TAX INCREASE OPPOSED BY BOTH PARTIES

Members of Major Parties Expected to Prevent Higher Federal Tax

Washington, April 2.—(AP)—The cooperation of both major parties in the next congress was looked for today to prevent a federal tax increase. Responsible party leaders in both House and Senate have expressed opposition to increased levies to meet the expected \$700,000,000 deficit this year and the probability of another next year.

Upper House to Begin Consideration of the Bill Tonight Or Tomorrow As a Committee of the Whole; House Appropriations Committee Against Bill to Spend Money for Next Biennium

Raleigh, April 2.—(AP)—The Senate finance committee today stopped its study of the House revenue bill without completing contested sections and reported the measure "without prejudice" in order that the upper House may start consideration of the bill tonight or tomorrow as a committee of the whole.

While the finance group was hastening to get the revenue bill on the floor, the House appropriations committee met in a very brief formal session to again vote its protest to the joint committee bill to spend state money for the next biennium and then in informal executive session rewrote part of the bill.

The short-ballot move made its reappearance with strength in the House when 40 members joined Representative Young of Harnett in introducing a measure to make the commissioners of insurance, labor and agriculture and the members of the corporation commission appointive by the governor with the approval of the Senate.

Immediately following the ratification of the Seawell bill creating a new banking department divorced from the corporation commission, Governor Gardner announced that he had tendered the position of commissioner of banks to Gurney P. Hood of Goldsboro, member of the House from Wayne county, but that as Mr. Hood was out of the state he had asked Ward H. Wood, Charlotte banker, to act as commissioner temporarily.

Mr. Smith has served his district for seven terms and promised in his announcement made public today to attempt to render the same high type of service as in past years.

Mr. Smith will be opposed by J. N. Williams, local merchant, who announced the first of last month that he would enter the contest for alderman of the First ward.

In the Third ward, H. H. Duncan will oppose T. T. Hollingsworth, incumbent. Mr. Hollingsworth made his announcement last Tuesday, stating that he would be in the race for re-election.

Something of a contest is also to be waged around the office of mayor, Roy Flanagan having announced sometime ago that he would oppose Mayor J. C. Lanier on a platform of equal justice to all.

ROCKNE BODY REACHES HOME

Funeral for Famous Football Coach Will Be Held In Indiana Probably Monday

By PAUL MICHELSON

South Bend, Ind., April 2.—(AP)—Knut Rockne was back "home" today. His epic odyssey on earth was near its end.

All that was mortal of the man, who blazed such a brilliant path of human achievement in his life of only 43 years, rested peacefully in a closed bronze casket in a quilted funeral home on North Michigan Street just three miles from the campus of Notre Dame.

The great Nordic chieftain of American football and good sportsmanship, who but four days ago left South Bend and Notre Dame with a broad smile on his face, was back "home" with the boys he loved so well and with those who loved him and who will cherish his memory forever.

Never again were his friends to look upon his face. The tragic crash of the airplane, which took his life in Kansas, denied even that.

Those in charge of the body viewed it and decided that it would be best to keep the casket sealed forever except to give his widow a one last glimpse at the man everyone cherished. But it was doubtful whether Mrs. Rockne would care to see "Rock" again under the circumstances of mutilation and death.

Escorted by guards of honor, the body of the famous Notre Dame football coach was returned to South Bend last night at 11:08 o'clock, but how vastly different was the homcoming from those of the past.

ROWE SPEAKS ABOUT CHURCH

Duke University Professor Delivers Gripping Sermons At the Methodist Revival

Attendance continues good at both morning and evening services of the revival now in progress at Jarvis Memorial Methodist church.

Dr. Rowe preached on the subject of "The Church," last night and told of the transcendent part which it is playing in the lives of millions of people in all parts of the world.

He said anybody could love the lovable person, but we must go further and love all people with brotherly love regardless of the unattractiveness of their personality.

In the message at the morning session today Dr. Rowe gave a graphic portrayal of the rush, unrest and bustle of the present day, and how we wreck life by trying to keep the pace with the hurry and scurry of the world even though it necessitates leaving off the best things in life for the lesser.

Report Lack of Competition In Sale of Bonds

Nashville, Tenn., April 2.—(AP)—The legislative investigating committee had been told today that an agreement of bidders prevented any actual competition when the state sold a \$29,000,000 bond issue to Caldwell and Company and associated banks in January of last year.

However, Paul M. Davis, president of the American National Bank of Nashville, testified that he considered the deal was a "good one from the state's standpoint."

Governor Henry H. Horton, Davis related had requested him to discuss with Rogers Caldwell, president of Caldwell and Company, matters relating to the bond issue when it was proposed, and he told of a conference at the governor's mansion with Caldwell and Colonel Luke Lea, newspaper publisher.

New Earth Shocks

Recur During Night Shaking Down the Few Remaining Buildings at Managua; Rescuers Apparently Have Situation Well in Hand With Arrival of An Abundance of Food and Supplies; Giant Fissure Made By the Quake Used As Crematorium for Dead

Managua, Nicaragua, April 2.—(AP)—With 600 bodies recovered from the ruins, Colonel Frederick L. Bradman, U. S. M. C., in charge of the relief work today estimated the total dead from the earthquake at 2,000 persons.

The excavating of bodies continued throughout the day and more were being taken out hourly. Meanwhile, new shocks occurred. Two tremors during the night shook down a number of rickety houses still standing. The hardest one appeared about 4 A. M. Awakening outdoor sleepers who had scattered to the outskirts of the city to rest on cots, benches, and on the ground.

At daybreak, hundreds of natives who precipitately left the city yesterday returned and poked through the ruins, salvaging their personal belongings and household furniture and carrying them by mule, ox-cart, automobile and train into the hills.

The Marines appeared to have the situation well in hand. An abundance of food and medical supplies was arriving. There seemed to be enough surgeons and doctors to care for the injured.

Ernest J. Swift, Red Cross official is expected during the day from Miami in an amphibian plane and will organize relief workers who have already started from several points.

Amphibians from the U. S. S. Lexington arrived yesterday and at night, bringing six surgeons and supplies and promising more today. The U. S. S. Rochester, Rochester, steaming up the west coast from Balboa, is expected tomorrow with a cargo of food supplies.

A navy hospital ship will arrive in Corinto today and dispatch loads of food and medical supplies through the hills to the stricken city. A supply of several hundred blankets is expected from this source to provide for refugees who are sleeping outdoors in the extremely chilly weather caused by cold winds off the lakes.

By WILLIAM H. EWING

On the hills about the city stand tents, made in some cases from bed clothes, and other hastily erected temporary shelters in which more than 30,000 of the stricken city's population are camped, fearful of return to Managua's ruins and uncertain of the future.

On one hill, overlooking the city, a giant fissure, opened by the quakes of Tuesday, is being used as an improvised crematorium to which most of the bodies recovered are being taken as soon as they are extricated from the fallen masonry of the ruined city.

