RADICALS HELD AFTER RIOTING IN CALIFORNIA

Twenty-Seven Men Detained After Attempt to Storm Los Angeles City Hall

Los Angeles, Feb. 27.—(AP)—A riot in which 3,000 alleged Communist sympathizers, milling and shouting, attempted to storm the Los Angeles city hall but were turned back by 300 policemen liberally using tear gas bombs and night sticks, had its aftermath today in the detention of 27 asserted radical leaders.

The police also organized to prevent any possible recurrence of the trouble, which started in the city plaza at 6 P. M., yesterday and ended only after the crowd had been pushed back a second time by the officers.

Pandemonium broke loose when police, plain clothes men and reserves at first attempted in orderly fashion to disperse the crowd gathered to stake a demonstration which was to culminate with a march upon the city hall. Screaming, scratching women and shouting men trampled bystanders underfoot and shouldered officers aside in a wild scramble from the plaza into the streets.

Carl Sidar, a district organized for the Communists, hoisted upon the shoulders of two men, started to address the crowd. Attempts of police to take him from his post were met with resistance. Officers were surrounded and struck down. Inflammatory placards appeared over the mob; Communist papers were thrown broadcast. From out of the crowd came a shout: "Comrades, charge the police and beat them down!"

Armed with tear gas bombs the police finally succeeded in turning the first rush, only to be met by a fresh onslaught from a milling group in Spring street, beginning another movement toward the city hall. Tear gas bombs stopped them short. The police front stood firm, and the uprising quieted rapidly as leaders of the rioters were loaded into patrol wagons and ambulances. Several required emergency treatment before they could be booked at police headquarters.

Blames Low Wages for Ills of the Textile Industry

Pinehurst, Feb. 27.—(AP)—Samuel Lampert, of the Lampert company, New York cotton exporter, a visitor here, issued a statement today in which he blamed what was described as "inhuman and unfair wage rates in certain sections for grievous ills of the textile industry."

Over production and disorganized marketing methods were described as the "besetting sins" of the industry. Mr. Lampert asserted that the former "had its roots in an unfair situation that maintains in different parts of the south, where there is a great disparity of wage scales between the different states of the south." He predicted a crisis in the situation.

The Lampert interests are among the largest exporters of cotton in the country.

Discussing over-production and wage scales in different parts of the south, Mr. Lampert asserted that in certain sections cotton mill owners not only exploit their help during the daylight hours but with unmitigated arrogance run their mills day and night to the detriment of the mills farther north who pay higher wages and give human consideration to their workers.

"This," he continued, "leads to a state of very unfair competition and makes the lot of those who want to give their employes fair wages very difficult indeed."

MAKES DENIAL OF EXISTENCE OF OIL TRADE WAR

John D. Rockefeller Says His Father Is Not Dictating Oil Policies

New York, Feb. 27.—(AP)—John D. Rockefeller, Jr., today issued a statement denying reports that his father was directing an "oil trade war."

"I must emphatically deny," he said, "the statements that my father has again taken the initiative in dictating oil policies and that it was he who directed Standard Oil's interests to order a cut in fuel price to Texas and Mid-Continent crude oil."

"Naturally my father continues to be interested in anything pertaining to the oil industry, to the development of which he gave so many years of his early life. However, since his retirement from business, more than a quarter of a century ago, he has had nothing to do with the operation or management of any oil company or whether in relation to prices or anything else."

Books Given to Library.

Mrs. Ada Cherry has recently given to the library a copy of the Life of Wendell Wilson, by Josephus Daniek. Mrs. H. E. Austin has given "These Eventful Years," the "Twentieth Century in the Making," in two volumes, also a geography reader for juniors. All these books furnish splendid reference material.

A recent installment of books from the Carnegie Foundation includes:

Hoeffner, "French Franch;" Howell, "An Irish Rhapsody;" Lattimore, "Desert Road to Turkestan;" Backwith, "Black Roadways, Jamaica;" Potter, "This World of Nations."

"This World of Nations" is a splendid background for international thinking. It is a broad intelligent view of the world as a whole and quite worth careful reading and study.

Round Table Club Meets.

The Round Table Club met in the home of Mrs. E. W. Griffin Monday afternoon. The meeting was presided over by Mrs. J. E. Winder, president of the club. The subject for the meeting was "Frank Crane, Journalist, and Christopher Morley, Writer."

Mrs. T. A. Person gave an interesting talk on the lives and works of these writers, telling the members why Frank Crane gave up preaching to become a journalist. Mrs. Person read sketches from Morley's books "The Eighth Sin," "Parasus On Wheels" and "Where the Blue Begins."

Miss Jessie Meye contributed to the program by singing an Italian air "O Mio Babbino Caro," by Puccini, and a French song "Les Frais Chansons," by Busc; also "Will You Remember" by Romberg.

A delicious tea course was served by the hostess, assisted by Mrs. Luther Herring. The guests were: Mrs. Donald Kirby, Mrs. Cooper Taylor, Mrs. Katherine Thomas, Miss Jessie Meye, Mrs. J. E. Nobles and Mrs. Spence, sister of Mrs. Griffin, who is her house guest for this week.

BEGIN REMODELING OF OFFICE BUILDING

Farmville, Feb. 27.—Remodeling operations were started on the Holmes office building on Main street this week, and plans call for a modern and up-to-date job both inside and out. The one-story brick structure, built several years ago, is to have a slight change in the front, which will include a new entrance and a vestibule.

There is to be a large reception room, a private consultation room and operating room for Dr. W. M. Willis, who is at present occupying offices in the municipal building. The three offices on the other side will be occupied by the owner, J. W. Holmes, Attorney Walter C. Sheppard, and W. J. Rasberry.

Rubber tile will be used in reconstructing the floor, the ceilings will be paneled and all of the office fixtures will be new and in keeping with the style of the building.

—THE VANITIE BOXE

Mrs. Shay Hostess.

The members of the Literary Department of the Woman's Club were entertained Tuesday afternoon at the home of Mrs. R. J. Shay.

