

### THE WEATHER

Mostly fair tonight; Wednesday local thundershowers; moderate east winds.

## TARIFF RATE SCHEDULE IS CRITICISED

### Both Democrats and Republicans Score Tentative Figures Just Made Public.

Washington, Aug. 20.—(AP)—The rate schedules tentatively approved by the Republican tariff farmers of the Senate finance committee were out in the open for the first time today, and were promptly made the subject of sharp criticism from both Democratic and Republican Independent quarters.

Showing about 260 changes written into the schedule voted by the House, the schedules were turned over to the Democratic members of the committee to enable them to make their preliminary study of the measure in preparation for the lengthy debate which is to begin in the Senate after it is reported September 4.

The Republican committee, meanwhile, turning their attention to the controversial administrative provisions of the House bill, which contain the flexible tariff and other clauses that are likely to encounter severe opposition in the Senate.

The changes disclosed in the rate schedules include both increases and reductions in comparison with the proposals voted by the House. The greatest number of reductions in any schedule is proposed in that affecting chemicals, oils, and paints, and the greatest number of increases in the agriculture schedule. In the chemical schedule, the Senate committee Republicans favor 67 changes, including some increases, and in the agricultural schedule, 70, including a few reductions.

In the other schedules, 36 changes up or down are proposed affecting earth, earthenware and glassware; 51 affecting metals; eight, wood and manufactures of wood; nine, sugar, flour, tobacco; one, spirits; 20 cotton manufactures; seven, flax, hemp and jute; 33, wool; one, silk; five, rayon; six, paper and books; and 24, sundries.

The reductions include the 2.20 cent a pound rate on Cuban raw sugar, on which the House voted 2.40 cents and the Fordney-McCumber law provides 1.76—a subject which is likely to occupy the Senate through many days of bitter controversy. The proposed decrease to \$1.50 from \$1.12 1-2 a ton in the rate on pig iron is another item likely to arouse considerable discussion, together with the 3 cent deduction in the House rate on raw wool, restoring it to the present duty of 31 cents a pound, and various changes in the wood schedule.

Senator King of Utah, said they were "as unsatisfactory as the House bill," while J. J. Shouse, chairman of the Democratic National committee's executive committee, declared they showed that the "motivating principle" behind the move was "a simple determination to enable special groups of industrialists to cash in on their last year's campaign contributions."

The movement to confine the tariff revision chiefly to agricultural products was emphasized by Senators Thomas, Democrat, Oklahoma, and Borah, Republican, Idaho. Thomas announced plans to offer a resolution to eliminate all schedules in the committee bill not relating to agriculture which, if adopted, would require the sponsors of changes in other sections to propose specific amendments and "make a case" for them on the floor.

Borah, one of the Republican Independents who has expressed his dissatisfaction with the revision proposed by the House, said he would either support the Thomas resolution or introduce one of his own along similar lines. A resolution he introduced prior to the summer recess aimed at the same objective, was defeated by only one vote.

## Deny New Trial For Snook; To Die In November

Columbus, Ohio, Aug. 20.—(AP)—Dr. James H. Snook was sentenced to be electrocuted on November 29 for the killing of his co-ed sweetheart, Theresa Hix, by Judge Henry L. Scarlett today after a motion for a new trial had been overruled.

The former professor heard the announcement of death without a tremor.

The same calm with which he faced a crowded court room during the three weeks of his trial that ended last Wednesday when a jury found him guilty of murder in the first degree without a recommendation of mercy, was displayed by the defendant.

## Experts Hard At Work In Effort To Untangle Reparations Problem

The Hague, Aug. 20.—(AP)—The reparations experts, who worked until after midnight in an effort to reconcile the conflicting estimates of the yield in money of the four-power offer to Great Britain were hard at work on their labors again today.

What has developed thus far indicates that there will be two reports on this problem the experts of the four powers will support the contention of France, Italy, Belgium and Japan that they offered sixty per cent at least of the amount demanded by Philip Snowden, the British chancellor of the exchequer.

The British treasury men, on the other hand, will uphold the chancellor's claim that the offer amounted to no more than from twenty to thirty per cent of what he demanded.

## MAN ATTACKS MAYOR COOPER AND IS SHOT

Murphy Mayor Exonerated After Shooting Drunken Man During Attack.

Murphy, N. C., Aug. 20.—(AP)—Lee Southerland, 30, plumber, is at his boarding house here with a bullet wound in his right side as the outcome of an attack he made yesterday afternoon upon Mayor Cooper. Southerland's condition is critical but doctors think he will recover.

Immediately after shooting Southerland in the side with a 30-30 revolver, Mayor Cooper surrendered to the chief of police and was given a hearing before Magistrate A. A. Palm. After evidence had been heard, the charge against the Mayor was dismissed and he was exonerated completely. A number of witnesses were on hand prepared to testify that Southerland had been drinking and that he had repeatedly asserted he intended to "get" the mayor.

Armed with an ice pick and knife, Southerland about 1 o'clock yesterday afternoon proceeded to Mayor Cooper's home. He cursed Mayor Cooper and was knocked from the front porch by the revolver in the mayor's hand. Southerland, it is claimed, leaped up to renew the attack with an ice pick in one hand and a knife in the other. Mr. Cooper then fired and Southerland rolled into a ditch, where later he was removed to his boarding house by persons who had earlier in the day attempted to dissuade him from visiting the mayor's home.

Several weeks ago Southerland was given a hearing before Mayor Cooper and fined. He could not pay the fine but was permitted to go free until he could raise the money. He failed to pay the fine and was put in jail.

Friends of Mayor Cooper declared he several times went to extremes to avoid trouble with Southerland. It is said that Southerland had of late been drinking heavily and has frequently been heard to utter threats against Mayor Cooper. Southerland is unmarried.

Mayor Cooper, an attorney, was Lieutenant-Colonel in the world war.

All of the experts are frankly worn out by their mission. Premier Briand of France has made all arrangements to go home Saturday before leaving for the League of Nations assembly while Arthur Henderson, the British foreign secretary, and Gustav Stresemann, German foreign minister, must leave soon in order to prepare for the league meeting.

