FUNERAL FOR H. A. WHITE HELD HERE

Prominent Greenville Business Man Laid to Rest at Cherry Hill Cemetery

Funeral services for H. A. White, one of the most prominent business men in this section of the state, were conducted from his late home in this city yesterday afternoon at 3 o'clock. Rev. W. A. Lillycrop, pastor of St. Paul's Episcopal church, assisted by Rev. A. W. Feischmann, pastor of the Memorial Baptist church, officiated. Burial was made in Cherry Hill cemetery.

The final rites were attended by hundreds of persons prominent in the social and business life of the state and the floral tribute was the most extensive of any funeral ever before held in this city.

Mr. White for many years played an important part in the business life of the community, and was one of the best known men in this section of North Carolina.

Coming to Greenville from Greensboro while still a very young man, Mr. White entered the insurance business and built up one of the largest organizations of its kind in this section. He was for many years secretary of the North Carolina Cotton Seed Crushers' association.

Mr. White was secretary of the Home Building and Loan association, and a director of the Greenville Banking and Trust Company at the time of his death. He was a former president of the Greenville Country club and played an active part in the organization of that institution.

He was a Knights Templar and Shriner, Past Chancellor of the Knights of Pythias and a member of the social order of the Knights of the Khorassan. He was active in the work of the Episcopal church and was officially identified with the Diocese of the state.

Mr. White always showed an active interest in the development of the locality where his life's interests were centered, and was prominently identified with practically every movement looking to continued progress of the city and community.

Active pallbearers were: W. H. Dail, E. G. Flanagan, Chas. O. H. Horne, J. I. Morgan, Dr. Louis Skinner, George Woodard, James Ficklen, A. M. Moseley.

C. B. Allsbrook, J. F. Bowen, H. A. Beeson, J. B. Barden, Goldsboro; L. M. Bridges, Wilson; Ed Batchelder, W. L. Best, Prof. W. E. Bernard, Chapel Hill; J. H. Mayor Calls On Citizens To Help Carry Relief To Poor People Of Locality

To the People of Our Community: Our section is now in the midst of an unusual depression, but most of us still have many things to be most thankful for. I am sure that most of us are filled with the firm resolution to make the most of it and to fight our way back to our normal prosperity.

But to a considerable number of our people, this period of depression means actual suffering and want. To many women and children in our community, this temporary adversity means actual want and hunger. It may be startling, but it is true that there are unfortunate people within five minutes walk of the heart of our city who are suffering the pangs of actual hunger, for reasons beyond their control.

It is unbelievable that such a condition will be allowed to exist, once it is brought to the attention of our people. A little effort, a small offering on the part of each one able to give without hurting, will relieve the situation.

I know it is true that Greenville and Pitt county can and will take care of its own. I know that when

CONTRIBUTIONS TO CHARITY FUND ON INCREASE

Contributions of \$12.50 Today Swell Total Amount to \$45.50

With cash contributions of \$12.00 received today, the Merchants Association's Christmas campaign fund for the poor had climbed to \$45.50. The contributors were Mrs. W. B. Young, \$10.00; and cash, \$2.50.

Members of the campaign, committee from the Merchants Association and the Public Welfare department, sponsors of the drive, said they expected contributions to roll in more rapidly from now on, and that a neat sum would be realized within the next few days.

K. T. Futrell, director of the Welfare Department, renewed his request for more clothing for children. He said the situation among the juvenile element was deplorable and that something should be done immediately to improve the condition.

Mr. Futrell described the situation as acute in some districts, and said the children were actually undergoing great hardship for lack of clothing and food. He urged the public to give as liberally as possible to this cause in order that relief might be carried to the tiny sufferers as early as possible.

Although nearly three dozen "opportunity" cases have been made public during the last several days, it was stated that only about a half dozen had been taken by the various organizations of the city. Many of these cases are in dire distress, and campaign members expressed hope that as many organizations as possible would assist in providing for them during the holiday season.

Progress of the campaign will be recorded on the large barometer in front of the office of the Merchants Association from day to day so that the public may be kept correctly informed concerning the progress of the work.

Members of the new union, striking for better working conditions, shorter hours and a \$35 weekly minimum wage as well as to break the older union, had their eyes today on mines at Nokomis, Staunton and in the Springfield district. Their leaders said 3,000 men were out in this county and that the intention was to make the strike state-wide and possibly nation-wide.

Calling out the national guard to protect the four Peabody Coal Company mines in this county yesterday served as an indirect aid to the strikers. Several hundred members of the United Mines Workers appeared ready to enter the mines but refused to do so as long as the troops were there. Many expressed the opinion that to work under the protection of the state military would put them in the position of strikebreakers. The miners, for the most part, later went over to the new union.

There has been much talk here and at Springfield that the present strike is financed by the Communist Party of America in the belief that this is an opportune time and an opportune place to bid for power in the ranks of American labor. No foundation for this belief has been found in statement of strike leaders, nor have any such affiliations been claimed by the union.

ATTEMPTS TO PROVE HE IS NOT IMPOSTER

Man at Mountain View Claims He Is Youth Believed to Have Been Killed

Mountain View, Ark., Dec. 11.—(AP)—Continuing his efforts to prove he is not an imposter, a youth claiming to be Connie Franklin prepared today to lead officers to a lonely wood in the St. James community where a band of men is reputed to have mutilated and buried him to death.

Meanwhile five men, accused of murdering the youth as he and his sweetheart, Tiller Rumber, proceeded along a darkened road on their way to be married, were in prison here awaiting trial Monday.

Several persons, including three of the accused men, have identified the youth, who returned here recently, as Franklin. Added to this, Sheriff Sam Johnson has made public a letter which defense counsel declared greatly substantiated evidence that the youth is the Connie Franklin reported slain.

