## ARMY FLIERS FORCED DOWN AT DAYTON, O.

### Johnson And Stevens Reach Unofficial Altitude of 39,000 Feet.

Dayton, Ohio, Feb. 13.—(AP)—Two army fliers in an old army plane reached an unofficial altitude of 39,000 feet from Wright Field yesterday, and brought down with them an account of a condition above the clouds which meteorologists long have suspected but never have been able to prove.

The fliers, Lieut. Johnson and Capt. A. W. Stevens, pilot and photographer, were forced down by depleted fuel at Horton Field, Columbus, Ohio.

The instruments attached to the plane, used in many test and altitude flights, indicated that they had reached an altitude of 39,000 feet, the record of 38,205 feet held by Lieut. C. C. Champion, of the United States Navy. No record was claimed because rules of the Federation Aeronaute Internationale prescribe that the plane at the field from which it left the earth.

The two pilots blamed their failure to establish a record for a two-man plane on another phenomenon of the air: excessive visibility.

"The ordinary horizon line when flying is between seven and eight thousand feet," they explained. "After we got above the clouds of ice we couldn't see the ground and the horizon line above must have been at least 50,000 feet—and we didn't know where we were."

After they had reached the pinnacle of their flight, Johnson and Stevens were flying in a temperature of 76 degrees below zero. They looked below and saw what happened to be billows of ice crystals, hung in midair and resembling the formations of a cave.

The aviators described the spectacle as a dazzling sight, with the light rays broken by the fragile crystals into all the colors of the spectrum. In order to verify this amazing mirage of ice crystals, they dipped again and again into the crystals, and Lieut. Johnson, to make more certain, removed a glove and stuck his bare hand from the cockpit. It was pierced as though by a thousand needles. Not satisfied, Capt. Stevens exposed part of his face, and today he bore a huge ice blister on one cheek as a souvenir.

Capt. Stevens made several pictures on the flight but the results are not available. Exhaust from the engine fouled the lens several times, and a thick blanket of snow which covered the territory over which they flew made his photographs of little value in showing the earth from the great height.

The aviators plan another flight within a short time, when they expect to establish a record. Two important changes in their plane and their equipment will be made first. Exhaust pipes from the engine will be extended along the fuselage to carry the fumes beyond the cockpits, for one thing, and the other improvement is development of electrically heated goggles which served until the lowest temperature was reached, when they became foggy.

The goggles were pronounced the best used in altitude flights so far, however. They functioned at a temperature of 60 degrees below zero. More coils are to be added to provide greater heat.

## Lindbergh Seeks Missing Fliers

Miami, Fla., Feb. 13.—(AP)—Pan-American Airways, Inc., announced here early this afternoon that R. I. Duten and Lieut. Steven Callaway had been rescued by an automobile ferry 60 miles northeast of Key West from the plane in which they were forced down yesterday. Neither had been harmed although they had drifted all night in the disabled craft.

Miami, Fla., Feb. 13.—(AP)—Col. Charles Lindbergh left the Pan-American airport by plane here at 12:15 o'clock to go in search of Lieut. Steven Callaway and R. I. Duten, whose amphibian plane was forced down to the water 35 miles off Key West last night.

Lindbergh decided to make the flight in an attempt to aid in the location of the flier after he had held a conference with officials of the Pan-American Airways here. He departed two hours and 17 minutes after his arrival from Havana and indicated he would go to Key West and from there to Lone Key, near American Shoals.

He was accompanied by Col. John Hambleton, who had this morning completed the return flight with Lindbergh from Panama, a radio operator and a mechanic. Hambleton made the trip as an observer.

## BALTIMORE MAN DIES IN INDIA

Bombay, India, Feb. 13.—(AP)—Edward Grave of Baltimore, a passenger on the steamship Resolute which arrived here yesterday on a world route, died suddenly today.

## ESCAPES FROM SUNKEN SUBMARINE

Chief Torpedoman Kojinowski, said to be the first man to escape from a submerged submarine without exterior aid. Tests were conducted off Key West, Fla., with the S-4.

## Bombs and Threats of Kidnapping Reported From Troubled Mexico

Mexico City, Feb. 13.—(AP)—Bombs and threats of kidnapping today placed heavy police guards to be placed about the homes of prominent figures in public life.

Against this background there appeared in today's newspapers here a second signed statement of President Emilio Portes Gil saying the government was convinced that "exalted fanatical (Roman) Catholics" were responsible for the attempt made against his life Sunday.

Deportation of a Swede, an Italian and a counsellor of Bolivia were ordered after expression of pro-Catholic sentiments.

Three more bombs were discovered in the offices and homes of other prominent Mexicans whose names were not revealed. Police meanwhile have made no arrests in connection with the bomb found in the offices of Governor Alberto Guaymas of Nuevo Leon Sunday night.

Motions in the Senate, but were rejected. Senator Johnson, Democrat of the Australian ballot bill, opposed adjournment, saying a vote could be reached in a short time.

The House reversed its position on the proposal to submit to the voters the question of calling a constitutional convention, defeating the Winston resolution, 54 to 47. It had approved the resolution on second reading yesterday, 94 to 15.

## Senate Still Tinkers On Australian Ballot; Passes Second Reading

Raleigh, N. C., Feb. 13.—(AP)—Carrying various amendments, the Australian ballot bill passed second reading by the Senate today, 39 to 9. It will come up for third and final reading tomorrow.

Amendments were adopted, giving voters in primaries and general elections to have members of their families in the voting booths with them, and in primaries, to ask assistance from any person desired, subject to the approval of the election officials.

Various amendments proposed by Republicans were rejected, although the Republicans voted solidly with the administration forces yesterday in the passing of three amendments suggested by Governor Gardner.

Motions to adjourn were made several times in the Senate, but were rejected. Senator Johnson, Democrat of the Australian ballot bill, opposed adjournment, saying a vote could be reached in a short time.

The House reversed its position on the proposal to submit to the voters the question of calling a constitutional convention, defeating the Winston resolution, 54 to 47. It had approved the resolution on second reading yesterday, 94 to 15.

Senators in a primary would be entitled to ask assistance in marking their ballots from any person desired, subject to the approval of election officials, and could be accompanied in the voting booth by members of their families under an amendment to the Australian ballot bill adopted by the Senate today.

The amendment was offered by Senator Cannaday, Democrat of Johnston, and was approved without a record vote. Senator Johnson, Democrat of Robeson, who was a co-author of the original secret ballot measure, spoke against the change. He was joined by Senator McKeithan, of Cumberland.