It is now accepted as virtually certain that whatever happens to the reparations conference the number of troops occupying the Rhineland will be reduced before Christmas from about 62,800 to 56,800 through the withdrawal of the British contingent. The strength of the different occupying forces is now given as: French, 34,000; British, 6,000 and Belgians, 2,800.

## \$30,000 SUIT UNDER WAY IN CIVIL COURT

Bethel People Suing R. D. Harrington For Injuries Received in Accident.

A \$30,000 damage suit was started in the civil term of Pitt county Superior court which convened in this city yesterday morning, with Judge Garland Midyette, of Jacksonville, presiding. The suit was that of Daniel McVickers, Jr., by his next best friend, Daniel McVickers, Sr., against R. D. Harrington, wealthy landowner of this city.

The suit was the outgrowth of injuries which young McVickers is alleged to have received when a dynamite cap exploded in an old house on the Harrington plantation in the Bethel community. The youth is said to have had one finger blown off and an eye so badly impaired that he will be blind for life.

The explosion occurred in 1925, but suit was not filed until about three years later, the plaintiff waiting to determine the full extent of the damage. The suit has been hanging fire since that time, and is expected to be one of the hardest fought and probably the longest drawn out of the present session.

Three other cases were disposed of before the damage suit was reached. Whitehurst Andrews Co. vs. Bethel concern, was awarded judgment against A. J. Simons and H. H. Simons. The suit was for setting aside of a deed conveyed by A. J. Simons to H. H. Simons. The deed was declared null and void and without effect, thereby giving the merchants a clear-cut victory over the defendants.

Mrs. Elizabeth Carson, of Bethel, was granted divorce absolute from Clarence Carson. The same decision was handed down in the action of Bessie Brown, colored, against John Brown.

This week's session of court will be confined to the hearing of civil actions, but next week attention will be turned to consideration of criminal cases. The docket for the second week is said to be quite heavy and each day is expected to be filled with more than usual work.

## List Of Entrants In Big Campaign To Appear Soon

With the announcement of the names of candidates entered, which will appear in the Reflector Thursday afternoon, the \$6,000 automobile and cash free distribution will really get under way.

Up to the present time it has been in the formative stage, a period during which some have entered their names, a few have started to gather votes and subscriptions, but during which most people have been hesitating about getting in and winning.

The time has now arrived for minds to be made up as soon as possible. Those who are entered and as yet have done nothing toward making a start, should get under way now. Those who are still "thinking about it" should at once get in touch with the campaign department of The Reflector and at least get all the details of the plan of campaign.

All nominations received up to Wednesday night, August 21st, at 8 o'clock will be included in the first list of entrants and it will be valuable to have your entry included in this list as many people are going to be looking for people to support in the election for the four automobiles and thousands of dollars in cash.

All the opportunity in the world exists today for anyone to enter, start and win any of the big awards. There are many, many spots totally unrepresented by entrants. You can win in any district and can win any prize you may care to go after.

## ZEPPELIN PREPARED FOR TAKE OFF ON WEDNESDAY

### Giant Airliner Ready To Continue Trip Around The World From Tokyo.

Tokyo, Aug. 20.—(AP)—The Graf Zeppelin, conqueror of one ocean and two continents, was prepared today for the conquest of another sea and another continent, and completion of its round-the-world trip.

Lodged safely within the giant German constructed hangar at Kasuga, the giant dirigible was made over carefully by workmen, who again tested every inch of its fabric, restarted motors and listened to their hum, and sought possible weaknesses which may have developed on its flight across Eurasia.

Thursday at dawn (Wednesday mid afternoon, E. S. T.) barring adverse weather or other contingencies, the Zeppelin will be started on the third lap of its globe encircling cruise, from Tokyo to Los Angeles, across the Pacific north of the Hawaiian group and down the American coast from Seattle, a distance of about 5,470 miles.

After a brief stop at Los Angeles it will fly the 2,500 miles across the continent to Lakehurst, N. J., completing the trip, begun Wednesday night, August 6, with the start from Lakehurst for Friedrichshafen, Germany. It should have flown then about 19,000 miles.

The same crew of 40 men will be aboard that made the start at Friedrichshafen, but four of the passengers brought here from the dirigible's last constance home will quit the craft, leaving but 16 of the original passengers. The sailing list may be filled at this port.

Passengers and crew, freshened by a long sleep last night at Tokyo hotels, spent today sight-seeing and accepting the entertainment of Japanese hosts.

Despite reluctance of Dr. Ecken, master of the dirigible, to delay his own sleep and that of his men for entertainment he could not refuse the invitation to dinner shortly after arrival, a ceremonial meal expressing the tribute of Dai Nippon to those who had so conquered space.

The ceremonial dinner menu listed dried chestnuts, dried cuttlefish, and saki, the national drink fermented from rice. A getsha dinner, at which Geisha girls danced and sang modern and classic songs of the country followed, with the officers and crew of the dirigible as guests.

## Derby Flier

Mrs. Florence L. Barnes, San Marino, Cal., is entered in the women's air derby from Santa Monica, Calif., to Cleveland, land-d here, was found early today six miles north of Wellton, Ariz.

## ROTES STAGE PROGRAM ON FRIENDSHIP

### International Friendship Discussed by Two Prominent Club Members.

International Friendship was the topic of discussion at the regular weekly session of the Greenville Rotary club last night, and the Rotes heard two interesting talks dealing with the subject by Dr. R. L. Wright, president of the East Carolina Teachers College, and F. C. Harding, club president.

After the usual supper and reading of minutes of the last meeting, B. B. Sugar, Jr., entertained with a couple of flute solos. He was accompanied at the piano by Mrs. G. V. Smith.

The program was in charge of the International Service committee and Dr. Wright was the principal speaker. He pointed out the important part which the individual viewpoint is going to play in cementing the spirit of friendship among the many nations of the earth, and this in course of time would bring about peace and good will in the world.

Mr. Harding spoke along the same line of thought and brought out many facts in connection with the subject.

