TONS AND GUNS HOLD SWAY AT NAVAL CONFAB

Private Interviews Occupy Attention of Delegates at London Today

London, Feb. 3.—(AP)—The five-power naval conference, moving on from the general to the specific, plunged today into the higher mathematics of tons and guns.

With the next full session delayed until tomorrow, private interviews occupied the delegates and their advisers as they approached the first concrete problems capable of reduction to figures.

Many scratch pads brought over for use in striking trial ratios and drafting technical formulae probably will be used before the conferees again emerge into phase of negotiations easily understandable by the layman.

The machinery of the conference unlimbered slowly today after an almost complete shutdown over Sunday. It appeared that each of the five powers was proceeding circumspectly, perhaps hoping some one else would be the first to broach the subject every one else was thinking about.

This was what figures should be written in their blanks diplomatically left by the French in presenting their compromise tonnage proposal attempting to reconcile the "global" and categorical systems of limitation. This proposal will be the principal business before tomorrow's conference session.

The principal French delegates, having presented their outline for a technical method of measuring fleets—with the figures carefully omitted—remained away from the scene of negotiation. Both Premier Briand and Foreign Minister Laval and several of their chief advisers still are in Paris where they went for the week-end.

In every quarter inquiries were cautioned not to expect many definite developments during the next two or three weeks. The technical period now beginning is recognized by all as certain to lack thrills and outward manifestations of progress which marked the opening of the conference.

The negotiators seemed quite willing to let their discussions disappear from the front page and to immerse themselves in a fog of figures as dense and persistent as the misty haze which has drifted up from the Thames and has enveloped St. James' Palace every day since the conference began.

Report Killing of 450 Tribesmen

London, Feb. 3.—(AP)—A Jerusalem dispatch to the Exchange Telegraph company today said that about 450 members of Trans Jordanian tribes have been killed during recent attacks by Wahbi horsemen from the Nejd.

The Wahbi were said to have forced the Trans Jordanian tribesmen to move into the neighboring towns for shelter and protection by the British commanded Arab legion.

Most of the casualties in the last rain were received by the Hueweis and another tribe in Wadi Sirhan, Colonel Peake, British commander of the Arab Legion, has left Amman, capital of Trans-Jordan, for Maan to head off the Wahabi horsemen.

Valuable Work of Late Poet Is Missing Today

Chicago, Feb. 3.—(AP)—Valuable literary and historical manuscripts that belonged to the late Eugene Field have disappeared some time within the last three years and the poet's widow believes they have been stolen.

The lost documents include the manuscript of "The Love Affairs of a Bibliomaniac," Field's last work and one of the most popular of his writings. Mrs. Field had refused an offer of \$7,500 for it.

Congressman to Accompany Cops On Liquor Raids

Washington, Feb. 3.—(AP)—Representative Charles E. Sawyer is preparing to accompany police on liquor raids and interviewing the press on the occasion of these forays.

The Wisconsin wet, it was learned today, has been an on-looker at several raids in the last three months and, as he put it himself, has been spending "as many Saturday nights as possible" at the precinct police stations.

"Surely, I've been doing considerable gun-shooting," he said. "I want to see how prohibition works at first hand, and one of the best ways to do it is to accompany the police when they go out for liquor violators. I've been in houses with them; I've seen them arrest men and women with liquor; and I've frequented these precinct stations to talk with these people after they've been put behind the bars."

MAN CHARGES HE WAS SHOT BY OFFICER

Canadian Declares He Was Fired Upon by Customs Officers On Detroit River

Detroit, Feb. 3.—(AP)—Arthur Laframboise, a Canadian citizen, was wounded on the Detroit river at 1 a. m. today by bullets which he said were fired by two United States customs border patrol inspectors while he was on the Canadian side of the river.

Customs officers said they had received no reports of any shootings on the river although agents had been operating in the region. Border cities authorities said they had not been able to find that Laframboise had ever been connected with run running activities.

Laframboise, whose home is at LaSalle, Ont., said he was shot while making for home across the ice after having assisted a friend in freeing a sled load of liquor which had been caught in the ice. He had driven out on the river in his automobile and had started back in the car but was forced to continue afoot when the ice gave way and the car sank.

The man's wounds which consisted of two scalp injuries, were said to be of a minor nature. Colonel S. C. Robinson, member of Parliament from Essex West, announced he would ask the Canadian government to make an investigation of the affair.

The shooting took place off the head of Fighting Island on the Canadian side, Laframboise said. He proceeded to a liquor export dock where the employees took him to a hospital.

Laframboise said he had quitted his car when the shooting started. "I started for the shore on foot and heard the men call to me to stop," he declared. "I saw they had uniform caps on. I knew that I didn't have any liquor in my car and, anyway, I was on Canadian territory, so I didn't pay any attention to them. Then they fired a regular hail of bullets at me. I was wounded but I kept on going."

James Alverson Dies at Richmond

James A. Alverson died in a hospital at Richmond yesterday afternoon at five o'clock. Funeral services were conducted this afternoon at Danville, Va.

Mr. Alverson was a brother-in-law of W. D. Pruitt, local tobaccoist.

GROUND HOG SEES SHADOW IN THIS CITY

Section in for a Long Siege of Hard Weather, if Signs Prove True

If actions of the groundhog count for anything, they probably do with many people who still believe in signs and omens, this section of the country is in for six weeks more of bad weather.

Mr. Hog emerged from his long period of hibernation yesterday, as he is supposed to do at this time of the year, saw the sun shining as brightly as it has shined before in years, and then retraced his steps as carefully and cautiously as he came.

Any other kind of animal would have jumped at the opportunity to bask in the warm rays of bright sunshine, but not the groundhog. If there is anything in the world he doesn't like, it is light, and especially sunlight. He bears a striking similarity to a criminal in this respect and positively refuses to show any signs of changing with the passing of the years.

With Pitt county just recovering from one of the most severe sieges of cold weather in years, the actions of the groundhog were not conducive to any widespread joy or happiness for anybody, and especially the farmer who has been awaiting the coming of good weather to enable him to prepare for planting season. Everybody was hoping that the hog would not see his shadow so that they might at least have a chance of anticipating good weather even if the signs did not prove true.

However, the tiny rodent came, he saw, and then returned to his underground world to remain there six weeks longer. If the sun is shining at the end of six weeks, then the believer in the groundhog will really have something to disturb him. As it is, the only thing to do is to sit tight and watch the weather man as he attempts to disprove the groundhog's fear of bad weather ahead.

Fire Slightly Damages Home

The fire department was called to the home of L. O. Hemby, on Erie street, Sunday morning to extinguish a blaze originating from a defective flue. Damage was estimated at about \$25.00.

Work Resumed On Memorial Library

After being suspended for several days on account of bad weather, work was resumed on the Sheppard Memorial Library today. Foundation work has been practically completed and laborers have begun raising the walls. In a few days the brick work will appear above the excavation and after that time progress on the structure will be easily visible to persons passing along the street.

Gastonia Man Takes Own Life

Gastonia, Feb. 3.—(AP)—J. A. Murray, bookkeeper, committed suicide here this morning by crawling under a passenger train as it left the station.

He had conversed with negro laborers who were shoveling snow from the station platform during the five minutes the train was standing at the station and as it moved away he calmly crawled under the first coach and allowed the wheels to pass over the middle of his body.

The negroes witnessed his action. Murray came to Gastonia a few years ago from Chester, S. C. He is survived by his wife who also is from Chester.

Spanks His Dad For Taking Girl

Taft Resigns As Head Of U.S. Supreme Court; Returning To Capital

Washington, Feb. 3.—(AP)—Chief Justice Taft of the United States has resigned.

He submitted his resignation today to President Hoover through his son Robert A. Taft. His resignation has not yet been accepted.

