PITT SCHOOLS WILL PRESENT CHORUS HERE

Music Event To Be Given by the Large Schools of County Friday, April 11th.

A chorus from several of the largest schools in Pitt county will present a program in the campus building of the East Carolina Teachers College, Friday evening, April 11th, it was announced from the Department of Education today.

The chorus will be under the direction of Miss Eugenia Thomas and Miss Kuykendall, music directors of the college, and 450 voices from the sixth and seventh grades and the high schools will participate. The event promises to be one of the most outstanding from the standpoint of mass singing staged in the section in years, and is expected to attract hundreds of people from all sections of the county.

The teachers of the participating schools are being taught now to teach the boys and girls of their schools, and they will assemble at the college for a rehearsal Thursday. The entire day will be given over to the preparation of the song program and students have been requested to bring their lunches with them so that they will not have to leave the college during the time the rehearsal is under way.

In connection with the song program, the Department of Education today issued the following statement:

"We all recognize that music has played a great part in expressing and arousing the emotions of man, particularly when engaged in mass activity. Music has been an effective handmaid of religion from the most primitive time until now. It has been a powerful factor in military activities; is necessary when folks desired fun and recreation.

"The effect of the best music is to make everything that is noble seem so. It sets us in tune with everything that is uplifting. One of the services of music is to produce a set of the intricate and variable organism that makes us fit for life, and for life at a high level.

"The principals and teachers in Pitt county rural schools realized this most important phase of the life of the boys and girls was being neglected. In no school was there any provision made to develop this finer nature which will reflect itself in the life of the community, in the church and in the home.

"Asking for help from the music department of the college—which was given gladly—the teachers met once a week to learn a group of songs that were selected with great care. Under the direction of Miss Kuykendall the teachers are learning how to teach these songs to the boys and girls in the sixth and seventh grades and high school. From this group a chorus of 450 voices is being chosen to present this program to the public.

Mrs. Edgar Smith Buried At Weldon

Funeral services for Mrs. Edgar Ray Smith, of Black Creek, N. Y., were conducted Saturday afternoon at 3:30 from Grace Episcopal Church, in Weldon. Interment followed in Elmwood cemetery, of that place.

Mrs. Smith died suddenly Wednesday, March 26, at her home in Black Creek, N. Y. She recently returned to her home from Cincinnati, Ohio, where she spent the winter with her daughter. She seemed in the best of health. Death was attributed to high blood pressure.

Mrs. Smith, the widow of the late Edgar Ray Smith, a member of a prominent North Carolina family, was formerly Miss Daisy Dockery, the daughter of the late John Dockery and Mrs. Elizabeth Sougignis Dockery, natives of Halifax county. Mrs. Smith was born on February 21, 1870, in Weldon. She was twice married. On June 2, 1892, she was married to R. T. Cochran. One daughter, Mrs. Elizabeth Chavasse Cochran Yeomans, of Cincinnati, Ohio, survives this union. Following her husband's death, she entered Watts Hospital School of Nursing. She was one of the pioneer graduates of this school. In 1902 she moved to New York State where she later married Edgar Ray Smith, who died several years ago.

Surviving Mrs. Smith are her daughter, Mrs. Yeomans, of Cincinnati, and one niece, Mrs. W. W. Phelps of Greenville.

Byrd Honored

New York—Rear Admiral Byrd is a honorary member of the Society for the Prevention of Cruelty to Animals. He was elected because he brought his dogs back from the Antarctic instead of destroying them as some explorers have done.

ITALY'S LICENSED WOMAN PILOT

Italy's first licensed woman pilot is a countess. Countess Giacinta Bonmartini is shown above in her plane after passing license examinations.

MacDonald Government Again Meets Defeat In The House of Commons

Grouchy Wives Should Romp On Springy Turf

Chicago, March 31.—(AP)—Husbands who find their wives grouchy every evening are advised by the Household Economic Council service to provide plots of springy turf, large enough so the wives can romp around on them.

The council, as the result of a survey on the evening grouch, announced today it was due to tired and calloused feet, caused by standing and walking on hard floors, necessary in the ally household duties. It was found the average housewife walks from three to eight miles a day. The best remedy, the council says, is a little gambol on the green. If this is not possible, walking on a thick rug in stocking feet is recommended.

NEGRO GIVEN \$500 VERDICT IN COURT HERE

Hugh Willis Wins Out In Damage Suit Against the Carolina Truck Company.

Hugh Willis, colored, of the Grimesland community, received a verdict for \$500 against the Carolina Truck and Transportation Company in the final session of the civil term of Pitt County Superior court in this city Saturday afternoon. The suit was the outgrowth of personal injuries and car damage which the negro sustained when a truck operated by the transportation company collided with his automobile on the highway near Grimesland.

Immediately after disposing of the case, Judge R. A. Nunn, who presided over the two-weeks' term of court, ordered adjournment. Between fifty and sixty cases of more or less importance to people in this immediate section were disposed of, some of the cases were stubbornly contested and required from one to two days in completing.

Willis received injuries of the shoulder which, a physician testified, would produce permanent stiffness, but would not necessarily prevent him from following his usual occupation. His automobile also was completely demolished by the impact with the truck. He was suing for \$1,000.

The truck and automobile were going in opposite directions. Willis contended that the truck used more than its half of the road and hit his car with such force that it was overturned. The transportation company, however, testified that the negro was off his side of the road and that it would have been impossible for the truck to prevent hitting the machine.

