FARM RELIEF STARTED OFF IN CONGRESS

Surplus Control Measure Introduced Today By Senator McNary

Washington, Dec. 4.—(AP)—Farm relief legislation drafted on the Coolidge design and apparently with administration approval was started off today in the senate with the introduction of a surplus control measure by Senator McNary, Republican of Oregon.

It establishes a federal farm board with a fund of \$300,000,000 to assist in the orderly marketing of crops through the withholding of surpluses from the market.

Senator McNary, the chairman of the senate agriculture committee and co-author of the twice vetoed McNary-Haugen bill, left out of the measure the controversial equalization fee provision which drew so much fire from the administration.

"The bill," he explained in a statement, "includes the principal features of the McNary-Haugen bill without the equalization fee but the new measure is more than the old bill with the controversial fee section struck out. It includes not only those basic provisions of farm relief that have won the support of farm leaders in general, but also the recommendation of Secretary Jardine and other administration leaders, together with the surplus control legislation promised in the Republican platform."

The farm board would be composed of the Secretary of Agriculture and six members, three Republicans and three Democrats, to be appointed by the president with the advice and consent of the senate.

The board is empowered to organize advisory councils for any commodity, selecting the seven members of the council from persons nominated by the co-operating marketing association and producers handling the commodity. It will be the duty of the council to advise with the board on crop situations and to advise producers through their organizations of suitable programs of planting or breeding.

After the organization of an advisory council for a commodity the federal board would be empowered to certify a stabilization corporation for that commodity, to be organized under the law of any state. All voting stock or membership interests in the corporation must be held by co-operative marketing associations or producers handling the commodity involved.

These corporations would have authority to act as a marketing agent for its members and to purchase, sell or market any quantity of the agricultural commodity or its products, either from members or in the open market at prevailing prices.

Under the plan, crop surpluses would be handled by the corporations through loans from the federal board, but no loss would be paid from the treasury of the United States. Whenever the board determines that a surplus is liable in any crop, it may make loans to the corporations up to \$225,000,000 for the buying and storing of the surplus.

Loans to the corporations, to the co-operative marketing associations and through their individual producers would be at a rate of four per cent.

Upon request of the co-operative marketing associations and producers handling any perishable agricultural commodity, the board would be authorized to assist in forming a clearing house association for the purpose of minimizing losses in the distribution of the commodity and of providing equitable distribution among various markets.

"The plan as a whole," Senator McNary said, "would be administered by a federal farm board consisting of the secretary of agriculture and six members who would be in sympathy with agriculture and selected for their demonstrated capacity and fitness for the job."

NOT IN FAVOR OF DISCIPLINING BOLTERS

Washington, Dec. 4.—(AP)—Senator Harris of Georgia, declared today that he was not in favor of disciplining Democratic Senators who bolted the Smith-Robinson ticket in the recent election.

The Georgia senator declared in a formal statement that Gov. Smith has eliminated himself from consideration as a candidate four years from now and that entirely new issues would be made, and added: "Instead of punishing the Democrats who have differed with the party I believe they should harmonize their difference so as to present a solid front four years from now."

The two Democratic Senators who most prominently campaigned adversely to Governor Smith were Senators Heflin of Alabama, and Simmons of North Carolina.

VICTIMS OF QUAKE SENT TO SANTIAGO

Known Death Toll Of Chilean Earthquake Today Stood at Over Two Hundred.

Santiago, Chile, Dec. 4.—(AP)—Persons injured by the earthquake which centered at Talca and Constitution were being evacuated from the devastated region today and sent to Santiago. President Ibáñez informed the authorities at Talca that 500 beds were at the disposition of the injured in the capital and 200 of the casualties were immediately sent towards Santiago.

The known death toll today was set at 218 with the seriously injured at 257. It was stated that more than 2,000 had been slightly injured and that 20,000 persons were homeless.

The Chamber of Deputies and Senate in a joint session, urged the government to appropriate 2,000,000 pesos (about \$240,000) for immediate relief work. A further appropriation of 3,000,000 pesos (about \$360,000) for reconstruction, was also urged.

Bread lines were formed in the stricken region and the needy fed. The mayor of Talca, ordered that three barracks be constructed at once for the homeless and a temporary hospital erected.

Doctors, nurses and troops were on the scene aiding the relief and distributing food, clothing and medicine. In some places, reconstruction work was already begun. It was hoped that electric power would soon be restored in the stricken region. The Bank of Talca was able to open and handled urgent business.

Of the 50,000 inhabitants of Talca, a fifth were homeless. One hundred and eight persons were dead and 93 seriously injured there. At Constitution, a town of 12,000 residents, at least 75 were killed and 137 seriously injured.

Police Arrest 159 Gamblers In Chicago, Ill.

Chicago, Dec. 3.—(AP)—Sledgehammers of police broke down the steel doors of Lawrence Mangano's Mineral Club on Halstead street last night and there were 159 men arrested on gambling charges.

