EVERYTHING ALL SET FOR LEAF SEASON

Greenville Tobacco Market Prepares for Greatest Season in History

Everything was today reported to be in readiness for the opening of the Greenville tobacco market, on Tuesday, September 2.

With the market goal set at 75,000,000 pounds, the season promises to be one of the most eventful in the history of the industry. In this city, tobacco interests have been busy all the spring and summer with improvements touching every phase of the industry here, and when the shrill voice of the auctioneer begins its hum, the market will be ready to handle 1,750,000 pounds of bright leaf every 24 hours.

Nine factories and a similar number of warehouses will operate at full blast every day of the season. The warehouses at present time are reaching final stages of new construction and will be ready when the curtain is rung up on what is generally considered will be the greatest of seasons.

The Greenville tobacco market last year sold 51,473,884 pounds of golden leaf for an average of 18.89 per hundred which is a higher average than the state market, and considered a wonderful average, considering the excessive rain and poor crops in Greenville territory. The total amount paid out by the market was \$9,724,667.25.

The warehouse space this year will cover about fourteen acres and enable the warehousemen to care for at least 1,750,000 pounds of leaf per day.

The buying companies this year will be the R. J. Reynolds Tobacco Company; Liggett and Myers Tobacco Company; W. C. Thomas Tobacco Company; Person-Garrett Tobacco Company. The Greenville Tobacco Company, who have only recently completed a large addition to their plant; E. B. Ficklen Tobacco Company; The American Tobacco Company; The Imperial Tobacco Company and the Export Tobacco Company. The Greenville Tobacco Market is located in the heart of Eastern North Carolina, which raises more tobacco than any other section in the world.

Forbes & Morton
This house has been completely remodeled and has a floor space of 64,000 square feet. The sales force: W. Z. Morton, Gus E. Forbes, sales managers and owners. L. C. Powell, auctioneer.

Currin's Warehouse
The Currin's Warehouse sales force will be S. B. Currin and W. S. Dunn will do the auctioneering. The warehouse has been thoroughly remodeled and is in tip-top shape for the opening.

Gorman's Warehouse
This large warehouse has one and one-half acres of floor space and has made improvements in keeping with the rapid growth and development of the market. Sales force will be T. M. Gorman, R. W. Gorman, C. L. Brown, sales managers; L. A. Barker, auctioneer.

Star Warehouse
This warehouse has made many improvements. They have 76,208 square feet of floor space. G. V. Smith and B. B. Sugg, owners and auctioneers. Robert Nash Cooper, auctioneer.

McGowan-Cannon
This warehouse has 69,528 square feet of floor space and has made many improvements. One of the many is the addition of several thousand square feet of floor space. C. H. McGowan and B. T. Cannon, sales managers and owners.

Moye & Juetz
The concern also has made improvements in keeping with the market's development, and have a floor space of 55,000 square feet; W. S. Moye and H. G. Juetz, sales managers and owners.

Joyner's Warehouse
The Joyner's Warehouse will be operated by R. E. Harris, Will Moore and O. L. Joyner, Jr., and their sales will be conducted in their new warehouse, on Pitt and Greene streets. This house is modern in every respect and contains 56,000 square feet of floor space.

Webb's Warehouse
Clyde Webb will operate the new Planters Warehouse, which is built on the old Mumford site and is located near the A. C. L. railroad. This warehouse contains 52,800 square feet of floor space.

With four sets of buyers representing all the large buying companies, nine warehouses with four acres of floor space, nine factories with capacity for handling 175,000,000 pounds of tobacco every twenty-four hours, the farmers of Eastern North Carolina will be well taken care of on this tobacco market.

DISCUSS THE DROUGHT SITUATION

A plan for combating effects of the drought was agreed upon at a governors' conference called by President Hoover at the White House. Included in the conference group are Governors Cal. Feld, N. H.; Emerson, Ill.; Leslie, Ind.; Cooper, Ohio; Hammill, Iowa; Reed, Kansas; Harvey T. Harrigan, proxy for Gov. Parnell, Ark.; Sen. Robinson, proxy for Gov. Sampsom, Ky.; and Commissioner Fitts, representing Gov. Horton, of Tenn. President Hoover is shown in the center.

TO COME DOWN WHEN AIRSHIP QUILTS RUNNING

St. Louis Fliers Plan to Remain in the Air As Long As Motor Holds Out

St. Louis, Aug. 15.—(AP)—Having announced "We'll be down when the motor quits running," Dale Jackson and Forest O'Brine today continued to circle leisurely over Lambert-St. Louis Field in their monoplane, Greater St. Louis, the previous sustained flight record far behind them.

Skilled mechanics turned the engine over, but refused to hazard a guess on "when the motor quits running" will be. They said they were unable to detect the slightest trace of a faltering in the engine.

While Jackson and O'Brine continued to fly on and on, their manager, William H. Pickens, was making plans to "strike while the iron is hot."

"I'm going to take the boys on a state fair tour within two or three days after they come down," he said as he looked over a deluge of offers which will spell financial reward for the airmen. Offers to exhibit at state fairs, theatrical offers, and offers to write testimonials for manufacturers whose products were used in the flight poured in on Pickens.

