ABANDON PLAN TO ORGANIZE LEAF GROWERS

Committee At Raleigh, However, Will Attempt to Form Organization Later

Raleigh, Oct. 14.—(AP)—Plans for organizing tobacco growers of North Carolina in two cooperative marketing associations to begin functioning this year and thus receive financial aid promised by the Federal Farm Board were definitely abandoned for this year here today.

The tobacco executive committee, however, announced it would redouble its efforts to have two functioning cooperative associations in the state in 1931.

It is proposed to organize one cooperative of Eastern North Carolina tobacco growers and one of the old belt growers.

J. R. Page of Aberdeen met with the executive committee, marketing experts of State College and a representative of the Federal Farm Board today.

It was reported Mr. Page was "seriously considering" a proposition to become head of the two associations, whose general headquarters will be located here.

Mr. Page, a successful merchant farmer and banker, was understood to be showing interest in the cooperative movement and all phases of the proposed movement to organize the tobacco growers were being explained to him.

"Mr. Page would have the confidence of every grower, merchant and banker and if we are able to get him to head up the movement," George R. Ross, personal representative of Gov. O. Max Gardner on the executive committee, said.

Mr. Ross said it was the consensus of opinion among the members of the executive committee that owing to the lateness of the season, coupled with the fact that the Farm Board had asked a decision from the tobacco growers of the state by October 15, it would be unwise to attempt to launch the association this year.

It looks very encouraging for a "uniting movement" Mr. Ross said, declaring that merchants, farmers and bankers in the tobacco-growing counties of the state felt that there is no reason why the associations could not begin functioning next year.

Growers in Surry and Stokes counties telegraphed the committee today urging the starting of operations this year but the committee decided it would be best to forego operations this year and concentrate all efforts toward getting away to a running start next year.

Discover Shortage In Loan Account

Fairfax, S. C., Oct. 14.—(AP)—Auditors reported to directors of the Peoples Building and Loan association here today that an apparent shortage of \$36,335 exists in the accounts of R. L. Lipscombe, 70, secretary and treasurer, who failed in an attempt to commit suicide September 23.

An additional deficiency of approximately \$31,000, the result of selling off shares before series matured, was also reported.

Lipscombe, former bank cashier, shot himself under the heart last month but recovered. Physicians pronounced him mentally irresponsible. A committee was appointed to attend to his business interests and he was sent to a hospital in Morganton, N. C.

The audit revealed misapplication of the association's funds was begun in 1925, directors said today. They estimated the probable loss to shareholders will be about 11 percent, since no bond for Lipscombe has been discovered.

An effort will be made to recover as much of the shortage as possible from the secretary, officials said.

Disorders Cause Closing of The Madrid College

Madrid, Oct. 14.—(AP)—The government announced this afternoon that it would close the University of Barcelona because of disorders which occurred there today in the course of which several hundred students burned a portrait of King Alfonso.

The Barcelona demonstration was believed to have been inspired by revolutionary extremists in the student body and supporters of the movement to free Catalonia. A strong guard was ordered placed at the University.

SAYS HOOVER HAS VIOLATED OFFICE OATH

Washington, Oct. 14.—(AP)—The language chosen by President Hoover in a message to American Lutherans for the anniversary this month of the Protestant reformation has brought denunciation from a Catholic source.

Father John J. Burke, secretary of the National Catholic Welfare conference issued a statement last night asserting Mr. Hoover had clearly violated "the spirit if not the letter of his oath of office" in a brief greeting to the Chief Executive writing for the American Lutheran a church publication.

Immediate answer came from the President's secretary, George Akers.

"Any such suggestion or implication as that made by Father Burke," he said, "is an injustice to the President's own sentiments and the complete religious tolerance he has always felt and has always advocated both publicly and privately."

Father Burke said the President had insulted millions of Americans but held it more important that he had congratulated one particular religious body "on the changes it introduced from older conceptions of religion and government."

The President's message was: "I send cordial greetings to the Americans of Lutheran faith who are celebrating on October 31 the anniversary of the Protestant reformation and the 40th anniversary of the reading of the Augsburg confession, from which date so many of the changes in point of view from older conceptions both of religion and government."

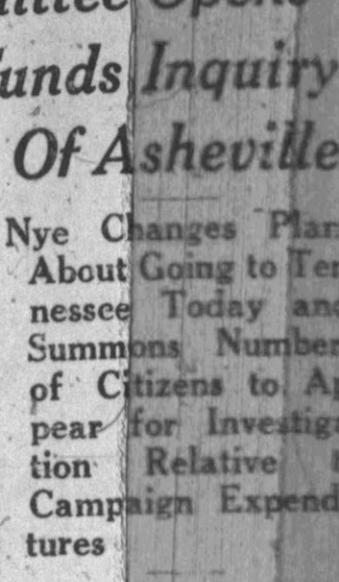

"The effects of these historical events are reflected in our national life and institutions in religion through the predominant numbers of adherents to Protestant faiths and in government through the principle of separation of church and state. It is fitting that we should commemorate the persons and events from which mighty forces have sprung."

Father Burke said it was entirely unjust to say that the President had violated his office oath.

