CAROLINAS IN GRIP OF COLD ATTACK AGAIN

Heavy Snow Reported Falling in Mountain Areas; Other Parts South Affected

(By The Associated Press) With a heavy snow falling in the mountain area of North Carolina, furies in South Carolina and generally dropping temperatures, winter, which took a lay-off during February, staged a complete comeback today.

Although the sun was shining in the central and eastern portions, North Carolina and upper South Carolina felt freezing and near-freezing temperatures and were promised no relief by the weather bureau.

Asheville reported heavy snow and a temperature nine degrees below freezing.

Charlotte awoke to find the thermometer at 29, and a bright sun did little to offset the effects of biting winds.

Raleigh's mercury stood at 29, but Columbia said it was only "chilly" there, and clear.

Atlanta, Ga., March 9.—(AP)—Dixie was shivering today from chill north winds that brought snow flurries during the night as far south as Atlanta.

The forecast throughout the south was generally fair today with continued cold in prospect for several days.

It was not an unusual drop in temperature for the month in the south, but most of Dixie, following an unusually warm February, had about made up its mind winter was over.

It was generally clear in Florida today. Tampa, however, reported an overcast sky with a brisk north-west wind.

Nashville, Tenn., awoke today to find snow 11-2 inches deep and a bright sun. The low point in the drop of temperature at Nashville came at midnight with a 30. It was a little warmer there today.

At Memphis in the extreme western part of Tennessee the morning low was 32. The weather was fair.

Birmingham, Ala., reported a low of 31 there last night with a stiff wind blowing today. Mobile was looking for frost tonight with a minimum temperature of 34 tomorrow. It was fair and cold. Montgomery said it was generally fair throughout Alabama with the minimum for the state 30 degrees at Florence and 35 at Montgomery.

New Orleans had a minimum of 40 degrees.

Skies were clearing at Richmond, Va., and the temperature was dropping today with a forecast for snow-freezing weather tonight for all the state, save along the coast. About an inch of snow had fallen this morning in southwest Virginia.

Asheville reported a heavy snow falling with a temperature of 23. It was clear in central and eastern North Carolina, the temperature at Charlotte was 29 as compared with a low of 35 Friday before the cold wave.

Columbia reported the skies over South Carolina were generally clear.

Mrs. J. B. Tripp Succumbs to Brief Illness At Red Oak

Funeral services for Mrs. J. B. Tripp, 39, were conducted from her late home in the Red Oak community Sunday afternoon at 2:30 by Rev. M. A. Woodard, pastor of the Winterville Free Will Baptist church, assisted by Rev. W. S. Harden, pastor of the Greenville Presbyterian church. Burial was made in the family burying ground near Greenville.

Mrs. Tripp died Saturday morning following only a few hours' illness. She was prominent in the social and religious life of her community and her death was mourned by a host of friends.

She is survived by her husband, six children, four step-children, a mother and several sisters.

Butler to Speak At Raleigh Tonight

BUTLER TO SPEAK. Raleigh, March 9.—(AP)—Gen. Smedley D. Butler, who has won more Congressional medals than any living fighting American, will speak in Raleigh tonight making his first appearance on the lecture platform. He will speak in a number of southern cities.

General Butler, who was recently reprimanded for a statement he repeated about Mussolini being a hit and run driver, will talk on "The Truth About Many Things."

Burnsville.—(AP)—Officers throughout a wide area were searching today for five prisoners who saved their way out of the Yancey county jail here.

GIRL'S BODY EXHUMED IN MURDER TRIAL

Workmen are shown removing the body of Arlene Draves from her grave at Reynolds, Ind., following a court order for a second autopsy which was demanded by the defense in the trial of Virgil Kirkland, Gary, Ind., youth, Kirkland is accused of causing her death during a liquor party. Four others await trial in connection with the girl's death.

Drivers' License Measure Given Stamp Of Approval By Members State Senate

Controversial Lawrence-Blount Bill Requiring License for Drivers of Motor Vehicles Passes By Vote of 27 to 14; Both Houses Introduce Bills Continuing Effect of the Neal Law

Raleigh, March 9.—(AP)—The Senate today passed the Lawrence-Blount bill to require a state-wide drivers' license for operators of motor vehicles 27 to 14.

Mrs. McKee of Sylva spoke in favor of the measure, lauding its provisions and pleading for its passage.

Senator McLean launched a bitter attack on the measure, terming it another "revenue measure and nothing more."

Expressing opinion that a fee of fifty cents per year for a drivers' license in order that human life of the state might be protected was a small amount Senator Gravelly of Nash favored approval of the bill.

Fighting to postpone a revaluation of real property in North Carolina until 1933, members of both houses introduced bill continuing the effect of the Neal law until January 1 two years hence.

Early in its session the Assembly passed the bill of Representative Neal of McDowell postponing the revaluation until March 25, though it was supposed to have started January 1, a week before the Legislature met.

Due to extraordinary times existing with land values at unusually low figures, Governor Gardner urged the Assembly in his biennial message to postpone the work until 1933.

The new bills are by Neal of McDowell in the House and Pritchett, Campbell, Hendren and others in the Senate.

The fight by merchants against the proposed sales tax which will climax in a public hearing this afternoon before the joint finance committee, continued to hold attention of legislators as a number of petitions opposing any sales tax plan were given both Houses. Among the petitions opposing any sales tax was one from the State Federation of Labor.

The Senate again took up the controversial Lawrence-Blount bill. Buncombe's racing bill, to allow operation of pari-mutuel betting machines in connection with horse and dog racing, was taken from the table by the House and placed back on the calendar.

The House passed the Ewbank bill to provide for the classification and labeling of eggs and to regulate their sale after once relegating it to the table after a humorous debate in which the subject of eggs now gained the upper hand.

Upon motion of Representative Hamilton the House indefinitely postponed consideration of his resolution demanding an investigation of the operation of the Atlantic and North Carolina state-owned railroad by the Norfolk and Southern railroad, which leases it

Funeral services were conducted by her former pastor, Rev. D. W. Arnold, Christian minister of Washington, N. C., assisted by Rev. W. A. Ryan, pastor of Eighth Street Christian church, of which she was a member, from her home near the city on the Farnville highway at four o'clock Sunday afternoon. Interment followed in Greenwood cemetery.

Active pall bearers were: J. D. Aman, J. D. Wilson, R. L. Harris, Robert Moyer, Roy Kittrell, Guy T. Evans, Jesse W. Brown, C. A. Musciville.

Honorary pall bearers: C. H. Edwards, H. C. Edwards, L. B. Fleming, R. V. Fleming, Z. V. Murphy, R. L. Smith, W. H. Woolard, W. H. Bradsher, Carl Adams, A. W. (Continued on page three)

Mrs. Ada Estell Cannon, wife of J. L. Cannon, building contractor, died Saturday afternoon from an operation. She was seriously sick only a few days and her death was unexpected and a great shock to her relatives and friends.

She leaves surviving her best friend her husband, five children, Edith Patrick, Lillian Elizabeth, John Lewis, Robert Lee and Mable Claire and her mother, Mrs. Aurelia Patrick Tripp.