This was formally announced today at the White House after young Mr. Taft had made a visit there in company with Attorney General Mitchell.

It was understood that the resignation was tendered because of the serious condition of the Chief Justice who has been in Asheville, N. C. for more than a week after being confined to his home here for some time.

Taft is returning here tomorrow from Asheville.

Robert A. Taft said there was no significance to this change and that his father could be as comfortable here as he could be in Asheville and desired to return home.

The resignation of Taft removes from official life one of the outstanding figures of the present time.

As President of the United States, Secretary of War, Governor General of the Philippines, and later as Chief Justice of the United States, he, more than any other one man, has been a part of the American government for a quarter of a century.

For sometime Mr. Taft has been in ill health. He was born in 1857 and is now in his seventy-third year. Despite his age he has been able to fight off illness and has been actively engaged in his duties.

He left three weeks ago for Asheville following a recurrence of bladder trouble.

Just before this he had returned from Cincinnati where he had attended the funeral of his brother. This trip was said by friends to have over-taxed his strength.

The resignation of the chief justice unquestionably will be accepted by the president; and it will become effective immediately upon such acceptance. Mr. Taft then would automatically be placed on the judicial retired list, since he has served the requisite number of years, first as a circuit judge, and then as Chief Justice of the United States.

Immediately after the White House announcement there was speculation as to whom President Hoover would select as the next chief justice.

Since he has been here, Chief Justice Taft has been quiet. His physicians would allow him to receive no visitors except members of his family. His only exercise consisted daily of automobile rides.

The train taken by the Chief Justice passes through Salisbury, Greensboro, in North Carolina, and Lynchburg and Charlottesville in Virginia. It is scheduled to reach Washington at 7:05 Tuesday morning.

The Chief Justice and Mrs. Taft will occupy a drawing room on a Pullman coach. Dr. Hagner and Miss Manifold will be in the same coach.

NORTHCOTT DISMISSED FROM NAVY

President Confirms Sentence of Dismissal for Desertion After Deliberation

Washington, Feb. 3.—(AP)—President Hoover has confirmed a sentence of dismissal from the navy for Lieutenant Harold W. Northcott, who was charged with desertion and other offenses damaging to the morals of the service.

The young navy lieutenant, who stood third in his class at Annapolis, disappeared from the Norfolk Navy Yard on October 22 and it was at first thought that he had met with foul play.

His abandoned automobile was found later in Richmond, but still there was nothing that would throw any light upon the mystery.

Two weeks later Northcott was discovered on the other side of the continent in Vancouver, British Columbia, in company with a woman, who was said to be a trained nurse. The naval officer agreed to return to the United States and he surrendered to the commandant of the Puget Sound Navy Yard.

He refused, however, to make any statement or to explain in any way his actions.

Members of his wife's family said after he was found that he had met a woman in New York while taking a course at the Brooklyn Navy Yard and that she had left her home in Ottawa Canada for the avowed purpose of getting the naval officer.

Northcott was charged with desertion entering a foreign country without permission and conduct unbecoming an officer and a gentleman.

The former naval officer was the son of L. C. Northcutt, superintendent of schools for all county, Mo. he was appointed to the Naval Academy by the late Champ Clark.

The findings of the court martial which tried the lieutenant had been in the hands of reviewing authorities here for several weeks. The president's approval of the sentence was dated February 1.

Chicago Judge Grants 515 Divorce Petitions in Jan.

Chicago, Feb. 3.—(AP)—A record for divorce actions which the clerk, Gus Wedemeyer, declared has not been approached by any other American jurist was set during January by Judge Thomas L. Lynch in circuit court. He signed 515 divorce petitions.

In addition, Judge Lynch heard 2,031 motions for divorce during the month, a record which the clerk claimed is approached only by Judge Lynch's own record for December when he granted 563 divorces and heard 2,097 petitions.

United States Has 206 Additions to Millionaire Class

Washington, Feb. 3.—(AP)—The year 1929 saw 206 additions to the select group of those whose individual incomes exceed one million dollars.

In all, there were 496 in this exclusive class and of these 24 had incomes running past the five million dollar mark. Altogether, the 496 had a total income of \$1,073,706,325, of which the government collected \$178,525,926 in income taxes.

These figures were compiled by the Treasury in reporting on income tax collections of last year and were issued for publication today.

A decrease of 50,588 in the number of returns as compared with the preceding year was noted, but the total of income taxes collected showed an increase of \$316,014,283.

Whale Attacks Ferry Boat and Goes On Its Way

San Francisco, Feb. 3.—(AP)—A large whale slipped into San Francisco Bay for a frolic in the relatively warm water and was cruising past Alcatraz island yesterday when a ferry boat appeared dead ahead.

The whale flicked a fluke playfully and assumed a "better-get-out-of-my-way" attitude, which the boat ignored. Lavathan charged, meeting the boat head-on, and then dove to as if expecting some entertaining results. The ferry just kept going. The whale spouted and went discreetly on its way.

Captain Oscar Chamberlain of the ferry, said neither whale nor boat was damaged.

WOMAN ASKS \$1,000,000 HEART BALM

Mrs. Mary Ball Sues Sister-in-Law for Alienation of Husband's Affections

Jacksonville, Fla., Feb. 3.—(AP)—Suit for \$1,000,000 charging alienation of the affections of her husband, Thomas Ball, Los Angeles attorney, was filed in circuit court here today by Mrs. Mary Ball against her former sister-in-law, Mrs. Jessie Ball Dupont, joined with the latter's husband, Alfred I. Dupont.

Twelve counts are contained in the suit, directed specifically against Mrs. Dupont, which was filed by Gorden McCauley, attorney for Mrs. Ball. Precedence in the litigation was filed last December.

The suit charges that Mrs. Dupont "wrongfully, wickedly and maliciously enticed, influenced and induced" Ball to abandon his wife, thereby depriving Mrs. Ball of his affections, comfort, fellowship, society, aid and support.

It was further set forth that Mrs. Dupont "maliciously poisoned and prejudiced the mind of Mrs. Ball's husband against her by telling him false stories about Mrs. Ball, threatening the plaintiff with disrespect in the presence of plaintiff's said husband, and by charging her, the plaintiff, of being poor white trash extravagant wasteful and suspicious of her husband."

First Of Pres. Hoover's Proposals For Improving Dry Laws Faces Success

Washington, Feb. 3.—(AP)—President Hoover's first recommendation to Congress to strengthen prohibition enforcement by placing the responsibility on the attorney general will be taken up by the House Thursday.

The measure to effect the transfer of the prohibition bureau from the treasury to the justice department was reported formally to the House today by its expenditures committee.

General debate will be limited to four hours. Then the measure will be considered under procedure permitting the offering of Amendments and the discussion of the proposed changes.

The minority group, headed by Representative Gasque, of South Carolina, rank; Democratic on the committee, declared in their report they did not approve of the joint authority "for the reason that no effective enforcement of the law can be obtained with two departments having joint authority to deal with any part thereof."

"We firmly believe," the minority said, "that the enforcement of the national prohibition laws and all matters relating thereto properly lie in the justice department; that the joint authority will promote friction and the assumption by one department that this joint authority will promote friction and the assumption by one department that the other will do all things necessary in connection with the joint authority prescribed and will permit a continuation of the present law enforcement. Further, it will permit one department to charge the other with responsibility for all resulting laxity of enforcement, and the public will not be able to hold either department responsible."

Washington, Feb. 3.—(AP)—The first of President Hoover's recommendations for improving prohibition enforcement is to be brought to a vote in the House this week, with all signs pointing to overwhelming approval.

