MADMAN HOLDS POLICE AT BAY AT CHICAGO, ILL.

Eight Policemen Shot In Attempt To Dislodge Negro From Hiding Place.

Chicago, Dec. 12.—(AP)—A sixteen-year-old negro youth today shot and wounded nine policemen. Among them Deputy Commissioner Martin E. Mullen. Before more than 200 policemen and firemen, using shot-guns, pistols, tear bombs and machine guns, succeeded in breaking into a building where he had barricaded himself and killing him.

The crazed youth, Ernest Whitehurst, staged one of the most protracted barricades in the history of the police department, with policemen firing on the building in which he made his stand. From adjacent buildings, telephone poles and even from ladders, when finally cowed Whitehurst had fifteen bullet wounds in his body. He lived two hours despite his injuries.

Chicago, Dec. 12.—(AP)—A negro believed mad, had barricaded himself in a two-story building on North Townsend street early today, wounding three policemen with pistol and shotgun fire and defying the united efforts of police and firemen to dislodge him.

Policeman Edward J. Fontaine was slightly wounded when the negro blazed away into the ranks of other first police squad to attempt to rush the building.

Sergeant Joseph Flynn, squad commander, fell with a shotgun wound an hour later. Policeman Mike Langston was wounded while he was dragging Flynn out of the negro's range of fire. Both men were taken to a hospital, the extent of their injuries undetermined.

Spores of police and firemen using riot guns, revolvers, streams of water and tear bombs, were still seeking to capture the negro at dawn after four hours of effort.

The negro had smashed a store window and when a police squad pursued he ran into the Townsend street building. A call for reserves was made, and officer Fontaine fell as the relief squad attempted to rush the building.

Firemen and a half dozen police squads finally were called out as the barricaded man continued to meet each attack with gunfire.

Tear bombs were tossed into the building, and streams of water were used in an effort to flood the negro out.

Later arriving police squads brought fire hoses, which were turned upon the window from which the negro was firing.

Seek Wife Slayer At Memphis, Tenn.

Memphis, Tenn., Dec. 12.—(AP)—The body of Mrs. Irene Meath Taylor, 43, lay in an undertaker's establishment today while county officers continued their search for her husband, Charles S. Taylor, 52, who disappeared some time last week from the one-room home and barbershop in which neighbors expected to find him a suicide, but discovered instead the body of Mrs. Taylor huddled in a locked trunk.

On the floor and in the rear yard they found bloodstained hair, red spotted towels and a hatchet. Other towels covered her head and throat. Their removal revealed marks which indicated she had been choked and beaten, presumably with the hatchet.

Sheriff W. S. Knight based hopes of an early capture on information that Taylor had been seen in Horn Lake, Miss., and that a brother lived at Covington, La.

Goodyear To Build Plant At Gadsden

Gadsden, Ala., Dec. 12.—(AP)—Goodyear Tire and Rubber Company of Akron, Ohio, has decided to erect a southern plant near Gadsden, the first unit of which will cost nearly \$10,000,000 and employ 1,800 or 2,000 persons.

Accepting on behalf of the company 279 acres of land bought by public subscription, C. C. Slusser, vice-president, last night announced that the plant will be initially equipped to turn out 5,000 tires daily by mid-summer. It was understood the availability of industrial water and centralized location were dominating influences which led to the selection of Gadsden for a plant that ultimately will cost \$30,000,000.

LEAF MARKET TO CLOSE ON DECEMBER 19

Market Will Re-open January 8th following Observance of Christmas Holidays.

The Greenville tobacco market will close for the Christmas holidays Wednesday, December 19th, it was stated this morning in the official daily report of K. W. Cobb, supervisor of sales. The market will re-open January 8th and probably close for the season the latter part of the month.

Sales yesterday amounted to \$24,446 pounds of tobacco. This netted the farmers \$117,532.50 at a general average of \$22.38 per hundred pounds. The price situation was described as favorable with a continuance of a similar condition today.

It was stated there was something over a half million pounds of light leaf on the floors of the nine warehouses today. Sales were expected to be completed during the afternoon hours.

Total sales of the season today stood at 64,479,262 pounds. This is slightly over five million pounds short of the seventy million pound mark set for the entire season. With several more days to go before the market closes for the Christmas holidays, it was believed the figure would be considerably nearer the goal mark.

Farmers were advised to market their offerings as hurriedly as possible during the next several days. They were cautioned, however, to give more attention to the condition of the remainder of the crop in order to insure themselves of good prices. Carefully graded tobacco always receives more attention from his discriminating buyers and for his reason it is to the advantage of every grower to re-work his offerings before presenting for sale.

While sales the past two or three weeks have been much lighter than during the opening days, the intervening time between now and the holiday season is expected to witness the offering of a considerable quantity of tobacco. Daily sales probably will hang around the six or seven hundred thousand mark.

While the remainder of the crop is composed mainly of inferior grades of tobacco, the price situation, it is believed, will continue as favorable as any part of the season. Prices Monday were the highest in many years and this led tobaccoists to anticipate a continuance of favorable price situation the remainder of the season, and especially preceding the holiday closing.

MODERN CARRIE NATION WRECKS KANSAS SALOON

Kansas City, Dec. 12.—(AP)—From a sick bed today Mrs. Maud Wilson viewed with satisfaction the far-reaching results of her angry denunciation with a hatchet upon the neighborhood saloon where she asserted liquor had been dispensed to her husband and 18-year-old daughter, Iris.

The latter day Carrie Nation was suffering from nervous illness from the excitement and publicity following her "dry" raid Monday, but she believed she had surpassed her goal. The saloon, in which she left a broad trail of broken glassware, had gone out of business, and the building was for rent.

Furthermore she now believes she will get action from federal and city prohibition forces from whom she said was unable to get any response before she took matters into her own hands. Mrs. Wilson, her husband and daughter have been ordered to appear before the county grand jury

Bolivia Prepares For War Today

La Paz, Dec. 12.—(AP)—With war clouds hanging over Bolivia the strength of the army has been increased. The general staff called the 1928 class to the colors and the country was responding with offers of service.

