FORECAST 14 MILLION BALE COTTON CROP

Government Report Shows Crop Condition Was 55.0 Percent Normal Oct. 1

Washington, Oct. 8.—(AP)—An increase of 90,000 bales was shown today in the department of agriculture's October cotton production forecast as compared with a month ago. The indicated crop was placed at 14,915,000 bales by the crop reporting board as compared with 14,825,000 bales last month and 14,478,000 bales ginned last year.

Decreases in the indicated crop in the Carolinas, Texas and Oklahoma were more than offset by increases in the central portion of the belt from Georgia to Louisiana and Missouri, the board said. In Mississippi and the delta portions of Arkansas and Louisiana, the board reported, the crop is turning out much better than was expected a month ago.

"Apparently crop reporters were misled by dry weather during August, which did not damage the crop as much as was anticipated," the board commented. "This is also true in Georgia and Alabama."

"Development of the crop in Texas and Oklahoma has brought to light the small size of open bolls, and also the small number of young bolls on the plants which could benefit from the showers that occurred during the closing days of the month and caused some damage to open cotton. Picking has developed the fact that rotting of partially mature bolls will be more numerous in these states and northern Georgia."

Production of the crop was reported at 55.0 per cent of normal, as compared with 54.4 per cent a year ago and a 19 year average of 53.0 per cent. The indicated yield is 153.2 pounds per acre which is 2 pounds below the average yield for the 10-year period 1918-1927.

Washington, Oct. 8.—(AP)—A cotton crop of 14,915,000 bales this year was forecast today by the department of agriculture.

The department said this was indicated by the condition of the crop on October 1 which was 55.0 per cent of a normal. A month ago production of 14,825,000 bales was indicated on the condition of the crop September 1 which was 55.4 per cent of a normal. Last year's crop totaled 14,478,000 bales and the condition on October 1 was 54.4 per cent of a normal.

State indicated production follows: Virginia, 46,000; North Carolina, 335,000; South Carolina, 360,000; Georgia, 1,300,000; Florida, 30,000; Missouri, 210,000; Tennessee, 475,000; Alabama, 1,200,000; Mississippi, 1,950,000; Louisiana, 820,000; Texas, 3,850,000; Oklahoma, 1,225,000; Arkansas, 1,430,000; New Mexico, 84,000; Arizona, 157,000; California, 23,000; All other states, 11,000; Lower California, 75,000.

Tobacco Man Dies In Reidsville, N. C.

Aberdeen, N. C., Oct. 8.—(AP)—A leading tobacco auctioneer in the Carolinas and Georgia was found dead in his hotel room today apparently the victim of an attack of indigestion.

Mr. Dunn had put in a busy day at two warehouses yesterday and retired early. He was well known throughout the tobacco belt. He came here from Valdosta, Georgia. A widow and a child living in Reidsville survive him.

Quits Bar For Farm

Trenton, N. J.—Charles Malinski has retired from saloonkeeping and intends to live on a farm with his mother-in-law. He said so in court. "That," remarked United States Attorney Foreman, "would seem to be punishment enough." Judge Clark concurred.

Tobacco Prices Reflect Greater Improvement Average Monday \$17.74

With the price situation reflecting more strength than any other time of the season, the Greenville tobacco market yesterday established a general average of \$17.74 per hundred pounds, according to the official report of K. W. Cobb, supervisor of sales, made public this morning.

The report showed that the market disposed of a total of 900,476 pounds of bright leaf for \$170,461.55, and that sales continued late in the afternoon. It was stated that farmers from over thirty counties sold here yesterday and expressed considerable satisfaction at the general improvement in the market situation.

Medium and better grades were much higher than last week and the general market average price soared to \$22.75 per hundred pounds better than anything previously reported this season.

Much of the tobacco offered yesterday brought from \$65.00 to \$80.00 per hundred pounds, and competitive bidding was described as more pronounced than in several days.

It was stated that there was in the neighborhood of 900,000 pounds of bright leaf on the floors of the nine warehouses today with indications that sales would be completed during the late afternoon.

DROP CHARGES AGAINST THREE IN RIOT CASE

Deputy Sheriffs Are Freed of Charges Growing Out of Murder at Marion

Marion, N. C., Oct. 8.—(AP)—Misdemeanor charges against three deputy sheriffs growing out of the killing of five strikers in a riot at Marion, N. C., were dismissed after the state attorney announced that he accepted a non-suit in their cases.

The three deputy sheriffs were: Sheriff, John Snoddy, and John Gowan. The freeing of the three deputies left Sheriff O. P. Adkins and eleven deputies to face charges of murder and conspiracy to murder lodged against them in warrants sworn out by attorney for the strikers.

Immediately after dismissing the charges the state closed its evidence in the murder charges and strikers attorneys agreed to waive preliminary hearings on charges of rebellion lodged against the strikers by the sheriff.

The strikers, between 50 and 60 of them, were bound over under \$500 bonds until the regular terms of the Superior court.

THE CAROLINAS STILL BATTLING AGAINST FLOOD

Large Areas of Both States Flooded As Swollen Rivers Leave Banks

Charlotte, Oct. 8.—(AP)—Lower South Carolina and eastern North Carolina today continued to battle against flood waters which have poured down from the mountains since late September to inundate large areas in the lowlands.

In South Carolina there was a general tie-up of railways with the routing of all important trains. R. D. Cross and other relief organizations were caring for hundreds driven from their homes by the waters, especially in the vicinity of Ridgell and where the Savannah river was completely beyond control.

Waters of the Cape Fear in North Carolina were falling today except in rare instances. Several hundred people were still camping on high ground today in the neighborhood of the Cape Fear's lower valley but they expect to get back to their homes soon.

The main line Atlantic Coast Line trains from New York to Florida were being re-routed from the north to Florence, S. C., thence to Columbia and Augusta on Southern Railway tracks.

Special Campaign Of Two Cash Awards Announced

\$500.00 More in Cash Added to Prize List in Big Contest

With the progress of The Reflector's great \$6,000 automobile and cash election entering the critical stage of the second and third periods, comes the startling announcement today of a special campaign within the larger campaign through which \$500.00 more in cash is added to the already staggering large list of awards. This special competition affects in no manner, whatever, the main campaign, which carries on as just as originally announced and provided for on a declining vote schedule.

The total amount of \$500 in cash is divided into two prizes, one \$300 award and one \$200 award. These two special awards are to be given to either old or new or late starting candidates on a basis of "points" on each \$25.00 club. They will be given regardless of districts of the main campaign, the two highest candidates receiving the amounts in the order in which they may rank in "points."

