Motion To Adjourn The Legislature At Once Declared Out Of Order

Proposal From Sen. Burrus Meets Violent Opposition From Solons and Lieut. - Gov. Fountain; House Runs Into Lengthy Debate to Change Method of Charging for Automobile License Plates

Raleigh, March 17.—(AP)—Efforts to adjourn the General Assembly sine die without further consideration of legislation before the 1931 body were made today as the legislature reached its 60th legislative day.

Senator Burrus of Guilford, arising after Senator Baggett of Harnett had asserted the assembly should adjourn, made the formal motion: "I move you, Eir, the Senate do adjourn sine die."

Immediately the motion met opposition from Senators Johnson of Duplin and Horton of Chatham and after bitter debate Lieutenant Governor R. T. Fountain ruled the motion for sine die adjournment was out of order.

The House ran into a lengthy debate on the Moss-Cherry bill to change the method of charging for automobile license plates from a horsepower to a weight basis.

For several days there had been recurring rumors that an effort would be made at any minute to adjourn the General Assembly, most of them arising in Senate quarters.

Senator Burrus made his motion after Senator Baggett of Harnett asserted "There are members of this Senate who cannot pay their bills and the governor has turned a deaf ear to all pleas for an extra term of the General Assembly."

Baggett told the Senate that the House revenue committee had not drawn a revenue bill and that unless it soon proposed one the House finance committee which yesterday voted not to draft a revenue measure, should be instructed to bring one in.

"I think we ought to adjourn sine die and return here when we can work out our problems without haste," the Harnett senator said.

Today is the 60th legislative day for the General Assembly. Under the constitution the members are paid \$600 for the term, regardless of its length, but due to the custom of allowing them to draw their pay from time to time at the rate of \$10 per day they are generally said to be paid at that rate.

Counting Sundays, the legislature has been in session 70 days. Clerks and attaches get paid for Sundays as well as legislative days.

Rumors in House circles today were that a round robin was in prospect to pledge the members of the House to vote for sine die adjournment by the end of the present week.

Senator Burrus said he believed the members of the General Assembly were "unnerved and broken down" at the time they must face major problems which he added were the greatest ever to come before a North Carolina General Assembly.

Opposing the motion, Senator Horton of Chatham asserted "This is not the time to recede, it is the time for courage."

Johnson of Duplin vigorously defended the two finance committees of the assembly after stating the motion was out of order as it must be in the form of a joint resolution.

"These men are and have been working to bring relief to the people of this state without harm to industry or agriculture," Senator Johnson said.

Folger of Surry assailed the Senate finance group, asserting "It looks like we must sit here and do nothing until the House writes us a revenue bill."

Chairman Dunlap of the finance group defended his committee and said he was "ready to stay here until Christmas if necessary to do the job we came here to do."

The joint committee on congressional districts after prolonged debate gave a favorable report to a substitute measure dividing the "imperial fifth" into two districts and adding Randolph to the fourth district.

Under the proposed bill the new district to be known as the sixth would be composed of Durham, Alamance, Guilford and Orange counties; the new fifth would include Granville, Person, Rockingham, Stokes, Surry and Forsyth; while the fourth would be made up of Vance, Wake, Nash, Johnston, Randolph, Franklin and Chatham.

Odus M. Mull, Democratic chairman, pleaded with the committee to make sure the new districts would

COL. LEA AND SON INDICTED AT ASHEVILLE

Another Tennessean and Six Asheville Bankers Cited in Bank Case

Asheville, March 17.—(AP)—Charges growing out of the failure of banks here last fall today had reached into Tennessee, involving Col. Luke Lea, prominent publisher, Luke Lea, Jr., and E. P. Charlet, of Nashville.

The three Tennesseans were indicted by the Buncombe county grand jury yesterday along with six officers and directors of the closed Central Bank and Trust Company on a charge of violating the state banking laws.

The Leas, Charlet and Wallace B. Davis, president of the defunct bank, were charged with conspiracy to defraud, and, through the alleged conspiracy, with defrauding the Asheville Bank of a total of \$880,000 by issuing certificates of deposit of the bank to the Bank of Tennessee without money or its equivalent being deposited and with wrongful use of cashiers' checks.

At Nashville, Colonel Lea last night issued a statement denying the charge against him and his son and Charlet, who are associated with him in the publishing business. He asserted he had documentary proof to establish.

The other Asheville men indicted were: Russell C. Davis, vice-president of the Asheville Bank, Dr. J. A. Sinclair, C. N. Brown, Sam H. Hubbard, and Clarence Rankin, officials of the bank.

Bond for Colonel Lea and Wallace Davis was set at \$10,000 each; that for Sinclair and Brown at \$7,500 each, and for Luke Lea, Jr., Charlet, Russell Davis, Rankin and Hubbard at \$5,000 each.

One indictment charged Wallace Davis, Sinclair and Brown with making to the State Corporation Commission and with publishing a false statement of the bank's condition on September 24, 1930. Another against Wallace Davis alleged he misappropriated and misapplied \$117,500 in funds in the trust department of the bank.

The two Davis, Brown, Sinclair, Rankin and Hubbard are also charged with lending \$55,200 to the Provident Securities, incorporated, knowing the borrower was insolvent.

Solicitor Zeb V. Nettles said the cases against the men would be called at a special term of Superior court already ordered for April 20.

Nashville, Tenn., March 17.—(AP)—"Entire innocence" was pleaded today by Colonel Luke Lea, publisher, to indictments of the Buncombe county, North Carolina, grand jury charging misapplication and misappropriation of funds of the failed Central Bank & Trust Company, of Asheville, N. C.

Lea, who was indicted along with his son, Luke Lea, Jr., and E. P. Charlet, all of Nashville, said in a statement last night that he had

OFFICERS ARE ABSOLVED IN NEW HANOVER

Jury Declares Double Killing Resulted From Errors Nobody Can Be Held For

Wilmington, March 17.—(AP)—Four officers who took part in a gun battle here early Sunday in which a mail truck driver, mistaken for a run runner, and a deputy sheriff were killed were absolved of blame today by a coroner's jury.

The jury laid the entire occurrence to a tragedy of errors for which no one could be held responsible.

It found Leop Roberts, 28, of Dudley, the mail truck driver, was killed by bullets fired by A. B. Crews, a deputy sheriff, in discharge of his duty, Roberts previously, the jury held, had shot to death W. P. Starling, New Hanover deputy sheriff, and was firing at other officers.

The jury found the truck was halted by a barricade built across the road by the officers who had been tipped a run runner was on its way to Wilmington.

Roberts' trapped from the truck and fired apparently in the belief he was being stopped by highway-men.

A verdict was reached after six hours of deliberation. Previously, the jury had heard testimony for 14 hours.

It began hearing evidence Sunday. The hearing was secret.

Governor Urges Public Support of Seawell Bill

Raleigh, March 17.—(AP)—Expressing the opinion that Shaky banks should be closed before large depositors with inside information withdrew their funds and allow the small depositors to suffer, Gov. O. Max Gardner has urged bank depositors to rally to the support of the Seawell bill.

