SAYS ITALY HAS CHOSEN PEACE PACT

Mussolini Sets Forth Views On Economic Situation in Talk With Stimson

Rome, July 10.—(AP)—Premier Mussolini agrees with Secretary of State Stimson that world peace is the shortest road to economic recovery.

Universal disarmament, they believe, is the next milestone on the trail already blazed by the suspension of war debts and reparations for one year.

Mussolini granted one of his rare interviews to foreign correspondents last night in the Palazzo Venezia and communicated to them the import of his conference with Mr. Stimson.

"There are two roads—a road toward peace," he said. "I told Mr. Stimson that I have chosen the road toward peace."

"Italy, for her part, will go to the next disarmament conference with a sincere desire for peace."

Arms reductions should be discussed at Geneva next February in terms of principals rather than terms of guns and tons, he said.

Italy is disposed to accept the lowest figure of disarmament—even a limit of 10,000 rifles for all Italy," he continued, "provided no other nation has more. Of course, if any other nation had more such a reduction would be placing Italy in the position of defending herself with a pistol against a club."

"I have a great optimism over the prospects of economic recovery during the coming years, especially if the disarmament conference is a success. Disarmament success would clear a horizon which would be obscured if the conference does not produce results. The date must not be postponed."

He described the Hoover moratorium as a momentous event and Mr. Stimson's visit to Europe as an important one.

"Italy seconds fully President Hoover's initiative," he said, "an initiative that I consider one of the greatest political factors since the war."

"Secretary Stimson's visit to Europe is highly important, even though it is not official, because he is the secretary of state of the largest republic in the world. I am most favorably impressed by the secretary. Besides being a likeable and cordial gentleman he is also a very wise statesman."

"The trial opened yesterday, and before court adjourned for the day four of the state's 24 witnesses had been heard."

One of them was Mrs. Sam Sigmon, proprietress of the boarding house, where Miss Gray was employed and where McHargue had rooms.

Mrs. Sigmon said that as she was sitting in the dining room last May 30 she was startled by a commotion on the stairway. She looked up, she said, and saw Miss Gray staggering down the steps holding her hands to her throat, which had been slashed, she said, to ear.

The girl, she said, never spoke, but McHargue, who followed close behind her, kept saying the slaying of the girl was an accident, or suicide.

The state contends the mill worker cut the girl's throat with a razor as she sat in his room. He claims she snatched the razor as he was shaving and slashed her own throat.

McHargue's wife, a well-dressed middle-aged woman, accompanied him to the court room yesterday. She has been living at Kannapolis where her husband formerly was employed.

Woman and Two Men Are Free In Murder Case

Danbury, July 10.—(AP)—Mrs. Luther Hicks and Bob and Ephraim Dodson, brothers, were free today of charges of having murdered the woman's husband.

A jury acquitted them in Stokes County Superior court yesterday after Judge Wilson Warlick had directed such a verdict.

Judge Warlick, at the conclusion of the state's testimony, held with defense attorneys that he evidence presented was insufficient grounds for continuing the trial.

The three were arrested shortly after Hicks' body was found several months ago in the Dan river. The state introduced testimony purporting to show that Mrs. Hicks and the two youths had made threats against Hicks and that bloodstains were found at the Hicks home.

FALL'S IMPRISONMENT SOUGHT

Convinced that Albert B. Fall of El Paso, Tex., former secretary of the interior, is physically fit to serve a year prison term, government counsel sought his removal to the Washington jail. Fall, shown here in two poses, was convicted of bribery in connection with naval oil land leases. He recently was examined by army physicians, and it had been asserted he was too ill to serve his term.

Asks Domestic Relief For The United States

SAYS CLAYTON MAN SHOT SELF

Youth Reveals Facts Concerning Mysterious Death of Jesse Williams

Raleigh, July 10.—(AP)—The Raleigh Times in a special story from Clayton today says that Wilbur Biggs, 14-year-old youth who was spending the night at the home of Jesse J. Williams June 26, says the Johnston county politician shot himself.

The youth, who lives at Wendell, told a special correspondent of the Times last night that Williams, staggering, came to the door of the bedroom in which Biggs and Jesse McCoy Williams were and cried out in a clear voice, "Jesse, Jesse, I've shot myself."

Young Biggs, a life long friend of Jesse McCoy Williams, 17-year-old son of the dead politician, also said the story of Mary Penny, negro, that she heard quarreling at the Williams' home and heard someone she believed to be Jesse McCoy exclaim that someone had shot his father, was not true.

Williams, chairman of the Democratic executive committee of Johnston county, died of a pistol wound in the breast about midnight June 26. His widow and son told Dr. B. A. Houtt he shot himself.

Members of a jury formed by Coroner J. H. Kirkman said there were no powder burns on Williams' clothes or body.