The flight already is paying financial returns to the pilots. An oil company is paying them \$100 for each hour they remain aloft longer than the previous record, but this offer will end after 70 hours.

When Jackson and O'Brine went aloft in the Greater St. Louis to regain the world's endurance flight record, they decided against regular periods at the controls, except when refueling contacts are made. When Jackson takes the stick and O'Brine handles the gasoline hose and the oil cans.

The pilot at the controls stays at his post until fatigued, or he becomes uncomfortable, when he nudges his companion.

When not on duty at the stick, the fliers sleep, clean up or read. They receive the daily newspapers and occasionally a magazine and personal mail. Fan mail is not sent up to them, it being read by the ground crew.

Preparing for bed the fliers remove their shoes and don a leather jacket. They sleep on an air-inflated mattress on top of a large gasoline tank in the fuselage. As the gasoline is less than five feet from the length of the bed.

After 25 days in the air, the appetites of the fliers were as good as when they went aloft.

"Bring up the cats," is a stock phrase of both pilots, who apparently look forward to mealtime with a relish. Food cans sent up to the fliers are returned to earth sans food.

The fliers eat two hearty meals daily, the first at 8 a. m., and the second at 6 p. m., the meals consisting of cold sandwiches, vegetables and fruit salad, raw tomatoes, ice cream, iced tea and root beer. All the food is prepared by the pilots' wives who are claiming a record of their own for endurance cooking.

Purchase Large Tract.
Franklin, N. C.—(AP)—Purchase of an 8,000-acre tract of land in Macon county for approximately \$225,000 by the Nantahala Club, Inc., has been completed. A hunting lodge and other improvements to cost \$750,000 will be begun soon, it is said.

NEGRO KILLER GIVES UP TO LOCAL POLICE

Ed Hatem Surrenders Two Days After the Slaying of Marcellus Riddick Here

"Bos, I didn't mean to run away, but you know how it is when a nigger gets scared—the first thing he thinks about is 'taking air'."

This was the explanation Ed Hatem gave Chief of Police Preston for his escape following the killing of Marcellus Riddick in an alley back of the Greenville Cafe here last Tuesday night about 12 o'clock.

Surrendering to members of the local police department last night, the negro readily admitted the slaying of Riddick, but declared he did so in self-defense.

"The nigger said he was going to kill me," Hatem said. "He put his hand to his hip as if he was going to pull his gun, so I shot him."

He said he fired five times at his assailant, but only two of the bullets took effect, one entering the head and the other the throat.

Riddick is said to have staggered into the cafe and dropped to the floor, dead. Hatem "took the air," to use his own expression, and it appeared as if he was going to make good his escape when police, after two days of investigation, failed to obtain any information as to his whereabouts.

"I know I was foolish to run away as I did," the negro told police, "but I was scared, and when a nigger gets frightened the only thing he thinks about is running—and he usually does it."

Both Hatem and his victim were employees of the Greenville Cafe. They were said to have engaged in an argument over a broken step-ladder. The controversy continued the greater part of the afternoon and reached its climax that night when Riddick was alleged to have invited Hatem into the alley with the avowed intention of committing murder.

Hadem was being held in the city jail today awaiting preliminary hearing on a charge of murder.

Clifton Employed As County Auditor

J. Thomas Clifton, Greensboro, was employed as county auditor to succeed C. C. Coppard, recently resigned, by the County Commissioners in special session here today.

Mr. Clifton, a member of the firm of Everett Zane & Muse, of Greensboro, had charge of the audit recently conducted in this county. The fine work shown by Mr. Clifton in the audit here prompted the board to tender him the position as county auditor after they had carefully considered the application of a dozen persons from this and other counties, who were seeking the position.

Mr. Clifton has had eight years experience in county, city and commercial accounting, the last four years being devoted almost exclusively to city and county governmental auditing.

Mr. Clifton will not take charge of the local office here until October 1 because of the fact that he has other audits, including Guilford county, which must be made before severing his connection with the Greensboro firm.

R-100 STILL SPEEDS OVER THE ATLANTIC

Big British Dirigible Expected to Reach Home Port Saturday Afternoon

Cardington, England, Aug. 15.—(AP)—The R-100, Britain's giant dirigible, cruised steadily eastward today across the North Atlantic on its trip back home from Montreal.

Seeking the great circle route, and with hardly any deviation from it, the ship sped toward its harbor here at a speed of about 62 miles per hour.

If this speed is maintained, the dirigible might be expected to reach Cardington in about 53-2 hours after departure from Montreal, or about 7 a. m. (GMT) Saturday (2 a. m. EST).

Such a crossing over a distance of 3,287 miles would compare with the Graf Zeppelin's record of 4,200 miles from Lakehurst to Friedrichshafen in 55 hours 24 minutes, an average speed of about 75 miles per hour.

Radio messages from the ship, both to stations in Canada and to the Air Ministry at London, said that all was well aboard. A newspaperman stressed the beauty of the scene as the Gulf of St. Lawrence and the Belle Isle Straits were passed.