Mrs. Cannon was born at the same place in which she lived at time of death.

Her's was a beautiful Christian character, and she loved her friends of which she had a great host and was attested by the large floral tribute and the great number that attended her funeral services on a stormy day.

Lady Cynthia Mosley is going to be her husband's "right hand man" in the building of the new British political party which Sir Oswald has launched.

MRS. CANNON PASSES HERE

Wife of Local Contractor Laid to Rest In Greenwood Cemetery Yesterday

Mrs. Ada Estell Cannon, wife of J. L. Cannon, building contractor, died Saturday afternoon from an operation. She was seriously sick only a few days and her death was unexpected and a great shock to her relatives and friends.

She leaves surviving her best friend her husband, five children, Edith Patrick, Lillian Elizabeth, John Lewis, Robert Lee and Mable Claire and her mother, Mrs. Aurelia Patrick Tripp.

U. S. WILL NOT CHANGE POLICY TOWARD REDS

Stimson Studying the Soviets, But Not With Idea of Granting Recognition

Washington, March 9.—(AP)—Assistant Secretary of State William E. Castle, Jr., in the absence of Secretary Stimson today indicated that the secretary's projected study of Russian affairs would not result in a change of policy by the United States of recognition of the Soviet.

The secretary's purpose in the projected study will be to acquaint himself with the whole general subject of the Soviet, both political and economic, the assistant secretary said.

Stimson was in New York attending to private affairs.

As enunciated eight years ago by Charles Evans Hughes when secretary of state, the American policy has been that Russia must settle its official and private obligations to the United States and its citizens and cease its propaganda activities intended to overthrow the American government.

Recent agitation of embargoes on Russian goods has been responsible to some extent for Secretary Stimson's decision. The State and Treasury departments have been facing an unusual problem under the Smoot-Hawley tariff act, which forbade the importation of goods produced by forced or convict labor.

The question of trade is not a small one. In the Soviet's fiscal year ended last October American exports totaled \$145,000,000 and imports \$32,000,000, or 28 per cent more than ever before.

Most of this was handled through the Amtorg Trading Corporation, an unofficial agency which drew some criticism from a special House committee after its investigation of Communism.

Holmes Talks Over Radio On Birthday

Washington, March 9.—(AP)—Oliver Wendell Holmes was about familiar duties today, exemplifying the philosophy expressed in a radio address on his ninetieth birthday.

"The work is never done while the power to work remains," the aged jurist said.

He spoke only a few brief sentences last night in response to the tributes which included a eulogy by Chief Justice Hughes.

"The riders in a race do not stop short when they reach the goal," he said. "There is a little finishing center before coming to a standstill. There is time to hear the kind voice of friends and to say to oneself: The work is done, at just as one says that, the answer comes: The race is over, but the work is never done while the power to work remains. The center that brings you to a standstill does not only cease to rest. It cannot be, while you still live. For to live is to function. That is all there is in living."

"And so I end with a line from a Latin poet who uttered the message more than fifteen hundred years ago: "Death plucks my ear and says, 'Live—I am coming.'"

Clinton.—(AP)—Will Whitfield, 48, was instantly killed when his car struck a bridge railing near here.

MERCHANTS PREPARE TO FIGHT TAX

Two Thousand Gather At Raleigh to Register Disapproval of Sales Tax

Raleigh, March 9.—(AP)—Two thousand North Carolina merchants assembled in Raleigh today in a desperate last minute effort to stave off the enactment of a sales tax.

The merchants will be heard before the joint committee on finance at three o'clock this afternoon, probably in the hall of the House, probably in the hall of the House largest assembly room at the disposal of the legislators.

Twice the committee voted to refuse a hearing to the merchants before acting on taxes affecting them which will yield \$9,000,000 and make it possible for the state to take over the support of the six months school without ad valorem taxation. However, a stream of telegrams and petitions from the merchants caused the committee to pause, and, voted to hear the protests of the merchants for one hour.

The Day sales tax bill not seriously considered when introduced but now believed on the verge of enactment, is the cause of the commotion among the merchants.

It was introduced early in the session, by Representative N. E. Day, a first-termer from the small county of Onslow. It is modeled after the laws of the state of Kentucky, and provides a tax on the gross sales of retail merchants ranging from 1-2 of one percent on the smallest merchants to 3 per cent on the largest stores and chain stores.

The sub-committee recommended it as an alternative plan to the Hindsdale luxury sales tax which is modeled on the South Carolina law. The sub-committee said one or the other sales tax plans was necessary.

Last week the merchants became active. Telegrams flooded the Assembly, some members averaging receipt of one a minute during the sessions. Petitions bearing an estimated 50,000 names have been filed with the Assembly from all parts of the state, opposing any sales tax.

As in former cases, the alarmists traveled in cars and disappeared to some other part of the city after turning in the alarms.

The epidemic has assumed such widespread proportions the last several weeks that the Board of Alder men last Thursday night offered a reward of \$50 for the arrest and conviction of anybody responsible for the sounding of a false alarm.

Officials stressed the fact that it cost the city at the rate of \$25 to respond to an alarm and also endangered the lives of the firemen and the citizenship generally.

With the continued spread of the false alarm epidemic the citizenship has been called upon to aid in the apprehension of the culprits and the help bring them to justice. The sending in of false alarms is considered a misdemeanor and is punishable by \$500 fine, 2 years imprisonment, or both at discretion of the court.

The authorities have been completely aroused over the situation and a dragnet has been thrown out by the police in an effort to apprehend the alarmists and bring an end to the epidemic.

Banker's Trial Postponed Today

Hendersonville, March 9.—(AP)—Trial of J. Mack Rhodes, president of the defunct First National Bank here, charged with embezzling \$20,000, today was postponed until Wednesday by agreement of counsel and the solicitor.

Attorneys for Rhodes last week sought a continuance on grounds that he is physically unable to stand trial, but Judge H. Hoyle Sisk dissented and the start of the trial was set for today.

W. Galther Rhodes, the banker's son who was cashier of the bank before its failure in November is now serving a prison sentence for embezzling \$10,000 from it.

Ridesville.—(AP)—Brooding over ill health, William S. Timbers, 60, walked into his home near here, secured a shotgun and killed himself.

Several Killed As Snow And Wind Storm Sweeps Along Atlantic Seaboard

Three Men Indicted For Violating Banking Laws At Nashville, Tennessee

Capiases Issued for Arrest of Colonel Luke Lee, Newspaper Publisher, Rogers Caldwell, Financier, and J. Basil Ramsey.

Nashville, Tenn., March 9.—(AP)—Colonel Luke Lee, publisher; Rogers Caldwell, financier, and J. Basil Ramsey, banker, were revealed today as the three men indicted Saturday in the Federal District Court at Greenville, Tenn., on charges of violating federal banking laws in transactions with the closed Holston Union National Bank at Knoxville.

