HUGH GIBSON WILL REPRESENT AMERICA ON DEBT QUESTION

President Hoover Names American Ambassador to Belgium to Go to London As Member of Experts Committee to Work Out Details for Inter-Governmental Debt Moratorium; American Government Will Accept Invitation of League of Nations to Participate in World Disarmament Conference in Geneva in February

Washington, July 9.—(AP)—President Hoover today designated Hugh S. Gibson, American ambassador to Belgium, as American representative on the experts committee which will work out details of the inter-governmental debt moratorium.

Acting Secretary Castle of the State Department in announcing the designation said the ambassador would serve as an observer. Frederick Livesey, reparations expert of the State Department, will be sent to London to assist Gibson.

Castle expressed the opinion a satisfactory arrangement would be found for the suspension of Germany's conditional reparations payments due July 15 so that nation would not be considered technically in default of its debts.

The acting secretary said he had made it clear in his discussions with diplomatic representatives of the other nations that the United States considered President Hoover's one year moratorium plan morally in force and that Germany would not be required to make July 15 payments.

Washington, July 9.—(AP)—The American government will accept within the next few days the invitation of the League of Nations to participate in the world disarmament conference in Geneva next February.

Acting Secretary Castle of the State Department made the announcement of the government's plans late yesterday when the invitation was received. The acceptance will be wholehearted, the administration, urged by President Hoover, being strongly in favor of reducing armaments to relieve economic stress.

The announcement came shortly after the Hoover administration reaffirmed its adherence to the integrity of the inter-allied war debt agreements.

President Hoover's plan for a year's moratorium of inter-governmental payments was definitely described by Castle as contemplating no revision of the war debt agreements.

Later Under Secretary Castle described inter-governmental debts as only one of the deterrents to renewed prosperity and declared "unproductive expenditures on armaments" even more important.

Speaking over a National Broadcasting system, the under secretary forecast the moratorium would bring about general economic recovery and expressed hope that this would lead to success next year at the Geneva disarmament parley.

He predicted that recovery would come "if the people of this country will stand strongly back of the government in optimism and in that determination to carry through which is one of the characteristics of the American people."

"We hope," Castle said, "that by this temporary relief from inter-governmental debts, such good feeling, such a sense of loyal responsibility to each other, may be engendered among the nations that all may enter the disarmament conference next year determined to succeed."

WOMAN AND TWO YOUTHS ON TRIAL FOR MURDER

Danbury, July 9.—(AP)—A widow and two youths were on trial here today for the death of Luther Hicks, the woman's husband, whose body was found several months ago in the Dan river.

True bills were found against Mrs. Hicks and Bob and Ephraim Dodson, brothers, by the grand jury yesterday.

The case was called a little later and when court adjourned for the day selection of a jury had been completed. Taking of testimony was in order today.

Arrest of the woman and the brothers followed the finding of traces of blood on the floor and walls of the Hicks home.

Favor Four-Year Cut Of Tobacco Acreage

Wilson, July 9.—(AP)—Time merchants of Eastern North Carolina were on record today as urging a reduction of not less than 25 per cent in tobacco acreage for the next four years.

Resolutions adopted at a meeting of the Time Merchants Association here yesterday also called upon farmers to further reduce this year's crop by destroying all ground leaves of lugs and urged dealers not to buy scrap tobacco this season.

Wins Decathlon

Jesse Mortenson of the Los Angeles Athletic club won the decathlon championship in the national A. A. U. meet in Lincoln, Neb. He piled up a total of 8,177.463 points.

WILL STICK TO FICTION

Geo. Allan England Denies That He Plans to Go Into the Poultry Business

Camp Sans Souci, Bradford, N. H., July 9.—(AP)—"Nix on the chix!" says George Allan England, author of "Isle of Romance," and many other books. "Likewise on the ducks, pigeons, squabs, pigs, cows, trustles, bees or what have you."

In this statement the author disposed of erroneous reports that he was retiring from the writing of fiction and would put in his time raising chickens. Mr. England relates that when a reporter asked him what the chances were for a beginner to break into the fiction game he told him in a better break would be to avoid fiction and go to raising chickens. In some manner England was quoted as saying he was going to start a chicken-ranch and then, he says, "the Jinnee was out of the brass bottle, and whoopee!"

"My only acquaintance with chickens, at my time of life is how to eat 'em before they're born, or after they're dead," he said today. "I've been 30 years in the writing game, am still in it, and expect to keep it up 30 years more, unless taken for a ride by a committee of editors."

"I have never had the remotest idea of quitting penmanship for poultry. Nay, nay, impossible!"

"But—people from all over the map are flooding me with offers of fowl-farms, chicken-coops, duck-dumps, pigeon-pens, turtle-traps, breeder brooders, cracked-corn, Lucise liniment, bird-baths, Lord knows what-all. Other people are writing me for jobs on my alleged chicken-ranch; offering to work cheap, and saying they have the best of references. There's a pitiful side to this. I hate to have to answer, saying I have no jobs to give them. Too bad."

"One of the five-ton news agencies rushed a big-screen truck up here to my summer camp in the woods, with cameras, sound-equipment and a full crew, to record me in sound-pictures, surrounded by (Continued on page six)

YOUNG MAN FATALLY HURT AT WORK HERE

Marcus Ellen Killed While Working With Electric Drill at the Star Warehouse Site

Marcus Ellen, 22-year-old plumber, employed in erection of the new Star Warehouse, was fatally shocked while working with an electric drill in a ditch on the warehouse site this morning and died on the way to a hospital.

Coroner E. S. Williams stated that he had not determined whether he would conduct an inquest into the tragedy, and awaited the arrival of relatives of Ellen before deciding the question. It was stated by physicians who examined the body immediately after the accident that death was believed to be a result of a shortage in the electric drilling equipment.

The body was taken to the Williams Funeral parlor where it was held pending the arrival of relatives from Rocky Mount. Although arrangements for the funeral had not been made, it was believed that burial will be made in Rocky Mount, former home of the young man.

Ellen had entered the ditch to drill into a concrete culvert. He was assisted by a negro who was called to another part of the site after they had been in the ditch only a few minutes. As the negro was returning, he heard Ellen scream, and rushing to the ditch in company with another workman, saw that Ellen had dropped the drill and fallen backward. The negro kicked the drill away from the injured man who was immediately rushed to the hospital for treatment. He expired, however, by the time they reached the hospital.

Ellen came to Greenville about six months ago and was employed by J. D. Aman until recently when he accepted employment with D. J. Rose & Son, contractors in charge of the construction of the new Star Warehouse.

Grid Star Engaged

Vera Crawley (above), blond-haired Mississippian girl, is engaged to marry Frank Carideo, All-American quarterback of Notre Dame. Carideo will coach at Purdue university next fall.

SLAYS GIRL, THEN SELF

Infuriated Widower Shoots Sweetheart to Death and Commits Suicide

Lake Toxaway, July 9.—(AP)—A verdict of murder and suicide was written today to a double tragedy of the mountains that took the lives of a pretty 18-year-old girl and her 45-year-old suitor at Sapphire Inn, near here yesterday.

Charlie Bryson, widower and the father of five children, called the girl, Edna Hinkie to the back door of the inn drew a pistol and fired six shots into her body. Death was instantaneous.

"After telling friends to summon hearses for two bodies, the girl's and his own, he went to his home nearby, sent his children away, and pumped six shots from the same pistol into his chest. He died instantly.

Both the girl and the man were members of families that had lived for generations in the mountains. They were working at the inn, the girl as a waitress to earn money to pay her way through school. Bryson, although a farmer, was employed temporarily as a plumber.

The verdict of murder and suicide was returned at an inquest that followed an investigation by Sheriff Ed Patton of Transylvania county.

Neighbors told authorities that the middle-aged farmer had been antagonized with the pretty mountain girl for more than a year, but that she, wishing to complete her education, had not welcomed his attentions. Six was a junior at the Rosman high school.

WOMAN JAILED IN ARSON CASE

Negress Held for Attempt to Burn House As Result of Alienated Affections

Because of jealousy over her lover's attentions to another woman, Bertha Gardner, colored, was held in the city jail today charged with an attempt to burn the home of Beulah Carney in the ravine on West Third street. The house is the property of K. W. Cobb.

The woman was arrested by members of the police department the first of the week and will be given preliminary hearing Saturday morning.

The woman Bertha Gardner was trying to reach was said to be Ethel Carney, sister of Beulah, who according to police, had been receiving attentions from Bertha Gardner's man.

Infuriated over the affair, Bertha was alleged to have gone to the home of Beulah Carney, piled Ethel's clothing on the floor of her room and set fire to it. When discovered, the clothing was a mass of ruins, and the floor damaged by the flames.

Police expressed the belief that the woman did not intend burning the house, but was merely trying to harm the young woman who had alienated the affections of the man in the case. However, investigation is being continued with the hope of bringing all of the facts to light before the woman faces preliminary hearing.

