GERMAN ZEPPELIN IS SLIGHTLY DAMAGED

GIANT DIRIGIBLE HEADED FOR UNITED STATES TODAY WITH CRIPPLED STABILIZER

Sends Out Request For Cruiser To Follow Her Course While Repairs Are Being Made; Navy Orders Ships To Go To Assistance Of Bag If Needed.

Washington, Oct. 13.—(AP)—The navy department received a radio-gram from the Graf Zeppelin at 11:45 o'clock Eastern Standard time today stating that she was proceeding at a reduced airspeed of about 50 knots and that her position was 32 degrees north and 45 degrees west. The passage was rough, the message said.

The message sent at 6:30 o'clock Eastern Standard time and 11:39 o'clock Greenwich, said that the ship was damaged on the port horizontal and that repairs were being effected. It requested that a surface vessel in the vicinity follow the course of the airship.

It added that the air speed was 35 knots. Naval authorities here said that it was impossible to determine exactly how fast the ship was actually traveling compared to ground speed.

The dirigible's position was 1800 miles due east of Charleston, S. C., and 1100 miles due east of Bermuda.

The navy department ordered all the light cruisers stationed at Hampton Roads and the squadron of Destroyers at Charleston, S. C., to be ready to leave immediately for the assistance of the dirigible in case they were needed.

The Port Horizontal is a fin used as a stabilizer and for verticle motion of the ship and is located on the rear end.

Another message received from the Zeppelin said that at 2:00 p. m., Greenwich mean-time, or 9:00 o'clock Eastern Standard time, the ship was at latitude 33 degrees north and longitude 45 west, which indicated she had made some progress. The message said that the crew had effected limited repairs and at the time expected no need for the surface vessel. The message requested the latest weather reports. It was indicated that the Zeppelin had shifted her course direct for the naval air station at Lakehurst, N. J.

Naval Air Station, Lakehurst, N. J., Oct. 13.—(AP)—Informed of the message from the Graf Zeppelin, in which it was stated that the dirigible was having trouble with her Port Horizontal, officers of the air station said that the ship could make a landing on the ocean, if necessary, and that if weather were not too rough, part of her would probably remain afloat for 24 hours or more.

New York, Oct. 13.—(AP)—With her five 580-horse power motors driving a steady song of power and speed, Graf Zeppelin, huge trans-Atlantic liner, raced over the Atlantic today at between 75 and 85 miles an hour, headed for Lakehurst, N. J., via Bermuda.

Advices of unfavorable weather to the north dictated that the airship pursued a circuitous course to the south. Dr. Hugo Eckener, commander and builder, hopes to land at the United States naval air station at Lakehurst at noon tomorrow with his cargo of 20 passengers and mail from Friedrichshafen, Germany, demonstrating that crossing the ocean by airship is no longer mere adventure, but now is a commercial undertaking.

Four years ago today Dr. Eckener saw the dawn as he approached the Island of Sao Miguel, the Azores, on the ZR-3, now the Los Angeles. At dawn this morning the Azores were well behind him as he directed the Graf Zeppelin, half again as large as the Los Angeles.

Good weather aided the airship in making up for time lost in but-ranean air leaving Friedrichshafen, Germany at 2 a. m., Eastern Standard time, on Thursday. In swinging south to Madeira the dirigible entered a region of light variable winds which made passage easier. The dirigible escaped a disturbance north of the Azores by following a course to the south along which favorable trade winds might aid the 12-cylinder motors in speeding the ship.

If Lakehurst is reached by noon Sunday the airship will have re- (Continued on page five)

SINKING OF SUBMARINE IS MYSTERY

Forty-three Members Of Crew Of French Undersea Craft Lost.

Paris, Oct. 13.—(AP)—The French submarine Ondine, with 43 men on board, lay irretrievably lost many fathoms deep thirty miles off the shore of Portugal today while a considerable mystery prevailed as to the manner of her sinking by the Greek steamer, Alkaterini M. Gouladraris.

A statement issued by the ministry of marine represented the captain of the Greek vessel as having searched only two hours for survivors after the collision. A dispatch from the Rotterdam de Je Journal quoted the captain as having said he searched long and carefully and reported the disaster by wireless to all ships in the vicinity.

Le Journal's correspondent quoted the captain as relating that his ship was near the Portuguese coast at 11 p. m., Wednesday and all the crew except the watch, was asleep. The watch gave no warning but suddenly the occupants of the ship felt a violent shock. All rushed to the bridge. Both he and the crew saw clearly ahead of the ship a submarine whose nationality they were unable to distinguish in the darkness.

The captain was quoted as saying he and the crew realized that the steamer's stern had struck the stern of the submarine. After a few minutes the submarine disappeared beneath the waves. The captain then examined the bow of his vessel to find out the extent of damage she had suffered. He made urgent repairs and at the same time searched for the submarine. The submarine did not reappear and the captain immediately warned all ships in the vicinity by wireless and reported that his ship had been in collision with a submarine.

He said he searched all the morning of the next day and not until 1 o'clock Thursday afternoon did he resume his course to Holland, being convinced that further search was futile.

The French consul at Rotterdam who sent the first word of the disaster to Paris said that the captain had cruised only two hours over the spot before continuing his course.

Naval men said that they saw no chance of salvaging the submarine nor recovering the bodies of those not only was her exact position unknown, but also the operation was impossible so far out to sea and in such great depths.

Several Killed In Triple Train Collision Today

Gloucester, Eng., Oct. 13.—(AP)—At least eleven persons were killed with the possibility that the complete toll will be twenty, in a triple train collision this morning on the Birmingham-Bristol line. The bodies of the victims were so mutilated that none had been identified this afternoon. The number of injured was estimated at forty. The collision resulted from a delay in getting a freight train off the main line to a siding.

SEN. SIMMONS SCORES SMITH AT NEW BERN

Declares Democratic Party Is Waging Militant Whiskey Campaign.

New Bern, N. C., Oct. 13.—(AP)—Senator Furnifold M. Simmons, Democrat, of North Carolina, has hurled at his party the accusation that its presidential campaign is one in which hypocrisy is the predominant factor.

Addressing a meeting of "Anti-Smith Democrats" here last night, he declared that the party is waging a "militant liquor campaign" in the North while below the Mason and Dixon line it is evading the prohibition question and raising a cry of intolerance against those who honestly oppose Alfred E. Smith because of his attitude toward the Eighteenth Amendment and the Volstead law.

Senator Simmons has long been a leader of his party both in North Carolina and nationally. In addition to being identified actively with the drys of the senate, he has led the minority party in legislation pertaining to government finance and taxation. He resigned as national Democratic committee-man for North Carolina after the nomination of Gov. Smith and the naming of John J. Raskob as chairman of the committee. Later he endorsed the efforts of North Carolina Democrats opposing Smith.

Terminating prohibition "the paramount question at issue," Simmons last night asserted that the Southern electorate should not be "influenced by the smoke screen of intolerance" thrown about the campaign. He reiterated his charge that Governor Smith repudiated the party platform in his message to the Houston convention following his nomination.

Smith, he said, has "deliberately made the question of State control of liquor traffic" the major issue while the "Democratic national committee and party are conducting a militant liquor campaign in the North and East, and an evasive and soft peddling campaign upon the question of liquor in the South under the smoke screen of intolerance and religious prejudice."

He asserted that during the month of September Democratic speakers made an intensive drive in the South to "round up the masses of the people under the lash of party loyalty and regularity" and that in so doing they evaded the questions of both prohibition and immigration. Further, he declared, those who are "heart and soul" for the retention of prohibition have been told that "they are not opposed to Governor Smith because he wants to destroy this great reform but because of their bigotry and sectarian prejudice."

"I defy and spurn the man," he said, "who attempts to drive them with the party lash, who seeks to deter them upon the grounds of party loyalty from the free exercise of their righteous convictions."

The North Carolina senator predicted dark days ahead for the Democratic party if it "shall now in a victory by compromising, bartering away and trading its principles for expediency's sake." Such a victory, he declared, would be "more disastrous than many defeats" and result in party dissension and dis-ruption and possibly disintegration.

