EQUALIZATION BODY TAKES UP SCHOOL ISSUE

Governor And Board Of Education To Be Represented at Meeting Today.

Raleigh, March 27.—(AP)—Consolidation of the 1929 school law, product of a lengthy struggle in the legislature and bone of spirited contention between its advocates and its critics, was on the program of the State Board of Equalization at its session called for today. By the terms of the law, the board is authorized in the distribution of the \$6,500,000 school aid fund provided by the bill, a fund twice as great as the largest previous amount made available for this purpose.

Governor Gardner announced that he would be represented at the meeting by special Judge N. A. Townsend, who has accepted the post of executive counsel effective April 1. The last General Assembly authorized the Governor or some one designated by him to sit with the board, and also made the State Superintendent of Public Instruction, A. T. Allen, a member ex-officio.

One of the first of the additional duties imposed upon the board of equalization under the new law is the assembling of sufficient data for it to determine a "proper standard of cost for operating the public schools" in each county, except those not participating in state aid, and to transmit its findings to county authorities for use in making up their budgets, which under the law, must be done in May.

The board is charged with the examination of the budgets, and is authorized to examine and approve or disapprove, in whole or in part, any budget for the payment of equalizing funds to any county that refuses to conform to the standards efficient and economic basis.

The legislature also put upon the board the duty of supervising the transportation of pupils, and empowered it to make such regulations as appeared necessary to promote efficiency and economy.

Another function of the board is to make a survey of the cost of school supplies, and to furnish county officials with advisory information obtained by this method.

The board will, of course, continue to perform the duty for which it was created—the determination of a fair, relative value of the assessed property of the participating counties, with a view to apportioning the equalizing fund so that the various counties may benefit alike.

Under the 1929 law, the board is required to ascertain what sum would be raised by a 30 cents tax on its property valuation, as fixed by this board, and the county is required to levy a sufficient tax to produce this amount.

The county's share of the equalizing fund is determined by subtracting this advance income and receipts from fines and similar sources from the school budget, the difference being the quota of the state aid.

Mull Declines Appointment To Prison Board

Raleigh, March 27.—(AP)—The board of directors of the state prison today was without a head, but Governor Gardner was expected to lose no time in announcing his selection of a chairman.

O. M. Mull of Shelby, who was named a few days ago by the governor, declined to qualify at yesterday's meeting of the board because of inability to give sufficient time to the duties and also because he believed acceptance of the post would automatically disqualify him as a member of the legislature.

In announcing Mull's decision late yesterday, the governor said he had already decided upon a chairman who would devote his entire time to the duties and would announce his selection as soon as he had a definite acceptance.

The directors appointed a committee to make plans for the installation of an automobile license plate plant as authorized by the General Assembly, and provided for the operation of an insecticide and fungicide making plant. Governor Gardner said he would take up with the Highway Commission the recommendation of Superintendent Pott that convict labor be used on road work. Pott was re-elected as superintendent.

GERMAN CHRYSLER DOUBLES CAPITAL

Berlin, March 27.—(AP)—Announcement was made today that the capital of the German Chrysler Company will be doubled to \$25,000,000 for the purpose of expanding its assembly plant and the entire German organization. A meeting of division heads and directors has been held to organize the expansion.

20 DIE IN FLOOD AT HARRIMAN, TENN.

Floods cut a swath through Harriman, Tenn., with a loss of life of 20. Houses are seen floating.

TWO ACTIONS FINISHED IN CIVIL COURT

Hearing Started In Damage Suit Of Krouse vs N. & S. Railroad.

After disposing of two actions of a minor nature, the civil term of Pitt County Superior Court yesterday began hearing in the case of C. M. Krouse vs. Norfolk & Southern Railroad, involving suit for damages as result of injuries received when an automobile driven by Krouse was hit by one of the company's trains in 1924. An occupant of the car was killed, but Krouse escaped with injuries.

The case was expected to occupy attention of court today and probably some of tomorrow.

The first case disposed of Monday was that of J. W. Ellis vs. Greenville Banking & Trust Company, the plaintiff endeavoring to restrain the sale of some of his property under mortgage. The jury returned a verdict in his favor.

Dawson & White received a verdict for \$300.00 against the National Bank of Greenville and Mow & Gentry. The case grew out of the cashing of a check by the local bank without endorsement, the plaintiffs claiming that they had never received the money.

It was contended that a tenant of the plaintiffs had received the check in payment for tobacco sold at the Mow & Gentry warehouse, carried it to the bank and had it cashed, the warehouse having required no endorsement of checks at that time.

A considerable amount of evidence was offered on both sides. The case had been hanging fire for several months.

Washington Man Hurt In Wreck Near Greenville

Willie B. Warner is confined in a Washington hospital suffering from injuries sustained in a wreck on the Greenville-Washington highway Tuesday night. His injuries consisted of broken bones and minor lacerations.

The wreck occurred on the curve near Greenwood cemetery. Warner's car left the road and went down a 40-foot embankment into the mill race below. Motorists assisted the man from the wreckage and rushed him to the local hospital where he received medical aid. He was later taken to the Washington hospital.

County officers said Warner contended that his car left the road after collision with a truck. Examination of the truck, however, is said to have revealed no signs of an impact of any kind.

High Point Man In Murder Case

High Point, March 27.—(AP)—Elvin Cagle, 19, who killed his 16-year-old chum, Lewis Horne, Saturday, will face preliminary hearing here this morning on a murder charge.

Although the shooting apparently had been accepted here as accidental, a warrant was sworn out yesterday after J. A. Myatt had secured what he said was evidence that Cagle threatened the boy's life previously.

Witnesses said after the shooting that the younger boy was on his knees looking into a squirrel hole when Cagle fired a load of buckshot into the back of his head. Cagle was arrested yesterday and held without bond.

MAY SETTLE RUM TREATY DIFFERENCES

Sinking of Canadian Rum Runner I'm Alone Expected To Clarify High Sea Laws.

Washington, March 27.—(AP)—Differences between the United States and Great Britain over interpretation of the 1924 rum-smuggling treaty are likely to be clarified as one outcome of the sinking of the Canadian schooner I'm Alone, 200 miles off the Louisiana coast Friday by an American patrol boat.

Pending study of complete official reports, no formal action is expected, either in the form of protesting overtures looking to clarification of the rights of the coast guard to search, seize and pursue suspected rum runners found within one hour's sailing distance of the American shore.

In the meantime, official and diplomatic circles are considerably interested in the possible courses which action might take, and some observers who have followed the unofficial reports of the incident see in them the germs of differences which would lead to the necessity of arbitration. At least, in the opinion of State Department officials, the case involves technicalities which call for the skill of international lawyers.

Only a few changes are needed to make the rum smuggling treaty more effective, as Rear Admiral F. C. Billard, commandant of the coast guard, views the situation. These he suggests, might include an agreement under which the government would require ships using their ports to furnish proof that their cargoes were delivered at the points designated in their clearance papers.

American benefits under the treaty would nullify, he believes, if the right to pursue suspected vessels were restricted to one hour's sailing distance from the coast or the implied right to use force in exercising the search and seizure privilege were restrained.

That is one of three points which diplomatic circles here view as possible for a Canadian protest, if it decides to take such action. International law recognizes only three miles as the limit of territorial waters and sanctions "hot pursuit" only when begun within that area, it is explained, whereas the chase of the I'm Alone began according to coast guard estimates not less than eight miles from shore.

