TWO KILLED IN GUN FIGHT AT CHICAGO, ILL.

Two "Tough Guys" of the Beer Racket Fall Before Deadly Aim of Mahoney.

Chicago, Dec. 31.—(AP)—Two "tough guys" of the beer racket, William Gunner McPadden and Hugh "Stubby" McGovern, were shot to death early today at the Granada Cafe, 68th street and Cottage Grove avenue.

Nearly 200 patrons who had been dining and dancing, dove under tables, dashed for exits or hid behind pillars at the sound of the six shots, fired in rapid succession. Despite the number present, very few witnessed the actual shooting, which was at a table in a secluded corner of the cafe, one of the better known night clubs of the south side.

George Mahoney, a pistol in his hand, was arrested as he stood among the frightened guests a moment after the shooting. Police said six shots had been fired from his revolver.

McGovern was described by police as a former associate of Al "Scarface" Capone, and reputed for of Ralph Sheldon in beer operations on the south side. McPadden, a pal of McGovern, was a business agent for the Asbestos Pipe Covering Union.

The slayer's marksmanship was unusually accurate, as gang shootings go. Both men were shot through the heart, and there was a bullet in McGovern's forehead. The first shots went wide, giving McGovern a chance to draw his pistol. It was still in his hand, unfired, when he fell.

McPadden had no weapon. McGovern, McPadden, two other men and four women, had entered the cafe about 11 a. m., and had been seated about an hour when Mahoney, a make companion and two women entered and took a table nearby. Witnesses said Mahoney walked over to the others' table, said a few words to McGovern, and then the gun flashed.

Police sergeant Tim Sullivan, who arrested Mahoney said: "When I heard six shots, I ran in from the lobby. Mahoney was standing by his table holding the revolver. I ran up behind him and hit him with my fist in the back of the neck. He dropped the revolver and tried to seize my gun, but I subdued him. The revolver he was holding was empty."

POINCARÉ IS PERSUADED TO STAY ON JOB

French Premier Attempts to Resign, but Cabinet Persuades Him to Stay.

Paris, Dec. 31.—(AP)—Premier Poincaré today frankly told his cabinet that he had accomplished his main tasks and was ready to resign because of present unrest. But the cabinet persuaded him he had much to do, particularly in regard to the reparations, and M. Poincaré then agreed to remain.

At the opening of the cabinet session Premier Poincaré told his colleagues that he had reorganized the Armistice Day ministry in order to insure prompt adoption of the budget. This had been done before the end of the year and as stabilization of money was assured he felt his work was done.

The premier concluded by saying that in view of the complex political situation he would present the cabinet's resignation to President Doumergue.

All the ministers devoted themselves to convincing the premier that the government faces a grave problem in revising reparation and adjustment of domestic political differences. They unanimously declared that Poincaré's continuance as head of the government was "indispensable."

Poincaré finally agreed to remain. Thus in the opinion of his supporters he definitely avoided a crisis and greatly strengthened his hand by compelling the whole cabinet, in which there was reported to be dissension, to insist upon his retention in the leadership. The premier, therefore will face parliament when it convenes on January 8, and head of the government which the cabinet decided today shall be on lines already followed.

Local Man Killed Two Others Hurt In Auto Accident

A telegram received here this afternoon announced the death of Mr. S. G. Gorman, of this city, and the injury of Mr. J. N. Gorman and Calvin Gorman, in an automobile accident near Louisville, Ga., today. Other than that S. G. Gorman was dead as a result of the accident, J. N. Gorman had sustained a broken leg and other injuries and Calvin Gorman, driver of the car, received minor injuries, the information contained in the telegram was meagre. The men were enroute from this city to Metter, Ga., when the accident occurred.

The deceased was a brother of Mr. J. N. Gorman and had been a resident of this city for several years. He was connected with Gorman's warehouse here. Surviving him are his wife and a daughter.

TWO VICTIMS OF GAS FUMES LAID TO REST

Mrs. D. B. Carter and Daughter Buried at Creedmoor Sunday Afternoon.

Funeral services for Mrs. D. B. Carter and eleven-year-old daughter, Martina Books, victims of asphyxiation by gas here last Saturday afternoon, were conducted from their late home on Eighth street Sunday morning at ten o'clock by Rev. W. S. Harden, pastor of the Presbyterian church.

The bodies were immediately taken by motor hearse to Creedmoor where interment took place. Services at the graves were conducted by Rev. B. E. Stanfield, pastor of the Creedmoor Methodist church. Several automobiles from this city attended the final rites.

Mrs. Carter and daughter were found dead in bed shortly before one o'clock Saturday. Coroner E. S. Williams immediately investigated the case, the jury returning a verdict that death was caused by gas asphyxiation, resulting from upsetting of a gas heater by the child in going to or from the bathroom, or either trying to light the stove.

