## EIGHT DEATHS RESULT FROM COLD WAVE

### One-Third of United States Whipped by Frigid Winds and Zero Temperatures

Denver, Colo., Jan. 17.—(AP)—The worst of the blizzard bound peaks of the Rocky Mountains there lay today a vast land of snow and Arctic temperatures, lashed by the climatic pangs of the winter's worst storm. Approximately one-third of the United States was whipped by frigid winds which brought a temperature of 56 degrees below zero in Montana.

Two persons were frozen near Cheyenne, Nev., bringing to eight the toll of the killing cold in the three days. Last night was one of the most severe in Denver in many years. A blinding blizzard swept the city and long before midnight the snowbound streets were deserted.

An official reading at the weather bureau early today was 17 degrees below zero and the thermometer still dropped as an icy gale drove down from the northeast.

Air and bus systems were paralyzed, although railroad traffic was not hampered seriously. At Cheyenne, as the mercury stood at 23 degrees below zero, a 30-inch water main froze and burst near the officer's quarters at Fort Francis E. Warren.

It was estimated 4,000,000 gallons of water flooded a restricted area. Telephone service in all directions from Cheyenne was demoralized.

In Montana there was not a point in the state with a temperature above the zero mark and average readings were 10 degrees below the low point yesterday. Snow fell at several points.

The thermometer of the Anaconda Company's pump station at Silver Lake, 12 miles west of Anaconda, registered the record mark of 56 below and the terrific cold brought the mercury to the minus-48 point at Basin, 40 below at Lake, 33 below at Billings, and 30 below at Livingston.

Nebraska, the Dakotas and Iowa were only in slighter degree and farther south, in Nevada, New Mexico, Oklahoma, Kansas and Missouri, the ocean of cold air spread and numbed the countryside.

Chicago, Jan. 17.—(AP)—Zero carved its name upon the snow covered chest of middle America today. Rivers that had run wild earlier in the week slunk back to their beds, but the cold that checked their rampage brought added misery to persons who had been driven from their homes by the high waters.

Many places were riddled with snow, and in the urban centers sheets of glass carpeted the boulevards.

Coming out of the Rockies, the cold descended upon virtually the entire central and northwest, but it was upon the Mississippi river banks of Iowa, Illinois, Minnesota and Missouri that it trod heaviest.

At Minneapolis it was 12 below; Keokuk, Ia., was numbed with 6 below and at Quincy, Ill., it was only one degree higher. Down the river, the blast tempered itself; at St. Louis, the thermometer wavered around, while at Cairo, Ill., it was 13 above.

Along many rivers, the flood crest had passed far downstream until now the lower stretches of the Mississippi were expectant of high stages.

In southwestern Indiana, the flood condition was still serious. At Vincennes, a crisis was expected today in the looked-for crest of the raging Vandal. Spreading throughout the city as the waters rose, a small-pox epidemic numbered 45 cases yesterday and added to the misery of their loo an cold.

**Trial of Deputy Sheriff Suspended**  
Greenville, S. C., Jan. 17.—(AP)—The trial of J. Harmon Moore, former Greenville county deputy sheriff, charged with the murder of Sheriff Sam D. Willis, was suspended this morning until Monday, to enable the prosecution to secure an important witness.

The announcement was made by Judge W. H. Townsend immediately after court convened. The judge said counsel for both sides agreed the trial could be expedited if the temporary recess is taken and he told jurors they might be permitted to go to their homes for the week.

Solicitor J. G. Leatherwood later told newspapermen the missing witness was a firearms expert from New York who had important testimony. He would not give the name of the witness.

## Local Credit Corporation Plans To Finance Farmers For Next Crop Of Section

Charter has just been issued to the Planters Agricultural Credit Corporation of this city which will function through the Federal Intermediate Credit Bank of Columbia, S. C., to make available money to farmers for the purpose of making their 1930 crop.

Under the plan this money will be loaned on crop liens and chattel mortgages, and would run for a period of about nine months or until the time that the 1930 crop is made. The organization, while chartered under state laws, was brought about through commission from the Federal government. The promoters of the Credit Corporation include F. M. Wooten, J. F. Harrington, C. W. Harvey, Dr. K. E. Pace, and others. Under the organization, F. M. Wooten is president, and J. B. King, secretary and treasurer.

In addition to funds already available through Federal Intermediate Credit bank the local corporation is seeking further funds from the government for use in this area, and in the interest of the plan Judge Wooten was in Washington City Monday to go over the matter with Senator Simmons and representatives of the Department of Agriculture and the Federal Farm Board.

There is a measure that would provide an emergency fund of \$6,000,000 for farmers in North Carolina, Virginia, South Carolina, Georgia and Alabama. In event the bill passes a good percent of the fund would be made available to the farmers of eastern Carolina through the Intermediate bank and the local corporation.