The case was taken up Friday afternoon and reached the jury Saturday afternoon. The jury reported about four o'clock.

Moonshine Killing Bees

Raleigh, N. C.—Moonshine is killing a lot of Tar Heel bees. C. L. Sams, of State college, says that bees can locate stings more easily than revenue officers. They taste the mash, tell their friends and return for more. The result has been an unwanted number of deaths.

FAIL TO REACH AGREEMENT ON TARIFF ISSUE

Republican Leaders Fall Down in Effort to Decide Upon Procedure Methods.

Washington, March 31.—(AP)—For the third time House Republican leaders failed today to reach an agreement upon a plan of procedure for consideration of the tariff bill before sending it to conference with the Senate.

Another meeting of the steering and rules committee groups was called for later in the day when it was predicted an arrangement satisfactory to all groups within Republican ranks could be formulated.

While the leaders declined to say what differences remained to be ironed out before the measure could be taken up on the floor, it was indicated that the demands of the western Republicans that the House accept the higher Senate agricultural rates was creating some of the difficulty.

Representative Tilson, of Connecticut, the majority leader, said he did not believe the bill would reach the floor before Thursday as the rule finally agreed upon must lay over a day before it can be taken up.

"We are making progress," was all the Republican leader would say after the hour and a half session before the House met.

Chairman Snell of the rules committee predicted an agreement would be reached today, but declined to say whether there would be any separate votes on such controversial rates as those on cement, sugar and lumber.

Dietary Platter Wins Popularity With Congressmen

Washington, March 31.—(AP)—A daily "dietary platter" and entirely new thing under the old Capitol dome, has leaped into popularity in the House of Representatives dining room.

Many a health-seeking member of Congress orders regularly for lunch this menu of what's good for brain workers in the slugging days of spring.

Dr. J. W. Calver, the House physician, originated it, and Steward Frank George made room for it on his daily menu card. The chef now prepares fifty dietary platters per day to meet the demand.

Nine Lives Claimed By Automobile Accidents In N. C. Over Week-End

Ten Persons Also Injured in Series of Mishaps Reported in Various Parts of the State. Six Deaths at Grade Crossings.

Charlotte, March 31.—(AP)—Nine persons are dead and ten injured as a result of automobile accidents on North Carolina highways over the week-end. Six of the eight killed met death at grade crossings.

An auto-train crash early this morning at Dunn snuffed out the lives of three negroes. Two persons were killed late Saturday at a grade-crossing in Thomasville. A Greensboro school teacher was killed in an auto-train crash in Guilford county Saturday.

A grandmother and her eight-month old grandchild were killed in a crash of two automobiles near Raleigh yesterday. Eight persons were injured in this accident.

A Greensboro physician was injured in the Guilford county crash, one negro was hurt in the Dunn accident.

The dead: T. J. Sprouse, 45, of Gastonia, who died in a hospital today of injuries received when his car left an embankment near Charlotte.

Miss Alice Houston, 41, Greensboro school teacher.

Mrs. R. R. Honeycutt, of Raleigh, and her granddaughter, baby Katherine Honeycutt.

Mr. and Mrs. Charles Edward Michael, of Thomasville.

Robert Johnson, Jim Flowers and Lee Maynor, Dunn negroes.

The injured: R. R. Honeycutt, of Raleigh, Rufus Honeycutt, aged 9; William Stevens, 17; Alma Honeycutt, 14; Edna Earl Honeycutt, 9; Nettie Pearl Price, 9; Gladys Honeycutt, 11; Louise Honeycutt, 19; all injured in the Raleigh accident.

Dr. W. P. Ewell, 80, veteran physician of Greensboro.

Stephen Mayor, Dunn negro.

HOOPER SIGNS MEASURE FOR BUILDING FUND

Half of \$230,000,000 Fund to be Used in Public Building Construction.

Washington, March 31.—(AP)—President Hoover today signed the Keyes-Elliott bill authorizing the appropriations of \$230,000,000 for public buildings.

Half of the amount authorized in the new act is to be allotted to public buildings throughout the country; the other half is for the District of Columbia.

The funds now authorized will increase the nation-wide expenditures from \$25,000,000 annually to \$35,000,000 and the annual District allotment from \$10,000,000 to \$15,000,000.

The act makes no specific provisions as to where the money is to be expended. The allocations for various projects throughout the country will be decided upon by the inter-department board of officers of the Postoffice and Treasury departments.

In regard to the District of Columbia, however, the officers of this board have said part of the money would be used for the new Commerce department building, the new Justice department building, the new Archives building and a municipal center for district government.

Five pens were used by President Hoover in signing the bill.

One was handed to Secretary Mellon of the Treasury, another to Assistant Secretary Heath of the Treasury who is in charge of the public buildings program; one each to Senator Keyes, Republican, New Hampshire, and Representative Elliott, Republican, Indiana, authors of the bill, and the last to Representative LaRham, Democrat, Texas, ranking minority member of the House committee on public buildings and grounds.

Four Killed In Boat Collision

St. Helens, Ore., March 31.—(AP)—Federal steamboat inspectors today began an investigation to determine blame for the collision of the excursion barge Swan and the coastwise steamer Davenport in the Columbia river which turned a merry-making throng of 286 passengers on the pleasure craft into a panic-stricken mob, and resulted in the death of three women and one man.

Molasses Flows Down Street At Goldsboro, N. C.

Goldsboro, March 31.—(AP)—Immense molasses flowing down a street like lava from a volcano, with happy negroes, pails in hand, scooping up the delicious fluid as it slowly oozed toward a gutter.

