GREENVILLE, N. C., TUESDAY AFTERNOON, FEBRUARY 5, 1929

DOLLAR DAY TO BE HELD HERE FEBRUARY 12

Twenty-three Firms To Take Part In Semi-Annual Selling Event.

"Dollar Day" will be staged in Greenville Tuesday, February 12th, according to announcement made today by the secretary of the Greenville Merchants Association.

"Dollar Day" is a semi-annual event and in past years has been instrumental in attracting hundreds of shoppers to Greenville. The occasion this year promises to outclass all previous events of this kind, members of the association declared.

Twenty-three merchants will take part in "Dollar Day" this time. This is a greater number than ever before. Every class of merchandise will be represented and counters will literally groan under the weight of the thousands of bargains which the stores have to offer.

"Dollar Day" has become so popular among the general public that merchants have found it to their advantage to purchase extra stocks to meet the demand. Several firms it was stated today, have sent buyers to northern markets to make special purchases to take care of the bargain seekers to invade the business district on that day.

The twenty-three firms to participate in "Dollar Day" this year are all members of the Merchants Association. They represent some of the oldest and most reliable firms in the city. They have enjoyed the patronage of people from miles around for many years and take part in the semi-annual selling event in order to offer bargains far available at any other time of the year.

The last "Dollar Day" in Greenville was described as one of the most successful ever. People came from a radius of many miles to see what the merchants had to offer. The business district was crowded to capacity all day long, and many of the shoppers returned during the evening hours. The merchants were unanimous in declaring the occasion the most gratifying in their experience.

Unusual values find their way to the bargain counters during "Dollar Day." For instance, last year some of the bargains offered for the price of a dollar could not have been purchased any other time for less than ten dollars. It was not old, shoddy goods, but up-to-date stuff which the merchants wished to dispose of to make way for the new goods always pouring into their stores.

The event is sponsored by the Merchants Association. Everything that organization can do to make it a success is being done and will continue to be done in an effort to satisfy the thousands of shoppers who are helping make this the "greatest shopping center in Eastern Carolina."

The association is hopeful of drawing people from a radius of a hundred miles or more next Tuesday. That ambition was realized last year when numbers of automobiles from quite a distance were parked in the business district as their owners bought liberally of the bounteous offerings which Greenville had provided for them.

"It matters not how far one may live from town," merchants said today, "it will pay him to visit the city on Dollar Day to take advantage of the countless bargains which we plan to place on our counters."

Miss Mollie Munford Buried Here Today

Funeral services for Miss Mollie Munford were conducted from the Presbyterian church this morning at eleven o'clock. Rev. W. S. Hargen, assisted by Rev. E. L. Hillman, pastor of Jarvis Memorial Methodist church officiated. Burial was made in Cherry Hill cemetery.

Miss Munford died at her home on Evans street Sunday night at 11:50 o'clock, following illness of several weeks' duration. She was 71 years of age and probably one of the best known women in the city.

Miss Munford moved to Greenville many years ago and since that time has made her home here. She was a member of the Presbyterian church and attended services regularly prior to confinement resulting in her death.

She is survived by one brother, C. T. Munford, well known business man of this city.

FAVORED FOR HOOVER CABINET

Col. Henry L. Stimson, governor general of the Philippines, is mentioned for secretary of state in the Hoover cabinet. He is shown seated at his desk.

MANY RUMORS ABOUT HOOVER CABINET JOBS

Busy Scene On Capital Hill As Coolidge Make Arrangements To Depart.

Washington, Feb. 5.—(AP)—On August 17, 1923, just after nightfall on a gloomy, rainy day, the late Mrs. Florence King Harding, President Harding's widow, left the White House for the last time. Four days later the new President, Calvin Coolidge, and Mrs. Coolidge, quietly drove from the Willard Hotel and took up their residence in the executive mansion.

That was more than five years ago and they have lived there since but today there were many signs and symbols of changes made and changes to come. Workmen were busy on Pennsylvania avenue in front of the White House building stands for spectators to watch the inauguration of Herbert Hoover. Mrs. Coolidge was busy superintending the packing of her household effects for in less than a month she and the President will call Northampton, Mass., their home. On Capitol Hill and in other places where a host of rumors of cabinet appointments to be made by the incoming President.

Three names have been mentioned with persistence and with semi-official assurance as members of that cabinet and though such assurance has often been wrong in the past, many are confident that Henry L. Stimson will be the new Secretary of State, Harlan F. Stone the new Attorney General, and Ray Lyman Wilbur the new Secretary of the Interior. In the same circles it was said that William M. Jardine would remain at his post as Secretary of Agriculture, but would resign and go into private business.

Mr. Stone is now associate justice of the Supreme Court and he relinquished the post of Attorney General when he was appointed to the bench by President Coolidge. Those who predict that Justice Stone will be the next Attorney General have already filed by Curtis place. It would be taken by Curtis D. Wilbur, now Secretary of the Navy, and in turn his brother, Ray Lyman Wilbur, now president of Leland Stanford University, would become Secretary of the Interior.

When speculation first began about cabinet appointments, quite a few chose Dwight Morrow, ambassador to Mexico, for the post of Secretary of State, but Stimson, at present governor-general of the Philippines, now probably leads Morrow as the choice of the unofficial cabinet makers. Mr. Stimson was Secretary of War under President Taft and is well known in Washington.