Special Subscription Offer

Instead of a subscription campaign in which a large amount of money is given away to contestants, the management of The Reflector has decided to put on a subscription drive beginning today, in which the premium money is given to the subscriber in the form of a forty per cent discount on all yearly subscriptions paid during the limited time that this offer is open. A similar offer was made during the recent co-operative dollar day staged by members of the Greenville Merchants Association and the response was most gratifying to us but many persons because of financial conditions here at that time were unable to take advantage of the offer and after receiving numbers of requests from our subscribers we have

Asheville, Oct. 14.—(AP)—Closing the second of two hearings in the North Carolina primary, Senator Gerald P. Nye, Republican, North Dakota, chairman of the Senate campaign funds investigation committee, today said apparently no large sums of campaign money had been expended in the primary.

The committee came here trailing reports that a "big check" from out of the state had been sent to Asheville to aid J. W. Bailey, campaign in which he wanted the Democratic nomination for U. S. Senator from the veteran Senator F. M. Simmons.

No evidence to substantiate the report was introduced, Nye said. Yesterday the committee moved into the financial side of the Bailey campaign at Raleigh. He learned substantial amounts had previously been reported but no evidence of large contributions from other states.

The principal witness at today's hearing was William E. Davis, president of the Central Bank and Trust company, who was questioned about a report that a large sum had been deposited in his bank for Bailey last night.

At the conclusion of the hearing, Senator Nye and Senator Robert F. Wagner, Democrat of New York, prepared to go to Nashville, Tenn., to conduct an inquiry into the Tennessee primary.

Wagner previously announced that Senator Robert C. Patterson, Republican, Missouri, would remain in North Carolina and conduct similar inquiries. He said he expected to return to Washington tonight.

"There will be no more hearings," he said, "until after further investigations." Senator Nye made the following statement with respect to the North Carolina investigation:

"The committee feels that today's work is not completed in North Carolina; there is some lack of information to substantiate the charges that large sums of money were brought into North Carolina to be used in behalf of any candidate for the United States Senate."

"Any continued effort to ascertain facts with relation to the North Carolina situation will continue to be expended in the various counties by the county organizations and also arrangements for more information which would be unobtainable in any other manner."

Asheville, Oct. 14.—(AP)—The Nye Senate campaign funds committee, investigating North Carolina today, today to decide whether anything unethical needs defining into.

Arriving early this morning the three members of the committee—Senator Gerald P. Nye, Republican, North Dakota, Senator Robert F. Wagner, Democrat, New York, and Senator Robert C. Patterson, Republican, Missouri—went into immediate conference at the Satterly Park hotel.

It has been decided that Senators Nye and Wagner will leave this afternoon at 4 o'clock for Nashville, Tenn., to begin hearing into campaign expenditures in that state.

Senator Patterson will remain in North Carolina, where he will hold meetings in several cities of the state he has been instructed, officials said.

Heavy Casualties Inflicted In Terrific Fighting Near Carpiac District; Several High Officers of Federal Troops Taken Prisoners

Minneapolis, Minn., Oct. 14.—(AP)—Brazilian revolutionaries routing government troops in a five-hour engagement near Carpiac district, inflicting heavy casualties and taking several high officers of federal troops prisoner.

An official message from the government at Porto Alegre, capital of Rio Grande do Sul, said the battle was the heaviest fought thus far of the revolution since the 200-mile Paraná basin front for the possession of Sao Paulo.

The first battle of the revolutionary army against the federal troops early yesterday morning after advancing to a point between Alameda, Catarina and Carpiac. Despite fighting around the town, the federal forces were routed and several high officers were taken prisoner.

Many prisoners were taken by the revolutionaries and including several high officers. Among the captured were rifles and machine guns. The revolutionary troops also captured some cannons.

In another encounter along the Paraná front the federal troops were routed near Carpiac. The revolutionary forces took 100 prisoners and captured a large quantity of supplies, including food and medicine.

Police And Communists Engage In Hand To Hand Battle At Labor Meeting

Several Arrests Follow Attempt of the Communists to Gain Entrance to Convention of Federation of Labor At Boston During the Morning Hours

Oct. 14.—(AP)—Communist and police clashed in a hand to hand battle outside the Convention hall of the American Federation of Labor today. Several arrests were made.

A furious struggle then ensued between the hailing crowd of Communists and police. Police were forced to retreat and the Communists entered the hall.

Police commissioner said a number of arrests were made and a number of Communists were taken to a nearby police station.

The Communist convention was held in the afternoon and the police were not present.

While the battle raged, the Communist convention proceeded as usual.

Establishes Highest Price Average

Fifth Set of Buyers Enables Market to Sell 1,585,608 Pounds of Tobacco At a General Price Average of \$16.82 Per Hundred Pounds; Prices Reported Firm Today; Sales to Be Completed About 4 O'clock

With the beginning of a series of a fifth set of buyers, the Greenville tobacco market yesterday broke up a new sale record and also established the highest price average of the season, according to the official report made public this morning by K. W. Cook, supervisor of sales.

The report showed that the market disposed of a total of 1,585,608 pounds at a general price average of \$16.82 per hundred pounds.

Although there was a steady rise in the price of tobacco today, the supervisor stated that sales would be completed by four o'clock this afternoon.

