HOOVER PUTS FINAL TOUCH ON SPEECHES

President-Elect To Deliver Short Addresses At Honduras and Salvador.

U. S. S. Maryland, Nov. 24.—(AP)—The battleship Maryland, bearing President-elect Herbert Hoover and his party on his tour of Latin America, today was riding a gale which at one time attained a velocity of seventy miles an hour. The good will ship rode the storm well. Mr. Hoover apparently was not disturbed by the gale. At the height of the storm the waves broke over the clipper bow, throwing spray as high as the bridge of the big dreadnaught. At times the water was four or five feet deep on the quarterdeck, where the President-elect often promenaded. The speed of the ship was reduced from seventeen to six knots by Captain Kimberly, who went on the bridge and took charge. The stars hampered a Voight-Corsair seaplane on the quarterdeck of the Maryland so badly that the ship had to change course in order to permit its being moved to shelter. Hoover had his first taste of the tropical storm late last night when heavy seas lapped the side of the ship until they poured into the portholes of his sitting room. Overhearing an attaché say "This is terrible," Mr. Hoover smiled and replied: "Oh, I've seen worse."

A swab wiped by a member of the crew disposed of the surplus water and the portholes were closed, making the quarters watertight. U. S. S. Maryland, En Route to Gulf of Panama, Central America, Nov. 24.—(AP)—President-elect Herbert Hoover today began putting the finishing touches on the first two speeches of his Latin American Good Will Tour. He will deliver them Sunday at Amapala, Honduras, and La Union, Salvador. These speeches have been prepared in collaboration with Ambassador Henry P. Fletcher and John Griffin Mott, a friend of Hoover's from Los Angeles and a student of Latin America. Each address is about 500 words long, requiring only five minutes for delivery by Hoover. Since the President-Elect's Spanish is limited, he says, to about the names of California towns, the address will be read by an interpreter, who also will have to translate to Hoover the address of welcome by the officials of Honduras and Salvador. These speeches are expected to reflect the philosophy which led Hoover to decide on this unprecedented mission. This philosophy is known to be one of mutual aid between the American Republics through better understandings and exchange of culture, science and education. "So Hoover can get ashore early Sunday for his first visit to Amapala, morning worship aboard the Maryland will be held an hour earlier than usual. The party will use the battleship's boats for the trip ashore, and also for the tennis run to La Union, where a reception and dinner will be tendered by Dr. Pio Romero Bosque, president of Salvador. Late Sunday night the party will leave for Corinto, Nicaragua. Officials disclosed today that Hoover, in visiting Ecuador, will have to leave the Maryland seventy miles at sea, making the trip to Guayaquil in a tender or gunboat, which the Ecuadorian government will rent out for him. The trip will require about ten hours each way; the party probably will spend the night ashore.

KING GEORGE IS IMPROVED

English Monarch Reported To Have Spent Quieter night At His Palace.

London, Nov. 24.—(AP)—Hope that the worst of King George's illness was past was replaced today by the alarm that followed the announcement that there was congestion in one lung. All court life, however, has been topped. The court circular appearing in the morning papers was a brief four line announcement where it is generally a fairly full document relating to the activities of the day. The circular merely stated that the Queen of Spain, the Duke of York, Prince Louis, Prince George, and the Marquess of Cambridge visited the king yesterday.

At the end of an anxious day of watching for news from the sick room, the nation was somewhat relieved when the official bulletin of the king's physicians, Lord Dawson of Penn and Sir Stanley Hewett, was issued. The statement said: "The king had a quieter day. His temperature is lower and there was no further extension of the mischief in the lung." If the king's illness now follows a mild course leading to recovery, there is little doubt that he will be advised as soon as convalescent to take another sea trip as he did during his last serious illness about four years ago. His physician at that time urged him never to spend another winter in England but to seek a milder climate. The king, however, set public devotion to duty first and this, added to his well known love of life in his home country, induced him to ignore the medical advice.

Two Held For Murder.

Carrollton, Ala., Nov. 24.—(AP)—Charges of murder confronted Jammond McCarty, salesman, and Milton Sanford, his negro manservant, today, despite that an examination of the State Chemist had not yet determined whether or not Mrs. McCarty died of poison. Pickens county officers said Mrs. McCarty had died last Monday after a violent illness. The negro was taken into custody Monday, but McCarty was not arrested until Thursday night on his return from Shubuta, Miss., where he attended the funeral of his wife. The family recently had moved from Shubuta to Gorda, Ala., where they were living when Mrs. McCarty died.

Greek Freighter Sinks At Lisbon

Lisbon, Portugal, Nov. 24.—(AP)—The Greek freighter, Virginia, which was towed into Leixoes port yesterday by fifteen Portuguese trawlers after having been abandoned by her crew, sank in the harbor early this morning. The trawlers had expressed the intention of claiming salvage for the abandoned ship amounting to 70,000 pounds (approximately \$350,000) but whether they will ever be able to get anything out of their rich prize now remains problematical.

Thousands Homeless As Result Of Typhoon In The Phillipine Islands

Manila, Nov. 24.—(AP)—Advices that several thousand persons had been made homeless and hundreds of homes destroyed in the typhoon which has raged through the south central part of the Philippine archipelago for two days were received here today. No deaths have been reported. A dispatch to the Bulletin from Legaspi, Albay province, said 7,000 persons were homeless and four hundred dwellings and seven wharves had been destroyed as the result of a 100-mile an hour gale. A big landslide at Mayon volcano, a short distance north of Legaspi, also was reported. Red Cross headquarters here made preparations to launch relief measures in the event that later information indicated such a need. A bad storm was reported by Cebu, on the island of that name, but advices from there said no outside aid was needed. Iloilo, on the island of Panay, likewise reported a storm. Communication lines were down in other sections believed to have been touched by the storm. The government weather bureau reported that the southern part of Luzon Island and the northern part of the island of Samar probably bore the brunt of the storm, and that the damage there undoubtedly had been heavy. The fate of the Japanese steamer Saka Maru, which went aground on the Island of Masbate soon after the storm struck, remained undetermined here and fear was expressed for the safety of her crew. The vessel was almost in the direct path of the typhoon. A high wind prevailed in Manila today and electric service was interrupted but otherwise there was no damage in the capital.