The tragedy was discovered by little seven-year-old Frances Carter who had gone upstairs to the room where her mother and sister were sleeping to awaken the mother. The child called to her mother several times, but upon receiving no response, rushed downstairs to a neighbor next door and told her she believed her mother was dead.

The neighbor investigated. She could hardly make her way up the stairs on account of the gas fumes, which had been released by the children in opening the door to call her mother. With the assistance of a man who had appeared by this time, she entered the room, threw up the window and immediately called for medical aid. Two doctors appeared, made an examination, and stated that the mother and daughter had been dead several minutes.

The victims were sleeping on separate beds. The figure of the child was half way across the bed, and it is believed she had been so overcome by fumes from the stove that she was unable to give an alarm. The stove was situated near the child's bed. It was partly turned over and a tube was disconnected. Matches which had been struck were near the stove, bringing up the possibility that the child had attempted to light the burner and in that way had accidentally disconnected the gas tube.

Mr. Carter had carried breakfast to Mrs. Carter and the child before leaving earlier in the morning on a business trip. It was evident they had eaten as the tray was practically empty. Mr. Carter did not know of the tragedy until he returned home a few hours later, all efforts to reach him having proven futile.

Fallbearers at the services here yesterday morning were S. M. Graham, P. L. Goodson, J. L. Hassell, Dr. Joe Smith, Dr. C. J. Ellen, A. H. Taft and Cecil Wilson of Charlotte.

Mrs. Carter is survived by, besides her husband and daughter, three sisters; Mrs. C. H. Cozart of Durham; Mrs. W. R. Kivette, New Meadows, Idaho; Mrs. J. T. Moss, Creedmoor, and three brothers, W. H. and M. E. Fleming of Oxford, and B. T. Fleming of Creedmoor.

Mr. Carter is a well-known insurance man of Greenville where he has lived for a number of years. The family recently moved from Fifth street to the present home on Eighth street.

GIANT PLANE PREPARES TO BEGIN FLIGHT

Question Mark to Attempt to Break World's Refuelling Record Tomorrow.

Los Angeles, Dec. 31.—(AP)—Final grooming of the army's tri-motored Fokker airplane Question Mark was planned at the Metropolitan airport here today preliminary to its take off at 7 a. m., tomorrow in an attempt to break the world's refuelling endurance flight record of 60 hours, 7 minutes.

Flying for the first time over the full course to be followed in the attempt to stay aloft 300 hours or more, the Question Mark yesterday off in a 128.5 mile flight from Rockwood to the scene of the take well field at San Diego.

Two pilots and a mechanic, members of the crew of five which will be aboard the ship tomorrow morning, Hans J. Adamson an observer representing assistant secretary of war Truman B. Davidson and two newspapermen made the test flight during which the ship functioned perfectly.

Adamson announced en route that the plane's motors would consume approximately 750 gallons of gasoline daily during its flight, and said that the ship's two attendants would deliver supplies, food and messages three times daily. Twice a day 300 gallons of gasoline will be taken on, and once 150 gallons will be supplied. The ship will cruise at 70 miles an hour.

Marshall, Mo., Dec. 31.—(AP)—Rushing preparations to beat the army's "Question Mark" into the air and to be first to set up a new world's refuelling endurance flight, B. M. Tuxhorn was planning today to take off with the start of the New Year at midnight tonight or shortly after ward.

Accompanying Tuxhorn as co-pilot will be Leonard Ritter, pilot of the Nicholas-Beadley Airplane Company, sponsoring the flight in conjunction with the Marshal Chamber of Commerce.

The little plane will be refueled from the ground by use of a Synchroizing cannon, invented by Tuxhorn, which projects fuel containers along the line of flight of the plane, permitting them to be picked up with hook and cable without stop. Food and other necessities will be picked up in the same manner.

COMES TO U. S. NEGRO SLAYER TALK OVER THE IS ARRESTED DAWES PLAN IN NEW JERSEY

Agent General For Reparations Expected to Discuss Issue With Hoover.

Paris, Dec. 31.—(AP)—Seymour Parker Gilbert, agent general for reparations, was enroute to the United States aboard the liner Berengaria today and presumably he will discuss the forthcoming revision of the Dawes plan while in America.

Although it was announced that his trip was primarily personal and that he would remain two or three weeks, it was generally assumed that he would meet Herbert Hoover and inform him of the latest developments and exchange ideas with him.

Mr. Gilbert also might be consulted by the American state department but he has resolutely refused to suggest the names of American experts that will serve on the reparations revision committee.