A telegram received last night by Judge Wooten from Senator Simmons indicating immediate action on the \$6,000,000 emergency loan follows:

"This afternoon together with Senator Smith of South Carolina and Senator George of Georgia I called on Secretary of Agriculture Hyde and discussed with him Senator Smith's bill providing for loan of \$6,000,000 to farmers in North Carolina, Virginia, South Carolina, Georgia and Alabama who are in financial distress by reason of the floods and rains of last year. Secretary Hyde advised us he strongly favored the bill and would recommend favorable action to the committee which meets tomorrow. It is expected bill will be reported favorably and acted upon by Senate at once. We also look up with Secretary Hyde the question of a meeting of tobacco growers and buyers together with representatives of banks and probably some fertilizer people to discuss reduction of acreage in tobacco with a view to controlling prospective surplus. It developed there is to be a meeting on Saturday January 18th at Florence South Carolina of bright belt tobacco growers and it is expected that the department of agriculture will be represented. It was also suggested that representatives of tobacco growers of North Carolina should attend that meeting and advocate resolution providing for a meeting of these interest for purpose of considering ways and means to bring about this desired reduction in production so as to prevent a surplus."

Since the receipt of Senator Simmons' telegram the Senate today adopted and sent to the House a joint resolution by Senator Smith to appropriate \$6,000,000 for relief of the farmers of the affected areas.

Washington, Jan. 17.—(AP)—The Senate today adopted and sent to the House a joint resolution by Senator Smith, Democrat, South Carolina to appropriate \$6,000,000 to be used this year as loans to farmers of southeastern states whose crops were damaged by floods in 1928 and 1929.

An attempt by Senator Harris, Democrat, Georgia, to obtain an increase of \$3,000,000 in the appropriation, was voted down when Senator McNary, of Oregon, assistant Republican leader, said that the department of agriculture had not approved that proposal.

The fund would aid farmers and fruit growers in Alabama, Florida, Georgia, North Carolina, South Carolina and Virginia. A similar amount was granted by Congress last year.

Washington, Jan. 17.—(AP)—The Senate's unheralded refusal to increase the present tariff rates on sugar was followed today by a terse prediction from Representative Garner of Texas, the House Democratic leader, that the House would back up this action if the Republican chiefs in that chamber would permit a vote on the question.

Garner estimated a ballot in the House would disclose a majority of between 50 and 75 members supporting the present rates as against higher rates originally approved by the House and those recommended by the senate finance committee.

"I am hoping we shall obtain a vote," he said. "I would like to see all Senate changes in the tariff bill approved. If we cannot have the House endorse all, then I hope we can have it approved as many as possible."

The Texan's announcement aroused immediate interest at the capitol. It was regarded in some quarters as indicating that he would attempt to line up all of the 165 Democratic votes for the Senate revisions, most of which have been effected by Senate Democrats in combination with independent Republicans.

Some foresaw that even if Garner were unable to obtain any Republican support that a militant Democratic minority would strengthen the hand of the Senate coalition at the conference table at which committees of the House and Senate will meet in an effort to compose differences between the two chambers.

Comment on the Senate action was not forthcoming from Republican House leaders. In its absence there was nothing but speculation over what course they might decide upon.

The House in sending the tariff bill to the Senate approved a rate of 240 cents per pound on Cuban sugar and a 3 cent rate on world sugar. The Senate finance committee recommended as a substitute tariffs of 220 on Cuban and 275 on that imported from other nations.

The Senate yesterday voted to maintain the present rates of 176 on Cuban and 220 on world sugar.

## Five Thousand Cops Fail to Receive Pay In City of Chicago

Chicago, Jan. 17.—(AP)—Yesterday was payday for Chicago's 5,000 policemen, but nothing was done about it. Today was payday for three thousand employees of the Board of Education, and ditto.

Office employees, civil service workers, engineers and miscellaneous workers were the ones who failed to receive checks.

Next Friday is payday for the teachers, and the school board is dubious about making salary payments to them. The reason of the board is the same as that in the case of the policemen: "Haven't got the money."

## HARRIS WINS LAND SUIT IN CIVIL COURT

### Controversy Over Small Piece of Land Near Greenville Was Completed Wed.

C. M. Harris won out over Larry McLawhorn in the land controversy completed in the civil term of Pitt county Superior court in this city yesterday. The suit involved a piece of land on the outskirts of Greenville which both parties contended rightfully belonged to them, but when it went to the jury after a day spent in the presentation of evidence, it was decided that Harris was the rightful owner.

Harris contended that he had bought the land from the Board of Education several years ago and that the deal was wrong in every sense of the word. McLawhorn, on the other hand, declared that the land was his by reason of a will by the grandparents of his wife.

A considerable amount of evidence was presented on both sides, and the fight was one of the most stubbornly contested of the entire session. Many of the most important cases on the calendar for today had been disposed of today and indications at the noon hour pointed to completion of several more before the day was over.

Judge Johnson has made every effort to speed up consideration and has received the hearty cooperation of court officers and members of the bar.

The present term will open Monday morning with Judge Johnson presiding. There are nearly two hundred cases on docket for the week, and something like two or three dozen charges to go before the six months' grand jury for consideration. The members of the grand jury come out of the county of larceny and embezzlement.

Several murder cases of interest to various parts of the county will come up for hearing during the week, as will several other actions involving violation of prohibition laws, assault, robbery, etc.