Berlin Journalist Asks Facts About Tobacco Activities

Franz Otto Koch, of Berlin, Germany, desires information and pictures in connection with the tobacco industry of this section.

A correspondent for German, Austrian, Swiss, Dutch and Danish newspapers, Mr. Koch has written K. W. Cobb, supervisor of sales of the Greenville tobacco market, asking for the information to be used in articles for his publications. Mr. Koch was particularly desirous of obtaining stories and pictures of various types of pipe, cigar and cigarette tobaccos and their production from the field to the factory. Each of the stories will carry credit lines and tell of the section where the tobacco is raised.

Mr. Cobb stated this morning the required information was on its way to Germany and that the Berlin journalist had sufficient material for supplying his readers with many stories and pictures of this great industry.

This is one of the many requests for information of about development of the Greenville tobacco market, Mr. Cobb said. Almost daily inquiries are received from all parts of the world. The tobacco market always makes it a point to supply as many facts as possible. This is one of the many reasons Greenville stands out so prominently as one of the greatest tobacco selling centers in the world.

Former Dancer Teaches Dances To Help Church

Chicago, Nov. 24.—(AP)—Dorothy Deuel, a member of one of the "sister teams," featured in numerous Broadway Music Shows, is now spending much of her time teaching her husband's parishioners in suburban Berwyn how to dance. Classes in tap-dancing for boys, acrobatic dancing for children and classes in musical comedy technique for girls and women of St. Michael and all Angels' Episcopal church are the chore the former Dorothy Deuel has given herself to help her husband, the Rev. Henry Scott Rubel, rebuild the parish budget. Miss Deuel and Mr. Rubel met at the little church around the corner in New York where both were members of the Episcopal Actors' Guild. They were married a year ago and came to Berwyn six months later. Mrs. Rubel believed she could make her musical comedy training pay dividends to the church and immediately set about it. The Rev. Mr. Rubel, who produced two music shows himself while a student at the University of Wisconsin, is lending aid to Mrs. Rubel in the theatrical program for aiding the church. "Christians," he said today, "have more right to dance than anyone. Hereafter they have been too pious. Dancing, which has biblical authorization, is a natural expression of a human being to rhythm in gesture."

Printers Strike At Albany, N. Y.

Albany, N. Y., Nov. 24.—(AP)—Albany received its news in high condensed form this morning from a typewritten, six sheet newspaper. Cross the regulation size front page of the morning Knickerbocker Press the streamer, "Printers Strike on Four Albany Newspapers" told the story. Last night all members of the composing room forces of the four local newspapers walked out. Artists, photo engravers, stereotypers and pressmen got out the Knickerbocker Press. The Evening News, the Evening Times Union, and the Sunday Telegram planned to follow the Knickerbocker's methods of publication. Copy for the Knickerbocker's first edition was typewritten in two columns and pasted on cardboard of newspaper page size, photo engravers made a one-page plate of each of four pages and it was stereotyped.

British Steamer Reported Sinking

Cape Town, South Africa, Nov. 24.—(AP)—The British steamer Cariboo was reported to be sinking today 35 miles southwest of East London. The crew were stated to have abandoned her and been picked up by the British steamship Windsor Castle. Captain Mitchell, of the Cariboo, remained aboard his sinking ship. Heavy weather prevailed last night when the vessel left East London, where she had been loading cargo for the United States. Later the vessel sent a wireless message stating that she was aground at Kelsamma, but afterward the ship was refloated under her own steam. It was believed that the Windsor Castle was standing by hoping to save the captain.

Two Big Stills Taken In Belvoir Township Today

Two whiskey stills were captured in Belvoir township today, according to information from the office of Sheriff Sam Whitehurst this afternoon. Both stills were in operation, but the operators escaped after being warned by outposts. A considerable quantity of meal and a small amount of whiskey were captured with the outfits.

SEEK GUNMAN IN ROTHSTEIN MURDER CASE

District Attorney Believed to be Preparing Indictment Against George McManus.

New York, Nov. 24.—(AP)—District Attorney Banton was believed today to be preparing to go before the grand jury Monday to ask the indictment of George McManus in the slaying of Arnold Rothstein, the big time gambler. McManus, reputed operator of floating card games and close friend of Rothstein, has been described by the district attorney as the man who could "clear up this whole thing in three minutes." But since Rothstein was fatally shot November 4, supposedly in Room 349 of the Park Central Hotel, McManus has eluded the authorities who have sought him for questioning. McManus occupied Room 349 and is believed to have been there when Rothstein was shot. Although Mr. Banton declined to discuss the matter, the report persisted that he would report to an indictment in order to get his hands on McManus. The police have been working on the theory that while McManus was present, the actual shooting was done by a professional gunman. Playing a star role in the new turn of events is Mrs. Ruth Keyes, Chicago clock model, and wife of a railroad brakeman, whose arrival Tuesday broke an impasse in the inquiry. She has identified a photograph of McManus as that of the "Mac" who had several drinks with in Room 349 a few hours before Rothstein was shot. She met two other men in the room, she told police. With the investigation giving promise of definite results, Mayor Walker, who once threatened a police shakeup because he disliked the way the case was being handled, indicated he would adopt a "hands off" policy. Assistant United States Attorney Thomas J. Todarella revealed yesterday that Rothstein had long been known to the government as one of the "higher ups" in a local narcotic smuggling ring.

GALE CLAIMS NINE LIVES IN BRITAIN

London, Nov. 24.—(AP)—Having swept over the British Isles leaving nine known dead and disabled and crippled shipping in its wake, a southerly gale today was howling across western Europe. The storm was fully as severe as that of a week ago. In addition to the nine deaths there were numerous persons injured in scattered localities and much destruction of property. One of those killed was a sand-winch-board man in Liverpool whose sign caught the wind and threw him under a motor truck. The chimney of a school in Hull collapsed as the pupils were leaving the building and one school girl was killed. The other pupils escaped with bruises. The fate of the crew of the German steamer Herrenwyk which sank in the gale about 645 miles west of Ireland was in doubt, although it was known that a number had been saved. The Danish steamer Estonia cruising around in the vicinity radioed that it had picked up 13 of the crew of 26. A dispatch from Copenhagen however said that 16 members of the crew had been rescued. The violence of the wind at Southampton caused delay to several liners scheduled to depart. These included the Tasmania, bound for New York. Steamer service between Ostend and Dover was canceled and air liners stayed at Croydon instead of leaving for the Continent. The weather was particularly severe today at the Channel Ports of France and along the French Atlantic Coast. The gale howled over northern and western France brought down chimneys and uprooted trees. Telegraph and telephone service was paralyzed. No fatalities were reported from France. Weather predictions were that another gale was raging across the Atlantic and was due in England tomorrow.

