

## THE WEATHER

Fair and probably colder to night; Friday fair with rising temperature in west portion; diminishing northerly winds.

## THREE DEATHS RESULT FROM COLD WEATHER

Mid-South in Grip of Zero Weather; Cold Wave Continues in the West

Atlanta, Jan. 23.—(AP)—Three deaths were chargeable today to the benumbing temperatures experienced in the mid-south with zero weather again penetrating Arkansas and depressing the mercury in the neighboring states of Mississippi and Louisiana.

The familiar forecast of fair and warmer was put out, but a layer of ice held snow on the ground in Arkansas, prevented the picking of late cotton throughout the area and in the opinion of the commissioner of agriculture damaged the Louisiana sugar cane crop to the extent of 25 to 30 per cent.

Alice Marie Gilliam, 5, was burned to death near Eldorado, Ark., when her clothing caught fire from an overheated stove while a 14-day-old infant of Mr. and Mrs. J. W. Towler, near Texarkana, Ark., and Sam Henry, an aged negro, of Little Rock died of exposure.

A reading of seven below zero was made at Fayetteville, Ark., with a ten inch snowfall on the ground and the mercury hovered just above zero at Natchitoches, an isolated town in central Louisiana. Traces of snowfall were in evidence as far south as Vicksburg, Miss. The unusual temperature of two degrees above freezing was reported on the balmly Gulf coast at Gulfport, Miss.

Ice sheathed roads coupled with sleet and a cold rain held up relief operations throughout the lower Mississippi valley where several hundred families are water bound by the floods of interior streams.

Chicago, Jan. 23.—(AP)—The cold wave hangs on.

The Rocky Mountain states and the southwest after a fortnight of it, have become resigned to sub-zero weather. In the middle west the cold wave has been unbroken for a week. Even Dixie Shivers, and the east was threatened today.

A 70 at Los Angeles, an 80 at Miami, a 78 at Tampa and a 66 at San Diego provided about all the warm reading the temperature chart had to offer yesterday. The Pacific coast states for the most part had temperate weather, the minus six at Spokane and the minus 10 at Walla Walla, Wash., being the only sub-zero records there.

Alaska, strangely basked in what it regarded as mild weather, with the temperature in some places just under 80 above.

There were exceptions. In Fort Smith, Ark., the reading of 10 above was 24 degrees below what the weather bureau regards as the seasonal normal.

Only one city in the group classified as "west central states" failed to report a below zero reading yesterday. That was Little Rock, Ark., and the drop there was to two above. Temperatures in the Dakotas were as low as 30 below, though the average in the middle west was 30 degrees higher.

The mountain states, which have been having "a spell of weather" for two weeks, continued cold, with the mercury around 26 below in Wyoming. Readings in Canada were much more temperate, with Calgary and Edmonton being on the plus side of the cipher.

The banks of the Wabash in Indiana and Illinois, were scenes of suffering with some relief for marooned families being afforded by airplanes and rescuers in boats. The severe cold, extending even to the southern reaches of the flood area, was proving an aid to rescue workers, some of whom were successful in getting through on sleds, but at the same time the cold added to the misery of those stranded by the flood waters.

A report from Mt. Carmel, on the side of the Wabash, said many persons in the bottom lands had scarcely enough food to last a week, and in some cases the food supply already was exhausted. A slight recession of the flood waters, was reported there.

In Chicago, where the cold has been continuous for a week, highways were open, but they were very icy, and the boulevards were black lines between high walls of snow.

## Concord Man Kills Himself When Wife Refuses to Return

Morganton, Jan. 23.—(AP)—When his wife, from whom he had been separated several weeks, declined to return to him, Fred Howard, of Concord, shot and killed himself here.

Leaving the home of his wife's aunt, where Mrs. Howard is visiting, yesterday, the young man entered his automobile, drew his pistol and fired a bullet through his heart.

The act followed an unsuccessful attempt at a reconciliation during which Howard is said to have threatened to take his life if his wife did not accompany him back to Concord.

## TOBACCO MEN WILL MEET IN CITY TONIGHT

Annual Meeting at Rotary Club at 6 O'clock; Market to Close Tomorrow

The annual meeting of the Tobacco Board of Trade of this city will be held at the Rotary club tonight at 6 o'clock. President J. S. Picklen will preside and a one-hundred per cent attendance was anticipated today.

The meeting is one of the most important gatherings of the tobaccoists of the year, in that it comes at the end of the season with problems of both the past and the future to be considered. The session tonight will be one of the outstanding of years in view of the unprecedented conditions which have faced the tobacco market this year because of the big decrease of the year's crop through heavy rainfall during the summer months.

As is customary, interesting talks will be made by prominent members of the industry, and numbers of facts having a direct bearing with the local situation are expected to be brought out.

The Greenville market will close for the season tomorrow at about twenty millions of pounds short of the record set last season. This decrease was brought about by the heavy rainfall that caused many planters to fall short of normal production. This had a telling effect on local sales, especially since the condition was confined to this community, and sales after the first week of the opening were much smaller than customary.

The market is expected to clear up quickly tomorrow and the voices of the auctioneers will ring down the curtain on one of the most unfavorable seasons in years, from the standpoint of volume.

## FILIPINOS AND WHITES CLASH IN CALIFORNIA

Several Filipinos Badly Beaten and Their Residences Wrecked in Disturbance

Watsonville, Cal., Jan. 23.—(AP)—A score of Filipinos were being guarded from possible violence in the city hall here today after a disturbance in which a mob approximately 600 whites, armed with clubs whips and firearms, wrecked the interiors of several Filipino residences and severely beat their occupants.

All available police, sheriffs deputies, state traffic officers and city firemen were called out to disperse the mob and rescue its victims. To prevent a renewal of hostilities, Sheriff Carl Abbott and his men remained here throughout the night.

Bitter feelings, which had its inception in labor problems, flamed into action at the use of white girls as dancing partners in a Filipino social club at Palm Beach, across the Pajaro river from here. Knots of white men gathered at street corners and joined in the march on the Filipino residences in South Watsonville. Bullets were fired through windows, accompanied by a hail of bricks, and the infuriated whites surged into the houses, dragging out the occupants.

At least twelve Filipinos were badly beaten and flogged by the mob, while others fled to rooftops and cellars in terror.

The arrival of police detachments was credited with having prevented possible killings and the firing of the dwellings. Chief of Police Robert Hastings warned the mob his men would fire on it if the disorder continued. The mob dispersed but only to form again in another section of town and repeat the attack.

Officers dispersed the second mob, however, before it did any damage. During the lull in the mob activity the police gathered up thirty Filipinos and took them in the city jail under guard. During the night several of these were spirited to the homes of friends.

## Delegates To London Conference Outline National Viewpoints

By BYRON PRICE  
Associated Press Staff Writer  
London, Jan. 23.—(AP)—Meeting in a friendly and helpful atmosphere, the delegates to the five-power naval conference outlined their national viewpoints briefly at the first working session today and then resumed their private conversations seeking solutions of the various outstanding problems before them.

France and Italy shared the spotlight at today's session which was held in the Queen Anne's drawing room of St. James' palace with the public excluded.

The conferees exchanged national viewpoints with the unsettled details of Anglo-American parity and many other vital topics thrust into the background while France outlined again her claim to a greater place in the naval world and Italy repeated her aspirations for parity with her French neighbor.