Retired army officers informed the general staff that they were ready to join their former units. Students in universities agreed to form a battalion of troops. The Boy Scouts decided to become reorganized into military brigades and have requested that they be called immediately for service.

The committee for national defense and propaganda held a meeting to formulate measures relating to the situation. Taxi-cab drivers and automobile owners offered the government the greater part of their conveyances for any use.

The situation on the Paraguayan frontier continued calm with both Paraguay and Bolivia maintaining their garrisons in their respective positions.

FLU CAUSES CLOSING OF ONE COLLEGE

State College Closed Today On Account Of Severity Of Epidemic.

Washington, Dec. 12.—(AP)—An increase in the influenza death rate and a rise in the general death rate in the United States were announced today by the public health service, as 49,510 cases of disease were reported in 39 states, New York City and the District of Columbia.

A total of 189 deaths resulted from influenza in 77 cities during the week ending December 8, the bureau reported from information submitted by telegraph to the Bureau of Census. This compared with 42 deaths from the disease in the same cities during the week ending Nov. 3. The general death rate for the United States for the week was 13.3 per 100,000 population, compared with 11.9 for the corresponding period of last year.

The bureau said that some authorities attribute the rise in the general rate to the increase in deaths from influenza but it declined to comment. The total of more than 200,000 cases for the country estimated yesterday was more than borne out by today's reports, the bureau said. The 49,510 cases are "not more than one-fifth the cases actually existing," it was said, "indicating a real total of at least 252,550."

Reports from public health officers today showed the following number of cases: Kansas 15,596; California 10,296; Montana 4,589; South Carolina 5,145; Oregon 1,446; Colorado 1,936; Maine 12; Massachusetts 15; New Hampshire 17; Rhode Island 2; Connecticut 4; New Jersey 22; Ohio 45; Indiana 97; Illinois 97; Michigan 6; Wisconsin 107; Minnesota 4; Missouri 140; North Dakota 14; Nebraska 364; Maryland 10; West Virginia 57; Virginia 300; Georgia 990; Florida 17; Kentucky 4; Tennessee 22; Alabama 214; Arkansas 95; Louisiana 36; Oklahoma 200; Texas 38; Idaho 7; Wyoming 68; New Mexico 170; Arizona 100; Utah 96; Washington 22; District of Columbia 3; and New York City 36.

In the following states, the bureau announced, influenza totals are "not reportable," because these states do not require a recording of the figures: Nevada, Vermont, Pennsylvania, New York State, Iowa, Delaware, South Dakota, North Carolina and Mississippi.

TAYLOR CHOSEN AS GARDNER SECRETARY

Raleigh, Dec. 12.—(AP)—Tyrre C. Taylor, Charlotte lawyer, will be private secretary to O. Max Gardner, Selection of Mr. Taylor who organized young peoples' Democratic clubs during the recent campaign, was announced yesterday by the governor-elect.

CHICAGO WOMAN ATTEMPTS SUICIDE

Chicago, Dec. 12.—(AP)—Dorothy Baker, the housewife whose "panoramic honeymoon" to New York and Niagara Falls was ended by her arrest for stealing \$2,100 from her employer, tried to take her life last night by swallowing poison.

The 19-year-old girl's suicide attempt occurred in the Kensington police station after she had been confronted by Mrs. Nellie Bauer, from whose home she confessed taking the money and a fur coat.

When Mrs. Bauer denied giving the money and a fur coat, the girl drank poison before police could stop her.

"Tell Ken I did it all for him," she cried. Police said she referred to Kenneth Hagan, her former sweetheart whose lack of attention prompted her to set out "to live like an heiress."

Doctors said she would recover.

FLU EPIDEMIC STILL SPREADS OVER NATION

Schools And Colleges In Widely Separated Areas Continue Closing.

Raleigh, Dec. 12.—(AP)—North Carolina State College authorities today ordered a suspension of college work until January 3 because of the influenza situation at the institution. College physicians recommended the action when the number of flu patients jumped from 19 last night to 75 this morning.

First term examinations will be held after the holidays.

With thousands of cases of influenza officially reported throughout the Carolinas, colleges, universities and public schools in many places today were closed to check spread of the disease.

The first major college to close was Clemson College at Calhoun, S. C., which suspended classes yesterday. Approximately 250 of the more than 1,300 students were reported ill.

At High Point the public schools were suspended Monday afternoon when 1,400 children failed to attend classes. Many were reported suffering with influenza or bad colds.

Health authorities at Columbia, S. C., ordered all schools and theaters closed today. Dr. R. T. Jennings, city health officer, issued a statement calling on the residents of the city to cooperate in every way.

Only a few cases were reported at the universities of South Carolina and North Carolina. Neither will close until the regular Christmas holidays.

A number of cases were reported at Winthrop College, Rock Hill, S. C. In South Carolina more than 5,000 authentic cases of influenza had been reported to the United States public health service.

While there are hundreds of persons suffering with "bad colds" in Charlotte, Dr. W. A. McPhaul, city health officer today asserted that he did "not believe there were a half dozen cases of real influenza in the city." He added that what he meant was "influenza like that of the winter of 1917-18."