Bans Fascist Membership In Catholic Bodies

Rome, July 9.—(AP)—Premier Mussolini himself today placed a ban on Fascist membership in the Catholic action organizations, thereby raising the question of virtual abrogation of the concordat with the Vatican.

As the "Duce," or chief of the Fascist party, he prohibited any of his followers from belonging to the several societies comprised in Catholic action, the branches of which were dissolved by the government May 30.

The Vatican is now faced with the problem of whether the Fascist party action is equivalent to a government action and if so whether the ban on membership constitutes revocation of authority for such bodies to exist which is an essential part of the concordat.

Further the Pope has always maintained that the concordat and lateran treaty must stand or fall together, and if the concordat lapses then the lateran treaty must lapse.

South Carolina Power Tax Case In Federal Court

Asheville, July 9.—(AP)—The appeal of three South Carolina power companies who seek to make permanent the temporary injunction restraining the South Carolina Tax Commission from collecting the levy on hydro-electric power manufactured and sold in the state came before a three-judge federal court here today.

The companies making the fight against the tax, a five mill levy on each kilowatt hour, are the Broad River Power Company, the Lexington Water Power Company and the South Carolina Power Company.

They charge the act, passed by the 1931 South Carolina General Assembly, is in violation of state and federal constitutions and restrains interstate commerce.

AGED PARENTS WATCH FLIGHT

Father and Mother of Harold Jones Agree to "Go Up" If He Reaches Tokyo

Long Beach, Ind., July 9.—(AP)—Keeping a vigil by a radio in a little Lake-side cottage listening to reports of the Seattle-Tokyo non-stop flight, a gray-haired couple, who have always shied at flying themselves, looked at each other and made a promise:

"If our boy does a good job—and lands in Tokyo, we'll go up."

The boy they referred to was Harold S. Jones, who with his fellow Texas airman, Reg L. Robbins, is winging his way in the snow-white monoplane, the "Fort Worth," out from Alaska to Siberia then down to Japan in quest of a \$25,000 prize offered by a Japanese newspaper.

John P. Jones, ruddy, jolly and 70-year-old, played the genial host to the crowd of newspaper reporters, photographers and well-wishers who invaded the resort cottage.

"Hey, mother," said he, "help me out with these questions. I know Harold isn't married, but how old is he? I have been giving his age all the way from 32 to 37 and these reporters say to agree on some figure."

"He is 37—no, he had a birthday in February. He is 38 now—but he is still a boy."

Quiet and reserved, Mrs. Jones looked away wistfully as though she saw that man, still a boy to her, flying into far distant lands.

On tables, chairs and floor were editions of many papers. Over these browsed Harold's youngest brother, Kenneth and his wife, Edith, and the four sons of the aviator's oldest brother, Morgan, who is in Akron, O., on business.

In a conspicuous place on the living room table was a new red leather strap book.

Pasted on the front page was the first definite news the parents had of their son's proposed flight. It was a letter written Monday night just before they left Fort Worth.

The letter began:

"Dear Mama:

"I suppose my now you have read in the newspapers that Robbins and I are planning to fly from Seattle to Tokyo."

"Yes," interrupted the elder Jones with a good natured grumble, "most all we know we read in the papers."

The one page double-spaced typewritten letter continued in the tone of one detailing a casual week-end trip.

"We expect to make it in 55 hours, but don't worry if we didn't get there on time. We are carrying a month's supply of food and if we are forced down we'll make our way to a fishery."

"I'll cable you from Tokyo—"

"My boy will make it," said his mother, closing the strap book. Her blue eyes were steady and brave, yet her sensitive slim fingers toyed with her beads and her gaze would wander over Lake Michigan."

The elder Jones came up and put his arm around her shoulder.

(Continued on page six)

FLIERS REFUEL OVER NOME AND CONTINUE THEIR HOP TO TOKYO

Germany Seeking Loan Of Two Billion Marks

Berlin, July 9.—(AP)—Germany is reported to be seeking an international loan of two billion marks on the strength of her nation-wide "credit front" to restore confidence in her financial status.

Financial circles believed today that Hans Luther, president of the Reichsbank, would go to London shortly to arrange details, although this was neither confirmed or denied officially.

He emphasized in a meeting with the press that the scope of Germany's credit was not limited by the 500,000,000 mark guarantee underwritten by a thousand of the Reich's strongest firms.

"The 500,000,000 has had the same relation to the syndicate's effectiveness," he said, "as an ordinary bank's capital stock has to its capacity for extending credit."

The members of the syndicate represent assets exceeding 20,000,000,000 marks.

The operation of the syndicate's guarantee is described in a government decree. At the end of each semester the Gold Discount bank will notify the governing board of any credit losses to be made good. Each of the members will then have to contribute in proportion to the responsibility it assumed.

Robbins and Jones Make Successful Refueling Contact Over Nome and Head Into Cloud Bank Over Bering Sea; Encounter Worst Weather So Far Experienced in 5,100 Mile Non-Stop Flight From Seattle to Japanese Capital; Refueling Plane Lands At Nome to Take On Fuel for Contact Over Bering Sea

Nome, Alaska, July 9.—(AP)—Flying through the worst weather they have thus far experienced on their attempted 5,100 mile non-stop refueling flight from Seattle to Tokyo, Reg L. Robbins and Harold S. Jones, arrived over Nome from Fairbanks early today, took on fuel over the Bering sea.

The monoplane Fort Worth was pressed on into a cloud bank refueled over Solomon, 32 miles to the east, before the contact here was made and Pilot Jimmie Mattern of the tri-motored mother ship landed here to load for another contact over the Bering sea or Siberia.

Two refueling contacts were made between Fairbanks and Solomon.

The planes were slowed by poor visibility, clouds pressed the ceiling low.

Although clouds were hanging almost to the wave tips as the Fort Worth headed westward, the weather was improving.

In its first contact with the refueling plane, flown by James J. Mattern and Nick Greener, the Fort Worth took aboard 200 gallons of gasoline soon after its arrival over Fairbanks.

Approaching here from the south, the white monoplane was met by an escort of three planes, with the refueler waiting on the ground until the monoplane had circled twice over the city. No messages were dropped and the refueler, with 573 gallons of gas aboard, got slowly into the air.

After brief maneuvering by the planes a man believed to be Jones appeared from a cockpit in the Fort Worth and seized the refueling hose. The gas was quickly transferred at an altitude of about 1,000 feet. As the contact was broken a shower of gasoline went hurtling through the air. No time was wasted in making contact. The Fort Worth then straightened out and headed for Nome, accompanied by the mother plane.

Just before taking off here, Mattern said the refueler probably would be landed at Solomon 35 miles east of Nome, after a refueling there, to take on more gasoline before continuing across the Bering sea to Siberia for the third and final refueling.

With the completion of the Seattle-Fairbanks lap, the highest mountain ranges to be encountered have been flown over by the aviators.

Weather reports said no disturbances were to be found north of Japan on the projected course of the Fort Worth.

In quest of a \$25,000 prize offered by a Japanese newspaper for the first non-stop flight across the Pacific, Robbins and Jones incidentally set a new speed record between Seattle and Fairbanks.

The Fort Worth had flown 550 hours before taking off from Seattle and the motor had run 1,200 hours. The plane does not carry a radio and reports of its progress beyond the Bering sea may be few.

HOME CANNING ON INCREASE

Five New Plants Are Placed Among Farmers of the County During the Day

The plan of the Greenville Merchants Association and Miss Ethel Nice, home demonstration agent, to place canning plants in the homes of Pitt county farmers is meeting with splendid success, and farmers and their wives are displaying much interest in this method of preserving their vegetable supplies.

The merchants are buying the plants at reduced prices, distributing them among the farmers and receiving pay either in canned supplies or cash. All of the plants so far installed were said to be of a very satisfactory nature. There are about 25 plants in the county at this time. Five plants were placed today.

An exhibit of the canned products will soon be completed and placed in the windows of the office of the Merchants Association on Evans street. This will be a revelation of the thrift of Pitt county growers and their wives, and will clearly indicate the progress which is being made to conserve much of the products grown at home.

The placing of the canning plants is in line with the conservation movement started by agricultural leaders sometime ago and which is receiving considerable attention in all parts of the state in view of the unsettled price situation for money crops which has prevailed the last several years. By conserving surplus crops, the farmers will be able to live comfortably all the year despite existing prices for main crops.

Numbers of those who have been operating the canning plants for some time have opened up regular avenues of demand for their products by supplying hospitals and like institutions with the major part of their canned goods used each year. This forms a splendid outlet for the surplus canned goods and enables the growers to realize new sources of revenue.

Persons interested in the canning plants have been requested to confer with the Merchants Association or Miss Ethel Nice at the office of the Home Demonstration department.

WILL PROBE SHOOTING CASE

Score Witnesses to Be Subpoenaed to Inquiry Into Death of Jesse Williams

Raleigh, July 9.—(AP)—Coroner J. H. Kirkman of Johnston county said while here today that he expects to issue subpoenas for about a score of witnesses next week who will be examined at the inquest into the death of Jesse J. Williams, Johnston county political leader, who died of a pistol wound June 26.