The representatives of all the participating governments, including the British dominions, spoke briefly. Henry L. Stimson, the American secretary of state, said that he would expand at the present time upon American naval needs as if well understood that the United States was looking to the conference for as much actual reduction as possible. The secretary said:

"After careful consideration and consultation with my colleagues I have decided not to make any statement today as to the naval requirements of America. I do not think that to do so would particularly assist our deliberations. These requirements are well understood. They have been cheerfully recognized by the nation which is our host, which has through its prime minister agreed with us that equality in naval power between us is the basis upon which we can best promote the beneficial purposes of this conference."

"We also believe that the requirements for national defense on the part of the various nations of the world are necessarily largely relative on the general condition of the world and therefore if this conference can find a way by which general reduction can be secured, our own navy can likewise be reduced."

"While this is our attitude we shall gladly listen to any statements which may be made by others as we are anxious fully and cordially to understand the difficulties and problems which may confront our sister nations and for ourselves I shall make a statement."

Prime Minister MacDonald, who acted as chairman, opened with a short, general statement and said afterward that the whole proceeding was most friendly. The session also completed its permanent organization and chose Sir Maurice Hankey as secretary-general. The session lasted but two hours.

"The meeting was most interesting," most informing and most friendly," said Prime Minister MacDonald later. "There was evident no hostile desire whatever on the part of the delegations to question one another."

The delegates went immediately from the palace to resumption of their many-sided conversations one of the most interesting of which was a meeting late this afternoon between the British, French and Italians, no date was set for the next full session but apparently none was planned this week.

Interest centered around the French and Italian addresses because of the emphasis placed on their viewpoints in the criss-cross of personal conferences recently. Premier Tardieu's address repeated several points made in the French memorandum of last December but in what was felt to be a hopeful and conciliatory spirit. The repeated France's need for a navy in view of her colonial expansion and touched by inference on the long held French desire for some international accord for security.

## DRIVER HELD RESPONSIBLE IN BUS WRECK

Coroner Makes Report On Accident That Claimed Lives of Ten People

Cleveland, Jan. 23.—(AP)—A finding of negligence on the part of a bus operator who drove himself and nine school children to death at a railroad crossing yesterday and a recommendation that the state compel employment of two men on all commercial and school buses were embodied in a report being prepared by Coroner A. J. Pearce today.

The coroner will not return a formal verdict until he has talked with John A. Han, 68, engineer at the throttle of a New York Central fast mail train when it struck the school bus at the nearby town of Berea and took the lives of all save one passenger. Han is due here tonight from Toledo on his regular run.

Pearce, however, said he was satisfied that lack of proper precautions by John Taylor, 38, the driver, caused the tragedy which raised Ohio's toll from bus wrecks to 20 dead and 30 injured in three weeks. The tracks at the crossing, although guarded by nothing more than the ordinary sign, are clearly visible for three miles and the weather was clear.

The coroner said employment of two men is "the only way to put a stop at once and for all to the many bus tragedies which have shocked the state recently." He said one of the men should be nothing but a driver. The other should alight at each crossing and look in both directions down the tracks before permitting the bus to proceed.

The Greenville market will close for the season tomorrow at about twenty millions of pounds short of the record set last season. This decrease was brought about by the heavy rainfall that caused many planters to fall short of normal production. ## Man and Woman Clubbed to Death at Georgia Home

Powersville, Ga., Jan. 23.—(AP)—Mr. and Mrs. Green Hartley, both 80, were found clubbed to death in their farm home near here early today. Officers said the house was in disorder and that robbery apparently was the motive for the attack.

A neighbor discovered the bodies in the hallway of the home when he went there to visit this morning. Both had been struck on the head. They were in their night clothes. The front door of the home was open.

Neighbors told officers that the bodies when he went there to visit this morning. Both had been struck on the head. They were in their night clothes. The front door of the home was open.

## NEGRESS SENT TO PRISON FOR SLAYING BABY

Ayden Negro Man Also Goes to Pen for Murder of His Wife During Holidays

Convicted of the murder of her new-born babe, Capitola Small, 24-year-old negro woman of the Grimesland community, was sentenced to not less than eight nor more than 12 years in the penitentiary by Judge Thomas L. Johnson, presiding over the criminal term of Pitt County Superior court in this city yesterday. The case, one of the most ruthless heard in the local courtroom in years, occupied a considerable part of the day's session, but a half dozen or more actions were disposed of that resulted in defendants finding their way either to the penitentiary or the roads.

The negroes, who is unmarried, was alleged to have slain the baby on a road near Grimesland some time last week. Holding the infant, only a few hours old, in her arms, the young mother was alleged to have choked the child to death by stuffing rags down its throat. The crime was discovered a short time later, and the woman was arrested and held in jail to await trial at this term of court.

Jess Long, colored, of the Ayden section, drew a sentence of not less than 20 nor more than 25 years in the penitentiary after being convicted of the murder of his wife. The killing occurred during the Christmas holidays, and according to testimony of the defendant, resulted from the woman "messing with another man." In an argument over her association with the other man, Long pulled his pistol and sent a single bullet through the head of his wife, producing almost instant death.

Cleo Williams, Martin county negro, held in connection with the death of Jesse Knox, of this county, was required to pay to Knox's wife and children the sum of \$12.50 a month during the remainder of 1930, and \$10 a month for a period of four years thereafter.

Knox came to his death while riding on the top of a truck load of furniture. The truck was driven by Williams and the accident occurred on the Bethel-Greenville highway, a short distance from Greenville. The truck collided with an automobile, and Knox was thrown to the pavement with such force that he died a short time later. Williams was held on a charge of reckless and careless driving and for not showing up when the sheriff investigated the case a short time after the accident.

William Hardee, colored man of Greenville, was found guilty of having more liquor in his possession than the law allows during these days of prohibition, and Judge Johnson sent him out to the county roads to spend a total of sixteen months in work and contemplation of the inadvisability of participating in the liquor traffic.

Van Johnson, charged with non-support, was required to pay to his dependents the sum of \$10.00 a week.

Judgment was suspended in the case of George Holloman, Greenville man, with a six months' suspended road sentence.

In order to dispose of as many cases of the congested docket as possible court was in session last night until 11 o'clock. Three or four cases were disposed of but Judge Johnson did not pronounce sentence, leaving this until later on during the week.

Washington, Jan. 23.—(AP)—To bring about "positive reforms which will decrease criminality" is the primary objective of the Hoover law enforcement commission as outlined by its chairman, George W. Wickersham.

Delivering a radio address last night, he said that prohibition was "only a part and not the most important part" of the commission's general problem, although it had devoted a great deal of its attention to the "dry" statutes.

"What is the crime wave so constantly spoken of in current discussions and why is it not more effectively dealt with?" he said was the first question the commission sought to answer. "Especially what are the difficulties found in the enforcement of the prohibition law, and what improvements may be suggested for speedy adoption, to remove the obstacles to the administration of this particular law?"

Al Stuck in Snow  
Tulsa, Okla.—Al Johnson was almost inclined to telephone Long and speak his mind to Will Rogers. Al's train got stuck in snow and he arrived in Tulsa a day late.

## A DANGEROUS MOVE.

Reports that in Georgia, South Carolina and even in some counties in our section farmers are planning increased acreage of tobacco this year are certainly disturbing and every effort should be made to turn the farmers from this course if the reports are true. With an overproduction during the past year, despite the shortage in this section, we believe that a bumper crop of tobacco throughout the three states next season will spell disaster for all. More feed and food crops and less cotton and tobacco acreage for this year is the safest way out for the farmers and business in general in our section, and it is to be hoped that such a plan of farming will be general in our section during 1930. Increased tobacco acreage this year would be a dangerous move indeed.