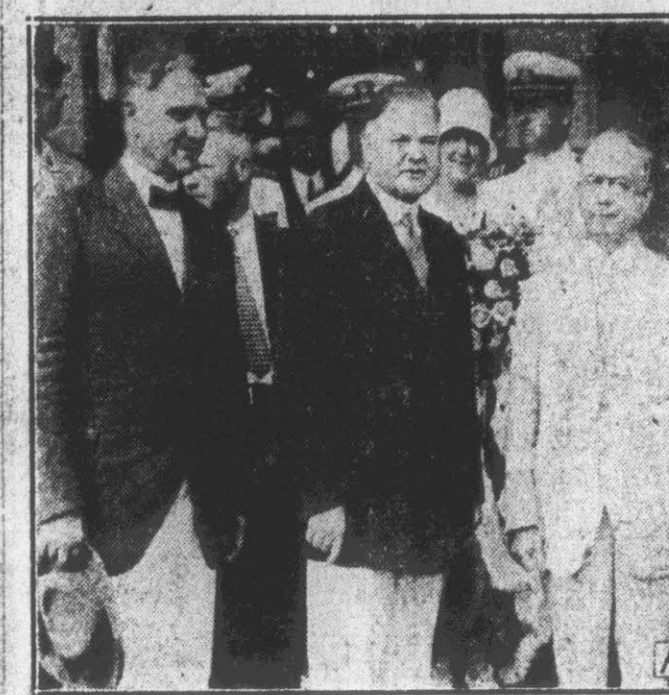

Tobacco Concern To Move To Louisville

Winston-Salem, Dec. 12.—(AP)—Robert Barton, vice-president and general manager of the Brown and Williamson Tobacco Corporation, today announced that the cigarette and smoking tobacco departments of the firm would be moved to Louisville, Ky.

A statement issued by Mr. Barton said that a modern building is being constructed at Louisville and transfer of the department from Winston-Salem will be made early in 1929.

Expansion of the chewing tobacco department here is being planned, he said.

King George Undergoes Lung Operation Today; Condition Still Grave

London, Dec. 12.—(AP)—King George underwent an operation today for the removal by puncture of phlegmatic fluid around the base of the right lung.

Some of the purulent fluid was removed and further drainage will be necessary. Announcement of the operation was made in a bulletin timed 3:30 p. m., and signed by five of the six physicians who have been attending his majesty.

Buckingham Palace officials were reluctant to comment on the afternoon bulletin, which was the first issued at that time of day. But the fact that the doctors had stated that the slight improvement noted in the morning announcement had been maintained, was taken as a good sign.

On the other hand there was a report of foreboding because the physicians had found that further drainage of the lung region would have to be undertaken in the near future.

London, Dec. 12.—(AP)—King George was fighting his grave battle today with wonderful strength. There was a slight more hopeful air among Buckingham officials this morning after the medical bulletin had been issued and the bulletin itself was regarded as favorable. The anxiety which has prevailed during the last two days still continued, but it had been lessened.

The fever from which the King is suffering was not quite so active, "his being reflected in a lowered temperature which was considered a good sign."

A remarkable rally which the King made last night just before he saw the Prince of Wales who made a stirring dash from Equatorial Africa to his father's bedside, seemed to have been maintained. This gave an indication of the strength with which the King was fighting his battle.

While some quarters assumed that the Prince would not have rushed to Buckingham palace if the end of the King had not been near, it was insisted at the Palace that such a meeting would not have been allowed had physicians attending the King regarded the excitement which would attend it as likely to have an effect immediately dangerous.

In view of the prolonged strain to which the King's constitution has been subjected it was generally felt today that serious developments might occur at any hour. The evening bulletin on his condition stated that there was no increase in his exhaustion and that his pulse was steady. Medical writers in the news papers pointed out however that no gain in strength was noted and that the King's general infection continued.

Shortly before midnight it was unofficially stated that there had been a slight change for the better in the King's condition. This announcement was regarded as giving some encouragement. It was stated semi-officially that the King was making a magnificent struggle against his illness although deep anxiety persisted at the Palace. The fact that his majesty passed a quiet night enabled his constitution to continue the fight against the general infection.

The heir to the throne was met on the landing to English soil at Folkestone by the Prime Minister Baldwin and the Duke of York met them at Victoria station when they arrived on the boat train. The Prince looked well after his hunting trip but on his face showed strain from his anxiety and the mists by his forced journey by land and sea.

When the Prince clasped hands with his brother at the station he listened with concern to the mes-

Stores To Begin Opening At Night Here Next Monday

Preparatory to the annual Christmas rush in the business district the majority of merchants of this city will begin holding their stores open at night the first of next week.

While a number of business houses have been remaining open at night the past week, the general opening of the stores will not actually begin until next week.

"This will give the trading public an entire week in which to do their Christmas shopping. It is hoped everybody will make it a point to shop as much as possible at night and in that way afford more room for the hundreds of visitors expected here during the next several days."

POLISH ISSUE HEARD BY THE LEAGUE TODAY

Lugano, Switzerland, Dec. 12.—(AP)—The Polish-Lithuanian controversy again came before the council of the League of Nations today, the representatives of Poland and Lithuania each charging the other nation with obstructing solution of their difficulties.

Premier Waldemaras of Lithuania conjured up a picture before the council of Poland swallowing all Lithuania. Demanding again the return of Vilna, Waldemaras insisted that Lithuania either would get back Vilna and be independent or she would lose everything else by acts similar to the military seizure of that city by the Polish general Zeligowsky. He concluded by declaring that the situation was precarious and must be clarified in the interests of the peace of Europe.

Foreign Minister Zaleski of Poland in reply insisted that the recent Koenigsberg conference had failed as well as other efforts at reconciliation because Lithuania was pursuing a policy of passive resistance. This, he declared, was what is preventing that good understanding upon which peace depends. Zaleski then urged the council to apply the provisional plan outlined in the council resolution of last September calling for the appointment of experts to investigate the entire dispute.

FRUSTRATE PLOT TO BOMB HOOVER'S SPECIAL TRAIN

Bucinos Ariz., Dec. 12.—(AP)—A plot to bomb Herbert Hoover's special train has been frustrated. With two men under arrest, police today were continuing their search for any anti-American agitators who might be involved.

Fifteen hundred guards will be employed on special duty to insure the safety of the United States President-Elect when he arrives tomorrow and during his visit.

President Irigoyen in a statement on the plot said police in searching a house in Estomba street found four hand grenades two cylindrical bombs one square bomb, dynamite, revolvers, automatic pistols, quantities of ammunition and one hundred and fifty ten-peso notes.

The police announced that a room in the raided house contained a detailed map of the railway system. Police believe the plotters intended to place the bombs on the track on the outskirts of the city just before the arrival of the Hoover special train.

