FISH HITS AT U. S. POLICY IN NICARAGUA

Others Also Criticise Sending of Marines to Strife-torn Sections

Washington, April 17.—(AP)—Marine aid for insurgent-threatened Americans concentrated today on three Nicaraguan towns as the administration's policy toward the isthmus country was criticized severely in Washington.

The cruiser Memphis was under orders to go to Puerto Cabezas and the gunboat Sacramento to Bluefields. It was possible that the Memphis would relieve the gunboat Asheville, already at Puerto Cabezas, so the latter could go to Cape Gracias a Dios, the scene of more recently insurgent activity.

As these defense efforts proceeded, Representative Fish, New York Republican, attacked the administration's attitude toward Nicaragua as a "hit-and-run" policy which "disgusted" him.

"It is interesting to compare the results of this policy, where nine American lives have been lost, to that of Theodore Roosevelt in far-off Morocco of 'Perfidians alive or Raisuli dead,'" Fish said.

Three senators joined also in criticism of the Nicaraguan policy. Senator Swanson, Virginia Democrat, said he was "sure the Hoover administration will protect American property and American citizens."

Senator Brookhart, Republican of Iowa and King Democrat of Utah reiterated their demands that the marines be brought back home.

"It was a mistake to keep them there" King said.

Secretary Stimson today gave notice to American citizens in Nicaragua that the American government could not undertake general protection of its citizens in that country.

The notification sent through the legation at Managua and the consulate at Bluefields recommended that "all Americans who do not feel secure under the protection afforded them by the Nicaraguan government through the Nicaraguan national guard withdraw from the country or at least to the coast towns whence they can be protected or evacuated in case of necessity."

"Those who remain," the official notice said, "do so at their own risk and must not expect American forces to be sent inland to their aid."

The State Department prefaced its recommendation with the following instructions to the legation at Managua and the Bluefields consulate:

"In view of the outbreak of banditry in portions of Nicaragua hitherto free from such violence you will advise American citizens that this government cannot undertake general protection of Americans throughout that country with American forces.

"To do so would lead to difficulties and commitments which this government does not propose to undertake."

Sisters Drown In Perquimans River

Elizabeth City, April 17.—Miss Sallie McMullan, 44, and her sister, Mrs. Julian J. Jessup, members of a prominent Hertford family, were drowned yesterday afternoon when the couple in which they were riding with the husband of the latter at the wheel backed into the Perquimans river close to their home at the Hertford approach to the highway bridge.

Mr. Jessup was turning around in their yard when in some way he lost control of the car while in reverse gear and it plunged overboard in 20 feet of water. He managed to fight clear of the car and was rescued by men who rushed to his assistance but despite frantic efforts to raise the car it was not brought to the surface for about 45 minutes.

Just 15 months ago, Tom McMullan, younger brother of the victims, failed to return from a boating trip down the river, and his body was recovered several days later.

Twenty Men Arrested As Police Uncover Big Crime Syndicate In N. Y.

New York, April 17.—(AP)—Twenty persons were under arrest today as members of what police said was a crime syndicate that sold murder, arson and robbery as a grocer sells potatoes.

New York and Newark detectives who participated in the roundup, said the gang was responsible for three killings, six cases of arson and numerous holdups. Counterfeiting was carried on a a sideline, police said.

Ten of the men under arrest were taken in Patterson, N. J., and

Staten Island. Newark police arrested the others, one of whom is a woman.

The crimes blamed by the police upon the gang include the killing of Eugene Lynch, Newark chain store manager; and of Herman Tietz and Peter De Palma, Newark druggists.

Detectives said a price scale was arranged by the gang. For instance they declared an arson job on an ordinary two-story frame dwelling cost \$500.

Favors Bonuses

Charles M. Schwab, chairman of the board of the Bethlehem Steel corporation, pleaded with stockholders to ratify the concern's bonus system.

Senator Brookhart, Republican of Iowa and King Democrat of Utah reiterated their demands that the marines be brought back home.

DR. TUCKER ENDS REVIVAL

Makes Masterful Plea for Faith in God in Final Sermon at Baptist Church

Emphasizing the necessity of faith and belief in the power of God, Dr. J. Powell Tucker, of Raleigh, concluded the series of revival services at Memorial Baptist church last night.

Dr. Tucker expressed his appreciation to the people of Greenville for the hospitality which had been accorded to him on every hand.

Referring to the work of Rev. A. W. Fleischmann, pastor of the church, Dr. Tucker urged members of the church to support him in his effort to make the congregation one of the most forward-looking in this section of the country.

Earl L. Wolslagel, evangelistic singer, who directed the music during the revival, also expressed his appreciation of the many kindnesses which had been shown him by the members of various denominations he had come in contact with during his stay here.

Prior to the regular service Mr. Wolslagel delivered his final illustrated lecture before members of the Warbler choir, composed of a hundred or more children. He admonished them to be careful in the conduct of every life, and to follow the road of service leading to the Cross.

A duet was sung by Mrs. W. L. Hall and Mr. Wolslagel after which he rendered a solo number.

Dr. Tucker used as the subject for his final sermon, "God's Power to Save." His text was taken from the seventeenth and eighteenth verses of the tenth chapter of John.

He declared that this declaration by Jesus was a positive presentation of the central fact of His ministry. It was to be consummated at Calvary. He alone among men was born to die while all other are born to live, as the consummating purpose of the life.