He commented that the ship traveled so smoothly that as they sat down for dinner they were hardly aware of the movement. With printed menu cards and the excellent cuisine the atmosphere, he said, was much more like that of Piccadilly circus, or Fifth Avenue, than of a lighter-than-air craft miles out over the Atlantic.

A radio message from the S. S. Empress of Australia said that the R-100 passed above that ship at 5:30 p. m. GMT (1:30 p. m. EST) yesterday when the ship was 100 miles east of Belle Isle. The dirigible remained in sight for two hours.

The ship's master radioed: "Visibility was perfect. There was a light, westerly wind. No message was received from the airship."

Aboard R-100, Aug. 15.—(AP)—This dirigible, bound for England, during the night escaped what appeared to be a terrific storm.

Thursday evening's sunset was accompanied by dark clouds which shortly after filled the sky. The temperature dropped and there was every indication of the setting in of a furious atmospheric disturbance.

The dirigible descended almost precipitately 1,000 feet, and just in time managed to clear the storm zone. A heavy rain followed, but the airship maintained good speed and all is well.

Passengers were loud in praise of the officers' skill in navigation of the ship.

Youthful Flier Continues Trip

Altoona, Pa., Aug. 15.—(AP)—Ed die Schneider, 18-year-old Westfield, N. J., pilot took off from Stultz Field near here at 11:40 a. m., today to continue his attempt to set a new junior record for trans-continental east-to-west flying.

Schneider said he would fly by way of Pittsburgh and stop there if flying conditions were bad.

UNCOVER PLOT FOR SLAYINGS IN CHINATOWN

Tong Faction Seeks to Destroy Its Enemies at \$500 Apiece At New York

New York, Aug. 15.—(AP)—Through the dark and mysterious maze of a fitfully warring Chinatown today moved the menace of Tong slaughter on a strictly cash basis.

For behind the arrest yesterday of three Chinese and a Filipino lay a story whose ferocity startled even detectives. The story was told by two white youths whose identities remain a secret with the police to protect them from the fate they were hired to mete out to four On Leon Tongmen at \$500 a murder.

A 19-year-old youth, friend of Detective Rosenberg, told him that he was sitting in Bryant Park, despondent over his inability to find work. He was approached by the Filipino, Lamberto Eullaran, 38, who asked him where he was working.

The Filipino, the youth said, then told him he could make some money "if he had any guts." The youth said he replied, "What's the proposition?"

"Murder Chinks at \$500 a Chink," was the answer.

The youth said he agreed and promised to bring a companion into the scheme. Arrangements were made to meet at a 26th street laundry last night. The youth tipped off Rosenberg, who with four other detectives waited outside the laundry while the youths went in.

The two were introduced to the Chinese who gave them their instructions. Eullaran was to go with them. They were told four Chinese had been marked for death at their hands last night.

When the youths emerged from the laundry with the Filipino, the detectives seized him, but he put up a terrific struggle and was subdued only after 15 minutes of fight. The detectives then arrested the Chinese.

On Eullaran they found a revolver and a long knife. In a package he carried were two revolvers and six long knives. In the laundry they found cartridges, an ax, a 10-gallon still and a large quantity of cash.

The Chinese were John Wong, 34, laundry proprietor; Stanley, 32, his brother, and George Wu, 28. Police today were seeking to connect them with recent Tong murders. They are members of the Tong On.

Two Trainmen Die In Wreck In S. C.

Chappels, S. C., Aug. 15.—(AP)—Beneath the twisted wreckage of a Southern Railway passenger engine the bodies of two trainmen lay buried early today while wrecking crews worked desperately to extricate them.

Two coaches and a Pullman car followed the engine from the tracks late last night when the speeding train crashed into a cow. The cars did not overturn, however, and no passengers were injured.

James G. Price, engineer, and Jeff E. Holland, fireman, both of Columbia, S. C., are believed to have met almost instant death when the engine crashed from the rails and turned over.

George E. Mulligan, mail clerk, and D. A. Shealy, express clerk, both of Columbia, suffered minor injuries when they were tossed around in the mail car as it jumped the rails and came to a sudden stop.

Passengers on the train, bound for points between Columbia and Atlanta, were severely shaken and suffered some from shock but no injuries were reported, rail officials said. An engine was sent from Greenwood, 20 miles from here, to the scene of the wreck, between Chappels and Old Town, two small towns, to carry the passengers to Spartanburg where they could be sent over other rails to Atlanta.

Derrieks and wrecking crews from Columbia and Spartanburg were given the right of way as they sped here to aid in clearing the wreckage and lifting the engine from the two bodies. Rail officials estimated that five hours work would be required before the bodies could be removed. Columbia is 60 miles from here and Spartanburg about 75.

"RE-FOODING" ENDURANCE FLIERS

Mrs. Dale Jackson (left) and Mr. Forest O'Brine are having no small part in the refueling endurance flight of their husbands. Here the two are shown packing food and letters into containers which are let down from the refueling plane.

