CAPITAL OF NICARAGUA DEVASTATED BY QUAKE

Knute Rockne Killed In Passenger Plane Crash Near Small Kansas Town

Seven Others Meet Death As Trans-Continental and Western Airplane Crashes to Earth in Flames in Pasture Several Miles Southwest of Bazar, Kan.; Investigation Begins in Effort to Identify All Victims of the Accident

Kansas City, March 31.—(AP)—Knute Rockne, famous football coach of Notre Dame University, and seven others were killed when a Trans-Continental and Western Air passenger and air mail plane crashed in flames today in a pasture several miles southwest of Bazar, Kansas.

Rockne boarded the plane here enroute to California at 9:15 a. m., and about 11 a. m., the ship, identified by its department of commerce license number, crashed and burned as it fought a fur and storm enroute to Wichita, Kas.

The body of Rockne and the other victims had not been definitely identified at the scene but it was certain the noted coach was a passenger on the wrecked air liner and that all those aboard had been killed.

The passenger list announced here: Knute Rockne, H. J. Christensen, Chicago; J. H. Hooper, Chicago; W. B. Miller, Hartford, Conn.; F. Goldthwaite, New York; C. A. Lohreth, Chicago.

The pilots were Robert Fry and Jess Mathias.

The plane exploded in mid-air and fell to earth in flames, witnesses said.

Edward Baker witnessed the explosion and saw the plane as he was feeding cattle in the pasture a short distance away from the farm of his father, Edward Baker.

He notified an undertaking establishment at Cottonwood Falls. Ambulances rushed to the scene over muddy roads which impeded their progress.

New York, March 31.—(AP)—The death of Knute Rockne, striking the sports world in general and the football ranks in particular like a thunderbolt, came as the famous coach's career was at its very peak.

Only just passed his 43rd birthday, the wizard of Notre Dame had sent his last two football teams through unbeaten seasons to national championships, climaxed by the sensational victory of his 1930 eleven over Southern California at Los Angeles last December.

His genius was at its height, his system of gridiron teaching the most widespread in the country and this spring adopted almost everywhere at Yale, and his fame as far-flung in the great college sport as was that of Babe Ruth in baseball, Bobby Jones in Golf or Bill Tilden in tennis.

Only a few weeks ago, Rockne on a radio interview with the sports editor of the Associated Press at Miami, Florida, laughed at the inevitability of Notre Dame football teams and remarked:

"We will be lucky if we do not get trimmed three or four times this season."

He went to Miami for a rest, looking to be in the pink of health, despite a strenuous country-wide tour in which he concentrated on giving " pep talks " to the salesmen of the Studebaker Corporation, with which "Rock" was connected as a promotion manager.

Rockne had hopped from Atlanta via Jacksonville, to Miami by air-plane to get as much time for rest as possible.

"What's the use of wasting time on trains and automobiles," he grinned. "This is a fast day and age. I've got to get around to do things and reach places."

INJURED BY FLORIDA TORNADO

Winter Haven, Fla., March 31.—(AP)—A tornado struck this city shortly before noon today and injured six persons.

The storm swept a path 300 feet wide. The injured were trapped in a house that was demolished near Lake Odis, nearby.

Several houses were unroofed and the sides were torn from others. Hundreds of citrus trees were blown down.

SENATE KILLS CHERRY BILL

Body Passes Amended Substitute Resolution for the Newman Bus Bill

Raleigh, March 31.—(AP)—The State Senate today passed its amended substitute for the Newman bus bill and then killed the Cherry proposal to re-write the state banking laws. The body then passed the Seawell bill creating a new banking department separate from the Corporation Commissioner, 29 to 20 on second reading.

The Newman bill passed its second reading last night on a roll call vote but was approved today without opposition. The measure must go back to the House as it differs materially from the bill passed there.

Addition of the Clarkson amendment last night removed some 2,000 contract carriers from the regulation of the Corporation Commissioner under the act, leaving it to apply only to common carriers or vehicles operating under franchise. The act permits the Corporation Commissioner to enforce stricter rules governing operation rates, schedules and other features of motor transportation.

The Cherry bill primarily intended to strengthen and bring up-to-date the state's antiquated laws relating to trust banking, met opposition from Senator Folger of Surry and a number of others who showed by questions that they opposed the act before it was killed 20 to 18.

This afternoon the joint appropriations committee of the assembly will meet to attempt to complete the draft of the 1931-33 appropriations bill.

The House today passed the White bill to name justices of the peace in practically every county in the state, adding more than 100 names to the original measure introduced 10 days ago.

GIVE \$861,175 TO HOSPITALS

North and South Carolina Institutions Receive Gift From Duke Foundation.

Charlotte, March 31.—(AP)—Distribution of \$861,175 to 144 hospitals and orphanages in North Carolina and South Carolina by the Duke Endowment was announced here today at the conclusion of the annual meeting of the board of trustees.

Checks for the amounts allotted will be mailed immediately to the institutions.

A total of \$714,453 was appropriated to 100 hospitals while 44 orphanages were given a total of \$146,722.

Disbursement of the sum brought to \$5,084,218 the grand total of distributions from the endowment since it began operations six years ago.

Sixty-seven hospitals and 30 orphanages in North Carolina received \$443,018 and \$98,441 respectively in today's allotments while 33 hospitals and 14 orphanages in South Carolina received \$271,433 and \$48,281 respectively.

North Carolina hospitals receiving funds included: Anson Sanatorium, Wadesboro, \$4,491; Baker Sanatorium, Lumberton, \$6,043; Mission Hospital, Asheville, \$7,388; Aston Park Hospital, Asheville, \$6,263; City Memorial Hospital, Winston-Salem, \$16,050; Gaston County Colored Hospital, Gastonia, \$5,737; Grace Hospital, Morgantown, \$4,348; Highsmith Hospital, Fayetteville, \$8,013; Lowrance Hospital, Mooresville, \$4,966; Moore County Hospital, Pinehurst, \$5,737; North Carolina Baptist Hospital, Winston-Salem, \$11,208; Rex Hospital, Raleigh, \$10,485; Richardson Hospital, Greensboro, \$6,087; Rutherford Hospital, Rutherfordton, \$6,086; St. Agnes Hospital, Raleigh, \$13,000.

Gun-Girl Gives Up

Tired of playing the game for the rest of the gang, Mary Kovack, 17, telephoned Philadelphia police to come and get her and then confessed, police said, to seven holdups.

ROTES HOSTS TO CHILDREN

Entertaining Program Dealing With Boys' Work Marks Regular Weekly Meeting

Tremendous importance is attached to the moral and physical development of the youth of the community, members of the Rotary club were told last night by two men who are engaged in activities among the children of the city.

The speakers were Billy Brown, athletic coach of the Greenville High School and Albert Osborne, director of the Hi-Y and Friendly Indian organizations.

The addresses came as crowning features to the annual celebration of father and son's night and gave the Rotarians and their offspring considerable information concerning the activities launched in behalf of the young people.

J. H. Waldrop, president of the session and J. H. Rose, chairman of the Boys' Work committee, were in charge of the program. Practically every member of the club brought along a son, and if he didn't have one he either brought a daughter or borrowed a son. The youngsters, ranging all the way from 3 to 21 years of age, listened intently to what the speakers had to say and were evidently greatly impressed with what their fathers are doing to produce a higher type of young men and women.

Coach Brown told of what the High School athletic department is trying to do for the physical development of the young men who go and come with the Rotarians to the school all support possible in its work.

He said they were working with the idea of creating clean minds in clean bodies, and attempting to impress upon the youngsters that well trained bodies are just as necessary in the strenuous race of life as well developed minds. In that the mind cannot be expected to function accurately, easily and efficiently unless supported by a strong sound body.

He said it was one of the prime objects of athletics to give every youth a chance for development, and that in many instances deserving young men were snatched from mediocrity and given their rightful places in business and society. He declared the boys needed encouragement to rise above their circumstances, and asked the Rotarians to give their best to the support of the athletic department of the high school and in that way let the youngsters know the world is watching them in their attempt to climb the shining ladder leading to the hall of fame.

Mr. Osborne, whose work among the young of the city has been very outstanding the last three months, spoke briefly of what he is attempting to do for the young people. He related that three hundred children were under his

WRIGLEY TO AID GROWERS OF COTTON

Plans Involving Millions of Dollars Designed for Economic Relief of South

Chicago, March 31.—(AP)—William Wrigley, Jr., plans to purchase up to 100,000,000 pounds of cotton on the American market in the next months at prices not to exceed 12 cents a pound.

"All remittances from jobbers," Mr. Wrigley, the chewing gum manufacturer, announced today, will be credited to the Wrigley Cotton Investment Fund and cotton will be purchased for delivery in December 1931.

"Our object is to purchase up to 100,000,000 pounds of cotton, thus leaving our cash in the bank."

The project is similar to Mr. Wrigley's offer last year to aid grape producers by accepting shares in the Canadian corporation. From April 1 to December 1, provided cotton does not rise above 12 cents a pound, his company will accept cotton in payment for its products shipped to the south.

The purpose of the plan, Wrigley said, was three fold:

"1.—We do not take cash out of the south, but on the contrary we leave our money in the south, in the south's own coin.