A court injunction had barred police from raiding the resort but a search warrant was obtained when a patron complained that he had lost \$1,800 there.

Several weeks ago Captain Luke Garrick's home was bombed after he had led a raid on the Mineral Club. Mangano was arrested for the bombing, which imperiled the life of Garrick's invalid wife, but later was freed. The shock of the bombing was held responsible for Mrs. Garrick's death a few days later.

HOLTON DIES AT WINSTON-SALEM

Winston-Salem, Dec. 4.—(AP)—A. F. Holton, who served as United States district attorney for the Western North Carolina district during President Roosevelt's two terms, died at his home here at eleven o'clock today. He suffered a paralytic attack several months ago, never recovering.

Mr. Holton was a native of Yorkin county and about 65 years old.

J. P. Davenport Elected Chairman Of County Board Of Commissioners

J. Paul Davenport, of Pactolus, was elected chairman of the new board of county commissioners at the first meeting of the body held in this city yesterday. He succeeds S. T. White of Greenville.

The election of Mr. Davenport followed induction into office of the four members elected in the last primary. The fifth member, Judge F. M. Wooten of Greenville, declined to take the oath because of a recent ruling of the Attorney General of North Carolina, making it illegal for a lawyer to hold the office of a county commissioner. Judge Wooten intimated that he would give the matter more mature deliberation and then decide what action he should take. In event of his resignation it would be left up to the clerk of superior court to fill the vacancy.

Mr. Davenport was the only member of the old board that regained his seat in the last primary and his election to the chairmanship seemed almost an assured fact when

both old and new members met yesterday morning to straighten out business for the beginning of a new year. Other members inducted into office were: R. H. McLawhorn, W. C. Faucett and P. L. Stone. Oath was administered by J. F. Harrington, clerk of superior court.

One of the first things done by the new board was to consolidate the tax department with the auditing department. C. C. Coppedge was again employed as county auditor with authority to employ an assistant.

Ray Tyson, who has been in charge of the tax department for a number of years, was given notice that his services would not be needed longer than January 1st when the consolidation project becomes effective.

Other officers installed yesterday were J. C. Gaskins, register of deeds; Thurman Moore, treasurer; and Sam Whitehurst, sheriff. All were re-elected in the last primary.

School Teachers Fail To Get Pay At Chicago, Ill.

Chicago, Dec. 4.—(AP)—Thirteen thousand Chicago school teachers went without their pay today because the school board was unable to muster funds to meet its \$3,500,000 payroll.

M. Wallace Caldwell, president of the school board, said the schools would remain open, "no matter what happens." It will be two or three days, he said, before the teachers' money will be forthcoming.

Last week a deficit of nearly \$12,000,000 in the schools' finances was made public.

Alderman Defends Students Charged With Drinking

Richmond, Va., Dec. 4.—(AP)—Students at the University of Virginia have been charged with excessive drinking and their president, Dr. Edwin A. Alderman, has come to their defense.

Following publication of a letter by the Rev. David Hepburn, superintendent of the Virginia Anti-Saloon League, to Gov. Byrd of Virginia in which he said that reports indicated that drinking at the school amounted to a state-wide scandal, Dr. Alderman replied that liquor consumption at Virginia was no greater than at other similar institutions. He also declared emphatically that in no sense was it entitled to be characterized as a state-wide scandal.

Dr. Hepburn called upon Gov. Byrd to permit Federal prohibition agents as uninterrupted access to the university grounds, fraternity houses and study body as bootleggers are now reported to have. He explained that the purpose of the agents would not be to punish drinking professors or students but to protect them from bootleggers.

Gov. Byrd said that he would refer Dr. Hepburn's letter when it was received to Dr. Alderman as was customary in such cases.

Dr. Hepburn mentioned no specific reports of drinking but a statement commenting on drinking among students had been made after the North Carolina-Virginia football game by a Fredericksburg minister.

Atlanta Mortician Killed Last Night

Atlanta, Dec. 4.—(AP)—Police today were on a hunt for a vaguely described white man who last night shot and killed Robert M. Brandon, widely known and wealthy Atlanta mortician, after a struggle at the steering wheel of Brandon's automobile.

Meanwhile, Mrs. Ruth Cone, 45, was held at police headquarters under a blanket charge—"suspicion for questioning"—because she was among the last to talk to the vice-president of Barclay and Brandon, undertakers.

Casual witnesses told officers of a careening run by the Brandon motor car in the downtown district last night which was ended only after the driverless machine had crossed a vacant lot and smashed through the rear fence of a filling station.

Police learned that the automobile had narrowly missed a collision with another car during the dash, and were told of an apparent struggle for possession of the steering wheel as the machine crossed a busy intersection against the traffic light.

Shortly after the struggle, two shots were fired in the machine, and a tall, thin man, dressed in a gray suit and brown slouch hat leaped out and disappeared around a corner. Brandon dropped across the wheel, mortally wounded through the right side and temple.