Mr. Gilbert boarded the Berengaria at Southampton on Thursday. He had hoped to spend Christmas at home and previously had engaged passage on three steamers but was prevented from sailing by reparations problems.

The Allied and German ambassadors at Washington will present suggestions for the nomination of the American experts. These ambassadors either have been or will be instructed by their respective governments to consult each other so as to harmonize their proposals and agree on a few names. This procedure has been adopted as speedier than an interchange of communications among foreign offices.

NURSES HAVE NARROW ESCAPE FROM BURNING

San Antonio, Tex., Dec. 31.—(AP)—Thirteen nurses and the superintendent of Baylor hospital escaped cremation by minutes early today when they were awakened by flames and fled from their burning dormitory, across the street from the hospital. The two story dormitory was destroyed.

Miss Marjorie Nowlin, Miss Violet Barnes, Miss Edith Douglas, and Mrs. Virginia Speers, were injured in escaping. Of the four, Miss Nowlin was the only one receiving burns. She also is believed to have a fractured hip in jumping from a second story porch.

GREETINGS FOR THE NEW YEAR

Three Hundred Jailed In N. Y. Crime Crusade

New York, Dec. 31.—(AP)—After another week-end round up in Commissioner Whalen's anti-crime campaign, 300 suspects were in jail today.

Six men wanted for homicide one accused as a counterfeiter and a mail robbery suspect were said by police to be the most important catches. Others fastidiously, felonious assault, pocket picking and lesser charges.

Raid on speakies and other hangouts of undesirables and suspects were begun by detectives before sundown Saturday and continued all night and throughout a large part of yesterday. In all but a few cases magistrates ordered those arrested held without bail.

Commissioner Whalen, who was active all day yesterday in connection with the round-up and made a personal inspection of the Brooklyn sector after going to the scene of two bomb explosions in the Borough.

One of the bombs was exploded at the doorstep of a paper dealer and the other in front of a shoe store. None was hurt in either and the small property damage was done. The paper dealer and the baker both blamed personal enemies.

Raid to carry out his orders, issued the day he took office that "crim-breeding speakies" must go will be continued the commissioner said.

FOUR VALUABLE HORSES BURNED TO DEATH

New York, Dec. 31.—(AP)—Four horses owned by Thomas Hitchcock, Jr., polo player and one owned by Thomas McCreery, a trained were burned to death in a fire which destroyed the McCreery stables at Belvedere on Thursday night. The horses were valued at \$30,000, the stables at \$20,000.

Slayer and Kidnapper Surrenders to Woman In Mississippi Today

Pertshire, Miss. Dec. 31.—(AP)—Charley Shepherd, negro convict who has been the object of widespread search as the slayer of J. D. Duvall, an employee of the Parchman state prison farm, and the kidnapper of Duvall's 18-year old daughter Ruth, surrendered to a woman here today.

Shepherd's brother who worked on the land of Miss Laura Mae Keeler, received word this morning that he escaped convict was in a vacant house on the plantation and "needed help and needed it right away." The message was delivered by another negro who also worked on the plantation.

The brother informed Miss Keeler, who got in communication with a guard at Parchman and the brother was sent to see Shepherd. After a time Miss Keeler went to the house and Shepherd surrendered to her.

Miss Keeler and several neighbors started with him for the state prison farm about 25 miles away. Duvall was killed in his home early Friday morning and Miss Duvall was kidnapped and kept prisoner until she escaped Saturday and made her way to a prison camp.

Parchman, Miss., Dec. 31.—(AP)—Officers of the Mississippi national guard today led the search for Charley Shepherd, negro convict guard wanted for murdering J. D. Duvall, state prison carpentry sergeant, and abducting his 18-year old daughter, Ruth.

NORTH STAR FAILS TO GET AWAY TODAY

Mrs. Stillman's Plane Fails in Take off on 2,500 mile Non-stop Trip at Noon.

Roosevelt Field, N. Y., Dec. 31.—(AP)—Mrs. James A. Stillman's monoplane North Star took off at 12:11 P. M. today to attempt a 2,500 mile non-stop flight to France Field Canal Zone. The pilot is Oliver Weboutiller and the navigator Lewis A. Yancey.

Almost immediately the plane had got in the air it was seen that there was trouble. Passing over Garden City, close to the field, observers saw that gasoline was being dumped and the plane was losing altitude. The pilot began a wide circle back toward the flying field. He landed at Mitchell Field at 12:17 P. M.

Weboutiller's three minute flight was almost an exact counterpart of part in the transatlantic air derby last summer. Flying the same plane in the non-stop classic of the Derby he took off from Roosevelt and landed a few minutes later at Mitchell. He attributed his failure that time to engine trouble.