"2.—We believe cotton at 12 cents per pound is a good investment and that we will make money by locking up some of the company's resources in cotton and holding it indefinitely if necessary.

"3.—We believe our plan will relieve to the extent of our ability, a carrying strain on planters, southern business and banks at this critical time in the south's affairs.

"If cotton goes up, as we feel it probable, we will profit. But if it goes down, we become partners with the south, and as such, take our loss with them. Our real object is to let the south pay us in kind—pay in cotton for what the south owes us, and, unless cotton goes up, we propose to invest further of the company's resources in cotton until we actually own one hundred million pounds."

Should cotton go above 12 cents per pound, Mr. Wrigley explained, his company would withdraw.

"There will be no need for us to say in the market should that occur," he said "for the south will then be in a good condition. Our offer only concerns the southern

NEW SEIGE OF COLD IN WEST

Another Snowstorm Promised As Recent Precipitation Begins to Dissipate

Kansas City, March 31.—(AP)—The second snowstorm in a week over the Rocky Mountain area and the adjoining prairie states appeared to be dissipating today, but forecasts indicated another was due to roar out of the northwest.

While snow continue to fall in sections of Oklahoma and Kansas, stockmen in Montana and Wyoming were warned by the United States Weather Bureau against renewal of the storm. Exception of Colorado and New Mexico, unsettled weather and rain was predicted.

The Oklahoma Panhandle was covered with nearly 18 inches of snow which was drifting. Clogged highways and disrupted communication lines threatened further losses to stock through starvation and exposure. In central Oklahoma snow was melting as it fell.

Many communities in western Kansas, where snow fell yesterday, continued in virtual isolation.

Scattered reports of livestock losses continued to filter in. Railroad and commission men estimated the loss would reach several thousand head. Preparations were being made to ship the carcasses to rendering plants here and at Hutchinson. The Santa Fe reported the probable loading of 700 at Syracuse, Kansas.

One death, attributed to the storm, was that of A. L. Leonard, whose body was found yesterday in the Cuny Table district of the South Dakota badlands. Sixteen deaths had been previously reported.

Robbed Of \$25,000

Bound and menaced by two pistol tols, Gertrude Williams, former showgirl, was robbed of jewelry valued at \$25,000 by two men who entered her New York apartment by posing as delivery men.

Robbed of \$25,000 in jewelry, Gertrude Williams, former showgirl, was bound and menaced by two pistol tols, who entered her New York apartment by posing as delivery men.

MARK TIME IN ABRAMS DEATH

Officers Await Report On Analysis of Viscera Sent to Raleigh Yesterday

Pitt County officers marked time today awaiting a report on the chemical analysis of the viscera of the body of Henry Abrams to determine whether or not the man came to his death as result of poison.

The viscera was carried to Raleigh yesterday morning by Sheriff Whitehurst who returned last night without a report. He said it would be impossible for an examination to be made before the latter part of the week, and that nothing definite would be known until the report had been received.

Abrams, aged construction company employee, came to his death from an undertramped cause in Bivort township over two weeks ago. Six men are being held in the county jail here in connection with the case. Three of them, Raymond S'ancill, Francis Bullock and Thomas Hathaway, are held as suspects and the others, Sam Lawrence, Buster Dewell, and Dave Foreman, colored, are detained as material witnesses.

They were arrested several days ago.

Flames Sweeping Across Managua Threatening To Destroy The Entire City

Recover Bodies Of Two Men Entombed In Mine

Coal Glen, N. C., March 31.—(AP)—The mine of the Carolina Coal Company here today had claimed the lives of L. A. Huncyett and his son, Elber, 17, whose deaths made a total of 17 men to perish in the mine within six years.

The bodies of the Huncyetts, who entered the mine Saturday night to operate the pumps, were found last night imprisoned under a cave-in of rock 2,600 feet down the shaft. They were brought to the surface by a rescue crew under the direction of C. A. Wakefield which had worked continuously 36 hours to reach them.

Fifty-three miners lost their lives in an explosion here in May, 1925, and four years later two convicts, being worked in the mine, were killed when a cable lowering them into the workings broke.

The mine had been idle for three weeks, and Huncyett, foreman of a small crew employed to keep it clear of water, went with his son and a third man into the shaft to tend the pumps.

B. H. Garner, who became separated from the Huncyetts, returned safely to the surface Sunday morning, unaware then of the fate of the other two.

Officials of the mine were uncertain what caused the cave-in that entombed Huncyett and his son. Evidence of a local explosion was found but it was not established whether this was responsible for the block.

Shortly after the men went into the shaft Saturday night, an electrical storm and a heavy rain caused a cave-in in the main air shaft and temporarily put the ventilator fan out of order.

Forty Persons Reported Killed and Many Injured By Both Quake and Fire; City Under Martial Law as Firemen Battle Flames and Officials Attempt Rescue Operations; United States Government Rushes Aid to Stricken City; Shock of Short Duration But of Unusual Intensity; All Communication Disrupted

Panama City, March 31.—(AP)—Marty persons were reported to have been killed in a terrific earthquake which devastated the city of Managua, capital of Nicaragua, today.

Tropical radio advices said that the city was under martial law.

The quake which began at 10:30 a. m., was of short duration. It was followed by a fire which started in the market in the center of the town and traveled westward to sweep the entire city.

The Tropical radio operator in Managua reported that the cable office there was in ruins and that the Tropical Company was operating from a plant five miles outside the city.

The seismograph at the Canal Zone registered the quake which appeared of unusual intensity centering in Central America. A complete reading of the record had not been made, but officials said that it was very distinct.

Managua is the capital of Nicaragua and has a population of about 50,000. It is located on Lake Managua, 87 miles from the port of Corinto and 36 miles from Granada. It is an important commercial center and the second largest city in the republic.

The houses are mostly one-story, roofed with red tiles and enjoying inner gardens or patios. Among the principal buildings are the cathedral, national palace, ancient structures of red sandstone, and the presidential palace, a recent hand.

United States Marines have occupied the Campo De Marte, at the southern edge of the city, almost continuously since 1912 but were recently ordered withdrawn.

The city is located on the Pacific Railway. Its importance dates from 1855 when it was chosen as the capital of the province as the result of continuous rivalry between the older cities of Leon and Granada.

It is an important distributing center for points on or near the east shore of Lake Managua and Matagalpa. A number of important wholesale firms have offices there as well as retail houses, both native and foreign.

Approximately 1,500 Marines are stationed in Nicaragua. On March 7, Rear Admiral Arthur St. C. Smith, commander of the United States forces in Central America, was ordered by the Navy Department to begin gradual withdrawal of his forces.

The plan was to move 500 Marines out by June 1 and the remainder by Jan. 1, 1933, after the inauguration of the new Nicaraguan government. Part of the detachment was quartered in rebel areas in the interior and part in Managua and other central points.

The revolutionary activities of Augustine Sandino led to the dispatching of United States forces to his native land. The troops were withdrawn for a short time but were sent back in 1927 when disorders broke out.

Panama City, March 31.—(AP)—The Tropical Radio Company today reported that the city of Managua, capital of Nicaragua, was destroyed by an earthquake this morning. Only a few houses were left standing and these were on fire.

The local station tried for hours to communicate with Panama City. It does not work the Managua radio station.

Pan-American Airways officials also attempted to establish radio communication with their station at Managua after hearing of the disaster.

(Continued on page three)

OPPOSES ANY FINISH PLANS FOR REVIVAL

Senator Watson Voices Opposition After Conference With Hoover

Washington, March 31.—(AP)—Senator Watson expressed unalterable opposition to an increase in tax or a federal bond issue to meet the treasury deficit after a breakfast conference today with President Hoover at the White House.

The Indian, Republican leader of the Senate, did not obtain the President's views on the federal financial situation but disclosed his own to the executive in an hour and a half talk which embraced a field of political and governmental problems.

The two agreed there was no need for an extra session of congress to deal with employment and farm relief, and that an armistice in political debate would permit a more rapid economic rehabilitation.

The chairmanship of the Republican national committee also was discussed, but it was agreed, Watson said, that there is no great rush about reorganization of the committee now headed by Senator Fess of Ohio.

"Our thought was," the Senator said, "to let the country rest from politics, go ahead and attend to business and rehabilitate ourselves free from the clamor of politics."

The Republican leader said business was improving and would continue to improve. He said he would confer with Secretary Mellon in a few days on the financial problems facing the government.

The Farm Board situation was another subject discussed at the conference. Senator Watson said the board probably would issue some statements in the near future which would be reassuring to the farmers. They will point out, it was indicated, that millions of dollars were saved to the farmers in earlier stabilization operations, and that orderly marketing and curtailed production should be the watchword of the future.

The 1932 vice-presidential nomination was not touched upon, Watson said.

PLANT TREES ON COURTLAWN

Half Dozen Cedar Trees Placed At Commanding Positions at Courthouse

Plans of county officers to make the courthouse lawn one of the most attractive places in the city received renewed impetus this morning with the planting of a half dozen cedar trees.

The trees were placed on each side of the two entrances to the beautiful building, and at other commanding positions about the property.

The trees were contributed by county officers and the Garden club, an organization that recently launched an intensive drive for the beautification of the city.

