POPE ATTENDS HIGH MASS AT SAINT PETER'S

Pius Celebrates 7th Anniversary Of Coronation At Rome Edifice.

Rome, Feb. 12.—(AP)—Pope Pius XI today signalized settlement of the historic Roman question between Italy and the Vatican and the seventh anniversary of his coronation as Pontiff, by appearing on the balcony outside of the basilica of St. Peter's and blessing a great crowd beneath.

The Pope, wearing a red cape and a big red hat with gold tassels, appeared on the balcony after the solemn high mass in St. Peter's and blessed the crowd which was standing in a pouring rain in the hope that the Pontiff would make his appearance.

As he was seen from the square below, the populace cheered him to the echo and then, amidst an impressive silence, knelt as he blessed them.

Lowering skies and then a driving rain failed to dampen the enthusiasm of the crowd of fully 100,000 which stood for four hours waiting the appearance of the Pontiff. Long before the services began, the congregation of about 60,000 more had gathered inside the basilica.

Rome, Feb. 12.—(AP)—Celebrating the seventh anniversary of his coronation, Pope Pius today attended solemn high mass in St. Peter's, largest church in Christendom.

There was special significance in the ceremony because of yesterday's settlement of the sixty year old Roman question and the Italian government's recognition of the temporal power of the Pope. The mass was, too, a climax to the celebration of the Pope's jubilee of fiftieth year of priesthood.

Solemn high mass on the anniversary in past years has been sung in the Sistine chapel of the Vatican before a rather restricted congregation. In St. Peter's some 70,000 persons can be accommodated.

For Romans there was but one thing lacking. The Pope's master of the chamber issued a statement that his holiness "for delicate reasons does not believe himself able to impart a solemn benediction from the balcony of the basilica."

It had been assumed previously that he would appear there, and following a similar action at his coronation, "bless the city and the world" as he did in 1922.

The city of Rome today had the aspect of a carnival city. The concordat met acclaim everywhere, and throughout the city the flag of yellow and white hung side by side with the Italian tri-color. The city's entire Fascist organization assembled at St. Peter's Square this morning.

Saluted by the silver trumpets of the Swiss guard, playing the papal march, the Pope entered the great basilica from the Vatican, borne aloft on the sedia statoria, a sort of portable throne on a platform, by attendants in flesh colored uniforms. On either side huge ostrich plumed fans waved to and fro.

His entrance was the signal for an outburst of handclapping and cries of "Viva il Papa" (Long live the Pope).

The Pope, now 72 years old, seemed rather bowed down under the heavy tiara, or triple crown. Beneath his red cloak, richly embroidered with gold, he was clad entirely in white, the gold and jewel-studded pectoral cross gleaming now and then from underneath the cloak's folds.

When he had been carried about half way up the immense nave of St. Peter's, the sistine choir, massed on the left side of the main altar, broke into the strains of "Tu Es Petrus" (Thou Art Peter), the Latin version of Christ's charge of the fishermen of Galilee before taking leave of his apostles.

St. Peter's ordinarily is devoid of chairs and but few pews but today long rows of woden benches accommodated the crowds. Those there saw a procession come up the nave the like of which is rarely witnessed in Europe these days. There were the members of the Pope's noble guard, the papal chamberlains in black with white ruffs and golden chains, and the Swiss guard in the yellow and blue gala costumes designed for them by no less a master of color than Michelangelo.

They were followed by the palatine guard composed of members of the Roman upper middle classes, and the papal gendarmes, charged with keeping order in St. Peter's and with preventing those overzealous for a view of the pageant from standing up on the rather frail benches.

FISHING TRIP ABANDONED BY HOOVER TODAY

Change In Weather Causes President-Elect To Return To Miami Beach.

Fort Myers, Fla., Feb. 12.—(AP)—A sudden change in weather that made success at Tarpon fishing unlikely caused President-elect Hoover to abandon his projected cruiser through the waters of Florida's West Coast today, and by noon he planned to leave the houseboat Saunterer that brought him here and motor back to Miami Beach.