## A SEASON OF CLEAN POLITICS NEEDED

What North Carolina needs is a season of clean politics, which now seems rather remote.

This comes about from bitter sayings from the mouths of deep partisans. Every man who comes before the electorate for their suffrage should be judged by both the good and the bad in him. Yet such is not the case. We are prone to dig up every mean expression—sometimes with no basis of truth behind them—and circulate them against the other fellow, and say only the good about our own friend.

We frequently hear the charge of "dishonest politician," brought against some man, but some of the same fellows who make such charges should remember that there are plenty of voters just as dishonest.

Partianship, for or against, great principles which have been established for ages is not so bad. The trouble comes when men fight any man who happens not to be their special friend, right or wrong.—Williamston Enterprise.

## ABOUT TOWN

The meeting of forest fire wardens in this city yesterday resulted in plans for reducing loss by fire during the year, especially during the month of February the beginning of the forest fires in the great farm areas.

The wardens, representing several communities in this district, expressed opinion that they would be able to handle the situation better this year than ever before, providing, of course, they should

receive the co-operation of the majority of the people.  
The majority of forest fires are caused by burning undergrowth during that period prior to planting season when farmers are preparing their lands for cultivation. Unsuspecting growers leave the fires burning late into the evening, the sparks spread to other areas, and before anybody knows it considerable damage has been done.  
There is a situation that deserves the consideration of everybody and it is hoped farmers of Pitt county will be more cautious in the handling of fire this year and cut the annual loss through the burning of their timber lands.

Members of the Greenville Merchants Association last night heard one of the greatest credit experts of the country at a special session of the organization held at the Yum Yum Barbecue Palace, and today the majority know more about the credit problem than they knew before.

Mr. Caldwell, representing the National Retail Credit association, told the merchants of conditions existing over the nation and urged them to use more system in extending credit in the future.  
The discussion of this problem was very appropriate at this time, coming as it did during a period when the majority of merchants are uncertain what to do, and the expert held the rapt attention of his audience as he discussed the question.

There must be credit this year as always, but it must be conducted in such manner that the merchant will not come out the loser at the end of the year. Losses during past years from poor credit systems has proved the undoing of many a prosperous business concern and the organization that stays abreast of the time this year will be the one that uses care in extending credit.

Members of the Greenville Tobacco Board of Trade will meet in annual session at the Rotary club tonight, and in addition to election of officers, conditions affecting the tobacco industry at this time will be discussed at considerable length.

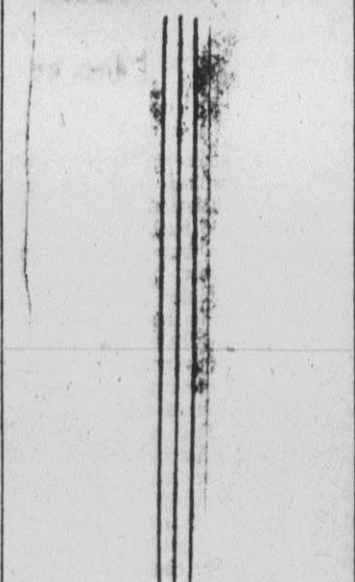

J. S. Picken is president of the tobacco board, and he guided the activities of the organization thru one of the most crucial periods in many a day in the season which comes to a close tomorrow. Greenville tobacco men have been up against many difficult situations in past years, but it has been a long time since they had to deal with a reduction of crops by rains that caused the market to fall short of twenty million pounds. It is a blow to the market, but most of all, it is a blow to the men who planted their usual acreage and saw the plants destroyed by an unprecedented rainfall.

The situation will be one of the topics of the meeting tonight, but instead of disheartening the tobaccoists, it will have a tendency of causing them to redouble their efforts to make next season measure up to expectation. And they will do it too, unless, the elements interfere as they did this year and bring about a condition over which we have no control.

The discovery of a cancer serum by Dr. John Humber, formerly of this city, and a colleague, which recently occurred at San Francisco, California, will be received with interest by Greenville people, and is another laurel which Greenville young men who have gone out into the world to seek their fortunes, have added unto themselves.

The discovery is regarded as one of the most important in the annals of medical science, and will give the originator a prominent place in the scientific world. Dr. Humber is a comparatively young man, but his achievements, in his profession rank him with men who have served much longer in the field of scientific research. He has a splendid career ahead of him in view of the prominence which the cancer serum discovery gives him, and the heights to which he will rise in the world

## Announce Method to Take Pain Out of Modern Dentistry

New York, Jan. 23.—(AP)—New methods of taking some of the painful experiences out of dentistry, by applying civil engineering principles to the mouth, were announced today at Cooper Union.

They are the result of three years research in the civil engineering department by Prof. R. C. Brumfield. Instead of working with pain killers, his research aims to reduce the breakage of dental work with its train of unhappy repetitions and complications.

He has taken the same engineering principles which assure the safety and long life of skyscrapers and reduced them to formulas for dentists to obtain similar margins of safety in delicate mouth structures. The dentists do not need to know engineering either.

Prof. Brumfield says this is the first time these engineering formulas have been made available to dentistry, and that the need is acute.

Some commonly used gold alloys, for example, are three times as strong as bridge steel. But, says Prof. Brumfield, while the engineer can foretell to within 10 per cent of the strength of his completed bridge, the dentist has been working with a guess-work margin of as much as 140 per cent.

Human jaws put stresses on teeth that are no mean cousins of bridge steel strains. For example, Prof. Brumfield cites dental work in which much of the support falls upon a tiny projection scarcely bigger than the head of a pin. The leverage stress on this point may equal thousands of pounds a square inch.

He cites also a 160-pound man who placed a crust of fresh bread between the jaws of a set of false teeth, laid the teeth upon the floor and stood upon them. The failed to bite through the crust. They did the job of real teeth only when he twisted upon them with his full weight of one heel. That grinding motion severed the crust.

The formulas are expected to help reduce weight and clumsiness in dental structures and facilitate choice of alloys with desirable properties. In fact, Prof. Brumfield says, bridge engineers' problems are simple compared with some of those of mouth engineering.

## FRIGID WAVE SWEEPS OVER THIS STATE

### Snow Flurries That Changed to a Cold Drizzle Greeted the Carolinas Today

Charlotte, Jan. 23.—(AP)— Snow flurries that changed to a cold drizzle greeted North Carolina today as a cold wave swept over the state, bringing temperatures hovering around the freezing point.

The northern part of the state awoke to find a thin blanket of white covering the ground while in the southern part snow flurries were intermingled with a chilly drizzle. Later in the day a chilly mist was general over the state.

No accidents were reported. Greensboro, Winston-Salem, Durham, Rocky Mount and Henderson reported light coverings of snow this morning, followed by rain with slight rising temperatures.

Charlotte, Salisbury, Hickory and Elizabeth City reported flurries of snow mixed with a drizzling and penetrating rain. Asheville reported a light snowfall and a temperature as low as 29 degrees.

In Greensboro, where about one inch of snow lay on the ground this morning, a drizzling rain began to fall with the temperature slowly rising.

Twin City citizens awoke to find a light snow, but later in the day it melted as a light rain began to fall.

Durham was sprayed with a half snow and half sleet that left a white blanket on roofs and lawns. Elizabeth City, Hockory and Salisbury, where a light snow fell during

## It Is Folly To Stay Fat

The proof is everywhere. In every circle you can see that excess fat is disappearing fast. Modern science has found a major cause of excess fat in a weakened gland. In late years, physicians the world over have been fighting that cause. They do not rely on starvation.