The letter was written last January 21, almost two months before the purported killing, to Dr. L. R. Brown, superintendent of the state hospital for nervous diseases at Little Rock. It bears the signature of Connie Franklin, who, according to Dr. Brown, was an inmate of the hospital once. The youth claiming to be Franklin has denied, however, that he ever was an inmate of the asylum.

The signature on the letter and that of the youth bear marked resemblance, officers admitted, but Sheriff Johnson declined to comment.

The imposter persists in her refusal to positively identify the youth as her former lover.

"I still love the Connie Franklin I knew, but I do not love this man she said."

State Baptists Adopt Budget for State Missions

Raleigh, Dec. 11.—(AP)—The general board of the Baptist state convention, at its regular semi-annual session here yesterday, adopted a budget for state missions of \$78,000 and a \$70,000 budget for education.

Dr. Charles E. Maddry, general secretary, gave an optimistic statement about the denomination during the past year in meeting its indebtedness, showing that the sum of \$176,182.32 had been applied to the bonded indebtedness and interest. He reported substantial reduction had been made on current indebtedness of State Missions, the debt being decreased from \$34,801 on January 1, 1929 to \$21,775 December 1.

He reported more than 100 churches applying for help in this state this year, a much larger number than last year.

The amounts allotted colleges of the denomination in the state from current funds were: Wake Forest \$8,000; Meredith \$6,000; Chowan \$7,000; Mars Hill \$6,500; Wingate \$5,000; Campbell \$5,000; Bowling Green \$3,500; and Ministerial education \$4,000.

All assertions of the attorneys, Russell characterized as "farfetched" and "directly contrary to the facts."

In addition to charging that armed forces had caused agitation in Port-au-Prince, the statement of the lawyers said that they were abstaining from court appearances because they believed that they were of such a nature as to disturb the serenity of the Haitian people because "machine guns, are trained on the Palace of Justice," and because of a belief that "the state of agitation existing in the republic cannot permit it to live in lawfulness and peace."

They were Jack Nevin, Jr., Linton Burkett and Gorman Mendricks. A sizeable crowd was waiting at the jail exit to greet the youths upon their emergence and news cameramen made flashlight photographs.

MURDER CONFESSION TO BE PLACED BEFORE JURY AT SPARTANBURG

Atlanta, Dec. 11.—(AP)—After a 24-hour investigation spent in checking details, police prepared to place before a grand jury the story of E. L. Hardegree, cigar-maker, who walked into the office of the Constitution and said he killed Professor Alexander Hamilton Johnson, school principal at Hartwell, Ga., here last June.

Chief of Detectives, A. Lamar Poole, said Hardegree had been identified definitely as Johnson's companion on the night he was slain by a negro, who saw the men in a grocery store. Others, however, were not certain of his identity. Poole planned to have the case ready for sub-mission to a grand jury by Friday.

The rescue of the warden and four prisoner guards was made under order of a tear gas attack. A detail of troops hurried the gas bombs through the inner gate into the main hall and waiting until the gas had taken effect, flung the gates open.

Warden Jennings and the four men rushed through, but were followed by a scattering fire of revolver shots.

Guard George E. Atkins was shot through the neck.

Guard J. F. Van Housen tumbled through the opening with his eye gouged out. The two remaining to escape as well as Warden Jennings were suffering temporarily from gas attack. The two, Claude Dempsey and Milton Riker, were sent to the hospital with Jennings, Atkins and Van Housen. Riker was wounded in the outbreak of last summer.

A hasty check after the escape of the group revealed that three or four guards remained in the hands of the convicts.

Auburn, N. Y., Dec. 11.—(AP)—Armed with guns said by officials to have been smuggled from the outside, approximately 1,500 convicts in the Auburn state prison revolted today, shot down Principal Keeper George A. Durnford, seized Warden Edgar S. Jennings and several other keepers and held them as hostages. The freedom of about twelve ring leaders of the mutiny was demanded for release of the warden and keepers.

State troopers from the Oneida barracks, Auburn city police and firemen and members of the local units of the New York National Guard were summoned at the outset to help in quelling the riot.

Information filtering through from the prison was to the effect that the warden and the mutineers were parleying as to the conditions under which the ring leaders were to be released. It was reported that the plan was to release them from the rear door of the prison and troopers and police outside were given orders to shoot to kill as they emerged.

It was also reported that the ring leaders would insist that Jennings and the other keepers walk out with them and it was feared that the machine gun blast which met them would down the prison guards as well as the mutineers.

The first discovery of the mutiny occurred when David Winney, a guard, entered the main hall of the prison. As he walked through the doorway a convict pulled a gun on him and ordered him to throw up his hands.

Instead Winney threw himself down and crawled sideways behind a post and then broke through the door. The convict fired at him but missed and Winney reached the main office of the prison, where he spread the alarm.

Telephone wires within the prison walls were found to have been cut, severing communications between the warden's office and the keepers, who were in the main hall at the time the outbreak started. Telephone wires outside the walls were found to be intact, however.

Meanwhile, whipping guns from beneath their convicts, the warden and his staff into a corner of the hall and laid down their terms.

Principal Keeper Durnford was believed to have been slain when he attempted to break through the ranks of his captors to summon aid. He is survived by a widow and two children.

CONVICTS RIOT AT AUBURN, HOLDING JAIL WARDEN AND DOZEN GUARDS AS HOSTAGES

Auburn, N. Y., Dec. 11.—(AP)—Warden Edgar S. Jennings and 12 prison guards, held for more than two hours today as hostages by a score of long term convicts rioting in Auburn state prison, were snatched from the hands of the mutineers by a picked squad of state troopers. One convict was reported killed during the attack.

Robbed of their last means of purchasing of conduct from the prison the convicts prepared to make a last desperate stand while troopers and national guardsmen, armed with tear gas and machine guns, prepared to rush the barricades in the few hours remaining before darkness would throw the entire prison into pandemonium and enable the main body of prisoners to escape.