PUBLISHER SEIZES TWO S. C. PAPERS

Lavarre Fires Editor and Business Manager at Spartanburg This Morning

Spartanburg, S. C., Feb. 3.—(AP)—Warrants were issued here this afternoon for the arrest of William LaVarre, newspaper publisher, and three of his associates on charges of contempt of court after they had failed to obey Judge T. J. Mauldin's order restraining them from entering the building of the Spartanburg Journal. The order was obtained by the officials of the Herald-Journal Company.

Judge Mauldin's restraining order was issued this morning after LaVarre and his companions had taken charge of the Journal and the Herald and LaVarre had announced he would hold them if he had to use force.

Spartanburg, S. C., Feb. 3.—(AP)—A temporary restraining order was served on William LaVarre, newspaper publisher, today to keep him from interfering with the operation and publication of the Spartanburg Herald and the Spartanburg Journal.

The restraining order was issued by Judge T. J. Mauldin after LaVarre had taken control of the papers at daybreak today and announced he would use force if necessary to remain in charge.

A court order, forcing him to turn over the stock in the two Spartanburg papers, the Columbia (S. C.) Record and the Augusta (Ga.) Chronicle to J. T. Webb of Macon, Ga., commissioner, had been issued some time ago by Federal Judge Bascomb S. Deaver.

The temporary restraining order not only keeps LaVarre from publishing the papers but also specifies that he is not to trespass on the premises. February 10 is set as the date for a hearing on the order.

Spartanburg, S. C., Feb. 3.—(AP)—William LaVarre, newspaper publisher who was ordered by a Federal court to relinquish his stock in three South Carolina newspapers and one Georgia newspaper, today took possession of the plant of the Spartanburg Herald and the Journal, announcing he would hold the property by force if necessary. A group of his associates from Columbia accompanied him here.

Arriving at the newspaper plant at daybreak after a quick trip from Columbia in a fast automobile, LaVarre entered and gathered around him loyal employees.

Among his first actions was to discharge C. O. Hearon, editor, and W. W. Holland, business manager. He declared he was active in behalf of the Piedmont Press Association, which, he said, has a long time lease on the property of the two papers.

Last week, LaVarre had J. T. Webb of Macon, Ga., Federal Court Commissioner, ejected from the plant of the Columbia Record. Webb later in the day turned the tables on LaVarre by swearing out a warrant charging him with criminal trespass for entering the building of the Spartanburg Herald.

Webb was named Commissioner by Federal Judge Bascomb S. Deaver and was ordered to take over the newspapers.

This morning LaVarre said drastic action was necessary because of a report that since Webb had taken out a warrant to keep him out of the Spartanburg newspaper plant, funds of the Piedmont Press Association had been "wrongfully diverted" to the Herald-Journal company.

Hearon and Holland were discharged. LaVarre said, because they had refused to obey certain orders given them. They formerly owned the two papers, later sold them to LaVarre and then took positions with him. Last week, Webb had announced he would retain them as editor and business manager respectively.

LaVarre also discharged Max Bridges, cashier, for not obeying his orders.

Pilot Killed When Plane Strikes Small Building Today

Hartford, Conn., Feb. 3.—Pilot C. E. Fridhonne of Boston, Mass., flying a plane for the Colonial Air Transport service and carrying mail from Newark, N. J. to this city, was drowned here early today when his plane struck a small building at Brainard Field, near the edge of the Connecticut river. The plane turned over and dropped into the river.

The machine was pulled from the water and the pilot's body recovered. Officials at the field said the plane came in too low and the pilot evidently miscalculated the distance in attempting to land.

CROWN PRINCE AND HIS BRIDE BACK IN ITALY

Couple Accompanied to Turin by Heavy Guards of Police and Militia

Turin, Italy, Feb. 3.—(AP)—Guarded from their anti-Fascist enemies by a small army of police and military details, Crown Prince Humbert and his bride, who was Marie Jose of Belgium, have come to Turin to make their home.

Turin's population of more than half a million gave the royal bridal couple a tremendous welcome as they arrived yesterday from Van D'Osta, where they had been enjoying the winter sports. But the Italian authorities did not allow the cheers and applause to lull them into a feeling of false security.

Elaborate precautions were taken to protect them from any attempt at injury. Baggage of all persons entering Turin for the last few days was searched for bombs and other weapons and the Turin newspapers were not permitted to print the exact time of the royal train's arrival until Sunday morning.

Streets were lined with troops with drawn swords and fixed bayonets who kept back the crowds.

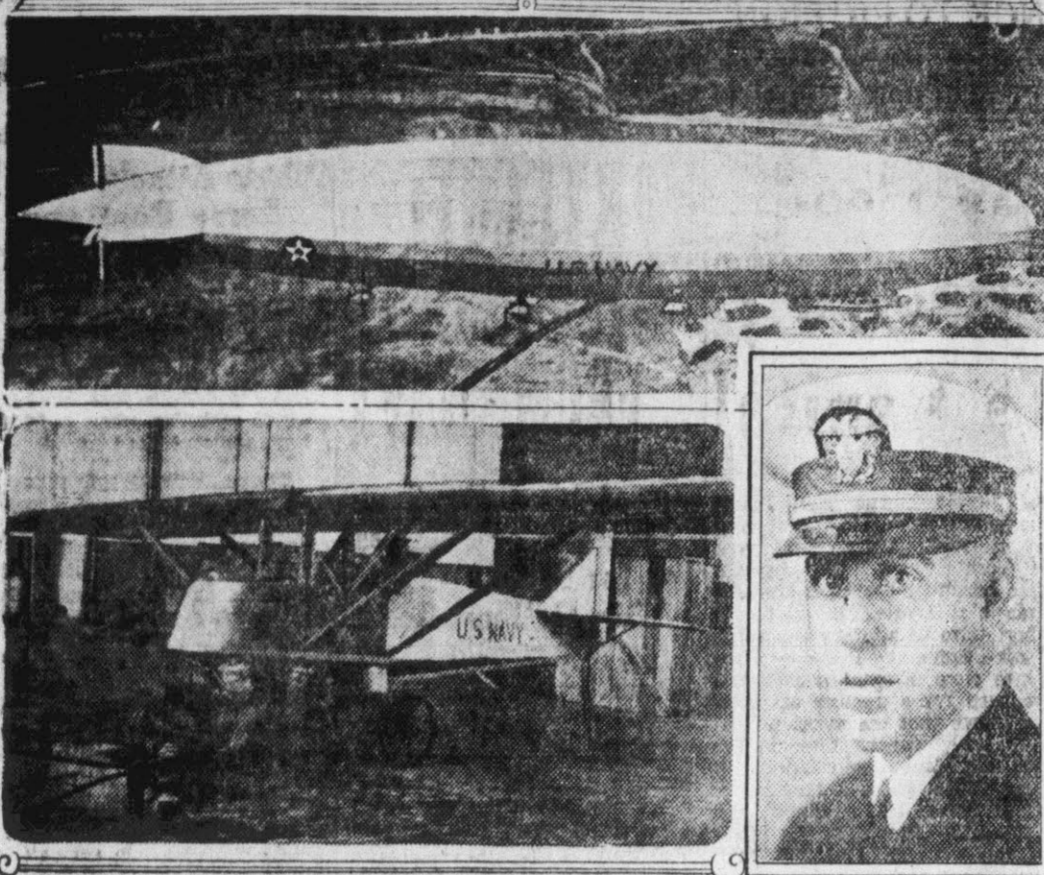

Today the royal couple began to keep house. It was no housekeeping according to the ordinary American sense, because the "little bungalow" of the Crown Prince and his bride really is a royal palace with 150 rooms, a half dozen cooks and a regiment of servants.

A crowd estimated at 150,000 packed the big square in front of the palace at their arrival yesterday and would not go away until Humbert and Marie Jose had appeared several times on the central balcony in the foggy cold air. Both appeared in good health.