About 600 dead have been actually accounted for and it seemed probable today that the total would reach the initial estimate of 1,500. There probably will be more dead than injured, marine corps officers believed, commenting that most of those caught indoors at all by the quake were killed outright.

More than 500 serious injuries have been treated at the marine barracks at Campo de Marte, and more than 70 persons are confined there with injuries which in many cases will prove fatal. Some, too old to undergo necessary operations, and the like, are almost certain to die of their injuries.

MEN CONFESS FIRING JAIL

Sole Responsibility for Conflagration at Columbus Rests On Two Prisoners

Columbus, O., April 2.—(AP)—Sole responsibility for the fire that took the lives of 320 prisoners at Ohio penitentiary last April 21 rested today on the shoulders of two men.

Solution of the plot that caused one of the greatest prison disasters in history came yesterday when Franklin county Prosecutor Donald J. Hoskins announced that Clinton Grate and Hugh Gibson, convicts, had confessed setting the fire with a view to delaying Warden Preston E. Thomas' construction program and because they objected to aiding in the building of a new cell block to house fellow prisoners.

Gibson, formerly of Philadelphia, was sentenced from Cleveland, Grate, whose home is in Virginia, was admitted from Dayton, O. Both men were convicted robbers and had served nine years of their terms.

The confessions were announced after an investigation by the Franklin county grand jury was concluded yesterday. The jury was called in session today to decide what action to take. Under the law, the men may be indicted for first degree murder and put to death in the electric chair if convicted.

Grate and Gibson denied they planned the fire with a view to escaping during the ensuing confusion.

The confessions said the fire was set with a lighted candle which was placed in a wooden form used in building the new I and K blocks.

Hood Tendered Commissioner of Banks Position

Raleigh, April 2.—(AP)—Gurney P. Hood, of Goldsboro, member of the House from Wayne county, was today tendered the position of state commissioner of banks created by the Seawell bill, ratified today.

Governor Gardner, in announcing the appointment of Mr. Hood, who is out of the state today, said he had named Ward H. Wood of Charlotte as a member of the banking commission and had telegraphed him to immediately assume charge of the state banking department.

FEDERAL OFFICERS SEIZE TWO TONS OF NARCOTICS

New York, April 2.—(AP)—Federal Attorney Medalle announced today a squad of Federal agents raided an office in Greenwich Village, seized between one and two tons of narcotics, and the contraband valued roughly at \$1,120,000 per ton.

The seizure was believed to be the largest ever made in this district.

Abraham Goodman, alleged proprietor of the A. B. Trucking company, on Hudson street, in whose office the narcotics were found, was arrested. Agents said they believed he was connected with the same ring as Al Aptizer and Abe Strin, who were indicted last month.

The raid was the culmination of a long investigation by the Federal Narcotic Bureau here and Mr. Medalle's office. Maj. Joseph A. Manning, head of the bureau, led the raiders.

### BILLY'S UNCLE

# SIX OFFICIALS ARE INDICTED

## Two Bankers Also Cited In Conspiracy to Defraud Transylvania County

Brevard, I. C. April 2.—(AP)—Six former Transylvania county officials and two Brevard bankers were under indictment today charging them with conspiracy to defraud the county of \$100,000 by embezzlement and misapplication.

The charge grew out of the sale of September 13 of a \$100,000 bond issue, which the county commissioners in office at that time claimed was necessary to meet county expenses.

The indictment alleged the bond issue was sold for the benefit of the Brevard Banking Company, which closed December 15 with more than \$1,000,000 depositors.

It was further set forth in the indictment that the county at the time the bond issue was sold had \$575,529.64 on deposit in the bank and that "said bank then and there was insolvent or in imminent danger of insolvency."

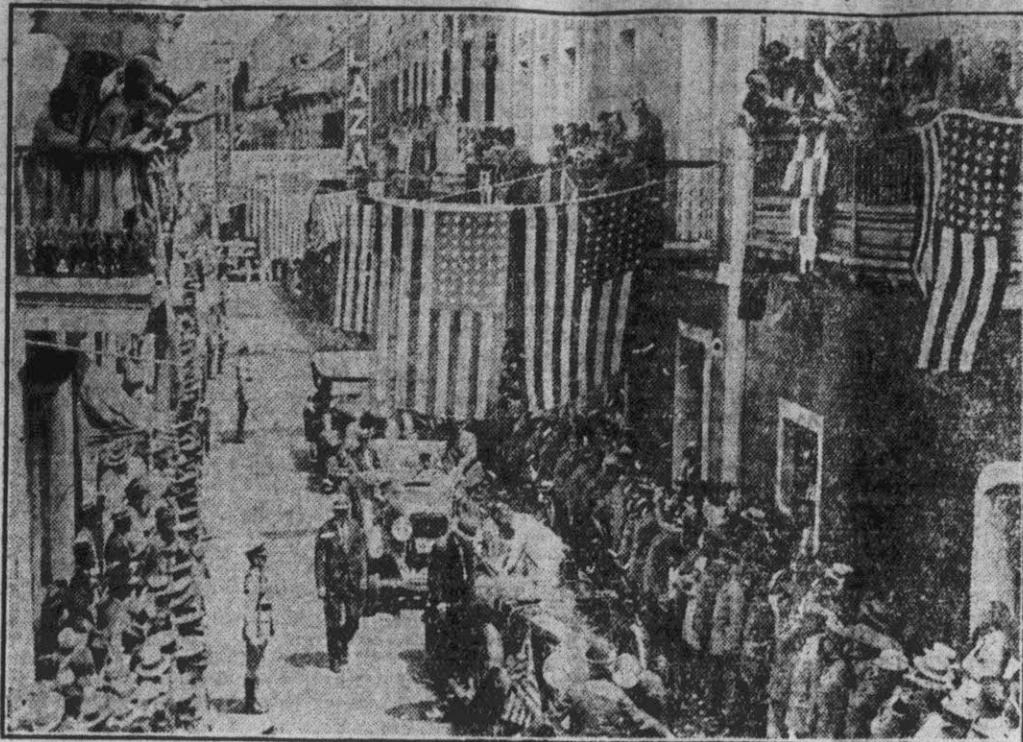

Named in this indictment were Thomas H. Shipman, president of the bank for 15 years and former president of the North Carolina Bankers Association; Joseph S. Silverstein, chairman of the bank's directors; J. H. Pickelsimer, chairman of the board of county commissioners that retired December 1; C. H. McNeely, A. M. White, W. L. Talley, and S. R. Owen, members of the county board, and Ralph R. Fisher, county attorney.

Another indictment charged the former county commissioners with failure to demand security for county funds deposited in the bank. In separate indictments, Shipman was alleged to have embezzled, misapplied and abstracted \$21,000 from the bank the day it closed, and T. E. Patton, Transylvania county sheriff, was charged with obtaining money from the bank thru misrepresentation.

