## BIG STEAMER IS REPORTED IN DISTRESS

### Liner Vestris Said To Be Sinking 300 Miles Off Hampton Roads, 340 Lives In Danger

New York, Nov. 12.—(AP)—More than 300 men and women, some of them with little children in their arms, were forced to trust their lives to tiny lifeboats on the wind-swept North Atlantic today when the Lampport and Holt liner Vestris keeled over on her beam end and began to sink.

They were faced with hours of waiting as the wintry wind whirled their cockleshells of boats through the water and they watched the ship in which they had but a few hours before been so luxuriously housed, sink below the waves, about 275 miles from Hampton Roads.

Early reports that the Japanese steamer Onio Maru was standing by were definitely contradicted by later advices and it seemed probable that the coast guard destroyer Leavis, due at the scene at 5 o'clock this afternoon, would be the first to arrive. By that time it was feared the little boats might be scattered and that approaching darkness would seriously hamper the work of rescue.

First word of the distress of the Vestris came in an SOS call shortly after 10 o'clock this morning and at once a dozen steamers and numerous government craft turned from their paths in a race to the rescue. The wireless of the Vestris continued brief messages until 1:25 this afternoon at which time the radio operator announced that he would be able to send no more and therefore was joining the passengers and crew who had already taken to the boats.

From that time on there was no word, and no more information was possible until one of the rescue boats should reach the scene.

The messages received from the Vestris told of the great danger and described the ship before the passengers left her as lying on her side with the decks awash, but nothing was said as to the cause of her distress. Apparently there had been no collision, as no other ship was mentioned and the most widely held theory was that, tossed by waves still running from a week-end storm, the Vestris had shifted cargo to such an extent that the ship had been twisted sideways until the seas ran into her.

New York, Nov. 12.—(AP)—The British liner Vestris, with 109 passengers and a crew of 210 aboard was sinking 250 miles off Hampton Roads today and the passengers were taking to the lifeboats. The Japanese steamer Onio Maru was standing by. The sea was reported moderately rough.

The nature of the Vestris' disability was not disclosed in the series of SOS messages which she dispatched during the morning. Her captain, William J. Carey, reported that her starboard decks were awash, that she had a 32 degree list, and that immediate aid was needed.

News that the passengers were being taken off and that the Japanese vessel was in a position to give aid was received by the Lampport and Holt Line, owners of the Vestris, from its Bermuda agent, nearly three hours after the ship had sent out her first SOS flashes describing her position as extremely critical.

More than a dozen vessels, including five coast guard cutters, set their courses for the scene of the ship's distress, but the Onio Maru was apparently the first to reach the spot.

The Vestris' wireless, which had worked frantically during the late morning hours, was still in operation at 12:45 p. m. but the signals were not so strong, indicating that the radio operator was using his auxiliary set. The only signal he was sending out were such as would enable on-rushing ships to determine his direction.

Among the passengers were: Nathan P. Adams, Oberholt, I. S.; Edward M. Walcott, Halifax, N. S.; Miss Mary M. Mills, Los Angeles; Rev. and Mrs. Edward A. Jackson, Richmond, Va.; Mr. and Mrs. Alfred Fletcher, San Francisco; Mrs. Margaret A. Daugherty, Philadelphia; Mr. and Mrs. Thomas Franke, Mexico City; Mrs. Sarah J. Goodman, Tarrytown, N. Y.; Mr. and Mrs. Andrew Serp, Cleveland, Ohio; Arthur C. Patterson, Edmont, Ala.; William M. Fields, Jamaica, N. Y.; David H. Huis and Keith W. Burt, Salt Lake City, Utah; Alfredo Ramos and Carlos Petrazzino, Havana, Cuba; Samuel Cox, Montreal; Major Yoshio Inouye, Japanese consul at Buenos Aires, and his wife; Earl De Vore, an automobile racer, and his wife; Norman K. Balton, also an automobile racer. Harry Fay, featherweight boxer, is another passenger. He is en route to Buenos Aires seeking a fight with Luis Angel Firpo.

## ASKS WITNESS TO HOLD OUT IN OIL CASE

### Robt. Caldwell Makes Statement In Selection Of Jury In Stewart Perjury Case.

Washington, Nov. 12.—(AP)—Robert V. Caldwell, a tentative juror in the perjury trial of Robert W. Stewart, chairman of the board of the Standard Oil Company of Indiana, told Justice Jennings Bailey in the District of Columbia Supreme Court today that he was approached yesterday by a man who asked him whether he would "hold out" in the case.

Caldwell said the man had given the name of "McGinnis" and when asked for details of the meeting said, "I got rid of him." He described McGinnis as about 21 years old of light complexion and wearing a grey suit.

District Attorney George A. Rover and Frank Hogan, chief of defense counsel, conferred with Justice Bailey then, and Rover declared the description of McGinnis tallied closely with that of a man he had in mind. Justice Bailey asked the other talesmen collectively whether they had been approached, but none answered.

The incident developed early in the selection by Justice Bailey of a jury to try Stewart on a perjury indictment of three counts based on testimony by him before the Senate Public Lands Committee during the Continental Trading Company phase of the Teapot Dome investigation. Stewart is alleged to have testified that he knew nothing of the Continental Company and its transactions, although he had received \$750,000 in bonds from that company.

### Egyptian Cotton Ginnings.

Alexandria, Egypt, Nov. 12.—(AP)—The government estimate of the amount of cotton ginned is 2,405,568 cantars.

The cantar is the oriental hundredweight, having a wide range of value, but commonly between 100 and 130 pounds.

## Launches Movement To Determine Strength Of The Democratic Party

Warm Springs, Ga., Nov. 12.—(AP)—A national survey of the Democratic party to gain a "thorough-going understanding" of its strength, was launched here today by Franklin D. Roosevelt, governor-elect of New York, shortly after his arrival for a month's rest.

Settled in his winter home, the successor to Alfred E. Smith declared that the letters he would write during the next two months to Democratic leaders throughout the country would have nothing to do with his recent election or "any future election," but would carry out his practice in past years. He declined to discuss the shout-out "Roosevelt for president in 1932" which greeted his train in Georgia (towns as he neared Warm Springs last week-end.

"I want definitely to step on any talk of that kind with both feet. That expression is colloquial, but very clear" was his comment to newspaper correspondents. Then, turning to the survey, the governor-elect declared:

"In 1924 I sent out letters to all delegates to the national convention and to Democratic leaders asking their views of the situation. The result of their replies was a

## SEMPLER CASE BOBS UP AT LOS ANGELES

### Famous Case Brought To Bear On Charges Against Attorney General.

Los Angeles, Nov. 12.—(AP)—Presentation of evidence to the county grand jury indicating that more than \$800,000 was spent to free Almie Sempler, McPherson of conspiracy charges arising out of her sworn story of having been kidnaped two years ago brought the Angelus Temple evangelist's case to the forefront today in the investigation of alleged corruption in the Los Angeles district attorney's office.

And once more the name of Kenneth C. Ormiston, erstwhile radio man at Angelus Temple, was brought into the picture. After the Italian-haired woman evangelist had been formally charged with conspiracy to obstruct justice by telling a false story to the grand jury about her disappearance, Ormiston was named as the man with whom she had spent several days in hiding in a cottage at Carmel, by the sea. Now Ormiston has been summoned to appear before the grand jury.