When pursuit begins within one hour's sailing distance of the coast, the American interpretation of the rum smuggling treaty holds that continuing the chase beyond such limits is permissible, but this view-point has never been definitely accepted by the British.

The other two points have to do with the nature of the pursuit of the I'm Alone in which the patrol boat that began the chase was joined by another and continued for the unusual distance of 200 miles, and with the question of whether the sinking of the schooner by the latter with the loss of a British seaman's life by drowning can be regarded as justified by the circumstances.

Foch Memorial Fund

New York—A Foch memorial fund to be expended for old people and children of France who continue to suffer from the effects of the war is suggested by Robert Underwood Johnson, former ambassador to Italy. Such a monument he thinks would be more lasting than brass.

GRAF ZEPPELIN BEGINS RETURN VOYAGE HOME

Giant German Dirigible Completes Cruise Over Palestine And Holy Land.

Jerusalem, March 27.—(AP)—The Graf Zeppelin, giant dirigible, had its nose turned toward home today after cruising over Palestine and the Holy Land. Two days' flying over eastern and central Europe faced it before completion of its four-day, 5,000 mile air voyage.

The scheduled route was over the eastern Balkans and over the capitals of central Europe with landing at Friedrichshafen probably sometime tomorrow night. The scheduled, however, was subject to variation caused by wind and weather conditions.

The dirigible appeared over the Palestine coast yesterday at Haifa at 3:15 p. m., and bucked headwinds down the coast to Jaffa which was reached at 6:18 p. m. At Tel Aviv the passengers dropped coffee overboard to celebrate Purim and at Ramleh mails brought from Germany, were dropped.

Over Jerusalem the dirigible maneuvered while messages of good will were signaled to her from the home of the deputy governor. It left the city headed southwest but it was assumed would turn toward Greece or Constantinople. Flight to the Holy Land since departure from Germany Sunday night was by way of France, Italy and across the eastern Mediterranean.

B. F. MANNING PASSES AWAY

Well Known Winterville Man To Be Buried Tomorrow Afternoon at 3 P. M.

B. F. Manning, prominent citizen of Winterville, died at a hospital in Baltimore yesterday afternoon shortly after two o'clock, according to information reaching this city today.

Funeral services will be conducted from his late home in Winterville tomorrow afternoon at 3 o'clock by Rev. L. A. Ennis, pastor of the Free Will Baptist church of Ayden. Burial will be made in the Winterville cemetery.

Death resulted from a tumor of the face which started about two or three months ago. Mr. Manning went to the Baltimore hospital about a week ago for treatment but his condition had become so serious that little hope was entertained for his recovery.

He was 63 years of age, having been born and raised in the Winterville community where he spent the major part of his life. He was one of the best known business men of the town, having been connected with the cotton industry over a period of many years. He was on the Greenville cotton market several seasons.

He was a member of the Free Will Baptist Church at Winterville and the Masonic lodge. He will be buried with Masonic honors with members of the Winterville order serving as active pall bearers.

Mr. Manning is survived by his wife and three children Mrs. Henry Braxton, Mrs. J. L. Forlines and L. A. Manning, all of the Winterville section. He is also survived by several grandchildren and other relatives.

Honorary pall bearers will be: Jesse Speight, J. T. Little, J. J. Gilbert, R. Williams, J. N. Hart, H. S. Ragsdale, E. R. Dudley, S. A. Whitehurst, J. C. Gaskins, Dr. J. E. Nobles, O. W. Harrington, J. L. Hassell, P. M. Wooten, T. R. Moore, W. H. Horne, A. T. Moore, F. M. Wooten, L. J. Smith, J. F. King, R. L. Abbott, J. E. Green, Dr. B. T. Cox, W. M. Carroll, R. B. Nobles, E. S. Hines, Coy. Trip, Charles McLawhorn, A. G. Cox, W. A. Forbes, S. A. Jenkins, J. B. Pierce.

Wright Speaker At State Honor Day

Raleigh, March 27.—(AP)—North Carolina State College faculty and students today honored the 35 high honor students, and the 109 honor students for the fall and winter terms, at annual scholarship day exercises in Pullen Hall.

Dr. Robert H. Wright, president of East Carolina Teachers College, delivered the principal address of the occasion while the Rev. Powell Tucker, Dr. E. C. Brooks, Dean E. L. Lloyd and Dean B. F. Brown also had parts on the special program.

Rift Develops Between Hoover And Committee Working On Farm Relief

Washington, March 27.—(AP)—A rift appears to be developing between President Hoover and some of the congressional leaders charged with drafting farm relief legislation for consideration at the special of Congress, beginning next month.

The surface reason is the determination of the chief executive to refrain from writing an agricultural measure and imposing it upon Congress, but behind that is a sharp divergence of views as to the fundamental principle of the bill itself.

Some of the farm leaders in Congress take the position that since Mr. Hoover led the fight before the country for a relief measure omitting the equalization fee principle and interpreted the party platform as to a specific program, he should play the principal part in framing the legislation to carry out his views.

Among this group are those who profess to be unable to determine just what the party plan is and they advance this as a further argument why the President should take the initiative and guide the committees or Senate and House which are wrestling with the problem.

The President's view is that the Kansas City platform provided a plan; that this plan was presented to the country time and again and that the principles are well known alike to Congress and the country. Consequently he sees no reason why the committees should have difficulty on this score.

Beyond this, however, is his determination against being placed in the position of undertaking to wield a "big stick" over Congress. Such

practice in the past has led to sharp attacks on the executive from members of his own party as well as those in the opposition ranks.

The disagreement on the fundamental principles of the bill revolves around the powers that are to be given the proposed farm board. Mr. Hoover's idea is for a grant of power which would enable the board to deal with not only the present problem in the agriculture industry, but also those that may arise in the future.

This is resisted in some congressional quarters on several grounds. One is that the board given such power might encroach upon the functions of other agencies of the government, such as the Interstate Commerce Commission and the Farm Loan Board.

Another is that this grant of power might prove dangerous and is too great to be placed in the hands of a board which is without direct responsibility to the people, as would be the case of men appointed by the chief executive with the advice of the Senate.

Frequently during the presidential campaign, Mr. Hoover declared for permanent solution of the farm problem and so is opposed to legislation which would deal with only the present emergency, unquestionably he had in mind the delays that attend efforts of Congress to legislate in each specific case.

Efforts to smooth out these differences are under way and those responsible hope that the House and Senate committee can report out measures which will be acceptable alike to the President and Congress.

Hold Society Girl In Death of Child At Winston-Salem

Winston-Salem, March 27.—(AP)—Miss Helena Hermance, daughter of a prominent Toronto, Canada, business man, and Lewis Luther, a local taxi cab driver today faced municipal court hearings on charges of manslaughter in connection with the death here yesterday of a five year old child in an automobile accident.

The child, James Foster, was fatally injured when Miss Hermance's machine, in which she was riding, figured in a collision with Luther's cab. He was a grandson of Dr. D. Clay Lilly, pastor of the Presbyterian church here, and Mrs. Lilly, who are entertaining Miss Hermance.

Warrants were issued against Miss Hermance and Luther last night, the former being released on her own recognizance pending hearing in Municipal court. The taxi driver was placed under \$3,000 bond.

Miss Hermance is a former College classmate of Miss Elizabeth Lilly and is a graduate of Agnes Scott College. She recently had been doing post graduate work at the University of North Carolina.