GREENVILLE, S. C. COVERED WITH WHITE TODAY

Greenville, S. C., Feb. 5.—(AP)—Several inches of snow during the night gave Greenville and surrounding territory a deep covering of white this morning, allowing traffic and provoking countless snow battles among boys. It was the city's first heavy snow in two years. Reports from Caesarhead, a mountain 35 miles northwest, were that the snow there was very deep and temperature below freezing. The snow had started to melt in the city this morning.

NAVAL ISSUES HOLDING SWAY IN CONGRESS

House Considers Naval Supply Bill And Senate Works On Cruiser Measure.

Washington, Feb. 5.—(AP)—Both the Senate and the House today were occupied with naval affairs, the House having before it the \$347,000,000 naval supply bill, while the Senate moved toward final disposition of the long pending cruiser construction measure.

Passage of the cruiser bill seemed assured, the Senate yesterday having voted down President Coolidge's proposal for elimination of the time limit requiring that construction of the ships begin before July 1, 1931. The House has already passed the bill and speculation today turned to the possibility of a presidential veto. President Coolidge is known to favor the cruiser construction program, but he was insistent that the time limit clause be removed. The vote yesterday on the time clause was 54 to 28 and taking that as an indication there are not enough votes in the Senate to override a presidential veto. The absentees, however, might supply the necessary strength.

Those who want action taken at this session on the White bill to extend the life of the radio commission for a year were busy today. The House Merchant Marine Committee had finished hearings on the measure and had arranged an executive session, while the Senate Interstate Commerce Committee had before it a bill similar to the White bill.

Strong opposition to the Madden bill to lease Muscle Shoals to the American Cyanamid Company has developed before the House Military Affairs Committee, with representatives of fertilizer interests protesting. Charles A. Brand of the National Fertilizer Manufacturers' Association, yesterday contended that the proposed lease would hurt the industry, he represents and he claimed that as a whole they were losing money now.

The investigation of the national affairs of Jackson Barnett, wealthy Indian, before a Senate committee today had taken a recess to allow Mrs. Barnett time to confer with her attorney. She was present in the committee room yesterday when Barnett said that he was married against his will. Barnett, who has been adjudged mentally incompetent, seemed puzzled by the proceedings and his answers to many of the questions was: "I don't know."

Some phase of southern patronage with government charges and counter charges has bobbed up with regularity at this session and today the Senate Patronage Committee had before it Mississippi.

Carnes Pleads Guilty In Embezzlement Case; Sentenced To Prison

Atlanta, Ga., Feb. 5.—(AP)—Clinton S. Carnes, former treasurer of the Southern Baptist Home Mission Board, whose disappearance late last summer led to the discovery of an alleged shortage of nearly a million dollars in his accounts and his subsequent arrest in Canada, pleaded guilty in superior court here today to embezzlement.

His plea was to one indictment charging theft of \$80,000 and he was sentenced immediately to serve not less than five nor more than seven years imprisonment. Twenty indictments in all had been returned against him.

Solicitor General John A. Boykin told the court that he had decided to accept the recommendation of the Baptist Home Mission Board that Carnes be permitted to plead guilty. He agreed to this, he said, only on the condition that the other indictments against him be attached in the form of memoranda and that if he attempts to seek a pardon before the minimum sentence is served, prosecution will be started on the other bills.

If Carnes does not apply for a pardon before serving the minimum term, Boykin said the other indictments would be not pressed. Arthur G. Powell and Rev. L. R. Christie, who represented the Home Mission Board, had agreed to the plea of guilty. Powell, in addressing the court, said that Carnes had decided everything he had to the board. This deed, he said, would take care of any further shortage that might be discovered by auditors.

In passing sentence, Judge Virlyn B. Moore said that in his opinion Carnes was "getting off light, perhaps lighter than he deserves."

The appearance of the former layman and prominent Atlanta business man in court was unheralded. He was ushered in by deputy sheriffs, accompanied by his son, Robert, and remained seated silently throughout the proceedings without a change of expression. He refused to make any comment.

Whether he will be sent to the state prison farm at Milledgeville or to a county chancery will be decided by the state prison commission.

Carnes had been held in the county jail here in default of bond since his arrest in Winnipeg, Manitoba, last September.

Powell said that the Home Mission Board considered that as Carnes was now 55 years old that a five year sentence would make him 60 and that an added period of service would be unnecessary prosecution. Boykin said he had not considered accepting a plea of guilty until Powell and Dr. Christie had approached him, adding that he did think it would save the county a good deal of expense.

Carnes was charged with a shortage of nearly a million dollars in the board's accounts. He had been indicted on twenty counts for a total of \$529,205.74.

It was on August 15 last when Carnes disappeared from Atlanta, much to the mystification of his associates and friends. He apparently had prospered in his private affairs, was prominent in civil and religious circles and lived in a fine residence in the exclusive Druid Hills section with his wife and two sons.

The Baptist Board broadcast an appeal saying they feared Carnes had met with an accident. This was done by radio and through the public press. The flood of publicity thus focused finally brought to light the information that Carnes had served two terms in prison. This was the first information the Baptist Board said, that they had had of that record of his life.

Carnes had been employed as an auditor when he was made bookkeeper for the Baptist Board in 1918 and was elected treasurer the following year. At about the same time he became connected with the Capitol Avenue Baptist Church of Atlanta and chairman of its finance board.

After his disappearance it developed that he had been indicted by a federal grand jury at Kansas City on April 30, 1915, for using the mails to defraud in promoting the Edinburgh Real Estate Company. Carnes was convicted and sentenced to serve four months in the Clinton Mo. jail, May 11, 1915.