Police in raiding the house arrested a youth who said he was Carlos Gutierrez, 18. The authorities said however, that the real name of the youth was Alejandro Romano and that he was 21 but posed as younger in hope of obtaining leniency under the minors law. They described him as a student of chemistry and they believed that he manufactured the bombs.

Later a second man was arrested near the house. He gave the name of Jaime Olivero, but police said he was Jaime Castro, a chauffeur. President Irigoyen said: "The President of the Republic, being desirous of making agreeable the visit of the President-Elect of the United States of America and offering the greatest possible guarantee of safety to the personnel of the illustrious visitor, commanded the police to intensify their observations of dangerous elements."

The President added that this order had been carried out by the division of investigators which discovered the house which was raided.

Although only two men were officially announced to have been arrested it was generally known today that the police had been active for a week in picking up suspects. These suspects will be confined until after the departure of Mr. Hoover.

The authorities not only are determined to prevent any plot against Mr. Hoover but also are determined to prevent any public demonstration against the United States.

One Fatally Shot By Chicago Gunmen

Chicago, Dec. 12.—(AP)—Gunfire from a passing automobile raked Paul Cain's saloon on North Franklin street last night. Martin Belson, a patron, was shot through the neck and may die.

Daniel Tognotti, business agent for the Excavators' Union, was blamed by Cain for the attack. Tognotti, he told police, had long been a rival for his wife's affections. He explained the shooting as a reprisal for his wounding Tognotti several months ago. At that time, police said, Tognotti refused to name his assailant.

Eight Arrested In Raid Of Night Clubs

New York, Dec. 12.—(AP)—Police and Federal prohibition agents early today raided six night resorts and arrested eight prisoners on charges of violation of the prohibition laws. Two of the places raided were in Greenwich Village, three in the general vicinity of Times Square and the sixth in the upper west side.

PUBLIC FUND FOR THE POOR STILL GROWS

Total Amount Of Merchants' Association Christmas Fund Today \$378.00

The barometer registering the amount of donations to the Merchants' Association Christmas fund for the poor continued to climb steadily today, with indications that the next few days would see a handsome fund devoted to this purpose. Contributions since the report of yesterday amounted to \$47.00. This brings the total amount of the fund up to \$378.00. The largest amount to the contributions yesterday came from the Planagan Buggy Company. It was a check for \$25.00. The remainder of the amount was in the form of individual subscription from various persons and concerns.

The committee today continued its investigation of the condition of the poor families of the community. To date about fifty or more families have been reported. The majority are in destitute condition and badly in need of clothing. This has caused the committee to issue an appeal for donations of wearing apparel of all kinds to shield the half-clothed bodies of the poor from the cold during the winter months.

Many of the families were described in pitiable circumstances. Without adequate clothing, food or fuel they face the long winter days and nights without hope of relief except such as provided through the liberality of the public. The Merchants' Association is hopeful of raising a fund sufficient not only to carry Christmas cheer to these desolate homes, but to provide them with clothing and the necessities of life as long as possible.

Citizens interested in the movement to raise the Christmas fund are urged to watch the ten-foot barometer in front of the office of the Merchants' Association on Evans street. In this way they may keep acquainted with the total amount of contributions and the progress which is being made in behalf of unfortunate humanity.

"If you haven't yet contributed to this fund, get busy and so do immediately," members of the association and co-operating civic organizations urged today.

"It is one of the greatest humanitarian movements started by the city in years and its success is dependent upon your liberality. Don't wait—give what you can now and rest assured of having done your duty by mankind."

The names of those contributing yesterday follows:

Table listing names and amounts: Gaskins \$330.00, Langgan Buggy Co. 25.00, L. Little 2.00, ash 2.50, Blount-Harvey Co. 5.00, B. W. Hadley 1.00, J. White 5.00, Uge W. A. Darden 2.00, I. K. Blount 2.00, Mrs. S. M. Schultz 1.00, S. Sammie Langley 1.00, P. Pierce 1.00. Total \$378.00

Receives Divorce From Ruth Elder

Fountain, Dec. 12.—(AP)—An irrevocable decree of divorce has been granted Lyle Womack from Ruth Elder, who was rescued by an tanker when she attempted to fly across the Atlantic.

The divorce action was instituted in the Canal Zone district court by Womack on September 6th before sailing for the anti-Artic with an expedition headed by Commander Richard E. Byrd.

A disposition filed by Womack said that during the last 14 months the couple married life his wife did not very cruel to him and paid more attention to him, seeming to be more interested in flying across the Atlantic than in retaining his wife.

Referring to his greetings upon Ruth's return to the United States after her rescue, Womack said "I embraced and attempted to kiss her, whereupon she replied 'don't be a damned fool'." He also said that since her flight Ruth had treated him with scorn and indifference, assuming a superior attitude and showing neither love nor affection. He stated that as a result of this treatment he had lost 12 pounds in weight.

HUNTING LICENSES BRING STATE HANDSOME SUM

Raleigh, N. C., Dec. 12.—(AP)—Hunting licenses have brought \$135,000 into the state game fund this year this season. Major Wade Phillips, of the state department of conservation and development, in making this announcement, said today the amount was about \$25,000 less than the collections for the 1927 season through December.

# BOLIVIA AGAIN TAKE SEAT AT CONFERENCE

## Return Of Committee Revives Hope Of Averting Clash Between Two Nations

Washington, Dec. 12.—(AP)—Those hopeful of averting an armed clash between Paraguay and Bolivia took heart today with the news that the Bolivian delegation to the Pan-American Conference on Arbitration and Conciliation had been instructed to return to the conference.

However, the Bolivian minister, Diaz De Medina, said he had not received instructions that the delegation was to return. The Bolivian minister to Peru had been quoted in a Lima dispatch as saying that the Bolivian foreign minister had informed him that the delegation was to again attend conference sessions and that Minister Medina had been notified.

Bolivia's representatives withdrew from the conference early yesterday, as one of a number of events that were considered as ominous for peace. Previously Bolivia in a note to the State Department had said she did not consider negotiations toward conciliation should begin until moral reparation had been made for what she considered an insult.