Will Do Double Duty.

All subscriptions will be doing double duty during the rest of the campaign by counting the regular votes on the main prize list and also "points" toward the winning of one of the two special cash prizes. This special competition ends with the end of the big election, October 26th.

The schedule of "points" for the special gifts in cash is on a declining scale and decreases twice between now and October 26th. A full explanation of the special prize idea and the value of "points" according to the week "clubs" are turned in will be found in a full page display in today's paper. All candidates, old, new, big and little

DEPOSITION IN FALL CASE MAY BE AIRED

Possibility Was Seen in Appearance of Federal Agent At Hearing Today

Washington, Oct. 8.—(AP)—A possibility that the deposition given by Albert B. Fall in the Sinclair conspiracy case but never put into court records might be made public during the current Fall trial, bribery was seen today when W. B. Brubaker, United States Commissioner of El Paso, Texas, appeared at the trial as government witness.

Full took the 10,000 word document at El Paso a year and a half ago when attorneys for Harry F. Sinclair insisted Fall's testimony was essential to Sinclair's defense.

Fall's health at that time would not permit him to come to Washington to testify.

At today's session Fall appeared stronger than yesterday and for a time stood at the door smiling before taking to his seat.

Owen J. Roberts, special government counsel commenced his opening statement as soon as the jury entered the box. He went into details of the Naval Oil Reserve No. 1 at Elk Hills California in connection with which the government charges Fall, then secretary of the interior, accepted a bribe of \$100,000 from Edward L. Doheny, wealthy oil operator, for awarding him the lease.

Among the witnesses who arrived today was Joseph Danes, secretary of the navy under Wilson and a government witness in the case.

Roberts said the government would show that the \$100,000 passed with the intent to influence Fall's action on the lease.

When the prosecutor said the government would prove that at the time the Doheny negotiations were going on similar dealings were under way between Fall and Harry F. Sinclair, oil magnate, an objection to bringing up the Sinclair case was made by Frank Hogan of defense counsel. His objection was upheld.

Hogan in opening his statement said it would be shown there was no basis for the bribery charge against Fall.

W. I. SKINNER DIES DURING THE MORNING

Well-Known Greenville Tobacco Man Found Dead in Bed At Williamston

W. I. Skinner, one of the most widely known tobaccoists in this section of the state, was found dead in bed this morning at Williamston where he was engaged in the tobacco business. Funeral services will be conducted from his late home on Fifth street in this city tomorrow afternoon at 5 o'clock, by Rev. W. A. Lillycrop, pastor of St. Paul's Episcopal church. Interment will be made in the Episcopal churchyard. The vestry of the church will be active pallbearers. He was a member of St. Paul's church.

Mr. Skinner is survived by his wife and six children. Mrs. John Planagan, Miss Willie Skinner, Iverson, Laurie, T. Wash, and Anne Skinner; one brother, H. L. Skinner, Smithfield, N. C.; three sisters, Mrs. D. W. Grimes, Washington; Mrs. C. H. Easton and Mrs. W. T. Crews, of Oxford.

Mr. Skinner moved to Greenville 21 years ago to become manager of the Imperial Tobacco Company. He remained actively associated with this concern until about five years ago when he became connected with the Tobacco Growers Co-operative Association. For the past two years he has operated a tobacco business in Williamston.

Fres. Hoover Declares Talks With MacDonald Featured by Frankness

COFFEE SHOP OWNERS FREE IN RUM CASE

Carlos Prey and Wife Acquitted in Federal Court at Washington Monday

Mr. and Mrs. Carlos Prey, operators of the Coffee Shop, eating establishment on Dickinson avenue, were acquitted on a charge of possessing liquor in a hearing before Judge Meekins in Federal court at Washington yesterday. They were among sixty or more other defendants rounded up by county and federal officers in a series of raids staged in this county several days ago.

Mrs. Prey was dismissed by Judge Meekins after the hearing of only a few witnesses. Prey's release followed a short time later when the presiding judge said that evidence was insufficient to bring about conviction.

Judge Meekins is said to have stated that he found evidence of an attempt to frame up the eating house proprietors.

About forty or more witnesses were examined in the case, many of them well known patrons of the Coffee Shop who had been patronizing the place over a period of several months and who are said to have declared that they never saw any evidence of whiskey during their visits. Several former employees were examined and they are also said to have stated that they never knew of any whiskey sales during their term of service.

The raid was made by members of the local sheriff's department who found five pints of liquor in the Coffee Shop and held the proprietors under bond charged with connection with the whiskey traffic.

Witnesses testified that prior to the raid a negro man had entered the Coffee Shop and left a package and that Mr. and Mrs. Prey were not present at the time. The package is said to have contained the whiskey.

The Chief Executive Likes Spirit of Friendliness Shown by Americans

Washington, Oct. 8.—(AP)—President Hoover said today the conversations with Prime Minister Ramsay MacDonald were being carried on in an atmosphere of absolute frankness and that "neither of us has anything to reserve."

The chief executive said since there were no controversies between the United States and Great Britain to be settled at this time it was possible to carry on the talks with a prospective of the future in a broad sense.

The two, he added, were searching for those things that would promote a good feeling between the American and British peoples.

Mr. Hoover asserted that more important than the conversations themselves was the reaction of the American people and the great friendliness they had shown to the prime minister and through him to the British people.

The President's statement said: "There is nothing that can be reported at the present moment on the conversations with the prime minister. These conversations are continuing in the most friendly atmosphere. We fortunately have no controversies between our countries to be settled. We are, therefore, able to discuss our mutual problems in the long distance view and solely in the broad aspect of human welfare in the largest sense."

"Moreover, we are able to carry our conversations without constraint and in absolute frankness with recognition of the point of view of both sides. Neither of us has anything to reserve. We hope to reach only for those things that will promote the increase of good will and moral solidarity between the two countries. The prime minister possesses a wealth of Scotch humor which lubricates any discussion."

"More important than all is the great evidence of genuine friendliness to the prime minister of Great Britain and to his people. The demonstration that is in progress is in itself of more importance than any incidental conclusions that he and I might come to on matters concerning our two nations."

Confirm Orman's Victory in Recent Balloon Classic

Washington, Oct. 8.—(AP)—Ward T. van Orman's victory in the 1929 International Gordon Bennett Balloon race was officially confirmed today by the National Aeronautic Association which announced that Van Orman, piloting a balloon for the Goodyear Zeppelin company, traveled 341 miles.