Organizations Plans To Carry Relief To Areas Affected By Drought

Sanitary Inspector Threatens to Call Market Men to Court

Owners of city markets failing to abide by sanitary laws will be vigorously prosecuted, according to information given out this morning by George Clark, head of the city sanitary department.

Mr. Clark said it had been reported to him that numbers of markets were violating the sanitary law by not giving the proper attention to meats, and that all persons found guilty of such violations would be prosecuted.

The first violation of this kind came before the attention of the mayor today, and the market keeper was subjected to a fine.

COPS DECLARE WAR ON YOUNG AUTO DRIVERS

Parents Who Permit Children Under 16 to Run Cars Will Be Prosecuted

People who permit children under sixteen years of age to operate automobiles not only subject themselves to prosecution, but they are going to be prosecuted," according to an ultimatum issued today by Chief of Police Preston Pierce.

The police head stated that numbers of violations of this kind had been reported to him recently and that he meant to put a stop to it. The first arrest in this connection was made this week and the defendant was fined \$10 and cost in police court this morning. The maximum penalty was said to be \$50 and cost of action for the first offense.

Chief Pierce said they had tried to be as lenient as possible with automobile owners, but the practice of permitting children to operate cars was becoming so widespread that something had to be done to put a stop to it. He said reports received at his office indicated that children just barely above the 12-year limit were running cars.

He declared this was a serious situation in that a child was not capable of running a car as efficiently as an older person, and especially in the case of an emergency. He said it not only threatened the lives of hundreds of other people on the streets and highways, but was a direct violation of the law.

He expressed hope that everybody would do everything possible to help the police department improve the situation. He urged that people who had been letting their children run about town with their cars put a stop to the practice, and in that way save themselves the embarrassment of being summoned to court and required to pay heavy fines.

All policemen of the city have been notified to fully enforce the law governing the operation of motor cars, and to make arrests in case of violations.

County Relief Units to Be Organized in the States Affected; Relief Needs Reaching Beyond Local Committees to Be Referred to Hoover Body

Washington, Aug. 15.—(AP)—The stupendous task of building up a network of state and county relief organizations to tide drought-stricken farm families over the winter, save livestock and prevent spread of disease, today was under way.

Governors and representatives of the thirteen states most seriously affected by the prolonged dry weather headed homeward to carry out the program agreed upon yesterday at President Hoover's conference. In each state where conditions warrant a drought relief committee will be set up, headed by a leading citizen and including a state agricultural official, banker, Red Cross representative, railroad representative and farmers.

This committee is to create in each affected county a group of similar composition. The county units will receive applications for relief, supplying locally all possible, passing the others on to the state groups.

Relief needs reaching beyond state resources will in turn be passed on to a federal committee set up by the President, comprising representatives of the Department of Agriculture, the Farm and Home Loan Boards, Red Cross, American Railway Association and Public Health Service.

This group will work with the state committees also in providing credit for purchasing feed and seed, moving livestock to pasturage and other large scale tasks. Guarding human suffering, the Red Cross will set up its own committees in each county, with the chairman of each represented on the county relief committees.

The Red Cross has already allocated 5,000,000 for this work, pending determination of the actual need.

As a further measure, states which have surplus feed, such as Iowa, Nebraska, and Kansas, are to set up groups to cooperate with the relief committees of states with surplus livestock, bringing the two together.

Meanwhile, the Department of Agriculture was assigned to study possible employment aids by advancing this fall next year's state road allotments in the drought areas.

Yesterday Secretary Hyde placed before the governors a bundle of sheets analyzing by counties the reports of his department's agents from ten states. They showed a total of more than 287,000 families to supply feed to their livestock.

POLICE CHIEFS STAGE MARKSMANSHIP CONTEST

Salisbury, Aug. 15.—(AP)—Some of the best pistol shots on state police forces were here today for the marksmanship contest to be held at the closing feature of the North Carolina Association of Police Chiefs convention.

In addition to the pistol shooting, an address and demonstration by Dr. W. J. Fenton, field instructor for the National Red Cross, were on today's program.

Judge Thomas L. Johnson, of Lumberton, candidate for the Democratic gubernatorial nomination in 1932, was chief speaker at a banquet last night.

NEW VICTIMS FALL BEFORE GANG GUNMEN

Slayings Reported At St. Paul, Rockford, Detroit and Chicago Today

Chicago, Aug. 15.—(AP)—The sinister shadow of gangland spread over the middle-west.

Thread dead near St. Paul, Minn., another dropped by machine gunners at Rockford, Ill., and new slayings at Detroit and Chicago add weight to the belief that the hoodlum element is scattering.

The first tangible evidence that organized outlaws is seeking new territories for its rackets, liquor, gambling, and vice, is the usual symbol of the gangsters—a bullet pierced body, shot from behind.

The latest victim is Joe Giovino, Rockford bootlegger, killed instantly by the stream of bullets that poured from one of the town's main streets last night. Eleven bullets were fired into Giovino's body, but police felt sure they were intended for Tommy Abbott, well known Chicago gangster, who stood nearby.