The statement on the part of Jesus was a remarkable exhibition of His God-consciousness. It recalled all the great miracles wrought by Him and emphasized the supernatural. We hear Him as he ascends that crowning pinnacle of testimony to say to His disciples: "He that hath seen me hath seen the Father."

Another remarkable thing about the declaration, Dr. Tucker related, was the fact that when He made it not one of his disciples believed it. "I am going to give myself in death," He said, "I have power to lay down my life; I have power to throw off the bonds of death and the grave." He did have the power to overcome, and demonstrated it.

Hickory Postoffice Robbed of Small Sum

Hickory, April 17.—(AP)—The West Hickory postoffice, located in a store in the community which adjoins Hickory, was robbed of \$21.33 early today.

Entrance was made through a window prized open with an axe taken earlier from the Southern Desk Company. Money order blanks and stamps were not disturbed. Police were left with no clues.

Kinston Doctor Sent to the Pen In Narcotics Case

New Bern, April 17.—(AP)—Dr. A. L. Hyatt of Kinston, was sentenced to a year and a day in the Atlanta federal penitentiary here this morning following his conviction in federal court of violation of the Harrison narcotic act by failing to keep records of narcotic prescriptions.

Judge I. M. Meeking ordered not guilty verdicts on four other counts charging Dr. Hyatt with illegal issuance of narcotic prescriptions after the jury was unable to agree.

Revenue Bill Hits Snag As Two Houses Disagree On Number of Conferees

Raleigh, April 17.—(AP)—The biennial revenue bill hit a new snag today when the House and Senate disagreed on increasing the number of conferees from nine to 12.

Approval of the increase was given by oral vote in the House, but the Senate rejected the proposal 18 to 17, the Grier-Folger equalizing fund fraction opposed to any form of sales tax leading the fight against it.

Immediately after the House voted the increase, Speaker Smith, apparently hazarding no Senate objection, added the names of Representatives A. D. MacLean of Beaufort and Gurney P. Hod of Wayne to the five conferees he appointed yesterday.

The Senate staged a lively fight on the proposal, finally turning it down by one vote and leaving the number of Senate conferees at four.

KING SURE OF HIS RECALL

Alfonso Confident the People of Spain Will Ask for Him to Return to His Throne

Paris, April 17.—(AP)—Alfonso De Bourbon, deposed king of Spain, and Victoria, his English queen, today faced together in France an exile which Alfonso is confident will end in his recall to the throne at Madrid.

To both Victoria and Alfonso, and the five of their six children who are here with them, the people of Paris extended a welcome which was more like that of conquering heroes than refugees.

Alfonso was visibly startled to see the huge crowd awaiting him. He doffed a green fedora, and attempted to slip out a side door of the railway station to a waiting car, but found another cheering crowd awaiting him there.

At his hotel, police had to make a way for him through a throng which stood outside, and finally upon their insistent demands he appeared with Victoria upon a balcony opening on their rooms. Both, struggling to master their emotions smiled and bowed and withdrew, but the shouting continued until they had to appear again.

The acclaim to Alfonso and Victoria was mingled with French and Spanish. The shouts were both "Vive Le Roi!" and the Spanish, "Viva El Rey!"

One of Alfonso's first inquiries upon reaching Paris was for the welfare of his third son, the 17-year-old infante Dan Juan, who was taken to Gibraltar from the naval academy at Cadiz shortly after proclamation of the Spanish republic.

He appeared greatly relieved upon being told that arrangements had been made for Juan to leave today from Gibraltar for Naples, from where he may proceed to Paris. In view of the physical deficiencies of the infant Alfonso and Jaime, Juan's two older brothers, it is he who probably would be picked as Alfonso's successor to the throne.

With exception of Don Juan all the royal family is gathered here.

No decision has been made as to where Alfonso will spend his exile, whether in Paris, a nearby villa, or in England, where because his wife is an English princess he probably would be accepted as a member of the English royal family. Alfonso is wealthy and may go where he wishes.

Madrid, April 17.—(AP)—The Spanish Republican government has no thought of prosecution of the deposed monarch, King Alfonso, for any of his acts while he ruled Spain.

The new minister of state, speaking at the conclusion of a five-hour cabinet session, said that to think of prosecuting Alfonso was to think of prosecuting the moon.

Fire-proof Jail Is Wanted By State of North Carolina

Raleigh, April 17.—(AP)—North Carolina today was hunting a jail that is absolutely fire-proof for seven girls who have a penchant for setting things afire.

The girls were inmates of Samaritan state school for delinquent girls, until a dormitory burned last month. Then they were removed to the Robeson county jail and charged with arson.

Early yesterday they set the jail afire. Little damage was done, but Robeson county officials wired the state prison here they were bringing the girls to it.

N. A. Townsend, executive counsel to Governor O. Max Gardner, immediately protested.

"Take them to the Wake county jail or the Durham county jail," he said. "They're fireproof—state prison isn't."

ABRAMS CASE IN SPOTLIGHT HERE TODAY

Three Belvoir Men Charged With Slaying Aged Construction Employee

Hearing was continued in the criminal term of Superior court in this city today in the trial of three men charged with the killing of Henry Abrams, aged construction company employee, whose body was found on a roadside in Belvoir township during the early part of March.