Mr. Hoover, who came to Fort Myers to participate in the 32nd birthday celebration of Thomas A. Edison, originally had planned to spend today and tomorrow in a serious effort to land a Tarpon—about the only variety of the larger game fish he has thus far failed to reel in. At midnight last night, however, Joseph E. Murphy, assistant chief of the United States secret service, returned to Fort Myers from Punta Rassa, where the Saunterer was anchored for the night, with word that the return to pre-inaugural headquarters would be undertaken today.

The president-elect will find a fairly well cluttered desk awaiting him at Miami Beach and he has only until Friday morning to clear it. On that day, in company with Governor Doyle E. Carlton and Major General Edgar Jadwin, chief of army engineers, he will make a two-day auto inspection of the Everglades with particular attention to the Lake Okechobee region, where more than 2,000 persons lost their lives in the last Florida storm.

Herbert Hoover, Jr., who spent last night as a guest to Mr. and Mrs. Thomas A. Edison, at their estate, Seminole Lodge, arose early today and prepared to take off with his companion, Captain E. M. Haight, for a return flight to Washington at 7 o'clock.

They plan stops en route to Washington today at Jacksonville, Fla., and Spartanburg, S. C., expecting to land at the capital at dusk.

Portes Gil Declares Economic Warfare On Mexican Antagonists

Mexico City, Feb. 12.—(AP)—President Emilio Portes Gil today answered disturbances of the last three days in Mexico with announcement of economic warfare against elements antagonistic to the present government.

He blamed Catholic elements for disturbances and a seditious atmosphere in the nation, and said that property of "authors or accomplices" of future movements against the government would be confiscated and divided among peasants and workers who had remained loyal to the regime.

The announcement was in the form of a signed statement to Mexico City newspapers. It followed closely orders from Acting Secretary of the Interior Canales to all Catholic priests in the nation to send their addresses to the government within two weeks.

The president said he acted "for purposes of public security" and "in view of the seditious conduct of the high Mexican clergy." He gave warning that all those who failed to comply with the instructions would be considered accomplices to rebellious elements and civil action would be instituted against them.

FOUR ISSUES HOLD FORTH IN CONGRESS

Ship Sales, Tariff, Appropriation And Trading Bills In Limelight Today.

Washington, Feb. 12.—(AP)—Ship sales, the tariff, an appropriation bill and a measure affecting trading in futures were the "big four" today at the capitol.

The House with the taking up of the legislative appropriation bill neared the end of the task it set for itself when the session began. Only one supply measure has given trouble, the first deficiency bill, and an impasse over \$24,000,000 for prohibition enforcement added to it by the Senate may mean its death. One deficiency bill, and possibly two are yet to be considered.

The Senate faced its second day on the Caraway bill to prevent future trading in cotton and grain at a time when Congress is devoting quite a bit of attention to market speculation. Since the Federal Reserve board's statement to prevent Federal Reserve credit from being used for speculative purposes, the stock exchange has taken a precipitate dip and four resolutions calling for investigations, or suggestions for legislation to amend the present situation have been offered in the House and Senate.

The question of whether to sell the government ships comprising the United States Line and the American Merchant Lines to P. W. Chapman, Inc., of New York, for \$16,082,000, was before the Senate commerce committee.

The House ways and means committee had not finished with hearings on silk duties. Due to technicalities involved and attention drawn from it by events on the floor, the tariff may have played a role of a steady but muffled drum beat at this session but it promises to be an entire brass band at the coming special session. It is not for farm relief, it ought to be almost the entire congressional show. Some staunch Republicans want an upward revision of almost the entire schedule but others, including Chairman Smoot of the Senate finance committee, do not think that is necessary. Smoot made his views known after a visit to Florida where he saw President-elect Hoover.

The commerce committee meeting was the only Senate committee gathering scheduled today but the House, besides ways and means including post office, public lands, foreign affairs, naval affairs and rules, which was attempting to devise some means of getting the radio bill disposed of quickly. The others promised to be routine in nature.

MRS. BRAWLEY DIES

AT SALISBURY, N. C. Salisbury, N. C., Feb. 12.—(AP)—Mrs. Robert Vance Brawley, 48, widow of the late Dr. R. V. Brawley, who died January 5, passed away last night at a local hospital. Death was due to influenza and complications.