Captain W. E. Kepner, U. S. Army, was second with 338 miles and Lieutenant T. G. W. Settle in 304 miles. The Belgian pilot, Ernest Demuyter, Traveled 226 miles to finish in fourth place.

Cotton Ginning Shows Increase Over Last Year

Washington, Oct. 8.—(AP)—The census bureau announced today 5,905,650 running bales of cotton of the growth of 1929 including 169,507 round bales counted as half bales, had been ginned prior to October 1.

In October 1 last year 4,961,369 running bales including 182,249 round bales had been ginned and in 1927 to the same date 5,944,739 running bales including 163,687 round bales had been ginned.

Ginnings by states to October 1 were: Alabama 578,273; Arizona 3,449; Arkansas 538,687; California 12,346; Florida 25,866; Georgia 577,978; Louisiana 543,232; Mississippi 1,819; Missouri 23,073; New Mexico 8,351; North Carolina 50,191; Oklahoma 259,102; South Carolina 162,460; Tennessee 71,478; Texas 2,130,179; Virginia 344; all other states 499.

Bonanza Discovery Starts Gold Rush In Idaho Diggings

Wallace, Idaho, Oct. 8.—(AP)—A gold rush that had all the color and glamor of the early day stampedes into the wealthy Cuyler D'Alene region was in progress to new diggings in this region today.

The announcement of an old sourdough, John Stout, one of the first to "get in" 35 years ago, that he had discovered outcroppings which assayed more than \$2,500 per ton in gold and \$21 in silver and \$3 in copper, started the stampede to the North Fork river country over which thousands of men trod in the earlier rush. The "bonanza" was believed to be about 25 miles north of Pritchard.

THE LUXURY HUSBAND

SYNOPSIS: Barbara Landon, a beautiful heiress, married to Ray Lowther, penniless saxophone player. Barbara and Ray, engaged three years before when Ray suddenly disappeared on discovering his fortune lost, meet unexpectedly on ship-board. Barbara, desperately in love with Ray, begs him to forget the difference of their fortunes, and marry her. When he refuses, she starts on a mad plan to convince Ray she will ruin her life unless he relents—and succeeds. Ray loves her, believes she really needs him and they are married, much to the disappointment of a fortune-hunting tobieman, Ralph Henderson. Immediately after their marriage, the specter of Barbara's millions haunts their happiness and Ray makes it plain that he will not live on his wife's money.

Chapter 8 A BARRIER OF DOLLARS

Barbara and Ray both fell silent. She was biting her lip to keep back the tears. He was being so difficult. How she wished he would see things in the sensible way she did! Everything then would be wonderful.

She had not expected him to keep her money since he had given in on being stubborn about accepting sufficiently to marry her!

But, by the look on his face, she knew that it would be useless to argue with him in his present mood.

"At least, won't you let me give you our honeymoon abroad as a wedding gift?"

He moved uneasily in his chair. It hurt as she sat there, her hazel eyes fixed anxiously upon his face. There was no other girl in the whole world who could compare with her, he was convinced of that. All the same he said:

"I can't do it, Barbara. I'm awfully sorry, dear, but we've got to get this straight from now on."

She regarded him with a hurt frown.

"I don't see why it should matter which one of us has the money so long as it's there. Think how much luckier we are than most young couples starting out!"

But he could not see it from her point of view.

"I don't agree with you, Barbara. I don't think a lot of money is altogether a blessing when you're young like we are. I'm normal enough to want to work for you and it hurts me to think that I'll never be able to give you anything that you couldn't have bought as easily for yourself." He broke off abruptly.

"However, that's beside the point. For the present I'm afraid you'll have to accustom yourself to my blowing on that old saxophone, my dear."

The girl's teeth were set over her lower lip and with Barbara that was a dangerous sign. Her eyes flashed angrily as she snatched her hand out of his.

"It's that rotten old pride of yours! You let it keep us apart for three years and now it's going to ruin our honeymoon. How do you think I'll feel when the passengers know that my husband is playing in the orchestra?"

"We could keep our marriage a secret," he suggested.

"No, I don't believe in that. I'd planned on our leaving the ship at Southampton and going on up to London for a couple of weeks, but, of course, if you're bent on finishing this tour just in order to make me feel small and foolish—"

Her voice trailed away and hurt, angry tears brimmed to her eyes. Ray could not hold out in the face of her obvious misery. Desperately he wanted to make her happy.

"Barbara, Barbara, please don't talk like that. I'll do whatever you want me to do, dear. I'll let you lend me the money. I'll give you an I. O. U. for it."

She agreed, although she smiled to herself. She took the note from him later, but more in the light of an amusing farce they were staging than anything serious.

Dusk was stealing over them; all around, in the Bois, lights were popping up; it was growing chilly on the veranda.

"Let's go in and dance for a while," she murmured, as she hooked her fingers contentedly through

his.

"Fat Girls! Here's A Tip for You"

All over the world Kruschen Salts is appealing to girls and women who strive for an attractive, free from fat figure that cannot fail to win admiration.

Here's the recipe that banishes fat and brings into blossom all the natural attractiveness that every woman possesses.

Every morning take one half teaspoon of Kruschen Salts in a glass of hot water before breakfast.

Be sure and do this every morning for "It's the little daily dose that takes off the fat." Don't miss a morning. The Kruschen habit means that every particle of poisonous waste matter and harmful acids and gases are expelled from the system.

At the same time the stomach, liver, kidneys and bowels are toned up and the pure, fresh blood containing Nature's six life-giving salts are carried to every organ, gland, nerve and fibre of the body and this is followed by "that Kruschen feeling" of energetic health and activity that is reflected in bright eyes, clear skin, cheerful vivacity and charming figure.

Get an 85¢ bottle of Kruschen Salts at Greenville Drug Company, or any drug store (lasts 2 months) with the distinct understanding that you must be satisfied with results or money back.

She looked into his face wonderingly.

"But, of course, it's going to be a success."

He echoed after her, "Of course, then a moment later, as though he had tried but could not keep back what was in his mind, "but don't think it will be easy. We're both pig-headed. You scored in our first bout today, but you're not going to do so every time."

She sighed. Here he was being difficult again. But she had no intention of arguing with him then.

"How absurd you are. You should know perfectly well that I don't want to 'score' you as you put it. From now on everything will be 50-50."