The spark in the present quarrel between the two countries was a clash on the frontier between Paraguayan and Bolivian troops last week, but the powder mine already laid was a long standing dispute over a tract of land called Chaco Boreal. It contains 100,000 square miles. Above ground is a jungle filled with virgin timber. Underneath is oil.

Then, too, Bolivia's desire for access to the sea enters into the dispute, since a river, the Paraguay, navigable for ocean vessels, runs along the boundary of Chaco Boreal. Paraguay contends that she owns Chaco Boreal and that she is alone privileged to use that stretch of the Paraguay river for commerce. Bolivia contends otherwise.

Little news of a warlike character has been received from Paraguay and the delegation to the conference here has received from its government expressions of "surprise" at the Bolivian attitude.

But news from Bolivia indicated that strong feelings over the country has been aroused and there were reports by way of Peru that part of the army had mobilized.

## Cottonseed Crushing Slightly Decreases

Washington, Dec. 12.—(AP)—Cottonseed crushed in the three month period, August 1 to November 30, totaled 2,267,306 tons, compared with 2,407,884 tons for the same period in 1927, and cottonseed on hand at mills November 30 totaled 1,323,267 tons, compared with 1,118,165 tons a year ago, the census bureau announced today.

Cottonseed products manufactured during the period and on hand November 30, included:

Crude oil produced, 790,723,223 pounds, compared with 742,108,476, and on hand 143,078,618 pounds, compared with 185,707,871.

Refined oil produced, 509,707,652 pounds, compared with 533,591,139, and on hand 222,857,460 pounds, compared with 416,140,651.

Cake and meal produced, 1,012,793 tons, compared with 1,069,475, and on hand 169,899 tons, compared with 206,162 tons.

Linters produced, 463,654 running bales, compared with 452,904 running bales, and on hand 186,166 running bales, compared with 152,034 running bales.

## Two Persons Die In Auto Wreck Near Charlotte

Charlotte, N. C., Dec. 12.—(AP)—Comic Harwell and his wife, of Tryonville, Lincoln county, were killed almost instantly last night when their automobile collided with a truck near Cornelius on the Lincoln road.

Ernest L. Jones, a passenger in the automobile, was reported to have been seriously injured. Thomas Hilderbrand, driver of the truck and uncle of the dead man, was detained while rural police investigated the accident.

The collision is said to have occurred when the automobile failing to take a sharp turn, crashed into the truck.

## KITTY HAWK PREPARES FOR CONGRESSIONAL COMMITTEE

Kitty Hawk, N. C., Dec. 12.—(AP)—Preparations were being completed here today for the entertainment of a congressional committee and other guests expected Monday when a monument commemorating the first flight in a motor-driven airplane will be unveiled.

Orville Wright, co-builder with his brother of the machine that took off from Kill Devil Hill here 23 years ago next Monday, will be an honor guest.

A seven-ton boulder, transported from the quarries at Mc Ahry, will be placed on the actual starting point of the short but historic flight and unveiled with appropriate exercises.

## W. J. Bundy Heads Duke Alumni Here

W. J. Bundy of Bethel, was elected president of the Duke University Alumni Association of Pitt county at the annual meeting of that organization held in the basement of the Jarvis Memorial Methodist Church last night. He succeeds J. L. Kilgo, local tobacconist, who acted as toastmaster last night. Other officers elected were Rev. Guy Hamilton of Ayden, vice-president; Mrs. E. L. Hillman, secretary, and C. W. Porter, treasurer.

The principal address of the evening was delivered by Dr. Davidson, dean of the Duke University Medical School, who outlined in a comprehensive way the progress which the university is making at this time. He declared the future held forth great opportunity for educational progress in this state and urged his hearers to use their influence to make this possible.

The gathering was probably one of the most enthusiastic which the association has held in a number of years and many former students of the college were present.

## Bert Ormond Visits City With Airplane

Flying a Travel-Air plane, Bert Ormond of Hookerton, Greene county, left the flying field near this city this morning for Kinston. He was accompanied by Lawrence West co-pilot.

Ormond, brother of Mrs. C. H. Dodson, of this city, reached Greenville yesterday following a flight from St. Louis where he recently completed a course at the Robertson Aircraft Corporation. The flight from the Missouri city was made in 11 hours.

Young Ormond circled the city several times this morning, having as his guests S. F. Allen and C. H. Dodson.

It was stated that the young flier contemplates entering some branch of aviation, probably as a mail plane flier.

## LITERARY DEPARTMENT OF WOMAN'S CLUB MEETS

The Literary Department of the Woman's Club met at the home of Mrs. W. H. Woolard on Tuesday afternoon with Mrs. E. B. Ailsbrook as hostess. Twenty members and six visitors were present.

The meeting was called to order by the chairman after which two beautiful musical numbers were rendered by Mrs. Knott Proctor, accompanied by Mrs. H. H. Settle.

Miss Clem Bridges had charge of the program and reviewed in a very interesting manner "An Indian Journey" by Waldemar. Miss Eva Hodges played a beautiful piano solo at the conclusion of Miss Bridges' book review.

A contest was then enjoyed, Miss Hodges winning the prize, which consisted of two handkerchiefs.

Mrs. Woolard announced that Mrs. Settle had won the booby prize, and at that moment Mary Woolard and Helen Settle pulled in a ship filled with lovely gifts that each club member had brought for Mrs. Settle, who sails December 17 on a trip around the world.

Delicious refreshments were served by Mrs. Woolard and Mrs. Arnold.

money derived from the sale of these seals is used under expert advice and with the most careful scrutiny of expenditures in spreading knowledge of tuberculosis and of the ways in which it may be most successfully fought. For a very small sum invested in seals any one may share in this beneficial work. The great reduction in the tuberculosis death rate in recent years shows only a part of what can be done. The rate can be still further reduced, indeed almost to the vanishing point, by intelligent activities such as the Christmas Seals are designed to finance.—New York World.

**ABOUT TOWN**

"Watch the barometer in front of the office of the Merchants Association and keep informed of the progress of the Christmas fund being raised for the poor people of the community," urged a member of the organization today.