McKeithan declared the amendment "strikes at the heart of the Australian ballot and permits an unholy alliance between poll workers and the voters."

Adoption of this amendment followed rejection of a number of other proposed changes, including several endorsed by the Republican membership of the Senate.

An amendment requiring inde-

## SHIP RESCUES ALLOWAY CREW IN HEAVY SEA

### Japanese Steamer Waiting to Take Off Members Of Another Disabled Vessel.

Dutch Harbor, Alaska, Feb. 13.—(AP)—The Japanese steamer Nanko Maru hovered off the rock-bound Aleutian Islands fighting a heavy storm today as it awaited an opportunity to rescue 25 men aboard the doomed Japanese freighter Heiyo Maru. Not far away a third Japanese vessel, the Alloway, with one crazed member of her crew aboard was being driven toward destruction on the rocks.

The Nanko Maru reached the Heiyo Maru late yesterday, several hours after the latter had broadcast weak signals that she was being pounded to pieces on the rocks of Unimak Island. Because of the heavy seas the rescue vessel was unable to assist her but stood by, waiting for the storm to subside.

Thirty-three members of the crew of the Alloway were picked up in lifeboats by the steamer Montauk yesterday after an unsuccessful five day fight against the storm. The Montauk had been trying to tow the Alloway to Dutch Harbor when the low line broke and the disabled vessel began heading for the rocks of Unimak as the Montauk began to back away. The helpless ship crashed into the Montauk but the latter vessel made a safe getaway.

The crazed member of the Alloway, a man named Poley, refused to leave the doomed freighter. The Alloway's dragging anchors caught on a rock a few yards off shore and at last reports she was holding there with Poley still aboard. The Montauk reported that the anchors would soon give and that the Alloway would be pounded to pieces.

Both the Alloway and the Heiyo Maru were on their way to the Orient. The Alloway was to have been scrapped upon reaching her destination.

## Perishing Will Remain Indoors For Few Days

Paris, Feb. 13.—(AP)—General John J. Pershing will remain in doors for a few days as a precaution against a relapse after a slight attack of grippe which kept him in his cabin during most of this trans-Atlantic trip, ended yesterday.

He will then begin his work in connection with the commission to provide battle monuments in France which, he explained, he expects to keep him in France for some time.

## Irish Lawyer Wins Race Against Death

New York, Feb. 13.—(AP)—A race to reach the bedside of his wife, seriously ill of pneumonia, was won by Arthur Rose Vincent, lawyer, of Kilmaheny, Ireland, yesterday, but she died a few hours later.

Mrs. Vincent, accompanied by her two children, Elizabeth, 14, and William, 9, arrived in this country last Wednesday on her way to San Francisco to visit her father, William B. Bourn. She became ill on the trip across and her husband boarded the next steamer. He left the Mauretania on a special trip to Quarantine at 1:30 yesterday morning to reach her side as soon as possible. Mr. Vincent and the children will accompany the body to San Mateo, Cal., for burial. The marriage of the couple in San Francisco in 1900 was one of the outstanding social events of the Pacific coast.

## Hoover To Return To Capital City Early Next Week

Miami Beach, Fla., Feb. 13.—(AP)—President-elect Hoover will return to Washington either next Monday or Tuesday, it was announced today at his pre-inaugural home on Belle Isle.

While Mr. Hoover had indicated before he left Washington that he expected to return soon after the middle of February, he had not stated this intention publicly, and the announcement today came as somewhat of a surprise.

It was made by Lawrence Richey, assistant secretary to Hoover.

"Mr. Hoover stated before leaving Washington that he expected to return here about February 15 or 20 in order to complete some work and preparations for the new administration," the announcement said. "He expects to leave Miami the 18th or 19th."

## Report Attempt To Assassinate President Gomez

Bocota, Colombia, Feb. 13.—(AP)—A circumstantial account of an attempt to assassinate President Juan Vicente Gomez, of Venezuela, was telegraphed here today by a newspaper correspondent at San Jose De Cutata, a Venezuelan frontier town. The story said that the president escaped harm.

The story related that President Gomez, accompanied by an escort, was riding in the environs of Maracay, a suburb of Caracas, the capital of Venezuela, when six men opened fire on the car. The escort returned the shots and all the conspirators were killed in the fight.

## MERCHANTS TO GIVE BANQUET

### Annual Meeting Of Association To Be Held Here Tomorrow Evening.

Hon. J. G. Dawson of Winston, will deliver the principal address at the annual meeting and banquet of the Greenville Merchants Association at the Woman's club building tomorrow evening at 7 o'clock. Mr. Dawson is one of the best informed men in this section regarding the merchandising business and will come to Greenville prepared to furnish considerable information in this connection.

The annual gathering of the merchants will be featured by probably one of the most entertaining programs in years. This will consist of speeches by other prominent men, a musical program, and report of activities of the organization during the past year.

Another prominent speaker of the evening will be D. Holloman, of Raleigh, head of a prominent business firm of the Capital city. He also is well informed concerning activities of the state merchants and will outline some of their needs in his talk here. E. W. Griffin, president of the Greenville association, will preside.

The local association has experienced remarkable growth during the past year. Aside from adding thirty new members, the organization has been active in development of the community in a number of ways. It has been instrumental in the initiation of movements which have had a decidedly favorable effect in the community's progress.

Much information in connection with the year's work of the association will be contained in the annual report of Secretary C. B. Rowlett.

The program for tomorrow night follows:

- Invocation—J. G. Clark.
- Dinner.
- Welcome—President E. W. Griffin.
- Our Commercial Growth—B. B. Sugg.
- Vocal Solo—Mrs. J. Knott Proctor.
- Address—Hon. John G. Dawson of Winston.
- Industrial Survey—James Jenkins Washington, D. C.
- Our Banking Growth—J. H. Waldrop.
- "Large Oaks" from Little Acorn Grow—K. W. Cobb.
- Address—D. Holloman, Raleigh, N. C.
- Business session.

## Arrest Criminals At Philadelphia

Philadelphia, Feb. 13.—(AP)—One of the most highly organized gangs of criminals in the city was believed to be under arrest today in the person of six men whose confessions, according to police, cover the recent slaying in Baltimore of Benjamin Williams, aged grocer, and seven robberies in Philadelphia.