The life and works of George Bernard Shaw was discussed in a very unique way by Mrs. M. K. Fort. Mrs. Fort compared Shaw's life to a tall well built man, each room representing a section of Shaw's life. Shaw tried his hand at many different things. He lived up to his words. "I want to be thoroughly used up when I die, for I reject life for its own sake." He was a novelist, artist, musician, dramatic critic and playwright. His first novel, "Immaturity," was never published. Shaw said that the rats themselves were not able to finish it. Some of his novels are "Caskel Byron's Profession," "Love Among the Artists," and "Irrational Knot." Shaw had a rare and individual style.

He became a music critic about 1890. Mozart was greatly admired by Shaw. "It was not his divine melodies but his perfect technique that profoundly interested me," said Shaw.

Shaw had better success as a playwright. Some of his plays are "Widowers Houses," "Arms and the Man," "You Can Never Tell," "The Man of Destiny," and "Joan of Arc Re-created." Probably his most interesting play was "Candida." He treats the whole theme of a triangular situation in a very unique way. Mrs. Hyman delighted the club by reading "Candida" in a very dramatic and forceful manner.

At the conclusion of the program, Mrs. Shay, assisted by Mrs. E. L. Henderson, served delicious refreshments.

Garden Club.

Farmville, Feb. 27.—The roll call at the Garden Club meeting on Monday was responded to with names of trees and their uses. Mrs. R. A. Fields was hostess and her home was lovely with early spring blossoms.

The club voted to keep the Garden Club as its cognomen, and expressed regret at losing a member, Mrs. J. W. Boomer, who has moved to Kinston. The hour of meeting was changed to 9:30. The president, Miss T. De Visconti, requested each member to plant a tree during Forestry Week, March 16-22. Plans were filed out in accordance with the Home Safety Survey, and Mrs. Chas. Moring was elected secretary.

A contest on leave was very instructive. This was followed by an article read by Miss De Visconti, "Do We Americans Really Love Trees?" and a paper, "How to Plant Trees," by Mrs. R. A. Fields. A vocal number, "Trees," by Joyce Kilmer, was sung by Mrs. J. W. Joyner.

Literary Club Meets.

Farmville, Feb. 27.—The Literary Club was charmingly entertained this week at the home of Mrs. G. A. Rouse, with Mrs. G. M. Holden acting as hostess for Mrs. Annie Lang, who is recuperating from a recent illness.

A report from the library committee chairman, Mrs. J. Y. Monk, was heard and the club voted to co-operate with the Federation in the Home Safety Survey. The first meeting in March was changed from Ash-Wednesday to Tuesday, and the president, Mrs. J. W. Parker, announced that the district chairman, Mrs. C. J. Sawyer of Winder, would be present. Eight new laws relative to membership and attendance were submitted by a legislative committee and voted upon.

An article was read by the president from the Bulletin, stating that North Carolina's gift of \$1,000 to the Foundation Fund was the first money received, that the state holds third place in subscriptions to the General Federation News and that it has been selected for the survey of "Safety in the Home."

"The Work of Barrie" was the subject of a paper read by Mrs. G. A. Jones, and his play, "What

Standard Service Station Operators Entertained Here

On Wednesday evening at eight o'clock, the Friendly Dining Room of this city was the scene of another beautiful dinner, especially prepared for the service station operators of the Standard Oil Co. of New Jersey, throughout the Greenville district, consisting of seven counties.

Prior to the dinner, the operators gathered at the bulk plant of the company on Dickinson avenue and proceeded in a dining room, the operators numbering approximately thirty. Upon entering the dining room, it was found beautifully decorated for the occasion, and the dinner which consisted in part of fruits, salads, roast chicken, dressings, hot biscuits, etc., was served in courses. That the eaters provided a panacea for the appetite of each man was readily made evident.

After dinner, P. A. Mison, service station supervisor, addressed the men along the lines of general business. He made some very helpful and interesting remarks which were heard with intense interest. Then F. A. Jones, district manager, was asked for a short talk. He was likewise heard with keen interest. Mr. Jones made some especially helpful remarks pertaining to safety operation. Mr. Todd, operator of a local service station, and secretary of the Eat-Once-a-Month Club, made an interesting talk.

The operators present represented many stations from Snow Hill to Columbia. F. A. Jones, W. T. Huff and B. T. Smith of this city, were guests of honor.

FALKLAND NEWS

Dr. and Mrs. S. M. Crisp, of Greenville, were here Sunday.

Several from here went to Washington Sunday.

Mrs. Mary Fountain, of Raleigh, has spent several days visiting her brother E. C. King and others here.

Mr. and Mrs. Richard Thornton and son of Farmville, visited at the home of G. H. Pittman Friday.

Mr. Berry, of Salskin & Berry, Washington, was here Monday.

Belvoir played Falkland Wednesday. Score, 9-10 in favor of Belvoir.

Misses Emily Gooding and Virginia Crutchlow, of E. C. T. C., spent the week-end at the teacherage.

Mrs. Jessie Chambers, Miss Oslee Chambers and Miss Lila Arthur also Mrs. and Miss Annie Ellwanger of Greenville, were visitors of Mrs. P. G. Mayo Thursday.

The next meeting of the Community Sewing Club will be with Mrs. R. J. Little on Wednesday night. The other two were with Mrs. Tyre and Mrs. Marslinger.

Mr. John Little, of Winterville, filled the pulpit here the third Sunday night, and Mr. Leanday Man-

ning preached here the fourth Sunday night.

There are times when we need faith in God, ourselves and mankind.

We have a striking example in George Washington new, when glowing eulogies bespeak a nation's gratitude on his 198th birthday.

Washington did what very few have done or could do. He freed his country and then wisely ruled it as its chief executive, brought order out of chaos, offered a solution for every problem, placed the new government upon a stable foundation, then laid down the duties of his office and two years later died. His exit was as his public career, peaceful and dignified.

It remained for Washington to carry out in the new world what there had begun in the old. He kept faith with them just as Marshall, Webster and Lincoln kept faith with Washington in their endeavors. Washington was great in his goodness and good in his greatness.

He was a business man, statesman and booster.

He was the most widely traveled man of his times.

In agriculture he was up to date, loving order and precision. Each man has his own records.

DIVERSIFICATION was his method, making also improvement in marketing products.

