## ITALO-ROMAN QUESTION TO BE CONCLUDED

### Settlement Of Dispute Between Church and State To Take Place Sunday.

Rome, Feb. 7.—(AP)—Official announcement of agreement between the Holy See and the Italian state was made this morning by Cardinal Gasparri, papal secretary of state, before the diplomatic body accredited to the vatican.

Rome, Feb. 7.—(AP)—An agreement settling the Italo-Roman question will be signed Sunday. Announcement of the concord has been made in a communication from Pope Pius to all nuncios, internuncios and apostolic delegates abroad.

The signing will take place in the Lateran palace, one of the places outside the vatican where extra-territoriality was insured by a law of 1871. Cardinal Gasparri, papal secretary of state, will sign for the Pope and Premier Mussolini for King Victor Emmanuel.

Their signatures will end an estrangement between vatican and Italian state which began in 1870 with the investing of Rome by the troops of King Victor Emmanuel I of Italy and subsequent self-imposed imprisonment of the Pope at the vatican.

In the agreement the vatican has subordinated claims to added temporal power to recognition of its principles of moral law in Italy. Various concessions are made the church by the Italian state relating to the power of the Pope in the vatican area. Regarded as even more important than these, however, is the agreement of the Italian government to do its utmost to secure observance of the church canon law throughout Italy.

"It is therefore," a noted theologian observed, "not a question of temporal power but a question of spiritual and religious principles for which the Holy See continues its unrelenting and inherent struggle."

Whatever may have been conceded, much that the vatican has sought in its efforts to regain its temporal power is accorded it in the agreement.

While there is to be only a small addition to the vatican grounds—the Pope having refused the Villa Doria enlargement offered him—the Pope is to be ruler supreme within its confines.

He is to have the power of coining money, issuance of bank notes, postage stamps, and other prerogatives of a sovereign state. He will have his own railway station, telegraph and telephone post, wireless station and aviation field. His domain is to be known as the "Vatican City" or the "Vatican State."

A vatican extra-territoriality is extended by the agreement to various places in Rome closely connected with the church. But Italian courts and Italian laws are to hold jurisdiction with regard to crimes committed on territory otherwise under vatican supervision.

A monetary indemnity of two billion lire (about \$100,000,000) of which one billion lire is payable in cash of Italian government bonds immediately, is allowed. The remainder will be paid in yearly installments with interest being paid meanwhile.

It is in the concession of the Italian state, binding itself to secure enforcement of the Roman Catholic canon law throughout Italy, that many see the greatest victory for the church. The canon law is the subject of three of the four parts of the concordat by the terms of which the relations of the church and the Italian state will be regulated.

The canon law, codification of which was completed only in 1917, contains 2414 canons, or rules, regulating faith, morals, conduct and discipline of church members. These rules have been prescribed or propounded to Catholics by ecclesiastical authority since the church's beginning.

Italy's agreement to secure its enforcement throughout the country is an entirely new experiment in any modern country, and it is one for which the Holy See has fought to obtain from various Italian governments for more than a thousand years. During the whole period of the temporal power—1116 years—the Italian government's resisted the move, and received reinforcement from the emperors of France and the German rulers who wished to free themselves from any further restriction of their sovereignty by the church.

## FOUR WEEKS OF CIVIL COURT IN CITY IN MARCH

### Special Two Weeks' Term Granted By Gov. Gardner At Conference.

Four weeks of civil court will be held in Pitt county during the month of March. It became known today.

The session will begin the first week in March. It will consist of a special term of two weeks combined with the regular two weeks' term scheduled for the month.

Decision to hold the special term was reached at a conference in Raleigh yesterday between Mayor J. C. Lanier, Judge Albion Dunn and Governor O. Max Gardner.

The civil court docket has been congested for some time and there has been considerable delay in getting cases up for hearing. It was to overcome this condition that the two Pitt county attorneys, representing the local bar, appeared before Governor Gardner requesting the special session to bring about relief.

At present there are over six hundred cases on the civil docket and members of the bar are hopeful that the four consecutive weeks of court will do much towards relieving the congested situation. The special term will precede the regular term, and will probably be presided over by Judge Clayton Moore of Williamston.

## European Rotarians To Visit Carolina

Durham, Feb. 7.—(AP)—A party of Rotarians from central Europe will tour North Carolina in May. M. E. Newsum, Durham candidate for presidency of the organization announced yesterday.

Between 100 and 200 members of Rotary enroute to the convention in Dallas, Tex., will be taken by automobile from Raleigh to Asheville.

The visitors are scheduled to land in New York Friday, May 17, and will travel southward in easy stages. Stops will be made at Richmond, Norfolk, Raleigh, Durham, Asheville, Greenville, S. C., Atlanta, Montgomery, Ala., New Orleans and Dallas. One other stop is to be made in North Carolina but the city has not yet been selected. The choice will be between Greensboro, Winston-Salem and Charlotte.

According to Mr. Newsum's announcement, the special train is scheduled to arrive in Raleigh Monday afternoon, May 20, where entertainment for an overnight visit is planned. From Raleigh, the party is to be brought to Durham, Asheville should be reached by Tuesday night where the visitors are to board their train again.

## Find Treasure In Old Cannon

Havana, Feb. 7.—(AP)—Four fishermen drowsing about the beach near Batabano, Cuba, Tuesday excavated four old cannons. In the muzzles of which they found ancient Spanish doubloons, pieces of gold, and rare old jewelry of an estimated value of \$50,000. One of the cannons bore the date of 1687.

