COURT RULES IN FAVOR OF OIL COMPANY

Three Hundred Southern Mills Will Recover $6,000,000 On War Contracts

Washington, June 5.—(AP)— An opinion by Chief Justice Booth of the United States Court of Claims favorable to the Hazelhurst Oil Company of Hazelhurst, Miss, under which 300 southern cotton oil mills will recover nearly $6,000,000 on war time contracts with the government has been handed down.

The decision reverses a previous ruling of a United States court in the Hartsville Oil Company case, of Hartsville, Ark.

The litigation has covered some ten years. The contract in question dating to the time when President Hoover, then food administrator, and the war industries board stabilized the prices of cotton seed products.

Linters, cotton fibre from cotton seed used for high explosives, was among the products upon which prices were fixed.

Under a contract with the mills the army agreed that at the end of the war linters on hand and all produced within 30 days would be paid for.

At a conference with mill representatives in December 1918, the army gave them one hour in which to accept the proposal that it would take all linters baled and ready to ship if the representatives would sign an agreement releasing the army from obligations under the previous contract. The representatives agreed but later contended duress.

One case was taken to the Supreme court by the mill owners, and Justice Stone, while upholding a lower court's decision of no duress, said in an opinion that if the signing of the contract meant financial embarrassment it could be construed as having been obtained under duress.

On a remand, another case—the present one—was brought before the courts of claims which ruled the War Department's action did involve "legal duress." The court further held the millers were entitled to restitution for their losses.

No appeal has yet been made.

Cannon Withdraws As Voluntary Witness At The Senate Lobby Probe

Declares He Will Answer No More Questions Unless Subpoenaed, And Hobbles Out of Committee Room At Washington

Washington, June 5. — (AP)— Bishop James Cannon, Jr., walked out on the Senate lobb committee today, and his questioners decided to take no legal steps for the present to bring him back.

The committee will not meet again until next Wednesday, and meantime it expects neither to issue a subpoenae nor begin contempt proceedings to punish the Southern Methodist leader for his refusal to testify about his anti-Smith campaign activities in 1928.

As he withdrew, unexpected, and followed by applause, hisses and laughter, Cannon flung back at the committee another challenge of its authority. He had appeared voluntarily, he said, had answered all the questions he considered proper, and was through unless the Senators chose to formally subpoenae him.

Chairman Caraway, who agrees with Cannon that he should not be questioned about his leadership in the anti-Smith campaign, will return to Washington Tuesday. On the following day the full committee expects to make its decision.

Washington, June 5.—(AP)— Still defiant of senatorial authority, Bishop James Connon informed the Senate Lobby committee today he would withdraw as a "voluntary witness," and would answer no more questions unless subpoenaed.

Up to this time he has been appearing voluntarily, having asked for a hearing.

His refusal on two successive days to answer questions about his expenditures in the Virginia anti-Smith campaign in 1928 already has presented the committee with a poser. The members are divided on the question of prosecuting him for contempt.

Today, at the outset of the hearing, the bishop broadened his refusal to cover any and all questions which might be asked while he remained in his status of voluntary witness.

He announced his position in a prepared statement, which he read from the witness stand.

Then, amid applause and hisses from the spectators, he gathered up the crutch upon which he leaned in entering and moving about the committee room, and walked away.

"You take your own course but we have not excused you," Senator Walsh of Montana called after him. "Senator Blaine wishes to question you."

Moving away as Blaine started talking, the bishop said over his shoulder:

"I will be at my office if the committee wishes to subpoenae me."

His statement to the committee, said:

"In view of the nature of the questions asked me by the committee on yesterday morning concerning the Asheville conference, its originators, its participants, its of-

Would Make Rum Buyer Guilty Also

Washington, June 5.—(AP)—Senator Sheppard called it "grotesque" today to consider liquor buyers innocent of law violation.

The Supreme Court has held them innocent under present law, and the Texas Senator was advocating judiciary committee approval of his bill to make buyers as guilty as bootleggers.

Sheppard testified press comments on the Supreme Court decision "have been to the effect that purchasers could now feel a profound relief and proceed to buy intoxicating liquor with impunity."

"The whole structure of liquor lawlessness rests upon the buyer of illicit liquor," he continued. "Without him, traffic in illicit liquor could not persst."

Although the committee may act, there is little prospect of Senate action on Sheppard's bill at this session.

Stores and business houses of Greenville will begin observance of the half holiday closing plan next Wednesday at 12 o'clock, it became known today.

The hlaf holiday also affords hundreds of men and women an opportunity of going to nearby beaches for recreation, and it is believed by many that this has had a tendency of producing increased efficiency during the rush of the busy seasons.

The closing plan will be observed through August 13th, and after that time the stores will begin laying in stocks for their fall and winter trade.

WILL INSTALL TELEPHONES ON HIGHWAYS

Emergency Service to Be Established In Pitt to Connect With State System

Highway emergency telephone service connecting with all sections of the state is being established in Pitt county by the Highway Emergency Service, Inc., it became known today. The first four boxes of the system were installed today, and the remainder will be placed in operation as soon as possible. There will be a total of fifty boxes in the Greenville territory.

J. G. Lusby, representative, of the Highway Emergency Service, a North Carolina corporation with headquarters at Rocky Mount, was in the city today completing arrangments for installation of the boxes. A service club is to be organized and each member will be given access to any box in the state system.

The Greenville Merchants Association was instrumental in bringing the service to Greenville. Realizing the need of telephon service on the highways of the county, members of the association invited the Highway Service representative here to make the survey which was completed yesterday. The telephone boxes will be installed thru the local telephone exchange, and should be of invaluable aid to the thousands of motorists passing over the highways of Pitt county. It will also be of splendid service to the people of the rural district in case of an emergency.