"It is to save the Democratic party from such a fate," he said, "that I am opposed in the election of Governor Smith. I am willing to cast my fortunes in the balance."

MAX GARDNER TO COME HERE OCTOBER 17

W. M. Whittington To Speak At Farmville Tuesday Night, October 16th.

Preparations have been completed for the coming here next Wednesday night of O. Max Gardner, of Shelby, Democratic nominee for Governor of North Carolina, it was stated this morning by W. E. Hooks, of Ayden, chairman of the Pitt County Democratic Executive committee.

Mr. Gardner will speak at the court house at 7:30 o'clock. He will discuss principal political issues of the present presidential campaign, outlining in detail the principles championed by the Democratic party in its fight for supremacy. The speaker will be introduced by M. K. Blount, member of the law firm of Blount & James.

Mr. Gardner has been greeted by tremendous crowds in all parts of the state where he has appeared. Mr. Hooks stated, and it is the desire of the local committee that the courthouse be packed to capacity upon his appearance here. Mr. Gardner has long been associated with the political life of the state. He has taken an active interest in many phases of public life, and his candidacy for the high office of governor is received with favor in many localities.

Another speaker of prominence will appear in the local campaign Tuesday night, Congressman W. M. Whittington, of Mississippi, addressed the voters at Farmville at eight o'clock. The speaking will be held in the high school auditorium and the largest crowd of the campaign is expected to be in attendance.

The appearance in this state last Thursday of Al Smith, Democratic nominee for the presidency, has resulted in a redoubling of effort of party members. Mr. Hooks said, Smith was widely acclaimed in all of the cities through which he passed and his response to the liberal welcome was spontaneous and pleasing.

Mr. Hooks declared yesterday that "Smith was the greatest man of the nation today" and expressed opinion he would be the next president of the United States. The county chairman was firm in his conviction that the State of North Carolina would give Smith a seven-tenths majority in the November election.

"There is little to fear about the outcome of the campaign in Pitt county," he declared. "Our people are heaving to the line and will go to the polls and vote for the principles that have made Democracy such an influence in the world affairs."

Organization of Democratic clubs in Pitt county is being conducted with great vigor in every township. It was stated, the campaign committees are leaving nothing undone in their effort to convince the voters of the necessity of going to the polls to express their preference in the approaching election.

Although he has not had a full opportunity to assess the immediate results of his Southwestern and Western invasion, so far Senator Robinson declares himself to be greatly pleased with such reactions to his visit as he has noted.

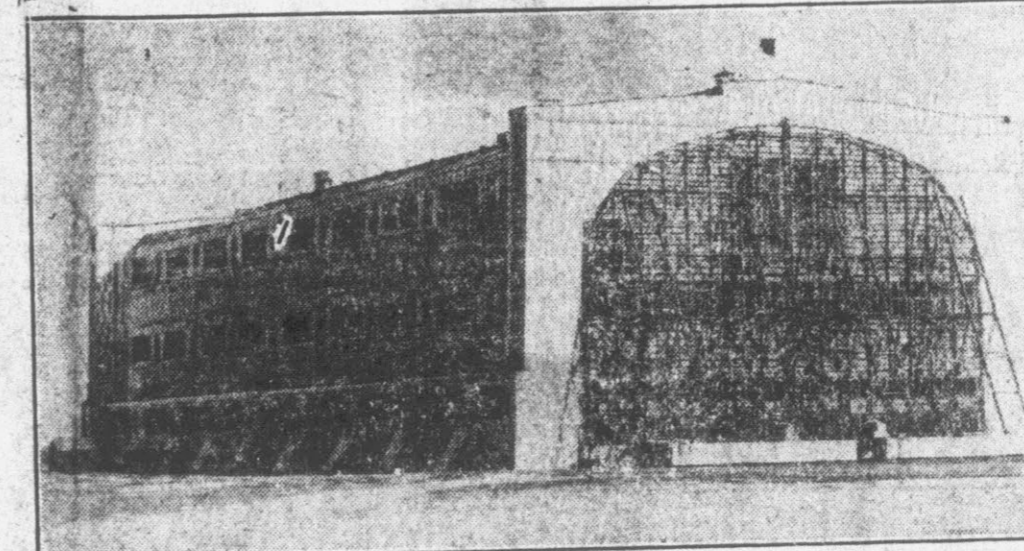

Custis Returns To Washington. Washington, Oct. 13.—(AP)—Senator Charles Curtis, the Republican vice-presidential nominee, returned to Washington today from a month's campaign in the west to resume the party's drive on the eastern coast.

Reaching the capital early in the day the senator went immediately to his office to take care of senatorial duties which have accumulated in his absence. He will leave tomorrow night for Raleigh, North Carolina, and spend next week on the Atlantic seaboard.

Mr. Edward Gann, a sister, and a group of friends met Senator Curtis at the train. He still carried the right hand in a sling because of the injury to a finger which was mashed in an automobile door, but otherwise he seemed none the worse for his arduous campaign of the last four weeks.

Late in the day the nominee plans to confer with Herbert Hoover and Chairman Work of the Republican National Committee. He has prepared a favorable report on the outlook in the states he has visited.

ROBINSON IS TELLING WEST ABOUT SMITH

Democratic V.-Presidential Nominee Emphasizes Views Of Running Mate.

By RAYMOND Z. HENLE. En Route With Senator Robinson to Seattle, Oct. 13.—(AP)—Out here in the normally Republican Far West, Senator Joseph T. Robinson, Democratic candidate for vice-president, is setting himself up as a political salesman, and his wares are the personality, accomplishments and governmental views of his running mate, Governor Smith.

Whenever he speaks it is not so much to criticize the opposition party and its candidates as to set what he himself thinks about the issues of the day as it is to emphasize what he regards as the progressive qualities of the man who heads the Democratic ticket with him. A certain formal part of his speeches, it is true, is devoted to purely political partisan discussion during which he endeavors to tear away at Republican policies and the informal and intimate phases of his campaigning which, in a word, is "selling Al Smith," as his associates put it.

The Democratic vice presidential nominee likes to tell his listeners about what he calls the "humaneness" of Governor Smith. On his trip from Reno to Seattle, where he speaks tonight, he told those who greeted him of the rise of Smith from a poor East Side New York boy to his present position of prominence.

When his campaign on the West Coast is finished, Mr. Robinson will turn Eastward, stopping at Boise, Idaho, early next week for a speech in the home town of Senator Borah, who has been campaigning for Mr. Hoover.

Although he has not had a full opportunity to assess the immediate results of his Southwestern and Western invasion, so far Senator Robinson declares himself to be greatly pleased with such reactions to his visit as he has noted.

Washington, Oct. 13.—(AP)—Senator Charles Curtis, the Republican vice-presidential nominee, returned to Washington today from a month's campaign in the west to resume the party's drive on the eastern coast.

Reaching the capital early in the day the senator went immediately to his office to take care of senatorial duties which have accumulated in his absence. He will leave tomorrow night for Raleigh, North Carolina, and spend next week on the Atlantic seaboard.

Mr. Edward Gann, a sister, and a group of friends met Senator Curtis at the train. He still carried the right hand in a sling because of the injury to a finger which was mashed in an automobile door, but otherwise he seemed none the worse for his arduous campaign of the last four weeks.

Local Tobacco Market Passed Thirty Million Pound Mark Yesterday

The Greenville tobacco market today was over two million pounds ahead of last season's sales for the corresponding period ending yesterday, according to official report of the market's activities made public this morning by K. W. Cobb, secretary of the Greenville Tobacco Board of Trade. Total sales, including those of yesterday, today amounted to \$5,514,564. For this amount of tobacco the farmers received \$5,455,644.17 at an average of \$17.73 per hundred pounds. For the same period last season the market had disposed of 33,244,598 pounds. For the entire week ending yesterday the market sold 5,574,482 pounds for a total sum of \$1,276,795.49. The average price for this amount was given at \$22.94. For the corresponding date last year, 4,736,696 pounds of leaf had been sold for an average of \$24.43. The market continued selling over a million pounds of tobacco daily yesterday. Total sales amounted to 1,120,670 pounds. The farmers received \$259,428.22 for this amount, the average being \$23.14. The report stated that the quality of leaf had undergone a pronounced improvement in the last several days. This was largely responsible for the sky-rocketing of prices reported from day to day. Thursday saw the highest average price of the season, with sales yesterday falling only a few cents shy of the record. With Indian summer weather prevailing throughout Eastern North Carolina, tobaccoists said today they believed heavy sales would continue for many days yet. While numbers of farmers have been housing their cotton crop and attending to other "harvest days" demands, many abandoned their tasks this week to make their pilgrimage to the shrine of bright leaf tobacco. Increased prices have had a psychological effect upon hundreds of growers, and from now until Thanksgiving the cream of this great bright leaf tobacco belt will be offered for sale.