Shipman said the \$21,000 represented a \$15,000 forgery of a customer of the bank he had voluntarily assumed and other items of customers charged to his account. His bond on this charge was set at \$5,000.

Sheriff Patton, whose bond was put at \$1,000, asked for an immediate trial of the charge against him. He was alleged to have obtained money from the bank by juggling timber invoices of the Patton-Pickett timber firm, of which he was a member.

# An Open Letter to Mr. Firestone Whose "Mail Order" Tire Are You Talking About?

... Here is a Correct Price Comparison of Montgomery Ward & Co. Tires with Firestone Tires

Ward's Trail Blazer and the Firestone Oldfield are similar in quality—Compare:

SIZE	WARD'S Trail Blazer	Firestone Oldfield
29x4.40/21	\$4.55	\$4.98
30x4.50/21	5.15	5.69
28x4.75/19	5.95	6.65
29x5.00/19	6.30	6.98

Ward's 4-ply Riverside is similar in quality to Firestone Gum-Dipped High Speed. Compare:

SIZE	WARD'S Riverside (4-ply)	Firestone Gum-Dipped High Speed (4-ply)
29x4.40/21	\$4.95	\$7.05
30x4.50/21	5.69	7.85
28x4.75/19	6.68	8.55

Not all sizes have been listed—but enough to give an idea of how prices compare. And by the way, Ward's prices are even LESS when you buy in PAIRS!

Free Mounting Service at Every Ward Store

Dear Mr. Firestone:

Above, we reproduce part of one of the many newspaper and magazine advertisements appearing throughout the country, in which Firestone tires are compared with "a mail order" tire . . . Montgomery Ward & Co. is the oldest mail order house in America. So when you say "mail order," many people naturally think first of Montgomery Ward & Co.

But — the specifications of the "mail order" tire listed in Firestone advertising fall far short of the specifications of Montgomery Ward & Co. tires. . . . You have also stated in your advertising that "a mail order tire is made by some unknown manufacturer . . ." Well, Ward's tires are made by one of the largest and best known rubber companies in America . . . a company, in fact, that is larger than your own company, Mr. Firestone. . . . Furthermore, your advertising says "Compare prices." You compare Firestone prices with "mail order" prices. Montgomery Ward & Co. states emphatically that your advertising does NOT make a correct comparison between Ward tires and yours, in either quality or price. But the table at the left DOES.

The Firestone advertising lists three grades of tires—Courier, Oldfield and Super-Heavy Anchor. Your Courier, Mr. Firestone, is what is known in the trade as a "third line" tire. Montgomery Ward & Co. does not sell a "third line" tire. Your Oldfield is what is known as a "second line" tire—it compares in quality with our TRAIL BLAZER. The table at the left shows how Trail Blazer prices compare with Oldfield prices. Your Super-Heavy Anchor is also a "second line" tire—but is a quality which we do not sell . . . OUR BEST TIRE IS OUR RIVERSIDE. The Firestone advertising does not list a tire equal in quality to our Riverside—in the table at the left however, we list Firestone tires that are equal in quality to our Riversides and show ALSO how the prices compare.

In view of these facts, Mr. Firestone, we ask that in the future you state whose mail order tire you are talking about.

MONTGOMERY WARD & CO.

Mr. Auto Owner

Montgomery Ward & Co. guarantees you that quality for quality, there are no better tires made than Ward's Riversides and Trail Blazers. Furthermore, they are backed by the fairest, squarest tire guarantee ever written. And they sell for LESS than other tires of equal quality. Stop into Ward's store where you will find a complete stock of Riversides and Trail Blazers and see for yourself. COMPARE before you buy.

**ABOUT TOWN**

It is gratifying news coming from the Greenville Country club regarding the addition of nine holes or an eighteen hole golf course. Already considered one of the best courses in this section of the country, the local links will hold out far greater attraction to out-of-town people with the extra nine holes.

Interest in golf has increased by leaps and bounds the last year or so, and many of the one hundred members of the Country club are participating actively in the sport.

Golf is one of the most popular forms of recreation of the present age, and efforts of the Country Club members to keep abreast of the times is very commendable indeed.

The weather man also is good at the art of April fooling. He started off April 1st with bright sunshine, but changed his mind and sent leaden skies for the remainder of the day.

Such rapid changes may be expected quite frequently during the month, for the guardian of the weather is just as fickle as a woman during this period of the year.

Catastrophes such as that recently happened in Nicaragua should cause people of this country to more fully appreciate the conditions under which they live.

It is very seldom we are troubled by elemental disturbances of any note, and we should consider ourselves fortunate indeed.

The loss of one thousand lives and wrecking of an entire city is no small matter, and it will take America's troublesome child quite while to recover from the devastation.

People of the nation will break the ice of the sartorial realm with the annual fashion parade next Sunday.

From that day on Spring wearing apparel will be in ascendency in all sections of the country and there will be no return to heavier clothing until the chilling weather of the fall months.

Greenville merchants have provided an exceptionally fine display of the spring and summer clothing for the patrons this year, and it could be to the advantage of everybody to view these offerings before peeping out in the big parade Sunday.

Just what members of the Republican party think they will find out the investigation of the Bailey-Whichard campaign in this state is difficult to determine as it is certain that alleged irregularities did not exist in the election.

Mr. Pritchard received a fair and square defeat at the polls and the campaign funds committee might investigate from now until the end of time without being able to cast aspersions upon the electorate of this great commonwealth.

It would have been much better had the Republican candidate accepted the decision of the voters. He would assuredly receive more consideration should he ever again run for any office.

Just because irregularities existed in some of the other parts of the country is no justification for bringing such charges to a state that has always enjoyed a reputation of fair-dealing and straight-forwardness in the business of choosing its public officers.

The reduction of tobacco and cotton acreage in North Carolina is probably the most burning question of the moment.

The farmers have been told that they can expect nothing but disaster if they go ahead and plant cotton acreage, and there is every reason to believe the next harvest season will witness an appreciable reduction of both crops.

Many of the growers have already gone in for the production of food and feed crops and these will enable them to come out to the good end of the season regardless of the prices paid for cotton and tobacco.

The raising of poultry and hogs is one of the most important sides for Pitt County growers, and

this season will bring them thousands of dollars they would not get if they had not followed this line of activity.

Every citizen should support the movement looking to the beautification of the City of Greenville. Many improvements of this kind have taken place the last several months, but it is possible the most conspicuous will come during the spring and summer months.

The courthouse, one of the most imposing buildings in the city, set the improvement pace this week with the planting of trees and shrubs at strategic positions on the lawn. Grass was replanted some time ago and before the spring is far advanced the lawn will be a thing of beauty and splendor.

The beautification program is being sponsored by the Garden club, and is receiving the support of other clubs realizing the beauty engendered by the planting of flowers, trees and shrubs.

**FATHER GABLE SPEAKS HERE**

(Continued from page one)  
 All are a species of dishonesty. As long as the social conscience retains the ideas of sin there is hope of establishing proper conduct. But when sin is not only condoned but approved of then society is on the verge of moral bankruptcy.