In connection with the fund which members of the King's Daughters are raising in behalf of under-privileged children of the community, the hat was passed and members of the club donated liberally to the cause. They were previously told of the children needing operations for tonsils and adenoids and that this would not become possible without the individual subscriptions of people who are interested in preserving humanity.

Washington, Aug. 20.—(AP)—The weather bureau today issued the following storm warning: Advisory 10:30 a. m., tropical disturbance apparently of small diameter and of slight to moderate intensity, is moving west-northwestward in estimated latitude sixteen degrees, thirty minutes, longitude sixty-eight, probably will pass over or slightly south of the southern coast of Santo Domingo or Haiti tonight. Caution advised in region of Santo Domingo, Haiti, Jamaica and windward passage next 24 hours.

## Noted Woman Flier Is Killed In Air Derby Body Found In Arizona

Phoenix, Ariz., Aug. 20.—(AP)—The body of Miss Marvel Crosson, San Diego flier, reported missing last night when other entrants of the women's air derby from Santa Monica, Calif., to Cleveland, land-d here, was found early today six miles north of Wellton, Ariz.

The body was found some distance from her wrecked plane, her parachute released but unopened. The searching party which found the body said it was apparent trouble had developed and that she had leaped in an attempt to save her life.

Miss Crosson, holder of the woman's altitude record, 23,996 feet, was flying from San Bernardino to Phoenix. Fear for her safety had been expressed upon her failure to arrive and searching parties were sent out when residents of the Wellton area reported hearing an airplane plunged into a heavy cottonwood growth along the Gila river.

Miss Crosson, 25 years old, was one of the most colorful of the woman pilots who took off from Clover Field Sunday to compete in the \$25,000 race. From girlhood she had been fascinated by aviation. She took up active flying with her brother, Joe, in 1922, at San Diego, Calif., with an airplane purchased from surplus army stocks. In the spring

MISS MARVEL CROSSON

of 1923 she made her first solo flight, and developing rapidly as an expert pilot, entered the commercial aviation field.

Two years after she first took a plane aloft alone, she took up commercial flying in Alaska, where her brother was employed as a transfer pilot. Her most recent achievement was the establishment of the woman's altitude record of 23,996 feet over Los Angeles last June 28.

She was born in Warsaw, Ind., April 27, 1904. She was graduated from Logan county high school in Colorado.

## MORE CLASHES ARE REPORTED IN MANCHURIA

London, Aug. 20.—(AP)—Both Chinese and Russian sources today reported warlike activities along the Manchurian border with an increasing number of clashes and incursions by the opposing armies.

Mukden, Manchuria, dispatches said Chinese defenders and 3,000 Soviet Cavalry invaders from Nanking yesterday engaged in a fierce struggle for the village of Tunghing-shien, south of Pogradichayna, in which the settlement changed hands several times but finally was retained by the Chinese.

A Blagoveshchensk, Siberia, dispatch said Chinese troops, supported by white guard detachments fired on a Soviet monitor on the Amur river about 95 miles northwest of here. Simultaneously Chinese fired upon Soviet troops and civilians in the vicinity of Lake Hanka, near the villages of Grodenko and Poltavsk. The Reds resisted energetically.

The Moscow government, through the German diplomatic force there, dispatched a note to both the Mukden provincial and Nanking Central Chinese Governments warning against bands of white Russians and demanding that these bands be disarmed and Chinese troops prevented from making further encroachments on Soviet territory.

Responding to a request of Dr. Ham that the Laboratory assist him in determining the species of the snake sent to the laboratory in a castor oil bottle, Dr. Shore stated that "following an examination of the specimen sent to us, we find that it is not a snake, but a worm commonly known as the cabbage snake."

The tiny reptile encased in the castor oil bottle was brought to the Reflector office last Saturday morning, and at the request of Mr. Fleming, Dr. Ham sent it on to the State Laboratory to determine exactly what kind of a snake it was.

## PLANTERS IS PREPARED FOR LEAF OPENING

The Planters warehouse is all set for the opening of the Greenville tobacco market Tuesday, September 3rd, it was stated by members of the house today, and when the doors swing open everything will be in place for the reception of the thousands of farmers to visit the city from day to day during the season.

The Planters Warehouse has 52,800 square feet of floor space and is constructed of steel, brick, and is located on Albemarle Avenue. The building covers a city block.

This warehouse will be managed by W. J. Hardee who has been connected with the Greenville Tobacco Market for several years, and S. E. Gates, who is a large tobacco farmer and merchant. Mr. Lee Moore who has had years of experience in the tobacco business will assist in running the sales. Modern conveniences installed in this warehouse for the customers including large ladies rest room, sleeping quarters for the men, and a large and roomy stable for the team.

The Greenville tobacco market sold last season over 71,000,000 pounds of tobacco for about \$15,000,000 million dollars for the farmers of twenty-five eastern North Carolina counties.

When removed from the bottle Saturday, the snake looked like an ordinary blade of glass, or a piece of cord. Placed under a powerful magnifying glass, it was discovered that the reptile was of a slick brown color with white markings, the white predominating on the upper part of the body.

Numbers of people passed opinions concerning the snake. Some thought it was a moccasin or black snake, but none could say definitely to what species it belonged. It was at this juncture that Mr. Fleming was persuaded to turn the snake over to the health department and have it sent to Raleigh for examination.

## Chinese and Soviet Calvary Engage in Fierce Battle For Control of Town.

London, Aug. 20.—(AP)—Both Chinese and Russian sources today reported warlike activities along the Manchurian border with an increasing number of clashes and incursions by the opposing armies.

Mukden, Manchuria, dispatches said Chinese defenders and 3,000 Soviet Cavalry invaders from Nanking yesterday engaged in a fierce struggle for the village of Tunghing-shien, south of Pogradichayna, in which the settlement changed hands several times but finally was retained by the Chinese.

A Blagoveshchensk, Siberia, dispatch said Chinese troops, supported by white guard detachments fired on a Soviet monitor on the Amur river about 95 miles northwest of here. Simultaneously Chinese fired upon Soviet troops and civilians in the vicinity of Lake Hanka, near the villages of Grodenko and Poltavsk. The Reds resisted energetically.

