ECONOMY IS STRESSED IN SUPPLY BILL

Postoffice and Treasury Budget Provides for \$1,083,553,943 for Fiscal Year

Washington, Dec. 3.—(AP)—The administration's efforts at economy were reflected today in the first of the big annual government supply bills.

The House received from its appropriation committee the bill for the Treasury and Post Office, carrying \$1,083,553,943 for the fiscal year 1932.

The outlay is \$86,906,095 less than expenditures of \$1,170,460,038 for the two departments in the current fiscal year, and \$20,726,410 lower than budget estimates.

A reduction of \$104,000,000 in the allotment for tax refunds largely is responsible for the saving, although there is an increase of \$10,177,220 for public building construction.

For the first time since the prohibition bureau was created, this bill carried no funds for dry law enforcement. That agency was transferred to the Justice Department last July. However, the measure provides \$4,814,420 for the industrial alcohol bureau and \$1,709,528 for the new narcotic bureau. Both formerly were connected with the prohibition bureau.

In its report, the appropriations committee pointed out it would cost an additional \$475,680 next year to operate the industrial alcohol bureau, while the increased expenses of the narcotics bureau amounted to \$47,268.

The Post Office Department received \$841,939,917, an increase of \$1,977,520 over this year but \$7,040,140 less than the budget. The Treasury was given \$241,750,026 or \$91,692,715 less than this year and \$13,682,270 less than budget estimates.

Outstanding among the postal appropriations was \$20,000,000 for the domestic airmail service, an increase of \$5,000,000 over the present year, and \$36,600,000 for transportation of foreign mails, an increase of \$7,100,000 due largely to air mail service to Latin America.

While reductions were made in operating expenses of the Treasury, the permanent and indefinite outlays, which are made automatically by the Treasury, increased to \$1,075,369,989 as compared to \$1,076,003,135 this year. Allotments under it provide \$408,410,000 for theinking fund, an increase of \$17,238,400, and \$581,000,000 for interest on the public debt, a decrease of \$22,000,000. Among other outlays it sets aside \$57,749,305 for foreign obligations, an increase of \$9,503,205, and \$13,000,000 for drawback bounties.

Under the Treasury operating allotments a total of \$87,924,450 was set aside for public buildings construction, of which a lump sum of \$61,305,000 was granted for continuation of existing projects. No definite allotments of this sum were carried in the measure, the fund to be used as required by the Treasury on the program the remainder is for miscellaneous expenses in connection with the work.

The Internal Revenue Bureau was given \$59,962,560, or \$104,457 less than this year, due to anticipated decrease in tax refunds, and \$12,164,140 less than budget estimates of the total \$20,000,000 is set aside for tax refunds.

The Coast Guard was allowed \$32,897,582 an increase of \$195,526 but \$413,160 less than the budget. Of this, \$1,600,000 is for construction and \$2,400,000 for repair of vessels, while \$20,640,000 is for pay and food for personnel. The new Coast Guard Academy at New London, Conn., was allowed \$1,640,000.

The sum of \$11,919,654 was allotted to the Public Health Service, an increase of \$780,215, largely due to increased hospital services.

For the customs service \$13,999,569, including \$119,799 for White House police, an increase of \$13,999,000, an increase of \$384,960 was allowed. While the Federal Farm Loan Bureau was given \$1,020,000.

Secretary Mellon was given \$6,371,444 on which to run his office, while the Bureau of the Budget received \$191,000, the Treasurer of the United States \$156,548, the Comptroller's office \$317,183, the Bureau of Engraving \$6,700,000, the Mint \$1,606,100, and the American Printing House for the Blind \$65,000.

OLD OFFENDER PROHIBITION SENT TO ROADS

Several Other Actions Disposed of In Regular Session of County Court

Henry Cooper, colored, described by police as an old offender of the prohibition law, was sentenced to twelve months on the county roads by Judge W. L. Whedbee, presiding over the regular weekly session of County court in this city yesterday.

Cooper was arrested by Greenville policemen while attempting to enter the city with several gallons of whiskey in his possession. Police said he had appeared in several other whiskey cases in recent years.

Several other actions were disposed of during the session, the majority consisting of violating of the prohibition and state traffic laws.

Otis Hawkins, William Smith and E. C. Brewington, charged with possession of whiskey, were each sentenced to 90 days on the county roads. They were arrested by Grimesland officers and brought to Greenville after preliminary hearing.

W. C. Chauncey was ordered to pay a repair bill and cost of \$153 or a charge of reckless driving. He was alleged to have run into and damaged the automobile owned by Sam Dudley, member of the Board of County Commissioners. The defendant filed notice of appeal to Superior court under bond of \$100.

L. J. Fort, charged with abandonment of his wife, was given a 12-months' suspended sentence to the roads, providing he make arrangements for the support of his wife and children.

Edward Whichard, colored, was ordered to pay cost on the sum of \$5.00 to the highway committee as result to damage to a highway fence. He was alleged to have been operating an automobile with out lights when he ran into the fence.

Heber Johnson was given a 60-day suspended sentence to the roads on a charge of stealing hides. Jesse James, appearing in the same case, was adjudged not guilty.

Jim Page and Wilbur Taylor were sent to the roads for four months each for stealing tobacco from a farm in the Fountain community. Jack Stox, 16, was given a suspended sentence.

W. O. Jolly, charged with reckless driving of an automobile had sentence suspended upon payment of one half cost.

F. E. Priddy paid a fine of \$10 and cost for driving on the highway while under the influence of whiskey.

Travis Little, charged with operating an automobile while drunk, was fined \$50 and cost and ordered not to drive again in 90 days.

Several Hundred People Expected To Attend Mass Meeting at Court House Tomorrow Night to Discuss Organization; Everybody Urged to Be Present

Several hundred people, including some of the best known business men and farmers of the county, were today expected to attend the meeting at the court house tomorrow night to discuss the organization of a canning factory in Greenville. The meeting has been set for 7:30 o'clock and everybody interested in the proposition has been urged to be present.

Promoters of the canning factory stated today that interest in the movement had increased by leaps and bounds since announcement of the mass meeting yesterday, and that they expected the gathering to be more representative than any other ever held in this city.