The Highway Emergency Telephone service, it was stated by the representative, was formed to develop a system of telephones along the state highways. Telephone boxes will be placed at approximately one mile intervals. These boxes will be opened by a master key. The service is available to motorists at a reasonable rate. To further assure the motorists of the best help when an emergency arises, contracts have been made with reliable garages, hotels, doctors, etc., who are listed in a prominent position in the boxes. The boxes will be in service day and night.

With the ever increasing number of automobiles on the highways, the need for a service of this kind has been demonstrated the past several months. The emergency boxes placed on telephone polls one mile apart will enable the motorist to reach friends in any section of the country in case of accident. He will also be able to obtain emergency service from nearby towns within a few minutes.

Stage Set For Battle Of Ballots In Primary Here During Coming Saturday

Candidates Making Final Rounds of Constituents in Various Sections of State and County; To Vote Under Australian Ballot System

With one day intervening before the Democratic primary Saturday, candidates for the various offices were making final rounds of their constituents today in preparation for one of the greatest battles of ballots in years.

Although the Simmons-Bailey senatorial contest occupies the main part of the limelight, the fight for Superior court judgeship and solicitorship also hold considerable interest.

The county ticket is also drawing much attention, and indications pointed to one of the most stubbornly contested primaries in years as it pertains to the fight for seats in the State Legislature and on the Board of County Commissioners. There are a total of seven candidates lined up for the House of Representatives, and three for the Senate. There are twelve candidates for the Board of Commissioners. The fight for sheriff is also drawing considerable interest, Sam Whitehurst, the present incumbent being opposed by Wyatt C. Tucker.

George Clark, chairman of the Pitt County Board of Election, was probably the busiest man in Greenville today as he made final preparations for the flood of ballots in different parts of the county. There are a hundred and one worries attached to this job, such as preparation of tickets, the placing of ballot booths, and dissemination of election information, and the chairman of the board was scurring about to every part of the city and county today getting everything in readiness for the big fight.

The county will vote the Australian ballot system for the first time during the coming primary. Booths

Graf Zeppelin Arrives At Seville On Last Lap Of Flight To Home Port

Several Passengers to Disembark At Spanish Port After Which Giant Dirigible Will Continue On to Friedrichshafen

Seville, June 5—(AP)—Fresh from her seventh crossing of the Atlantic the homeward bound dirigible Graf Zeppelin flew over the city of Seville today ready to disembark several passengers and then to continue on to Friedrichshafen.

The Graf, after fighting unfavorable weather conditions off the European Coast, arrived over Seville at 3:20 p. m. (10:20 a. m. E. S. T). She had been expected here early this morning but heavy rains and winds had forced her to divert from a straight course from the Azores and to swing to the north so that she made her landfall just south of Lisbon, Portugal.

The Graf flew over the city to an accompaniment of cheers from the inhabitants who saw her last on May 20th when she left for Pernambuco, Brazil and the United States. The flight from Lakehurst to Seville took 59 hours and eight minutes.

After flying over Seville, the Graf continued on to the airport and circled above the port with the intention of cruising around until later in the afternoon before making her ladig.

With her arrival over Seville, the Graf had completed about 16,000 miles of her 18,000 mile four-continent journey which started on May 18.

Although it had been raining during most of the day, causing the Graf's lateness, the skies cleared rapidly this afternoon and by mid-afternoon the sun was shining. The wind had dropped and landing conditions were growing more favorable.

A chicken dinner is in store for passengers and crew of the Graf after they leave Seville. Dr. Eckner today wirelessed his local commisary base to have ready enough chickens to feed 60 persons. He also ordered substantial quantities of potato salad, cheese, vegetables, fruit and several cases of mineral water but only ten bottles of white wine.

SHOUSE AGAIN ASSAILS THE TARIFF BILL

Also Launches Attack On President Hoover Upon Arrival At Columbus

Columbus, Ohio, June 5.—(AP)—Jewett Shouse, chairman of the Democratic National Executive Committee, who is to be the principal speaker at a Democratic victory dinner here tonight in a statement on his arrival from Washington this morning assailed the leadership of President Hoover and attacked the tariff bill.

"In the Hoover administration there has been so totally lacking the courageous leadership which the country has a right to expect that already his administration is floundering hopelessly and helplessly."

Shouse will elaborate in his speech tonight, the topic of which will be "A Review of Fifteen Months of the Hoover Administration."

ELEVEN MORE NEGROES ARE PASSED TODAY

Only One of Twelve Examined By Election Board At Raleigh Fails to Pass

Raleigh, June 5.—(AP)—Eleven of the first 12 negroes in Method precinct who registered for the primary Saturday as Democrats and who were challenged by J. S. Griffin, were passed by election officials today when they appeared for examination.

Another man who appeared, Roy L. Morgan, white, said he came all the way from McKinney, Va., to answer the challenge, when Mr. Griffin found Morgan was a white man he immediately withdrew his challenge.

One negro was barred on the educational test after he haltingly read a section of the state election laws and mispronounced several words. Attorneys for the registrants immediately entered exception and said they would appeal to the state board of elections.

A steady stream of negroes was appearing at the fair grounds, at the end of the first hour and a half.

Mr. Griffin, in a statement made orally to the press at the precinct headquarters, said that the challenges in Method were not on the same grounds as those in other Wake county precincts which were lodged by Bart M. Gatling, Wake county manager in the campaign of Senator F. M. Simmons for renomination.

Mr. Gatling challengtd some 400 registrants "because they are negroes." Mr. Griffin, without giving definite grounds for his challenges, said that for years the precinct voting place in Method had been in the store of Berry O'Kelly, negro, and that it was changed last fall to state propertl. He said he made the 98 challenges in the "interest of certain people in the precinct."

Challenge hearings started Tuesday in the instances where Mr. Gatling did the challenging. Tuesday challenges against eight persons were withdrawn when it developed they were white; 46 others against negroes were withdran and 18 ere overruled by election for challenge hearings and all were passed.