State Motorists Slow in Getting License Plates

Raleigh, Dec. 31.—(AP)—North Carolina motorists today had only a few hours left to buy their 1929 license plates. No hopes of an extension of time have been held forth by state officials, and under the law, those who drive cars or trucks tomorrow without the new tags will be subject to arrest and fine.

At the close of business Saturday the license bureau estimated that about 300,000 motorists had failed to obtain the required license. The number sold at that time was slightly in excess of 93,000.

Children Readers Increase in City

By a comparison of the circulation records of the Greenville Public Library it is found that during November, 1928, there were 600 more junior readers than during November, 1927. The local Kiwanis Club is directly responsible for this increase. With the gift which they made, the very best in children's books have been purchased. The figures show the response and appreciation of the children.

Four new books have been placed in the International Mind Alove. The Nearing North, a book on Canada, is attractive; The New World is probably the most important. It deals with every country in the world in a brief and interesting way. The Alove readers may turn to it for fresh information on the countries about which they have been reading. The other two books deal with present conditions in Holland and Spain.

THINK HOOVER MISSION HAS TWO OBJECTS

Politics in Central America and Good Relations in South America Purpose.

U. S. S. Utah, Enroute to Hampton Roads, Dec. 31.—(AP)—Herbert Hoover's goodwill trip had two distinct stages in the view of his associates or the mission: First, in Central America, turning unexpectedly into what might be termed political channels, while the second in South America found economic conditions at its base, with questions of better relations with the United States overlaying all.

During the very first call at Honduras contending political factions were brought to gether at a reception with what was expected to be beneficial results, both sides promising that they would have more amicable relations. The same was true in Nicaragua where political leaders met in a friendly manner, with Diaz and Moncada both going publicly on record as favoring the retention of American marines, at least until the local constabulary could be organized and recruited to full strength. In Costa Rica members of the party were given to understand that an appeal by that government to the League of Nations for an interpretation of the Monroe Doctrine in no way was intended to a slap at the United States.

Also in Costa Rica, as well as in other Central American republics, including Salvador, Mr. Hoover was apprised of the need of additional capital to bring about internal improvements and to develop natural resources.

Throughout South America members of the mission were somewhat surprised at the extent of American investments in the republics. They were informed that American capital was welcomed and that apparently South America was looking to the United States for funds to assist in the vast development which is possible for everyone of those countries.

In Ecuador, President Ayora very frankly discussed the problems of his country with Mr. Hoover, emphasizing the need for outside financial assistance.

Peru, one of the largest of South American republics, and regarded as unusually rich in natural resources, appeared especially eager to welcome American capital. President Leguia in his conversations with Hoover stressed the need of better steamship connections, air lines and roads.

Bolivians who boarded the Maryland at Antofagasta, discussed the road program but they also went into the question of the outlet to the sea, explaining the difficulty of bringing in supplies for the country. Mr. Hoover listened but made no comment when political questions about internal problems in Central and South America were mentioned.

BRITISH KING HAS RESTLESS NIGHT AGAIN

Exhausted Condition of King George Presents Difficult Problem to Doctors.

London, Dec. 31.—(AP)—The exhausted condition in which King George's prolonged serious illness has left him is presenting a difficult problem to his physicians which they frankly acknowledge in this morning's official bulletin.

Five of the seven principal doctors who have been attending his majesty signed this morning's report, which was more detailed than recently and although it recorded a rather disturbed night it announced some improvement in the king's appetite and that he is holding his own so far as general condition.

Although the public has been repeatedly warned by the King's physicians that his progress must be very slow there is general disappointment whenever no change whatever is reported in his condition.

New measures which the doctors decided to take in the hope of increasing the King's strength, which has been severely taxed by his long and exhaustive struggle, were understood today to be of a medical nature, intended to stimulate his heart.

The King's health has been steadily improving since he was taken to Buxton Park on the coast road. Deep snow this year forced abandonment of plans to carry provisions on two pack mules and each climber packed his own supplies and his quota of the pyrotechnics.

EAST AND WEST PREPARED FOR GREAT CLASH

Pasadena, Cal. Dec. 31.—(AP)—In the words of their coaches, "It is for action, both mentally and physically," the football representatives of Georgia Tech and California, East-West rivals who will meet in the New Year's Day gridiron classic here were ready today for the time of reckoning.

Each eleven was on edge for the Rose Bowl clash after stiff training grinds. Skull practice was held yesterday, and it was thought possible that the coaches, Clarence M. Price of California and Bill Alexander of Tech, might send their charges through light limbering up exercises today as a means of keeping them at the peak of condition. Both teams were free from anything but light injuries, indicating that game time would find the two sides at their greatest strength. Raleigh Drennon, regular Tech guard, and his substitute, Jim Brook were back in shape after a week's rest from the game. Fitz, tackle and captain Phillips, star end, were among them. What the starting lineup will be is something of an enigma to even the most observing tribes.