The Moscow government, through the German diplomatic force there, dispatched a note to both the Mukden provincial and Nanking Central Chinese Governments warning against bands of white Russians and demanding that these bands be disarmed and Chinese troops prevented from making further encroachments on Soviet territory.

Responding to a request of Dr. Ham that the Laboratory assist him in determining the species of the snake sent to the laboratory in a castor oil bottle, Dr. Shore stated that "following an examination of the specimen sent to us, we find that it is not a snake, but a worm commonly known as the cabbage snake."

## SWISS FLIERS UNSIGHTED FOR NIGHT AND DAY

### Two Daring Youths Due to Reach New York Today if Every thing is All Right.

(By the Associated Press.) Unsighted for almost 24 hours at noon today, two youthful Swiss fliers were due at Roosevelt Field late this afternoon if the hazardous north Atlantic did not bring them down short of their goal.

Leaving Lisbon early yesterday morning, Oscar Kaeser and Kurt Luescher were seen flying over the village of Praia Victoria on the island of Terceira at one o'clock (E. S. T.) yesterday afternoon.

The silence enveloped their daring exploit and through the night and the morning hours of the day no word was heard of them, although several ships were steaming along the course they planned to follow. The American coast was shrouded in fog.

At the speed they maintained up to the Azores they should have reached Newfoundland about four o'clock this morning and Halifax, N. S., at 10. It had been their plan to refuel at Halifax if their gas was low, but they had said if the supply was sufficient they might decide to proceed to New York without landing. It was not believed they could get here until late afternoon.

After passing Terceira Island the fliers faced a stretch of about 2,400 miles to New York, and of about 1,350 miles to Cape Race, the eastern tip of Newfoundland, the first land on their course. They hoped to reach Halifax, Nova Scotia, 500 miles further, before stopping to refuel.

If the fliers negotiated the westward crossing and maintained their speed of 90 miles an hour they should have reached the vicinity of Cape Race, Newfoundland, by four o'clock this morning, and Halifax six hours later. It would require six hours more for their plane to fly from Halifax to New York.

Although the aviators had good weather from Lisbon to the Azores, fog and westerly winds faced them from here to the American coast. Halifax reported unfavorable flying conditions along that coast, with a dense fog and a moderately heavy rain.

The westward crossing being attempted by the two aviators has been made successfully but once. The German-Irish trio, Baron Von Huenefeldt, Captain Herman Koehl, and Major James Fitzmaurice negotiated the court in the airplane Bremen, from Baldonnel Field, Ireland, to Greenley Island off the Labrador coast in 1927.

## Sun God Flying In Montana Today

Miles City, Mont., Aug. 20.—(AP)—The Spokane Sun God endurance plane, piloted by Nick Hamer and Art Walker, on an attempted transcontinental non-stop round trip flight, headed for Belgrade today.

The plane arrived here from Aberdeen, S. D., at 9:50 o'clock last night on the way to Missoula but the pilots decided not to continue the trip because of poor visibility caused by haze and smoke from forest fires.

Frank Wiley and Tom Matthews, two local fliers, were called on to refuel the Sun God. Neither has had experience in flying a refueling ship, but Mamer and Walker dropped notes explaining the task.

The pilots also dropped a note asking that their regular refueling plane, which was to have met them in Missoula, proceed to Belgrade from Aberdeen.

## N. C. Bar Head Seriously Sick

Wadesboro, Aug. 20.—(AP)—T. L. Caudle, Dean of the Wadesboro Bar and recently elected unanimously to the presidency of the North Carolina Bar Association in its convention at Wrightsville Beach, is seriously ill here. Much concern is felt over his condition.

Mr. Caudle was taken ill Friday morning. He is at his home in this city, suffering from a complication of diseases.

The report of the Department of Hygiene will be received with more than passing interest, especially by those who actually saw the snake, and the Belvoir man still has the consolation of knowing that he has the distinction of providing "the smallest snake in the world," even though it happened to be of the cabbage snake variety.

# CAMPAIGN INTEREST SHOULD GROW

*With Announcement of Candidates Entered So Far In*

# \$6,000 Free Gift Distribution

FIRST PRIZE

**A New Hudson Super-Six Coach**

VALUE \$1,275.00

Purchased From

**PITT HUDSON COMPANY**

Dickinson Ave.

Greenville

## Will You Be Included In Roll of Live Wires?

THERE'S PLENTY ROOM!

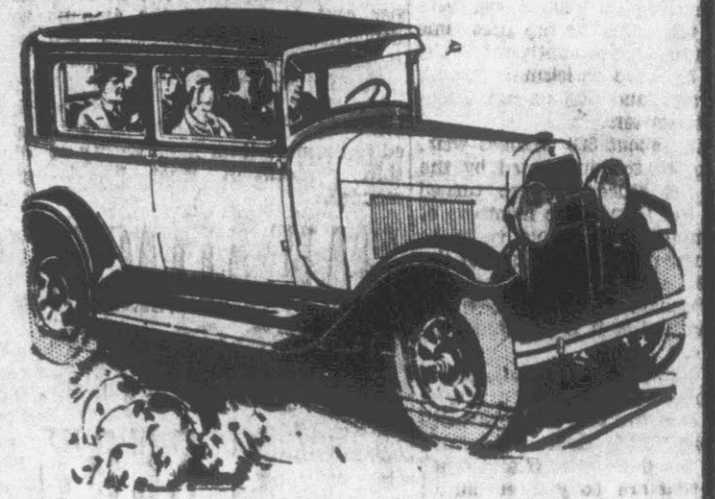

PLENTY OF OPPORTUNITY

While there will be a fair number of entrants in the first list, which will appear in the Reflector, Thursday August 22, only a small portion are active. It will be wise to have your name included in that list if you have any desire to have one of the four cars here pictured or some of the thousands of dollars in cash. Don't delay any longer. Get in on the ground floor.