A case of this is the "rake off" or "gratuity" that has become the motive power of political life. Anything that is "licit compensation" is wrong and sinful. The man who palliates his conscience by saying he is honest should prove it by telling it to the voters at the next election.

The fact that others do it does not make it moral according to the standards of the Divine Law. The speaker then pointed out that among the throng of shoppers there were some who asked for credit. It was given them but with an agreement that the article would be paid for later.

Though we may see the buyer obtain possession yet until that contract is fulfilled the article still retains the title of the original owner. There is a constant growing number of people who are not fulfilling this obligation. The fact that companies are organized whose sole purpose is to gather the names of men and women who do not pay their debts show what little regard people at large have for the command of God. It is a principle of Scripture that he that has in abundance must loan to him that hath need. And in this case of unproductive property he could not expect any return but what he could not expect any return but what he loaned. Money in our day is productive and in the case of loaning money there is a legal rate. To expect that or to require exorbitant interest is usury and a sin.

While all the sins of theft, dishonesty, fraud and usury are forbidden by law, they are also against the Divine Law, and have a two fold malice, first toward God who is the Sovereign Distributor of all things, the other against the owner who is deprived of his use. The point of difference of the violations of this Commandment from others is that it always involves restitution. Where this is refused there can be no forgiveness. To show the folly of any dishonesty the Reverend Speaker recalled for his hearers the words of the Savior "What shall it profit a man if he gain the whole world but lose his Soul."

Next week's lecture on the "False Witness against the Law" will conclude the series.

Iowa, however, did choose a Democrat to replace one Republican representative in congress. But California stuck to its Republicans ten and one Democrat, and Washington to its four Republicans and one Democrat.

Democrats are hopeful of better luck in these states next time. While Shouse said he would emphasize economic questions, some southern Democrats are apprehensive that he will attempt to sell the western state on the anti-prohibition plank suggested by Chairman Rankin of the national committee. **ROACHES EAT TREES BUO NOT UNASSISTED**

Cambridge, Mass.—(AP)—Eating wood is an acquired habit, even for the famous Appalachian mountain roaches, which eat trees.

They have helpers, a whole colony of them for each roach, it has been discovered by L. R. Cleveland of Harvard. Their wood-converter, a single-cell animal, protozoa, which live inside the roaches, eat the wood.

When Dr. Cleveland deprived the roaches of their protozoa, he reports to the American Association for the Advancement of Science, the foolish roaches continued to eat wood. But the wood killed them.

# COUNTY COURT ENDS SITTING

### About Thirty Cases Disposed of In Two-day Session Here This Week

The two-day session of County court came to a conclusion yesterday about the noon hour after the disposition of approximately 25 or 30 cases. It was the first sitting of the court in three weeks and the docket was unusually heavy. Judge W. L. Whedbee presided.

John Holmes, colored, charged with stealing chickens, was sent to the county roads for six months to contemplate over the seriousness of taking property belonging to another while helping to improve the county highway system.

Lobby Porter, young white man of the Simpson community, was given a 90-day suspended sentence to the roads upon payment of cost. He will be responsible to the court for his good behavior for a period of two years.

He was charged with shooting at an automobile.

The case of Sam Lawrence and Buster Dowell, colored, charged with manufacturing liquor, was transferred to Superior court. They are also being held in jail here as material witnesses in the death of Henry Abrams, aged white man whose body was found on the side of a road in Belvoir township over two weeks ago.

# India to Send Six Delegates to Conference

Karachi, India, April 2.—(AP)—Mahatma Gandhi and members of the Nationalist cabinet today decided to limit the Indian Nationalist delegation to the forthcoming round table conference to six although according to the agreement with Lord Irwin they are entitled to fifteen.

It was Gandhi's belief that a small compact, cohesive delegation would be better than a large unwieldy one, and that if there was a large delegation some "might" fall victims of the international practice of governments the world over to honor those whom the government seeks to influence with banquets, compliments and blandishments.

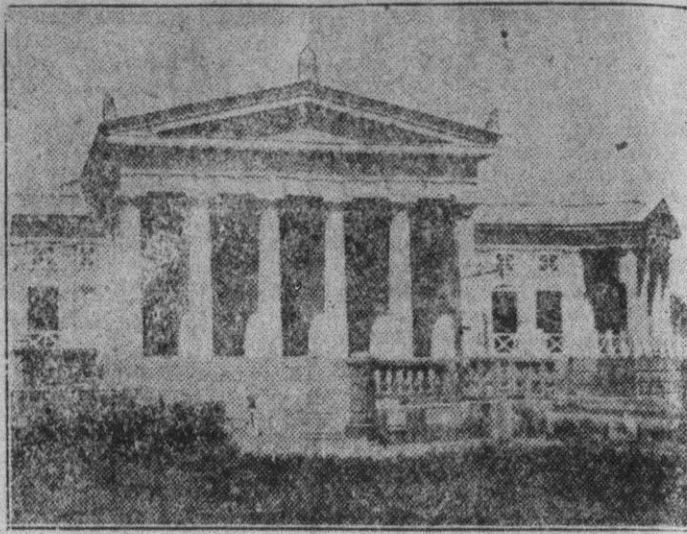

Rather than be under any obligation to Great Britain Gandhi ruled that the all-India national congress should pay all the expenses of the Nationalist delegation to London. The entire cost of the last non-congress delegation to the first London round table conference came out of India's pocket.

Gandhi himself will prove the least expensive of India's delegations as the forthcoming convalescence he will travel third class like the humblest immigrant, carrying his food in a knotted homespun handkerchief affair similar to the red bandana of the American hobo. The ever-faithful Mirabai, nee Madeline Slade, daughter of an English admiral, will prepare his food for him.

His present plans call for his leaving India sometime in July, sailing from Bombay possibly with the Indian princess but occupying steerage quarters of the boat while the Maharajahs have de luxe rooms.

# MISSING MAN IS LOCATED

## Gray Henderson Discovered Living With Relative in Black Mountain.

Asheville, April 2.—(AP)—Gray Henderson, one of three men reported missing from the Big Ben section of Haywood county and believed slain in a moonshiners' feud, has been located in Black Mountain living with his son, Sheriff Laurence E. Brown reported today.

Henderson, said he did not know a search had been conducted for him until he was found by the sheriff.

The other missing men are Scott E. Gwyn and Mims White.

On the behalf that they were slain, officers arrested Frank and Case McGaha, on warrants charging they shot the pair to death. They have been in jail for several weeks now, and counsel announced today immediate hearing would be demanded. Officials announced this would probably be held Monday.

A boy named Smith, from Gastonia, told Haywood County officers that Scott and White were murdered and their bodies buried beneath a still deep in the Smoky Mountain recesses. Search disclosed the still, and soft dirt beneath it, but the bodies, if ever there, had been removed.