This scene was literally enacted here when a truck loaded with molasses swayed, upturning barrels of Eastern North Carolina sorghum into the street.

When the molasses began to flow, it was such a sweet and tempting fluid that in a short time negroes were dipping into it and carrying it home.

Disastrous Fire At Darlington, S. C.; Woman is Victim

Darlington, S. C., March 31.—(AP)—The body of Mrs. J. P. Wright, 70, of Darlington county, was believed today to be buried beneath the ruins of the Darlington hotel which was destroyed by fire yesterday along with six other business establishments.

The aged woman, a guest in the hotel Saturday night, was the only person not known to have escaped from the burning hotel. A preliminary search yesterday failed to disclose her body, but firemen were prevented by heat of dying embers from making a thorough search.

Property damage from the fire was placed at from \$150,000 to \$200,000. Approximately one-third the loss was covered in the Star cafe. Business establishments burned in addition to it and the hotel were the Langston haberdashery, Well-Pearl Prec. Co., Gladys Honeycutt, 11; Louise Honeycutt, 19; all injured in the Raleigh accident.

Dr. W. P. Ewell, 80, veteran physician of Greensboro.

Stephen Mayor, Dunn negro.

MARCHAND GREET'S SON AT TRIAL

Henri Marchand, sculptor, and his son, Henri, Jr., meet in courtroom at Buffalo, N. Y., where the father testified in trial of Lila Jimeron, Indian girl model, charged with inciting another Indian woman to slay the sculptor's wife.

Extreme Pessimism Over Security Pact Expressed In Naval Parley Circles

Generally Understood That British and French Have Reached an Impasse in Negotiations for Agreement on Security

London, March 31.—(AP)—Extreme pessimism over the outcome of the Anglo-French negotiations concerning a security pact was expressed in American conference circles this afternoon. It was generally understood the British and French have virtually reached an impasse.

Secretary of State Stimson visited Foreign Minister Briand of France during the afternoon, and expected to see Prime Minister MacDonald this evening. The nature of his discussions with the French foreign minister was not divulged.

French conference circles also were extremely gloomy late today. Foreign Minister Briand, however, thus far has declined to put himself on record as being pessimistic.

London, March 31.—(AP)—A sharp repudiation was produced in French headquarters by the statement, issued by a British official spokesman yesterday in which it was declared absolutely impossible for Great Britain to undertake any further military commitments in connection with the proposed security pact.

Foreign Minister Briand himself this morning indicated disapproval of the issuance of this statement on the grounds that it had been agreed no statement of any kind would be made while the Franco-British negotiations were proceeding.

The French foreign minister, speaking to French newspapermen, said he hoped he could believe that the statement issued last night had no authorization. He understood it had been agreed no statements of any kind would be issued while these conversations were continuing and he felt publication of this particular statement was scarcely suitable in the circumstances.

Observers were inclined to the belief that Foreign Minister Briand was speaking with his tongue in his cheek when he expressed the hope the statement had no official authorization.

British official spokesmen are noted for punctiliousness about having authorization before making statements of this sort and the British press this morning accepted the statement as an official communication.

Hope To Control Gusher By Night

Oklahoma City, March 31.—(AP)—A glistening black landscape today surrounded the wild No. 1 Mary Sudik oil gusher, whose gigantic belches were expected to be placed under complete control before nightfall.

The gusher, in the south border of the Oklahoma City oil field, began "tarrowing" thousands of barrels of oil into the air hourly on Wednesday. After several unsuccessful attempts workers late last night succeeded in placing a master cave-in place and curbing the state's largest gusher to about one-third its capacity flow. Operators have estimated the well's production at more than 50,000 barrels of oil and 200,000,000 cubic feet of gas daily. The property is owned by the Indian Territory Illuminating Oil Company and the Foster Petroleum Corporation.

BYRD RECORDS ON WAY TO U. S. BY AEROPLANE

Pictures of Antarctic Expedition Rushed to U. S. For News and Film Service.

Managua, Nicaragua, March 31.—(AP)—Lee Schoenhair, carrying the pictorial records of the Byrd Antarctic expedition, from Panama to Newark Airport, N. J., took off shortly before eight o'clock this morning en route to Miami. Belize, British Honduras, was his next stop.

Schoenhair, flying the "Miss Silvertown" owned by the Goodrich Rubber Company, is rushing pictures to the United States especially for the Associated Press, the New York Times and Paramount News.

On the plane, in addition to the Associated Press photographs, are the exclusive expedition pictures made in the Antarctic by Paramount News Reel and the New York Times.

The airman left France Field, Canal Zone, yesterday morning after receiving the photographs and motion picture films of the Byrd expedition from Willard Vandever, official photographer for the Paramount News with the expedition, who arrived by the steamer Tamara from New Zealand at Panama Saturday. He arrived in Managua yesterday afternoon and because of weather conditions decided to remain over night.

Schoenhair, who is a former first lieutenant in the United States army air service and a one-time mail pilot, planned fueling stops at Belize, Havana, Miami and Cayetteville, N. C.

The flight with the news pictures was planned as the speediest means of bringing the photographic record of the expedition before the eyes of American newspaper readers and motion picture audiences. Thus an airplane gala played an important part in the Byrd enterprise in which airplanes have already been utilized to a greater extent than any previous similar expedition.