Cuban law provides that a large part of such treasure when found shall be used to enrich the national coffers.

### Hoover To Talk To World

New York—Mr. Hoover's voice is going around the world via air on March 4. His inaugural address and description of the ceremony will be broadcast by foreign stations.

## Tax Situation To Be Talked Here

"Don't fail to attend the tax meeting at the court house in Greenville tonight at 7 o'clock."

This was the message passed around among citizens of thirty counties today, as leaders in the movement arranged last plans for what is generally considered will be one of the largest attended mass meetings ever before conducted in this city.

It was understood today that the court house had been put in splendid condition for accommodation of the several hundred visitors expected to attend the meeting. Lighting facilities of the court house received attention today and every bulb in the temple of justice will be ablaze tonight to welcome the hosts from other counties armed in the cause of better tax conditions.

It was stated this afternoon that Hon. A. D. MacLean of Beaufort county, member of the House of Representatives of the State Legislature, would be one of the principal speakers tonight. He will be brought down from Raleigh this afternoon by E. G. Flanagan, Pitt county Representative. Mr. MacLean will explain a bill which he recently introduced in the legislature looking to a reduction of taxes.

Several other speakers, it was understood would discuss the need of tax reduction and offer ways and means for making this possible. It will be the greatest gathering of the kind ever held in Eastern Carolina

and is expected to draw hundreds interested in improving conditions. The tax question has been a matter of serious consideration in many sections of the state for a number of years, but this is the first time a concerted movement has been started looking to improving the condition. The visible property tax it was understood, would draw a greater part of the oratorical fire tonight. Other phases will also be discussed.

Representatives of newspapers of the thirty counties in this territory will be present to furnish detailed reports of the meeting for their readers. It will be the first time that Greenville has had the opportunity of entertaining so many representative newspapermen. The meeting will be given columns of space in the leading dailies in this and other states.

Citizens in the various counties involved have clamored for relief from oppressive taxes for months, but so far a deaf ear has been turned to their pleadings. The concerted movement represented by the mass meeting is expected to play an important part in providing legislation looking to tax reduction.

Citizens of Greenville were today given a cordial invitation to attend the meeting. It is expected the court house will be crowded to utmost capacity, but arrangements have been made for handling as many as possible and early arrivals will be assured of comfortable seats.

## Al Smith Will Not Be Candidate For Mayor of New York

New York, Feb. 7.—(AP)—The New York Times said today that Alfred E. Smith would not be a candidate for mayor next fall, as has been advocated in various quarters.

The paper said it had learned that Mr. Smith informed Mayor Walker of his position shortly before he departed for Florida. Mayor Walker has not indicated his position. Former Mayor John Hylan is again a candidate.

Opposition to the idea of having Mr. Smith become the Democratic candidate in the coming city election is voiced in an editorial signed by Paul Block, publisher, in his papers and appearing in other papers as a paid advertisement.

The editorial declares that Mr. Smith should not become a candidate for any office unless he is again nominated for president.

## Explains Status Of The Salvation Army

Alfred Chandler, chief secretary and vice-president of the Salvation Army, has written a letter to the local organization explaining the relationship of the Army in this country to that of England, particularly in regard to property holdings and the way in which properties are held.

The matter has been of considerable discussion since the meeting of the high council in London and the explanation no doubt will prove of interest to a number of people.

The letter in part follows: "Answering our friends and also those who may have the same question in mind, let me say that all Salvation Army property in the United States is held under Act of Incorporation in the four Territories—Eastern Territory, New York; Central Territory, Illinois; Western Territory, California; that of the Southern Territory, which comprises fifteen states south of the Mason and Dixon line, is incorporated in the state of Georgia the principal office being located at 54 Ellis St., Atlanta, Georgia.

"Commander Evangeline Booth is President of the Board of Trustees; Lt. Commander Wm. A. McIntire is first Vice-President, and the writer, Vice-President.

"For the verification of this statement I have pleasure in referring any person interested in the future success of the Army to Colquhoun & Conyers, Attorneys, Atlanta, Ga."

## Workman Badly Burned In Blast

Akron, Ohio, Feb. 7.—(AP)—A workman was critically burned in an explosion of a dust collector in the powdered fuel supply house of the Firestone Tire and Rubber Co., in South Akron early today.

The blast virtually demolished the small building and started a fire which was brought under control with little damage to the plant, workmen there said.

Edward Amberger was taken to a hospital with critical burns. He was the only one injured.

## SOLO AIRMAN FORCED DOWN EARLY TODAY

### Martin Jensen Unable To Continue Endurance Test On Account Of Hoodoo

Mitchell Field, N. Y., Feb. 7.—(AP)—A "hoodoo" that trailed Martin Jensen from the time he took off yesterday in an attempt to break the solo endurance flight record finally forced him down at 2:10 this morning with less than half his goal achieved.

In the Bellanca monoplane Green Flash he set out to beat the record of 35 hours and 25 minutes established by the late Royal Thomas. He took off at 9:04.5 a. m. yesterday in the face of adverse weather conditions and at the time of his landing had been in the air 17 hours 6 minutes.

He declared the combination of ice and rain that he had faced all day and night culminating in a series of petty annoyances caused him to give up the attempt.