"The committee has found over fifty families in need of aid. Many of them are without proper clothing to keep them warm during the cold weather."

"See that you contribute something to this fund. It is one of the most worthy things undertaken by the city in years and deserves the support of every person who has been blessed with comforts during the past year."

"Christmas shopping is beginning to pick up considerably," said a local merchant today.

"Numbers of shoppers have begun to visit the business district at night. They have plenty of time to inspect the thousands of Christmas gifts which the merchants have provided."

"If you haven't done your shopping yet, get busy and do so at once and in that way eliminate the worry and hurry of the holiday season."

"What about those Red Cross tuberculosis Christmas seals?" asked a member of the Pitt county chapter today.

"It matters not how little you plan to spend for Christmas, see that some of this is spent for those seals. This money goes to suffering tubercular patients who are unable to provide for themselves. This is a cause in which every person should be intensely interested and you are urged to buy as liberally as possible."

"The play given by the high school last night measured up to usual standard for such performances," said a patron of the school today.

"Each character played his part in commendable form. The music by the high school orchestra was good and well timed."

"Those in charge of getting up the play are to be congratulated."

"Mail your Christmas packages as early as possible," postal employees were urging the public.

"This will insure delivery before the holiday rush actually gets under way and eliminate the possibility of having to wait for the arrival of a present."

"The minute you wrap your package, see that they are posted and sent on the mission of happiness."

"Remember efforts of public officials to provide ample parking space for visitors in the business section of the city," reminded a well known citizen today.

"Lots of us drive our cars up town in the morning and park them on main streets. We could leave them at home without the slightest inconvenience and in that way afford more parking space."

"Let's try this plan during the holiday season and leave more open space for the hundreds of visitors who visit the city form day to day. It is the least we can do to improve the traffic conditions of the city. Keep it in mind and walk down town just to see how it feels to walk."

"These boys and girls off at school would be delighted to have the Reflector sent to them every day," said the manager of circulation of this paper today.

"In making out your Christmas list for the students be sure to include a year's subscription to the Reflector."

"Think how you felt when you were away from home and out of touch with things you were associated with all your life. The other fellow feels the same way about it."

"Mail us \$5.00 today and let us start the paper as a Christmas gift."

Just ten more shopping days before Christmas. For the convenience of shoppers many of the local business houses are already keeping open evenings and all other business houses in the city will do likewise beginning next Monday. It is a good plan, however, not to wait until next week to begin your shopping. Start it now and complete it just as early next week as you can.

The old saying "What goes up must come down," surely was true of the stock market, and as usual thousands of those who were riding the wild upward rise of the market rode for a fall that proved far from pleasant and meant financial disaster to many. Wild speculation is gambling in one of its worst forms and like other forms of gambling, in the end never pays.

The Christmas relief fund got a good boost yesterday and indicates that there will be best Christmas cheer for many who no doubt would have gone without but for this relief movement. Give what you can to this worthy cause. Let's make those about us happy this Christmas.

A sales tax will be urged at the next session of the General Assembly as a means of reducing the real estate tax, according to news reports from Wilmington. There are, of course, sound arguments for and against such a tax and just what the legislature will do with such a proposition we cannot say. We do know, however, that with the present almost confiscatory tax burden upon real estate some other means of increasing revenues must be found instead of increasing the burden on farm lands and other real estate.

**COMPLETING THE CHRISTMAS LETTER**  
 A happy addition to any letter written in December is that gallant depiction of a caravel afloat on prosperous seas under the familiar emblem of the Christmas Seal, the red cross with the doubled bars.

These are busy days. It is hardly to be expected that writers of letters will provide themselves with sticks of sealing wax, with signet rings and with special gas arrangements for sealing holiday letters with the personal touch. For the month of much letter writing in the interest of good cheer, of charity, of generosity, the Christmas Seal provides a convenient substitute.

# SPORTS SLANTS

By ALAN J. GOULD

New York, Dec. 12.—(AP)—Although baseball has hardly gotten settled in winter quarters there isn't any room left for argument or speculation over the list of 1929 major league managers. The roster for next year is complete much earlier than usual.

Reappointment of Lena Blackburne to lead the Chicago White Sox and side-tracking of apparent efforts to oust the veteran Wilber Robinson in Brooklyn have cleared up the only remaining doubtful districts.

Four managerial changes have been made, two in each league. Bucky Harris remains a pilot, but shifts his operations to Detroit while his old team mate, Walter Johnson, takes the helm at Washington.

The National League champion Cardinals, who do not have much regard for the old axiom about changing horses in midseason, have substituted Billy Southworth for Bill McKechnie.

Emil F. Fuchs of Boston, reversing the procedure of Robinson has added the responsibilities of manager to those of President.

The Army's all-American half-back, Red Cagle, is among the grid iron's outstanding individuals. He gave a classic example of his ability to make the play fit the situation in West Point's final game against Stanford but he had been doing the unexpected, and getting away with it, all season.

At the start of the season, Cagle remarked, "These ends better get down there when I have that ball".

That was all Red had to say about it but the ends "get down there" and quite frequently looked around in time to see a forward coming in their direction, depending on what maneuver Cagle had decided upon after a little light and airy stepping.

Red's ability to pass on the run made it easy for him to switch his intentions impromptu, just as he did in the famous play that almost scored a touchdown against Stanford.

## Eight Killed In Bombay Rioting

Bombay, India, Dec. 11.—(AP)—Three policemen and five strikers were killed today during riots at Parel at the north end of the city when the mill strikers overpowered police and looted shops. Armed police reinforcements were rushed to the district and opened fire on the rioters. Many persons were injured in the disorder. Shops were closed in Parel and business was at a standstill.

## Fort Bragg Unit Wins Knox Trophy

Washington, Dec. 12.—Battery F, 16th Field Artillery, stationed at Fort Bragg, N. C., and commanded by Captain Henry E. Tisdale, was announced today as the 1928 winner of the Knox trophy for field artillery and the award for excellence of an enlisted student at the Field Artillery School at Fort Sill, Oklahoma, was made to Sergeant Ray B. Magnard, who will receive the Knox medal.