Washington was a man of vision, a great financier who gave more than moral support, but wealth besides. A leader with long range viewpoint who practiced what he preached.

He freed his slaves in his will and left funds to take care of them after his death.

He also left money to fund a university in Washington.

We can think of Washington as a great exponent of thrift, honesty, integrity and sound accounting.

He enforced it in the government. Business needs initiation, contacts with all kinds of people. Tomes of stress and anxiety, steering the course of a nation is business on the grandest scale. Faith is necessary.

A need for pulling together is also as necessary now as then. We are facing problems. We need imagination, courage, will to risk all, capacity to plan and organize, sportsmanship, resolutions.

Happy Feed Store Has Prepared Big Program Saturday

Saturday, March 1 has been designated as "Live-at-Home Day" by the J. A. Watson Feed Store, and from six o'clock in the morning until late at night they will entertain hundreds of their customers from various sections of the country.

An interesting program has been set aside during the day, and different products conveying the "live-

at-home" idea will be displayed. Prizes will be given away every hour and users of "Happy Feed" products will have the opportunity of learning about the wonderful results obtained from the use of this feed.

The program is one of the most unique ever arranged by a store of this kind and the public is given a cordial invitation to attend.

Says Radio Talks On Education Must Be Sugar-Coated

Washington, Feb. 27.—(AP)—Secretary Wilbur's advisory committee on radio education has found that one of the chief objections to multiphase instruction is that "educational broadcast sandwiched between sales talks on cigarettes and... must be so sugar-coated they lose most of their educational value."

The committee, composed of educators, radio officials and prominent broadcasters, has been given the task of evolving methods for the promotion of educational broadcasts to schools and classrooms throughout the country.

Summarized, the objections raised to radio as a medium of bringing education to adults are:

The average person does not want

education and resents the implication that he needs it; the effects of educational talks are largely passive; radio talks encourage the fallacy that listening signifies the acquisition of learning, and the radio bars all teachers except those who have good delivery.

The advantages of radio, which the committee says probably more than offset the disadvantages, are set out as follows:

It democratizes higher learning by removing obstacles that now make it available only to a small percentage of Americans, and brings it to all ages, sexes, colors, races, creeds, and people in all stations or economic conditions. It carries the lessons of great teachers to multitudes of listeners.

LOSES BET—AND HIS CAR.

A certain gentleman bet his friends he could drop a lighted cigarette into the gasoline tank of his car and that the cigarette would simply be put out. His friends took him up and the test was made.

When he dropped the cigarette there was no hesitation or delay—he lost his bet and his car, too. All he gained were some painful burns, a lot of excitement and an entirely new knowledge of the properties of gasoline!

Perhaps the gentleman had read somewhere that liquid gasoline will not ignite—an exceedingly dangerous half-truth. You can't have gasoline in an open vessel without also having the deadly dangerous gasoline vapor. And the glowing butt must first pass through the vapor, which is ignited by the smallest of sparks! This incident should be a warning to all that gasoline ignites easily. Great property damage results every year from accidents with petroleum and its products and from their misuse. Reports to The National Board of Fire Underwriters for the year 1928 indicated a total fire loss from this cause of over \$15,250,000.

You wouldn't play with dynamite. Give gasoline the same degree of respect!

THE PRACTICE OF LOG-ROLLING.

How many elected officials use their influence to promote legislation that seems best for the nation as a whole, rather than for a small group or locality?

The answer is: few. One could probably count them on one's fingers.

In an article in the American Mercury on "The Twilight of Legislators," Hoffman Nickerson illustrates how politicians go about their business. "One of the worst legislative vices has always been that known as log-rolling," says Mr. Nickerson.

"In simple times an individual building a house had said to another, 'If you will help me roll my logs, I will help you roll yours.' In legislative practice this meant that Legislator A would agree to vote for an appropriation to benefit the constituency of Legislator B if in return B would vote for money to be spent in the district 'represented' by A, and so on down the line."

Mr. Nickerson was once a member of the Assembly of New York State, and so knows what he is talking about. Modern legislation, to a great extent, is merely a matter of trades. As a result, the nation as a whole suffers from a vast amount of unnecessary conflicting, unenforceable or otherwise inadvisable legislation. The public must pay the bill in taxes for log-rolling politics comes high.

ABOUT TOWN

"If this warm weather had only come to stay, I would feel much better about it than I do," said a citizen yesterday, commenting on the mild temperatures which the people of this section have been enjoying the last several days.

"About the time we get accustomed to the change in temperature, however, another change occurs and causes us not to know what to expect next.

"I knew all of the warm weather could not continue, and like many others revelled in it while I could.

"If the weather man knows what he is talking about, we are in for one of those changes now, and it will not be long in coming judging by the reports emanating from other parts of the country."

The Pitt County Council of Boy Scouts of America is composed of R. C. Deal, chairman, Jasper Winslow, vice-chairman, Rev. E. L. Hillman, B. E. Surg, Dr. Paul Fitzgerald, Haywood Deal, F. C. Harding, Dr. R. H. Wright, Herbert Waldrop, Rev. W. A. Lillycrop, E. F. Arnold, Dr. M. B. Massey, W. H. Rogers and J. J. Sumnerell.

Through the untiring effort of these men, who have given unstintingly of their time and thought, Boy

Scouting has been revived and put on a sound basis in Greenville and Pitt county. They are all busy men, and the community owes thanks to them for the effort they have made in this great work that they have so successfully handled.

The Boy Scout of today will be the man of tomorrow and the more he realizes the responsibilities resting upon him as a citizen, the greater should be his achievements.

Every part of Eastern Carolina is putting its best foot forward to drive off the spirit of depression resulting from crops failures the past year, but no section is accomplishing more than Pitt county.

All around us the farmers are clearing off their fields in preparation for planting season, and when that time comes we are going to forget all about that "hard times" talk passed from mouth to mouth during the early part of the year.

The live-at-home movement started by Governor Gardner sometime ago has given the general run of people something to think about, and some are trying to apply it. They realize that the time has come for the application of thrift and the movement is going to be put to the crucial test during the next several months.