He was convicted in federal court at Birmingham, Ala., March 5, 1916 of an indictment for using the mails to defraud, and was sentenced to serve 13 months in the Atlanta federal penitentiary. He was released from the institution on January 17, 1917, and subsequently took up his work with an auditing firm from which he transferred to the Baptist Home Mission Board.

SNOWMAN ON ANNUAL VISIT TO THIS CITY

Heaviest Snowfall Of The Winter Covered Landscape For Miles Around Today.

The first real snowfall of the winter visited Greenville today and the entire landscape for miles around was blanketed with white. The total depth of the snow at the noon hour was about an inch and a half. The temperature was decidedly less severe than Sunday and Monday when the section was in the grip of the coldest weather of the winter.

The snowfall started this morning about 7:30. Flakes fell lightly for about an hour and then began to increase in intensity. At 9 o'clock the ground was well covered. At 11 o'clock the depth was slightly over an inch. At the noon hour not a flake was visible and only the sting of cold and the white blanket remained as reminders of the flurry earlier in the day.

The clouds were still leaden at the noon hour, however, indicating that the weather man was uncertain whether to offer more rain or snow as the next installment of the day's weather story. The weather report indicated either rain or snow with rising temperatures.

The snowfall was not of sufficient depth to hamper traffic over the main thoroughfares of the city. At some corners, automobiles without chains had some difficulty making the turns. But beyond this traffic continued as if nothing out of the ordinary had happened.

Along the more frequented streets traffic was so heavy that the snow failed to stick. This was especially so on Evans street where hardly a sign of the downy visitor remained at the noon hour. The same situation prevailed on Dickinson avenue and Fifth street where traffic is always heavy, especially during the morning hours.

Although Greenville has had one or two slight flurries this winter, today was the first time the snowfall covered the ground cold enough to stick. It was also the first time that precipitation continued for more than a period of several minutes.

Despite the physical suffering usually accompanying heavy snows in this section of the county, the juvenile element of the city apparently enjoyed the offerings of the weather man. Numbers of snowball battles took place in different parts of the city. If there were any casualties they had not been reported late this afternoon.

LINDY ON WAY TO HONDURAS DURING TODAY

Famous Flier, Carrying First Mail For Panama, Unreported This Afternoon.

Belize, British Honduras, Feb. 5.—(AP)—Col. Charles A. Lindbergh starting the second leg of his inaugural air mail flight in Panama, hopped off from Belize at 9:10 a. m. today, Eastern Standard time.

The famous aviator, who celebrated his 27th birthday yesterday in business-like fashion by flying here from Miami, today headed for Tela, Honduras, enroute to Managua, Nicaragua. He will spend the night at the latter place.

Today's flight will carry the colonel across the Gulf of Honduras to the Honduran coast, and from Tela straight across Honduras and Nicaraguan mountains to Managua. When the colonel flew across northern Nicaragua last year, there was some speculation as to whether he would become the target of Nicaraguan rebels then in the field, but this year the area is quiet.

The route which the aviator will cover today totals about 500 miles over sea and mountains.

During his stay here yesterday, Lindbergh, who is well known in Belize where he stopped last year on his famous good will flight to Central America, was feted cordially, despite his desire to make his trip purely a business affair.

Reported Missing

Exited from Russia, Leon Trotsky, is reported missing aboard the steamship Krassin. The Krassin has been unreported in a hurricane raging over the Black Sea.

HAWKS OFF ON FLIGHT ACROSS UNITED STATES

Houston, Texas, Flier Bound From Los Angeles To Nation's Metropolis.

Roosevelt Field, N. Y., Feb. 5.—(AP)—Captain Frank M. Hawks arrived at 2:59:29 o'clock this afternoon after a non-stop flight from Los Angeles.

Captain Hawks' time was 35 minutes and 31 seconds better than the record of 18 hours and 58 minutes set by Col. Arthur Goebel last summer in a similar Lockheed plane.

Captain Hawks had been expected to land at Curtis field and a large crowd was waiting for him there. His cigar-shaped monoplane flashed over Curtis field however, and landed at Roosevelt field a mile away.

Los Angeles, Feb. 5.—(AP)—That seldom-realized prospect of aviation, a non-stop flight from coast to coast, was the goal today of Captain Frank M. Hawks, of Houston, Tex., who hopes to shatter the trans-Continental record in a flight from Los Angeles to New York.

Accompanied by Oscar E. Grubb, a mechanic, Captain Hawks hopped from Metropolitan airport at 5:37:30 p. m. yesterday, and presumably was far out over the central plains this morning. He hopes to land at Roosevelt or Curtis field, long Island, before noon today, thus clipping more than three hours from the record held by Col. Arthur Goebel and the ill-fated Yankee Doodle.

Captain Hawks must reach New York before 3:35 p. m. to break Goebel's record of 18 hours, 58 minutes, 19-20. The Dole flight winner, now making plans for a refueling non-stop around the world, carried the late Harry Tucker of Santa Monica, Cal., with him as a passenger in his lightning trip across the United States.

Flying an improved moled Lockheed ship, similar in design to the Yankee Doodle, Hawks averaged 145 miles an hour in the first leg of his flight which took him over Tucson, Arizona, where he was sighted at 9:08 Pacific time, last night. The plane was flying high and the motor humming perfectly at that time.

The southern course chosen by the aviator would take him over Plainville and Children, Tex., Muskogee, Okla.; Van Buren, Mo.; Parker, Ill.; Louisville, Ky.; Portsmouth, Ohio; Morgantown, W. Va., and Harrisburg and Reading, Pa.