Abbott, described by police as one of the chief executioners for the Moran ring, was one of the many suspects in two of Chicago's recent gang killings—the slaying of Jake Lingle, Tribune reporter, and the subsequent killing of Jack Zuta, vice overlord.

Of the three men killed near St. Paul Wednesday night, two were positively identified as bank robbers and the third was believed to have been a member of the same band. Police knew little of their recent activities, however, and could only guess at the motive for the slayings.

The theories ranged all the way from the conjecture that the robbers had quarreled over division of their loot to the belief that they interfered with an attempt on the part of the Chicago gang leader, George "Boss" Moran, to organize the Twin City area.

All three of the men were believed to have been members of a gang operating in Kansas City, Minneapolis and other cities. Officers of a Willmar, Minn., bank yesterday identified two of the bodies as those of members of a robber gang that held up the bank July 15, took \$142,000 and shot two passersby in making their getaway.

One of the men thus identified was Harry Silverman, alias Sammy Stein. The name of the other victim was not established. The body of the third slain gangster, Frank Coleman, had been started for Kansas City and the bankers did not see it but they said his description fitted that of another member of the robber gang.

Triple Slayer Pays Death Sentence At Little Rock, Ark.

Little Rock, Ark., Aug. 15.—(AP)—W. H. (Bill) Howell, 64-year-old triple slayer, was electrocuted at the state penitentiary this morning. Howell in whose behalf a long legal battle had been waged, was strapped in the electric chair at 7:05 a. m., and four minutes later was pronounced dead. He went to his death calmly.

Howell was the oldest man ever to die in the electric chair in Arkansas. He was given the death penalty by a jury for the killing of Jeff Nicholson, an aged inmate of the Crawford county infirmary in 1928. He was indicted but never tried for the slaying of Supt. Cliff Deffenbaugh and his wife.

Howell's dismissal from the infirmary as result of a quarrel in which Nicholson was involved, prompted the killings the state charged at Howell's trial.

During a long legal battle that thrice went to the State Supreme Court and included two sanity hearings before juries Howell remained hopeful of having sentence commuted to life imprisonment.

Governor Parnell, however, indicated he would not interfere in the case and left the capital yesterday for a rest at his home at Dermott.

Howell's last dinner, which he selected according to prison custom, consisted chiefly of fruits and confections. He said his only regret was "the shame it brought" on his family.

To Keynote Convention.
Asheboro, N. C.—(AP)—Clyde R. Hoey, of Shelby, former congressman, will keynote the Randolph county Democratic convention here Saturday.

Youngest Dean.
Davidson, N. C.—(AP)—Dr. Malcolm Ray Douglas, 30, Davidson, graduate, who is dean of the University of Richmond Law School is one of the youngest men in the nation to hold that position.

TUESDAY'S PRIMARIES

When an avowed wet and an avowed dry both win handsome victories in the same state on the same ticket on the same day the result can scarcely be recorded as a gain for either side. This is what happened in Ohio. A Democratic candidate for senator advocating repeal of the Eighteenth Amendment has defeated a candidate indorsed by the Anti-Saloon League. A Democratic candidate for Governor indorsed by the Anti-Saloon League has defeated a candidate who advocated repeal. What the Democratic Party in Ohio thinks of prohibition is by no means clear.

By all odds the two outstanding achievements in Tuesday's primaries were the victories of Senator George W. Norris in Nebraska and Senator Joseph T. Robinson in Arkansas. In Nebraska Mr. Norris's standpat opponents fought him tooth and nail, even after the collapse of their plan to fuddle the electorate by entering a second George W. Norris as a candidate. Their best efforts proved to be no match for the prestige which Mr. Norris has acquired through his years of service in the Senate. Meantime, in Arkansas one of the most bitterly fought primaries in years, reviving issues of the national election of 1928, has resulted in Mr. Robinson's victory over several candidates who disputed his leadership of the Democratic Party in the South. It is an excellent thing for the party that Mr. Robinson has won. He has been growing steadily in statesmanship in recent years. His services at the London naval conference were of great value to his colleagues. His leadership of the minority in the Senate has shown foresight and ability. Only when Mr. Robinson had left Washington to attend the naval conference did the coalition lose command of the Hawley-Smoot tariff bill.

The story about the Greenville tobacco market, carried in the columns of this paper today tells of the many improvements that will greet the hundreds of farmers when they appear here September 2. It also gives the names of the concerns to be represented and the personnel of the warehouse forces. In fact, it provides the farmer with all the information as to what may be expected when the voice of the auctioneers officially usher in the 1930 season, and should enable him to market his crop without the slightest confusion.

The Greenville market this year has its eyes set on a new record—a record of 80,000,000 pounds of bright leaf and when the dust of the season clears away it is believed the ambition will be realized. The record to date is slightly beyond the 71,000,000 pound mark, which was established season before last.

The old record undoubtedly would have been surpassed last year had it not been for the pronounced crop shortage existing in this part of the state, but since this was not possible the tobaccoists, with a bountiful harvest predicted, hope to

ABOUT TOWN

Money—millions of dollars—will soon begin rolling in to the people of this section and when the flow begins the credit customer should not forget the man who has extended him credit during the trying days of the spring and summer.