Grass was recently replanted on the lawn, and it began to make its appearance in different spots this morning. In a few days when the grass has fully appeared the courthouse property is expected to be one of the most beautiful places in the city.

It was said that considerable shrubs and flowers would be planted on the lawn during the spring.

BURKE PREPARES TO FACE TRIAL

St. Joseph, Mich., March 31.—(AP)—Fred Burke was working with his attorney today to build up his defense for allegedly slaying Traffic Policeman Charles Skelley.

Refusing to talk with anyone but Barratt O'Hara, Chicago attorney who defended Virgil Kirkland in the Gary, Ind., "kissing youth" murder trial, Burke prepared for the examining trial to be held on April 8. This date was set yesterday when he was arraigned before a police magistrate.

New York City police officials quizzed him late yesterday about the slaying of Frankie Dale, Brooklyn bootleg king, but Burke denied any connection with the crime.

Los Angeles.—(AP)—This city's far-flung limits provide a preserve for mountain lions.

It is illegal to shoot off fire-arms in that portion of the Santa Monica mountains which are embraced in the city limits, and if you shoot a mountain lion—a fairly common animal in these parts—the penalty is the same as taking a pot shot at a neighbor's pet cat.

# Social and Personal

Mrs. W. E. Anderson is spending sometime in Richmond, Va. Mrs. J. R. Moye and Mrs. E. S. Williams left this morning for Portsmouth, Va., to visit Mr. Williams, who is in the hospital there.

Mrs. Annie Long, Mrs. A. L. Blow and Mrs. J. P. Rowlett have returned from Washington, D. C.

Master David Whichard III and Master Jack Whichard have returned from a visit in Goldsboro.

**In Pitt Community Hospital.**  
The many friends of Master Baxter Clark will regret to learn that he is suffering from a broken leg which he sustained while playing Monday afternoon. He was reported to be resting this morning.

### TRAINING SCHOOL P. T. A. TO MEET TOMORROW

The Training School Parent-Teacher Association will hold open session in the auditorium of the new building tomorrow afternoon at 3.30.

All parents and teachers as well as members of every Parent-Teacher Association are cordially invited to hear Dr. Rowe of Duke University. The nursery will be in Miss Redwine's rooms.

### 'Dirt Farmer' Elected Head of Federation

Montgomery, Ala.—(AP)—One of the south's leading "dirt farmers" has been picked to head one of the world's largest farm organizations.

He is Edward Asbury O'Neal, III, who has been elected to succeed Sam H. Thompson as president of the American Farm Bureau Federation. Thompson resigned to become a member of the Farm Board.

For eight years, as president of the Alabama Farm Bureau Federation, O'Neal has been meeting problems of farmers from experience gained on his own 2,600-acre farm at Florence, Ala.

Under O'Neal's leadership the Alabama farm bureau has extended its activities to include the co-operative marketing of practically all farm products. Co-operative buying of supplies for planting, cultivating and harvesting of crops has likewise meant great savings to Alabama farmers.

A tireless worker for improvement of farm conditions, O'Neal has been active in all farm organizations in his native state for years. He has served the American Farm Bureau Federation as vice-president and as chairman of the legislative committee.

It was O'Neal who advanced the proposal of a plan for the taking over of the great nitrate plants at Muscle Shoals by the American Farm Bureau Federation under lease from the government for the purpose of manufacturing fertilizers.

Born 55 years ago near the site of Muscle Shoals, O'Neal was reared on the farm and his interest in practical farming and the farmer's problems has grown with the years.

Graduated from Washington and Lee University in Virginia in 1898, O'Neal began farming for himself near Florence in 1899. He was a member of the Washington and Lee football team in 1895-96. He was married November 23, 1904, to Julia Camp, of Florence. They have three children.

### WRIGLEY TO AID GROWERS OF COTTON

(Continued from page one)  
planter while the price is at such a point that he is producing below production costs.

Mr. Wrigley explained that the formation of the Wrigley cotton investment fund includes five banks which will handle all the money involved. Those banks are the Citizens Bank and Trust company of New Orleans, La.; the Citizens & Southern National Bank of Savannah, Ga.; the Bank of Commerce and Trust company of Memphis, Tenn.; the First National Bank of Mobile, Ala.; and the Peoples State Bank of South Carolina, Charleston, S. C.

The whole plan, Mr. Wrigley said was "in no sense a gamble, nor is it an advertising stunt. It is our sincere desire to shoulder some of your burden in this offer to take cotton in payment for our goods, rather than cash."

The cotton investment fund, he continued, was planned after the Canadian wheat project, which has proven 100 per cent successful.

The fund of \$12,000,000, Wrigley said, was the amount which the William Wrigley, Jr. company would normally take in from its sales between April 1 and December 1, 1931. The southern gum chewers, he said, must keep that figure up to the normal figure before the plan can be successful.

"And if cotton goes down below that figure for which we pay for it," Wrigley concluded, "we may use it for packing instead of exportation. Our company has become cotton minded."

**Blind Man Sees.**  
Philadelphia—(AP)—Born blind 22 years ago, Earl Musselman has just seen light for the first time. Dr. G. H. Moore cut into the iris of his eyes, opened "false pupils," folded back delicate filaments of tissue to make tiny apertures and gave Musselman sight. The youth was astonished at the beauty of flowers. He was born without pupils.

**Mr. L. J. Smith Ill.**  
Friends of L. J. Smith will regret to learn that he has been ill for the past several days.

**Miss Rosalie Brown Entertains.**  
Little Miss Rosalie Brown, daughter of Mr. and Mrs. Claude Brown, was hostess at a theatre party yesterday afternoon celebrating her ninth birthday.

After enjoying the picture at the State Theatre, the guests were taken to the drug store where refreshments were served.

Little Miss Brown received a number of attractive gifts.

**Try a Good Book**  
—for those long hours so hard to kill. Circulating Library—Warren's Bookstore, Inc.—(Adv.)

**Junior B. Y. P. U. to Meet.**  
The Junior B. Y. P. U. of Immanuel Baptist Church will meet at the church Wednesday evening at 7 o'clock for a business meeting.

### Man Held for Stealing Books for U. S. Library

Newton, N. C., March 31.—(AP)—District of Columbia officers were expected here today to take in custody Malcolm M. Young, arrested yesterday on charges from Washington that he was wanted there for larceny of 300 books from the Congressional Library.

He was formerly a teacher in the Washington public schools, his dismissal being followed by a demand that he be granted a hearing before the district commissioners. He was accused of extreme radical statements in the class room.

He also taught for a period in Asheville, being dismissed for inability to maintain discipline. A later teaching expedition at a Texas private school ended similarly.

While a self-supporting student at the University of North Carolina, Young built up considerable reputation through oratorical ability, his connection with student publications and other activities. He attained honor grades in practically all of his scholastic work.

He delivered newspapers and performed other duties to support himself and his aged widowed mother in Durham.

When discharged from the Washington schools, an action which followed alleged pacifistic work among the district's high school cadet corps, Young carried on a long newspaper controversy with authorities.

His arrest here followed the alleged finding of the books in the rooms which he vacated in Washington.

### MARK TIME IN ABRAMS DEATH

(Continued from page one)  
after the finding of Abrams' body, and were ordered remanded to jail in a hearing the latter part of last week. Abrams' body was exhumed Saturday and an autopsy was performed to determine the nature of death.

It was said the examiners did not believe the man came to his death from the blow on the head nor from apoplexy, and the viscera was ordered sent to Raleigh to determine if death was not the result of poison.

Abrams' body was found on the side of the highway in Belvoir township about three hours after he had been paid off by the construction company. He had no money in his pockets at the time, and indications of a blow on the side of the head led officers to the conclusion he had been killed and then robbed, probably a victim of highwaymen.

The body was discovered by members of the party now being held in jail, and they were arrested and three of them charged with the crime. Stancill, after confinement in jail, is said to have told officers that Abrams dropped dead while sitting in a chair in his home.

He and other members of the party not wishing to become involved in the case, carried the body down the highway some distance and dumped it on the side of the road.

He declared he had nothing to do with the man's death and contended that Abrams died either from heart trouble or poison.

### Pres. Hoover Says There Will Be No Increase of Taxes

Washington, March 31.—(AP)—President Hoover said today that unless congress increases the budget figures there would be no increase in taxes.

Mr. Hoover said he had canvassed the entire financial situation of the government through various government agencies and departments and that he saw no necessity for a taxation increase.

The President said: "There will be no increase in taxes if the next congress increases the budget figures there would be no increase in taxes."

Mr. Hoover said he had canvassed the entire financial situation of the government through various government agencies and departments and that he saw no necessity for a taxation increase.

"There will be no increase in taxes if the next congress increases the budget figures there would be no increase in taxes."

## SEES EXILE FOR WALKER

### John Hayes Holmes Says Mayor of N. Y. Has 100 Days Before Meeting Waterloo

New York, March 31.—(AP)—Mayor Walker is given 100 days by John Hayes Holmes to enjoy his return to the city.

"Then he will have come to his Waterloo and will have started upon his exile," said Mr. Holmes at an overflowed mass meeting at Carnegie Hall last night.

The mayor is due from California Saturday.