It was regarded as unlikely that his ship would be sighted until it neared the goal, as trans-Continental pilots usually select high altitudes and favorable winds.

The plane carried 475 gallons of gasoline at the take-off, which was made easily after a run of 2,500 feet.

A new type of motor cooling on Hawks' plane is claimed to have increased the speed of the plane from ten to twenty miles an hour. It was reported the ship developed a speed of 180 miles against the wind in its tests.

RESCUE CREW OF STRANDED LUMBER SHIP

Master And Crew Of Bainbridge Landed At Norfolk Today; Ship Stuck on Bar.

Norfolk, Va., Feb. 5.—(AP)—Master and crew, eight in all, of the four masted lumber-laden American schooner Bainbridge, were brought to safety this morning in the surf boat of the Nags Head coast guard station from their craft which piled upon the outer bar, 300 to 300 yards off shore, before daybreak and which now is fast stuck in the sand with heavy seas buffeting her.

Five of the Bainbridge's crew were brought ashore on the first trip and the remaining three on the second. They were at the Nags Head station this morning being warmed and fed by their rescuers, and according to information trickling up the weather bureau Virginia coast telephone line, they will remain at the station until the seas moderate and they can return in safety to their vessel and save their belongings.

Though the Bainbridge is full of water and far in shore an effort will be made by coast guard cutters to save her. The cutter Manning, commanded by Lieut. Commander E. Zobe, was being made ready this morning to run to Nags Head, which is 75 miles south of Virginia Beach, and the cutter Macounin, boatswain C. L. Jordan in command, previously ordered to proceed today from Norfolk to Charleston will come in shore at Nags Head on her way south to lend the Manning a hand if the latter is unable to pull the Bainbridge off unassisted. It is deep water nearly to the outer bar at Nags Head and the two cutters will be able to come in close to the stranded schooner.

The Bainbridge, which is 400 feet net ton, shipping records show, was bound from Jacksonville to Providence. She sailed from the Florida port on January 23. The local water front is not familiar with the vessel, though most of the sailing vessels employed in coastwise trade come here frequently.

Cause of the stranding is not known. There has been no weather-shiping men said, to account for it.

Elizabeth City, Feb. 5.—(AP)—The schooner Bainbridge today was lying in a water-logged condition a mile south of the Nags Head coast guard station and apparently going to pieces, it was reported at coast guard headquarters here today.

The crew of eight men was removed by a picked crew from the Fog's Island, Nags Head and Kill Devil Hill coast guard stations. Exceptionally rough seas made the rescue difficult.

The Bainbridge, it was said, had lost her deck load of lumber. Captain Adams, commander of the schooner, was said to have been ill at the time of the wreck.

The vessel, a four-masted schooner, is owned by the Putnam Lumber Company of Jacksonville, Fla., and was enroute from Jacksonville for Fairhaven, Mass.

Estranged Wife To Help Husband In Murder Case

Williamatic, Conn., Feb. 5.—(AP)—The estranged wife of Deputy Sheriff Trenor Rice, charged with the murder of County Detective William E. Jackson, was ready today to aid in his defense.

Expressing faith in his innocence, Mrs. Rice said she would be willing to drop a pending divorce suit, and do anything she could to aid him if he should ask her.

"Trenor is a had man to get along with," she said, "because he is a user man, but he is not capable of committing the sort of crime he is accused of."

"I believe somebody else did it and he is just letting them give him the blame so that somebody would be safe."

Mrs. Rice, with their four children, has been living at the home of her mother at Canterbury, about 18 miles from here. She is his second wife. In her divorce proceedings she charged cruelty.

The attitude of Rice toward his wife's offer was not disclosed. In addition to his wife, a brother, Frederick Rice, of New Rochelle, N. Y., came to his defense immediately after he was committed to the county jail without bail to await arraignment, February 14.

Frederick Rice, after talking with his brother at the jail, denied the truth of a policeman's statement that Rice had confessed shooting Jackson in the kitchen of the latter's farmhouse here last Tuesday evening.

"I know he is innocent and that he wouldn't do anything like that anyway," he said. He declared there would be ample funds for his brother's defense.

Melhorn Gets Big Golf Stake

Hot Springs, Ark., Feb. 5.—(AP)—Trilled by a score or more of golf's outstanding luminaries, "Wild Bill" Melhorn trooped out of Hot Springs last night with the major portion of the \$5,000 prize money in the annual south-central open tournament tucked away in his belt.

The victory yesterday after an 18-hole play off with Bobby Cruickshank and Horton Smith, was Melhorn's third major win in a few weeks during the winter golf trek from the Pacific coast to Florida.

Melhorn had little trouble yesterday in distancing his two rivals. Tied at 290 stroke each at the end of the 72-hole play, he burned up the 18 holes yesterday and finished two under par 72 to lead Smith by two strokes and Cruickshank by six.

Melhorn's remarkable winter record includes a world's record 271 in the El Paso open and a 277 for the Texas open at San Antonio.

Pensacola was the immediate objective today of the traveling golfers, with a big field entered in the Pensacola open.

Seeks New Records

Betty Robinson, Chicago girl who won the 100-meter dash at the olympics, is training for a new campaign against track records at coming indoor meets.

Boston On Sunday Baseball Schedule

New York, Feb. 5.—(AP)—For the first time in the long history of the National League, Sunday baseball games in Boston are on the 1929 schedule to be adopted at the annual meeting of the club presidents here today. The formality of adopting the schedule, which will not be announced for another ten days, is the principal business on the card for the gathering of club presidents.