**NOMINATIONS RECEIVED BY WEDNESDAY AT 8 O'CLOCK P. M. WILL BE INCLUDED IN FIRST LIST**

There are hundreds of people who will be watching for the names of candidates in order to pick their favorite. Be there to get your share of early support. It will mean more subscriptions—more votes—and votes win the rich rewards. If you are waiting to see who is in before entering, look for Thursday's paper.

SECOND PRIZE

**New Oldsmobile Coach**

VALUE \$1,000.00

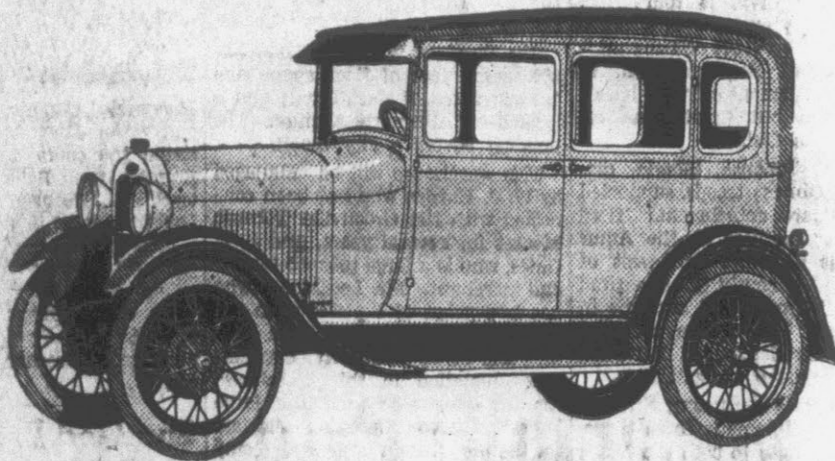

Purchased From

### Social & Personal

Mrs. E. A. Parker has returned from a visit in Kinston.

Miss Gretchen Parker is spending some time at Virginia Beach.

Mr. and Mrs. A. L. Tucker, Jr. spent Sunday at Virginia Beach.

Mr. J. Burgess spent Sunday at Virginia Beach.

Mr. Arthur has returned from Greenville, Ga., where he has been in the tobacco market.

Mr. and Mrs. Swanson Graves and Mrs. Swanson, Jr. and Jimmie, of Washington, spent the week-end with Mrs. Graves' mother, Mrs. Pat. Forbes.

Mrs. Hunter Fleming and Mrs. Hugh Williams, of Kinston, were here today.

Mrs. Carl Jeanette and little son, Henderson, who have been visiting her parents, Mr. and Mrs. R. A. Dymal, have returned home.

Miss Blanche Shriver has returned from Gettysburg, Pa., where she has been visiting relatives.

Mrs. S. H. Ross, of Akron, Ohio, who has been the guest of her sister Mrs. Berry Bostic, has returned home.

Edward Thomas has returned from Douglas, Ga., where he has been on the tobacco market.

H. L. Elks has returned from Quincy, Florida, where he has been on the tobacco market.

Dr. and Mrs. R. L. Carr, Miss Elizabeth Carr and her guest, Miss Marjorie Hooks, of Wilson, are spending a few days in Morehead.

Miss Ada Jones has returned from two weeks' stay at Lake Geneva, Wisconsin.

Miss Nanette Bruce Miller, of Kinston, is visiting Miss Margaret Roper.

Mr. Milton Cone and daughter, Mrs. Beth, of Richmond, Va., are visiting her sister, Mrs. W. G. Ward.

Miss Mary Elizabeth Tingle has returned home after a week's visit in New Bern.

Mr. and Mrs. C. A. Coleman and son, and Mrs. Rose Lindenberger, of Richmond, Va., and Dr. and Mrs. T. M. Rowlett and little son, of Concord, are visiting the families of C. B. and J. F. Rowlett in this city.

Mrs. T. H. Mallison, of Spring Hope, after spending several days with her sister, Mrs. W. G. Ward, has gone to Morehead for a week.

Mr. and Mrs. John Happersberger are spending some time in Detroit, Michigan.

J. N. Tingle is attending the Merchants Association in Richmond.

Miss Mildred Bilbro has returned from Robersonville after a few days' visit.

Marvin and Arobie Suga have returned from a few days' stay at Morehead City.

Miss Tiny McKee left today for several days' visit in New Bern.

Miss Christine Palmer has returned home after an extended visit in Norfolk and Halifax.

Miss Edna McKee has returned from a visit to New York and Richmond.

Mr. and Mrs. Ollen Warren are moving from Evans street to Fourth street.

If you have property to sell—consult with us—it will pay you well. H. A. White & Sons, Realtors—General Insurance, 403 Evans St., phone 44. Est. 1895.

### Begin Campaign For Advertising Fund in This City

After intensive canvassing during the morning hours, members of the committees from the Merchants Association soliciting funds for the annual advertising campaign, reported at the noon hour today that contributions amounted to \$1,000, exactly \$2,500 of the goal set for this year.

The committees will not continue the canvass this afternoon, but tomorrow morning they will start out again and hope to be able to bring the whirlwind drive a finish with sufficient contributions to total the amount asked for to make this year's advertising program possible.

This fund will be used in advertising the advantages and possibilities of Greenville and every business man interested in the future of the city is asked to contribute as liberal as possible in order to make the plan possible.

The city has derived much good from campaigns launched in past years, and it is believed more progress will be noted this year than ever before.

### BRIAND AND SNOWDEN MEET AT HAGUE CONFAB

The Hague, Aug. 20.—(AP)—Aristide Briand, French premier, and Philip Snowden, British chancellor of the exchequer, whose steadfastness in their respective positions has deflected the reparations conference were brought together today for the first time since the last plenary session of the conference. They were guests together at a luncheon of Beelaerts Van Blockland, Dutch foreign minister.

If you have property to sell—consult with us—it will pay you well. H. A. White & Sons, Realtors—General Insurance, 403 Evans St., phone 44. Est. 1895.

### LOCAL BOYS PREPARE FOR ENCAMPMENT

**Youngsters Packing Kit Bags Getting Ready For Annual Trek to Camp Pitt.**

The boys of Greenville are busy packing their bags for Camp Pitt, which opens this Saturday, and the directors and staff are equally busy getting things in shape which will assure the best kind of a time for all attending.