This measure, now pending before the General Assembly would create a separate banking department supervised by a commissioner appointed by the governor. It also would give the governor authority to make a special investigation of insolvent banks.

Speaking over the radio last night in behalf of the measure, Governor Gardner said it had been subjected to a bitter attack inspired by the Corporation Commission, under which the present bank department operates, and John Mitchell, chief state bank examiner.

He denied that any small bank provided it was honestly managed, had anything to fear from the Seawell bill.

TWO BLAZES EARLY TODAY

Fires in Western Section of the City Do Damage Estimated At \$4,500

Two fires in the western section of the city early today cost property owners in the neighborhood of \$4,500, it was estimated by members of the fire department. The department also responded to a false alarm sent in from the Cherry View district about 4 o'clock.

The combination home and cafe belonging to Charity Williams, nee, in the Cherry View section was practically destroyed by flames this morning about 3 o'clock. Firemen estimated the loss to the building and furnishings at \$1,500. The fire had made such headway when the alarm was sent in that the firemen were forced to direct their effort to the saving of adjacent property. The origin was not ascertained.

The home of W. E. Tucker on Dickinson avenue was badly damaged by fire about 8 o'clock. The loss was estimated at approximately \$3,000. The flames originated from an unknown cause in the roof and practically wrecked the second story before being finally brought under control. Practically all of the furnishings of the second floor were completely destroyed and these in other parts of the building were damaged by smoke and water.

Although both trucks of the department responded to the second alarm at full speed no evidence of fire was discovered in the neighborhood from which the alarm originated and officers were busy today trying to apprehend those responsible for the alarm.

H. H. DUNCAN ENTERS RACE FOR ALDERMAN

Will Oppose T. T. Hollingsworth for Seat in the Third Ward

Interest in the municipal election to be held in the city May 4 gained additional impetus today with announcement by H. H. Duncan that he would oppose T. T. Hollingsworth for his position as alderman in the Third ward.

Mr. Duncan said he would conduct his campaign on a platform of clean and economical government with a view to render the highest type service possible.

The political campaign actually got under way last week when Roy Flanagan tossed his hat into the ring for the office of Mayor. This was followed by announcement by Mayor J. C. Lanier that he would be out for re-election.

The opening gun of the aldermanic campaign was fired yesterday by J. N. Williams who announced that he would oppose John Ivey Smith in the First Ward.

There are five seats on the Board of Aldermen to be filled during the election. Although none of the old members have filed notice of contest, it was understood that practically all of them would seek re-election.

Mr. Duncan is a graduate of Wake Forest college, a veteran of the World war, and has been prominently identified with the religious, social and business life of the city for several years.

He first got into the limelight in this section as a player for Greenville and New Bern in the old Eastern and New Bern in the championship game between Greenville and New Bern that enabled the Craven county lads to walk away with the pennant.

Duncan served as a second lieutenant in the World war, and returned home and completed his studies at Wake Forest. After his graduation he came to Greenville and served as a member of the faculty of Greenville high school for three years. He was also athletic coach of the institution.

Following his retirement from the teaching profession he engaged in business and since that time has been connected in this field of endeavor.

He has been quite active in the religious life of the community. He served as deacon of the Immanuel Baptist church, superintendent of the Sunday school, and at present time is treasurer of the church.

PROBE DEATH IN VICE CASE

Mystery Surrounds Passing of Second Woman in Graft Case Against Police

New York, March 17.—(AP)—Authorities denied today there was any possibility of foul play in the death of a second woman vice graft witness.

Miss Lucia Dickens, red-haired girl who danced under the name of Georgia Gray, died Saturday night in Bellevue hospital after an illness of four days. Though the cause originally was diagnosed as pneumonia, Dr. Charles Norris, chief medical examiner, ordered a chemical analysis of the organs to determine whether they contained poison.

But today Assistant Medical Examiner Gonzalez said: "There is no chance the girl died of anything but natural causes. Bruises found on her body were superficial and could have been caused by falling out of bed, which might have happened to her before she came to Bellevue in a critical condition from pneumonia."

New York, March 17.—(AP)—The death under mysterious circumstances of a second woman vice graft witness against police was being investigated today.

Miss Lucia Dickens, red-haired dancer who used the name of Georgia Gray, died Saturday night in Bellevue hospital after an illness of four days. Though the cause originally was diagnosed as pneumonia, Dr. Charles Norris, chief medical examiner, ordered a chemical analysis of her organs to determine whether there were traces of poison.

COURT BUSY ON WILL CASE

Will of the Late Ira J. Frizzelle Under Fire in Civil Court Here

Efforts to break the will of the late Ira J. Frizzelle, of the Ayden community, continued in the civil term of Pitt County Superior court today. The case was begun yesterday morning and was not expected to be completed until late this afternoon.

The caveator is J. F. J. McLawhorn, nephew of Mr. Frizzelle who died sometime ago and left the major part of his estate to educational institutions and other causes. The caveator contends that his uncle was not in full possession of his mental faculties prior to his death, and consequently was not capable of making his will in an intelligent manner.

His contentions were supported by testimony from Dr. M. T. Frizzelle and Dr. Grady Dixon, Ayden physicians. They testified that the deceased suffered from a form of poisoning prior to his death which made him both mentally and physically incapable of the preparation of a will.

Mr. Frizzelle was a bachelor and spent the major part of his life in the Ayden community.

Fireman Rescued From Burning House

Representatives of Both Daily and Weekly Newspapers Attend Hearing of Sub-committee of the House Finance Committee at Raleigh; Vigorous Opposition Features Round-table Discussion

Raleigh, March 17.—(AP)—Representatives of weekly and daily newspapers from every section of the state were present at a hearing before a sub-committee of the House finance committee this morning to enter a protest against the proposal to levy a special tax on newspaper advertising.

A spirited round-table discussion took place in the course of which it was brought to the attention of the committee that the newspaper publishers of North Carolina, while perfectly willing to bear their just and equal share of taxation, are uncompromisingly opposed to being singled out to bear the brunt of special taxation.

A number of publishers were heard presenting facts and figures to show to the committee that the newspapers are already paying their proportional part of the cost of government and that the vast majority of them are being operated today at a financial loss.

R. W. Page, publisher of the Wilmington Star-News, asserted that if the proposed tax were imposed it would drive the newspapers out of business, necessitating their selling to one of the national chains or giving their properties away.

John A. Park, publisher of the Raleigh Times, stated that the records show that only fifteen newspapers in the entire United States showed any increase in advertising lineage last year over the preceding year.

Epitomizing the viewpoints of the publishers present, James W. Atkins, managing editor of the Gastonia Gazette, declared that the newspapers were vastly more than mere manufacturing industries or retail merchandising establishments as the legislature would classify them.