He opened his mouth to say something further, but quickly she placed a soft-palmed hand over it.

"Don't let's talk any more now. Ray, you only hurt each other when we talk. Just love me, tonight Ray. You do love me, don't you?"

He said chokingly: "I do love you, Barbara," and drew her down more tightly into his arms.

Ralph Henderson—shows himself unwilling to admit defeat in tomorrow's chapter.

Chicago Bandits Rob Building and Loan

Chicago, Oct. 8.—(AP)—While eight officers of the California Building and Loan association were in conference late last night, five men, one of whom carried a machine gun, entered, made them lie on the floor, and stole \$4,750. The robbers made Frank Saack, treasurer, open the same, which contained \$4,300, and then robbed the officers of \$350.

The organization was robbed about a year ago when stack and a stenographer were held up in the offices by four men who stole \$3,700 from the safe.

Wants to See Baseball

Washington, Oct. 4.—(AP)—The wish to see a baseball game expressed on the Atlantic by Leibel MacDonald may be gratified while her father is visiting President Hoover.

Clark Griffith, president of the Washington club, through the Evening Star, has offered the British visitor the president's box for the Saturday or Sunday games with the Boston Red Sox which close the season.

Dies From Injuries

Gastonia, Oct. 4.—(AP)—Ina Campbell, six year year old girl of Cramerton died here today from injuries received Thursday when she was struck by the automobile of Ross Jackson, a farmer near Cramerton.

Jackson was arrested and released under a \$1,000 bond. He said the accident was unavoidable, the little girl having run directly in front of his car.

BIG PLANS

By MARY GRAHAM BONNER

The Little Black Clock was very happy, and he was full of plans and ideas.

"I've turned the time back this time," the Little Black Clock said, "and we're going to see something which started all sorts of big things."

He and Peggy and the Little Black Clock found themselves in a room in which a man was watching the boiling on the stove.

"Is he going to have some tea?" Peggy asked. "I he is I don't see why he doesn't take the kettle off now. The water certainly is boiling enough."

"Why does he watch it like that?" John asked. "Well, anyway, it does not prove what my mother says."

"What's that?" asked the Little Black Clock. "My mother says that a watched pot never boils. That kettle is being watched, and it certainly is boiling," John answered.

"He's not interested in tea or anything just now except that boiling kettle—or, rather, the boiling water, and the way it is behaving. Then the boiling water began to lift the lid of the kettle. Up and down went the lid, and the man seemed so very, very happy."

SHERIFF HELD FOR MURDER AFTER TEXTILE RIOT

Sheriff O. F. Adkins (second from left) and 14 deputies and special deputies were charged with murder in connection with the killing of five textile strikers at Marion, N. C. Sheriff Adkins is shown with a group of his deputies.

water, and the way it is behaving. Then the boiling water began to lift the lid of the kettle. Up and down went the lid, and the man seemed so very, very happy.

"Well, wait and see some of his tricks. I can fix the time all right even if it takes some little while," said the Little Black Clock. "So they watched and saw the man use a piston which moved as the kettle lid had moved, by means of steam and they saw it come burning around at the same time."

"What in the world are we seeing?" John asked.

"The invention of the first steam engine!" exclaimed the Little Black Clock. "And the man you have been watching is James Watt."

That Brutal Overseer Roasts in Hades!

AN ANCIENT PREJUDICE HAS BEEN REMOVED

Wise legislation has halted the ancient prejudice that dictated the exploitation of child labor for selfish gain. Guided by AMERICAN INTELLIGENCE it has routed greed. No longer are little children forced into slavery.

"toasting did it" —
Gone is that ancient prejudice against cigarettes—Progress has been made. We removed the prejudice against cigarettes when we removed harmful corrosive ACRIDS (pungent irritants) from the tobaccos.

YEARS ago, when cigarettes were made without the aid of modern science, there originated that ancient prejudice against all cigarettes. That criticism is no longer justified. LUCKY STRIKE, the finest cigarette you ever smoked, made of the choicest tobacco, properly aged and skillfully blended—"It's Toasted."

"TOASTING," the most modern step in cigarette manufacture, removes from LUCKY STRIKE harmful irritants which are present in cigarettes manufactured in the old-fashioned way.

Everyone knows that heat purifies, and so "TOASTING"—LUCKY STRIKE'S extra secret process—removes harmful corrosive ACRIDS (pungent irritants) from LUCKIES which in the old-fashioned manufacture of cigarettes cause throat irritation and coughing. Thus "TOASTING" has destroyed that ancient prejudice against cigarette smoking by men and by women.

"It's Toasted"—the phrase that describes the extra "toasting" process applied in the manufacture of Lucky Strike Cigarettes. The finest tobaccos—the Cream of the Crop—are scientifically subjected to penetrating heat at minimum, 260°—maximum, 300°, Fahrenheit. The exact, expert regulation of such high temperatures removes impurities. More than a slogan, "It's Toasted" is recognized by millions as the most modern step in cigarette manufacture.

Gastonia Cop Tells About Events on the Night Chief Aderholt Was Killed

Charlotte, N. C., Oct. 8.—(AP)—Judge Barnhill's court hearing the case against seven labor leaders and strikers charged with the murder of O. P. Aderholt, chief of police of Gastonia, spent most of the day listening to the cross examination of Adam B. Horn, Gastonia police officer and State witness.

Detroit to Elect New Mayor Today

Detroit, Oct. 8.—(AP)—A three-cornered contest for two nominations as mayoralty candidates on a non-partisan ticket furnishes what little interest has been shown in today's biennial city primary election. Out of a total voter registration of 428,000 the most optimistic officials predict a total vote of not more than 135,000.

London Divorces Increase

London—The number of divorces here last year were highest on record. Evidently restriction on publication of testimony was a factor.

Mayor John C. Lodge, who two years ago was elected on the platform that a candidate should not seek the office but wait until he was called upon to serve, is opposed for renomination by former Mayor John W. Smith and Charles Bowles who resigned a six-year position on the recorder's court bench to make the race.

In addition to mayoralty candidates a full city ticket also will be nominated.

After testifying further to his observation of what took place the night Chief Aderholt was killed Hord was asked how many people he had killed.

"None," he answered.

"How many have you helped kill?"

"One."

"And he died?"

"He sure did."

Hord said that he had been indicted but came clear on a charge of killing a boy in Gastonia and that he and another officer had been cleared by a coroner's jury after shooting a man they were pursuing for safe blowing.