In fact, it should be the desire of every person to settle up as many old debts as possible this season and prepare himself for the future, and the eventualities which it certainly will hold for them.

The merchants of this part of the state are hard pressed like everybody else and it is nothing but fair that they should be paid by those to whom they have extended credit during the past several months. He must have pay if he is to continue to serve his patrons, and every credit customer should see that he gets it.

Greenville has some of the strongest mercantile establishments in this part of the country, but they cannot remain strong for any considerable length of time unless they receive the hearty support of the countless thousands who extend credit to them from time to time. The strongest firm in the world would go broke by constant draining of its resources such as represented by unpaid accounts, and it is important that collection be made in order to set aside the possibility of such a state of affairs right here at home.

Think it over, Mr. Credit Customer, and when you make your first sales, go around to the people you owe and either pay them or assure them they may expect payment at an early date.

Sheriff Sam Whitehurst has declared war on operators of slot machines in this county, and the next several days no doubt will witness many arrests in this connection.

Declaring that the operation of slot machines is a direct violation of the law, the sheriff asserted his intention to swoop down upon firms operating such machines and prosecuting the guilty parties.

He said information had reached his office that numbers of the machines were operating in the various towns and cities of the county as well as in rural districts, and that he meant to break up the practice if he had to confiscate every slot machine in the county.

Many store owners, he said, had begun taking advantage of the lax enforcement of the law in this respect, and it is the plan of the sheriff to appear unexpectedly before violators and demand an accounting.

realize the new record this season. The Greenville market has experienced unparalleled growth during its thirty-nine years of history, and drawing from a greater territory today than ever before it is natural to assume that the outlook for future expansion is as bright as it has ever been before. The farmers realize that Greenville tobaccoists always have their best interests at heart and this one fact has been largely responsible for the splendid growth the market has enjoyed.

Loyalty and service are absolutely necessary in the success of any great industry, and as both play an important part in the life of this market it cannot be doubted but that the coming season will be an epoch to be long remembered.

There seems to be some doubt in mind as to whether or not last Wednesday was the last of the half-holidays of the summer season. For the information of the doubters, we would like to say that it was. When the uncertainty about the date appeared, we made an inspection of the first records and found that the thirteenth was definitely set as the closing period.

Like hundreds of others, we would be glad if the half holiday continued another week longer, but since it does not the thing to do is to forget it go to work and look forward to the coming of another summer with its long hot days broken by the Wednesday half holiday.

This is the season of the year when everybody is making preparation for the greatest event of the year—the opening of the tobacco market—and the employees should be able to return to their work better fitted for service than ever before by reason of the good times they had during the summer, and especially on the half holidays.

Two Negroes Must Die for Slaying of Kerr Postmaster

Clinton, Aug. 15.—(AP)—Death in the electric chair, one day apart today faced the convicted slayers of F. F. Newton, aged Keer, N. C., postmaster.

Ernest Herring, negro, was found guilty of first degree murder by a jury in Sampson county superior court last night. His brother, Chevis

was convicted Thursday on the same charge.

Judge Clayton Moore sentenced Chevis to die on October 29, while his brother was given one more day to live, he being sentenced to death on October 30.

No reason for the day's difference in the executions was given by the court. Chevis, however, was convicted a day earlier than Ernest.

While Ernest continued to maintain his innocence, Chevis admitted the crime and testified for the state against his brother.

Newton was found on a lonely road near his home June 23. He died a few hours later in a Wilmington hospital. His body had been badly beaten and he had been robbed.

Held In Bombing

Paul Montgomery, a Murphysboro, Ill., flyer, has been placed under arrest after the nine bombs were dropped from a plane in the coal mining section near Providence, Ky. A description of the plane used in the bombing corresponded with an orange colored monoplane flown by Montgomery.

Paul Montgomery, a Murphysboro, Ill., flyer, has been placed under arrest after the nine bombs were dropped from a plane in the coal mining section near Providence, Ky. A description of the plane used in the bombing corresponded with an orange colored monoplane flown by Montgomery.

Home Grocery Stores, Incorporated

"ADS" IN THE REFLECTOR PAY

Congratulations—

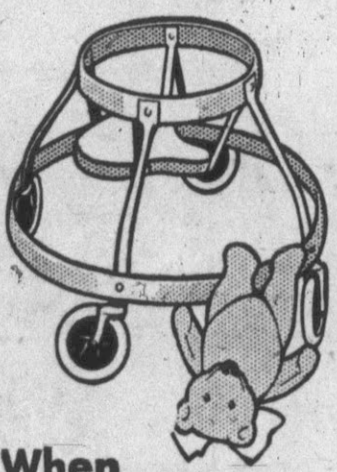

Captain Hawks!

THROUGH careful planning and intrepid skill, you have bettered all previous East to West and West to East transcontinental flight records.

The Texas Company is proud that, through its products, Texaco Aviation Gasoline and Airplane Oil, it has again been able to serve such a distinguished pilot and contribute to the successful completion of such a significant flight.