So far as known, the bodies have never been located. Officers have thrown a cloak of considerable secrecy about their investigation, however, and indicated today they might have startling developments to present at the hearing Monday.

# Tower of Business to Replace Wendell Home in N. Y.

New York.—(AP)—New York's "island of seclusion," the four-story Wendell home at 39th street and Fifth avenue, soon may be razed—to make room for another tower of business.

That was where Ella Von Wendell, the last of her line lived and died—the last guardian of a \$100,000,000 fortune built by a German immigrant who bought New York land cheap.

For years the closely shuttered "house of mystery," incongruous in its setting amid scores of skyscrapers, has puzzled the thousands who ride Fifth avenue's buses.

Seldom was there any sign of life about the old mansion which was

built in 1856 at a cost of \$5,000 except for the weekly washing hanging on the line in the backyard.

And only after dark did Miss Ella venture into the enclosed yard to exercise Tobey, her spot poodle. She had been offered a small fortune for the yard alone, but she had refused it, saying it was needed for Tobey.

The assessed valuation of the house and lot was \$3,700,000.

Trustees of the siminary may vote in April for removal of the building and the lease of the site for other construction.

And down at 175 Broadway another strangers of the Wendells must go. There John D. Wendell, before he died at 80, hung a sign—"no real estate for sale"—this despite the fact that he had valuable parcels at many points on Manhattan island.

Now the sign is meaningless. These other parcels will be sold too. They also probably will become sites for bigger buildings, under provisions of the will that specifically empower the executors to dispose of the Wendell holdings and distribute the receipts.

## Kentucky Lady Tells How She Was Helped, When Sick, By Taking Cardui.

How a Kentucky lady was benefited by taking Cardui is described below, by Mrs. E. R. Dietel, of Princeton, Ky.:

"My health was bad. I was in a run-down condition, and suffered a great deal with a pain in my side.

"I simply ached all over. I was so nervous. At night I was so restless I did not feel rested or refreshed when morning came—just one day after another feeling miserable.

"My mother had taken Cardui and it had been a great help to her. She thought it would do me good.

"After my first bottle, I felt much better. I kept it up until I had taken four bottles. My side got better. I was less nervous.

"I am glad to say I am better today after having used Cardui. I can recommend it to my friends and neighbors."

Insist on Cardui, praised and recommended by thousands of women. Sold by druggists.

**Sans Souci Club Meets.**

On Tuesday afternoon Mrs. Frank Wilson delightfully entertained the Sans Souci Club. Miss Sara Scott and Miss Clara Louise Moyer were special guests for the afternoon.

The program, Rabindranath Tagore, was in charge of Mrs. Bruce Sugg. Lagore, the Indian poet, philosopher and teacher, and winner of the Nobel prize in 1913, is perhaps, next to Gandhi, India's best known figure. After giving a vivid sketch of his life, Mrs. Sugg read several of his poems—charming in their beautiful rhythm and exquisite phrasing.

Following the program and book reports a delicious salad course was served by the hostess, assisted by her daughter, Misses Verda and Elizabeth Wilson, and Miss Olympia Jones.

Mr. Everhart is enroute to his home from Florida, where he has been spending the winter.

### MISS FRANCES DICKINSON DIES IN WILSON

Funeral services for Miss Frances Watson Dickinson, daughter of Dr. and Mrs. E. T. Dickinson, were held in Wilson Wednesday morning at eleven o'clock.

Miss Dickinson died Tuesday morning at five o'clock following several months' illness. She made her home in Greenville for several years, and had a host of friends who will regret to learn of her death.

Among those from Greenville attending the funeral were Mrs. J. L. Little, Mrs. H. L. Rivers, Mrs. W. E. Hooker, Mrs. J. L. Hassell, Mrs. J. E. Winslow, Mrs. Norman Winslow, Mrs. E. W. Moseley, Mrs. W. I. Skinner, Mrs. J. L. Fleming, Mrs. J. H. Blount, Miss Maye Barnes, Miss Mary Wright, Miss Effie Mae Winslow and Dr. W. I. Wooten.

### PRE-EASTER PRAYER SERVICE AT CHRISTIAN CHURCH

The Missionary Society of the Christian Church will hold a special pre-Easter service tomorrow afternoon from 3:30 until 4:30 o'clock.

The service will be in three periods. The subject of prayer will be Fellowship. Devotional for each period will be led by the circle leader.

There will be several special music numbers, and talks by Mrs. Settle and Mrs. Ryan.

### TEN NIGHTS IS STORY OF CHILD FAITH AND DEVOTION

Though the play "Ten Nights in a Bar-Room" is many years old, no greater note in human emotions has ever been sounded than that of a child's love for his father.

This love and faith on the part of little Mary Moran, in the picture is a splendid thing to see it brings to the mind the old axiom "My parents right or wrong, my parents just the same." Children and adults as well, can profit from the entertaining and important message revealed in "Ten Nights," which will be shown at the State Theatre on Friday and Saturday.

### RED OAK NEWS

#### Red Oak Club Meets.

The Red Oak Club had its regular monthly meeting Wednesday, April 1, at 2:30 o'clock with six members and one visitor present. The meeting was called to order by the president, Miss Almata Jolly. "Follow the Gleam" was sung, and then the club prayer was repeated. A quotation, "Not Living at Home" was read by Mrs. James Allen and was followed very appropriately by "In Praise of Turnip Salad" by Mrs. R. R. Tyson.

As we had no representative for the council meeting, Miss Nice gave us the report on that. Reports were

then handed in by the garden and music leader, after which the meeting was turned over to Miss Nice for her demonstration which was milk (cottage cheese). She gave us several recipes and then served the club with delightful cottage cheese and green pepper sandwiches. The meeting was then adjourned.

#### Red Oak Easter Egg Hunt.

Everybody is invited to an egg hunt next Sunday, April 5, at Red Oak Church, after the Sunday School hour. We failed to announce this last Sunday, so be sure and come. Bring eggs for the children.

#### ASKEW-WRIGHT.

Farmville, April 1.—In a ceremony characterized by simplicity and impressiveness, Miss Hannah Minch Probasco Wright became the bride of Harold Sugg Askew, on Sunday morning, March 29, at 9:30, following a Palm Sunday service in Emanuel Episcopal Church, which was banked with stately long leaf pines and other forest greens, and beautifully decorated with wild pear and peach blossoms. Dr. Frank Dean of Wilmington, rector-in-charge, officiated.

Preceding the ceremony the vestal choir sang "O Perfect Love," and Elbert Holmes, baritone, sang "At Dawning," with Mrs. J. L. Shackelford, organist, accompanying. The "Bridal March" from Lohengrin was used for the processional and Mendelssohn's Wedding March as the recessional.

The first to enter were the ushers, George Moore and Julian Rumley, followed by the two attendants, Miss Elizabeth Fields and John King.