This modern method is embodied in Marmola prescription tablets. Each box contains the formula, as prepared by famous experts. People have used these tablets for 22 years—millions of boxes of them. Now nearly all have friends who show the results in new beauty, health and vigor.

Go try Marmola. Test the right way to reduce. The results will amaze and delight you. All druggists supply Marmola at \$1.00 box.

the night, were being visited with light rains today.  
Early morning readings of mercuries over the state showed that freezing weather was general. Most places, however, reported rising temperatures.

## Charge Man Was Fatally Gassed While in Jail

Raleigh, Jan. 23.—(AP)—Charges that Marvin Johnson, of Charlotte, was "fatally gassed" while confined in the Gastonia jail last June are contained in a workmen's compensation claim filed here for Johnson's mother.

The claim alleges that Johnson was injured when "some unknown person" threw tear bombs and bombs of various kinds into the jail on a "fake" charge in order that he might find out all he could about the Aderholt defendant.

Advices last night from Gastonia were to the effect that Solicitor Carpenter said he did not know anything about Johnson except that he was confined to either the city or county jail a few months ago. That any "gas attack" was made in an effort to "extricate" persons held in connection with the Aderholt slay emphatically was denied.

Gastonia, Jan. 23.—(AP)—Chief of Police Carl Elliott today said no man by the name of Johnson had

been held in the city jail here during the past year.

A complete search of the records was made today after it was learned that the mother of one Marvin Johnson, of Charlotte, had filed claim at Raleigh under the workmen's compensation act alleging her son died from tear gas released in the Gastonia city jail June 27. She said Johnson had been hired to spy on alleged communists held in the jail.

Chief Elliott asserted that no prisoners had ever been subjected to tear gas and that no mob had ever attempted to take anybody out of the jail. Some time in June, he said, tear gas was released in the police department's shower room by a manufacturer's representative here to sell the city tear gas bombs. It was not released in the jail, he said, and only slight amounts of it were detected throughout the city hall building.

## Tourists Rescued From Grounded Ship

Buenos Aires, Jan. 23.—(AP)— More than 400 tourists from Buenos Aires were safe today aboard the Argentine war transport Vicente Fidel Lopez off the bleak shores of Tierra Del Fuego after the grounding of their ship, the Monte Cervantes, earlier on a rock in the straits of Magellan.

The Monte Cervantes, which has

a German tramp designation and is owned by the Hamburg-South American line, went aground on one of the channels through which Magellan sailed on the first circumnavigation of the globe.

While at first some fear was held for those aboard the Argentine war transport was standing by to help. Still later it was learned the passengers and crew had taken to the ship's boats and had been transferred to the transport safely. There were no casualties.

Only the officers remained aboard

It was impossible to predict the fate of the steamer; nearby radio stations tried unsuccessfully to communicate with her as other vessels hurried toward the spot.

Knoll to Manage Ft. Wayne  
Bloomington, Jan. 23.—(AP)—Charles (Punch) Knoll, manager of three eye and Michigan-Ontario league baseball clubs, has signed to manage the Ft. Wayne, Ind., team of the Central league, next season.

## BEWARE THE COUGH FROM COLDS THAT HANG ON

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing

elements which soothe and heal the inflamed membranes and stop the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)

## CREOMULSION FOR THE COUGH FROM COLDS THAT HANG ON

**"NATURE NEVER HINTS in vain"**  
*(John Greenleaf Whittier, 1807-1892)*

**AVOID THAT FUTURE SHADOW\***

By refraining from over-indulgence, if you would maintain the modern figure of fashion

The bewitching charm of soft, flattering curves... the lure of a graceful, modern figure... don't spoil it by permitting your eyes to be bigger than your stomach. Be moderate—be moderate in all things, even in smoking. Eat healthfully but not immoderately. Over-indulgence is not commended—when tempted to over-indulge, when your eyes are bigger than your stomach, reach for a **Lucky** instead. Coming events cast their shadows before. Avoid that future shadow by avoiding over-indulgence if you would maintain that modern, enchantingly-rounded figure.

**Lucky Strike**, the finest Cigarette you ever smoked, made of the finest tobacco—The Cream of the Crop—"IT'S TOASTED." Everyone knows that heat purifies and so "TOASTING" not only removes impurities but adds to the flavor and improves the taste.

**"Coming events cast their shadows before"**

**"It's toasted"**

\*Be Moderate!... Don't jeopardize the modern form by drastic diets, harmful reducing girdles, fake reducing tablets of other quack "anti-fat" remedies condemned by the Medical profession! Millions of dollars each year are wasted on these ridiculous and dangerous nostrums. Be Sensible! Be Moderate! We do not represent that smoking **Lucky Strike** Cigarettes will bring modern figures or cause the reduction of flesh. We do declare that when tempted to do yourself too well, if you will "Reach for a **Lucky**" instead, you will thus avoid over-indulgence in things that cause excess weight and, by avoiding over-indulgence, maintain a modern, graceful form.

# Social and Personal

Mr. and Mrs. F. A. Jones and small daughter just returned from Suffolk, Va., attending the illness and funeral of Mr. Jones' brother, M. B. Austin, whose illness was of very short duration.

J. H. Blount left today for Richmond, Va.

Mrs. C. C. Dawson is visiting Rev. and Mrs. Worth Wicker in Belhaven.

J. R. Galloway, of Winterville, was a Greenville visitor today.

## MRS. GRAHAM HOSTESS TO WOMAN'S CLUB

Mrs. S. N. Graham was gracious hostess to the Literary department of the Woman's Club Tuesday afternoon, entertaining at the club building.

The study for the afternoon, "England's Contribution to Modern Drama," was in charge of Miss Hyman. She gave a very interesting talk on the British dramatists Henry Arthur Jones and Arthur Wing Pipher, to whom the beginning of the present day conception of dramatic art is credited.

The chief characteristics of Pivers as a playwright are first, his absorption in craftsmanship or tools; second, his superiority in characterization over thought presentation; and third, his application of literary standards to the theatre.

Selections from the problem plays "The Second Mrs. Tangueroy," by Pinerio and "Michael and His Lost Angel," by Jones, were rendered in a very dramatic and forceful manner by Miss Hyman.

At the conclusion of the program delectable refreshments were served by Misses Mary Woolard and Bertie Elise Arnold.

## Attend Merchants Meeting.

G. W. Hood, of Goldsboro; J. B. Turnage and G. W. Prescott, of Ayden, attended the quarterly meeting of the Merchants Association last night.

## Round Table Club Entertained.

Mrs. W. B. Tighman was hostess to the members of the Round Table club on Tuesday afternoon at her home on Evans street.

The meeting was called to order by the president, Mrs. J. E. Winslow. Then came the roll call, each member responding with an outstanding current event. Following the business session, the president named the following committees:

Nominating committee, Mrs. E. B. Higgins; Mrs. W. B. Tighman; program committee, Mrs. E. W. Griffin; Mrs. R. L. Smith, Mrs. A. Person.

The program for the afternoon was in charge of Mrs. Luther Herring, whose subject was "Pulitzer Novels—1928-1929."

With her subject well in hand, Mrs. Herring presented in a masterly manner a review of the two novels which won the Pulitzer prize of one thousand dollars in 1928-29.

For the year 1928 Thornton Wilder's book, "The Bridge of San Luis Rey" received the prize. The book immediately upon its appearance became a best seller, one hundred thousand copies sold at \$2.50 within less than a year.