C. B. Rowlett, secretary of the Merchants Association, was busy yesterday afternoon mailing out copies of letters to business men, impressing upon them the importance of their attendance at the mass meeting. It is not only an undertaking effecting the city, he pointed out, but every citizen interested in the rapid development of the industrial life of the county.

At the same time, E. F. Arnold, director of the Pitt County Department of Agriculture, was advising the farmers by letter of the meeting, urging them to attend and let their sentiment be known in the matter.

The part which the farmer is to play in the life of the canning industry is a most conspicuous one, and it is imperative this branch of industry be well represented at the meeting, promoters of the canning plant pointed out today.

The farmers must furnish the products—tomatoes and beans—if the factory is to be a success, and it must be determined at this meeting whether or not they are sufficiently interested to provide for the demands of the plant.

Men who have been supporting the factory movement over a period of several months made the statement yesterday afternoon that enough people were already interested to virtually assure the erection of the factory, and all doubt in this direction has been removed.

Messrs. Kelley and Skyes, representatives of the State Department of Conservation and Development, will attend the mass meeting, and explain the possibilities of a canning factory in this community. They will also describe the operation of similar plants in other communities, and what they are doing for the development of business.

The plant proposed for Greenville will employ approximately 125 persons, and will play a big part in relieving the unemployment which has held sway in the South over a period of several months. It will also have a tendency to create a regular weekly payroll which will do much toward bringing to an end the depression existing during the summer months.

Farmers who have been complaining about low prices for their money crops year after year will find the canning factory a new source of income. It will provide a demand for untold quantities of tomatoes and beans every month, and the farmers who agree to supply the plant will find a ready market for all of their products. They will be paid a regular contract price at all times, and there will be no uncertainty about what they are to receive.

Manufacturing plants have been the most pressing need of the city for years, and business men recognize in the proposed canning plant one of the most direct steps in realizing this ambition. It is a step to increased earnings for the business man, the farmer and the workman, and one from which the entire community should derive unspeakable benefit.

Discover Mound With Dance Hall

Salt Lake City, Utah, Dec. 3.—(AP)—Discovery of an Indian mound containing a kiva or religion's dance house, and 25 "men's club rooms," the first of its kind ever located in Utah, was reported here yesterday by Dr. Julian H. Steward, head of the archaeological department of the University of Utah.

Dr. Steward said discovery of a large number of "rambling sticks" in one room indicated the Indians were adept at the game and used part of their building for such pastime. These sticks, he said, were used in a hard gambling game believed to have been popular among the tribes which roamed the Southern Utah and Northern Arizona territory approximately 1,500 years ago.

PREMIER OF SPAIN SHOT BY REPORTER

Attempted Assassination Occurred During Morning Conference With Papers

Madrid, Dec. 3.—(AP)—Joaquin Lliso, a reporter on the newspaper El Sol, today attempted to assassinate Premier Berenguer in the dictator's own office.

As Berenguer entered to greet reporters gathered there, Lliso fired one shot before he could fire a second one which was overpowered by guards and hustled away to prison.

Berenguer, as cool as though nothing had happened, stopped the police and walked up to the reporter.

"Well," said he, "why did you do that?" "I came here," said Lliso, "to make a bloodless but energetic protest against the social regime represented by your government."

The police believe the man was temporarily deranged. The newspaper El Sol, a morning journal, has exposed many of the Premier's policies.

General Damaso Berenguer became Premier of Spain when Primo De Rivera resigned as dictator on January 28. He had been a wedge of discord between De Rivera and King Alfonso from the time of his appointment in 1930 as commandant of the king's military staff.

"I would rather run a sword through my body," De Rivera said on one occasion, "than shake hands with Berenguer."

The Premier served a brief prison sentence in 1924 as the result of a speech directed against the dictatorship, and since the beginning of his career he has been an active and stern figure in Spanish politics.

One of his first acts upon assuming the head of the government was to restore the civil law and constitution which had been abrogated by De Rivera. Recently he had concerned himself with plans for the first parliamentary elections in Spain since the beginning of the De Rivera regime. These elections are to be held early next year.

He came in for sharp criticism last month for his handling of the labor disorders and general strike which tied up the principal industrial centers of the kingdom for a week. There arose rumors, which he quickly denied, that he was planning a coup d'etat which would land him in the post of dictatorship of Spain.

Senate Directs Investigation Of Cotton Decline

Washington, Dec. 3.—(AP)—The Senate today adopted a resolution by Senator Sheppard, Democrat, Texas, directing the Secretary of Agriculture, to investigate the causes of price declines in cotton and the amount of short selling on the exchanges.

The resolution, which now goes to the House, would have the secretary make his inquiry through the grain futures administration.

The inquiry would be directed to operations on the cotton exchanges during the first half of 1930 and for the previous four years.

I ask the amount of short selling and the amount of public participation induced to take part in these futures, and to ascertain whether or not the majority of the public lost or won on the deals."

RECOMMEND BIG SUM FOR DROUGHT AID

Department of Agriculture Asks Congress for \$25,000,000 for Seed, Feed

Washington, Dec. 3.—(AP)—The Department of Agriculture today recommended an appropriation of \$25,000,000 for seed, feed and fertilizer loans to farmers in drought areas.

Informed there was greater need for seed loan legislation than ever before, Chairman Haugen called a meeting of the agriculture committee tomorrow to consider the recommendation.

The Agriculture Department urged quick action, "in view of the enormous number of individual applications for loans that will have to be examined, and the desirability of putting funds in the hands of farmers by the time they have actual need for them."

Bills have been introduced in both Houses for an appropriation of \$60,000,000 for seed and feed loans. Representative Aswell, Louisiana, ranking Democrat on the House agriculture committee, predicted that the Congress would appropriate at least that much for drought relief.

Chairman McNary, of the Senate agriculture committee, will introduce the new proposal today to supersede a bill proposed by him yesterday to appropriate \$50,000,000.

President Hoover, in his annual message, recommended a fund for loans to farmers, but did not suggest an amount.

In his message, McNary eliminated a proposal for relief loans in storm-stricken states, leaving it for application to drought states only. He also eliminated a feature of the bill which would have allowed loans to farmers for food. He said this might have conflicted with unemployment relief plans.