## Lindbergh Completes Flight From Panama

Miami, Fla., Feb. 13.—(AP)—With the same calm unconcern that has marked all his extraordinary exploits of the air, Col. Charles A. Lindbergh closed another page of history today when he landed here, ending his return flight from Panama with the mail.

There was a new page before him however, as the Flying Colonel is to be married. Confirming rumors which persistently followed him and which he had refused to discuss, his engagement to Miss Anne Morrow, daughter of the American ambassador to Mexico, was announced last night at Mexico City.

Characteristically, the shy Lindbergh still declined to comment and would only discuss projected plans for continuing his aerial accomplishments.

When the wheels of his huge amphibian plane touched Florida soil at 9:58 a. m., today, the colonel had linked the two Americas in both directions in the air mail chain and had clipped from three to 12 days from the old sailing route. This epoch began on February 4, when Lindbergh winged his way southward to open the route which the Pan-American Airways plan to extend with his aid into the South American continent.

As technical advisor to the Pan-American Corporation, Col. Lindbergh was chosen to pilot the first plane over the long island, water and isthmus trail which the projected aerial highway to knit closer in the future the commerce and friendship of the western world.

## MR. COOLIDGE SIGNS BILL FOR MORE CRUISERS

### President Adds Signature To Construction Measure Despite Objections.

Washington, Feb. 13.—(AP)—President Coolidge today signed the naval building bill calling for the construction of fifteen cruisers and one aircraft carrier.

The President's approval was given in spite of the measure's critics requiring that all vessels be laid down by July 1, 1931 which he had opposed. His opposition to this provision was based on the view that it called for expenditures at future dates with no advance knowledge as to the condition of the treasury when they would be made.

In addition to providing for the construction of the vessels the bill calls for an international agreement establishing the rights of neutrals at sea in time of war, under an agreement sponsored by Chairman Borah of the foreign relations committee and Senator Reed of Missouri.

The President affixed his signature to the measure, the last major legislative project of his administration, a few minutes after he had conferred with congressional leaders on expenditures which must be made under it.

## NEGRO FOUND DEAD MONDAY

### Neil King Believed To Have Died From Exposure Near Ballard's X-Roads

Neil King, 50-year-old negro, was found dead in the woods Monday near Ballard's Cross Roads, according to information reaching this city today.

The death was investigated by Coroner E. S. Williams of this city, and the verdict of the coroner's jury was to the effect that King came to his death from exposure. Examination of the body was said to have revealed no indications of foul play.

King was reported to have been drinking heavily Sunday afternoon. He was seen in several places, about 8 or 9 o'clock Sunday night. King was heard yelling by residents nearby. They paid no attention to the noise because it was known King was on a "spree."

Sometime later King was tracked from the highway down a small roadway to the woods. He fell into a ditch containing about two feet of water. His camp was found at this point. Marks in the mud showed that he had crawled out into the woods on his hands and knees where his lifeless body was later found.

The supposition is that the negro had been so intoxicated that he fell asleep and died from exposure. His clothing was wet when the body was found.

Coroner E. S. Williams spent practically all day yesterday investigating the case and reported today that no indications of foul play had been found.

## GASTONIA YOUTH COMMITS SUICIDE

Gastonia, Feb. 13.—(AP)—Devitt McDaniel, 15, was found dead early this morning with a wound in the heart from a shotgun which is believed to have been self-inflicted.

The youth, who lived in the Smyre mill community here, left a note to a girl friend indicating that he had taken his own life. The body was found near the home.

## Football Only A Bubble

New York—Football eminence is only a bubble. This is no less authority than the Rev. Charles L. O'Connell, president of the University of Notre Dame. He so remarked in a speech here denouncing the excessive and almost exclusive emphasis given the university by the game.

## Urges Arms Ban

Sen. Arthur Capper of Kansas has prepared a resolution which would have the United States institute an armament embargo against any country violating the Kellogg peace pact.

## LINDBERGH TO WED HEIRESS

### Famous Flyer's Engagement To Daughter Of Ambassador Morrow.

Mexico City, Feb. 13.—(AP)—Mexicans hoped today that Colonel Charles A. Lindbergh and Miss Anne Morrow, daughter of Ambassador Dwight W. Morrow, would be married in this country's capital. It was here that the romance of the famous aviator and the heiress began.

The following was issued at the American embassy last evening:

"Ambassador and Mrs. Morrow have announced the engagement of their daughter, Anne Spencer Morrow, to Colonel Charles A. Lindbergh."

Efforts to have the ambassador elaborate on the statement, were unavailing. He was asked as to probable time and place of the marriage but persisted in a smiling silence, broken only finally by the remark:

"All you can say on such points is mere guesswork. I think your guess will be good if you say the time is not yet fixed."

News of the engagement which had been often rumored—spread quickly over the city and everywhere it was presumed that the wedding would take place in this capital. May or June was given in usually authoritative sources as the time.

Former President Calles, who welcomed Colonel Lindbergh at Valbuena field at the completion of his good-will flight from Washington that endeared him to Mexicans, said:

"This is a great pleasure to me. As you know I am very fond of these young people."

"As Mexico has been the scene of their romance I sincerely hope they will be married in this country."

"Certainly their own people cannot hold them nearer their hearts and wish them more happiness than we Mexicans. These two young people are very dear to us. They have our best wishes for, and I know they will have, a happy married life."

Senora Ernestina Calles Robinson, daughter of the ex-president and friends of Miss Morrow, was especially happy over the engagement. "I told you so," she remarked.

Miss Morrow, who arrived with her mother yesterday from the United States, after a seventeen hour delay at the scene of the dynamiting of the presidential special Sunday in Guaymas, was extended felicitations by a small group of intimates who dined at the embassy last night.

Enroute to Mexico City Miss Morrow and her mother stopped at St. Louis, and after special arrangements had been made visited the collection of Lindbergh trophies there. The aviator's fiancée appeared particularly interested in the souvenirs and trophies of his Latin-American flights.

In view of the announcement of the engagement Mexicans look for two visits shortly, one from Colonel Lindbergh himself, and the other from his mother, Mrs. Evangeline Lindbergh.

Mrs. Lindbergh left Constantinople a few days ago, where she taught chemistry in the American College for the United States. It is presumed that he somewhat early return was made in view of her son's approaching marriage.

Football Only A Bubble. New York—Football eminence is only a bubble. This is no less authority than the Rev. Charles L. O'Connell, president of the University of Notre Dame. He so remarked in a speech here denouncing the excessive and almost exclusive emphasis given the university by the game.