THREE VICTIMS OF OMAHA HATCHET SLAYER

Police and citizens are guarding homes in Omaha, Neb., against a hatchet slayer who has killed five persons and injured two others in recent attacks. Above are Greta Brown, 18 (left), and her sister, Mrs. Walter Resso (center), who were found slain in the Resso home. Harold Stribling (right) was seriously injured by the killer who abducted Mrs. Stribling and held her captive for three hours.

Bulgarian Government Rushes Troops Against Revolutionary Leader

Sofia, Bulgaria, Nov. 24.—(AP)—Troops were marching today on Petrich, stronghold of Ivan Michailoff, leader of the belligerent faction of the Macedonian revolutionary party. The order that soldiers arrest Michailoff came after an exchange of messages between the leader and the government. It was expected that bitter fighting would ensue in the attempt to capture Michailoff. The government sent an ultimatum ordering him to discontinue all acts of terrorism and to abandon his march on Sofia. He replied that Federal members of the Bulgarian government deserved death and termed them the greatest enemies of the Macedonian people. The government then sent troops after Michailoff and rushed large contingents of soldiers into Sofia from the outlying districts to reinforce the garrison. Strong sentry forces were placed around all government buildings and a doubled police guard protected the members of the cabinet. Athanas Buroff, foreign minister, acknowledged in Parliament that the government was powerless to crush the revolutionary movement. This statement added to the fears of the population which believed that general martial law was inevitable. The foreign minister said that he had cautioned Great Britain and France, who had protested against the activities of the revolutionaries, that if they wanted the organization suppressed they must procure the good influence of Bulgaria's neighbors, since hundreds of thousands of Macedonians are now living under Jugo-Slavian and Greek rule. The national ministry, like Bulgaria, is divided into two camps regarding the Macedonian movement. War Minister Volkoff is an ardent supporter of the Macedonian desire for liberty and Foreign Minister Buroff is strongly opposed to Macedonian activities.

Colombian Flyer Continues Flight Home Tomorrow

Jacksonville, Fla., Nov. 24.—(AP)—Benjamin Mendez, Colombian aviator who flew his seaplane here yesterday from New York on the first leg of a flight to Bogota, spent today in Jacksonville, grooming his motor and resting in preparation for a hopoff tomorrow morning. Declaring he was too tired to continue today after the strenuous 1,940 uneventful flight from Mitchell Field, the chief pilot of the Colombian air service said he would proceed to Havana, Cuba, after the motor of the plane had been thoroughly tested.

FLORIDA AWARDED SWIMMING EVENT

Orlando, Fla., Nov. 24.—(AP)—For the first time in history Florida has been awarded the national outdoor men's swimming championships and she hasn't yet decided where they will be held. Ray Greene, secretary-treasurer of the State A. A. U., said he expected the races will be staged at Rollins College with the State races about May 1, if appropriate arrangements can be made at Winter Park.

LEAF SALES STILL LIGHT IN THIS CITY

Market, However, Has Maintained Average of Million Lbs. Daily This Season.

Total season sales on the Greenville tobacco market were given at \$8,504,153 pounds in the official report of market activities issued today by K. W. Cobb, supervisor of sales. For the corresponding date last season the market had sold 13,893,200 pounds. The total amount paid out by the market this season was reported as \$12,388,704.43. The general average was \$21.17 per hundred pounds against \$23.81 for the corresponding period last season. For the week ending yesterday the market had sold 4,495,758 pounds of bright leaf for a total sum of \$1,068,101.35, the average on this amount being \$23.75. For the same week last year the market sold 2,723,334 at an average of \$25.78. Offerings yesterday were smaller than any other day this season, but with 58 sales days marked up to their credit tobaccoists had averaged over a million pounds of leaf daily. Sales yesterday amounted to 749,972. The amount paid out by the market was \$176,690.71. The general average was \$23.55 per hundred pounds. With three more sales days before the Thanksgiving holiday, tobaccoists were confident of reaching six million pounds, placing the market within ten million pounds of the goal set for this season. While sales are expected to be considerably lighter during the holiday season, belief was expressed by many that the end of the season would see the market within striking distance of the goal. Offerings this week consisted largely of inferior damaged tobacco. Prices for these grades were considered good, but they played an important part in holding down the general market average. Good tobacco continued to command splendid prices and tobaccoists were of the opinion that this would continue the remainder of the season.

Former Banker Held For Trial At Atlanta, Ga.

Atlanta, Nov. 24.—(AP)—John D. Walker, who left Georgia 13 years ago holding the presidency of 107 small banks and the trusteeship of the North Georgia Methodist Mission Board, was in a cell in Fulton Tower today awaiting disposal of charges that he converted bank funds to his own use. The former state senator and manager of one of Woodrow Wilson's presidential campaigns in Georgia was brought here last night by department of justice agents who had been trailing him around the world for three years. While he said a formal statement would be forthcoming later, he talked briefly with newspapermen on arrival. "I am glad to be back. For years I have been fleeing justice because I did not have the money to fight my case and be vindicated. The Walker family is among the most prominent in Georgia, and Walkers, relatives of mine, have held high office. The name has never been smirched until I smirched it, and I am going to fight to remove this stain from the family name." Walker denied he was guilty of converting bonds in the bank of Sparta, Ga., the central institution in the big chain. Federal officers said Walker left a wife in New York, but were unable to amplify as to his domestic life. When the banker left the state, his wife obtained a divorce, naming the wife of an Athens, Ga., jeweler, with whom she alleged he vanished.

Bombers Still Busy At Chicago

Chicago, Nov. 24.—(AP)—Bombers continued their early morning attacks today by hurling explosives at Julius Kasaria's cigar store on South Ashland avenue. The blast tore away the front of the store and damaged the Tri-motto restaurant next door.