The Princess was dressed completely in brown with a low collar trimmed with brown fox fur, a brown and gold cloche hat, brown stockings and brown shoes. She responded to the welcome of her sister-in-law, the Princess Yolanda, and the enthusiastic greetings of the crowd. Smiling and waving her handkerchief.

Last evening the palace, which was the fifteenth century cathedral of St. John the Baptist, and other public buildings were illuminated by colored floodlights. Inside the palace there was a quiet reception

NAVY GLIDER TO BE LAUNCHED FROM DIRIGIBLE

Lieut. Ralph S. Society Woman Plans to Do Her Own House Work

Norfolk, Va., Feb. 3.—(AP)—Mrs. W. Jeffries Chewning, who until Saturday was Miss Margaret Couzens, daughter of Senator James Couzens, Michigan capitalist, is going to do her own house work.

She said so here last night and she "really can keep house".

"I studied domestic science for four years and I can cook anything from bread to eggs. She said as she and her husband, an employee of a Washington Trust company, discussed their elopement.

They arrived in Norfolk yesterday morning by boat from Baltimore here they were married quietly in a Catholic rectory Saturday. They are planning a tour of the historic Virginia Peninsula. "This is Jeff's part of Virginia", Mrs. Chewning said. "And I want to see it all."

They already have selected an

apartment in Washington. Their elopement was not prompted by fear of parental disapproval, she said. It was because of her aversion to "big" weddings.

"I think they're messy," she declared. "With a regular church wedding it is necessary that the engagement be announced several weeks ahead of time and all your friends, begin giving parties and dances and other things in your honor, with the result that by the time the date of the wedding arrived you are utterly worn out."

Mrs. Chewning was unable to reach her father by telephone yesterday morning because of a poor connection but later the Senator himself called, wished them happiness and urged them to return home.

Miss Couzens, who is 21, was one of this season's debutantes, but because of her preference for art study her parents gave no formal presentation party for her. Her art will go by the boards, however.

"I know I'll be too busy keeping house and looking after my husband to have any time for art studies," she said.

She first met her husband at the President's Club races on the Potomac last September. They saw each other next at the Junior

League ball in Washington in December. On Friday night January 17 they became engaged at "just a regular date". Plans to marry in March were discarded when newspapers began printing reports of the engagement, also.

SPARTANBURG WOMAN KILLED IN AUTO WRECK

Asheville, Feb. 3.—(AP)—Mrs. Maude McMillan Camp, of Spartanburg, S. C., was instantly killed early yesterday in an automobile accident near here.

J. Frank Richardson, Jr., of Greenville, S. C., and Miss Sadie Leatherwood, of Asheville, were occupants of the automobile when it crashed into a culvert.

Police say the automobile evidently was being driven at a high rate of speed when it left the road and crashed into a culvert.

DUDE FALLS BEFORE GUNS OF GANGLAND

Latest Victim Taken for Ride at Chicago and Bumped Off in Usual Style

Chicago, Feb. 3.—(AP)—The gangs are getting their eyes on the gun sights again. Four victims in less than a week, with Joe Cada, "The Dude," the latest.

Cada's killing was another of these "ride" affairs, with Cada being hit by own chauffeur and his own machine being his death car. The boy upworn section, with his night club still ablaze through the hour was the down of a Sabbath day, was the murder scene.

The roar of an elevated train, rumbling over the trestle across Broadway, served to drown the shrieks of the assassin's shots. A milkman saw the Cada car slide to a halt near an "L" support, and two men get out, but he heard no shots.

The milkman believed their had been an accident and that the two men had gone for help. They walked leisurely, however, until they reached a cross street, down which they disappeared.

The slayers must have been friends of the man they killed, which is the only way police can explain their presence in the car. One sat in back, the other beside Cada in front. The position of the body and the appearance of the bullet wounds indicated that the man at Cada's side pressed a gun against "The Dude's" head and fired, the man behind also leaning forward and firing.

In some respects the manner of the murder was that employed in the killing last week of Barney Mitchell, Checker Cab Company treasurer, and Glen Jackson, driver of Mitchell's cab. In that crime the killers, probably two of them, sat in the tonneau with Mitchell, firing several shots into his body and killing the cab driver with a shot behind the ear.

Police said there were several gang figures who had reason to want Cada out of the way. "The Dude," they said, was a partner of James Walsh, who was shot down last November at the busy loop corner of Clark and Randolph. Cada was with Walsh then. It has also been hinted to police that Cada was involved in a kidnap ring that found its victims among gamblers, and also with a group of racketeers that extorted money from brokers.

Cada was one who liked the night life. His brother, who identified the body, said Cada had gotten into bad company. "He was a sort of a 'black sheep,' the brother said. "I tried to talk to him again and again, but he would not listen."

Besides the sobriquet "The Dude," Cada also was known as "Motor Joe." He was formerly a professional automobile race driver and an expert mechanic. Police said he was affiliated with the Terry Drug-gan beer syndicate.

Besides the Checker Cab double killing and the Cada slaying, police still have before them the mystery of Julius Rosenheim's murder, and the gang gun attack upon Johnny Goenaro. The latter still lies seriously wounded. Rosenheim for many years was known as a stool pigeon for police among gangsters. He was shot down on the sidewalk by two men. All these gun attacks have occurred within less than a week.

FASHIONS in dress may change in a day, but Chesterfield "comes into fashion," and stays there, for its un-failing good taste.

Mild... not strong or harsh... and yet they "satisfy." A cigarette with character... not insipid or tasteless, but rich, spicy, fragrant.

It is no fad, this swing to Chesterfield, but a sound and growing appreciation of good tobaccos, good blending... in short, good taste—

"DISPOSING OF MARY" PLEASES LARGE AUDIENCE

On Tuesday evening, January 28, "Disposing of Mary," a one-act play by Mrs. Anne Glenn Robeson, was presented by the End of the Century Club at the college auditorium.

Miss Emma Hooper, to whom much of the success of the evening is due, acted as director. Miss Lena Linberger as Mary, the spinster sister; Miss Rose Hadley as the business-like Susan; and Miss Hennie Long as Peggy, a frivolous young wife, displayed real talent in acting.

Mr. Jack Edwards and Mr. Harry Brown as the two brothers, Robert and Telfaire, pleased the audience by their skillful interpretation of these roles.

Mrs. Robeson's play is a clever farce. The theme, the tyranny and the traditions of the old South, is well expressed in the words of one of the characters. "It seems we never shall get away from Mere and Charleston." The story centers around Mary, a self-sacrificing spinster, who has given the best part of her life and robbed herself of her individuality for the sake of her mother.

Now that Mere is dead, the problem of disposing of Mary confronts the family. Nobody wants to care for her until the fact that she inherits the bulk of the family property becomes known. But by that time Mary has solved her own problem by accepting an old family friend as her fiance. A well-knit plot, clever dialogue, and excellent characterization make Mrs. Robeson's play an able and entertaining piece of work.

The following interesting program of music and dances preceded the play:

Part One
Misses Gorrell and Mead, Directors.
Stellume..... Schumann
Knight Rupert..... Schumann
Dorothy Sloan
Tarantelle..... Heller
Camille Winstead

Minuet..... Bach
Scherzo..... Schubert

DR. IRA P. LANDRITH TO SPEAK IN GREENVILLE DURING THIS MONTH

Those who are now Endeavorers or who have ever been, will be interested in the following item from the "North Carolina Endeavorer."

Landrith-Breg Tour. Southern Secretary W. Roy Breg will accompany Dr. Ira P. Landrith, citizenship superintendent of the International Society of C. E., into this state in February to hold one-day institutes. This is a wonderful opportunity for putting new life into your societies and members.