COLD WAVE HITS WEST

Indian Summer Routed By Snow and Rain In Rocky Mountain States.

Denver, Oct. 13.—(AP)—The plains country, from the Great Lakes to Oklahoma, today felt the dying gusture of an unseasonable wintry storm which swept into the Rocky Mountain States three days ago, routing lazy Indian summer weather.

As the storm spread eastward toward the Mississippi bringing drooping temperatures, rain and snow spits, slowly rising temperature and clearing skies in the middle Northwest proclaimed passing of the storm from the mountains. Snowfall had abated in Wyoming, where the storm, which reached blizzard proportions yesterday, marooned tourists, halted air mail and delayed train mail and impeded wire communication.

More than 50 automobile tourists escaped possible freezing to death through the heroism of an unidentified woman who led a relief party from Rock Springs to their marooned automobiles along the Lincoln highway between Baxter station and Bitter Creek, Wyo.

The rescuers worked for more than four hours extricating cars, caught in the blinding storm. The occupants and rescuers suffered severe privations from the intense cold. In several cases occupants of the cars had left their machines and attempted to rush on to shelter along badly drifted highways. These persons were near collapse when found.

The skies were reported clearing and temperatures rising over Montana, first to feel the effects of the storm which blew in from Alaskan wastes Wednesday.

New York, Oct. 13.—(AP)—One jump ahead of cold wave which is forecast to reach the Atlantic seaboard from the West tonight or tomorrow, old man summer celebrated Columbus day by sending thermometers to new high marks in the East.

Mother Drowns Three Children In Detroit River

Detroit, Oct. 13.—(AP)—Mrs. Beatrice Canica, 32, drowned three of her five children in the Detroit river shortly after midnight and attempted to drown the other two and herself. Those drowned were: Nita, 3 years old; Mary, 2 years old; Gloria, 8 months.

The other two children, Nellie 8, and Lorenzo, Jr., 7, although thrown into the river by their mother were able to rescue themselves and call for help. When attaches of the local harbor master's office arrived the woman was holding one of the three victims under the water. She was dragged from the water, the child, Gloria, was dead. Mrs. Canica and the two rescued children were taken to a local hospital where the mother was detained for observation. She was hysterical and wept continuously for the baby Gloria.

Reaching the subject of water-power about the halfway mark in his speech, the nominee declared, amid laughter and applause, that he had carefully scrutinized Mr. Hoover's Tennessee speech but found not even an indirect reference to Muscle Shoals.

"He treated it as though it was not anywhere near here," the governor added, and then quoted Mr. Hoover as saying: "There are local instances where the government must enter the business field as a byproduct of some great major purposes, such as improvement in navigation, flood control, scientific research, or national defense, but they do not vitiate the general policy to which we would adhere."

"Anybody who can make anything out of that is entitled to have it," the governor asserted, and more laughter followed.

The governor reaffirmed the government ownership and control stand he took in his Denver speech, declaring the agency, whether state or federal, should "not only own the site but should own and build and operate the power house" of water-power projects.

Frequently interrupted by cheers of "Well em, Al," "Give it to 'em Al," the New York executive brought perhaps his greatest applause near the end of his speech when, in discussing prohibition, he repeated his acceptance speech pledge that if elected he would abide by the oath to "sustain the constitution and laws enacted under it" to the "deadly limit."

Quoting Mr. Hoover as saying that the eighteenth amendment was "intended to protect the American home," the governor said: "I hope he does not mean by that anybody not in sympathy with it is against the American home. That is a pretty hard thing for anybody to say. I have as much interest in the American home as any man in America today. I have maintained it in a mansion supplied to me by the people of the state of New York for eight solid years."

SMITH FLAYS REPUBLICANS AT NASHVILLE

Democratic Nominee Moved To Louisville Today For Speech Tonight.

By D. HAROLD OLIVER. (Associated Press Staff Writer) Louisville, Ky., Oct. 13.—(AP)—Governor Smith and his party arrived today in Louisville where the Democratic candidate will make an address tonight.

The governor was given an ovation as he went from the train to an automobile to lead a procession to his hotel. The Young Men's Democratic League turned out in full wearing brown berets.

The campaign special had been purposely sidetracked 30 miles outside Louisville for several hours early today to allow the Smith party to get some rest after the huge demonstration given them last night in Nashville, Tenn.

Governor Smith's Train Enroute To Louisville, Oct. 13.—(AP)—With four speeches behind him in the Democratic "Solid South" and the border state of Tennessee—all un-scheduled before he left New York Wednesday night on his second campaign tour—Governor Smith came on to another political battleground today to let loose a broadside at his opposition on the tariff question.

Tonight at Louisville, which he was due to reach in the forenoon, the Democratic presidential nominee will, to use his own language, attempt to "straighten out" the controversy that has arisen among the chairmen of the Republican and Democratic National Committees, Senator Curtis, the Republican vice-presidential candidate, and others as to his stand on the tariff.

Speaking last night before a crowd that jammed into the 5,000 seats at Ryman auditorium in Nashville, Governor Smith ripped into his Republican opponents and President Coolidge in connection with their farm relief and Muscle Shoals stands; attacked Herbert Hoover's Tennessee remarks on prohibition, waterpower, and immigration, and outlined his previously declared attitudes of some of these questions.

In speaking extemporaneously, the governor omitted several paragraphs of the speech which he had prepared in advance dealing with his previously stated views on some of the issues, but he took almost a full hour for what was to have been a 30 or 40 minute address.

Reaching the subject of water-power about the halfway mark in his speech, the nominee declared, amid laughter and applause, that he had carefully scrutinized Mr. Hoover's Tennessee speech but found not even an indirect reference to Muscle Shoals.

"He treated it as though it was not anywhere near here," the governor added, and then quoted Mr. Hoover as saying: "There are local instances where the government must enter the business field as a byproduct of some great major purposes, such as improvement in navigation, flood control, scientific research, or national defense, but they do not vitiate the general policy to which we would adhere."

Politics Reach Torchlight Stage With Plenty Light

By BYRON PRICE
(Associated Press Staff Writer)
Kansas City, Mo., Oct. 13.—(AP)—Politics has reached its torchlight season, and up quarter of the whole horizon is left in darkness.

In every section of the country, the final intensive bid for votes is on. This time it is no part of the scheme of things on either side to leave any debatable precinct undebated.

During the past week the Southern border strip, most successively to Hoover and Smith, has been the hub of the pre-election whirl, while other sections have been under the exhortations of the lesser leaders.

In Tennessee the Republican nominee made his appeal not only to the border states, but to the South as well. His Democratic opponent has carried his "meeting and greeting" campaign through Virginia, North Carolina, Tennessee and Kentucky with only a few short speeches as he approached Louisville, where he is to deliver his first prepared address tonight.

Throughout the whole border strip, from Maryland on the east to Missouri and Oklahoma on the west, many uncertainties continue to figure in the calculations of the politicians. All of these states are claimed by both sides, but when they speak of majorities neither sets the figure very high. They are down to the in-fighting now, and three weeks of terrific effort lie ahead.

At the present delicate stage of the campaign there is much talk of "reactions" and "returning tides," but when these terms are used by the Republicans they usually apply to the West, and when they are used by the Democrats they usually apply to the South.

Over the western farm country, Republican leaders are saying they have seen definite indications that the Democratic farm campaign has passed its zenith, and that a steady pre-election swing to Hoover has succeeded a period of uncertainty. Over the South the Democrats speak of a rebound from the Anti-Smith agitation, and a return to the normal order of Democratic solidarity.