Mrs. McPherson was held for trial after a preliminary hearing, but the charges were dismissed by District Attorney Asa Keyes who told the court that there was insufficient evidence to convict.

Keyes and several others recently were indicted on charges of bribery. The district attorney was accused of having accepted money for dropping charges against or permitting the acquittal of certain persons charged with felonies.

Attaches of the grand jury said last night that Ormiston probably would be called tomorrow as a witness in the resumption of the corruption inquiry. Several former officers of the huge religious organization as well as some of the present executives also may be called.

Documents indicating the expenditure of more than \$800,000 in the McPherson case were presented to the grand jury by newspapermen whom they had been given by the evangelist's mother, Mrs. Minnie Kennedy. Mrs. Kennedy, formerly handled the financial affairs of Angelus Temple and was a co-defendant in the conspiracy case. The mother left the temple several months ago after engaging in a newspaper controversy with Mrs. McPherson. Mrs. Kennedy charged that the evangelist was attempting to mortgage their big house of worship here.

## SEVERAL ARRESTED IN GAMBLING JOINT RAIDS

New Orleans, Nov. 12.—(AP)—Acting under orders from Governor Huey P. Long, 40 members of the national guard under the direction of Adjutant General Ray Fleming today raided two alleged gambling establishments in the suburbs of New Orleans.

Governor Long made a hurried trip to New Orleans today and immediately ordered the raids. The guardsmen raided Beverly Gardens and a grocery store.

More than 25 arrests were made and a large quantity of gambling paraphernalia was seized.

## Military Training Boosted By Brooks In Raleigh Speech

Raleigh, N. C., Nov. 12.—(AP)—Defending the teaching of the proper kind of military training in educational institutions, Dr. E. C. Brooks, president, today delivered an address to the student body of North Carolina State College at its special Armistice Day exercises, held in Pullen Hall on the institution's campus.

The president upheld the need of a proper kind of military training, with an emphasis on "proper kind," and declared that it had a value the people could ill afford to lose. "People, generally speaking, think of military training as the instrument of the autocrat, valuable only in autocratic forms of government or in those governments built on war and conflict, since it becomes a ready means of mobilizing quickly the man power of a nation against a foreign foe, and many people believe that a foe must be created in order to supply the necessary incentive to military training," said Dr. Brooks.

"If it were true that we thought it necessary to teach hatred of other nations or sing the song of hate in our military training, I would move to abolish it in this institution. We shall need a form of military training in a democracy, even if war is abolished forever, one great value, and that we can ill afford to lose, is personal and group discipline. Occasions are frequently arising when groups of individuals should be able to act quickly and under strict orders in the interest of human welfare."

Mr. Roosevelt will begin his survey in the south, planning to see personally prominent Democratic leaders in this section and communicate with others.

## STORMY ROAD SEEN AHEAD OF ROUMANIA

### Foreign Observers See Hard Time Ahead of New Maniu Government.

Bucharest, Rumania, Nov. 12.—(AP)—The grip of the Peasants upon the government of Rumania today was attributed to their threat to effect a coup d'Etat had their demand for power been denied. Foreign observers saw a stormy road ahead of the new government headed by Premier Juliu Maniu since the all opposition parties have combined against them.

The Peasants had planned to overthrow the government headed by former Premier Vintila Bratianu, leader of the mighty Liberal party, at the end of next week if the Peasants refused to make change in the government. Peasants throughout the country had instructions to march on the capital.

Knowledge of this plot was understood to have hastened the Peasants in deciding that Bratianu and his government must retire. A statement issued by the Peasant party after they had come into power said:

"We have accomplished a bloodless revolution and all credit is due to the council of the regency whose wise handling to the most critical situation averted a national disaster for Rumania."

Parliament has been dissolved with elections for the senate set for December 15th and for the lower House for December 12. Observers were of the opinion today that the campaign for these seats would be most bitterly fought in the history of Rumania. They feared that it might be attended by serious disorders.

Premier Maniu created a sensation when he demanded the dismissal of General Nicolaeu, chief of the Bucharest police. General Nicolaeu has guarded Queen Marie and the royal family for years and is regarded as a power in local politics. He dealt harshly with the Peasants formerly when they tried to hold demonstrations in Bucharest.

The council of the regency refused to sign the decree of dismissal because of the police head's loyal service to the government and the throne.

## Kills His Wife And Then Jumps Into Deep Well

Anderson, S. C., Nov. 12.—(AP)—Elmer Buest, 35, Landon, Ga., a farmer, was hauled from a well here yesterday by Sheriff Britt Brown and arrested on a charge of murdering his wife.

The officer was summoned to the scene by a passerby who reported that he saw Buest strike his wife to the floor, heard the report of a shotgun a few minutes later and returned to see Buest fleeing from the house.

A short time later, he said, he heard Buest calling from the well for his wife to "come and get me out." Sheriff Britt hauled the farmer the well with the aid of a rope. Buest made no statement. The Guests had three small children.

## PROBE BOMB EXPLOSION IN IRISH FREE STATE

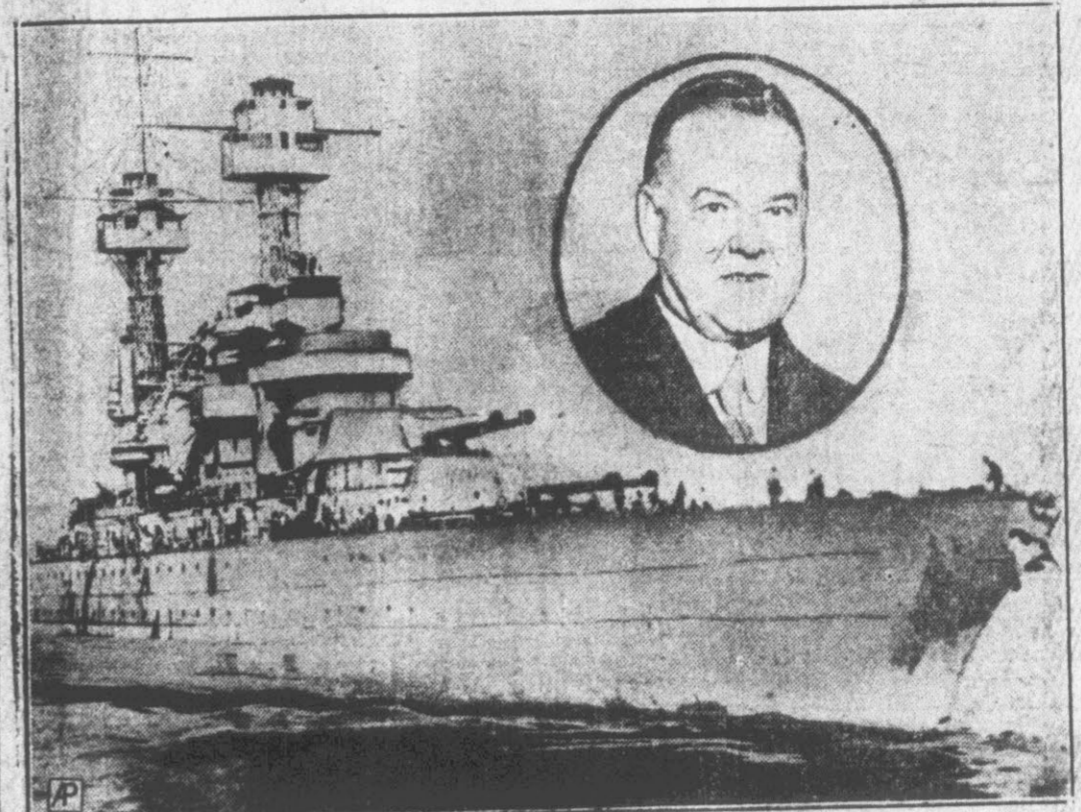

Dublin, Irish Free State, Nov. 12.—(AP)—Explosion of three bombs on the morning of Armistice Day and the later discovery of machine guns and ammunition today were being investigated by police in an effort to determine whether there was any connection between the two.