The only other witness presented during the morning session was J. B. Cooper, who lives near the strikers' tent colony where the shooting took place. He testified that he had heard Fred Erwin Deal, one of the defendants, make several statements

Los Angeles Off On Training Trip

Lakehurst, N. J., Oct. 8.—(AP)—The U. S. Navy Dirigible Los Angeles took off from the naval air station here at 8:30 a. m., today on the second of a series of training flights.

Lieutenant Commander H. V. Wiley, master of the airship, announced his intention of cruising over New York City and Philadelphia and returning to the station at sundown.

Aboard the ship are 12 officers, 31 crew, eight student officers and four passengers including R. D. Horn of New York; Dr. T. E. Eldridge, president of the Aero Club of Pennsylvania and S. A. Oyen of the Dollar Steamship company.

The Los Angeles returned from an eight hour flight at 6:10 and as soon as members of the crew had eaten breakfast went aloft again.

1847 ROGERS BROS. SILVERPLATE

GREENVILLE, N. C. GETS THAT LAST

G. H. S. GIVES ACCOUNT OF ATHLETICS

The financial affairs of a public high school athletic association are always of interest to a large number of the community, being often-times a fair barometer of the healthiness of many school activities. Here in Greenville it has been the case that many public spirited men of the town have backed the high school teams to a greater or less extent, but have been told very little about the actual financial standing of the school athletic association. Here is an account, on the style of a bank statement, of the present condition of the G. H. S. A. A.

The Student Activity Association, here includes all affairs of major importance to the pupils, outside of regular class work. This takes in not only athletics but also the dramatic, musical and debating interests of the school, with the possibility of adding others. This includes the furnishing of funds to these activities, some of which are of great value to the school but unable to finance themselves. Thus we find some paying, and some losing activities, as in all school and college communities.

Our budget must be largely based on as shrewd guesses as we can make, for neither expenses nor receipts can be foretold with accuracy. However, we know that our estimated expenditures here are as small as we think we can possibly make them.

Estimated Expenditures.

Without giving the details upon which these totals are based the general division of expenditures is estimated as follows: No branch of activity is authorized to spend more than the amount herein specified without the sanctioning vote of the A. A. Council, and only then if the needed amount exists as an actual surplus.

Football	\$134.00
Basketball (girls)	109.00
Basketball (boys)	90.00
Baseball	no estimate
Letters and numerals	15.00
Debts	185.00
School Play	60.00
Senior Play	60.00
Minstrel	45.00
Debating	12.00
Orchestra	35.00
Stationery, Printing	30.00
Band	no estimate
Total	\$1,075.00

Receipts.

The problems incident in raising more than \$1,000 by a small high school like ours is always a serious one. Several schemes have been tried in the past few seasons and all have been, at best, but partially successful. Previous to last year, it has been impossible to collect even a fair percentage of the real admissions at the basketball games. This situation was materially bettered at the games last season, when the new gym came into use. Football has never been supported by a large following at the fair grounds, and a good percentage of those who attended came in via the fence. The new grounds in Greenville Heights will be much more convenient and will doubtless draw much better crowds, but will still be unneeded. Baseball has always been a dead loss, and in this budget has been omitted entirely.

The New System.

Last spring the high school by an almost unanimous vote adopted a new system which will automatically admit all pupils to all varsity school contests and general school functions on payment of one annual fee of \$1.50. This is less than the pupil rates last year, and a very great saving over the sum of single pupil admissions. This will bring in around \$600, but it is to be noticed that no pupil will have to pay again for admission to any varsity athletic contest, the school play, school minstrel show or the senior play. This is highly commendable as a means of increasing school spirit and attendance at such affairs, but it is a debatable meas-

ure as a means of increasing income. The estimated receipts are as follows:

Pupil Memberships	\$600.00
School Play	35.00
Admissions	45.00
Senior play—profits go to class	—
Total	\$680.00

Subtracting this from the expenditures of \$1,075, a deficit of \$395 is left. This must be made up from the town of Greenville and such casual admissions to contests as may be picked up. This must be divided between the football and basketball seasons, a total for the two of about \$400 needed to balance the budget. Season tickets for the football season have been sent to a number of citizens who are expected to be supporters of the school teams, and should take care of the part assigned to football. Then the basketball season will have to make up the balance left after football is over.

Old Obligations

It may be noticed that the sum of \$185 is laid aside to care for old debts, some of which are of several years standing, and none of which the present administration is responsible for. A list of the outstanding obligations of the S. A. A. follows:

A. G. Spalding and Bro.	\$156.27
Athletic Supply Co.	160.00
Hamilton Belt Co.	102.78
Smith Electric Co.	10.10
Greenville Supply Co.	7.45
Forbes and Baker	2.25
Total	\$438.85
Amount budgeted	185.00
Balance still due	\$253.85

Consequently it is clear that even if all the present year's receipts come up to budget expectations, and all the present year's expenses are no higher than agreed, we will still have only the smaller fraction of the old debts paid off, and over \$250 will be left for the following year.

Omissions

The fact that several of the school's most educational and worthy projects are forced to play the orphan child, and go begging in vain for appropriations in the budget is quite a significant fact. It shows clearly that either the total amount received through the year is lower than in most places, or that the emphasis is wrongly placed in giving away the funds that do come in. Either athletics gets a fair "big share" or Greenville High School takes in less than many a grammar school elsewhere for student activities. But it is also clear that our teams never have but a bare, and sometimes disgraceful, minimum of equipment, and that they do not have any school funds wasted in non-essentials, such as blankets for the players, gold footballs, or team banquets, such as many schools consider a part of the year's expense. Therefore it seems that we do not spend money lavishly on athletics, and consequently must take in too little. But it is certainly a fact to be deplored when such activities as the school band, cannot be granted a cent for music, uniforms or instruments, and when it is impossible to even consider the installation of many accessories much needed on the stage for plays and everyday use as well. Surely we should be able to do something for the arts and sciences, as well as for athletics. But this is the best budget that could be made for this year, by the S. A. A. Council.

CUBS' SECRETARY IN TROUBLE OVER HOT DOGS

Chicago, Oct. 8.—(AP)—The traveling secretary of the Chicago Cubs, spent half an hour in jail early this morning, all on account of hot dogs.

Lewis and Ray Kneip, hot dog concessionaires at Wrigley Field, were arrested by a policeman who asserted they were threatening independent hot dog "barkers" vending the invigorating frankfurters to the thousands of persons lined up outside the ball park waiting for bleacher seats.