Pitt county is situated in one of the richest agricultural sections of the country. Its farmers can grow almost any kind of crops they desire, and in this live-at-home campaign they are going to put the fertility of their soil to a supreme test. They are going to produce money crops also but they are going to raise more of the things they use at home and if the money crops do not pan out right they will continue to live like human beings ought to live just the same.

A loss in the sale of stock or bonds may be deducted on account of anticipated profits that have not been realized. A dealer in securities, as defined by income tax regulations, may use the inventory method to report income because the stocks and bonds held by him are not investments but comprise his stock in trade.

A taxpayer possessing stock of a corporation cannot deduct from gross income any amount claimed as a loss merely on account of shrinkage in value of such stock on account of fluctuation of the market or otherwise. The loss allowable in such case is that actually suffered when the stock is disposed of.

A taxpayer, other than a dealer in securities, can not deduct any loss claimed to have been sustained from the sale of stock of securities, if within 30 days before or after such sale he has acquired other than by request or inheritance substantially identical property. This provision is designed to prevent a taxpayer, in computing net income, from claiming as a deduction a so-called loss sustained from a sale of securities, which is immediately fol-

lowed or immediately preceded by a purchase of substantially identical securities. Gain or loss, however, is realized in the case of a "short sale". A taxpayer owning 100 shares of the X corporation, who purchases another 100 shares and within 30 days thereafter sells the first purchased stock can not deduct any loss claimed to have been sustained from the transaction; if he sells the entire 200 shares, a gain or loss from both transactions is thereby realized at that time; and if he sells the stock included within the second purchase a gain or loss is realized.

Seek Closing of Communist Hall At Charlotte

Charlotte, Feb. 27.—(AP)—Urging a reputedly Communist labor hall maintained in this city be "permanently closed", a petition before the city council today charged that the establishment is "a disgrace to any respectable community". Signed by 217 Charlotte residents, the petition declared "this place in stench in our nostrils." It urged both the council and chief of police to close the hall and that "the people who are conducting meetings there, in which negroes and whites foregather and mix on terms of social equality, be forbidden to hold these meetings."

The appeal to the council charged the hall was being used "to spread the doctrine of social equality, free love, destruction of all our institutions and our government and of belief in God and the Christian religion, and these things are being taught to young white and negro boys and girls, as well as old people."

The council today was considering the petition, which was presented yesterday at the weekly council meeting. Councilmen announced they planned to seek legal opinion on whether they have authority to order the place closed. The hall, located in an industrial section of the city, was established several months ago.

Mull Calls Meeting Of N. C. Democrats

Raleigh, Feb. 27.—(AP)—The State Democratic Executive Committee was today called to a special session here Thursday night, March 6. Odus M. Mull, chairman of the committee and executive council to Gov. O. Max Gardner, issued the call. The sessions will be held in the hall of the House of Representatives in the capitol at 8 o'clock. The time and place for holding the Democratic State Convention will be decided at the committee meeting and such other business as may properly be presented for consideration at that time will be received. Mr. Mull said.

Mr. Mull has said that he believes it would be unwise to hold the Democratic State Convention until after the June primaries have been held. "The business of the convention," he said, "is to make plans to defeat the Republicans, but if the convention is held before the primary many of those present will be thinking of doing something to the advantage of either Bailey or Simmons and the effect might be very harmful."

Before 1928 it was the uniform practice to hold the convention in April. In 1928 it was deferred until June so that it could be seen what other states would do in regards to candidates.

AVOID THAT FUTURE SHADOW*

By refraining from over-indulgence, if you would maintain the modern figure of fashion

Women who prize the modern figure with its subtle, seductive curves—men who would keep that trim, proper form, eat healthfully but not immoderately. Banish excessiveness—eliminate abuses. Be moderate—be moderate in all things, even in smoking. When tempted to excess, when your eyes are bigger than your stomach, reach for a Lucky instead. Coming events cast their shadows before. Avoid that future shadow by avoiding over-indulgence if you would maintain the lithe, youthful, modern figure.

*Be Moderate! . . . Don't jeopardize the modern form by drastic diets, harmful reducing girdles, fake reducing tablets or other quack "anti-fat" remedies condemned by the Medical profession! Millions of dollars each year are wasted on these ridiculous and dangerous nostrums. Be Sensible! Be Moderate! We do not represent that smoking Lucky Strike Cigarettes will bring modern figures or cause the reduction of flesh. We do declare that when tempted to do yourself too well, if you will "Reach for a Lucky" instead, you will thus avoid over-indulgence in things that cause excess weight and, by avoiding over-indulgence, maintain a modern, graceful form.

MIAMI READY FOR ANNUAL RING BATTLE

Miami, Fla., Feb. 26.—(AP)—The sixty-six ton whole that has been on exhibit along Biscayne boulevard gives way tomorrow as an attraction to a mere ton of heavyweights.

With not a great deal more to be said about the proceedings, even by the loquacious manager of Phil Scott, ten assorted big fellows of the ring, collected from five countries but representing eight nationalities altogether, will be tossed into the arena tomorrow evening in the second annual battle of the coconut palms. They will be put on view by the Madison Square Garden Corporation, in winter headquarters here, for the edification of the social aristocrats of the Florida winter colonies and others who may have been persuaded by the balmy air or the ballyhoo to pay from \$5.49 to \$25 for a peek at the fistie festival.

Most of those who motor out to the octagonal, wooden arena on the outskirts of town expect to see the American champion, Jack Sharkey, flatten the British heavyweight hope, pale and gangling Phil Scott, in a main event that is billed for 15 rounds and not expected to go beyond three or four by a substantial quorum of experts. If the show is a financial and artistic success, it probably will be in spite of the main event, which has developed insufficient interest or rivalry to promote much ballyhoo.

The Sharkey-Scott match is one of the last of the long drawn out series of heavyweight eliminations, the winner of which is slated to box Max Schmeling of Germany for the "world's championship" at New York in June.

The prospects today were that a crowd of between 25,000 and 35,000 will pay upwards of \$200,000 to witness the show. Frank J. Bruen, general manager of Madison Square Garden, and his box office experts were optimistic that these figures would be exceeded and that the "gate" would pass \$300,000 with a heavy sale during the last two days.