The defendants are Raymond Stancil, Thomas Hathaway and Francis Bullock, all of the Belvoir township, who were arrested shortly after the crime was committed and placed in the county jail. Three negroes, Sam Lawrence, Buster Dowell and Dave Foreman, were being held as material witnesses.

The trial was begun yesterday afternoon about five o'clock and was expected to consume the remainder of the day. A considerable amount of testimony was to be introduced on both sides, including expert testimony of physicians who performed an autopsy on the body of Abrams about two weeks ago.

Solicitor D. M. Clark announced at the outset that he would not ask for conviction of first degree murder. He said he would seek conviction on grounds of manslaughter or second degree murder.

The case has held the spotlight of the community for several weeks owing to the various angles which the investigation by county officials assumed from time to time.

Abrams, employed by the construction company in erection of the new school at Belvoir, was paid off the Saturday afternoon of his death and told friends he was going to the home of a relative.

Sometime later his body was found on a roadside near a church in Monkey Den section. The money which he had received during the afternoon was missing and evidence of a blow on the side of the head led officers to believe he had been a victim of holdup men.

County officers investigated the case and a few days later, Stancil, Hathaway and Bullock, who discovered the body and reported it to the officers, were lodged in jail, charged with the crime.

Stancil, officers said, admitted that Abrams came to his house during the afternoon of his death, sat down in a chair and died suddenly. He vigorously denied that he had anything to do with killing the man, and declared that he and the other defendants hauled the body down the road and dumped it on the side of the highway because they wished to avoid publicity and the subsequent notoriety usually involved in a death of this nature.

The suspects were given a habeas corpus hearing shortly after their incarceration and were remanded to jail without bond. Their legal advisers asked that the body of Abrams be exhumed and an autopsy performed to ascertain if death was not caused either by heart trouble or poison. The examiners expressed opinion that heart trouble was not the cause of death, and the viscera was sent to Raleigh for more minute examination. This report revealed the fact that there was no evidence of poison in the body.

This led officers to cling tenaciously to their former conclusion that Abrams' death was caused by the blow on the head. While the examiners did not think the blow severe enough to have killed instantly, they were said to have agreed that it might have been a contributory cause of death.

New Bern Man Shot By Night Prowler

New Bern, April 17.—(AP)—Walter L. Perry, 43, engineer at the city power plant, apparently was instantly killed by an intruder in his garage here early today.

Perry's body, with a bullet hole through his head was found slumped in his automobile by police who were called when Garrett Toler, a step-son of Perry, noticed lights in the garage about 2 a. m.

The dead man had cut off the motor and his hand still held the keys. He apparently had been shot before he had time to turn off the car lights.

The bullet had pierced the back of his head and come out through the right jaw.

An inquest has been set for late today.

High School Girl Commits Suicide

Sanford, Fla., April 17.—(AP)—Threatened with a whipping, Virginia Ferris Weekly, a 14-year-old high school girl, fired a bullet through her heart yesterday.

H. E. Weekly, her father, told the coroner's jury the girl had been warned about certain company she was keeping. A minister was called to counsel her but she told him falsehoods, the father said.

The whipping was decreed by her mother. While Weekly went to cut a switch the girl retired to her room and committed suicide on her bed.

Meeting of Garden Club.
The regular monthly meeting of the Garden Club was held at the Women's Club on Thursday afternoon. Plans were discussed for a flower show to be held later in the season. The subject of the afternoon was "Gardens," and an informal "round table" on our own gardens and how to improve them was enjoyed, and some plants were exchanged by members. Many have visited the beautiful Airlie Gardens in Wilmington.

Miss Newell of E. C. T. C. faculty, who has visited some of the famous formal gardens of Europe, gave a most interesting description of the gardens of Versailles, Malmaison and the Tuilleries in France; Ann Hathaway's garden, Key Gardens, Hampton Court Palace Gardens, and the small and beautiful garden of the Bank of England, situated in the midst of the most congested spot of London. Then she told of the heather covered hills of Scotland, and described the beautiful Princess Street of Edinburgh which is a continuous garden. Pictures were shown of the gardens visited, and all felt we had enjoyed a glimpse of fairyland.

REVENUE BILL HITS SNAG

AS BOTH HOUSES DISAGREE ON NUMBER OF CONFEREES

(Continued from page one)
for support of the six months term, led the House fight which injected the general sales tax in the revenue bill.
The Senate struck it out, rejected the graduated luxury sales tax and made provisions for a \$10,000,000 equalizing fund to carry out the school plans of the Grier-Folger Senate faction, holding a small but determined lead in the upper House, and the revenue bill went to conference.

Speculation on the conference attitude toward the revenue bill seemed to favor the conferees compromising on the luxury sales tax, although the conferees members are about evenly divided between luxury sales tax supporters, general sales tax supporters and anti-sales tax leaders.
The House passed the McRae bill to submit the question of the short ballot to the people of the state in the 1932 elections.

The Senate as a committee of the whole completed study of the biennial money spending bill and adopted it with the understanding of the \$18,500,000 school appropriation figure in the House bill be carried over until the revenue conferees agree on the revenue measure.
The House passed the committee substitute bill for the re-districting of state senatorial districts. Thirty-two districts are established under the measure with two of them, the 20th and 24th, getting three senators.