Capiases have been sent to Nashville by federal officials on Mr. Lee and Mr. Caldwell. Officials expected Mr. Ramsey to return from Jacksonville, Fla., to accept service.

Two indictments were returned against each defendant. One charged conspiracy to violate the national banking laws and the other alleged two specific violations of the federal banking laws by Ramsey, aided and abetted by Caldwell and Lee.

The conspiracy indictment alleged that on March 31, 1928, Lee, Caldwell and Ramsey entered into a conspiracy whereby Ramsey made a \$98,000 false entry in the bank's records and misapplied the bank's credit in that amount.

Specifically, the indictment charges that Ramsey, in entering the total individual deposits, included an item of \$98,000 credit to the joint individual account of Lee and Caldwell, when no such transaction had taken place.

It was the purpose of Ramsey, the indictment alleges, to "deceive" the officers of the Federal Reserve Bank of which the Holston Union was a member, the comptroller of the currency and the federal bank examiners.

The second indictment charged "willfully misapplying" \$98,000 of (Continued on page three)

Fury of Storm Reaches From Carolinas to Tip of Maine With Heavy Property Damage Reported; Seven Deaths in New York, Sixteen in Illinois; Bitter Weather Spreads Over Various Sections of Europe

New York, March 9.—(AP)—Lashing the Atlantic seaboard from the Carolinas to the tip of Maine, a snow-laden gale left in its wake today death, injuries and property damage.

Starting Saturday night and continuing unabated through most of Sunday, snow and rain centered their fury on New York State and on New England. Seven were killed in New York City in automobile accidents attributed to the storm. Four were killed in an automobile accident at West Haven Conn. and three of Glens Falls, N. Y. many were hurt by falling signs, trees and telephone poles. Long stretches of waterfront were gnawed away on Long Island and summer homes were swept out to sea.

The snow in New York City melted as fast as it came. The roof of a Bronx church was torn off, endangering the lives of 300 children. Lighting systems were wrecked out of order. Radios were still. Fog shrouded skyscrapers and cast a pall over the streets. The Jersey meadows were transformed into lakes through which trains sloshed cautiously, the tide rose almost to the top of the battery sea wall for the first time in many years.

A snow storm laid a white mantle over northern New York as deep as 8-12 inches at Rochester. The storm swirled through the Adirondacks blocking roads and stalling automobiles. Railroads had snow plows out north of Albany.

It was entirely an ill wind, however, for the rain dropped billions of gallons of sorely needed water in New York City reservoirs and put snow shovels in the hands of impoverished men up-state.

Summer places on the Long Island Sound shore of Connecticut, were damaged by water. In Middlefield, Mass., in the Berkshire snowdrifts ten feet deep in places blocked roads. Drifts in Vermont caused motorists to appeal for shelter.

Chicago, March 9.—Silver linings appeared today in the storm clouds that brought a two-day blizzard to the corn belt states of the middle-west and left a trail of deaths estimated at 16.

Farmers throughout the area, which has suffered from lack of moisture this winter, were rejoicing at the heavy blanket of snow, while thousands of unemployed had money in their pockets which otherwise would not have been there if the storm had not struck.

In Chicago alone 35,000 men were put to work clearing away the drifts, many of those hired had been without employment.

Thirteen of the 16 deaths reported occurred in Chicago. For a time it was feared that four more deaths would be added to the list through the loss of four fishermen of Lake Michigan on the tug Palmer, after being missing for more than 40 hours. The tug which came out of Kenosha, Wis., made port here late last night.

Whipped by high winds the snow piled into drifts that reached a height of 30 feet in some localities, but normal conditions were gradually restored for the most part yesterday as the storm moved eastward.

London, March 9.—(AP)—Bitter winter weather which swept most of Europe over the week-end closed in on London and southern England today. With temperatures very low, a high wind drove a heavy snow before it today with indications that it would continue elsewhere in Britain the storm abated leaving the eastern Scotland deep in the year's worst snow.

Northern France, Germany, Belgium, Scandinavia, Austria and Poland all were affected by the unusual cold.

The river Seine at Paris was one foot above alarm level at Austerlitz bridge yesterday and lower sections of the city were evacuated. It is not expected to go much higher.

The weather bureau expects no let-up in the extreme conditions for several days.

Attorney Arrested

Sidney N. Eisner, Buffalo, N. Y., attorney, who went south to see Charles Beck, vacuum cleaner salesman, was arrested in Charlotte, N. C., and returned to Buffalo to face charges of larceny of \$15,000.

THREE FALSE ALARMS SENT IN LAST NIGHT

Police Throw Out Dragnet in Effort to Break Up Epidemic of Alarms

Hurling defiance at city officials who last week offered a reward of \$50 for their arrest and conviction, false fire alarmists continued their activity in Greenville last night.

Three false alarms were sent in from widely separated sections of the city between 11 o'clock and one o'clock. Firemen responded to each of the alarms, but all they found was the opened alarm boxes and no signs of fire anywhere.

Although authorities had not been able to establish identity of the false alarmists today they were said to be following up a clue which was expected to lead to arrest at any time.

As in former cases, the alarmists traveled in cars and disappeared to some other part of the city after turning in the alarms.

The epidemic has assumed such widespread proportions the last several weeks that the Board of Alder men last Thursday night offered a reward of \$50 for the arrest and conviction of anybody responsible for the sounding of a false alarm.

Officials stressed the fact that it cost the city at the rate of \$25 to respond to an alarm and also endangered the lives of the firemen and the citizenship generally.

With the continued spread of the false alarm epidemic the citizenship has been called upon to aid in the apprehension of the culprits and the help bring them to justice. The sending in of false alarms is considered a misdemeanor and is punishable by \$500 fine, 2 years imprisonment, or both at discretion of the court.

The authorities have been completely aroused over the situation and a dragnet has been thrown out by the police in an effort to apprehend the alarmists and bring an end to the epidemic.

As in former cases, the

—Depositors— National Bank Of Greenville

Committees in the field are now making rapid progress in securing signatures of depositors of the National Bank to the agreement in connection with the plan to organize a new bank to take over the assets and liabilities of the National Bank of Greenville and settle with the depositors. The agreement with the depositors is in the form of a definite obligation on the part of the new Bank to pay depositors 75 per cent of the amount on deposit in four equal installments, and in addition thereto all over 75 per cent, up to 100 per cent and interest at 6 per cent per annum from the time of suspension of the National Bank of Greenville to the time of payment of the several installments to the depositors, that may be realized out of the assets and liabilities taken over by the new Bank.

Is the plan in the interest of depositors? No plan which will in any measure operate to the disadvantage of the depositors is worthy of consideration or support. The plan submitted was conceived by a committee composed of depositors, stockholders and disinterested parties, men of outstanding ability and highest integrity, having as their first consideration the protection of the depositor. It was submitted to and approved by the Comptroller of Currency of the United States, whose first concern is for the protection of the depositor, and it cannot be denied that had he not been convinced that the plan submitted was for the best interest of the depositor as compared with liquidation through receivership under supervision of his department he certainly would not have approved the plan.