HOOVER RESTS AS SHIP MOVES TOWARD PERU

Flagship Of Peruvian Navy Escorts Maryland To Native Land.

U. S. S. Maryland, Dec. 4.—(AP)—The battleship Maryland was gliding gently over smooth waters off the coast of northern Peru today while President-elect Hoover rested and studied. Three hundred yards to the starboard steamed the Almirante Grau, flagship of the Peruvian navy, which is escorting Mr. Hoover to Callao, Peru, where he will pay his second South American good-will visit tomorrow.

In dim view of the distant Peruvian mountains, Mr. Hoover began to study and analyze a great mass of printed matter prepared for him by Ecuadorian officials. This data was given to the President-elect when he visited Guayaquil and will be used by him to supplement impressions gained on his visit from conversations with various officials.

While the President-elect continued his studies attaches were sorting gifts with which the Ecuadorian government had honored Mr. Hoover and his wife, about 30 hats, boxes and packing cases were sent aboard the Maryland as well as numerous smaller packages. The gifts weighed in all more than a ton. They included a variety of works of art examples of wood-carving and weaving, and some beautiful antique jewelry among which was a pearl brooch.

The Maryland is due at Callao at 9 A. M. tomorrow. Mr. Hoover will be greeted by the Peruvian foreign minister, representing President Leguía. After receiving the freedom of the city of Callao from the mayor the Hoover party will motor ten miles to Lima, the Peruvian capital.

Three Persons Die In Flames In New York

New York, Dec. 4.—(AP)—Three persons were killed, two injured and the lives of hundreds of others endangered early today in three separate fires believed to be the work of a pyromaniac.

In the first blaze, in the tenement house in 212 East 14th street, two women and a man were suffocated when the fire "mushroomed" through the fire story structure, trapping them on the fifth floor.

The dead were the Misses Mary Beseda and Betty Colindren, both 23 years old and both employed as waitresses, and William L. Andrew, 30, a salesman.

Shortly afterwards fires were discovered in baby carriages and rubbish in hallways of tenements in 320 East 15th street and 331 East 14th street. These fires were extinguished without difficulty but hundreds of tenants were routed from their beds in their night attire.

Fire marshals believe the fires were set by one person.

AGED RAILROAD MAN DIES AT RALEIGH

Raleigh, Dec. 4.—(AP)—Capt. M. G. Diggs, 85, veteran engineer of the Seaboard Air Line Railroad, died at his home here yesterday. Entering the Seaboard service shortly after the war between the states, he remained in the employ of the company until his death. Funeral services will be held tomorrow.

KING GEORGE IS DESCRIBED AS IMPROVED

British Monarch Passes Quiet Morning; Queen Leaves Palace For Short Time.

London, Dec. 4.—(AP)—Anxiety over the ability of King George's heart to withstand the strain that long illness has placed upon it continued today. A slight improvement noted in his general condition was maintained during the night.

Administration of heart stimulants was believed to have necessitated the many visits being paid to the patient by physicians.

Newspapers today said that the announcement of a commission to act for the king was to be expected very soon. This would be known as the commission under the great seal and would be similar to the commission which in 1925 acted for the king while he was recuperating from an illness less severe but similar to that from which he is now suffering.

Queen Mary was understood to be leaving on with great fortitude. She paid constant visits to the sick room, although the room part in the actual nursing of her husband which was done by six trained nurses from London hospitals.

The warning that anxiety concerning the king's heart still persisted was stressed by the newspapers today and they refrained from encouraging their readers to expect any rapid improvement.

Until the menace to the king's heart is removed a dark cloud of disquietude will hang over the people of Great Britain. How dark this cloud is was indicated by former Premier Lloyd George when he said in a speech: "I never witnessed in the whole of my life such intense and concentrated anxiety among all classes of the population."

The king, it was stated, was proving a good patient. He was readily complying with doctors' orders and exercising such powers as his sickness allowed toward advancing his recovery.

The Daily Mail said that the king, at the beginning of his illness had asked to be shown all medical bulletins issued to the public. These bulletins have been regularly placed before the king throughout his illness.

London, Dec. 4.—(AP)—Gwen Mary, who did not take her usual daily outing yesterday, left the Buckingham Palace grounds in the Royal Motor Car shortly before 3 o'clock this afternoon for a brief constitutional.

The Queen was accompanied by her daughter, Princess Mary. A large throng around the Palace which was disappointed yesterday when the Queen remained indoors instead of taking her afternoon ride, was on hand to watch her departure.

Pretoria, Union of South Africa, Dec. 4.—(AP)—The Duke of Gloucester, third son of King George, will leave Bulawayo late this afternoon. Plans have been completed to convey him to Cape Town in time to catch the steamer Balmoral Castle due to leave there Friday.

London, Dec. 4.—(AP)—The cruiser Enterprise with the Prince of Wales aboard, traveling so speedily that the admiralty expects she will reach Suez Friday night.

To make such progress it was said that the cruiser probably has been travelling about 29 knots.