Schoenhair recently broke six records in two days of flying at Jacksonville, Fla., carrying added weight up to more than a ton. He also has made numerous inter-city records including those from New York to Tampa, Windsor to Toronto and Augusta, Ga., to Curtis Field, N. Y. He is chief pilot for the Goodrich Rubber Company of Akron, O., and is only 29 years old.

Wilson Banker Died Yesterday

Wilson, March 31.—A. E. Darden, prominent local banker, died suddenly at his home on West Green street yesterday at 9 o'clock after being stricken in a downtown store Saturday.

The deceased was 66 years old and had been engaged in the banking business here for a number of years, retiring last fall.

The deceased is survived by his widow, who before her marriage was Miss Stella Harper, of Snow Hill, two brothers, W. L. Darden, of Savannah, Ga., and A. R. Darden, of Stantonsburg, and four sisters, Mrs. J. L. Bryan, of Wilson; Miss Ma; Darden and Mrs. J. W. Aycock, both of Rocky Mount; and Mrs. Henry Baker, of Mount Pleasant, S. C., also survive.

Funeral services were conducted from the First Methodist church this afternoon at 4 o'clock with Rev. T. McM. Grant, pastor, officiating. Burial will be made in Maplewood cemetery.

Nephews of Mr. Darden will act as pall bearers. They are Dr. Douglas Darden, Paul Darden, O. B. Darden, W. A. Darden, Jack Aycock and Sidnor Borden.

Mr. Darden was a brother-in-law of Mrs. H. L. Carr, of this city.

Two Killed In Auto Accident Near Raleigh

Raleigh, March 31.—(AP)—Mrs. R. R. Honeycutt, of Wake county, and her eighteen-month old granddaughter, Katherine Honeycutt, were dead today and E. H. Moore, of Raleigh, was held under \$1,000 bond, facing probable manslaughter charges, as the result of an automobile accident near here yesterday.

Mrs. Honeycutt and the infant were killed when an automobile driven by Moore "sideswiped" the Honeycutt machine. Moore charged that R. R. Honeycutt, driver of the other automobile, turned toward the center of the road as he was passing, but this was denied by the latter.

Twelve persons were riding in the five-passenger Honeycutt automobile. Eight were taken to Rex hospital here after the accident for treatment.

CYCLONE MACK WILL DELIVER ADDRESS HERE

Well Known Evangelist to Speak on Subject, "Chain Store Menace" Friday

Rev. B. F. McLendon, of Bennettsville, S. C., better known as "Cyclone Mack" among thousands of people in this part of the country, will deliver a broadside against chain stores in a public address at Forbes & Morton's warehouse next Friday evening at 8 o'clock. He will speak on the subject of "Chain Store Menace," and will bring out many facts in this connection.

The evangelist is making a tour of North Carolina at this time speaking in opposition to the chain store system, and has attracted widespread interest by the amount of information which he has marshaled against this field of merchandising. He spoke recently at Williamston and other towns of the section, and drew tremendous crowds from surrounding communities.

"Cyclone Mack" is well known in Greenville, having appeared here at different times, and especially years ago in an evangelistic campaign. His unique method of presenting his subject matter attracted hundreds of people to the meetings, and it is expected he will prove as great a drawing card during his visit this time.

"Cyclone Mack" believes that the chain store method of merchandising is proving a menace to American industry, and has prepared an enormous amount of information dealing with the subject. Delivered in his unique, driving manner, it has engaged the attention of the interested public to such extent that the speaking here has been carried to a warehouse in order to accommodate the crowd expected to be in attendance.

TAX QUESTION IS PARAMOUNT ISSUE.

The biggest question in the minds of owners of farms, stores, factories, homes, and those who are affected by rent, is the mounting and burdensome tax on real estate. It was voiced by some wise men at the session of the last Legislature, and by the addition of a small gasoline tax, some measure of tax reduction was made possible. But it was at best only a step in the right direction. There was another good step in increasing the equalizing fund, a makeshift but a good one in the absence of a sound system. These steps were but the beginning of the needed relief which the people are demanding. It must come or there will be a near revolution. When taxes on a farm or home are near confiscation, as is the case in many counties, while owners of foreign stocks pay not a penny of tax, and other available sources escape just taxation, the people must fight for reform and new measures. We are now attempting to pour new wine into old bottles. It can't last longer. Representative MacLean, of Beaufort, says if the present land taxes remain North Carolina will face "something worse than Republican rule." If that is possible, who can picture the ills predicted by the Beaufort Representative.

For weeks there has been a rising tide of determination to secure a more just system of taxation by which land will be relieved of present burdens. To judge by some statements, it might be inferred that this uprising had its origin in Eastern North Carolina, which was hard hit by weather conditions and low prices of crops. The fact is the organization responsible for the meeting to be held in Raleigh today had its origin in the mountain county of Buncombe, and its first support in Henderson and other mountain counties. The unrest exists from the mountains to the sea. It is not sectional. The need for relief is so pressing that many have urged the Governor to call a special session of the Legislature. The Governor has indicated that he feels the matter should go over to the 1931 session. There is a feeling also that it may be best for new legislators, fresh from the people, to tackle this serious problem. Certainly the time has come for all thoughtful men to put their thinking caps on and find the

best way for ending the inequitable system of taxation by which burdens unduly upon the owners of visible property.—News and Observer.

ABOUT TOWN

Greenville is enjoying right much popularity of late from different organizations of the state. Word now comes that the Building and Loan League of the First District is going to hold a meeting here on the 10th of April.