THE TEXAS COMPANY • Texaco Petroleum Products

Texaco Aviation Gasoline and Airplane Oil functioned perfectly in the new Wright Special Whirlwind high compression motor which twice hurried Texaco Number 13, the Travel Air Mystery S, to transcontinental records. Texaco refueling service was excellent and contributed considerably to my success. . . . Frank M. Hawks

When BABIES are Upset

BABY ills and ailments seem twice as serious at night. A sudden cry may mean colic. Or a sudden attack of diarrhea. How would you meet this emergency—tonight? Have you a bottle of Castoria ready?

For the protection of your wee one—for your own peace of mind—keep this old, reliable preparation always on hand. But don't keep it just for emergencies; let it be an everyday aid. Its gentle influence will ease and soothe the infant who cannot sleep. Its mild regulation will help an older child whose tongue is coated because of sluggish bowels. All druggists have Castoria.

Mayors Court

Friday, August 15th.

J. S. Willard, child driving auto, mobile under 15 years of age; fined \$10 and cost.

C. C. Byrum, selling spotted meat; \$10 and cost. Appealed to Superior court.

Herbert Bunch, colored, whiskey for sale; bound over to county court.

Earl Forbes, colored, assault on wife; \$5.00 and cost.

LET GO AND GET SOME EATS

WHAT DO YOU SAY?

THAT'S A GOOD IDEA UNCLE!

I HAVE A STEAK!

DON'T YOU WANT SOMETHING WITH IT?

WHAT IS GOOD WITH STEAK?

DO YOU LIKE MUSHROOMS?

I DON'T KNOW, I NEVER SLEPT IN ONE!

PAT MALONE HURLS CUBS TO VICTORY

Unless today's final clash of the "deceptive" series between Brooklyn and Chicago finally brings something like a decision, it looks as if their race for the National League pennant might continue indefinitely, or at least until they meet again in September.

Despite the big margin they hold over the Robins in their season's play, the Cubs have not been able to get far ahead in the three games of their current series.

Chicago has won two clashes and went one full game ahead yesterday as Pat Malone pitched a fine game for a 5 to 1 Cub triumph.

But still the big advantage for the Bruins is that the difference is in the losing column where Brooklyn is two games to the bad. The future schedules show little possibility of a "break" for either team.

The Cubs, held in check to some degree through the second game, were completely superior yesterday as Malone stopped the thunder of Brooklyn's big bats.

The St. Louis Cardinals and Boston Braves divided a close doubleheader that was principally notable for the appearance of some of the league's older pitchers.

Socks Selwood lost a tough struggle in the first game as the Cards put on a two run rally in the ninth to win, 4 to 3. Although out of it, 11-9, in the record, old Tom Zachary outlasted Burleigh Grimes and he held St. Louis to six hits while the Braves pulled out a 3 to 2 triumph. The Card winning streak went to six games before it was broken in the second game.

Ferrell won his 20th victory of the season as Cleveland came back from five straight defeats to pound out a 15 to 0 triumph over the Philadelphia Athletics. Ferrell gave seven hits while his mates collected 20.

Washington's Senators used three hurriers in their final clash with Chicago and obtained the best results of them all so far as the standings were concerned although they had something of a struggle to win a 5 to 4 decision. As New York and Philadelphia both lost, the Senators gained a full game on their only important rivals, placing themselves eight games behind the league leaders and two ahead of the Yankees.

FRIENDLY ENEMIES MEET

Babe Herman, slugging right fielder of the Brooklyn Robins, looks over the bat of Hack Wilson, Chicago Cubs' center fielder and National League home run leader, during the "crucial" series of the clubs at Chicago. Herman is batting above .400.

Farmers Sell Your Tobacco IN GREENVILLE

Since Last Season—

Some of the warehouses have made large additions, which gives the market increased floor space. Some of the factories have made enlargements to their buildings. The Greenville tobacco market is decidedly in better position to handle, daily, larger quantities of tobacco than ever before.

Tobacco Warehouses—

Greenville tobacco market has nine (9) large and modern brick warehouses with close to 14 acres floor space, sufficient to accommodate 2,225,000 lbs. of tobacco daily. These warehouses are managed by men of years of experience.

Buyers and Factories—

Greenville tobacco market has four (4) sets of buyers, representing all the important companies in the word, using bright tobacco. Nine (9) large and modern tobacco factories are located here, additions having been made to several of them since last season.

Roads and Locations—

Greenville tobacco market is located in the heart of Eastern North Carolina. Seven fine hard surfaced roads lead into Greenville. Tobacco growers living 125 miles from Greenville tobacco market sell their tobacco in Greenville and return home same day.

Government Report For 1929—

The report of the Government for the year 1929 showed that the Greenville tobacco market (with the most inferior crop ever grown in its territory) made an average higher than the general average for the entire state.

Will Continue To Grow—

Greenville tobacco market will continue to grow because important Tobacco Buying Companies in this country and abroad are represented on our Market. It will be interesting to compare the investment made on other markets with the investment in equipment on the Greenville market. Every year additional thousands of dollars are expended enlarging this market's facilities.