FARM RELIEF WAITS ACTION BY CONGRESS

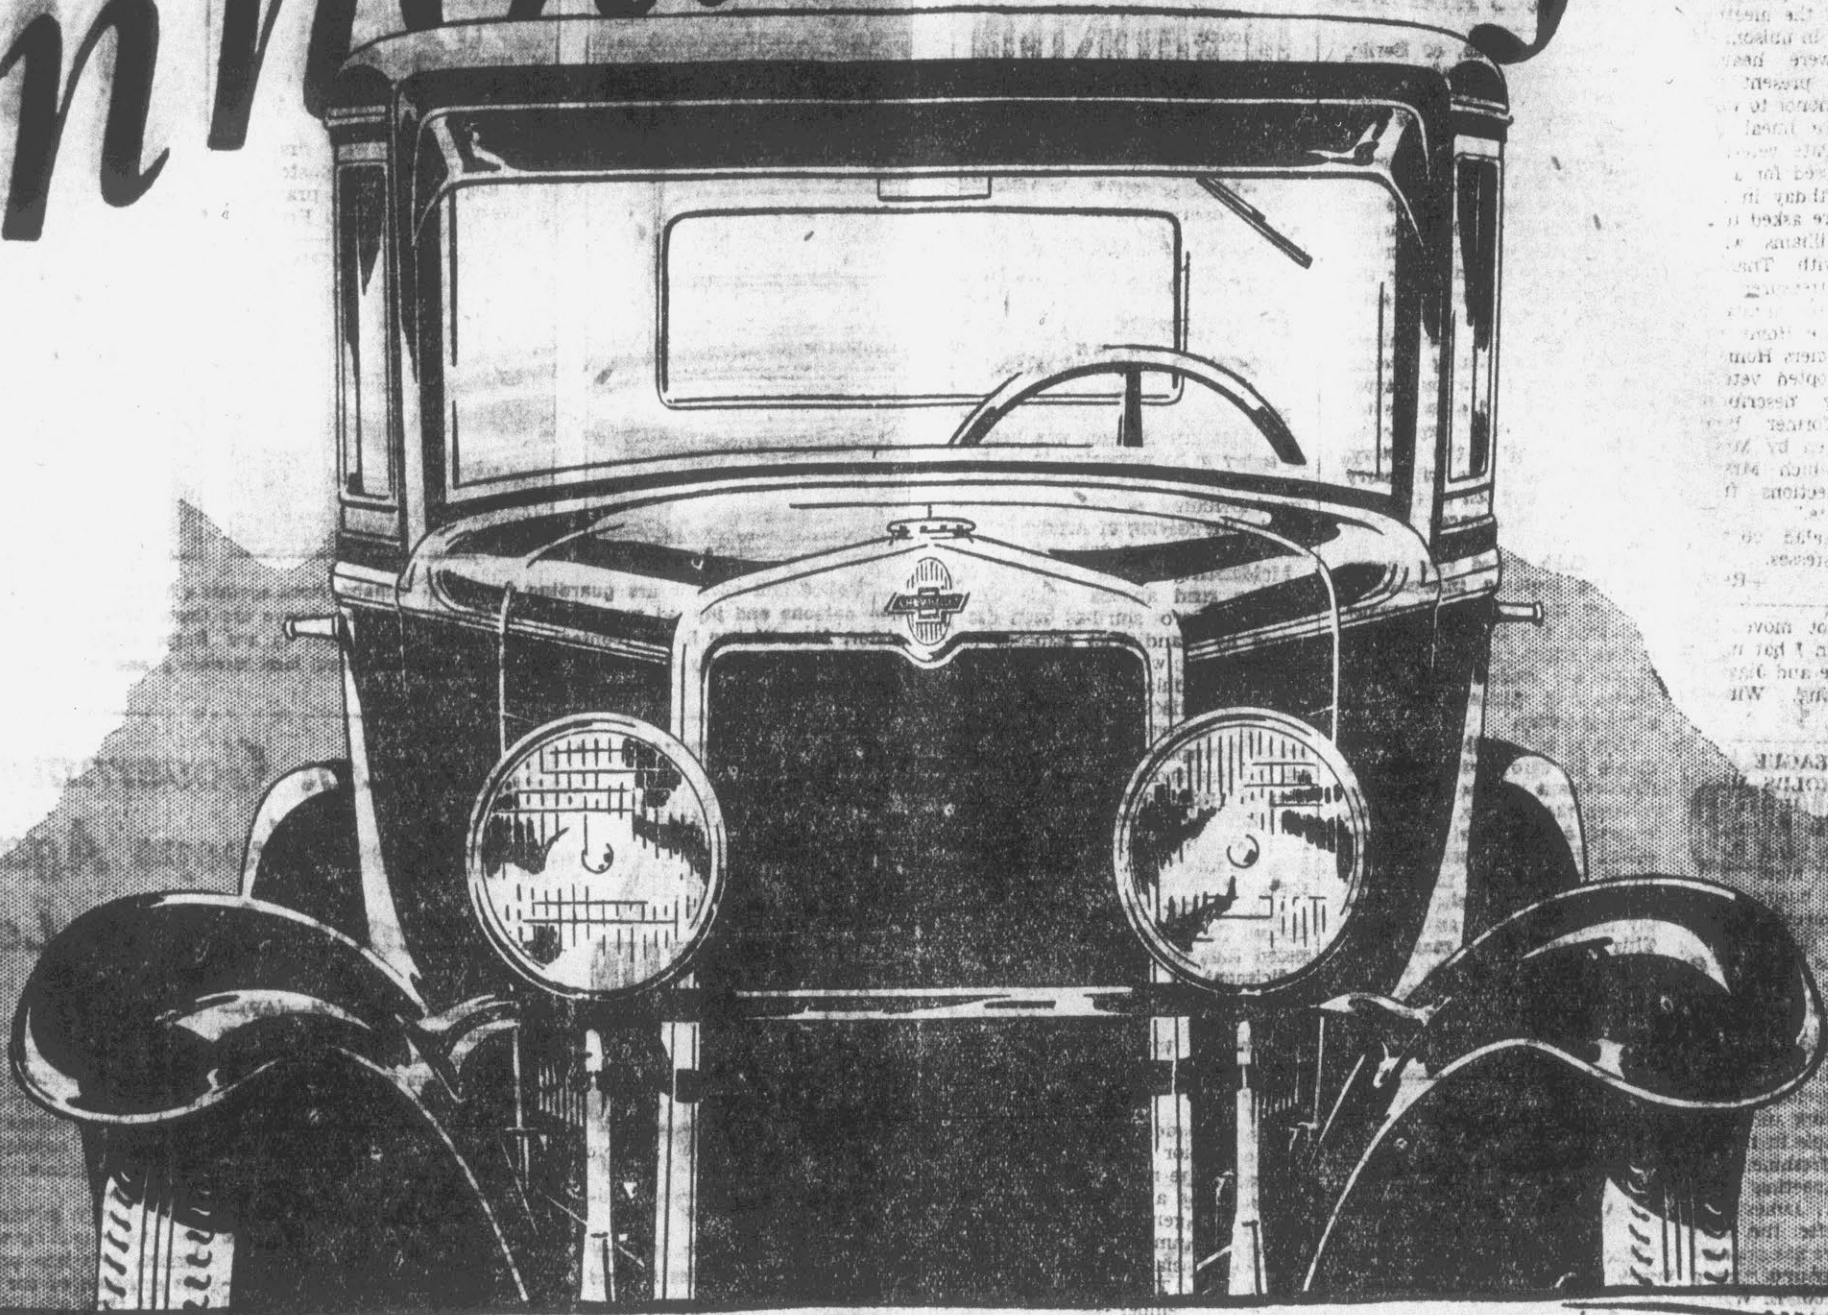

Dressed In New Raiment, Bill To be Pressed For Votes at Approaching Term.

Washington, Nov. 24.—(AP)—An old acquaintance, dressed in slightly different raiment, is waiting for the members of congress. It is a farm relief bill, drafted by Chairman McNary, of the Senate Agriculture Committee, and it is to be pressed for a vote at the approaching short session. The measure calls for the establishment of a Federal Farm Board with membership of twelve to take over the marketing of surplus crops, but the equalization fee, the cause of many a legislative quarrel, is missing. Senator McNary, co-author of the twice vetoed McNary-Haugen bill, has sought to follow the administration's ideas on how to help the farmers. The new bill abandons the equalization fee, but country to supervise crop marketing, in the government. It would permit the setting up of stabilization corporations over the country to supervise crop marketing, it being the theory that in the event of a crop surplus the corporations would keep this surplus off the market, thus helping prices. The surplus then would be disposed of in off-seasons. Senator McNary said that administration support of his measure is certain, and that experts from the departments of agriculture and the treasury helped him get it in shape. He believes that it can be disposed of at the report session. However, there are reports that some of the legislators are still faithful to their first love, the equalization fee. Then in some quarters there is the feeling that judicious alteration of the tariff would help the invalid agriculture. Two of Mr. Hoover's strong supporters, Senators Borah and Brookhart, have contended that tariff revision is almost a specific in the cure for agriculture. They may insist on the extra session, promised by Mr. Hoover, if the farm problem is not satisfactorily disposed of at the coming session. Speaker Longworth of the House, is of the opinion that the House an dispose of farm relief at this session. But if the tariff is to be reworked, he said that he favored an extra session to begin next all. Senators Moses, of New Hampshire, one of Hoover's campaign managers, has declared that he believes a farm relief bill will be passed at the coming short session, but even at that he thinks an extra session necessary. The senator from New Hampshire also said that he was for Senator Watson, of Indiana, to succeed Vice President-elect Charles Curtis as majority leader in the senate.

TO OUR ADVERTISERS!

Beginning Saturday, December 1, all copy for display advertising must be received at our office on the day before the date of publication in The Reflector. This change in our working schedule is necessary in order that we might give our advertisers the best service and at the same time give service to our readers, and we earnestly ask the co-operation of our advertisers in making this better service possible. Under our present system of accepting ads the same day of publication, we are forced to crowd a day's work into a