The coming of this organization will be received with much interest by building and loan shareholders in this city by reason of the fact that its prime object is to promote the development of the building and loan plan in all communities of the state.

The meeting will be attended by officials of the state organization. In fact, the president is on the program for the principal address, and this single feature alone is expected to be one of the outstanding of the gathering.

The building and loan plan is receiving more attention from the public today than ever before in view of the fact that it opens up a way for the wage earner and the little business man to own a home on the pay as you go plan. Greenville and Pitt county have experienced good results from their building and loan organizations, and hundreds of homes bear testimony to their advisability.

Pitt county farmers are going to receive loans from the government as fast as applications can be certified, and members of the county farm department are going to use every influence to see that the certificates get through as quickly as possible.

The application blanks are to be distributed some time this week. As soon as the blanks reach Greenville the farmers will be informed of the fact and they may then go to the farm department offices and receive aid in filling them out free of charge.

This is a service that should have a tendency of greatly facilitating the procuring of loans, and before the middle of April numbers of our planters should be in receipt of the government aid.

It has not been definitely determined how much money will become available to Pitt county out of the \$6,000,000 appropriation to the states of the southeast, but it will be sufficient to greatly relieve the depressed financial condition and assist numbers of farmers along with their planting. When the harvest time comes the loans may be repaid and the government will call it square.

The people of this part of the country have been after this appropriation for a long time, and now that they have it there is no question in the world but that they will use it to good advantage. Not a cent should be borrowed unless it is absolutely needed in the preparation of this year's crop, and the farmers that hew strictly to the mark will be the ones to come out at the big end of the horn at the end of the season.

The Greenville high school baseball team got in action for the first time this season last Friday and succeeded in landing Tarboro a 14 to 10 walloping. It was one of those kind of games that keeps the fans on their toes all the time, and indicated that the locals are well prepared to offer stout opposition during the spring.

Greenville will not have any league baseball this season, and the sport loving public should attend these high school games and in that way relieve the fever that grips the majority of fans at this season of the year. Then, too, good attendance would be inspirational to the high school boys and help them play better ball than under ordinary circumstances.

The high school athletics association has found sledding mighty difficult the last several months and unless the public supports the activities in better form the future will be less encouraging. Go out to the remainder of the games this season and let the youngsters know you are with them in their effort to give the city winning teams.

North Carolina fishermen should not fail to observe "open and closed" season as provided for under the rules and regulations of the North Carolina Department of Conservation.

The regulations specifically state that it shall be unlawful to take fish of the species mentioned below from inland waters during the period provided as follows:

Beam (all species) June 10 to April 20 following; crappie, June 10 to April 20 following; large and small mouth bass, June 10 to April 20 following; all species of perch, June 10 to April 20 following; brook and rainbow trout, April 15 to September 1 of each year; small mountain bass (in mountain counties only) June 10 to September 1, each year.

These rules should be fully observed as it is in this way alone that the conservation department is able to conserve the rapidly dwindling supply of fish in the various streams of the state.

ANOTHER ONE ON TAXES

In the absence of a graduated land tax, no farm land should have an appraised taxable value exceeding \$25 per acre. But it is objected: How about land in city and suburbs used exclusively for agriculture? Will not such land sell for from \$500 to \$5,000 an acre? But it is not worth but \$25 an acre for farming purposes. Hence the advisability of a profit-sharing land sales tax. Still, if I had my way about it, all land would be cheap regardless of location; for I am of the opinion that the Creator made this earth for men, and the said Creator as a loving Father, can't be other than displeased at the conduct of realty speculators and those covering and grabbing for large landed estates. Speculation is not production. Just simply a polite way of forcing a collection out of those engaged in productive enterprise; the ultimate result being oppression of the weak; and the Supreme Ruler of the universe has delivered Himself of an awful curse upon that nation that permits the mighty to oppress the poor.

It is the experience of those trying to farm that, when compared with other vocations, it is an unprofitable business—and any business that does not show a profit ought not to be taxed; for a tax on penury is a dastardly shame. Then why the excessive values placed on farm land for taxation? Merely this: that other property might escape its just share of the tax burden.

Have we a corrective remedy? Do we want an honest appraisal? Then here is a suggestion: Find an honest, fearless, unincumbered man for appraiser. Keep him on the job the year round, and the rich as well as the poor man's property will eventually get on the tax books at its true taxable value. The way it has been being done is the punk. J. F. STOKES.

Greenville, N. C.

Have you drunk the "New Orange Crush" in bottles? 6-1f

CANDIDATES' CARDS

PITT COUNTY I hereby announce myself a candidate for the office of Sheriff of Pitt County, subject to the action of the Democratic primary to be held June 7, 1930. WYATT C. TUCKER.

ANNOUNCEMENT

I hereby announce myself a candidate for re-election for Sheriff of Pitt County, subject to the action of the Democratic primary, June 7th, 1930. If nominated and elected, I shall endeavor to enforce the laws to the best of my ability, as I have during my tenure of office. Your approval of my past record by your support in the coming primary will be greatly appreciated. S. A. WHITEHURST

TO THE VOTERS OF PITT COUNTY

I hereby announce myself a candidate for re-election to the House of Representatives, subject to the action of the Democratic primary to be held June 7, 1930. If nominated and elected, I pledge myself to work for the reduction of taxes on farm land and real estate, economy in state and county government, and do all in my power with justice to all to relieve the farmer of his burden of taxation. E. G. FLANAGAN.