Her father is Harry P. Hermance who before his removal to Canada several years ago was a leader in business and civic affairs in Atlanta. He was well known for his gifts to charity and other organization and only recently had contributed \$50,000 for an athletic field for Oglethorpe University in the Georgia city.

Expect Strikers To Resume Work In S. Carolina

Greenville, S. C., March 27.—(AP)—The striking employees of the New England Southern Manufacturing Company of Pelzer, near here, were expected to return to work at noon today, according to an announcement late last night by J. W. Kelly, general superintendent.

The employees walked out Monday morning in protest against what they termed the "stretch out" system, which they claimed involved additional work without proportional salary increases.

No statement as to the nature of the compromise between the workers and the company was made last night other than that the workers would return to their posts on the same basis as when they left but with the assurance of adjustments to be worked out in the near future.

Tells Of Samarkand

New York—Contrasts in Samarkand, ancient capital of Tamerlane, 14th century conqueror, are described by Milton Goodman, tourist agent, who believes he is the first American to visit the city, now part of Russia, since the revolution.

Girls have discarded their veils and work at machines in factories. Religious fanatics zealously guard relics of Tatar greatness. A guide told Goodman that a mummy of one of Tamerlane's generals which he showed in a cave, was growing year by year and eventually would rise and wipe out the infidels.

Asks Prosecution Of Dry Raiders In Murder of Woman

Anora, Ill., March 27.—(AP)—Joseph Dekine, through counsel, today demanded immediate action be taken against country dry raiders for the slaying of his wife.

His attorney, Robert A. Milroy called upon State's Attorney Carbery to move promptly to place responsibility for the shooting of Mrs. Dekine at her home Monday night. If the authorities fail to prosecute, he said he would petition for a special grand jury and for appointment of a special prosecutor to take the case from Carbery's hands.

The "death for a gallon" tragedy will not retard the State's Attorney's campaign to dry up. Kane county, Carbery said. He was elected on a campaign promise to clean up the county, and in the short time he has been in office has initiated more than 400 raids.

The legality of the raid on the Deking home is the crux of the entire affair, Dekine's counsel said. If the raiders acted without a proper search warrant, the lawyer insisted, then Dekine was within his rights in ordering the Deputy Sheriffs from the house at the point of two pistols.

A John Doe warrant was issued by Magistrate J. Weber on the strength of an affidavit by an investigator of the State's Attorney's office. The premises to be searched, under the warrant, were described as a "two-story house" and the Deking home was located in a general way. The residence, however, is a story and a half, attorneys pointed out.

Attorney Milroy made another point: that the warrant was used twice, inasmuch as the deputies made two visits to the Deking home. "If the warrant was good for the first raid," Milroy said, "it certainly was not good for the second." It was during the second raid that Mrs. Dekine was shot by Deputy Sheriff Roy Smith as she ran to the unconscious form of her husband, felled by a blow from Smith's clubbed weapon.

Chang Tsung-Chang Captures Chefoo

Chefoo, Shantung, China, March 27.—(AP)—Marshal Chang Tsung-Chang entered this city at 3 a. m., today and practically without hindrance from its Nationalist defenders took control. The British ship Crowflower, and the United States cruiser Trenton, moved in shore to a position near the foreign quarter to meet any emergency which might arise.

Defeat of the National troops followed treachery and defection of 7,000 of their number who went over to Chang, former war lord of Shantung province.

The Nationalists, who were led by General Liu Chen-Nien, began to retreat at 3 a. m., after reverses in a battle which had raged for two days east of the city. They passed through the city eastward in the direction of Ninghaichow, leaving behind them large quantities of munitions.

She Will Preside

Dr. Mary Woolley, president, American Association of University Women, will preside in New Orleans, beginning April 10.

FRANCE STILL PAYS HONOR TO DEAD SOLDIER

Government Takes Steps to Provide Pension For Wife Of Marshal Foch.

Paris, March 27.—(AP)—Thousands of former soldiers who fought under Marshal Foch filed past his casket in an uncrowded but steady stream today.

The body of the marshal lay where they had placed it yesterday in an open vault under the altar of the Chapel of St. Louis in the Invalides.

Meanwhile the government has introduced a bill in the Chamber of Deputies to provide an annual pension of 100,000 francs (approximately \$40,000) for the marshal's widow. During his lifetime, said the preamble of the government's bill, the marshal refused offers to him from the United States and England. He never sought fortune and died a poor man. After the widow's death, the proposed pension would be divided among the grandchildren until they reached their majority.

It is understood that the government will permit Madame Foch to retain the home in the Rue de Grenelle which was placed at the marshal's disposal after the war and in which he died. The gates of the home are only a three-minute walk to the crypt where the marshal lies.

When sufficiently recuperated from the fatigue of the long watch at her husband's sick bed and the five days' strain of the funeral ceremonies, Madame Foch probably will go to the country to rest.

In honor of the marshal a new cruiser which will be launched in June, will be christened "Foch."

To the line of former soldiers passing the bier today, the general public was admitted during the hours when the file grew thin. It was Premier Poincare who consented to permit the former combatants to view the coffin one more day because of protests by the former soldiers who were denied a place in yesterday's procession for lack of time.

The flag-draped coffin was to be exposed until late today. A double line of Republican guards in full dress formed an aisle through the courtyard of the chapel of the Invalides. A row of candles upon the steps leading down to the crypt revealed the marshal's glittering medals and decorations which with three batons rested upon seven cushions of velvet and satin in the front of the casket, and upon the flag-covered coffin rested the marshal's sword, kepi and cloak.

Schmeling Has Too Many Bosses

New York, March 27.—(AP)—It looks as though Max Schmeling will have to start fighting before any one will find out who will manage his next campaign. With the "German Dempsey" still in his homeland his affairs took another complicated turn yesterday when Joe Jacobs, the American half of Max's munificent duel, returned from Europe with the announcement that Max was under contract to the Madison Square Garden corporation and would appear under Garden auspices against Paulino Uzcudun here June 20.

While Jacobs is trying to guide Schmeling along the road laid out by the Garden corporation, which gave him his first chance in America, Arthur Buelow, his German manager and the only one recognized by the New York State Athletic Commission, is trying to lead him in addition to a bout at Boston, contracted for before Max left, Buelow has signed with Jess McMahon, former garden matchmaker, and the Dempsey-Humbert Pugazy combination for matches for Schmeling.

FEDERAL ARMY CONTINUES TO GO NORTHWARD

Steam-Roller Tactics Of General Calles Reported To Be Developing Broadly.

General Calles' steam-roller tactics in fighting the rebels appeared to be developing broadly today. The General's main army was steadily advancing northward and capture of Escalon, important rebel outpost town, appeared imminent.

A rebel chase along the West Coast also was reported by the government which said that the insurgents who abandoned the siege of Mazatlan after a heavy fight, faced being bottled up at Culiacan.

Insurgents' headquarters insisted that a small rebel force was still besieging Mazatlan.

Advices from Culiacan stated that federal troops were marching on the place from Durango. If they capture it, they could cut off numerous rebel troops still in Southern Sinaloa. General Calles reported crossing the wide desert in South-eastern Chihuahua, and that now this difficult barrier was past his progress would be swifter.

Quiet prevailed along the border and the attack on Naco by the rebels still hung fire although they were within eight miles of the town.

G. K. "Buz" Morrison, American aviator, who was captured by the rebels while flying in federal service, reached Nogales safely, having been released despite a rebel threat to hold him.