The previous sales record of the market was in the neighborhood of 1,200,000 pounds. This was established under the first part of the present season with four sets of buyers and was reported to be a world's record on that many sets of buyers.

When the fifth set of buyers went into action yesterday morning, the market was reported to be a steady rise in the price of tobacco today, the supervisor stated that sales would be completed by four o'clock this afternoon.

BEGIN DRIVE TO IMPROVE COTTON PRICE

Cooperative Platform Adopted At Conference Held At New Orleans

New Orleans, Oct. 14.—(AP)—Scores of cotton merchants, manufacturers and bankers met today upon a program of cooperation in the cotton industry designed to improve the price of cotton in a cotton plant industry.

A cooperative platform adopted almost unanimously last night in a meeting held by the American Cotton Shippers Association at the request of Robert P. Lammont, secretary of the association, recognized that cotton at the present level is below the cost of production, and concluded that this being the case it is a safe commodity for investment.

The textile industry, described as "in a very unhealthy condition" at present but devoid of features of optimism, was asked to anticipate the spinners needs for the 1931-32 season, and even further beyond in view of the average reduction that must follow the severe decline in price that has taken place.

"With abundance of money available through the banking institutions for loan advances on cotton at the present price" for the cotton producers, merchants and spinners, said the platform, the former should be considered.

"To go ahead with the harvesting of the crop before the elements damage the quality; but to sell as little as possible at the present level to allow the remainder to be a dry place and hold for better prices, also to make a very substantial reduction in cotton acreage for next year."

Chairman Long and Carl Williams of the Farm Board discussed average reductions in acreage and general management of the American Cotton Shippers Association and its co-operation should work with the cotton shippers "in all things consistent with the best interests of the cotton industry as a whole."

Mr. Lammont said the stock trade added to the difficulties of the Farm Board in summarizing the situation.

"To be about any form of cooperation between the cotton shippers and the cotton producers."

Highway Officials to Meet Experts

Raleigh, Oct. 14.—(AP)—E. A. Douglass, chairman of the state highway commission, and several state highway department officials will meet today with national highway experts at the Virginia-North Carolina state highway conference here today.

The international party will arrive in the state on a bus which departed from Washington where the international road congress met last week.

The group will spend tonight in Winston-Salem and will also visit Asheville and Charlotte.

Mr. Douglass will be accompanied by J. D. Whitson, state highway engineer, W. D. Rouse, state highway engineer, Captain Charles D. Farnum of the state highway patrol, and H. E. Whitson, assistant to the chairman of the commission.

HARD WEEK IS AHEAD OF N. C. GRID OUTFITS

Charlotte, Oct. 14.—(AP)—The gridiron grows harder, as the going is to be harder than any since North Carolina's football season opened.

The day chapter in the state championship book will be written Thursday when Wake Forest and N. C. State meet at the North Carolina fair.

All other members of the Big Five manage foreign fees and for the time this year each will probably go on the field labelled "champion".

The possible exception is Davidson which plays the Citadel in Charleston Saturday, and some of the Wake Forest's staunchest supporters will give the pre-game advantage to John Floyd's Bulldogs.

Bringing the potential strength of the South Carolinians, Coach Mont Hunter has started juggling his team in the hope that the winning numbers will turn up Saturday.

As a starter, he shifted Halfback Joe McCall to the second string and gave Charlie Pearce his balloting job on the varsity. In addition, he got cross and gave the entire team one of those locker-room lectures.

Georgia, with a great victory

over Yale, looms as the final hurdle in North Carolina's year-long win-all schedule.

The Tar Heel line hasn't been all that Coach Clark Collins would have it be. His stellar backs have been North Carolina's salvation in every game this season.

Against Georgia, however, he will need not only backs but linesmen and that's one reason why the Tar Heel wants being drilled so hard this week. Collins is also perfecting his passing attack and teaching his men a pass defense.

Duke, with the Navy Drednaught blocking its channel, has decided to attempt to go over what it realizes would be hard to go through, namely, the Middle line. Passes and more passes with Bill Murray and Kid Brewer doing the muncing are the order of the day in the Elus Devil camp.

With the exception of Catawba, which had an open date when pre-season schedules were compiled, all of the smaller state teams will see action this week.

CIVITONS WILL MEET NEXT AT GASTONIA

Greensboro, Oct. 14.—(AP)—Gastonia will be the scene of the next convention of the Carolina District Association of the Civitan Club and G. K. Moose, of Boone, will be the presiding officer.

Mr. Moose was elected president of the organization at the conclusion of a meeting here yesterday. The Gastonia convention date will be fixed later by the executive committee.

Brooklyn Ball Club Acquires New Men

New York, Oct. 14.—(AP)—The acquisition of Frank (Lefty) O'Doul outfielder, and Frenzo Thompson, second baseman, from the Philadelphia Nationals in exchange for pitchers Jim Elliott and Clise Dudley; Hal Lee, outfielder; and "a cash consideration was announced today by the Brooklyn baseball club.

O'Doul was acquired at a conference in New York between Frank B. York of the Brooklyn club and William F. Baker, Phillies' president.

It had been reported for several days that O'Doul, a mighty slugger, and Thompson, a highly valuable infielder, were to go to the Robins.