PRICES SHOW RENEWED LIFE ON LEAF MARI

All Grades Reported Bringing More Money On Greenville Market

Although sales were somewhat lighter on the Greenville tobacco market yesterday, the price situation was described as much stronger in the daily report of K. W. Cobb, supervisor of sales.

The report indicated that tobacco was selling better than any other period of the season, considering the quality offered. Prices for all grades were said to be showing renewed life, and especially on the small amount of good tobacco offered the last two days.

It was stated that sales for the season had passed the sixty million pound mark, and that they expected the figure to be near eighty million pounds when the market closes.

In the face of good weather conditions the farmers were advised to market their tobacco as early as possible and avoid the rush usually preceding the holiday season.

The market sold yesterday 725,238 pounds for \$109,204.61 at an average of \$15.05.

Sales have been comparatively light since the Thanksgiving holidays, due mainly to excessively cold weather, but with the advent of the promised warmer temperatures, the farmers were expected to begin to market their offerings more freely.

Hoover Opposes Reduced Income Taxes In Budget Message To Congress

Germany Outlines Plans For Drastic Reduction Of Government Expenses

Finance Minister Tells Reichstag That Cut In Expenditures of \$245,000,000 a Year Is Necessary to Meet Financial Emergency; Debate Deferred Until Tomorrow

Washington, Dec. 3.—(AP)—The President Hoover opposed continuance of reduced income taxes today in notifying Congress a \$180,000,000 Treasury deficit for this year is in prospect.

In his second annual budget message, he requested \$3,932,842,000 to finance the government the next fiscal year. He also warned that appropriations locking beyond action in the next six months to ameliorate unemployment and difficulties caused by the drought might result in another deficit in 1932.

The detailed estimates for 1932 included increases over current appropriations of \$109,620,000 for veterans, \$51,500,000 for Federal aid roads, \$10,330,000 for public buildings, \$2,480,660 for prohibition enforcement, and \$35,000,000 for the Shipping Board's construction loan fund. Decreases of \$92,000,000 for tax refunds, \$33,697,000 for national defense and \$22,000,000 for interest on the public debt were listed.

As to taxes, cut one per cent on 1929 incomes, he said the outlook "for heavy decrease in probable income and the necessity to increase public works and aid to employment does NOT warrant continuation of the reduction."

The President likewise opposed attempts to meet the impending deficit by reduction of the statutory redemption of the public debt, now amounting to \$440,000,000 per annum. He continued:

"Nor do I look with concern upon this moderate deficit for the current fiscal year, which, in fact, amounts to less than 5 percent of the total government expenditure. The adverse balance can be met by reducing the general fund balance from the amount in it at the beginning of the year, supplemented, if necessary, by temporary borrowing by the Treasury.

"When we recollect that our budget has yielded large surpluses for the last 11 years, which have enabled us to retire the public debt, in addition to retirements required by law, to the extent of nearly \$3,500,000,000 we can confidently look forward to the restoration of such surpluses with the general recovery of the economic situation, and thus the absorption of any temporary borrowing that may be necessary."

"It will probably be necessary for Congress to appropriate additional money for expenditure within the present fiscal year in order to increase employment and to provide for the drought situation. While this will operate to increase the amount of the deficit as above estimated, I believe such increase can be accommodated by the methods indicated. On the other hand, no appropriations should be made for such purposes which look beyond such action as will ameliorate the immediate situation during the next six months."

If Congress appropriates cautiously, Mr. Hoover estimated the 1932 fiscal year would end with a \$30,600,000 surplus.

"This is NOT a time when we can afford to embark upon any new or enlarged ventures of government," he emphasized. "It will tax our every resource to expand in directions providing employment during the next few months upon already authorized projects.

"I realize that, naturally, there will be before the Congress this session many legislative matters involving additions to our estimated expenditures for 1932, and the plea of unemployment will be advanced as reasons for many new ventures, but no reasonable view of the outlook warrants such pleas as apply to expenditures in the 1932 budget. I have full faith that in acting upon these matters the Congress will give due consideration to our financial outlook. I am satisfied that in the absence of further legislation imposing any considerable burden upon our 1932 finances we can close that year with a balance ed budget.

"When we stop to consider that we are progressively amortizing our public debt, and that a balanced budget is being presented for 1932, even after drastic writing down of expected revenue, I believe it will (Continued on page six)

ROBBERS MAKE ANOTHER HAUL ON EVANS ST.

\$350 Worth of Coats and Dresses Taken At Smart Shop During Monday Night

Coats and dresses valued at approximately \$350 were taken by robbers who entered the Smart Shop on Evans street Monday night, according to information furnished the police department by owners of the store yesterday. The robbery is believed to have been committed by the same men who entered the Candy Palace the same night and obtained jewelry valued at \$500.

Although police have been investigating the two robberies, no definite clue had been obtained up to the noon hour today. Chief Preston Pierce, however, expressed belief that they would be able to trace the goods within the next several days, and said there would be no let-up in their investigation until some clue had been obtained.

Entrance to the Smart Shop was made from the rear of the building. The robbers were believed to have delivered the goods to an automobile in the alleyway and then made their escape.

After a complete inventory of the store yesterday, owners of the store said they did not miss anything but coats and dresses. These represented some of the best carried in stock, which had been recently received to supply the holiday trade.

The robbers also entered the Candy Palace from a second story rear window. In addition to the jewelry, they obtained a small amount of money which had been left in the cash register for change.

BIG INCREASE IN BUDGET FOR PUBLIC WORKS

Delegation to Go to Capital City to Secure Aid of the Commonwealth

Asheville, Dec. 3.—(AP)—City and county commissioners today met with a special advisory committee of nine appointed to assist in working out financial problems created by failure to open of banks where \$8,000,000 of public funds were on deposit for the purpose of preliminary discussion and the naming of a representative to accompany the governmental heads to Raleigh to seek state aid and advice.

The group will leave this afternoon for Raleigh to see Governor O. Max Gardner and financing experts. The conference in Raleigh will be held tomorrow morning and afternoon.