The bombs were exploded in an attempt to destroy the statues of English kings and slightly damaged them. No one was injured. A portion of the pedestal of an equestrian statue of King William III was broken by a bomb explosion and the left hoof of the horse was blown away. Many windows in the vicinity of College Green were shattered. Civic guards failed to capture two men whom they observed leaving the vicinity.

### Egyptian Cotton Ginnings.

Namiamo, B. C.—Two eagles fought a duel to the death here. Locked in combat, they fell into comax Road Park and continued to battle until a truck driver ended the fight with a club.

## HOOVER PLANS GOODWILL TOUR TO SOUTH AMERICA

Herbert Hoover, president elect, plans to sail shortly on a goodwill tour of South and Central America. The trip will take him from California down the west coast as far as Valparaiso and across the Andes by rail to Montevideo on the east coast. He will use the battleship Maryland, shown above, on his trip and will stop at many Latin American capitals and important cities.

## SOLUTION OF MURDER CASE SEEN TODAY

### Police Seek Three Men In Connection With Slaying Of Arnold Rothstein.

New York, Nov. 12.—(AP)—The mysterious slaying of Arnold Rothstein moved nearer to solution today.

Police Inspector John F. Coughlin broke the silence with which the police have covered their activities to say that only three men were being sought, one of whom he inferred fired the fatal shot in room 349 in the Park Central Hotel a week ago last night.

Denying the popularly held theory that Rothstein was lured to the hotel room and killed because he weighed on debts contracted at stud poker, high spade game, last September, Coughlin said that the gambler's death was not plotted but was the result of a sudden quarrel.

George McManus, Rothstein's friend, and "Tough Willie" McCabe were two of those sought, Coughlin said, but he did not reveal the name of the third man—the killer. Either McCabe or McManus, Coughlin did not say which, pulled the gun from the hand of the killer just after Rothstein was shot and western city and the identity of the hotel window into the scene, where it was found. "He had plenty of nerve," said the inspector. The gun has been traced from the manufacturer in Hartford to a jobber in a western city and the identity of the purchaser may be known soon, Coughlin said.

In the meantime anti-administration Democrats and Republicans indicated they intended to make political capital of Rothstein's killing if the case was not cleared up soon. There are rumors that Rothstein's papers will reveal some startling matters and that a large amount of stolen securities may be found in his strong boxes. Former Mayor John F. Hylan, anti-administration Democratic leader, said he did not believe the police were trying to get at the bottom of the case. "Rothstein," said Hylan, "had tremendous political connections who might be put in a bad light by a thorough airing of the case. I don't believe that they want to have it aired."

### Baptists Take Collection For Carnes Shortage

Atlanta, Nov. 12.—(AP)—Baptist churches throughout the south today were counting the proceeds of "Baptist Honor Day," set aside by the executive committee of the Southern Baptist Convention to refill the coffers of the Home Mission Board, depleted by the shortage of former treasurer Clinton S. Carnes.

Reports from various centers indicated that the call for \$953,000 representing the shortage in the accounts of the former treasurer, had met with "generous response," although it will be late in the week before the results are definitely known. Each member in a roll of nearly 4,000,000 was asked to contribute one dollar.

Carnes is in Fulton county jail here awaiting trial on charges of embezzling some \$450,000 in church funds. Complete audit of his books has not been completed. He was apprehended in Winniepe, Minn., in September as the climax in a nationwide search after his disappearance in Atlanta on August 15.

### Football Team GETS INTO COURTS

Topeka, Kans., Nov. 12.—(AP)—Football schedules have been changed for many reasons, but a new cause has been found by Highland Park High school.

Its game with Seaman High school for the Shawnee county championship has been advanced a day because the Highland Park team is out on bond and must be in court on Friday, the date originally set, to answer charges in connection with Halloween pranks.

## Dr. Ben Lacy Delivers Sermon At Observance Of Armistice Day Here

Giving an intimate glimpse into the lives of those who struggled upon the shell-torn battlefields of Europe during the World War, and stressing loyalty to the cause of Christ as one of the prime essentials of the human race today, Dr. B. R. Lacy of Richmond, Va., president of the Union Theological Seminary, delivered the annual Armistice Day sermon before members of the Pitt County Post of the American Legion in the campus building of East Carolina Teachers College here yesterday.

He paid tribute to the leadership of Lee and Jackson, of Civil War fame. He said Jackson once said that Lee was the only man he would follow blindfolded. Jackson always led his soldiers to victory. They followed him with the same faith with which he followed Lee—confident that victory lay ahead. It is the same way with Christ, he said. The Saviour of mankind is leading men and women to victory. When the world follows Him, it may be assured of victory ahead.

Dr. Lacy said one of the principal obligations of the soldier was sacrifice. He described instances of sacrifices on the battlefields of France. He scorned those who were afraid to die, because they had offered their lives on the altar of sacrifice when they entered service. He spoke in feeling terms of a man of wealth, education and social position who sacrificed his all on the altar of war. He contrasted this instance with another—of a man without wealth, education or social position—who also made the supreme sacrifice. Both had the same to offer their country—human life—and at the bottom was that spirit of sacrifice so necessary in the life of every person or nation. He said God might require similar sacrifices to prove the worth of an individual or nation.

He appealed to his hearers to be good soldiers—men and women of the Cross—ready and willing at all times to render high type of service in the interest of Christ.

Dr. Lacy preached to a capacity congregation at the Presbyterian Church last night. Members of the Methodist Church were in attendance upon special invitation of the Presbyterians. The message was declared one of the best ever heard here.

### World War Ace Killed In Plane Crash In Idaho

Pocatello, Idaho, Nov. 12.—(AP)—Ten years after the end of the World War, Harry McDougall, 33, Boise assistant Attorney General and World War ace, met death here yesterday when a plane which he piloted in an Armistice Day air circus crashed. Miss Elda Rice, 29, his sister-in-law, also was killed in the fall of the monoplane, which went into a tail spin at 150 feet.

McDougall was credited with bringing down more than five enemy airplanes during the war. He was decorated with the distinguished service cross and the Croix De Guerre. His widow and two children survive.