The Pulitzer prize of one thousand dollars went to Mrs. Julia Peterson in 1929 for her novel "Scarlet Sister Mary." In this book Mrs. Peterson has presented a true picture of one phase of American life.

Many of the characters are the black people whom she sees, and talks with daily on her plantation in South Carolina. Their thought and speech and action have been absorbed by her and thus she is able to write so graphically and intensely of them.

Following the program, the hostess assisted by her sister, Mrs. T. A. Person, served a delicious frozen salad course.

## Farmville P. T. A. Meets.

Farmville, Jan. 23.—The January meeting of the Parent-Teacher Association was held this week in P. T. A. Hall with about 300 members and guests present.

The business session was preceded by a beautiful play, "The Queen of Hearts," in which the following members of the principal parts: Misses Frances Joyner, Mary Friar Rouse, Billy Parker, Cecil Winstead, Dalton Taylor, B. O. Turnage, and Harold Hardy, with a sprightly chorus in heart costumes of red and white.

## Fourth-A Class Meets.

The Fourth-A Class of Jarvis Memorial Sunday school met Tuesday afternoon with Miss Nina Cherry James at her home on East Fifth street. After roll call and minutes, officers were elected as follows:

President, Miss Jane Ruffin; vice-president, Miss Mabel Beaman; secretary and treasurer, Miss Nina James; assistant secretary and treasurer, Miss Marjorie Spivey.

All members were present, and after the business the teacher, Mrs. Oscar White turned the meeting over to the hostess who had several games and contests.

Miss Helen Perkins was the recipient of a box of Valentines in a word contest. Miss Virginia Tyndall, guessing the nearest to the number of cranberries in a jar, received chewing gum, and Miss Mabel Beaman, pinning the arrow nearest the center of the target, was presented Hershey's chocolate.

After enjoying cakes and punch and salted peanuts, the class disbanded, declaring the afternoon a most happy one.

## Tuesday Afternoon Club.

Farmville, Jan. 23.—Mrs. Edward Jones delightfully entertained her bridge club on Tuesday afternoon at her apartment on Church street.

Tables were arranged for playing in the living room where bowls of flowers were used as decorations. A delicious salad course was served after the cards were removed, and the high score prize was awarded to Mrs. W. M. Willis, and the consolation to Mrs. George Holston.

Mrs. W. M. Willis, and the consolation to Mrs. George Holston. Mesdames W. Leslie Smith, R. A. Thornton and Mrs. W. C. Holston were special guests.

## Literary Club Meets.

Farmville, Jan. 23.—The first meeting of the new year of the Farmville Literary Club was held with Mrs. J. Y. McKnight this week. A variety of cut flowers filled vases in the large living room.

Mrs. E. C. Beaman read the New Year message of the State Federation president, Mrs. Land, from the Bulletin. Mrs. W. C. Askew discussed George Bernard Shaw, his life and personality. Mrs. Claude Barrett had prepared an interesting paper on the theme, the characters, and the structure of "Candida," one of Shaw's plays of social criticism.

A legislative committee composed of the president, Mrs. J. W. Parker, Mrs. W. C. Askew and Miss Annie Perkins, was appointed to draw up laws concerning matters of interest to the club, and letters of thanks for Christmas gifts were read from Oteen veterans. A delightful sweet course was served after the program.

## Entertains Card Club.

Farmville, Jan. 23.—With Mrs. J. N. Gregory as hostess at her home on Church street, the members of the Progressive Bridge Club held a delightful meeting on Monday afternoon. In a setting of beautiful flowers the tables were placed for the series of games, now being played by this club.

Mrs. R. H. Knott, who was recently elected as a new member, won high score for the afternoon.

A delectable salad course was served by the hostess after six progressions. Mrs. H. P. Mosley, of Goldsboro, was a special guest at this time.

## MRS. E. T. ROBESON'S PLAY TO BE GIVEN AT COLLEGE AUDITORIUM

A play, "Disposing of Mary," written by Mrs. E. T. Robeson, will be given in the old auditorium at the college Tuesday evening at 8:30. This play is sponsored by the End of the Century club and coached by Miss Emma L. Hooper, member of the college faculty. It was accepted over ten others that were sent to Chapel Hill for approval.

A synopsis of the play follows: Mary's mother has just died and left her dependent on her two brothers and their wives. Mary is very dependent, for she has waited on her mother all of her life. Her mother came from one of the best of old Southern families and never could adjust herself to modern ways. In fact, she never could do without her maid and as the slaves were freed and those that had staved, on had died, why she just naturally made a slave of Mary. But now mother was dead, and Mary had to be taken care of. Although she spent her entire life helping others, still she knew nothing that she could do to help herself.

Her oldest brother, Robert, would really like to take her, but his wife was a business woman and did not care to have anyone else in the home. He had always been dominated by a woman, first his mother, now his wife, so he dared not say positively that he would take Mary. Telfaire, the younger brother, had been spoiled by the mother, she had made both the others give up to him. Still in a way she dominated him also, but he had met his match in a modern wife. This wife was just positive she would not interfere with her gay life by having an old maid sister-in-law on her hands. The mother has left a will which changes the attitude of all concerned, and Mary works out her own salvation. Just you come and see how she does it.

This play is given for the benefit of the library and the public is urged to assist in every way possible.

## New Style Deere

Paris—Advance glimpses at spring styles show that waists will be less in circumference and shoulders broader.

## Power Farming Entertainment Big Success Day

If the attendance and interest displayed at the Power Farming entertainment, held yesterday at J. E. Winslow and Company is any indication of the interest the practical farmer has in modern farming methods, it shows that power farming is here to stay and is growing rapidly. All who attended the entertainment were very well satisfied in every respect. They were given a better idea of what power farming really means to the modern farmer. The experience of local tractor owners has been such as to greatly increase power farming in this community.

The subject is certainly a timely one in this section of the state. There are many new tractor owners and many old ones who are anxious to keep their machines in first class operating condition because they realize that only with the tractor are they able to make the best use and take the greatest advantage of favorable days. They know that with the tractor they can accomplish three or four times as much as with any other kind of power. They are able to get their crops in on time and farm them better and obtain greater returns than has been done in the past.

The women who attended the entertainment were likewise happily entertained. They enjoyed the entertainment on gas engine upkeep, as women are very anxious to know what is going on in the car they are driving.

The motion pictures brought very favorable comments from all present as well as did the general talks on power farming. We wish to assure the McCormick-Deering dealer, J. E. Winslow & Co., and the International Harvester Company that if a similar entertainment is held next year, we believe the attendance will be much larger as we have heard nothing but words of praise from all who attended the entertainment.

There were something like 150 farmers in attendance, and aside from being treated to the pictures at White's Theatre, were served a barbecue dinner in the Sunday school rooms of Jarvis Memorial Methodist church.

## Judge Johnson Speaks to Rotes At Farmville

Farmville, Jan. 22.—A 100 per cent attendance was noted at the Rotary meeting on Tuesday evening, when Judge Johnson of Lumberton, Clerk of Court Frank Harrington of Greenville, and Dr. Harrell, local Methodist minister, were distinguished guests of the local club.

Judge Johnson made a splendid talk on the advantages and resources of the state, of the invasion of Communism and the present industrial situation. Mr. Harrington and Dr. Harrell were introduced and made short talk.

## Lions Meet At Farmville

Farmville, Jan. 22.—Farmville's latest civic organization, the Lions Club, composed of the young men and several of the younger married men of the town, met in regular session this week in the basement of the Christian church, when a friend chicken supper was enjoyed and much merriment afforded the members of several stunts, one of which was a food cramming contest easily won by Lion Lilly.