"North Carolina has taken first rank among the states of the union," he said, "in industry, education, good roads and in many other ways largely because the newspapermen of the state, laying aside the ambition for piling up dollars have put their very life blood into these

COMMUNISTS JEER GANDHI

Nationalist Leader Hissed at While Addressing Labor Audience at Bombay

Bombay, India, March 17.—(AP)—Mahatma Gandhi, accustomed to adulation and worship, and commanding the respect even of his British antagonists, last night heard his jeers, hoots, hisses and catcalls from a labor audience which he was about to address.

Communists taunted him with failure to provide for release of labor agitators in his truce with Lord Irwin which led to abandonment of the civil disobedience campaign, and charged him with betraying the workers.

"Down with Gandhi," they shouted. "Down with the national congress! Down with British imperialism!"

They tore down the Nationalist flag on the platform where Gandhi sat, amazed and bewildered, and replaced it with a flaming red banner. Nationalist volunteers fought with Communists for a few minutes and replaced the red flag with the Nationalist emblem.

Gandhi then pleaded that he had done his best for the labor agitators but that what he had been able to do depended upon the extent to which they had been aligned with the movement for independence.

He said that the forthcoming national congress convention at Karachi would demand complete independence from Great Britain, and that Nationalist delegates at the forthcoming round table conference would reiterate the demand.

GOVERNORS OF TWO STATES IN VERBAL TILT

Bilbo of Mississippi Asks Long of Louisiana to Let His State Alone

New Orleans, March 17.—(AP)—The governor and senator-elect of Louisiana, Huey P. Long, LL. D., stood advised today by the governor of Mississippi, Theodore Gilmore Bilbo, to leave Mississippi alone, and also stood charged by the same authority with allowing "gambling hells" here to run "wide open."

The bout of the stormy politicians of their respective commonwealths started yesterday when Governor Long issued a statement blistering Mississippi for its alleged failure to continue Louisiana's hard surfaced roads to the eastward, and suggesting that the state "ought to get out and get itself a governor."

Before darkness had fallen Bilbo promulgated an equally vigorous counter-attack, reviewing the life of Long from the time he sold washing powder in Mississippi to his recent crusade in favor of dunking corn pone in potlikker instead of crumbling it as prescribed by the Atlanta Constitution.

"Louisiana's potlikker governor is trying to cover too much territory when he butts in on Mississippi affairs," said Bilbo. "If Governor Long knew half as much about Mississippi politics as he pretended to know about the virtues of washing powder that he used to sell in Mississippi, he would know that the Governor of Mississippi is not to blame for the failure of the hard surfaced road system in Mississippi."

Then Governor Bilbo launched into the prophetic.

"My hat is off to brother Huey for his temporary success," he said, "but I make the prophecy that he won't last long. I know that with his methods of living and doing things he wouldn't last thirty minutes in Mississippi."

Turning to the raids by state troops Long directed on alleged gambling places in New Orleans a few years ago, Bilbo said that they were followed by impeachment proceedings and "the bitter opposition of the powerful controlling influences of South Louisiana."

"Almost in a twinkling of an eye" Governor Bilbo continued, "a miracle was performed. Huey Long's legislative program was put over with practically the unanimous support of his opposition and by those who voted to impeach him, and then he was elected to the Senate. Today the state National Guard of Louisiana is quietly resting at arms in their barracks and the gambling halls are wide open and doing a bigger business than ever before in their history and I dare Huey Long to disturb them."

"It looks mighty like a tragedy made, the goods have been delivered and Huey bold and audacious as he is, dares not try to run the bars."

"Now Huey, you can do as you darn please with this, either dunk it or crumble it."

The Captain and 117 Men Reach New Foundland Island After Battling Their Way Through Ice Floes Following the Sinking of Ship; New York Movie Man, Cameraman and Explorer Among Missing; Injured Housed in Homes of Islanders, Without Food and Badly in Need of Medical Aid

St. Johns, N. F., March 17.—(AP)—Success raced through ice-choked White Bay today for the 118 known survivors of the Viking which exploded at sea Sunday night.

The number of presumed dead stood at between 20 and 25. The known missing were eight—including Varick Frissell of New York, who was aboard to make "shots" for a movie of the sealing industry, A. E. Penrod, of Waterbury, Conn., cameraman, and Harry Sargent, explorer who was cast as the film "villain" in the Frissell picture. Others missing were the wireless operator, the navigator, cook, steward and the boatswain.

The mate of the Viking was on the ice with a broken leg. The 118 known survivors, including Capt. Abram Kean, Jr., reached Horse Island last night, walking ashore across the ice. The condition of the captain, who was blown from the bridge of the Viking to the ice when the ship exploded, was believed serious.

A report from the wireless station at Horse Island said a dory had been seen about four or five miles off shore at daylight, making very slow progress through the ice pack. Seven men were in the dory, five apparently seriously hurt.

Miss O. Bartlett, the 18-year-old wireless operator on the island, reported it as doubtful that the dory would be able to make shore. Despite the combined efforts of the Viking's owners, the Newfoundland Government, wireless companies and press associations, details of the disaster remained meagre at noon today. It was only then that the first direct word from Capt. Kean began coming in over the government wireless here from the island.

St. Johns, N. F., March 17.—(AP)—The captain and 117 men of the sealing steamer Viking which exploded and sank off Horse Island Sunday night with the loss of at least 25 lives, have reached the island after 24 hours of suffering and misery on the ice floes.

The news came from Miss O. Bartlett, 18-year-old wireless operator on the island, when communication was re-established early today. Captain Abram Kean, Jr., told Miss Bartlett that Varick Frissell, young New Yorker who was aboard the Viking to make sound movies of the sealers, and his companions, A. E. Penrod, cameraman, and Russell Harry Sargent, explorer, are missing.

A dory containing seven men, five of whom appeared to be badly hurt, could be seen at daylight, four or five miles off the island shore, making labored efforts to reach the island.

"It is doubtful," wireless Miss Bartlett, "if they will succeed." The Newfoundland government received the following message from the island today:

"Inhabitants of island are lodging rescued men. Many badly injured and sick. Around 25 announced dead. Was speaking Captain 10 o'clock last night. In very weak condition. He stated engine staff operator, navigator, cook, and movie men, broken arm missing. Mate on ice, broken arm missing. Absence of medicine and severely felt."

Captain Kean said he was on the ice, and injured in the fall," he said.

All the others who reached Horse Island were unhurt although many were in a weakened condition. The rescue ship from the mainland was not expected until one o'clock this afternoon, and until then the survivors were without food and were inadequately housed.

There are no supplies available on the island. The five houses there are crowded with those survivors who seemed most in need of

Ford Would Pay Young People To Attend School

Fort Myers, Fla., March 6.—(AP)—Paying young people to go to school is advocated by Henry Ford. In an interview here, the automobile manufacturer expressed at length his opinions on both education and diet, but on the latter subject he admitted his own menu might be disagreeable medicine to other folk. Education, however, he was very positive in urging the establishment of vocational schools which paid their pupils as a remedy for what he described and decried as wasted effort by school children.