Arctic Weather Grips Montana

Denver, Dec. 4.—(AP)—Arctic weather, the first of the season, which has gripped Montana with sub-zero temperatures, spread east and southward today bringing promise of stinging cold to Colorado and western plains states.

The lowest reported Montana reading was 26 degrees below zero at Lewistown. The frigid weather hit that state yesterday carrying the temperature to 24 below zero at Moore, 22 below at Chinook and 6 below at Billings.

Snow followed a 24-hour drop in temperature in Kansas, the snowfall extending as far as Kansas City where light snow began falling at midnight.

Washington—Uncle Sam's conscience fund now totals \$568,194.64. It was established in 1811 for citizens making restitution. The latest addition is \$10 sent from Lexington, Ky. In recent years the payments have averaged more than \$4,000 annually.

Dies At Age Of 113. Ritchfield Springs, N. Y., Dec. 4.—(AP)—Mrs. Delina Furbas, 113 years old, died at the home of her son here today. She was born in the town of Stark, Herkimer county, New York, May 4, 1815.

Chinese Envoy

Dr. C. C. Wu, former minister of foreign affairs of the Chinese national government, has been appointed minister to the United States to succeed Dr. Sa-ke Alfred Szze, who has been made minister to Great Britain.

FRANCE WILL NOT GIVE UP H. M. BLACKMER

Refuses To Grant Extradition Request Of U. S. For Witness in Oil Case.

Paris, Dec. 4.—(AP)—France today officially refused the request of the United States of extradition of H. M. Blackmer, missing oil witness. The extradition had been asked on the strength of an indictment returned in Denver which accused Mr. Blackmer of making false income tax returns.

The refusal of the request of the United States government for extradition was raised on the following reasons:

(1)—That a false declaration of income tax is not a crime in France but is an offense punishable by a fine.

(2)—That the Franco-American treaty covers only perjury in court, and.

(3)—That a false declaration being only a misdemeanor in France is outlawed by three years statute of limitation.

The court's decision is final and will be officially transmitted to the American embassy through the French ministry of foreign affairs within a day or two.

Mr. Blackmer will remain in France indefinitely unless the United States government should decide to reopen the case on some other charge.

Alleged Swindlers Arrested In Paris

Paris, Dec. 4.—(AP)—Madame Marthe Hanau, 42, and her former husband, Lazare Block, were arrested today and taken before an examining magistrate on charges of swindling investors of sums reported to total nearly 600,000,000 francs (\$26,000,000). Most of the victims were stated to be small investors.

Word that warrants had been issued for the arrest of the couple brought a crowd to the front of the building occupied by the newspaper Gazette du Franc, which Madame Hanau founded and managed.

Madame Hanau was described by newspapers today as a woman of remarkable intelligence and activity who boasted of her "American business methods."

She was charged with having used her newspaper to further the operations of her financial organizations which had 400 branches throughout France. She also conducted an advertising agency.

With completion of today's sales, the Greenville tobacco market will have exceeded the total amount of tobacco handled during last season, it was made known in the official report of K. W. Cobb, supervisor of sales.

The market sold slightly over sixty-one million pounds last season, the report showed. At completion of sales yesterday the figure for the present season stood at 60,568,115 pounds. With approximately six hundred thousand pounds on the floors of the nine warehouses today, the market will have passed the record established last season and begin marking time until the seventy million pound goal set for this season is reached.

COOLIDGE URGES BIGGER NAVY IN ANNUAL MESSAGE BEFORE CONGRESS TODAY

MERCHANTS TO PLAY SANTA TO CITY'S NEEDY

Christmas Cheer To Be Carried Into Poor Homes Of This Community.

The Merchants Association, assisted by the County Welfare Department, will play the part of Santa Claus to the poor people of Greenville and vicinity this Christmas, it was made known today.

Donations to the Christmas fund will be received at the office of the association on Evans street, and all persons desiring to help make this one of the brightest Yuletide seasons in years for the city's poor are urged to make their contributions as early as possible.

C. B. Rowlett, secretary of the Merchants Association, said this afternoon that a list of all poor persons of this vicinity was being compiled at this time and will be made public in the columns of this paper from day to day. The association has employed additional help to take care of the activities.

An advisory board will be appointed from different organizations of the city to pass on the status of the needy and to determine the disposition of the funds received. The slogan of the campaign will be "Christmas Cheer to the Needy."

Several large donations have already been made to the fund and beginning tomorrow, a list of contributors will be published daily in the columns of The Reflector.

Persons who know of needy families are urged to get in touch with the association in order that they may be included in the campaign to spread Christmas cheer to every worthy fireside in this locality.

This is the first time a campaign of this kind has been conducted upon such an extensive scale in this city, and it is to be hoped the public will contribute as liberally as possible in order that the occasion be made the greatest of all.

Gardner To Take Oath January 11

Raleigh, Dec. 4.—(AP)—Governor-elect O. Max Gardner apparently has no superstitious fear of beginning an uneventful year on Friday.