Speculation over the outcome of the main bout was centered principally upon how long it will take Sharkey to win. The odds on the American, following the completion of the long training grinds, seemed inclined to rise, instead of shorten. A 3 to 1 favorite right along, Sharkey appeared likely to enter the ring at 5 to 1, with no takers.

UNCOMFORTABLE AFTER MEALS

Indigestion Troubles Relieved By Taking Pinch of Black-Draught After Meals.

Jefferson, Ga.—Mrs. C. L. Lanco, of this place, was bothered with indigestion a few years ago, and recently described how she was relieved. "After meals I would be so tight in my chest," she explained. "There seemed to be a lot of gas. This made me feel so dull and stupid. "I did not have an appetite. "My mother advised me to try Black-Draught, which I did—a pinch after meals. I certainly did get relief. "When I feel the least bit out of sorts, I know what to do—I take Black-Draught. I can recommend it for constipation, headache, gas and indigestion."

All people—young and old—need Theford's Black-Draught when troubled with constipation, indigestion, biliousness, which cause so many disagreeable symptoms. Thousands of people have written to tell how these troubles disappeared after they had taken Theford's Black-Draught. This well-known medicine is purely vegetable. Easy to take. SPORTS SLANTS

By ALAN GOULD (Associated Press Sports Editor)

Last year it was the Golden Arrow. This year it is the Silver Bullet. Nineteen thirty-one may see the Copper Cannonball leading down the sands of Daytona Beach at a speed anywhere from four to five miles a minute.

The present straightaway world's record is close to four miles a minute—231,362 miles per hour, made last year by Sir Henry O. D. Seagrave in the famous Golden Arrow. Kaye Don, motor noted British pilot, aims at somewhere around 350 m.p.h. with his Silver Bullet in the speed trials scheduled March 15-20 at Daytona. Theoretically his special Sunbeam creation, powered with a brace of 12-cylinder motors of airplane type developing 1,000-horse-power, is designed to reach a speed of 280 m.p.h.

Next year, if J. M. White develops his plans for a 48-cylinder thunderbolt for the purpose of bringing the record back to America, 300 m.p.h. may be attained. This it seems to most experts, may be about the limit

that can be accomplished under human control. The element of chance, the risk of death, is high now. Frank Lockhart, one of the most daring American pilots, was killed at Daytona. The relatively inexperienced Lee Bible met a similar fate. Dead also is Ray Keech, the last American to gain a niche in the limited list of those who have smashed the world's straightaway record. It was Keech's mark of 207,532 that Seagrave shattered.

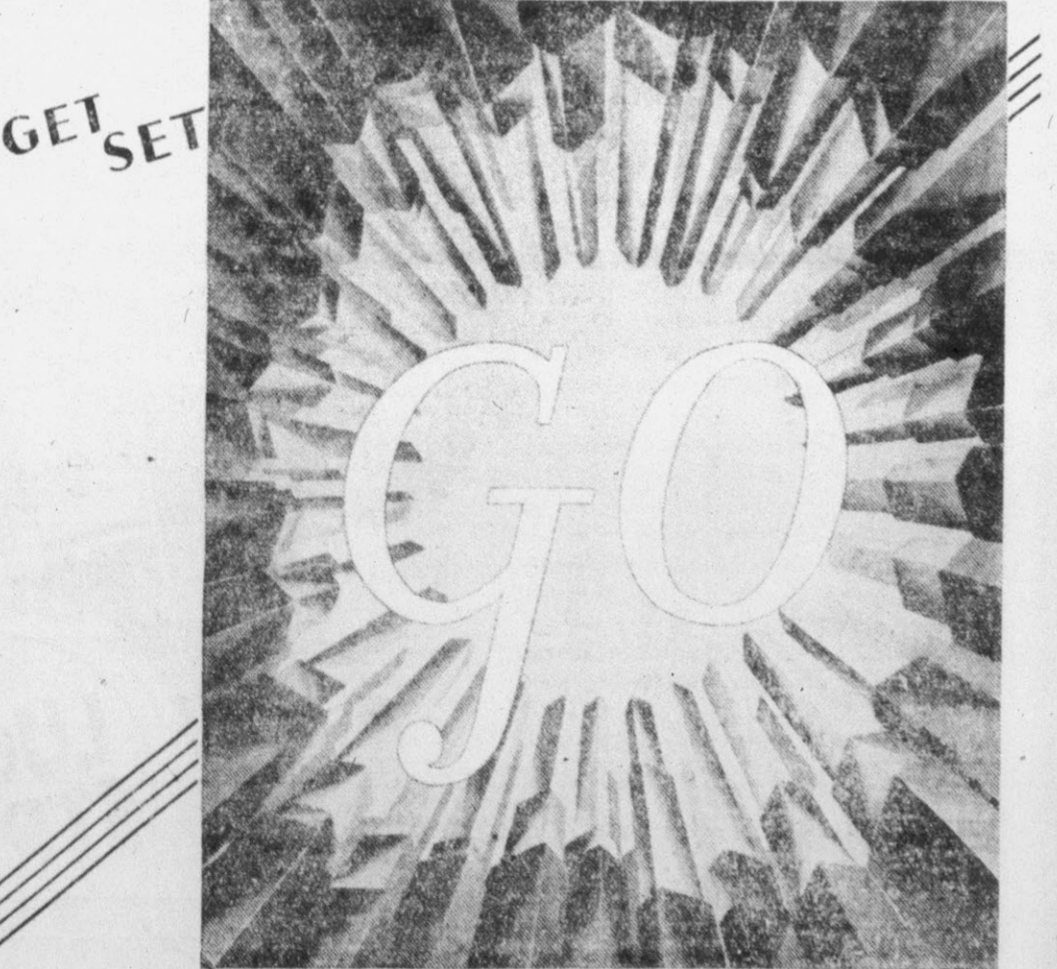

"Nowhere else in the world are conditions any better for this spectacular sport than on these Florida sands," declared Val Haresnap, former secretary of the contest board of the American Automobile Association, now director of the Daytona Beach speedway. "They have tried and failed to construct anything so adequate as the purely natural gift of the sand and ocean here. Human ingenuity would not contrive to equal much less better the conditions of sand so perfectly, smoothly packed by the tidal action. Verneulpan, South Africa, and Pendine sands in Wales have been tried and found wanting. That is why you have the leading British designers, builders and racing pilots coming to America to have out their battle of speed."

himself out of a contract with the former world champions for 1930 and, as consequence, out of the American league. . . . He may pair up with Ray Kolp as a "jockey" in the National but the important talking for the Redland cast will be done by Manager Dan Howley.