## DEATH TOLL IN EUROPE IS ON INCREASE

### Arctic Blanket Shifts To England And France, Causing Extreme Suffering.

London, Feb. 13.—(AP)—Westward shifting of Europe's Arctic blanket today added France and England to the extreme sufferers from cold unprecedented in continental weather records. Deaths on the continent continued to increase.

"Very cold" was the forecast for the British Isles for the next 24 hours. In France there was a heavy snowfall in seven times unmy Rivera, and it was feared the Marne and Seine would freeze over.

Continued distress was reported from Germany, Holland, Scandinavia, Austria and the Balkan countries. There was a lessening in severity of the weather in Constantinople, however, and the mitigation was gradually spreading westward and offered the promise of relief there.

Warsaw, Poland, reported an entire Gypsy band of 31 men, women and children, frozen to death in their camp near Lublin, while the Express printed today a Vienna dispatch relating that a pack of 100 wolves attacked a school at Jarina and killed 16 children, two soldiers and four gendarmes. Seven died at Antwerp. Although an accurate estimate of casualties is impossible it is certain they will run into hundreds.

Rivers were frozen over today, sea channels obstructed, steamers, ferries and cargo boats alike frozen in, and communication over all of continental and insular Europe obstructed.

The lower part of the Thames estuary displayed piles of ice hummocks, although the river was free of ice at London. Heavy snowfalls were predicted to match those in Wales and South Scotland, which were already snowed and ice bound. At Stranraer, Scotland, where early steamers start for Belfast, train service ceased Monday morning.

Snow plows attempted to clear the tracks where drifts were piled 13 feet deep.

Paris shivered this morning in a temperature of five degrees above zero. Fahrenheit. Eastern France was experiencing weather well under zero. The weather bureau predicted continued severe cold for as long as even a week.

The main channels of the Seine and Marne were free of ice, although their backwaters in Paris and vicinity were frozen over. Should the cold continue the rivers themselves are expected to freeze. In eastern France the Meuse and some smaller rivers as well as canals, were frozen.

The cold in England and the scope of the frost were causing London newspapers to devote hot sentences and paragraphs to phases of the storm which would let columns under other conditions.

Berlin had alarming reports of ice vessels frozen in the western Baltic, some without fuel and others damaged by ice. Airplanes were patched with food supplies. Drives of wild boars attacked villagers in southern Belgium. A temperature of 76 degrees below zero, Fahrenheit, prevailed in some places in Poland.

## Increase Reward For Murderer Of Windsor Officer

Dindsor, Feb. 13.—(AP)—Reward totaling \$500 had been offered today for the apprehension of Percy Miller, negro, alleged slayer of Chief of Police Pat White.

Chief White was killed while taking the negro to jail after arresting him Sunday afternoon while he was engaged in a game of dice.

This morning it was believed for a time the slayer had been taken when a negro was found on a train stopped on six-mile ridge over Albarmarle Sound, but when the man was taken to Eleton and viewed by Bertie county men who knew Miller, they said he was not the man wanted.

John Cooper, sheriff of Bertie county, today prepared to make a widespread distribution of posters describing the negro. It was believed that Miller probably had escaped from Bertie county, though an active search was being continued.

Listen To This. Belgrade—Arctic weather means nothing to Spyridon Polychronidis, minister from Greece. Pedestrians tried to rescue him from among the ice cakes of the Sava river. "I have done this for the last 40 years," he exclaimed, "I am alone." After an hour's swim he walked to the legation bathes and coasted.

# MINOR CASES HANDLED BY COURT HERE

Fines And Suspended Sentences Feature Regular Session Of County Court.

Several cases were disposed of at the regular weekly session of County Court in this city yesterday. Most of the charges were of a minor nature and carried fines and suspended sentences. Judge Whedbee presided.

Jim Harris, colored, charged with carrying a concealed weapon, was released upon pay of \$50.00 and cost.

V. A. Jackson was given a thirty days' suspended sentence to the county roads on a charge of giving worthless checks.

I. A. Norris, charged with reckless driving and assault with a deadly weapon, drew a thirty days' suspended sentence to the county roads. He was ordered to pay \$106.83 to the prosecuting witness for damages to his car. He also paid a fine of \$50 and cost and was ordered not to drive again in 90 days after being convicted of driving while drunk.

Primus Cobb, colored, charged with assault, was given a two years' suspended sentence to the roads; sentence to begin any time within two years in case of violation of any of the criminal laws.

Willie Knight, colored, charged with larceny, was sentenced to 90 days in jail, but judgment was suspended on payment of \$25.000 and cost.

M. J. Taylor paid a fine of \$100 following conviction of a charge of assault with a deadly weapon.

Judgment was suspended in the case of M. E. Luper, charged with giving worthless checks.

## Cottonseed Industry Shows Improvement

Washington, Feb. 12.—(AP)—The Census Bureau announced today that cotton seed crushed from August 1 to January 31 totalled 3,176,517 tons compared with 3,580,215 tons in the same period in 1928 and cotton seed on hand at the mills January 31 totalled 999,138 tons as compared with 790,990 tons a year previous.

Cotton seed products manufactured during the period and on January 31 included:

Crude oil produced 1,151,322,415 pounds compared with 1,118,997,136 pounds last year and on hand 511,161,749 pounds compared with 539,445,130 pounds a year previous.

Refined oil produced 932,722,545 pounds compared with 853,194,707 pounds last year and on hand 511,161,749 pounds compared with 539,445,130 pounds a year previous.

Other products included in the report showed the following figures for the August 1 to January 31 period as compared with same period last year.

Cake and meal 1,666,224 tons compared with 1,594,369; linters, 777,525 running bales compared with 658,056.

**Mrs. Brinkley Ill.**  
Friends of Mrs. J. Frank Brinkley will regret to learn that she is ill at her home on West Fourth street.

**Mrs. Coward Ill.**  
Friends will regret to learn that Mrs. H. L. Coward is quite ill.

**MRS. LONG RETURNS FROM HOSPITAL**  
Mrs. Annie Long has returned from Washington where she has been in the hospital. Her friends will be glad to learn of her improvement.

**PRAYER SERVICE AT METHODIST CHURCH**  
There will be prayer service tonight at Jarvis Memorial Methodist Church. Chapter for study, Mark twelve.