Henry Sullivan, spokesman for the mutineers, and two other convicts not yet identified, were killed during the attack by state troopers.

TWO DEAD IN SUICIDE PACT AT NEW YORK

Socially Prominent Man and Woman Found Dead in Artist's Studio

New York, Dec. 11.—(AP)—Henry Grew Crosby, 32, and Mrs. Josephine Roth Bigelow, 22, both socially prominent in Boston, were found shot to death in an artist's studio in West 6th street last night in what police said was a suicide pact.

The bodies, fully clothed, were found facing each other on a bed. Crosby's left arm was about the woman's neck and in his right hand was a 25 caliber pistol. Mrs. Bigelow was shot in the left temple and Crosby in the right.

There were no notes, and while police were convinced they died in a suicide pact, they were at a loss to ascribe a motive.

Crosby had been registered since November 28 at the Savoy Plaza hotel with his wife, the former Mrs. Jacob Peabody of New York, whom he married in 1922, and his mother, Mrs. S. V. R. Crosby. He was the son of Stephen Van Rensselaer Crosby, Boston banker, a war veteran, a graduate of Harvard, and recently returned from Paris. He was a nephew of J. P. Morgan.

Mrs. Bigelow had been visiting friends in New York the last two weeks. She was married last June to Albert S. Bigelow, now a graduate at Harvard and a former Harvard hockey player.

The studio at the hotel Des Artistes in which the shooting occurred was that of Stanley Mortimer, Jr., who said he had met Crosby in Paris five years ago, and that Crosby sometimes used his apartment when in New York. He described Crosby as a poet.

He said Crosby phoned him yesterday afternoon asking for use of the apartment and that he had given his consent. Crosby arrived with Mrs. Bigelow shortly afterward. When Mortimer returned about 9:15 last night he found the door locked and bolted and receiving no answer to his ringing, notified the superintendent who forced an entrance. The bodies of the two were then found.

Mrs. Crosby was notified at the Savoy Plaza shortly after midnight of the finding of her husband's body. Both bodies then were taken to the morgue.

Mortimer said he knew little of Crosby's private life and that he had known Mrs. Bigelow only slightly. Police said they were told Crosby had spent much time abroad, principally in England and France.

Man Wanted for Murder at H. P. Held at Tupelo

High Point, Dec. 11.—(AP)—John Lee Black, who has been sought by High Point police for the last two years for the murder here of R. T. (Bob) Ritchie, has been arrested at Tupelo, Miss., and is being held there for local authorities Chief of Police E. A. McGee was notified today.

The boldness of the killing here on January 30, 1928, started this section of the state. Black, it is alleged, walked up to the side of an automobile in which Ritchie was seated with a woman named Mrs. Frank Rockie, started an argument and then, with a shotgun killed Ritchie while the woman and a number of other persons looked on. The shooting occurred on a down town street.

Curfew Law Used At Port Au Prince

Port Au Prince, Haiti, Dec. 11.—(AP)—Martial law has been strengthened here by a curfew regulation requiring everyone to be indoors by 9 p. m. save for military police continuing their rounds the city presents a normal appearance.

President Louis Borno commented on the situation arising from the riots of last week: "We have little to fear for the future. With a continued close watch maintained by the National Guard in the front line and with support of the United States Marines there is little chance of progress by the strikers."

Colonel Frank Evans, commanding the marines, said he was confident there would be no further trouble in the larger communities although there was possibility of an outbreak in the interior. Agitators were said to have been inciting the people with stories that the president had conspired to enslave them with high taxes on tobacco and coffee.

Madrid—There's a bit of a protest against the dictatorship. Some of the provinces are petitioning for restoration of the annual fiesta to four days. Last year the government cut it to one Sunday.

New York—An electric ear designed to give warning of burglars by sounding an alarm in case of a blow torch or a boring instrument is applied to bank vaults is so good that janitors cleaning up at night have set it off by dropping mats.

MILL WORKER TESTIFIES AT RIOT HEARING

Rom Minish First Witness Called by State in Trial of McDowell Officers

Burnsville, N. C., Dec. 11.—(AP)—Tom Minish, a textile worker, was the first witness called by the state today in the trial of eight McDowell county deputy sheriffs charged with second degree murder as a result of a strike disorder in front of a Marion cotton mill in which six persons were killed Oct. 2nd.

Minish testified he had been employed five years by the Marion Manufacturing Company, where the battle between strikers, workers and deputy sheriffs took place. He was a member of the union that he went on strike last July, remained on strike for nine weeks and returned to work when the differences between the mill and the strikers were adjusted.

Most of Minish's early testimony was devoted to a description of the Marion Manufacturing Company's plant. He said he reached the mill around six o'clock on the morning of the battle, but before he started the story of the fight, Schittler J. Will Pleas, Jr., questioned him about locations of various buildings about the mill. To give the jury a better idea of a location, the collector drew a diagram of the buildings on a blackboard.

The attendance at court today, the first day of testimony, was not more than fifty, where 250 or more had jammed into the court room during examination of witnesses. The case was sent here on change of venue from Marion.

"Did you enter the mill when they opened the gate and announced that all who wanted to come in and go to work might do so?"

"No."
"Why not?"
"I don't know."
"Why did you say a while ago that the reason you didn't go in was because Sheriff Adkins and his men kept you out?"

"I don't know."
Minish said he saw "three old men" carrying sticks. He named them as Samuel Vickers and George Jones, two of the six men killed in the battle, and one man named Jones. He said he saw no guns, since he had his back turned during the shooting.

Witness asked if he heard shouts from the crowd of "To hell with the law," and "Let's shoot the sheriff's head out." He replied that he hadn't.

"Did you see the sheriff hold up his hands and say, 'Men, I am here in the name of the law. Stand back and let these who want to work, come in?'"

The witness replied he hadn't.