May the depositors expect to get anything beyond the 75 per cent obligation definitely assumed by the new Bank? It is reasonable to assume that if the committee which made the investigation felt safe in imposing a definite obligation on the new Bank to pay depositors 75 per cent of the amount on deposit, then the amount ultimately to be realized from collections, after discharge of the liabilities, should be sufficient to pay depositors considerably more than the 75 per cent guaranteed. The amount which depositors will receive over the 75 per cent is limited only by the ability to make collections of the amounts owing to the bank.

The New Bank is to be organized with paid in capital of \$125,000.00, owned, controlled and directed by local people. It is the purpose of interested parties to set up a healthy, vigorous, competing rival banking institution, absolutely independent and not affiliated with or in any way influenced in its policies by any other financial institution within or without this community. Security of the depositor should and will be the first aim of the new Bank, and consistent with the security of the depositors, service to the community in meeting the financial requirements of sound enterprise.

Members of the committee undertaking to secure the signatures of depositors to the agreement are giving generously of their time in the work. In many instances they have been obliged to lay their work aside temporarily to support this vital community undertaking. Depositors are urged to help by calling at any of the following stations or see any of the following committee members and sign the agreement. Any desired information concerning the plan and the agreement may be obtained from the gentlemen serving on the committee.

DO IT TODAY

Social and Personal

Mr. and Mrs. Robert D. Ward have returned to their home in Raleigh after visiting Mr. and Mrs. Percy Wells on Tenth street.

Mr. and Mrs. W. W. Lee and Miss Dorothy White have returned from New York.

Mrs. Flossie Wedmore and Miss Janet Wedmore, of Richmond, Va., were week-end guests of Mr. and Mrs. R. L. Humber.

Mrs. James E. Patten, Jr., and little son, of Durham, spent the week-end here with her mother and sister, who have been ill.

Mr. N. C. Pett, of Kinston, was here and Dr. J. A. Keenan, of Stoughton, Va., have returned home after visiting Dr. and Mrs. R. L. Carr.

Mr. N. H. Whitehurst was at home from South Carolina for the week-end.

Mr. and Mrs. Andrew C. McIntosh, of Raleigh, were week-end guests of Mr. and Mrs. J. C. Lanier.

Mr. and Mrs. E. L. Baker spent Sunday in Windsor.

Mrs. J. L. Woodley, of Suffolk, spent the week-end with Mr. and Mrs. J. L. Hassell.

Mrs. F. G. James, Miss Ada James and Mrs. W. T. Lipscomb left today for Durham to be with the late F. G. James, who is in Duke hospital.

Calvin Gorman spent Sunday in Durham.

Mr. and Mrs. Harvey Comer and Mr. and Mrs. Earl Summerlin, of Chapel Hill, spent Sunday with Dr. and Mrs. S. M. Crisp.

Mrs. S. M. Crisp and little daughter will leave Tuesday for a visit in Asheville.

Mr. and Mrs. C. G. Willard, Edwin and Virginia Willard, of Raleigh, spent Sunday with Mr. Willard's brothers, Messrs. E. L. C. W. G. S. Willard, in this city.

Veterans to Meet.
Spanish American War Veterans meeting tomorrow at 2:30 p. m., at the court house. Fathers, mothers, brothers, sisters, wives and husbands are invited. We need you and believe you need us.

King's Daughters to Meet.
The Patient Circle of the King's Daughters will meet Tuesday evening at 7:30 o'clock with Mrs. Hortense Moye.

End of Century Club to Meet.
The End of the Century club will meet on Tuesday afternoon at 3:30 o'clock with Mrs. R. S. McGeachy.

Literary Department to Meet.
The regular monthly meeting of the Literary department of the Woman's club will meet Tuesday afternoon at 3:30 o'clock at the club house.

LEGION POSTS PLAN AERIAL ROUND UP FROM MARCH 9 TO 20

The American Legion Post in this city will join with all other Posts in the state in simultaneously observing the Aerial Round-Up from March 9 to 20, inclusive. J. E. Elliott announced today. In this week the present members of the Legion will endeavor to contact every veteran of the World War in this county and inform him of the benefits that have accrued from his service through successive legislative enactments and the program of the Legion. It is announced.

The state-wide Aerial "Round Up" will be climaxed with a big mass meeting of all Legionnaires and World War veterans on the evening of March 14. This meeting will be held at the same moment that other gatherings are held by every post in this state, and in all other states, as this is a national round-up.

Speaking of the aerial round-up, Commander Elliott said, "This 12th year of the Legion's existence finds greater demand being made for constructive work than ever before. The ranks of our disabled comrades are constantly increasing, making necessary continued leadership to obtain adequate care. The number of dependent orphan children of our deceased comrades is increasing, requiring a large membership in the Legion to furnish funds, leadership and administration to insure them opportunities to which their parents' heroic service entitled them."

"The Legion is a sound patriotic organization. It is interested in national defense and the pushing to a successful conclusion of universal service legislation which will be a big step not only to prevent wars but also to insure peace. The Legion has a child welfare program that has attracted national attention and benefited needy children. The 10,000 posts of the Legion are engaged in many worthwhile activities. The Legion has been instrumental in obtaining passage of almost all legislation of benefit to the disabled veteran."

"The strength of the Legion's program of service depends upon the membership. This year the Legion has set about signing up this membership early. The gains this year have been great. I wish to appeal to each and every ex-service man to attend the big meeting planned as a part of 'round-up' week. The Legion has much that will challenge the attention of every veteran. He will gain much from attending this meeting and participating in the Legion program. Every veteran owes it to himself to come out and learn of the benefits to which he is now entitled."

Round Table to Meet
The Round Table club will meet Tuesday afternoon at 3:30 o'clock with Miss Nellie Denny.

Workers' Council to Meet
The Workers' Council of Jarvis Memorial M. E. Church will hold the regular monthly meeting Tuesday evening at 6:30. All officers and teachers of the Sunday school are cordially invited to be present.

NEW BOOK PRESENTED TO SHEPPARD MEMORIAL LIBRARY IN THIS CITY

Sheppard Memorial Library has just received from the publisher, a copy of "Dripping Sands of Party Politics," by Oscar W. Underwood. The preface reads, "Mrs. Oscar W. Underwood presents this book in memory of her husband."

"It is one of a special edition prepared for distribution to certain persons and to selected libraries. She hopes that, whatever the opinion of the reader upon matters of government may be, the book may add something to his knowledge and to his spirit, for it gives the mature judgment of a man who for a life-time labored hopefully for his country."

BELVOIR NEWS

J. W. Dupree of Raleigh, spent the week-end with his parents, Mr. and Mrs. J. T. Dupree.

Mr. and Mrs. Frank Brown, of Greenville, spent Sunday with Mr. and Mrs. Lloyd Ballance.

E. R. Reddick, and Miss Edith Dudley went to Raleigh Friday.

Miss Doris Corbitt, of Kinston, who has been spending some time with her aunt, has returned home.

Mr. and Mrs. Mack Lewis, Jr., were Greenville visitors Friday.