After a conference with Governor A. W. McLean yesterday, the next governor announced that he would take the oath of office on January 11, which falls on Friday, two days after the legislature convenes for its biennial regular session.

Although the constitution and the statutes provide that a new administration shall take office on January 1, it has been held that this is not mandatory, and Gardner decided he would prefer to be inaugurated after the general assembly's opening formalities are out of the way.

General plans for the inaugural ceremonies were mapped out at the conference which was attended also by R. T. Fountain, lieutenant-governor-elect who will preside over the Senate, and A. H. Graham, Democratic candidate for speaker of the House.

TOBACCO MARKET PASSES LAST SEASON'S RECORD

With completion of today's sales, the Greenville tobacco market will have exceeded the total amount of tobacco handled during last season, it was made known in the official report of K. W. Cobb, supervisor of sales.

The market sold slightly over sixty-one million pounds last season, the report showed. At completion of sales yesterday the figure for the present season stood at 60,568,115 pounds. With approximately six hundred thousand pounds on the floors of the nine warehouses today, the market will have passed the record established last season and begin marking time until the seventy million pound goal set for this season is reached.

The market yesterday sold 639,880 pounds of bright leaf at 141,541.28, at a general average of \$23.11 per hundred pounds. Four full sets of buyers were on the sales and floors were cleared shortly after three o'clock. With a similar amount of leaf in evidence today, it was indicated that the sales would be finished about the same time as yesterday. The price situation was described as considerably stronger than when the market closed for the Thanksgiving holidays. The improved price situation was noticeable virtually on all grades, and especially the superior brands, which continued to command splendid figures.

Farmers were today urged to grade their offerings as carefully as possible. They were also advised to market the remainder of their crop early. Sales were expected to be fairly heavy from now until Christmas, but it was believed floors of all nine warehouses would be cleared early in the afternoon of each day.

Chief Executive Also Touches Need Of Farm Relief And Several Other Old And New Problems.

Washington, Dec. 4.—(AP)—President Coolidge had his final say to Congress today on the state of the union, and he crowded into his annual message a list of recommendations touching many old and new problems, ending with a plea to the people to remember that in times of prosperity unremitting toil is necessary to keep what has been gained.

The President sent his message to the Senate and House by messenger, foregoing the opportunity to deliver it in person. It urged farm relief with a farm board to help in disposing of the surplus; reiteration of the desire of the administration for increasing the nation's naval strength; new views on rivers and harbor legislation; Boulder Dam; Muscle Shoals; Immigration and a diversity of subjects.

Like the President, the Congress which received the message will go out of office within the next few months, and even as his message was read, consideration of a special session was on among party leaders.

The President recommended particularly that the \$274,000,000 naval construction bill be passed, and he called for the passage of a measure creating a federal farm board with a revolving fund provided by the government to assist co-operative farm organizations in marketing surplus crops.

He reiterated also his belief that the government should refrain from entering the field of private electrical power enterprise in connection with Muscle Shoals and the proposed dam on the Colorado River.

Referring to the naval construction bill, Mr. Coolidge declared that the United States has "no intention of competing with any other country" and he deemed the 15 cruisers and one aircraft carrier provided for by the naval construction bill necessary for replacement purposes and to meet "our needs for defense."

He added "for the benefit of the timid and the suspicious that this country is neither militaristic nor imperialistic."

Several large donations have already been made to the fund and beginning tomorrow, a list of contributors will be published daily in the columns of The Reflector.

Persons who know of needy families are urged to get in touch with the association in order that they may be included in the campaign to spread Christmas cheer to every worthy fireside in this locality.

"Smilin' Through" At College.
The author of "Smilin' Through" is Jane Cowl, herself, the New York Times, of a week ago reveals, instead of the mysterious "Allen Langdon Martin," whose name has appeared on the printed play and was used in connection with it all the time the great actress was playing it on Broadway. She used the name de plume because there was an old superstition that it was bad luck for an author to appear in his or her own play. The play is so well established now that its popularity cannot be affected by the revelation.

The senior class of East Carolina Teachers College will present this play on two successive evenings of this week, Thursday and Friday, Dec. 6 and 7, in the old auditorium in the Administration building.

Coddington Funeral To be Held Tomorrow

Charlotte, Dec. 4—(AP)—Funeral services for C. C. Coddington, president of the National Association of Automobile dealers, will be held from the Coddington home in Myers Park at 3 o'clock tomorrow afternoon. The Rev. Dr. Edgar Gammon, pastor of Myers Park Presbyterian church will officiate.

Mr. Coddington died suddenly on board his yacht off Cape Hatteras Monday night. He had gone to his Eastern North Carolina estate on a hunting trip with friends from the north and east.

Pallbearers will be from among his business associates and close friends.

Mr. Coddington was one of the best known figures of the country in retail automobile circles. Starting in Charlotte 20 years ago he built a most successful business as a distributor. During later years he engaged in a number of other business activities. He was one of the founders of the MacLaren Rubber Company. At the time of his death one of the chief stockholders in the Ajax Tire and Rubber Company of Racine, Wis. He had extensive enterprises in other businesses.