A minor break in a gasoline pipe, the breaking of the thermostat and the bad weather caused him considerable annoyance. When a gallon carbin jug of water crashed to the floor of the cabin, searing fragments of the jug into his eyes, he decided he had had enough.

Shortly after he ascended ice formed on the wings of his plane, causing him to lose altitude. Rain which followed soaked him and caused the ice to melt.

Despite these difficulties notes dropped during the early evening breathed optimism.

In addition to the jug of water, which proved to be the straw that broke the camel's back, Jensen carried aloft a quart of coffee and six hard rolls. He also took shaving supplies on the theory that if he shaved it would keep him awake.

It was Jensen's second failure in an attempt to set an endurance record. A week ago he was forced down by an overheated engine after two hours in the air.

## Chicago Bankers To Tell Why They Refuse City Loans

Chicago, Feb. 7.—(AP)—Chicago bankers were called upon today to tell a city council sub-committee why they have declined to lend money to the city and the school board. Five representatives of loan banks had agreed to appear before the sub-committee.

The city and school board, borrowed \$79,000,000 last year to obtain cash with which to operate, and an even greater sum will be required for 1929, councilmen said. Aldermen have been advised by City Comptroller George K. Schmidt that Chicago banks have refused to lend any money on 1929 tax warrants and that in order to obtain necessary funds he had been forced to go to New York for \$15,000,000. An interest rate of 5 7/8 per cent was charged there, he said, compared with 4 1/2 and 5 per cent paid last year.

## HOOVER WILL CONSIDER THE FARM PROBLEM

### No General Conference To Be Called By Pres-Elect Before Congress In April.

Miami Beach, Fla., Feb. 7.—(AP)—While President-elect Hoover will confer with a number of farm leaders in the formulation of an agricultural relief program, he has no intention of calling a general farm conference in advance of the special session of Congress in April.

His general ideas on the subject already have been outlined along broad lines and no doubt will be restated in his message to the seventy-first Congress at the convening of the extraordinary session. Details naturally will be left to the two Houses, committees of which are expected to begin public hearings early in March.

Many plans will be presented to these committees and the bill as finally reported will be the result of a process of elimination with the exception that the fundamental principle will be that of a farm bond and a revolving fund with provision made for the creation of farmer-owned and farmer-controlled corporations to assist in the orderly marketing of crops.

In the agricultural industry as well as in all others, the President-elect wants as little government interference as is consistent with the interest of the whole people. His conception of the problem is that the farmers want to conduct their own industry along sound lines with such federal assistance as will enable it to reach a parity with the other industries.

Upward revision of tariff schedules on farm products is one method which has been promised and in the forthcoming general amendment to the present tariff law this will be sought along with changes in schedules affecting other products to meet changed conditions since these schedules were written into law more than six years ago.

Friends of Mr. Hoover assert that he does not look with favor upon a general revision of the tariff which could mean only a rewriting of the present law.

While Senator Smoot of Utah, chairman of the Senate Finance Committee, favors the calling of the extra session on April 1, the actual date of the convening of Congress will depend largely upon the progress made by the House committee's handling the farm relief and tariff measures.

If these committees can be ready to report out measures by the date suggested by Senator Smoot then Congress probably will meet at that time. If they can not then the call would be for a later date, but with little likelihood that it would be after April 15 as the leaders want to clean up their work and get away before the dog days of August set in.

## LINDY GUEST OF SARATOGA

### Noted Flier Witnesses Maneuvres Of The Pacific Fleet After Arrival at Panama.

Panama, Feb. 7.—(AP)—Colonel Charles A. Lindbergh was a guest today aboard the U. S. S. Saratoga, airplane carrier, while that ship participated in maneuvers of the Pacific fleet.

He will return here tomorrow, and prepare for departure Sunday on a return flight to the United States. This will reverse the route of his flight from Miami, Fla., which ended yesterday at 4 p. m. at Cristobal.

Colonel Lindbergh's visit aboard the Saratoga was by special arrangement and in compliance with a desire of naval authorities that he be taken along to give his opinion on a naval air problem.

To attend the maneuvers he flew across the isthmus last night from Cristobal to Panama where he boarded the Saratoga.

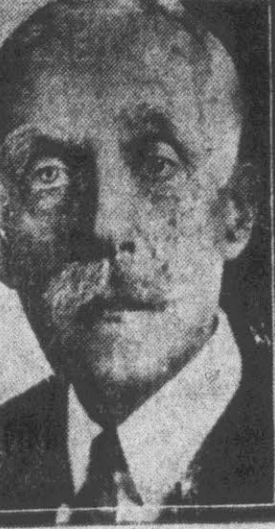

Official quarters were somewhat at sea today as to whether he would take mail back with him to the United States.

More than 30,000 letters are ready for the return flight, but advice were received from Richard Alfaro, minister at Washington, that the postoffice department had informed him it had been planned on this trip to carry mail only from the United States.

## Fight Develops Over Attempt To Increase County Highway Fund

Raleigh, N. C., Feb. 7.—(AP)—A fight to increase the proposed \$3,000,000 county highway aid fund to \$5,000,000 marked the House session today, while the Senate debated and approved the Miller bill providing for sterilization of mental defectives under certain conditions.

Representative Hancock, of Granville county, proposed the \$5,000,000 county road fund, when the House took up the public roads committee's bill providing for an increase in the gasoline tax from 4 cents a gallon to 5 cents, and the creation of a \$3,000,000 county aid fund. The committee proposed to take \$1,000,000 from the present sources of highway revenue, while the Granville legislator would have \$2,500,000 taken from this fund.