Presentation of the field artillery trophy by the Massachusetts Society of the Sons of Revolution, its donor, will be made to Captain Tisdale at the annual banquet in Boston next month.

## Columbia Schools Close On Account Of Flu Epidemic

Columbia, Dec. 12.—(AP)—All schools and all teachers here were ordered closed for an indefinite period today by Dr. R. T. Jennings, city health officer, because of the prevalence of influenza which, according to the Board of Health, has reached the proportions of an epidemic.

Dr. Jennings issued a statement this morning calling upon the residents of the city to cooperate as much as possible in combatting the disease. The drastic action, it was stated, was done in cooperating with Dr. James A. Hayne of the State Health Department.

## School Building Wrecked By Fire At Morehead City

Morehead City, N. C., Dec. 12.—(AP)—The three-story public school building here was destroyed by a spectacular blaze shortly before dawn today that threatened for a time to spread to other structures. Trucks from Beaufort and new Bern were summoned to aid the local firemen. The blaze started between the third floor and the ceiling from an undetermined cause. The building was erected several years ago at a cost of \$155,000.

# AIRMEN MEET IN WASHINGTON

## President Coolidge Speaks At Conference of Aeronautics

Washington, Dec. 12.—(AP)—The state of the air assembled here today at the International Civil Aeronautics' Conference and head President Coolidge single out past and present heroes who have done "much to make America air-minded."

Recalling the progress of man's efforts to conquer the air since before Christ, the president generously praised the Wright brothers, who 25 years ago accomplished the first flight.

"Others whose names will be long remembered, had done much to solve the problem," the president said. "But it remained for the able, persistent and modest Wright brothers from Dayton to demonstrate completely the possibility of a machine raising itself by its own power and carrying man in sustained flight."

Mr. Coolidge called attention to the "wonderful and spectacular flight to Paris" of Colonel Charles A. Lindbergh, and to his country-wide tour which did "much to make America air-minded."

Orville Wright, the first man to fly, is guest of honor at the conference, to which forty nations have sent representatives. Colonel Lindbergh was seated with the 12 members of the American delegation, appointed by President Coolidge to represent the United States in the three-day discussion of world aeronautical problems.

## Porto Rican Relief Blocked by Senate

Washington, Dec. 12.—(AP)—Immediate consideration of the \$12,000,000 Porto Rican hurricane relief bill was blocked in the Senate today when Senator Smith of South Carolina, insisted that provision be made for hurricane sufferers in his state and elsewhere in the south.

The Porto Rico bill was walled up by Chairman Bingham of the Senate Territories Committee, who explained that he was asking action out of the regular order of business because of a necessity for immediate attention to the island.

When Senator Smith insisted that the needs of continental American hurricane sufferers also be considered, Senator Bingham suggested that their wants be taken care of in a separate bill. The South Carolina Senator renewed his desire for prompt action and Bingham agreed that the Porto Rico measure be over until later.

## Jury Deadlocked In Carroll Case

Raleigh, N. C., Dec. 12.—(AP)—The jury trying the suit of the State Board of Charities and Welfare to revoke the license of Dr. Robert S. Carroll's Hospital at Asheville, was still deliberating at 11:30 noon this morning. Judge W. C. Harris, presiding in Superior Court, had had no word from the jurors since the case was given to them at 9:30 last night.

Four issues were confronted. The suit was given the jury in Wake county Superior Court at 9:30 o'clock last night, after Judge W. C. Harris had concluded his charge outlining the issues involved.

Judge Harris said the issues to be decided were:

First, are the plaintiffs estopped on said cause of action by verdict and judgment of the Superior Court of Buncombe, as alleged in the answers of the defense? In the Buncombe case, Dr. Carroll's right to a license to practice medicine was in question, being finally decided in his favor by the Supreme Court.

The second issue was as to the charge of immorality, based principally on the testimony of a former patient and nurse at the hospital, which was denied by the physician.

The third and fourth issues related to alleged cruelty and neglect on the part of the institution's administrative and nursing staff.

# The utilities of a city are combined in your motor car.

**YOUR automobile is something like a miniature city. There is an electric light and power system, a water system, a fuel system.**

In the new Ford, you will find each of these systems of the latest design and built of the best materials. Every part has been made to serve you faithfully and well and at a minimum of trouble and expense.

Take, for example, the generator—one of the most important parts of the electrical system which supplies the current for lighting and for engine ignition.

In the new Ford, the generator is of the power-house type and is distinctive in many features. It has been specially designed to prevent most forms of trouble. Oiling is necessary only once a year. About the only thing you need do is to have the charging rate changed as the seasons change.

Closely allied to the electrical system is the ignition system. It, too, is of new mechanical design in the new Ford. There is but one high tension cable and that connects the coil with the distributor. Even cables from the distributor to the spark plugs have been eliminated. Special care has also been taken to make the distributor short-circuit proof, thus preventing short circuits from rain, etc.

The electrical and ignition systems of the new Ford are so simple in design and so carefully made that they will give you surprisingly little trouble. Yet that doesn't mean they should be neglected. Certain little attentions are needed from time to time.

The storage battery should be given water and the connections kept clean. The generator charging rate should be changed as indicated. Spark plugs should be cleaned at regular intervals. Distributor points should also be kept clean and the distributor cam given a light film of vaseline every 2000 miles.

These are just little things, but they mean a great deal to your car. You can have them looked after at very small cost by the Ford dealer when you take the car in for oiling and greasing.

A thorough checking-up at regular intervals will lengthen the life of your car and give you many thousands of miles of care-free, economical motoring.

# HOLD-UP MEN GET \$100,000 IN NEW YORK

## Bank Guard Wounded In Daring Robbery Of Collection Car At Yonkers.

Yonkers, N. Y., Dec. 12.—(AP)—In a daylight hold-up in the heart of this city's business section seven or eight robbers opened fire this morning on the collection car of the First National Bank and escaped with a \$100,000 payroll, after wounding one of the bank guards.