For safety and sport, a real lifeboat has been procured, one of the kind that will furnish amusement for half a dozen boys at once without a chance of its overturning. Even at that, no risks will be run, for it will be permitted in shallow water, and with a guard for every inexperienced swimmer who is on board. Ring life preservers and safety zones, marked off by ropes, will further increase the safety of every boy, and the water patrol will be constantly on the watch and helping the boys to learn swimming, new strokes and water safety.

Another feature that will appeal to most boys is the presence of canoes, always a delightful form of sport, and one particularly suited to a shore like ours, where large stretches of water are but two or three feet deep. This water is as good for canoeing as deeper, and the smaller boys may learn to skim the surface like swallows here with the assurance that if the canoe should be overturned, they may stand up in water only waist high.

Many of the Greenville Scouts, thinking the trip to Greensboro too long, have decided to attend Camp Pitt, where they will have equal opportunity to practice scouting activities with special scout leadership. The Greenville Scoutmasters will all be with the camp for as much time as they can, each one being able at least to "overnight" with the boys, we hope. No special Scout equipment will be required of any attending, but each Scout may bring along all the paraphernalia which will prove him an experienced woodsman. Quite a number of Scouts from Washington are expected to camp with us, and some expert leadership will also be furnished from there.

With a sufficient number of boys registered, it is now the plan to have two all day trips on the big boat, so that all may take one, and neither the boys who can stay only the first week, or those who can come only to ride second will lose their trip. This promises to be one of the features of the camp, and all boys will want to get in on it.

Those who have not yet turned in their applications are advised to get in touch immediately with the Camp Director R. L. Totten, by mail, phone or call, if they do not want to be left out.

**AMERICAN LEGION TO MEET TONIGHT**

The American Legion will meet tonight at 7:00 o'clock at the Rotary building. All members are urged to be present.

**Announcement.**

Mrs. Charles A. White will give lessons in voice and piano, at her home on Ninth street. Phone 964.

If you have property to sell—consult with us—it will pay you well. H. A. White & Sons, Realtors—General Insurance, 403 Evans St., phone 44. Est. 1895.

**Mrs. Park Has Tonsil Operation.**

Mrs. F. M. Park underwent a tonsil operation in a Wilmington hospital today. Her many friends wish for her an early recovery.

**Miss Boyd Improving.**

Friends will be glad to learn that Miss Emma Boyd is improving and is now at home.

### James T. Buck To Compile History Of His Family

James T. Buck, of Crosbyton, Texas, is compiling a family history and would like to get in touch with members of his family in this section in order to help him complete his task, according to a letter received by the Reflector today.

Mr. Buck's letter follows:

"I am gathering material for a family history and am anxious to hear from members of the Buck, Garthurs, Hooper and Love families with all the genealogical data and historical information available. My ancestor, Major Isaac Buck and his brother James, were settlers in Eastern North Carolina as early as 1735. Major Isaac Buck achieved some local prominence in Pitt county and was captain, then major of county militia prior to 1764. He was also one of the first county commissioners and helped select the first county site, it is said. His brother, James Buck, resided in Beaufort county. William Caruthers was also a major and then lieutenant colonel of Pitt county militia during the early colonial days. The census of 1789 shows that Apollis, Benjamin, James, John and William Buck resided in Pitt county, and that Edwards, Frances, Isaac and William Buck, Jr., lived in Beaufort county; that Charles and Daniel Buck lived in Rowan county; Caleb Buck lived in Wayne county; John Buck lived in Halifax county; and Stephen Buck lived in Bertie county. William Buck of Pitt county, was a captain in the Revolutionary army. Stephen Buck was a lieutenant and John Buck, Abraham Buck and Isaac were privates in the patriot army. The Hooper family, of which I am interested was established in North Carolina by William Hooper, president of the Declaration of Independence and his brothers. Historical information on any of the above will be greatly appreciated. Address James T. Buck, Crosbyton, Texas.

### JUNIOR ORDER OPENS ANNUAL CONVENTION AT HIGH POINT, N. C.

High Point, N. C., Aug. 20.—(AP)—Members of the Junior Order of United American Mechanics opened their annual convention here today but almost immediately adjourned for the day to Lexington where the North Carolina College at the Junior Orphanage was dedicated.

Several hundred were on hand for the opening session. Present also were Homer C. Stubbs of Kentucky, National counselor and Dr. Charles E. Braver, of Raleigh, National vice counselor.

### Romance in Expedition

New York.—There was romance in a recent big game expedition to Abyssinia. Miss Gertrude Sanford of New York, and Sidney L. Legendre of New Orleans, co-leaders of the expedition, are engaged to be married.

### Herbert, Jr., to Speak

New York.—Herbert Hoover, Jr., will speak over the WEAF chain at 8 p. m. Eastern Standard Time tonight on "Radio, magic guide for airplanes." He will describe a flight in a transport plane equipped with radio.

### New Idea for Levees

New York.—One Ernest F. Greene has a great idea of restraining the father of waters and at the same time relieving municipal authorities of the problem of the promiscuous discarding of abandoned autos. He would have the bodies used as framework for earth in levees. The Mississippi river commission is considering this suggestion, he is advised.

### LEADERS OF FOREIGN WAR VETERANS

Eugene P. Carver of Boston (left), national commander of the Veterans of Foreign Wars, will preside at the annual meeting in St. Paul August 25-31, when N. N. Duff (right) of Lansing, Mich., probably will be chosen his successor.

### HEALTH OFFICE MAPS PROGRAM FOR THE YEAR

**Dr. Clem Ham Outlines Ambitious Program For County Health Department.**

Some of the major objectives of the Pitt County Health Department were set forth in a program of county health activities issued today by Dr. Clem Ham, director of public health work in this county.

The program is one of the most ambitious attempted by the department in years, and it is believed results in a higher level of health and efficiency of the people in all sections of the county.

Among the more important features of the program is that providing for inspection of dairies, food stores, markets, eating houses, hotels soft drink stands and drinking water, and control of communicable diseases.