**Literary Department Meets.**  
The Literary Department of the Woman's Club met with Mrs. D. L. Mangum on Tuesday afternoon, February 12th. This being Abraham Lincoln's birthday, the chairman, Mrs. Mangum, very fittingly opened the meeting by having all sing America.

After roll call and minutes of the last meeting Mrs. Frank introduced seven new members of the club, five of whom joined the Literary department, Misses Miller, Holtz, Gray, Greene, Rose and Cassidy. Misses Newell and McGee are joining another department, but we were indeed glad to have them as visitors. The club is very fortunate in securing these new members. All are members of the college faculty.

Mrs. M. K. Fort, who was in charge of the program for the afternoon introduced Miss Greene who reviewed in a most charming manner "Francis Villon" by D. B. Wyndham Lewis. This was enjoyed very much by everyone.

At the conclusion of the program the hostess, assisted by Mrs. H. C. Sugg and Miss Mildred Mangum, served delicious refreshments, carrying out the Valentine idea, which was very much in keeping with the decorations of the home.

**Colonel Skinner Ill.**  
The many friends of Colonel Harry Skinner will regret to learn that he remains quite ill at his home on Fourth street.

**Mrs. Moore Club Hostess.**  
Yesterday afternoon at her home on West Fourth street, Mrs. A. J. Moore delightfully entertained her bridge club.

Early spring flowers were used for decorations.

Mrs. E. E. Raul was awarded an attractive perfume bottle for high score. Mrs. L. W. Gaylord was given earrings for low score.

A tempting salad course was served at the conclusion of the game.

Mrs. H. L. Hodges, Mrs. J. S. Picklen and Mrs. E. J. Garrett were guests.

**SEVERAL REALTY TRANSFERS HERE FIRST OF THE WEEK**  
The following deeds of transfer have been filed in the office of the register of deeds for registration since the report of yesterday:

## WRIGHT TO ATTEND INSTITUTE AT RALEIGH

Dr. Robert H. Wright will leave for Raleigh tomorrow morning to attend the Institute on Parental Education. He is to preside at the meeting Thursday morning at which time he will present Dr. English Bagby, of the University of North Carolina.

On Saturday evening in Raleigh, he will attend the wedding of his niece, Miss Margaret Wright. William Wright will be one of the groomsmen in the wedding.

## Mills School News

Last Saturday night the boys and girls at Mills gave a tacky party. Many of the older people were present to enjoy the fun. The judges chose William Harvey Mills, pupil of the primary grades, as the winner of the prize.

The following verses were composed by the fourth, fifth and seventh grades as they excitedly watched the snow fall on last Tuesday: It is snow all around. On the trees and on the ground. On the house-tops and over all. See the pretty snowflakes fall!

—Louis Jones.

Pretty little snowflakes Dancing through the air Coming to the earth so Bleak and so bare. It makes a nice warm blanket So soft and so white. Look! there goes a snowbird. What a pretty sight!

—Esther Jones.

Along comes a little bird. He hops up to my door I'll give him a little crumb. Look! he lingers and asks for more. Because the snow is everywhere. And his little heart is cold and bare.

—Sallie Stocks.

The following are the names of those who are on the honor roll for the month:

- Fourth Grade—Femie Laughinghouse, Miriam Stocks, Lewis Jones.
- Fifth Grade—Bonnie Williams, Bessie Smith.
- Seventh Grade—Lula Mae Evans.

## THOMAS HAS OVATION IN ST. LOUIS, MO.

Newspaper reports from St. Louis have just reached here that John Charles Thomas, the great baritone who will sing at East Carolina Teachers College, has just had a real ovation in that city. The three leading papers have enthusiastic reports, referring to his reception as "a furor," and giving the highest praise to his voice, his personality and his program in the concert he gave there a few nights ago.

## What Congress Is Doing Today

(By the Associated Press)  
Wednesday:  
House and Senate in joint session to hear counting of electoral votes.  
Senate commerce committee considers proposed sale of government ships to Paul W. Chapman, Inc.  
Senate immigration committee has before it proposed postponement of national origins clause of immigration act.  
House has consent bills on its calendar; Senate Caraway bill.

Tuesday:  
Senate discussed Caraway bill to prevent sale of cotton and wheat in futures markets.  
Senator Wheeler of Montana charged efforts were being made to

halt investigation into bureau of Indian affairs.  
House passed \$6,000,000 farm relief bill for storm-stricken southeastern states.  
Shipping Board recommended to Senate commerce committee that government ships be sold to P. W. Chapman, Inc. for \$16,082,000.

**Sans Souci Club Meets.**  
One of the most enjoyable meetings of the Sans Souci club year was held on Tuesday afternoon, Feb. 12th, at the lovely new home of Mrs. L. C. Skinner, on Fifth street. Routine business was attended to under the capable management of the club president, Mrs. Wooten. Mrs. J. H. Waldrop was welcomed as a guest for the remainder of the club year and Mrs. Litchfield, Mrs. Hodnett and Mrs. Parish as guests for the afternoon.

The meeting was then given into the hands of the hostess who also had the program for the afternoon. Mrs. Skinner had as her subject the American home, and gave a most inspiring paper on the ideal home—a home where there exists that atmosphere of love and understanding which tends to teach all within the home a true sense of the values of life. Out of such an atmosphere where the home is greater than the house, where the spirit is finer than the furniture, come those who are destined eventually to become the great of our land.

Mrs. Skinner handled her subject as only one can who appreciates the finest things of the home and knows how to make them uppermost in her own life.

Mrs. J. S. Picklen and Mrs. E. B. Ferguson assisted in serving a frozen salad course with hot coffee.

Get behind the wheel—and Get the facts

**Test Buick**  
against any automobile in the world—in all elements of Performance — let results on the road determine your choice!

Winning more than twice as many buyers as any other automobile listing above \$1200 . . . by completely exploding the theory that "all cars are the same" and that it was next to impossible for any car to score a revolutionary advance in performance!

That is the achievement of the thrilling Buick of today; and that is the basic reason why Buick makes this simple, straightforward suggestion to motor car buyers—

Take a Buick—test it in direct comparison with any other car—let the test embrace all elements of performance. . .

Thread through traffic. Soar over the hills. Throttle down to a walking pace. Rise to a brilliant sprint on the straight-away. Make a thoroughgoing comparison of power, getaway, swiftness, smoothness and stamina, in order that you may obtain full knowledge of Buick performance leadership.

Get behind the wheel and get the facts. With the facts in hand, we know you will get a Buick!