### ARREST TWO SUSPECTS IN POSTOFFICE ROBBERY

Wheeling, W. Va., Nov. 12.—(AP)—Two men were arrested here today as suspects in the robbery of the Steubenville, Ohio, postoffice last night and were held for Steubenville city and postal authorities. The men, Frank Erwin, 39, and Dewey Stephens, 28, were arrested as they got off a street arriving here from Steubenville. They said they had had no part in the robbery.

## HOOVER WILL SAIL TO S. A. NOVEMBER 20

### President-Elect To Make Trip Aboard The Battleship Maryland.

By JAMES I. WEST  
Stanford University, Calif., Nov. 12.—(AP)—Final orders have been received from Washington by the commanding officer of the battleship Maryland to take Herbert Hoover to South America, sailing from a southern California port not earlier than next Monday.

The latest word here today was that the President-elect would board the ship at San Pedro, the port for Los Angeles, on November 20, sailing on the same day, and arriving at Balboa at the Pacific entrance to the Panama Canal, about five days later.

After the inspection of the canal the ship will continue on to the first port of call in South America, which is yet to be determined. The Maryland, one of the largest and newest of the navy's battleships, and regarded as an extraordinarily steady craft in rough weather, was placed in drydock today at Hunter's Island in San Francisco Bay, to be conditioned for the voyage which will take her as far south as Valparaiso, Chile.

After her hull has been cleaned and painted and some repairs made to minor damages she suffered at San Pedro recently when she was sidwiped by a foreign steamer, the Maryland will sail for the southern port to refuel and there await the president-elect, and his party who will go from Pajo Alto to San Pedro by rail.

During the voyage to Chile, Mr. Hoover will occupy the Admiral's suite, located in the extreme stern of the ship under the quarterdeck. This suite is a snug little one, consisting of a large reception room, a dining room, a bed room and a private sitting room. These quarters will be equipped with all the necessary facilities for the president-elect to carry on the great volume of work he must do on the voyage.

This work will include the preparation of the speeches he is to deliver in the first South American Republics he visits.

For the other members of the party, the personnel of which has not yet been finally determined upon, there will be a dozen other staterooms now occupied by junior officers who will be detached from the battleship until after she returns to her base on the California coast.

The President-elect will be accompanied by his younger son, Allan, and his secretary, George Akerson, as well as representatives of the State Department and a sizeable corps of newspaper correspondents and a few cameramen.

Although Mrs. Hoover has accompanied her husband on all of his campaign trips, it is not likely she will make the South American journey with him. She probably will remain at home here and rejoin the President-elect upon his arrival in Florida early in January.

# ABERNETHY STANDS BY DEMOCRATS

### Urges Support of Regular Party; Sees No Need Of Reorganization.

Charles L. Abernethy, of the Third North Carolina District, who has just been reelected by the usual Democratic majority, lives in the same city with Senator F. M. Simmons.

Until the Houston Convention, both Senator Simmons and Congressman Abernethy were opposing the nomination of Governor Smith for the presidency. When Governor Smith was nominated Senator Simmons continued his fight against him, but Mr. Abernethy decided to support him and he spoke and worked for the entire Democratic ticket. Senator Simmons' home precinct went for Governor Smith by a majority of 49. Congressman Abernethy's home precinct went for Governor Smith by a majority of 67. Craven County, the county of both of them, went for Governor Smith by a majority of 257. Mr. Abernethy issued the following statement to the press today:

"The political situation in North Carolina brought about by the recent election demands the most serious attention of the Democrats of the State for the future. The members of the North Carolina delegation in the House with the exception of one, followed Senator Simmons in his opposition to Governor Smith until his nomination at Houston and then Senator Overman and the entire delegation in the House supported the straight Democratic ticket.

"It now turns out that the electoral vote from North Carolina was not needed to defeat Governor Smith. It now appears that it was not necessary for the North Carolina leaders of the Anti-Smith forces to have joined hands with the opposition and to have waged the strenuous campaign they did to have insured Mr. Hoover's election.

"Now, a calm survey of the results of this strenuous Anti-Smith campaign in North Carolina shows: "That the majority of the State Democratic ticket was greatly reduced.

"That Congressman Zeb Weaver, a Democrat, and a strong Anti-Smith man before the Houston convention, was defeated.

"That Congressman A. L. Bulwinkle, a Democrat, and a strong Anti-Smith man before the Houston convention, and a gallant soldier and officer of the World War, was defeated.

"That the Democratic Congressman of the Fifth District, that brave old Confederate soldier, Major Charles M. Stedman, was only elected by about 500 majority when he had been elected by great Democratic majorities in previous elections.

"That the Democratic Congressmen of the Seventh and Ninth Districts were in the balance for a long time and were elected only by greatly reduced majorities, and both of these men were Anti-Smith men before the Houston Convention.

"That as a result of this strenuous Anti-Smith campaign in North Carolina, every Congressman's election was endangered, and each had to fight for his political life as never before.

"That the Legislature heretofore overwhelmingly Democratic, is now very close between the Democrats and Republicans, the Democrats having a reduced majority.

"That great Democratic counties like Mecklenburg, Buncombe, Rowan, Guilford, New Hanover and many others strongly Democratic, went Republican.

"That in the Third District the counties of Sampson and Carteret went Republican. These counties were Democratic two years ago.

"That Johnston County in the Fourth District, while it went Democratic two years ago, this year went Republican and as a result thereof two State Democratic Senators were defeated.

"That and then our State was carried by a majority for the Republican National ticket for the first time since the Civil War.

"I seriously contend that it was never necessary to have brought such destruction and disaster to the Democratic Party in North Carolina even in the interest of 'saving the Democracy from that Body of Death' as it has been termed.

"Now comes the serious suggestion from Senator Simmons in an interview, that to save the party further it must be re-organized.

"With all due deference, it seems to me that it is much better and will do more to bring about a rehabilitation of the Democratic party for Democrats to stand by the regular Democratic organization that has made the splendid fight for the straight Democratic ticket. I believe the safety of our party in the future lies in strengthening our present Democratic organization, rather than undertaking a re-organization under a leadership which has brought about so much discord, disaster and destruction in our ranks.

"Speaking for myself, I shall abide with the regular Democratic organization of the State."

## Pres. Coolidge Answers Criticisms Against U. S.

Washington, Nov. 12—(AP)—Turning from an acknowledgment of America's obligation to those who served her in the World War to a review of American relations with Europe since the close of the great conflict, President Coolidge last night made vigorous reply to those of the Old World who have criticized the nation's traditional policy of isolation.

The Chief Executive spoke before an audience which had gathered under the auspices of the American Legion to celebrate the tenth anniversary of the signing of the Armistice. He lauded the services of General Pershing and Admiral Sims, detailed the economic results of the war and what he considered its "spiritual" benefits, reiterated his stand for the maintenance of adequate naval defenses, and entered a fervent appeal for a constitution of world peace.

"Declaring that the question of America's duty to Europe had received a wide discussion on both sides of the Atlantic, Mr. Coolidge asserted that America had acknowledged the existence of such things and had tried to meet them.