With the rulers of the entire circuit gathered, there will be plenty of chances for the consummation of trades. Reports already have gone out that a deal to be completed at this meeting will send Lester Bell, Boston third baseman, to the Cubs. Another possibility is that President John A. Heydler may bring up again his suggestion for a ten man team that received little consideration at earlier meetings.

Oklahoma House Fights Attempt To Prevent Pay

Oklahoma City, Feb. 5.—(AP)—The House of Representatives of the State Legislature was prepared to fight in court today, an attack by an Oklahoma City taxpayer to restrain payment of salary to additional House employees.

Meantime, the House investigating committee again delved into the pardon case of Dewey Crosshwaite, Oklahoma City murderer on which one of the eleven articles of impeachment against Henry S. Johnston, suspended governor, is based. Crosshwaite was pardoned by Johnston when he was listed as a fugitive from justice for failure to return to prison at the expiration of parole granted by J. C. Wallton, former chief executive.

Ed Sandlin, Ardmore banker, questioned in an attempt to learn if a money transaction was connected with the case, told the com-

mittee Crosshwaite's father cashed two checks aggregating \$1,400 the day after clemency was granted. He also introduced deposit slip showing that Crosshwaite's attorneys deposited \$700 at about the same time.

Would Impeach Ohio Treasurer

Columbus, Ohio, Feb. 5.—(AP)—Impeachment proceedings have been started in the Ohio legislature against Bert B. Buckley, state treasurer, who was convicted in federal court Saturday of attempted bribery and conspiracy to violate the prohibition laws.

Governor Myers Y. Cooper initiated the legislative action last night after Buckley had refused to accede to the governor's demand that he resign voluntarily. Gov. Cooper prepared a message which was read at the opening of last night's session of the House of Representa-

tives, demanding that charges be preferred.

The House unanimously adopted a resolution calling for committee investigation of Buckley's conviction. Speaker O. C. Gray announced appointment of a committee as the first step in the impeachment proceedings. Charges must be voted in the House after which a trial is conducted with the State Senate sitting as a court.

Buckley, who is the first state official to face impeachment in

Ohio, is free on \$10,000 bond pending argument Monday on his appeal from the federal court conviction. He faces a possible 22 years in prison and \$7600 fine.

Charlotte Gets Snow

Charlotte, N. C., Feb. 5.—(AP)—A blanket of snow two inches deep and gray skies that gave promise of added depth during the day, greeted residents of this section of North Carolina today. The temperature was mild.

Landis To Settle Two Contract Issues

Durham, Feb. 5.—(AP)—Baseball's supreme court sat here today to decide whether a contract with a major league team or one with a minor nine shall prevail.

The prize to be awarded is "Chink" Outen, former North Carolina State College catcher who pulled the unusual of signing two contracts. The New York American League team and the Charlotte South Atlantic Association club are the contestants with Judge Kenesaw Mountain Landis, high commissioner of baseball as the judge.

The hearing is being held here on call of Judge Landis, who decided to settle the question while on a visit to W. G. Brahmam, president of the South Atlantic, Virginia and East Carolina leagues.

The Charlotte club claims that Outen signed a contract with that organization before leaving college and later signed up with the Yanks. The Yanks, apparently recognizing the Charlotte claim for they bought Outen's contract from the Bees. This is what would settle the question but Judge Landis felt that an investigation should be held.

FIGHTS LAST NIGHT

(By the Associated Press)

Chicago—Jerry Tuffy Griffith of Sioux City, Iowa, stopped Billy Frens, Grand Rapids, Mich., (7).

King Tut, Minneapolis, stopped Tony Sanders, Chicago, (2).

Peoria, Ill.—Sammy Mandell, of Rockford, Ill., outpointed Don Davis, of Chicago, (10).

Philadelphia—Johnny Dundee of Baltimore, outpointed Tony Ascencio, Spain, (10); Henry Dewanker, France, stopped Gaston Legare of France, (8).

Little Rock, Ark.—Eddie Kid Wolfe, Memphis, Tenn., knocked out Johnny Harris, Kansas City, (10).

Louisville, Ky.—Jackie Dugan, of Louisville, outpointed Paul Allen of Chicago, (10).

Tulsa, Okla.—Babe Hunt, Tulsa, outpointed Jimmy Byrne, Louisville, Ky., (10).

Wilmington Gets No Snow
Wilmington, N. C., Feb. 5.—(AP)—Wilmington today had not received any of the snow reported from many sections of the state. It was raining, however. The temperature was around 34 and snow was predicted for the afternoon.

ONE KILLED WHEN AUTOMOBILE WRECKS

Cape May, N. J., Feb. 5.—(AP)—Edward Jones, 23, of Philadelphia, was killed and four others injured, including former Lieutenant Robert F. Hewitt, well known aviator in charge of the Philadelphia airport, when their automobile upset early today at Bennett, three miles from here. The others were Edward Ward, 25, Philadelphia; William Monaghan, 30, Wildwood, N. J., driver of the automobile, and Montgomery Smith, also of Wildwood.

66 Miles On 1 Gallon Of Gas

Walter Critchlow, 4640 C street, Wheaton, Ill., has patented a Vapor Moisture Gas Saver and Carbon Eliminator for all Autos and Engines that beats any ever set out. Old Fords report as high as 66 miles on 1 gallon. New Fords 75.

Other makes report amazing increases of 1-4 to 1-2 more.

Mr. Critchlow offers to send 1 to introduce. Write him today.

He also wants County and State agencies everywhere to make \$250 to \$1,000 per month.