Sen. Robinson Defends Treaty

Fort Smith, Ark., June 5.—(AP)—Characterizing as "trival" the controversy between members of the navy board over the combat value of eight and six inch gun cruisers, United States Senator Joe T. Robinson, in an address here today, defended the London naval agreement and declared it placed the United States on a parity with Great Britain in sea power.

Senator Robinson, who was one of the American delegates to the naval conference, spoke before the annual convention of the Arkansas bar association.

After reviewing the treaty, Senator Robinson declared the "issue is thus narrowed down to the question whether the 10,000 tons additional six inch gun ships, which the treaty provided over that demanded by the navy board, are sufficient to offset any real or imaginary difference in combat value of three ships armed with 8 inch guns and the same number armed with 6 inch guns."

Tariff Measure Again Returned For Coference

Washington, June 5.—(AP)—The tariff bill was returned to conference today for the fourth time when Vice-President Curtis upheld a Democratic point of order against its rate provisions.

The rates questioned today are embraced in the original conference report already approved by the House.

The House will have to reappoint conferees before the two houses can negotiate. Democrats in that branch will attempt to instruct the conferees on many rates bu House Republican chiefs will obtain a rule to thwart their move and save time.

Vice-President Curtis sustained points of order against some conference rates on cheese and, while in doubt about objections raised against watch rates, suggested a revision of the language.

Tax Commission Hears About Effort To Fix Seed Prices

Washington, June 5.— (AP) — Efforts of individuals and organizations to establish cotton seed price reporting systems were discussed before the Federal Trade commission today in its investigation of alleged cotton seed price fixing.

Placed in the record, while Christie Benet of Colombia, S. C., was on the stand, were several letters written by S. M. Harmon, secretary of the Mississippi Division of the National Cottonseed Products Association. Benet is general counsel of the national association.

In the letters and a circular Harmon suggested that members of the Mississippi division telegraphed Cotton Seed Products price changes to their secretary, who in turn was to transmit the information to all subscribers to the service. Benet said he did not approve this plan. He said he thought the price reporting system should be handled by the Bureau of Markets, or the Department of Agriculture.

He was questioned abou trade practice rules adopted at a conference at Memphis in 1928, and said his office made no "direct effort" to enforce the code. He also said the trade commission's estimate that 95 per cent of the industry was represented at Memphis was "high."

German Prince Weds Duchess

Hamburg, Germany, June 5—(AP)—Crown Prince Friedrich Wilhelm Victor August Ernst Von Hohenzollern, who as the German crown prince a quarter century ago married the youthful Cecile, Duchess of Mecklenburgh, amid pomp and pagentry in pre-war Berlin, today was making plans to observe his silver wedding anniversary in the quiet of his suite at a Hamburg hotel.

The celebration necessarily will be a day late, for the steamship Cap Norte, in which Cecile is returning from Argentina with her son Friedrich, will not arrive until Saturday.

The former Crown Prince is scheduled to arrive in Hamburg with his sons Wilhelm and Hubertus in time to meet the ship. The family then will go to the Hotel Four Seasons—a hostelry familiar to many American tourists—for a quiet reunion and observance of jubilee among themselves.

The family will go on Sunday to Doorn, Holland where the former Kaiser Wilhelm and Hermine are in exile.

The former crown prince naturally will find tomorrow a day of melancholy memories. Twenty-five years ago the streets of Berlin were strewn with roses and the whole nation was in festive mood honoring the prospective ruler and his bride, the beautiful 18-year-old Cecil, duchess of Mecklenburgh. NATIONAL ADVERTISING REPRESENTATIVES

Bryant, Griffith and Brunson, New York, Chicago, Boston, Atlanta.

IT'S THE ELECTION THAT COUNTS.

Of course all good Democrats will want to go to the polls Saturday to help nominate their favorites as the party representatives in the coming November elections, but in this last few days of campaigning when charges and counter-charges always are thick and fast, let's look beyond Saturday's skirmish to the election in November which is what really counts.

Saturday's primary your favorite may or may not be nominated, but make up your mind now that the most important factor this year is to see to it that the entire Democratic ticket is swept to victory in November. Of course, there are among the candidates for the various offices those who we prefer to win the nomination, but whether or not our wishes in this respect come true we will, as good Democrats, support the ticket in the November elections. Democracy in our state is at stake and once the ticket is nominated we shall make every effort to help put it across.

As we see it, all good Democrats should feel likewise and if this is not your idea about it you have no business taking part in the Democratic primary next Saturday.

William Blalock Dead.

Winston-Salem, —(AP)—William Hartley Blalock, 67, died yesterday at his home here following a four year illness.

ABOUT TOWN

Memebrs of the Pitt County Health Department are endeavoring to meet public demand by a ten percent cut in the salaries of the various employees of the department.

The budget prepared for next year indicates that there will be no decrease in office personnel, the same force being retained to carry on the public health program scheduled for the various parts of the county.

The half holiday on Greenville business houses will become effective next Wednesday afternoon and continue through August 13th. This is the same plan tried out in recent years, and which will be as generally observed this summer.

This will give the employees of the stores and business houses an opportunity of spending the afternoon of each Wednesday out in the open getting themselves in good physical trim for the strain of the fall and winter months.

The merchants are wise in adopting this plan each summer, as it should have a tendency of increasing the efficiency of personnels when the season of speed an accuracy is needed the most.

The re-election of Dr. Clem Ham as director of the Pitt County Health Department will be received with interest in the different sections of the county.

Dr. Ham has been with the department about 11 months and during that time he has made many friends among people in all walks of life. He is intensely interested in the work of improving public health in Pitt county and has an ambitious program outlined for the future.

The public has been urged to lend him all the assistance possible in future activities and in that way further the movement to safeguard the many communities of the county against ravages of disease.

The committee soliciting funds for the Boy Scout hiking camp to be constructed on the Falkland road near Greenville will make its rounds this week and the public will be called upon to give liberally to the cause.

This is one of the main objectives of the Scout officials this year, and will fill a long felt need of the organization here. The various of the city are promoting the movement in every way possible, and hope has been expressed that the public will do likewise.