Mr. Ford would combine practical and technical instruction with the teaching of theory. Young people in all cases, should learn to read and write and gain a solid foundation along these lines, he said.

But from the eighth grade, he said, practice and technic should hold equally with theory. "Young people ought to be paid to go to school," he said. "They ought to learn to handle finances as well as to do other work."

The automobile manufacturer practices what he preaches. At the schools at Dearborn, where his plant is located, youngsters are paid enough to live on for the work they do in school from the time they are 12 years old. The boys divide their time between the classroom and the technical work.

"Our school is self-supporting," he said, "we turn in the work of 2,000 boys to our factories, and pay them for it. We have been doing it 16 years."

The burden of the technical education should fall, as in his example, on the shoulders of industry, Mr. Ford stated.

"Let the public schools teach children to read and write," he urged. "Then industry should take them up. Industry should regard such action as a pleasure, for it is a great privilege."

SUNSHINE MELLOWS

The advice of your physician is: Keep out of doors, in the open air, breathe deeply; take plenty of exercise in the mellow sunshine, and have a periodic check-up on the health of your body.

Heat Purifies

LUCKIES are always kind to your throat

Everyone knows that sunshine mellows—that's why the "TOASTING" process includes the use of the Ultra Violet Rays. LUCKY STRIKE—made of the finest tobaccos—the Cream of the Crop—THEN—"IT'S TOASTED"—an extra, secret heating process. Harsh irritants present in all raw tobaccos are expelled by "TOASTING." These irritants are sold to others. They are not present in your LUCKY STRIKE. No wonder LUCKIES are always kind to your throat.

ABOUT TOWN

The howling winds of March constitute an added menace from the standpoint of the fire demon, and the public should use more caution than ever in the handling of fire.

The city has been visited by numbers of blazes the last two months. While all of them were of minor importance, they seriously threatened assuming more serious scope and brought everybody face to face with the necessity of keeping a keen watch on their property.

Cigarette smokers should be careful about their stubs this kind of weather. High winds with the aid of inflammable material can easily transform a tiny spark into a conflagration that would cost the city thousands of dollars.

Bear constantly in mind the danger of March winds, and whenever handling fire see that it is kept within safe confines at all times.

The employment situation in the United States is undergoing a decided improvement if we are to accept the statement of this head of President Hoover's emergency committee.

Reports from various areas reflect pronounced gain in building operations which in turn mean additional employment for thousands of men who have roamed the streets the last several months in a futile effort to find work.

Reports of this kind prove gratifying to the public generally, and cause even those who have been seeing the world through blue glasses to take a more hopeful view of the future.

Baseball season has started with the Greenville high school and in a few weeks lovers of the national sport will have the opportunity to witness a mighty fine brand of ball on the local diamond. Coach Brown has a dearth of material on hand, but he hopes to be able to pick a winning team, one that will compete with the girls' basketball team for high honor which they achieved by winning the championship of the Northeastern Athletics conference.

Although the two high school teams presented the city with the finest brand of ball seen here in years, they failed to receive the sport expected. Attendance at all of the games was exceedingly all, and this caused the school face the baseball season with a ctitely empty purse.

This building operations in this are small compared with past years. It is gratifying to everybody that improvements are being made in different parts of the city. Several residences are being built at this time, and it is reported that others will be built during the summer months. Along with this comes the information that building operations in other lines, that will give employment to the jobless and result in the circulation of more money among the merchants.

Activities of this kind have a tendency to instill new hope in the heart of the citizenship and causes everybody to look more optimistically toward the future.

This week has been denominated as "Round-up-week" by members of the Pitt County Post of the American Legion, and it is the object of the organization to increase its membership as much as possible while the campaign is in progress. The drive was launched at a mass meeting Saturday night at which the commander and a speaker from the capital city told of some of the achievements of the Legion the last several years and urged former service men to help support the organization. It was pointed out that many plans of transcendent importance to the men who served overseas would be considered by the national body the next year, and it is hoped that the veterans will lend their support to the government. The Pitt County Post has been

one of the most active in the state. It has experienced healthy increase in membership from time to time, but there are yet numbers of men who served in the war not connected with the post. With a one hundred per cent membership it was believed the program for the future would be far more effective than otherwise.

Mussolini Halts Cities' Age-Old Levies At Gates

Rome (AP)—Jealously-guarded heritage of the middle ages, municipal import duties have disappeared in Italy on order of Mussolini.

Greece is the only country of Europe where duties are still charged at the city gates on incoming shipments of goods. One of the chief annoyances of American tourists in Italy has thus been removed. The traveler who comes into a corporate city by the open road no longer is stopped at the corporation line, his baggage examined, and duty imposed. And the merchant and farmer now pass directly into the city with their merchandise or vegetables without paying duty.

The city customs police have gone into other employment, and their little stations beside the road are abandoned. The customs police at the railroad stations have also disappeared.

The government has instituted a consumption tax to take the place of the old "octroi" or "dazio." The list of objects formerly taxable at the boundaries of Rome filled a booklet of 20 pages. The list began with wine and ended with toys.

Meat was divided into three qualities, good, not-so-good, and frozen, which paid different rates. Household furniture, building materials, cloth, rubber, phonographs, umbrellas, bottles, hot water heaters, almost everything under the sun, was taxed.

Day of Prayer at the Presbyterian Church

All Christian people in Greenville who believe in prayer, and the meeting together of God's people for prayer, are invited to join in the DAY OF PRAYER which is to be held in the Presbyterian church tomorrow, Wednesday, beginning at 11 a. m., and continuing all day, closing with a service at 7:30 p. m. The services throughout the day are to be devoted to prayer for National State, Community, Church, and individual needs.

Anyone may come at any hour of the day, stay for as long as he may wish, offer prayer himself, ask for prayer, pray silently or audibly, and leave or remain, as he pleases. The pastor or some one or more, will be in the church all day to direct the worship. All Christians of all denominations, all people who feel the need of prayer, are invited and will be welcomed. It is hoped that many will come to pray for the revival meetings that are to be held in the city soon. If you believe in God, if you believe in prayer, if you are in earnest in wanting a great revival, come and let us pray about it.

ROTES HONOR ST. PATRICK

Interesting Program Dealing With St. Patrick's Day Rendered Last Night

Members of the Greenville Rotary club have a more complete understanding of what St. Patrick means to the Irish and the world generally as a result of their program last night dealing with St. Patrick's Day.

President J. H. Waldrop presided and the program was in charge of Howard McGinnis, member of the faculty of East Carolina Teachers College, who is a descendant of Irish ancestry. The usual supper, which was also in keeping with the program, was enjoyed.

Miss Bessie Brown delighted the Rotarians with a series of Irish songs. She was accompanied at the piano by Mrs. Cooper Taylor.

Three students of the college gave interesting descriptions dealing with St. Patrick's Day.

Miss Rachel McKee presented a sketch of the history of Ireland.

Miss Marguerite McGinnis told the story of St. Patrick. Miss Estelle McClees gave the legend of the Blarney Stone.