TO THE DEMOCRATIC VOTERS OF PITT COUNTY

At the request of a large number of citizens from different parts of the County, I hereby announce that I shall be a candidate in the Democratic Primary for the nomination to the House of Representatives in the General Assembly of 1931. If nominated and elected, I shall do all in my power to reduce taxes, especially on farming lands and other real estate. I do not think public expenditures should be increased, but if possible reduced. I will be highly grateful for your support in the approaching Primary. JOHN HILL PAYLOR.

ANNOUNCEMENT

Subject to the action of the Democratic Primary on June 7th, 1930, I hereby announce my candidacy for nomination and election to the House of Representatives. I served Pitt County in the House during the Legislature of 1925 and if I am nominated and elected again, I pledge to work for the reduction of taxes on land; reduction of land values for taxation; relief from tax suits and judgments; abolition of tax penalty prior to tax sales; luxury sales tax and economic County and State government. I will appreciate your vote and support. K. A. PITTMAN.

COLLEGE BALL OPENS IN N. C. DURING WEEK

Charlotte, March 31.—(AP)—College baseball in North Carolina will get into full swing this week with 31 contests carded for the clubs.

Davidson's "big five" battle with Wake Forest today and Cornell's invasion of Chapel Hill for a pair of games with the University of North Carolina feature the schedule for the first part of the week with two games between North Carolina State and Davidson are the high spots for the week-end.

The week's schedule:

Monday—Cornell at Carolina; Davidson at Wake Forest.

Tuesday—Washington and Lee at Duke; Cornell at Carolina; Catawba at Elon.

Wednesday—Washington and Lee at N. C. State; Catawba at Wake Forest; Cornell at Duke.

Thursday—Washington and Lee at Carolina; Cornell at Duke; Catawba at Richmond Medical College; Elon at V. P. I.; Appalachian State Normal at High Point; Davidson at Davidson; Brevard at Weaver; Mount Pleasant at Wingo.

Friday—N. C. State at Davidson; Catawba at Richmond Medical College; Elon at V. P. I.; Carolina at Georgia; Mars Hill at Rutherford; Appalachian at Guilford.

Saturday—N. C. State vs. Davidson at Concord; Navy at Duke; Carolina at Georgia; Mars Hill at Lenoir-Rhyne; Elon at Emory and Henry; Campbell at N. C. State freshmen; Duke freshmen at Wake Forest freshmen; Farm School at Weaver.

Charlotte, N. C.—(AP)—Dr. Alexander Graham, veteran Charlotte educator, who was stricken with a heart attack Friday, is reported in an improved condition at his home here.

SPORTS SLANTS

By ALAN GOULD

Associated Press Sports Editor Young blood now dominates college rowing but the Old Guard carries on so long as Jim Ten Eyck handles the helm at Syracuse. The grand old man of rowing starts his twenty-seventh year as head coach this year with prospects of making it exceedingly interesting for his youthful rivals.

Ten Eyck was a successful rowing coach, a developer of world's champion scullers and crews, before the birth of Al Ulbrickson, Washington's brilliant young head coach.

Young Rita Glendon of Columbia and Ed Leader of Yale, if they had any rowing ambitions, confined their efforts to nothing more than life in a rowboat at an age when Ten Eyck was one of the masters. Pop Courtney, Cornell's famous contemporary of Ten Eyck, is dead. Jim Rice has passed from the college circle.

Ten Eyck's Orange crews always have been outstanding factors in the Poughkeepsie Regatta. The Old Man has a faculty of springing surprises on his unsuspecting young coaching associates. Over a period of 13 years from 1901 through 1915, Ten Eyck's varsity eights were the elite barrier to an unbroken stretch of triumph by Courtney's Cornell crews. Three times Syracuse broke up the parade of the Big Red. Last June, Ten Eyck's freshman eight

was victorious at Poughkeepsie. Six of the eight are back for variety instruction by the Old Man this spring.

Costly Dining. Nice, France.—A restaurant here advertised that for \$3.25 one could dine in the company of the American ambassador. Mr. Edge, who is on an industrial inspection tour, objected. Whereupon the restaurant hid his party from those who paid the \$3.25 by plants and screens.

Bull Got This One. Teutan, Morocco.—A bull fight fan who tried to show a matador things, is in a hospital. Excited by what he thought was a poor performance the fan jumped into the ring. The bull got him.

King's Daughters to Meet.
There will be a meeting of the King's Daughters at the home of Mrs. C. W. Hearne Tuesday evening at 8 o'clock. Full attendance is requested.

TEACHERS COLLEGE DAMES ENTERTAINED FRIDAY

The Teachers College Dames were charmingly entertained on Friday, March 28, when Mrs. J. B. Cummings and Mrs. J. A. Keech were hostesses entertaining at the Hut on the college campus, which was most attractive with purple iris and violets. Around the huge fireplace in which a fire burned brightly, were grouped the four bridge tables.

Mrs. Luther Herring, Misses Annie Morton, Madge Daniels and Loraine Hunter were the guests for the afternoon. After several games, Mrs. Herring was given a novelty handkerchief for high score guest prize and Mrs. Picklesimer was awarded a brass bell for high score member prize. Mrs. ReBarker received a choker for low score. The hostess, assisted by Ferol and Daniel Keech, served a delicious ice course.—Reported.