Coach Alexander yesterday defined all requests for a probable starting lineup. A tendency towards the belief that the Yellow Jackets will nail a Bear side on the south's already brilliant record of accomplishments in New Year's day play has become notable here. The 10 to 8 odds that prevailed in favor of California was disappointed. It was said that some are fearful of the condition of the California players. Although Price has pronounced his men fit for action, one observer figures that the diminutive Bear mentor has worked them too hard. Price sent his charges through two workouts a day for more than a week, whereas Alexander was content with one comparatively light practice daily.

Ford To Employ 30,000 More Men

Detroit, Dec. 31.—(AP)—Announcement by the Ford Motor Company today that it plans to employ 30,000 additional men in its factories can be placed on a basis of "six days for machines" and five days for men, it is believed, are to produce not only the 30 per cent increase in production which promises immediately but also a social welfare experiment by Henry Ford.

While the plan is designed primarily to remedy the economic ills of his most notable innovation, Ford believes the five day week will increase production to abolish permanently all night work.

Employment of the great additional force planned will be completed by March 1, the announcement said, and production of the Ford will be increased from 300,000 to 400,000.

Costs of the factories here will be affected immediately but it is understood assembly plants in other cities will operate on the same plan when production has sufficiently increased.

The announcement warned of the unemployment of Detroit and receive first consideration of that men unable to show a record of previous employment here and find little opportunity for employment at the Ford plant.

Mr. Ford had only one sentence of comment upon the plan "A six day week is all right for machines," he said, "but a five day week is enough for men."

A THREE DAYS' COUGH IS YOUR DANGER SIGNAL

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, a emulsified croscote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth. Of all known drugs croscote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to croscote, other healing elements which soothe and heal the inflamed membranes and stop the irritation, while the croscote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs. Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (Adv.)

CREOMULSION FOR THE COUGH FROM COLDS THAT HANG ON

Walter Hagen, dean of the American pros and holder of the British open golf championship, rested on his honors today after adding another victory to his record. He won the Long Beach \$5,000 open yesterday, turning in a 20 in the 72 holes and carrying off \$1,500 as first prize.

Rainey Cawthorn, fullback, has been elected captain of the 1929 University of Florida football team.

SPORTS SLANTS

By ALAN J. GOULD (Associated Press Sports Writer) New York, Dec. 31.—(AP)—No prospective feature of the sports campaign for 1929 is any more significant than events aimed at breaking down the old sectional barriers of removing a number of time-honored traditions.

Where 1928 has been a season of remarkable international activity, 1929 will find most of the American athletic activity concentrated at home with fresh opportunities to develop intersectional interest on a wider scale than ever before.

One of the most ancient of all the ancient traditions will be removed when the national amateur golf championship is staged for the first time on the Pacific Coast, at Del Monte. And to make it the biggest campaign ever held on far western links the Professional Golfers' Association tournament also has been booked for Santa Barbara as the forerunners of a round of open competition for the country's leading pros.

Following the path blazed by Stanford, California's football team will journey east to meet Pennsylvania while the Army will send its eleven to the Cardinals in a return engagement at Philo Alto.

In addition to the gridiron game Yale will break away from another old tradition and go south to play the University of Georgia. The Elis are booked to play at Chicago in 1931 and may eventually wind up some season on the Pacific coast.

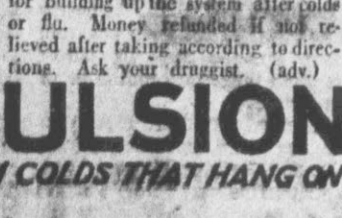

Tea Richard, after having tested the drawing powers of boxing centers in the far west, middle-west and east during his colorful career, will promote his first big fight in the south, February 27, with Sharkey and Stribling clashing at Miami Beach.

About the only main events that the east still has a strangle hold on are the national tennis championships and the Poughkeepsie regatta. But the big fight of the year, with Dempsey in a comeback role, is slated for the Yankee Stadium, where half the world's series also may occur again, providing the Yankees have a good share of their health and strength.

A few of the main questions at issue as the new year gets under way are:

1. Whether or not Jack Dempsey will attempt a comeback.
2. Whether Big Bill Tilden will be restored to good standing in amateur tennis ranks, and if so, try another comeback.
3. Whether Paavo Nurmi will remain the greatest of all amateur foot racers or yield to the call of the professional promoter.
4. Whether the Army and Navy will effect a reconciliation and pave the way for a resumption of their gridiron classic by 1930, since there is small prospect of any get-together in 1929.