Greenville Tobacco Market Opens Tuesday Sept. 2nd 9 O'clock a. m. With 4 Sets of Buyers

Market Report

Cotton--Stocks--Grain

COTTON MARKET

New York, Aug. 15.—(AP)—Cotton opened barely steady today at a decline of 2 to 19 points under selling prompted by relatively easy cable, diminishing nervousness over the drought situation, and expectation of small July consumption figures from the census bureau late in the morning.

The break into new low ground in considerable covering and trade buying, while there was probably some buying in expectation of a week-end reaction, but the demand was readily supplied and by the end of the first half hour, active months showed net losses of 13 to 15 points.

New December contracts sold off to 11.61 and March to 12.10. Liverpool cables said the market there had been influenced by local and Bombay liquidation together with hedging and a poor outlook.

Manchester was reported unsettled with the decline in cotton checking business in cloths and yarns pressed for sale.

GRAIN MARKET

Chicago, Aug. 15.—(AP)—Corn future deliveries scored a maximum jump of nearly 5c a bushel today as compared with early low prices.

Ordinary No. 2 corn, either yellow or white, available for immediate delivery, brought 1c to 3c above \$1.00. Sensational reports of continued crop damage and of failure of ears to form on stalks led to rapid upturns, especially near the end of the day. Wheat likewise made brisk late upturns in price, following the lead of corn.

Corn closed nervous 2-3/8 to 3-1/2 higher than yesterday's finish; wheat closed unsettled 1-3/8 to 1-5/8 up; oats 1 to 1-1/4 advance and provisions showing 15 to 25 gain.

STOCK MARKET

New York, Aug. 15.—(AP)—The bear forces again trod on each other's toes in today's stock market, and for the third successive day became disorganized and sent stocks moderately higher as they withdrew their short positions.

With some 180 stocks leading "flat," indicating that the borrowing demand is so great that borrowers are willing to forego interest on the funds deposited with lenders, the bear faction appears to have attracted what is perhaps an unprecedented following. Some brokers estimate that the short interest amounting to between 4,000,000 and 5,000,000 shares.

The market sold off about 1 to 5 points in spots during the morning, but important shares held about steady, and before midday most of the losses were regained, while a long list of issues sold up to 1 to 3, with a few making wider gains. The tobacco issues were strong, American Tobacco B shooting up more than 8, American Chime and F-which makes tobacco machinery, traded for the first time this week, shooting up more than 20. Shares making advances of about 2 to 3 points included U. S. Steel, American Can, Eastman Kodak, National Biscuit, Public Service of N. J., du Pont, Johns Manville, Air Reduction, and one of yesterday's weak features, Republic Steel common.

Extensive rainfall, apparently breaking the drought over some of the most seriously affected areas, was one of the most bullish developments of the day. Such developments as unsatisfactory earnings reports and rumors of reductions in dividends appeared to have been pretty well discounted marketwise although the coppers lagged somewhat in response to reports that both Kennecott and Anaconda may make further reductions.

Credit was about unchanged. The reduction of 59,000,000 in brokers loans to the lowest level in three

REPUBLICANS IN MICHIGAN RACE FOR GOVERNOR

upon the searchers and a pitched battle ensued near Max Patch, deep in the mountains.

Tranham was fatally wounded and died in a hospital a few hours later. His companions were painfully shot.

Deputy Foster and his aides were arrested on warrants sworn out by R. M. Leatherwood, of Waynesville, county seat of Haywood, it being understood there that the shooting took place in that county. They were freed on bonds of \$500 each.

Preliminary hearing for the trio will be held at Madison tomorrow. It was postponed in order to allow the sheriffs of Madison and Haywood to agree upon which county the men were in at the time of the shooting.

back to the beginning point, and being Lot No. 5 in Block D of Catham Circle Sub-division as surveyed and platted by H. L. Rivers, C. S., and shown on Map of record in Map Bk. No. 2, page 201, and being a portion of the lands conveyed by J. B. Johnson to the Greenville Development Co.

This the 24th day of July 1930.

Monday, September 8th, 1930
 at 12:00 o'clock, Noon
 before the "court" house" door in Greenville, Pitt County North Carolina, sell to the highest bidder, for cash, the following described real estate:

That parcel or tract of land in Belvoir Township, Pitt County, North Carolina, known as the "Wiley Bullock Home Place," containing Eighty Two (82) acres, more or less, and bounded on the north by Howell Lewis; on the east by Simpson Bullock; on the south by

Three Held Under Bond for Death of Man at Marshall

Marshall, N. C., Aug. 15.—(AP)—Three Madison county residents, including Deputy Sheriff Dewey Foster, were at liberty on bond today after having been arrested in connection with the killing of a mountaineer and the wounding of two of his friends.

Arrested with the deputy sheriff were Lester Foster and Wesley Fowler, who aided in a whiskey search of Wiley Tranham's automobile.

No whiskey was found. The men left and a few miles from the scene of the search, their car broke down. Tranham, accompanied by Joe Osborne and Newton Henline, came from the town of Johnston St. 107.7