Britain Sees No Comfort in U. S. Sleeping Cars

London.—(AP)—Looking at it from a British railroad man's point of view, Prime minister MacDonald's visit to the United States must have had its discomforts.

C. T. Cramp, industrial general secretary of the National Union of Railwaymen of Great Britain, has expressed himself as follows:

"We are so accustomed to regard America as being the last word from the point of view of comfort and convenience in everything pertaining to travel that it must come as a shock to many to learn how much more expeditious and comfortable is the average British train compared with its American counterpart."

"In the first place, the American track is so very much inferior to our own. It is much less costly to build and maintain, but the price has to be paid by the passenger in

the crushing and jerking to which he is subjected.

The average sleeping car is an atrocity. It is true that by the payment of a very high price one may obtain what is called a drawing room state which is something like our own up-to-date, sleeping cars, but the majority of travelers on the long distance trains sleep in the two tiers of bunks on either side of a central corridor.

Those fortunate enough to obtain the lower berths may compare their dozing sitting on the berth partly screened by curtains, but they frequently find their unprotected feet trodden on by passengers walking along the corridor.

But these unfortunate enough to be allocated a top berth are in for a bad turn. They must climb up by means of a small ladder and then endeavor to divest themselves of their coats in the manner of a snake trying to wiggle out of its skin.

"On the other hand, the catering arrangements are good. The restaurant cars are bigger than ours, and the menus more varied."

Diamonds Favored for Fine Tooling

Detroit.—To the average man, diamonds are little in common excepting as an outward evidence of a certain affluence.

In the manufacture of automobiles, however, diamonds figure as an important factor.

Although the figurative alchemists of the industry have succeeded in producing a substance that, approximately, the diamond in hardness, and in cutting power, the original gem still holds first place in the favor of the engineers having to do with the production of cutting and cutting tools.

The diamonds are particularly effective in drilling and other machining aluminum and brass, both "stringy" metals which chip and shred under steel tools.

Virtually all the larger automobile plants have a stock of diamonds always on hand. One large plant that specializes in high grade products keeps a stock of from \$50,000 to \$100,000 worth of diamonds.

The most commonly used is the Brown Bort. Others are black, lead colored, yellow and clear white. The white diamonds have carbon spot flaws that make them better for cutting than a diamond without a flaw. The average size is about 2-1/2 karats, although some weigh as much as four and five karats.

The diamonds are mounted in the ends of metal rods by drilling holes the sizes of the stones in the end of the rod and setting the jewel in melted metal, something like zinc solder.

All the plants have their specialists in fine tool and diamonds. Invariably each is "Diamond Dick" to the shop employees. He not only has charge of the stones, but he also selects the stones needed for different operations in the plant, and passes upon the quality of the stock purchased each month.

"Younw Guard" At Rest After Testing Wings

By FRANK L. WELLS
Associated Press Feature Writer
Washington.—(AP)—How will it soar during the regular session that fledgling "young guard" bloc of senate republicans which flew solo shortly after it left its nest?

It hatched almost overnight in the special session, blending the voices of its 24 members against plans of the Republican wheel horses to adjourn the special session of congress without passing a tariff bill.

The flight threw the senate into night sessions, the "old guard" into apprehension, and the insurgent-democratic coalition into oratory.

Senator Paul Harrison of Mississippi was the most audible. Intermittently calling them "junior leaguers," "bush leaguers," and "Boy Scouts," he charged the "young guard" with bolting their party leadership in an effort to get out from under responsibility for failure of the tariff bill.

Responding for his colleagues,

Senator Henry J. Allen, the new member from Kansas whose close contact with the President is never admitted and as rarely concealed, declared they wished only to keep the administration's pledge to agriculture and stand by Mr. Hoover.

"We saw a raw deal for the President," the senator explained, "and without secret organization, dark plot or ulterior motive, this group, so misunderstood in its motive, voted to block adjournment in the hope that a bill including the industrial rate level of the Fordney-McCumber law and increased agricultural schedules would be passed."

To the "old guard" Senator Allen said that the new alignment of the Republican majority did not question the leadership of Senator James E. Watson, Indiana, senator floor leader, Senator George H. Moses, New Hampshire, chairman of the Republican senatorial campaign committee, or any of the party wheel horses.

The new element, he assured them, expects to be back in the nest in all things except abandonment of tariff legislation.

However, the new bird soared high on its first flight and while it hovers near the "old guard," its wings are not folded. Its strutting about leaves some question as to where it will perch or what it will turn out to be.

It feels it has the support of the President, and that may be inducement for the spurs and thick leathers on a game cock.

Hour Lopped Off of Cross-Country Air Service Now

San Francisco.—(AP)—December will see the lopping off of another 60 minutes in the transmission of service between the Atlantic and Pacific seaboard.

To the trans-continental traveler this means only an hour saved, but in the movement of interest bearing securities between San Francisco and New York a savings of thousands of dollars in interest and insurance charges is signified.

During the deluge of stock transactions in recent weeks, west coast financial houses transmitted by air nearly \$100,000,000 in securities daily. Transamerica, leader of the western stock market, sent more than \$75,000,000, the largest, individual mailing, to eastern buyers in a single day.

Twenty-five million dollars a day, bankers estimate, is the average value of securities carried from the San Francisco district daily.

Speed boats and amphibians will be the principal factors in cutting down the time between San Francisco and Oakland's 85-acre municipal airport.

Public utility commissions have authorized both services to start in December, with the speed boat company offering 20-minute service while the amphibian company promises to span the bay in 10 minutes.

The present average of an hour and a half in transporting mail by auto truck and ferryboat between the two points.

The two services will land their craft near the Ferry building, San Francisco, which is just across the street from the Ferry post-office, San Francisco's largest distributor of mail.

MISS MCGEE ENTERTAINS LITERARY DEPARTMENT

Miss Eunice McGee entertained the Literary Department of the woman's club yesterday afternoon in the parlor of the teachers' dormitory.