Funeral services will be from St. Luke's Episcopal church at three o'clock Wednesday.

Three sons, her parents, Gen. and Mrs. A. H. Boyden, of Salisbury, and a sister, Mrs. Burton Craige, of Winston-Salem, survive.

Coolidge To Reach Early Decision On Appropriation Bill

Washington, Feb. 12.—(AP)—President Coolidge expects to reach a decision on the naval construction bill, proposing the building of 15 cruisers and one aircraft carrier, within a day or two.

Since the measure was given final congressional approval it has been submitted to the bureau of their budget for estimates of necessary appropriations. The bureau has recommended that a small and unspecified amount be set aside for use under the bill during the present fiscal year, and a sum of \$45,000,000 or \$50,000,000 be appropriated for use in the fiscal year ending June 30, 1930.

NATION PAYS TRIBUTE TO ABE LINCOLN

Government Officials And Societies Make Pilgrimage To Memorial Today.

Washington, Feb. 12.—(AP)—Pilgrimages by government officials and members of patriotic societies to the stately Lincoln memorial and an assembling of aged veterans who knew the man as their commander in chief were included in simple ceremonies arranged today to commemorate the 120th anniversary of the birthday of Abraham Lincoln. Senator Shortridge, of California, had prepared a speech for delivery during the exercises at the memorial.

"Wherever among men there is love for disinterested patriotism, and sublime attachment to duty, Senator Shortridge said, 'Wherever liberty is worshipped and ideal exalted, his name, his life, his deeds are known.'"

"Who was this man that came unheralded out of the West?" he asked. "Who was this man that rose above great statesmen of his day—who was as earnest as Phillips, as gifted as Baker, more profound than Seward, more wise than Chase, more logical than Douglas, more eloquent than Everett—that humble, loving, forgiving, sublime man who was the rail splitter of Illinois—sainted and immortal Abraham Lincoln—Abraham Lincoln, child of poverty, champion of freedom, saviour of the Union?"

Senator Shortridge said that the hour of brotherly estrangement had come forever, that "government of the people, by the people and for the people" did not perish.

Japanese Ship Sends Out Call For Aid Today

Seattle, Feb. 12.—(AP)—A wireless plea, "Save our lives," from the Japanese steamer Maiyo Maru, which reported she was aground on Ugmak Island, in the Aleutian group, was intercepted today by the Bremerton naval radio station.

Most of the message was in Japanese and was unintelligible to radio men here. Several Japanese ships were in communication with the distressed vessel, however, among them the Nanko Maru, 250 miles away, which was proceeding to the position given.

The Meiyo Maru is a 5,400-ton freighter belonging to the Toyo Kaisha line and was believed to have a crew of about 25 aboard. She left Puget Sound recently for Japan.

Lindbergh On Final Lap Of Homeward Trip

Belize, British Honduras, Feb. 12.—(AP)—An 850-mile flight, most of it across the Caribbean Sea, was necessary today before Colonel Charles A. Lindbergh could complete his round trip with air mail.

The colonel is burned from the tropical sun, and the skin on his face has peeled considerably.

The initial air mail venture to Central America ends, after a stop at Havana, with return to Miami, Fla., where the trip began Monday of last week.

COLD CAUSES MANY DEATHS OVER EUROPE

Germany Among Worst Sufferers; 49 Degrees Below Zero In Silesia.

London, Feb. 12.—(AP)—The death toll from Arctic conditions throughout Europe mounted today. It advised emphasized the severity of cold, ice and snow. Temperatures were the lowest for many years.

Deaths attributable to the weather occurred in all the larger centers of population. Rural casualties apparently will run to a high total. A capsized tug at Antwerp cost five lives. Forty-eight passengers were saved in lifeboats caked with ice, however, when the channel steamer Ville De Liege sank with mail and cargo off Dover, England.