If a guess has to be hazarded it is vote for "Aye" on all of the above counts, if for no other reason than that it would stimulate competitive interest.

Walter Hagen Rest on Laurels

Long Beach, Calif., Dec. 31.—(AP)—Walter Hagen, dean of the American pros and holder of the British open golf championship, rested on his honors today after adding another victory to his record. He won the Long Beach \$5,000 open yesterday, turning in a 20 in the 72 holes and carrying off \$1,500 as first prize.

Hagen led the field by five strokes, setting a terrific pace. His card was 71-66-70-69. The two 18-hole championship rounds were over a course conceded to be among the most difficult in the west.

John Rodgers, forceful driver from Denver, Colo., swung in behind "The Hag" for second place money \$1,000, in the Long Beach tourney. The lean Coloradoan turned in a stunning 66 for his last 18 holes of play, to set a new course record for the Virginia country club layout and had a card of 70-72-73-66-281.

Yale Student Gives Life To Save Classmate

Cranford, N. J., Dec. 31.—(AP)—Norman S. Hall, Yale athlete, gave his life yesterday in an attempt to save a classmate from drowning after having rescued the classmate's sister when ice gave way under skaters.

Leonard F. Genz, a fellow junior with Hall at New Haven, was rescued by Donald Rosenkrantz, a boy scout of Cranford. The football player never rose to the surface after plunging back into the pond into which, Genz and Genz's sister Vera had been precipitated when ice crumpled beneath them as they skated.

The pond is really a widened portion of a small stream, which has current enough to render the ice in its middle insecure. As the three skaters approached mid-stream they were plunged into about eight feet of water.

Hall fought his way with the girl through the thin ice to a point where he could place her upon the solid surface. Without an instant hesitation, he plunged back after Genz, after Rosenkrantz had pulled out Genz, he dived repeated for Hall, finally the boy scout was ordered from the water by firemen. He recovered the body only after several hours' effort with grappling hooks.

America Generous With Charity During Year 1928

New York, Dec. 31.—(AP)—The wealth which America gleaned from its steel mills, its oil wells, its manifold industries, was poured into philanthropic coffers in 1928 with a generosity which surpassed that of last year.

Charitable gifts for 1928 will total approximately \$2,330,000,000 according to the estimate of the John Price Jones Corporation of New York, fund raising consultants, while those of the previous year amounted to \$2,219,700,000.

The greatest amount of the contributions this year, as in the past, went to religious denominations but large gifts were made to organized charity relief for "the other half," for education purposes and for the advancement of health. The year was further noteworthy for the amounts which were contributed to the beautification of national tracts and the preservation of historical places.

The late Payne Whitney's bequest of more than \$45,000,000 to hospitals, libraries and universities of the country heads the list. Although his largest bequest to an institution was an endowment of \$18,623,176 for the New York hospital which with Cornell University medical school, is planning a new medical center here.

The bequest also embraced a trust fund of nearly \$26,000,000, the trustees of which were authorized to use principal or income as they saw fit for charitable and educational uses and scientific investigation.

The Rockefeller benevolence, as in other years, figures large in the year's total and were among those which reached beyond America's boundary lines. Twelve millions were given by the Rockefeller Foundation to the China Medical Board, Inc. which holds funds for the Peking Union Medical College, to aid in establishing its modern medical center.

The Laura Spelman Rockefeller Memorial gave \$5,000,000 to the Great Smoky Mountain National Park in Tennessee and North Carolina, and John D. Rockefeller, Jr., contributed a like amount to the restoration of the historical town of Williamsburg, Va., to its pre-revolutionary setting.

Vaughn tried the front door and then dashed for the back, only to run into the arms of officers. He was not armed.

The prisoner admitted his identity and told police he might have known Bickley, who was called from a hotel where he was employed as a detective, and shot down by the meteorists who had sent for him.

J. W. Richardson (attached to the South Carolina governor's office, came for Vaughn with two other officers. A reward of \$650 had not yet been distributed.

Heleen Gentle, held in Columbia without bond, has charged that Vaughn fired the shot that killed Bickley. With her in the state penitentiary is held Furman Jones of Greenville, S. C. they were arrested in Atlanta November 6. The pair here testified at the inquest that the shooting came about over a sum of money the woman said the detective owed her.

Mendez Nearing Colombia Capital

Bogota, Columbia, Dec. 31.—(AP)—Lieutenant Benjamine Mendez, Colombian aviator who is on a flight from New York to Bogota, was at Girardot today, about 75 miles from the Colombian capital.

Lieutenant Mendez, whose flight was delayed for some time by an accident on his landing in Panama Dec. 1, was greeted at Girardot by 10,000 spectators. He planned to continue to Bogota today.