The principal surprise in connection with the deal was the trading of "Jumbo Jim" Elliott a huge and capable pitcher, whom the Phillies expect to help solve their hurling problems.

Vandy Fullback

Selman "Good" Fortune, 184-pound fullback, is one of the five sophomores counted on for regular service with the Vanderbilt football eleven.

SPORTS SLANTS

The world's series gave a convincing demonstration of the 'fashion in which good pitching can check the talk about the "lively ball."

The sphere may be lively enough but Grove and Earnshaw for the A's, Hallahan, Haines and Grimes for the Cardinals turned the series into a succession of old-fashioned "pitchers' duels." The long range-firing was effective in spots, but not in the least consistent.

The supposedly heavy hitting A's in the three straight games at St. Louis, scored in only two out of 27 innings, averaging less than 26 hits per game.

"That ought to show 'em we haven't inoculated the ball," remarked Tom Shibe, president of the Athletics and also head of the company that manufactures ALL the major league baseballs.

"Talk of the National league ball being any livelier than the American brand is just an example of ignorance. The only difference between the two is in the color of the stitches and the stamping.

"There has been no substantial change in the type of manufacturing since the cork center was introduced in 1910."

GOLFERS MAKE BIG SHOW AT CAPITAL

Raleigh, Oct. 14.—(AP)—This year's golf, now Bryson Biggs was well on the green in two, as a foursome reached the ninth hole at the Carolina Country club yesterday.

Sixty feet away, off the carpet, was B. C. Williams' second shot. Van's Smith second was fifty feet away, also off the Green. G. J. Arthur, after driving, was 150 yards from the cup.

It looked like Biggs' hole, and Arthur plunked an iron to the apron that dropped for an eagle two. Smith holed his chip for a birdie three. Williams sank his third for another birdie.

Biggs took three putts and went one over par.

MAJOR FOOTBALL TEAMS TO SETTLE DOMESTIC DISPUTE

New York, Oct. 14.—(AP)—Major football teams in the east fret all about intersectional rivalries this week as settle down to the serious business of settling a few ancient domestic disputes.

Topping the section's program will be the 16th battle between Harvard and Army at Harvard Stadium. Neither yet has been extended and both have power aplenty in backfield and line.

Harvard may hold an edge in conditions, for six first-string cadets are sitting on the sidelines nursing injuries. Harvard won the first 13 games played with Army but the Cadets broke the charm in 1928 and then rattled to a spectacular 20-20 tie last year. This rivalry goes back to 1895.

JUST HOW SAFE ARE YOU AT HOME?

IF YOU think of danger in terms of trains, steamships, airplanes, automobiles, machinery and the like, please remember that more than 7,000 lives were lost last year in American homes as a result of fire.

More than 60 per cent of all fires occur in homes. The "safety" of your hearthstone loses some of its assurance when you consider this record of tragedy.

To improve such conditions the Stock Fire Insurance companies—representing the great bulk of fire insurance written in this country—maintain many helpful services.

For Greater Home Safety
The Department of Building Construction operated by the National Board of Fire Underwriters spreads a vast amount of information regarding building materials and their proper assembling.

Stock Fire Insurance engineers constantly survey the fire defenses of cities and work with public officials to improve them.

Underwriters' Laboratories, established by Stock Fire Insurance, tests and labels thousands of devices used in the home—electrical apparatus, convenience equipment, heating plants, fire extinguishers and utilities of many descriptions.

STOCK FIRE INSURANCE

has a large personnel and many facilities that are always available in connection with construction, maintenance, protection, and fire prevention. Its record in reducing the average cost of fire insurance over a long period of years is partly the result of its efforts to make home life safer.

SCARBOROUGH-JACKSON Norfolk, Va., Oct. 10.—A beautiful but simple marriage ceremony was solemnized in the Church of Epiphany of Norfolk, Va., on Friday at high noon when Miss Ruby Hazel Jackson, of Norfolk, became the bride of Mr. Euren Ernest Scarborough, of Canton, N. C.

The bride was attractively attired in a traveling suit of green crepe with accessories to match and carried a shower bouquet of bride's roses.

The groom is the son of Mr. and Mrs. Oscar R. Scarborough of Mt. Gilead, N. C. He was graduated from Wake Forest College in 1929, where he was an honor student and star athlete, and member of the Phi Kappa Beta fraternity.

Immediately after the ceremony the happy couple left for the mountains of Western North Carolina. They will make their home in Canton, N. C.

KRYL AND HIS BAND PLEASES AUDIENCE LAST EVENING

Kryl and His Band and Miss Stewart, the brilliant soprano, captivated the girls and their friends at both the afternoon and evening concerts.

The band played all types of music from the overtures of "William Tell" and "Tannhauser," to medleys of national airs and popular current music.

The selections from popular modern light operas "The Vagabond King" and "Rio Rita" were favorites.

Miss Stewart's marvelous voice was the delightful surprise of the evening.

While all expected a good dramatic soprano, none dreamed that she would have a voice that ranks her among the greatest.

The automobile, its driver dived, rolled across the sidewalk and into a fence.

Heiress Kidnapped In Missouri; Entire District Aroused

Greenfield, Mo., Oct. 14.—Kidnapping of Mrs. Alma Wilson McKinley, 24, heiress and expatriate mother, stirred Southwest Missouri today.