It has been 15 years since the Philadelphia Nationals won a pennant and 21 seasons since the Detroit Tigers topped the American League race. Since then all but one other club in each circuit (the Browns and Braves) have had a slice of the world's series profits.

Connie Mack waited 15 years before regaining the peak. The Phillies and Tigers have waited that long or longer. They will not, in all probability, crash through to the top this year, since neither was able to get out of the second division in 1929. Nevertheless, each carries a distinct threat and each seems about due for an upswing, with the Phillies likely to furnish one of the most interesting elements of the 1930 National League race.

If they paid off on plain and fancy slugging, the Phils and Tigers would be "in." But Shattner's clothing circus of Klein, O'Doul, Hurst and company, led the National League with a batting mark

of 309 last season. The Tigers topped the American League at 229 but were last in fielding.

Winning pitchers are seldom found on the bargain shelves but the Phillies have at least one good young newcomer in Harry Smythe, who came up from Asheville of the Sally League last season. In his debut, young Smythe went in as a reliever in both ends of a double-header against the Pirates, held them hitless, runless and won both games. The twin-setback came at a time when it was most disastrous to Pittsburgh's pennant chances. Smythe is a 190-pound southpaw with a deceptive curve, speed and a good knuckle-ball.

When the Tigers go on the war-path, they hope to have some pitching aid from a Cherokee Indian southpaw, "Chief" Elton Chester Hogsett, a product of Bethany College, Kansas, but purchased last year from the Montreal Internationals, for whom he won 20 and lost 13 games. The redskin was adopted last summer by the Iroquois and given the name "Ranantase," which is the equivalent of "Strong Arm."

Winston-Salem, N. C.—(AP)—Lloyd Ends, Winston-Salem man, was mysteriously slashed on the arm as he was peeping through a window at the home of Charlie Lawson where Lawson killed seven members of his family and himself Christmas day.

FEAR MIAMI FIGHT WILL BE A "FLOP"

Miami, Fla., Feb. 27.—(AP)—Today was first day along the palm-fringed boulevards, with the crowds and chatter, the balmy breezes and the twittering of the ballyhoo birds that flock to the midwinter carnivals of fistiana.

Behind all the gayety and the glamor of tropical scenes, the boys associated with the second annual battle of the coconut palms were hoping for the best but fearing the worst—hoping an eleventh hour rush for the turnstiles would materialize but fearing a financial flop; hoping that Phil Scott, the London fire laddie, would make a gallant fight of it all but fearing that the rough and rugged American, Jack Sharkey, would turn the main event tonight into a one sided punching bee.

Thirty six years ago in Jacksonville, Gentlemen Jim Corbett, the American holder of the world's championship, knocked out the pride of England, fiery little Charley Mitchell, in three rounds, in a fugitive prize fight that resulted in the arrest of all concerned as law violators. Tonight, in the Miami arena built

by the Madison Square Garden corporation of New York, Jack Sharkey enters the ring an overwhelming favorite to repeat Anglo-American boxing history by knocking out Phil Scott in the 15 round feat of an all-star heavyweight card of five bouts. Although there is no chance whatever of a sellout, the show appeared certain to attract a notable gathering of wealth and fashion, of talent and celebrities to the ringside. In spite of a supporting card of high calibre, headed by the Victorio Campolo-Johnny Risko semi-final, the masters of the old-fashioned ballyhoo have been at their wits ends to stimulate interest in the fight show and gain consequent results at the box office. There has been little or no debate over the final bout. Sharkey is a 5 to 1 favorite and picked to score a knockout inside four or five rounds.

Gene Tunney to Get Well and Go Into Business

Miami, Fla., Feb. 27.—(AP)—Gene Tunney, retired undefeated heavyweight boxing champion of the world plans to "get well" he said today, and go into "some business". Convelescing from a recent operation in New York the man who left the ring and the championship behind 18 months ago look forward with keep anticipation to seeing the heavyweights, who seek the honor he has discarded, do battle tonight. He has not seen a ring since he climbed between the ropes at the

Yankee Stadium in July 1928 after his farewell bout with the rugged Tom Henney as his last victim. After a man has been knocked down, said Tunney, the most important thing for him to do is to get up. After a man has an operation his most important consideration should be to get well. He is now making satisfactory progress toward recovery of his strength and when that is accomplished he will turn his mind to thoughts of business. There was no sign of the invalid about the former champion as he walked into the home of one of his oldest friends at Miami Beach where he did much of winter conditioning when he was the ruling king of the heavyweight group. He carried a cane to bolster a side weakened by the surgeon's knife but the supporting stick seemed to apologize for its presence. There was no semblance of excess poundage and intact Gene reported his weight 193 pounds, the figure at which he boxed at his best.

Chat From the Training Camp

Paso Robles, Cal., Feb. 26.—(AP)—Max Carey assumed the role of a big fellow leaning longingly over the wire fence behind which the Red Sox were having their first workout of the southern training season. Then he walked in, shouting greetings to all the boys and asking for "Mistah Bob."

In less time than it takes to tell, Ed Morris, pride of the lowly Red Stocking mound staff, was in President Bob Quinn's office signing on the dotted line, a holdout no longer.

Fort Myers, Fla., Feb. 26.—(AP)—Despite Connie Mack's liking for left handed pitchers, there is only one rookie southpaw in this year's squad of boxmen working out with the champion Athletics, Alfred

Mahon, a semi-pro from Nebraska.

Avalon, Catalina Island, Calif., Feb. 26.—(AP)—Manager Joe McCarthy of the Chicago Cubs will continue light workouts until the second squad arrives Friday.

New Orleans, Feb. 26.—(AP)—Carl Lind, the Cleveland Indians' sparkling second baseman of 1928, has arrived at the Tribe camp in perfect condition and fully recovered from the intestinal ailment which kept him off last season.