The 20th district would contain Forsyth, Davie and Rowan with a combined population of 182,132 and the 24th would embrace Mecklenburg, Cabarrus and Stanley with a combined population of 292,513.
Representative Turner, of Guilford, sent up an amendment to add Caswell county to the 17th district, comprised of Guilford and Rockingham, giving the three counties three senators, but withdrew it.
Under the bill, Guilford and Rockingham with a total population of 184,493 get only two senators.
The measure passed when 61 representatives voted favorably with the nayes not counted. It goes to the Senate.

Strict supervision over the operation of power companies by the Corporation commission is proposed in a bill introduced in the House today by Representatives Turner, of Guilford; Gill of Scotland, and Cross of Allegheny.
The measure would require power companies to make reports to the Corporation commission not less than once every six months on the amount of current generated, transmitted, bought, sold or leased and the income derived from it.
It would also require approval by the Corporation commission of all contracts between power companies and any person, firm or corporation classed as a holding, managing, selling or operating company.
The purpose of this, the bill said, is to determine if the contracts are reasonable and not designed or entered into for the purpose of concealing the net earnings of power companies.

Power companies would be required to use a uniform system of bookkeeping, accounting and auditing, and the Corporation commission would have the right to inspect the figures at any time and also to make appraisals and valuations of power companies' property.

UNIVERSITY GLEE CLUB TO BE HERE MAY 7th

The Glee Club of the University of North Carolina will give a concert at East Carolina Teachers College on the evening of May 7. This will perhaps close the series of entertainments offered by the college.
The next attraction will be the bill of three one-act plays presented by the Senior Normal class on next Thursday evening, April 23. For several years the class plays have been presented on two successive evenings in the old auditorium. This year the campus building will be used and there will be only one date. This will be the first class to use the beautiful new curtain. Throughout the rehearsals of the plays, the actors have been carefully training their voices so they can be heard in every corner of the auditorium.

DR. TUCKER ENDS REVIVAL

(Continued from page one)
There is a divine logic in this statement that cannot be gained or overturned, the minister pointed out.

First, your belief or unbelief has absolutely nothing to do with God's power to impose His will. The Lord Jesus Christ broke the bonds of death regardless of whether you believe it or not, and regardless of the lack of belief on the part of the disciples.
You may say, "I just don't believe there is a heaven or a hell, or any justice in God, or any mercy to be found at His hands." It is all impossible from the human standpoint. No, Belshazzar, the Babylonian monarch, did not believe it possible for his mighty empire to fall when the prophets of God told him it would, nevertheless it did. God wrought the impossible.
Jesus bade His disciples to secure provisions for the five thousand on the Galilean hillsides, and they did not believe it could be done. Yet He took the little lad's lunch and cared for the multitude despite their unbelief. When the storm swept Galilee's lake and they were in danger of being sent to the bottom, He stood in the stern of the boat to cry, "Peace be still." The waves and wind obeyed His voice, and they fell at His feet to wonder, "What manner of man is this?" Only this Christ can speak to the storm-swept heart of yours in sin, and say, "Peace, be muzzled." He can work the impossible.

Second, Dr. Tucker said, your belief has everything to do with God's power to work the impossible with you. If you have lost your faith you cannot do anything. Unbelief confines you to the sphere of human helplessness. Only believe.
Third, your belief in God's power to work the impossible is the one and only key to salvation from sin. Certainly you need it. Everything that God does for a man is beyond the reach of human reason. Hence God gave men the faculty of faith. Faith, He declared, will lay hold of that which reason can not grasp. Last of all, your belief will vindicate God's judgment upon your sin. The condemnation meted out to you at the judgment bar of the eternal God will be because of your unbelief. Nothing else.
He urged his hearers to accept Christ, to believe in Him because only through faith in Him is there any hope of salvation.

LONDON HAS LAND BOOM AS CITY ENGULFS FARMS
London—(AP)—After centuries of comparatively slow but steady increases in land values London is going through a boom.
Suburban property in particular, due to the construction of subway extensions and wider roads connecting with the city proper, has felt the new impulse. Some farm land that sold for \$50 an acre a year ago is going now at ten times that value.
But the increase has not been confined to this class of property, sites in the West End of London having changed hands recently at approximately eight times their price of five years ago.

Equal Distribution of Wealth Necessary to Economic Life

Atlanta, April 16.—(AP)—A Catholic, a Jew and a Protestant laid aside their theological differences here last night to agree that wealth must be more equally distributed if economic ills are to be avoided. They spoke at the annual convention of the Religious Education Association.
Father Michael Kenny, of Spring Hill College, Ala., cited that 96 per cent of the country's wealth is concentrated in the hands of 20 per cent of the population. He suggested that the Federal Council of Churches would have done better to advocate a more general sharing of wealth instead of birth control.

Rabbi Samuel H. Goldenson, of Pittsburgh, said modern economic life is now organized so that personal values are neglected. He specifically mentioned "neglecting to tell the truth in advertising," and said that the business world should adopt as its motto "let the buyer beware" instead of "let the buyer beware."
Dr. Harry Ward, professor of social ethics at the Union Theological Seminary, New York, stated that "unless economic forces can be brought into harmony with the ideals acknowledged in religion, art and science, western civilization cannot escape tearing itself asunder."
The theme of all the speakers was "religion in the economic process."