Recover Thirteen Killed In Crash At Rio Janeiro

Rio Janeiro, Dec. 4—(AP)—The harbor of Rio Janeiro today had yielded up the bodies of 13 persons who, flying to greet the Brazilian aviator Albert Santos-Dumont, plunged to their death when their plane went into a tail spin. One of the merchants on the plane was flung out and died in a hospital after he had been picked up by a launch.

A diver who was attempting to recover bodies, died when his airtank fouled while he was under the water.

Santos-Dumont, who was returning to his native land from France where he spent most of his life, requested that all festivities be cancelled because of the accident.

When the airplane was raised and all the bodies recovered, it was found that each had suffered broken bones and many contusions before death by drowning.

Five leaders of the Democratic party were killed in the accident which dealt the party a serious blow. The Democrats are an opposition party and because of receptions to Santos-Dumont had been organized by them, the government refused to take any official part in the welcome. Several newspapers said that the administration also deemed it impolite because of the approaching visit of Herbert Hoover, to call official attention to the world that the Brazilians considered Santos-Dumont to have been the first successful flier of a heavier-than-air machine, an

SAUREZ RECOMMENDED AS COMPTROLLER CUSTOMS.

Washington, Dec. 4—(AP)—Secretary Mellon has before him a recommendation that John C. Saurez be nominated to succeed Walter A. Cohen, negro, as comptroller of customs at New Orleans. Cohen's term expired last April and he is not a candidate for reappointment. Saurez was recommended by the Republican state committee and the Hoover committee of Louisiana. The post will be filled by nomination by the president and confirmation by the senate.

WHITE MAN HELD FOR ASSAULTING NEGRO

Henderson, N. C., Dec. 4—(AP)—Trial of Ira Kayler, white, charged with criminal assault of a nine-year-old negro girl, was not held before a committing magistrate in Oxford yesterday as planned, but will be held Friday. The defendant was unable to get his witness yesterday, causing the postponement.

Kayler is held in jail in Oxford without bond.

The alleged assault occurred after Kayler is said to have picked up the girl on her way from school and carried her to a spot just over the county line in Granville.

Lambeth Testimony Introduced Today At Carroll Trial

Raleigh, Dec. 4—(AP)—Reading of testimony taken in the case of E. S. Lambeth, Jr., Virginia lawyer, against Highland Sanatorium at Asheville, consumed virtually all of this morning's session of court hearing the suit brought by the State Board of Charities and Welfare to revoke the license of the institution on the ground that its proprietor, Dr. Robert S. Carroll, is morally unfit to conduct the hospital.

Lambeth, one of the principal witnesses for the welfare board in the present action, obtained a verdict of \$5,000 against the sanatorium, alleging neglect and cruelty.

The defense introduced a transcript of testimony given at that trial by Dr. Louis B. Hill of Worcester, Mass., formerly resident physician at the hospital, in an effort to disprove the charges of cruelty and immorality.

Dr. Hill testified that he believed the treatment given Lambeth to have been proper for a man in his condition. He said Lambeth was regarded as having a suicidal tendency. The Virginia lawyer in alleging cruelty on the part of the hospital officials had testified in his own suit and in the present suit that he was confined in a bare room for 14 months and deprived of his clothing.

Mrs. A. S. Wheeler, of Biltmore, was called to the stand when reading of the Hill transcript was concluded. She testified she had known Dr. Carroll for a number of years and that his general reputation as well as that of the hospital was good.

Judge Harris adjourned the morning session immediately after her testimony.

MINISTER COMPLETES PRISON SENTENCE

Raleigh, N. C., Dec. 4—(AP)—The Rev. Willis F. Jordan, 61-year-old minister, was discharged from State Prison here today after serving a sentence of 18 months to two years for bigamy. Jordan was convicted in Mecklenburg county in the fall of 1927. He said he planned to resume preaching.

NOTICE OF SALE

Under and by virtue of the power of sale contained in that Deed of Trust executed and delivered by Nabe A. Mills to W. H. Woolard, Trustee, dated August 25th, 1927, and duly registered in Book T-10 at page 343 in the office of the Register of Deeds of Pitt County, the undersigned will, on Monday,

Gulf Of California Gradually Shrinking

Loreto, Lower California, Dec. 4—(AP)—Observations made here and at other points along the west as well as the east coast of lower California show that the peninsula is widening and point to the possibility of eventual disappearance of the Gulf of California.

The Jesuit priests who colonized this part of the peninsula 230 years ago were the first to observe the phenomenon. The records of their observations were handed down through the ages and recent years new observations have confirmed their findings.

Juan Bareno, a descendant of the Spanish colonizers, decided about 30 years ago to check up on the Jesuit's figures. He planted a number of palm trees on the shore of Loreto Bay, within ten feet of the sea. These trees now are 100 yards inland.