half-day, with the result either the advertisements do not receive the attention to which they are entitled, or the paper must reach the reader late, and it is in an effort to overcome this bad situation that we are making the above change. For the benefit of our advertisers our solicitors will call upon the business houses each day between the hours of 8 a. m., and 1 p. m., for advertisements for the next day's issue of the paper and after that hour ads will be accepted at our office until closing time. Remember! After December 1—no ads accepted for publication on the same day. Help us give you and our readers better service by giving us your ads on time.

Announcing

The Outstanding Chevrolet of Chevrolet History

- a Six in the price range of the four!

The Chevrolet Motor Company announces The Outstanding Chevrolet of Chevrolet History... a Six in the price range of the four!

Spectacular as Chevrolet's achievements have been in the past... notable as its engineering triumphs have proved themselves to be—this remarkable new car dwarfs every previous Chevrolet accomplishment. Not only does it introduce into the low-priced field an entirely new measure of performance, comfort, beauty and style—but it is sold at prices so low as to alter every previous conception of motor car value.

The new six-cylinder valve-in-head engine—developed from more than a hundred motors designed especially for this sensational car—stands out as an engineering masterpiece. With a power increase of approximately 32% over the previous Chevrolet motor, with sensationally greater speed and faster acceleration—it offers a type of performance

that is literally astounding... even to those who have been driving cars costing hundreds of dollars more.

Throughout the entire speed range, it performs with a smoothness and quietness of operation that have never before been approached in a low-priced automobile. At the slower speeds of city traffic it idles along with wonderful silence and ease. On boulevards and country roads it responds with an eagerness that is a constant delight. It takes the longest and steepest hills with an abundant reserve of power

that is a source of pride to the driver. And its economy of operation averages better than 20 miles to the gallon!

This revolutionary performance has been achieved as a result of the greatest array of engineering advancements that Chevrolet has ever announced. A high compression, non-detonating cylinder head... a new heavier crankshaft, statically and dynamically balanced... automatic lubrication of the entire rocker arm mechanism... semi-automatic spark control... hot-spot manifold... gasoline

pump and filter... new and larger carburetor, with automatic acceleration pump and improved venturi choke... fabric camshaft gear... heavier driving gears... heavier differential gears... improved crankcase breathing system... improved lubrication... new 4-wheel brakes that are powerful, safe and quiet under all conditions—these indicate the importance of a group of engineering advancements that embrace every major unit of the entire chassis.