Lewis and Kneip were booked for disorderly conduct and released on their own \$25 bonds.

Ernest Cashman, said to be a club employe, was arrested for striking one of the independent vendors. He also was charged with disorderly conduct and released on \$25 bail.

Three Games Scheduled In S. C. This Week

By JAKE WADE
(Associated Press Staff Writer)
Columbia, S. C., Oct. 8.—(AP)—But three South Carolina cash customers this week and the strain on the old bank roll will be somewhat reduced unless the boys up and decide to follow the gridiron parade.

One of the three home soil engagements is booked for Florence Friday when the Clemson Tigers meet the North Carolina State Wolfpack.

This is an annual fair week game with a sort of tradition behind it. Florence, provoked by sottes being told that the game will be moved to Charlotte next year, is exerting her best effort to see that the entertainment this year could not be put on in grander style.

Coach Josh Cody is working his Tigers on defense this week. His ideas to have his squad set so that defense is needed defense it can give.

On Saturday Furman meets Presbyterian college at Greenville and Erskin tackles Woffard at Spartanburg, these being the other two tilts on South Carolina territory.

Furman has had two hard early season foes in Chattanooga and Georgia and hopes for a breathing spell in the game with the Blue Stockings. However, P. C. has demonstrated already this season that she is no pushover and will be primed to give the hurricane a battle what you perse about.

Carl Prause's fine Citadel team will go up against the Virginia Military cadets at Lexington. They are talking up the Citadel for the state championship nowadays, many even seeing a victory over Clemson.

Clear Up Rules for Big Series

Chicago, Oct. 8.—(AP)—All questions of baseball rules interpretation were thrashed out before the start of play in the first game today and instructions issued to govern the umpires.

There will be no "quick returns" by pitchers and umpires will dis-color the balls before putting them in play, both Chicago and Philadelphia.

Conditions in the two playing fields caused on change. At Chicago if a pitched ball strikes the backstop or screen in front of the stand a base runner will be permitted to advance only one base. In Philadelphia if such a ball strikes the backstop or screen in front of the stand and remains within the field of play, a baserunner may advance as many bases as he can make.

QUITS CARDINALS TO GO WITH BRAVES

Chicago, Oct. 8.—(AP)—William "Fighting Bill" McKechnie, transient manager of major league baseball, has quit the St. Louis Cardinals to accept a four-year managerial contract with the Boston Braves.

Desiring more of a settled managerial career in the "big show", McKechnie turned down a one-year renewal of his present contract with the Cardinals to take the helm of the Boston club. Judge Emil Fuchs, president of the Braves, announced the change during the major league draft meeting last night. His salary was not revealed.

Announcement of his contract with the Braves came within a few hours after the selection of William Killefer as manager of the St. Louis Browns, succeeding Dan Howley, was made public.

McKechnie said he would cooperate with Judge Fuchs immediately in planning for a more successful year for the Braves next season.

ECONOMY DEMANDS

That every automobile owner should have the oiling, greasing, washing and polishing of his car done at the place of business of the dealer who is best qualified to render efficient service. Especially so when you know the dealer to have an efficient shop, modern equipment, and a true knowledge of the car. In our shop we have all of this combined with neatness and courtesy. It is to the especial interest of the Ford owner to bring his or her car to our shop for service for more than one reason.

FIRST: Our mechanics know the Ford car so well that in greasing it we do overlook any of the numerous and often vital points of the car to be greased. The average greaser only greases these parts that are immediately visible.

SECOND: We know paint and what is best for it. We know how to prolong life and luster by properly washing and polishing. Our knowledge of paints and varnishes is such as is not found outside of first class body plants.

THIRD: The oils and greases that we use are of the very best. We challenge anyone to prove the contrary.

FOURTH: A visit to our garage will readily show that for neatness and modern mechanical equipment we are unexcelled. There is nothing that could happen to any automobile that we cannot repair.

FIFTH: Our charges are reasonable. We will wash your car for \$1.00, oil and grease with genuine Alemite for \$1.00. All other work is priced accordingly.

BILIOUS, SICK, COULD NOT EAT

Lady Says She Has Avoided Suffering by Taking Theodor's Black-Draught.

Salem, S. C.—For many years, Theodor's Black-Draught has been highly esteemed in the family of Mr. and Mrs. Tom Cantrell, of this place. Mrs. Cantrell says: "My children are grown and married, but all during their childhood at home, I used Black-Draught with them when they had colds or little stomach troubles, and when not sick enough for stronger medicine.

"I found it a great help, and never was without it. My husband and I still use it.

"I used to suffer quite a bit from headaches, especially in the spring. If I got bilious, my head would ache and I would be very nauseated, not able to eat anything, and just too sick to go. We used to call them 'blinding headaches,' for my eyes ached, too.

"Black-Draught certainly was fine for this. If I would begin taking Black-Draught when I felt a headache coming on, I would never have a bad one. When I found this was the case, I avoided lots of pain. It is the best medicine of the kind I have ever found."

SMITH & SUGG MARKET REPORT

SALES SCHEDULE:

Wednesday, October 9th, First Sale

Thursday, October 10th, Second Sale

Friday, October 11th, First Sale

Prices with Smith & Sugg higher today than any day this season, especially the medium and better grades. We sold several baskets of tobacco between 70 and 80c and three companies were buying at these prices. Those who have taken our suggestion to hold back 'till now, the selling of their fine tobacco, are profiting thereby. One load sold with us today, "taken in" on another nearby market brought \$114.00 more with us. Mr. L. A. Mills from the Black Jack section averaged over 50c and many of our patrons averaged from 35c to 45c. We are gaining new customers daily and those who know, say we are highest market in Eastern Carolina. Keep your tobacco dry.

Your common, good and fine tobaccos will bring more money when protected by the Oldest Established Warehouse Firm in Greenville.

WHITE HOUSE DINNER STILL BEING TALKED

Washington Society Continues to Speculate on Result MacDonald Function

Washington, Oct. (AP)—The official and almost official society of Washington will have food for speculation for many days to come as a result of the White House dinner in honor of Prime Minister MacDonald.

The big question, who should sit next to whom, which has been worrying the capital for months, appears to be as persistent as ever the day after that first state dinner of the Hoover administration.

The reason, viewed from the perspective of those who were mistaken and not looking in it that the rules of precedence having come into conflict with the rules of simple courtesy, President and Mrs. Hoover at the head of the table, was flanked on the right by Lady Isabella Howard, the highest ranking British lady present, and on the left by her husband, Sir Esme, the British ambassador, himself.