Lower Freight Rates on Coal Are Sought

Raleigh, April 17.—(AP)—A battle for lower freight rates on coal in the Carolinas was continued here today at a hearing before A. Harris Fleming, examining attorney for the Interstate Commerce commission.

The hearing was on complaints filed by the North Carolina Corporation commission, the South Carolina Railroad Commission, the South Atlantic Ports Association and individuals which set forth that coal rates in the Carolinas are 25 to 40 cents a ton higher than in Alabama, Georgia and Tennessee and ask that they be reduced accordingly.
Several witnesses were heard yesterday with A. H. Lathrop representing the Enka Corporation, of Asheville, slated to lead off today. I. M. Bailey is conducting the case for the North Carolina Corporation Commission, Edgar Watkins of Atlanta is representing the South Carolina Railroad commission, and F. C. Hillier, of Jacksonville, Fla., the Ports Association.

Couldn't Walk For 6 Months

"Sargon overcame my troubles after I'd almost lost hope of ever being well again," said Mrs. W. H. Arrowood, Stickville, N. C. "My system had gotten so toxic from indigestion, constipation and biliousness, I had pains all over my body. For six months I couldn't walk. Sargon stimulated my liver and began to get the poisons out of my system right from the start. Now I'm up and doing my housework; eat anything I want without causing me any trouble and simply have a new lease on life."

TEXAS-TO-PANAMA HIGHWAY BLOCKED BY LACK OF FUNDS

San Salvador—(AP)—United States money must be forthcoming if Salvador is to build her link in the international highway planned to run from the Texas border to the Panama Canal.
Officials of this republic believe that other Central American governments are in the same boat.
Dr. Francisco Espinoza, minister of finance, said the Salvadorean share of the project would cost \$5,000,000. But already the customs receipts of the country are pledged to New York banks for paving and other public works loans and until the coffee situation improves there is no other source of income in sight.

The recent Pan-American highway conference at Panama estimated the construction costs for each of the Central American nations as follows:
Costa Rica and Guatemala, \$12,000,000 each; Nicaragua, \$10,000,000; Salvador, \$5,000,000; Honduras and Panama, \$3,500,000 each.

Run-Down, Weak Nervous?

To have plenty of firm flesh and the ability to do a big day's work and feel "like a two-year old" at night, you must eat three good meals a day, relish your food and properly digest it. If you can't eat, can't sleep, can't work, just give Tanlac the chance to do for you what it has done for millions.
Mrs. Fred Westin, of 387 E. 57th St., North, Portland, Ore., says: "Tanlac cured my stomach trouble completely after three years of suffering. It built me up to perfect health, with a gain of 27 lbs. That was two years ago, and I still enjoy the best of health."
Tanlac is wonderful for indigestion and constipation—gas pains, nausea, dizziness and headaches. It brings back lost appetite, helps you digest your food, and gain strength and weight. It contains no mineral drugs; it is made of roots, bark and herbs, nature's own medicines for the sick. The cost is less than 2c a dose. Get a bottle from your druggist. ABOUT TOWN

It is to be regretted that thieves have turned their attention to the robbery of flower gardens of the city, and it is to be hoped the police will not relinquish their efforts until they have put a stop to the practice.

Scores of tulips were stolen from one of the residences on Fifth street this week, and thefts of a similar nature have been reported from various parts of the city quite recently.

The production of flowers is being conducted on a more extensive scale in Greenville this year than ever before by reason of the beautification movement adopted some time ago by the Garden Club. It is discouraging, however, to housewives to nurse the plants to maturity and then have them mysteriously disappear almost overnight.

This is a new kind of thievery, but it should be dealt with just as any other case of stealing, and the police will treat it as such if any of the marauders are apprehended.

This is field day at the State Demonstration farm between Greenville and Bethel and hundreds of farmers from all parts of the state will get an opportunity to see what the state is accomplishing in its effort to show the farmers what can be done through the live-at-home plan.

The farm was started last year at the suggestion of Governor Gardner, and at this time there are over three hundred acres under cultivation. It is the only farm of this kind in this part of the country, and should be a boon to the growers of this part of the state.

Governor Gardner long ago was impressed with the necessity for more attention to the production of the things which the farmers consume at home from day to day, and on this farm it is his intention to carry out this purpose.

It is one of the most ambitious attempts yet undertaken to restore prosperity among the agricultural element, and that hundreds of growers will give it deserving consideration is not to be doubted.

Pitt county was chosen as the site for the demonstration farm by reason of the fertility of the soil and its adaptability to the production of any kind of crops grown in this part of the state. Growers should be proud of the establishment of the farm in their midst

and turn the experiment to their benefit.

Dr. J. Powell Tucker, of Raleigh, closed the series of revival services at the Memorial Baptist Church in this city last night and left for his home in Raleigh.

He made a profound impression upon the people of the community through the sincerity and forcefulness of his messages. He told in simple but eloquent terms of the love and power of the lowly Nazarene who stood on the shores of Galilee over nineteen hundred years ago and preached the divine doctrine of "Peace on earth, good will to men."

Dr. Tucker is not only one of the outstanding ministers of the state, but the nation. He has gained south-wide recognition in past years by reason of the sermons broadcast from Raleigh each Sunday, and wherever he goes he is always greeted by tremendous crowds.

The Memorial Baptist Church was packed and jammed each service the last ten days, and nobody tired of hearing this distinguished exponent of the Bible in his effort to improve the condition of mankind.