Popular and old time songs were sung with Miss Evelyn Horton at the piano.

## Swine Specialist Speaks at Fountain

On Thursday night, Jan. 16, the Vocational Agriculture Department held one of its regular meetings for the farmers of the school district. The topic for discussion was "Feeding Hogs." Mr. W. W. Shay, state swine extension specialist, from State College, was the speaker of the evening.

His speech was based on feeding and breeding swine for market. Mr. Shay said that there was money in raising hogs for market, provided the farmer raised his feed but otherwise, there is no profit in raising hogs.

Mr. Shay presented a chart showing the prices for hogs over a number of years and the best months to sell hogs. The chart shows that the prices are always highest in April and September.

Mr. E. F. Arnold, county agent, was present at the meeting. Mr. Arnold also made a few announcements about the creamery route that he has started through Pitt county, and the car-lot shipments of poultry that is being shipped this week at various points in the county.

Mr. L. O. Armstrong, professor at State College, was also present at the meeting and made a few interesting remarks. There were 23 farmers present at the meeting.

The next meeting will be held Tuesday night, Jan. 23, and the topic for discussion will be "Fertilizers." Mr. J. S. Howard will be the speaker for the evening.

## Taft Takes Two More Auto Rides During Snowfall

Asheville, Jan. 23.—(AP)—Two more automobile rides in the snow were on the program of Chief Justice William H. Taft today, it was announced this morning at Grove Park Inn, where the ex-president is convalescing from his recent illness.

Mr. Taft has been at the Inn a week and has gone for one or more auto rides each day since his arrival. Physicians say there has been no break in the improvement manifest in his general improvement.

## Standard Oil Service Men Enjoy Dinner

On Wednesday evening, January 22, the service station supervisor of the Standard Oil Company of New Jersey invited the entire service station personnel throughout the Greenville district to Greenville to participate in a dinner. The operators from all parts of the territory gathered at the bulk plant of the Standard Oil Co., and proceeded to the tea room about nine o'clock, where they found two tables gorgeously laden with many beautiful and delicious things to eat. A total of 25 were present, and all were filled to overflowing.

After dinner, P. A. Mixen, the supervisor, made an interesting talk on "Co-operation," which was followed by short talks by W. S. Smith, service station superintendent, of Norfolk, Va., and J. B. Brockett, of the P. & T. department, Norfolk, and F. A. Jones, district manager, of Greenville. After this the operators were asked to exchange a few opinions and ideas, which were heard with much interest.

The honorary guests were Messrs. W. S. Smith, J. B. Brockett, Norfolk, Va., F. A. Jones and E. T. Smith, of Greenville.—Reported.

## Judge Johnson Speaks to Rotes At Farmville

Farmville, Jan. 22.—A 100 per cent attendance was noted at the Rotary meeting on Tuesday evening, when Judge Johnson of Lumberton, Clerk of Court Frank Harrington of Greenville, and Dr. Harrell, local Methodist minister, were distinguished guests of the local club.

Judge Johnson made a splendid talk on the advantages and resources of the state, of the invasion of Communism and the present industrial situation. Mr. Harrington and Dr. Harrell were introduced and made short talk.

A chicken dinner was another feature of the regular weekly meeting.

## Lions Meet At Farmville

Farmville, Jan. 22.—Farmville's latest civic organization, the Lions Club, composed of the young men and several of the younger married men of the town, met in regular session this week in the basement of the Christian church, when a friend chicken supper was enjoyed and much merriment afforded the members of several stunts, one of which was a food cramming contest easily won by Lion Lilly.

Popular and old time songs were sung with Miss Evelyn Horton at the piano.

## Fountain Girls Win From Ayden

On Tuesday night, January 21, the girls team of Fountain High School played its first game of basketball of the season with Ayden. The game was played in Ayden's new high school gymnasium. We are pleased with the hard playing and the good sportsmanship which was displayed at this game of ball.

Lewis, our right forward, scored the most points. The guards also did some splendid work. Our jumping center played the tips well.

At the close of the 1st half of the game the score was 12 to 9 in favor of Fountain. The Ayden girls then started playing harder and ran the score one point ahead of Fountain. At the beginning of the last minute of the game the clookers became enthused and the playing got a little rough. Fountain made two goals during the last half minute making the score 17 to 14 in the Fountain girls favor.

About 150 people saw the game. A return game will be played February 4.

## Take Advantage of New Marketing Plan In This Territory

(By C. C. HILTON)

Considering the short crop of cotton that was produced in Pitt county during the past season the farmers and supply merchants have taken advantage of the new co-operative marketing plan in a very fine way. Between 30 and 35 per cent of Pitt county's 1929 crop will be marketed co-operatively, and in some sections of the county as much as 75 per cent of the crop will be sold this way. This goes to disprove the idea that some people have, that you cannot organize the farmers. The idea that a farmer is just a farmer is a thing of the past, and on the contrary, he is being considered as a business man just the same as our merchants and bankers are considered business men and when you give the farmer a chance to organize under a sane and valid organization a great many of them are going to take advantage of it.

We are not only seeing the business policies adopted by the farmers in selling cotton through their own organization, we are seeing big progress made along this line in the work that is being done by our county department of agriculture through the guidance of the county agent. An unestimated value has been brought to Pitt county during the past few years in the way of better business policies that have

## Only Medicine To Benefit Me

"How I wish I could tell every suffering woman in the world what this wonderful new Sargon has done for me! For five years I suffered with stomach troubles and it seemed

impossible for me to eat anything without having indigestion. My liver was badly disordered, my color was unhealthy looking and I had miserable dizzy spells and raging headaches. I lost weight and became so weak and rundown I could not do my housework; and I didn't seem to get any benefit at all from the medicines I was taking.

"Since I started the Sargon treatment, only a few weeks ago, I haven't had a trace of stomach trouble or indigestion. I've actually gained eight pounds and have so much strength I do my own housework and a big family washing besides. My nerves are better and I enjoy wonderful sleep.

"Sargon Pills reconditioned my liver so that my skin has cleared up just fine and my headaches and dizzy spells are a thing of the past. I'll always have a good word for Sargon!"—Mrs. Eva Dendy, 32 Blake St., Greenville.

Sargon may be obtained in Greenville at the Warren Drug Co.—(Adv.)

MRS. EVA DENDY

been adopted on many of our farms. The planting of pure bred and quality seed, the marketing of poultry and hogs co-operatively and the changes that are being made from a one or two crop system to a more diversified type of farming are some of the more important steps that are being made in Pitt county. We still have a lot of progress to be made along this line, but during the next few years we are going to see big progress made because our farmers are applying more business to farming.

## COLORFUL PLAID BLANKETS

A Splendid Blanket of Part Wool with China Cotton 57 1/2" x 80" large size, 70x80 inches 57 1/2" x 80" a real value at \$2.98 a pair.

\$2.98

A contract with the mill when business was slow made this exceptional value possible. These large size fleecy blankets of sturdy quality . . . made of selected small part wool and finest grade China cotton and bound with saten ribbon . . . give you warmth and just enough weight. Come in large block patterns and also broken plaids . . . assorted popular colors. You can use them and can also afford . . . several pairs at this price.

## DOUBLE THREAD TERRY TOWELS

A remarkable value made possible because we bought millions of these towels!

# 15¢

Just think of buying millions of bath towels . . . what a stack it would make! But we have to buy that many in order to satisfy the needs of those who have discovered what really exceptional values these towels are! Another thing, because we do buy so many, we secure a much better quality than one would expect to find in a 15¢ towel! These are of firmly woven double-thread terry cloth in plain white, solid colors, or colored stripe borders. 18 x 36 inches.