To the right of Lady Isabella sat Secretary Stimson, and to his right Miss Isabel MacDonald, the prime minister's daughter. To the left of Sir Esme, the first lady on the President's left, was Mrs. Dolly Curtis Gann, sister and official hostess of Vice-President Curtis.

Prime Minister MacDonald sat at the right of Mrs. Hoover, who faced the President. Vice-President Curtis—presumably, for no announcement was made of the arrangement of the places—sat at her left.

That arrangement was made possible by the wholesale waiver of rights of precedence. Sir Esme, as his king's personal representative at ceremonial dinners, outranked his prime minister. Furthermore, the vice-president, as the highest ranking official guest besides the President at any function in America, ordinarily would have to be seated at Mrs. Hoover's right.

Lady Isabella, along with her husband, waived her rank, and Vice-President Curtis, even before announcing the relinquishment of his own, had waived precedence for Mrs. Gann. Miss MacDonald, although official hostess for her father at No. 10 Downing street, came to America without social rank.

So the hostesses and social secretaries who have been counting on a white House dinner to fix finally the rank of Mrs. Gann, are still left to their speculations. That question has persisted in some circles long since the diplomatic corps decided to accord her the same recognition traditionally given only to the wife of a vice-president.

Another question, whether Mrs. Alice Roosevelt Longworth, wife of the speaker of the House, outranks Mrs. Gann, or vice versa, has added perplexity to the situation in the minds of many most anxious to be correct in their arrangements for highly formal social affairs in the capital.

No hope was entertained, however, that the MacDonald dinner would answer the question about Mrs. Longworth, for she and her husband were not in Washington.

The Reflector today announces a new campaign in connection with its gigantic \$6,000 Gift Distribution. In addition to the four motor cars and the numerous cash prizes in the regular prize list which are awaiting the busy workers, two new prizes totalling \$500 and divided into two awards of \$300 and \$200 will be given away as added prizes for the period of time including the second, third and last periods of the regular campaign, October 1st to October 26th, this special competition ending simultaneously with the main campaign.

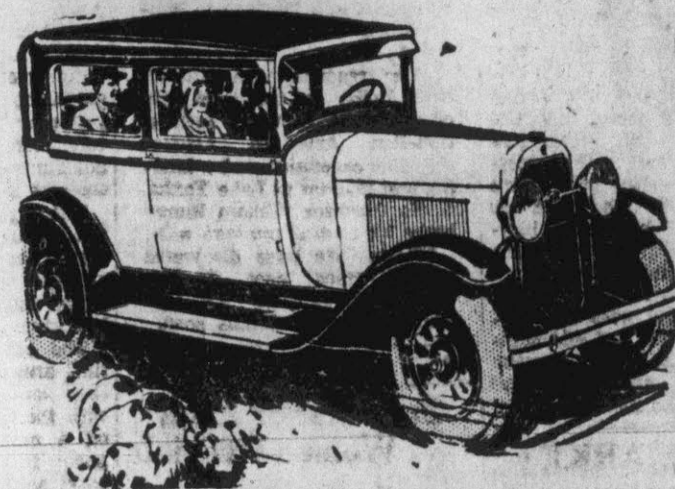

It is to be noted that both old and new subscriptions will count "points" toward the special cash prizes according to the schedule of such credits on this page. The same subscriptions will be counting the regular vote value toward the automobiles and regular cash awards of the regular campaign at the same time they are crediting workers with "points" toward the special awards. Subscriptions, therefore, are counting for a double purpose during the rest of the campaign. Any candidate may win both a special cash prize and any of the regular prizes.

Every candidate, either old or new, starts from an even start in this special prize competition, nothing that has been done in the first period having any bearing upon the winning of the two special cash gifts. It is a time for golden opportunity for new entrants and late starters in the campaign. No one is behind. All are even.

MARKETS

COTTON MARKET

New York, Oct. 8.—(AP)—Cotton opened steady, unchanged to 5 points lower and early in the day the active positions showed losses of 4 to 10 points under pre-bureau liquidation through Wall Street commission houses and selling for southern account. Continued favorable weather over the entire cotton belt more than offset rather broader Liverpool cables and there was little disposition to make new commitments owing to the uncertainty as to what the government report would show. The trade was a good buyer on the decline, however, and this demand gave the market a steady undertone.

Liverpool cables reported calling Bombay buying and pre-bureau covering in that market and said Manchester was awaiting the bureau while cloth and yarn buyers were cautious with sales moderate.

STOCK MARKET

New York, Oct. 8.—(AP)—Stock prices rallied for the lunch session today in response to a further easing of credit conditions and favorable trade reports. A wave of selling swept over the market during the morning, carrying several leaders down 2 to 5 points, but buying support quickly was supplied, and the market was headed upward again by early afternoon.

Call money renewed at 6 1/2 per cent, with the supply so plentiful that the rate was dropped to 6. Time money was reported to be available at 8 3/4 per cent for all maturities, which contrasts with a rate of 8 3/4 to 9 yesterday, and a high of 9 to 9 1/4 last week.

Early irregularity in the market was attributed to predictions that the weekly federal reserve brokers' loan statement to be issued after the close on Thursday, would not show the generally expected huge decrease in borrowings. These predictions were based on the fact that the loans of some of the leading houses were down only 1 or 2 per cent below the levels of a week ago. This was offset, however, by reports of a substantial decrease in member banks borrowings at the federal reserve.

Rubber shares rallied in response to reports of a 10 per cent increase in tire prices under the leadership of Goodyear which ran up 6 points.

Chemicals gave one of the most impressive demonstrations of group strength. Commercial Solvents jumped 25 points, Air Reduction 15 and U. S. Industrial Alcohol, United Carbon, and Columbian Carbon advanced 6 to 1-3 points, the first named touching a new high. American Machine & Foundry ran up 20 points to a new peak at 274. Warren Brothers, Eastman Kodak and National Biscuit also reached new high ground.

U. S. Steel common sank 3 points to 216 and then rebounded to 221. Lumber and steel ran up more than 10 points.

New Confession Throws Confusion Into Murder Case

Lamar, Colo., Oct. 8.—(AP)—A new confession by one of the Lamar bank robbers, naming his chief accuser as "King Miller" of the gang, threw confusion into the ranks of the prosecution today at the opening of the trial of George J. Abshier, one of the gang, on a charge of first degree murder.