Mr. and Mrs. C. S. Davis and family were here Friday.

A. S. Smith went to Raleigh last Wednesday.

Miss Gladys Small who is attending E. C. T. C., is spending the week-end with her parents, Mr. and Mrs. M. S. Smith.

C. B. Bucks, of Chicod, was here Friday.

Mrs. E. B. Stancill is spending some time with her daughter, Mrs. Floyd Davis, in Winterville.

MANY KILLED DURING QUAKES IN EALKANS

(Continued From Page One)
were digging out of drifts that blocked their roads, sixteen were left dead in the two-day blizzard of the Central States.

Belgrade, Yugoslavia, March 9—(AP)—Between 80 and 150 dead were counted today in Eastern Yugoslavia and adjacent Bulgaria, rocked by fore dawn Saturday and yesterday by severe earthquakes. More than 900 buildings and other structures in Eastern Yugoslavia were demolished, and 500 persons are estimated to have been injured.

Shaken from their beds, and panic-stricken after Saturday morning's quakes, residents of the borderland country were afraid to go back to their homes until late Saturday. At four A. M. Sunday morning they were routed into the open again in their bed clothes, screaming and making for woods which afforded a some shelter from the bitter weather without the danger of falling masonry.

The quakes both Saturday and Sunday, extended from Yugoslavia across Bulgaria to the shores of the Black Sea. The epicenter was near Drama, Bulgaria. The more severe shocks knocked the seismograph needles from the dials at the observatories here. Chimneys fell over the entire area.

King Alexander and Premier General Zikovic left here during the day for Southern Serbia to superintend relief operations, which were already under way. Afraid as residents were to go back into such homes as were standing the quakes occasioned real suffering throughout the stricken areas. The shocks yesterday occurred in exceptionally bad weather, stormy, black night. Supply and relief work is apt to be slow inasmuch as the railroads have suffered with spreading rails and damaged roadbeds.

MRS. CANNON PASSES AWAY AT HER HOME HERE

(Continued From Page One)
Harris, J. S. Willard, J. H. Briley, C. B. Rowlett, E. L. Baker, L. B. Garris, Jesse Smith, W. E. Hooker, T. E. Hooker, B. B. Sugg, W. S. Galloway, Guy Evans, Jr.

It melts to a smooth and creamy sauce. And what flavor! A rich, time-mellowed flavor that only "cave curing" can give.

Try it for rarebits, sauces for vegetables, baked dishes, toasted sandwiches. Your grocer has Kraft American Cheese. Order today.

THREE MEN INDICTED FOR VIOLATING BANKING LAWS AT NASHVILLE, TENNESSEE

(Continued From Page One)
the bank's credit to the joint individual account of Lea and Caldwell.

The indictments were brought in Greenville Saturday to prevent the operation of the statute of limitation. All three of the defendants have been mentioned prominently in testimony before the state legislative committee investigating the tie-up of state money in bank failures. Their names ran continually through the testimony taken by the committee in Knoxville where the legislators investigated the closing of the Holston Trust Company but were blocked in their efforts to inquire into the Holston Union National Bank.

Mr. Ramsey also stands charged in five indictments in the state court at Knoxville with fraudulent breach of trust and largely in connection with transactions in the Holston Trust Company.

Lea, Caldwell and Ramsey were reported ready to make bond. W. J. Carter, district attorney, said bond of \$25,000 would be required.

Conviction on all of the charges would carry a maximum penalty of ten years in prison and a fine of \$10,000, Carter pointed out.

Colonel Lea is one of the most spectacular persons in Tennessee. Since young manhood he has taken an active part in politics and journalism.

At one time he controlled five newspapers in the state and now operates an evening and morning paper in Nashville. He served in the United States Senate in the Wilson administration and then changed his senatorial toga for an officer's uniform, organized a regiment and led it to France.

Caldwell, son of a millionaire banker, organized the investment banking house of Caldwell & Company and during the bull market expanded operations until it was

ONE CENT A DAY PAYS UP TO \$100 A MONTH

regarded as one of the strongest financial institutions in the south. Its failure last November was felt in many sections of the south.

Ramsey, president of the Holston Union National Bank and its affiliated institution, the Holston Trust Company, came to Knoxville from Kentucky where he began his banking career as a bookkeeper. His bank closed with 45,000 depositors. Recently his expensive home was seized by creditors and he went to Jacksonville, Fla., to visit his brother. He has notified the authorities he will return willingly.

ROAD BUILDERS IN IOWA FIND TRACES OF ICE AGE

Iowa City, Iowa.—(AP)—Iowa's 1930 road building program has brought to light evidence on which George F. Kay, state geologist, has been able for the first time to estimate the duration of the "ice age" in Iowa.

These traces of the glaciers were found as new roads were cut through the hills. They indicate several ice ages scattered through a minimum of 700,000 years.

Of this time, Iowa was covered by the great ice sheets for at least 25,000 years, Kay thinks, the remainder of the period constituting the "inter-glacial" intervals.

Asheville.—(AP)—The Appalachian forest experiment station has announced plans for spending \$2,100,000 on roads, communications lines and other improvements in the mountains near here during the next six years.

MILLIONS OF METEORS HIT EARTH'S ATMOSPHERE DAILY

Iowa City, Ia.—(AP)—Eight hundred million meteors a day striking earth's atmosphere is the latest estimate.

It is given in a report to the American Association for the Advancement of Science by Prof. Charles C. Wylie of the University of Iowa.

These include the meteors too small to be observed without telescopes. The "naked eye" meteors Prof. Wylie estimates at about

24,000,000 daily, very close to the figure given by Sir Isaac Newton. About 300 meteors a year get through the atmosphere and actually hit the United States, according to Wylie's estimates, based on figures that probably one meteor a year strikes for each 10,000 square miles. Few are seen, because they are mostly small.

Doctors Use Army Books
Washington.—(AP)—Six thousand civilian doctors made use last year of the army medical library, one of the most valuable collections of medical books in the world.

Raleigh.—(AP)—Earnest and Earnest, nationally known auditing firm, has been engaged by the state corporation commission to determine if officials of the defunct Central Bank and Trust Company at Asheville violated state banking laws.

"I've seen Paris Fashions Born"
—says Chesterfield

Yet you take me shopping with you every day"

The great Paris designer has turned out another creation. A model of good taste! But good taste is no less desirable in a cigarette. What you taste in Chesterfield is milder and better tobacco—nothing else—in a blend and "cross-blend" that cannot be copied! Just as there is only one Paris...there is only one Chesterfield.

Chesterfield

They Satisfy —that's Why!

FOR NINETEEN years, our Research Department has kept intimate touch with every new development of science that could be applied to the manufacture of cigarettes. During this period there has been no development of tested value or importance to the smoker which we have not incorporated into the making of Chesterfield cigarettes.