Enraged friends joined officers of a score of cities and towns in a patrol of highways from the foothills of the Ozarks to the Missouri river, seeking a small masked man who abducted the girl last night from the ranch home of her father, Benton Wilson, oil millionaire.

The kidnapper, armed with a shotgun, Sheriff Olin Killingsworth said, entered the Wilson home where Mrs. McKinley and her mother were alone. According to the report, he demanded money, but was told there was none in the house.

He then forced the girl to accompany him to the family car, after binding and gagging her mother. Mrs. Wilson freed herself after half an hour and notified police.

Gambler Slain At Chicago, Ill.

Chicago, Oct. 14.—(AP)—Dave Emmett 35, whose career has been wrapped for many years in politics and gambling, was shot to death by an assassin's bullet late last night.

A man jumped to the running board of a parked automobile at the wheel of which sat Emmett. The man pistol in hand, cursed Emmett and shouted: "I'm going to let you have it!"

Emmett, who appeared to recognize the man, shouted to Stephen Platon, his companion in the car, to "duck." The gambler then leaped forward and threw the car into gear in an effort to hurl the gunman off the running board.

The bullet entered Emmett's body under the left arm and penetrated his heart.

The automobile, its driver dived, rolled across the sidewalk and into a fence. Platon jumped out and the gunman ran to a car in which two companions waited, and was driven away.

Cottonseed Crushing Shows Improvement

Washington, Oct. 14.—(AP)—Cottonseed crushing in the first two months of the cotton year, August 1 to September 30, was placed to the Census Bureau at 971,395 tons, compared with 609,971 tons for the same period a year ago, and cottonseed on hand at mills September 30 was placed at 895,033 tons, compared with 588,948 tons a year ago.

Cottonseed products manufactured in the two month period and on hand September 30 were:

Supreme Court Hears Case of Dr. R. B. Hayes

Raleigh, Oct. 14.—(AP)—The State Supreme Court today heard arguments in the matter of Dr. R. B. Hayes, Hillsboro physician sentenced to 10 days in jail for contempt of court by Matt H. Allen, chairman of the state industrial commission.

The arguments in the case centered on the question: "Is the industrial commission a court?" the petitioner's attorneys argued it is not a court and Walter Siler, assistant to the attorney general, appeared for the commission and argued it was.

The appeal reached the Supreme court upon certiorari after the judgment of contempt of court imposed by Mr. Allen had been upheld in Superior Court by Judge W. C. Harris.

Doctor Hayes was declared in contempt when he refused to answer a question asked him by Mr. Allen unless he was paid expert compensation.

The court also received the appeals in two capital cases, State vs. Sizan from Tyrson county and State vs. Massey from Durham.

Will Sizan, one of the appellants, has confessed his guilt of the murder of Phoebe Gillis, for whose killing he was tried and sentenced to die, since the appeal was docketed. Sizan also confessed to "accidentally" killing Mrs. Elsa Marshall in West Chester, N. Y., in 1927.

Thirteen civil suits appeals also are being heard by the court this week from the Tenth Judicial District.

Perth, West Australia, Oct. 14.—(AP)—Flight Com. C. H. Nesbit and two women pupils were killed when their Puss Moth plane, in which they were making a navigation flight, was wrecked.

ABOUT TOWN

Mr. Harper D. Sheppard, of Hanover, Pa., will attend the formal opening of the Sheppard Memorial Library here Friday night at 8 o'clock. Mr. Sheppard is donor of the new structure, presenting it to the city as a memorial to his father, a native and former county official of the county.

The new structure, one of the most imposing of its kind in this section of the county, was erected at a cost of \$60,000, including the furniture and fixtures. It will serve the city for a number of years, having a capacity of 48,000 volumes.

Additional visitors to the opening will be Dr. Frank Graham, president of the University of North Carolina, and Miss Mary Beall, secretary of the North Carolina Library Association. The principal address of the occasion will be delivered by Dr. Graham.

The public has been given a cordial invitation to attend the opening and to inspect the beautiful structure. That the people will take advantage of the invitation cannot be questioned. In addition to being a library the building has certain community features which make it of additional value. It is of common interest to people in all walks of life, and it is certain the opening will be largely attended.

Inauguration of increased buying service on the Greenville tobacco market will be a source of unusual interest to the people of this part of the country, and especially to the thousands from surrounding counties who market their tobacco here from year to year.

The fifth set of buyers will expedite sales to such an extent that farmers even from distant communities will be able to market their tobacco and return home the same day. This is a fact that will command the consideration of the growers, and prove a drawing card to hundreds of others living a long way from Greenville.

The goal for the season was set at seventy million pounds of tobacco the first of the season, but the additional buying forces will enable the market to sell from eighty to ninety million pounds of right leaf. The market up to the present time is practically two million pounds ahead of the corresponding date last year, and with three-fourths of the crop yet to be sold, it is a foregone conclusion that sales will surpass anything in the history of the market.

The Greenville market has established an enviable reputation during its over thirty-five years of service, and with facilities placing it upon the same plane with the largest market in the world, the future bids fair to witness even a greater record. The warehouse and factory facilities are sufficient to care for the five sets of buyers, and there seems to be no question but that a new era has opened for the market.