Both of these assertions are denied as often as they are made, nor does there appear to be any diminution of the fervor with which the Anti-Smith leaders are wooing the West, or any armistice in the Anti-Smith operations in the South. The Smith farm leaders have begun a far-flung radio campaign in the corn belt, and a lock-out and a shower of eggs failed to prevent W. D. Upshaw from making good his determination to speak against Smith in Mississippi.

One of the peculiar features of this peculiar campaign is the continued failure of the disputants to agree upon what issues the cam-

aign is being waged. In most of the other stirring battles of political history, at least one clear-cut and definitely joined issue has stood in relief. This time the situation is not so easily resolved.

The Republicans are putting greater and greater emphasis on the tariff, but Chairman Raskob has declared that Gov. Smith fully understands the need for protection, and that the tariff has no place in the campaign. Out of the several-sided argument started by this statement has emerged a demand by Senator Curtis that the Democratic presidential nominee make good his promise to discuss this subject in detail.

While Senator Curtis has been hammering away on the tariff in the Northwest, Senator Robinson has been making a series of speeches in the far West accusing Mr. Hoover of inconsistency in regard to Boulder Dam, and Mr. Hoover, in Washington, has further clarified his views regarding Muscle Shoals and the St. Lawrence waterway.

An entirely new campaign argument was given momentary currency during the week by former Senator Hansbrough of North Dakota, who said in a radio speech that Mr. Hoover had large oil holdings in Colombia and Mexico. The shower of denials included one from Democratic headquarters, in which Chairman Raskob said he knew there was "absolutely no truth in the charge."

In these closing weeks, woman's place in the campaign seems to grow ever greater. In many communities women have thrown their energies into the battle with a zeal difficult to match in the annals of the man-made campaigns of the past. As a political analyst as Senator Moses said a few days ago that the votes of the women probably would be the deciding factor on election day.

Impressed by the activities of the "Hoover women" from coast to coast, Republican leaders count the nationwide increase in the number of registered women voters as a distinct Hoover asset. But the Democrats reply that many farm women who never saw a polling place before will vote this time for Smith, and that many women among the foreign elements, heretofore aloof from politics, will help to swell the Democratic total.

As the last of the states complete their registration, prospects for a record-breaking turnout of both men and women on November 6th grow better every day. Great proportionate increases in the registration lists are reported alike from the crowded wards of New York City and the sparsely settled rural counties of New Mexico. In 1920, the first year of nationwide woman suffrage, the total vote for

HOOVER HAS FINAL PLANS TO CONSIDER

Republican Candidate Asked to Make Daylight Trip Through Virginia.

By JAMES L. WEST
(Associated Press Staff Writer)
Washington, Oct. 12.—(AP)—Three alternate proposals for the final campaign swing Herbert Hoover will make across the continent are at present under consideration with the Republican presidential candidate urgently requested to make two or three addresses en route.

The first proposition is that the nominee make a daylight ride across West Virginia and then swing into Kentucky for a visit to Louisville with St. Louis as the next city of call where the major address of the trip would be made.

From St. Louis the route would be to Kansas City for a stop of an hour or more there for a procession through the main streets and then a southward run through Oklahoma the Panhandle of Texas, New Mexico, Arizona and Southern California to the Hoover home at Stanford University.

An alternate proposal is that Hoover go directly from Washington to Chicago and then to Milwaukee, Minneapolis, across North and South Dakota to Butte, Mont. This would take the candidate over much the same route his Democratic opponent followed in his swing across the northwest.

From Butte the route would be to Ogden and thence across the Great Salt Lake and the Nevada desert to San Francisco. This was the line over which the nominee passed when he went to Palo Alto for his notification ceremonies, while the other line to the south generally would parallel the route as far as Kansas City in returning to Washington after the notification.

Party leaders in the middle mountain states, such as Senator Phipps of Colorado, and Smoot of Utah, are insistent that whether Hoover goes from Washington by way of St. Louis or by Chicago, he so fix the far western itinerary as to take in their states. Phipps urges that Hoover speak at Denver and Smoot has made strong representations in favor of an address also in the

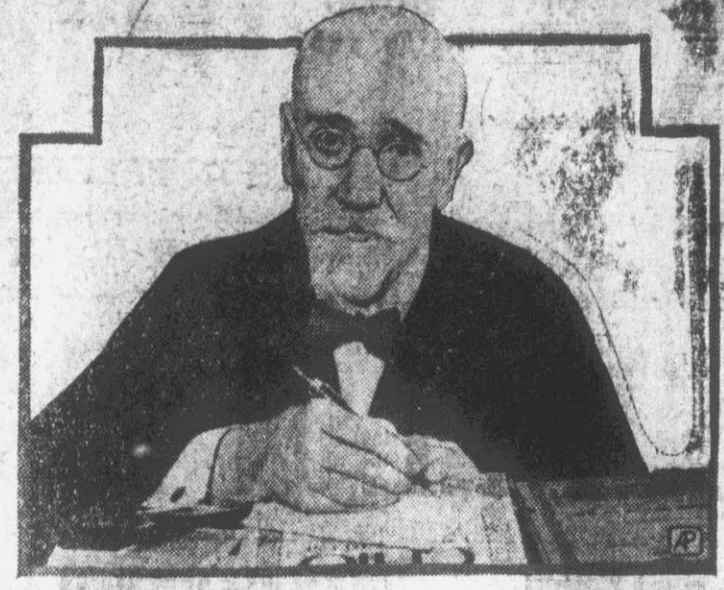

President was twenty-six million. In 1924 it was twenty-nine millions. Some political observers now predict a vote of forty millions in 1928.

tabernacle at Salt Lake City. Illinois leaders urge an address at the Coliseum in Chicago, while those in Wisconsin want the nominee to speak in Milwaukee and the western managers generally favor an address at Minneapolis in the heart of the northwestern wheat belt.

With the shifting of the dates for his final two eastern appearances at Boston and New York he has found himself rushed in preparing his addresses in those places and since he is to make a final appeal to the voters over the radio from his California home on election eve he would be obliged to spend a greater portion of his time from this on writing speeches.

J. C. Penney Co. Manager Leaving For Convention

C. P. Earhart, Manager of the J. C. Penney Co. store in this city, left for New York City today to attend the semi-annual buying convention of store managers for the company.

Over 1,000 stores will be represented in the eleven district conventions which will be held during the next five weeks in the most central locations throughout the United States.

Extensive assortments of all lines of merchandise are presented at the convention by the buyers from the New York headquarters who are specialists in their particular lines of merchandise, and who are engaged every day of the year in sifting out of the markets the smartest styles and most outstanding values.

During these conventions, the merchandise is selected by each manager, which in his judgment is most suitable for his community, and by daily contact throughout the year with these highly specialized buying departments, the very latest in style and the most outstanding values are constantly maintained, said Mr. Earhart.

Christians Set October 21 For Victory Sunday

Plans for the erection of a National City Christian church at Washington, D. C., are being brought before the Christian churches of Pitt county this week, looking forward to the observance of Washington Church Victory Sunday on October 21. On this day, set apart by the International Convention of the Disciples of Christ (Christian Church) held at Columbus, Ohio, in April, the Christian churches of America will seek to complete the fund for the erection of this representative church. A goal of \$500,000 has been set for the day. Already more than one million dollars have been raised toward the fund.

The building of the National City Christian church is a part of a three-year program of the Disciples, anticipating the celebration of the nineteenth hundredth anniversary of Pentecost in 1930. It is the plan that the program of evangelization now being carried on by the communion will culminate in the dedication of this monumental building in the nation's capital at the world convention of the Disciples to be held in that city in 1930.

The site for the church comprises about 50,000 square feet of ground facing Thomas Circle, at the junction of Massachusetts avenue and Fourteenth street, six blocks from the White House. It is considered to be the finest available site for a downtown church in the city of Washington.

The general plans for the building, designed by John Russell Pope, of New York City, have been approved by the building committee. The structure will be of the American classic style of architecture and will be a fitting companion to the great government buildings and monuments of the capital city. The choice of the architectural style is also in keeping with the recommendation of the Art Commission of Washington that future buildings of an imposing character be of classic design. A tower, one hundred and fifty feet in height, rising beyond a colonnade of twelve classic columns, will be the most arresting feature of the building. The building group will include, beside the house of worship, a modern educational unit and a small prayer chapel.