Solicitor Clawson L. Williams of Sanford will attend the inquest at the request of the mother of the dead man to personally examine witnesses.

Coroner Kirkman today would not deny reports published that Mary Penny Clayton negress who lives directly behind the Williams home, claims she heard violent quarreling before the shot was fired and that several persons took part in the verbal exchange.

The woman also said she heard someone whom she believed to be Jesse McCoy, 17-year-old son of Williams, exclaim, "You've killed my father."

Sheriff Richardson of Johnston county was quoted as saying that the railroad which runs between the Williams home and that of Mary Penny told him they heard a shot and a similar remark.

Williams was found dying in his home at about midnight on June 26.

His widow told a physician who was called that her husband killed himself. The pistol with which the fatal wound is believed to have been inflicted was found on a dresser nearby. Williams' son told the physicians he placed the gun there.

Members of the coroner's jury examined the body and said they saw no signs of powder burns.

In a special story from Smithfield today the News and Observer said: "In the minds of the most of the citizens of Clayton and the neighboring community, Williams is thought not to have committed suicide."

Sixth Life Claimed by Denatured Alcohol

Brockton, Mass., July 9.—(AP)—Edward Sullivan, 44, one of seven members of a fatal drinking party died at a hospital today. His was the sixth death from denatured alcohol consumed at the party Monday night.

Dominic Desormier was in a critical condition at a hospital and was not expected to live.

TO VISIT RUSSIA

Moscow, July 9.—(AP)—Visas have been granted by the Soviet government to George Bernard Shaw, Nancy Lady Astor and a party of distinguished Britons who have announced their intention to visit Russia this summer.

Killed in Jump From Truck

New Bern, N. C.—(AP)—Brister White, negro, suffered a broken neck and died instantly when he jumped from a moving truck and landed on his head.

State Arranges to Borrow Money

Raleigh, July 9.—(AP)—The State of North Carolina arranged today to borrow \$2,100,000 from the First National Bank of New York at an interest rate of 2-1/2 per cent, "the best the state ever got," Captain Nathan O'Berry said after a meeting of the council of state.

The money will be borrowed on six months notes, Captain O'Berry, state treasurer, added, to care for the general fund deficit of \$2,200,000 which existed at the close of the last biennium on June 30.

"This shows that North Carolina's credit is still good," Captain O'Berry said as he emphasized the low interest rate, which both he and Governor Gardner said was the lowest the state had ever gotten.

"All the leading bankers of the state think this is a fine loan and so does the state treasurer," Captain O'Berry added.

Something About Wiley Post, The Globe Galloper

By LEON H. DURST
(Copyright 1931, By The Associated Press)

Wiley Post was happy when the way was smoothed for the opportunity to make real the "biggest thing he could think of—that bug to go around the world."
With assurance of the financial backing of F. C. Hall, his Oklahoma friend, and the spontaneous co-operation of his navigator, Harold Gatty, Post went to work in earnest shaping things for the arduous he had dreamed of for over four years.
The big moment had arrived for the young man who, as a farmer boy, had expressed his aviation by whittling out airplane models.
To Post the task of getting his sleek monoplane "Winnie Mae" in condition was the main objective. He himself, as usual, was riding the crest of health's wave. Nor did he feel misgivings about his ability to handle the plane as long as her motor soothingly sang.
It was primarily the job of the

meticulous Gatty to fuss with maps, charts, for arithms and all those things a good navigator relishes.
To make perfect his plane, Wiley spent a month at the air factory on the Pacific coast where he once worked as chief test pilot. The 425 horsepower, supercharged motor was to be termed both his "mascot and good luck charm." It was the rosy ribs of favorable fortune around his neck.
Upon its throbbing nine cylinders he lavished the mass of mechanical lore gleaned from his working on all sorts of engines. He even reached back to utilize that experience born of barnstorming days when he thrilled country crowds with his wing walking and parachute leaps, and gave the right click to erratic motors.
It was only a shell of the engine that carried him to victory in the 1930 national non-stop air derby from the Pacific coast to Chicago. Parts had been replaced only after they had been X-rayed, etched and microscopically studied.
"We spent as much money on it," Post said, "as a new engine would cost, but we wouldn't trade it for two new ones, I'm sure."
To gain more speed he worked out his own fuel carrying arrange-

ment and altered the wing adjustment. The fuselage and five wing tanks served as gasoline receptacles. This moved the weight sufficiently to the front to permit what Post said would be easier handling, an even balance and better speed flying position.
A slight negative angle of incidence to the wings was made to "give more speed and at the same time balance the load better."
Fully loaded, the ship weighed about 6,500 pounds with a range of 3,400 miles on the 540 gallons of gas and 31 gallons of oil which she carried.
Spare parts assembled were valve springs, bearings for engine rocker arms and spark plugs.
Post saw no need of carrying either parachute or life raft. The food was limited to just a "few bites." Wiley sized up the situation this way:
"If we come down in the ocean—well, it'll be all over. Food won't do us any good."
Compasses for pilot and navigator were packed, as well as other conventional instruments. There was also an "artificial horizon" and a "directional gyro" to aid in fog and other blind flying. Above the place for navigator Gatty in the

AT POST-GATTY RECEPTION

back a glass fitted hatch was cut in the wing to let in the sky.
Satisfied the plane was in the nick of perfection, Post and Gatty headed for Roosevelt Field after a day's sojourn in Washington.
Wiley went to the capital seeking permission to fly over Russia. This had been granted, however, while they were enroute. Wiley jokingly said, upon hearing this information, there was not much for them to do "but to let President Hoover have a chance to look over a couple of ambitious men."
They did talk, however, with Secretary Stimson of the State Department, and proudly posed for pictures with the ranking cabinet officer.
To capital reporters Post said they were "going to fly around the world in ten days, and maybe less." Post said plans showed 107 hours of flying time would be required. This was prophetic, the actual flying time being only a few hours less.
They figured the ship would have an average cruising speed of 150 miles an hour. It did.
Wiley and his partner loitered at Roosevelt Field several weeks waiting for Dr. James Kimball, of the U. S. weather bureau, to say all was well. Mechanics marveled at the mechanism of the "Winnie Mae." Every now and then Wiley, dubbed at the field the most "unworried man that ever flew across the Atlantic," gave his plane a casual look over, always leaving with a satisfied expression.
Then came the big moment—

of parcel of land situate in the town of Bethel, North Carolina, and more particularly described as follows:
Known as part of the Farrar Estate. One lot, beginning 50 feet West from the intersection of Pitt Street, running West 50 feet; thence South 150 feet; thence East 50 feet; thence North 150 feet to the beginning, facing Carolina Avenue.

Car Owners Bought More Firestone Tires During April, May and June than in any like period in History

THERE are reasons for this—Firestone is now building the Greatest Tire Values in history, with the result that Firestone factories are operating 24 hours a day, 6 days a week, to meet public preference.

This is the year everybody is scrutinizing his purchases. This is particularly true in tire buying because of the many confusing and misleading statements made about tires.
To give car owners the facts, Firestone published comparisons showing quality, construction and prices. Then the public came in—made their own comparisons with cross-sections cut from Firestone tires—and from special brand mail order tires and others.

COMPARE PRICES Firestone

Social and Personal

Carey Warren Jr., John Clark, Jr. and Tom Elvers returned from Morehead today.

Miss Gretchen Parker has returned from Norfolk and Virginia Beach.

Mr. and Mrs. C. A. Bowen, Miss Estelle Greene and Miss Bessie Brown spent yesterday afternoon in Morehead.

Miss Marcella Deal of Clinch, is visiting Miss Ada Jones.

L. C. Evans is spending the week in Fayetteville on business.

Mr. and Mrs. John Clark spent today in Morehead.

Miss Elizabeth Overton is in Louisville attending the young people's council of the Methodist Church.

Mrs. L. C. Evans and children are visiting relatives in Fayetteville this week.

Hostess At Bridge Luncheon.

Mrs. H. M. Owens delightfully entertained at a bridge luncheon Friday morning. The home on James street was very attractive with a variety of summer flowers. Bridge was played at three tables.

Mrs. W. S. Galloway was presented a towel. Mrs. Henry Hall, powder, and Mrs. J. S. Willard bridge cards for high scores.

Mrs. Hall and Mrs. Beard assisted the hostess in serving a tempting luncheon.

Those playing were Mrs. W. S. Galloway, Mrs. Berry Bostic, Mrs. J. K. Spivey, Mrs. J. C. Lanier, Mrs. A. D. Franks, Mrs. Henry Hall, Mrs. M. S. Beard, Mrs. John Clark, Mrs. H. C. Bugz, Mrs. E. L. Baker, Mrs. Leo Burkes and Mrs. J. S. Willard.

Legion Auxiliary Meets.

The Auxiliary to the Pitt County Post of the American Legion held an interesting meeting Wednesday afternoon at the Woman's Club with Mrs. S. N. Graham and Mrs. H. H. Duncan hostesses. There was a good attendance.