Buick Motor Company, Flint, Michigan  
Division of General Motors Corporation

COUPES, \$1195 to \$1875 — SEDANS, \$1220 to \$2145 — SPORT CARS, \$1225 to \$1550  
These prices f. o. b. Buick Factory. Convenient terms can be arranged on the liberal G. M. A. C. Time Payment Plan.

submitted to those who have to pay for them, and the General Assembly will be in session every two years to provide for any real emergency needs, or to modify the general prohibition if experience should develop sufficient cause to do so.

"The total indebtedness of the State, county, municipal and other governmental agencies of North Carolina now reaches \$539,720,390, and a number of bills are pending to increase county indebtedness in the present General Assembly, some of them, as in Wake, to fund deficiencies for current expenditures. There is no sound reason why any bonds should be issued anywhere except for permanent improvements, and then only by a vote of the people. It is high time to call a halt.

"Excluding the North Carolina highway bonds, which will be paid by the gasoline and auto license tax, North Carolina's State debt is \$20 per capita, against an average for all States and for all purposes of \$12 per capita. This indebtedness exceeds that of any other State except New York, and on a comparative basis of wealth exceeds all States except South Dakota and Oregon, and is four and a half times that of the average of all other States.

"Do not these figures demand pause and calling a halt?"

**PULLING TOGETHER**

It was a big day in Greenville and it only goes to show what can be accomplished when everybody pulls together. The semi-annual Dollar Day staged here yesterday under the auspices of the Merchants Association and participated in by a larger number of merchants than had ever before taken part was declared to be the most successful ever held in this city. This is a fine example of what co-operation and united effort can do. The success of the merchants in these trade events can be duplicated along other lines of endeavor in our community by everybody working and pulling together. It's a good plan. Let's apply it to all our civic undertakings.

**TIME TO CALL A HALT**

The News and Observer is right in declaring that it is high time to call a halt on the issuance of county or municipal bonds without the people whose duty it will become to pay the bonds have been given a say in the matter.

It is wise counsel that the Observer gives in the following comment on the tax commission's recommendation regarding this matter of the issuance of bonds: "At last the legislators have a printed copy of the Tax Commission report. It required a long trip of the secretary of the Commission to Indiana to secure the prompt and correct printing to get it ready before the Legislature adjourns. Such is the unwise policy of sending State printing to Indiana.

"As before stated in The News and Observer from advance sheets, this report contains very valuable information and some excellent suggestions. Among them all probably no one is wiser than set forth in this statement: "We suggest that the General Assembly guard, with something more than casual courtesy, proposed authorization for additional bond issues by local governments without a vote of the people. And in view of the extreme limits of indebtedness already reached, we recommend amendment of the county government laws and the municipal finance act by prohibiting bond issues for any purpose without submission to a vote of the people. We believe that this policy ought now to be given a trial, until public debt and tax rates are restored to a more reasonable basis. The time has come when we need not fear a legislative act of this sweeping character. Pressing needs could still be

of visiting the city this time, make it a point to come next time, and be one of hundreds to go home satisfied with your purchases.

"That industrial survey to be made in Greenville should bear much fruit," declared a citizen today, speaking of the necessity of putting advantages of the community before the outside world. "Greenville has many resources and possibilities, the investor and manufacturer would like to know about. Facts in this connection will be brought to the forefront in the survey and will be placed at the disposal of those desiring to locate manufacturing plants in progressive communities.

"Other cities have found the survey profitable. It stands to reason Greenville should be situated as it is in one of the greatest bright leaf tobacco producing counties in the world. "It will require right much time to get all information before the public. But after it this happens, watch the old town go forward as she has never gone forward before."

**To Miami By Plans.**  
 Kinston, Feb. 13.—Dr. Albert Parrott and D. Eugene Wood of this city, will fly to Miami for the Stribling-Sharkey fight. Dr. Parrott will have many hours in the air. Wood will have his first experience. In the event of an accident and one of them survives the situation will be well cared for. The doctor is a surgeon and Wood an undertaker. The men plan a four-day trip. They expect to fly from Kinston to Miami in seven hours. They will spend two days visiting Harvey C. Hines of this city, who has a house at Miami Beach, and other friends seeing the fight. They will return here the fourth day.

**Why He Succeeded**

Honored politically and professionally, during his lifetime, Dr. R. V. Pierce, whose picture appears here, made a success few have equaled. His pure herbal remedies which have stood the test for many years are still among the "best sellers." Dr. Pierce's Golden Medical Discovery is a stomachic alterative which makes the blood richer. It clears the skin, beautifies it; pimples and eruptions vanish quickly. This Discovery, or "G. M. D." of Dr. Pierce's puts you in fine condition. All dealers have it in liquid or tablets. Send 10 cents for trial pkg. of tablets to Dr. Pierce's Clinic, Buffalo, N. Y., and write for free advice.

# LOCAL CAGERS TAKE ANOTHER

Greenville's fast traveling basketball team went to Elizabeth City last night and took the home team into camp for a score of 44 to 13. This was considered more game than the one here, when the locals totaled 77 points against 13 more for the Citizens. Greenville started off with a rush that swept the opposition completely off their feet, running up 22 points in the first quarter against a zero for Elizabeth City. The reserves were called in during the next period, and did almost equally well, but Greenville just simply got tired of throwing the ball through the basket, and tossed it around instead. It saved the referee work, too.

For the last five game, one of Greenville player has each time, scored enough points to outdistance the other team. Last night was no exception to the rule, Respass being the main cog in the scoring machine. He has done the same thing once before and-Bostic, Burnette, and Hearne each have topped the other team once.

Bostic was runner up with 10 points last night, and Burnette and Hicks had 8 each. Capt. Hicks did not feel the need of putting as much of his time into a guarding game, and showed that he has lost none of his skill in riving them.

Thursday the boys travel to Rocky Mount to play the return engagement there. Last night Rocky Mount played the tightest sort of game with Roanoke Rapids, which was only won by two points after the playing of two extra periods. This was in Roanoke Rapids, and proves that Rocky Mount will give up plenty of trouble tomorrow. Next Tuesday, we play hosts to Wilson here, and Friday, to Washington. Besides these games, one of which is hardly likely to develop into a real contest, negotiations are under way to bring here one of the best teams in the south, for a game, which, if arranged, will set the whole district agog with excitement.