One North Carolina Endeavorer now in Fort Smith, Ark., in speaking of Landrith and Breg, who are in that state, says: "You can and should advertise Dr. Landrith's coming as much as possible. He is a great, great speaker and a great man. He has a message that is worth hearing. He talks Christian Endeavor, but his message and keen wit is well worth anybody listening to. The folks that miss hearing him will have lost something. You can take my word for it that everybody, young and old, will enjoy hearing him. Breg is great, too. They will both be through Fort Smith next year and we are all ready looking forward to it."

Dr. Landrith and Mr. Breg will be in Greenville at the Presbyterian church, February 19. Hear them, folks, they will put new life into you.

Dollar Day

A TREAT FOR THE COMMUNITY

IN GREENVILLE

Thursday Feb. 6th

Another One of Those Semi-Annual Big Shopping Events

"Dollar Day" is an occasion that is always looked forward to by the general buying public because the day presents the greatest opportunities for values of any other co-operative sale event sponsored by the Merchants Association.

The thirteen merchants participating at this time have given "Dollar Day" considerable preparation and are better prepared this season than they have been for many previous years to make the event of special interest for the bargain hunters.

You will find offered thousands of honest-to-goodness bargains. And reasonable merchandise will feature in every department of each store.

Look over this list of those participating and visit every store next Thursday.

ABOUT TOWN

The Pitt County Department of Health has just released a bulletin covering the question, "Why Prevent Pellagra?"

Attempting to answer the question, the bulletin said, "Because at present it is as serious as typhoid fever was fifteen years ago. Last year 981 people died of the disease in this state. In the last stages of every case of pellagra the patient is in a horrible condition. The whole nerve system of the patient's body goes to pieces, the mind is involved, the skin the bowels are affected; in short, the disease is a terrible one if allowed to go on without arrest."

All of these conditions and death itself can be prevented if a person will consume what the farmers term "a well balanced diet" every day in the year. It is the one disease in which prevention is known to be easy and certain, but in which a cure is uncertain and often impossible when allowed to reach the last stages. It has been conservatively estimated that for every patient who dies there are twenty others suffering from the disease. We, therefore estimate that North Carolina for the 981 people who died last year there were about 20,000 others who were sick from the same cause. This constitutes a problem of grave economic importance, in addition to the consideration of life itself.

"In view of the foregoing facts, the bulletin continues, "it is time for every health officer and every newspaper in the state of North Carolina to give individual attention to the people of every community in this state on how to prevent the disease, which is of such grave importance to our people at this time. It is a very easy matter for the health officers now, that the disease is reportable, to get into immediate touch with the family of every patient reported as having the disease, in order to prevent the future spread of the disease of the other members of the same family or the neighbors in the same community."

When a physician reports a case of pellagra, the health officer, will of course, give the attending physician who reports the case every assistance in his power in order to disseminate the important information on prevention of other members of the family, but the care and attention of the patient suffering from the disease is the particular responsibility of a practicing physician.

"Every newspaper in the state could easily follow the example of the Winston Salem Journal, which making a systematic effort this year to present the facts to the subscribers of that paper, which covers a big section of northwestern North Carolina. We feel sure the newspapers will co-operate in this effort to stamp out a disease whose annual toll of life is becoming of grave importance."

The Pitt County Post of the American Legion got on the honor roll in the state-wide membership campaign last week, but they are not satisfied with this achievement, according to information given out by Commander Dave Moore.

It is planned to continue the campaign through this week and attempt to raise as many members as the post had at the ending of the last fiscal year. This was near the 180 mark, and with only ten to go, it is believed the required number will be rounded up this week.

The commander of the local post is proud of the fine record the boys were able to establish and he feels satisfied interest in the work of the organization will be more pronounced in the future than in the past.

The Legion has a far-reaching influence in the life of the nation, and it is nothing but the duty of the thousands of members to rally behind the movements now under way for improvement of American life.

That Pitt County Legionnaires will do their part is not to be questioned in the slightest sense of the word. They helped win the great war and they are just as willing to help carry on after the war is over.

The State sanitary inspector is in Greenville preparing to launch an extended survey of the sanitary conditions of the county.

It is the first time in several years that such a complete survey has been attempted the people of the various communities are requested to cooperate in every way possible.

Emphasis will be placed upon the fight against unprotected privies, and persons violating the law in this respect will be required to meet requirements of the state sanitary provisions or go before the courts to say why they failed to do so.

That a survey of this kind is badly needed cannot be questioned. It is one of the most direct ways of protecting public health, and will cause the negligent people of the various towns to clean up and live according to the laws of sanitation.

George Willard Declared Winner In Essay Contest

George Willard, Greenville high school freshman, has been declared winner of the first prize in the essay contest recently conducted by the Current Science, national publication. The subject of the winning essay was "Why Our Breath Smokes on Cold Mornings." Aside from heading the freshman class, young Willard is manager of the high school football team.

Barber of Seville to Be Presented Here Tomorrow

Tomorrow evening is the time for the performance of "The Barber of Seville," by the Festival Opera Company, in the campus building of East Carolina Teachers College.

The company will bring its own cyclorama for the background and its own stage setting, the essentials for the production. A pianist takes the place of an orchestra. The audience can follow the plot and catch the humor, as the singing and the dialogue are in English.

Reports from the places in which they are appearing this season indicate that this company is pleasing its audiences. Last week one Alabama town immediately after the performance, wired the manager for a return engagement next year and nothing is a higher recommendation than this. The lovely, sparkling voice of the coloratura soprano, Melvena Passmore, the acting of the comedian, who takes the part of Figaro, the barber, William Phillips, and of his splendid baritone voice, the fine acting and voice of the tenor hero-lover, Rhys-Eves Morgan, the finished acting and the great singing of that veteran of the opera, Henri Scott, have all come in for praise in these reports fresh from the press as they have gone from place to place on this tour.

Holders of season tickets would do well to get their special reserved seat tickets before hand so as to get the choice seats and avoid delay in getting seated tomorrow evening. The holder of a season ticket gets a special reserved seat ticket for each entertainment that has two prices, and he is entitled to the best seat available at the time he makes his reservation.

When he had finished his talk we were much richer in knowledge, greatly inspired to do something big and secretly, we felt capable and complimented.

In two's and three's we passed to classes, each of us repeating something that Dr. Spence had said; the more studious of us discussing his topic, "Work," the more flippant of us still laughing at some of his quick jokes, but all of us appreciating him and hoping that he would soon come again.

Thieves Routed By Woman Singer

Chicago, Feb. 3.—(AP)—Without getting into the slightest discussion whatsoever concerning the singing voice of Miss Ann Kanter, it may be set forth without prejudice that she sang, and burglars ran out of the house.

Miss Kanter arrived with Miss Sonia Mahin at the latter's home early yesterday. Burglars were in the place, and the young women were frightened. It was under these trying circumstances that Miss Kanter sang, to the piano accompaniment of Miss Mahin. It was their idea to let the burglars know they were home, and at the same time keep the burglars from knowing that the girls knew, or words to that effect.

The first vocal effort was something from Madam Butterfly. It was a bit too highbrow for the low-brow burglars apparently, for they kept right on packing away the family silverware.

Miss Kanter switched to a popular number, the name of which will not be sent on request. It was not, however, "Sonny Boy." At the first few bars there was evidence of excitement from the direction of the burglars and, in a moment the back door slammed behind them. They took loot valued at \$1,000.

PRINCE OF WALES RECOVERS FROM COLD

Mahalapye Station, Bechuanaland Union of South Africa, Feb. 3.—(AP)—The Prince of Wales has recovered completely from the cold which bothered him Saturday at Johannesburg and, when he stopped here yesterday enroute to Bulawayo, South Rhodesia, appeared the picture of health.