The Greenville Scout organization is on of the most progressive in the state, although am't the youngest, and with proper interest from the public it will continue to grow and expand in the future. See that you help make this progress possible by subscribing as liberally as possible when the soliciting committees visits you.

SAYS SHERIFF NOT RESPONSIBLE FOR BELL NOT BEING RUNG

In connection with the failure of the Court House bell to ring at the hour of meeting of the Pitt County Tax Payers association Monday morning June 2, it seems Sheriff Sam Whitehurst is being blamed and criticised by misinformed citizens, and this is to say that the sheriff was in now way responsible. He was not approached for the key to the belfry because it is generally known that he is not custodian of the Court House. The Court House janitor Ed Thompson, colored, had the key and he was out of town at the time. The custodian told me this at the time F M. Wooten and I were trying to get to the bell rope.

THEY SAY "REDDY" IS DESPERATE

(Editorial From the Pitt County Record)

This is going to be our parting shot at our friend, D. M. Clark, who is a candidate to succeed himself as solicitor of this district. "Reddy" has given us the cold shoulder since we walloped him a few weeks ago. He sees us on the streets, but does not speak. He passes by the front door of our main entrance every few days and every few hours when he is in town—but he does not come in. He did call on us once, the first time we gave him mention in this column. We had a few words of private and personal conversation, in which certain understandings were passed. These do not matter—never have and never will.

"Reddy" is getting desperate, however, we observe. He has gone to using the newspapers, in this eleventh hour, to urge folks to return him to his office. He publishes a pitifully small list of endorsements, however, and draws terribly heavy on his files to furnish editorial approbation. One was dated April, 1929, a long 14 months ago. This endorsement was given by the most brazen and audicious supporter of a major candidate for office we ever read after. This was one "Kid" Homan, of New Bern, who publishes the New Bern Times, a weekly of about the calibre of ours, but whose editorial writer evidently subsists on the vicissitudes of politics.

We are not going to razz "Reddy" much this week. He has a right to run for office to succeed himself. But it is observed that he IS getting desperate. A few weeks ago we told our readers that "Reddy" was sending out propaganda of a secret nature. Some of this has come back home. We learn that "Reddy" has kept up with his courts to the extent that he has secured the names of all jurors who have served in this capacity within the past many months in the courts of this district, and "Reddy" is now sending them letters telling them how well did they conduct themselves while sitting in judgment on their fellow men, and that in exchange for the compliment they ought to vote for "Reddy."

Word has leaked into Greenville that "Reddy" has been over in Greene county and tried to confuse one Mr. Moore who takes his toddy regularly with his opponent, who does not drink at all.

Word comes that "Reddy" has some friends in the secret orders hereabouts who don't mind making a speech in his behalf to the brother lodge members. One of the obliging lodge members, who lives here in Greenville, is said to have made such a speech recently, but when the heads of the lodge found it out they made him apologize for his mistake. You see, some of the fraternal organizations are non-partisan.

Not unlike many other candidates for office with district-wide status, "Reddy" has been accused of holding "midnight conferences" with locally known Simmons supporters. We have no direct evidence of this accusation. Maybe "Reddy" will honestly deny this charge.

Mr. Clark, dear reader, is human. He has had several years experience in politics. He is given credit for holding a virtual dictatorship over the political machinatons of the City of Greenville—even while he is a servant of the people of this district. He is what you would call a regular hum-dinger so far as politics go. But the voters are getting wise. They know that he is NOT attending strictly to his duties as solicitor of the district, and many of them are going to vote for another candidate.

The Record, as we said in the first paragraph, is taking a parting shot at "Reddy." We remove our arms from firing position to port, but stand at attention. If the occasion demands it, we will resume action. What we have said is from the shoulder.

SOON REGAINED HER STRENGTH

Felt Like She Was Going to Get Down In Bed, But Cardui Helped.

Guthrie, Ky.—"Some years ago my health was very bad," writes Mrs. Thomas Latham, of this place.

"I was thin and pale. I thought I was going to get down in bed. I felt tired and worn.

"I read where Cardui was a good tonic for weak women, and decided to take it. After my first bottle, I felt better and had a better appetite, so kept it up. By the time I had taken three bottles, I was so much better and stronger that I was able to leave it off.

"Since then in the spring when I feel run-down and need a tonic, I send for Cardui, and by the time I take two or three bottles I have regained my strength and feel like new. I have never found a better tonic and I recommend it to my friends."

Thousands of other women have taken Cardui to help them to build up their health. The good reports which have been received, telling of the experience of others, should encourage you to try Cardui, for your troubles. N-798

CANNON WITHDRAWS VOLUNTARY WITNESS FROM SENATE LOBBY PROBE

(Continued from page one)

ficers, its methods, its contributions, etc., and the further questions asked me concerning the activities of the anti-Smith Democrats of Virginia and specifically concerning the activities of myself as one of the two citizens calling the Asheville conference, and as the chairman of the headquarters committee of that organization, and as the treasurer of the Virginia anti-Smith Democrats and furthermore in view of the fact that no such investigation has been instituted by the committee of the activities of other organizations or committees opposing or favoring the wet Tammany candidate in 1928, not even of the Smith for President Colored League, or the Smith independent organization committee, both supported entirely by funds from the National Democratic committee, and because I consider this to be an effort to single out and hold up to the country the anti-Smith Democrats, and myself in particular, as the only persons whose activities in the campaign in 1928 require investigation, and because I believe the proposed investigation to be a part of the effort for many months of wet and Roman Catholic elements and of those who worship party regularity to prevent a recurrence of the Asheville conference, in 1932, I resent to the limit the implication and the purpose of this action.

"In view of these things, I must respectfully state, that having answered all questions addressed to me by the committee on which I volunteered to appear as a witness, I shall now withdraw as a voluntary witness.

"If the committee desires to subpoenae me that is its right."