The bridegroom and his best man Leroy Parker, came from the vestry room door and met the bride at the chancel steps, attended by J. W. Joyner, who gave her in marriage. Of a lovely blonde type, she presented an exquisite picture in her ivory lace and satin gown made with bodice and full flare skirt, and matching slippers. She carried a bouquet of bride's roses showered with valley lilies.

Mrs. Askew, a charming young woman of attractive personality, is the only daughter of Mr. and Mrs. Thomas W. Wright of Bridgeton, N. J. She received her education at Fairfax Hall, Sweet Briar College, and the Philadelphia School of Industrial Art.

Mr. Askew, popular member of the young social set, is the youngest son of Mr. and Mrs. W. C. Askew. He attended Porter's and Fishburne Military Schools before becoming a member of a general insurance company here.

Immediately after the ceremony the young couple left by automobile for a trip to Western Carolina.

#### Farmville D. A. R. Meets.

Farmville, April 1.—Mrs. W. B. Murphy was hostess to the Colonel Alexander McAllister chapter D. A. R., at the March meeting of this group, held this week, at her home in Snow Hill, in which a variety of spring flowers were used with charming effect.

Mrs. Murphy, regent of the chapter, presided, and Mrs. L. V. Morrill conducted an impressive devotional session. Mrs. T. A. Person of Greenville, gave echoes of the recent state convention at Statesville, and was elected delegate to the National Congress D. A. R. The report of the treasurer, Mrs. J. W. Parker of Farmville, showed the or-

A splendid address on "Russia," by Mrs. J. A. Long of Kinston; an interesting talk by Mrs. T. C. Turnage, regent of the Farmville chapter; and a number of Negro spirituals and southern airs by a quartet, composed of Miss S. Northcott, Miss Payne Sugg, R. P. Aiken and H. G. Roberson, went into the making of a varied but highly enjoyable program.

Refreshments consisted of creamed chicken in tumbal, crabapple jelly, hot rolls, fruit cake topped with cream, and coffee.

In addition to the chapter members, Mrs. Murphy had as guests Mrs. J. A. Long, Mrs. Dan Quinerly, Mrs. James Parrott, and Mrs. G. B. Cooper, of Kinston; Mrs. T. C. Turnage of Farmville; and Mrs. L. V. Morrill of Snow Hill.

#### PINE TREE BEAT MAN ON USE OF I-BEAM DESIGN

Sattle, Wash.—(AP)—The I-beam—form of greatest strength in steel—was invented by tree roots.

The trees use it for the same purpose that man applies the shape

in his building materials for greater support.

The trees use it for the same purpose that man applies the shape in his building materials, for greater support.

The latest example of I-beam shaped roots is found in bogs near Seattle by George B. Rigg, professor of botany, and E. S. Harrer, of the college of forestry, at the University of Washington.

Their curiosity was aroused by tall pines in bogs which stood unbent while similar pines in nearby solid ground were uprooted in strong winds.

They found first of all they report to the American Association for the Advancement of Science, that these bog pine roots were all near the surface, barely two feet deep, spreading in a top layer of peat. But the roots had enormous spread, being twice as long as young trees, and running out 47 feet for a 60-foot tall tree.

#### Determined to be Aviator

Los Angeles—James H. Adams, 10, is determined to be an aviator despite the fact that airplane accidents have claimed the lives of his mother, his stepfather and his two uncles. The latter was Robert Fry one of the pilots of the air liner which crashed at Bazaar, Kansas, killing four. Young Adams is a diligent student of aviation never missing a chance to visit airports and ride in planes.

# AMERICAN LEADS THE NATIONAL

New York, April 2.—(AP)—Just when it looked like the National league might pull ahead of the American circuit in their annual joust for the springtime championship, out popped Buckeye Harris' Detroit Tigers during the past week to turn back the men of Heydler.

After having remained on the sidelines most of the spring, the Tigers jumped into the inter-league warfare with both feet and captured three out of four from the Pittsburgh Pirates. As a result, the American league was able to increase its advantage to three full games. The score today stood: American 21; National 18.

Outside of the Tigers' winning spree, the two leagues fought on even terms for the week—what time they were not being rained out. The Giants licked the White Sox two out of three as they started their tour of Texas, but the

Yankees squared it up for the American league by taking their only start from the Phils. Cincinnati split with the Athletics in the only other tilt between the rival leagues.

Having selected their opponent pretty carefully, the Boston Red Sox continued to lead the field in percentage of total victories, with eight in nine starts. They have not yet faced a major opponent. The Brooklyn Robins, who have been pitting their big bats against all comers, ran their record to 11 wins in 14 games to take second place.

Manager Gabby Street's champion St. Louis Cardinals boasted the outstanding mark against major opposition, with nine wins and only three losses. Brooklyn has won six out of eight against the big boys.

Biloxi.—Walter Johnson has so much hope for Wally Bashiell that he is setting aside a time-established rule in his behalf. Ordinarily a rookie gets little chance unless he shows up well in pre-season games. Dashiell however, has had a bad leg and Manager Johnson is willing to wait.

Bradenton.—Manager Street was enthusiastic over his Cardinal infield today, and predicted it would go far in bringing another National league pennant to St. Louis.

## Cleveland Seeks Championship Bout

Cleveland, April 2.—(AP)—Cleveland, with its new municipal stadium, was mentioned loudest today in the ballyhoo over sites for Max Schmeling to defend his heavy weight championship against W. L. "Young" Stribling.

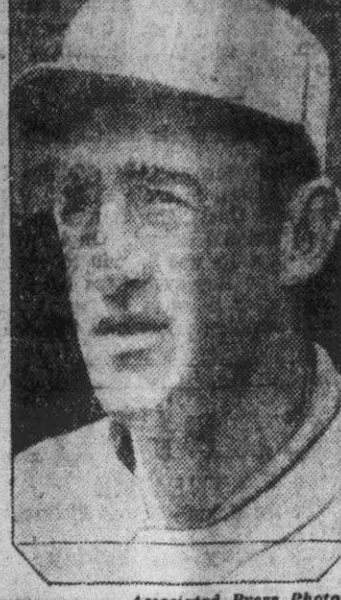

Only a dispute over the stadium rental was holding up Cleveland's definite selection. It was unofficially reported as an experience here between William E. Carey, president of the Madison Square Garden corporation; Joe Jacobs, manager of the German heavyweight; and George H. Bender, stadium manager.

They said they would announce a decision tonight after more conferences.

Jacobs was sure Cleveland had the "inside track" over Chicago's Soldier field and Detroit's arena. The match came, it was understood, over Bender's desire to obtain a considerable rental fee and demands that the promoters install all "necessary equipment," including a platform to accommodate between 40,000 and 50,000 people and costing around \$40,000. Bender was said to have asked that this be given to the city without cost after the fight.

The promoters, however, were believed to have asked that the platform, seating around 120,000 with the extra platform, be almost donated in return for the publicity. The bout probably would be staged July 3.