The most serious levee break of the year came late yesterday when Big Lake in Mississippi county Arkansas crashed through one of its major levees. The government engineers office here was advised that 170,000 acres of extremely fertile farm land had been inundated.

Residents of the section said none of the many villages in the area would be seriously affected although the land was covered with from two to three feet of water. They said the acreage would not be harmed if the water receded as rapidly as expected.

The crevasse was 500 feet wide and the lake started falling fast as the water poured through. If the water follows a natural course, it will flow southeast to the Koochizny levee and eventually find its way into the swollen St. Francis river.

The St. Francis continued to flood lowlands in the middle basin. Its companion stream, the White, was worrying engineers and threatening the important levees between Georgetown and DeWalls Bluff, Ark.

**Shoots His Wife, Dies From Grief**  
Los Angeles, Jan. 17.—(AP)—Municipal Judge Thomas Ambrose called the case of John McManus, 64, accused of shooting and seriously wounding his 29-year-old bride, Attorney Arthur C. Webb arose.

"Your Honor," said Webb, "my client is not here. He became grief stricken after the shooting and died."

## SEEK AID OF BORAH IN DRY LAW BATTLE

Washington, Jan. 17.—(AP)—Opponents of the Hoover plan for strengthening prohibition enforcement are awaiting some expression of opinion from Senator Borah of Idaho, and hope to gain his partial support at least in combating the administration's legislative program.

Borah is a leader among the "dry" a power in the Independent Republican faction of the Senate and an outspoken critic of present enforcement conditions. Thus far, he has made no comment on the recommendations of the chief executive or his law enforcement commission.

Although fully appreciating that Borah's support would be purely incidental so far as the senator himself is concerned, those who oppose the Hoover program pin their hopes of making him a valuable, if partial, ally upon two circumstances—the nature of his recent criticism of enforcement conditions and his habitual and insistent application of constitutional principles to all legislation.

They have been pointing out that the Idahoan's recent attacks have been very largely confined to a vigorous arraignment of the personnel with which enforcement is entrusted and of the administration of the Federal Industrial alcohol permit system.

To date the principle fault that has been found with Mr. Hoover's proposals has been that the suggested broadening of the powers of the United States commissioners to enable them to try minor violations of the "dry" laws may possibly be unconstitutional, or threaten an invasion of the constitutional right of trial by jury.

Where Borah is concerned they draw much encouragement from the fact that among those who have criticized this provision of the administration program is Senator Francis Adams, chairman of the people of Nebraska, the chairman of the must pass or the proposal, and a close associate of Borah in the Independent Republican group. Norris, too, is a "dry."

The present furor over prohibition, which reached a climax this week in Mr. Hoover's presentation of the commission's findings and the cry of speechmaking which greeted the Eighteenth Amendment's tenth birthday—including the introduction of two resolutions to destroy its validity—was precipitated by a statement that Borah issued on Christmas eve.

It was stated that a drastic and sweeping change of enforcement personnel "from top to bottom" was a necessity, and that unless such a shake-up was instituted, the Anti-Liquor laws could never be made effective. Later he said that a condition amounting to a scandal existed in the administration of the industrial alcohol permit system.

**State to Spend \$5,000,000 for Road Building**  
Raleigh, Jan. 17.—(AP)—The State Highway Commission during 1930 expects to spend about \$6,000,000 on road building and \$5,000,000 on maintenance and betterments.

A new bridge at Weldon over the Roanoke will cost \$250,000 and one at Elizabeth City over the Pasquotank will add another \$350,000.

## Opponents of Hoover Enforcement Program Seek Senator's Help in Fight

**Youth Named for Governor Gardner In State Prison**

Shelby, N. C.—(AP)—When Governor O. Max Gardner retires from office, he may have occasion to fill in his own name on a parole or pardon blank.

Max Gardner Connor, former high school athletic star, sent to state's prison last week by Judge A. M. Stack on a bad check charge, was named for the governor.

**Stanley Wilborne to Succeed Bailey**

Raleigh, Jan. 17.—(AP)—Stanley Wilborne, of Murfreesboro, will become a member of the State Corporation Commission to succeed I. M. Bailey, who resigned yesterday to become counsel to the body.

Gov. Gardner praised both men highly in a statement issued from his office. Mr. Bailey, who served as counsel before he was appointed to the commission to succeed A. J. Maxwell, will get a salary of \$7,500, which is \$2,000 more than he formerly got as counsel. Mr. Wilborne if he is designated securities commissioner, a position Mr. Bailey held, will get \$6,000.

**High Point Woman Killed by Auto**

High Point, Jan. 17.—(AP)—Mrs. T. F. Wrenn, wife of a wealthy furniture manufacturer, was almost instantly killed when struck by an automobile here shortly after noon today. She died within a few minutes at a local hospital.

Mrs. Wrenn was crossing the street in front of her home when struck by a delivery truck of the M. C. Idol Grocery company. Sam Montgomery, 16, driver of the truck, was arrested and was held while police investigated the accident. He is the son of F. E. Montgomery of High Point.