"They are not all on one side, however," he said, "they are mutual. We have sometimes been reproached for lecturing Europe, but probably ours are not the only people who sometimes engage in gratuitous criticism and advise. We have also been charged with pursuing a policy of isolation."

Mr. Coolidge said that the American position could "truthfully be characterized as one of patience, consideration, restraint and assistance." He declared that he had accepted a settlement of obligations not in accordance with what was due, but in accordance with the merciful principle of what our deb-

tors could pay", that, when asked, America was given advice and for constructive purposes has given of its resources, at the same time refraining from all unsought intervention which it was thought would be ineffective.

They would give a little more attention to our history and judge us a little more closely by our own record, and especially to the much which they now appear to find obscure would be quite apparent". The prevention of war, in Mr. Coolidge's opinion, merits every precaution and every honorable sufficient, but he accompanied this statement with an assertion that, if the nations of Europe had neglected their defenses, the war probably could have come much sooner.

"We can have military preparation without assuming a military spirit," he said, "It is our duty to ourselves and to the cause of civilization, to the preservation of domestic tranquility, to our orderly and lawful relations, to our people, to maintain an adequate army and navy."

In this connection, Mr. Coolidge outlined the naval needs of the United States in view of the nations' extensive coast line, outlying possessions, foreign commerce and investments, and particularly its lack of fueling stations and of merchant vessels capable of mounting five and six inch guns. He declared that based on needs, the United States is entitled to more warships than a nation which has these advantages.

The president received extensively the efforts of the last decade toward reduction of naval armaments and the development and acceptance of the Kellogg-Briand treaty outlawing war. This pact, he said, "is the most complete and

will be the most effective instrument for peace that was ever devised."

Mr. Coolidge estimated that what has already been paid out and what is already apparent for the future, the final cost of the war to America will be nearly one hundred billion dollars. To this he added an estimate that whatever may be thought or said of us, we know and every informed persons should know that we reaped no selfish benefit from the war.

America's benefits from the war he said, were represented by spiritual rather than material values.

"The whole standard of our existence was raised," he added, "the conscience and the faith of the nation were quickened with new life. The people awoke to the drum beats of a new destiny."

## TIP TOP HOT BLAST

### Makes The Coal Pile Last

The type of Stove recommended by the United States Fuel Administration to conserve fuel—burns all kinds of fuel—keeps fire all night.

MADE IN FIVE SIZES.

The outstanding feature of the TIP-TOP HOT BLAST STOVE is the generous amount of heat it gives on a minimum amount of fuel. It makes a cozy, comfortable home, even in the severest winter weather and uses less coal than any other type stove.

## Ten Incomes Of Over \$5,000,000 In United States

Washington, Nov. 12.—(AP)—Two hundred and eighty-three individuals in the United States counted their incomes for 1927 in seven figures, and of these ten received more than \$5,000,000. The Bureau of Internal Revenue is sponsor for these statistics, which were made public today in connection with its annual report on income tax returns.

Incomes of more than a million dollars were reported for 1926 by 231 persons, with the 1927 figures showing 22 additions to this select class. But while there was an increase in the total receiving a million or more, there was a drop in the number reporting incomes of more than \$5,000,000. Ten reported such incomes for 1927, while there were fourteen in the statistics for 1926.

For other years, incomes of more than \$1,000,000 were reported by 60 persons for 1914; 120 for 1915; 206 for 1916; 141 for 1917; 67 for 1918; 65 for 1919; 33 for 1920; 21 for 1921; 67 for 1922; 74 for 1923; 75 for 1924, and 207 for 1925.

The ten with incomes of more than \$5,000,000 for 1927 had a combined net income of \$88,995,242 and together paid a net tax of \$14,588,420.

## Desire To Keep Cherry Hill Cemetery In Good Condition

Five years ago the Woman's Club took charge of caring for and beautifying Cherry Hill Cemetery. This work was done through a committee appointed by the club known as the Cemetery Committee. Since that time, this committee has been most active and efficient in making many changes and improvements.

It was found that the amount allowed by the city was not sufficient to meet all expenses so the fund was supplemented by assessing all owners of plots or sections a yearly amount. For several years now the work has been financed in this way and the cemetery has been put in perfect condition. The committee extends an invitation to every one interested to visit the cemetery and see the improvements. In addition to planting poplar trees all around the cemetery to form a pleasing background, the summer house has been repaired, painted and the grounds around it terraced and planted in ivy and shrubs. Corner beds of shrubs have also been planted just outside the fence on either side of the entrance, and many other things done to add to the beauty of this last resting place of our loved ones.

Since the new cemetery has been opened the amount allowed by the city has been cut in half so the committee in charge of Cherry Hill Cemetery realize that in order to keep the grounds as they should be all owners of sections must respond and send in the amount designated when the assessment cards are sent out the first of January. Should any fail to do so their sections will not be looked after or cared for by the cemetery committee due to the shortage of funds at their disposal. Anyone owning a section who does not receive a card is asked to get in touch with some member of the committee so provision can be made to keep the entire cemetery in its present condition.

## Short Skirts Are Banned In Jugo Slavia

Belgrade, Jugoslavia, Nov. 12.—(AP)—All high school girls, even the daughters of cabinet members, are forbidden by an official decree to wear short skirts, rouge their lips, powder their noses, shave their eyebrows or wear their hair in any masculine fashion. Offenders will be dismissed from the schools.

## Parties And Governments Had Busy Time In All Parts of World Last Week.

(By The Associated Press) Parties and governments in many parts of the world had a busy week of it what with an enthronement, two national elections the fall of four cabinets and the convening of two parliaments.

In Japan Hirohito formally took the throne in then ancient capital of Kyoto as the 124th of the imperial line which stretches back in unknown succession to the prehistoric days before the Christian era. This 27-year-old Emperor is no stranger to his role for he was appointed regent seven years ago because of the illness of his father who died on December 13, 1926. It was his grandfather who, regaining the reins from an entebled and reactionary Shogunate in 1868, transformed his country from a backward feudal state into a constitutional monarchy which welcomed the teachings of the West.

## Ask Action To Stop Crime At Russian Capital

Moscow, Nov. 12.—(AP)—With six soviet officials, including a woman, assassinated during the last week, the soviet newspapers today were demanding immediate and drastic punitive measures.

The newspaper Pravda said that the violence was growing, particularly in the rural districts where the grain collection and heavy taxation of rich Peasants have made these Peasants desperate. Three rich Peasants were sentenced to death and scores were being held today awaiting trial.

The newspaper Izvestia printed dispatches from various localities reporting the murder of officials, teachers and correspondents, the breaking up of meetings and the burning of soviet libraries.

A shot was fired through a window of a library at Scaroda killing a woman communist who was reading in the building. A driverless horse returned to the home of a soviet official near Briansk. The officials widow found in the wagon the body of her husband who evidently had been shot from ambush.

## Confesses Part In Drowning Of New York Youth

New York, Nov. 12.—(AP)—Haunted by the memory of his part in the drowning of a 19-year-old boy a year ago, Henry Stevens, 32, blurted out the story of the boy's death to the bereaved father. He was in jail today charged with homicide.