Under and by virtue of the authority contained in that certain order issuing from the Superior Court of Pitt County in Special Proceedings No. 122, entitled Lydia Leggett, Raymond Peterson et als, P. 1929 A SINCERE WISH TO ALL FOR A HAPPY NEW YEAR

Williams-Chapman, Inc Courtesy, Ready-to-Wear and Service

Insuring Your Family's Health For The New Year

Use high quality milk during 1929. Our milk is rated Grade A in quality, which means that it is produced from a herd of dairy cattle inspected regularly and given a clean bill of health by the State, and that our dairy equipment and methods meet the highest standards of health regulations.

At this season of the year when many changes are being made, it is a good time to start taking milk from us. We are prepared to supply a number of new customers.

Blount's Dairy Phone 641 Greenville, N. C.

We're not going to tell you to start the New Year right—you'll do that anyway.

We just dropped in to say that you'll keep up your resolutions better if you'll keep up your appearances—and—

That we'll take care of the clothes if you'll take care of the conduct.

OUR NEW YEAR'S WISH
 Our wish to you for 1929 is that when the year comes to an end you can look back over the period and view the 65 days that have passed with the satisfaction that comes from the realization that you have accomplished something worthwhile and that your fellowman and the world has been made a little happier and better as a result of your daily efforts. May health, happiness, peace and prosperity be with you throughout the year.

DON'T TAKE CHANCES
 With "flu" reported on the increase in this section, we urge you to take every precaution possible against contracting, or spreading the disease. Just what causes influenza and just how the disease is spread is as yet practically unknown to medical science but on what information it has at hand, the influenza Commission of the Metropolitan Life Insurance Company offers the following advice:
 "We do not know the cause of influenza, nor do we know how it is spread. We do know, however, that during the last great epidemic of influenza in 1918 and 1919, the persons who, when they were attacked by influenza, immediately went to bed, sent for a doctor, and remained in bed as long as the doctor advised, were the ones who got well most rapidly. The Commission makes this recommendation; If you ache, feel weak and feverish, and have a cold coming on, go home, call the doctor, go to bed and stay there, following the doctor's directions, until he says you may get up. This is the best way to head off pneumonia—the often fatal complication of influenza."
 "While we do not know either the cause or the method of transmission of influenza, the members of the Commission nevertheless believe it advisable to recommend to the customary sanitary and hygienic procedures for the prevention of disease. These include keeping out of drafts, wearing warm clothing out of doors, not getting over-tired, keeping out of dusty or badly-ventilated places, keeping the body in the best physical shape, cleanliness, particularly of the hands, etc., etc."
 Feeling that the recommendations of the Commission are indeed timely with the apparent spread to this section of the epidemic that has swept the central and western part of our state, we pass it on to our readers

with the hope that it will prove beneficial to individuals and the community as a whole.

ABOUT TOWN

"It pays for schools to beautify their campuses," said a prominent county educator today, commenting on the winning of the \$50.00 cash prizes by schools at Belvoir and Grimesland.

"Pitt county schools have realized this fact all along and it was that reason which enabled them to make such a splendid showing in the state-wide beautification contest for rural schools.

"It is hoped other schools of the county will attempt to emulate the record set by Grimesland and Belvoir. It would result in the beautification of more of the splendid consolidated school buildings which have been erected in Pitt county the last two or three years."

"Two more days in which to prepare those New Year's resolutions," reminded a well known citizen today.

"If we made good in the resolutions provided for the present year then there is no reason on earth why those for 1929 should not prove successful. Look back over the past year and see what you accomplished. Let your failures prove stepping-stones for the coming year. This may be rather cold philosophy, but it should be of value if well applied."

"Greenville shows up just as good at peanut exhibitions as anywhere else," declared a local man today who watched the local school basketball team win out over Everett at the annual peanut show in Williamston.

"Greenville has a knack of taking first rank in most any kind of human activity and basketball at peanut exhibitions is no exception.

"Our athletic organizations usually cover themselves with glory wherever they go and had they been put to the task of rolling peanuts instead of pushing pigskins, it is certain they would have made their usual good showing."

"Everything is quiet over the county," was the comment of members of the sheriff's office this morning in reply to a question as to activities of the criminal element.

"It has been mighty quiet since Christmas. Of course, we have made a few arrests, but the violations are much less frequent for this season of the year than customary.

"We should be able to get an opportunity of catching up with office work if conditions continue quiet for a longer period."

"I surely got a kick out of it," declared a local man yesterday following a flight over the city in one of the airplanes which have been making a stay here the last few days.

"Boy, that is some sensation, especially when the plane starts cutting up."