A real, State, county and local church organization is outlined for the observance of Washington Church Victory Sunday.

Dr. George F. Cuthrell, director of the work in the southeastern area, composed of North and Carolina, Florida, Georgia and Alabama, is visiting local church leaders and forming the working organization for the movement in this county. The program in this State is sponsored by a State council with the following membership:

A. E. Cory, W. E. Hooker, Mrs. H. S. Hille, Mrs. H. H. Settle, Mrs. R. S. Tandy.

The national movement is being directed by H. H. Harmon, of Indianapolis. Associated with Mr. Harmon in the direction of the field activities are H. P. Shaw, of San Francisco, and A. D. Harmon, of Cable, Wisconsin.

COUNTY GOES OVER TOP IN STORM FUND

\$800.00 Raised For Relief Of Suffering People In Storm Devastated Areas.

Pitt county went over the top in her drive for funds for the hurricane devastated regions of Florida and Porto Rico, Mrs. J. L. Hassell, chairman of the Pitt county chapter of the American Red Cross, who had charge of the soliciting campaign, said today.

Total subscriptions to the fund amounted to \$800.00, exactly fifty dollars more than the amount asked of the county.

Mrs. Hassell said today she wished to thank everyone who in any way contributed to the success of the campaign. She said it would not have been possible to raise the fund without the splendid co-operation of the people in surrounding towns.

The county was first asked for \$500 but as the seriousness of the situation in the storm areas became known, the Red Cross asked for an increase of \$250. This extra money was used in rehabilitation work among the thousands affected by the hurricane.

M. E. Riddle Dies At Home Near The City.

M. E. Riddle, 84, died at his home at Fleming's Cross Roads yesterday at the noon hour, following an illness of several days.

Funeral services will be conducted Sunday at one o'clock at Parker's Chapel, about six miles from Greenville on the Pachtus road, by Rev. J. H. Little, pastor of the church. Interment will be made in the churchyard. The deceased is survived by his wife and two children; his father and mother, Mr. and Mrs. K. M. Riddle, of Sanford, N. C.; two sisters, Mrs. H. P. Barber, of Portsmouth, Va., and Mrs. J. G. Elkins, of Raleigh; six brothers, D. W. Durham, F. H. Greensboro, C. B. and Ernest, Washington City; Fred J. of Charlotte, and Will, of Detroit, Michigan.

Palbearers will be: Marvin Forbes, J. H. Quinn, Carl Weston, Exum Weston, Herbert Johnson, Jim Tyndall.

Mr. Riddle moved to Greenville about eight years ago and was engaged in the sheet metal building.

SAYS HORAN COMMITTED PROFESSIONAL ERROR

Paris, Oct. 1.—(AP)—The Havas Agency stated today that an administrative inquiry into the case of Harold Horan, Universal Service correspondent who was requested to leave France because of his connection with publication of documents relating to the Anglo-French naval record, had revealed that there "had not been corruption or official but a simple professional error on the part of an attaché of the press bureau of the foreign affairs ministry."

(By the Associated Press)
Nashville, Tenn.—Smith charged Hoover with vagueness on Muscle Shoals; reiterated stand for government ownership and operation; speaks on tariff tonight at Louisville.

Washington—Hoover neared end of preparation of speech on tariff and foreign trade to be delivered Monday night at Boston.

Enroute with Robinson—Robinson said Smith's prohibition stand embodied only "sincere desire" to correct what he considers evils.

Boston—Franklin D. Roosevelt attacked the Republican prosperity claims and those who "harbor religious bigotry."

Chicago—Mayor Walker of New York assailed Mrs. Willebrandt; made plea for religious tolerance.

Two Stowaways On Byrd's Ship

San Pedro, Cal., Oct. 13.—(AP)—Two unnamed stowaways rode the high seas today Antarctic bound, with Commander Richard E. Byrd, aviator-explorer, but if the predictions of "old salts" here mean much there is little glamour about the trip for the pair.

The old time seamen snickered when they heard the news. Life on a whaler is a hard one at best, they said, and for stowaways it is a ceaseless grind. The stowaways will "work their passage good and plenty," the seamen believed.

Discovery of the self-invited passengers was learned of here when Captain Oscar Nilsen, commanding the whaler, C. A. Larson, flagship of the Byrd exploration fleet which sailed from here Wednesday night, wirelessed A. Grove Knutsen, Knutsen is agent for the Ross Sea Whaling Company which owns the Larson, said Captain Nilsen's message gave no further information.

Even if the stowaways fail to reach the south polar region, they will get to see Wellington, New Zealand, and where the Larson first touches port about four weeks hence. There they may be turned loose to shift for themselves, or they may be invited to continue the voyage by the commander, who loves venturesome spirits.

Louisville Women Plan Entertainment For Mrs. Al Smith

Louisville, Oct. 13.—(AP)—Women of Louisville and throughout Kentucky will meet the wife of the Democratic presidential nominee at a reception planned for Mrs. Alfred E. Smith here this afternoon.

The Moderne Is Drawing Attention To Furniture

There is a wide difference of opinion as to how lasting the new moderne style in furniture will be. Many thoughtful students believe it is the starting point of a definite new era of design which will evolve itself eventually into a distinct American style. Whether this is so or not, at least the Moderne is serving the purpose of increasing public attention to furniture. The very strangeness of the new style challenges public interest.

"FULLY APPROVED"

"Fully approved" is the stamped placed upon Pitt Community Hospital by the American College of Surgeons in its annual report, which means that the people of this community have in their midst a hospital that meets to the fullest extent all the requirements of the College for the operation of an up-to-date and modern hospital with a view to the best possible care and treatment of its patients and that its corps of physicians and nurses is of the highest possible type. Last year Pitt Community Hospital was one of the few in the eastern part of the state that received the fully approved rating and a similar circumstance this year should make people of this community doubly proud of their institution.

From the standpoint of service Pitt Community Hospital has been a great blessing to this entire section and we feel it fitting that we openly congratulate those responsible for the founding and operation of the institution for the high recognition the hospital has received for the past two years from the American College of Surgeons which stamp it as one of the outstanding institutions of the state.

OVER THE TOP

Pitt County has again heeded the call from the American Red Cross for funds to relieve suffering in storm swept areas and through its form again it has gone over the top in its allotted quota. When the first call or help came following the storm in Porto Rico, this county was asked for \$500. Just a few days later the quota was raised to \$750, and in reply to this call for aid for the suffering the county has responded with \$800. Blessed with never having been visited by such a calamity as befell our southern neighbors it was not fitting that we should have done our part to help them and it is a great satisfaction to now note that we did even more than was asked of us.

May the people of Pitt County ever follow this example and endeavor to do more for humanity than is even asked or expected of them. Pointing out the fact that within the past half century the selling of liquor has passed from the hands of the higher type citizens to the lowest type, the Williamston enterprise now urges that the higher type citizen also realize that the drinking of

liquor is as bad as the selling and refrain from drinking the product of the mangy bootlegger.

In concluding his appeal the Williamston editor says: "Let the drinking be like the selling—drop from the higher class to the lower class—then will we come pretty near to having prohibition."

ABOUT TOWN

"Bear in mind that 'Pay-Up Week' begins in Greenville November 1st, renounced members of the Greenville Merchants' Association today.

"The public is urged to settle up outstanding accounts while the pay-up campaign is in progress. New ratings will be made of all credit customers and your credit standing will be affected if you have not met your obligations as you should.

"The Greenville Merchants' Association is making an effort to improve the credit situation in this section. They believe that a definite rating of all those receiving credit is one of the best ways of doing this. 'Get in touch with your creditors, Mr. Citizen, and get yourself straightened out before pay-up week comes to a close.'