WE Believe We Are Right In Thinking That . . . the best a store can do is to be honest with the public. By avoiding the absurd use of comparative prices . . . by admitting we haven't a monopoly on quality merchandise . . . by concentrating our efforts on two important thoughts . . . Service and Value . . . we have won the confidence of countless families and are gaining the good will of new shoppers every day.

To serve your wants intelligently, efficiently and sympathetically . . . to bring you the quality you want at prices that are right . . . to be sincere . . . is the watchword of every J. C. Penney Store.

Won't you stop in the very next time you're downtown and see how we strive to make our merchandise fashion-correct, quality-certain and fairly priced?

# J.C. PENNEY CO. INC.

# Market Report Cotton--Stocks--Grain

## COTTON MARKET

New York, Jan. 23.—(AP)—Cotton opened steady today at an advance of 2 to 7 points with active minutes selling about 2 to 9 points net higher during the first few minutes on the trade buying and covering. The latter may have been promoted by the report of the census bureau showing 14,187,779 bales ginned prior to January 16th compare with 13,888,972 to the same date last year. These figures were about in line with expectations, however, and while they attracted some bullish comment in connection with recent unfavorable weather for saving cotton left in the field, they evidently failed to stimulate any general buying. Very little southern selling was in evidence but there was some selling here against purchases in New Orleans and Liverpool apparently, and after the advance to 17.47 for March, prices reacted under liquidation. The market was only moderately active with prices showing net declines of about 2 to 4 points at the end of the first half hour.

## GRAIN MARKET

Chicago, Jan. 23.—(AP)—By a sudden let up in Transatlantic demand for wheat from North America the wheat market here went downward most of the time today. Total export purchases of what today in the United States and Canada were only about 200,000 bushels compared with 2,500,000 bushels yesterday, nevertheless, the export bases for domestic wheat at the Gulf of Mexico remained firm today at the best premiums of the season.

Wheat closed nervous 5-8c to 1c a bushel lower than yesterday's finish. Corn closed 5-8c to 13.8c off. Oats 1-8 to 1.4c off and provisions varying from 5c setback to a shade advance.

## STOCK MARKET

New York, Jan. 23.—(AP)—For the first time this year the stock market today showed strong indications of breaking out of the narrow trading area within which it has been fluctuating on the up-side. Improvement in speculative sentiment, which led to a resumption of pool activities in many issues, was based on merger rumors, predictions that steel operations would be stepped up to 90 per cent of capacity before March 1 and reports that powerful speculative interests were back in the market with large buying orders.

The disappointment shown by the failure of the Bank of England to reduce its discount rate was short-lived, as the market quickly gathered headway under the leadership of U. S. Steel common, which crossed 173 for a gain of about 3 points. Bethlehem recorded a similar gain in expectation of favorable annual report after the close of today's market, and ab risk demand also was apparent for Superior and Yonahdunn Steels in which special developments are reported to be pending.

Another favorable factor was an unconfirmed rumor that William Fox had agreed with counsel for minority stock interests and creditors to accept a trusteeship for his theatrical enterprises on the withdrawal of receivership proceedings. Fox Film, in which large short interest had been built up, was run up 11 1-4 points to 24, more than double the low of 16 7-8 of a few weeks ago.

Strength of the Advance Rumely issues, the preferred soaring more than 7 points and the common 3, was based on unconfirmed reports that merger negotiations were now pending, with Allis Chalmers, J. I. Case, International Harvester and the Oliver Farm Implement issues advanced 2 to 5 points.

Air Reduction, International Combustion preferred, Underwood, Elliott Fisher, Eastman Kodak and New York & Harlem sold 4 to 6 points higher, and among the many issues to show gains of 2 points or more were Canadian Pacific, Norfolk & Southern, Pittsburgh & West Virginia, Colorado Fuel, Republic Steel, Ludlum Steel, Loose Wiles, Checker Cab and Electric Auto Lite.

Call money again dropped from 4 1-2 to 4 per cent with the demand light and the supply of funds plentiful.

## COTTON GINNING

Washington, Jan. 23.—(AP)—Cotton ginned prior to January 16, was announced today by the census bureau as 14,187,779 running bales, including 560,815 round bales, 25,457 bales of American-Egyptian, and excluding linters.

A year ago 13,888,972 bales, including 660,336 round bales, and 25,426 of American-Egyptian were ginned and two years ago ginmings were 12,501,447 bales, including 53,150 round bales, and 20,782 of American-Egyptian.

Ginnings by states were: Alabama, 1,296,078; Arizona, 140,443; Arkansas, 1,351,514; California, 228,189; Florida, 29,830; Georgia, 1,505,163; Louisiana, 789,144; Mississippi, 1,813,762; Missouri, 198,314; New Mexico, 84,335; North Carolina, 738,088; Oklahoma, 1,104,630; South Carolina, 809,587; Tennessee, 472,918; Texas, 3,763,840; Virginia, 45,855; all other states, 7,084.

Another favorable factor was an unconfirmed rumor that William Fox had agreed with counsel for minority stock interests and creditors to accept a trusteeship for his theatrical enterprises on the withdrawal of receivership proceedings. Fox Film, in which large short interest had been built up, was run up 11 1-4 points to 24, more than double the low of 16 7-8 of a few weeks ago.

Strength of the Advance Rumely issues, the preferred soaring more than 7 points and the common 3, was based on unconfirmed reports that merger negotiations were now pending, with Allis Chalmers, J. I. Case, International Harvester and the Oliver Farm Implement issues advanced 2 to 5 points.

Air Reduction, International Combustion preferred, Underwood, Elliott Fisher, Eastman Kodak and New York & Harlem sold 4 to 6 points higher, and among the many issues to show gains of 2 points or more were Canadian Pacific, Norfolk & Southern, Pittsburgh & West Virginia, Colorado Fuel, Republic Steel, Ludlum Steel, Loose Wiles, Checker Cab and Electric Auto Lite.

Call money again dropped from 4 1-2 to 4 per cent with the demand light and the supply of funds plentiful.

# NORWAY ASKED TO HELP BYRD IN ANTARCTIC

## Norwegian Whalers Are Needed to Break Through Ice to Aid Return of Explorer

New York, Jan. 23.—(AP)—With the blocking passage of Admiral Byrd's flag ship to his base at Little America, an appeal has been made through the state department for the aid of Norwegian whalers to help save the Byrd expedition from spending another year on the Antarctic ice barrier.

The New York Times, which, with associated newspapers, is sponsoring the expedition, said today that an announcement that the flag ship City of New York had reached Little America is contradicted by Capt. H. H. Railey, manager of the expedition and Admiral Byrd's personal representative in New York. The announcement originated with an amateur radio operator in Washington, D. C.

"On the contrary," Captain Railey said, "The City of New York has reached only the edge of the ice pack in the Ross Sea, a very different matter, and owing to the unprecedented condition of the ice pack, the New York and the Eleanor Boling will not succeed in negotiating the southward passage to Admiral Byrd's base—at least not without the aid of larger vessels.

"This is a critical time. The Eleanor Boling will join the City of New York on the northern edge of the ice pack about January 26. If the ice is sufficiently open by that time, both vessels will proceed south to Little America. But there is at present no indication that the ice pack will be sufficiently open.