A group of American fliers is being organized by the rebels to counter the growing use of airplanes by the government forces.

Mexico City, March 27.—(AP)—General Plutarco Elias Calles reported to President Portes Gil today that his columns had succeeded in crossing the desert of Bolson de Mapimi, and that he expected by tonight his advance guard would occupy Escalon.

The federal generalissimo described the crossing as "the most serious battle of this military campaign" and termed the desert a more powerful enemy than the rebel General Jose Gonzalo Escobar, whose troops he is pursuing.

The rebels, retreating from Torreon, tore up almost every mile of the railroad track northward to Escalon and General Calles was able to make but little use of the line in his advance. It was necessary to provide water for his soldiers by means of tank trucks, the isolated wells in the desert, which there had an area about that of the State of Ohio, being insufficient for their needs. Seventy trucks alone were necessary to carry fodder for the Cavalry horses.

With arrival today at Jaral Grande, South of Escalon, and at Escalon, the former President said, the water situation would be solved and further advance northward would be quicker than the last hundred miles. The general's report revealed he was moving only a force of 9,000 men north from Torreon for the campaign in Chihuahua, acting under the orders of General Juan Andreu Almazan, who was forced to cross another section of the same desert for his attack on Torreon last week.

"The marches of Monday and Tuesday, I can assure you," General Calles wired to President Gil, "give us complete control of the situation in Chihuahua."

This was inferred here to mean he considered himself in a position now to force the rebels to fight, or retreat from the State, into Sonora or flee Mexico into the United States.

He said his aviators reported abandonment of Escalon by the rebels with their forces concentrated at Jimenez, fifty miles north. The message of General Calles was sent from Coahuila and said he intended going back himself to his headquarters at Bernalillo.

Meanwhile the campaign on the West Coast developed into another prospective chase. General Jaime Carrillo at Mazatlan wired the president that all the railroad tracks north of Culiacan, Capital of Sinaloa, had been torn up and he hoped to force the rebels into an open battle there when they found their retreat cut short.

General Carrillo reported aviators had found the main rebel column under command of Generals Robles to Cruz and Francisco Manzo, at La Cruz, Sinaloa, fleeing on foot and horseback to Culiacan. Aviators flew over the rebels and harassed them with machine gun fire.

Constance Morrow Home Mexico City—It is the usual thing for children away at school to visit their parents at Easter, and the indications are that the wedding bells will ring in June. Miss Constance Morrow, sister of Col. Lindbergh's fiancée, has arrived from Milton, Mass.

TIGHT CREDIT STILL GRIPS WALL STREET

Renewed Liquidation Continued Today After Early Recovery This Morning.

New York, March 27.—(AP)—Wall Street saw signs today that the worst was over in the acute credit pinch, and after a period of uncertainty caused by a call money renewal rate of 15 per cent. Stock prices headed upward along a board front. The most cheering development was a reduction of 1-8 of 1 per cent in bankers' acceptance rates the first decline after several months of successive increases. The high call money renewal rate eventually brought a liberal supply of funds and fears that it would be advanced faded.

Several losses in the quoted values of stocks which resulted from selling inspired by the high renewal rate were promptly regained. Radio, which had sold off more than \$3 a share to \$88.50, quickly mounted to \$94.50. Anaconda and National Cash Register more than made up losses of about \$4. International Telephone and A. M. Byers sold up about \$11 each, while Case threshing advance rumely preferred, Electric Auto-Lite, Commercial Solvents, Baldwin Locomotive, Borrowings Adding Machine and General Electric, mounted \$6 to \$10.

Banks called about \$15,000,000 in loans this morning, largely for the account of Chicago institutions, and money was so scarce, even at the high renewal rate, that predictions were again made it would go higher, although few bankers or brokers looked for it to equal or exceed the 20 per cent rate yesterday.

Heavy withdrawals of funds from the call money market by investment trusts was one of the reasons advanced for the credit stringency one recently organized Chicago Trust is reported to have withdrawn the proceeds of a \$60,000,000 stock issue, temporarily invested in the call market, either at the instance of Chicago bankers, who were faced with an acute situation in that city, or to enable it to purchase securities on the recent decline in prices. Other trusts, which liquidated part of their holdings following the Federal Reserve warning six weeks ago and took advantage of the high call money rates to invest their surplus funds, also are reported to have withdrawn from the call market to reinvest in securities.

Early gains of \$3 to \$6 a share were not entirely cancelled by the mid-day selling movement, and many of the active issues held above yesterday's final quotations. New deal spots dropped out, however, as "bear" traders hammered supposedly vulnerable issues. Federal Mining and Smelting, which has not appeared on the tape for several days, sold \$35 a share below the previous transaction. Russia Insurance dropped \$7 below last night's close. Packard Motors \$3 National Cash Register \$4 and Anaconda, Radio-Keith-Orpheum, Kollster radio, Chrysler and Montgomery Ward sold down \$3 or more. American Can, United States Steel common, Montgomery Ward, Anaconda Copper and Jones Manville sold down \$2 to \$3 a share.

The stock ticker was only six minutes late at noon.

The black apron, national badge of French school children, is under fire and has been forbidden in one Paris school.

The Missouri-Kansas-Texas Railroad will spend \$6,313,921 in improvements in the southwest this year.

Two schools of salesmanship equipped with modern retail stores, have been opened by the chamber of commerce in Paris.

COMPLETE TRANS-ATLANTIC FLIGHT

Captains Francisco Jimenez (left) and Ignacio Iglesias, Spanish aviators, beside the plane, "Jesus Del Gran Poder," in which they made a trans-Atlantic flight from Seville, Spain, to Bahia, Brazil. The fliers landed 800 miles from Rio Janeiro, their destination.

Greta Garbo Returns

Greta Garbo, Swedish screen star, is back in this country after a visit to her homeland.

Impeached

Chief Justice Charles W. Mason of the Oklahoma supreme court is facing impeachment charges voted by the house of representatives. He is accused of accepting a bribe.

NAMES THREE MEMBERS OF COMMISSION

Gardner Announces Heads of Industrial Commission To Supervise Compensation Act.

Daleigh, March 27.—(AP)—Gov. J. B. Wilson of Winston-Salem, president of the State Federation of Labor, and J. Dawsey Dorsett of Siler City, today were appointed members of the State Industrial Commission by Governor Gardner. They will supervise operation of the workmen's compensation act.

Mr. Allen was named chairman at a salary of \$4,500 a year. He will serve six years. Mr. Wilson will represent labor for four years. His salary will be \$4,000 per year. Mr. Dorsett, representative of capital, is to serve two years at a salary of \$4,000 a year.

Governor Gardner said that he understood E. W. Price of Mecklenburg county was very strongly favored for the position as secretary of the commission. The secretary's salary will be \$3,600 a year.

The act provides that the chairman shall be neutral, making decisions when the employer and employee representatives are unable to agree. All complaints arising from injuries or sickness to workers will be heard by the commission.

Governor Gardner said Major Allen introduced one of the first workmen's compensation bills in North Carolina, when he was a member with him in the Senate in 1915.

Mr. Wilson, he declared, has been active from the beginning in his interest in the compensation law. He was here during the entire session of the General Assembly, working for the law.

The governor said he regarded Mr. Dorsett as a young man of high character, experience, industry and in sympathy with the entire state's industrial development.