The meeting was called by the city affairs committee, which has preferred charges with Governor Roosevelt against Mayor Walker. Speakers were Mr. Holmes, chairman of the city affairs committee; Norman Thomas, Socialist leader; Dr. Sidway, associate rabbi of the Free Synagogue; and Paul Blanshard, executive director of the city affairs committee.

More than 3,000 persons cheered indictments of Tammany. Denunciations were mingled with demands for federal, state and city action to relieve unemployment.

"Everything has happened since the city affairs committee began its agitation against the Walker administration has been a confession of guilt on the part of Tammany," said Mr. Holmes.

"Laughing at its enemies, sneering, scoffing, wise-cracking, the Tammany Hall gang now is terrified, and is hoping by confession of guilt and promise of reform to secure pardon."

"The administration when charged with corruption, repudiated the charge and defied the legislature to investigate. Now that an investigation has been ordered, Tammany suddenly becomes good and starts cleaning house of its own accord."

### NOTES HOSTS TO CHILDREN

(Continued from page one)  
supervision in both fields of activities at this time and that much good work is being accomplished.

He stressed the fact that the majority of the children comprising both the Friendly Indian and Hi-Y clubs came from the homes of the poor and consequently were not afforded the same field of moral and physical improvement as the more fortunate ones. It is the purpose of both organizations, he stated, to implant in the minds of these young fellows the high ideals of life and to attempt to put them on the road leading to service to humankind.

Howard McGinnis, secretary of the club, called attention to the district convention to be held in Durham May 6, and asked that the members consider the matter and then help the club send a big delegation. He also referred to the inter-city meeting to be held in Washington April 16.

Knott, Proctor, chairman of the inter-city committee, urged the members to decide to attend and notify him as soon as convenient.

Dr. K. B. Pace, asserted the club should attempt to be of greater service to the children of the city and presented the motion that each member become councillor to some particular child, assignments to be made by the president and secretary of the club. The motion was adopted, and in the future members of children will receive the wise counsel of the men who desire to see them develop into deserving citizens.

Sons and daughters present were: Roy L. Harris, Jr., W. W. Lee, Jr., Herbert White, Lee, John Clark, Jr., Charles Clark, P. L. Goodson, Jr., Philip Winslow, Charles Gaskins, Sam Dees, Karl Pace, Charles T. Pace, J. B. Kittrell, Jr., Curtis Perkins, Jr., Hugh Winslow, Joseph Smith, Jr., J. W. Overton, Helen Aman, Polly Harris, Jane Cox, J. Knott Proctor, Jr., Louis ReBarker, James E. Edwards, Jr., Mabel Edwards, Margaret Stroud, Mary Louis Hardins, Elizabeth Mayo, Kenneth Lane Henderson, W. H. Rodges, Jr. James

## FINISH PLANS FOR REVIVAL

(Continued from page one)  
looked forward to with pleasure by members of the congregation.

Services will be conducted twice daily, 11 a. m., and 7:45 p. m. The morning services are not expected to begin until April 7.

Dr. Tucker is considered one of the outstanding ministers of the Southern Baptist Convention. He is well known in this section by reason of his radio sermons and his visit to Greenville last spring to deliver the commencement sermon at the Greenville High School.

Dr. Tucker was born in Greenville but his parents moved to another section of the state when he was quite young. He is remembered by many of the older citizens who were greatly interested in the recent announcement that he would conduct the services here next month.

## FLAMES SWEEPING ACROSS MANAGUA THREATENING TO DESTROY THE ENTIRE CITY

(Continued from page one)  
earthquake.

Miami, Fla., March 31.—(AP)—Tropical Radio station here received word of the Managua earthquake from the company's Panama City station shortly before noon today, but said no information was contained in the radio message except that houses that were not destroyed were airtight.

The Navy Department today ordered four naval vessels including one of the big aircraft carriers, to start at once for Nicaraguan waters to extend aid to earthquake-stricken Managua.

The department ordered Vice-Admiral Arthur L. Willard, commander scouting fleet, to send either the Lexington or the Saratoga, now at Guantanamo, Cuba, to Puerto Cabezas, on the Atlantic coast of Nicaragua.

Airplanes from the carrier could fly from there to the earthquake zone. The hospital ship Relief, now accompanying the battle fleet north from Panama enroute to San Pedro, Calif., was ordered to turn back to Corinto, the seaport of Managua.

It was unofficially estimated that the Relief was 21-2 to 3 days steaming from Corinto.

Washington, March 31.—(AP)—The American government hastened today to the aid of earthquake-stricken Managua.

Three American agencies were instructed to participate. The American Red Cross was directed by President Hoover, who also is head of that organization, to extend aid immediately. The War and Navy Departments also directed engineering and marine corps detachments in Nicaragua to lend aid.

The State Department joined these two in seeking information of the disaster. No word had come from any of their men on the ground.

Shortly afternoon, the State Department said communication agencies of the government to which they had appealed to get in touch with Managua had been unsuccessful in their efforts to do so.

The last message received by the State Department from the American legation at Managua was timed 10:45 a. m., yesterday.

Ernest J. Swift, acting director of insular and foreign operations for the Red Cross, said he would leave for Nicaragua by airplane as soon as arrangements could be completed. Swift was in charge of the Red Cross Santo Domingo disaster relief.

United States Marine Corps has over 1,400 officers and men in Nicaragua, nearly 1,000 of them in or near Managua.

Latest records at Marine Corps headquarters showed that 113 officers and 872 men were stationed in or near the city at the end of February, while 28 officers and 402 men were scattered in other parts of the country, mostly in the northern districts where the insurgents were strong.

The Marine force in Nicaragua is the second brigade commanded by Colonel Frederic L. Bradman.

## PARKER HITS FARM BOARD

Savannah, Ga., March 31.—(AP)—The foreign cotton producer, according to Walter Parker, economic counsel to the American Cotton Shippers Association, is the only beneficiary of the policies of the Federal Farm Board.

In a speech prepared for delivery today before the convention of the Atlantic Cotton Association here, Parker stated that "so far as I know, there is no parallel for the deliberate economic stupidity put into force in the form of the Farm Board's policies."

As result of these policies, he charged, the world last year consumed 2,653,000 less American bales and 1,400,000 more foreign grown bales than in the year before.

Parker's attack on the Farm Board continued the onslaught started yesterday in the first day of the convention when Dameron H. Williams, of Gastonia, N. C., president of the Atlantic Cotton Association, charged that cotton was at least two cents lower than it otherwise would have been because of the board's attempted control of prices.

Parker recited his version of the board's cotton program, beginning with its first announcement of valuation of cotton at 16 cents, and said mills which bought at that price later sold yarns on the basis of 10-cent cotton. Another result, he said, of price "pegging" was to make American cotton unpopular abroad. He continued that if the board's policies were kept up American producers faced further loss of export markets.

"There are," he said, "2,000,000 cotton producers at present depending on cotton for a livelihood. One million cotton farmers could supply American mills. What is to become of the other million? Join the bread line?"

"So long as the federal government fosters and encourages economic stupidities, a return of business prosperity is utterly impossible. Such policies would promptly wreck any nation less rich than the United States."

Parker said that another handicap of American cotton was "our high tariff, which prevents reciprocal trade."

## SAYS FOREIGN COTTON GROWERS ARE BENEFICIARIES OF BOARD'S POLICIES

## Man Killed When Car Turns Turtle

Pittsboro, March 31.—(AP)—The body of J. H. Davis, 35, of Marners, was found pinned beneath his wrecked automobile in a small stream about a mile from here at midnight.

Dan Davis, cousin of the dead man, supposed to have been riding in the car when it plunged into the water, is missing and Sheriff Walter Blair of Chatham county, was leading a searching party this afternoon seeking some trace of him.

Sheriff Blair was notified of the wreck by an unknown motorist, who said he found no one in the overturned car. The sheriff and his deputies went to the scene, righted the car, and found the body of J. H. Davis submerged in the stream.

Identification was made by letters in the man's pocket. His family told the sheriff that he and his cousin were en route from Marners to Siler City.

Pay this Easter

much less than

you paid last

year for greater

# ELEGANCE

## in your Easter Coat or Suit

Don't think for a moment that last year's Coat or Suit will do. It simply won't. It hasn't the length. It hasn't the flowing shorter sleeve. It hasn't the dressmaker collar or scarf. It hasn't the combination of fur and fabric. It just hasn't the Paris spirit of 1931. But here's what last year's price (or less) will do. It will obtain fashions of greater distinction... glorious Paris copies... more beautiful furs and fabrics... greater elegance and individuality. In short, pay less this Easter than you paid last year, and receive a great deal more. But remember, you just can't wear the fashions of 1930 in 1931.

**ABOUT TOWN**

Holy Week is being celebrated throughout the Christian world this week. It commemorates one of the most important periods in the history of mankind, centering as it does around the betrayal, crucifixion and resurrection of Christ.

Greenville is observing the week in peculiarly fitting style. Various churches will conduct services throughout the week, and a regular revival is in progress at the Methodist church.

The people should attend the services freely and in that way give expression to the support of the teaching as enunciated by Christ during his stay on earth. The transcendent importance of Holy Week is inestimable. It represents victory over death, and holds out to the millions of people of the world the promise of life beyond the grave.