The study for the afternoon was "Sundays." Miss Clem Bridges gave in a very interesting manner, the life of Strindberg and his works.

Strindberg's own experiences are the basis of his dramas. The work of Strindberg reveals naturalism in its most sensational form. He is chiefly concerned with the dual between man and woman and the influence of heredity and environment.

Everyone enjoyed "The Father," a three-act play read by Mrs. Picklesimer. The triumph of love to hate is shown in its most aggravated form in this struggle of a woman to break the will of her husband.

A delicious plate lunch was served after the program.

Mrs. E. T. Smith spent the week-end at her home in Greenville.

Mr. and Mrs. E. E. Everett spent Sunday in Morehead.

We are glad to know that Miss Arlene Parker is recovering from surface infections caused by an accidental cut on her arm by a knife some time ago.

Miss Anna Wethington spent the week-end with Mrs. B. T. Smith. Reports are that wedding bells will be ringing in Belvoir soon.

There will be a Parent-Teacher Association meeting at Belvoir on Wednesday night at 7:30. All members are urged to come.

Unveil Portrait of Pitt Native at Charlotte

A portrait of H. P. Harding, superintendent of Charlotte schools, was unveiled at the Central High school building at Charlotte last Wednesday, and a striking likeness of well-known educator was carried on the front page of the Charlotte Observer in its edition of December 6th.

Mr. Harding is a native of Pitt County, and a brother of F. C. Harding, well-known attorney of this city. The portrait of the distinguished educator was presented to the high school by the Parent Teachers Association of Charlotte.

Convict One On Charge of Selling Fake Diplomas

Chicago, Dec. 11.—(AP)—The first trial to result from the state's exposure of an alleged million dollar diploma mill has ended in the conviction of W. H. Miller on charges of conspiracy to sell illegal medical and dental degrees to persons not qualified to practice.

The jury after deliberating nearly four hours last night, fixed sentence at seven months and a day and imposed a \$2,000 fine on Miller, former head of the state department of education and registration.

State's attorneys said they would proceed immediately with the prosecution of other members of the ring. Several men are under indictment and awaiting trial, while two others have pleaded guilty and are to be sentenced at the conclusion of the other trials.

Woman Charged With the Murder of Her Husband

Marshall, Dec. 10.—(AP)—Mrs. Mary Frisby was under arrest today, charged with the murder of her husband, Ernie Frisby, in a warrant sworn out by her father-in-law, John A. Frisby, who was twice tried and finally acquitted on a charge of murder in connection with his son's death.

Ernie Frisby's bullet-riddled body was found in the living room of his home several miles west of here early on the morning of August 6, 1928. Mystery surrounding his death has never been solved.

Mrs. Frisby was arrested late yesterday and was held in the county jail without bond today. What evidence the state has to support the charge of murder was not revealed.

Turkey dinner served at noon and tomorrow evening in basement of Memorial Baptist church. Also chicken and home made cakes.

R. E. SELLERS HEADS LOCAL MONARCHS

Organization Meeting to Be Held in City Next Thursday Evening

The last business meeting of the Greenville Monarch club was held in the Proctor Hotel Tuesday night, Dec. 10th, and elected the following officers for the year 1930:

R. E. Sellers, president; J. W. Foley, first vice-president; W. F. Turry, second vice-president; V. C. Fleming, third vice-president; A. C. Tedlock, secretary; B. D. Johnson, assistant secretary; S. Lloyd Taylor, treasurer.

The Monarch and Charter will be presented at a banquet held at the Rotary Home on Thursday night when Mayor J. C. Lenoir will make the address of welcome. The presidents of the Rotary, Kiwanis, and Lions clubs and their wives, and lady friends will be invited and will attend, the representative of the local press will also attend. The secretary of the Merchants Association will also attend.

A delegation of at least thirty from the Rocky Mount Monarch club will be present and delegations from Raleigh, Durham, Greensboro and High Point will be in attendance and sponsor the new club.

The National Vice-President, N. L. Garner of High Point will be present and speak of the origin and development of the National Monarch clubs which is now in ten states.

The representative of the visiting local clubs will be called upon for short talks during the evening.

The occasion is to be informal, National Representative C. J. Meese, who has been in charge of the work here will preside and present the charter.

The Monarch club meets every week, and the time and place will be set at its first regular weekly meeting.

STATE COLLEGE VOTES ON FRESHMAN CAPS

Raleigh, Dec. 11.—(AP)—State College students went to the polls today to cast secret ballots on the question of abolition of the freshman cap at the school. The result is not expected to be known until late tonight as the voting will continue throughout the day. The "No" caps have been the center of a controversy on the college campus since a freshman football player was ordered to wear a dress for violation of the cap regulation about a month ago. The freshman class has already unofficially voted to do away with the caps while upperclassmen have voted to retain them.

To Investigate Street Car Blast At New Orleans

New Orleans, Dec. 11.—(AP)—The dynamiting of two street cars after a month of quiet today brought a city investigation in which police said suspects would be charged with violating both the state law, providing the death penalty for such violence and a federal injunction prohibiting the trolley.

Since the beginning of a street car strike in July numerous trolleys have been bombed here.

After two cars were dynamited last night in the residential section of the city, injuring two negroes, 11 policemen on vacations were ordered to return to duty to reinforce the patrol system.

The explosions took place only a few minutes apart. In the first car the blast tore up the floor, broke a front truck and drive wheel and smashed almost every glass in the window. No one was hurt. In the second section shortly afterward another car was bombed, but escaped with somewhat less damage. Two of the car's twenty passengers, two negroes, were slightly injured.

SPARTANBURG FIRE AT SPARTANBURG, S. C.

Fire of undetermined origin which broke out in the National Furniture Stores building on East Main street last night did damage estimated at \$80,000.