This part of the program in itself is sufficient to keep the corps of health workers busy a considerable part of their time, and should play an important part in preserving the health of the general public, and especially the thousands coming in contact with crowds in congested business centers.

Dr. Ham has just recently assumed control of the Department of Health but he has made a complete study of local conditions and has mapped out a program where by all of the public health workers may carry on in an intelligent and systematic manner.

The program for the year follows:

**Major Activities:**

- 1.—Control of soil pollution diseases. Installation of sanitary pit privies and septic tanks in communities of localities that have no sewerage connection. Typhoid inoculations.
- 2.—Control of acute communicable diseases, Malaria control measures. Venereal disease control. Smallpox, Diphtheria and Tuberculosis.

### Police Hear Of Counterfeiting At University

Chapel Hill, N. C., Aug. 20.—(AP)—Amazing figures regarding the amount of money counterfeited in the United States were given here today by Henry E. Thomas, who asserted the annual amount was \$25,000,000 which from a monetary standpoint is a greater loss than from all other crimes put together.

Mr. Thomas was one of the chief speakers before the University school of police practice and administration. He is a member of the secret service of the United States Treasury Department for the Carolinas. Mr. Thomas touched briefly on counterfeiting which is one of the chief crimes with which he works and gave a lengthy survey of field service work and methods illustrated with a number of actual cases he has handled.

### Duchess Barred

Vienna.—The "Duchess of Chicago," an opera which has been running in Vienna a year, has been barred from Soviet territory. A letter from the Censor to Emmerich Kalman, the producer, says the production is a blatant example of the Bourgeois attitude; it misses altogether the idea of social conflict.

### Princess Drives Taxi

Budapest.—Princess Maya Astutot, an Italian sculptress of accomplishment, is driving a taxi here.

and especially in case of certain specific disease, viz. Typhoid, Diphtheria, Smallpox, Scarlet Fever, Tuberculosis, etc.

3.—Lower incidence of preventable diseases.

4.—The saving of millions of dollars due to the saving of health.

5.—Increased production of wealth due to increase in health conditions.

### Seek Two Persons Who Perish In Summer Blizzard

Bellingham, Washn., Aug. 20.—(AP)—A party headed up the slopes of Mount Shuksan, near Mount Baker, Washn., today to recover the bodies of Miss Thelma Martin, Seattle librarian, and K. Fuyuya, Portland, Ore., artist, who perished in a summer blizzard late Sunday.

News of the tragedy reached here yesterday after Miss Ella McDowell and Herman Wunderling, both of Seattle, were found suffering from exposure at the edge of a cliff on the side of the mountain. They had been with Miss Martin and Fuyuya.

# Market Report

## Cotton--Stocks--Grain

### COTTON MARKET. N. Y. STOCK LIST

**COTTON**—New York, Aug. 20.—(AP)—The cotton market opened firm today at an advance of 11 to 24 points on the continuation of yesterday's buy movement, which was evidently stimulated by reports of continued dry weather in the south. Active markets soon showed net gains of 23 to 31 points with December contracts selling up to 19.17 and March to 19.36.

The demand was supplied by reaching which there also seemed to be some local and southern selling at these figures, and the market eased off a few points by the end of the first half hour. Trading was active as the start but tapered off somewhat after the first rush of buying orders had been executed. Liverpool cables reported general buying and covering on unfavorable crop reports.

**GRAIN MARKET**  
 Chicago, Aug. 20.—(AP)—Wheat underwent a severe tumble in price today, dropping to nearly 8c per bushel under yesterday's top level but rallied at the last. Despite reports today from Canadian railroad sources that the wheat responsible for a radically bearish Canadian crop estimate which was circulated yesterday, the estimate continued to be a depressing factor.

Wheat closed unaltered at 7-8 cents as yesterday's finish to 7-8 cents; corn closed at 1-3 to 7-8 cents; oats unchanged at 1-2 off and positions unchanged at a setback of 1c.

### STOCK MARKET

New York, Aug. 20.—(AP)—Led by the "blue chips," as Wall Street terms those issues selling above \$20 a share, the stock market continued its advance today in the face of frequent hurries of selling in the pool specialties. New high records were established by at least a score of issues, including U. S. Steel, common, General Electric, Allis-Chalmers, Westinghouse Electric, Commercial Solvents, New York Central and Norfolk & Western. The gains ran as high as 29 points.

Sharp gains in the high priced shares was attributed in part to the reduction in the floating supply of many of those issues as a result of investment trust buying. Trading largely was professional in character, as few small traders were able to deal in high priced stocks because of the heavy margins required. Call money was in comfortable supply at the 7 per cent level, with indications that the rate might be maintained. There was no change in other monetary accommodations. Wall Street found bullish encouragement in the weekly condition statement of Federal Reserve banks showing a large reduction in loans on securities. Business news continued favorable. July railroad statements now making their appearance showing unusually favorable comparisons with the same month last year.

The rapidity of the advances on some of the high priced stocks began to induce profit taking. General Electric for instance, touched a new high of 403, up 4 1/4, and then fell back to 394. U. S. Steel common, touched a new peak at 251 1/2, and then eased below 250. Allis-Chalmers was the spectacular feature, reacting 20 points to a new top at 208. Allied Chemical ran up 17 3/4 points, and Midland Steel Products preferred, Columbian Carbon, United Aircraft, Westinghouse Electric, International Telephone, Auburn Auto and Commercial Solvents sold 5 to 7 points higher.

Cris turned upward in the early afternoon under the leadership of Standard Oil of New Jersey. Radio was another strong feature, running up more than 5 points.

New York Central assumed the leadership of the rail group by gaining 4 1/2 points to a new top of 245 1/2.

### Seven Carloads Of Powder Blow Up in Rumania

Bucharest, Rumania, Aug. 20.—(AP)—Seven carloads of powder and 3,000 shells stored in old fort Domnesti twelve miles outside of Bucharest blew up last night. The cause of the explosion could not be immediately learned by investigators from the war department.

First reports said that at least eighteen soldiers had been killed and ten wounded and that the presence of a large number of workmen in the building would probably swell the casualty list. The minister of war subsequently denied however that there had been any casualties and described the material damage as limited to destruction of a few railway cars and a magazine.