LET'S BREAK IT UP.
 With three more false fire alarms here last night, city authorities have gone about their task of endeavoring to catch the guilty parties with renewed efforts and it is the hope of our citizens in general that their efforts will be successful. This business of so many false alarms has become a great nuisance as well as proving very costly to the city and with it all there is always a certain amount of danger accompanying the answering of fire alarms. The stage has been reached that it behooves our citizens to take a hand in this matter along with our officials in their efforts to put a stop to this nuisance, and as an incentive the city has offered a reward of \$50 for information leading to the arrest and conviction of the guilty parties. Whether or not you are interested in the reward, to be sure, you are interested from the standpoint of a good citizen and we urge everyone to lend their efforts to breaking up these false alarms.

If there is a fire alarm box near your premises and the whistle begins to blow this number rush out and see who is around the alarm box or if an automobile is driving away try to get the license number or identify the occupants. With the large number of alarm boxes and the small number of policemen, the help of our citizens is necessary if we are to get rid of this fire alarm nuisance and we urge you as a good citizen to help in this matter.

SIGN NOW
 Getting the signatures of the depositors of the National Bank, to make possible the opening of a new bank to take over the affairs of the old National Bank is a gigantic task in view of the large number of depositors, and in the interest of time various stations where depositors can call and have the proposition explained to them and sign the necessary agreements have been designated. It is to the interest of the depositors and the entire community to get this new bank in operation just as soon as possible and if the depositors will comply with the requests of the committee to sign up as early as possible the opening of the new bank will come about more quickly. If you are one of the depositors of the closed bank sign your agreement at once and if you know others who have not signed, get them to do likewise. From the depositors' standpoint, the proposition no doubt is far better than anything that could be

hoped for if the affairs of the bank are liquidated in the usual way and the sooner the depositors act the sooner we will have a new bank and the sooner their money will be available. This is an important matter. Don't delay. Act now. The Federal Banking Department is not going to wait indefinitely on this proposition. If the new bank is desired you must make known your wishes by signing up at once. If not the Federal Department is perfectly willing to go ahead with the liquidation, but remember that the latter plan gives no assurance of what percentage the depositors will receive or how long they will be getting it. The plan for the new bank is by far the best for the depositors and the community as a whole.

ABOUT TOWN

Probably the most absorbing topic of discussion among members of the Woman's Club at this time is the beautification of Greenville. Right recently the club has sponsored the planting of trees, flowers and shrubbery on unsightly spots of the city, and are planning to continue their program until the improvements affect virtually every part of town.

The object of the club is not only to make the city more livable, more interesting in the eyes of its own people, but to convert it into one of the best looking and most attractive of the thriving young cities in this part of the country.

Nothing adds to the appearance of a community more than flowers, shrubbery and trees and it is to be hoped the ladies will continue their work until the movement has been crowned with success even greater than at first anticipated.

Children of the rural schools of Pitt county acquitted themselves quite admirably in the annual "music hour" conducted in the campus building of East Carolina Teachers College last week. Five hundred of them sang in concert and displayed marked development of tone and enunciation over last year.

Members of the Board of Education expressed appreciation of what the children are accomplishing in behalf of the development of group singing, and said they hoped to see as much improvement in future years.

The Department of Education is assisted to no little extent by members of the Music Department of the college, who help in the training of the teachers, who in turn direct the work of the children of the various schools.

The chorus draws hundreds of people to Greenville each year, showing the interest of the public in what the schools are doing in their effort to create greater inspiration in mass singing.

Persons who have neglected the important matter of obtaining city automobile license tags no doubt will find it to their advantage to do so immediately.

Franklin Suffers Double Tragedy
 New York, March 9.—(AP)—The third victim of a trilogy of murder suicide and near madness, Pierre M. Franklin, brother of strangled Vivian Gordon, tossed fitfully in a hospital today under heavy guard.

Says Prohibition Will Be Big Issue In 1932 Campaign
 St. Petersburg, March 9.—(AP)—The Anti-Saloon League, in annual convention here, today itself for another battle on behalf of prohibition in the presidential campaign of 1932 after hearing F. Scott McBride's general superintendent, predict that the dry law would be a leading issue then.

Denouncing the recently advanced plan of John J. Raskob, National Chairman of the Democratic party, for state control of liquor, McBride charged last night that the proposal was backed by "the multimillionaires of the East."

"They come forward and tell the Southern states what they should do and offer states' rights," he said. "President Hoover," Dr. McBride stated "said more in the ten minutes following his oath of office and has stood by it more closely than any of the presidents who preceded him. It is now up to the law abiding people of the United States to stand behind President Hoover and the Constitution to block any movement for making the prohibition question one of state option."

An address of "Gossip Incorporated" was given by Mrs. Henry W. Peabody, chairman of the Woman's National committee for prohibition enforcement who recently moved to Florida because, she said Massachusetts voted to repeal its state enforcement law.

She charged that "Gossip Incorporated" was a National organization of liquor interest which she said controlled a great portion of the press. She also charged this "organization" with "character assassination" in the case of Bishop James M. Cannon, Jr., of the Southern Methodist church.

"No one believed Bishop Cannon guilty of any crime, she said. "There work is deliberate and it

has even been directed against the President of the United States. Their idea is to smear Hoover."

Early in the morning he dashed half-clad into the hall from his room in a hotel—shouting and crying. Five house detectives and a nurse labored with him for three hours before they could subdue him. When police arrived, they found him lying on the bathroom floor, gibbering.

His room was littered with newspaper clippings revealing the sordid underworld life that led Vivian Gordon to her death and shamed her daughter, Benita Bischoff, into an untimely grave. Photographs of his sisters a striking auburn haired woman, in a variety of poses and of his niece in her first dancing costume lined the walls.

Hospital officials said he was not in a serious condition but would require constant care and observation to restore his mental state to normal.

Meanwhile, the hunt for Miss Gordon's slayers virtually was at a standstill.

1929, duly registered in Book D-18 pages 259, 265 and 265, the terms of which have not been complied with, I shall sell to the highest bidder for cash on

Monday, April 6th, 1931 at 12:00 noon, at the Court house door in Greenville, the following described property to-wit:

Being shares Nos. 2 and 2A, in Land Division Book No. 2, page 531 Special Proceedings No. 702, and being allotted to Lula M. Harris and children and described as follows:

Lot 2, beginning at a stake in the center of the Stantonburg road, S. W. corner of lot No. 1, and running with the western line of lot N o. 1, about 18 degrees east 940 ft. to a stake in School House Branch; thence running westerly to said branch to a stake, centered by three pointers; thence S. 18 W. 934 ft. to a stake in the center of the said Stantonburg road; thence eastward by the said road 492.6 ft. to the beginning. Containing 21.6 acres.

Market Report

Cotton--Stocks--Grain

COTTON MARKET

New York, March 9.—(AP)—Cotton opened steady today, generally 1 to 3 points higher on covering and trade buying which seemed to be promoted by a bullish view of the standard cloth statistics for February.

Liverpool cables did not meet the local advance of Saturday, but offerings here were comparatively light and the market held steady during the first half hour with the active months showing net advance of about 3 to 5 points. May sold up to 11.20 and October to 11.71. The cloth statistics showed sales for February 54 per cent in excess of the month's production, with a decrease of 10.2 per cent in stocks on hand and an increase of 24.7 per cent in unfilled orders at the end of last month.