It is believed that within a few centuries the east coast will be united with many of the small islands that dot the Gulf a short distance off the peninsula.

SAYS McCONNELL SLATED AS HEAD OF CHURCH

New York, December 4—(AP)—The New York Times today says Bishop Francis J. McConnell of the New York area of the Methodist Episcopal church is slated to become the next president of the federal council of churches of Christ in America.

The council will open its sixth quadrennial meeting tomorrow at Rochester, N. Y., at which time the term of office of the Rev. Dr. S. Parkes Cadman expires. Re-election is not permissible. Dr. Cadman's successor will be chosen Thursday night.

DRAFT PLAN WILL DRAW GREAT FIGHT

By BRIAN BLI, Associated Press Sports Writer

Toronto, Ont., Dec. 4.—(AP)—With proposed amendments to the draft regulations defeated before the National Association of Professional Leagues opens its annual convention tomorrow, indications today were that the fight on the floor of the convention would be waged about the so-called "Bramham resolution" which is another amendment dealing with the draft.

The International League, the American Association and the Western League, which are bound now by only a limited draft, have expressed themselves at annual meetings in Toronto as satisfied with conditions as they are in regard to the selection of players by the majors. As any action changing the plan by which the majors could draw on the minors for talent through the processes of the draft would have to be unanimous to make it effective, the amendments, formulated by the major-minor advisory council, are doomed.

There was in fact no positive assurance that the majors would have accepted the amendments if they could have been enacted by this convention. With negative action certain when the question reaches the convention and the annual meetings of the National and American leagues in New York and Chicago next week and the joint meeting of the two leagues at Chicago assume added importance.

In the meantime, W. G. Bramham, president of the three minor leagues, the South Atlantic Association, Piedmont and Eastern Carolina, all in the South Atlantic States, is going ahead with his plan to fight for the adoption of an amendment providing for perpetual right to be drafted by players signing their first baseball contracts in leagues operating under the draft, regardless of their possible later affiliation with clubs in league recognizing the limited draft.

The decision probably will not be reached before Thursday as the opening day tomorrow will be occupied with formal organization of the convention and appointment of committees. The report of the committee on the second day will bring the whole draft question to the floor.

The national board of arbitration, the body deciding all minor league disputes as to salaries, rights to players' services and other matters between clubs or between clubs and players continue in session today. Early sessions of the board were occupied in deciding scores of small claims, but some remain in which the sums involved amounted to what one member of the board called "serious money."

Wasted Money.

New York.—In the opinion of the Rev. Dr. S. Parkes Cadman, Congregationalist, Protestants have wasted more than \$500,000,000 in producing unattractive churches in the United States. In an address to the New York Methodist Ministers' Association he included his own church in this description. He predicted that instead of edifices which proclaim ignorance and ugliness there would be buildings whose outward loveliness and internal beauty would be an inspiration to greater devotion.

Queen Compliments Women.

Turin, Italy.—(AP)—For giving her blood three times for the needy, Signorina Maria Teresa Gianoglio, and employee of the State Telegraph Service, has been complimented by Queen Elena. In one day she aided a disabled war veteran and a poor woman by transfusion.

VOLS AMONG CONFERENCE LEADERS

This quintette of University of Tennessee ball players are members of the rugged Vol forward wall. They have cleared the way for victorious Tennessee assaults in every game of the current season. Above left: Jim Finney; Right, Herc Alley; Center, Harry Thayer; Below, left, "Farmer" Johnson, and right, "Whitey" Hug.

GRID STARS STAND OUT DOWN SOUTH

Atlanta, Dec. 4.—(AP)—Specialists in football—the boys who concentrate on adding the extra points, field goals and what not—have been so numbered in Southern Conference circles that the few who have excelled stand boldly to the front.

A sweeping glance down the individual column shows Billy Banker, the Tropical Typhoon, well in the lead in adding the extra points yet his figures for this little specialty is only 16 points after touchdown. At that, however, his mark is only four better than that of Roy Witt of Tennessee, the 1927 leader.

This same blonde Bill, the pacesetter for Dixie scores, with 124 points in all games, falls 14 points short of Jimmy Armistead's record of a year ago. Armistead led the nation in 1927 while Ken Strong of New York University is the trail blazer this season with Banker second.

The greenie half back, not only is leading in all games but also in games strictly within the conference with eight touchdowns and seven extra points for 55 total, lacks a half dozen markers of equalling the 61 total of Dodson, Tennessee full back, in 1927.

Taking the statistical view of the season, however, as a whole of Florida's Alligators add balm galore. The Dreadnaughts of Charlie Bachman have put one wallop over the past year, at least. Georgia in seven conference games last autumn counted 17 points while the Gainesville team in six contests within the loop so far has scored 225 and still

DIXIE TEAMS CRIPPLED FOR NEXT GAMES

By MORGAN M. BEATTY, Associated Press Sports Writer

Atlanta, Dec. 4.—(AP)—The four teams nominated to decide the football Who's Who of Dixie Saturday are suffering from casualties, some serious and some not alarming.