Greenville (44)	Elizabeth City (13)
Respass (18)	Davis (Tucker)
Bostic (10)	Little (8) (Crow)
Burnette (8)	Ambrose (4) (Hearne)

## New Texas Coach

Francis Schmidt of University of Arkansas has accepted a post as head coach at Texas Christian university, Fort Worth, Texas.

## SHARKEY AND STRIBLING TRAINING HARD AT MIAMI

Miami Beach, Fla., Feb. 13.—(AP)—The give and take industry took on new activity today with leather padded fists flying in the training camps of both principals in the February 27 battle of Miami Beach.

The preliminary training stage of rinning cups with golf balls and luring fish with shink hooks safely passed. Jack Sharkey and Young Stribling were hard at work at the business of laying on the gloves in strenuous sessions with sparring partners and the punching bags.

Back from the everglades where he has been sparring with swamp water fish for several days, Young Stribling began first serious work of conditioning himself for the match. Actual boxing with sparring partners was added to the three mile turn he has taken daily on the roadways.

Sharkey went through all the paces yesterday and today resumed his shadow boxing, rope skipping and bag punching in preparation for his \$100,000 appointment in the Flamingo Park arena.

New York—Johnny Dundee, Baltimore, outpointed Lou Moscovitz, New York, (10).	Hicks (8) (Briley)	Spencer (King)
Bostic (10) (Crow)	Guard	Ford (1) (King)
Forward		Guard

## Florida Making Strong Bid For Cage Leadership

Atlanta, Feb. 13.—(AP)—The University of Florida is making a bid for membership in that growing list of quintets which must be conceded more than an outside chance in the Southern Conference basketball tournament in Atlanta at the close of the season.

Beginning the season with nine defeats the Alligators have snatched out of their early slump and have hit a stride that has overwhelmed Alabama's strong crimson five in two successive games, downing the Alabamans for the second straight game last night, 34 to 23.

A tremendous reserve was responsible for the victory for the Alligators trailed Alabama at the half by a 15 to 13 count. The win was Florida's third of the season. Neither losses nor victories will count in the final selection of the conference champions, however.

The University of Georgia Bulldogs took their 11th victory of the season at the expense of Tennessee by a score of 45 to 21, maintaining their pace of leading game winners of the season. The Bulldogs, while held back by three defeats, have won two more games than the conference leading Georgia Tech squad and the third place Tar Heels of North Carolina.

Tennessee and Georgia meet in the second game of their series again tonight, while North Carolina and N. C. State will meet in the only other conference game for the day.

## GOOCH REFUSES TO SIGN CONTRACTS

Verona, Cal., Feb. 13.—(AP)—Charley Gooch, infielder obtained by the Washington Senators from the Little Rock club of the Southern Association, has returned two unsigned contracts to the American League club because they did not meet his demands. Gooch refused to tell the amount offered in either contract.

## SAND NOT SATISFIED WITH CONTRACT TERMS

Los Angeles, Feb. 13.—(AP)—Heinie Sand, third baseman, obtained from the Philadelphia Nationals and turned over to the Rochester club of the International League by the St. Louis Cardinals, is not satisfied with terms offered by Rochester. His contract calls for a cut in salary and he also is having trouble over his transportation to Rochester and return here next fall, he said.

## \$25,000 Ball Player

Dick Ferrell, who recently sold himself to the St. Louis Browns for \$25,000, is in training at his farm in Guilford, N. C.

## AIR MAIL PILOT WAKES TOWN TO SAVE SCHOOL

Huntersville, Feb. 13.—(AP)—The Huntersville school building probably was saved from burning yesterday by an air mail pilot who veered from his course to awaken residents of this town.

Very close to the school here is an unused building which formerly was occupied by students in the Huntersville Academy. This building was in flames when the aviator, R. G. Malloy, of Lenoir, N. C., happened to notice it as he was carrying mail on the Richmond-Atlanta air mail route.

He dipped over Huntersville and flew so low that the roar of his motors awakened residents of the town. They discovered the fire too late to save the academy building but in time to protect the school building.

After seeing the people of the town were roused, Malloy continued on his way southward.

This is the third time in recent months that an air mail aviator has discovered fire as he was flying on his regular route.

San Antonio—Paul Wanceley, Chicago knooked out Carlos Garcia, of Mexico City, (3).

Los Angeles—Bert Colima, White Sox, defeated Johnny Gill of York, Pa., (10).

Jacksonville—Sully Montgomery of Texas, stopped Big Sid Terris of North Carolina, (4).

## Mallory To Try For Championship

By TED VOSEBURGH, Associated Press Sports Writer

New York, Feb. 13.—(AP)—Mrs. M. E. Bjursiedt Mallory is not yet ready to breathe the once irresistible magic, although the United States Lawn Tennis Association last week ranked her lower than the top three for the first time since she reached the heights 14 year ago.

For several weeks, the eight-time champion has been working out regularly on the Heights Casino indoor courts in Brooklyn and about the middle of May she expects to sail for Europe to play for the English championship at Wimbledon, June 24.

Outside of the British classic Mrs. Mallory said she had no definite plans for the season, but the odds are all in favor of her presence at the United States National championship at Forest Hills, August 19. Without Mrs. Mallory the tournament would not be complete. She won it first in 1915, three years before Bill Tilden blossomed forth as a champion contender and five years before he won the national title.

A regular entrant ever since, the hard hitting daughter of the Northland first as Miolla Bjursiedt, of Norway, and since 1920 as Mrs. Franklin I. Mallory, of New York, amassed a total of eight championships over the period from 1915 to 1928, despite the rising of a younger star, Miss Helen Wills. Miolla ranked first, second or third every season until 1928, for which year she has now been set down as fourth. It took Miss Helen Jacobs, who is ranked second only to Miss Wills, to put her out of last year's title chase.

In her tuning-up drills at the Heights Casino Mrs. Mallory's good right arm has been dealing out forehands and backhands with apparently all her old violence. Her strokes still are almost machine in force and if Mrs. Mallory is beaten this season it will be because she no longer is able to cover court effectively and not through any lack of ability to wallop the ball.

## OREGON MAN WINS SIERRA DOG DERBY

Truckee, Calif., Feb. 13.—(AP)—Fred Spruz, of Portland, Oregon, today had in his possession a \$3,000 cash prize and silver loving cup for winning California's first annual Sierra Dog derby.

Trotting easily behind his seven Irish setters, Spruz, racing for Nevada county, crossed the finish line yesterday afternoon fifteen minutes ahead of the field to win the third heat and the race over a 32-mile course. His time for the 96 miles was 8 hours, 39 minutes and 17 seconds.