The fire started on the fourth floor in the mattress and repair department. For some time it raged with flames trying to break through the roof. A draught through the ceiling shaft, after the front windows had been broken, sent flames rapidly over the entire floor and soon it threatened to get beyond control. After three hours firemen confined it to the floor on which it originated.

Most of the damage to the furniture stock was from smoke and water.

Bank Robber Sentenced to Hang in Colo.

Lamar, Colo., Dec. 17.—(AP)—Robb Fleagle, 56-year-old bank robber convicted of first degree murder, was under sentence today to hang the week of March 23, 1930. Judge A. J. Hollenbeck yesterday overruled a motion for a new trial and pronounced a sentence. Two of Fleagle's accomplices in the robbery in May, 1928, of the First National Bank of Lamar, Colo., have been sentenced to be hanged in the week ending February 15.

FEMININE INFLUENCE NOTED ON LINDY'S PLANE

Washington, Dec. 11.—(AP)—A noticeable "feminine" influence upon this applicant's of Colonel Charles A. Lindbergh's sturdy but and orange plane has been detected by aviation at Bolling field.

Looking over the ship when the famous flyer landed here yesterday they observed that since his last

Negro Man and Woman Held On Murder Charge

Cushing, Okla., Dec. 11.—(AP)—County officials were prepared to swiftly today against John Young, negro, and his wife, accused of slaying Ot Butler, prohibition agent of Tulsa and wounding George Denbrough, another federal agent in a liquor raid in the negro section here last night.

M. J. Bradley, Payne county sheriff, said murder charges would be filed against both Young and his wife, and other officials in detailed plans already had been made to put the case before the court. Butler and Denbrough, accompanied by Dave Humphrey, deputy sheriff, went to Young's home last night Humphrey, leaving he might be recognized, left the house and soon his departure, Denbrough and the federal agents asked for a pint of whiskey.

When the negro produced the "Black Man" continued, he was arrested with a warrant for his arrest. Young, he said, snatched at the bottle in an effort to destroy it and during the scuffle between Denbrough and the negro, Butler struck another room, where he found a revolver. Denbrough said he heard a shot and a moment later Butler fell to the floor near the doorway, where he died almost instantly.

Harry Willis Returns

New York, Dec. 11.—(AP)—Harry Willis, once the "Black Man" on the heavyweight, returns to the ring wars tonight in a ten round bout with Andrea Caetano, of Mexico, at the New York coliseum. Willis has fought only once since he lost to Paulino Uzcudun here in July, 1928, being to Castano and a foul at Mexico City two months ago.

STUDENTS' RAG MILDER THAN USUAL THIS YEAR

London, Dec. 11.—(AP)—The customary student rag following Oxford's 9 to 6 victory over Cambridge in their annual rugby game yesterday was a peaceful affair compared to the riotous rush through London's west end which marked the 1927 game. That last big rag roused public indignation to the point where an attempt was made to do away with the old custom.

Last night members of the Cambridge team and their friends contented themselves with dancing on the tables of the hotel at which they dined, securing a big bill for broken crockery and glass while the Oxford boys and their supporters, ruined the performance at the theater they patronized, compelling the management to refund ticket money to a number of disgruntled members of the audience.

As more upholstery had been added to what were cockpits of the plain military type and better protection afforded against the wind-stream. Also the exhaust pipes have been led into a "stack," carrying the fumes from the engine well behind the passenger. And another step has been added to the rear cockpit.

Colonel Lindbergh came here for conferences with officials of the Carnegie Institution and last night attended a scientific lecture by Harold D. Babcock, sponsored by the institution.

MAKE THEM HAPPY CHRISTMAS
 For several days we have been publishing number of Christmas Opportunities in the form of families who will need outside aid if they are to have the necessities of life for Christmas, and it is somewhat disappointing that the response so far to this appeal for help has been so small. Don't wait until the last minute to decide what you are going to do for Charity Christmas. Let that be one of the first of your Christmas plans. These people need help and it is the duty of our more fortunate citizens to see to it that they are provided for. Let's see to it that there is not a hungry mouth, or a cold body in our community this Christmas and if possible let's place a smile on the face of every boy and girl by providing something to make them happy. If we will do this job as we should Christmas day will find us much happier ourselves with the realization that we have really helped to spread the spirit of "Peace On Earth."

DO IT NOW.
 With Christmas just two weeks from today there is but a little time left in which to do that Christmas shopping and mailing, and we urge you to get busy and complete the job as early as possible. When you do your Christmas buying naturally you want the choice of the best possible articles, but the large stocks in our stores are fast being picked over, and delay on your part might mean disappointment for you in not finding just that particular gift you had planned to give someone. Then in addition to saving yourself disappointment by shopping early, your prompt action will make it possible for the clerks and others who must stay on the job until Christmas shopping is over, to complete their jobs and enjoy Christmas without being tired out by a last minute rush.
 Now as to mailing your parcels, cards, letters, etc., as early as possible. If you are sending a gift or other greeting to someone, of course, you want them to receive it by Christmas, but last minute mailing is inviting delay that may cause your greeting not to be delivered until after Christmas is over. Mail your parcels as early in advance as possible and if you like, mark them "Not to be Opened Until Christmas." Those men who must handle your mail are entitled to get off their jobs in time to enjoy Christmas with their families but they cannot do it unless you co-operate by doing your mailing early. Pitch in now and see to it that you complete the job at least several days before Christmas arrives. By so doing you will be helping others to finish their tasks in time to enjoy Christmas also.