## Cardinal Star

Associated Press Photo  
Frankie Frisch, St. Louis Cardinal second baseman, is expected to be a tower of strength this year.

## News From The Training Camp

Chattanooga, Tenn., April 2.—(AP)—Babe Ruth's chivalry faced a severe test today.

A gold watch has been offered for the first homer hit at Engle Stadium, and the Bambino would like to have it.

But, Miss Jackie Mitchell was scheduled to pitch for the Lookouts, and her heart's desire is to fan the Babe and make enough money to buy a roadster.

Charlotte.—Winding up a training season that has been somewhat unsatisfactory because of rainy weather, the first and second string Athletics will get away from North Carolina late today and head for home. The entire squad, which was split into two touring outfits a week ago, will get together en route. They are due in Philadelphia Friday morning. Manager Mack said he expected both Simmons and Earnshaw, who have been training at Hot Springs, to be on hand for the city series with the Philles.

Philadelphia.—The Philles come back to the home lot today after five weeks in the south. Manager Shotton said the team was in fair shape for the coming series with the Athletics.

San Francisco.—No recruit in the Pittsburgh Pirate squad this spring has attracted more attention than Forrester Jensen, the fleet young outfielder from Seattle, Wash. His hitting and speed on the base paths have been particularly brilliant.

Birmingham.—Owen T. Carroll, the one time boy wonder, this season is getting what probably amounts to his final chance in the

major. He jumped from Holy Cross College directly to Detroit in 1925 and was sent back to the minors. He is striving for a pitching berth with the Cincinnati Reds this season.

New Orleans.—Young Wesley Ferrell, whose strong right arm is the Cleveland Indians' biggest asset, looks ready for the American league opener. Ferrell lost to New Orleans yesterday, but the verdict was that his fast ball is as fast as ever and his curve in good shape. His change of pace failed him, but another nine-inning stretch or two is expected to iron that out.

Memphis.—Manager Bill Kelleher of the St. Louis Browns was peeved at the weather today, but the players didn't mind, with Boss Bill saying numerous things about the weather, they figured he would have no time to say uncomplimentary things about them.

Macon.—Ga.—The Brooklyn Robins are rapidly becoming radio minded. Jake Flowers and Joe Shaute, leading vocalist of the club, have been signed up to sign at a Macon radio station next Saturday night.

Funeral for Wreck Victim  
Weldor, N. C.—(AP)—Funeral services were held here for William Jessup, former resident, killed when his automobile crashed into a telephone pole at Philadelphia.

Washington.—(AP)—A machine for printing and cancelling prepaid postage that works much like a cash register, has been adopted by the United States Postoffice Department.

It is designed for establishments sending out large quantities of mail of various denominations and classification.

The machine prints in one operation the date, weight, class of postage, insurance notation, special delivery, special handling, C. O. D. amount of postage, serial number, machine and permit number. It can be set to cover any amount of prepaid postage, and when this amount is exhausted, automatically locks.

High yields per acre, economically obtained, form the basis of low-cost production. — Alabama Experiment Station.

Thirty-one years ago W. D. Farrar became the V-C dealer at Canoe, Ala., and began using V-C fertilizers on his own farm. "Perfect satisfaction," Mr. Farrar reports, as to V-C on his own and his tenants' farms and on the farms of his many customers.

In the great majority of cases the applications of fertilizers are too small to produce the maximum profit from their use. — U. S. Dept. of Agriculture.

Using 1,000 pounds per acre of V-C Prolific Tobacco Grower, S. R. Moore of Pinetops, N. C., gathered 5,902 pounds from five acres and sold the crop for \$2,014 — an average of 34 cents a pound.

The practice of stinting in the use of fertilizers when crop prices are low seems to be the very opposite from economical. The only possibility of maintaining profits is by reducing costs. The increased yield per acre resulting from proper fertilization considerably more than offsets the cost of fertilizer. — The Guaranty Survey.

The individual farmer can exercise little or no influence over crop prices, but he can control production costs—and costs affect profit just as directly as prices. — The Guaranty Survey.

Hector Supply Co., Miami, Fla., has sold V-C fertilizers to the discriminating planters of the Miami district for 17 years or more, continuously and exclusively. "And our sales of V-C have increased each year," says H. H. Hector, president of the company. "Many satisfied growers in this territory have used V-C fertilizers ever since we started handling the line."

If you scatter your crop, you scatter your profit. Don't scatter. Concentrate on the good acres, farm them well with plenty of V-C fertilizer, grow heavy yield at less cost. Use the other acres to grow everything else you need for living at home.

"We have noticed that the farmer who uses V-C is the one who buys the most cotton to the gin. We have one customer who made 12 bales of cotton on a one-acre crop, with V-C; and another who made 20 bales of cotton and 400 bushels of corn on a two-acre crop. The majority of our customers won't use anything but V-C." — Winston Gin Co., Haleyville, Ala.

Countless worn-out fields remind us we should build our lands to stay, and, departing, leave behind us fields that have not washed away.

When our boys assume the mortgage on the land that's had our toil, they'll not have to ask the question: "Here's the farm, but where's the soil?" — National Fertilizer Assn.

There's money in farming—but the men who make it are the men who farm good land right. With V-C fertilizer, for instance.

# Full Rows

V-C FERTILIZERS FILL EVERY ROW WITH PROFITS

"Grandpa was right..."

"Grandpa was right about V-C," says the youngster just learning to check by results. And the youngster himself is right, for the V-C fertilizer of today is as dependable, as reliable, as trustworthy in every way as the V-C fertilizer of Grandpa's own boyhood—if he got to be! V-C's good name must be KEPT good.

Behind the results are their safeguards: years of successful experience in the making of fertilizers—laboratories that stay busy at the planning of better results—factories where watchful supervision insures accuracy in the finished goods—sales offices that are always ready for prompt and hearty service—and finally, our V-C agricultural service bureau, yours to command. These are the things that protect the results that the youngster checks ... Grandpa WAS right about V-C!

"If a man fails to produce high crop yields, he fails in everything else," says a writer in The Country Gentleman.

How can you get rid of crab grass? You can't. But you might sell the place. — Mixed Goods.

There is little hope that prices for farm products can be pushed up. There is little hope that total production can be cut down. But there is a lot of hope that the unit cost of growing a bale or a bushel or a pound of yield can be lowered, and this will leave more room for profit. V-C fertilizers help in the lowering of unit cost.

"Farm real estate is now a highly attractive investment." — Reisk W. Dunlap, Asst. Secy. of Agriculture.

"The banker, the time merchant, the fertilizer dealer and the farmer should cooperate in producing the best crop at the least cost. All these have a common interest and a common obligation." — Governor Max Gardner of North Carolina.

R. H. Woodward has sold V-C fertilizers at Talladega, Ala., continuously since the Virginia-Carolina Chemical Corporation was organized. "And the tonnage has increased every year," says Mr. Woodward, who sees four reasons for the increase: uniformly high standard of V-C fertilizers, efficiency of the company's representatives, farmers' good will toward V-C, and confidence on his own part in the goods and in his customers.