West Palm Beach, Fla., Feb. 26.—(AP)—A dozen facts were missing when the St. Louis Browns started their annual limbering up exercises under an azure sky here yesterday but "Billy the Red" Killefer, manager, was not alarmed. He declared they were on only straggling in and the full complement of 22 would be here in a day or so.

San Antonio, Feb. 26.—(AP)—John McGraw thin as his New York Giants should finish a one-two in the 1930 National League pennant race.

St. Petersburg, Fla., Feb. 27.—(AP)—The New York Yankees evidently

are trying to outdo one another in training camp stunts. The catchers failed in their attempts to snare balls tossed from an airplane so yesterday some of the other players called in a blimp for the stunt and caught a few balls thrown from heights up to 300 feet.

San Antonio, Tex., Feb. 27.—(AP)—The New York Giants went through two long hard workouts yesterday with a five inning game in the morning and six in the afternoon. And, as usual in the early training contests, the rookie team beat the regulars.

Clearwater, Fla., Feb. 27.—(AP)—Brooklyn's Robins aren't the Robins until Dazzy Vance is on the job, so real practice only starts today. The Dazzler turned up in camp last night ready to don his uniform and get down to work.

Winter Haven, Fla., Feb. 27.—(AP)—Salary differences with some of the stars of the Philadelphia Nationals will soon be settled, Manager Burt Shotton said today.

Fort Myers, Fla., Feb. 27.—(AP)—Only two das out of the preseason cruise. Connie Mack, chief skipper

of the champion Athletics, has expressed himself as "very much interested" in the baseball manners of one of his rookie pitchers, Alfred Mahon.

Mahon is the only left hander among this year's recruits.

Catalina Island, Cal., Feb. 27.—(AP)—Manager Joe McCarthy of the Chicago Cubs has a surprise for the members of the second squad which will arrive tomorrow—they will go right to work the same afternoon.

St. Petersburg, Fla., Feb. 26.—(AP)—There's a high school youngster, Bob Brown, from Hingham, Mass., with the Braves whose control and confidence have already greatly impressed Manager Bill McKechnie. McKechnie thinks the boy has more chance of sticking with the Braves than many a rookie up from the minor leagues with a fine record.

Pensacola, Fla., Feb. 27.—(AP)—President Bob Quinn of the Boston Red Sox has decided that spending \$150 or so on a likely looking pitching prospect may be a good investment. As a result, Ben Shields, a six footer who weighs 208, and who did some port side curling for the Yankees in 1926 and 1927 before being released for illness, was in camp today. "I can at least pay his expenses both ways from his home in Richmond, Va., for a tryout", Quinn said.

West Palm Beach, Fla., Feb. 27.—(AP)—Rick Ferrell, rookie catcher last season, has been told he is

Freshman teams tie up here with the Junior teams of the Washington Collegiate Institute in the local gym. These two played last week in Washington, putting up two fast and interesting games, in which the boys lost by but two points and the girls held a much larger team to a low score. Both teams are looking for a victory on their home court Saturday night, and would appreciate the interest and presence of the town's basketball fans.

SALE OF VALUABLE FARM PROPERTY

Under and by virtue of the authority conferred upon us in a deed of trust executed by Alfred G. Hathaway and wife, Carrie Hathaway, on the 29th day of December, 1926, and recorded in book P-16, page 297, we will on Saturday, the 22nd day of February, 1930, 12 o'clock, noon at the courthouse door in Greenville, N. C. Pitt County, sell at public auction for cash to the highest bidder the following land to-wit: BEGINNING AT A STAKE in the Old Lane in Daisy Tucker's line at the southwest corner of Lot No. Five and running thence with the southerly line of said Lot No. Five, north 75-20 east through the field 2947 feet to the Gum Swamp Road, a stake, another corner of said Lot No. 5; thence with said Road and said Lot No. 5 south 42-15 west 431 feet to another corner of said Lot No. 5, to a stake in the Road;

thence with the southerly line of said Lot 5, north 76-17 east along a line of marked trees 3779 feet to a stake, centered by three pine in James Spain's line; thence with James Spain's line of marked trees 30-20 west 83-2 feet to a light-wood knot, centered by a pine, James Spain's corner, also a corner of the R. H. Coggins land (formerly the Old Moses Teel Division Corner), thence with the agreed line between the lands of the said R. H. Coggins and the O. H. Hathaway lands, made and established, and recorded in December, 1923, south 76-17 west 3515 feet to the Gum Swamp Road, opposite the end of the field fence, thence continuing with the said agreed line between said R. H. Coggins and O. H. Hathaway, along with the fence south 75-15 west 394 feet, south 73-40 west 845 feet, south 71-25 west 629 feet to a large oak, an old corner called for in the Moses Teel Division, known as the Carolina line of Daisy Tucker; thence with the line of Daisy Tucker, north 30-25 west 930 feet to the beginning, (containing ninety-three acres (93) more or less by an actual survey made by W. C. Dresbach, C. E. in December, 1926 and being Lot No. Six (6) in the Division of Lands of Oscar H. Hathaway, deceased.

The above described land is bounded as follows: On the north by Lot No. Five (5) belonging to James Roy Hathaway; on the east by James Spain; on the south by

R. H. Coggins; on the west by Daisy Tucker.

This sale is made by reason of the failure of Alfred G. Hathaway and wife, Carrie Hathaway, to pay off and discharge the indebtedness secured by said deed of trust.

A deposit of 10 per cent will be required of the purchaser at the sale.

It Is Folly To Stay Fat

The proof is everywhere. In every circle you can see that excess fat is disappearing fast. Modern science has found a major cause of excess fat in a weak gland. In late years, physicians the world over have been fighting that cause. They do not rely on starvation.

This modern method is embodied in Marmola prescription tablets. Each box contains the formula, as prepared by famous experts. People have used these tablets for 22 years—millions of boxes of them. Now nearly all have friends who show the results in new beauty, health and vigor.

Go try Marmola. Test the right way to reduce. The results will amaze and delight you. All druggists supply Marmola at \$1 a box.