In appearance, this Outstanding Chevrolet is destined to become an automotive sensation—so smart, so stylish and so distinctively appointed that it rivals the costliest custom creations. The new Fisher bodies are longer, lower and roomier with adjustable driver's seat in all closed models—and reveal the matchless artistry of Fisher designers. With their modish new colors, their smart dual mouldings and their distinctive concave pillars, they achieve a degree of original beauty that has

seldom been equalled in motor car design.

You are cordially invited to visit our showroom and secure complete and detailed information on this sensational new car which will be ready for delivery beginning January 1st.

Club Boys To Ship Carload Pigs in Spring

Sixty-four boys attended the Boys and Girls 3-H Club Rally held at the Court House yesterday. They were here from Simpson, Stokes, Grimesland, Bejers, Fountain, Winterville, Joyner, and Rendon. The boys paid their respects to the Greenville Banking & Trust Company and the National Bank of Greenville by marching into their buildings and giving come rousing yells by way of expressing their appreciation to these banks for giving one boy in each of these schools a free trip to Richmond to see the carload of Club Pigs sold next spring. All of the boys could not attend the rally but just the same they are preparing to feed a pig. More than 100 boys are planning to enter this test.

L. R. Harrell, State Club leader, was with the boys yesterday and told them that they were putting one of the most outstanding pieces of club work in the state. The rally-day for the 4-H Club boys and girls with 256 in attendance according to State Extension officials, was the most successful held in this section of the State. The songs and games were entered into enthusiastically, led by Miss Jane Thomas, music teacher of Eastern Carolina Teachers College. The various clubs turned in fine reports. The special hour for the girls with Miss Hunter from State College, and boys with L. R. Harrell, State Club leader, were highly enjoyed by the two groups and the 4-H Club lunch served by the lady chaperones from the different communities was the outstanding feature of the occasion.

Nothing New In Matched Murder Case at Omaha

Omaha, Neb., Nov. 24.—(AP)—While Jake Bird, negro ex-convict from Utah, was held at the state penitentiary at Lincoln, as a hatchet slayer suspect, police maintained another all-night patrol over the city. After a conference with Sheriff Charles McDonald, who took Bird to Lincoln, Police Inspector B. F. Danbaum said "there is nothing new."
According to Deputy Sheriff John Dunn, Mrs. Harold Stirling, latest victim of the maniac, screamed, "That's the man!" when Bird was taken before her yesterday. Nurses and Mrs. E. C. Henry, wife of Stirling's physician, say that what Mrs. Stirling said was "The man away and that she refused to say whether he was the man."
Bird stoutly denied any connection with the hatchet killings and attacks and maintained that he was being "railroaded."
Inspector Danbaum said he must have more evidence to convince him that Bird is the man wanted.
Chrysanthemums, Predominate.
New York—At the largest debutante ball of the season, attended by many Harvard and Yale boys, the night before the annual football game, the decorations included 10,000 chrysanthemums. They were yellow, neutral or more Princetonian than anything. The debut was that of Miss Fanny Moore.

Eddy Brown Quartet Pleases In Concert At Teachers' College

Music lovers had a rare treat last evening listening to the fine program of chamber of music played by the artists in the Eddy Brown Quartet in their concert at East Carolina Teachers College. They moved themselves great artists in every respect. Their ensemble playing was of the finest, so those who know say, their rhythm wonderful, their tone lovely, whether in the rich organ tones or the delicate, fairy-like tones, and their shading beautiful. How they achieved their lovely effects only the musician who understands technique know.

The program was well-balanced, containing numbers from the earlier classics down to contemporary composers. They opened with a Schubert number, out of deference to the Schubert centennial, as the music world is this week celebrating the hundredth anniversary of the death of Schubert, Nov. 19. The Haydn Quartet, in its entirety, was the second composition played. Many people liked the Adagio movement in this better than anything else on the program. The second group was by middle composers, a "Spanish Dance (Tango)" by Albentz, a "Serenade" by Victor Herbert, "Oriental" by Glorior Herbert, "Russian" composer Strauss, a great deal of attention now, and an arrangement of the two negro spirituals, "Go Down, Moses," and "Swing Low, Sweet Chariot," which was naturally the most popular number on the program. The last group was a complete quartet by Dvorak, in which the composer shows clearly by the strains from the negro spirituals and Indian songs, the influence of America upon his composition.

The musicians expressed themselves as being greatly pleased with the auditorium, which they say is for this. These are to be placed on their extensive tour through the South, and Eddy Brown said that one somewhat like it was needed in New York City. The four men are traveling in a private car. They left this morning for New York City.

A representative of the Senior Class made the announcement that the Senior Play this year would be under the management of the Senior Class and would not come under the general management of the Entertainment Committee, therefore special tickets would be sold for this. These are to be placed on sale December 1st, and the prices will be according to the location of the seats. The play will be the popular modern play which has had long runs both on and off Broadway, "Smilin' Through," and the dates for the two performances are December 6th and 7th.

AUBURN PLAYS GEORGIA TECH THANKSGIVING

By HORACE C. RENEGAR, Associated Press Sports Writer.

Atlanta, Nov. 24.—(AP)—Georgia Tech is enjoying "the top of the morning" so to speak, in a football way. The Plainsmen of Auburn are in the wind-up stage of a second record season of disaster. Yet, good or bad, for better or for worse, when two teams meet on the gridiron Thanksgiving Day there will be all the glamor of a great and ancient struggle around these football war-

thirty years, either Auburn Tech has either dominated southern football or held a commanding position. Both were among the pioneers of the game in Dixie and their own rivalry began with the game. That was in 1892.

Auburn was the master of the situation from that date until 1914, not only trouncing the Golden Tornado with regularity but also sweeping the south many of the years.

The Plainsmen started with Moke Donahue among its earliest coaches. Mike came down to Auburn early in the twentieth century, fresh from a quarterback career at Yale, and for nineteen years he coached Auburn and the Plainsmen, usually either ruled the roster or were a constant nemesis to some ambitious eleven.

Then came 1915. Tech won its first game of history from the Alabamians, trouncing Auburn 7 to 0, after having suffered an even dozen defeats at their hands. That marked the change of cycle.