Greenville will always be glad to welcome Dr. Tucker to her midst. He was born here and the people will always feel that he is one of their own who has gone away to another community and carved his name on that shining ladder leading to the road of fame.

A few more days now and people comprising the business element of the city will begin talking about closing hours for the summer months.

In previous years the stores have been closing for a half holiday each Wednesday, but just what day will be decided upon this year is a matter of conjecture at this time.

However, it is not to be doubted that there will be the usual half holiday. Merchants realize that they get better results by allowing their employes an outing each day of the week. The workers return to their respective jobs better able to handle the nerve-racking business of attending to the demands of the public, and the merchants at the end of the year not only have healthier, happier employes, but should show a pronounced gain on the side of sales.

Everybody will greet the first closing day with keen anticipation, as it means the enjoyment of hundreds of pleasures denied them during the strenuous days of winter-time.

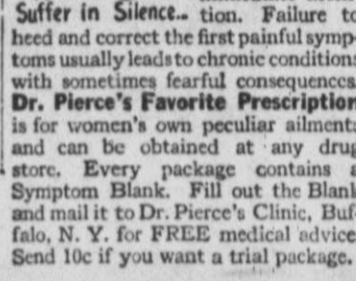

"AMEN" TO RIVAL "FORE" ON ENGLISH SUNDAY LINKS

London—(AP)—Taking a leaf from Mahomet, who went to the mountain, the Church of England is preparing a summer campaign to take the church to the people on the beaches and the golf links. The church plans to send out "caravans" to the popular British vacation resorts to hold informal open air meetings on Sundays.

Much latitude is to be allowed in the conduct of the services to conform with the needs of the individual meetings. Golfers, campers and fishermen are to be appealed to particularly.

TO THE FARMERS OF PITT COUNTY

The farmers of Pitt county and Eastern North Carolina are making a serious mistake by increasing their tobacco crops at the expense of their cotton crops. In many instances farmers have been known to cut out their cotton crop entirely and plant only tobacco. Tobacco is a dangerous crop when depended upon entirely as the present tobacco production is at least 33-1-3 per cent more than requirements and prices are bound to be low this fall.

On the other hand the papers recently carried an account of the increased use of cotton goods. The production of cotton goods in the past few months has been almost double that of the same period last year and the consumption of cotton goods is even ahead of production. This condition cannot mean but that the price of cotton is bound to go up in the face of increased consumption and the price of tobacco is bound to go down in the face of increased production without a corresponding increase in consumption.

The Federal Intermediate Credit Bank in making loans to farmers for producing crops always reduce their loans when only tobacco is planted. It is a dangerous policy to depend only on one crop and the banks recognize this. It is much easier to obtain a loan where several crops are planted than where the sole dependence is put only in tobacco. The farmers must diversify their crops if they wish to obtain credit and avert financial ruin.

There is one farmer in Pitt county that has already planted 100 acres in cotton. Now is the proper time to plant. Don't wait for your tobacco plants for your cotton will be too late and you can make any mistake in planting cotton as

THREE TEAMS LEAD WAY IN BIG LEAGUES

Prince Bibesco and Four Others Hurt in Crash

By HUGH S. FULLERTON, Jr. (Associated Press Sports Writer)

The big fellows of the big leagues are getting an early lesson this season in just how tough some of the other teams can be.

Only three of the 16 major league teams have won their first three games and of these only the St. Louis Cardinals have had even a fairly easy time.

The other two are the Boston Braves, who have disturbed the peace of the experts considerably by upsetting the highly rated Brooklyn Robins thrice, and the New York Yankees, who have taken their tough ones from the Boston Red Sox.

The Braves won No. 3 yesterday by a 7 to 4 count as Ed Brandt allowed Brooklyn only five hits and Danny Vance contributed to his own downfall by throwing to the wrong base just before young Charley Wilson clouted a homer with two on.

The Yanks came out ahead 2 to 1 in a pitching duel between Herb Pennock and Hod Lisenbee that was not decided until the ninth inning. Lisenbee lost the game by making a wild throw in an attempt to nip the winning run at the plate.

The Cardinals had a fairly easy time winning their third game from Cincinnati 6 to 3. Jess Haines and Paul Derringer checked all the Cincinnati batters except Wally Roettger, who hit five times in a row.

The surprising St. Louis Browns nearly won a third game when Harvey Walker, Detroit recruit outfielder, dropped a fly in the ninth inning and let in the tying run but after coming from behind again in the tenth, the Browns lost out in 12 innings, 6 to 5.

Like Detroit, Pittsburgh won its first victory of the year, downing the Chicago Cubs 4 to 3. The Cubs played rather loosely, having 12 men left on base.

Washington's Senators regained their edge over the champion Philadelphia Athletics, taking a close scrap by a 5-4 count. The A's barely missed tying the score as they tallied twice in the ninth.

Clint Brown of Cleveland turned in a neat pitching job as he shut out the Chicago White Sox with six hits to win 7 to 0.

Although he allowed nine hits, Clarence Mitchell's spitball was more than good enough to enable the New York Giants to beat the Phillies. The Giants made 20 hits, and won by a 14 to 4 count.

George Grantham, Pirates' Clouted homer with one on in eighth to beat Cubs, 4-3.

Herb Pennock, Yankees - Held Red Sox to eight scattered hits and beat them, 2-1.