Mrs. D. M. Clark, president, presided over the meeting, and a gratifying report was given by the treasurer. In electing officers for the coming year at a previous meeting, the office of president was left vacant and Mrs. J. L. Evans was unanimously elected president. Officers for the coming year will be Mrs. J. L. Evans, president; Mrs. R. S. McGeachy, first vice-president; Mrs. S. L. Bridges, second vice-president; Mrs. Hubert Joyner, corresponding secretary and treasurer; Mrs. Layton McGugan, recording secretary and reporter; Mrs. Wiley Brown, chaplain; Mrs. J. C. Lanier, sergeant-at-arms; Mrs. W. A. Darden, historian.

Delegates and alternates for the state convention to be held in Morehead, were elected. The delegates were Mrs. D. M. Clark, Mrs. L. H. Bowling and Mrs. K. B. Pace, and alternates were Mrs. J. B. Kittrell, Mrs. C. H. Edwards and Miss Estelle Greene.

At the close of the meeting the hostess served an ice course.

Mrs. R. S. McGeachy extended an invitation to the Auxiliary for the September meeting.

WEBB-WILLIAMS.

Miss Susie Thelma Williams of Pactolus and Winslow Jameson Webb of Greenville, were married in Norfolk, Va., on Monday, July 5th.

Reverend Reddick of the Baptist Church performed the ceremony, which was witnessed by a few friends.

The bride is the daughter of Mr. and Mrs. George Williams of Pactolus. She is a graduate of East Carolina Teachers College.

The groom is the son of the late Walter Webb and Mrs. Josephine Webb. He is a graduate of W. C. U.

Both have a number of friends who will be interested in their wedding.

Swimming Party For Visitors.

Miss Margaret Bostic was hostess at a very delightful swimming party at Westbrook Park Tuesday evening in honor of Miss Sue Taylor Myers of LaGrange, Misses Katherine and Elizabeth Davis of Concord, Miss Sonora Bland of Goldsboro, and Miss Sarah Slate of Columbus, Ga.

After a while spent in swimming, a tempting camp supper was served. After supper dancing was enjoyed.

Meeting of Cotillion Club.

There will be a meeting of the whole membership of the Greenville Cotillion Club in the court house at 8 o'clock the evening of Monday, July 13. Some very important matters must be disposed of. It would be to the advantage of every member to be present.

Harry M. Brown, Secy.-Treas.

SERVICE AT COLORED EPISCOPAL CHURCH.

Oscar E. Holden, who has temporary charge of St. Andrews Episcopal Mission (colored) in this town, will preach here on Sunday morning at eleven o'clock, holding a congregational meeting afterwards to set some details of the work.

James E. Holder, Rector, St. Augustine, Kinston, N. C.

Mrs. Simmons Recovers.

Friends of Mrs. J. L. Simmons will be glad to learn that she has recovered and has returned to her home on Washington street.

Tired Boy.

Burlington, N. C.—(AP)—Cicero Fesperman, who escaped from the Alamance county jail a week ago, has surrendered because he was "tired of dodging the law."

Mrs. Hobgood Ill.

Friends of Mrs. A. E. Hobgood will regret to learn that she is ill at her home on East Ninth street.

Mr. Bryan Out.

Friends of Fred P. Bryan will be glad to know that he is able to be out. He has been suffering from injuries received in an automobile accident.

Mrs. Forbes Recovers.

Friends will be glad to know that Mrs. C. Heber Forbes has recovered and is able to be out following an illness of several weeks.

ANNOUNCING WINNERS IN ICE GUESSING CONTEST

The 300-lb block of ice put in the lobby of the State yesterday at 2 p. m., melted today at 10 a. m., having stood up under the hot weather for 20 hours. The twelve guest tickets to see "Women Love Once," were won by Mrs. Belva Perry, Mrs. Durwood Tucker, Herbert Brown, Margie Scott, Mrs. J. P. Smith, Mrs. John Hodges, Mrs. A. J. Moore, Frances Clark, Mrs. W. C. Clark, Mrs. Van Fleming, Margaret Patrick, Miss Lillie Whichard.

The winners will please call at the theatre box office for their tickets.

COMMENCEMENT EXERCISES OF VACATION BIBLE SCHOOL

The following program will be presented by members of the Daily Vacation Bible School conducted by Memorial Baptist Church, at their commencement exercises, tomorrow evening at 7:30:

1. Processional as school assemblies.
2. Worship Period: Good Evening. Call to Worship, Ps. 122:1. School Motto. Hymn: "I Love to Tell the Story" Scripture: Psalm 100. Hymn: "Jesus is All the World to Me."

3. Prayer: Miss Betty Fleischmann. Flag Salutes: Salute to American Flag and Pledge. Flag Bearer: J. B. Spilman, Jr. Salute to the Christian Flag and Pledge. Flag Bearer: Mattie L. Holliday. Salute to the Bible. Bible Bearer: Christine Hellen.
2. Beginners' Department Program. Directed by Miss Margaret Fleming.
3. Primary Department Program: Directed by Anna Belle Teel. Song: "Summer Time." Song: "The Bible." Scripture: Psalm 23. Song: "I'm Glad."
4. Junior Department Program: Directed by Miss Evelyn Hart. Bible Story: Marjorie Sugg. Hymn: "God of Our Fathers." Habit Story: John David Bridges.

5. Song: "My Old Kentucky Home." Sword Drill.
6. Song: "America the Beautiful."
7. Brief talk by the Pastor.
8. Offering.
9. Recognition of Children and Presentation of Awards.
10. "My Country 'Tis of Thee," by the audience.

We especially invite all the parents and friends of the children and all others who are interested in encouraging the children in their work. These boys and girls have worked faithfully with their teachers through these four weeks. Your presence will mean much to them. An offering will be taken to aid in defraying the expenses of the school.

Mrs. Graham and Negro Held After Fatal Accident

Wilmington July 9.—(AP)—Mrs. W. A. Graham of Charlotte, and Henry Herring, Wilmington negro, were bound over to Superior court by a coroner's jury on charges of negligence as the result of a fatal automobile crash here last week.

Mrs. Graham's sister, Miss Mary Vann, of Wilmington, was killed in the wreck and Betty Graham, 6 Mrs. Graham's daughter, was critically injured. Mrs. Graham is the widow of the late Dr. William A. Graham, prominent Charlotte physician, who died about two years ago.

Mrs. Graham's car collided with a coupe driven by the negro. In addition to Mrs. Vann and Betty Graham, several other persons were in the Graham car. All were slightly injured.

A Sidbury, a negro who lived near the street intersection where the wreck occurred, testified at the inquest that both cars were "speeding." He said each reached the intersection about the same time and neither driver was able to stop in time to avoid a collision.

Policemen Harry Dales and Sergeant C. W. Coleman, first officers to arrive at the wreck scene, described the location of the machines.

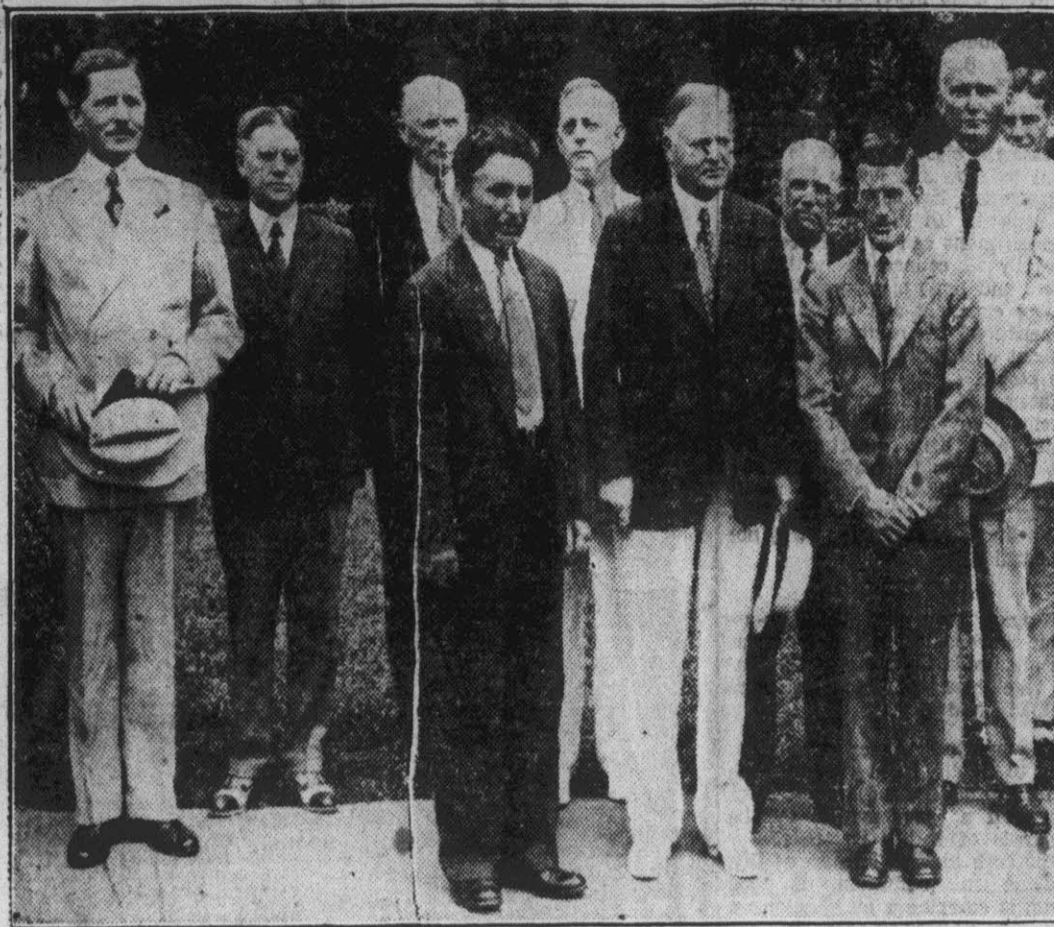

Economy?