ABOUT TOWN

Members of the Greenville Rotary club hit upon a happy plan of helping carry relief to the poor people of the community, and one which no doubt other service organizations will adopt before the holiday season comes to a close.
 The Rotas have decided to partake of a menu consisting of crackers sandwiches and coffee at their meeting next Monday night and to give to the poor the difference between the cost of that and a regular supper. In addition to denying themselves in this distinct manner, they also voted to give the sum of \$100 outright, to be spent by the committee for the poor during the winter months.
 This is a very commendable movement on the part of the organization and its members are to be congratulated.
 Additional Christmas decorations continue to make their appearance in the business district, lending belief to the fact that the city will be the best dressed place in Eastern Carolina during the Christmas holidays.
 While few homes have started decorating as yet, they are expected to put on their holiday attire during the next few days, and take part in the contest for the \$35.00 in cash to be given to the best decorated home in the city.
 Active competition is expected to exist in the business section where a prize of \$15.00 has been offered to the merchant offering the best decorations of store fronts and windows.
 If you haven't given this matter any consideration, why not get busy and do so at once and in that way show that you are behind the movement to beautify things during Yuletide.
 Awarding of contract for erection of the Sheppard Memorial Library in this city today will be received with more than passing interest on all sides. The new building is the gift of Mr. Harper D. Sheppard, of Hanover, Pa., as a memorial to his father, a native of Pitt county, and for many years a county official. The gift will fill a long-felt need of the community for adequate library facilities, and will be a splendid memorial to the man who served the county so efficiently in past years.
 Greenville people are fully appreciative of the \$50,000 donation that makes the new structure possible, and her people will feel deeply indebted to Mr. Sheppard for his generosity.
 Why not solve your Christmas problem by sending a year's subscription to the Daily Reflector? This paper has played an important part in the life of the community for many years, and today it is serving hundreds of subscribers in many sections of the country. Some have been taking the paper ever since its first issue as a daily thirty-six years ago, and they are proud of the rapid strides it has made along with the community.
 The Reflector offers a splendid news service from all sections of the world, and to the former citizen living in other communities it faithfully portrays the development taking place here from time to time.
 There are lots of things you might give the former Greenville or Pitt county man or woman, but it is safe to say nothing would be more completely appreciated than a subscription to the Reflector.
AUTO ENGINES "LAZY" IN HUMID ATMOSPHERE
 Washin' on (AP)—Like human beings, automobile engines are inclined to loaf on the job when the weather is humid or "muggy."
 The bureau of standards has completed humidity tests with a well known type of automobile engine. The less power the bureau found to be directly proportional to the amount of moisture contained in the air.
 "This does not necessarily mean that the engine has less power when it is raining," the bureau explained, "as it is quite possible to have more moisture in the atmosphere on a hot 'muggy' day with no rain than on a cooler rainy day. In other words, the loss of power is proportional, not to the relative humidity, but to the absolute humidity."
 Power losses between a very dry day and very humid day, it was found, may be as large as 10 per cent.
 Other effects of high humidity noted by the bureau are decreased lubrication, enriched mixture, and, in effect, retarded spark. These effects, it was pointed out, tend to make the automobile operate more smoothly.

C., Pitt County, sell at public auction for cash to the highest bidder the following land to-wit: Adjoining the lands of Ellen Garbis and Queenie Cox and others and beginning at a stake on the public road leading from Ayden to Grifton, in line of Lot No. 3 in the division of the lands of Jordan Cox, and runs N. 86 W. 240 poles to the 3rd of the lands of the said Jordan Cox, thence S. 41-2 W. 21 poles to a stake, old corner, thence S. 85-1-2 E. 231-2 poles to a stake on the public road leading from Ayden to Grifton, thence with said road N. 16-1-2 E. 221-2 poles to the beginning, containing 30 4-5 acres more or less, and being the same lot or parcel of land allotted to Jordan Cox in the division of the lands of Jordan Cox, (his father) on the West side of the public road leading from Ayden to Grifton, the same being all of lot No. 4 in said division West of the said public road.
 This sale is made by reason of the failure of H. Jordan Cox and wife, Cynthia Cox to pay off and discharge the indebtedness secured by said deed of trust to the North Carolina Joint Stock Land Bank of Durham.
 A deposit of 10 per cent will be required from the purchaser at the sale.
 This the 13th day of Nov., 1929. First National Company of Durham, Inc., Trustee. Formerly First National Trust Company. Durham, N. C. Nov. 20-11w-4wks.

Farmers Sell Your TOBACCO IN GREENVILLE

Sales so far this season total 47,543,714 pounds for \$9,093,780.81, averaging \$19.12 per hundred pounds.

We are selling tobacco daily from practically every county in Eastern Carolina and the farmers say it is paying them to sell in Greenville, even though some of them travel at least 125 miles.

Those in position to absolutely know, say we are highest market and have keener buying competition than any market in the East.

Since Last Season—

Three of the warehouses have made large additions, which gives the market increased floor space of about two acres. Some of the factories have made enlargements to their buildings, installing additional redrying facilities and other equipment. The Greenville tobacco market is decidedly in better position to handle, daily, larger quantities of tobacco than ever before.

Tobacco Warehouses—

Greenville tobacco market has nine (9) large and modern brick warehouses with close to 14 acres floor space, sufficient to accommodate 2,225,000 lbs. of tobacco daily. These warehouses are managed by men of years of experience.

Buyers and Factories—

Greenville tobacco market has four (4) sets of buyers, representing all the important companies in the world, using bright tobacco. Nine (9) larger and modern tobacco factories are located here, additions having been made to several of them since last season, while one new plant has been built.

Roads and Locations—

Greenville tobacco market is located in the heart of Eastern North Carolina. Seven fine hard surfaced roads lead into Greenville. Tobacco growers living 125 miles from Greenville to tobacco market sell their tobacco in Greenville and return home same day.

COTTON MARKET

New York, Dec. 11.—(AP)—Cotton opened steady today at a decline of 4 to 5 points to relatively easy Liverpool cables and overnight selling orders attracted by the rally of yesterday. There were supposed to include some southern selling. There was a moderate demand from the trade, which included some buying for European account, and the market held fairly steady during the first half hour. January fluctuated from 17.16 up to 17.23 compared with 17.23 at the close yesterday.