Just as the bishop left the room, Senator Borah, Republican, Idaho, arrived. His presence gave the committee a quorum for the first time since the examination of Cannon began. There are five members, and three makes a quorum. The absentees were Chairman Caraway, Democrat, of Arkansas, and Senator Robinson, Republican, of Indiana.

Borah, joined in the laughter as he took his seat and looked across at the vacant witness chair.

Blaine then read into the record the reports on distribution of the Cannon pamphlet, "Prohibition Repeal Unthinkable," for which the bishop was paid $5,000 by Dr. Clarence True Wilson and by which he repaid a $300 loan by Dr. E. L. Crawford of the Southern Methodist Board of Temperance.

Walsh then put into the record the report made by the Virginia anti-Smith campaign committee to Congress.

It listed as loans from Bishop Cannon $2,000, given in four installments of $500 each during July and August of 1928.

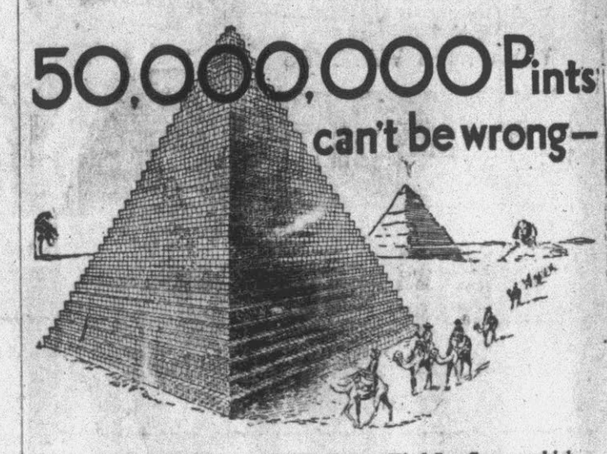
Disbursements included several payments to the bishop for traveling expenses and repayment of loans.

"In none of these reports does there appear any record of receipts of any money from Mr. Jameson," observed Mr. Walsh.

Jameson has testified he contributed $65,300 to Cannon for the anti-Smith campaign. The report to Congress listed receipt of $17,000.

Cannon has explained that he did not report the remaining $48,300 because it was used in the Virginia state campaign.

50,000,000 Pints can't be wrong—



IF the 50,000,000 pints of The Velvet Kind Ice Cream which will be sold this year were built into a pyramid, and that pyramid were on a desert, what caravans of parched travelers would be attracted!

And they would make a pyramid of some size, too—those 50,000,000 frozen pints. Of course they will never reach a desert, but a large portion of them will reach dessert plates on tables around which a particularly pleased company sits.

The point is, those pints must invariably have special excellence, special quality, specially fine flavor, and smooth texture, or there never would be 50,000,000 of them, for like the famous Frenchmen, that many packages of ice cream couldn't be wrong.

The Velvet Kind
ICE CREAM

points with pride to an unequalled record, in making from finest Southern products this prodigious amount of the world's highest grade ice cream, for the pleasure of the cities and towns of the Southern States—offering varieties of flavors and a sanitary method of packaging which would have been impossible a few years ago except at prices which would have been prohibitive.

The systematized work of Southern Dairies, developing and democratizing a big business under competent organization guidance, has been profitable in many ways to many hundreds of Southern communities.

Not the least of these has been the always even production and distribution of this wonderful ice cream.

Cotton--Stocks--Grain

COTTON MARKET

New York, June 5.—(AP)—Cotton opened steady at a decline of four points to an advance of one point. Active months sold about 4 to 6 points net lower during the first few minutes under renewed liquidation and scattered offerings promoted by favorable weather reports and easy Liverpool cables.

The decline to 14.18 for the new October contract attracted some trade buying and the market was fairly steady at the end of the first half hour with prices working back to about yesterday's closing quotations.

GRAIN MARKET

Chicago, June 5.—(AP)—Comprehensive advices suggesting that European wheat yields this season will be 25 per cent less than normal, lifted wheat prices today toward the last.

The reports about probable curtailment of European wheat production were accompanied by predictions of large demands upon United States, Canadian and Argentine shippers to make up the deficit.

STOCK MARKET

New York, June 5.—(AP)—Professional traders continued their experimental efforts to send prices one way or the other in today's stock market, and found speculation for the decline the more effective. Bear selling was in substantial volume for a time, and the loss of two points or more were common among the pivotal shares.

Extraordinarily abundant credit, and the possibility of a reduction in the New York federal reserve rediscount rate, were interpreted unfavorably, in sharp contrast to the construction placed upon similar developments in March. Bankers acceptance rates were cut to 2 1-4 to 2 1-8 per cent for the shorter maturities, the lowest in six years. These rates are far out of line with the rediscount rate of 3 per cent, and would seem to suggest a downward revision. The Bank of England made no change in its 3 per cent rate, however, and a reduction of the New York rate to levil lower than that of London would be a departure from recent policy.

While the reductions in bankers acceptance rates were undoubtedly in expectation of the temporary influences toward cheap money of the quarterly treasury financing during the next fortnight, they have apparently been encouraged by the reserve authorities, in view of the rduction of the reserve buying rate on Tuesday. The bearishly inclined stated that such drastic slashing of money rates would seem to indicate that bankers believe business is in need of an extraordinarily strong tonic, and that flotation of the reparations loan may require considerable artificial assistance. The New York federal reserve rate is now as low as it has been since the reserve system was inaugurated. In the over the counter market bank stocks sagged.

Boost Morrow For President

Trenton, N. J. June 5.—(AP)—A presidential boom for Dwight W. Morrow, ambassador to Mexico and candidate for the Republican Senatorial nomination in New Jersey, has been launched here.

With Mr. Morrow occupying a seat on the platform at a political rally last night, Edward C. Stokes, former governor of New Jersey, and Dr. John Grier Hibben, president of Princeton University, advanced his name as a White House possibility.