He strolled with friends along the railway platform chatting. The white people recognized him but to the natives he was just another tourist who might purchase skins, necklaces and carvings.

They crowded about him and his friends and had some success in getting rid of their wares.

DR. H. E. SPENCE SPEAKS TO HIGH SCHOOL PUPILS

We were thoroughly prepared for a lecture on "The Outcome of Examinations," or the "Value of Examinations," as we filed into the auditorium Friday morning at the regular chapel period.

No sooner, however, had Dr. H. E. Spence of Duke University, addressed us as "Ladies and gentlemen, and Mr. Porter," than we began to understand that the talk which he would make would be an interesting one.

Never before since we have been in high school has a more interesting, a more inspiring, and yet a more amusing talk been made to us.

Dr. Spence began his talk as if he had known each of us personally for years. The simple, straightforward way that he approached his subject, "Success," appealed to us and held our interest for the entire hour.

Dr. Spence gave an attractive motto to reach the road of success, "Work, watch, and wait."

The interesting way in which he dealt with each of these "W's" cannot be justly appreciated without hearing Dr. Spence himself.

Now and then he illustrated his point with a pretty piece of rare poetry. Again he reached his goal with a bit of historical reference. And more than often his quick wit and ready sense of good humor sent us into peals of appreciative laughter.

The inspirational way in which he told of the life of Lincoln, of Garfield and of other great men made us feel that it was in each of us to "do something big if we only want to do it."

We became unusually alert when Dr. Spence told us to watch and wait for opportunity and to be prepared when it came to us. Tactfully, he made us see that some day, in some way, each of us would have our chance.

Indirectly, he showed us the value of our high school career and more than once he made our hearts swell with pride, love, and appreciation for good old Greenville High.

When he had finished his talk we were much richer in knowledge, greatly inspired to do something big and secretly, we felt capable and complimented.

In two's and three's we passed to classes, each of us repeating something that Dr. Spence had said; the more studious of us discussing his topic, "Work," the more flippant of us still laughing at some of his quick jokes, but all of us appreciating him and hoping that he would soon come again.

A TIP . . . from Andrew Carnegie

ASKED to explain his phenomenal success, Andrew Carnegie blandly attributed it to his ability to get men men to work for him who knew more than he did.

And that's a formula for success. Nobody who is really successful does all the work himself. He employs other people's minds and efforts.

Do you do the same in the intricate business of running your home and taking care of your family? You can, quite easily.

You can employ specialists in diet; you can serve the master dishes of famous chefs; you can have the advice of style authorities in selecting your clothes, of whole electrical laboratories in buying household appliances, by reading the advertisements.

All the newest knowledge—knowledge millions of dollars and years of effort have won—is contained in the advertisements.

If you will use the advertisements in this newspaper as Andrew Carnegie used men who knew more than he did, every dollar you spend will be spent wisely, economically, and will return full measure of satisfaction. That's the way to be a success in the greatest business in the world—making a home.

It Pays to Read the Advertisements

HIGH CAGERS DROP GAME TO RAPIDS TEAM

Friday night Roanoke Rapids brought one of the strongest teams ever seen on a local court to Greenville and carried back the long end of a 27 to 13 score. Their guards were all over the local forwards and Sullivan, their star forward, just could not miss the basket when he shot. He alone counted for 13 of his team's points.

Roanoke Rapids started the game with a bang. Sullivan contributed two crisp shots and Wertz assisted with another to lead the locals 6 to 0. The Greenville forwards then went to work and at the end of the first quarter the score was 9 to 5 in favor of the visitors. The second quarter saw Greenville gain two more points, while Roanoke Rapids was being held scoreless and the half ended with Greenville trailing 9 to 7.

At the beginning of the second half Smith slipped past the visiting guards to sink two short shots and carry his team into the lead for the first time. The lead, however, was short lived and Roanoke held 12-11 margin at the quarter. The last quarter was a nightmare for the local team. The visitors brought their long-range artillery into the fray and bombarded the Greenville goal with a barrage of shots that produced 15 points for themselves while the guards held Greenville to only two points.

As stated above, Sullivan was the shining light of the game with his 13 points, but he was ably assisted by Matthews with 7. For Greenville, Lee, a newcomer to the locals, led with 6 points.

The line-up:

Greenville	Roanoke Rapids
Lee (6)	Matthews (7)
Forward	Forward
Bullock (3)	Sullivan (13)
Rivers	Center
Dixon	Mills (2)
Smith (4)	Guard
Wertz (5)	Guard
Substitutions: Greenville, Deal; Roanoke Rapids, Starke, Newton.	

Big Five Teams Will Deal With Outside Gridders

Charlotte, Feb. 3.—(AP)—With the Duke Blue Devils strongly entrenched at the top of the big five of the big five column after a 35-11 victory over North Carolina members of the big five this week turn their attention largely to outside opponents.

Duke routed North Carolina Saturday at Chapel Hill in a surprising fashion. The Tar Heels record unable to get going and when the Duke stars, Counciller, Rorer, Cronson and Webber, got through with them they were buried under the bottom of the 35 to 14 score.

This triumph gave Duke three big five victories and no defeats. Davidson and North Carolina launch out upon out of state trips this week and State ends a foreign campaign, leaving only three big five games scheduled. Duke meets Wake Forest on Tuesday and State on Saturday.

The Red Terrors, who has won beat Virginia and Maryland will jump to Athens, Ga., for a game with Georgia tomorrow before returning home.

Davidson's itinerary for the week calls for matches with V. M. I. at Lexington, Va., Wednesday; Roanoke College at Roanoke, Va., on Thursday; and V. P. I. at Blacksburg, Friday. The Wildcats will clash with the Blue Devils on next Monday at Davidson with the big five leadership at stake.

Two Title Bouts Set for the Week

New York, Feb. 3.—(AP)—Title defenses by Benny Bass at Philadelphia and Al Crown, Panama negro, will open the boxing schedule this week.

Bass, junior lightweight titleholder to most state boxing commissions, meets Davey Abad of Panama in a ten round bout at St. Louis tonight at the championship weight of 130 pounds. The bout is a non decision affair but Abad can win it by knocking out the Philadelphiaan. Brown defends his bantamweight title against Johnny Erickson of New York at the Olympia A. C. here Saturday night in a 15 round battle.

Madison Square Garden will be closed to boxing this week as a result of the state commission's ban on the proposed Johnny Risko-Victorio Campolo bout. Efforts were made to match Risko with George Hoffman as a substitute attraction but the Clevelander declined.

Archer Bomb in Chicago. Chicago, Feb. 3.—(AP)—Another \$100,000 bomb exploded early today, shaking a considerable section of the west side.

The explosion was in the fruit store of Sam Marquino. Two adjoining stores were badly damaged and buildings in the neighborhood were shaken. No one was injured.

SPORTS SLANTS

Reference was made in these columns recently to the popularity of boxing slants, such as Jack Wertz Murphy, the California Irishman, and Art (The Great) Shires, slanting first baseman. The successful debut of the biggest fistic slant of all time, 270-pound, 6 feet 3 inch Primo Carnera, clinches the case without necessity of waiting to hear from the jury.

Carnera, for the time being, is 50 per cent novelty and 50 per cent showman. Somewhere, a percentage of fighting ability may develop, for the Garagantuan with the features of a Gargoyles and build of a Neolithic caveman, undoubtedly has possibilities in his speed and power. Meanwhile no competitive whatever will be involved in barnstorming him as a fistic freak in the principal events will be hand-picked so far as the customers manifest the same enthusiasm as the 18,000 who paid nearly \$70,000 to watch the Italian slant perform at Madison Square Garden. Later on, some scientific tests may be made of the durability of Carnera's chin but not until he has been led around the circuit to put on his act.

In European capitals, where the fistic customers apparently are much more sceptical than the American variety, the reports of the financial, social and artistic success of Carnera's debut must have created no little astonishment. They might be equally surprised abroad to know that Ponderosa, Primo's board of directors collected in the neighborhood of \$30,000 for the 70 seconds of entertainment with Big Boy Peterson. Moreover, following the quaint custom in such business, the pay-off of Big Boy was out of Carnera's end. This made it strictly a sociable affair with Peterson bouncing up and down four times at the rate of perhaps \$2,500 a bounce.

Several fistic wise ones who had passed up chances to get a "piece" of Carnera and become a member of his board of directors shook their heads sadly after counting the "piece" at Madison Square Garden. "A few months ago," remarked a manager, "I could have had a 50 per cent interest in Carnera for only \$10,000. I passed it up and now I couldn't get a half interest for \$60,000."

On the American Walker Cup golf team, going abroad this spring for play with the British, are only three men who have ever defeated Bobby Jones in amateur championship play. Francis Ouimet conquered the Georgian in 1920, Jess Sweetser in 1922 and George Von Elm in the 1925 finals. The names of the three men that beat Jones in the last major tournament had the man that beat the man that beat Jones—Johnny Goodman and Lawson Little—cannot be found on the list.

Baseball Leaders Gather at N. Y.

New York, Feb. 3.—(AP)—A good part of the baseball fraternity was in New York today prepared to talk and perhaps to trade. The international and eastern leagues meet today but most interest is in the annual schedule meeting of the National League at the Commodore Hotel tomorrow. Except for the schedule itself the National League is confronted with little business of importance although there was a possibility that several trades, under consideration for some time, may be completed before the meeting breaks up.

Dave Rumar has it that the Pittsburgh Pirates are ready to trade Burleigh Grimes, star right handed spitballer, for a second baseman who can combine a little hitting with his fielding. Grimes, according to reports, is asking for a contract of \$25,000 for the 1930 season, a price that Barney Dreyfus, owner of the Pirates, hardly will be inclined to pay. The Pirates may find a market for Grimes in Cincinnati.

Dezzy Vance is another pitcher whose future appears a bit cloudy. It is understood the Brooklyn Robins are trying to shave about \$5,000 off the contract they gave the Dozler last year and Vance is believed to have balked.

A trade might solve this difficult although there is more than a little doubt as to whether Wilbert Robinson would let the speedballer hang on at any price.

Double Bill for Cage Lovers Here Tomorrow Night

There will be a double-header in basketball tomorrow night in local high school gymnasium. The girls' team will take on the sextet from Wilson and the boys will engage the strong Winterville quint.

Wilson is reported to have one of the strongest girls' teams in this section of the country and the Greenville girls will have their hands full. The Winterville aggregation defeated Washington College Institute 28 to 9, while it was all the locals could do to beat them 26 to 17.

It would appear, therefore, that the brace of games tomorrow night will produce some basketball worth seeing. The first game will start at 7:30 and the second will start upon the completion of the first.

Alaska's mineral production, including precious metals and base metals as well as petroleum, amount to \$14,061,000 in 1929.

Otto Burk, chief of police of Provo, Utah, has recommended the formation of a junior police force composed of school children.

CRUCIAL GRID PLAY SET FOR PRESENT WEEK

After a Feb. 3.—(AP)—Leadership clinics of each of the three undefeated southern conference basketball squads will be at stake this week in crucial games listed as the feature attractions of the biggest single week's program of the season. Forty one contests are booked for the six day period.

Alabama's Crimson cagers, who visited to the top of the field last week by vanquishing Mississippi twice, must defend their honor against Louisiana State and Tennessee. The Tuscaloosa outfit has five conference victories. At least one of its other unbeaten squads—Sewanee of Washington and Lee—must drop aside this week as the two teams clash in Lexington Saturday night.

Prior to the game Sewanee encounters Tennessee at Knoxville Wednesday, Virginia Polytechnic at Blacksburg Thursday and V. P. I. at College Park Tuesday and North Carolina at Lexington Thursday. The Generals also take on Navy and William and Mary, non-conference foes. Both Kentucky and Georgia were removed from the top cluster last week. Tennessee beat Kentucky in an extra period game at Knoxville Friday and Kentucky took Georgia's measure in another game requiring an additional session at Athens Saturday night. Georgia previously had beaten Auburn, Mississippi, and Virginia struck a herd luck streak, the Oxford cagers losing four games and the Cavaliers dropping three.

In addition to its two setbacks by Alabama, Mississippi lost a brace of game to Tulane, while Virginia bowed to Virginia Polytechnic, North Carolina State and Virginia Military. Virginia Polytechnic left the cellar for the first time this year by winning from its state enemies, Virginia and Virginia Military. North Carolina beat Carolina State and Louisiana State, the Mississippi Argyle, both Georgia Tech and Clemson beat Vanderbilt, and Duke turned back North Carolina. North Carolina State beat Virginia and Maryland.

The Kentucky-Clemson and the Alabama-Louisiana State games tonight inaugurate this week's program. North Carolina State visits Athens tomorrow for a tilt with Georgia and Georgia Tech faces Auburn in Atlanta the same night.

Virginia Polytechnic and North Carolina Polytechnic and Georgia are booked for Wednesday night. Georgia Tech meets Vanderbilt at Nashville Friday night, while Virginia, North Carolina State and Duke top the Saturday bill with Kentucky scheduled against Georgia.

BEWARE THE COUGH FROM COLDS THAT HANG ON

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified crocote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heats the inflamed membranes and inhibits germ growth.

Of all known drugs crocote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to crocote, other healing elements which soothe and heal the inflamed membranes and stop the irritation, while the crocote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and milder forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)

Again Spit is a horrid word, but it is worse on the end of your cigar

... the war against Spitting is a crusade of decency ... join it. Smoke CERTIFIED CREMO!

The strong arm of the law halts the spitter whose vile and vicious habit menaces his fellow citizens. But for every spitter caught hundreds escape ... hundreds who still work in filthy shops rolling cigars with dirty fingers and spitting on the ends!

Certified Cremo protects you against this abomination! Every tobacco leaf entering the clean, sunny Certified Cremo factories is scientifically treated by methods developed by the United States Government during the war. And its purity is safeguarded along every step of the way by amazing inventions that foil, wrap and tip the cigars without the possibility of spit!

Try a Certified Cremo—see how wonderfully good it is! Made of the choicest, tenderest leaves that the crop affords, we claim Certified Cremo's quality is tastier than that of any other cigar. Don't let its 5c price stand in your way. Certified Cremo is the kind of cigar your physician has in mind when he recommends a mild smoke in place of heavy brands.

Crush-proof ... immaculate ... foil-wrapped ... Certified Cremo is the kind of cigar the late Vice-President Marshall undoubtedly had in mind when he said, "What this country needs is a good 5c cigar!"

COTTON MARKET N. Y. STOCK LIST

New York, Feb. 3.—(AP)—A further break of about \$2.50 a bale in cotton here, today carried prices to new lows for the season.

Weak Liverpool cables and heavy selling by Liverpool houses, which was said to be against Bombay selling abroad, caused a sharp early decline which was followed by renewed general liquidation.

Confidence appeared to be lacking and traders were evidently disappointed by the absence of any aggressive support of the farm board.

The March position here broke to 15.85 cents per pound which compared with 16.37 cents per pound at the close on Saturday. May declined to within 9 points of the 16 cent level, or just one-half cent below the previous close.

GRAIN MARKET

Chicago, Feb. 3.—(AP)—Favorable selling to stop losses of holders of wheat future delivery contracts here plunged the wheat market down today to new low-record levels.

Most traders appeared to regard as bearing the farm board's efforts to stabilize values, and the market was without any important speculative buying support. A further disturbing factor was notable dearth of export demand for wheat from North America, whereas Russia sold 180,000 bushels of wheat to Great Britain, and was offering more.

Notwithstanding 3,274,000 bushels decrease of the United States wheat visible supply total today, wheat suffered a maximum drop of nearly 5 c a bushel, and closed unsettled 31-8 to 41-2 c. under Saturday's finish.

Corn closed 11-8c to 15-8c down, oats 5-8 to 1 c off, and provisions showing 10c to 20c gain.

STOCK MARKET

New York, Feb. 3.—(AP)—Favorable trade news from some of the basic industries provided the ground work for an irregular for an irregular recovery in prices in today's stock market, although the advance was by no means uniform because of heavy profit taking in some of the recent leaders. Scores of active issues were marked up 1 to 6 points, and a few specialties much higher, but these gains were mixed with a rather long list of 1 to 2 point declines. Trading showed a further expansion in volume, with the ticker running nearly 20 minutes behind the market at one time.

Steel mill operations were reported to have increased further last week, plants in the Chicago district running at between 85 and 90 per cent of capacity, with a lower rate of operations in the Youngstown and Pittsburgh districts. Do Jones reports that while there has been quite an increase in the rate of iron production since the beginning of the year and that prospects favor further gains, it is quite certain that output of U. S. Steel Corporation will not reach the high figures established in March last year.

Although current traffic and earnings statements have been disappointing, the 4 1/8s nevertheless presented several strong spots.

Denver, Rio Grande & Western preferred advanced 6 points. Aetna was marked up 4 5/8 points. Union Pacific and Chesapeake and Ohio each climbed more than three points and several others advanced a point or two. Hocking Valley, which soared 105 points last week, on odd lot transactions, soared 19 more points today and then reacted 23, and Jersey Central jumped 10.

Bohn Aluminum, Continental Baking A. National Cash Register, Fourteen Oil Warner Bros. Pictures, Warren Bros. and Detroit Edison sold 3 to 5 points higher.

Simmons was heavily sold in mid-afternoon, dropping more than 3 points.

MAKE SECRET OF DETAILS IN LEEDS DIVORCE

Grounds Upon Which the Former Princess Xenia Obtained Divorce Unknown

New York, Feb. 3.—(AP)—Details of the grounds upon which the former Princess Xenia of Russia was granted an interlocutory decree of divorce from William B. Leeds, Jr., who inherited millions made in tin plates remained a secret today.

Prey Stoddard, referee in the case, said he did not remember the grounds upon which the divorce was sought. In signing the decree at Huntington, Long Island, Saturday, Justice Selah B. Strong, said it was based on the findings of Stoddard and he did not know what the grounds for the action were. There is only one cause for divorce in New York state.

Stoddard said he was appointed referee in December or January and held hearings in his office. He said Princess Xenia testified among several witnesses.

The New York American says that although the announcement of the divorce came to the public by surprise, in social circles it had been known that the couple separated nearly a year ago.

The American says a disparity in temperaments was declared by friends in society to have been responsible. Although of the royal blood of Gay, exotic pre-war Russia, the former princess was by nature and by her rearing and cloistered youth inclined to the dignified, the aloof and the orthodox.

In contrast, Leeds had a penchant for the colorful, the gay and the dashy. Speed had become gradually an obsession with him. He delighted to entertain his guests in breath-taking rides in his fast boats. Mere dignity, cold formality, correctness had no appeal for him.

Society liked both of them and both were exceedingly popular in the sets in which they moved. But society could not help but notice the divergence of natural desires that kept them at odds and finally a year ago, determined them to separate. Advice to the American from Paris quoted Prince Christophe of Greece, widower of Leeds' mother as saying: "We are terribly upset. We cannot imagine the reason."

Leeds and Princess Xenia were married in Paris October 8, 1921. Both were 19 years old at the time. They have a small daughter.

Stoddard said that a court order requiring the papers could prevent publication of the testimony and other records in the case when they are filed with the clerk of the supreme court at Mineola, Long Island.

LEGION PLANS TO PUSH DRIVE FOR MEMBERS

State-Wide Round-Up Will Continue Until Wednesday Night of This Week

The state-wide membership drive of the North Carolina Department of the American Legion will continue through Wednesday of this week, D. C. Moore Jr., commander of the Pitt County Post of the American Legion, said today following advice received from George K. Freeman, of Goldsboro, state commander.

In a communication to the various North Carolina posts, Commander Freeman said, "We must have a total membership of at least 12,000 by Wednesday, February 5. We have promised this to the national commander who will visit us on the 10th in Durham at the conference of post officials of the North Carolina legion, at which time we hope to see as many members as possible. We feel sure that if each post will keep its membership committees on the job and functioning from now until Wednesday the department will reach and surpass last year's total. The enthusiasm and interest of the Legion is at the high pitch right now. Now is the time to take advantage of this fact. The former service men are now ready to join and all that is necessary is for them to be properly approached, and you and your committee have demonstrated that you know how."

Commander Moore said this morning that the various members of his committees were still on the job and believed they would be able to reach if not surpass the total number of members of the organization at the end of the last fiscal year.

The Post was only ten short of the goal last Saturday afternoon, and the various officers and committee members were determined to better the old record if possible.

To Invite Hoover to Celebration At Kings Mountain

Raleigh, Feb. 3.—(AP)—Gov. O. Max Gardner will go to Washington Wednesday night to invite President Hoover to attend the Kings Mountain celebration next fall and also to take part in the turning over to the United States of the first lands in the Smoky Mountain National Park.

A conference will be held with President Hoover at noon Thursday when Governor Gardner and a North Carolina delegation and Gov. John G. Richards and a South Carolina group will invite the chief executive to visit the state for Kings Mountain Sesqui-Centennial. Gov. Henry H. Horton of Tennessee is also expected to be present.

At 2 o'clock Thursday afternoon the governors of Tennessee and North Carolina will meet Secretary of the Interior Ray Lyman Wilber and will turn over to him, at appropriate exercises, titles to about 150,000 acres of land for the Smoky Mountain Park.

Chicago, Feb. 3.—(AP)—Chicago and Princeton again have agreed not to scout each other next fall for the fourth football game of their series.

Federal Highway Aid for N. Car. to Be Increased

Raleigh, Feb. 3.—(AP)—Federal Highway aid for North Carolina will be increased from \$1,722,000 annually to about \$2,809,000 each year for three years, R. A. Doughton, chairman of the state highway commission, was informed today.

The increase is under the terms of the Dwell-Phipps bill which is in Congress.

The bill has been passed but the Senate added an amendment which the House must concur in before the bill can go to the president for his signature.

The amendment will allow \$25,000 to be expended per mile on road construction instead of \$15,000 as heretofore. The adoption of the amendment will help the state considerably. Mr. Doughton said, as it now costs \$27,000 to 30,000 to build a mile of hard-surfaced road.

Both Chairman Doughton and Engineer John D. Waldrop reported no material damage to state highways from the snows of last week and said the highways were now in good condition.

Bank of Iceland Closes

Reykjavik, Iceland, Feb. 3.—(AP)—The Bank of Iceland failed to open its doors today and the board of directors convened at a special meeting to discuss the situation. The Icelandic Parliament held a private sitting all last night but the outcome of the discussions was not made public.

Rolls Perfect Score

Springfield, Ill., Feb. 3.—(AP)—Ray Hix, Decatur, Ill., competing in the individual event of the Central Illinois Bowling tournament last night, rolled a perfect score. The tourney is sanctioned by the American Bowling Congress.