Five persons were killed in automobiles on the highways of North Carolina, and in the various towns and cities, too, for that matter, it is highly important that the driver use more care than ever in the operation of his car. He can't depend too much upon what the other man is going to do. He must first drive safely himself, and he will then be able to keep out of the other fellow's way, or at least to help the other man protect himself.

In case of heavy fogs or smoke screens reducing visibility, the driver should not only drive slowly, but should stay off the road if possible until the fog or smoke disappear. Members of accidents have resulted from these two cases during the last several weeks, and the situation will continue to exist unless better judgment is used.

It would be much better never to get anywhere than to have one's life snuffed out by an accident in the fog or smoke clouds, and the man that looks at it from this point of view will hardly be numbered among those in the hospitals

or morgues as result of accident.

"When modern enterprise joins hands with sure-footed experience, success becomes a certainty. The fusion of these two important factors has given Thompson-Starrett over a billion dollars worth of activity in thirty years. It is interesting to note the application of this same principle in your business. Its clear evidence is your use of the Ultra Violet Ray in the 'Toasting' of the LUCKY STRIKE tobaccos."

LUCKY STRIKE—the finest cigarette you ever smoked, made of the finest tobaccos—the Cream of the Crop—THEN—"IT'S TOASTED." Everyone knows that heat purifies and so TOASTING removes harmful irritants that cause throat irritation and coughing. No wonder 20,679 physicians have stated LUCKIES to be less irritating! Everyone knows that sunshine mellows—that's why TOASTING includes the use of the Ultra Violet Ray.

Headache? That needn't bother you long

YOU can get relief from that headache in just a few minutes if you go over to the drug store and get a bottle of Capudine... or take a dose at the soda fountain. I've never seen anything in my life that gives such quick relief. It's got powders and pills beaten a mile for speed. It's the best bet for the "morning after" too.

Being liquid, Capudine acts immediately, often in one-third the time required by other forms. It contains no narcotics, does not disturb digestion and is approved by Doctors and Druggists. Even with the most severe headache, relief comes very quickly. Sold at Drug Stores, 10c, 30c and 60c bottles and by the dose at soda fountains.

ROTES HEAR FRED LATHAM TALK FARMING

Talk by Belhaven Man Constituted the Principal Part of Program Last Night

Fred Latham, of Belhaven, expert of the State Department of Agriculture, delivered the principal address at the regular weekly meeting of the Greenville Rotary club last night.

He confined his remarks to a general discussion of the dangers of the money crop, and urged the farmers of this section to plan for well balanced crops in the future if they would hit the high road to independence and prosperity.

He told of the present situation resulting from the failure of the principal money crops throughout the country, and saw no improvement in conditions until the farmers give more attention to a general line of farming, and especially to a production of the things consumed at home.

He stressed the importance of getting away from the one and two crop idea, declaring that this would convert Pitt county into the garden spot of the world.

J. H. Waldrop presided over the meeting, and the usual supper and song program were enjoyed.

Dr. K. B. Pace, chairman of the Rotary tree planting committee, explained what had been done in connection with the movement to plant more trees throughout the city and to preserve those already in evidence.

He said his committee was at this time taking orders for trees in the Third ward, and would be through with this part of their program within the next several days.

He said he found the public interested in the plan to beautify the city, and expressed the opinion that the movement would meet with great success.

Second Woman Held In Diamond Shooting

New York, Oct. 14.—(AP)—Activities which brought a second young woman into the case, found police today no near a solution of the shooting of Jack "Legs" Diamond when he was found in a hotel Sunday with five bullet wounds in his body.

The wounded gangster, after a day in which he rallied from the effects of his wounds, took a sudden turn for the worse early today. Hospital attendants said he became restless and complained of being in great pain. Hypodermics were administered to quiet him.

Police Commissioner Murray said the fragments of evidence which had been gathered indicated Diamond had been shot by members of his own gang and not by rival gangsters.

Jean Neuh, formerly owner of a beauty parlor in Newark, N. J., was the second girl to be questioned. She was brought in after police received an anonymous telephone call saying she had been heard to say in a West 52nd street girl last week that Diamond had less than 10 days to live.

She denied knowing Diamond or any of the other persons mentioned in the case and vehemently denied making any such statement. Police released her after four hours questioning.

Efforts were redoubled today to locate Jacob Ginsberg, manager of the Monticello Hotel, in which Diamond was shot by two men who came into his room as he sat on the edge of his bed Sunday forenoon. Ginsberg, who has been described as a close friend of Diamond, disappeared after having the wounded gangster taken into the Ginsberg suite of the hotel and calling an ambulance.

SENATE CAMPAIGNS FUND COMMITTEE OPENS INQUIRY IN THE CITY OF ASHEVILLE

large amounts of money were used in this state.