In July, 1927, the body of William Pritz was fished from the Harlem River. The father was convinced the boy had met with foul play but he could not unravel the mystery of his death. Yesterday Stevens, who said he had tried to drown his remorse in drink, confessed to his part in the drowning.

Pritz, with Stevens and William Maher, he said, were coming home after a drinking bout at Coney Island. Pritz and Maher quarreled and was flung into the river from the Harlem River speedway. He regained the shore, but as he lay on the bank exhausted, Maher and another member of the party, Stevens said, pushed him into the stream again.

Stevens was arrested on his own confession. Detectives found Maher and charged him also with homicide.

Lord Cusdenham gave assurance that the pact was dead while Prime Minister Stanley Baldwin a few days later told the International gathering at the London Mayors' dinner that the name of America will be written large in history because of the Kellogg Pact for outlawry of war.

## ETNA STILL IN ERUPTION

Scientists Fear Great Disaster Is Prompted by Volcano In Sicily.

Giarre, Sicily, Nov. 12.—(AP)—Mt. Etna, now in the eleventh day of a devastating period of eruption, was still remorselessly pouring out a huge flow of lava today although there were signs that the deluge was slackening somewhat.

The main lava stream this afternoon was advancing on the Carrabba front over a width of 2,500 feet with the likelihood that this would be increased at this point by masses of molten rock pouring in over the plain of the destroyed town of Mascali which no longer offers an obstacle to the destructive onrush.

Latest reports from the danger front said that the stream was only about 100 feet from the Messina-Catania highboard, its southern flank advancing about 6 1-2 feet an hour and continuing to bite into the outskirts of Carrabba to the southeast.

Most of the destruction thus far has been in the areas north of Giarre which is on the southeastern fringe of the devastated zone. Mascali has been destroyed, Nuziata damaged and now the town of Carrabba is beginning to suffer. These three places together with Riposto and Giarre fringe the base of Mt. Etna and lie on the Circumetna Railway which has been cut near Mascali by the lava flow, an anxious week-end. Early Sunday morning there were loud earth rumblings which were followed immediately by a series of explosions which hurled up great quantities of stones and bright flames. For a time it was feared that a new eruptive mouth had been formed but late it appeared that the phenomenon was due to local conditions caused by unforeseen evaporation.

Catania, Sicily, Nov. 12.—(AP)—Still pouring forth a fiery torrent which devastated fertile fields and orchards on her eastern slope Mount Etna today was regarded as a menace which had not yet spent her strength.

Scientists of the Vulcanological Institute estimated that only a third of the volcano's potential force had been spent in the eruption which wiped out the town of Mascali and destroyed part of the neighboring village of Nuziata. It was feared that the havoc of the last eleven days might by the prelude to a greater disaster.

Five thousand refugees were being cared for in the villages near the volcano, under the direction of the prefect and local podestats. Bilets were requisitioned for them and rations and temporary subsidies distributed.

A good public library is an asset to any community and Greenville's library is one that speaks credit to those who have labored unceasingly to make such an institution possible. This is National Book Week, and is a good time for all citizens resolve to give our public library the support that it deserves.

The American Red Cross stands ready at all times to answer the call for help. Once each year the Red Cross calls upon the people of the nation to become members and give the organization their moral and financial support. That call is now being sent out by the American Red Cross. When you are solicited for membership, JOIN.

ANOTHER SET NEEDED

In forty-eight selling days three of which were during the time that Greenville was practically isolated because of storms and flooded streams, the Greenville tobacco market has handled and sold approximately fifty million pounds of tobacco or well over an average of a million pounds per day for the entire season. When the fact that Greenville has only four sets of buyers is taken into consideration it is evident that things on the Greenville market are moving at top speed at all times. Buyers, warehousemen and others connected with the operation of the sales on the Greenville market are to be congratulated for this splendid and apparently untiring service they are rendering and but for their efforts we would be running far behind our present mark in pounds. A quarter of a million pounds or more per set of buyers day after day, we believe, is somewhat of a record in the bright belt, and even with this Greenville has been unable to keep pace with the rapid increase in the offerings here and many pounds have been forced to other markets because of this fact. If any market ever needed a fifth set of buyers Greenville does and it is to be hoped that when the next season opens the additional set will have been provided. Situated in the very heart of the bright tobacco belt, easily accessible from all directions, Greenville is destined to become the world's greatest market provided it can handle the offerings of those who want to sell on the Greenville market. Already Greenville has warehouse floor space and factory facilities to handle around 1,700,000 pounds daily, but these facilities are of no avail if there are not

enough buyers to take care of the offerings once they are on the warehouse floors. The record being made by the Greenville market should entitle it to the proper consideration from the big buying companies, and it is to be hoped that before the beginning of another season they will see fit to give us the buyers we need.

ABOUT TOWN

"This is Red Cross Roll Call Week," stated Mrs. J. L. Hassell, chairman of the Pitt County Chapter of the American Red Cross. "If you are not a member of this organization, why not join this week. If you are already a member, nothing would be more appropriate than to renew your membership."

"Pay-up Week will continue through Thursday of this week, one week longer than at first intended," mentioned a member of the Merchants' Association today, speaking of the splendid collections made by the various business houses during the first week of the campaign. "Remember, Mr. Citizens, your credit standing is vitally affected in this effort of merchants to collect long standing accounts. You will be rated with the Merchants' Association according to the way you meet your obligations. If your record is good you will be rated A-1. If, on the other hand, you have not settled your accounts promptly your rating will be bad and you will find it difficult to get recognition next year."

GREENVILLE WAS THE ONLY FOOTBALL TEAM SCORING AGAINST GOLDSBORO THIS SEASON

"Greenville was the only football team scoring against Goldsboro this season," said C. W. Porter, Greenville High School coach, discussing the game here last Friday between the high school clubs of Goldsboro and Greenville. "While the locals were beaten, they had the consolation of knowing they did more against their opponents than any other team they have tackled this season. "The public is urged to turn out and see the Greenville boys in action. We have decidedly the strongest team in years, and the club is producing a brand of ball most anybody should appreciate. "Make it a point to attend the next game and let the lads know you are with them."

IT IS A LITTLE EARLY TO BEGIN ADVOCATING CHRISTMAS SHOPPING EARLY

"It is a little early to begin advocating Christmas shopping early," but it might be wise for the person who has to purchase lots of presents to do so before the stocks are picked over," declared a local merchant today. "It is nearly two months to the holiday season, but there are numbers of things that might be bought and laid away for reference when preparation for Christmas begins. "Greenville merchants have bought liberally for the Yule-tide season this year and the most exacting shopper should be able to get most anything he desires. Shop early this year and assure yourself of getting the pick of the Christmas offerings."

WHAT ABOUT YOUR SUBSCRIPTION TO THE REFLECTOR?

"What about your subscription to the Reflector?" queried the subscription manager of the paper today. "Winter is setting in now and you will want something to read during the long cold nights to come. "There is no news medium in this section of the state more capable of accurately portraying the day's events than the Reflector. We have the best and most authentic news service of the nation—the Associated Press—and always keep our readers fully informed regarding the latest developments. "See that your subscription is renewed in time to receive the paper during the bad winter nights. If you are not a member of our family of happy readers, get busy and become one at once. You will find it to your benefit."