"W. E. Hooks, of Ayden, has confidence in the Democrats of North Carolina and believes they will pile up a splendid majority in the November election," commented a reader of this paper today, speaking of the assertion of the county Democratic chairman, made in the columns of this paper yesterday. "Mr. Hooks is well acquainted with the political situation in North Carolina by reason of contact with so many important members of the party. He has had an opportunity of sounding out sentiment in many sections, and his opinion carries considerable weight. 'It has been many a day since North Carolina failed to give the Democrats their majority and is almost a settled fact that they will measure up to expectation this year.'

"America will watch with interest the coming to this country of the German dirigible Sunday," declared a Greenville business man today, standing in the front of the Reflector office reading reports of the flight of the world's largest dirigible.

"Carrying a crew of forty and twenty passengers, three of whom are Americans, the big bag is due to arrive in Lakehurst sometime Sunday. Elaborate preparations have been made for the arrival of the visitors, both in New York and at the landing field.

"While the progress of the dirigible may be slower than expected on account of storms encountered over the Atlantic, it is not expected that she will be later than Sunday reaching American shores. Such a trip is fraught with great danger and people in both America and Germany will breathe a sigh of relief when the ship lands."

"The Greenville high school football team has several more games on schedule for this season," remarked a member of the team today.

"The public is urged to turn out to the games and see what the boys are capable of doing. We have a hard fight ahead before the championship series is reached and encouragement is needed to help the boys reach the goal of their ambition."

"Bear in mind the dates of the games and make it a point to be on hand and cheer the lads on to victory."

"Greenville went over the top in the solicitation of funds for the suffering people of Florida and Porto Rico," said Mrs. J. E. Haggell, chairman of the Pitt County Chapter of the American Red Cross, who had the campaign in charge.

"We were asked for \$750.00 and raised \$800.00. This amount has been forwarded to the national headquarters of the organization, and will be used in rehabilitation of the hurricane devastated regions. 'I wish to personally thank the people of Pitt county for the liberal response to our plea for funds. Numbers of the towns responded graciously and enabled us to raise the quota much easier than at first anticipated.'

"The money was given in behalf of a cause as holy as the cause of life itself—the cause of suffering humanity. Giving to such a cause has its own reward."

Mr. and Mrs. Pitt County Shopper, if you can't find what you want in your home town come to Greenville and look over the splendid stocks of goods which our merchants have on their shelves," invited a local business man today, speaking of the extensive purchases made by Greenville stores this season. "Stocks are complete in every sense of the word and prices conform favorably to the larger cities. Purchases were made to meet the demands of every pocketbook, so don't despair of getting what you want before visiting Greenville."

TULANE HAS GREAT TEAM THIS SEASON

By HORACE C. RENEGAR
New Orleans, Oct. 13—(AP)—The Green Wave of Tulane may find some obstacles immovable this year but they won't be close together or often.

Some are calling this 1928 Bierman coached Eleven as great as the 1925 team—the team Flournoy and other great backs ran wild—that remains to be seen.

But there is no doubt it is the greatest team since 1925.

In Blone Billy Banker the Greenies have a worthy back. He is good at slashing a line, fast once he clears the line of scrimmage and dangerous on the return of punts and kick-offs. He is not a great back in the sense of shiftiness, elusiveness or side-stepping although he can do such antics at times. Speed is his greatest asset. Just straightaway speed.

But where a year ago Banker had little aid in advancing the oval, this season, it seems, he has plenty. Elmer Massey, Ike Armstrong, Hugh Whitley, Hooper, Seewee, Young, Jastram, McGee, they all look good.

Hooper has shown real power in running from full back, Massey is a fast and shifty half back and Seewee looks like the find of the outfit. He ran over a couple of touchdowns in beautiful style against the Mississippi Aggies.

Armstrong can do the passing well and Banker the punting. Both handled these duties to advantage against the Aggies in their first real test.

The Greenies also have experience in the line. Captain Rucker is a slashing tackle at times; McCance, on the other side, also has plenty of drive in his charges; Oelkers, well known as a field star, also can handle a tackle position to advantage; Speers is another good reserve tackle.

At guards, Bodenger and Eskridge are two men who can defend a kicking and passing back and also work well on the place at guard and also can take a place at guard and keep the line at the same strength. Evans is the regular center while Wells alternates satisfactorily. Holland, a fast end who can take passes; Roberts, a good all round wingman and Walker furnish a good set of flank candidates.

GRANT DIRIGIBLE HEADED FOR UNITED STATES TODAY WITH CRIPPLED STABILIZER

(Continued From Page One)

quired 82 hours to complete the trans-Atlantic voyage.

It is estimated that by taking a southerly route, the airship would have flown 5,400 miles, some 4,000 of which will be over the Atlantic. After the craft passed Funchal, Island of Madeira, at 8:30 a. m. yesterday, 2,800 miles over water lay ahead of the airship before Bermuda should be reached and then another 800 miles needed to be covered before the ship could be brought down at the Lakehurst air station.

A late message from the airship yesterday was picked up by the Chatham, Mass., station of the Radio Marine Corporation at 7 p. m. It read:

"Three hundred and thirty miles west of Madeira. Altitude 1,400. Seventy-five miles per hour. Weather good. Heading for Bermuda. Expect arrive Sunday noon. Bag of mail dropped over Funchal, Madeira."

NERVOUS HEADACHE

Kentuckian Tells How Taking Black-Draught Relieved His Pains and How Well He Feels Now.

Waynesburg, Ky.—How a few doses of Theford's Black-Draught brought relief to a man who had been suffering from frequent spells of severe headache, is told below in the statement of Mr. Charles F. Todd, of Estesburg, near this place.

"I was suffering with nervous headaches. About once a week I would have these headaches, and have to quit work, and go to bed for about twenty-four hours. I would have pains in my neck, and right behind my right ear.

"A merchant at Estesburg saw me one day when I was suffering, and told me to try taking Black-Draught, which I did.

"I took a package home that night, and took a few doses. It relieved me. From that time on, I would take Black-Draught as soon as I felt like I was having one of those headaches—and they wouldn't come on.

"Every few weeks, I take three or four doses of Black-Draught, and I feel so well, and do my work, and don't lose any more time with headache.

"I haven't had a headache in six months."

BABE GIVES SERIES BALL TO SMITH

Gov. Alfred E. Smith congratulated the team members of the Yankees on their arrival in New York from St. Louis where they won the world series and in return was presented with the last ball played in the championship game. Babe Ruth, who caught the ball for the last out, is shown giving it to Governor Smith while Lou Gehrig, his fellow slugger, looks on. The ball was autographed by the team.

Yale-Georgia Game Holds Spotlight

New York, Oct. 13—(AP)—The Yale-Georgia game at New Haven seems to hold forth the greatest possibilities of football fireworks in today's Eastern games. Except for three positions, Georgia enters the battle with the same lineup that defeated the Elis in the sensational game last year 14-10. Yale has been hampered in practice by injuries.

The annual battle between Pitts-burgh and West Virginia occurs at Pittsburgh.

New York's attention will be centered chiefly on the Intra-City struggle between Fordham and New York University, two unbeaten Elms.

Penn State remembers well its 14-0 defeat by Bucknell last year and has no mind to go through the experience again. Colgate has revenge in mind in its fray with Virginia Poly.

Barring upsets, Princeton and Harvard should not be unduly troubled by Virginia and North Carolina.

Army Captain Joins As Private.

Washington, Oct. 13—(AP)—Major Homer W. Mason, of Columbia, S. C., a member of the officers Reserve Corps, who served as a captain during the World War, has enlisted in the regular army as a private in the 8th Infantry for duty with the recruiting service at Spartanburg, S. C.

Georgia And Yale Outfits Meet Today

Atlanta, Ga., Oct. 13—(AP)—Dixie hurled its greatest threat of modern football history into New England today and anxiously awaited the results from the scattered battle front.

Georgians had hopes that the Bull Dog of Athens would score its second triumph in two years over Yale's big blue team—although the Southerners were apparently weaker in the line than a year ago, but seemed to have the same drive in the backfield.

The Tar Heels of Chapel Hill were far from here, storming Harvard's heights and firmly believing that by night North Carolina may hold a victory over the famed Crimson.

Virginia's Cavaliers, Sloan, Close and Hall, pounded at the Princeton Tiger, and too, had visions of an after game celebration.