Senator Person's anti-lobbying bill was killed in the Senate, but his measure to repeal the act of 1927 providing for heavy penalties on defaulting taxpayers came forth with a favorable report from the committee on propositions and grievances, of which Person is chairman.

The House adopted a joint resolution by Representative Cox, Republican of Randolph, to extend an invitation to Herbert Hoover to address the North Carolina General Assembly during its present session. It now goes to the Senate for action.

New Bills poured into both houses in profusion. Among them was Senator Carter Williams' measure proposing a sales tax, and repeal of all existing taxes except the gasoline tax. He estimated that the revenue from the tax would exceed \$40,000,000 annually.

Raleigh, N. C., Feb. 7.—(AP)—The roads committee highway bill precipitated a fight in the House when it was reached on the calendar today.

Representative Hancock, Democrat of Granville, offered an amendment to increase the proposed three million dollar county aid fund to five million dollars.

"If this amendment was submitted to the people in a vote it would carry by from four to five to one," Hancock said. "We must remember we are here to enact into law the will of the masses, not that of a few officials and department heads around Raleigh. You talk about a free ballot—that's what we need here. We ought to be allowed to vote without pressure from official Raleigh."

"Those opposing this amendment will say it will cripple the State Highway Commission," he said. "I tell you it is not true. Every year it builds more and more roads and has a bigger and bigger surplus."

Representative Hancock said Governor Gardner was "friendly" to the amendment and heard it on his own lips not 24 hours ago, he said.

When Hancock stopped speaking, Representative Woodard asked that anybody else that wished to amend

the bill please get it before the House, so that it could be discussed.

Judge Francis D. Winston, Democrat of Bertie, offered two amendments designed to do away with the \$500,000 equalizing fund to be expended in the discretion of the State Highway Commission and place the money in the "county air fund," bringing the total to three million, five hundred thousand dollars.

Answering Representative Hancock, Woodard said the surplus in the highway department was due to the fact that in 1928 the license tags were collected on an 18 months basis due to the shift in the time of the fiscal year from June 1 to January 1.

"Are you prepared to go back to your people and tell them the State Highway program must be curtailed," he asked. "There are 2,000 miles of dirt road in the system that ought to be hard surfaced."

Senate Raleigh, N. C., Feb. 7.—(AP)—Senator C. Carter Williams, Republican of Yancey, introduced a sales tax bill in the Senate today, which would levy a graduated tax on more than a score of classes of articles. The author estimated that it would yield more than \$40,000,000 a year in revenue.

The measure would repeal the state income tax law, and relieve real estate and personal property from all road and school taxes. An increase of one cent a gallon in the gasoline tax is proposed, with a stipulation that the State Highway Commission take over and maintain all public roads and bridges.

No tax would be levied on the sales of food products, farm products, or clothing that sells for less than \$2.

On electric energy, manufactured, imported, and sold, a tax of one mill per kilowatt hour would be imposed.

The bill provides for an eight-month school term, to be financed entirely by the state.

Beginning at five per cent the scale of taxation runs up to 20 per cent.

Classifications listed at five per cent follow: Building materials, furniture, electric supplies, paints, hardware, cutlery, engines and motors, tires, tubes, and other rubber articles, and wearing apparel selling for more than \$2.

## RESERVE BANK DISCOURAGES SPECULATION

### Federal Board Plans To Take Steps To Restrain Credit For Speculation.

Washington, Feb. 7.—(AP)—Notice has been served by the Federal Reserve Board that it intends to take steps to restrain the use of Federal Reserve credit for speculative purposes.

After a conference of several hours yesterday between George L. Harrison, governor of the Federal Reserve Bank of New York, Roy A. Young, governor of the Federal Reserve Board, and members of the board, a statement was issued which called attention to the growth of speculative credit during the year, the loss by the country of some \$500,000,000 in gold and advances in the cost of credit for commercial uses.

"The statement declared that the Federal Reserve Board did not assume the right to set itself up as an arbiter of security speculation, but added that it was its business to see that the Federal Reserve banks function effectively.

"When it finds that conditions are arising," the statement said, "which obstruct Federal Reserve banks in the effective discharge of their function of so managing the credit facilities of the federal law as to accommodate commerce and business, it is its duty under the circumstances to correct them; which, in the immediate situation, means to restrain the use, either directly or indirectly of Federal Reserve credit facilities in all of the growth of speculative credit."

"The board declared that the volume of speculative credit was still growing. In the last year loans to brokers and dealers by New York Federal Reserve member banks had climbed from \$3,816,000,000 to \$5,559,000,000 last week, a new high record.

"Coming at a time when the country has lost some \$500,000,000 of gold," the board said, "the effect of the great and growing volume of speculative credit has already produced some strain, which has reflected itself in advances of from 1 to 1 1/2 per cent in the cost of credit for commercial uses."

"An aggravation of these conditions," the statement continued, "may be expected to have detrimental effects on business and may impair its future."

That the restraint spoken of by the board might take the form of denying member banks which present paper representing speculative loans rediscount privileges was indicated.

## Root To Study World Court In Other Countries

Washington, Feb. 7.—(AP)—Adherence by the United States to the world court may depend upon the success of a "unofficial diplomatic mission to see undertaken by Elihu Root, former Secretary of State, and an authority on international law. Mr. Root will seek an understanding among world powers on America's reservations to the court.