John Helsman's Tech team reached its heights and in 1917 a great eleven, boasting Strupper, Guyon, Flowers, Phillips, Fincher and others slaughtered Auburn with a vengeance to partly atone for the 96 to 0 defeat Auburn had administered their institution in 1894. The score in 1917 was Tech 58 Auburn 7.

After Helsman came coach Bill Alexander, who had served as assistant to him for several seasons and who, only a few years before had served on the Tech squad. Coach Alexander took over the reins in 1920.

With Donahue leaving Auburn a few years ago, the Plainsmen secured Dave Morey from the east after Coach Booser Pitts, now assistant coach, had served temporarily until the Middlebury college coach was engaged. This year coach George Boulder, coach of the undefeated Mississippi college team in 1927, is head of Auburn athletics.

Famous names have always been common with Auburn and Tech teams when one team didn't have nationally known star, the other usually did.

Strupper, Guyon, Hulan, Flowers, Stations, Fincher, the Barrons, Yoelf, Thomason, Mizell and countless others have been names to conjure with from Tech while Shirey and Shirling, Pitts Howard, Brown, Jackson, the Ollingers, Caton, Warren, Sizemore were some of the great Auburn Players of modern football.

In 24 games played, Auburn has won 13 to 9 for Tech. The Plainsmen have scored 439 points against 237 for the Golden Tornado.

Sharkey to Fight for Rickard

New York, Nov. 24.—(AP)—Jack Sharkey has signed for three fights under the promotion of Tex Rickard during the winter season.

The Boston heavyweight's opponents have not yet been selected but Rickard said he would choose them from among Tom Heeney, Johnny Rieko, Paulino Uzcudun, Knute Hanson and Young Stribling. Rickard plans to stage the Sharkey battles a month apart, starting in January.

It is understood that Rickard also has Sharkey under contract to meet Jack Dempsey again in the late spring, or early summer, provided he disposes of his first three opponents and also contingent upon Dempsey attempting another comeback.

Roy Witt, captain and triple-threat quarterback of the University of Tennessee.

FOOTBALL TO END ON MANY GRIDS TODAY

By HERBERT W. BARKER

New York, Nov. 24.—(AP)—They bury old King Football for another year at a score or more of Eastern college football camps today.

Yale and Harvard ring down the curtain on seasons nothing better than mediocre at best with their own private grudge fight at New Haven. Despite its three setbacks, Yale rules a slight favorite to win over the Crimson of Harvard, twice lowered this season.

Princeton's unbeaten Tigers, closing their schedule a week later than usual, tackle Navy at Philadelphia in what is also the season's farewell gesture for the Midshipmen.

Carnegie Tech may or may not close her season with the New York University game. The Tartans need only to stop Ken Strong and his mates to finish their regular season undefeated and united and possibly win an invitation to travel to the Pacific Coast for a post-season battle.

Bearing New York University's Thanksgiving Day clash with the Oregon Argies, the intersectional war in the East will be halted by an Armistice until next year after Nebraska's Cornshuckers have invaded West Point today.

LaFayette and Lehigh, bitter rivals for decades, reach the end of the season's trail at Easton, Pa. LaFayette will win by a decisive margin or lose the confidence and trust of the sport writing fraternity.

Fordham closes an unsuccessful season at the Polo grounds against Georgetown's mighty array, but the latter aggregation has a date to keep with undefeated Detroit on December 1st.

LaGrange, Ga.—Johnnie Gill, of Newark, N. J., won a decision over Ralph Taylor, LaGrange, (10); Marshall Cardwell, LaGrange, outpointed Cyclone Williams, Hagerstown, Md., (10).

MONUMENTS OF Quality
DEES MONUMENT WORKS
GREENVILLE, N. C.

On Southern Gridirons

East Lansing, Mich., Nov. 24.—(AP)—Intersectional rivalry between the North and the South will be at high pitch today when Michigan State meets North Carolina State here.

The teams are expected to stress aerial play, the Spartans having met with brilliant success in the overhead game built around Schaub as the passer while the same is true of the southerners with Outen as the heater.

The Wolfpack arrived yesterday and engaged in a short signal drill on the Spartan field. Coach Gus Tebel pronounced his squad in good condition for the battle while the Michigan team was braced considerably when five players who have been nursing colds for several days were released by the hospital.

The field is wet from heavy snow-fall.

Chapel Hill, N. C., Nov. 24.—(AP)—With the first all-varsity scrimmage of the month yesterday, the Tar Heels continued to round out for the Thanksgiving battle with Virginia at Charlottesville, Va. Members of the Varsity squad have been intermittently on the hospital list for several weeks, making thorough scrimmaging difficult.

Coach Chuck Collins expressed himself as pleased when the big blue team faced a non-descript crew of third and fourth team men. Pete Wyrick drove his varsity backfield about the lot in easy manner.

Blacksburg, Va., Nov. 24.—(AP)—Speed practice sessions, long and hard are the program for the Virginia Polytechnic Institute football eleven, as it approaches its Thanksgiving Day game with Virginia Military Institute. Coaches Gustafson and Frank sent the Gobblers out into a light flurry of snow yesterday and concentrated on drills in some of the modes of attack to be used against the Cadets.

Charlottesville, Va., Nov. 24.—(AP)—Captain Bill Luke of the University of Virginia Cavaliers, is back in football togs and preparing to lead his team against North Carolina here Thanksgiving Day in his final game under Virginia colors.

This afternoon the Varsity squad is holding its first Saturday practice in two months and will end the fourth week without a scrimmage.

Lexington, Va., Nov. 24.—(AP)—Virginia Military Institute's freshmen eleven which has been busily engaged practicing Virginia Polytechnic Institute plays this week, will next week take the field against the V. M. I. Varsity outfit in a series of scrimmages.

Meanwhile, the first Cadet eleven has been hard at work on new plays to be used against the Gobblers.

Clemson College, S. C., Nov. 24.—(AP)—Another long scrimmage occupied the Clemson Varsity today. They started against the third string freshmen, but ran through this outfit so easily that the scrubs were called in, and provided plenty of opposition for the regulars.

Announce Invention Of New Auto Fuel

By HOWARD W. BLAKELEE

Pittsburgh, Nov. 24.—(AP)—Invention of a new automobile fuel of dry powder named Carbonal Phine, promised by its inventor to simplify auto engine construction and partially to usurp steam power, was announced in a paper presented to the International Conference on Bituminous Coal at the Carnegie Institute of Technology today.