"We accepted it all in the best of faith, but the ground for us. We feel much more confident of ourself down here on old terra firma. But up there in the air with nothing to hold to—it's another matter entirely.

"Others are welcome to it."

"Why did that man want to tear down his decorations before the first of the year?" questioned a man on Evans street yesterday morning, pointing to a store window where Christmas decorations had disappeared.

"Looks like he might have left them up until the holiday season is over. With two or three days more to go yet, the decorations would have helped preserve the festive atmosphere which has pervaded the community several days now."

"We didn't understand why the storekeeper should have been in such a hurry about removing his decorations, and like the other fellow, regretted to see them give away to the spirit of ordinary everyday life. But the change is bound to come, and a day or so early probably doesn't matter, especially since the majority of stores still retain their holiday dress."

We Greet The New Year

Another year has swung slowly through its twelve months span, has matured and declined while this old world worked and built and prospered. And as it moves grandly into the eternity from whence it came, we show no false regrets but welcome its successor, the infant 1929. Another year—and it will be a year of achievement. Another year—and science, culture and commercial prosperity will have moved our old world a step father toward ultimate perfection.

We wish to use this method of thanking our friends and customers for their loyal patronage and trusting that we will be favored with future confidence.

Wishing everyone a Happy, Healthy, Prosperous 1929

And Lo! Another Year Has Passed!

A smiling healthy youngster enters and a tottering old man leaves. Such is the allegorical description of the passage of 1928 and welcome of 1929.

But we, who give service to the community, proceed along a different path of time. At the threshold of another year we say farewell to 1928 and eagerly welcome 1929. And with all the enthusiasm, with all the gladsome anticipation of a new adventure, but tempered with experience of past years, we advance toward the goal of Good Will that transcends the passing of time.

This organization extends to you, for this year and the years to come, an overflowing measure of happiness.

COTTON MARKET

New York, Dec. 31.—(AP)—The cotton market opened steady at a decline of 2 points to an advance of 4 points. Business was restricted by the holidays abroad, but there appeared to be some trade buying to fix prices and a little commission house demand which which was probably prompted by the favorable tone of year-end reviews and the expression of optimistic opinion regarding the general business outlook for 1929.

Foreign trade buying was reported on the early advance, but this was soon supplied and trading later was quiet. Prices sagged off about a little below Saturday's closing figures under pre-holiday realization. At mid-day the market was dull, with prices not unchanged to three points lower.

Futures closed steady 3 points higher to 3 lower; spot quiet, middling 20.55.

GRAIN MARKET

Chicago, Dec. 31.—(AP)—Corn advanced in price today, but contrary to recent predictions in some quarters the month and year expired without any real skyrocketing of corn values. Active trade in corn today, however, was needed to adjust December delivery accounts, which at the finish on Saturday showed that the December corn interest here was unusually large, 7,273,000 bushels. Consequently the strength which developed in the corn market helped at times to check declines in wheat.

Corn closed unsettled 1-4 to 1-3-4 net higher. Wheat finished irregular 1-4 to 1-8 advance; oats varying from 1-8 decline to an equal gain and provisions at 10 setback to a rise of a dime.

STOCK MARKET

New York, Dec. 31.—(AP)—The stock market made marked progress on the last day of the year, more than a score of issues establishing last minute high records for 1928, a wide assortment of gains ran from 3 to 17 points.

Heavy accumulation of week-end buying orders started the session with an active opening, in which a number of 10,000 share transactions were recorded. The ticker fell behind nearly 20 minutes during the morning, but began to catch up as trading slackened somewhat toward mid-day.

Call money renewed unchanged at 12 per cent and was in good supply at that level. The fact that the year and credit strain appears to be passing without a more serious flurry in the call money market was a stimulus to bullish enthusiasm. The banks had strengthened their positions last week, and found practically no occasion for further calling of loans today.

A wave of "tax selling" which was expected to begin today, as sales, save those for cash, will carry over into 1929, was moderate and quickly absorbed in a rush to grab stocks at their present levels, in expectation of heavy reinvestment demand resulting from the year-end interest and dividend disbursements.

There was little in the day's news to affect the market. A further increase in the price of export copper stimulated buying of copper shares. A stock exchange seat sold for \$575,000, which is \$15,000 over the last sale but \$20,000 under the recent peak price.

By-Products Coke shot up about 17 points to a new high price, but lost about half its gain later. The buying of this issue was accompanied by stock split-up and merger rumors. Abraham and Struss ran up more than 14 points to a new peak, while Industrial Rayon and Rowla Insurance made 11-point gains.

General Motors was again carried across the 200 mark in a gain of more than 5 points, while St. Joseph Lead, National Supply, International Telephone, Columbia Carbon, and Commonwealth Power