Over 3,000 industrial products—many of them from former waste—are now being manufactured from the yields of farming. And chemists are still at work to discover more uses.

Demand V-C. insist on V-C, buy and use no other fertilizer but "old reliable" V-C.

## Order Wrestling Matches Billed As Exhibitions

Seattle, Wash., April 2.—(AP)—Charging that wrestling seemingly was controlled throughout the country by two powerful "syndicates," the Seattle Athletic Commission has ordered that city matches hereafter be billed as "exhibitions" and not as "contests for physical supremacy."

The commission said the two groups of promoters were the Jack Curly Syndicate in the east, whose "alleged champion of the world" is Jim London, and the Lewis-Sandow-Besser Syndicate of Glendale, Cal., with Ed "Strangler" Lewis, former champion as its head and Don George as its "champion."

Wrestlers of the two factions, the commission declared, deliberately staged "fake antics" in the ring.

"It is seemingly impossible for wrestlers from one group to invade the territory controlled by the other group," the commission's report said.

"It is impossible for anyone, even the referee, to determine from the performance of the wrestlers whether they are giving the best that is in them for physical supremacy."

"Antics such as chasng each other around the ring, both inside and out, grunting and growling, pulling chin whiskers, jumping on each other's feet and making faces, are purposely put on by the wrestlers with the approval of the promoters to entertain and amuse the public."

"It would be physically impossible for grapplers to perform two to five times a week and give their best to the technique of wrestling and for physical supremacy."

Los Angeles.—The Chicago Cubs who were expected by their overseer, Rogers Hornsby, to sweep through their exhibition series, now are faced with the problem of getting above the 500 mark. Yesterday's flop to the Pirates left them with a record of eleven victories and twelve defeats.

My dear! you'll never catch me with a Sick Headache again

"I'm nearly 30 years old and this has been the first time since I was thirteen that I haven't suffered horribly from sick headaches at my period. But this month one of the girls at the office insisted I try Capudine and, my dear, I want to tell you it just absolutely ended my headache in a few minutes. It's wonderful!"

Being liquid, Capudine acts immediately, often in one-third the time required by other forms. It contains no narcotics, does not disturb digestion and is approved by druggists.

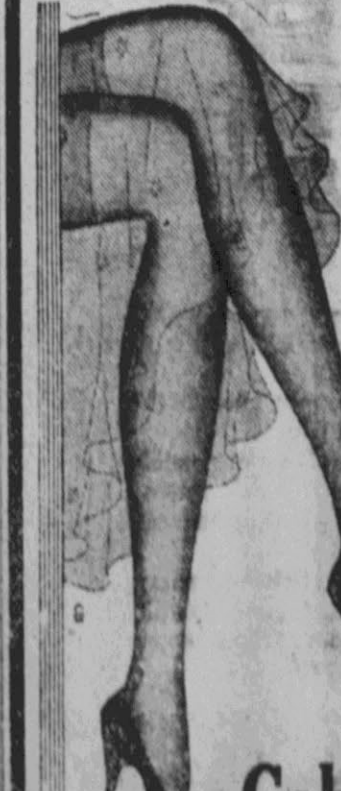

Sold at Drug Stores, in 10c, 50c and 60c bottles and by the dose at soda fountains. Try it! Remember the name.

# Market Report Cotton--Stocks--Grain

## COTTON MARKET

New York, April 2.—(AP)—Cotton opened steady today 1 to 3 points lower in response to slightly lower Liverpool cables than due and showed net losses of 2 to 4 points during the early trading under further liquidation and scattered local selling.

Offerings were absorbed by covering which appeared to be combined with some trade buying at the decline but business was quiet with figures evidently finding nothing of sufficient importance in the early news to inspire activity on the even of a three-day adjournment at the end of the first half hour May was selling around 10.54 and October 11.10 or about 2 to 3 points net lower with the market holding fairly steady.

Liverpool cables reported local and continental liquidation with a poor off take and said there was a bearish sentiment in the cotton goods trade at Manchester with buyers holding off.

## GRAIN MARKET

Chicago, April 2.—(AP)—Led by corn, which fell to the lowest prices since 1922, all grains reached new bottom levels today. Commission houses were persistent sellers of corn despite a more active shipping demand here and notwithstanding statements by a leading authority that from a statistical standpoint the corn supply situation at present was much stronger than at the beginning of the season. Selling, however, was incited by apparently likelihood of much enlarged corn acreage for the 1931 crop.

## STOCK MARKET

New York, April 2.—(AP)—The decline share prices gained momentum in today's stock market, rounding out a fortnight of almost steady backsliding.

Some observers had expected the closing out of short contracts in advance of the Good Friday market holiday tomorrow to give the list a temporary upturn. A rally did get under way in the morning, but was soon lost in a wave of selling. Since two weeks ago next Saturday, the market, as measured by the price index of 90 shares, has had only two slight upturns, and the latest one was almost negligible.

Utilities and chemicals were hard hit. International Telephone dropped more than 2 points, one block of 7,600 shares trading on the way down. United Corp. lost about 3 points, with one block of 12,000 shares, appearing. Consolidated Gas, North American, Electric Power & Light, Pacific Lighting and American Water Works lost 2 or more. Allied Chemical dropped 5 and Air Reduction more than 2 to new lows. U. S. Steel sold off more than a point, but strongly supported at its 1931 low, which is about 3 points above the minimum of last December.

The definite reversal of the upward trend in steel mill activity, as reported yesterday, had greatly impaired speculative sentiment. It is still too early, however, to judge the significance of this development. Next week's steel mill estimates are awaited with keen interest. Republic Steel is starting up two open hearth furnaces at its Bourne-Fuller plant.

The Automobile Chamber of Commerce's March production estimate indicates that the industry in the United States and Canada made a substantial gain over February. Estimates for April, however, are less optimistic than recently.

Call money renewed at 1 1/2 per cent but was not plentiful at that level.

posed of Senators Johnson of Duplin and Gravelly of Nash. The main point in dispute was removal by the House of the salary limit of \$6,000 for the director of purchase. The Ewing bill to permit the facsimile of the chairman of the board of elections to appear on the face instead of the reverse side of ballots, estimated to result in a saving of \$16,000, was passed by Senate. It had been approved in the House.

The House refused to concur in Senate amendments to the omnibus, Justice of Peace and boards of education bills, naming justices and educational board members for terms supposed to have started yesterday, and the bills went to conference.

The House completed its calendar and recessed for half an hour in order that the clerk might put all bills reported by committees today on the list. Reassembling the body continued its work, getting

rid of about a score more bills which ordinarily could not have been taken up until tomorrow. Clearing its calendar of all bills, the House voted not to consider any public bills until noon Tuesday and will be in virtual recess until that time though daily sessions must be held under the constitution. It will meet tomorrow at 10 o'clock.