"We are therefore asking the state department to solicit the co-operation of the Norwegian government in making available to Admiral Byrd the aid of the powerful whaling vessels now fishing North of the ice pack. Five such vessels are now within striking distance of Little America. Designed especially for operations in the Antarctic one of these ships can force her way through the pack and negotiate the return passage in ten days under normal conditions.

"To avoid spending another year on the ice barrier the expedition must depart from its base at Little America not later than February 20. If aid is necessary to ensure its departure we must supply that aid. The Ross sea began to freeze last year on February 22.

"The City of New York has reached the northern edge of the ice pack. There conditions described as the worst in the history of the Antarctic continent her, without aid she will probably be unable to penetrate the ice and negotiate the southward passage to Little America."

# MAN SHOT BY INSPECTOR AT DETROIT, MICH

## Walter Grundt Fatally Wounded by Border Patrolman As He Leaves Boat

Detroit, Jan. 23.—(AP)—Accosted by a customs border patrol inspector as he was disembarking from a rowboat at the foot of Maple street in Wyandotte shortly before midnight, Walter Grundt, 27, was shot by the officer and probably fatally wounded.

Grundt was taken to the Wyandotte General Hospital. Wyandotte police said they had been unable to learn the name of the federal officer who did the shooting but officers of the border patrol said this morning that the inspector had been disarmed and was being held for questioning by Col. Henrich A. Pickert, collector of customs.

# TO CONTINUE RESCUE WORK IN ARKANSAS

## Attempt to Be Made to Remove Marooned Families From Big Lake Section

Memphis, Tenn., Jan. 23.—(AP)—Rescue crews, defeated in their first attempts by frozen flood waters, prepared to get out again today to remove ice bound and water trapped families from the Big Lake Arkansas area.

Reports from the stricken territory to Walter Over, national Red Cross representative at Blytheville, said many marooned families were without fuel, short of food and that sickness had broken out in some places. The weather was near zero in part of the area.

A few of the several hundred families and those marooned in the Big Lake area were said to be clinging to roofs of their submerged houses, exposed to sleet, snow and wind.

A newspaper airplane was to fly over the area today to attempt a survey of the situation. Food will be dropped if necessary.

Rescue crews under direction of the Red Cross and equipped with motor driven flat bottomed boats tried to get to the sufferers yesterday but found water on the edge of the flooded territory frozen.

Arrangements were made by the Red Cross to try to run a heavy railway motor car through the ice to open water and there launch the boats. The families are scattered over the large area which extends southeast of Big Lake down the St. Francis river basin to the eastern edge of Craterhead country.

About 250 families in the Big Lake area heeded warnings of relief agencies and left their homes when the levees first gave way and are being cared for by friends and the Red Cross in highland camps. They were housed in box cars and tents.

Refugees from the St. Francis river flooded were at various points from Holcomb, Mo., to south of Marked Tree, Ark. Sickness was reported in the Holcomb area from exposure. Several villages in that vicinity were under water and while the cold had frozen the surplus waters and checked further rises there was danger of a sudden thaw and another rise.

"Competition of the man across the street is not troubling you, gentleman," it is the man who does not pay when he owes you. He is tearing down everything you have built up in the past and he will continue to tear down as long as you permit him to do so.

The chain store problem received a few moments of consideration from the speaker, with explanation that some might not like it, but that what he had to say was the truth just the same. He pointed out that the chain store system represented the product of the best brains of the country, and that the reason they were experiencing growth in all sections was because they had adopted progressive methods of doing business.

He said the chain store owners

had discovered the value of advertising, in newspapers, catalogues, and other means open to them, and that they were using it and getting results. The reason they get results, he affirmed, is because they present the merchandise in an attractive message, and in that way create a demand for it. "A man may not actually need one of the rakes advertised in the brightly illustrated catalogue or newspaper, but it is presented to him in such attractive way that he begins to cast about to see if he can't find some use for the rake."

He expressed opinion that the chain stores were here to stay, and that the retail merchants would be forced to emulate the examples set by such organizations if they hoped to keep pace with the trend of modern business.

He urged the insurance man, the automobile dealer, the grocer, as well as other merchants, to keep in touch with the files of the Merchants Association and in that way keep posted on the man who pays and the man who does not. It is in this way alone that the losses resulting from credit may be reduced, he declared and it is the duty of every business man to contribute information to the files to safeguard himself and his fellow merchants.

Those called upon for talks were: C. B. Rowlett, secretary of the Merchants Association, J. R. Turnage, of Ayden, G. P. Hood of Goldsboro, Bill Lee, Haywood Daily, Billy Brown G. W. Prescott, Ayden, J. W. Perkins, Stokes.

Treated Goitre at Home

Choking and Shortness of Breath Relieved

Mrs. Nelson Blaylock, Canton, N. C., says, "My goitre had been growing five years. I thought at times I would choke. I set up in bed lots of nights afraid to go to sleep for one night I almost choked to death. Had to fight for breath. My eyes locked terrible. After I used Sorbol-Quadruple a few days I could tell a difference. My goitre has been gone five months and I cannot tell I ever had one. Will tell or write my full experience." It is easy to apply and not expensive. Get more information at Warren Drug Co. or write Sorbol Company, Mechanicsburg, Ohio. Sold by all druggists.

SMOTHERING AND BLOATING

Mississippi Planter Gets Rid of These Ills by Taking Thedford's Black-Draught.

Bogue Chitto, Miss.—Mr. W. B. Johnston, who lives a few miles from here, says: "I am a farmer and a hard worker. I have taken Black-Draught when I would feel sluggish or out of sorts and it has been a great help to me. "I have been taking Black-Draught at intervals for 30 or more years. There is nothing to compare with it, for me. I take it made as a tea. "I had stomach trouble for a long time. I would swell or bloat up and smother. "I would work hard all day, be hungry, come in and eat—just tired out—and go to bed, thinking I'd get a good night's rest. I would begin smothering and no matter how cold it was I would have to get up and go out in the air to get my breath. "I sent for a package of Black-Draught and began taking it. After taking it regularly for a while, I quit having these spells. "Thedford's Black-Draught is a purely vegetable remedy, free from dangerous mineral drugs."

## Costs 85 Cents A Month To Lose Pounds of Ugly Fat

THOUSANDS OF WOMEN KNOW THIS IS TRUE

How would you like to lose 15 pounds of fat in a month and at the same time increase your energy and improve your health?

How would you like to lose unhealthy fat that you don't need and don't want and at the same time feel better than you have for years?

How would you like to lose your double chin and your too prominent abdomen and at the same time make your skin so clean and clear that it will compel admiration?

How would you like to get your weight down to normal and at the same time develop that urge for activity that makes work a pleasure and also gain in ambition and keenness of mind?

Get on the scales today and see how much you weigh—then get an 85 cent bottle of Kruschen Salts which will last you for 4 weeks. Take one half teaspoonful every morning in a glass of hot water and when you have finished the first bottle weigh yourself again.

Now you can laugh at the people who pay hundreds of dollars to lose a few pounds of fat—now you will know the pleasant way to lose unsightly fat and you'll also know that the 6 vitalizing salts of Kruschen (Salts that your blood nerves and glands must have to function properly)—have presented you with glorious health.

After that you'll want to walk around and say to your friends—"One 85 cent bottle of Kruschen Salts is worth one hundred dollars of any fat person's money."

Sending druggists America over sell Kruschen Salts—you can always get it at Greenville Drug Co.

# JUST RECEIVED

Big shipment of the latest styles in medium heels pumps and straps in new spring colors. Also in black. The real thing for comfort and service. Every pair guaranteed to give satisfactory wear.