The group seeking advice in the state capital include:

Mayor Gallatin Roberts, Claud L. Felmet, chairman of county commissioners; J. Ed Gibson, secretary-treasurer of the city; J. G. Adams, president of the National Bank of Commerce; A. C. Reynolds, superintendent of county education; C. H. Malone, attorney for the school board; Claud L. Love, member of the school board, and Mrs. W. E. McLean, bookkeeper for the school board.

Mayor Roberts, Mr. Felmet, Mr. Gibson and Mr. Adams will go to Raleigh by train, leaving the city at 5 o'clock in the afternoon. Mr. Reynolds and the school board group were to leave the city by motor at 1 o'clock in the afternoon.

Judge Adams is attending the conference at the request of Governor Gardner.

None of the officials could say today what they hoped the outcome of the conference would be. They were going into it, they said, with an open mind, ready to accept any suggestion that appeared logical in extricating the city and county governments from the financial difficulties.

While in Raleigh, Mr. Reynolds will consult with A. T. Allen, state superintendent of education, on the situation affecting the schools in the county. Mr. Reynolds has already expressed the opinion that the schools will be kept in operation, in spite of difficulties.

Salaries to Be Cut

Gastonia, Dec. 3.—(AP)—Salaries of Gaston County officers, will be slashed ten per cent, it was decided at a meeting of the county commissioners yesterday.

The commissioners also decided to abolish temporarily at least, the rural police department.

\$17,000,000 was asked. Roads and trails in national parks would cost \$5,000,000, the same as the present year while the reclamation projects of the department were estimated to cost \$2,000,000. Construction of Indian schools, telephone lines, drilling wells, irrigation works, roads, bridges and miscellaneous items made up the remainder. Among the miscellaneous projects was education of natives of Alaska which would cost \$146,000.

Fresh Water Sharks Found At Singapore

Singapore, Strait Settlements.—(AP)—A strange race of man-eating sharks living in fresh water has been found near here by Dr. Homer W. Smith, New York University physiologist.

"At Teluk Anson," on the Perak river, which flows into the Straits of Malacca on the west coast of Malaya," Dr. Smith said, "we found rays, sharks and saw fish in perfectly fresh water 40 miles from the sea."

"This migration into fresh water occurs for some unknown reason only in the tropical rivers of the equatorial belt, the vast majority of this group of fish being strictly marine."

"The immigration is the more interesting because some paleontologists think the group as a whole lived exclusively in the fresh water of the Silurian Continents (that is about 500 years ago) and moved into the ocean in the subsequent devonian period."

Youthful Fliers Continue Flight to South America

Raleigh, Dec. 3.—(AP)—Edward Wingerter and Joseph Jones, Caldwell, N. J., youths flying to South America in a two-cylinder airplane left here at 11 o'clock for Fayetteville and Charleston, S. C. The youths landed here Monday and were forced to remain over yesterday due to high, cold winds.

World Conference On Disarmament To Be Held In 1932

Geneva, Dec. 3.—(AP)—A world conference on disarmament probably will be held early in 1932.

The preparatory disarmament commission, nearing completion of a draft disarmament treaty, voted yesterday to invite the council of the League of Nations to set the exact date for the conference. The vote was 14 to 4, with numerous abstentions.

The conference will take up reduction of naval, land and air armaments.

A proposal of Count Von Bernstorff of Germany, that November 5, 1931, be set as the date, was rejected on the grounds that the League Council could be elected its own date. January or February 1932 seemed to be in the minds of most of the representatives here as the best date.

"Ten months is enough time to prepare for this conference," Count Von Bernstorff said in upholding his November date. "If ten months is not enough, then ten years will not be enough."

China, Italy, Russia and Bulgaria backed up his demand for a fixed date, but Great Britain, France, Czechoslovakia, Greece and Japan and others, opposed. The United States abstained.

Nye Discovers New Expenses In Pa. Primary

Washington, Dec. 3.—(AP)—Chairman Nye of the Senate campaigns committee said today that his committee had uncovered expenditures of \$272,312 in the Davis-Brown primary ticket in Pennsylvania over the \$368,962 reported to the committee last May.

Nye read the total of \$641,274 expenditures in concluding a session of his committee to delve further into reports of discrepancies in the accounting of campaign funds spent for the ticket headed by Senator Davis and Francis Shunk-Brown, gubernatorial candidate.

A total of \$19,500 he said, represented funds reported by county campaign treasurers as having been received from the Davis-Brown committee headed by Samuel Volz, but for which no accounting had been made by the latter in reports either to the secretary of state for Pennsylvania or the Nye committee.

Shelby, N. C.—(AP)—Orlando Elam, undertaker and furniture dealer and former city alderman.

California State Automobile Association estimates \$500,000,000 will be paid in gasoline taxes by motorists of the nation this year.

ABOUT TOWN

With numerous robberies occurring in this community, it is imperative for the people to take more time about putting all of their valuables under lock and key, and for the city to redouble its effort to bring the culprits to justice.

An epidemic of robberies has been reported within the city limits the last month, and while numbers of the robbers have been punished their punishment evidently has not had the desired effect upon other members of the trade.

If the home owners and storekeepers would lock up their places more securely, it is likely the robberies could be greatly reduced. The plan might at least be tried out during the holiday season when there is always a plethora of such occurrences.

As a public-spirited citizen you will want to do your part by the establishment of a bed for indigent children at the Pitt Community hospital.

The most direct way to do this is by the liberal purchase of Tuberculosis Christmas seals which the Christmas club is offering for sale at this time.

All funds derived from the sale of the seals will be devoted to the unfortunate children of the poor, and the more stamps you buy the more money the club will have to apply to this cause.

There are scores of children in this county in need of hospital treatment and the only way they can get it is through the plan adopted by the Women's club. It may be you want to do more than buy the tiny seals, if so a generous contribution would not be amiss.

Help the Women's club live up to its ambition "not to let a single letter or package go out of Greenville without Christmas seals."

The Salvation Army is going to need \$2,500 for its work in this community during the coming year, and the sooner the sum is raised the quicker the workers will be able to make their program effective.

The budget was decided upon at a public meeting of civic leaders and Salvation Army workers Monday, and soon a canvass will be made of the city to determine how much the people desire to give to help this long arm of mercy reach out to the rescue of fallen humanity.