Each of the talks was of an interesting nature and contained a mass of information dealing with the subjects.

Betty Coed Better Than Predecessors

Ashland, Ohio, March 17.—(AP)—Betty Coed of 1931 is a better girl physically than Betty Coed of 50 years ago. She weighs more, is taller, and has a greater lung capacity and chest girth.

This was revealed today by Dr. Edwin E. Jacobs, president of Ashland College, who during the last 15 years, has studied the physical measurements taken of 6,000 girl freshmen in five institutions of higher learning during the last half century. The ages of the girls measured were approximately 18 or 19 years.

Dr. Jacobs' analysis indicated that the improvement has been steady.

He said that the causes for increased vigor perhaps are:

"1. College girls may now be coming from a different stratum of society than formerly.

"2. Previous improved high school training in physical education may have its effect.

"3. General health conditions of all homes are better than formerly.

"4. It may also be that the general physical vigor of this part of the population is improving.

"5. Or it may be that more vigorous and robust girls are getting out for college rather than the weaker ones, for there can be no doubt but that modern college life appeals more and more to the vigorous girl."

TWENTY-FIVE PERSONS BELIEVED TO HAVE PERISHED IN EXPLOSION ON BOAT

the warmth of the dwelling provide.

Most of the men were in their berths, although a few had retired, Captain Kean said. There was a terrific explosion, the cause of which has not yet been determined. Many were thrown from their berths and others were thrown to the deck. The ship was plunged into darkness.

The men in the forward part of the ship, Captain Kean believes, escaped injury and were able to get off the craft and on to the ice. Those aft, however, were less fortunate. The explosion appeared to tear the rear of the boat to pieces. In the shadowy light of the night motionless forms could be seen on the ice floes, and cries for help were heard.

Fire broke out, discouraging the efforts of some of the men to salvage personal possessions. Billowing smoke swept across the ice as the 50-year-old Viking was cremated in the ice fields through which it has ploughed so many decades.

Friends of Frissell here said it was more than likely that the young explorer was quartered aft and therefore in a section where the full force of the explosion was felt. There was nothing, however, to indicate that he was aft at the time of the blast.

Plan Consolidation of Vets Hospitals Whenever Possible

Washington, March 17.—(AP)—Laying down a plan for consolidation of veterans activities in the different areas when ever feasible, the Veterans Bureau announced today that whenever possible soldiers home units would be built in connection with existing hospitals instead of as separate units.

The board of hospitalization made the announcement in making known plans for construction in the northwest Pacific states.

Congress at the last session authorized \$20,000,000 for Soldiers Homes and hospitals. The Pacific Coast projects will cost \$2,100,000. The remainder is yet to be allocated.

The new policy, which has been approved by President Hoover, was announced as follows:

"That consolidation of all veterans activities in a given area at a given point be made whenever the location and the facilities are of such a character as to make combinations feasible and desirable having in mind convenience to the veteran and economy to the government. This policy would be in accord with the Act consolidating all veterans activities in one Federal agency, the Veterans Administration.

"That, whenever it is feasible to add to an existing veterans hospital, domiciliary facilities and there, by bringing about a combined unit such action be taken. Such future utilization of suitable existing facilities for the purpose of providing domiciliary care would be in accordance with and economically carry out the government's long existing policy of making provision for veterans who are unable to carry on due either to disability or age.

"The additional separate units be established only for those areas where existing facilities are not suitable located or for other reasons are inadequate or unsatisfactory."

Charlotte Firm GETS HIGH CONTRACT

Washington, March 17.—(AP)—A contract for beacon lights on the Florence-Richmond section of the airway between Florida and Virginia had been awarded to R. H. Bouligny, Inc., of Charlotte, N. C., for \$24,711. Twenty revolving beacons and one electric code beacon will be distributed along the 260 miles airway within six months later in the week.

Plan to Consider Consolidation of Colleges Tuesday

Asheville, March 17.—(AP)—A meeting for the purpose of considering the consolidation of Weaver College at Weaverville and Rutherford College at Connelly Springs, both supported by the Methodist church in North Carolina, will be held by the Board of Trustees of Weaver College at the Central Methodist church here at 2 o'clock tomorrow afternoon. It was announced today by Dr. C. H. Thowbridge, president.

The meeting will be attended by a delegation of six Weaverville citizens. This delegation includes John V. Erskin, chairman, J. S. Coleman, Oscar D. Brown, Marion Youst, W. W. Shope and J. J. Regan.

Plans for the consolidation of the two units originated in the Western North Carolina Conference of the Methodist church at Greensboro last November when a committee was appointed to study the advisability of such a merger as an economy measure and at the same time increase the efficiency of both institutions. Dr. Thowbridge of Weaver College today said he is of the opinion that some form of consolidation will result from the trustee meeting tomorrow and a meeting of the merger committee.

Ruth Nichols Sets New Mark for the Women

Washington, March 17.—(AP)—The National Aeronautic Association today approved 28,743 feet, attained by Miss Ruth Nichols on March 6, as the new altitude record for women.

The records are being forwarded to the Federation Aeronautic Internationale at Paris for acceptance as the new international record.

Miss Nichols made her flight over Jersey City more than a week ago. She exceeded the record established a year ago by Miss Ellisor Smith who attained a height of 27,417 feet in a flight over Roosevelt Field on Long Island, N. Y.

Since Miss Nichols made her flight, Miss Frankie G. Renner, after a flight above Akron, Ohio, claimed she had soared more than six miles into the air. Her instruments are now being calibrated.

SEN. JOHNSON TALKS POLITICS

Washington, March 17.—(AP)—Senator Johnson today in an afterthought of the recent progressive conference and attacks by a Republican and a Democrat on party leadership.

In a statement interpreted as a suggestion that some one other than President Hoover be nominated by his party, Senator Johnson, Republican, California, yesterday expressed his opinion in these words:

"There is something radically wrong somewhere. Somebody should ascertain what it is."

He said Republican critics of the progressive should think twice before they talk.

At the same time a Kansas Democrat, Representative Ayres, deplored a possible division in his party on prohibition and asked for repudiation of the state liquor control plank suggested by Chairman Raskob to prevent such an eventuality.

"This is the time when the Democratic party must establish a new economic system as its dominant issue," he said.

The Kansan, however, did not indicate he would favor the nomination of either a "wet" or "dry" to head his party ticket. He said a president has no more to do with "whether the Eighteenth Amendment shall be retained, modified or repealed than any private citizen."

Seek Aid of Hoover In N. Y. Inquiry

New York, March 17.—(AP)—The New York Herald Tribune today said W. Kingsland Macy, Republican state chairman, had gone to Washington to seek President Hoover's support of a legislative investigation of the city government.

Mr. Macy will appeal to the President, the paper said, to persuade William L. Ward, Republican leader of Westchester county to withdraw his opposition to a resolution pending in the State Senate. Senators Seabury C. Mastick and Walter W. Westall thus far have blockaded passage of the measure, purportedly under orders from Mr. Ward.