Greenville school children are making much progress in the field of public school music. This fact was evidenced in the Easter cantata presented at the high school auditorium Sunday afternoon at which time one hundred children showed what they could do in the way of group and mass singing.

It is impossible to estimate the good which the children derive from this training in music. It gives them a keener appreciation of the art itself and also affords expression to one of the highest emotions of humankind.

Members of the public school faculty are to be congratulated upon what they are accomplishing in this field of endeavor, and may rest assured they have the hearty support and co-operation of the people in their work.

With the coming of springtime, automobile traffic will increase to a considerable extent on the highways of the country, and the public is urged to consider that fact and to drive slowly and carefully at all times.

The passing of every week brings information of additional deaths in this and other sections of the country, and this condition will remain unchanged until people learn to drive carefully when they haven't a clear road ahead.

The majority of automobile accidents are attributed directly to the expert, over-confident driver. Think of the wrecks that have occurred in your own neighborhood the last few months, and you will readily see that the victims were men and women who had been behind the wheel for years.

The driver, regardless of how proficient he may be in the operation of an automobile, cannot remain on the safe side when he disregards traffic laws and declines to run his car cautiously when traffic conditions necessitate such. He may escape injury or violent death for awhile, but eventually he will take a ride out to the cemetery with sorrowing friends behind him.

You may be in a powerful hurry, Mr. Driver, but your pace would be much slower if you knew the terrible fate that awaits the careless, over-confident driver just around the corner.

New appeals for reduction of tobacco acreage come with the dawn of each day, and by this time the farmers of the four important tobacco growing states in the south should realize the importance of cutting acreage.

These appeals come from governors and other high officials in the various states involved and if the farmers do not heed, they will have nobody to blame but themselves if the end of the season finds them with another big crop.

Production has been beyond demand for the past several years, and right at this time the manufacturers are glutted as they have never been before. It will be impossible for them to handle another normal crop, and that is argument enough that prices will continue to show a downward trend.

The wise farmer will give the advice popular attention and cut his acreage at least 25 percent. The surplus land may be planted in food crops to good advantage, enabling the growers to provide for his family and stock regardless of the price situation for the main money crops.

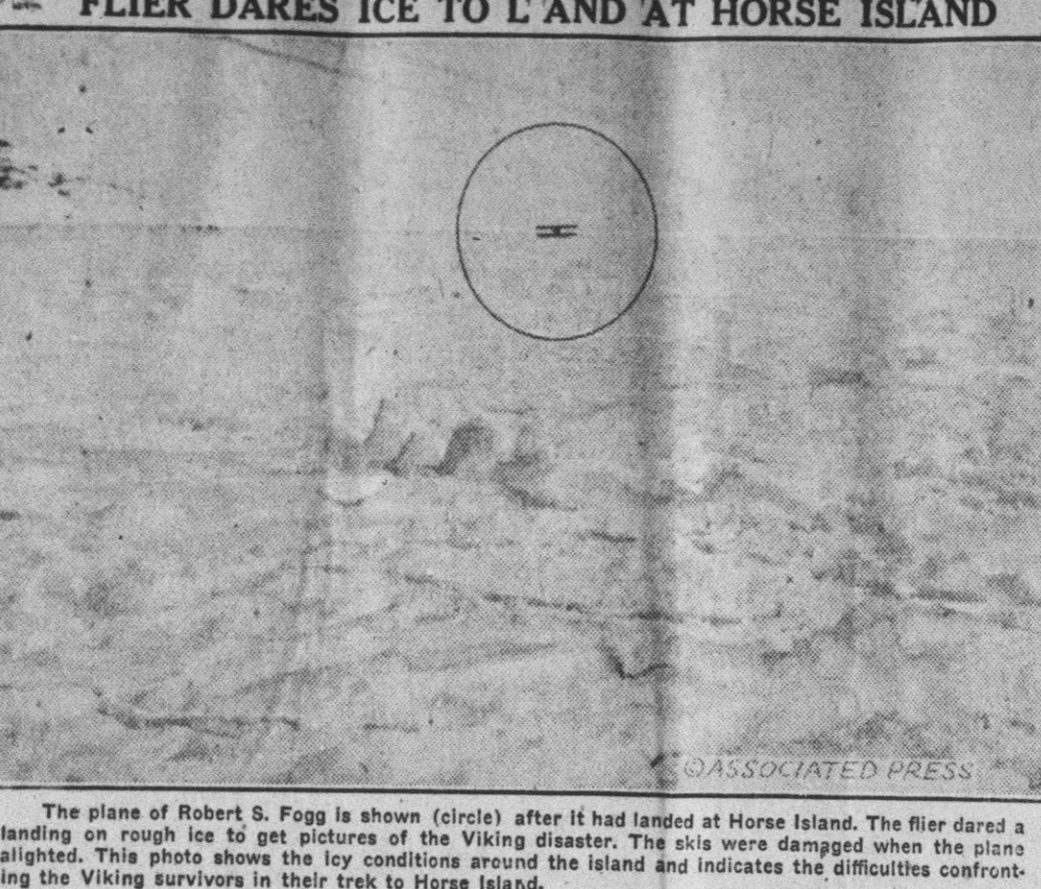

This is the season of the year when human beings, like nature, begin to put on their best appearance and next Sunday will see them hit full stride in this connection.

In all of the big cities and smaller communities the people will turn out in regular spring clothing of the various hues represented by the experts of Dame Fashion, and from then on the change from winter to spring apparel will be more pronounced than ever.

Depression may exist in all parts of the nation but this is not going to keep the people from dressing up. Some may not be as expensively attired as formerly, but they will have on their Easter tags, and will join with millions of others in the celebration of that season of the year when everybody makes a bid for a change in the sartorial field.

Greenville merchants have provided their patrons with an elaborate display of styles in keeping with the greatest fashion centers of the country, and this week will see many of the values moved from their counters.

The plane of Robert S. Fogg is shown (circle) after it had landed at Horse Island. The flier dared a landing on rough ice to get pictures of the Viking disaster. The skier was damaged when the plane alighted. This photo shows the icy conditions around the island and indicates the difficulties confronting the Viking survivors in their trek to Horse Island.

are invited to visit the city and inspect the myriad bargains awaiting them.

**Draft Resolutions of India's Demands**

Karachi, India, March 31.—(AP)—The working committee, or cabinet, of the All-India National Congress today drew up resolutions indicating the sweeping scope of demands for Indian independence which Mahatma Gandhi will make at the second round table conference to be held soon in London.

The resolutions must be passed by the congress itself, in annual session here, but since Gandhi's address last night on the truce with Viceroy Lord Irwin and the approval of the truce by the congress there is no doubt of this issue.

The program outlined by the resolutions today enjoins the delegation which is to be headed by Gandhi to demand not only Indian independence, with Indian control of army, finances, and foreign affairs, but complete Indian commercial and social equality with Britishers.

Gandhi, in introducing the resolutions, said that he was aware that the demands embodied in them were revolutionary in character and might be rejected outright by the round table conference.

This congress declares that any constitution that may be agreed upon on its behalf should include the following items, the resolution says, "or should give ability to a Swaraj (independent) government to provide them:

- (1) Freedom of association and combination.
- (2) Freedom of speech and press.
- (3) Freedom of conscience and free possession and practice of religion, subject to public order and morality.
- (4) No disability to attach to any person by reason of religion, caste or creed regarding public employment in office of power or honor and exercise at any time of any trade or calling.
- (5) Equal rights and obligations of all citizens; with no civic bar on account of sex.

(6) Equal rights of all citizens of access to and use of public roads, public wells and all other places of public resort.

(7) Right to keep and bear arms in accordance with regulations made in that behalf with such reservations as may be required for public safety."

**Actress Seeks Divorce From Movie Director**

Los Angeles, March 31.—(AP)—The eight months of married life of Luther Reed, film director, and Jocelyn Lee, red-haired actress, contained too much action even for a movie director.

Reed's story began to unfold on the witness stand here yesterday in support of his divorce petition.

Miss Lee served notice that she would match her husband's story with a tale of violence on his part.

Reed described tempestuous happenings of their wedded life, in making a plea for custody of their two children. The director said Miss Lee's most sensational outburst came at Agua Caliente while they were playing blackjack with Bert Wheeler and Robert Woolsey, screen comedians, and Edwin Carewe, a director.

"She demanded money," Reed testified, "and when I gave her half of what I had, she called me a cheap something or other. You got plenty to lend these blankety-blank dogs," she told me, "but you cheap dogs, you can't give your wife any." She threw a handful of silver dollars in my face."

Reed said Miss Lee once lost the bid while they were playing bridge in a San Francisco hotel, and threw an ash tray at him.

Reed claims they have but \$2,500 community property.

Miss Lee contends there is \$100,000 in community property, asks \$2,400 a month alimony and custody of the children, Celeste, 3, and Dana, 2. They were married in June, 1930.

**Blood Donor To Retire.**

Buffalo, N. Y.—(AP)—Two more transfusions and Joseph W. Lynen will retire as a professional donor of blood. The 98th transfusion was for a friend injured in an accident. The 35th was the last for which he accepted compensation. He began in 1914; is 38 years old.