E. C. To Play Here Friday; Boys At R. R.

With spring weather in the air, the basketball season draws to a rapid close at the Greenville High School. Tomorrow night the girls' team plays at home where the speedy sextette from Elizabeth City will come primed for revenge after their one-point, defeat by the local girls in a well played game earlier in the season. This should be the best contest of the year for the girls at home. So far, we have been unable to find any opposition which was not outclassed by the speed and skilled teamwork of the local girls. This will be a contest worth seeing.

At the same time the boys travel to Roanoke Rapids for a return game in which they may be depending upon to do their best to hold the big Northampton team to a low score. Their court is of such construction that it requires a special technique to play it effectively, owing to the overhanging running track, but the boys will be there from start to finish.

Market Report Cotton--Stocks--Grain

COTTON MARKET

New York, Feb. 27.—(AP)—Cotton opened lower today under liquidation which was evidently incident to the circulation of March notices estimated about 15,400 bales. March sold off to 14.90 under the pressure of the early offerings or 15 points net lower, but otherwise there was not much selling and after showing net declines of about 5 to 15 points, the market settled on trade buying and covering.

By the end of the first half hour, prices were within 2 or 4 points of yesterday's closing quotations. Business in new contracts for October, December and January delivery began this morning. There was fair trading in these positions at prices ranging from 20 to 25 points below quotations for the old contracts. The old October, for instance, was selling around 15.70 at the opening compared with 15.50 for the new.

Liverpool made a fairly steady showing. Private cables said Bombay selling had been absorbed by covering and trade calling in that market.

GRAIN MARKET

Chicago, Feb. 27.—(AP)—New moves of Federal Farm Board and its allied organizations received the lions share of attention in the wheat pit today, and prices advanced rapidly at times. Most of the gains were held at the finish. Wheat futures closed strong 2 1/4 to 3/8 higher than yesterday's finish. Corn closed 1 1/2 up. Oats 5/8 to 1c in advance, and provision unchanged to a rise of 100.

STOCK MARKET

By STANLEY W. PRENOSIL
New York, Feb. 27.—(AP)—Stock prices rallied sharply today in response to a further recovery in wheat prices and a lowering of the call money rate from 4 1/2 to 4 per cent. More than a score issues, including several amusement, dairy, business machine, public utility and motor accessory shares, moved into new high ground for the year. Gains of 1 to 3 points were distributed over a fairly broad list, with a sprinkling of issues marked up 4 to 7 points.

Prices headed upward from the opening of the market, the rally gathering momentum as trading progressed. Several of the speculative favorites were taken in blocks of 1,000 to 10,000 shares by pools but the public was still rather slow in coming back into the market in large numbers. A few seasoned dividend paying stocks, current yields of which are attractive, were bought by investment interests.

"Bear" traders apparently made no concern efforts to hammer individual stocks, although brokers reported that some issues showed indications of scale selling on the part of these interests.

U. S. Steel common made up the dividend of \$1.75 a share, which came off the stock today. J. I. Case ran up 7 points, Beatrice Creamery 6 to a new high at 79, Auburn auto 5, and DuPont, Electric auto sold. Brunswick, Eastman Kodak sold 4 or more points higher.

SIX FIREMEN ARE INJURED AT ASHEVILLE

Film Explosion And Fire Damages X-Ray Room of Aston Park Hospital

Asheville, Feb. 27.—(AP)—Six firemen were gassed and burned early this morning in a battle with an X-ray room fire and film explosion on the top floor of the Prichard Memorial wing of Aston Park Hospital. Quick action on the part of nurses and hospital officials in removing the eighteen patients in the wing saved inmates of the hospital from injury.

The firemen who sustained injuries were:

Ollie L. Fitzgerald, Jr., burns on face and head and injuries to the eyes from gasses.

John Nolan, cut hands and injuries to the eyes from gas fumes.

Sourzeon Sluder, burns about the head and face.

Worth Grice, eye injuries from gas fumes.

R. B. White, eye injuries from gas fumes.

Henry Nettles, eye injuries from gas fumes.

The fire was believed to have been started by a cigarette dropped near the steel cabinet in which the exposed X-ray films are filed, approximately 800 films were filed in the cabinet which was about five feet high, two feet wide, and three feet deep.

Miss Emily Mashburn, surgical supervisor, and Dr. A. C. McCall, who, with several nurses, were on the fourth floor at the time the fire started, noticed the smoke issuing from the X-ray room. Dr. B. E. Morgan and Dr. Charles A. Henley also were on the fourth floor. Nurses and physicians rushed to throw open windows in all the fourth floor rooms to allow the gas fumes to escape, while Miss Mashburn assumed charge of the removal of patients.

The X-ray cabinet and the burning films finally were removed from the windows and the room cleared. All of the X-ray equipment, valued at between \$7,000 and \$10,000 was destroyed, it was discovered. The room was blackened with smoke and the walls were burned but the fire did not escape into the other part of the hospital.

One woman was in the operating room of the hospital at the time the fire occurred. Physicians had just prepared to administer an anesthetic when the fire was discovered. The operation was postponed and the patient rushed from the building.

Slain Woman Had Love Affair With Persian Prince

Salt Lake City, Feb. 27.—(AP)—A coroner's jury investigating the slaying of Mrs. Dorothy Mooremeister, 32, whose battered body was found on an isolated road near here last Saturday, expected to complete its inquiry today. Yesterdays testimony of revelations of a love affair between the 32-year-old woman and a Persian prince.

Testimony of the woman's husband, Dr. Frank Mooremeister, that his discovery of a letter in his wife's desk after the murder revealed his wife's intimacy with Prince Faridof of Persia while the Mooremeisters were visiting in Paris last year created something of a sensation and shifted investigation of the tragedy.

Dr. Mooremeister said that while in Europe he made several side trips, his wife and his daughter, Miss Peggy Mooremeister, staying in Paris. He said his wife met the Prince and later introduced them. He testified that he trusted the Prince and did not suspect his wife until he found the letter.

FISHING SMACK DRIVEN ASHORE

Elizabeth City, N. C., Feb. 27.—(AP)—Seven men of the fishing smack American of Gloucester were taken off in the breeches buoy by men of the Coast Guard station early today.

The America was driven ashore last night while making for shelter within the Virginia Capes. If the sea subsides soon it is believed the vessel can be hauled off intact.