Seven Georgia Bulldogs, including McCrary, elusive back, and Center Joe Boland are suffering from influenza. To cap this sad climax, Harry Mehre, head coach, and Jimmy Crowley, an assistant, also have the disease, all of which place the ragged squad in the hands of H. J. Stegeman, director of athletics and track coach.

Meanwhile Tech began serious scrimmage against the plays of this ancient foe without the services of Warner Mizell, all-American half-back candidate and mainstay in Tech's march to six conference victories this season. Although practically recovered from influenza, Mizell will not see action against the Bulldogs unless sorely needed for fear of a relapse before the Yellow Jackets take off for Pasadena and their Rose Bowl engagement in California.

Florida embarked on the last training grind of the season yesterday minus six of these old war horses that keep the temperamental regulars fit to thrill the grandstands. Although injuries were not of A-1 calibre, the 'Gators' training

to meet Bob Neyland's Sophomores will lack the punch that made them national scoring champions.

Volunteer hopes are still vaguely affected by the bad condition of Roy Witt, who can't seem to get straightened out. The Vols have coun. on the staunch quarterback for generalship against the 'Gators. With Witt's leadership and a fair share of the breaks they hope to rectify the error of a scoreless tie with Kentucky—the only black mark on their record.

All the affected camps are bending grimly to scrimmage, however, in preparation for the whistle that will blow them to championship positions or tang; the situation more than ever.

Georgia Tech and Florida, however, seemed most likely to share the highest honors when the last blast is blown Saturday, if they display against Georgia and Tennessee the same brand of football they have been using against all other opponents this year.

All except eight of the 22 conference elevens, closed shop last week. The four others include Alabama's Crimson Tide, Louisiana State, Clemson and North Carolina. The Tide meets the Tiger at Birmingham in the only other conference game Saturday, while Clemson and North Carolina go outside the family circle to meet the Citadel and Duke, respectively.

Market Report Cotton--Stocks--Grain

COTTON MARKET N. Y. STOCK LIST

New York, Dec. 4.—(AP)—The cotton market opened steady at unchanged prices to an advance of 5 points, with the active months selling about 6 to 9 points net higher during the first few minutes on trade buying, covering and some local buying encouraged by relatively steady Liverpool cables. The bulge did not further realize or liquidation, however, while there was some southern selling and offerings increased slightly on rumors of larger private crop estimates. By the end of the first half hour the market had eased off to 20 1/2 for January and 20.10 for May or back to about yesterday's closing quotations. Private cables said there had been liquidating and local liquidation in Liverpool but that the offerings had been absorbed by covering and London buying. Manchester reported fair cloth sales to the home trade and continent but said that yarns were purchased sparingly.

GRAIN MARKET

Chicago, Dec. 4.—(AP)—With the Argentine wheat harvest in full swing and Argentina offering wheat freely to Europe, at cheaper prices, wheat values here averaged lower today. However, selling was checked by somewhat general disposition which traders evinced to await at least temporarily the progress of farm legislation at Washington. Exporters short of December delivery of corn gave signs of worry and March and May oats, influenced by good demand which found offerings light, advanced today to a new high price record for the crop.

Wheat closed unsettled 1-8 to 1-2 net lower; corn varying from 1-4 decline to 1-2 advance; oats 3-4 to 1-8 up; and provisions at 5-8 net back to a rise of 2c.

STOCK MARKET

New York, Dec. 4.—(AP)—A brisk rally in stock market prices which carried a long line of issues up to 4 points and a few specialties up to 21 points, was checked this afternoon by a return of the 10 per cent call money rate. Early gains were reduced and several representative shares, such as General Motors, U. S. Steel common, and Hudson Motors, were carried below last night's final quotations.

The market bounded upward as the opening in apparent disregard of the staggering increase in brokers' loans although several commission houses interpreted the gain as an indication of heavy distribution. The recovery gained momentum on the publication of President Coolidge's message to Congress, which recommended legislation to facilitate railroad consolidations and stressed the prosperity of the country, and by a series of favorable dividend announcements.

Radio was the spectacular feature soaring 21 points to 395, or within 6 points of its recent record high, but it slipped below 390 in the early afternoon selling movement.

Missouri Pacific preferred climbed 2 points to a new high at 126 7-8 on the declaration of an initial quarterly dividend of \$1.25 and an extra dividend of \$1.50 to be applied to the accumulation of back dividends. Chesapeake & Ohio ran up more than 4 points to a new 1928 high at 210 3-8 on the apparent withdrawal of opposition to the purchase of a controlling interest in Pere Marquette.

Call money renewed at 8 per cent, advanced to 9 and thence to 10 as banks called about \$40,000,000 in loans. Reports that the Federal Reserve banks were restricting the purchase of acceptances and that new gold recently arriving here was being earmarked to prevent its use as a basis for an inflation of credit also had a disturbing effect on speculative sentiment.

The close was irregular. Total sales approximated 4,700,000 shares.