**Woman Boxing Manager.**

Boston—Mrs. Lena Levy has a boxing manager's license. She will second her brother, King Levinsky, in the ring tonight during his attempt to make Con O'Kelly of Ireland just one more of his knock-outs.

**Death Toll From Poison Whiskey Mounts to Eight**

Greenville, S. C., March 31.—(AP)—The toll of deaths attributed to drinking poison alcohol mounted to eight in three days here today when J. Huston Holcombe, 56, died.

O. M. Horton, 47, and Frank Fortner died late yesterday. Five died Sunday and yesterday morning.

County and city authorities were continuing their investigations, but apparently were baffled. The victims have died so suddenly after seizure that officers have been unable to obtain any information which would lead to discovery of the source of the fatal concoction.

**SKI KING MAY JUMP FOR U. S. IN OLYMPICS**

Canton, S. L.—(AP)—Casper Oimien, who captured a lion's share of national ski-jumping honors during the 1930-31 season, expects to become an American citizen this summer and thus be eligible to compete for the United States in the 1932 winter Olympics.

Oimien, star member of the Sioux Valley Ski club whose slide is located here, won seven first places in nine important tourneys this winter, and was named leading all around ski-rider in the National Ski association's all-America list.

Greenville, N. C., Monday, May 4th, 1931 12 o'clock, noon

all the following described real estate:

Lying, being and situate in Belvoir Township and bounded as follows: On the north by the land of D. S. Spain; on the east by the land of C. L. Parker; on the South by the land of J. T. Dupree; on the west by the land of B. H. Stancill, and being the land willed to Christine S. Warren by the late G. A. Stancill. Containing 162 acres, more or less. Known as part of the Reeves Farm.

This the 30th day of March, 1931. J. H. Blount, Trustee. Blount & James, Attys. Mar. 31-11w-4wk.

**NOTICE OF SALE.**

Under and by virtue of the power of sale contained in that certain deed of trust made and executed by C. B. Baldrice and wife to D. L. Turnage, Trustee, and appearing of record in the office of the Register of Deeds of Pitt County in Book E-18, at page 351, default having been made in the payment of the indebtedness secured thereby, and the holders of the same having requested the Trustee named therein to sell the said property in accordance with the provisions of the said deed of trust, the undersigned will offer for sale to the highest bidder for cash at the Courthouse door in Greenville, N. C., on

Monday, April 27th, 1931 at about the hour of twelve o'clock M., the following described tract of land which is situated in Swift

Creek Township, Pitt County, C., and is more particularly described as follows:

Bounded on the North by Joel Dancy, on the East by Bes Hooks, on the South by Geo. C. and on the West by the Ayden and Vanceboro Roads, containing acres, more or less, and being the same land described in a certain deed of trust executed by J. Jackson and wife to First National Trust Company, Trustee, of record in Book A-15, page 832 in the office of the Register of Deeds of Pitt County to which reference is here made.

The above sale will be made subject to that certain mortgage deed of trust made and executed to the Joint Stock Land Bank of the approximate amount of \$1,000.00 appearing of record in Pitt County to which reference is here made.

D. L. Turnage, Trustee Mar. 31-Apr. 7-14-21.

**HAVE YOU SIGNED?**

The attention of those depositors of the National Bank, who have not signed the agreement whereby a new bank could be opened, is called to the fact that the time for such a movement is growing short and the Comptroller must know what is to be done. If you are a depositor of the closed bank and your failure to sign the agreement prevents the opening of the new bank it is almost a foregone conclusion that you will lose heavier through the liquidation process.

The plan for re-opening the new bank is one of the fairest that has ever been offered depositors of a closed bank and not only will you save money by signing the agreement but you will be rendering a community service as well by helping to make possible the opening of a new bank.

**MONEY TALKS.**

The record of the legislature of 1931 should go down in history as one of the outstanding abominations of the era unless the Senate takes definite action to put back into the revenue bill those things that the House, apparently because of the power and moneyed interests in the state, saw fit to eliminate from the bill—the failure to repeal the tax exemption on stock in foreign corporations, the elimination of the recapture clause thereby relieving the power companies and like industries of \$600,000 of taxes, refusal to accept the amendment that would place one mill per kilowatt on electricity generated by the power companies, refusal to tax cigarettes, soft drinks, picture shows and other luxuries and amusements to carry out a program of relief to the over-taxed landowners.

The News and Observer has rightly pictured the existing situation in the House when it says the revenue bill "smells of cigarettes, tastes of Coca Cola, has the music of moving picture jazz and in its very sentences you can hear the roar of the water pouring over the dams of the power companies.

**Baby Burned to Death**

Goldboro, March 31.—(AP)—The six-months old baby of Mr. and Mrs. Robert R. Fremont burned to death today when the crib in which it was sleeping caught fire while the mother was out of the house for a few minutes.

**Yancey Accepts Salary Offer.**

New York, March 31.—(AP)—Dazzy Yancey, Brooklyn's great speed ball pitcher, has accepted the club's terms of \$23,000 in ending his prolonged holdout and will sign his 1931 contract as soon as he joins the Robins at Macon, Dave Driscoll, club secretary, announced today after receiving a wire of capitulation from the veteran.

# BALLYHOO FOR CHAMP MATCH WARMING UP

Chicago, March 31.—(AP)—The ballyhoo for the proposed world's heavyweight championship match between Max Schmeling, the champion, and William Stribling of Georgia, was warming up today.

A series of conferences was opened last night, in which sat William E. Carey, president of Madison Square Garden, New York; Joe Jacobs, manager of Schmeling; Sheldon Clark, wealthy Chicago sportsman, and George Getz, a member of the Illinois State Athletic Commission, and co-promoter with the late Tex Rickard of the Dempsey-Tunney bout in Soldier Field in 1927.

Damon Runyon, matchmaker for the New York milk fund, which holds first rights on the match, was unable to come to Chicago for the conference.

Nothing definite came of the long session, except that any announcement would come from Clark. Both Clark and Carey were extremely reticent about what went on and Jacobs, exercising the verbal prologues of a manager, was the only conferee to do much talking.

From Jacobs' conversation and the fact that the revival of discussion of the bout was held in Chicago, it was indicated that Soldier Field would be the site of the battle, and the date probably June 19. While things that will happen were not freely discussed, something that is not likely to occur—a championship fight involving Schmeling and Mickey Walker, middleweight titleholder—was mentioned by Manager Jacobs.

He said he had read about such a bout in the papers, but as far as he is concerned, there is nothing to it. He said that as long as the N. B. A. considered Stribling the foremost contender, he would not consider a bout with Walker.

## New Figure Forges Up to the Front in Heavyweight Race

New York, March 31.—(AP)—A colorful new figure, had crowded into the ranks of the heavyweight parade today—Stanley Foreda, a straight-shooting youngster from Jersey City.

Meeting his first major opponent after a long string of victories over lesser lights of the division, the big, black-haired Pole established himself as a comer last night by pouncing out a clean cut win over Old Johnny Risko, the Cleveland rubber man, in Madison Square Garden. Risko rallied in the closing rounds but could not overcome the long lead piled up by his young opponent in the early stages.

The excitement attending Foreda's victory was too much for one of the 3,200 spectators. Rudy Hase, 50, who attended the bout as Foreda's guest, died a few minutes after the verdict was announced, supposedly of heart failure.

**Kimrey Wins Over Wine.**  
Charlotte, March 31.—(AP)—Dewey Kimrey, 203-pound Norwood lumber jack and Carolina's heavyweight champion, staged a brilliant brace of rounds at the close to win a 16-round decision over Frankie Wine, Billings, Montana, veteran, here last night.

## Fights Last Night

(By The Associated Press)  
New York—Stanley Foreda, Jersey City, outpointed Johnny Risko, Cleveland, (10); Joe Banovic, Binghamton, N. Y., outpointed Bob Olin, New York, (10); Joey Lagrey, New York, outpointed Young Terry, Trenton, N. J., (10).

Philadelphia—Young Firpo, of Pennsgrove, N. J., outpointed Benny Bass, junior lightweight champion, (10); none-titled.

Denver—George Manley, Denver, knocked out Meyer (K. O.) Christner, Akron, Ohio, (4).

Chicago—Joey Freeman, Chicago, knocked out Benny Ray, Detroit, (4).

## STRONG TREES, CROWD OUT WEAK IN FOREST STRUGGLE

State College.—(AP)—Even in the primeval forest, there exists a strange property right among the trees.

Good forest land contains usually fewer trees than poor sites, says Prof. H. J. Lutz, of Penn State college in a report to the American Association for the Advancement of Science.

Like the humans able to build beautiful homes, the trees on specially good land obtain enough extra powers of dominance to prevent the fine site from becoming so crowded.

This is true only of the "adult" forests. In their juvenile stages, the good sites usually support more individuals per acre than the poor sites. With growth comes elimination by competition.

**Fox Skin At Auction**  
London.—(AP)—More than 50,000 silver fox skins, valued at around \$25,000,000, have been sold at the winter fur auctions in England.

## Trainmaster Held

Associated Press Photo  
S. J. Brock, L. & N. trainmaster, was arrested in Montgomery, Ala., after Arthur Burras, arrested in Chicago, had implicated him in the robbery of an express near Birmingham.