"Mr. Morrow" said Mr. Stokes, "is not only worthy to have a seat in the United States Senate; Ambassador Morrow is presidental timber.

"I know that I am treading on delicate ground. At Atlantic City the other day he disavowed being a candidate. I don't think he has anything to do with that question. No man in this country is big enough or great enough to decline a call to the presidency."

He cited Mr. Morrow's part in the history of the state and recalled that New Jersey had sent Woodrow Wilson to the White House.

"We had a Democratic president from New Jersey", he said "and now we are going to have a Republican president from New Jersy.

30 x 450	$6.65
29 x 500	$8.40

Just get the Prices on CAVALIERS—*and see!*

DON'T let anyone tell you that good tires must be high priced! For right here on our racks, we've got tires in your size that will surprise you on price and tickle you to death by their performance!

They're Goodrich Cavaliers . . . and real bargains if you ever saw one.

They have to be good to carry that name, Goodrich! They have to come up to the most rigid standards in the business . . . and that means that out on the road you can forget them.

But the thing you'll like best of all is the price. Oversized, thicker through the tread, stouter in carcass and sidewall . . . you'd guess this tire was priced with the highest. Actually it's lower than just ordinary quality.

So come in . . . right away! See what we've got! But bring the car . . . because you're going to want two, at least, maybe four, when you see what values they are.

STEPHENS TO BE NEXT HEAD OF VETERANS

Annual Ball and Election of Officers to Be Highlight of Biloxi Meeting

Biloxi, Miss., June 5.—(AP)—A day of business meetings and an evening of pleasure lay before the south's assembled confederate veterans today as they arose from their cots in Camp Sneed.

The day's schedule called for election of officers, and while the high post of commander in chief of the veterans appeared uncontested, filling of the lesser offices commanded interest.

Then, too, the annual ball, always a highlight of color in confederate reunions of years past, will be held tonight. Its prospect livened the day for the veterans, many of whom while they can no longer trip the reels and waltzes they knew as they marched away in '61, will nevertheless attend the affair and be reminded of the young ladies with whom they danced last farewell dances before they left to fight the battles of the confederacy.

Harmony prevailed in the rank and file of the warriors as they entered into session to choose their leaders for another yaer.

At a conference yesterday it was agreed tentatively that General L. W. Stephens of Coushatta, La., would be the next Commnader-in-chief succeeding General, R. A. Sneed of Oklahoma City. At the same meeting, participated in by General Sneed, Surgeon General F. H. May of Birmingham, Ala., Mrs. W. B. Kernan of New Orleans, the Rt Rev. T. D. Bratton of Jackson, Miss., chaplain of the U. C. V., General Felix Best of Birmingham, and others, it likewise was tentatively decided that the 1931 runion would be held in Montgomery, Ala., and the one in 1932 in Houston.

Mysterious Death Valley Covered By Growth of Flowers

Betty, Nevada, June 5.—(AP)—Death Valley, forbidding, mysterious desert whose scalding heat usually is an effective barrier against entrance of summer visitors, has been transformed by a prank of nature into a brillant area of flowers.

Back n covered wagon days, in 1850, a party of emigrants, California bound, perished from thirst in the arid waste. The valley, 150 miles long and from 10 to 35 miles wide, received its name from the incident.

So extreme is the heat during most summers that even the lizards and horned toads, existent reptile life from October until the middle of May, mysteriously depart for other habitations.

The phenomenon is a botanists' paradise. Letson Ball mining engineer and botanist, said that one hundred varieties of flowers, many of them unclassified, could be gathered within thirty minutes in a radius of fifty yards.

The brilliantly colored flowers include dozens of species of asters, wild columbine, blue larkspur or delphiniums, sergo lillies, bluebells, daisies, butter cups, poppies, wild geranums, flowering grasses of all varieties purple sage and cactus flowers.

Bright yellow is added to the varied hues by splotches of dandelions, hedge mustard and dog phenel.

West Jefferson, N. C.—(AP)—Thieves broke into the postoffice at Silas Creek near here and robbed it of $80.

Myrtle Beach, S. C.—(AP)—M. A. Rousseau, 35, of North Wilksboro, shot and killed himself at a residence he maintains here. Despondncy over ill health is believed to have caused the act.

NOTICE OF CANDIDACY.

Subject to the action of the Democratic primary on June 7th 1,930, I hereby announce myself for re-election to the State Senate.

I am in hearty sympathy and agreement with any safe movement for the reduction of land taxes. During the past wo sessions of the General Assembly I have nelped and aided in the passage of laws which have materially reduced land taxes in Pitt County. If elected, I pledge a continuation of my efforts in this movement. Your support will be appreciated.

TO THE VOTERS OF PITT COUNTY

Attempt to Stop Further Carnage of Chicago Gangs

Chicago, June 5.—(AP)—Stoppage of further gang carnage rather than the solution of recent killings occupied police today as word grapevined to them that crack gunners from the eastern ganglands were being recuited in the local war.

Extra squads were detailed early today into the "Little Italies" of the North and West sides to prevent further outbreaks. Officers were sure the gang conflict was by no means ended with its death list of ten in less than a week.

No tone, but two gang wars are under way, as police see it. On the one hand is the battle between factions among Sicilian gang leaders for supremacy in the liquor and extortion traffic which has fed the purse of certain groups for years. On the other, police said, is the enmity between the Moran and Druggan gangs, accentuated by the triple murder of Druggan men at Fox Lane early Sunday.

Hope of new clues in the latest slaying—that of Thomas Somnerio Tuesday night—faded today when police admitted they had learned little from the "pretty blonde" they questioned last night. The young woman, known as "Mabel," was said by Somnerio's widow to have been the sweetheart of her husband. Mrs. Somnerio believed the girl had Somnerio "put on the spot."

The young woman, however, professed only a casual acquaintance with the slain man and denied ever having known of his slaying having had any gang connections. She was released.

Fear Tong War Brewing at N. Y.

New York, June 5.—(AP)—A Chinese waiter was shot six times and killed today, and police saw in the slaying a possible Tong war.