The Senate voted adherence to the court three years ago but it also voted reservations that the other powers have not accepted, one that other countries would balk at was a stipulation which would deny the right of the court to render advisory opinion involving the United States without the previous consent of this country to consideration of the case.

Some international lawyers believe that the court is already bound to render no advisory opinion without the unanimous consent of the council of the League of Nations. In that case, all the other nations have the right with regard to advisory opinions that is asked by the United States. It is also by some that if the American reservations regarding advisory opinions were accepted, a stumbling block in adherence by this country would be removed.

President Coolidge made it known to other countries that he was open for an advisory opinion, and Mr. F. that canv

# GOLDSBORO TO PLAY IN THIS CITY TONIGHT

Greenville High School's travelling horsemen are to give another chance for the public to see them in action tonight, when Goldsboro comes here for a return game. Some time since the locals travelled to Goldsboro and took the home team into camp by a rather one-sided score, but the Wayne county boys have braced since then, and are expecting to hold Greenville to a closer score. Tomorrow another contest is scheduled, when Rocky Mount comes here to make up the deferred examination week game. Much interest is shown in this set, for the two teams have not yet met, and Rocky Mount may prove a rock in the Greenville team's path to success. Both games are called for 8 bells.

To complete the week of sports, the freshman teams play host on Saturday night to the Stokes High School quintet and set, and plan for two good games. Last week the Stokes boys were victorious over the local freshmen, while the Yearling girls triumphed over the Stokeses. Saturday will give the boys a chance to even up, which they are planning to make the most of. These two games are offered at the rate of 25c a pair.

A pretty good week, on the whole. With the boys' win over Kinston already on the records, and the girls trekking toward Washington for Friday night for their main game of the season, and the Sophomore boys meeting Fountain Saturday night in Farmville, our teams are busy enough.

## Heydler Receives National Schedule

New York, Feb. 7.—(AP)—The controversy over Sunday baseball in Boston has delayed adoption of the National League's schedule for 1929. The schedule, providing for Sunday games in the Hub, was turned over to President John A. Heydler by the league's club owner in annual schedule session yesterday. He will declare it adopted as drawn up if the Boston Braves finally are permitted to play on Sunday or revise it as such is not the case.

The National League season will open Tuesday, April 16, five days later than last year and close Sunday, October 6, a week later than a year ago. Opening games will find the lineup as follows:

New York at Philadelphia; Brooklyn at Boston; St. Louis at Cincinnati; and Pittsburgh at Chicago.

President Heydler announced an umpire staff of fourteen, two of these, Robert D. Emshie and Henry (Hank) O'Day to serve in an advisory capacity. Among the active umpires only George L. Magerkuth, coast league arbiter last season, is new. The National League paid \$2,000, a new high price, for Magerkuth's contract.

Barney Dreyfus, president of the Pittsburgh club, was elected to fill the newly created office of league vice-president.

## Signs Contract

## Strib and Sharkey Begin Hard Work

Miami Beach, Fla., Feb. 7.—(AP)—Jack Sharkey was prepared for a strenuous session with his sparring partners in his training ring, while Young Stribling, the Boston sailor's adversary in the projected battle of Flamingo Park here February 27, cast about for some way to "get the feel of the breeze" in his face.

Strib will not "get the feel of the breeze" by peering over the cockpit of his airplane, for he was grounded Monday by Promoter Jack Dempsey's injunction to keep him on terra firma.

"I was going to get a lot of recreation out of my plane before the fight," the hope of Macon, Ga., said, "but it looks like I'll have to use an automobile or a horse to get the feel of the breeze in my face."

The Boston job went through a hard session yesterday for the news cameramen and will appear in his ring again tomorrow. Friday he will go to Tampa with Jack Dempsey, where both expect to get a few cheers from customers at a boxing match there. Sharkey probably will referee one of the matches on the card.

While Stribling held to his nightly program of two and one-half miles of road work. His father-manager, "Pa," conferred with Johnny Buckley, Sharkey's pilot, over a referee from the list given them Monday by Dempsey. No selection is expected until shortly before time for hostilities to begin.

It was announced last night by W. E. Carey, vice-president and treasurer of the Madison Square Garden Corporation, that no radio broadcast of the fight was contemplated.

# SEAGRAVE TO TRY FOR NEW SPEED RECORD

New York, Feb. 7.—(AP)—Determined to rerun for England the world speed record for automobiles, Major H. O. D. Seagrave has arrived in this country with a car patterned after a racing airplane.

He was the first man to drive an automobile faster than 200 miles an hour but his record was broken last February by Captain Malcolm Campbell of England. Ray Keech, an American, later broke Campbell's record. Keech drove a machine at 207.55 miles an hour.

Although Major Seagrave has never tried out his new machine named the "Golden Arrow," he is confident he will be able to make at least 230 miles an hour. The race against time will take place in March on the sands at Daytona, Fla., where the other races were held.

The Golden Arrow was designed by Captain J. S. Irving who also designed the Sunbeam, the car in which Major Seagrave made an official speed of 203.79 miles an hour. The Golden Arrow is built on the lines of the British plane S-5, which won for Great Britain the last Schneider Cup races with a speed of 286.4 miles an hour.