Everybody is, or should be, familiar with the activities of the organization. Its work here in Greenville the last few years has been noteworthy, and had it received more generous support it would have been much more conspicuous than it was.

Remember the great cause in which this organization is launched and give what you can that it may continue its work.

If you want to keep well informed regarding the Merchants Association fund for the poor, watch the barometer in front of the association's office on Evans street.

This method of keeping the public informed concerning donations was adopted two years ago, and has proved a source of untiring interest to the public.

The mercury stands almost at the bottom at this time, but it will begin to mount steadily as the people realize the suffering reported to exist among the tenant class of farmers. Improved crops have improved the situation among the poor in Pitt county this year, but there is quite a number of persons out of employment who will suffer the pangs of hunger and cold during the coming winter months if they are not provided for.

It is the purpose of the Merchants Association, assisted by the Welfare Department, to carry relief to such people during the holiday season but they cannot do so without the support of the public.

er than any other state in the Union.
He made that declaration before the first session of his newly organized unemployment relief committee at Raleigh yesterday.
He declared the most direct way to relieve the depression is for the people to live within their incomes and refrain from asking for credit.
The advice is sound. If the state had discovered it four or five years ago, and then applied it practically, conditions would be in better shape than any other commonwealth in the Union at this time.
Governor Gardner is doing his best to help the people get back to normalcy, and if they will practice some of his advice especially as it applies to "live at home" there is every reason, to believe conditions will right themselves in the near future.
New Year's resolutions should contain a clause for living within incomes in the future, and a fixed determination to hew to the line regardless of consequences. It is the only way to beat discouraging conditions prevailing in all parts of the nation at this time.

Pick Healthiest Boy and Girl in United States

Chicago, Dec. 3.—(AP)—A blue-eyed 15-year-old country lass from Iowa with flaxen hair cut in a boyish bob and a modest but winning smile, and a 20-year-old college lad from Missouri are the healthiest 4-H girl and boy in the United States.
Miss Marian E. Snydergaard from Grundy county, Iowa, is the girl and William Ross, Boderhamer, 20, of Johnson county, Missouri, a ruddy-faced and brown haired student at the Central Missouri State Teachers College, the boy.

Only a slight inflammation of one eye-lid which someone suggested might have been a bit of Chicago dust and a small defect in the alignment of her pearly-white teeth kept Marion from scoring 100 in the national health contest sponsored by the boys-girls 4-H club contest. As it was she scored 99.7.
A pair of slightly bowed legs and teeth were all that stood in William's way of a perfect score. His good points totaled 98.7, one percent less than Marion's. Her mark was the highest ever recorded in the nine years the club has conducted health contests. Twenty girls and fifteen boys contested for the honors, announced last night after they had been subjected to careful examinations by doctors, dentists and nurses.

Each of the winners is a product of the farm. oth are "fresh air friends," get their nine hours of sleep every night, eat lots of vegetables and drink at least a quart of milk a day. No tea or coffee are consumed by either and they don't smoke. Marion weighs 138 and stands 5 feet 4 inches. William's weight is 151 and his height 5 feet, 6 1/2 inches.

Gant Closes Effort to Resist Conviction

Greensboro, Dec. 3.—(AP)—Faced with additional alleged shortages of \$138,000 or more, Mason W. Gant today has closed his efforts to oppose summary action of the state to obtain judgment against him and his surety company.
The state charges Gant, former clerk of court and secretary of the county pension board, abstracted and misapplied \$59,340 of Confederate Pension funds. It seeks a judgment for this amount with interest.

Addressing Judge Michael Scheinick in Superior Court yesterday, E. D. Broadhurst, counsel for Gant, announced:
"May it please your honor, the defendant Gant, in view of his physical condition and the testimony which has been introduced here, desires us to say that he will not resist a judgment—such as may be rendered under your honor's instructions."

The Aetna Casualty and Surety company, co-defendant of Gant's bondsman, planned, however, to continue to contest the action in court today. Trial of the case began a week ago.

George H. Adams public accountant, reported yesterday at an executive session of the board of county commissioners that an incomplete audit of transactions of Gant as clerk of court indicated a shortage there of more than \$138,000. This was in addition to the alleged pension fund shortages.

Gant reported ill at his home here, is under \$15,000 bond for appearance in court Monday for trial on charges of forgery, embezzlement and misapplication of Confederate pensions checks and malfeasance in office.