Charlotte, N. C.—(AP)—The Charlotte Central Labor union has protested to Governor Gardner against the use of convict labor in competition with free labor.

Patrolmen Busy

Fayetteville, N. C.—(AP)—State highway patrolmen in the southeastern division warned 4,465 drivers against motor traffic violations during June, Lieut. L. A. Hannon has reported.

WORLD FLIERS CONGRATULATED BY PRESIDENT

Wiley Post and Harold Gatty received the congratulations of President Hoover for their flight around the world in less than nine days. They are shown on the White House lawn as they were welcomed to Washington by the President and high government officials. Front row, left to right: Post, President Hoover and Gatty. Rear row: Frank Hurley, secretary of war; Walter F. Brown, postmaster general; Robert P. Lamont, secretary of commerce; Ernest Lee Jahncke, assistant secretary of the navy; F. C. Hall, flight backer, and Senator Hiram Bingham of Connecticut.

ASK COURT TO SET FALL FREE

Seek Suspension of One Year Jail Sentence Because of His Feeble Health

Washington, July 9.—(AP)—Justice Bailey in the District of Columbia Supreme court took under advisement today the government's request that Albert B. Fall be immediately ordered to jail.

Washington, July 9.—(AP)—Frank Hogan, attorney for Albert B. Fall, moved in the District of Columbia Supreme court today that Fall's jail sentence of one year be suspended because of his physical condition.

Just previously, Atlas Pomerehne, special prosecutor in the oil lease

cases had asked Justice Bailey to hand down the mandate for execution of the sentence on the former secretary of the interior.

Hogan reviewed the illness which Fall had during the criminal trial growing out of the oil leases and presented affidavits by three physicians who had examined a recent report on Fall's physical condition by army surgeons in Texas.

The physicians were Dr. Frank Leech, Dr. Thomas J. Claytor and Dr. W. D. Tewsbury, all of Washington.

The report by the army physicians said Fall was suffering from hardening of the arteries and heart trouble, as well as arthritis, chronic tuberculosis and chronic pleurisy. The affidavits of the Washington physicians agreed that on the basis of the report by army surgeons, imprisonment would endanger Fall's life.

Government counsel had announced previously that they felt after an examination of the report by the army physicians that Fall was able to come to Washington to begin his sentence.

Fliers' Wives Escape Injury As Plane Wrecks

Columbus, O., July 9.—(AP)—Undeterred by an accident in landing yesterday, Mrs. Wiley Post and Mrs. Harold Gatty, wives of the round-the-world fliers, hopped off for Chickasha, Okla., today after staying here over night when the plane bearing their wives, which followed them from New York, was badly

damaged on landing at Port Columbus.

The crack-up occurred shortly before 6 p. m., a few minutes after Post and Gatty had landed in the "Winnie Mae," the plane in which they completed a record-breaking globe girdling flight last Wednesday.

Mrs. Gatty, Mrs. Post and their pilot, Marshall Headie, escaped injury. The party left New York yesterday afternoon and were scheduled to reach Chickasha at 3 p. m. today for a home town celebration.

The fliers had planned to stop here only long enough to refuel. They decided to remain in the night, however, when it was found the plane bearing their wives had a broken gear and shattered left wing. Headie said he cracked a wheel in taking off at New York, and that it collapsed when he brought the ship down.

Think Body That of Asheville Man

Asheville, July 9.—(AP)—Fear that the body of a man found Sunday by the railway tracks near Newport, Tenn., might be that of one of two Asheville men was expressed here today. Newport authorities yesterday had been unable to identify the body.

Friends of Stephen Jollick said it was possible that he had met with foul play as he was returning from Cincinnati with money he received from the estate of his late father. A description of the dead man and the clothing he wore strengthened their theory, they said.

Mrs. Charles Evans, said the body might be that of her brother, John Russell, who left Asheville in an automobile July 1 for Birmingham with the intention of returning by Knoxville and Newport.

She said her brother had a tattoo mark on his arm similar to a mark reported to have been found on the dead man.

Friends and relatives of both Jollick and Russell were endeavoring today to communicate with them in an effort which either of them had been killed.

What Our Electric Plant Means To Our City

For the year ending June 30, 1930, the Water and Light Commission out of its earnings made the following expenditures in addition to paying its operating expenses:

Improvement to Light Department	\$ 78,715.19
Improvement to Water Department	4,397.19
Improvement to Sewer Department	15,593.92
Total Improvements	\$ 98,706.30
Turnover to Town for Tax Fund	\$ 10,000.00
Bonds Retired	6,000.00
Interest On Bonds	16,770.00
Total Expenditures in Addition to Operating	\$131,476.30

This same efficient Water and Light Commission agrees to take over and operate the gas plant if our city will purchase same. As much as our electric plant means to us, should we take chances on having it interfered with by letting an outside Power Company come in? Believing we would make a serious mistake to let any outside interest purchase the gas plant, we urge those citizens who have registered to VOTE FOR THE BOND ISSUE!

VOTE FOR THE BONDS

It was interesting to note from items in yesterday's state papers that Chanute, Kansas, for the second successive year was calling upon its citizens for no taxes because the profits from the municipally owned gas, electric and water plants was sufficient to pay all of the city's operating expenses. From information taken from the June 24 issue of "Golden Age," published at Brooklyn, N. Y., we find the following facts as to Chanute:

It is a city of 11,000 population, for two years the citizens have had to pay no taxes, the profits from the municipally owned plants taking care of all operating expenses as well as bonded indebtedness. The city has erected an auditorium costing \$376,000 and a municipal airport costing \$75,000. Note that all of this is without calling upon the citizens for taxes for two years and in addition the city enjoys the lowest gas, electric and water rates in the entire middle west.

We give these facts regarding Chanute to show the possibilities of municipal ownership of these utilities and what the future holds for our city if we will keep the power companies out and mind our own business. As in most cases, our first electric plant was a liability upon our city but under more recent management it has been turned into our greatest asset and in addition to paying its own way our electric plant is helping keep our tax rate down to its present figure and as it gradually reduces the city's bonded indebtedness for water and light plant and sewers, it will be in better condition to render even greater aid toward relieving us of more of our tax burdens until we, too, can reach that enviable position now held by Chanute. If however, we let the power company once get a foothold in our city either through the purchase of the gas plant or otherwise, we can never hope to get as great benefits in the way of tax reduction.

Some of those who are opposing the purchase of the gas plant by the town state their opposition on the grounds that the gas plant might be a losing proposition and as such might curtail the help that otherwise we could get from the electric plant in keeping our taxes down. In answer to this argument we might ask again why the Tidewater Power Company wants the gas plant and why officials of the gas company here now are working to get votes against the purchase of the plant by the town. As we

see it, the power company can have but one of two reasons for wanting the gas plant—either to make money out of it or use it as a tool to help in their fight to get control of our electric plant. If the power company can make money out of the gas plant it stands to reason that with a lowered overhead by operating it in connection with our water and light plants the town can make even greater profits out of it. If the power company does not want it for immediate profits but as a means to get a foothold in our city with a view to eventually get control of our electric plant then by all means we should keep them out at any cost, for in the long run it would cost us more than the amount necessary to purchase the gas plant.

As a matter of fact, however, based upon available information, the city can operate the gas plant at sufficient profits to make it pay for itself and the Water and Light Commission agrees to take over the bonds as it has done with the water and light and sewer bonds so that there will be no further burden placed upon the taxpayers as a result of the purchase of the gas plant. In view of these facts we see no reason for the argument that issuance of the bonds will increase taxes, and therefore must consider it as pure propaganda on the part of those interested in an effort to frighten our people away from voting for the bonds.

On next Tuesday the 941 of our citizens who registered for this special election will have opportunity to express their wishes in the matter and we urge you as one of those citizens to cast your vote

FOR THE BOND ISSUE

If you are interested in the future of Greenville you can't afford to do otherwise.