Dale Alexander, Tigers - His single in 12th drove in Gehring with run that beat Browns.

Clint Brown, Indians - Held the White Sox to six hits and blanked them, 7-0.

Charley Wilson, Braves - Hit homer with two on beat Robins, 7-4.

Wally Roettger, Reds - Clouted Cardinal pitching for Cubs and won, 1-0.

SPORTS SLANTS

Gene Sarazen, who has made more great "money finishes" in big league golf competition than any other star of the past decade, regrets that Bobby Jones didn't choose to remain in open competition one more year.

"It would have rounded things out appropriately for Bobby to have played his final open championship this season at Inverness, Toledo where he first entered this tournament in 1920," remarked Gene.

"That was a great year for a lot of young fellows. It marked the first open for Jones, Leo Diegel, Johnny Farrell and myself, all of us around 18 to 20. It was also the first American open for Tommy Armour, then an amateur."

Diegel came close to making history by winning this tournament, winding up in a tie with Jock Hutchison, Jack Burke and Harry Vardon for second place, a stroke behind Ted Ray of England. Leo three-timed two successive greens on his last round.

The odd part of subsequent golf history is that Diegel never has come that close to winning since then, whereas Jones won the open title four times, Sarazen, Armour and Farrell each once.

Since the official banishment of the concave-faced sand wedge by the United States Golf Association, Sarazen, among others, has experimented with a new type flat-faced in order to come within the scope of legality—for the time being, at least.

Gene gave me a demonstration of its effectiveness in the traps of his new headquarters, the Lakeville Golf and Country club at Great Neck, Long Island. He has been working for some time on the club using one of the exiled sand wedges for a foundation.

It pops the ball out of the sand with astonishing results. The under flange, a characteristic of the polished type of club, remains an important factor. This prevents the club head from digging into the sand or the ground, at the same time insuring a uniform trajectory.

"This club may be barred, too," Gene admitted, "but it certainly comes within the law now whether anybody else likes it or not. It helped me win that \$5,000 at La Gorce."

"It's almost a pleasure to get into a trap, the way this works."

Cornell won national championship rowing honor at Poughkeepsie last year for the first time since 1915, but the Big Red oarsmen have one more goal to reach before Head Coach Jim Wray will be entirely satisfied with the job he has done. It is to beat Yale.

Cornell hasn't led the Elis on the water since 1922, the year before Ed Leader took charge of rowing at New Haven. Yale was a poor third that year to Cornell and Princeton in the Carnegie Cup Regatta.

Since then, the Blue's only setback in this race was at the hands of Princeton in 1927.

Yale has another good crew this year. So has Cornell, with a boatload of veterans who rowed eight rival colleges into submission last June on the Hudson. The triangular annual regatta, with Princeton, May 16 on the Housatonic river at Derby, Conn., will feature the early naval campaign.

Modern College Life Declared Bad On Health

Cleveland, April 17.—(AP)—Modern college life was charged today with undermining the health of students and sending out ragged men and women to do the housework work of the world.

The indictment was made by Dr. L. H. Ferguson, director of the student health service at Western Reserve University and chairman of the committee on tuberculosis of the national conference on college hygiene, which will report to the conference at Syracuse next month.

Dr. Ferguson based his assertion on work at Western Reserve, where students have been given regular physical examinations, and reports from other institutions of higher learning.

"Modern college life is taking a terrific toll among students," he said. "It is affecting particularly the most valuable students, most of whom are living contrary to all rules of health."

"There is very little known why this toll is so great whether educational authorities have been helping up curricula until the load has become more than the average student can stand, or whether social life in the college has been so overemphasized until the students reach a breaking point."

"Colleges should be sending out pioneers, vigorous types of young men and women to do the pioneering work of the world, rather than types which are run down before they can get started."

"College social life has made an attempt to duplicate night club life of New York. Social affairs are carried over to breakfast time."

He listed several habits detrimental to student health—lack of sleep, over-work, over-fatigue, poor food, poor living conditions, neglect of ordinary respiratory infections and nervous strain.

Carnera Will Fight Sharkey

New York April 17.—(AP)—Primo Carnera, who used to do a bit of carpentering in Venice, was back in good standing in this state today as he prepared to battle Jack Sharkey, Boston heavyweight, here in June.

Madison Square Garden officials may have more than a few words to say about whether Carnera shall be permitted to meet Sharkey under the banner of James J. Johnston at Ebbets Field June 10, but present indications are that the bout is as good as made and will receive approval from the New York State Athletic Commission.

The garden insists that it holds a contract for Primo to battle no one but the winner of the forthcoming Max Schmeling-Young Stribling heavyweight titular fray at Cleveland July 3 and notified the commission by letter that it was prepared to go to the courts to maintain its contract rights.

Carnera had been under suspension here since April 30, 1930, when the local solons banned him in accordance with similar action by the California boxing commission. Carnera had engaged in an alleged

fixed bout with Leon Chevalier at Oakland. The California commission announced yesterday that it would not lift its suspension on the big Italian.

High school tennis stars from half a dozen cities and towns battled in the singles and doubles semi-finals here today in the 16th state high school tournament.

The singles semi-finals were Har-

ris, Raleigh; L. Jones, Charlotte; Lovell, Mount Airy; and Hanson, Wilmington. They advanced to the semi-finals with comparatively easy victories over their second round opponents yesterday.