THE PLANTING OF FOOD AND FEED CROPS NEXT YEAR SEEMS TO BE GAINING FAVORABLE CONSIDERATION OF NUMBERS OF PROMINENT FARMERS IN THIS SECTION OF THE STATE

"The planting of food and feed crops next year seems to be gaining favorable consideration of numbers of prominent farmers in this section of the state," declared a member of the Board of Agriculture today, discussing the movement under way to get the farmer to realize the necessity of more money crops in future years. "In Pitt County especially is the farmer showing much interest in the proposal. The majority of land owners realize the necessity of getting away from the one or two crop idea and of planting the things which the farmer consumes himself. "The economic condition of Eastern Carolina farmers should be greatly improved through this medium, and it is to be hoped every body will give the plan the attention which it is so deserving."

BEWARE THE COUGH FROM COLDS THAT HANG ON

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth. Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs. Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)

# GRID TEAMS PREPARE FOR BIG ATTACK

By MORGAN M. BEATTY, Associated Press Sports Writer  
Atlanta, Nov. 12.—(AP)—Several southern conference football teams knuckled down this week to a program of vengeance directed chiefly toward the championship triumvirate, Georgia Tech, Tennessee and Florida, unbeaten and untied in and out of the family circle.

Vanderbilt's Commodores, who were clipped so neatly from the top-most branch Saturday by Tech's Tornado, 19 to 7, turned lowered brow and set jaw toward Knoxville to await the invasion of Tennessee's Volunteers, who trimmed Sewanee, 37 to 0.

Clemson, whose 12-0 victory over V. M. I. hardly assuaged defeat at the hands of Ole Miss the previous week, pointed for the Florida Gators at Jacksonville. Those Gators tucked another important scalp under belt when they took Georgia Saturday, 26 to 6.

Alabama, the Crimson Tide that has rolled back in the conference on for Tennessee, groomed its hottest breakers for the Tornado at Atlanta, its appetite already whetted by Saturday's 14 to 0 victory over Kentucky. The Tide also had in mind last year's whipping administered by Tech.

Georgia's Bulldogs, no less ruffled by their jolt from the unbeaten group, hoped to gain some company in their misery by upsetting another undefeated title seeker, Louisiana State, conqueror of Ole Miss Saturday, 19 to 6.

Of the five leaders—Tech, Florida and Tennessee unbeaten in four encounters, V. P. I. unbeaten in three and L. S. U. in two, only V. P. I. victorious last week over Virginia, 20 to 0, has regulation rivalry this week in Washington and Lee.

Among the Big Three, Georgia Tech had the most impressive lead with victories over the most formidable of conference opposition and Notre Dame as well. Bill Alexander's driving unit starting Mizell, Thomason and Lumpkin behind a forward wall that has put in an excellent bid for national recognition will be at Alabama, unless staleness and overconfidence doesn't get in any licks below the belt this week.

The conference struggle enveloped more teams this Saturday than on an previous week, with eighteen aggregations grooming for fray. The consolation flight embraced Kentucky and V. P. I. at Lexington, Maryland and Virginia at College Park, Auburn and Mississippi Aggies at Birmingham, and Tulane and Sewanee at New Orleans.

Maryland gave the conference and the country at large a neat surprise Saturday by taking Yale into camp, 6 to 0, despite that Old Eli gave everything in stock to turn back the Southerners. Maryland had been defeated three in her own country. Tulane beat a revamped Auburn eleven, 13 to 12, while North Carolina and South Carolina chalked up a scoreless tie. North Carolina State beat Davidson, 14 to 7, and Mississippi Aggies drew with Centenary, 6 to 6, in other games.

## Football Player Injured By Guns Of Chicago Gang

Chicago, Nov. 12.—(AP)—Guns' bullets, hot-headed answer to a minor automobile accident, had left John Acher, Northwestern University football player, paralyzed and near death today.

In gangland police sought an explanation of the quick-trigger tactics which ended a private celebration of Northwestern's 7-6 victory over Purdue.

From a hospital bed, where he lay crippled for life—if he lives—John Acher told his story.

They visited several night clubs and were returning home when their car scraped fenders with a passing sedan. A moment later the large car overtook them. One of its occupants, waving a revolver, stood on the running board and ordered Acher to leave the car.

Acher slumped to the ground as two bullets struck him, one severing his spinal cord.

The sedan sped away through the loop and eluded police who gave chase.

Commissioner of police said the shooting was "undoubtedly the work of gangsters."

## HORNSBY GOES TO THE CUBS

Here is the Rajah of baseball, Mr. Rogers Hornsby, and two of the five Chicago owned players sent by the Cubs to the Braves in exchange for the plugging second baseman. Maguire was the Cubs' regular second baseman last year. Jones was a first string pitcher.

## Fox Hunters Race Gets Under Way

Charlottesville, Va., Nov. 12.—(AP)—The annual fox hunt trials of the National Fox Hunters' Association got under way here today with the running of the chase futurity, an event which has attracted approximately 30 entries.

The event, which will be continued through Wednesday, has a purse of \$1,000 and in addition plate and cups valued at an equal sum.

The field trials have brought sportsmen and sportswomen from many states, including Massachusetts, Maryland, Virginia, North Carolina, West Virginia, Tennessee and Kentucky. Among the sportsmen of national association, John M. Bransam of Chicago; S. L. Woolridge of Versailles, Ky., one of the best known bench show judges in America; Tom Graham of Parkersburg, W. Va.; Robert Rodes of Bowling Green, Ky., and Robert Walker of Paintlick, Ky., son of the founder of the famous Walker strain of fox hounds.

## GAMECOCKS HAVE FURMAN THIS WEEK

Columbia, S. C., Nov. 12.—(AP)—The South Carolina Gamecocks will point this week to the game with Furman here Saturday, a game that will mean much to the standing of the teams in the state circles.

Furman is thus far undefeated in the state and South Carolina has lost to Clemson. By winning the game, South Carolina will be near the top in the list of state teams.

Furman has been flattening all opponents recently and the Gamecocks are looking for plenty of opposition when they meet Saturday.

## RALEIGH RADIO STATION BACK IN SERVICE

Raleigh, N. C., Nov. 12.—(AP)—Raleigh's radio station, WPTF, hoped to be back on the air today, after a period of enforced silence.

## FOUR CLUBS LEAD WAY TO GRID VICTORY

New York, Nov. 12.—(AP)—National championship football aspirations have been blown about in none too gentle fashion so far, but when it comes to measuring the qualifications of contenders, none stands out any more than Carnegie in the East, Georgia Tech in the South, Iowa and Nebraska in the Middle West.

There are others clamoring for recognition among the slim slate of the unbeaten, such as Florida, Tennessee, Detroit, Ohio Wesleyan, and Boston College. There are still more, such as West Virginia, and now Notre Dame that have gathered fresh headway after faltering in the early stages. The final returns are not yet in any they may take a lot of debate anyway, but just now none has a better claim to recognition than Carnegie, Georgia Tech, Iowa, and Nebraska.