THE WORKING POWER OF A DOLLAR

Nicholl's Market

Chief officer Harry Manning says: "Reach for a Lucky instead of a sweet."

"WHEN I climbed aboard the 'America' after those cold, strenuous hours getting the men off the freighter 'Florida,' there was nothing I wanted so much as a Lucky—'By George,' it tasted wonderful! A Lucky is always refreshing. My tense nerves relaxed, my aching throat was soothed and the whole thrilling adventure just seemed a part of the day's work. As time goes by, and as I look back to that memorable night, I'll always remember the wonderful taste of that welcome Lucky. As I went around to visit the men we'd rescued, I found many of them enjoying Luckys, too. We really couldn't wait to get back to our ship and 'Luckys.' As an actual fact in returning to the 'America' I noticed one of our men* rowing with one hand and lighting a 'Lucky' with the other. There's no flavor to equal toasted tobaccos, and I always prefer Lucky Strikes. There's wisdom in the saying: 'Reach for a Lucky instead of a sweet.' It helps a man to keep physically fit and we who follow the sea must always be prepared for any emergency."

*The man mentioned by Chief Officer Manning was Boatswain's Mate Aloys A. Wilson.

The regular monthly dance of the Greenville Cotillion club will be held at the country club Friday night at ten o'clock. Music will be furnished by Henry Edmonds' Symphony orchestra.

TWO MARRIAGE LICENSES ISSUED SINCE SATURDAY

The following marriage licenses have been issued by the register of deeds since the report of Saturday afternoon:

Charlie Mills to Henrietta Mills, both of Winterville.

Ezra Evans to Phoebe Edwards, both of the Winterville community. Both couples were colored.

FARMVILLE MAN IS BURIED AT KINSTON

Kinston, N. C., Feb. 5.—Benjamin P. Quinn, 75, well-known man who died near Farmville Saturday, was buried in Maplewood Cemetery here today at 2 o'clock. The following were pallbearers: J. C. Kennedy, Drew Pollock, James Dawson, Dan Pittman, Frank Brown, Ed Lanier, Alonzo Gwaultney and Jack Taylor.

The deceased is survived by the following children: James and Wright Quinn and Mrs. Joshua Allen, of Kinston; John Quinn, of Greenville; Mrs. A. W. Massey and Thomas Quinn, of Farmville, and Mrs. George Mason, of Hopeville, Va. Numerous other relatives also survive.

ROTES ENJOY PROGRAM AT STOKES, N. C.

Regular Meeting Of Local Body Held At Consolidated School Last Night.

Members of the Greenville Rotary Club moved over to Stokes for their meeting last night. A dozen or more citizens of the Stokes community joined the large attendance of Rotarians in making the occasion of the most delightful in months. The meeting was held at the school building.

One of the outstanding preliminary features was a turkey supper served by members of the 4-H Club of Stokes. This club is composed of the daughters of prominent planters and business men of that community, and the tempting repast which they provided for the visiting hosts was the object of many compliments as well as ravenous attacks of those who ate first and complimented afterwards.

The meetings was presided over by Dr. K. B. Pace. Short talks were made by Walter Woolard, of Stokes; R. H. Wright, of Greenville, president of the East Carolina Teachers' College; Prof. Brinson, of Stokes consolidated school; D. C. Barnhill, and other guests.

Mr. Wright assured the Stokes people that Greenville people were with them in their various undertakings and were desirous of seeing their community experience greater growth than ever before.

The principal addresses of the evening were left to F. H. Jeter, members of the extension department of the State Department of Agriculture, and E. Y. Floyd, tobacco expert of the State Department of

AT THE BIG CLOCK

ROCKY MOUNT WAS IN SNOW AREA

Rocky Mount, N. C., Feb. 5.—(AP) Northeastern North Carolina turned white today under a surprise attack from winter's force.

Clear skies gave away to clouds after midnight and snow began falling steadily early today. The flurries increased as the morning wore on but several hours after the fall started the blanket covering the ground was not more than an inch thick.

While the weather was sufficiently cold for snow to stick the thermometer was several degrees higher than yesterday. Reports here were that the snow was general over the section.

Millers to Remarry
Los Angeles—"Papa" and "Mam" Miller, divorced parents of Marilyn, are to remarry this week. That's

how they referred to each other in obtaining a license. Their daughter brought them together.

Salisbury Blanketed By Snow.

Salisbury, Feb. 5.—(AP)—Low, thick clouds covered the sky here today while a covering of snow two inches or more in depth blanketed the landscape. The snow fell in the early morning and from indications more snow or rain may fall today. The thermometer stood several degrees higher than yesterday.

German-Peruvians

Randolph, Mass.—Married four years, Mr. and Mrs. Clarence Wallace, each 70, are involved in divorce proceedings. Mrs. Wallace, the plaintiff, has built a home and a garage for herself next to husband's. A sign on the garage says: "No trespassing—and particularly my husband."

Snow At Hickory.

Hickory, Feb. 5.—(AP)—Three and one-half inches of snow fell here last night. The fall continued throughout most of the night. The sky was cloudy today giving indications of more to come.

Only Inch Of Snow At Durham.

Durham, Feb. 5.—(AP)—An inch of snow had gathered on the ground here this morning with a snow fall continuing. The mercury stood at 26 at 9 a. m.

Ensemble coats go to every length to please their prospective wearers. For example, the one at the left is in the seven-eighths length—formal and distinctive. Coats in finger-tip and three-quarter length ensembles at the right. They are of silk and may be worn immediately, under a heavy coat.