T. F. Wrenn is president of the Wrenn-Columbia Furniture Manufacturing company here.

## American Delegation To Five-Power Naval Confab Lands On English Soil

London, Jan. 17.—(AP)—The American delegation to the forthcoming naval conference reached London today and after a cordial welcome plunged rapidly into the preparatory work of the coming meeting.

Within less than an hour of his arrival Secretary of State Stimson was cosseted with Prime Minister Mac Donald. The American delegates first were welcomed at Plymouth were a picturesque ceremonial accompanied the greeting which the mayor extended. The Americans, debarked from the S. S. George Washington at the break of day.

The second welcome was at Paddington Station, London, where in a gray maze of a mild winter afternoon, Foreign Secretary Henderson, A. V. Alexander, the First Lord of the Admiralty, and other high government officials gave the capitol's welcome.

One of the first subjects the Americans discussed was the question of Mr. Mac Donald's statement to newspapermen on Tuesday. From the fragmentary reports which the American delegation received aboard their ship, the British prime minister was credited with saying that he intended to propose the abolition of battleships at the conference beginning Tuesday.

Secretary Stimson was able to learn that Mr. Mac Donald did not say that but stated that he expressed the British government's doubt of the value of battleships and the British hope that in due time battleships will cease to figure in fleets.

Plymouth, Eng., Jan. 17.—(AP)—The American delegation to the forthcoming London naval conference landed here at 8:30 today from the liner George Washington, which had brought them from New York.

The liner, seeking shelter from tumultuous seas which remained iron yesterday's 80-mile gale, anchored a mile nearer shore than usual.

A small naval tender went out before day break to bring the distinguished visitors to Plymouth for a short ceremony of welcome before being whisked to London aboard a special train.

Colonel Stimson and his conferees, Ambassador Morrow, Charles Francis Adams, secretary of the navy, and senators Reed and Robinson all appeared well and to have suffered no ill effects from the rough final day they spent aboard ship, their progress delayed by an eastern Atlantic storm.

Colonel Stimson declined to discuss matters which may arise at the conference. He said he hoped they would keep big fires at St. James Palace, where the conference reaches London shortly after noon. It is notorious for its poor heating arrangements.

**Former Congressman to Discuss Movement for Reduction of Taxes in N. C.**

Hallet S. Ward, prominent attorney of Washington, N. C., will speak at the court house in this city next Monday in behalf of reduction of taxes. The address will come during adjournment of criminal court at the noon hour and is expected to be heard by numbers of persons interested in the movement for lower taxes.

Mr. Ward launched his campaign with a speech in Washington several days ago, and from now on he will preach lower taxes until the burden has been lifted from the shoulders of the land owner and placed in other channels.

The announcement of Mr. Ward's coming to Greenville was made through A. B. Corey, well known local attorney, who will also take the stump in the near future in the interest of tax cut campaign.

Mr. Ward, a former congressman from this district, is probably one of the best informed men on the tax situation in this section of the state. He is a brilliant orator and his address is expected to attract hundreds of people interested in tax reduction question.

## SMOOT SEEKS INCREASE ON SUGAR TARIFF

Washington, Jan. 17.—(AP)—Chairman Smoot, of the Senate Finance committee, served notice in the Senate today that he had proposed an amendment to the tariff bill calling for an increase in the duty on Cuban sugar from 1.75 to 2 cents a pound.

The Utah senator said he would ask a vote on his proposal before the final roll call on the tariff bill and when asked by Senator Harrison, Democrat, Mississippi, why he did not ask for an immediate vote, replied he would "do so at the proper time."

The proposed increase to 2 cents a pound would be in the nature of a compromise between the present duty of 1.76 cents, approved yesterday by a senate vote of 48 to 38; to 2.20 cents originally recommended by the finance committee and the 2.40 cent rate carried in the house bill.

Calling attention to reports that a toast was drunk to the Senate at the Cuban Embassy yesterday after the senate vote, Smoot said: "No toast was drunk by the people in this country who are going to lose all under this tariff."

The committee chairman also criticized the statement issued by Grestes Ferrara, Cuban ambassador, which said the vote was the first step in the advancement of more intimate commercial relations between Cuba and the United States.

"The vote was for the same reason exists today," Senator Norris, Republican, Independent, Nebraska, one of those who voted for the Harrison substitute to retain existing sugar tariffs, observed that the embassy "toast" was on behalf of the "consumers" who are relieved of some \$54,000,000 burden.

Presumably the Nebraska referred to the toast drunk at the Cuban embassy yesterday when word reached there of the Senate vote to retain existing sugar tariffs.

"Sugar is the cheapest commodity the senator from Nebraska eats," Smoot retorted.

"Because it is cheap is no reason why I owe any thanks to the senator from Utah for trying to increase the present burden," the Nebraskan shot back.

Harrison asked Smoot why he did not call attention to the "innumerable editorials this morning commending the action of the Senate and the Utahian replied that he could produce many telegrams protesting against it, including some from farm organizations.

"The senator from Utah ought not to die so hard," the Mississippian said.

Raleigh, Jan. 18.—(AP)—Deaths in automobile accidents in North Carolina in 1929 totalled 690, an increase of 14 or two per cent over the 1928 total of 676.