The confession, made by Howard E. Royston, accused Ralph Fleagle, third member of the gang in custody, as slayer of three of four men shot by the robbers. Previous confessions signed by Abshier had named Jake Fleagle, brother of Ralph, as the leader and killer of the four. Jake Fleagle has not been captured.

It was a confession signed by Ralph Fleagle which led to the capture of Abshier and Royston. Fleagle was promised immunity from the death penalty in return for information he gave authorities.

Both Royston and Abshier denied today they were trying to get revenge upon Fleagle.

Royston declared Ralph Fleagle killed John F. Parrish, son of the bank president, E. A. Kessinger, bank teller, who was kidnaped, and "probably" the elder Parrish.

A motion for a change of venue for Abshier and Royston was denied late yesterday by Judge A. L. Hollenbeck, and the court declined to entertain a request for a change of plea. Abshier, Royston and Ralph Fleagle all have pleaded guilty to first degree murder.

Lindbergh Reported to Have Discovered Ancient Maya Ruins

Miami, Fla., Oct. 8.—(AP)—Discovery of Maya ruins, believed never before seen by white man, was reported by the radio operator aboard Col. Charles A. Lindbergh's plane flying in the vicinity of Lake Yaxha, British Honduras, in a message to Pan-American Airways base here today.

After reporting the take-off from Belize on the third trip of the joint Carnegie Institution-Pan American Airways scientific expedition and a landing and take-off at Lake Yaxha, Radio Operator William Ehmer broke his routine message with: "Flash. We have discovered regular ruins now. Circling them. Scientists all het up." Ehmer promised details soon.

Miss MacDonald to Be Guest of High Women Officials

By BESS FURMAN Washington, Oct. 8.—(AP)—No log in mountain nook, but a lunch table in a secluded club corner, has been selected to serve Isabel MacDonald Wednesday noon as forum of international friendship. Yet plans have been made to accord her the same freedom of expression on the subject closest to her heart that her famous father enjoyed at the mountain camp of President Hoover in Virginia.

She will be guest of the two highest ranking women officials of the United States Department of Labor, Miss Grace Abbott, of the children's bureau, and Miss Mary Anderson, of the women's bureau.

Her greatest interest is the welfare of laboring women and the education of children. Her luncheon with the labor department women is the one engagement she has accepted outside those which naturally arose from her father's program.

To give her a real opportunity to get first hand information on social welfare work in America, the guest list has been made very small, permitting the question and answer method of table conversation. It is limited to women of high official position, conversant with conditions in England as well as in America, and able to meet Miss MacDonald on her own ground in frank and friendly discussion. No speeches are to be made.

The Scotch girl's activities today were calculated to round out a rather complete cross-section of American life as background for her queries Wednesday.

Andrew Mellon to Continue Position

Washington, Oct. 8.—(AP)—Andrew W. Mellon will guide the fiscal affairs of the United States for the duration of the current administration.

This announcement by President Hoover is intended to allay rumors that the 74-year-old financier, who has held the treasury portfolio longer than any of his predecessors, is planning to retire.

It means that his health and his wishes permitting, he will continue in the cabinet until March 4, 1933, spanning the terms of three administrations—Harding, Coolidge and Hoover.

Reports have been current frequently since President Hoover took office that Mellon was about to retire. All have been denied, and their persistence finally led to the White House announcement. That went beyond the reports early in the administration that the treasury secretary would continue in office another year.

The implication of those reports that he might then wish to relinquish the tremendous financial burdens of his office probably has nourished the rumors of impending resignation, and has now been set at rest.

Machine Guns to Be Used Against Liquor Runners

New York, Oct. 8.—(AP)—Machine guns are to be pressed into service by the customs enforcement bureau in an attempt to curtail liquor running in the Raritan river, off Jersey City.

Orders to mount two machine guns on one of the customs patrol boats were issued by John J. McGill, deputy surveyor, in charge of the enforcement bureau, after an engagement with a rum running party yesterday in which a machine gun tore more than thirty holes in a government boat and wounded a customs inspector.

The engagement was one of three in the Raritan river on one of which a rum boat was sunk, another seized with about \$30,000 worth of liquor aboard, and a third escaped. No prisoners were captured.

The customs officials declared that armed merely with side arms they were at a serious disadvantage with rum runners. They asserted a new rum row has formed about fifty miles off the Atlantic coast and that the liquor is being run in by fast motor boats.

Chicago Reports Another Bombing

Chicago, Oct. 8.—(AP)—Terrorists increased their 1929 bombings 49 last night and jarred a threat from high police official and Frank J. Loesch, assistant state attorney, that the prolonged "pineapple" field day is about to end.

Police were incensed when C. H. McCarty, official of a brokerage firm, whose apartment recently was bombed, refused to open the company's books for inspection. Officials sought to learn whether any known gangsters had had recent dealings with the concern, believing the McCarty bombing might have been in reprisal for losses in the stock market.

The 96th bomb was placed on the front porch of the first floor apartment of a building under construction on the northwest side of the city. A private watchman saw the bombers speed away in an automobile and area live snobs at them. John Wilczynski, contractor and owner of the building, said he knew no reason for the bombing.

What Congress Is Doing

Tuesday: Senate continues tariff debate. Monday: Democrats aided by west, etc. Republicans struck another Republican provision from tariff bill. Chairman Caraway picked tariff interests as first job of senate lobby investigators.

Bill to make buyers of liquor equally guilty with seller was introduced by Senator Sheppard, Democrat, Texas.

Administration leads noted lessening of opposition in senate to continuation of two farm board members.

Ramsay MacDonald, prime minister of Great Britain, addressed the senate.

Notice to the Public. Owing to the short and late cotton crop, this is to inform the public that the Greenville buyers and public weigher will be at the cotton platform to buy and receive any cotton in the Greenville market every day at one-third in the afternoon until further notice.

Lindberghs Land in Yucatan Jungle

Belize, British Honduras, Oct. 8.—(AP)—Colonel Charles A. Lindbergh, seeking ancient Maya ruins, yesterday brought his giant plane down with rare skill in the midst of the Yucatan jungle on a small lucid green pool.

He and his bride inflated a rubber boat, and chopping their way through reeds and underbrush with hatchets made their way to shore, where they looked for ruins, and relics of the lost Maya civilization. Alligators, with which the lake was infested, kept a respectful distance. On the way back from a hill he had searched to the plane Colonel Lindbergh spotted one slipping away, apparently much frightened at the man-made bird which had dropped down on its lair.