A NEW SEASON Brings a New Mode

Fashions for spring that actually seem to invite the new season have arrived. Certainly the new ensembles and printed frocks are valid excuse for rushing it just a little. And when one knows that the smart thing is to wear a bright frock under a winter coat, new clothes now is the logical step to chic.

Frocks are gay. What wardrobe wouldn't perk up a lot upon the addition of the printed frock, the formal frock in a bright red, blue, violet or green or the flat crepe, smartly made and of the same, warming colors; right.

ABOUT TOWN

"It must be wonderful to be great," observed a local business man today, scanning the headlines of the local paper.

"For instance, Mrs. Evangelina Lindbergh is on her way home from Italy where she has been the last six months teaching chemistry. The papers immediately made note of her presence in the foreign countries, describing her as the mother of the famous aviator.

"Had it not been for the achievement of her son in flying across the Atlantic, she would have been noticed very little.

"It is great to be famous, but how much greater to be the mother of a son who is acknowledged by all the world as the greatest aviator of his time. It must have caused Mrs. Lindbergh far more satisfaction than if she had been acclaimed for herself alone."

"That bird dog story emanating from Kinston, the home of thousands of curious happenings, was all right as far as the sense of smell is concerned, but it is nothing compared with one told by a resident from the lower end of the county," said a citizen today, after he had read the Kinston story, set in black type on the front page of Josephus Daniels' paper.

"Our friend says he has squirrels on his place whose sense of smell is so keen that they can smell a hunter five miles away, and always keep that far in advance of the gun and the dog.

"We would like to know what the Kinston dog would do in a case of this kind?"

"But, it is natural to suppose that such a wonderful animal would spring over the intervening five miles, capture the squirrels, return to his master, wag his tail, and say, 'I told you so.'"

"Condition are beginning to get normal in Pitt county again after the holidays," said a member of the office of the Register of Deeds.

"The reason we know they are is because Dan Cupid has suspended operations in this community. As long as the little god of love experiences 'boom' business nothing may be considered as normal. But the minute his business begins falling off, we begin to adjust ourselves to every-day life for the remainder of the year.

"Two hundred and twenty licenses to marry were issued in Pitt county from December 1st to January 30th. This means that over four hundred homes were in a state of intense excitement while the weddings were being planned. Other homes were likewise involved, therefore, it may be seen that lots of people were affected.

"Everybody knows how it is about a wedding. Everybody gets excited and remains that way until it is over. It is the same process every time, and their frequency has never yet had a tendency of relieving the neurotic condition prevailing at such times.

"But we are normal again now and if Dan Cupid will stay off the job we should be able to do some really good work the rest of the year."

"If you don't believe Greenville is a good town, go to some other place."

Birds Wing Way To The North, yesterday's headline followed by a story to the effect that the northward higer was a sign that winter was over and an early spring was at hand. In the face of this morning's snow we are convinced that the birds were GEESE.

TAX BURDENS SHOULD BE EQUALIZED

The McLean tax bill now before the legislature which would provide for a maximum of 40 cents ad valorem tax in each county of the state for schools with provisions for the state to bear the balance of the expense of an eight months school year out of additional revenues derived from sources pointed out in the bill, is a measure that, of course, will meet considerable opposition from some sections but one that cannot be attacked from its standpoint of fairness and one that would mean the salvation of the counties where land taxes have reached the almost confiscatory stage that calls for some immediate relief if we are to go on. As pointed out in the McLean bill our present system of taxation places the bulk of the burden upon real estate with the result that land values have dropped to the minimum, land owners cannot meet their taxes while other sources that should be paying a goodly part of the tax burdens are enjoying an era of prosperity with little or no burden from a tax standpoint. It is not our desire to urge the unjust taxation of any line or business or property, be it little or big, in order to relieve any other line of the part it should justly pay, but we do know that under our present system the tax burdens are not justly distributed and in order to bring about an equitable distribution of the tax burdens we urge the adoption of such a plan as is included in the McLean bill.

Blanket of Snow Covers Carolinas

Charlotte, Feb. 5.—(AP)—The Carolinas today awoke under a blanket of snow, the first of consequence in almost two years. The fall ranged from a half inch at Greenwood, S. C., to more than three inches in a number of sections of North Carolina and five and a half inches at Spartanburg, S. C.

High in the mountains of western North Carolina and northwestern South Carolina much heavier snow was reported but with no measurements available. Temperatures were reported around freezing at all points.

Charlotte had three and one half inches of snow this morning, the weather bureau reported, and falls at other places were reported as follows:

Durham, one inch and still falling; Hickory, 1-2 inches; Greensboro, 3 inches; Greenville, S. C., more than 3 inches; Anderson, S. C., 3 inches; Gastonia, 3 inches; Raleigh, 2 inches; Salisbury, 2 inches; Winston-Salem, 3 inches; and Henderson one inch and still falling.

A SERIOUS CHANGE

Kentucky Lady Was Seriously Ill for Months But Was Finally Relieved By Cardui.

Lawrenceburg, Ky.—"At a time in my life, when my health was undergoing a serious change," says Mrs. J. C. Ray, who lives near here, "I found Cardui to be of the greatest benefit to me. I was seriously ill for about two months, and for several months I was not well. My nerves were all unstrung. I could not bear the least noise around me. I could not sleep.

"My head ached until it seemed as if it would burst. My feet and limbs swelled dreadfully. I felt tired all the time. When I was up, I dragged around the house, but most of the time I spent on the bed.