Iowa and Nebraska have had close calls, one-point victories which the Hawkeyes gained over Minnesota and the Corn Huskers over Syracuse, but they have decisively whipped four other foes. Carnegie and Georgia Tech have been equally impressive, bowling over all opposition in a season where consistency has been an outstanding virtue.

Georgia Tech's Tornado, with a mighty line and one of the greatest all-around backs in the country in Warner Mizell, has just about as fine a record so far as any team in the land. It takes on added lustre through Notre Dame's thrilling victory over the hitherto unbeaten army. Tech's great forwards smeared Notre Dame a few weeks ago on Grant Field, decisively whipping the same Hoosier array that rapped the stalwart West Point defense to shreds Saturday before a howling crowd of 38,000 at the Yankee stadium.

## TAR HEELS PLAN SLEIGHT REORGANIZATION

Chapel Hill, N.C., Nov. 12.—(AP)—Having baffled the University of South Carolina to a zero the last Saturday the Tar Heels plan to set about today to reorganize their team broken from injuries in recent encounters and illness.

No intensive practice is planned for a few days to give regular members of the team opportunity to recuperate sufficiently to take their regular places if possible. The second team, however, will raise dust on the field today and engage the broken varsity line in light work-out, preparatory to the Davidson game at Davidson next Saturday.

## Football Races At Glance Today

(By the Associated Press)  
Carnegie, victor over Georgetown, leads the unbeaten list, closely followed by Boston College, the only other eastern team neither beaten nor tried. Boston College plays Forham today in an effort to remain in the running. Army defeated for first time by Notre Dame, while Yale bowed to Maryland in Saturday's big upset.

## New Radio Wave Length Causes Lots Of Trouble

Washington, Nov. 12.—(AP)—The Federal Radio Commission today awaited an expected deluge of telegrams and letters on the new system of wave length allocation which it has put into effect.

Yesterday and last night radio fans throughout the country were busy locating their favorite stations and writing new log sheets, twisting the dial until the various transmitting stations came in and then jotting down just where they would be found for future reference.

The reorganization was intended to improve reception by eliminating interference. It provided for cleared channels in each of the five zones, with stations in numerous cases dividing broadcasting time.

Before becoming who listened in last night reported this there were many "squawks and squeals" on the ether, a fact for which the operators of "blooper" sets were given the blame. In addition, many stations had not completed the installation of new equipment made necessary by their changed wave lengths.

Some interference had been expected because of what might prove inadequate geographical separation on various channels.

## State Departments Ask For Increase Of Appropriations

Raleigh, N. C., Nov. 12.—(AP)—With few exceptions, all departments and agencies of the State government are asking increased appropriations for the next fiscal year. It was disclosed today in figures showing requests made of the State budget commission, which is preparing a tentative budget to be turned over December 15 to O. Max Gardner, Governor-Elect.

## ARMISTICE DAY OBSERVED AT CAPITAL CITY

Raleigh, N. C., Nov. 12.—(AP)—World War veterans of Raleigh and Wake County celebrated Armistice Day today with a parade, and address by R. O. Cherry, State Commander of the American Legion, and a barbecue as outstanding features. In the churches yesterday, ministers generally preached sermons appropriate to the tenth anniversary of the ending of the war.

"I'll say so—  
Chesterfield"

Mild enough for anybody  
... and yet they Satisfy

A MILD cigarette—genuinely mild—mild enough for anybody—yet it has real taste and character.  
Chesterfield represents all the appealing qualities of the finest tobaccos, blended and cross-blended in a way entirely different from other cigarettes and with entirely different results. For, mild as Chesterfields certainly are, they do what you've always wanted a cigarette to do—they satisfy.

## Cotton--Stocks--Grain

### COTTON MARKET

New York, Nov. 12--(AP)--The cotton market opened firm at an advance of eleven to 17 points and sold 23 to 27 points above Saturday's closing quotations during the early trading with December advancing to 19.00 and May to 19.94. There was some southern and local selling but it was very readily absorbed by trade buying and covering which was evidently promoted by a private report estimating the consumption of cotton in this country for the month of October at 215,000 bales. It met a little more resistance but the buying continued fairly active and prices were within four or five points of the best at the end of the first half hour. Private cables reported local and continental buying in Liverpool with a scarcity of contracts but said that sales of cotton cloths and yarns were brisk.

### STOCK MARKET

By STANLEY W. PRENOSH, Associated Press Financial Editor.

New York, Nov. 12--(AP)--Speculation in stocks continued at a terrific pace movement. Operators for the rise maintained their advantage of the last fortnight, lifting 30 issues to record high prices on gains ranging from fractions to 15 3/4 points. The violent advances in pool specialties and the delay of more than an hour in the ticker were used as a screen for heavy selling in some of the recent favorites. Montgomery Ward, breaking 13 points and a sprinkling of others falling 2 to 7 points under the weight of realizing sales.

Price movements apparently bore little relation to the day's reduction from 81-2 to 6 per cent. In the call money rate had a bullish effect on speculative sentiment. Several favorable dividend and earnings statements made their appearance during the day and talk of further stock split-ups helped to stimulate the demand for some of the high priced specialties.

Radio was again the spectacular feature soaring 15 3/4 points to a new high record at 278 1/2. Case Thrashing Machine ran up 13 1/4 points, Wright Aeronautical 6 1-2 and Adams Express, Brooklyn Union Cos., Greene Chananea Copper, 9; Bottle and Booth Fisheries, first preferred, sold 5 to 6 points higher.

Coppers were again turned over in enormous volume at rising prices. American Smelting was marked up 4 1/2 points to 290 and accompanied into new high ground by Anaconda, Cerro de Pasco, Kennecott, Inspiration, Chile and Miami. In the oil group, new highs were recorded by Sinclair, Phillips, Skelly, Mexican Seaboard and Standard Oil of California.

Other new highs included such widely assorted issues as Vanadium Steel, Corn Products, Underwood-Elliott-Fisher, American Can, Associated Dry Goods, Westinghouse Electric and Coty.

General Motors, old and new stocks, ran into heavy selling after an early interval of strength. General Electric, Atlantic Refining, Victor Talking Machine and Gold Dust dropped 2 to 3 1/2 points. Cambius, preferred, broke 5 points to a new low at 85 and Midland Steel Products, preferred, Eastman Kodak and Jersey Central sold 4 to 5 points lower.

The closing was strong. Total sales approximated 5,500,000 shares.

### STRATON PRAISES WORK OF MRS. WILLEBRANDT

New York, Nov. 12--(AP)--The Rev. Dr. John Roach Stratton, who waged a nationwide campaign against the presidential candidacy of Governor Smith, in jubilee services at the Calvary Baptist church yesterday, called Mrs. Mabel Walker Willebrandt the "Joan of Arc" of the campaign.

"Victory was won by the preachers and the God-honoring women of America," he said. "I pay tribute to one of these, the Joan of Arc of the campaign--Mabel Walker Willebrandt. I declare the feeling in my own heart when I say there has not been a finer piece of public service performed by anyone in modern times than that put across by Mrs. Willebrandt."

He said the next duty of the people was to destroy the Tenney Tiger and oust the "Flapper Mayor" from city hall. He applauded Col. Theodore Roosevelt, Jr., as a worthy candidate to succeed Mayor Walker.