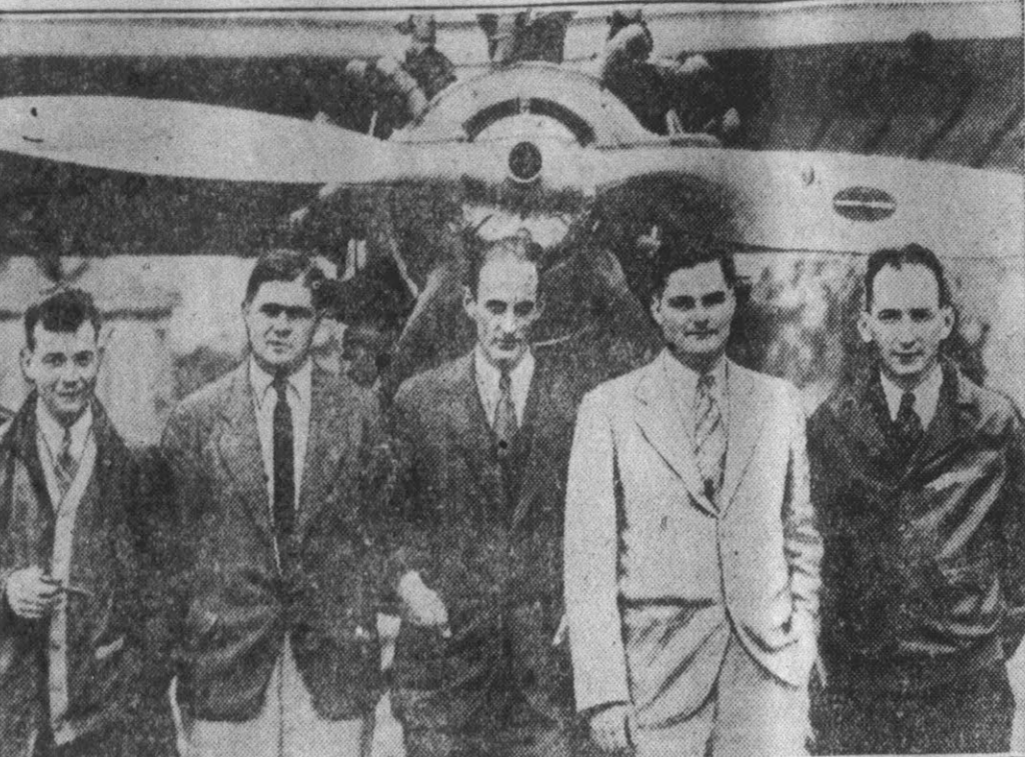

Two Mexicans Slain By Border Patrol

El Paso, Tex., Dec. 3.—(AP)—Two unidentified Mexicans were slain and six companions were routed in a gunfight along the international boundary last night with three United States immigration border patrolmen they attempted to trap.

Three patrolmen attracted to Cordova Island, the "No Man's Land" between El Paso and Mexico, narrowly escaped death when the Mexicans began shooting. The patrolmen had been following two of the band, suspecting them of being aliens. The island is a strip of Mexico which extends into El Paso with no water boundary between the two countries.

Seeking cover on American soil, the patrolmen returned the fire. Members of the Mexican band, in ambush in a thicket of willows, gave battle for several minutes, then fled, leaving two men dead on the American side of the monument mark-

Thick, wavy hair!

You, too, can have long, soft, abundant hair. It's simply a matter of using this easy method; approved by hair-specialists; endorsed by stars of stage and screen; used by millions who haven't time for the more laborious treatments.
Tonight when you arrange your hair, just put a little Danderine on your brush. Then as you draw the bristles through your hair, see how the scalp is toned and soothed. See how the hair becomes softer, easier to manage; how its natural color is brought out; how it takes on new brilliance and lustre!

Danderine dissolves the crust of dandruff; helps stop falling hair; keeps hair and scalp healthy; encourages the growth of long, silky, abundant hair. Five million bottles used a year. That proves Danderine's effectiveness!

Tonight when you arrange your hair, just put a little Danderine on your brush. Then as you draw the bristles through your hair, see how the scalp is toned and soothed. See how the hair becomes softer, easier to manage; how its natural color is brought out; how it takes on new brilliance and lustre!

Danderine dissolves the crust of dandruff; helps stop falling hair; keeps hair and scalp healthy; encourages the growth of long, silky, abundant hair. Five million bottles used a year. That proves Danderine's effectiveness!

N. C. Mother Knew Best

WISE mothers find the things that keep children contented, happy, well. Most of them have learned they can depend on one thing to restore a youngster's good nature when he's cross, fretful, upset.
The experience of Mrs. C. E. Blankenship, 50 Newton St., Asheville, is a typical one. She says: "I have used California Fig Syrup with Herbert and Raymond ever since they were just babies. Whenever they're the least bit constipated or restless I give them a little. It has them comfortable, happy, well in a jiffy. Their splendid condition proves I knew best when I decided to use this wonderful preparation with them."

Physicians endorse the use of pure, vegetable California Fig Syrup when bad breath, coated tongue, dullness, feverishness, listlessness, etc., show a child's bowels are in need of help. Weak stomach and bowels are toned by its gentle aid; appetite increased; digestion and assimilation are so assisted that weak, undernourished children quickly improve in weight, strength and energy.
The genuine always bears the word California. So look for that when buying. All drug stores have it.

Your Opportunity to Buy a Farm On Easy Payment Plan

Most farmers are now making their arrangements either to buy or rent, for next year.

Every one will agree that now is the time to buy. Farm land values are bound to go higher.

We can sell you a Farm and give you as long as you want to pay for it.

We have a number of desirable Farms, well located, with all buildings improved, with newly painted houses—ranging from 25 to 200 acres.

We are trying to place these tracts with good people who desire to own their homes rather than pay rent.

If interested, fill in the attached blank and mail to

ALL-STAR GRID TEAMS TO BE NAMED SOON

New York, Dec. 3.—(AP)—The sports editors and football experts have spoken, so far as the 1930 all-American gridiron selections are concerned.

In response to this year's sixth annual request by the Associated Press, a representative group of 213 newspaper critics posted their preferences for the all-star lists, after surveying the star performers of big games in all parts of the United States.

Each major section of the country has had a proportionate voice in this year's balloting.

Team performances have always strongly influenced all-American preferences and the balloting in the Associated Press roll this year reflected the strong westward drift in gridiron prowess manifested on the field of play.

In a year which comparatively few ball-carriers have emerged from the pack sufficiently to win national-wide attention, the voting reflected an unusually wide range of opinion as to the leading backfield men.

SPORTS SLANTS

Willie MacFarlane struck the salient note of comment from professional golfers concerning the retirement of the eminent Mr. Jones when he remarked:

"I would rather finish second to Jones than win the open championship without him among the participants."

The pros "fear" Jones every time they take to the rolling fairways in a national championship, yet they realize that without him, the embarrassing position of being "champion of everyone but Jones."

"Why not have the winner of the open at Inverness next year challenge Jones for the world's open championship?" asks Johnny.

This was the way the merican and British tennis champions were decided for many years. The champion stood aside each year, playing the winner of an "all comers" tournament.

Jones of course, is not in the same position as most athletic stars who yield to opportunities to commercialize their playing skill.

The Georgian has settled all question about his ability and does not need to continue in any competition whatever for purposes of "ballyhoo," such as Red Grange, Charley Paddock, Big Bill Tilden, Jack Dempsey and others have been required to do in various ways to advertise their by-products.

Nothing in the Jones movie contract requires him to do anything but go through with his part of the production process. The golf world needs no further proof. What it wants and what the movie people propose to sell is the detailed information on how Bobby does it.

The difficult part of the performance it seems to us, is the demand that will be made on Jones for conversation. Since this is to be a series of "talkies," Bob must take a lecture stance. He has preferred heretofore to say it with his clubs. He probably has given fewer interviews and said less of anything for public consumption than any figure of world prominence in sports.