The stream line effect of the body gives the automobile a minimum of wind resistance. A fixed rudder in the rear is expected to keep the machine pointed straight ahead should it be forced from the ground by the high speed, while planes on each side are designed to aid in keeping it on the ground.

A driving sight enables the car to be aimed as a large gun is sighted. A black line is drawn along the hood to where the radiator cap ordinarily would be. Here is a sight through which Major Seagrave will watch a light at the end of the run.

The machine is 36 inches high. It has three gear shifts forward with theoretical speeds of 99, 166 and 245 miles an hour respectively. It will consume 70 gallons of special fuel per hour. The driver will be strapped in his seat which is enclosed with quarter-inch steel plate to protect him from wind. The car is 27.8 feet long and 5 feet wide. The tires are of cord covered only by one-sixth of an inch of rubber and cost \$15,000.

A party of fourteen accompanied Major Seagrave to this country. The expense of the project, estimated at \$100,000, was raised by a group of British sportsmen who have refused to reveal their identity.

## Barnard Talks With Umpires

Chicago, Feb. 7.—(AP)—President E. S. Barnard of the American League called his 12 umpires together today for their annual "shop talk."

Nothing of importance was up for discussion except the finer points of the game, upon which Barnard is anxious to have all the arbiters agree. The staff is the same as last year except that Dan Barry of Boston will be replaced by George Moriarity, who was granted a leave of absence last season to manage the Detroit Tigers.

Thomas "Technical" Connolly, the sole survivor of that gallant little band that surrounded Ban Johnson when the American League swelled out its chest 19 years ago and announced itself as a major organization, heads the list of arbiters. It is to Connolly that most of the "umps" look for finer rulings.

Three of the umpires will sharpen their wits during the spring training campaign, it was announced. Emmett Ormsby will be with the Yankees, William McGowan will call them for Cleveland and Roy Vangraffin will follow Washington.

## Fighter Held In Connection With Death Of Negro

Seattle, Feb. 7.—(AP)—Cecil Geysel, 21-year-old welterweight boxer of Seattle, was held today pending an inquest into the death of Eddie Cartwright, negro welterweight of Portland, Ore., who died a few minutes after having been knocked out by Geysel Wednesday night.

The knockout blow did not cause the death of the veteran, an autopsy showed. It was the last of a battery of punches to the jaw from the gloves of Geysel.

A hemorrhage, resulting from a rupture of arteries at the base of the brain when Cartwright's head struck the canvas, caused his death, Coroner William J. Jones reported. The examination also revealed a diseased heart, which, consulting physicians said, might have caused his death from any form of over-exertion.

## TWO AMERICANS TIE JAPANESE FOR BILLIARD HONORS

New York, Feb. 7.—(AP)—The first complete turn of the wheel in the Round Robin tournament for the world's 182 ball line billiard championship today found two Americans and a Japanese tied for the lead.

Taking European opponents over the hurdles with some difficulty in yesterday's matches, Welker Cochran of Hollywood, and Young Jake Schiefer of Chicago, forced their way into a triple deadlock with Kinrey Matsuyama for the pacesetter position. Each has won one match and lost none. Down in the cellar are the three European stars—Edouard Horemans of Belgium, the defending champion; Felix Grange of France, and Erle Hagenlacher of Germany.

## Fight Referee Holds Interest At Miami, Fla.

Miami Beach, Feb. 7.—(AP)—The battle over a referee was on in full force today in the camps of the rivals in the projected battle of Miami Beach February 27, with Promoter Jack Dempsey assuming the role of arbiter.

"Pa" Stribling, father and manager of the aviator-boxer, who will oppose Jack Sharkey in Dempsey's Flamingo Park arena, believes the south has been slighted, as the list of possible referees submitted names no one from below the Mason and Dixon line.

Dempsey has arranged a conference Saturday morning between "Pa" and Johnny Buckley, manager of the Boston sailor, and will attempt to assist the men in the selection of the third man in the ring the night of the battle.

Sharkey maintained his hard training pace yesterday, with a round of serious golf while a group of newspaper men and wide eyed fans waited for him to show up at his training ring. The Boston job evidently was in earnest in saying he would not engage in sparring matches until later in the month.

Young Stribling, prince of Macon, Ga., and other southern points, deprived of his airplane by Dempsey's court order, continued his night road work along the byways of Miami Beach, spending two and a half hours on his training jaunt last night.

# "I sure was right - I lit a Lucky"

"So many people have made a fuss over me because in rowing back to the 'America,' after we had picked up the 'Florida' survivors, I was smoking a Lucky Strike. I can't see why there should be any excitement about this—it was the natural thing for me to do. Before we started out from the 'America' I made sure that my pack of Luckies was with me—I wanted the comfort and pleasure of Luckies no matter what happened. I sure was right. I'll have to admit that after we picked up the 'Florida' crew and started back, my nerves were completely let down. So I did the thing I always do at such times—I lit a Lucky. As long as I live, I'll never get another kick as I did from the sweet old toasted flavor of that Lucky as we were tossing about on the old Atlantic. I'm a hundred percent when it comes to 'reach for a Lucky instead of a sweet.' I lay off the things that would make me flabby and light up a Lucky instead. There's too much action going on in my life to have me moving around with a lot of excess weight which I don't need. There's another thing about Luckies. The toasting process, in removing the impurities, is a blessing to us who follow the sea. It prevents throat irritation which is a constant nuisance to those who are regularly exposed to salt air."

