of the number of homes built in this country during the past year. It is only natural, says President Cash, that the heavy demand for home financing in recent years has led to other capital into the field, the most of it represented in mortgage companies, where a high return is necessary and is demanded for the investment. In most instances, these firms have tried to capitalize on the popularity of the building and loan installment payment plan. As a rule, the true rate of interest received by these home financing mortgage companies on monthly payment loans is prohibitively low, so that the rate may appear on the surface.

The building and loan association came into existence for the purpose of financing home construction and home buying at the lowest possible cost to the home owner and this great institution still stands, declares the president of the North Carolina League, as a safeguard against the exploitation of the home buyer by those who would enter the field for heavy personal gain.

### MOTORISTS MAROONED NEAR WILMINGTON

Wilmington, N. C., Sept. 25.—(AP) Motorists in thirty or more automobiles spent several uncomfortable hours last night on the highway between Cape Fear river and Alligator creek when high waters, backed up by the tide, prohibited their progress or retreat.

They were removed, according to reports reaching here, when the tide receded. The shoulders of the Cape Fear causeway were damaged by the high waters and motorists were warned that they traveled on them at their own risk.

# Market Report Cotton--Stocks--Grain

## COTTON MARKET

New York, Sept. 26.—(AP)—The cotton market opened steady today at a decline of 6 to an advance of 7 points, most months being a shade lower under realizing and southern selling, and probably some local selling on a relatively easy Liverpool cables.

The buying was more active during the middle of the morning on the low temperatures reported in the south. Prices advanced sharply with December selling up to 19.02 and March to 18.81, on a renewal of commission house buying and covering by recent sellers for a reaction. Increased offerings were encountered around the 19-cent level, which were absorbed on reactions of 15 to 18 points and at midday the market was firm again, within a point or two of the best.

## GRAIN MARKET

Chicago, Sept. 26.—(AP)—Suggestions that more export business in wheat from North America is going on than has been generally known of, tended to send wheat prices upward today. Besides, a decided falling off in the quality of wheat arriving at Winnipeg was noted, 60 per cent now grading No. 4 northern or better, against as high as 80 per cent of late. Europe was reported as after new corn from the United States, with bids within 2 1-2 cents of a working basis.

Wheat closed firm 1c to 1 3-8c net higher; corn 1-8c to 1 5-8c up; oats varying from 1-8c to 1-4c advance, and provisions unchanged to a setback of 35 cents.

## STOCK MARKET

New York, Sept. 26.—(AP)—Flurries of selling continued to sweep through today's stock market, but speculators for the advance aided by a reduction in the call money rate from 7 to 6 1-2 per cent, retained control of the general price movement. Early gains of 3 to nearly 10 points in some of the specialties were not maintained, but new leaders were brought forward whenever the old favorites showed signs of waning.

Except for the publication of optimistic weekly steel trade reviews, which emphasized the continuance of high production and a brisk demand and predicted heavy railroad buying, there was little in the day's news to influence the price movement. Banks called \$10,000,000 in loans, but new funds were quickly supplied and became so plentiful that the rate was lowered. Some money and commercial paper showed a firm undertone.

New 1928 peak prices were registered by Chrysler, Hupp, Electric Storage Battery, Electric Auto Lite, Gillette Safety Razor and Paramount Famous Lasky.

The closing was strong. Total sales approximately 4,200,000 shares.

## YOU MAY KNOW YOUR HUSBAND—BUT

New York.—(AP)—A Brooklyn man who has just got out of the Hoosegow by a writ of Habeas Corpus, insists that he is Samuel Frank and not his brother Albert. Mrs. Albert Frank disagrees. "I ought to know the man I married," she told Justice Humphrey. "This is my husband." And Frank interposed: "I never married this woman or any other woman."