"I got Cardui and began taking it regularly. Very soon I could see that it was helping me. I began to sleep better and eat more. The awful nervousness got better.

"When I had finished the first bottle, I was much better than I had been for many weeks. I was so encouraged that I kept right on. Before very long I was doing all my housework and was feeling quite well."

Thousands of other women have been helped by Cardui after long suffering from weakness and nervousness.

Market Report

Cotton--Stocks--Grain

COTTON MARKET

New York, Feb. 5.—(AP)—Cotton opened steady today at a decline of 2 to 7 points. Active months sold about 6 to 7 points net lower in the early trading under further March liquidation combined with liquidation and some local selling in later deliveries.

May sold off to 19.58 and new October contract to 18.97. There was made trade demand below 19.60 for spring months and prices rallied 3 to 4 points from the lowest by the end of the first half hour. Trading was moderately active at the start, but orders seemed to be fairly well divided. Private cables said trade calling and scale down buying by the continent had absorbed liquidation at the decline in Liverpool.

STOCK MARKET

New York, Feb. 5.—(AP)—Favorable trade and dividend news provided the background for an irregularly higher price movement in today's stock market. Although a sprinkling of issues felt back 3 to 9 points on profit taking and scattered bear selling, a long list of issues were selling 2 to 10 points above yesterday's final quotations by early afternoon. Trading showed a marked contraction in volume, presumably in response to the cautionary advices of some of the leading commission houses.

Call money renewed at 7 per cent and was likely to remain at that all day. A bullish interpretation was placed, however, on the taking

of \$10,000,000 additional in British gold by American banks. The stock exchange brokers' loan statement, showing an increase of nearly \$300,000,000, was about in line with Wall street's expectations and was without market influence.

Copper shares responded briskly to the announcement of an increase from 17 1/4 to 17 1/2 cents in the price of copper and the placing of Anaconda Copper common stock on a 7 annual dividend basis. Greene Canada ran up nearly 6 points and Anaconda moved up 3 to a new high record at 130.

Delaware & Hudson ran up 5 points but the other rails showed a tendency to heaviness.

Publication of record breaking January chain store sales and bank clearings were among the leading bullish developments of the day.

Reis first preferred soared 10 points to a new top at 106, Adams Express jumped 9 1/2, Union Carbide 7 3/8, Borden's and Wright 7 each and Curtis, Wesson Oil, Packard, Chrysler, Coca Cola, General Railway Signal sold 4 to 5 points higher. American Can and Howe Sound were among the score or so issues to reach a new high ground.

GRAIN MARKET

Chicago, Feb. 5.—(AP)—Led by corn, the grain markets averaged higher in price today, but the upturn failed to hold in the face of heavy profit taking. Bids from Great Britain for corn from the United States were said to be about on a working basis. Better export demand for wheat from North America was also in evidence, with world available stocks of wheat showing nearly 6,000,000 bushels falling off for the week, but with wheat being sold to come to Chicago from

other domestic centers.		High	Low	Close

Increase Salary County Auditor

C. C. Coppedge, county auditor, received an increase in salary when the county commissioners met in regular monthly session at the court house in this city yesterday. Mr. Coppedge's pay was increased from \$500.00 to \$350.00 per month.

The \$50.00 increase is taken from the drainage district fund. This is paid over to the county monthly in connection with work on the drainage district books. It was recently declared a part of the county's general fund when the commissioners, announcing an economy program, reduced the salary of the head of the tax department.

The commissioners also allowed Register of Deeds J. C. Gaskins an assistant on account of the general increase in business of his department. The unprecedented filing of legal instruments and the installation of a new index system has greatly increased the business in the office of the register of deeds, and the department is declared to be overrun with work. It was for this reason that an additional employee was allowed for a period of eight months.

Probe Death Of Chicago Woman

Chicago, Feb. 5.—(AP)—Drills, explosives and now the grave digger's spade are being brought into the investigation of Mrs. Selma Burnham's death last week—a death which investigators believe may have been "influenced."

Agents of the state's attorney and public administrator used drills and explosives last night to open a large safe at the Burnham Gum Vening Machine Company, not in quest of assets of the million dollar estate Mrs. Burnham is believed to have possessed at one time, but for more light on her death.

After the safe had been opened, it was reported that "disclosures of a sensational nature" had been made to authorities. Early today it was indicated that the body of Sanford A. Burnham, Mrs. Burnham's husband who died last July, might be exhumed.

Coughs Stopped Almost Instantly

Doctor's Prescription Relieves Without Harmful Drugs
Almost instant relief for coughs is now guaranteed in the use of a famous physician's prescription called Thoxine which contains no chloral form or dope. It works on an entirely different principle, has a double action, relieves the irritation and goes direct to the internal cause not reached by cough syrups and patent medicines. The very first swallow usually relieves.

Thoxine is pleasant and safe for the whole family. Also excellent for sore throat. Quick relief guaranteed. Each box 35c. 60c.

Initial Showing Of Spring Modes

These new fashions are so intriguing that it causes one to wonder what designers will do next. Chic and clever in line, slender yet possessing, rippling fullness, the dresses are lovely—the coats very smart in their slender simplicity, and the ensembles are works of art in their combination of material and clever designing. We cordially invite you to view these lovely new wearables.

Lovely New Spring Hats

Charming creations that introduce a subtle new note of transition from winter to spring. The designers have done themselves proud in manipulating the lovely new braids and felts into the most becoming chapeaux for madam and mademoiselle. Blacks and lovely new spring colors. Now on display. Come in and allow us to show you.