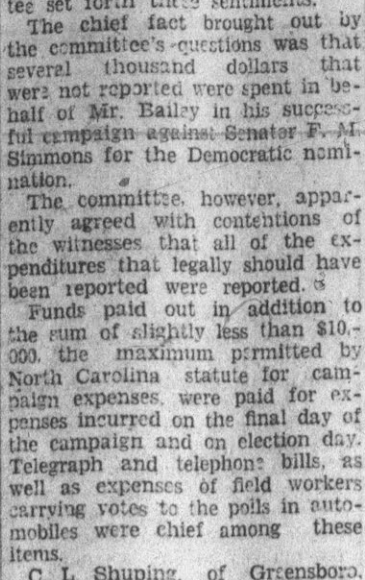

Raleigh, Oct. 14.—(AP)—The Senate campaign funds investigating committee, headed by Senator Gerald P. Nye, Republican, North Dakota, was in Asheville today where it will decide if it is necessary to continue the probe opened here yesterday into the Democratic primary of June 7.

Chairman Nye, Senator Wagner, Democrat, New York, and Senator Patterson, Republican, Missouri, left Raleigh shortly before midnight after spending five hours questioning 14 of the 100 witnesses subpoenaed for the hearing.

The completion of the committee's work here without any discoveries of a very startling nature was the signal for Democratic leaders over the state to express "pleasure" over the "result of the investigation."

The water famine extended into Maryland where at Annapolis the reservoir was so low its sides have been described as resembling a deserted football stadium. The city would have been without water a fortnight ago but for 200,000 gallons drawn daily from the private supply at the United States Naval Academy.

The prolonged dry spell in New Jersey has resulted in an outbreak of forest fires, thirty being reported in the state. In the two most serious blazes, sixty bungalows were destroyed between Mays Landing and Pleasantville, while 11,550 acres of timber land have been burned over near Atsion.

After a tour of state forests in New York, two state conservation officials said they would recommend closing the northern Adirondack forests to the public to relieve the fire hazard.

"But," he added, "in the actual message which President Hoover sent to them for the celebration of reformation Sunday, the President clearly violates the spirit if not the letter of his oath of office as President of the United States."

He questioned the historical accuracy of the President's utterance also asserting:

"Luther was not a champion of the separation of church and state, but a most arbitrary defender of state absolutism."

"It does matter very much," he concluded "to the whole constitutional structure of our country, and its institutions, that the President of all the people, who is called by virtue of his office to respect the religious rights of all, congratulates one particular body on the changes it introduced from older conceptions of religion and government, and declares that as a nation should commemorate the Protestant persons and the vents from which these mighty forces shaping our country have sprung."

INDIGESTION DISAPPEARED

Took a Pinch of Black-Draught After Meals—Rid of Stomach Pains.

Westminster, S. C.—"I have used Theford's Black-Draught for headache and dizziness for fifteen or twenty years," says Mr. E. D. King, of this place.

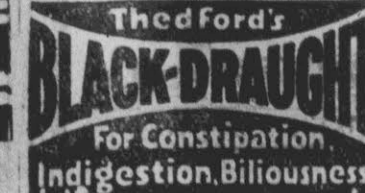

"I had a son who could not eat without suffering from indigestion and pains in his stomach. He would take a pinch of Black-Draught after meals for some time, and he quit having indigestion. It helped him."

"My wife took Black-Draught for dizziness and headaches. When she would feel sluggish and tired out, she took Black-Draught and found it relieved her."

"We have taken it and recommended it for years as a splendid family medicine."

Theford's Black-Draught has been in use since 1835, with constantly increasing popularity because of the good it has done the men, women and children who have taken it.

Composed of selected medicinal herbs and roots, finely powdered, accurately combined and packaged in a thoroughly modern scientific way.

BEWARE THE COUGH FROM COLDS THAT HANG ON

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action: it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing

DISTINGUISHED BEAUTY AND PERFORMANCE

THE NEW FORD TOWN SEDAN \$670

(f. o. b. Detroit, plus freight and delivery. Bumpers and spare tire extra.)

THE Model A Ford was a good car when it was first introduced. It has constantly been made a better car. For it has never been the policy of the Ford Motor Company to stand still.

Changes are not made for the mere sake of changing or to meet a fleeting fancy. Yet hardly a week passes, but that some improvement is made—some new way is found to increase the value and service of the car. As soon as those improvements are fully tested in actual practice they are passed on to the public.

The new Ford bodies are a reflection of this policy of constant improvement. In flowing grace of line, in harmony of design and color, they set a new high standard of motor car value. New beauty has been placed within the means of every one.

In this connection, it is interesting to note and remember that these beautiful new bodies are but one of many features that make the new Ford a value far above the price.

Others are the fully enclosed, silent six-brake system, four Houdaille double-acting hydraulic shock absorbers, specially designed transverse springs, Triplex shatter-proof glass windshield, five steel-spoke wheels, unusually large number of ball and roller bearings, the extensive use of fine steel forgings instead of castings or stampings, aluminum pistons, chrome silicon alloy valves, chrome alloy transmission gears and shaft, torque tube drive, three-quarter floating rear axle, and bright Rustless Steel of enduring luster for the radiator shell, hub caps, head lamps, cowl finish strip and other bright metal parts.

In the making of this car, craftsmanship has been put into mass production. Millions of parts are made, each one so accurate and so exactly like the other that all fit perfectly to the thousandth of an inch when brought together for assembly into complete units. This care is reflected in the safety, comfort, speed, power, economy, reliability and long life of the Ford.