Liverpool cables said continental buying and covering had been supplied by realizing that that market was in a fair demand for cloth in India.

GRAIN MARKET

Chicago, Dec. 11.—(AP)—Lively tumbling down of wheat prices today carried the market to more than 12c a bushel under last week's top level. About the only buying support for wheat came from previous sellers who were in a position to collect profits. Scarciness of export clearances of wheat and flour both from the Atlantic seaboard and the Gulf of Mexico, as well as sharp breaks in quotations at Liverpool and Buenos Aires, appearing to have staggered friends of higher prices for at least the time being.

Wheat closed unsettled 2 1/8 to 2 3/4 cents a bushel below yesterday's finish; corn closed 1 1/4 to 3/8 to 3/4 down; oats 3/4 to 1 off, and provisions unchanged to a setback of 10 cents.

STOCK MARKET

By STANLEY W. PRENOSIL
(Associated Press Financial Editor)
New York, Dec. 11.—(AP)—The stock market floundered about in a rather erratic manner again today. Prices headed upward in the early trading under the leadership of the public utilities and the rails, but turned irregular later when selling pressure was renewed against U. S. Steel common, General Electric and some of the other recent leaders. Trading, while somewhat better in volume than yesterday, continued to be of a highly professional character.

Business news was more favorable in tone. The Iron Age review stated that while December may be a poor month both in shipments and production, sentiment in the iron and steel industry has improved and nowhere are there signs of a general paralysis such as developed after other stock market panics.

Foreign sales of copper yesterday were reported to be the largest in three months. Some disappointment was shown in the sharp falling off in freight car loadings during Thanksgiving week, but this was attributed, in part, to the molasses.

Dividend developments were largely favorable. The annual payments on the common and preferred stocks of the Westinghouse Electric and Manufacturing company were increased from \$4 to \$5, but the common sold off sharply on the announcement, presumably because many traders had expected stock splitup. Otis Elevator scored an extreme gain of 13 points on the announcement of a 4 for 1 stock splitup.

U. S. Steel common, after touching 123 3/4 during the morning, sold off to 118 1/4. In the early afternoon, General Electric dipped 5 points below last night's close and Johns-Manville and Radio also turned soft in the early afternoon trading.

Philadelphia Co was the spectacular feature in the public utility group, soaring 34 points to 224, jumping several points between sales. Standard Gas and Electric was marked up 9 1/4. American Water Works & L. Electric Power and Light 6. But many of these gains were cut down in the afternoon selling. Buying of the utilities was based on reports of steady expanding electrical output and the belief that the increased dividend rate on public service of New Jersey was the forerunner of other special distributions.

Oil enjoyed a temporary period of strength under the leadership of

HOUSTON, MEXICAN SEABOARD AND SIMMS PETROLEUM, WHICH ADVANCE 2 TO 5 POINTS.

Gains of 10 to 131-2 points took place in several ordinarily inactive rails. Wall street heard today that reports of early dividend inauguration on St. Paul preferred were inaccurate as it was stated in banking and railroad circles that no payment is likely for at least six months.

SALE OF VALUABLE FARM PROPERTY

Under and by virtue of the authority conferred upon us in a deed of trust executed by B. B. Hardy and wife, Ida Hardy, on the 16th day of January, 1923, and recorded in Book I-14, page 323, we will on Saturday, the 28th day of December, 1929, at 12 o'clock, noon,

at the courthouse door in Greenville, N. C., Pitt County, sell at public auction for cash to the highest bidder the following land to-wit: All that certain tract of land in the State of North Carolina, Pitt County, and in Pactlas Township, bounded and described as follows, to-wit:

Bounded in the North by the Public Road, bounded on the East by the lands of George Little and W. W. Little; bounded on the South by the lands of J. R. Davenport, and bounded on the West by the lands of J. C. Crandall; containing 76 acres, being the same land described in a Deed from J. C. Crandall and wife, to B. B. Hardy, dated February, 1914, recorded in the Register's Office of Pitt County,

North Carolina, in Book U-10, page 540, to which reference is made for further description.
This sale is made by reason of the failure of B. B. Hardy and wife, Ida Hardy, to pay off and discharge the indebtedness secured by said deed of trust to the North Carolina Joint Stock Land Bank of Durham. A deposit of 10 per cent will be required from the purchaser at the sale.
This the 25th day of Nov., 1929.

SUNDOWN STORIES

Santa's Mail
By MARY GRAHAM BONNER

Santa Claus had been so interested talking to his dog, Great Boy, and working in his shop, that he had not noticed John or Peggy or the Little Black Clock.

"He is too busy to notice any outsiders," said the Little Black Clock.

"Oh, can't I say just one word to him?" Peggy asked.

"Yes, just before we leave," the Little Black Clock said. "But you know he's a little bit shy. In fact, he is quiet shy."

"He very seldom talks to people, but he loves to have them write him notes and send him messages, and he is so happy that he decided to spend his time preparing for one day in the year."

"He said, you remember, that he knew it would keep him young. And it has! He has never grown a day older from that time to this, and he will never grow any older. He will always have white hair—just as he had when he decided what he would do. But he will stay just the same."

The Little Black Clock and John and Peggy sat, now, in a corner of Santa's room. He was reading the letters he had received aloud to Great Boy.

"Oh, here's one from Florence. She wants a doll. Well, she'll just have to have a doll!"

"And here's one from Peter. He wants a boat. He'll have to have a boat! Betty wants a doll, and Freddy wants a drum. They shall have them! And they all say they love me, Great Boy. Isn't that wonderful?"

"Wait! Do I hear a sound? Santa Claus went over to his fireplace."

"Yes! Here are some messages coming through the chimney to me! Bobby says he's going to leave some sugar for my reindeer!"

"Shall I speak to him now?" asked Peggy.

"All right," said the Little Black Clock.