The populace of the region was panic stricken by the blast.

### ONE KILLED WHEN TWO CARS COLLIDE

Hamlet, N. C., Aug. 20.—(AP)—One man was killed and seven other persons injured today in a head-on collision between two automobiles on highway No. 20 at the intersection of the Pee Dee Road.

The dead man is T. L. Huff of Wadesboro, a sawmill owner, who was driving a light car in which there were five negro laborers. Mr. and Mrs. T. L. Sullivan of Charlotte, who were in a heavy car, were injured. Mrs. Sullivan perhaps fatally. The negroes were slightly hurt.

Huff with the five negroes who he was taking to a sawmill in Bladen county, was traveling toward Wilmington. The Sullivan's were traveling toward Charlotte.

### HIGHWAY PATROL TO TEST LIGHTS

Raleigh, Aug. 20.—(AP)—The State Highway Patrol has been ordered by Captain Charles D. Farmer, he announced today, to immediately begin the testing of headlights of all automobiles not displaying the "passed" sticker.

Any motorist having one of the windshield pasters stating that the lights of machine have been tested and found to be in accordance with the law will save the patrol and himself trouble and possible embarrassment by putting the sticker on the windshield at once, Captain Farmer said in announcing that the enforcement would start.

Motorists will have 48 hours in which to have their lights adjusted to meet state requirements.

 Pitching—Grove, Athletics, won 18, lost 3.

### NEW COMMANDER TO TAKE COMMAND AT FORT BRAGG

Fayetteville, N. C., Aug. 20.—(AP)—Brig Gen Lucius R. Holbrook is due here tonight to assume command of Ft. Bragg and the thirteenth field artillery brigade. He comes direct from the Philippines Islands. Gen. Holbrook relieves Col. Henry W. Butner who has been in command since May 4, 1928. Col. Butner will remain here as chairman of the artillery board.

## PEACE HOLDS FULL SWAY IN STRIKE ZONE

### Workers Permitted to Return to Work at Marion Today Without Disturbance.

Marion, Aug. 20.—(AP)—Non-union employees of the Clinchfield mills, were a riot between picketers and would-be workers, occurred yesterday were allowed to go to work peacefully when they returned to the mills today.

The agreement was reached at a conference, ended at 11:45 this morning, at which Executive Counsel N. A. Townsend, B. M. Hart, president of the mill; Alfred P. Hoffman, organizer for the United Textile workers of America, an A. F. L. subsidiary; Mr. Cornelius Laborman and Mr. Weber, also labor representative, were present.

In return the strikers' representatives were promised that no foreign labor would be allowed to work in the mill, only former employees who did not join the union being permitted to enter, and that picket lines, comprising some 600 men and women at noon, would not be disturbed by troops or mill officials.

Two companies of National Guardsmen are held in readiness on the McDowell county court house lawn in the event of trouble.

The situation last night was quiet, if not, both sides apparently content to await that announced opening of the mill gates today at 1 o'clock, when a crisis is expected.

Some 250 strikers remained on picket duty throughout the night.

### Begin Contest For Non-Skid Sausage

Chicago, Aug. 20.—(AP)—You who take your hot dog as a matter of course have no idea what a serious problem he really is.

The packers and sausage manufacturers' association worries over such things. At the moment it is perturbed because of the frankfurter's tendency to skid. It realizes there is nothing more embarrassing than to have a frankfurter, sandwiched between the halves of a bun and slathered with mustard, skid from its place. Besides being a waist of good mustard, the skidding is a constant threat to milady's gown and to gentlemen's shirts.

Another sad thing about frankfurters is that the juices, like grapefruit, are apt to squirt forth most unapologetically and at the most annoying angles.

The association, therefore, has started a contest open to any student, for a new design for a skidless non-skid link frankfurter.

It feels that all real lovers of the "wurst delicacy" will recognize in this contest a clarion call to do as they can to make hot dogs not only a succulent but a safe source of nourishment.

### \$300,000 FIRE AT BRISTOL, VA. TODAY

Bristol, Va., Aug. 20.—(AP)—Fire originating in the King-Cochran building in the heart of Bristol's business district was brought under control early today after sweeping through four business houses and causing damage estimated at \$300,000. No one was injured.

The fire discovered shortly after midnight, was not placed under control until almost four o'clock, the entire fire department working ceaselessly during the early morning hours. At 8 o'clock this morning the fire was still burning but there was no danger of further spread, firemen said.

Business houses destroyed included the King-Cochran building, Collins Co. Credit Stores, Acorn Stores, and Model Shoe Co.

### MONUMENTS In Granite and Marble See T. D. PHILLIPS Farmville Memorial Works Farmville, N. C.

## Found Murdered

Body of Dorothy Aune, 12, Minneapolis, Minn., was found wrapped in sacks in a vacant lot.

### Alexander Faces Suspension For Breaking Rules

St. Louis, Aug. 20.—(AP)—Soon after setting a new National league record for games won at 373 victories, Grover Cleveland Alexander, hero of the 1926 world's series, is in the bad graces of the St. Louis Cardinal management, facing at the least suspension for breaking training rules.

The 42 year old pitcher who broke the record of "Big Six" Christy Mathewson, was sent home from New York yesterday by Bill McKechie, Red Bird manager, after Alex disregarded the manager's warning that his next escapade would be his last.

President Sam Breadon of the Cards, has not decided upon the final disposition of Alexander's case, but he pointed out Alex was told two weeks ago when he rejoined the team, he would be given another chance and if he broke training again he was through.

"I do not care to pass judgment on Alexander's case until I have talked with him," Breadon said. "I am very fond of Alex and do not wish to say at this time whether I will release him. Of course I am giving my full support to Manager McKechie and if McKechie says this is final, then it is."

Alexander broke the National league pitching record about ten days ago in the role of relief hurler against Burt Shotton's Phillies.

It was Alexander's refusal to be disciplined that enabled the Cardinals to obtain the famous hurler during the 1926 season from the Cubs.