## JOHN CHARLES THOMAS TO SING AT COLLEGE

John Charles Thomas, the famous baritone who will give a concert at East Carolina Teachers College on the evening of Feb. 15, the second in the winter and spring series of entertainments, has the rare distinction of being an American singer, born and bred in this country, with a great European reputation.

He sings in Grand Opera in European capitals, in the Royal Opera Company in Brussels, and in Concert Garden Opera in London regularly, for six months in the year, but refuses to accept engagements for the other six months, for he returns. This year he will sing in grand opera in Italy during the months of May and June.

"A singer of songs," is his reputation in America and a famous opera singer, with fifteen roles to his credit, is his European fame. All his life he has been a singer—chorus singer, glee singer when in school, comic opera singer, light opera singer, concert singer and opera singer.

But as a radio star he is perhaps best known throughout America, for he has been the star singer on some of the biggest radio programs put on the air. Three times this winter he has been head, and each time he was received with enthusiasm. On Monday evening, Jan. 28, he was on the air.

The college is once again giving the public the opportunity to see and hear the best. The Metropolitan Bureau manager in his visit to Greenville this week said it was no longer possible for an artist to make the mistake Anna Case made and go to Greenville, South Carolina, because Greenville North Carolina was now as well known to them as the South Carolina city.

## TRAINING SCHOOL PARENT-TEACHER ASS'N. MEETING

In spite of the inclement weather the training school Parent-Teacher Association held an interesting meeting Wednesday afternoon. Misses Holtzclaw and White of the college faculty, gave most helpful talks. Miss Holtzclaw of the Home Economics department, discussed the proper diet of the pre-school child, giving the essential aims and needs for considering the right kind of food for the child before it is of school age. Following up this idea a delightful paper was read describing the nursery school for tiny tots, operated in connection with the Peabody College. In this school not only diet is stressed but a correct training in all things connected with the everyday life of the child.

Miss White of the Science department, gave a clear idea of diet and proper exercise in school children, from the first grade through high school. She urged the importance of a good, hot, substantial

## Hold Up Sale Of Several Vessels

Washington, Feb. 7.—(AP)—Sale by the Shipping Board of thirteen passenger ships, including the Leviathan, has been held up until the Senate inquires into the matter.

Senator McKellar, Democrat, of Tennessee sponsored a resolution yesterday for an investigation into the ship sale and it was carried without a record vote, although Senator Jones of Washington, chairman of the commerce committee, protested. Jones said that in his opinion, the government would never again receive as favorable a bid for its fleet and added that the adoption of the resolution might endanger the completion of the proposed sale.

Paul W. Chapman, Inc., had bid \$18,000,000 for the thirteen ships, which constitute the entire American passenger fleet plying between New York and England, France and Germany.

McKellar in proposing his resolution, said that he understood the sale was to be consummated today and argued that the board was rushing the transaction through in an irregular manner. He said it was not going through the regular procedure of submitting the bids to the Emergency Fleet Corporation for an analysis.

## Mallard Completes Submarine Testing

Key West, Fla., Feb. 7.—(AP)—Having successfully completed numerous tests of apparatus which makes submarine service infinitely less hazardous, the U. S. S. Mallard, tender, was expected to return here today, with the S-4 which will be placed in repair.

Following successful attempts yesterday of men in escaping from the sunken submarine off Smith's Shoals, with the aid of oxygen inflated headgear, from 76 feet of water without outside aid, a leak was discovered in the periscope of the submarine and it was deemed advisable to tow it here for fixing.

Already the tests, in which Lieutenant C. D. Monson and E. Kalinowski, chief torpedoman, have staked their lives, have been "gratifyingly successful," according to Lieutenant Commander P. H. Dunbar, in charge of operations.

The leaky periscope was discovered yesterday just as the submarine had been prepared for escape tests at a depth of 120 feet.

There was no danger at any time to any one, Lieutenant Commander Dunbar said, not even when the leaking periscope was found. It was expected the tests would be resumed as soon as possible.

# REWARD FOR TOGO PULLEY IS INCREASED

## County Officers Increase Effort To Apprehend Murderer of Bethel Policeman.

The reward for Togo Pulley, alias Hubert Jones, has been increased from \$250 to \$500, according to information given out by Sheriff Sam Whitehurst this morning. The reward holds good for a period of six months.

Pulley is wanted for the slaying of Eugene Jones, night policeman of Bethel, whose dead body was found on the road between Bethel and Williamston several weeks ago.

Officer Jones was accompanying Pulley to Williamston so that he might arrange bond when the murder is alleged to have taken place.

Pulley was arrested in Bethel one night on a charge of the larceny of wires from an automobile. He was arrested by Jones, but, being a stranger in the community, was unable to furnish bond for his liberty.

Wishing to do the prisoner a favor, Officer Jones agreed to accompany him to the Williamston community, where Pulley said he had relatives who would stand bond for him.

They started off in the automobile which Pulley had at the time of his arrest. They had proceeded part of the way to Williamston, officers believe, when Pulley shot the policeman and dumped his body on the highway.

Pulley made his escape and despite unusual vigilance on the part of officers of this and other counties his whereabouts today remained a mystery. He is said to have been seen in the Kinston community a day or so after the crime was committed, but officers have been unable to trace him since that time.