Germany was one of the worst sufferers. At Cologne the Rhine presented the unusual spectacle of an ice bridge at the Lorelei Rock. Silesia had the lowest temperatures since 1690. In Landeshut, Silesia, it was 49 degrees Fahrenheit, below zero; at Berlin it was 22 below, the coldest in 130 years. Three children were frozen to death at Breslau, while two men died of cold at Berlin. Grave diggers at Berlin had to use dynamite to break a three-foot frozen soil crust.

The Balkans were hard hit. Constantinople, particularly, was isolated from the world, with only radio communication holding up. From this source it was learned the worst conditions prevailed there. Passengers of the Sion Express, which was buried under an avalanche of snow a week ago, told stories upon reaching Constantinople of having been harassed at night by wolves, scratching the door and windows and trying to enter.

The stories of attacks by wolves were numerous from Eastern Europe and the neighboring carpathians.

In England the weather changed from moderate cold to intense frigidity. A biting east wind failed to shove the thermometer to the depths recorded on the continent but it was so cold Englishmen felt the only thing they had missed was encounters with the famished wolf packs.

Industrial Survey Of Community To Be Made In Next Several Days

An industrial survey of Greenville and community will be made within the next several days, according to information given out today.

The survey will be conducted by representatives of the Craig P. Gilbert, industrial representatives of Washington, D. C., who have conducted similar surveys for many other cities of the country.

The survey will set forth the resources and possibilities of the community with the idea of interesting manufacturers in locating here. The Craig P. Gilbert Company is in touch with manufacturers and investors throughout the nation and have assisted them in finding suitable locations for enterprises of a various nature.

James Jenkins, representative of Craig P. Gilbert, presented plans for the proposed survey at recent meetings of the Greenville Merchants Association and the Board of Aldermen. The merchants gave hearty endorsement to the plan and the aldermen appointed a committee to

investigate the feasibility of a survey.

The survey was endorsed at a recent meeting of the aldermen at which time a representative of the surveyors was present to arrange final plans in connection with the proposed survey. It was stated at the time that work would commence within a short time.

Situated in one of the richest agricultural sections of the country, Greenville offers splendid opportunity to the manufacturer and investor, it was said today. The tobacco industry alone, which is greater from the standpoint of production in this country than any other county of the world, presents an attraction manufacturers will find hard to turn a deaf ear to.

It was not definitely stated when the survey would get under way. The survey representative stated, however, that they would rush plans to completion as early as possible, and that would begin probably within the next several days.

Adopt Two Amendments To Australian Ballot In Legislature Today

Raleigh, N. C., Feb. 12.—(AP)—Administration cohorts carried every point today as the battle over the Australian ballot was joined in the Senate, while the House put its stamp of approval of a number of state-wide matters.

Two amendments suggested by Governor O. Max Gardner to the committee's Australian ballot bill were adopted in the Senate, which proceeded to the consideration of a flood of amendments.

Both amendments were proposed by Senator Broughton, of Wake, one of the authors of the original bill, who directed the fight of the administration forces. One adopted by a vote of 22 to 20, eliminated the committee provision allowing county officials to decide whether or not the Australian ballot should be used in county primaries, while another provided for the selection of an equal number of markers for general elections from both parties.

Senator Broughton also sponsored an amendment to do away with markers in primaries, which was adopted.

A proposal by Senator Tapp, Democrat of Lenoir, to submit the question to the voters was defeated 28 to 13.

Meantime the House approved Representative Winston's resolution to submit to the voters the question of calling a constitutional convention, and another by Representative Smith, of Wake, to submit the question of separating the judicial and solicitor circuits. This proposal was defeated in the last general election.

The Brawley bills, already passed by the Senate, were passed by the House. They give mortgages of all corporations, except public service concerns, priority over tort judgments for personal injuries.

DOLLAR DAY DRAWS LARGE CROWDS HERE

Thousands Take Advantage of Bargain Counters in This City Today.

Today is "Dollar Day" in Greenville and people from miles around have thronged the business district all day long taking advantage of the thousands of bargain counters which thrifty Greenville merchants had to offer them. Merchants late this afternoon reported, the heaviest sales for any similar occasion in years and were highly gratified at the way the shoppers took advantage of the bargain counters.