The author was Dr. Jacobus O. Aarts, director of the private Institut Voor Technologie, Drogen, the Netherlands. He did not attend the congress and his paper was read by L. L. Kithil, of Denver.

Aarts said his fuel is pure active carbon, a product resembling fine graphite, and that it can be mixed with oil or pulverized coal to make motor fuel. He said his institute is building a special motor for the fuel and "hopes to have it running in three months, carbonal phine being used, both liquid and dry."

His process of manufacture is changing coal into carbon dioxide, the latter into carbon monoxide, and this into carbon phine and carbon dioxide. The final carbon dioxide would be used again in the next batch of coal to make more carbonal phine. For the fuel he claimed "the finest structure imaginable, low combustion point, and very great lubrication power."

"The stuff," he said, "can be used in liquid, plastic or solid form. One can mix it either with heavy oils or with ash-free carbon (coal) for a fast-running motor at a higher content of the medium will be desirable; while a slower running mo-

Notice of Sale of Ford Car

Under and by virtue of the power and authority given by section No. 2435 of the Consolidated Statutes of North Carolina, the undersigned will on Friday, November 30, 1928, at 12 o'clock noon, before the courthouse door of Pitt County, North Carolina, expose to public sale to the highest bidder, for cash, the following described property belonging to W. L. Corey, to-wit:

One (1) Ford Touring Car, Model "T", motor No. 14932257, said sale to be made to satisfy lien for repairs made on said car in March, 1928, which repair bill the said W. L. Corey has neglected and refused to pay.

It can do with a lower percentage.

It is clear that with such a changed fuel the motor may be much simplified and altered. The two stroke form, without valves, clutches, carburetor, fuel pump or magneto is now possible and suitable.

By this system practically every country can produce its own fuel for motors, from its own natural raw materials. The motor can now easily penetrate into the tremendously extensive domain which is at present occupied by steam power.

The author estimated that on calorimetry measurement his fuel would be more than five times as economical as burning coal to make steam.

GORMAN'S MARKET REPORT

The sales were lighter the last three days of the week and all houses cleaned up these days. We do not look for any more blocks and believe we can sell you any day you come from now out. GORMAN'S sold this week 830,508 pounds for \$207,660.36 and averaged \$25.00 for all sold. We are selling a large per cent of common, damaged, nondescrip and barn cleanings and this is cutting the average. However, each day we are averaging right much more than the market. We protect all tobacco on our floor is why we average more. We know of no reason for tobacco to go lower so handle your tobacco right; don't wet it up or handle it so dry, it will break up; wait until the weather softens up if you haven't a pit to order it in. Bring your tobacco to GORMAN'S and we will make you a good sale. We have second sale Monday, first sale Tuesday and third sale Wednesday. Thursday and Friday there will be no sales (Thanks giving). We had but few fine loads Friday. Below we give you these sales and averages:

Moore & Jones—784 pounds for \$351.88. Prices: 42, 44, 50, 52. Average	\$44.07
Galloway & C.—580 pounds for \$282.88. Prices: 39, 50, 58. Average	\$48.
Elks & Smith—310 pounds for \$147.36. Prices: 44, 47, 49, 61. Average	\$47.
Dail & S.—1,180 pounds for \$603.36. Prices: 47, 44, 56, 55, 60, 49, 56, 54, 55, 49, 49, 50, 50. Average	\$51.13

STOCK MARKET TAKES DAY OFF AT NEW YORK

Clerical Forces To Be Given Time To Catch Up With "Hoover Market"

New York, Nov. 24—(AP)—Trading on the floor of the New York stock exchange was suspended today as the clerical forces of brokerage houses attempted to catch up with the "Hoover market".

The suspension was ordered during a record-breaking day which saw 6,942,300 shares traded in greater than 100,000 than any previous day in the exchange's history.

The work has been piling up in ever increasing volume since November 7th and all other departments of the stock exchange were going at full force today in an effort to restore the books to some semblance of order.

Although the human machinery of the exchange expected to catch up today, there was little hope that anything further could be done to speed up the ticker. All sales volume has been left off the tape, but despite this precaution the ticker ran almost an hour behind the market yesterday. The new high speed printers which have been ordered will not be ready for operation before next fall.

Many brokers saw in today's action in suspending trading a precedent which probably will be followed so long as the market continues on its present rampage. There is a movement afoot to reduce the trading day an hour, but a majority of the members of the exchange are said to frown on this proposal, preferring the Saturday suspensions when necessary. The trading day was shortened an hour during the week last May, but it did not meet with general approval.

The sensational increase in trading also attracted greater demand for seats on the exchange. A new record of \$50,000 was established yesterday on the last of three seat bids. It was said \$610,000 later was bid for a seat with no offer.

COTTON MARKET

New York, Nov. 24—(AP)—The cotton market opened steady at a decline of 5 to 18 points under some southern selling and weak end reaction with January selling off to 20 3/8 and May to 20 1/8.

These offerings were absorbed by trade buying together with considerable buying supposed to be for Wall Street or western account, however, the market steadied up before the end of the first half hour. January advanced to 20 3/8, and May to 20 3/8, making net gains of 4 to 8 points and while the volume of business tapered off on the rally, the market showed a steady underdone. Private cables from Liverpool said that realizing and hedging had been absorbed by trade calling in the London market, there and that the larger inquiry for cotton cloths in Manchester was maintained. The amount of cotton on shipboard awaiting clearing at the end of the week was estimated at 184,000 bales against 142,000 last year.

Future closed steady, unchanged to 11 points higher; spot quiet; middling 20.80.

GRAIN MARKET

By JOHN F. BOUGHAN
Associated Press Market Editor
Chicago, Nov. 24—(AP)—Despite unexpected upturns in Liverpool quotations today, selling on advances in the wheat market here led to reactions that carried prices below yesterday's final level. Argentine crop advances were a little more favorable with indications pointing to rain where needed in the drought sections to the south. Wheat bears here derived an advantage, too, in the late dealings as a result of corn weakness and of continued slackness of export demand today for wheat from North America.

Wheat closed unsettled, 1-4c to 3-4c net lower; corn 1-1/4c to 1-5/8c down; oats 1-4c to 1-2c off, and provisions unchanged to a setback of 12c.