Reward notices have been mailed out to all police and county departments in this section of the country, but so far have been of little aid in bringing the criminal to justice. Sheriff Whitehurst was of the opinion that Pulley would be found in some textile mill village or engaged in rum running in some part of Eastern Carolina.

The description of Pulley contained in the notice of the last reward follows:

"White man about 24 years of age. About 5 feet, 7 or 9 inches in height; weight about 130 or 140 pounds, with black hair, dark eyes, dark complexion; Indian descent. Last seen driving a Chevrolet coupe, N. C. license number 426-535, motor No. 146105. Very commonly dressed, wearing a grey cap, breeches with leather leggings. Subject to be

### Capture Criminal Near Danbury, N. C.

Winston-Salem, N. C., Feb. 7.—(AP)—Otis Campbell, who had been the object of a search by officers since January 24, was lodged in the Stokes county jail at Danbury during the night, a long-distance telephone message here said today.

Campbell, while with two other men, is charged with having fatally wounded Nettie Burkheart, of Brim, at a camp where the slayman and his wife were spending the night.

The man was apprehended, according to the report, when he went to the home of Alvan Shepherd, ten miles from Danbury, and asked for food. Shepherd, supposedly a friend of Campbell, and a brother, Percy, took Campbell to Danbury and surrendered him, claiming a reward of \$300.

Glenn Rhodes and Louis Shepherd, Stokes county men said to have been with Campbell, have been held in the Stokes jail since Burkheart died of his wounds at a Stuart, Va., hospital.

### Must Have Guardian

New York—In order to obtain a passport Miss Edith Wade, 41, niece of the late Dr. Henry Codman Potter, Episcopal bishop of New York, finds it necessary to have a guardian. She has lived abroad for years. No record of her birth in Brooklyn could be found. The court appointed a guardian, who located the attending physician and with this evidence will have the birth noted on official records.

### Massachusetts In Favor Of Repealing Prohibition Law

Boston, Feb. 7.—(AP)—Massachusetts, as represented by the state Senate, is on record in favor of the repeal of the prohibition amendment to the Federal Constitution. A resolution requesting Congress to take action to that effect was passed yesterday without debate by a vote of 26 to 6 in accordance with majorities rolled up in favor of repeal in 34 of the 40 senatorial districts on a referendum last November.

A few minutes before the Senate acted, a group of women who characterized the state as dry and law-abiding, appealed to Gov. Frank G. Allen to use his influence to prevent passage of the resolution. They termed it "A wet memorial likely to be construed as an invitation to every gangster and racketeer to come into Massachusetts and ply his nefarious trade."

Shortly before the Senate took action the House voted against further consideration of a petition of Representative Charles S. Packerman, of Boston, asking that the House likewise memorialize Congress for repeal. By a vote of 130 to 70 the House decided that the November referendum applied only to the Senate.

## COTTON MARKET

New York, Feb. 7.—(AP)—The cotton market opened steady at a decline of 8 to 9 points with the old crop months selling 11 to 13 points net lower right after the call.

Liquidation was promoted by relatively weak Liverpool cables and nervousness over the possible reactions of the stock market to the Federal Reserve statement. Houses with Wall street and western connections were among the early sellers and there was considerable local or commission house selling, but the trade was credited with buying on the decline. After selling off to 29.66 for May, prices steadied a few points on covering.

Private cables reported local, London and Manchester liquidation influenced by the higher bank rate but said the home demand for cotton cloths was improving.

## GRAIN MARKET

Chicago, Feb. 7.—(AP)—Lower prices for wheat formed the rule most of the time here today owing more or less to sympathy with action of the stock market. Besides, lower wheat quotations showed unexpected downturns, and weather conditions for domestic winter wheat appeared less threatening, despite cold and absence of snow protection in parts of Kansas and Nebraska.

Wheat closed nervous at 1-8 to 5-8 net decline; corn unchanged to 1-8 off; oats 1-8 down to a shade advance; and provisions unchanged to a rise of 10.

## STOCK MARKET

New York, Feb. 7.—(AP)—The Federal Reserve Board's pronouncement that speculative credit must be restrained and the rise of 1 per cent in the Bank of England discount rate kicked the props from under the stock market today and prices tumbled 2 to 30 points in the greatest wave of selling since the December break. Partial recoveries took place in a midday rally, but new points of weakness were continually cropping out to further disturb speculative confidence.

Trading was in unusually heavy volume. Total sales crossed the 2,500,000 share mark before noon. The ticker, which had fallen 20 minutes behind the market, made up most of the day by the end of the third hour.

Wall Street has seldom awaited a market opening with more interest, not so much to see what the market would do as it was generally conceded that a reaction was inevitable, but to learn the extent of the decline. The few first prices which appeared on the tape showed losses of only fractions to 2 points but then came a block of 20,000 shares of U. S. Steel, common, at an overnight loss of 6 points and a break of 17 points in General Electric on the first sale.

Other high priced industrials were then thrown overboard, Wright dropping 16 points, Case Threshing 15, DuPont 13, Westinghouse Electric 11 and Allied Chemical, Curtiss, U. S. Industrial Alcohol and National Cash Register falling 8 to 10 points. Rails yielded with the industrials, Canadian Pacific dropping 4 points and Union Pacific 3.

It was quite evident that much of the opening selling represented liquidation by frightened small speculators so that when the renewal rate for call money was marked down to 6 per cent, several large traders stepped into the market and bought stocks "for a quick turn."