All nature seemed to conspire to make "Dollar Day" exactly what Greenville business men hoped it would be. With the mercury standing at one of the lowest points of the year, the sun peeped out from behind cloud banks early this morning and bathed the business district in its bright rays all day long. The cold didn't matter to the crowds of visitors. They came from a distance of many miles—hundreds of them—and when they left their cars were packed with bargains representing virtually every item of merchandise carried in stock in this city.

"Dollar Day" is a semi-annual occurrence in Greenville. It has been staged twice annually for a number of years under supervision of the Merchants' Association. Merchants have seen business both good and bad on different occasions, but probably never better than today. The shoppers bought liberally of stocks that had been increased to meet the demand and when the day comes to a close not many values will be left on the counters.

Only the most reasonable merchandise found its way to the counters of the twenty-four participating firms today. Everything placed on sale represented latest and most authentic creations of the mercantile world and constituted values available no other time of the year.

To meet the demand of "Dollar Day," numbers of merchants sent buyers to the northern markets to purchase additional stock to take care of their trade today. All things placed on sale sold originally above the dollar mark, so many times the amount, and offered quite an inducement to those seeking real values.

More merchants took part in "Dollar Day" this time than ever before. The two dozen firms represented some of the oldest and most reliable business houses in the city and have served the public in all big merchandising events in past years. It was believed that after today more firms would join the "Dollar Day" movement and greatly increase its importance in coming years.

Among the crowds jostling along main thoroughfares today, were numbers of people from adjoining who had come to see what Greenville had to offer for the price of a dollar. That they found the harvest rich was evidenced by the number of bundles they carried in their arms, and the expressions they left with members of the various firms.

"I was surprised to see such values on display at such a price," one lady was heard to remark. "I don't see how in the world they can afford to sell at such prices."

Looking over the values, others were impressed with the truth of the expression. The local business men had set out to establish a precedent for bargain counters and they did it with hands down. Cost was forgotten in the mad rush to supply the shoppers and many an article went far below the cost of replacement.

Several Persons Freeze To Death In Constantinople

Constantinople, Feb. 11.—(Delayed)—(AP)—Phenomenal cold and eleven days heavy snowfall have reduced Constantinople to a condition bordering on panic.

Six persons have been found frozen to death on the streets of the city. Wolves which have been terrorizing the suburbs have entered the city and one man was found half eaten on the shores of the Golden Horn.

Waterpipes are frozen and there is considerable fear of the consequences of a possible conflagration. Prices of food and coal and wood have soared, causing intense suffering. Thousands are unable to buy the necessities of life.

The opinion is expressed that if the snow continues, as it shows every sign of doing, Constantinople will be reduced to the condition of a miserable village in which the primitive struggle against cold and starvation will be the sole signs of life.

"ADS" IN THE REFLECTOR PAY

"I smoke a Lucky instead of eating sweets." Lady Grace Drummond Hay, only woman passenger on the Graf Zeppelin. "The fact that we were not permitted to smoke from the time the Graf Zeppelin left Friedrichshafen until we landed at Lakehurst only increased my appetite for a Lucky Strike, Oh, how good that first one tasted! I'm really keen for Lucky Strike—the toasted flavor is delightful. I smoke a Lucky Strike instead of eating sweets—that's what many men have been doing for years. I think it high time we women smoked Luckies and kept our figures trim." GRACE M. HAY DRUMMOND HAY The modern common sense way—reach for a Lucky instead of a sweet. Everyone is doing it—men keep healthy and fit, women retain a trim figure. Lucky Strike, the finest tobaccos, skillfully blended, then toasted to develop a flavor which is a delightful alternative for that craving for fattening sweets. Toasting frees Lucky Strike from impurities. 20,679 physicians recognize this when they say Luckies are less irritating than other cigarettes. That's why folks say: "It's good to smoke Luckies." Note: Authorities attribute the enormous increase in Cigarette smoking to the improvement in the process of Cigarette manufacture by the application of heat. It is true that during 1928, Lucky Strike Cigarettes showed a greater increase than all other Cigarettes combined. This surely confirms the public's confidence in the superiority of Lucky Strike. "It's toasted" No Throat Irritation—No Cough. Reach for a Lucky instead of a sweet. Coast to coast radio hook-up every Saturday night through the National Broadcasting Company's network. College Study Club Meets. One of the most interesting programs of the College Study club was given at the meeting Friday afternoon, with Mrs. A. D. Frank as hostess.