Market Report Cotton--Stocks--Grain

COTTON MARKET

New York, Oct. 14.—(AP)—Cotton opened barely steady today at a decline of 9 to 14 points with the more active positions showing net losses of 18 to 21 points during the early trading.

The selling was prompted by relatively easy cables while there appeared to be quite an accumulation of over-holiday selling orders here from the south presumably in the way of hedging. Offerings were absorbed by scale down buying and after selling to 10:33 for December and 10:65 for March, prices rallied 4 to 5 points from the lowest with the market fairly steady at the end of the first half hour. There was talk of an easier technical position after the covering of last week and some of the early pressure was supposed to represent liquidation or reselling by recent buyers.

Liverpool cables said "there had been local or Bombay selling in that market."

GRAIN MARKET

Chicago, Oct. 14.—(AP)—Despite an unexpected increase of the United States visible supply wheat values advanced today at the last. The advance was largely based on reports of unfavorable weather in Canada damaging unthreshed wheat there. Estimates were received that Saskatchewan and Alberta Provinces, Canada, have 90,000,000 to 100,000,000 bushels of unthreshed wheat, most of which cannot be threshed until Spring, and many million bushels not at all.

Wheat closed unsettled 1-8 to 11-8c a bushel higher than Saturday's finish. Corn closed 1-8 to 13-8c up. Oats 1-4 advanced, and provisions unchanged to a rise of 2-2.

STOCK MARKET

New York, Oct. 14.—(AP)—Trading turned relatively quiet, and share prices made steady and broad recovery in today's stock market after a flurry of liquidation at the opening, representing an accumulation of selling orders over the week-end, and possibly the final jettisoning of weakened accounts.

Sale of large blocks, several individual transactions running from 5,000 to 12,000 shares, during the first few minutes expressed prices close to the lows of last Friday, but the resistance met at that level was impressive and prompted extensive short covering. In this connection it was notable that economic advisory services in their weekly advices to customers cautioned against being frightened into disposing of good securities, and at least one of the larger services advocated substantial investment of funds in selected stocks around recent levels.

The first flurry of selling depressed prices about 1 to 5 points, but by early afternoon there were numerous net gains of like extent, most pivotal shares showing advances. Trading was in fair volume, but failed to reach the proportions of last Friday or Saturday. U. S. Steel declined 33-4 points to 144-3-4, within a fraction of its low, then made full recovery. American Telephone converted an early loss of more than 2 into a gain of 3. Allied Chemical dropped nearly 4, then rebounded to show a gain of about 5. General Motors sold off a point to 341-4, and was one of the few prominent shares reaching new low ground, but it quickly rallied.

Call money remained steady to firm at 2 per cent.

Hears Petitions to Discontinue Railway Express Agencies

Raleigh, Oct. 14.—(AP)—The State Corporation commission held three hearings today on petitions to discontinue two express agencies and one railroad agency. All of the petitions were introduced by persons claiming to be patrons of the services. The Atlantic Coast Line railroad is seeking to discontinue its agency at Jonesboro and employ a caretaker there instead of a station agent. A delegation appeared to protest the discontinuance. The railway express agency petitioned to discontinue agencies at Cornith, Chatham county, and Katoctus, Pitt county.

Brown to Attend Air Route Opening

Washington, Oct. 14.—(AP)—Postmaster General Brown and official party took off from Bolling Field at 10:38 A. M. today for Atlanta to participate in the opening tomorrow of the Southern trans-continental air mail line between the Georgia city and Los Angeles.

The plane took off in the face of reported 3 favorable weather along the route to Atlanta. The first stop was to be made at Richmond where the pilot, H. A. Elliott, vice-president of the Air Transport corporation, and Captain F. T. Courtney, of the Curtiss Wright Aviation corporation, planned to receive additional information on the craft.

The craft, a dual motor Curtiss Condor, with an 18 passenger capacity, also will stop at Spartanburg, S. C., for a weather report. Postmaster General Brown said he expected to be in Atlanta by about 5 o'clock today.

Injury Not Setback In Golf — Sydney, N. S.—It takes quite an injury to deter a real golfer. Lord Willington, Governor General of Canada, got a "black eye" when a ball struck him at Braddock Saturday, but he was back on the links after a layoff for the Sabbath.

CARDINAL PAT HAYES SAYS PROHIBITION IS VERY UNWISE LEGISLATION

Seattle, Wash., Oct. 14.—(AP)—Cardinal Patrick Hayes of New York, commenting here upon prohibition said he considered it "unwise legislation" and a blow to the temperance movement. Cardinal Hayes, one of the four Cardinals in the United States, arrived from Victoria enroute to California yesterday. He made known his views in discussing an address here yesterday by Bishop

George Finnigan, Montana, who told a Catholic gathering drunkenness had increased under the 18th amendment. "I asserted some years ago that prohibition was very unwise legislation, since all people did not accept it; that prohibition is not in itself a virtue, but that temperance is," said Cardinal Hayes.

"I saw very clearly a trend toward temperance, just before prohibition came in. I noticed people were not drinking so much at dinners and private affairs."

He said the growing divorce rate presented a similar example of self control. "The sense of sacrifice seems to have disappeared," he said.