The New York Times said the State Democratic party had been split into three factions by the agitation for an inquiry. They were named as the leading Tammany group headed by John P. Curry, the supporters of Governor Franklin D. Roosevelt and the followers of former Governor Alfred E. Smith.

President Hoover To Begin Ten-Day Vacation Thursday

Washington, March 17.—(AP)—Aboard the rejuvenated battleship Arizona, President Hoover will embark Thursday on a 10-day vacation to Caribbean islands of sanguinary history, mystery and romance.

Leaving the capital tomorrow night he expects to reach Norfolk, Va., in time to have breakfast aboard the just-modernized battleship, which immediately will hoist anchor for Porto Rico and the Virgin Islands.

On the ship with the President are to be secretaries Hurley and Wilbur whose departments have jurisdiction respectively over Porto Rico and the Virgin Islands. Mrs. Hoover has decided to spend 10 days with her convalescent son, Herbert Hoover, Jr., at Asheville, N. C.

The first vacation the executive has taken in more than a year calls for a two-day stop in Porto Rico and a conference with Governor Theodore Roosevelt. The party will make a motor trip across the small island to Ponce, named for the seeker of the fountain of youth, Ponce De Leon, one of the first explorers.

After Porto Rico will come the Virgin Islands, 80 miles east, 16th, 17th and 18th century centers of pirates who made life miserable for gold-laden Spanish galleons. There the President will confer with the new civil governor, Paul M. Pearson and possibly inspect a St. Thomas castle built by Edward Teach, sea rover, better known as "Blackbeard."

Outside of the two conferences, the time will be devoted to sight-seeing, rest and relaxation.

Three Men Jailed On Hold-up Charge

Fayetteville, W. Va., March 17.—(AP)—Three men, charged with participating in two hold-ups, one of which resulted in the wounding of a storekeeper, were in the Fayette County jail today awaiting a hearing before a magistrate.

The men gave their names as O'Dell McGaha, of Newport, Tennessee, and Roy Leatherwood and Horace Sutton, of Mount Sterling, North Carolina. State police said they had been identified as the men who held up the store of William Riccardi, at Boomer Sunday and shot Riccardi when he cried for help. Riccardi's injuries were not considered serious.

State police said Leatherwood and McGaha also had been identified as two men who held up a filling station near Gauley Bridge and Sutton had been identified as a man who waited for them in an automobile.

800 Miles of Highway. Havana—The longest stretch of modern highway in the world is claimed by Cuba. It extends nearly 800 miles from the western extremity to the eastern end and cost \$100,000,000. Named La Carretera Central, it soon will be opened to traffic.

Col. Joe Robinson Dies At Goldsboro; Burial Wednesday

Goldsboro, March 17.—(AP)—Joseph T. Robinson, 77, for 44 years editor of the Goldsboro Daily Argus until his retirement two years ago, died early today from complications resulting from influenza.

Funeral services will be held at 11 A. M. Wednesday at St. Mary's Catholic church here.

The veteran editor was an alumnus of the University of North Carolina, where he studied law, and was admitted to the bar at the same time as the late Governor Charles B. Aycock, but abandoned the bar for a newspaper career.

He is survived by his widow, who was Miss Ada Humphrey before her marriage and a sister, Mrs. Morris, of Goldsboro. W. S. O. Robinson, prominent Charlotte lawyer, is a nephew.

Thinks Someone Other Than Hoover Should Be Nominated By His Party

Washington, March 17.—(AP)—Senator Johnson today in an afterthought of the recent progressive conference and attacks by a Republican and a Democrat on party leadership.

In a statement interpreted as a suggestion that some one other than President Hoover be nominated by his party, Senator Johnson, Republican, California, yesterday expressed his opinion in these words:

"There is something radically wrong somewhere. Somebody should ascertain what it is."

He said Republican critics of the progressive should think twice before they talk.

Peggy Ann Hoover Spends Birthday With Her Father

Asheville, March 17.—(AP)—Peggy Ann Hoover, granddaughter of the president, arrived in Asheville today to spend her sixth birthday with her father, Herbert Hoover, Jr., whom she has not seen for six months.

Her nurse and her little brother, Herbert Hoover, III, accompanied the demure Miss on the overnight trip from Washington where she has been staying with her grandparents.

They stepped from the train, entered a waiting automobile and were whisked to Blue Briar cottage, their father's home here where he has been recuperating for the past five months from an illness.

Epiphany of Fractures.

Sea Cliff, N. Y.—There's an epidemic of fractures in the Bell family. Albert Bell, Jr., broke one arm in an auto accident. His sister, Constance, broke one in a fall. Their grandmother, Mrs. Charles W. Bell, suffered a fractured vertebrae in a car crash. Then their father, Dr. Albert M. Bell, slipped on a golf course and made it three broken arms.

Wanted: A Family Name.

Angora, Turkey—Wanted: a family name by thousands of Turkish men and women. Due to the injunction of Mohammed to scorn ancestry pride, hundreds of them answer only to "Fatma" or "Mustapha." The government has ordered them to end the confusion by the 1932 census.

Snowstorm Sweeps Mid-Atlantic States

New York, March 17.—(AP)—Beleagued snow today whiffed some of the mid-Atlantic states, which ordinarily on St. Patrick's day are getting green from growing grass. The forecast was for extension of the snow into New York state and New England with a gale along the coast.

Snow was five inches deep in the suburbs of Baltimore. The fall was heavier still in other parts of Maryland.

Snow in the suburbs of Philadelphia this morning was an inch or so deep.

Southern New Jersey was white for the first time this winter.

Washington had a fall of three-quarters of an inch which did not stay in sight long.

ROBINS SET RAPID PACE IN TRAINING

Clearwater, Fla., March 17.—(AP)—Picture a portly, kindly-looking old gentleman with a twinkle in his eye, a chew of tobacco in his jaw, instilling ferocity into a band of baseball hijackers and you have an idea what your uncle Wilbert Robbinson is doing with his Brooklyn boys.

In his waning but fulsome days, Uncle Robbie has developed the killer instinct. Lively ball or no lively ball, the Robbie says you can't tell the difference. He has put together a beefy collection of sluggers calculated to strike fear into the opposition.

The outfield, composed of Lefty O'Doul, Babe Herman and Johnny Frederick, averaged .370 at bat last year and should do as well or better this year. Frederick and Herman are still on the upgrade as ball players.

The regular infield, consisting of Captain Glenn Wright at short, Wally Gilbert on third, Thompson at second and Del Blissette on first, also averages over .300 at the plate.

Tampa Al Lopez, catching sensation of 1930, hit for .308 and should do many notches higher. His 210 pound understudy, Ernest Lombardi, hit .370 with Oakland of the Pacific Coast league last season.

With a sort of ferocious gleam, Uncle Robbie watches these fellows go up to the plate, and as he says "rattle the bats." He expects his youngsters to hold their own in an exchange of war clubs.