The victim, Ha Gong, 25 years old, was killed by two men who had concealed themselves near the door of his fourth floor furnished room in Allen street.

An extra detail of police has been on duty in Chinatown for the last three weeks, following rumors of an impending Tong outbreak.

Ford Motor Company Charges School With Padding Last Budget

Dearborn, Mich., June 5.—(AP)—The Ford Motor Company, which pays 70 per cent of the taxes in the Fordson school district, today published a report of auditors employed by the company charging the district school board with "padding" its 1929-1930 budget to the extent of $200,000.

Henry Ford formerly was a member of the board, but was removed by other members about a year ago because he failed to attend sessions, sending instead a representative who acted in an "advisory" capacity but had no vote.

The Ford auditors criticized, among other things, the alleged purchase for the high school waste baskets for $26 each, walnut coat-racks at $22, and book-cases at $158 a shelf. They also reported that the board paid for 143 loads of coal but used only 52.

FIRE WRECKS STORAGE WAREHOUSE AT NEW YORK

New York, June 5.—(AP)—Dense clouds of heavy, acrid smoke covered the mid-town section as far north as Himes Square early today when fire destroyed a six-story warehouse in West 27th street. More than 300 families occupying nearby tenements, fled to the street.

The brick structure was occupied by the Meridian Oil Engine Corporation, but formerly had been used as a storage warehouse by a paint company, and the interior was soaked with oil and paint.

The fire was confined to the building.

Goldsboro, June 5.—(AP)—An investigation is underway here today into the falling of a scaffold yesterday which plunged one man to his death and seriously injured another.

Engaged in work on the annex of the Goldsboro Hospital, L. R. Edgerton, of this city, was killed when the scaffold fell. J. R. Rowe, of Wilson, is in a hospital. His injuries are serious, physicians said.

REDS DROP CONTEST TO THE GIANTS

Dan Howley, manager of the Cincinnati Reds, has become one of the leading experimenters of the National League as well as one of its leading traders, and he has prospects of good results if he can mold material he now has into a coordinated baseball team.

The Reds, as they are now, seem to have everything but the ability to make their hits count. They get plenty of blows, 84 of them in their last seven games, and frequently have good pitching to go with them, but still they lose the close decisions and games in which they have the best of the hitting.

Howley shook up his lineup again yesterday, putting Pat Crawford in the lineup with Bob Meusel lead off. The result was good enough to produce 14 solid hits but not a victory. Their opponents, the New York Giants got but 12 blows, but six of them came in succession from the first six batsmen in the opening inning and started the Giants off to a 6-1 lead and an 8 to 5 victory. Pete Donohue continued the act that the former Reds who now wear Giant uniforms have been staging by pitching a fair game and contributing a home run to his first victory for New York.

The hit totals made by the Reds and Giants, big as they were, appeared small when the Chicago Cubs got into action and they trounced the Boston Braves, 18 to 10. The Cubs hit 20 times for 34 bases, getting six doubles, a triple and two homers and gave Harry Siebold and his two successors a bad time of it. This was the second successive time Siebold had been driven from the mound after starting the year by pitching the nine full games.

The Cubs finished only two games behind Brooklyn as the Robins literally threw away a game to the Pittsburgh Pirates by a 12 to 6 score. The Robins made eight errors, most of them on bad throws, and nearly every bobble meant a Pittsburgh run. The Pirates made five errors. This result left the Pirates only a game behind the St. Louis Cardinals, who lost the day's only mound duel in the National League to Philadelphia, 2 to 1. Ray Benge gave the Cards only four hits, Chick Hafeyes homer bringing the one run.

The American League reversed the procedure of its elder rival completely and produced four tight battles, three of them going ten innings apiece, and left the positions of the leaders unaltered. The leading Philadelphia Athletics beat out the St. Louis Browns, 4 to 3, in the only nine inning contest as Sam Gray, formerly the star of the Brownie Mound staff, lost his ninth straight game.

Washington, in second place, scored three runs in the tenth to beat out the Detroit Tigers, 11 to 8, after Deroit had scored six runs in the last three regular innings to gain a tie. Earl Whitehill was the victim of the rally and became the losing pitcher for the second successive day.

The Cleveland Indians and New York Yankees remained in third and fourth places respectively, the victims of upsets. The Yankees dropped an 8 to 7 decision to the Chicago White Sox.

Ed Morris of the Boston Red Sox proved in the long run than willis Hudlin of Cleveland and gave Boston a 5 to 4 victory in another ten inning duel. xz xz xz..Jgphd54 inning duel.

SPORTS SLANTS

Among veteran horsemen, talking of Man O'War, it has always been their contention that the only thing necessary was to stick a boy on his back and let the super-horse run. Man O'War, they say, "ran over" every rival (except one) through the sheer desire and ability to go the routes faster than any other horse of his age.

Gallant Fox is a horse of another color—and temperament. A good but not grea two-year-old, winner twice in seven races and unplaced only once, the son of Sir Galahad III, horsemen believe, has developed invincible tendencies as a three-year-old chiefly because a complete response to the riding skill of Earl Sande.

This is not unprecedented on the turf by any means. Trainers often find their charges doing better for one rider than another. Horses, they say, are human in their likes, dislikes and fancies. They sulk for one boy where they will ride hellbent for another. And so it seems that Gallant Fox has found the gallant Sande to his liking.

Unbeatable so far, the combination has a good running start toward equalling the record of Sir Barton, which won the Preakness, Derby, Withers and Belmont stakes in 1919. Man O'War, in 1920, swept through all these classics but the Derby, for which the super-horse was not entered. Gallant Fox will run in the Belmont June 7.

The day before the Derby at Louisville, I talked with Mikey Walker about his great slugging match with the late Harry Greb at the Polo Grounds in 1925, when for 15 rounds these two belted each other all over the place.