MACBETH TO BE GIVEN AT COLLEGE THIS EVENING

The hour for the evening performance of "Macbeth" by the Shakespeare Players, is 8:30 o'clock this evening. The old auditorium

in the administration building of East Carolina Teachers College, is the place, because the stage equipment makes it possible for this company to present the play with the correct stage effects and lighting, and the costumes will appear to advantage. The students have been divided into two groups so that half the auditorium is left for the public. One group is attending the matinee this afternoon.

These actors have been playing under the title of "Shakespeare Players" for several seasons, but all of them have been members of other noted companies, some of them with Robert Mantell or Fritz Leibler. The whole production is high class, with authentic costumes, correct staging and lighting, with emphasis on fine acting and clear enunciation. James Hendrickson, Claire Bruce, Webster Patterson, Mary Glover, Emmet Shields, Stanley Cobley and Robert Greene are names that have become associated with Shakespearean plays throughout the country.

They have been having a fine season and will appear at the University and Wake Forest. The entertainment committee of the college found they had an open date and immediately secured them, and were exceedingly fortunate in doing so.

There are special rates for school girls and boys, but the general admission is very low. There will be no reserved seats. The season ticket is good for the evening, if it is not used for the matinee.

AMERICAN ASSOCIATION OF UNIVERSITY WOMEN

The third conference of the South Atlantic section and the sixth conference of the Virginia State Division of the American Association of University Women will be held in Williamsburg, Va., April 4-5. The most important item of business to come before the conference will be the pledge of a fellowship for the South Atlantic section. The honor guests will be President Mary E. Wooley of Mount Holyoke College, who will address the meeting on Friday night, and Dean Mildred R. Mell of Shorter College, who will speak at the luncheon meeting on Saturday on "The Woman of the South in Education Today." Reservations should be made through Mrs. William Guy, Williamsburg, Virginia.

Mrs. Harvey W. Harmer is the director of the South Atlantic section, and Miss Jeanette S. Kelly is president of the Virginia State Division. Delegates to the conference representing North Carolina, will be Mrs. E. R. Mosher, state president, and Miss Sara Rowe, state secretary.

RED OAK NEWS

You are cordially invited and urged to attend a fellowship service rendered by a group of students from Atlantic Christian College on Tuesday night, April 1st, at 7:30 o'clock. The boys, about ten or twelve in number, will sing and talk and we are sure you will enjoy this program.

Healing Services Largely Attended

The healing and revival services are continuing at Gorman's warehouse with great success. Attendance Sunday night was very large, and the crowd completely overflowed the space set aside for the accommodation of 1,000 persons. It was stated that seating capacity would be increased in order to be able to take care of the crowds in the future.

The sick is still being healed of different kinds of diseases. A woman, partly blind, was healed and can see as good as ever now.

Services will continue each evening at 7:45 o'clock until after Easter. All day services on Sunday. Everybody is urged to attend and bring the sick.

Moore To Open Miniature Golf Course in City

R. L. Moore, of Raleigh, formerly of Greenville, was in the city today completing arrangements preparatory to beginning work immediately on a miniature eighteen hole golf course on the Blount-Harvey lot, corner Fourth and Washington streets. This miniature golf is becoming quite popular throughout the state and Mr. Moore stated that in addition to the course here others would be put in at other Eastern Carolina towns. There are two of these courses, he said, in operation in the Mansion Park hotel at Raleigh, of which he is the head.

Work will get under way immediately and the course will be opened to the public in about ten days. The courses furnish all the fun and excitement of a full eighteen hole golf course and are becoming popular. Many folks are adopting this form of sport as a means of recreation. The courses are lighted so that play may go on day or night.

ISSUES CALL FOR BANK REPORTS

Washington, March 31.—(AP)—The comptroller of currency issued a call today for the condition of all national banks at the close of business on March 27.

Greensboro, N. C.—(AP)—A part of a pocket knife blade was removed from the brain of Vereker Webster, Siler City negro, by a surgeon here. The knife was wielded by another negro.

FORMER STAR OF BROADWAY KILLS HERSELF

Miss Allyn King Succumbs to Injuries Received in Jump From 5th Story Window.

New York, March 31.—(AP)—Miss Allyn King, former musical comedy star, is dead and Broadway today traced the series of events which ended in her suicide back to a contract which demanded that she keep a boyish figure to hold her job.

She died yesterday from injuries suffered when she jumped from the fifth story apartment of her aunt in Greenwich Village.

In 1921 Miss King weighed 145 pounds. Then the boyish figure became the vogue on Broadway. She reduced to 115 pounds.

She signed a contract which read: "It is expressly made a part of this agreement, and is an essential part thereof, that if at any time you should, during the term of the said arrangement, increase in weight more than 16 pounds or decrease in weight more than 10 pounds, or let the dimensions of any part of your figure vary more than one-half inch from the following, weight 115 pounds, neck 12-1-2 inches, bust 34 inches, upper arm 11, lower arm 7-1-2, waist 26, hips 34, thigh 18, calf 12, ankle 8-1-2, then and in that event we shall have the right to cancel this contract upon giving you one week's notice."

Miss King lived up to her contract six years. To do it she resorted to various diets and remedies. She went without food, with cut sleep, without water and took reducing pellets.

In 1926 her health failed and she was sent to a sanatorium where she remained nearly two years.

Shortly before she died she explained her act by saying: "I did it because I will never return to Broadway."

Recently she had been living with her aunt, Mrs. William King and studying music preparatory to returning to the stage.

She went to her room Saturday and when her aunt entered to call her to tell her that her mother was coming to accompany her to take a music lesson she found the room empty. Looking out of the window, she saw her niece's body in the courtyard.