ABOUT TOWN

A 4-H Club boy in the Winterville district has what Farm Agent E. F. Arnold has described as one of the finest fields of corn in the county. It is believed the young grower will realize a yield of 100 bushels to the acre, a feat that should not fail to attract the attention of planters of all ages. This youth is one of a score or more who are endeavoring to improve methods of farming and have obtained splendid results. As members of a club which has as its object the promotion of farming, they are pushing ahead from year to year creating a competitive spirit among the various communities that is bound to have a salutary effect upon the future.

The farm department is doing everything in its power to encourage the activities of the farm clubs and the field of corn in the Winterville district is one of the outcomes of this effort.

By the keen co-operation of young growers in all parts of the country there is no reason in the world why agriculture should not be developed extensively in years to come.

Students of the second grade of the Intermediate school are to be congratulated upon winning the state prize in the National Safety contest. This is the second time the class has been able to finish the feat, which adds all the

Beats French Ace

Associated Press Photo

Playing brilliant tennis, Frank Shields (above), young American Davis Cup player, defeated the French veteran, Jean Borotra, in the Wimbledon championships in England.

more to the lustre of their achievement.

Mrs. Robeson is teacher of the class and it is largely through her untiring efforts that the winning of the prize was made possible. The class will now be eligible to participate in the nation-wide contest and should they emerge victorious they will receive \$500 as reward for their labors.

Mrs. Robeson's class the first of the year erected a miniature house from health building foods and this was placed on display at the Pitt County Department of Health. Those who saw the tiny structure were impressed by the thrift of the youngsters, who not only gained considerable knowledge of the value of vitamins, but were instrumental in putting hundreds of older people thinking about this important matter.

This class is setting a stiff pace for honors of the entire school system, and is a source of pride to the teacher and the general public.

Five more days and the people of Greenville will go to the polls to cast their vote in the \$100,000 gas plant election.

Just what the outcome of the election will be cannot be said at this time, but hopeful it will be favorable because of the vital effect which it will play upon the future life of the city.

In addition to earning more revenue for the city, it is believed that

municipal operation of the gas plant will safeguard the water and light plant against the entrenchment of large power interests here and at the same time enable the city to render a higher type of service to the people.

The fact that the Water & Light Commission has already signified its desire to operate the gas plant in case the election carries, is sufficient to show the public that this organization has confidence in the investment. In fact, it is believed the gas plant can be operated successfully in connection with the water and light plant, greatly curtailing expenses and enabling the commission to retire the bonds without a single cent extra tax on the people.

Instead of having two sources of revenue as represented in the water and light department, the gas plant would create a third source opening up greater possibilities for the city of Greenville. Other towns have profited—why not Greenville?

Keeping step with the live-at-home movement Pitt county farmers are producing some of the finest vegetables this season seen here in many a day.

Every morning scores of vehicles come to the city laden with all kinds of farm products, and in most cases they find a ready market by the hundreds of thrifty housewives.

The curb market, because of this increase in production of food crops, is carrying a more extensive variety of vegetables than ever before and there is no reason why buyers should not be able to supply themselves with everything desired.

In an effort to meet the demand of the public, the market will remain open three days to the week instead of two as formerly, and this means that there will be greater outlet for the farm products.

Opposes Increase of Freight Rates

Raleigh, July 9.—(AP)—Stanley Winborne, a member of the Corporation Commission, says North Carolina would be the hardest hit of all southern states if the petitions of railroads for a general 15 per cent increase in freight rates is granted.

The rates in this state, he said yesterday, already are higher than those in other sections of the country and a blanket increase would make the ratio more disproportionate.

North Carolina, Winborne said, is joining with other southern states in opposing the petition of the railroads before the Interstate Commerce Commission. The commission expects to hold hearings on the rate case in Washington July 15.

Lost 20 Lbs. of Fat in Just Four Weeks

Mrs. Mae West of St. Louis, Mo., writes: "I'm only 28 yrs. old and weighed 170 lbs. until taking one box of your Kruschen Salts just 4 weeks ago. I now weigh 150 lbs. I also have more energy and furthermore I've never had a hungry moment."

Fat folks should take one half teaspoonful of Kruschen Salts in a glass of hot water every morning before breakfast—an 85 cent bottle lasts 4 weeks—you can get Kruschen at any drug store in America. If not joyfully satisfied after the first bottle—money back.

Consider your Adam's Apple!! Don't Rasp Your Throat With Harsh Irritants

"Reach for a LUCKY instead"

What effect have harsh irritants present in all raw tobaccos upon the throat? A famous authority, retained by us to study throat irritation, says:

"The tissues above and below the vocal chords and the vocal chords themselves may become acutely or chronically congested as a result of the inhalation of irritating fumes in the case of chemists for example."

LUCKY STRIKE'S exclusive "TOASTING" Process, which includes the use of modern Ultra Violet Rays, expels certain harsh irritants present in all raw tobaccos. We sell these expelled irritants to manufacturers of chemical compounds. They are not present in your LUCKY STRIKE. So "Consider your Adam's Apple"—that is your larynx—your voice box—it contains your vocal chords. Don't rasp your throat with harsh irritants. Be careful in your choice of cigarettes. Reach for a LUCKY instead.

ATHLETICS AGAIN BEAT SENATORS

By GAYLE TALBOT Jr. (Associated Press Sports Writer) Once again the Washington Senators have fired and felled back, leaving the Athletics to sail serenely along toward their third straight title.

By turning back their most persistent rivals again yesterday, 6 to 3, the Mackmen made it two out of three for the series and extended their lead to six and a half games over the American League field. The prospects they will be overtaken now appears remote.

Connie Mack called on his great lefthander, Robert Moses Grove, to take the deciding game of the series and the slim portside responded nobly to score his 17th victory of the campaign. The Senators poked away at him for 11 hits, as many as the champions could get off four Washington pitchers, but they were helpless in the pinches. Twelve Senators were left on base.

Meanwhile the New York Yanks with whom the Athletics open a three-game series at Yankee Stadium today, were mowing down the Boston Red Sox in a double header 13 to 8 and 9 to 4, to climb within 4 1-2 games of second place.

Babe Ruth enjoyed a big day with his 21st home run and three singles.

The Cleveland Indians went 11 innings to defeat the Chicago White Sox in their opener 10 to 6.

Lyn Storti and George Burns, two members of the St. Louis Browns' "pony" infield, starred as the Browns broke a three-game losing streak with a 7 to 1 triumph over Detroit. Burns had three singles and Storti a triple and double.

The National League race tightened as the New York Giants dropped a hard fought decision to the Phillies 5 to 4. The Brooklyn Robins, held idle by rain at Boston, went into a virtual tie with the McGrawmen for second place, three percentage points back.

Hans Meine, Pittsburgh southpaw, stopped the onrushing Chicago Cubs in their tracks, when he held them to six hits and beat them 6 to 2. Meine had a shutout until two were out in the ninth, when hits by Hemsley and Grimm scored a pair of runs. The Pirates scored all their runs in the first two innings.

For the third straight day, the Cincinnati Reds were not scheduled.

Carnera to Meet Champ Schmeling

New York, July 9.—(AP)—Primo Carnera, the vast Italian, has been chosen to meet Max Schmeling sometime this year, somewhere in America, in the German's next defense of his heavyweight championship.

Everything was settled at a meeting here yesterday. That is, everything except the time and place. Manager Joe Jacobs speaking for the champion, agreed to send Max against Carnera whenever and wherever the Madison Square Garden Corporation of Illinois chooses, just so the bout goes 15 rounds. He was insistent upon that.

William V. Saxe, who represented the Garden at the big conference, announced the fight would be held sometime this fall, at a site to be selected. Prospects are the best will be held either at Jersey City or Philadelphia, with Cleveland an outside possibility. New York State definitely is out, as Schmeling is under suspension by the New York Athletics Commission for his failure to give Jack Sharkey a return match. The commission has given no indication it intends to reinstate the champion just because he knocked out Young Stripling at Cleveland last week.

Chicago was eliminated as a possible site for the engagement due to an Illinois law which forbids bouts of more than ten rounds.

BOZO DEFEATS CHUCK BURNS

Winston-Salem, July 9.—(AP)—Battling Bozo, Birmingham light heavyweight, held a ten-round decision verdict today over Chuck Burns, San Antonio.

Bozo outpointed Burns by a narrow margin in a bout here last night. The judges split on the decision, but Referee Conway awarded the bout to the Birmingham slugger.

BATTLE FOR U.S. OPEN GOLF TITLE

George Von Elm (left), Los Angeles, and his professional rival, Billy Burke of Connecticut, battled long and hard over the Inverness club course at Toledo for the cup they are holding which is emblematic of the open golf championship of the United States. Deadlocked for two successive days an additional match was needed to decide the title.

POINTERS LICK TWINS

Charlotte, July 9.—(AP)—Dan Boone Pointers are making a strong drive to prove to him they should not be allowed to pack their knapsacks and move away from the Furniture City.