## HEELS TAKE FIRST GAME OF SEASON

Charlotte, March 31.—(AP)—Thanks to a homer by Blythe with the bases full and able assistance of his teammates, the University of North Carolina today was 11 to 5 victor over Cornell in the opening game of the 1931 Big Five season.

The Tar Heels vanquished Cornell yesterday at Chapel Hill. The fireworks broke loose in the sixth inning when Blythe, right fielder, poked out his homer. In all, the home team scored six runs in that inning.

The Chapel Hill nine will meet Cornell again today with Paul Edwards slated to occupy the mound. Cecil Longest pitched yesterday letting the visitors own with six hits.

After today, Cornell will move over to Durham for a brace of games with Duke tomorrow and Thursday.

Games with Pennsylvania tomorrow and Thursday with Washington and Lee Friday and Maryland and Penn State Saturday will occupy the Tar Heels the rest of the week.

The other Big Five squads open their 1931 seasons this week as follows:

Thursday—Davidson vs. Guilford at Davidson; Friday—N. C. State vs. Maryland at Raleigh and Wake Forest vs. Pennsylvania at Wake Forest. A total of 17 matches involving the Big Five is booked for the week.

Guilford yesterday got away to a good start in the Little Seven by defeating Elon 14 to 8, at Elon.

## SPORTS SLANTS

By ALAN GOULD  
The National League will reverberate with some of the heaviest cannonading in years, despite the use of the new and less lively ball, in the tussle for the batting crown now worn by William Harold Terry, native of Atlanta, resident of Memphis and first baseman of the New York Giants.

Bill topped the list with the tidy figure of .401 last year, but his hold-out tactics and subsequent illness this spring may prove costly in the getaway stages of the race for clubbing honors.

Reading from east to west, some of the principal contenders are Sheely, Berger, Schumacher and Worthington, the heavy hitters of the Braves; Lindstrom and Ott of the Giants; Lefty O'Doul and Babe Herman, Brooklyn's twin thumpers; Klein and Arlett of the Phillies; the Waner boys of Pittsburgh; Hornsby, Cuyler and Wilson of the Chicago Cubs; Hafey, Rlisch, Gelbert and Watkins of the Cardinals.

This is taking in a lot of talent and territory, giving some of the boys the benefit of a substantial doubt as to their ability to figure in the contest.

Somewhere in this collection, however, the 1931 batting champion of the league likely will be found, along with the leaders in various features of the art of pounding the thicker-stitched horse-hide.

If Al Simmons, the ace of the A's, is in good health and spirits, he should be good enough to defend successfully his title to the American League hitting honors. Simmons is regarded by many experts as not only the best all-around walloper in the junior circuit, but the best in either big league. This may be open to debate, but Harry Aloysius finally demonstrated his mastery over all American League rivals last year. He was given a close race by the big eat-er, Henry Louis Gehrig, of the Yankees, but won the leadership on a late recount.

Simmons' chief rivals, probably, will include Gehrig, Ruth and Lazzeri of the Yanks; Fox and Cochran of the Senators; Hodapp and Morgan of the Indians; Reynolds of the White Sox; Goslin of the Browns, and Gehringer of the Tigers.

After some research, it has been discovered where Clise Dudley, the handsome ex-Brooklyn flogger now

with the Phillies, acquired his unusual first name.  
Tom Shriver of the Philadelphia Record is authority for the story that Dudley's father and partner, named Clise, prospected for gold somewhere in the Carolinas.  
Whether or not they found gold, they remained close friends, hence the selection of a name for the younger Dudley.  
It is pronounced as though spelled "Clise" if anybody outside the family cares about all this detail.

## News From The Training Camp

New Orleans, March 31.—(AP)—Outfielder Dick Porter, who studies pitching from the plate, and Wesley Ferrell, who knows quite a bit how it's done, are convinced the Cleveland Indians are going to have some formidable pitching.

Both believe Fay Thomas and Clint Brown will come through, says Ferrell: "I may not win as many games as I did last year, but fellows like Dudlin, Brown and Harder are going to win a lot more."

Atlanta, Ga.—(AP)—Manager Bill Killefer told his St. Louis Browns he expected them to win the ten games remaining on their spring schedule. No fast team will be chosen until after the close of a five-game series with Kansas City, which opens Friday. Skipper Bill said:

Bradenton—Writers with the St. Louis Cardinals are giving much attention to "Pepper" Martin, up from Rochester, who will inherit the centerfield job if Taylor Douthett goes to the Philadelphia Phillies in a prospective deal for Chuck Klein. Critics say Martin is not in Douthett's class as a finished player.

Fort Worth—Doc Knowles, trainer for the New York Giants, says the Giants have been afflicted with fewer injuries this year than ever before.

Athens, Ga.—In the words of Mickey Cochrane, sparking catcher for the Philadelphia Athletics, Lew Krausse is "the best young pitcher I ever saw." Krausse, a sore-lifter from Media, Pa., is getting his first taste of big league ball with the champions.

Birmingham, Ala.—The New York Yankees have left poor, ill-kept baseball fields behind them, and "Marse Joe" McCarthy, for one, is glad of it.

"The diamond at St. Petersburg had tall grass encroaching on the infield," said Joe. "Now we have arrived at a park which approximates that of a major league city."

Macon, Ga.—Time was, they do

## Has Never Seen Equal Of Sargon

This new Sargon overcame stomach trouble, indigestion and headaches that had been pulling

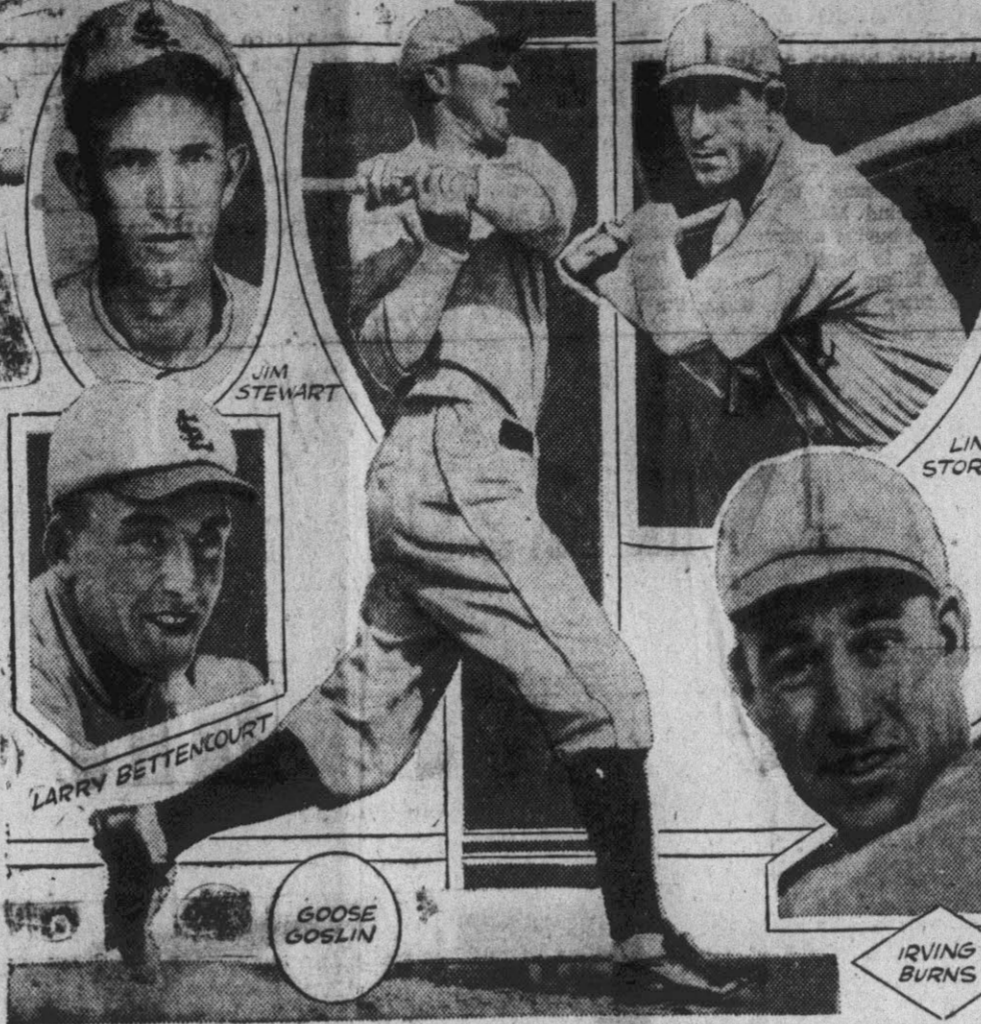

MRS. DELLA JACKSON

me down for years," stated Mrs. Della Jackson, 1137 N. Blount St., Raleigh. "I'm not nervous now, and I don't know when I've enjoyed such sound sleep. Instead of feeling weak and dizzy through the day, I'm brimful of new strength and energy. Sargon Pills regulated my liver and bowels and I'm entirely free from biliousness and an achy, sluggish feeling I'd suffered from for years. I've never seen a treatment that would equal these two marvelous medicines!"