At Bellevue hospital it was found she had suffered a broken leg and arm and had fractured her skull. She rallied and physicians said she would recover, but she suffered a relapse and died yesterday morning.

She was the daughter of Dr. Allen King and was born in North Carolina. The family later moved to New Orleans where her father was accidentally shot and killed.

She was once engaged to Carl Wiedemann, wealthy Kentucky horseman. She broke the engagement in 1923. She was 30 years old.

Goldsboro, March 31.—(AP)—Miss Allyn King, former New York

musical comedy star whose suicide Broadway said was caused by failure to keep her boyish figure and job, at one time lived in Goldsboro.

Dr. R. B. Miller recalled that Miss King's mother was before her marriage Miss F. J. Whitaker, a granddaughter of the late June Whitaker, of Goldsboro. Miss King lived here with her parents for a short time about 20 years ago.

WINTER HAVEN, Fla., March 31.—(AP)—Barney Friberg, utility man with the Phillies, is the most valuable player in the National league, manager Shotton declared today.

"I said the same thing last season," Shotton stated, "and I still think so. He can play any position on a team and play it as well if not better for a time than any other man in the league."

Shotton intimated that Friberg may get the call for second base over Captain Thompson, who was late in reporting for practice.

Market Report Cotton--Stocks--Grain

COTTON MARKET

New York, March 31.—(AP)—Cotton opened steady today at an advance of 5 to 13 points in response to relatively steady cables and some further spot house buying of the near months. Trading was moderately active and its initial demand for May and July seemed to be supplied on the opening advance which carried May up to 15.90, and July to 16.00 or 9 to 11 points net higher.

Reactions of several points followed under realizing, but buying continued although in smaller volume and the general market held steady at the end of the first half hour with the active months ruling about 5 to 10 points net higher. There was scattered buying of new crop months which may have been promoted by an idea that the weather in the south was too cold for planting or germination although not unfavorable for farm work otherwise.

Liverpool cables reported local and Continental buying with a scarcity of contracts in that market. Reports from Manchester indicated increased sales of cotton cloths to Egypt and the east and a broadening demand for yarn.

GRAIN MARKET

Chicago, March 31.—(AP)—Notwithstanding 1,867,000 bushels decrease in the United States wheat visible supply, wheat prices today pursued a general downward trend. Predictions of rain in drought territory southwest dominated the market, although no moisture was reported up to the close. Official summaries indicated abandonment of domestic winter wheat acreage this season would be small.

Wheat closed unsettled 1-2 to 1-8 lower than Saturday's finish; corn closed 5- to 1 up; oats unchanged to 7-8 advance and provisions unchanged to 10-cents down.

STOCK MARKET

New York, March 31.—(AP)—The stock market, which moved into new high ground for the year last week, turned irregular today under a heavy wave of profit taking.

A score or more issues dropped 1 to 5 points below Saturday's quotations, with a sprinkling of specialties down 6 to 17, before the decline was checked in the early afternoon by a spirited demand for U. S. Steel common, which was marked up to another new 1930 high. Earlier in the session, 50 or more stocks had attained new peak prices for the year on gains running from fractions to cents.

Trading was again in enormous volume, with the ticker running about half an hour behind the market, the hourly average of sales running well over a million shares.

The mid-day reaction apparently was based on technical considerations, the recent brisk advance in many issues obviously having weakened their market position and rendered them vulnerable to selling pressure. When word was passed back from the stock exchange to the brokerage houses that prices were lower on the floor than those appearing on the tape, which was far behind, there was a rush on the part of many traders to take the profits.

J. I. Case fell 17 to points to 253, but quickly rebounded to 256 1-2. Worthington Pump broke 12 1-2 and Columbian Carbon, Houston Oil, Western Union and Vanadium fell 4 to 5 points before they met effective buying support. General Electric, Westinghouse Electric, American Power and Light, Underwood-Elliott-Fisher and Checker Cab were carried down 2 points or more, but most of them recovered at least part of their losses by the end of the day.

Their health

is no better than their meals

Are they your children or your neighbors - these youngsters who fairly radiate health, whose eyes dance with playfulness and zest of living? Good health and high spirits do not come by accident. These things always reflect a mother's expert knowledge of home science - particularly the art of cookery. Good food builds good health. Proper diet creates energy and vivacity.

Of course every mother wants her children to have the best meals obtainable. Mothers are forever reading articles on child care and training. They insist on the finest quality from grocer and butcher. But all this can be undone by failure of the cook stove or refrigerator!

do any cooking ingredient. It has an INSULATED Oven to prevent heat leaks and insure uniform baking temperature, a touch-a-button lighter, and a smokeless broiler. With such a reliable helpmate in your kitchen you can prepare new recipes without the least hesitation.

What is a dependable refrigerator?

First, a refrigerator that keeps foods below 50 degrees at all times and thus eliminates spoiled flavors, decomposition and waste. Second, a refrigerator with a freezing compartment that permits you to prepare an endless variety of chilled desserts. Third, a refrigerator that will never wear out or go wrong. Fourth, a refrigerator that will do all these things for 5 to 10c a day. Just ONE refrigerator fulfills these requirements perfectly - the Gas-operated refrigerator.

What is a good cook stove?

And up-to-date Gas Range has oven heat control enabling you to measure heat - just as you

Stop in, one of these days, and let us outline fully the food economies, time savings and helps-to-health possible with Gas-operated appliances. We promise some surprising news for you.