Mrs. E. E. Sensenbach, club owner, has been complaining that the boys are getting weak support from the home town. She threatens to move the base of operations if attendance does not pick up between now and Sunday.

The fans, through the press and otherwise have had something to say about the team's failure to win ball games, but Skipper Dan pasted a black eye on that talk last night. He and his crew waded into the rejuvenated Winston Twins and smacked them 3 to 0 before the Furniture City fans, old Guy Morton, big league veteran, did the twirling for the home team, allowing 10 safeties but coming through in winning form in the pinches.

Attendance at the match was fair—1,000 with 300 free tickets handed out as a part of a ladies' night program. Mrs. Sensenbach said she was going "to watch with interest the other three games" at High Point this week, and she hoped the "verdict will be to stay here."

Ford and McKay, a couple of new hurlers Branch Rickey has sent down to bolster the Greensboro nine, a Cardinal farm, tried their hand last night at the Gate City against the Durham Bulls—without much success. They took turns relieving Hoffman, who retired in the first inning. McKay finished up in good form, but the Bulls won, 6 to 2, behind the five-hit pitching of Chambers. Hoffman got credit for losing the match.

The Charlotte Bees stretched their winning streak to nine by tapping out an 8 to 6 win over the Asheville nine at the Queen City. Their lead over the field remained at six games, since the Raleigh Caps, runners-up, also won, downing the Gamecocks, 9 to 5 at Henderson.

Lefty Coleman, Raleigh pitcher, turned in one of the regular performances of baseball to give his team victory. He walked an even dozen of the Birds and, as if to balance the books, he went ahead and struck out a dozen of them.

Yesterday's Stars

Lefty Grove, Athletics—Pitched his seventeenth victory of the season against the Senators.
 Willis Hudlin, Indians—Won his own game from the White Sox with a single in the eleventh inning.
 Babe Ruth, Yankees—His twenty-first homerun and three singles drove in five runs in double victory over Red Sox.
 Heinz Meine, Pirates—Set the

Cubs down with six hits and beat them, 5 to 2.

Frank Watt, Phillies—Pitched and won his fourth complete game in a row, beating the Giants, 5 to 4. His punt, which Terry muffed, scored the winning run in the ninth.

NOTICE OF APPLICATION FOR PARDON

Notice is hereby given that Herbert Moore, who was convicted at the January Term of Pitt County Superior Court, 1931, of the crime of manslaughter and sentenced to serve a term of two years in the State Penitentiary, is about to apply to the Governor and Pardon Commissioner of the State of North Carolina for a parole for the remainder of said term.
 All persons who oppose the granting of said parole are requested to file protest with the said Pardon Commissioner immediately.
 This the 7th day of June, 1931.
 Gaylord & Harrell, Attorneys.

IN OUR OFFICE

Let's cut through this welter of words

WHEN you set out to buy tires, don't you really want the most miles and the utmost in safety, at the lowest possible price. That being your objective, which tire should you buy? If the experience of 20,000,000 motorists means anything, you should certainly buy Goodyears. But if you try to puzzle through the welter of statistics on thicknesses, weights and diameters you lose the main issue and are as much at sea as ever. The one and only reliable guide for you to follow is the seasoned preference of the public. And that preference is overwhelmingly for Goodyear.

HOW CAR OWNERS VOTED ON THE QUESTION "WHAT TIRE IS BEST?"

Based on a National Tire Survey in 1930 by a large unbiased organization...

TIRE BRAND	PERCENTAGE
GOODYEAR 307	37.8
COMPANY B	13.8
" C	11.3
" D	7.0
" E	6.0
" F	3.7
" G	3.7
" H	2.7
" I	2.4
" J	1.8
" K	1.3
" L	.9
ALL OTHERS	10.4
NO CHOICE	4.4
TOTAL	100%

GOODYEAR ALL-WEATHER

The last whisper in style, mileage, safety!

With Goodyear quality priced so low, why not avail yourself of the long mileage, safety and the good looks that have made Goodyear reputation?

Other sizes in proportion

There's the only buying guide that means anything to you car owners.

NEWS BRIEFS From Over The City and County

BOSTON MALE CHOIR TO APPEAR AT COLLEGE

The Boston Male Choir in their concert at East Carolina Teachers College on Saturday evening of this week will give a most enjoyable program. Many of the numbers are familiar, among them "Rolling Down to Rio," the "Barcarolle" from "Tales of Hoffman," and "Ave Maria." All of them look attractive, especially a group of Sea Chanteries.

There is a soprano with the choir Miss Yvonne De Resiers, who will have a group of solos. Scattered along are solo parts and duets with the male voices. Eight men in the choir are expected to be here. The campus building, with windows on both sides, is as comfortable a place to spend an evening as one can find.

GOES TO WINSTON-SALEM J. B. Kittrell, president of the North Carolina division of T. P. A., left this morning for Winston-Salem in connection with business of the organization. He will return during the latter part of the week.

RALPH DEAL TO BE IN CHARGE KIWANIS PROGRAM

The regular meeting of the Kiwanis Club will be held at the Woman's Club Friday, July 10, at 7 o'clock. The program will be in charge of Ralph Deal and his subject will be "Kiwanis Education."

GREENVILLE MEN ON CONFERENCE PROGRAM

Dr. R. H. Wright, president of East Carolina Teachers College, and R. G. Fitzgerald, director of the Department of Education of Pitt county, are on the program of the seventh annual North Carolina Conference on Elementary Education to be held at Gerard Hall, Chapel Hill, July 16 and 17.

Dr. Wright will preside over the third session and Mr. Fitzgerald will speak on the subject "Educated People Are Good Customers."

WATER LOW AT WESTBROOKS FRIDAY

The Hi-Y girls will have a swimming party tonight at Westbrook, and they are extending an invitation to all their fathers and mothers to be present and if they wish, they may swim with their daughters. The devotional part of the evening program is being arranged by Miss Lill Wilson, the Hi-Y girls adult leader, pro-tem.

Another picnic was held at Westbrook on Wednesday afternoon. About 100 children of the Vacation Bible School with their leader, Miss Hart.

Friday is known as "kiddies day" at Westbrook. The pool will be refilled after the cleaning and the water in the morning will be so low that the baby will enjoy a splash and high enough at the deep end that the juniors can swim. Every morning from 9 till 10 a. m. the pool will be closed to all except those taking swimming lessons. Two instructors will be in the water for this purpose and a charge of twenty-five cents for the hour period will be charged. When the students are able to swim 50 feet they will be awarded a certificate. Business men are invited to take a dip after closing hours at night and cool off.

WILL STICK TO FICTION

(Continued from page one) thousands of peeping pets. When they found no peeping pets, but discovered me hammering away as per usual on my typewriter, they swore more terribly than Uncle Tom's "Armies in Flanders." The fact that they told me their wild-goose (or wild-chicken) chase set their company back five hundred snackers, made the joke a trifle sour for them. "I am wallowing in—not 'fan-mail' but 'hen-mail.' Some are born to poultry, others acquire poultry, still others have poultry thrust upon 'em. But not for me, thanks. As a poultry-fancier, I am only in a gustatorial capacity. And maybe after this, I won't even want to look at chicken a la king in the eye. In short, the only word I know that rhymes with 'chix' is 'nix!'"

AGED PARENTS WATCH FLIGHT

(Continued from page one) "Sure, mother, they'll make it," confidence boomed in his voice. "And when he comes to see us, we will go up, eh?" "Yes," she replied softly—and then with a laugh, "certainly we will father."

TEXAS LEGISLATORS CALLED INTO SESSION ON OIL SITUATION

Austin, Texas, July 9.—(AP)—Texas legislators have been called by Governor Ross S. E. Esters into special session to consider the acute oil situation. They will meet next Tuesday.

Breakdown in enforcement of the state railroad commission's oil production orders led to the call. The commission's orders limiting production were freely violated for many weeks. Production in the new east Texas field reached almost 400,000 barrels daily. The unchanged flow there was blamed by many oil men for the collapse of the oil price structure. Oil, which once sold for \$2 and \$3 a barrel, dropped to ten and fifteen cents.

N. Y. COTTON

New York, July 9.—(AP)—Cotton opened steady today, 5 to 11 points lower with July selling off to 9.28 and December to 9.78 during the early trading under further liquidation and local or commission house selling.

The latter was promoted by the relatively easy showing of Liverpool and private reports of rains in Texas and Oklahoma. Offerings increased slightly following a private report making the condition of the crop 73.8 as of July 1 and the increased yield 13,375,000 bales, but were well enough absorbed by trade buying and covering to steady the market at the end of the first half hour.

Liverpool cables reported local and continental liquidation in that market owing to a bearish interpretation of yesterday's acreage figures but said the demand for cotton cloth from India and China was maintained.

NO MARKETS TODAY ON ACCOUNT OF INTERRUPTED WIRE SERVICE.

Scores Conduct of Last Alabama Senate Contest

Washington, July 9.—(AP)—Conduct of the last Alabama senatorial election was assailed today by Senator Hastings, Republican of Delaware, in a report to the Senate elections sub-committee which is considering the Heflin-Bankhead contest.