Members of the commission will take office May 1, although the law does not become operative until July 1.

Jap Freighter Rescues Crew Of Destroyer

Tokyo, March 27.—(AP)—Wireless dispatches to naval authorities today told of the rescue of the officers and crew of the Italian destroyer Muggia by the Japanese freighter Matsumoto Maru.

The Muggia, with a reported 76 men aboard, sank Monday night in a storm 150 miles northeast of Shanghai. The freighter, of the Nippon Yusen Kaisha line, received the SOS call and hurried to the scene of the disaster.

There they found some of the crew drifting in the rough sea and some standing on the rocks of a small island. The men were picked up by the ship which started for Shanghai.

National Majestic Week

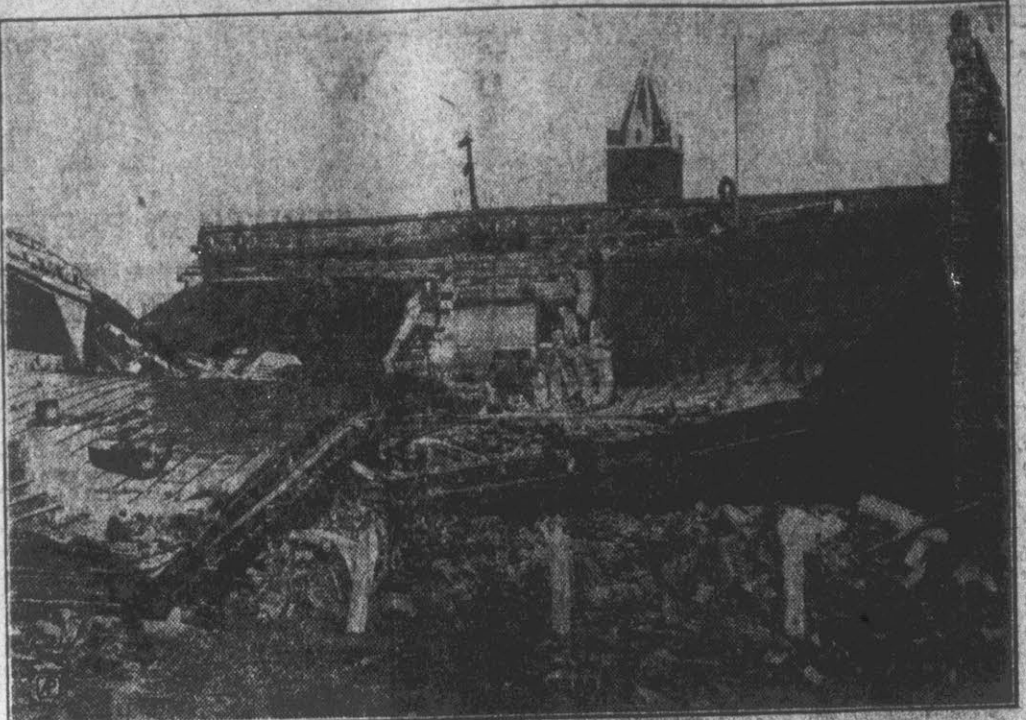

March 24th to 30th

The beautiful new model 72 Louis XVI Walnut cabinet with doors of diamond matched oriental walnut having a genuine inlaid marquetry border. Now On Display. Using 7 tubes and Majestic Super-Dynamic Speaker with volumes control instantaneous in action.

WATERS WREAK HAVOC ON ALABAMA TOWN

This scene is typical of the wreckage left in the wake of flood waters receding from Etba, Ala. Untold property damage resulted from the southern Alabama floods, and Governor Graves has appealed for aid for the stricken community.

Federal Pilot Victorious In Aerial Battle

Mexico City, March 27.—(AP)—In the first air battle to death ever fought in any Mexican revolution, a federal pilot was victor and sent his rebel adversary crashing from a height of 4,000 feet, government advices said today.

The battle occurred Sunday during the siege of Mazatlan by rebel forces under Generals Roberto Casas and Francisco Manzo. A federal plane piloted by Lieut. Jovito Llerenas met a rebel plane aloft over Venadilla, suburb of Mazatlan and after brief maneuvering and fighting put his ship out of commission. It was believed the pilot was killed.

At Emmerich, Germany, the populace so delighted in crossing the frozen Rhine on foot that traffic policemen had to be called.

Therefore we must dispose of the stock and at once or remove it to other quarters

We would much prefer to sell it realizing as I have, the loss I will have to take I have hesitated until the 11th hour and

NOW MUST SELL or MOVE!

I have secured the services of
C. H. Schaut of the Carolina Trade Bureau
To Dispose of the Stock
B. G. ABEYOUNIS

P. S. Our Store is Closed

Our Sale Opens Saturday March 30th

Not what you do, but how you do it, that counts

EVERYONE knows the story of Gene Tunney. How he fought his way up, until at 30 he has retired, undisputed heavy weight champion of the world. From the very beginning of his career Tunney never once let himself get out of condition.

"I started taking Nujol internally seven years ago. The first month Nujol brought remarkable changes in my physical condition. My elimination became active and normal. Since that time I have taken Nujol about five nights a week. If I discover that I have taken an excess I stop its use for a couple of days, when I renew my daily practice of taking a swallow from the bottle before retiring. I have found during my seven years' experience with Nujol that it is not habit-forming, or in any way unpleasant or harmful."

Nujol contains no medicine or drugs. It is simply a pure natural substance (perfected by the Nujol Laboratories 26 Broadway, New York.) It not only keeps an excess of body poisons from forming (we all have them) but aids in their removal.

Buy a bottle of Nujol today. Sold only in sealed packages.

Gene Tunney

Social & Personal

Dr. Ernest Branch, director of the Oral Hygiene department of the State Board of Health, spent the day in Greenville yesterday.

Dr. P. P. McCain, of the State Board of Health, was in the city yesterday.

FACULTY MEMBER OF TEACHERS COLLEGE HONORED

At the recent meeting of the teachers of the state at Raleigh, Prof. R. C. Deal, of East Carolina Teachers' College, was elected president of the North Carolina Association of Modern Language teachers.

This association is one of the strongest departmental teacher groups in the state, its membership being drawn from the modern language teachers in the colleges and high schools, and embracing teachers of all modern foreign languages.

Prof. Deal, as president, succeeds Dr. Miller of North Carolina College for Women.

Jarvis Memorial Church Services. Services tonight, 7:30. Subject, "Conversion." Tomorrow morning at 8:00 o'clock, a special service will be held for the young people. Subject, "The Challenge of the Unattained." The adults are urged to be present, for it will be a great message for them, too. Let us make this one of the best services of the week. Come, children, young people and adults.

Advance Notices.

Next Sunday THE WORLD will publish the Color Grayscale Section, a reproduction of "Easter Morn," a painting by Will H. Low, N. A. This picture is taken from a preliminary study for a mural painting shown at the winter exhibition of the National Academy of Design, through whose courtesy it is reproduced. This picture in THE WORLD's beautiful Color Grayscale Section is suitable for framing. Because our newsdealer's supply of Sunday Worlds is limited to advance orders, it will be necessary for you to tell him now that next Sunday you want THE WORLD.

ROYAL RIVALS SEEK HAND OF ITALIAN PRINCESS

There are three royal rivals for the hand of the fair Princess Giovanna, 22, daughter of King Victor Emanuel of Italy. They are Archduke Albrecht, 34 (lower right), pretender to the Hungarian throne; King Boris of Bulgaria (upper right), and King Zogu of Albania.