Thus, three of the South's best met the one-time powerful entente of the Gridiron while Virginia Polytechnic Institute added to the inter-sectional holiday with an appearance against Colgate at Hamilton. Last year the Techsters beat the New Yorkers, 6 to 0. Hampden-Sidney of Virginia, met Cornell in the other East-South game of the day.

Far to the Southwest, another Southern battalion was hoping for a victory. Vanderbilt, led by Armstrong, met the University of Texas at Dallas and expected to get one for past defeats at the hands of the Long Horns.

Meanwhile, the South offered several home attractions of outstanding importance.

Georgia Tech, clashed with Tulane University's Greenies at New Orleans in a game expected to produce plenty of thrills. Coach Bierman seems to have the greatest Tulane team since 1925 and will pit Bloude Billy Banker against Stumpy Thomason, backfield ace.

Washington and Lee's generals, conquerors of North Carolina State, a week ago, marched into Kentucky in another important conference contest.

University of Mississippi tackled Tennessee at Knoxville in another all conference tilt; Auburn met Florida at Gainesville, and South Carolina featured Zoebel against Maryland at Columbia.

North Carolina State and Clemson played yesterday, the Tigers winning 7 to 0.

North Carolina State and Clemson played yesterday, the Tigers winning 7 to 0.

AMERICA AND SPAIN LINKED BY TELEPHONE

Coolidge And King of Spain Exchange Words Of Greeting Opening Cable.

Washington, Oct. 13.—(AP)—Speaking over a radio and cable circuit 6,500 miles long, President Coolidge and King Alfonso of Spain, inaugurated today a telephonic service between their two countries, "acknowledging" the new means of communication as a great factor in the perpetuation of friendship and peace between them.

Availing himself of his first opportunity to speak by radio-telephone with Europe, Mr. Coolidge told King Alfonso that with the possibility of communicating with far countries by word of mouth "the danger of any serious disagreement is immeasurably lessened."

The Chief Executive also took the opportunity to express to the Spanish King his satisfaction that America and Spain adopted identical attitudes as to the promotion of peace in the world as shown by Spain's prompt indication that she would become a party to the recently concluded concert for the universality of war.

After greeting King Alfonso in the name of the people of the United States, and listening to a short address from his interlocutor, President Coolidge said over the telephone:

"I welcome this added link, no less strong because it is invisible, between Spain and the United States. I believe it to be true that when two men can talk together the danger of any serious disagreement is immeasurably lessened and that what is true of individuals is true of nations. The international telephone, therefore, which carries the warmth and the friendliness of the human voice, will always correct what might be misinterpreted in the written word.

"Whatever brings our two countries closer is of value to us and to the world. This Western Hemisphere, discovered by the wonderful navigators of Spain, has always owed much to your country. The language of Spain is the language of a great part of the Americans. The fine traditions of Spain are the basis of the culture of a large part of the Americans and our friendship with the great nations to the South draws us closer to their mother country. With your country and with theirs the United States stands for the promotion of world understanding and peace. I was, therefore, particularly pleased that Spain so promptly and generously adhered to the general pact of the renunciation of war. It was what I expected on the part of your great and peace-loving nation.

"I am especially glad thus orally to greet your Majesty because I know the position of great personal responsibility you hold in directing the policies and progress of your country. I wish for your Majesty a long and happy life and for your country all the prosperity and happiness which come from wise and benevolent leadership in all those things which make life richer and finer."

President Coolidge's voice employed about one-fifth of a second to reach the King of Spain, 6,500 miles away in Madrid. The circuit included wire transmission from Washington to Rocky Point, Long Island, when Mr. Coolidge's remarks were broadcast across 300 miles of ocean to Orpar, Scotland. From Orpar 1154 miles of direct wire circuit brought the Chief Executive's voice to the border of Spain, over British and French telephone lines and through a submarine cable across the channel.

The King of Spain's voice was returned by a similar arrangement with the broadcasting plant at Rugby, England, and the radio receiving set at Houlton, Maine.

The King replied to Mr. Coolidge as follows:

"I heartily reciprocate in my own name, and in that of Spain's, the greetings of your Excellency. "Mr. President, I thank you for the cordial words in which you do Spain the honor and justice to recognize her outstanding services to the Americas, and I agree that we ought to expect from this new means of communication even closer relations because of the intimate and more perfect understanding between the two peoples. "I reiterate to your Excellency, with my salutations, the testimony of my most sincere appreciation, and extend best wishes for the peace and prosperity of the United States."

SOUTHERN CROSS REACHES AUSTRALIA

Sydney, N. S., Oct. 14.—(Sunday)—(AP)—The trans-Pacific airplane Southern Cross arrived over Australia on her return flight from New Zealand in the early hours of today. She passed over Newcastle, N. S. W., at midnight and at 12:56 a. m. was reported as flying west over Gosford. It was believed that her co-pilots, Captain Charles Kingsford-Smith, and Lieut. Charles T. P. Ulm, intended to await daylight before landing.

Jessica Reed Is Reported Married

Chicago, Oct. 13.—(AP)—Has Jessica Reed of the Follies been married again? Someone whispered to someone that she had; that there had been a quiet ceremony last Monday in the county building; and that her fourth husband was Leonard Reno, son of H. O. Reno, wealthy publisher. Records of the marriage license bureau carried this entry; Leonard Reno, 33; Jessica Young, 31. That was confirmatory; yet reporters were unable to find either Reno or Miss Reed to make certain. Miss Reed sprang from Texas to the Follies, earning within a short time a reputation as the highest salaried chorus girl in the country. She was married in the South before her beauty won her a place on the stage.

By G. W. SEYMOUR New York—Minnie, sea-going cat, has not missed a voyage on the ocean liner Minnewaska since she joined its crew almost five years ago. When the ship is in port here Minnie is absent for days at a time, but she invariably appears on deck half an hour or so before the gang plank is hauled in for an Atlantic crossing. She knows her way about London, too, but she dislikes foggy nights, and never spends a night ashore when the Minnewaska is at the King George V docks in the Thames. Capt. Frank Claret of the vessel regards Minnie as the best sailor cat in the world because she knows the sailing habit of the ship so well. Her best friends are members of the crew, and seldom does she become chummy with passengers, although she did take a liking to William Gillette, the veteran actor, this summer and followed him about the ship for hours. Her kittens, as rapidly as they arrive, are handed out to passengers as souvenirs, and William Manning, purser, regrets only that they are not tentimes as numerous. Extra Stage Business Not all the precautions that players and stage managers can take will prevent the marring of first-class-night performances by occasional unanticipated incidents. In a play which opened a few nights ago, one of the minor characters is a huge dog, chained to a box in a baggage car. It was entirely in character for him to have a few fleas and to scratch them, but the actors were put out and the audience, too, greatly amused when the canine scratched himself so vigorously that noise of his paws and the clanking of his chain made the performers' lines almost inaudible until he was led out. Even more disturbing was the experience of the actor in another play who, at the high point of his role, unsheathed a sword and dashed to the lawn outside to slaughter his adversary. As he pulled out the blade he threw the scabbard behind him with too much zeal. It bounded over the footlights and lit squarely on the cranium of an elderly gentleman in the first row.

The Linguistic Kid

Jackie Coogan, the boy actor, may or may not have been a Boy Scout in his varied career, but he believes in being prepared. The youthful Thespian, who has been appearing before the footlights on Broadway, plans a tour of France and Germany and already has learned French so that he will have a means of saying what he wants to say when he makes his first appearance in Marseilles October 26. He has five months to learn the German language before he crosses the Rhine, but he is at work on it already. He intends to sail on the Majestic October 5.

ONE DIES IN FIRE ABOARD BRITISH SHIP

Several Also Gassed And Injured On Freighter Trojanstar Now Limping to Port

San Francisco, Oct. 12.—(AP)—A wireless message to the Associated Press from Edward Metzdorf, purser of the Matson steamship Makiki, today reported that the British freighter Trojanstar was limping through heavy seas toward Vancouver, B. C., after extinguishing a bad fire which broke out in her hold last night while off Cape Mendocino, northern California.

The purser reported that one fireman aboard the Trojanstar named Tennyson, was dead, nearly all the crew was gassed and that several sailors were badly injured.