"That was as hard a fight as I ever had; at various times we were bot out on our feet," said Walker. "I had Harry 'out' in the second round but he fooled me and recovered. He had me going in the fourteenth but I managed to stick. You know, afterwards, we met and had a big beefsteak together at the same tavern and talked it all over. I think we had a lot of respect for each other."

That evening, by a coincidence, Walker suddenly found himself in the thic kof another knock-down-and-drag-out battle, with a substitute opponent, Paul Swiderski, in the annual Derby eve fistic affair. What most o fthe boys expected to be a waltz turned out to be a terrific battle. Both frequently were on the floor and Walker, saved early by a riotious three-minute interruption, finally went on to win through his sheer bulldog grit.

Somewhere, well-lai dplans went astray, for Walker, off his guard completely, had finished training for the bout by playing the ponies for two days at Churchill Downs, getting a manicure and taking it easy around the hotel lobbies.

The East may not be so cinsistent in garnering sprint honors but it has a habit of developing most of the country's best mile runners, from Jones, Taber and Kiviat on down to Connolly, Kirby, Cox and Lermond. Bill McKniff, Penn sophomore, is one of the best in college now and just the other day an Allentown, Pa., schoolboy, Frank Crowley dashed the distance in record.

To the Voters of Pitt County

Reasons Why You Should Vote For

K. A. PITTMAN

For House of Represenatives on June 7th

He has had previous experience as a Legislator, representing Pitt County in the Legislature during the session of 1925, in which capacity he served faithfully and competently. His record shows that during this Legislature he was aggressive for all good legislation pertaining to Pitt County and the State of North Carolina as a whole;

He has lived in Pitt County for the past 14 years, locating here immediately following his graduation from Wake Forest College, and has practiced law in Pitt and the adjoining counties for the past 14 years with the exception of 14 months, during which time he served in the World War.

He now maintains law offices in Greenville and Ayden, and by reason of this he is enabled to keep in close touch and contact with the problems of Pitt County, and is in sympathy with any and all movements pertaining to the betterment and welfare and happiness of the people of his County.

He fully realizes the present economic conditions existing in Pitt County and Eastern North Carolina, and if elected, will do all in his power to correct and better these conditions, and to this end will work for tax relief, realizing the burden that now rests upon the citizenship and especially the almost unbelievable burden of taxation upon farm lands and real estate. He stands four-square for economical County and State Government, consistent with a safe and sound government and the present economic conditions.

He is a self-made man, knowing the hardships incident to success, and the above facts together with his earnest desire to be of service to his constituents makes him eminently qualified to represent Pitt County in the (very important) next session of the General Assembly.

Sharp Clashes Continue Among Chinese Troops

Shanghai, June 5.—(AP)—Foreign naval dispatches tonight from Chefoo and Tsingtao, Shantung province, said the northern allied forces had crossed the Yellow river about 60 miles east of Tsinan, provincial capital, broken the Nationalist triips' lines, and reached the Tsinan-Tsingtao railway line in the neighborhood of Chowtsun.

The naval dispatches said the Nationalist defenses had reorganized near the strategic railway line, and that a sharp engagement was still going on at the time they were filed, late in the day. It was stated, however, that service on the railroad had not been interrupted.

The development was said to have aroused apprehension among foreigners in Tsinan. Some prepared for an expected siege of the city, while numbers of others left for Tsingtao, on the coast 250 miles to the east.

This was the second setback of the day for the Nanking Nationalists. The first was the loss of the important city of Changsha, capital of Huna province, to a motley horder of Kwangsi province rebels and bandits, known colloquially as the "Red" army.

Dispatches tonight from foreign gunboats standing off Changsha said Kwangsi forces totaling 20,000 men had occupied the city, and that more were coming in. The 10,000 Nationalist troops deflected from the central China front north of Chengchow, Honan province, retreated northward after making a feeble show of resistance, it was added.

All foreigners in Changsha had been concentrated on an island in the Siang river off the city, the dispatches explained, where they were under the protection of the guns of the foreign gunboats.

The declared objective of the "Red" army in Hankow itself and its sister cities, Wuchang and Hanyang.

MAN MOUNTAIN TO FIGHT RUBBER MAN

Detroit, June 5.—(AP)—Primo Carnera, who hasn't been able to find anyone his size to "pick on" will enter the ring tonight in Floyd Fitzsimmons' arena, at the state fair grounds with K. O. Christner, the Akron, Ohio "rubber man", the most formidable opponent he has ecountered in his long American fistic tour.

Christner has kep his feet in bouts with some of the best heavyweights and the bout tonight may provide a check on the actual power behind the punches of the Italian giant.

This, however, the state official pointed out, is a matter left for registrars and judges of election to pass upon.

"The action of these officials on such question is final and not reviewable by the courts", he declared.

Election officials may ask voters what is their party affiliation. The attorney-general said "The fact that a person has been voting the Republican nor Democratic ticket would be strong evidence as to his present standing.

Probe Habits of Undergraduates After Shooting

Cambridgefi Eng., June 5.—(AP)—Cambridge University authorities have started searching inquiries into the habits of undergraduates as an outgrowth of revelations of escapades in which Douglas Newton Potts, an undergraduate, is reported to have been engaged long before the shooting tragedy here early this week.

Potts committed suicide after shooting and killing a tutor, Dr. A. F. R. Wollaston, noted mountaineer and explorer, and Detective Sargeant Willis of the Cambridge police.

It has been revealed that Potts had surrounded himself with an atmosphere of false romance which he insisted his friends should share and that he had been known in the little village of Mildenhall, about 30 miles from Cambridge which he frequently visited, as "The Prince."

The villagers said that he called himself "The Prince of Lorraine" and pretended that one of his friends was the her to the Russian throne.

One report which came to the police for investigation since the tragedy was that he was secretly married in London several months ago. It was gathered from various sources that girls had played a prominent part in the last days of his life. He was stated to have told one girl in Mildenhall that he had left Cambridge for London because he could not face his debts.