HOOVER PICKS A FISHING SPOT

President Hoover has acquired a large tract in Madison county, Virginia, on which he plans to fish during summer week-ends. The Rapidan river, which flows through the property, is noted for its trout.

Prohibit Mixed Boxing Matches At Chicago, Ill.

Chicago, March 27.—(AP)—Mixed boxing matches will not be permitted hereafter at the Coliseum, Chas. Hall, president of the Coliseum Corporation, announced today.

One person was dead and two others were reported dying today as the result of the panic and stampede of spectators at the bout Monday night between Jackie Fields and Young Jack Thompson, California negro.

Herman Landfield, 34, who fell or was pushed over the balcony during the excitement, died of skull fractures and internal injuries. John Mahoney, 34, and Alonza Stroud, 24, were said to be near death at a hospital where nine other persons, suffering from fractures and other injuries, were still under treatment.

A coroner's investigation today into Landfield's death was but one of several inquiries into the affair. The State Boxing Commission, the city building commissioner and the city council all had taken steps to determine the cause of the panic and to prescribe methods of preventing a recurrence.

Why worry to make cakes, when the Presbyterians will have them for you Saturday at Chas. Horne Drug Store. 27-31

MANY PRIZES OFFERED FOR THE SCHOOLS

Merchants Association to Give Away 46 Cash Prizes To Children Here.

A total of 46 prizes will be awarded to Greenville school children for best suggestions dealing with a "bigger and better" Greenville.

This announcement was made from the office of the secretary of the Merchants Association this morning. Coincident with the announcement, it was stated that 12 prizes had been offered to children of the colored schools.

The contest got under way the first of the week with announcement before pupils of each of the city schools. Rules and regulations dealing with the contest will be made through the columns of the Reflector tomorrow. Information as to minor details and selection of the judges to decide the winners will also be given out at that time.

Twelve of the prizes have been offered for pupils of the fourth and fifth grades. The first prize is \$10.00 cash; second prize \$5.00; then ten prizes of \$1.00 each.

The same prizes will be offered to pupils of the 6th, 7th, and 8th grades. Similar prizes will go to students of the 9th, 10th and 11th grades.

The twelve prizes for the colored schools will be offered to students from the 7th grade through the high school.

Mindful at all times of the interest of every citizen.

J. D. ROGERS

See Three Parties
In United States

Winter Park, Fla., March 27.—(AP)—Professor Benjamin B. Kendrick of North Carolina College for Women addressing the institute of statesmanship here today said it is logical that three moderate sectional parties should develop in the United States whose combined power might in time stalemate the power of the Republican party and be the deciding influence in National political affairs. These three moderate parties, he said, might grow from the extreme anti-capitalism win of Southern Democracy. The Eastern Democracy and the Western progressives.

"The logic of the situation," Professor Kendrick said, "calls for one extreme capitalistic party, one nation and (may-be) socialist party, and three sectional parties representing various shades, degrees and kinds of opposition to extreme capitalism. The Republicans have the inside track for the role of National Capitalist party."

"As for who will be the National Socialist party, Mr. Thomas and the right-wingers or Mr. Foster and his left-wingers I do not profess to know, but I hazard the opinion that

Three Killed In
Train Collision

Edwardsville, Ill., March 27.—(AP)—Three trainmen were killed and two were injured in a head-on collision late yesterday between two freight trains of the Nickel Plate System near the Edwardsville station. Fire followed the crash and the bodies of the victims were not recovered until firemen had extinguished the flames. Fourteen freight cars were piled up in the crash.

The dead: John Franklin, 38, engineer, Charleston, Ill. Frank Adair, 30, fireman, Charleston, Ill. O. T. Bensley, 30, brakeman, Charleston, Ill.

The injured: Harry Smith, engineer, cuts and bruises., J. M. Kipple, fireman, fractured skull and internal injuries.

Yankee Airman
Help Insurgents

Jauruz Chihuahua, Mexico, March 27.—(AP)—"The Yankee Doodle Birdmen," a fighting squadron of American pilots, has come into being as an adjunct of the rebel army.

Captain R. E. Polk, American aviator at Jimenez has been appointed flight commander of the foreign air legion, and he revealed last night that he will lead at least three additional pilots from the United States in a war in the air upon the Mexican federal forces.

The identity of other pilots was not announced. General Jose Gonzalo Escobar, commander in chief of the revolutionists, has had opportunity to observe the efficacy of an air force. A federal bomber attacked Jimenez, the rebel base, yesterday, and killed four persons and injured 17. When the rebels occupied Torreón, federal air raids resulted in several casualties.

The rebels have two bombing planes available and it was reported they own several planes suitable for conversion into either fighting or bombing ships.

May Head Tammany

Martin G. McCue, democratic district leader, is candidate for the leadership of Tammany Hall.

said he would foot the bill, if necessary. That is high authority for the statement that tobacco may be to many people a necessity, not a luxury. While that is true, it is generally thought of as a luxury.

Large as were the tobacco exports last year, that is not the most remarkable thing about the tobacco business. Within the United States were manufactured a hundred billion cigarettes—note the word, billion, not million. A hundred billion is beyond the power of the imagination to visualize. And half or more of that hundred billion were made in North Carolina. Three-fourths of the exported tobacco was used in making cigarettes. Nothing like this was ever known in human history. It is the most stupendous mass production achievement in history.

Yes, there's still romance in the tobacco business.—News and Observer.

ABOUT
TOWN

"I am glad to see the good work go on," declared a prominent Pitt county planter this morning commenting on the shipment of the carload of hogs yesterday morning. "It means that our farmers will have more money to spend during the present planting season and that the summer months will not be so severe in a financial way as formerly."

"Pitt county has needed this kind of industry for many years. Now that we have it we should do everything possible to interest our farmers in its development. It should mean the bringing to this community of several thousands of dollars annually, money we wouldn't get were it not for the hogs we raise."

"Regular baseball weather and lots of the national pastime in the offing," declared a citizen today, as he dropped a remark or so about the training of members of the Greenville club.

"The boys looked mighty good in their second days' practice yesterday. The way they handle the old apple bespoken great things for this city during the season to open the latter part of next month."

"Greenville deserves the best to be had this year. We suffered the humility of putting out one of the tail-enders of the league last season and certainly deserve better fate this year."

"Manager Lester Bangs says he is confident he will be able to put out something that will be a credit to the city, and we are looking to him for fulfillment of the promise."

"People are mighty slow contributing the \$20.00 necessary for installing the loud speaker in the colored department of the County Home, declared a citizen this morning."

"We only lack about \$7.00 completing this fund today, so if you fell like you want to subscribe, leave your contribution at the Reflector office or give it to some member of the soliciting committee."

"The radio outfit installed in the white department of the home several days ago has been instrumental in carrying joy to the hearts of the poor people. The addition of the loud speaker to be paid for with the \$20.00 now being raised, the colored folks will enjoy the same pastime of the white inmates."

"If you haven't contributed to this fund, why not get busy and do so immediately."

"While Johnny Marvin is one of the real highlights of the Eastern Carolina Exposition to be held at Farmville the week of April 8th, there will be plenty of other attractions to hold attention of the crowds expected from day to day," said officials of the attraction in the city yesterday afternoon.

"Marvin is one of the best known entertainers of his kind in the public eye today and his coming will be one of the greatest attractions in the history of the organization."