Senator Hastings, who is chairman of the sub-committee, read the report in an open session of the committee and in the presence of John H. Bankhead, the senator-elect, and J. Thomas Heflin, defeated candidate. Senators Watson, Republican of Indiana, and George, Democrat of Georgia, other members of the committee, heard the report without comment.

In the first ten counties inquired into, Senator Hastings said irregularities of "one kind or another" were found in 383 of the 405 ballot boxes.

"In other words," his report continued, "there were but 22 boxes out of 405 where officials fully complied with the law relating to the handling of the boxes."

"There seems to be no excuse for the many violations of the law noted in these reports. I had the supervisors make a careful check of the reports on each box and it was found in not a single instance had the law been complied with."

"I think these many violations of the law by the persons holding the election in Alabama is a thing that must challenge the careful attention of the committee."

Rudy Vallee Weds Screen Actress

New York, July 9.—(AP)—Rudy Vallee, who crooned himself to fame and fortune with a collegiate jazz band and a megaphone, has found his ideal girl.

The marriage of the 29-year-old Yale graduate and radio idol to Miss Fay Webb, screen actress and daughter of the Santa Monica, Cal., chief of police, is announced. The ceremony was performed by Police Recorder Herbert Lightipe of West Orange N. J., on Monday night.

It was the second marriage for Vallee, who rose to popularity with such songs as "The Vagabond Lover" and "The Maine Stein Song." His marriage to Leonie Cauchois McCoy, daughter of a coffee merchant, was dissolved after three months by annulment in 1928.

Miss Webb was a Vallee radio fan before she met him when he went to Hollywood to make a picture. She is a brown-eyed brunette, 23 years old, and accomplished dancer, pianist, swimmer and equestrienne. She played small screen parts with Metro-Goldwyn-Mayer.

Theatrical and radio engagements for Vallee and his band are preventing a honeymoon trip. Mr. and Mrs. Vallee will remain at the new Vallee 14-room apartment overlooking Central Park.

Mrs. Charles Vallee the singer's mother, described her new daughter-in-law as a "charming and very pretty girl, with whom Rudy has kept company," since 1928.

STIMSON TALKS WITH ITALIAN MINISTER

Rome, July 9.—(AP)—Col. Henry L. Stimson, American secretary of state, had a long talk this morning with Dino Grandi, Italian foreign minister, the first of numerous statesmen whom he will meet while he is in Europe.

There was no official statement regarding the conference but their talk it was revealed, touched on the Hoover moratorium and probably included discussion of new proposals which France is understood to have made regarding a naval accord with Italy.

The conversation also prepared the ground for Secretary Stimson's meeting with Premier Mussolini this afternoon.

No Reduction!

Kinston, N. C.—(AP)—City council here voted today a motion to order a 10 per cent decrease in the salaries of municipal employes.

FARM BOARD MAY OUTLINE DEFINITE POLICY BY 31st

Washington, July 9.—(AP)—The Farm Board may issue a statement before July 31 outlining a definite policy for handling stabilization of supplies of cotton during the coming crop season.

SPORTS SLANTS

Bill Veech, the big boss of the Cubs, was talking about the days when he was a Chicago baseball writer. He wrote under the name of "Bill Bailey" and was nationally known in a day when such men as Charley Dryden, Ring Lardner and Hugh Fullerton, Sr., were also plying at the major league proceedings.

One day Joe Cantillon came to town with the Washington club, of which he wrote then as being "first in way, first in peace and last in the American league." "Well," said Bill, "we made the perfunctory check of the visiting lineup and were told it was just as usual. But when the Senators started coming to bat, it was just one stranger after another. Nobody could identify them and I was elected to go down to the field and buzz Old Joe.

"I told him the newspaper boys would like to know who was who and he shot back at me: 'Figure it out for yourself. That's what I'm trying to do'."

Years later, Veech, as the chief executive of William Wrigley's baseball business, had the satisfaction of giving Cantillon his last job, with a minor league club.

Ellis Nose Out Crimson The Harvard-Yale athletic controversy for the college year went to the last event of the season

between these ancient rivals—the third game of the baseball series—before the Ellis pulled out a deciding margin in the five branches of major sport competition.

Harvard scored the most sensational victories, in football and rowing, but she won at hockey, track and field, and baseball.

The Ellis had the better of the minor sports argument, winning at basketball, lacrosse, polo, boxing, fencing, soccer and swimming—a total of seven triumphs over the Crimson. Harvard topped the Blue in wrestling, cross-country, squash, racquets, golf, tennis—a total of five.

Firemen Athletes

The Carnegie Foundation's Bulletin 26, on the subject of subsidizing in college athletics, described this "interesting situation at Oklahoma City university:

"The roster of the local fire department shows that 49 students are set as firemen, all but one of whom are stated to be athletes and are employed because they are athletes, at wages ranging from \$40 to \$150 a month. Two attend the University of Oklahoma at Norman; three are at Oklahoma university hospital, two at the Phillips university; while 41 are registered at Oklahoma City university.

"Many of these 41 men represent Oklahoma City university on intercollegiate teams, some of which have been unusually successful. An officer of the university writes: 'The employment of some of our football boys on the fire department never was challenged until

we begin to develop a championship team. Now, it seems to be the unpardonable sin."

But the Carnegie investigators conclude: "Nights spent on duty at a fire house, or in response to alarms, mornings drowsed away in class attendance, and afternoons largely given over to football or other practice imposed a price that no young man, amateur athlete, professional, or neither, ought to be called upon to pay for an education."

SALE OF VALUABLE FARM PROPERTY

Under and by virtue of the authority conferred upon us in a deed of trust executed by L. A. Fulford and Sallie F. Fulford on the 22nd day of December 1925 and recorded in Book K-15, page 500, we will on the 1st day of August, 1931, 12 o'clock noon

at the court house door in Pitt County, Greenville, N. C., sell at public auction for cash to the highest bidder the following land to-wit:

That certain tract or parcel of land lying and being situate in Farmville Township Pitt County, North Carolina, adjoining the lands of D. L. Turnage, M. L. Moye and J. A. Moye bordering on the Grimsmersburg Road, and being that identical tract of land conveyed to L. A. Fulford by deed dated Nov. 17, 1917 said deed duly recorded in Book Q-12, page 237 to which reference is here made and more particularly described as follows: Beginning at a stake, corner of A. J. and M. L. Moye and L. A. Ful-

ford lands, and in the new Farmville-Greenville highway, thence N. 83° 30' E. 3176 ft. to a stake; thence S. 55° 45' E. 125 ft.; thence S. 60° 30' E. 147 ft. to a stake; thence along a ditch S. 86° E. 878 ft. to a stake; thence N. 86° 15' 978 ft. along a ditch to a stake; thence N. 85° 30' E. 1483 ft. to an iron stake, G. T. Tyson corner; thence N. 45° E. 676 ft. to a stake in Little Content; thence along the creek S. 86° 15' 1300 ft. to a stake in said creek; thence leaving the creek S. 86° 15' W. 6420 ft. to a stake in Farmville-Greenville highway; thence in the direction of Greenville S. 8° 45' E. 367 ft. to the beginning point, containing 130 acres, according to plat

of L. A. Fulford land, made by W. C. Dresbach, C. E. in December, 1925.

This sale is made by reason of the failure of L. A. Fulford and wife, Sallie F. Fulford to pay off and discharge the indebtedness secured by said deed of trust.

A deposit of 10 per cent will be required from the purchaser at the sale.

This the 15th day of June, 1931. W. G. Bramham and T. L. Bland, Receivers for First National Company of Durham, Inc., Trustees, Formerly First National Trust Company, of Durham, N. C.

Want to be in the swim? ... switch to Camels

GIVE Camels the hardest test you can think of—take them along on your vacation—into the desert, on the boat, in the woods, to the beach.

Then you'll see why the switch to Camels in the new Humidor Pack is nation-wide.

This scientific wrapping of germ-safe moisture-proof Cellophane seals in all the natural factory-fresh aroma—seals it in so tightly that wet weather cannot make Camels damp, nor drought weather make them dry.

It insures every Camel smoker at work or at play the joy of expertly blended fine Turkish and mild Domestic tobaccos kept always in prime smoking condition, throat-friendly, mellow and cool.

A special vacuum-cleaning process frees Camel cigarettes from the sting of peppery dust; the Humidor Pack guards them against being dried-out or soggy whether in sunshine or rain.

As a favor to your throat try Camels—join the throng and switch over for just one day—then quit them—if you can.

Tune in CAMEL QUARTER HOUR featuring Morton Downey and Tony Wons Columbia Broadcasting System—every night except Sunday

CAMELS MILD... NO CIGARETTE AFTER-TASTE The Humidor Pack not only keeps your cigarettes safe from your wet bathing suit but also keeps the sand and dust out as well © 1931, R. J. Reynolds Tobacco Company, Winston-Salem, N. C.