A significant feature of the report of the motor vehicle bureau of the state department of revenue, which keeps auto death statistics, is that deaths actually decreased after the highway patrol started work in July but had shown an increase of 33 during the first six months.

There were 68 persons killed by auto accidents during December.

Jerusalem, Jan. 17.—(AP)—All shops, factories, and workshops closed, busses stopped, and public works were interrupted yesterday afternoon in the Jewish city of Tel-Aviv while the inhabitants protested against the city's being meatless for 23 days.

The condition was brought about by the government, after riots, prohibiting butchers the use of a prophylactic abattoir in the Jewish city while the butchers themselves refused to use an Arab abattoir in the city of Jaffa.

tain periods. Investigations have been undertaken by the Bureau of Standards, the Naval Research Laboratory, the General Electric Company, and Dr. G. W. Pickard of Newton Center, Mass., research associate of the Carnegie Institute on terrestrial magnetism.

Dr. Hazard expressed the opinion that the first broadcast of reception forecasts would be on short waves, and would not be made on an international basis.

## Movement Also Under Foot to Forecast Static Along With Weather Reports

Washington, Jan. 17. (AP)—Leading broadcasting engineers of the country today met with the Federal Radio Commission to see what can be done to reduce the interference which now harrasses thousands of listeners.

The conference, called by the commission, is the first concerted move of the year to improve broadcasting conditions. Outside of the excessive number of stations, the chief trouble, commission engineers said, is interference caused by stations in localities beyond their program service range. Improvement of operating technique was said to be the most feasible remedy for this situation.

Washington, Jan. 17. (AP)—Static, that bane of dial twisters the world over, is to be forecast.

Predictions, just like those for the weather, which would tell the radio listener what kind of reception to expect within a certain period, are now planned.

Prevalence of magnetic storms, which produce more or less serious static conditions, would be the basis for forecasts.

A proposal that reports of daily magnetic disturbances be transmitted on short waves along with the weather forecast and seismic activities is to be made next August at the Stockholm meeting of the section of terrestrial magnetism and electricity of the International Geophysical and Geographical Society.

Dr. D. L. Hazard, assistant chief of the division of terrestrial magnetism and seismology of the United States Coast and Geodetic Survey, so announced today.

Magnetic storms differ from rain, snow and wind storms which make themselves known physically. They rage just as ferociously, but their presence is not apparent to man until he either turns on his radio or uses other devices which detect their presence. Careful studies have determined that certain storms will affect signals differently on different wave lengths.

Researchers have concluded that fairly accurate forecasts can be made of such storms, accompanied by predictions of the kind of radio reception to be expected within cer-

## Head of Chicago Tells Senate Committee of Effort to Create a Monopoly

Washington, Jan. 17. (AP)—B. J. Grigsby, president of the Grigsby Gramox company of Chicago, testified before the Senate Interstate commerce committee today that the patent situation in the radio industry was becoming intolerable and that a combine was seeking to dominate the industry and create a monopoly.

Telling the committee as it continued hearings on the Couzens communications bill that his company, which produces Majestic sets, was licensed under patents of the General Electric company, the Westinghouse company, and the American Telephone and Telegraph company, Grigsby said:

"In the year and a half in which we have made radio sets, we have paid that monopoly \$5,302,879.15 in royalties." He added that had his company not been compelled to add this royalty to the manufacturing cost, the retail purchase of its sets would have been saved millions of dollars.

"We did not pay this royalty because we considered these patents worth such a royalty," he continued. "We did not believe we needed these patents, and none of them had been adjudicated. But the radio combine had so intimidated the industry and had so intimidated the dealers and jobbers everywhere, that they were afraid to handle what they called 'unlicensed' sets.

"Our bankers said they would not finance us unless we took out a license. They said they would not finance a patent fight against such a monopoly and there was nothing left for us to do but to sign the license agreement. The merits of the patents were never examined by the bankers. The merits of the patents had nothing to do with the case."

Smart Wear for Men

Social and Personal

J. M. Tripp, of Stokes, was here today. E. H. Bright, of Winterville, was Greenville visitor today.

On Friday evening, January 19th, Rev. A. J. Crane and Miss Bertha Mae Ward were married at the residence of Rev. J. N. H. Sumner.

There will be a C. A. R. meeting at the home of Miss Elizabeth Carr Saturday afternoon at 3:30 o'clock.

Rev. C. G. Wells, of Salisbury, will preach at the Immanuel Baptist church Sunday at both morning and evening services.

Dr. W. L. Davis, eye specialist, will be in Greenville again Monday January 20th, at Walters Jewelry Store.

Chapel Hill, Jan. 17.—(AP)—Weekly newspapers in North Carolina are more profitable than in any other state in the South Atlantic section.

North Carolina has earned approximately 51 per cent more profits per newspaper than the average in the South Atlantic states.

Mr. Moore recently prepared for the first nationwide survey of country weekly publishing in the United States in co-operation with the National Editorial Association's research bureau.

From an advertising standpoint, North Carolina should be a good field for national advertisers at the present, Mr. Moore opined.