Qualifying for the doubles semi-finals were Harris and Lynch, Raleigh; Lovell and Lowry, Mount Airy; P. Jones and Stevens, Charlotte; and Respess and Gurganus, Washington.

Nine-Tenths Preventable

Nine-tenths of all the diseases of the American people can be traced directly to constipation, doctors say. Constipation throws into the system poisons which taint and weaken every organ of the body and make them easy victims for any germs which attack them. Prevent constipation and you will avoid nine-tenths of all diseases, with their consequent pain and financial losses. Herbin, the good old vegetable cathartic, will relieve constipation in a natural, easy and pleasant way. For sale by Pitt Drug Co.

Market Report

Cotton--Stocks--Grain

N. Y. COTTON

New York, April 17.—(AP)—Cotton opened steady today 2 to 4 points lower under selling promoted by the relatively easy showing of Liverpool.

The comparatively small offerings were quite readily absorbed by trade and commission house buying, however, and the market soon steadied with active months selling back to yesterday's closing quotations by the end of the first half hour.

May contracts after selling off to 10.10 rallied to 10.15, while October advanced from 10.69 to 10.74. Reports of favorable weather in the south may have been a contributing factor on the opening decline.

Liverpool cables reported local and Manchester liquidation in that market but said there was more cloth inquiry from India and South America. Egyptian futures in Alexandria were 21 to 37 points lower and the Indian spot quotation in Liverpool showed a decline of 5 points.

GRAIN MARKET

Chicago, April 17.—(AP)—Despite late reports of light snowfalls in parts of Canada furnishing some relief from drought, wheat prices advanced today.

Advices from most sections of the spring wheat belt said dust storms and dry weather gave the crop a poor start.

Texas reports said the condition of winter wheat, however, throughout the entire southwest was about perfect, with indications for earlier than usual harvest.

STOCK MARKET

New York, April 17.—(AP)—Wall Street still groped in a fog of pessimism today.

For the fourth successive session, share prices drifted lower. The decline has not had an important interruption in four weeks, and while the feeling persists in brokerage circles that one of those explosive technical rebounds that normally punctuate declining markets must appear soon, notable signs of such a development fail to appear.

An effort was made to rally the list in the early trading, but the upturn was short lived and was quickly lost.

U. S. Steel sank slightly below yesterday's minimum to record a new bottom since 1927. Auburn advanced 4 points, then dropped more than 20 from the top, getting more than 40 points under its recent peak of 285 1/2. Electric Auto. lost 6 points, and DuPont and Corn Products half as much.

International Telephone, which has a large investment in Spain, lost 2 points to a new low at 5, compared to the year's high of 12. Oils were heavy. Atlantic Refining dropped into new ground on reporting a loss of more than \$2,000,000 for the first quarter.

Other shares off a point or two included American Telephone, Borden, North American, Goodyear, American Tobacco B, Royal Dutch and American Smelting.

NEWS BRIEFS

From Over The City and County

EDMUNDSON BOUND OVER TO COUNTY COURT ON WIFE-BEATING CHARGE
F. A. Edmundson, charged with assault upon his wife, was bound over to the next session of County Court under \$100 bond in the regular session of Police court today.

Will Baker, charged with being drunk, was fined \$5 and cost.

The case against Dave Turner, charged with being drunk and disorderly, was continued until the next sitting of the court on account of illness of the defendant.

KIWANIANS TO MEET TONIGHT AT 7 O'CLOCK
The regular meeting of the Kiwanis Club will be held at the Woman's Club tonight at 7 o'clock. The program will be in charge of J. C. Galloway, of Grimesland. Exposition queens recently adopted by the club will be guests.

COLORED PEOPLE WILL PRESENT PLAY HERE
A play entitled the "Black Sheep" will be presented in the auditorium of the colored school April 21st. The play will be presented for the benefit of A. M. E. Zion Church. It will be directed by Archie Blount of Hamilton, who directed an attraction of a similar nature here during the month of February.

FRIENDLY INDIANS RECEIVE BADGES
We changed the date of our "Father and Son week" from April 6th to April 13th because of the special services in the Memorial Baptist church, in doing so, the speakers from the North Carolina State University YMCA scheduled to speak in all the schools today and address the Kiwanis Club tonight, are unable to come. They were also to entertain the boys of Greenville at a Pow Wow or Jamboree to be held on the third Street School grounds, and give a free show in the Capitol Theatre Saturday morning, these programs are also cancelled.

A Friendly Indian and pioneer meeting will be held tonight at 7:30. All boys are urged to be present to discuss various plans for the future. Badges will be given away tonight.

The national life saving and swimming committee has authorized Albert B. Osborne to examine candidates in Eastern North Carolina for any national tests. If there enough boys eligible to pass these tests, arrangements will be made to make a trip to the Y.M.C.A. swimming pool in Raleigh. Certificates will be awarded to boys passing the following tests: Beginner's test, junior swimmer, master junior swimmer, junior life saver, and master junior life saver. We want the Greenville boys to swim and save life.

Public notice is hereby given that on Saturday, the 25th day of April, 1931, at 12 o'clock, noon at the front door of the courthouse of Pitt County, in the Town of Greenville, N. C., the undersigned will offer for sale at public auction to the highest bidder for cash, the following described real estate, to-wit:
