WILL ATTEMPT TO SAVE CREW STRANDED SHIP

Several Passengers Rescued From Admiral Benson in Oregon Yesterday

Astoria, Ore., Feb. 17.—(AP)—Attempts will be made again today to rescue the crew of 65 and seven or eight passengers aboard the ship Admiral Benson, first ashore on the sands of Peacock Spit off the mouth of the Columbia river.

Thirty-four passengers were taken ashore yesterday by lifeboats and a breeches buoy before rising seas forced Coast Guardsmen to halt the rescue operations.

The Admiral Benson, enroute California ports to Portland, went ashore Saturday night in a dense fog. Although the exact cause of the wreck was not determined, some of the rescued passengers related gossip that the wreckage of the steam schooner Laurel, on Peacock Spit was mistaken for the first buoy which guides vessels into the river. The Laurel went aground on the Spit last summer.

Caught on the Spit, considered the graveyard of the Pacific, the combined freight and passenger steamer was at the mercy of the waves. The Admiral Benson was grounded so fast that "fifty tugs couldn't more her."

The 34 passengers were removed without untoward incident with the exception of Mrs. A. B. Reynolds of Portland, wife of a Stand Oil company official who was rescued by a breeches buoy when seas grew heavier and forced a halt on rescuing by boat. For nearly the entire distance, from the boat to the shore, Mrs. Reynolds was hauled beneath the Admiral Benson jolted over the sands just as a farewell dance was being given aboard. The festive event became suddenly a scene of terror as the vessel struck. Passengers dashed to the decks but the officers circulated among them and soothed good naturedly.

The orchestra, which halted in a discord when the ship plunged onto the spit, again struck up a lively tune and gaiety was resumed.

But as the ship grounded and rumbled into the shallowest part of the spit, Mrs. Weinreb said there was another rush for the decks. This time, she said, gaiety gave way to grief. One of the passengers' undershirt code and heard the radio flash SOS.

Water tumbled through the ventilators, she said there was some screaming and commands of officers, ordering all passengers into their state rooms, rose above the din. Order was restored, Mrs. Weinreb said, and those who returned to the decks soon heard the splash of oars and the roar of surf boats as Coast Guardsmen speeded to the rescue.

Nine Prisoners Escape From Goldsboro Jail

Goldsboro, Feb. 17.—(AP)—Nine of the twenty negroes confined in the Wayne County jail escaped just before dawn today.

The cell doors had been left unlocked and the negroes secured a piece of iron cut which they used as a tool to cut a hole through the 14-inch brick wall.

Eddie Cox, one of the number, found the weather too cold and went to the city police department where he reported what had occurred. Officers immediately began a hunt for the others but had found none of them later this morning.

More and Cheaper Radium Need of Civilized World

New York, Feb. 17.—(AP)—Cancer and luminous paint divide most of the world's radium and more is greatly needed for cancer, the American Institute of Mining and Metallurgical Engineers was told today.

The radium figures were given by Richard B. More, head of the chemistry department of Purdue University.

"With hundreds of thousands of cancer patients dying each year in the civilized countries of the world," he said, "one of the greatest medical needs of the world is more and cheaper radium."

Plan Protest Service

New York, Feb. 17.—(AP)—In protest against religious persecution in Russia Protestant churches of greater New York will hold a joint service at the Episcopal Cathedral of St. John the Divine on Sunday, March 16.

Beauty Meets

There isn't much doubt about the beauty title at Southern college, Lakeland, Fla. Elizabeth Forehand Jones, winner in 1929, captured the title again this year.

Body Of Lost Flier Found In Northland

Point Barrow, Alaska, Feb. 17.—(AP)—The fate of Carl E. Eielson, noted Arctic flyer, and Earl Borland, his companion, was definitely established today with the receipt of radio advices telling of the finding of Borland's body buried in the snow at the spot near North Cape where their plane crashed November 9.

Recovery of Borland's body removed any doubts that the men had perished, although death of the fliers had been accepted as a certainty following the finding of the scattered wreckage of the plane.

Advices relayed from Pilot Harold Gillam, who had been at the scene of the wreckage, said Borland's body was located last Thursday under five feet of snow. It lay near the engine which had been buried 100 feet from the wrecked ship.

Indications were that Borland was killed instantly when the plane struck the tundra and searchers said Eielson also must have been killed outright.

Borland's body was removed to the camp of tents and snow houses maintained by the nineteen men conducting the search, and will be sent tomorrow to the icebound motor ship Nanuk at North Cape.

The hunt for Eielson's body was resumed today after an interruption of three days due to storms. It was while flying to the Nanuk to transport passengers and furs to Nome that the plane crashed last November 9.

Wreckage of the plane was found January 25 by pilots Joe Crosson and Harold Gillam, operating from the Nanuk. Parts of the plane were scattered over a wide area and were nearly covered with ice and snow.

Ambassador Moore Critically Sick

Los Angeles, Feb. 17.—(AP)—Alexander P. Moore, recently appointed Ambassador to Poland by President Hoover, today continued critically ill. With little change in his condition, suffering with an infection of the lungs and throat, he has maintained a fever of 104 degrees for the past 48 hours, and has been semi-delirious part of the time.

Bodies of Man and Woman Found in Ruins of Burned Home Near Danbury, N. C.

Winston-Salem, Feb. 17.—(AP)—With the discovery that all buckets, pans and tubs had been thrown into a well, Sheriff John Taylor investigating the death of Mr. and Mrs. Raleigh Lawson, whose charred bodies were found in their burned home near Danbury early today, expressed the belief the couple had met with foul play.

A coroner's jury, however, found the deaths occurred from the burning of the home, the origin of the fire unknown.

Investigation showed, the Stokes county sheriff said, that Lawson, who is 20, and his wife, 17, had spent the afternoon with Mrs. Lawson's parents.

After they left, Mrs. Lawson's mother, Mrs. Sam Rierdon, saw a glow in the direction of the Lawson home. She found the house in flames but was unable to find anything with which to fight the flames.

When the fire had died out, Lawson's body was discovered near the rear exit and his wife's near the front. The well in which the buckets and pans had been thrown was about 100 yards from the house.

Mr. and Mrs. Lawson have been married almost two years.

SEVERAL HELD IN DRY RAID ON BIG HOTEL

Thirteen Men and Eleven Women Were Rounded Up At Philadelphia, Penn.

Philadelphia, Feb. 17.—(AP)—The prohibition laws "are finding the rich and poor alike," director of public safety Lemuel B. Schofield said today in discussing the raid on two private suites in the Benjamin Franklin Hotel, in which 13 men and 11 women were arrested charged with illegal possession of liquor.

The persons arrested were members, wives, and friends of members of the Philadelphia club of printing house craftsmen, who had gathered in the rooms early yesterday after a dinner-dance given by the club in the ballroom of the hotel.

The prisoners, all in evening clothes, were taken to a police station and motor patrols then released for hearings, eight of them gave the names and addresses of executives of large printing and ink supply firms in or near Philadelphia.

Police said they found several bottles of whiskey and gin and a quantity of ginger ale in the two suites. Director Schofield said he would try to cause the arrest of officials and employees of the hotel and would ask that the hotel's dance license be revoked.

"Long ago I served notice on all of the large hotels in Philadelphia," the director added, "that if they permitted liquor to be brought into their hotels, they could expect trouble. If these violations continue the raids will continue."

Characterizing the raid as "illegal and unwarranted," Horace L. Wiggins, managing director of the hotel and vice-president of the United Hotels corporation, announced that the hotel management was prepared to give legal assistance to all those arrested.

"Guests at any hotel," he said, "are entitled to the same privacy as those enjoyed in their own homes. The entry of police without warrants is a blow at the freedom of citizens."

To Discontinue Fighting Units

Washington, Feb. 17.—(AP)—Two historic fighting units of the United States Army, the Third and Fifth Regiments of the Field Artillery, will be discontinued "at the earliest practicable date" by Secretary of War Hurley.

The order which makes them inactive will be a part of a general reorganization of the field artillery announced today by the War Department as caused by the "desire to get the greatest value per dollar."

In consequence the Third Field Artillery, stationed at Fort Sheridan, Illinois, must case regimental colors decorated with battle honors dating back to the war of 1812, while the Fifth, stationed at Fort Bragg, North Carolina, must forgo colorful bearing streamers won at Manassas, Antietam, Chancellorsville, Gettysburg, Lorraine, Picardy, Mondidier, Noyon, Tisne-Marne, St. Mihiel and Mause-Arronpe.

The decision to effect these sweeping changes, the most drastic since the world war is, the department announces, the result of intensive studies by the general staff and the chief of field artillery in which every fort was made to increase the efficiency of that branch of the service and to place its units where they would be of most use and assistance in training the National Guard and organized reserves.

At the same time, said the War Department, it was desired to use to the maximum all permanent quarters, as many of the cantonments built during the war have become uninhabitable.

Stanley Officers Hold One Man in Connection With 38 Year Old Murder Case

Albermarle, Feb. 17.—(AP)—Stanley county officers, spurred on by their investigations of a 38-year-old murder mystery by the arrest yesterday at Starke, Fla., of John Morgan, said they expected to take into custody additional persons today.

Morgan, who has several aliases, among them "Jim" and "Bud," had been for 25 years a respected and industrious citizen. Yesterday, on a warrant from Stanley county, he was charged with the murder of Francis Tally November 21, 1922.

Solicitor Don Phillips, of Rockingham, was busy today preparing extradition papers for Morgan. From Florida, it was reported that Morgan denied killing anyone and would seek his freedom through habeas corpus proceedings.

The murder of Tally, uncovered this morning in musty documents, as a sensational episode in Stanley criminal records.

The man, an aged bachelor, lived alone in the county. It was rumored that he kept a large sum of money with him.

Robbery, then, was believed to have been the aim of his killers. It developed the day after his murder, however, that he left a large sum of money the day he was slain with his sister, Mrs. J. D. Austin, now a resident of New London. Mrs. Austin, 78 years of age, said today she intended to hear the trial, which will be held at criminal court next month, unless there is a hitch in Morgan's removal from Florida.

Several men were tried and freed immediately after the murder. Then for a long, the mystery was marked "unsolved."

A few weeks ago it came up again. New Evidence sent Stanley citizens to Florida, where, it was reported, Morgan had assumed the name of a brother still residing in this county. His arrest yesterday followed.

Arrest Delays Athlete Wedding A Chinese Girl

San Francisco, Feb. 17.—(AP)—Still determined to marry the young Chinese girl with whom he was prevented from eloping to China several weeks ago, Victor Boisseree, former Olympic club athlete, was returned here from Seattle last night to face charges of failing to provide for his two children.

On the same train, but in a different compartment, was Miss Florence Lee Tai, San Francisco-born Chinese girl, the object of Boisseree's affections.

"Love transcends all racial barriers," Boisseree declared at the city prison. "My arrest has only delayed our wedding plans."

Boisseree was arrested on complaint of his former wife, Mrs. Mildred Boisseree.

NEW ARRESTS EXPECTED IN MURDER CASE

Archaeologists Fooled

Philadelphia—After 5,000 years the joke is on some archaeologists. One Egyptian mummy destined his tomb so that anybody looking for his mummy in the future would explore an empty tunnel. An expedition of the University of Pennsylvania excavating a Mejdum realized it has been fooled so far.

TWO SEAMEN FOUND DEAD IN LIFEBOAT

Two Others Believed Frozen to Death in Icy Blasts Along the Atlantic Coast

Cape May, N. J., Feb. 17.—(AP)—Two, and possibly four lives were lost in the icy blasts that swept the Atlantic Ocean of the Delaware Capes Sunday. Two of four missing men, who were aboard the foundered coal barge, Merrill, were picked up frozen to death in a lifeboat at dawn today by a Coast Guard patrol boat. There was no trace of the other two men.

Reports of the finding of the two bodies were raised here by searching vessels. The two bodies were placed aboard the Coast Guard boat. The Merrill was one of three barges in tow of the tug Montrose, bound from Norfolk to New York.

The barges ran into the severe northwest storm early yesterday while approaching the Delaware Capes and they broke loose from their tow.

Captain A. C. Simmons, of the tug, immediately radioed shore guard stations of the predicament of the drifting barges and rescue ships began a search. Two of the barges, the Hopper and the Hallowell, were found but darkness fell before the Merrill could be located.

The search continued all night and early today a lifeboat with two bodies in it, was found by Coast Guard patrol boat number 218. The bodies were not identified.

There was no trace of the barge anywhere. The barges belonged to the Eastern Transportation company, of Baltimore.

The barge was one of three being towed by the tug, Montrose, bound for New York, out of Norfolk, Va., under the command of Captain A. C. Simmons, running into the severe storm opposite Cape May, N. J., the Montrose was reported to have headed for shelter of the Delaware Bay. Unable to stand the strain of the heavy seas, the tug lines snapped, leaving the three barges with their crews, 12 men in all, at the mercy of the storm.

Responding to a radio call for help, the Coast Guard cutter Tampa set out of here and aided by the Patrolboat No. 218, from Cape May, succeeded in re-capturing two of the barges, the Hopper and the Hallowell.

The Merrill has not been seen since it broke away from the tug, when it was being carried out to sea. The lifeboat in which the dead men were found was sighted off the New Jersey shore last night.

Getter Data About Prohibition

Washington, Feb. 17.—(AP)—A research into all phases of prohibition enforcement to gather data which will be presented to President Hoover's law enforcement commission has been inaugurated by Prohibition Commissioner Doran.

Doran said today that he had instructed Palmer Canfield, former prohibition administrator at Albany, and now a legal expert of the bureau, to gather the records of enforcement in all states and municipalities. He added that Canfield had not progressed far enough to make any general conclusion possible but that his study this far had shown a wide variance of municipal and state statutes relating to prohibition.

When the study is completed the commissioner expects that it will provide a fairly accurate picture of enforcement conditions throughout the United States and will enable the more equitable distribution of prohibition forces. When the prohibition bureau is transferred to the Department of Justice the data will be made available to Attorney General Mitchell for use as a basis of reorganization of the enforcement machinery.

Primitive Man Was Woman

Chicago to Pay Off With Scrip

Chicago, Feb. 17.—(AP)—The county went ahead today with its plans to pay off some 4,000 employees with scrip.

"This is our payroll," replied Harry Newby, chairman of the county board of finance. "It is all we can do under the law. If the employees won't take the scrip, we can't force them to, but we will go ahead with the issue."

Action of the county board followed an ultimatum issued a week ago to the Strawn committee that unless financial aid was forthcoming immediately, scrip would be issued.

Begin Probe of Bombing Of Residence of Marion Textile Mill President

Sheriff Baldwin and Deputies Push Investigation Into Explosion That Wrecked Home of R. W. Baldwin Last Night; No Clues Except Fragment of Home-made Bomb.

Marion, Feb. 17.—(AP)—Sheriff Oscar Adkins and his deputies today were pushing their investigation into the explosion of the home-made bomb that Saturday night damaged the home of R. W. Baldwin, who is president of the Marion Manufacturing Company and members of his family were in Baltimore where he also maintains a residence.

The bomb believed by officers to have been constructed of iron pipe and dynamite, blew in a side wall of the house and caused the roof to cave-in. Except for the fragments of the bomb, there were no clues and Sheriff Adkins said no arrests had been made.

The sheriff this morning estimated the damage at more than \$3,000. Mr. Baldwin who arrived this morning from Baltimore said it would not exceed \$1,000.

Preacher Drops Dead in Pulpit At Charlotte

Charlotte, Feb. 17.—(AP)—The Rev. James M. McAlpine, 66, dropped dead while in the midst of his sermon at the Elizabeth Baptist church here last night.

The aged minister had announced his text and was beginning his address to the congregation when he lowered his head and slumped slowly to the floor beside the pulpit.

A physician was quickly called. He said that death had come instantly.

THREE STILL CAPTURED BY PITT OFFICERS

Negro Man Also Was Rounded Up in the Series of Raids in Pactolus Community

Three whiskey distilling plants were captured by Pitt county officers last Saturday afternoon, according to information given out at the office of Sheriff Sam Whitehurst this morning.

The raids also netted the officers one member of the traffic, a negro by the name of Ernest Daniels, who was given liberty under bond of \$200.

The raids were made in Pactolus township and included a total of thirty-five barrels of beer and five gallons of whiskey. The whiskey was found secreted in a barn near the home of Daniels.

Each of the stills was of the usual type used in the manufacture of illicit beverage in this community, being constructed of copper and ranging in capacity of from 50 to 120 gallons.

Deputy Sheriff Herbert Harris suffered slight injuries of the arm and shoulder when he fell while attempting to get over a barbed wire fence in close proximity to one of the stills. He was still on duty today, although his shoulder is said to have caused him much pain.

Daniels, it was said by officers, is not being held in connection with operation of the stills. The only charge brought against him is for possession of more booze than the law allows during these days of prohibition.

Cold Wave Brings Death And Suffering to Many North Atlantic States

Fourth Death Reported at Boston and Other Sections of Massachusetts

New York, Feb. 17.—(AP)—The coldest weather of the winter, which came in the wake of a snow storm, brought death and suffering over the week-end to the North Atlantic states.

In New England the storm, was accompanied by a northerly gale. Four deaths in Boston and one each in Fall River, Lowell, Webster and Rivers, Mass., and Providence, R. I., were attributed to the storm and the cold.

PRES. HOOVER RETURNS FROM FISHING TRIP

Chief Executive Back in Washington Today After a Week's Stay in Florida

Washington, Feb. 17.—(AP)—Enraptured by Florida sunshine and rested by a week of fishing, President Hoover returned to Washington early today to resume his tasks as chief executive of the nation.

Mr. and Mrs. Hoover left their private car as soon as the train arrived and with their guests went immediately to the White House for breakfast. The train reached Union Station at 6:45 A. M.

The chief executive seemed much refreshed and invigorated after his mid-winter vacation. In sharp contrast with the tropical warmth of the Florida coast, Mr. Hoover returned to the city during one of the most severe spells of cold weather that the winter has brought.

In his party were Associate Justice Stone of the Supreme court, Mrs. Stone, Dr. Vernon Kellogg, Mr. and Mrs. Mark Sullivan, his secretary Lawrence Richey, and Lieutenant Commander Joet T. Boone, his personal physician.

While the expedition against the sailfish and Barracudas was not a huge success from the point of view of the fisherman, Mr. Hoover found consolidation in the rest and refreshment that his mid-winter vacation had brought him.

Throughout the week, but one sailfish was attracted to his hook, although he caught a number of barracudas and other smaller fish. The fishing honors went to Mrs. Stone, who caught the largest sailfish of the entire party, a sixty-five-pounder, measuring seven feet, ten inches. Her two hour struggle, with the gamy fish is to be additionally rewarded by one of the coveted gold buttons of the Long Keys Fishing club, an honor to which many a man has aspired in vain.

Woman Who Dressed Like Man, Is Dead

San Francisco, Feb. 17.—(AP)—Death today had ended the masquerade of "Dr." Hjalmar W. de Danneville, 70, a woman who for 12 years lived and worked here, dressed always as a man. After her arrest in 1925 for masquerading as a man she was given a permit to wear masculine clothing.

Death apparently was due to natural causes. "Dr." de Danneville, practiced the electronic theories of the late Dr. Albert Abrams. She held no license here to practice medicine, although she was said to have been a graduate of the University of Zurich. She came here from Australia 12 years ago.

Fifteen Arrested for Complicity in Shooting Rubio

Tampico, Mexico, Feb. 17.—(AP)—Fifteen persons, among them present labor leaders, were arrested here over the week-end and sent under heavy guard to Mexico City in connection with the shooting of President Ortiz Rubio on his inauguration day.

The general workers' federation here telegraphed President Ortiz Rubio and Joaquin Amaro, minister of war, asking release of the detained men and threatened that if their plea was not granted they would arrange for a general strike of Tampico workers and a public demonstration.

Assassination of the outgoing and incoming mayors in the nearby town of Villa Altamira, also brought some arrests, among them Octavia Tavera, a former mayor of the city. Cirro Rodriguez and Martin Martinez, were shot to death on the president's inaugural day at a party celebrating the change in municipal administrations.

GENERAL BUTLER AT BROTHER'S BEDSIDE

Mineral Wells, Tex., Feb. 17.—(AP)—Major General Smedley D. Butler was here today for an indefinite stay of several days at the bedside of his brother, Samuel Butler, who was injured several days ago in an automobile accident that cost the life of Horace Butler, another brother of Eastland, Texas.

General Butler arrived here yesterday after traveling in an army plane from Quantico, Va., to Shreveport, La., from there by train to Dallas where he arrived Sunday morning and proceeded here by automobile.

THE ONLY WAY OUT.

A low price for tobacco next fall will bring disaster to four Eastern North Carolina counties, Edgecombe, Pitt, Nash and Wilson, unless these counties to a great extent turn away from their dependence upon this money crop and see to it that enough home supplies are produced on the farms.

In Pitt County, our county-wide food and feed deficiency was \$3,129,432, while figuring it for the farms alone the deficiency was \$1,974,164. This means that we either sent this amount out of our county and a large part of it out of our state during 1928 for supplies, or we did not consume the nation-wide average amount.

If Pitt County and Eastern North Carolina is to get on a sound economic basis it must be through a system of farming that will provide first of all, the needs for home consumption.

want to but the only way out of our difficulties is to work our way out, and this is only possible through the live-at-home program.

ABOUT TOWN

If a flood of messages to members of Congress from this district have anything to do with the passage of the \$6,000,000 emergency relief bill for six southern states, then the measure stands a mighty good chance of early passage.

Members of Congress have found it advisable to appropriate practically give enormous sums of money to other states and governments from time to time without any considerable amount of opposition and it certainly looks like they should be willing to loan the trifling sum of \$6,000,000 to the distressed farmers of the six southern states who need aid worse this year than they have needed it before in years.

Nobody is asking the government to give them a cent. All they want is a loan to put them over the next harvest season and this will be covered by agricultural liens virtually assuring the government of a return of every cent of the money. A sum of \$5,000,000 was loaned to five states last year, and we have been informed that nearly 90 per cent of the money has already been paid back into the treasury.

North Carolina pays into the national treasury over \$24,000,000 of dollars annually for taxes, and it goes look like those members of Congress charged with preserving the rights of the people would be willing to at least loan a small percent of the annual collections to enable the farmers to get back on their feet.

The situation is one of the most serious this part of the country has faced in many a day, and were it not there would be no call for aid from the government. It is one of those conditions where the interest of the entire state are vitally concerned and which may play an important part in reducing some of the returns to the government in the form of taxes in future years.

Confidence in the future of Greenville and Pitt county is what this section needs at this time more than any other thing, a well-known business man remarked at a meeting here the latter part of last week.

Things may not be as bright as they once were, the gentleman declared but they could be lots worse, and the thing for this section to do is to wake up and buck the line hard from now on.

The same opinion has been expressed from time to time during the last several months and the majority of men engaged in the upbuilding of the community are beginning to live it. They know that the past has been filled with great achievement and have common sense enough to realize that the country has not come to the bows simply because this immediate section failed to produce a normal tobacco crop last year.

STATE TEAMS PREPARE FOR FINAL GAMES

Charlotte, Feb. 17.—(AP)—Final campaigns of the 1930 basketball wars will be waged this week by most of the North Carolina teams. Twenty-one games in all are scheduled.

Among those to bring their campaigns to a close this week, except for the Southern Conference Tournament at Atlanta, are Duke, N. C. State and Wake Forest. Davidson and the University of North Carolina have a game carded for next Monday as their final.

Whatever happens in play between Big Five teams will be regarded as an anti-climax. The season reached its big spot Saturday night when Duke clinched the Big Five title with a 37 to 35 victory over the University of North Carolina.

The Devils have won seven games from Big Five opponents and have yet to lose their first within the group. Among the headliners on this week's card for State teams are invasions of Maryland and Virginia Poly and a trip by the University of North Carolina five to Annapolis, Md., for a clash with the Naval Academy quint.

Maryland meets Duke, State and Carolina. The Blacksburg Cadets play State and Carolina. The Week's schedule: Monday—Catawba vs. Elon at Salisbury.

Tuesday—N. C. State vs. Maryland at Raleigh; University of North Carolina vs. Wake Forest at Chapel Hill; Davidson vs. Erskin at Davidson; Guilford vs. High Point at High Point; Rutherford vs. Mars Hill at Mars Hill.

Wednesday—University of North Carolina vs. Maryland at Chapel Hill; Lenoir Rhyne vs. High Point at High Point; Catawba vs. Appalachian State Normal at Salisbury.

Thursday—Duke vs. Maryland at Durham; High Point vs. Appalachian State Normal at High Point; Lenoir Rhyne vs. Elon at Elon.

Friday—N. C. State vs. Davidson at Raleigh; University of North Carolina vs. V. P. I. at Chapel Hill; Lenoir Rhyne vs. Elon at Elon; Appalachian State Normal vs. Guilford at Guilford College.

Saturday—N. C. State vs. V. P. I. at Raleigh; Duke vs. Davidson at Durham; University of North Carolina vs. Navy at Annapolis, Md.; Lenoir Rhyne vs. Catawba at Salisbury; Atlantic Christian vs. Appalachian State Normal at Wilson.

Giants and Sox At San Antonio for Spring Work

San Antonio, Tex., Feb. 17.—(AP)—Pitchers and catchers of two major league clubs, the New York Giants of the National League and the Chicago White Sox of the American League, were here today to start spring training.

The batters arrived here last night, the other players to follow about March 1.

The Giants, making their headquarters at the St. Anthony hotel, were scheduled for workouts at League Park, under the direction of Davy Bancroft and Irish Meusel.

The White Sox, with headquarters at the Gunter Hotel, awaited an inspection of the ball park at St. Mary's University before the word was given to start training.

Here to pass on the condition of the field were Donie Bush, manager of the White Sox, Lou Comiskey, treasurer of the club; Secretary Harry Grabiner and Lou Barbour, traveling secretary.

Local Girls Beat Jamesville

The Greenville girls added another victory to their list when they defeated Jamesville 31-18. At the end of the first half the score was 23-6. The star of the game was Jones, who made a score of 14 points. Jamesville's star was Manning, who made a score of 10 points. The substitutes for Greenville were Overton and Brooks. This is the seventh game and fifth victory of the Greenville team.

Prepare for Tournament

Atlanta, Feb. 17.—(AP)—With Alabama and Washington and Lee still leading with perfect records, southern conference basketball teams today embarked on the final full week of competition before the opening of the tournament February 23.

Washington and Lee, takes on V. P. I. twice at Lexington. Clemson meets South Carolina at Clemson in another intra-conference battle.

The tournament committee is to meet in Atlanta next Sunday to elect the 16 competing teams. Virginia Polytechnic Institute is the only member so far which has definitely declined to participate.

The teams to compete in the tournament will be selected on the basis of their season's records and the type of opposition.

Duke University's Blue Devils fought to victory over North Carolina, 37 to 35 and by that scant margin of one point clinched the Big Five championship of the Old North State. South Carolina was another victim last week of the rampaging Devils, 53 to 25.

Clemson, after an enforced idleness due to illness at the institution, came back with a vengeance during the week, taking three contests. Clemson jumped from twelfth place in the percentage column to ninth by virtue of her victories.

The Tigers whipped Florida twice and defeated Georgia Tech without leaving home. Florida fell, 33 to 28 and 47 to 20 while Tech dropped 50 to 26.

Florida's experience with the percentage column was unusual. The Gators lost two games to Clemson and defeated South Carolina twice to jump from twenty second place to fourteenth. Neighboring team's in the standings were idle.

FOUNTAIN NEWS

The Fountain Parent Teachers Association met Thursday evening, February 13, with an attendance of approximately 150 patrons and friends. Mrs. G. W. Jefferson, president of the association, presented a picture, "Baby Stuart," to the second grade for having the largest number of parents and friends voting for that grade.

A spelling match was the feature of the program. Mrs. R. A. Fountain and Mrs. Herman Owens chose sides, with about forty spellers taking part. Mrs. Linwood Owens, of Saratoga came out the words. Miss Bruce Ellis, high school English teacher, won the match for Mrs. Owens' side. Those who did not take part in the spelling were delighted with this form of entertainment.

The next meeting will be for the purpose of selecting officers for next year.

Mexico After Pistol Toters

Mexico City, Feb. 17.—(AP)—Mexico City police have begun to stop civilians in the streets, slap them on their hips to see if they are wearing guns, ask a few questions and let them go.

The actions are the result of a new order by President Pascual Ortiz Rubio, who was wounded ten days ago by an assassin shortly after his inauguration.

The order prohibits anyone except those connected with the military and police departments, and such civilians as have permits, to carry guns.

Pistol toting has been common here for so long that it has come to be regarded by the average citizen as his inalienable right. To convince him that he is entitled to no such privilege is expected to take considerable persuasion, and perhaps some force.

French Premier Reported Sick

Paris, Feb. 17.—(AP)—Andre Tardieu, French premier today with a severe case of grippe, complicated with laryngitis and a temperature of 101.

His physicians prescribed several days of complete rest and caused him to cancel arrangements for return to London, to attend the naval conference, next Wednesday, although, it is understood here, his presence is needed urgently there.

The premier reached Paris late last Friday suffering from a severe cold. Saturday he insisted on working throughout the day but Sunday morning his condition suddenly grew worse and he was sent to bed.

Royal Cars to Carry Special Kind of Horns

New York, Feb. 17.—(AP)—A Bucharest dispatch to the New York Times today said in the future all motor cars of the Rumanian Royal House would be equipped with special horns, the sounds of which the public will be expected to learn and recognize.

It is expected by this means to avert further incidents of the sort recently charged to Prince Nicholas, who allegedly, when a peasant's car got in the way of his automobile, stepped out and administered a whipping to the man.

When these horns are heard, the dispatch said, every other car will be obliged to dash to the side of the road and stand still until the royal car has passed. Anyone failing to clear the road instantly for any royal car will be severely punished.

Says Big Cities Responsible for Crime and Unrest

Washington, Feb. 17.—(AP)—Big cities themselves, and not prohibition, are responsible for much of the present day unrest and crime in the opinion of the Unitarian Temperance society.

In a memorandum prepared for presentation before the House judiciary committee when it begins hearings again on resolutions proposing repeal of the Eighteenth Amendment, the society said "our institutions, our courts, our customs were made for small pioneer groups."

"Today many of our psychologists batter one against the other in our big cities," the statement continued, "some being quite untutored in self government. Fifty years from now the descendants of these groups will be welded into a native group with a common race psychology."

"But today this common understanding, coupled with the knowledge of the restraints that self government demands, is lacking. To say that the repeal of prohibition will cure this grave problem is futile. The reopening of saloons or government controlled dispensaries offer no solution of the problem."

New Banks Open in Rutherford

Shelby, N. C. Feb. 17.—(AP)—Rutherford county, where ten days ago six banks closed, today had new financial institutions.

Charles C. Blanton, and Forrest Eskridge, officials of the Union Trust Company, Shelby institution formed Friday by the merger of the Union Trust Company and the Cleveland Bank and Trust company, were in Rutherford county today to open branches at Rutherford and Forest City.

The new bank combination has capital of a half million dollars and resources of nearly two million. Four branch banks are operated in Cleveland county.

With the opening of the Rutherford branches this morning, Mr. Blanton heads eight banks, with total resources of around eight million dollars. The First National Bank at Shelby has capital of \$900,000 and resources of over five millions.

Bill Provides More Servants At White House

Washington, Feb. 17.—(AP)—Hoover hospitality has made necessary addition of more servants to the White House staff.

Lieutenant Colonel U. S. Grant, 3rd, director of public buildings, asked appropriation of the basis of 77 employees this year, as compared with 62 last year, in hearings on the first deficiency bill.

Colonel Grant explained to the House appropriations committee that but seven new positions had been created, the additional employees being employed as "extra waiters, or for checking hats, coats, and so forth, and then for cleaning up that has to be done afterwards."

Market Report Cotton--Stocks--Grain

COTTON MARKET

New York Feb. 17.—(AP)—Cotton opened steady at a decline of 11 to 16 points today in response to easier Liverpool cables and sold about 15 to 18 points net lower by the end of the first half hour under liquidation, while it reappeared to be some Wall street and local selling. This was probably promoted by the lower opening of the wheat market and buying was comparatively limited after the covering of last week, although there was a moderate demand from the trade on the decline to 15.90 for May and 16.27 for October.

Liverpool cables said there had been local, continental and Bombay liquidation in that market with a poor offtake, and reported a fair cloth inquiry for Egypt and the Near East. One of the larger Worth street houses said their sales of cotton goods last week were moderately larger than preceding weeks and the best reported for a month, but better reports from the goods trade evidently failed to stimulate much buying at the start.

STOCK MARKET

By STANLEY W. PRENOSIL
 New York, Feb. 17.—(AP)—Strong rallying tentacles developed in today's stock market after a heavy week-end accumulation of selling orders had given a reactionary appearance to early trading. Many of the early declines of 1 to 6 1/2 points were cut in half, or wiped out by early afternoon, and a 10 per cent long list of issues were marked up 1 to nearly six points above last week's final quotations. Trading was only moderately heavy in volume.

Call money, which opened at 4 per cent and advanced to 4 1/2 per cent on Friday, renewed at 4 1/2 today, with only a moderate supply of funds available. The time money market was dull with a marked scarcity in foreign funds, which up to recently have been one of the chief sources of supply.

Revised weakness developed in the commodity markets. Chicago wheat futures sagging more than 2 cents a bushel while cotton sold off about \$1.50 a bale in the early trading.

Early selling was generally described as a correction of a temporarily over bought position built up in the rally of the last month. Because of the fact that stock prices have advanced much faster than brokers' loans, Wall street is inclined to the view that marginal buying has not reached very impressive proportions, although the volume of funds loaned by banks throughout the country on securities collateral is still above that of a year ago.

In the morning reaction, Auburn auto dropped 6 1/2 points, Vulcan Dettinger 6 1/4, and Newton steel Air-Plan Machine and Foundry-Vandium, Westinghouse electric and Lackawanna dropped 3 3/4 to 5 points. Coppers and oils were weak because of the uneasiness regarding the price structure in those industries, Standard Oil of New Jersey sinking to a new low level for the year.

U. S. Steel common sold down 1 1/2 points to 184 1/2 but recovered its loss by early afternoon.

Coal Miner Commits Suicide.
 Bonanza, Ark., Feb. 17.—(AP)—George Hedge, 25, a coal miner, is dead today, apparently a victim of his own gun, and Town Marshal Robert Ransome was in a hospital seriously wounded as the aftermath of Hedge's Sunday spree and Ransome's futile attempt to arrest him.

A farmer residing near here sent word to the marshal yesterday that Hedge, intoxicated was raising a disturbance at his home. As Ransome approached, the miner was said to have shot him in the face and then fled to the hills.

A posse, trailing Hedge last night, found his body on the summit of the mountain. His head had been virtually blown away by gunshot. A gun was clutched tightly in his hand. A coroner's jury was to hold an inquest today.

Fight to Stall Alabama Election to Higher Court

Birmingham, Ala., Feb. 17.—(AP)—His position for an injunction defied by the Circuit court, Horace Wilkinson, Anti-Smith leader in 1928 today prepared an appeal to the State Supreme court in an effort to restrain Jefferson county officials from proceeding with the August Democratic primary.

Wilkinson has attached qualifications for voters and candidates set up by the state party executive committee. The committee excluded persons who opposed the 1928 party presidential ticket from participating as candidates for state, federal and district offices, but invited all persons who would pledge themselves to support the Democratic nominees to take part in the primary as voters.

Wilkinson contends that the establishment of different qualifications for candidates and voters makes the primary illegal. He also has assailed as discriminatory the committee's ruling which leaves to the county committees the task of determining the qualifications of candidates for county offices. The Jefferson county committee has invited all qualified electors to participate as candidates for county offices.

Bring Injured Man to Shore.
 Lewes, Del., Feb. 17.—(AP)—Battling through heavy seas and a strong gale, in response to a radio message, Captain John Wingate, commander of a coast guard cutter stationed here, met the steamship San Rafael last night at the breakwater to transport an injured man and bring him ashore.

Old Paper Money Replaced With New Currency

Washington, Feb. 17.—(AP)—More than half of the old paper currency has been taken out of circulation and replaced with the new size bills since they were first issued last July.

Testifying before the House appropriations committee on the first deficiency bill, G. O. Barnes, assistant treasurer, said that of \$696,000,000 in National bank notes in circulation, \$410,000,000 had been replaced with the new currency.

The work of placing the new bills in circulation, he added, made necessary the employment of a large number of extra employees in the Treasury Department, at times reaching a maximum of about 270.

A large portion of these temporary employees probably will be kept on until the end of the present fiscal year "because we have not been able to get the old note in as fast as we expected when we started," he added.

THREE HELD FOR ATTEMPT TO HOLD UP JUDGE

Whiteville, N. C., Feb. 17.—(AP)—Three men were held here today after an attempt to hold up Judge E. H. Cranmer of Southport last night.

The men under arrest gave their names as Frank Petchik and Joseph Polizi of New Orleans and Joseph McGovern of Baltimore.

The alleged holdup occurred yesterday after Judge Cranmer, a member of the Superior Court bench and given them a ride.

The judge said he was riding alone in Columbus county when he picked them up. Polizi, on the back seat, drew a pistol and ordered the judge to pull over to the side of the road.

As he stopped, another automobile approached and stopped. Polizi pistol in hand, jumped out and ran toward it. The driver drove away rapidly and before Polizi could get back in Judge Cranmer's automobile, the started driving away.

Judge Cranmer pushed Polizi off when he attempted to get back in the running car.

Neither of the other men made any effort to stop the judge who drove to Delta, N. C., letting them out there. Both men said Polizi previously snapped his pistol at the judge.

State Highway patrolmen arrested the men. Petchik and McGovern denied ever having seen Polizi before.

American Fliers Leave Lima, Peru

Lima, Peru, Feb. 17.—(AP)—Lieutenants Will White and Clement McMullen, U. S. Army fliers, who arrived here this morning en route to Buenos Aires, hopped off shortly after noon for Pica.

The airmen plan to spend the night at Arica and then to leave for Santiago, Chile. Tomorrow morning, arriving there by dusk.

The flight from Talara to Lima was foggy for a time but the sky cleared up finally. The men will try to establish radio communication during the Lima-Arica hop using a 32.5 meters wave length.

Find Automobile Loaded With Rum

Raleigh, Feb. 17.—(AP)—Raleigh police yesterday found an abandoned automobile within the city limits containing 108 half gallon jars of whiskey. It was the largest whiskey capture made here in months, they said. The liquor was tightly packed in the rear end of the small sedan.

Chief of Police W. J. Bryan expressed belief that the car was accidentally wrecked when pursued by hi-jackers.

The injured man, Edward J. Bartlett, 23, of Portland, Oregon, second mate of the San Rafael, fell and hit his leg as the vessel was on a voyage from Philadelphia for the Pacific coast. The wound had become infected.

MUCH INTEREST MANIFESTED IN LIVE-AT-HOME

More Meetings for Pitt; Hog Shipments to Begin March 1st; Poultry Schedule

To date live-at-home meetings have been held in the following communities: Winterville, Ayden, Grifton, Chicod, and Grimesland.

These meetings have been well attended and the farmers are making plans for another year which it is said will increase the food and feed crops of Pitt county.

The following meetings have been arranged for this week:
 Falkland at 7:30 p. m., Monday, February 17.
 Fountain at 7:30 p. m., Tuesday, February 18.
 Stokes at 7:30 p. m., Friday, February 21.

Shipment of hogs from Pitt county to the Richmond stock yards will begin March 1. Plans have been arranged for the first week in March and farmers who have finished hogs and desire to ship same should get in touch with the county agent's office before that date and arrange for same. Last year more than 15 carloads of hogs were shipped in Pitt county, bringing to the farmers a gross income of better than \$28,000.

This method of shipping hogs enables the farmers with one or two hogs to be able to place them on the market as cheap per head as if they had a carload of their own.

The market conditions in Richmond are good. Top hogs are bringing at this time \$11.25 per hundred live weight and indications are that these prices will hold and perhaps strengthen some within the next 30 days. Those who have hogs to market are urged to get in touch with the county agent's office.

Another poultry schedule has been arranged through the county agent's office for Ayden, Wednesday, February 19; Greenville, Thursday, February 20; and Farmville and Bethel on Friday, February 21.

This is the third sales for the season. The first two sales paid \$3,282.06 in cash to the farmers on day of sales. Arrangements through the poultry committee have been arranged to put on a regular schedule every two weeks, announcements of which will be made from time to time through the press and by cards mailed to individual farmers.

Those who have poultry for sale and desire to be kept advised as to dates of sale and prices quoted should get in touch with the county agent and arrange to be quoted on same. Last year more than \$35,000 were paid out to the farmers of Pitt County in cash for poultry delivered at the car on sales days. This service is being arranged for the convenience of the farmers and it is hoped that they will take advantage of it.

Today's issue of The Reflector carries price quotations to be paid at the car this week.

Rocky Mount Man Shot in Georgia

Columbus, Ga., Feb. 17.—(AP)—George West, 30, of Rocky Mount, N. C., sustained a broken leg when he was shot during an attempt to escape after he and Roy Holt, 18, who said he was from Arkansas, had been arrested yesterday by Patrolman C. G. Reed.

West was taken to a hospital, where it was said his injury was not serious. He is charged with carrying concealed weapons and resisting an officer. Police said one of the men confessed he paid had robbed a store and filling station near Geneva, Ga.

Patrolman Reed, during a struggle with West, was struck on the head. As West pulled a knife from his pocket the officer said he fired his pistol, the bullet hitting West on the right leg, breaking it just below the knee.

London, Feb. 17.—(AP)—The giant British dirigible R-100 is now undergoing tests with the possibility that she may make a flight to Canada towards the end or the beginning of May.

BANK OF COMMERCE TAKEN OVER TODAY

Spartanburg, S. C., Feb. 17.—(AP)—The affairs of the Bank of Commerce, a state institution here, passed into the hands of the Central National Bank of this city today, following a conference of officials of the two institutions.

John A. Law, president of the Central National and Chester Ward, head of the Bank of Commerce, in a signed statement said:

"Under the guidance of a representative of the Comptroller's Department, and after a thorough investigation of the assets of Bank of Commerce, the Central National Bank has taken over the assets of the Bank of Commerce and has assumed their deposit liability."

ROBBERS WORK TOO FAST AT GREENSBORO

Greensboro, Feb. 17.—(AP)—Overlooking \$300 in currency kept in the safe, robbers entered the company store at Revolution cotton mills here and took \$75 in cash and a number of pieces of jewelry kept in the office safe.

PROPOSE REDUCTION OF ALUMINUM TARIFF

Washington, Feb. 17.—(AP)—Reduction in existing tariffs on aluminum to the level of the Underwood rates of 1913 was proposed in the Senate today by Senator Walsh, of Montana, acting Democratic leader.

Walsh proposed rates of 2 cents a pound on crude and 3 1/2 cents on sheet aluminum as compared with 5 and 9 cents, respectively, now in effect. The tariff bill makes no change in present duties on this product.

He contended the aluminum company of America had a "complete monopoly of production", that existing rates were designed to equalize differences in costs of production here and abroad, and that the company has declined to make public its production costs.

A Storehouse of History

ORGANIZED 100 years ago in Petersburg, Virginia, a city rich in historic interest and destined to play a deciding part in events of future years, the Petersburg Railroad was the worthy pioneer of that notable group of railroads, serving the famed coastal plains of the Southeast, that were brought together to form the Atlantic Coast Line Railroad Company.

No part of America has more of historic interest than the sections served by the Coast Line. Here is a land that "fairly reeks with history".

Gentlemen of France, Grandees of Spain; Lords and adventurers of Merrie England; pirates and buccaneers; Indian fighters, baronial planters, noted statesmen; the persistent, will-o'-the-wisp forces of Sumter and Marion; the ragged, hungry, undaunted armies of the Confederacy. All these have lived and loved and fought and died and left their imprint here.

In this section the first English colonies in America were started; France and Spain made futile bids for this great empire.

Here are cities and towns that date back to the dawn of our country's history. Many have known the hardships of occupation by hostile armies. Hardly a cross-roads hamlet but has witnessed stirring and important events, or has sent its sons to play leading parts in the affairs of their times.

Here the tyranny of George the Third first met with outspoken and organized resistance. Here scores of bloody battles have been fought. These shores have been pillaged by Blackbeard and Gasparilla and other pirates of their day. Into these ports swift blockade runners came, daring the fire of Union fleets, to bring food and munitions to Lee's tattered forces.

Richmond, Norfolk, Petersburg, Newbern, Wilmington, Fayetteville, Augusta, Columbia, Charleston, Savannah, Brunswick, Montgomery, St. Augustine, Tampa, Bradenton. Each name brings up pictures of the stirring events that all of these have seen. And there are scores of other places where much history has been made.

Not the least important event of an eventful century has been the welding of more than 100 railroads into the Atlantic Coast Line System, serving the six southeastern states and making a reality of that "Great Highway of the Union" which the founders of the Petersburg Railroad envisaged one hundred years ago.