Other speakers at the final session included T. D. Merrivether, manager of the Richmond and Winston-Salem offices of Ernst and Ernst, specialist in newspaper accounts, and Larry S. Kelly, of New York, chairman of the country newspaper department of the American Association of Advertising Agents and space buyer for H. K. McCann Company of New York.

Cardington, England, Jan. 17.—(AP)—The new giant British dirigible R-100 was back in its hangar today after a successful test flight of more than 12 hours during which its officers credited it with cruising at a potential speed greater than that of the Graf Zeppelin.

The ship's officers said their craft made 81.5 miles per hour, with 600 horsepower in reserve. They said the ship was steadier at a speed of 80 miles an hour.

Chapel Hill, Jan. 17.—(AP)—It's what the boys get out of the game, not the scores, that really counts, declares associate Justice Willis J. Brogden, of North Carolina.

"Scores do not make a successful season. It's whether the boys who play the game get this pride and capacity to master the tasks of everyday life, whatever they may be, that has built civilization."

Power Farming Very Popular. Power farming is becoming so popular that J. E. Winslow Co. Inc., the McCormick-Deering dealers, are giving a Power Farming entertainment on January 22 at Greenville.

Mr. M. L. Turnage, of the Turnage-Winslow Company, has worked out a very interesting program for the day, which includes, in addition to instructive talks on tractors, several reels of interesting and entertaining motion pictures.

Do not forget the date—every tractor owner should be there. Make your plans now and be on hand when the entertainment opens.

Camden, N. J., Jan. 17.—(AP)—Judge Joseph A. Corio, of Atlantic City, took the witness stand today in the trial of Gladys May Parks, charged with the murder of two children, and made a complete denial of the defendant's statement that he had slain one of the children.

Miss Parks, in one of her five statements made to Prosecutor Clifford A. Baldwin and read in court late yesterday, said that Corio came to her Camden home, saw Timothy Rogers, 2 years old, who was in her care and became so angry that he choked the child and then held his head under a faucet of running water. In four other statements, Miss Parks said the child had died after an accidental fall downstairs.

Burns Husband's Paintings. Congers, N. Y.—Sixty-one oil paintings unfinished by Arthur B. Burns, noted American artist, who died in October, 1928, have been burned by his widow because she did not consider them representative of his work.

Knute on the Beach. Miami, Fla.—The camera has caught Knute Rockne and son in bathing suits on the sand in the role of teacher and pupil. Are forward passes, tackling and the like being taught? No, indeed. The young idea with dad's cane has a golfer's stance.

Gunboat Used as Ferry. New Orleans.—The Union gunboat Chickasaw, which participated in the battle of Mobile Bay, is now an auto ferry. The discovery was made when she was drydocked recently at the Todd yards.

FIVE DEEDS OF TRANSFER SINCE MONDAY. The following deeds of transfer have been filed in the office of the register of deeds for registration since the report of the first of the week:

DON'T QUIT

Since the hard times have begun its rounds in our section we have been urging our people to break away from all this feeling of depression and settle down to real thinking and real work as the one and only way of solving the problems before us.

Captioned "Don't Quit," the poem reads:

"When things go wrong, as they sometimes will, When the road you're treading seems all uphill, When the funds are low and the debts are high, And you want to smile, but have to sigh,

When care is pressing you down a bit, Rest if you must—but don't you quit.

"Life is queer with its twists and turns, As everyone of us sometime learns, And many a failure turns about When he might have won had he stuck it out;

Don't give up, though the race seems slow, You may succeed with another blow.

"Often the goal is nearer than, It seems, to a faint and faltering man, Often the struggler has given up When he might have captured the victor's cup,

And he learned too late when the night slipped down, How close he was to the golden crown.

"Success is failure turned inside out, The silver tint of the clouds of doubt, And you never can tell how close you are, It may be near when it seems afar;

So stick to the fight when you're hardest hit, It's when things seem worst that you mustn't quit."

ABOUT TOWN

After being in effect in this country for ten years, prohibition is still a "bone of contention" among people of all classes in virtually every section of the country.

Some contend that the experiment has been a success, and there are others in an opposite school of thought who contended that it has not. But despite the varied opinions, the legislation is still effective and is being applied with telling effect in every hamlet and city of the nation.

It is true that the "dry" law will become effective until it is more stringently enforced, but it can be made to carry more teeth by making the consumer as guilty as the maker. Governor Richards, of South Carolina, expressed this opinion in opening the legislature the first of the week, and there are hundreds of other people who will agree with him.

The action of stockholders of a local bank setting aside its resources to assist farmers in the production of their next crop will be received with interest not only in this section, but in all other sections of the country where farmers have their problems as they do here.

It is appropriate indeed that the bankers should look out for the interests of the grower at this time when money is tight and conditions are far from normal. The average farmer is going to have a hard time providing for the next crop, but with liberality on the part of the banks in the way of loans they should be able to get their heads above the water and swim to the next season's harvest.

What this section needs at this time more than any other single thing is good, sound commonsense and a little more money than it already has, and we have not the slightest doubt in the world that they will be able to pull through in tip-top form. Timely loans, economical spending and the practice of thrift should work wonders in the next few months, and the farmer that is wise enough to combine each requisite will find the road much easier than it has been painted by calamity howlers trying to apply graveyard tactics before it is needed.