"The people of North Carolina should attend the exposition in big numbers and in that way show their appreciation of the splendid program which officials are arranging from year to year."

"Don't forget the hundreds of styles which local merchants have to offer you Easter outfit," reminded a business man today.

"Stocks are more complete this season than ever before and merchants are expecting the heaviest trading in years. This makes it imperative for you to get busy and make your selections before the rush actually gets under way. It will pay you not only from the standpoint of value, but in many other ways."

"Determine exactly what your needs are going to be and go to the stores and get them while stocks are complete with the latest creations from the world's great style centers."

"Two series of services are in pro-

Yes, sir, the boys out at the ball park are really getting down to business. If you don't believe it, ride out and look them over.

It is good news that those in charge of the work on the highway between here and Farmville have definitely promised that the road will be opened to the public by the seventh of next month. The length of time that this road has been closed for resurfacing has caused the traveling public no little inconvenience and certainly people from this section will be glad to know that in the very near future they can travel between this city and Farmville without having to detour.

Already some announcements of enlarged facilities in the tobacco industry here have been published and the information is that there are several other projects along this line now being planned. Local tobaccoists are making every effort from this end to take care of the ever growing number of farmers who sell on this market. Now if the buying companies will come on across with that fifth set of buyers there will be no question about the market establishing new records next season.

THE ROMANCE OF
TOBACCO

Romance has been associated with tobacco since the days of "Good Queen Bess" when Sir Walter Raleigh is alleged to have introduced the practice of smoking into England. It is so today when the Department of Commerce reports that it is now America's third largest commodity export. Only cotton and wheat exports in value.

Once cotton was "King" in the South, and it still is so far as tobacco is concerned, for while tobacco exports last year aggregated \$180,000,000 in value the cotton exports were five times that. And wheat exports were double the tobacco exports, but there is romance in the immensity of the tobacco exports just the same. Cotton is used to clothe most of mankind and bread is the staff of life, but tobacco is a luxury. At least, there are some who class it so, but many more who would say that it is now a necessity.

It is related that President Hoover once ordered the American Red Cross to supply flood-stricken villagers in the Mississippi valley with the tobacco they craved. The Red Cross workers protested they were without authority to spend money that way. President Hoover

LEAGUERS TO PLAY INITIAL GAME MONDAY

Regular workouts of the Greenville baseball club continued today. The players showed considerable improvement over the first training period Monday morning and went through workouts today like real veterans.

Four former members of last year's club were on the diamond today. They were Joliff, Barron, Cherry and Mattox. Ralph Williams is expected to report for duty during the latter part of the week.

President Guy Smith said that the first exhibition game of the season would be played at Roanoke Rapids with Henderson of the Piedmont League, next Monday.

Three other games have been scheduled to be played, at High Point, Durham and Greensboro, April 8, 9 and 10. The club head said negotiations were under way for several exhibition games for Greenville, the date to be announced at a later date.

Manager Lester Bangs said he would have his club in fairly good condition and that he expected them to make a good showing in the initial conflict of the season. While most of the twenty men in camp are rookies, there are quite a number who have seen long service in league baseball, and the manager is looking to them for stellar performance in the exhibition contests.

The club had a greater collection of pitching material to choose from this season than last year. At least eight of the players are hurlers of no mean ability and their initial performance is looked forward to with interest by hundreds of fans waiting expectantly for the season to open.

"Deacon" Joliff is still expected to be the mainstay of the organization's firing line and when victory seems in doubt his mighty arm will be sent to the box to turn the tide in favor of the locals. The "Deacon" did the iron man stunt two or three times last season, and is expected to be seen in a similar role when the season gets well advanced.

Fights Last Night

Minneapolis—Charles Delanger, Canada, stopped Frankie Wine, Barton, O. (5); Tim Derry, Dublin, Ireland, outpointed Benny Krueger, Germany (6). Indianapolis—Young Jack Dillon, Louisville, Ky., outpointed Ray McNeck, Denver, (10). Cleveland—Billy Wallace, Cleveland, knocked out Joey Medil, Chicago (4). Dayton, O.—Eddard Palmer, Columbus, O., knocked out Roleaux, Cuba, (3). Greenville, Miss.—Louis Andrews, Memphis, knocked out Willie Bennett, New Orleans (2). Columbus, Ga.—Walker (Louisiana) Smith, Soldier, knocked out Billy Britton, Memphis (3). Stebensville, O.—Jack Dempsey 11, Cleveland, knocked out Jack Wells, Ellsburg, W. Va. (8).

Mississippi River Falls Half Foot

Quincy, Ill., March 27.—(AP)—The levees protecting thousands of acres of farm lands had won a temporary victory today as the Mississippi river had fallen a foot in 24 hours.

Following a week of the highest water stage in recent years, the river still stood, except for the break which caused the flooding of the Indian Grave district. The danger was by no means over, but a reduction in pressure, due to lower water level, gave better chance for strengthening the dikes and for stopping leaks.

The government gauge here showed a stage of 19.8 feet last night, ten-tenths below the high mark of recent rise.

Water was still seeping through levees at Lima Lake, South Quincy, Ark. Fabius and Gregory, but pumping plants were able to cope with it.

JOHNSON KEEPS EYE ON ROOKIES

Walter Johnson, manager of the Washington Senators, in the dugout at Tampa, Fla., watching rookie talent in a pre-season game with the Boston Braves.

HIGHS TO OPEN BALL SEASON TOMORROW

The Greenville High School baseball team will open its season tomorrow afternoon at four o'clock, when they take on the strong team from Washington at the fair grounds. Both teams are in fine fettle for the contest and a strong fight is expected.

The Greenville team has been practicing hard for the last two weeks and an unprecedented number have been trying out for the squad. The competition has been so hot that Coach Porter has had a hard time in picking his varsity. It was announced today that the probable starting lineup will be composed of Hearne, first base; Hodges, second; Respass, short; Bostic, third; Smith, center field; Jones, right field, and Burnette or Dixon, left field.

Tucker will pitch for the locals and Hicks will catch. It is expected that Walters and Satterthwaite will form the battery for the rivals from the town on the Pamlico.

It is hoped that a large crowd will turn out to witness this initial contest of the season. Remember the time and the place, at the fair grounds at 4 o'clock tomorrow afternoon.

U. S. Athlete Wins

E. R. McGill, former University of Florida student, won the pole vault event for Oxford when Oxford met Cambridge.

TRAINING CAMP NEWS BRIEFS

Avon Park, Fla., March 27.—(AP)—The St. Louis Cardinals had an open date today, the last before reaching St. Louis. The homeward streak starts Thursday.

Orlando, Fla., March 27.—(AP)—Long George Kelly, Cincinnati Red first baseman, and holdout, was back in the fold today.

Though the salary was not divulged, it was understood Kelly accepted a little less than he received during the past two years.

New Orleans, March 27.—(AP)—Eddie Morgan, outfielder who spent most of last season on the Cleveland Indian bench, probably will be sent to some class AA team for a season. Morgan's lightning speed on the bases is outweighed by his inability to judge fliers or hit certain kinds of pitching, in the opinion of Manager Roger Peckinpaugh.

Tucson, Ariz., March 27.—(AP)—Be they major or minor leaguers or just a college baseball team, they are all the same to the Chicago Cubs.

Yesterday the Cubs entertained the local fans with a 14 to 4 defeat of the University of Arizona nine, Rogers Hornsby hitting two home runs.