They will find the competition keen enough, for every club in the National league was already shown or is fast developing batting.

The pitching defense may not be the best in the league but it is close to it. The high priced Dazy Vance, William Watson Clark, Adolfo Luque, Ray (Babe) Phelps who won 14 games in his first major league season; Hollis Thurston and Ray Moss composed the principal firing line. Old John Pius Quinn and his spittball promise to be helpful. Phil Gallivan, star youngster from Macon, is the best of the new comers.

The Robbies have the essentials of punch, pitching and leadership to make them pennant factors every step of the way.

GAR WOOD TO SEEK WORLD SPEEDBOAT MARK

Gar Wood, shown in his newest speedboat, Miss America IX, will attempt to set a world record of 100 miles an hour at Miami Beach, Fla. Because of motor trouble he will not try for the record at the Miami Beach regatta March 17-18, but will make attempt as soon as engine changes are completed.

Wood to Race With Plane in Regatta

Miami Beach, Fla., March 17.—(AP)—Speedboat enthusiasts from Gar Wood, king of American drivers, to pilots of the smallest outboard craft were ready today for the first day's program of the annual Biscayne Bay regatta offering 17 events.

Wood planned to drive his Miss America IX, latest of a long line of Miss Americas in a trial run against an airplane piloted by Duke Schiller as one of the features of the afternoon's program. Wood hopes to establish a new speed record with the Miss America IX, but has not set a definite time for the speed trial.

Cylinder trouble which developed during test runs last week caused the speedboat ace to install a new engine on the port side of the Miss America IX, but he announced his craft was in readiness for the run today.

Heats for Class A and Class B outboards will provide plenty of competition for the drivers of the tiny racing boats during the day.

GABBY IN HANDS OF THE LAW

The law reached out and grabbed Gaby Street, St. Louis Cardinal manager, but in the form of an official welcome. Police Chief W. S. Young extended best wishes to the Cards' pilot and his flock as they opened spring training at their Bradenton, Fla., camp.

News From The Training Camp

San Antonio, Texas.—"Memphis Bill" Terry, slugging first baseman of the New York Giants, has arrived in camp just in time to catch a mild attack of tonsillitis.

St. Petersburg, Fla.—Vernon Gomez, the man with the 1,300 worth of bridge work in his mouth, is one pitcher Joe McCarthy thinks will be a big help to the New York Yankees this year. Gomez this season is putting the ball where he wants it.

Clearwater, Fla.—Babe Hamburger is all set for a trip to Havana and thereby hangs a drama entitled "the ball players' generosity."

Babe is the clubhouse boy for the Brooklyn Robins and a few days ago he was told he could not be taken on the Robins' forthcoming trip to Cuba. The players dug up enough to pay his fare.

Port Myers, Fla.—The new ball with the elevated stitching won't change the style of attack very much, in the opinion of Connie Mack, manager of the Athletics. Mack is not stressing base-running because he thinks there will be no decided change in the attacking system this year.

West Palm Beach, Fla.—Infielder Lin Storti, up from the Texas league, has added one more problem to the already sizeable supply of Manager Bill Killefer of the St. Louis Browns. Killefer had about decided on Oscar Melillo for second, Jim Levey for short and "Red" Kress for third, but Storti has been doing so well at all three places lately that Skipper Bill doesn't know what he'll do about it.

Bradenton, Fla.—Despite a denial from the "big boys," members of the St. Louis Cardinals, especially the outfielders wondered today whether a deal between the Cardinals and the Cincinnati Reds was in the making. Manager Dan Howley of the Reds visited camp yesterday, supposedly in search of an outfielder. President Sam Breadon of the Cards said no deal was pending.

San Francisco.—One of those California-Florida climate feuds is threatening to embroil Manager Jewel Eiss of the Pittsburgh Pirates. California thumbed figurative suspenders upon hearing that Eiss has built up Outfielder Lloyd Waner's weight by having him take sun baths. For that matter, Outfielder Adam Comorosky, Pitcher Charley Wood and others have been prescribed the same tonic.

But here's the rub—Eiss says he got the idea at Palm Beach.

New Orleans.—(AP)—The lure of baseball has proven too strong for Eddie Morgan. The young slugging first baseman of the Cleveland Indians signed his contract last night and shelved his ambition to manufacture boxes for the summer at least.

San Francisco.—Page Tyrus Raymond Cobb! Harvey Walker and Brother Gerald singled, Harvey sprinted for third, Gerald made for second, Harvey stole home, and Gerald arrived safely at third on the play at plate. There are old-timers in Detroit who remember when Cobb used to try that racy stuff—and get away with it. The Walker boys are rookie outfielders with the Tigers.

Los Angeles.—As far as Rogers Hornsby is concerned, a couple of lopsided victories over the Los Angeles Pacific Coast league club is no cause for excitement among the Chicago Cubs. The new Cub pilot is not particularly pleased with the work of William Wrigley's team because he considers the calibre of opposition to have been extremely weak.

Biloxie, Miss.—The pitchers already have been selected for the Washington Senators' game tomorrow at Gulfport with the Baltimore Orioles—Carl Fischer, Lynn Griffin and Wally Taucher.

St. Petersburg.—No more top-heavy schedules of spring exhibition games for the Braves. Manager Bill McKechnie says that they sure help to reduce training expenses but these heavy schedules are a big handicap to a team's development.

Bobby Jones Will Meet Von Elm In Charity Exhibition

San Diego, Cal., March 17.—(AP)—Bobby Jones, golf's king, will meet one of his greatest rivals of amateur days, George Von Elm, now a professional, in a charity exhibition match at the Agua Caliente Golf club Sunday, March 29. Jones will pair with Leo Diegel, former National professional golf champion, now pro at the Agua Caliente club, against Von Elm and Mortie Dutra, professional of the Virginia Country Club, Long Beach.

The match will be 18 holes. Proceeds will be devoted to charity.

SPORTS SLANTS

It seemed quite appropriate to put the first news inquiries about this much-discussed thicker-covered and heavier-stitched major league baseball to no less an authority than Robert Moses Grove, the fire-ball kid himself.

Connie Mack's ace southpaw, on his way to the outfield to snag flies, stopped to explain: "I don't really think this new ball will make much difference, other than to the pitchers or the batter."

He said that Jimmy Fox drove toward the fence and the ball traveled with all its primary velocity after leaving this slugger's bat.

"Of course you can't tell in a week or so down here what the effect may be on the game as a whole," Grove went on. "The only thing I know is it doesn't seem much difference to me. The weight is the same and that's the main thing. It may help some pitchers in better control but control is one of those things you can have with any kind of a ball—if you have it."

In short, Robert Moses thinks a whole lot more has been said about the new ball than seems necessary.

It will be recalled that one of the other outstanding stars of Mack's cast, Harry Aloysius Simmons, delayed signing a contract last season until the day of the opening game, then went out to celebrate by pasting a home run into the outer reaches of Shibe Park.