If members of the Salvation Army budget campaign committee do not reach you, you have been requested to confer with C. B. Rowlett at the Merchants Association or Herbert Waldrop at the Greenville Banking and Trust company. Either will be glad to take your subscription and will thank you for your effort to support the cause.

The drive has been handicapped on account of bad weather, but it is hoped to complete the desired sum during the week so that the local post may know what to do about the budget for the present year.

With the coming of the balmy days of spring, Greenville and Pitt county people will be turning their thoughts to wearing apparel in keeping with the season. It is the season of the year when people like to dress up. In fact, it is the flowering season, and people, like vegetation, desire to celebrate the mild temperatures by turning out in the best.

GIVES REASON FOR THRIFT WEEK OBSERVANCE

Editor Daily Reflector Greenville, N. C. Dear Mr. Editor: You, of course, are aware of Thrift Week, which begins January 17th, the birthday of Benjamin Franklin, America's greatest exponent of thrift, seven successive days have been set apart, and designated as days on which certain phases of thrift, and money management will be stressed.

This event in the form of Thrift Week, is sponsored by Young Men's Christian Associations, Building & Loan Associations, leading banking, fraternal, religious and professional organizations throughout the United States.

Thrift Week at this time is of particular importance to us, for the fact that we have been so hard-hit, by the damages done to, and shortness of our crops. Our attention has been forcibly drawn the past year to the ideas of thrift, economy and prudence, in our every day walk of life. There is no better time than now to adopt the slogan of "Save and Have."

In the writer's opinion he believes the Building and Loan Associations are of more importance, in creating thrift and economy and offer more advantages than any other institution. You will see from the following thrift days building and loan fits in more ways than any other institution.

Friday, January 17, is Thrift day—building and loan teaches thrift in its slogan of "Save and Have." Saturday, January 18, is Budget day—building and loan teaches systematic saving, thereby causes you to budget yourself.

Sunday, January 19, is share with others day—building and loans are mutual institutions, where members place their money to help one another.

Monday, January 20, is make a will day—Your intelligence directs this.

Tuesday, January 21, is own your own home day. This is the important day of all days in a Building and Loan Association. The principle feature of a Building and Loan Association is to see every member a home-owner. We realize the American home is the safe guard to American liberty.

Wednesday, January 22, is life insurance day—Building and Loan Associations boost life insurance, it pays the mortgage for the widow.

# SOUTH AFTER NEW MENTORS OF GRIDIRON

**By DILLON L. GRAHAM.**  
Associated Press Sports Writer  
Atlanta, Jan. 17.—The annual post season cry for new football coaches has begun at several colleges where the past gridiron year was unsuccessful and the prospects are that four new mentors will direct Southern conference teams next fall.

Alabama Polytechnic Institute, Mississippi Agricultural and Mechanical college, the University of the South and the University of Mississippi have accepted the resignations of their head coaches and are casting about for other leaders.

Announcement that Homer Hazel, former Rutgers star, would terminate his stay at the University of Mississippi on September 1 was made yesterday.

Hazel said his resignation "was prompted solely because of my loyalty to the students and alumni and the University of Mississippi and my unwillingness to afford in any way a cause for misunderstanding at Ole Miss."

"Chuck" Smaling, Stanford's battling fullback last season, has been signed as assistant coach at the Oxford school and will take up his duties in the fall.

After a series of set-backs at the hands of conference teams, Coach George Bohler of Alabama Polytechnic Institute at Auburn resigned in the midst of the past football season. John Floyd, former Vanderbilt athlete, was named acting head coach and piloted the Plainsmen throughout the remainder of the year.

Although the administration seemed pleased with Floyd's work it is known that Dr. Bradford Knapp, president, has conferred with Tom Lieb, first lieutenant to Knute Rockne at Notre Dame and other nationally-known coaches with a view toward obtaining their signatures to contracts at Auburn.

John Hancock, former Iowa sports star, for three years coach at Mississippi A. & M. college, resigned several days ago and President B. M. Walker has announced that he will recommend to the board of trustees at their June meeting the appointment of C. R. Noble, now an assistant coach.

The University of the South at Sewanee is understood to be dickering with Major John McEwan, deceased head coach at Oregon, and others to succeed W. H. Kirkpatrick, resigned football mentor.

Although Major Bob Neyland, who maneuvered Tennessee so successfully during the past two seasons, has finished his allotted time at the Knoxville school as commandant of the R. O. T. C. unit and head football coach, it is generally believed that arrangements will be worked out to allow him to return for another year or at least for the football season.

## Shires Says He Will Abide By What Landis Says

Chicago, Jan. 17.—(AP)—If Chick Arthur "The Great" Shires makes an agreement tomorrow with Commissioner Kenesaw M. Landis to quit the professional prize ring for baseball, he will lose approximately \$50,000, or one-fifth of the net he is aiming at.