## ROOKIES TO AID BROWN VETERANS THIS YEAR

Associated Press Photo  
Jim Stewart, star veteran pitcher of the St. Louis Browns, and "Goose" Goslin, home run hitting outfielder, will be aided in their efforts to get some place in the 1931 league race by a group of likely looking rookies. Lin Storti and Irving Burns, infielders, and Larry Bettencourt, hard hitting outfielder, are three newcomers who are likely to see considerable service this season.

say when Freddy Heimach, the big left handed pitcher, found training rules a trifle irksome, but Wilbert Robinson of the Brooklyn Robins is counting on him to turn in a lot of winning games this year.

Chattanooga, Tenn.—The raised stitches on the new ball won't help many pitchers, said Patsy O'Rourke, scout for the Phillies, because "very few grip the ball properly."

Los Angeles—A couple of Pittsburgh Pirates went to Manager Jewel Ens today and said they

guessed they'd fly over to San Francisco after tomorrow's game. End said he guessed they wouldn't. He added there will be no plane rides during the National league season.

Macon, Ga.—Dan Howley, manager of the Cincinnati Reds, says he is willing to admit that "the team at present is the worst looking major league outfit I have ever seen, but I am positive there are better times coming."

San Francisco—Whether the Detroit Tigers will have the valuable

services of the veteran Marty McManus at third base for the full season may be known shortly. McManus is recovering from an operation.

Fort Worth, Tex.—No matter how many things go wrong with the Chicago White Sox, manager Donie Bush managers to find something of cherry nature. The pitching of Southpaw Garland Braxton has been uniformly encouraging.

Bradenton, Fla.—Oscar Horton is going home to Athol, Mass., and

the Braves are going to miss him a whole lot. He is a leather merchant who annually gives shoes to the Braves who make homers.

Chattanooga, Tenn.—Paddy C. Creeden, rookie: Red Sox infielder and former Boston college star, has been doing some nice work down around second base and Manager Shano Collins plans on giving him plenty of chance to perform during the remainder of the trip north.

Biloxi, Miss.—"Sad Sam" Jones has found a pitching assignment much to his liking.

Looking over posters advertising the Washington Senators game with the House of David team, and spotting the whiskers, he said: "These fellows look to be just about my age, and I'd like to pitch against them."

Plymouth, N. C.—(AP)—Leaving a note saying he had "all out of life I care for," Harry Ward McNair took his shotgun, went into a wood near his home and killed himself.

**Five Locomotive.**  
Pittsburgh, Pa.—(AP)—Warren Pershing, the general's son, has fired a locomotive from Altoona to Gallitzin, Pa., eight miles including a horseshoe curve. He is a senior at Yale and was one of 100 students inspecting Pittsburgh industries.

Buy handkerchiefs with what it saves

It isn't necessary to pay 50¢ or more to get quality in a handkerchief. Listerine Tooth Paste, made by the makers of Listerine, cleans the teeth in 30 seconds and keeps them clean. How it cleans, beautifies and protects your teeth. Moreover it saves you approximately 45¢ a year over 50¢ handkerchiefs. Buy things you need with what saves—handkerchiefs are merely a suggestion. ## BILLY'S UNCLE

WHERE HAVE YOU BEEN ALL AFTER NOON?

I'VE BEEN OUT FOR A SWEET AUTO RIDE AT OLD JOE SPINKS' FUNERAL!

SAY D'YOU MEAN TO TELL ME THAT OLD JOE SPINKS IS REALLY DEAD?

IF HE AINT THEY PLAYED A DIRTY TRICK ON HIM!

WHY I WAS TALKIN' TO HIM LAST WEEK—GOSH THAT'S FUNNY!

MAYBE IT IS BUT—

I'LL BETCHA OLD JOE DON'T THINK SO!

# Market Report Cotton--Stocks--Grain

## COTTON MARKET

New York, March 31.—(AP)—Cotton opened steady today 1 point lower to 2 points higher. Liverpool cables were considered about as due on the New York close of yesterday, and the comparatively small orders in evidence at the opening were quite evenly divided.

The trade was a fair buyer of May during the early trading, however, and prices steadied up slightly after the initial offerings had been absorbed with May holding around 10.74 and October 11.30 at the end of the first half hour or about 3 to 4 points higher.

Liverpool cables reported that some Bombay selling in that market had been absorbed by local buying and said that the demand for cotton cloth was quieter. Egyptian cotton futures in Alexandria were unchanged to 23 points higher, and the spot quotations for Indian cotton in Liverpool was 1 point higher.

## GRAIN MARKET

Chicago, March 31.—(AP)—Wheat prices tightened up late today, and lifted other grains. The wheat market was bullish influenced by May delivery advancing to well above \$21.2, the minimum at which the Grain Stabilization Corporation, commencing tomorrow, will start to offer its Chicago holdings of No. 2 hard winter wheat. Spread purchases of July wheat against sales of September widened the difference between those two deliveries.

## STOCK MARKET

New York, March 31.—(AP)—Bears took profits, and the stock market had its expected rebound today.

The market had been declining for five consecutive sessions, and for seven out of the past eight sessions, so traders felt that bear side might be getting overcrowded. The rebound was not violent, however, and trading was in limited volume. The bond market also showed a better tone.

Auburn about cancelled Saturday's 13-point drop, and share rising about 3 to 4 points including electric auto lie. Eastman, McKeesport and DuPont. The utilities displayed conspicuous rallying power. A broad list of issues advanced a point or more, including U. S. Steel, American Can, Radio and General Electric. There were a few soft spots. Generals Asphalt dropped nearly 1 point, then recovered partially. U. S. Industrial Alcohol and Southern Railway sold at the lowest in eight years, and Standard of N. J. at the lowest since 1928.

The upturn in the general list was temporarily checked in the morning by the break in General Asphalt, which was in response to the reversal on appeal of its legal victory over Royal Dutch in London in its suit over Venezuelan Royalties. General Asphalt will now appeal to the House of Lords.

U. S. Industrial Alcohol was sold in response to another cut in alcohol prices, bringing the tank car price to 19 cents. The anti-trust action against the sugar institute, also caused selling of American sugar. The oil shares were inclined to ease, as preliminary estimates indicate a further rise in crude output last week. The agreement to restrict imports is not expected to influence the situation materially for the present.

Credit rates were stationary, with call money at 11-1/2 per cent, both officially and in the outside market.

### Adults Like School Program

New York.—(AP)—Grown-ups enjoy going to "radio school" as much as youngsters. Fifteen per cent of the correspondence handled by the educational bureau of CBS, which presents the school's program, comes from adults other than educators.

## Alleged Narcotic Peddler Shot Down

Chicago, March 31.—(AP)—White throngs of homeward bound showgoers from the Riviera and uptown theatres were passing, two men walked up behind Max Tendler, 42, as he stood buying a newspaper and shot him to death late last night. The killers escaped in an automobile after firing five shots

into the victim's body. Tendler was arrested at the Metropole hotel with Marie Ghibbons and John Baldwin last January 14, the police reporting they found narcotics in their possession worth \$2,000, and their investigation of the killing was being made on the theory that it was the result of a drug peddling affair. Reports were circulated that Tendler had been an informer for the New York police and that he

had been influential in connection with the conviction of Police Lieutenant Becker, Lefty Louis and "Gyp the Blood" for the murder of Herman Rosenthal. New York authorities reported they did not recall him.

## ROGUES' GALLERY URGED FOR 20,000 SPECIES OF BUGS

Stamford, Conn.—(AP)—Dr. E.

Porter Felt proposes to save state entomologists from 20,000 different kinds of bugs. Himself a nationally known insect man, director of the Bartlett Tree Research laboratories, Dr. Felt says that a state entomologist today is supposed to recognize all the 20,000 bugs in his duties of protecting the farmer, the merchant and the housewife from their ravages.

It is too much for human brains unaided, especially since these

same bugs have enough disguises to look like 100,000 different kinds. The disguises are nature's various forms of growing them through egg, larva and pupa stages, and the frequent big differences she makes in the appearance of males and females.

Dr. Felt proposes to the American Association for the Advancement of Science a code identification system, so that the entomologist who meets one he has forgotten, or never before heard of, can

go through the files in a few minutes and get acquainted. At present, says Felt, it sometimes takes several days' search to place a bug.

Paris, Dogs Happy Paris.—(AP)—The French capital is such a pleasant place for dogs that several of them go mad. A sanitary inspector reports that 230,674 dogs in the city, only 10 showed signs of rabies.

# Man! They've hit it this time!

You're hearing it all around you.

You've probably said it yourself.

Throughout the whole country, people not only are smoking Camel cigarettes in the new Humidor Pack, they're saying how good they are!

They're delighting in a new mildness; an aroma and fragrance found only in Camels.

They're learning how much smooth cool enjoyment is locked up in fine Turkish and

mellow Domestic tobaccos expertly blended, vacuum cleaned and properly conditioned.

They're grateful for new throat-ease!

Natural moisture, that's what does it!

Factory-fresh Camels air-sealed in the new sanitary package which keeps the dust and germs out and keeps the flavor in.

Don't take our word for it—try Camels in the new Humidor Pack, and switch back if you can.

Then you'll see why the whole nation is saying:

# "SMOKE A fresh CIGARETTE" Camels

IN THE HUMIDOR PACK