Liverpool cables said that Bombay buying in that market had been supplied by realizing Egyptian futures in Alexandria were 5 to 24 points higher and the Indian spot quotation in Liverpool showed an advance of 7 points.

GRAIN MARKET

Chicago, March 9.—(AP)—Increases of United States wheat and corn visible supply totals had a late bearish influence on grains today. Evening-up, however, to prepare for the government report this afternoon on farm reserve stocks, was something of a counter-balance. The visible supply increases both of wheat and corn were larger than a week ago.

STOCK MARKET

New York, March 9.—(AP)—Bull forces shifted their favor from electric power shares to the motors in today's stock market, but were unable to keep the list headed upward after midday. The market wobbled uncertainly during the afternoon.

The news of the week-end included reports of moderate improvement in automobile sales and further gains in steel mill output in the Youngstown and Chicago areas. Business surveys generally, however, were not favorable.

Both General Motors and Chrysler rose a point to new highs for 1931. A few shares surged up 3 to more than 6 points, including Electric Automobile, Auburn, American preferred, Case, General Railway Signal, and Bohn Aluminum. Shares up 2 or more included Nash, Packard, and Timken-roller bearing. A wide assortment of issues sold up a point or more including Studebaker, Stewart Warner, Borg Warner, American Telephone, Gen Electric, Amtrica nCan, Montgomery Ward, Sears Roebuck, Woolworth, and Kroger. In oils, Standard of N. U. sagged 2 to a new low for 1931. Atchinson lost 4 points. Allied Chemical 3, and North American, Warner Bros, lost a point or so.

The money market maintained the firmer tone which developed last week. Call loans renewed at 11-2 per cent, but commanded 2 per cent in the early afternoon.

Capudine Stops "Achy" Pains...from Colds

Two teaspoonfuls of Capudine in a little water—that's the thing to remember when those dull, aching pains start in your head and body from colds. Its power to bring about immediate relief to "grippy" pains and to headaches of all kinds will amaze you—just try it once. Thousands of men are also finding Capudine supremely good to relieve stabbing pains of neuralgia and neuritis.

Being liquid, Capudine acts immediately, often in one-third the time required by other forms. It contains no narcotics, does not disturb digestion and is approved by druggists. Even with the most severe headache, relief comes very quickly.

Sold at Drug Stores, 10c, 30c, and 60c bottles and by the dose at soda fountains. Be sure to say Capudine.

Flaring Stars Seen
Mt. Wilson, Cal.—(AP)—Eighty-five novae stars which flare up suddenly, have been observed at Mt. Wilson in the great spiral nebula in Andromeda. This nebula is 900,000 light years from earth and is a separate universe of stars. The novae fade slowly and finally vanish.

NEWS BRIEFS

From Over The City and County

TWO SMALL BLAZES HANDLED BY THE FIRE DEPARTMENT YESTERDAY

In addition to the three false alarms sent in last night, the fire department combated two fires yesterday afternoon and early this morning.

Fire discovered in the attic of the home of Harvey Briley, on Fourth street, did damage which firemen estimated at \$250. The alarm was sent in about 2:15 yesterday afternoon. The fire started among matter stored away in the attic, but the cause could not be determined.

An unoccupied negro house on the lower end of Washington street was damaged this morning about three o'clock. About three feet of floor and a door in the hallway of the building were burned at a loss of approximately \$100. The building was the property of Sam Short, colored.

WOMAN EVANGELIST SPEAKS TO LARGE CROWD

Mrs. Hattie Edge, woman evangelist, of Richmond, Virginia, spoke to a large congregation at the Pentecostal Holiness church of this city Sunday night, on the subject: "The Value of a Soul". The meetings will continue for several days. There will be service each evening at 7:30. Much interest is being shown in these services and the public is cordially invited to share these blessings with us.

COURTHOUSE SQUARE TO BE REPLANTED IN GRASS

The movement to beautify the City of Greenville evidently has found a vulnerable spot in the armor of county officials, judging by certain improvements in progress on the courthouse square this morning.

A large force of convicts welded picks quickly and skilfully several hours this morning and when they had finished the court house square had been broken up and was ready to receive a new planting of grass. Officials believe this will add greatly to the general appearance of the court house property in view of the fact that much of the grass planted several years ago had practically disappeared on some parts of the ground.

COPPER STILL CAPTURED ON TRANER'S CREEK

A whiskey distilling plant fell into the hands of county officers on Traner's Creek Saturday afternoon. The plant was not in operation, and consequently neither whiskey or operators were rounded up.

THREE MARRIAGE LICENSES ISSUED OVER WEEK-END

Three licenses to marry were issued by the register of deeds over the week-end. All of the applicants were colored. They were: Thomas Sharp to Annie Bell Ellison, of Ayden; William Henry Cox to Edna Taylor, Winterville; Walter Hardy to Nara Green, of Greenville.

CAPITOL "Better Sound—Better Pictures" Today and Tuesday

You'll be Surprised

LONELY WIVES

Liver—Stomach—Bowels—Nerves—Brain—Heart—Are They All 100%?

Folks, the human body is just like a good car, everything must be in good working order if you expect to get the best performance out of it.

You can't expect to feel 100% if your liver is out of order, your stomach upset, nerves jumpy or bowels tied up. You must build up your vital forces and you weak, weary, despondent men and women who have been doctoring for ages trying to get back the vim and endurance of earlier years will be astonished, delighted and amazed to see how quickly strength, energy and vitality come back thru the use of Tanlac.

Go to your druggist now and get a bottle of Tanlac. Millions of folks have started back on the road to youth, health and happiness with this world-famous tonic and there is no reason why you, too, can't begin today to rebuild your worn-out tissues and revitalize your entire system.

Your money back if you are not speedily helped by a fair trial of this world-famous medicine.

CONDITIONS IMPROVING

Colonel Woods Says Employment on the Upgrade In Different Sections

Washington, March 9.—(AP)—Colonel Arthur Woods, head of the president's emergency committee for employment today said conditions were improving over a considerable portion of the country.

Operations in the Birmingham, Ala. steel district were said by Thad Holt, committee representative for the southeast, to be increasing. He added that "In Alabama agricultural acreage is being increased by 25 per cent this season."

He cited resumption of operation by one cotton mill at Atlanta as re-employing 300 hands. In Eastern Tennessee he said that "the Red Cross is still very active on relief work" and added that in Mississippi "while work on the river has been a decided help in furnishing employment, serious need exists for continued relief work." An agreement put through in the cotton industry to end night work in mills for women and minors this month was occasioning, he said, some need to consider the readjustment difficulties entailed.

While less specific in detail, J. F. Lucy, southwestern representative telegraphed that "employment is picking up generally in the southwest."

In the weekly summary of public works activity presented to the committee today, it was estimated that 183 projects of governmental and semi-governmental character, entailing an outlay of \$92,014,247 were under contract for the period since December 1, last, the total of such construction contracted for in the entire country has amounted to \$702,353,792.