Since the interview on his methods that he gave to The Associated Press four years ago, with the connivance of his comrade O. B. Keeler, Bobby's statement on his reasons for leaving golf for the "talkies" represents the longest discourse he has given the public.

The A. A. U. put Bob Jones at the head of the list of "ten best athletes" for 1930, then intimated this rating might be revised because of the golf king's forthcoming trip to Hollywood.

It is not quite clear how this is reasoned out, since nothing Jones does subsequently can dim the lustre of his 1930 competitive triumphs. No one in golf has suggested that the Georgian return the trophies, of which he has a monopoly for the year, until some one else wins title to them.

ALABAMA AND COUGARS CRASH IN ROSE BOWL GAME

Two of the best lines in the country will collide when the Alabama Crimson Tide rolls against the Washington State Cougars in the Rose Bowl classic at Pasadena, Cal., New Year's day. Fred Sington, Alabama, and Glenn Edwards, W. S. C., are recognized as two of the best tackles in the country. The backfield stars include Suther, Alabama half, and Schwartz, Washington State fullback.

TROJANS NOT TO GET MUCH HOT WEATHER

Chicago, Dec. 3.—(AP)—The Trojans of the University of Southern California, contrary to the usual custom, cannot expect too much aid from the weather man Saturday when they attempt to halt the Notre Dame victory march.

The Rockne raiders in forging the last nine links in their victory string, have played football in almost every conceivable weather. They've won when it was hot, warm, cold, rainy and windy, against better than average football teams.

They beat Southern Methodist when it was hot, hotter by far probably than it will be in Los Angeles Saturday. They took the Navy when it was hotter still.

When they beat Pittsburgh, it was cold and exceedingly windy. The same weather prevailed when they beat Northwestern.

Rain fell copiously during the Drake game but the Irish touchdown: boomed loudly.

"If the Trojans bank on warm or even hot weather to wear Notre Dame down Saturday, they're liable to be sadly mistaken," said a referee who has watched the Rockne raiders march along to another mythical football championship.

South Watches Encounter Of Two Ga. Teams

Atlanta, Dec. 3.—(AP)—Tradition gives a generous share of the South's football interest to the Georgia-Georgia Tech encounter on Saturday's final slate.

The 23rd meeting of the schools on the gridiron finds Tech holding the edge, eleven games to nine. Two contests have been ties. However, preliminary calculations make Georgia the favorite in the forthcoming battle.

In the matter of comparative scores, Georgia tied Florida and Florida licked Tech 55 to 7. On the other hand Tech partisans point to 1927 as the best illustration of the adage that advance expectations always are in danger in a Tech-Georgia tilt.

In other Saturday struggles, Duke battles North Carolina and hopes to regain prestige lost in a tie with Wake Forest. Florida tries conclusion with the powerful Tennessee team at Jacksonville. The Volunteers have bowed only to Alabama and boast impressive victories against any over-confidence born of the Gators' runaway triumph over Georgia Tech.

TOO MUCH ACID

may be causing those frequent headaches

WHEN there's too much acid in your stomach, you must force yourself to work, and even pleasures are too great an effort. Appetite lags; the digestion is poor; the whole system suffers.

Laboratory tests show an acid condition is due to errors in our modern diet. But you need not wait to diet your way out of the trouble! Take a tablespoonful of Phillips' Milk of Magnesia.

This will neutralize the excess acid instantly; make you feel like a new person in just a few moments. Take a little whenever heartburn, sick headaches, nausea, flatulence, indigestion or biliousness show the digestive system is becoming too

acid. Whenever you are taking cold or feel sluggish, weak, constipated, Phillips' Milk of Magnesia has a gentle laxative action. Delightful to take. Endorsed by physicians for 50 years and prescribed everywhere for men, women and children. The genuine is always a liquid; it cannot be made in tablet form. It always bears the name Phillips' for your protection.

Market Report Cotton--Stocks--Grain

COTTON MARKET

New York, Dec. 3.—(AP)—Cotton opened steady today at a decline of 4 to 9 points, which was only a partial response to relatively easy Liverpool cables.

There was liquidation and some southern selling, but the offerings were comparatively light and were quite readily absorbed at the decline by covering and trade buying. New December contracts sold off to 10.43 and May to 11.02 and the market was within a point or two of these figures at the end of the first half hour. The failure of Liverpool to meet yesterday's local advance was probably a disappointment which led to some reselling by buyers of yesterday afternoon in the local market, and there was also some Liverpool selling here during the early trading.

Liverpool cables advised there had been hedging together with local and continental liquidation in the Liverpool market and that business was restricted by a lack of confidence in present prices.

Chicago, Dec. 3.—(AP)—Corn led the way in a downward swing of grain values today. The corn market suffered a maximum break of about 2c a bushel, indications being that purchases had been overdone for the present at least. Reports of an increase of country offerings of corn to arrive tended further to restrain activities of friends of higher prices for corn.

Corn closed unsettled 3-4 to 13-4c lower than yesterday's finish. Wheat closed unchanged to 1-2c off, oats 3-8 to 7-8 off and provisions unchanged to a rise of 15 cents.

STOCK MARKET

New York, Dec. 3.—(AP)—The stock market retreated today, as an ooze of molasses-like liquidation appeared in its path.

The cautious advance of the past three days had been too unimpressive to attract a following, and President Hoover's report that conditions did not warrant continuation of the 1 per cent income tax reduction was an adverse psychological factor, although Wall Street bankers have traditionally favored a conservative fiscal policy.

After a slight slump in the first hour, the list recovered until more extensive selling appeared in the early afternoon, causing fairly general declines of a point or two. Shares sagging a point or more included such issues as U. S. Steel, American Telephone, American Can, American Water Works, North American, Air Reduction, General Electric, Loew's, Montgomery Ward, Sears Roebuck, Bethlehem Steel, Anaconda and Kennecott. United Carbon, Case, Western Union, Allied Chemical, Oppenheim Collins, and Pere Marquette lost 2 to 3 and Atlantic Coast Line nearly 5.

Announcement by Carnegie and Bethlehem Steels of a \$1-a-ton advance in quotations for plates, chapes and bars for the first quarter had been foreshadowed several weeks ago, when steel producers warned their customers that current quotations could not be guaranteed for the first quarter.