After the business session Mrs. Robert Wright, the president, introduced Miss McQuire, a teacher at East Carolina Teachers College, who gave as her subject "Richard Halliburton." Miss McQuire started by saying that probably all the members of the club were interested to some extent in this daring, romantic, literary vagabond.

In a very charming manner Miss McQuire told in detail about some of Halliburton's adventures, such as his swim across the evil straits between Seylla and Charybdis and his bath in the pool of the Taj Mahal. Also the speaker told of this daring youth's attempt and success in photographing Gibraltar's guns, which is positively against the rules, therefore, he was jailed for this impertinence. Members of the club feel that they are much better prepared for the coming of this great adventurer, Richard Halliburton, in April, since the program of Friday.

After the program Mrs. Frank assisted by R. J. Slay, served frozen fruit salad with accessories.

LAST PARDON BY LINCOLN IN NEW YORK

Lawyer In Possession Of Final Official Document Signed Before Assassination

John Charles Thomas, noted baritone, who will give a concert at the East Carolina Teachers' College on Friday evening.

New York, Feb. 12.—(AP)—A pardon for a prisoner, which he believes was the last paper signed by Abraham Lincoln before his assassination on April 14, 1865, is in the possession of Emanuel Hertz, lawyer and collector of Lincolniana.

Only the signature is in Lincoln's autograph. The pardon read: "Let the prisoner be released on taking the oath of December 8, 1863."

"A. LINCOLN." "April 14, 1865."

Mr. Hertz, who said the slip of paper only recently came into his possession, declared other pardons since then made he wrote in entirety, but this apparently had been prepared by someone else and signed in haste just as Lincoln was leaving for Ford's theatre where he was shot by John Wilkes Booth.

In an address before the Women's National Republican Club, Mr. Hertz read a letter written by Lincoln July 11, 1848, which he said showed Lincoln in a lighter vein than that usually associated with him.

The letter addressed to his law partner, William Herndon, read: "Dear William:

"Yours of the 3rd is this moment received and I hardly need say it gave unalloyed pleasure. I now all regret writing the serious long-faced letter I wrote yesterday. But let the past as nothing be—go it while you're young!—I write this in the confusion of the H. R., and with several other things to attend to. I will send you about eight different speeches this evening, and as to kissing a pretty girl, I know one very pretty one, but I guess she won't let me kiss her."

"Yours forever," "A. LINCOLN."

Mr. Hertz also related that in Winchester, Va., Lincoln stopped at the town hotel—the Hagyard House—and at the request of two daughters of the proprietor wrote verses in their autograph books which he composed on the spur of the moment.

To Rosa— You are young, and I am older; You are hopeful, I am not; Enjoy life, ere it grow colder; Pluck the roses ere they rot.

Teach your beau to heed the say— That sunshine soon is lost in shade; That now's as good as any day; To take thee, Rosa, ere she fade.

A. LINCOLN. Winchester, Sept. 28, 1858.

To Linnie— A sweet, plaintive song did I hear, And I fancied that she was the singer; May emotions as pure as that song set a-strir; By the worst that the future shall bring her.

A. LINCOLN. Winchester, Sept. 30, 1858.

A portrait of Mrs. Lincoln, painted while she was First Lady of the Land was on view today at the Milch galleries. It was described as the first public exhibition. The portrait is by Francis Bickness Carpenter and was painted at Mrs. Lincoln's request as a surprise for her husband.

ADOPT TWO AMENDMENTS TO AUSTRALIAN BALLOT IN LEGISLATURE TODAY

(Continued from page one) still further consideration of the measure at the day session, by moving for adjournment until tonight, but his motion was rejected.

In advocating his amendment, Senator Lawrence declared he was animated by a desire to eliminate the possible danger of federal interference in elections.

Senator Brawley, of Durham, argued for passage of the measure, declaring it would be "dangerous for the Democratic party not to pass an Australian ballot bill."