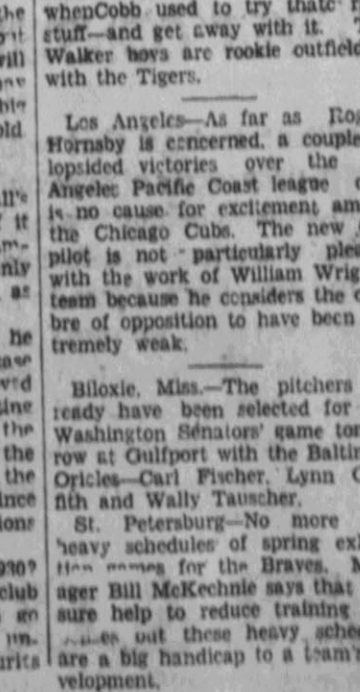

Al has not signed for 1931, although he is in training at Hot Springs, and it may be he will choose to wait until the eleventh hour again, having made a success of this stunt once.

Mack seems undisturbed by the attitude of his great outfielder but neither is he altogether sure it will be easy to come to terms. It may take a little debate but the big run of the A's will be in the fold nevertheless.

Gabby Street is one of baseball's optimists but the funny part of it is that the manager of the champion Cardinals is not so openly enthusiastic this year in camp as he was last winter.

The reason probably is that he doesn't need to make a good case for himself and his club. He proved last year he was not exaggerating his prospects. Having won the National league flag and given the American league champions the closest fight they have had since 1924, Gabby has no explanations or apologies to make.

Adults Contract Children's Diseases

Adults can, and do, contract many children's diseases. And, usually, they suffer from them much more than children do. For instance, many adults contract worms, an ailment usually associated with children. Sometimes they suffer intensely and take expensive medical treatments, without realizing that worms are the cause of their troubles. Yet, the symptoms are the same as in children, loss of appetite and weight, grinding the teeth and restless sleep, itching of the nose and ears, and abdominal pain. And, the same medicine that cures and kills worms in children will do the same for adults—White's Cream Vermifuge, which you can get at

SOON REGAINED HER STRENGTH

Felt Like She Was Going to Get Down In Bed, But Cardui Helped.

Outbursts, Ky.—"Some years ago my health was very bad," writes Mrs. Thomas Estlin, of this place.

"I was thin and pale. I thought I was going to get down in bed. I felt tired and worn.

"I read where Cardui was a good tonic for weak women, and decided to take it. After my first bottle, I felt better and had a better appetite, so kept it up. By the time I had taken three bottles, I was so much better and stronger that I was able to leave it off.

"Since then in the spring when I feel run-down and need a tonic, I send for Cardui, and by the time I take two or three bottles I have regained my strength and feel like new. I have never found a better tonic and I recommend it to my friends."

"Thousands of other women have taken Cardui to help them to build up their health. The good reports which have been received, telling of the experience of others, should encourage you to try Cardui for your troubles."

Market Report Cotton--Stocks--Grain

COTTON MARKET

New York, March 17.—(AP)—Cotton opened steady today 4 to 7 points higher opening owing to a show of firmness in the Liverpool and Egyptian markets and on moderate buying by the trade and commission houses.

The demand proved of rather small proportions, however, and after advancing to 11.12 for May, a gain of 8 points, and 11.66 for October, a gain of 6 points, the market reacted partially. May selling down to 11.06 and October to 11.62. Houses with New Orleans connections and the south were on the selling side and buyers were inclined to hesitate on a rally of about 40 points from the recent low level.

Liverpool cabled that the advance there had been due to Continental and Bombay buying on the firmness in Alexandria and that Manchester was more cheerful with evidences of a broadening home and export demand for cotton cloth.

GRAIN MARKET

Chicago, March 17.—(AP)—Late selling which developed on price surges in wheat had a bearish effect on all grains today near the close. Favorable crop reports about domestic winter wheat came from the southwest and North American export dealings were apparently at a standstill. Government sponsored agencies were said to have offered wheat abroad but effected no sales.

STOCK MARKET

New York, March 17.—(AP)—Bull leaders in today's stock market found Wall street stubbornly refusing to ignore the current low level of corporate profits, despite promises of improvement later in the year.

Bullishness developed some aggressiveness during the morning, but selling of the electrical equipment and rail issues unsettled the market by mid-day. A somewhat cheerless report by the president of the Missouri-Kansas-Texas, in announcing discontinuance of dividends on the common stock, initiated last year, was a bearish influence.

During the morning, several of the utility, food and merchandising issues worked substantially higher. Public Service of N. J., and General Foods each rose 2 points to the best levels of the year, and other issues rising a point or two included U. S. Steel, American Can, American Telephone, Electric Autolite, International Nickel, Woolworth, Case and Byers. These gains were modified, however, as Westinghouse and Baltimore and Ohio lost 2 points each, and Eastman and Columbian Carbon about 4. General Electric off a point.

Reading Clerk Strikes a Snag

Raleigh, March 17.—(AP)—Fritz Smith, Senate reading clerk, has wagged his tongue through many bills containing all kinds of legal and technical words to the satisfaction of the members of the upper House but at last he was stumped—and who besides a doctor would not have been?

Senator Burrus of High Point author of the bill amending the workmen's compensation Act to include occupational diseases, had to relieve Clerk Smith and read his own bill. "Ankylosomiasis, Amido-derivatives, tetracholormenthan gonima amasil, mystagams, buretis" were some of the medical terms in the measure.

Blames Lack of Discipline for Defeat

London, March 17.—(AP)—The Labor Government today blamed lack of party discipline for a defeat in the Commons last night on a minor clause of the electoral reform bill, 246 to 242. The defeat brought cries of "Resign! Resign!"

The ministry will not resign but steps will be taken to insure members being in their seats for future divisions. Absence of sixteen unpaired Labor members last night may be called officially to attention of their constituents.

The presence of the sixteen would have prevented the government defeat.

NEW STUDIOS FOR KMOX WILL HANG FROM SPRINGS

St. Louis.—(AP)—New studios and equipment have been contracted for in the St. Louis Mart building, now under construction, by station KMOX.

The studios, three times as large as the present suite, will cost about \$250,000 and occupy space on two floors.

All will be suspended by steel springs from structural members of the building, with adjustable ceilings for required acoustic effects. One of the six rooms will contain seats for 600 persons; another will be constructed to be used for a stage if desired.

MOTION TO ADJOURN LEGISLATURE AT ONCE DECLARED OUT OF ORDER

(Continued from page one)
The motion would be Democratic even in years like 1928.

Senator Folger of Surry, favored a division of the old fifth which would leave the western section of the district free to choose a new congressman, placing the home county of Congressman Hancock in the eastern section of the split district.

The major cause of debate was the effort to take Vance from the fourth district and place it in the new fifth. Representative Crudup of Vance opposed this movement and by the aid of his fellow House members on the committee won his point.

Former Speaker of the House A.

H. Graham of Orange, asked the committee to leave his home county in the same district with Durham and Orange. This would not have been done under the original plan of Senator Folger.