The report of electric power production was the most favorable of the mid-week statistics. The week ended Nov. 29 showed a decline of only 3.8 per cent from the like week of last year, while the preceding week had shown a drop of 6.2 per cent. A conspicuous item in the day's public utility news was the declaration of a 20 per cent stock dividend by American Gas & Electric, which follows the recent ordering of a 10 per cent distribu-

HOOPER OPPOSES REDUCED INCOME TAXES IN BUDGET MESSAGE TO CONGRESS

(Continued from page one)

be agreed that our government finances are in a sound condition." The President estimated that in 1932 total receipts, exclusive of the postal revenues, would reach \$4,085,119,000 and total expenditures \$4,054,519,000. For the present year he estimated receipts at \$3,834,865,000 and expenditures at \$3,812,000,000.

Referring to the \$520,000,000 public building program, the President said 535 projects have been authorized at limits of cost aggregating \$379,560,000. Total actual expenditures on the program to last October amounted to \$77,027,625, and another \$56,000,000 is scheduled to be spent during the next eight months.

The budget called for a total of \$60,000,000 for this item during 1932. In addition to this, \$16,500,000 will be left from the current year, making a total of \$76,500,000 available next year.

The estimates for national defense called for a total of \$689,084,000, with a decrease of \$751,000,000 for the War Department and \$22,946,000 for the Navy.

NAME OF DOAK HEADS LIST OF NOMINATIONS FOR LABOR SECRETARY

Washington, Dec. 3.—(AP)—The name of William N. Doak of Virginia, to be Secretary of Labor headed the list of more than 200 nominations sent to the Senate by President Hoover today.

J. Reuben Clark of Utah was named Ambassador to Mexico; Hoffman Philip of New York was selected to represent the United States in Norway; Nicholas Roosevelt of New York, to be minister of Hungary, and J. Butler Wright of Wyoming to be minister to Uruguay.

Randolph Bryant was nominated to be a United States District judge of the Eastern District of Texas.

Other nominations, were to be minister resident and consul general to Liberia, Charles E. Mitchell of West Virginia; to be member of the Federal Reserve Board, Eugene Meyer of New York.

Samuel E. Winslow was reappointed a member of the Board of Mediation.

Muscle Shoals Bill Sent to the House

Washington, Dec. 3.—(AP)—House and Senate conferees on Muscle Shoals legislation virtually agreed today to report a disagreement and send the Senate bill for government operation to the House for a vote.

The Senate conferees rejected all proposals by the House delegation to compromise between the Senate and the House bills. The latter of which calls for private operation.

Chairman McNary, of the Senate conferees, proposed the conference report a disagreement. He said the three House members present agreed to the proposal tentatively but did not want to agree finally until they could confer with their two missing colleagues.

Morrow Takes Senate Oath

Washington, Dec. 3.—(AP)—Dwight W. Morrow was administered the oath today as Senator from New Jersey.

Mr. Morrow's entry completed the membership of the Senate. The New Jersey Senator was accompanied to the dias of Vice-President Curtis by Senator Kean, of New Jersey, at the beginning of the session to receive the oath.

Mrs. Morrow and the Senator's daughter, Elizabeth, were in the gallery, but Colonel and Mrs. Chas. A. Lindbergh, of his family did not come to Washington.

The political composition of the Senate for this session now stands: Republicans 53 Democrats 42; Farmer-Labor 1. This is a gain of three for the Democrats who will have 46 seats in the next Senate.

Plans to Organize Hendersonville Bank

Raleigh, Dec. 3.—(AP)—Plans for the organization of a new \$100,000 bank for Hendersonville, without a bank since the recent failure of three institutions in that city, today had the approval of the State Corporation Commission.

The proposed new institution, to be known as the State Trust Company, has the backing of some of the wealthiest and most influential citizens of the Hendersonville section.

It was approved yesterday by the Corporation Commission and was expected today to receive a charter from the secretary of state.

Listed as incorporators were C. E. Brooks, R. C. Clarke, G. H. Valentine, J. W. Bailey of Hendersonville; F. A. Newbank, P. F. Patton, A. B. Drafts, G. B. Hill, B. Jackson, W. C. Meekins, E. E. Scott, and Ellisor A. Smyth.

Contractors Will Elect Officers

Charlotte, Dec. 3.—(AP)—Election of officers today was before the annual conference of the Carolina branch, Associated General Contractors of America.

A committee, headed by J. P. Caldwell, of Charlotte, was named yesterday, to report nominations to the convention. Other members of the committee were C. W. Angle, of Greensboro; W. C. McClelland, of Charlotte; E. N. Stacy, of Lancaster, and J. F. Gallivan, of Greenville, S. C.

The convention opened yesterday and will close tonight with a banquet at which C. E. Jones, chairman of the South Carolina Highway Commission, will deliver the main address.

TAR HEELS GET NEW ASSISTANT COACH

Chapel Hill, Dec. 3.—(AP)—The Tar Heels busy as bees getting ready for the Duke fray, today had a new assistant coach.

The new mentor was "Pot" Atkins, brother of Duke's center. Atkins, an all-State tackle on the Tar Heel team last year, finished his coaching job at the season at Randolph-Macon and came down to volunteer his services to Head Coach Chuck Collins.

He elent a hand in grooming the North Carolina tackles for the state title clash.

Foppish Bootlegger Escapes From Cop

Elkin, Dec. 3.—(AP)—The eagle eye of Police Chief W. G. Church fell upon a foppish gentleman hiding a parcel under rubbish.

"Ah," said Chief Church and bore down.

"I thought I saw someone hiding something here," said Jim Feindexter.

"So did I," said Chief Church. The officer searched, and found the parcel. Then he found whiskey, one pint, upon Feindexter. Then he found whiskey, 24 pints, in Feindexter's hotel room. Well satisfied with his endeavors, Chief Church took the man to headquarters.

There he bit off a sizable chew of plug cut and began contentedly to masticate. His eagle eye cast about for a cuspidor. It was behind him. The chief hurried, took one step, aimed, spat.

He turned again. Feindexter was disappearing through a door. Chief Church, pursuing uselessly, saw him board a car and vanish.