PRIZES FOR THE NEWSPAPER BOYS

During the past week prizes were won by Charles Horne, Bill Clark, Dixie Smith and Arthur Williams. Prizes for salesmanship this month will be awarded to boys showing the greatest increase in newspapers and magazines the Daily Reflector, News and Observer, Crit, Literary Digest, Saturday Evening Post, etc., give in your name at once, and your correct sales last month.

Says Half of Bills Passed By Assembly Unconstitutional

Raleigh, March 9.—(AP)—Speaker Smith of the House today expressed the opinion that half of the local legislation passed by the current session of the General Assembly is unconstitutional.

Representative Hood of Wayne raised the question when he read a section of the House rules staging limitations upon the General Assembly to enact private or special legislation.

Arguing that the Pitts bill relating to the duties of tax assessors in certain counties was unconstitutional, Mr. Hood asked a ruling on the matter.

Speaker Smith referred the bill to a judiciary committee.

Under section 25 of the constitution it is stated that no general, private or special act or resolution relating to the establishment of courts inferior to superior; relating to appointments or justices of the peace; relating to health or sanitation, changing the names of municipalities; authorizing the laying out or discontinuing of highways, streets or alleys; relating to cemeteries; relating to the pay of jurors; regulating labor, trade, mining or manufacturing; extending time for collection or assessment of taxes, etc.

Clearwater—At last the secret of why baseball players huddled out this time of year is disclosed: Babe Herman and Dazzy Vance, who have yet to sign noncontracts with the Brooklyn Robins, possibly are unrelenting because they thus escaped from exhibition games.

San Antonio—J. Francis Hogan, the large catcher, has arrived in the New York Giants' training camp and left "Memphis Bill" Terry as the sole remaining absentee.

Training Camp

St. Petersburg—Bob Shawkey, once great right hander of the New York Yankees, is looking over the situation at Joe McCarthy's camp but not with any eye toward landing a pitcher's job.

Bob the Gob is coach for Jersey City now and is casting a calculating eye over the flock of rookies. He may pick up a bargain or two yesterday.

Paso Robles—With only one practice session scheduled for today, the Pittsburgh Pirates had an opportunity to "take stock" of their first two exhibition games. There was gratification over the Pirate slugging.

Winter Haven—Buzz Arlt, the big Oakland outfielder who has come to the Phillies after 13 years in the coast league, has been switched to first base for this week practice series with Brooklyn.

West Palm Beach—Manager Bill Killefer, of the St. Louis Browns today expressed satisfaction over the performance of his "pony" infield in yesterday's triumph over the House of David team. Killefer started Burns, Storti, Levy and Kress and all of the mperformed well.

Fort Myers—Gabby Street, who has been counting on his veteran hurlers to carry the Cardinals to another National league pennant, wore a broad smile today—because of a rookie, Paul Derringer, up from the International league, did well against the Athletics at Miami

What the NEW HUMIDOR PACK

*means to Camel Smokers**

COMPARE a package of Camels with any other cigarette and note the difference in the technique of packing.

Note that Camels are completely enclosed in an outer transparent cover of moisture-proof cellophane and sealed air-tight at every point.

We call this outer shell the Humidor Pack. It differs from the ordinary cellophane pack and while it is egg-shell thin, it means a lot in terms of cigarette enjoyment.

It means, for instance, that evaporation is checkmated and that Salt Lake City can now have as good Camels as Winston-Salem.

While Camels are made of a blend of the choicest Turkish and mellowest domestic tobaccos, it is highly important, if you are to get full benefit of this quality, that these cigarettes come to you with their natural moisture content still intact.

The Humidor Pack insures that. It prevents

the fine tobaccos of Camels from drying out and losing any of their delightful flavor.

Aside from cheap tobacco, two factors in a cigarette can mar the smoker's pleasure:

Fine particles of peppery dust if left in the tobacco by inefficient cleaning methods sting and irritate delicate throat membrane.

Dry tobacco, robbed of its natural moisture by scorching or by evaporation gives off a hot smoke

that burns the throat with every inhalation.

We take every precaution against these factors here at Winston-Salem.

A special vacuum cleaning apparatus removes dust and now

the new Humidor Pack prevents dryness.

Check the difference yourself

It is a very simple matter to check the difference between Humidor Packed Camels and other ordinary dry cigarettes.

First of all you can feel the difference as you

roll the cigarettes between your fingers. Camels are full-bodied and pliable. A dry cigarette crumbles under pressure and sheds tobacco.

If you will hold a cigarette to each ear and roll them with your fingers you can actually hear the difference.

The real test of course is to smoke them. And here's where the new Humidor Pack proves a real blessing to the smoker.

As you inhale the cool, fragrant smoke from a Camel you get all the mildness and magic of the fine tobaccos of which it is blended.

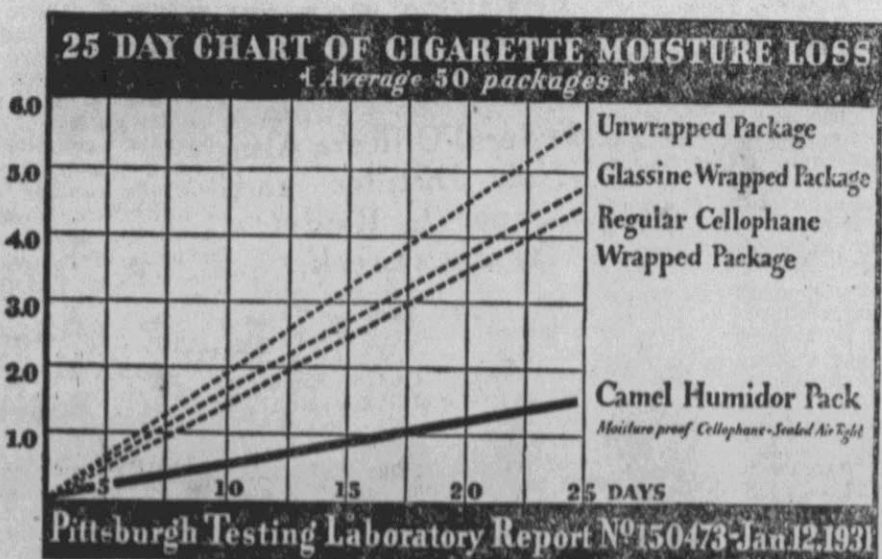

But when you draw in the hot smoke from a dried cigarette see how flat and brackish it is by comparison and how harsh it is to your throat.

If you are a regular Camel smoker you have already noticed what *proper condition* of the cigarette means.

But if you haven't tried Camels in the new Humidor Pack you have a new adventure with Lady Nicotine in store.

Switch your affections for just one day, then go back to your old love tomorrow if you can.

R. J. REYNOLDS TOBACCO COMPANY, Winston-Salem, N. C.

The Pittsburgh Testing Laboratory chart above graphically shows you that only the Camel Humidor Pack delivers cigarettes to you in prime condition

*** smoke a Fresh cigarette!**