## Consider Pardon Of Prisoner In Johnston Charge

Oklahoma City, Okla., Feb. 13.—(AP)—Not satisfied with the testimony of T. N. Crosswhite of Ardmore, the House of Representatives investigative committee today was seeking additional facts on the expenditure of \$1,200 he drew from a bank the day after his son Derby, was paroled by Henry S. Johnston, suspended governor, on trial before a Senate court of impeachment. One of the eleven charges against Johnston is based on the issuance of the pardon.

Questioned by the committee yesterday in an attempt to show the money was used to obtain his son's pardon, Crosswhite said he buried the money in a tin can. He stated he was not willing to produce it "because I was in-jacked once." At almost the same time, D. L. Faulk, representative from Marshall county, testified at the governor's trial that Crosswhite had offered him \$1,200 to obtain the pardon. He said he still refused.

## Counterfeiters Held In S. C.

Gaffney, S. C., Feb. 13.—(AP)—Three men, counterfeiters, said to have acted under direction of a prisoner on the county chain gang were bound over with the alleged ringleader to federal court at a preliminary hearing here yesterday.

The men, according to evidence at the hearing, operated with Carl Sprouse, serving a long term for car breaking, as the directing head. The plaster of paris molds for necks, arms, quarters, half-dollars and dollars and a supply of an alloy metal were found secreted in the bed of the prisoner at the convict camp.

Paul Steppe, one of the three and regarded as Sprouse's chief assistant, had just completed service of a sentence on the chain gang for prohibition law violation. Sprouse and Steppe were held in

## WANT ADS PAY

## Who wants a white collar job, anyway?

### Ability counts

IT'S a joy to meet a craftsman who'd rather be a first-rate workman in overalls than a tenth-rate man in a white collar job.

If you were to ask him his rules for success, he'd probably tell you with a twinkle in his eye, "Same as for any other job, I guess. Hard work. Steady plugging. And good health. I've never missed a day's work from illness. I made sure of that years ago. Whatever your line of work, take a trip from my experience. Keep fit with Nujol."

Nujol is not a medicine. It is a pure natural substance (perfected by the Nujol Laboratories, 2 Park Avenue, New York). It not only prevents an excess of body poisons from forming (we all have them), but aids in their removal. It's these poisons that sap your strength and energy, kill ambition, make you old before your time.

Start Nujol today. It can't possibly upset you or disagree with you. Contains absolutely no medicine or drugs.

Worth a try, isn't it? You'll find Nujol at all drug stores in sealed packages. Get a bottle today.

# Does the gasoline you buy have these qualities?

*It should, if you are a careful buyer...*

All gasoline (unless dyed) looks pretty much alike, but there are certain qualities that make one gasoline better than any other.

"Standard" Gasoline is the best "buy" on the market today, for "Standard" has these outstanding qualities:

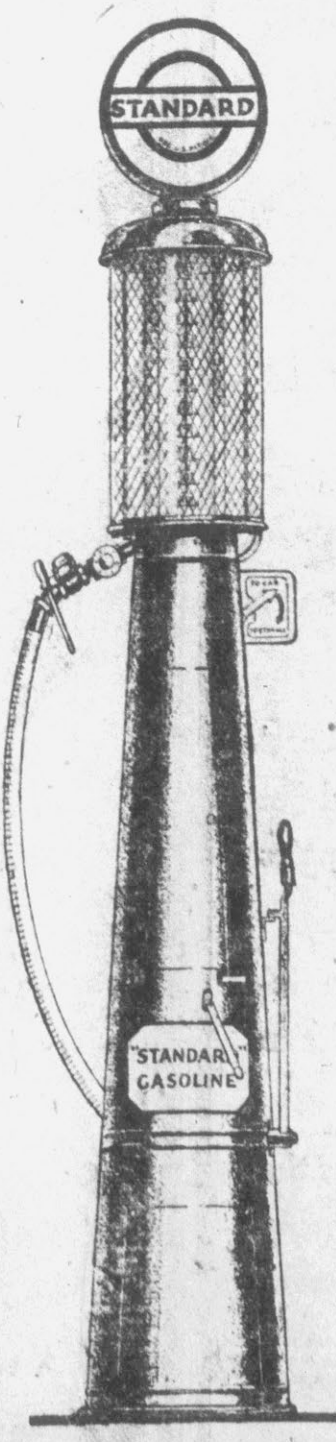

- Easy Starting**—even in coldest weather.
- Quick Acceleration**—necessary in traffic.
- Power, Steady and Reliable**—for hill climbing and long, hard runs.
- Mileage Efficiency**—proved over and over by road tests in every type of car.
- Safety to Motor**—a fuel that cannot possibly injure your engine.
- Complete Combustion**—a fuel that burns cleanly, leaving practically no carbon, and burns completely, leaving no "loose ends" to seep down and dilute the motor oil in the crank case.
- Uniformity**—you can set your carburetor on "Standard" and forget it, for every gallon is like every other gallon wherever you may buy it.
- Availability**—"Standard" Gasoline has the further advantage of being easily obtained, as our red "Standard" pumps are conveniently located throughout the length and breadth of this state.

The Standard Oil Company of New Jersey has had 59 years of experience in refining petroleum. It has a staff of over 300 men engaged solely in research work for the betterment of its products. So, you can safely depend on "Standard" Gasoline being kept at top quality. If new methods develop further improvements in gasoline, "Standard" will have them.

Buy "Standard," the dependable quality gasoline.

STANDARD OIL COMPANY OF NEW JERSEY

There is no truly "anti-knock" motor fuel being sold, except at a premium price. The best known "anti-knock" fuel is ESSO, the Giant Power Fuel. It is acknowledged by engineers to be in a class by itself—a genuine "anti-knock" fuel, specially made for use in high compression motors, and in motors that are carbonized from long usage. ESSO costs more to make, and has to be sold at a small premium over "Standard" Gasoline, but ESSO gives an extra engine performance never before experienced. On sale only at the Silver ESSO Pumps with the ESSO Globes.

# "STANDARD" GASOLINE

## SPRING COATS AND DRESSES

THAT ARE SUPREMELY NEW! SMART! DESIRABLE!

Flattering new collar effects that follow a face-framing way to smartness. Tucks, slot seams and fabric inserts vary the straight silhouette. Other important coats for spring flare in the princess fashion and are smartest when furless. A very brilliant collection at a very interesting price.