Waco, Texas, March 27.—(AP)—Hits and pitching are still lacking with the Chicago White Sox.

Manager Lena Blackburne sent out Ted Lyons and Grady Adkins two of his hurling mainstays, to the mound against the Waco Cubs of the Texas league, yesterday, and they faded very badly. The Texans won 12 to 10 because of five home runs and the lack of hitting of the Sox, who collected only seven blows.

West Palm Beach, Fla., March 27.—(AP)—Manager Dan Howley's regular pitchers will get the call in the remaining exhibition games of the St. Louis Browns, he announced today. Howley expects to get them

Defer Action Against Long

Raleigh, March 27.—(AP)—Dr. Albert Anderson, superintendent of the state hospital here, was cleared of the stigma of a conviction and relieved of paying a \$500 fine by the State Supreme Court which handed down an opinion today ruling that the charges upon which he was found guilty by a Wake county jury last November did not constitute a crime.

The court held that Judge Devin should have granted the request of the defense for an arrest of judgment. The 69-year-old hospital head was found guilty of working hospital patients on his private property. He was acquitted on a number of other counts. The case against him grew out of an investigation by the Wake county grand jury which voted a bill of indictment charging malfeasance and embezzlement.

Lack of Gasoline Prevented Fliers From Making Goal

Bahia, Brazil, March 27.—(AP)—Only lack of gasoline prevented the Spanish fliers, Captains Iglesias and Iglesias from succeeding in their attempt to break the world record for long distance flights in flying from Seville, Spain, to Rio Janeiro.

Captain Iglesias today declared that they had first sighted the Brazilian coast over the state of Bahia and had intended to land at Rio Janeiro when they discovered that their fuel was insufficient.

After a conference they decided that it was best to land at the nearest flying field, which was at Camassary, near Bahia.

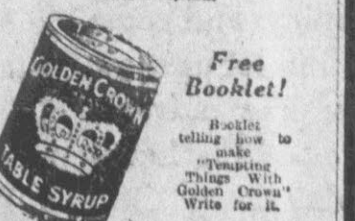

Captain Iglesias said that the plane had stood up well against strong head winds for several hours. He was sure they would have reached Rio Janeiro had their supply of gasoline held out.

CAPTAINS HARVARD'S CREW

Forrester Clarke, captain of Harvard's varsity crew at the first outdoor workout of the season on the Charles river.

in shape with only two open dates remaining before the big show starts.

Fort Myers, Fla., March 27.—(AP)—Lefty Grove, pitching ace for the Athletics, will not see service in any of the remaining exhibition games in the south. Manager Mack announced today. A nail on his pitching hand has become imbedded in the flesh, and it will be two weeks at least before he will be able to grip the ball properly.

Winter Haven, Fla., March 27.—(AP)—One thing that reacts favorably on the Phillies is the confidence Manager Shotton puts in his young players, in the opinion of Cy Williams, veteran outfielder. "Shotton knows how to handle the youngsters," he said. "He gets the best out of them. I've played under a lot of managers, but never saw one who understands the players' as well as Shotton."

San Antonio, Texas, March 27.—(AP)—With very little of their

shooting in a curve ball with a fine break on it.

New York, March 27.—(AP)—The loyal Giants rooters will give a dinner to John J. McGraw April 14 to express appreciation of the fact that he has kept his team in the National league races for twenty six years.

Today's Exhibition Baseball Schedule

At St. Petersburg, Fla.—Philadelphia (A) vs Boston (N).
At West Palm Beach, Fla.—Philadelphia (N) vs St. Louis (A).
At Tampa, Fla.—Brooklyn (N) vs Washington (A).
At Phoenix, Ariz.—Detroit (A) vs Chicago (N).
At New Orleans—Cleveland (A) vs New Orleans.
At Dallas, Tex.—Chicago (A) vs Dallas. (TL).

YESTERDAY'S RESULTS

At Tampa, Fla.—Washington (A) 7; Brooklyn (N) 6.
At Winter Haven, Fla.—Philadelphia (N) 8; St. Louis (N) 4.

Market Report

Cotton--Stocks--Grain

COTTON MARKET

New York, March 27.—(AP)—Cotton today opened unchanged to a decline of 8 points and sold about 5 to 13 points net lower during the first few minutes under a renewal of liquidation or overnight selling orders brought in by the unsettled ruling of yesterday. Trade interests were buyers at the decline, however while there was a good deal of covering. After easing off to 20.43 for May and 19.76 for the new October contract, prices turned steadier. By the end of the first half hour May was up to 20.62 and October to 19.88 making net advances of about 2 to 8 points on the active months. The day's weather news was considered favorable but there may have been some buying on bullish features in the weekly report on the weather bureau.

Private cables reported continental and Bombay buying in Liverpool but said demand for cotton cloth from China was less insistent and that yarn was depressed.

GRAIN MARKET

Chicago, March 27.—(AP)—Wheat trading was moderately active today and for the most part, the market ranged upward, contrasting sharply with yesterday's selling stampede and breaks in prices.

Wheat closed firm 3-4 to 1-1-4c net higher, corn 3-4 to 1-1-4c up, oats unchanged to 1-2c advance, and provisions unchanged to a rise of 30 cents.

STOCK MARKET

New York, March 27.—(AP)—The credit crisis, which precipitated one of the heaviest liquidation movements in stock market history this week, appeared to have passed its peak today, prices rallied briskly after a temporary period of heaviness which followed the posting of a 15 per cent. renewal rate for call money.

Call money held firm at the renewal rate although New York bankers were reported to be standing by to prevent a repetition of yesterday's run up to the 20 per cent. level. Charles E. Mitchell, President of the National City Bank, which supplied funds freely late yesterday when it looked as though the rate would be pushed up above 20 per cent. started that the bank was offering \$25,000,000 additional to be loaned as follows:

\$5,000,000 each at 16, 17, 18, 19 and 20 per cent. Similar action was contemplated by other bankers. One of the most encouraging credit developments of the day was a decline of 1-8 of 1 per cent in bankers' acceptances, the first recession in months. Time money held firm at 8 1-4 to 6 1-2 per cent with the market extremely dull.

Trading showed a marked reduction in volume today. This was construed as an indication that the bulk of forced liquidation had been completed, and that speculators and investors were not inclined materially to extend their commitments at this time.

Business news continued favorable. Iron ore reported that a 25 cents a ton advance in iron ore, a further stiffening of Northern pig iron prices, and added forward commitments in finished steel are fresh evidence of the buoyant situation in the Iron and Steel industry.

Opening of the Oil curtailment conference here today stimulated the demand for the oil shares. Houston Oil, which sold as low as 83 yesterday, jumped 20 points to 100. Standard Oil of New Jersey climbed 5 1-2 points. Atlantic Refining 3 3-4 and Standard Oil of California and Standard Oil of Indiana 3 1-2 to 4 points higher.

roughs Adding Machine 8 and Industrial Rayon, Simmons Co., Commercial Solvents, Electric Auto Lite, General Electric, Lambert, Greene Cananea and American and Foreign Power sold 5 to 7 points higher.

Blackard Motors, Anaconda Copper, Radio and National Cash Register made up their early losses of 3 1-2 to 5 points, and moved about last night's final quotations. In the railroad group, New Haven, Northern Pacific, Union Pacific, Canadian Pacific and Delaware & Hudson sold 3 to nearly 5 points higher.