The Senate adjourned at 2 o'clock until 11 o'clock tomorrow without reaching a final vote.

With Republicans voting solidly against it, an amendment introduced by Senator Canaday, of Johnston, to permit a voter in a primary to obtain help in marking his tickets from any one he designated, was voted down, 29 to 19.

Canaday told the Senate he would not support the Australian ballot unless that amendment were accepted. Senator Womble, of Forsythe, also spoke in favor of the amendment.

Bills introduced in the Senate today were:

Broughton: To provide for Henry Month hygienists to teach in public schools and to practice Month hygiene.

Weaver: To create a tax commission for Buncombe county.

Canady: To validate certain proceedings of town of Benson.

POPE ATTENDS HIGH MASS AT ST. PETER'S

(Continued from page one) the Spanish cardinal Merry Del Val, arch priest of St. Peter's. Cardinal Del Val was secretary of state for Pope Pius X, and has been a cardinal for 25 years.

When the cardinals reached the door in the rail of the main altar, they separated and took their places in the choir stalls reserved for them.

Once the Pope had descended from his platformed throne and exchanged his tiara for a white and gold mitre and had taken his place on the throne to the left of the main altar, the solemn high mass began. The stately choir body in the world, rendered in turn "Kyrie," "Gloria," "Credo," "Sanctus," and "Angus Dei," all in the solemn and majestic Gregorian chant.

After the "Te, Missa Est," the Pope himself arose from his throne and imparted the apostolic benediction to all present. No sermon was delivered, and following the usual "prayers after mass," culminating with the beatitudes, the Pope again mounted his throne and was conveyed down the nave in the same way he had come.

Upon arriving at the tomb of St. Peter, under the massive canopy of metal and stone, he again descended, knelt and prayed for a few moments. Then he remounted the portable platform and giving his benediction right and left to the dense throng, was carried back to his private apartments in the vatican.

Illinois Observes Lincoln's Birthday
Springfield, Ill., Feb. 12.—(AP)—Here where Lincoln lies, commemoration of his birthday anniversary is becoming more and more with the passing years a solemn ceremony.

In other years those who knew Lincoln were numbered by thousands. February 12 became a day on which these men and women polished the memory of the golden moment when they had seen Lincoln pass, had heard him speak, and had felt the pressure of his hand.

If Lincoln was the greatest anecdotalist of history, he became in memory the greatest subject of anecdote; and Springfield where he lived became annually the focal point for those who had known him.

Today, more than ever before, the passing of those who had seen him and who treasured the recollection of those contacts, no matter how casual became noticeable to a degree. Young men and women who were not yet born when Lincoln died, took leading parts in the ceremonies to his memory. First hand Lincoln stories gave way to historians' comment.

Claude G. Bowers, Democratic keynote at the Houston national convention, was speaker of the day at ceremonies held in the Sangamon county court and Logan Hay, former United States Senator and president of the Lincoln Centennial Association, was to preside at both day and night programs.

The day, too, was the occasion for pilgrimages to the Lincoln tomb, hundreds coming from far away places to pay their respects.

BILIOUSNESS
Arkansan Convinced Since His Childhood That "Black-Draught Can't Be Beaten" For It.

West Helena, Ark.—"I am fifty-two years of age, and I have taken Black-Draught, when needed, all my life," writes Mr. G. L. Smith, of 253 North Third Street, this city.

"When I was just a child, my mother made Black-Draught tea, and gave it to me for colds and biliousness. It was a family medicine with us.

"After I was grown and went out on the farm, working hard, I would get a dull, tired feeling and a bad taste in my mouth. I would know then, that I was bilious. I would take a few doses of Black-Draught, and soon feel good as new.

"In later years, I have taken Black-Draught and it has helped me for constipation and biliousness, and I am still of the same belief, as when a child, that Black-Draught can't be beaten."

Thousands of men and women find Black-Draught of great help in relieving the common ailments, due to constipation, biliousness and indigestion.

Black-Draught is prepared from selected medicinal herbs and roots. A natural remedy for unnatural conditions of the system.