Ever since the fighting White Sox first baseman attracted 18,000 customers at Boston recently "G" his fight with Al Spolner, he has been flooded with attractive offers of boxing matches. A Chicago promoter, presumably the Chicago Stadium, has offered him \$35,000 for two matches, while promoters in St. Louis, Boston, New York and Philadelphia want his services, swelling the financial inducements to \$50,000.

"I'll tell it to Judge Landis; he'll tell me what to do and I'll do it," said the great one in discussing his impending conference with baseball's high commissioner. "I think a lot of Judge Landis. He's a friend of mine and the advice he gives me is good enough for me."

There was every indication today that Commissioner Landis would merely give Shires a fatherly talk, advise him to make a humble apology to the White Sox for fighting with former manager "Tea" Blackburn and sign up at a reasonable figure for the 1930 campaign.

Harry Grabiner, secretary of the White Sox, has refused to comment on the case other than to say the club would be able to act when Shires was through with Landis.

## To Be No Let-up In Prohibition Fight in N. C.

Charlotte, Jan. 17.—(AP)—Associate Justice Heriot Clarkson, of North Carolina, asserts there is not going to be a let-up in the enforcement of the prohibition laws. The men and women who had the courage to put the prohibition law in the constitution and on the statute books have "the courage and determination to enforce them," he declared yesterday on the tenth anniversary of prohibition in an address before the Charlotte chapter of the Women's Christian Temperance union. He pledged his aid in seeing that the laws are enforced.

# FARMVILLE TO PLAY IN CAGE BATTLE HERE

The second game of the season in basketball is scheduled for the local high school gymnasium tonight when the Farmville Five will lock horns with the local ball tossers.

Farmville will be remembered as the runners up in the last year's conference tilt, and the team which gave us the hardest won victory of the year. They have several of their star players back this year and will strive to keep their record clean so as to be in line for the championship.

Greenville on the other hand has begun this year with an entirely new team, which is composed of scrappers from the bottom up. Several promising players have been declared ineligible on account of their scholastic standing, and yesterday one of our stars, Bullock, was disabled while practicing. However the home team will endeavor to give Farmville all she can handle.

A large crowd of rooters is expected to accompany the Farmville team and we hop there will be a still larger crowd of backers on the Greenville side.

The game is to start at 7:30 o'clock this evening at the Greenville High School Gym.

# POWER FARMING DAY

THE power farming idea is sweeping the country so rapidly these days that it is important for every farmer to get first hand information on this subject. It is the purpose of our big POWER FARMING DAY, January 22nd—to provide, in an interesting, entertaining way, facts that will prove helpful to present and prospective power farmers.

The men who will present these facts during our POWER FARMING DAY are experienced in tractor operation and upkeep. Their discussion and demonstration of power farming equipment methods will be worth money to every farmer who is interested in reducing production costs. And, remember, the whole party is FREE. Come early and be our guest for the day. There'll be a dandy FREE LUNCH AT NOON, and FREE MOVIES.

# DEMAND FOR SARGON BREAKS ALL RECORDS

Twenty-four Carloads in 25 Days in 27 States Is Amazing Record Recently Made by Celebrated Medicine — Overwhelming Demand the One Great Outstanding Proof of Its Merit — Rapidly Becoming Household Word Throughout America.

MOST medicines are sold by the dozen or by the gross. A few are sold in larger quantities, but think of a medicine that sells in such enormous quantities that wholesale dealers are forced to buy it in solid carload lots to supply a demand that has been so phenomenal as to almost stagger the imagination.

That's just what has happened with Sargon, the celebrated new medicine that is now sweeping the country like a great tidal wave. Not only is the trade buying it in carload lots, but they are buying carload after carload, each car containing over 20,000 bottles of Sargon and Sargon Soft Mass Pills.

Twenty-four carloads in 25 days sold in only 27 states is the amazing record recently made by these wonderful medicines.

In the State of California where Sargon was introduced in April of last year, it has required 20 carloads to supply the ever-increasing demand in this one state alone. Texas dealers required 9 carloads in only four months.

A single New York firm, with wholesale branches in leading cities is selling at the rate of over a Million and a Quarter bottles a year.

"Phenomenal and bewildering" is the way one of the big drug jobbers of the country describes the marvelous demand for Sargon.

"It's the greatest seller within the memory of the oldest members of our organization," said another.

"We are selling more Sargon than any other ten medicines put together," said still another.

And so it is everywhere Sargon has been introduced. Its leadership and its preeminence are unquestioned. Its enormous and ever-increasing popularity is the one great outstanding proof of its merit. No medicine, no matter how extensively advertised, could sell and continue to sell if it did not produce positive and actual results. Millions upon millions have used it and have told other millions what it has done for them. That is why Sargon and Sargon Soft Mass Pills have become the real sensation of the drug trade throughout America.

When this famous medicine was first given to the world, we knew authorities believed it would be a great boon to humanity, but they little dreamed it would become a household word throughout the country in so short a time.

Sargon may be obtained in Greenville at Warren Drug Co.

STOCK MARKET

New York, Jan. 17.—(AP)—Reactionary tendencies were quite pronounced in today's stock market, although prices did not break out of the narrow trading area within which they have been floundering since the turn of the year.