The Makiki arrived alongside the Trojanstar last night a few hours after the British ship had sent out distress calls.

"Wild panic seemed to reign on board the boat (Trojanstar) when we arrived and members of the crew of the burning ship shrieked for us to take them off," said Metzdorf's message. "The Trojanstar is a Blue Star Line freighter, of 9,000 tons, built in 1916. London is her home port. She carried a general cargo and a crew of between 35 and 40 men and was bound from San Pedro, Cal., to British Columbia.

The United States coast guard cutter Smith, in distress 30 miles off Point Arena, on the northern California coast Thursday night, reached Shelter Cove, half way between Fort Bragg and Eureka, last night, and radioed that she needed no assistance.

Dinner Menu.

Macaroni and Cheese Grape Jam Bread Buttered Spinach Head Lettuce and Tomato Dressing Peach Shortcake Coffee

Macaroni and Cheese, For Four. (This is very creamy and well flavored)

2 cups macaroni, broken; 8 cups water; 1 teaspoon salt.

Mix the salt and water and when boiling add the macaroni. Boil vigorously for 15 minutes. Pour the macaroni through a strainer and rinse well with water. Add to the cheese mixture.

Cheese Mixture.

4 tablespoons butter; 5 tablespoons flour; 2 cups milk; 1 teaspoon salt; 1-4 teaspoon pepper; 1-2 cup dill pickle; 2 tablespoons chopped green peppers; 2 tablespoons chopped celery.

Melt the butter in a pan, add the flour and blend thoroughly. Add the milk and cook until a creamy sauce forms. Stir frequently during the cooking. Add the rest of the ingredients and cook slowly and stir constantly until the cheese has melted. Add the macaroni and when well mixed pour into a buttered baking dish and bake in a moderate oven for 25 minutes.

By adding the cheese to the white sauce mixture it becomes thoroughly mixed and creamy and will not be "stringy" as when merely sprinkled in layers with the macaroni.

The green peppers and celery may be omitted, but they give a piquant flavor.

Grape Jam.

(Pulp left from grape jelly) 4 cups grape pulp; 2 cups sugar; 2 teaspoons cinnamon; 1 teaspoon cloves; 1 teaspoon nutmeg; 1-4 teaspoon salt; 2 tablespoons lemon juice.

To obtain the pulp for this jam, mash through a colander the skins and pulp left in the jelly bag after extracting grape jelly. Be careful to thoroughly press the food through, as only the seeds should not be used.

Add the rest of the ingredients to the pulp and cook slowly for 20 minutes or until the jam becomes very thick. Stir frequently while cooking. Pour into sterilized jars and when cold cover with melted paraffin and store in a cool, dark, dry place.

Place a board above the sink or work table and hang hooks on it to hold the utensils used every day as can opener, bread and paring knives, scissors, slotted mixing spoons, measuring cups and measuring spoons.

For Food Cooking Results. Use level measurements. All reliable recipes are based on standard measurements.

Three teaspoons equal one tablespoon.

Sixteen tablespoons equal one cup.

Two cups equal one pint. Measure flour after it has been sifted.

Level off a cup of flour by placing a knife perpendicular to the side of the filled cup. Quickly scrape off the surplus. Never shake the cup as that will pack the contents and will not give accurate measurements.

Sale of Value Farm Property

Under and by virtue of the authority conferred upon us in a deed of trust executed by John T. Harris and wife, Vivian P. Harris, on the 12th day of January, 1923, and recorded in book of mortgages T-14, page 210, we will on Saturday, the 20th day of October, 1928, 12 o'clock noon

at the Courthouse door in Greenville, Pitt county, sell at public auction, for cash, to the highest bidder, the following land, to-wit: Adjoining the lands of the heirs of Henry Harris on the north, formerly the lands of Howard Harris on the east, the lands of the Smith heirs, and Samuel Joyner on the south, and Mrs. Alice King on the west.

stake on south side of road; thence S 3-30 W. 6131 feet to an iron axle, a corner between J. T. Harris, Samuel Joyner and Mrs. Alice King, thence N. 45-30 E. 730.5 feet to a pine stump, a corner between J. T. Harris and Samuel Joyner; thence along old Tram road N. 87-30 E. 4824 feet; thence S. 83-10 E. 1521 feet; thence S. 82-20 E. 300 feet; thence S. 78-15 E. 142 feet; thence S. 65-20 E. 177 feet; thence S. 75 E. 95 feet to a big long straved

pine, a corner between J. T. Harris and Smith heirs in Howard Harris line; thence N. 7-30 W. 4070 ft. to a gum stump with pointers, a corner between J. T. Harris and Howard Harris; thence S. 54-12 E. 619 feet to a stake on east side of path, a corner between J. T. Harris and Howard Harris; thence North 31-10 West 3210 feet, along the avenue to the center of the Farmville-Center Bluff road; thence N. 31-10 W. 579 feet; thence

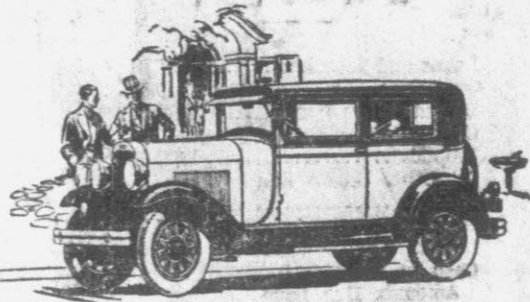

N. 79 W. 552 feet; thence N. 79-20 W. 347 feet to an old bridge over branch, a corner between J. T. Market Report

Cotton--Stocks--Grain

COTTON MARKET STOCK MARKET

New York, Oct. 13.—(AP)—The cotton market opened barely steady at an advance of 10 points on October, but generally unchanged to 11 points lower. Over holiday firmness in Liverpool seemed to be more than offset by the failure of the weather news to show any frost in the cotton belt since the close of Thursday and there was heavy liquidation during the early trading. December sold off to 19.05 and March to 18.95, making net declines of about 13 to 18 points on the more active positions. This break brought in a good deal of covering and later fluctuations showed rallies to nearly Thursday's closing quotations, with the market quiet at the end of the first half hour. Private cables reported London and Continental buying with fair trace calling Liverpool and said that Manchester was more cheerful with more idle machinery restarting.

Futures closed steady 14 to 20 points lower; spot quiet; middling 19.40.

GRAIN MARKET

Chicago, Oct. 13.—(AP)—Excellent crop prospects reported from Argentina, together with welcome rains in domestic wheat territory southwest and west, led to lower prices today for wheat. Temporarily, however, higher quotations on wheat at Liverpool gave firmness to values here, and there were advances that two cargoes of Argentine wheat at Liverpool had not graded up to standard. On the other hand, export business in wheat from North America was larger than of late, totalling in the last 24 hours 2,000,000 bushels.

Wheat closed heavy 7-8c to 1-4c net lower. Corn also finished 7-8 to 1-4c lower with oats unchanged to 1-4c down and provisions unchanged to a setback of 2c.

At first, the wheat market today was disturbed by reports that frost had appeared in southern Argentina, and that crop damage was threatened. Later dispatches, however, conveyed assurance that southern Argentina is not an important wheat area, and that low temperatures in the section referred to were unimportant. Central and northern Argentina, where grain is jointed, is the critical area.

Private cables to Chicago houses subsequently brought flat denials of frost in Argentina, and affirmed that the wheat crop outlook for the country as a whole is first class. Under such circumstances, early advances today in wheat prices were soon more than wiped out, and for the time being the bull side of the market was at a material disadvantage, word from India telling of timely rains was also a bearish factor and so too were predictions that Monday's figures in the United States wheat visible supply would beat previous records by at least 20,000,000 bushels.

New York, Oct. 13.—(AP)—Today's brief session of the stock market was one of the strongest and most active since the beginning of the pronounced up-movement. Prices of a wide variety of stocks forged relentlessly upward, with the advance most impressive among the "blue chip" issues, those selling between \$200 and \$300 per share. A foretaste of what was to occur was given at the opening when large blocks of the more active stocks changed hands at prices several points above the previous close.