A partly armored automobile was transporting the payroll from the postoffice to the bank for later delivery to the Alexander Smith & Sons Carpet Company, one of the largest organizations of its kind in the world. Two bank guards and a city policeman were riding in the car.

At the intersection of Buena Vista avenue and Hudson street, in the center of the city, a group of men in another car opened fire on the bank car, shooting directly through the windshield. Adolph Kauster, one of the guards, was shot through the arm.

The other guards and policemen were surruded by the robbers who escaped with the payroll toward New York city. Switching on the way from their original automobile with a Jersey license, which they deserted to another car.

## Not what you do, but how you do it, that counts

EVERYONE knows the story of Gene Tunney. How he fought his way up, until at 30 he has retired, undepared heavy weight champion of the world. From the very beginning of his career Tunney never once let himself get out of condition.

"I started taking Nujol internally seven years ago. The first month Nujol brought remarkable changes in my physical condition. My elimination became active and normal, since that time I have taken Nujol about five nights a week. If I discover that I have taken an excess I stop its use for a couple of days, when I renew my daily practice of taking a swallow from the bottle before retiring. I have found during my seven years' experience with Nujol that it is not habit-forming, or in any way unpleasant or harmful."

Nujol contains no medicine or drugs. It is simply a pure natural substance (perfected by the Nujol Laboratories 26 Broadway, New York.) It not only keeps an excess of body poisons from forming (we all have them) but aids in their removal.

**TODAY** Willys-Overland presents for public judgment the new superior line of Whippet Fours and Sixes, setting new standards of beauty and comfort for low-priced cars.

Longer bodies, higher radiator and hood, richer colors, heavier one-piece full-crown fenders—all these contribute to the trim, smart appearance that denotes creative genius and superlative mastery of modern design.

**Roomier bodies, greater comfort**  
More spacious interiors in the new Superior Whippet afford added leg room and elbow room. The wider, form-fitting seats are deeply upholstered... all passengers enjoy restful positions.

The longer wheelbase, plus the lengthened springs both front and rear, plus oversize balloon tires, and snubbers—all combine to the perfection of far easier riding under all driving conditions.

**Greater power, greater speed**  
In mechanical improvements the new Superior Whippet advances even over its famous predecessor. The new higher compression engine gives more than 20% added horsepower, resulting in increased speed, faster pick-up and greater hill-climbing ability. A com-

**Greater Convenience:** A single button, conveniently located in the center of the steering wheel, controls all functions of starting the motor, operating the lights and sounding the horn.

This fundamental improvement does away with all troublesome foot fumbling for the starting button, a frequent source of annoyance particularly to women drivers. It also avoids changing from the comfortable driving position to reach a light switch on the dash.

**Greater Safety:** With the new "Finger-Tip Control," you can at all times keep your hands on the wheel and your eyes on the road. An important safety factor, especially when driving at night.

# Market Report Cotton--Stocks--Grain

## COTTON MARKET N. Y. STOCK LIST

New York, Dec. 12.—(AP)—Prices opened up 2 points to a decline of 5 points on the cotton market today. Out of line with New Orleans which was off 2 to 6 points and with Liverpool which was 1 to 4 English points lower. A moderate volume of realizing and southern selling was absorbed within a few points of the initial prices and the market soon steadied up on covering together with trade and commission house buying. The demand was probably promoted by rumors that a private authority estimated consumption in this country for November at 234,000 bales, while there were also reports of a slightly steeper spot basis in some eastern belt sections.

January sold up to 20.35 and May to 20.31 with the general market showing net advances of about 4 to 7 points by the end of the first half hour.

According to private cable reports there was improved cloth inquiry from India and China.

Futures closed steady 4 to 17 points lower; spin quiet; middling 20.50.

## GRAIN MARKET

Chicago, Dec. 12.—(AP)—Grain trading today lost the snap which was conspicuous yesterday on the buying side in all the pits. Enlarged offerings of Argentine wheat to Europe were noted, and export wheat business from North America today totaled only 400,000 bushels. Corn prices displayed firmness early, but the market afterward acted tired, notwithstanding evidence that considerable amounts of corn are being disposed of to Europe.

Wheat closed unsettled 1-4 to 3-4 to 7-8 lower; corn 1-2 to 3-4 down; oats 1-8 to 1-4 off and provisions varying from 5c decline to a rise of 7c.

## STOCK MARKET

New York, Dec. 12.—(AP)—Reactionary price tendencies again cropped out in today's stock market as the rally, which had been under way since Monday, appears to have run its course. Although some disappointment was apparent that call money should renew at 8 per cent, after being as low as 6 1-2 in the outside market yesterday afternoon, there was nothing in the day's business news to influence the selling movement. Early gains of 3 to nearly 15 points were, in many cases, converted into losses of similar extent.

Weekly steel trade reviews were again optimistic in character. Iron Age reporting that "steel production is exceeding expectations as the year-end approaches, and the business outlook for the early part of 1929 is promising." Purchase of a large block of stock of the Standard Milling Co., by Gold Dust is but one of a series of consolidations and new business associations reported to be impending.

A wide open break of 15 points in Houston Oil, which sold down to 102, or 65 points below the year's high, confirmed fears that the market had not been purged of all weak spots in last week's drastic reaction. This tended to chill speculative enthusiasm for other high priced specialties. Radio and Wright Aeronautical cancelled their early gains of 3 and 7 points, respectively and sold below last night's final quotations. A. M. Byers dropped nearly 11 points, Adams Express 10, Johns Mansville 8, Packard Motors 6 and Industrial Rayon, May Department Stores, Montgomery Ward, Goodyear, Associated Dry Goods and General Motors sold 4 to nearly 6 points below yesterday's final quotations.

Weakness of the merchandising issues was attributed in some quarters to expectations that the recent decline in stock prices would impair holiday trade. Fears of the "secondary reactions" which invariably follows the first brisk rally after a sharp decline, also stimulated the liquidation of stocks, particularly by traders and investors who did not reduce their commitments in the first wave of selling, and by pools and bankers who bought stock for supporting purposes.