Solicitor Clawson Williams of Sanford, at the request of Williams' mother, will attend the formal inquest when it is held to examine witnesses. Coroner Kirkman has said he expects to summon a score of witnesses to appear at the inquest, which will probably be held next week.

Biggs told the correspondent, the paper says, that Mr. Williams came into the bedroom in which the two youths were holding a pistol in his hand and then dropped it. Jesse McCoy, he said, picked up the gun and took the shells out of it.

Wm. Cecil Harper Dies Following Lengthy Illness

William Cecil Harper, 31, died at his home on Dickinson avenue, near the cotton mill, this morning at 9:15 o'clock, after an illness extending over a period of thirteen years.

Funeral services will be conducted from his late home Saturday afternoon at 3 o'clock by Rev. W. S. Harden, pastor of the Presbyterian church, and burial will be made in Cherry Hill cemetery.

He is survived by his parents, Mr. and Mrs. W. S. Harper; two brothers, C. F. Greenville, Carl Harper, Tennessee, and a sister, Mrs. W. L. Dickinson of Greenville.

KANSAS STAR IS SUED FOR \$12,000,000

Henry Doherty Seeks Damages As Outgrowth of Campaign for Gas Reduction

Kansas City, July 10.—(AP)—H. L. Doherty, head of the Cities Service Company today filed suit for \$12,000,000 damages against the Kansas City Star as an outgrowth of a campaign by the Star and Governor Woodring for a reduction in Kansas gas rates by the Doherty companies.

Named as defendants were, The Kansas City Star Company, George B. Logan, president, Roy A. Roberts, managing editor, and Fred C. Trigg, Kansas editor for the Star.

B. C. Adams, vice-president and general manager of the Gas Service Company, a holding corporation for the Doherty subsidiaries in Missouri, Kansas and Oklahoma, described the action as a civil libel suit.

The plaintiff seeks \$1,000,000 actual and \$1,000,000 punitive damages on each of six counts.

TO ABANDON RAIL LINE

I. C. C. Authorizes the Suspension of Line Operating Between Kinston-Snow Hill

Washington, July 10.—(AP)—The Interstate Commerce Commission today authorized abandonment of the Carolina Railroad's 13-mile line in Lenoir and Greene counties in North Carolina.

The road operates from Kinston to Snow Hill and its business has been steadily declining during recent years because of truck traffic on a paved state highway.

The North Carolina Corporation Commission after a series of hearings recommended to the Interstate Commerce Commission that the application for abandonment be granted.

The only town of any size served solely by the line is Snow Hill. Residents of the town objected to the abandonment but the commission in its opinion pointed out that there is a hard surface highway to hookerton, four and a half miles distant which is served by the East Carolina Railway. The East Carolina has connections with both the Norfolk Southern and the Atlantic Coast Line railroads.

The entire capital stock of the Carolina Railroad except directors' qualifying shares is owned by the Norfolk Southern.

VOTE DOWN NEAR-BEER

Alabama Legislature Also Kills Bills to Legalize Horse Racing in That State

Montgomery, Ala., July 10.—(AP)—Efforts to legalize near-beer and horse racing in Alabama were ended today insofar as the present Legislature is concerned.

A measure to hold the referendum for repeal of the law prohibiting the sale or possession of near-beer was killed when the Senate voted 17 to 13 to table a motion to remove the bill from the adverse calendar. Governor B. M. Miller vetoed as "vicious" the Craft bill to permit racing with pari-mutuel wagering in Mobile county, and the Senate sustained his action by a vote of 20 to 8.

Representative Massey Edgar, the author of the near-beer bill, offered a resolution congratulating the Senate on defeating it, but the House expunged his remarks from the records without a vote.

The resolution asked the House to "heretofore extend (the) congratulations to those sterling statesmen who have blocked the sale of near-beer in the fair state of Alabama," adding that "the Legislature has seen fit to do nothing with regard to the crying need of the time, to wit: Standardization of the pint bottle so that when a citizen pays for a pin he gets a pint."

Proponents of both the horse racing and near-beer proposals criticized a group of ministers who were on the floor and particularly Rev. John Inzer, Baptist preacher of Montgomery, for his remarks touching indirectly on the bills in his prayer that opened the session.

After Distance Mark

Joseph LeBrix (above) and Marcel Doret (below), French airmen, hope to set a new world's straight line distance record on a flight from Paris to Tokyo.

HARRIS GIVEN LIBERTY HERE

Mentally Incompetent World War Veteran Sent to Hospital for Insane

R. C. Harris, young sign painter, who has been held in the Pitt county jail the last two months on a charge of forgery, was released under \$500 bond this morning and taken to Norfolk for confinement in a government hospital for the insane.

Harris, a former veteran of the World War, was declared mentally incompetent by two local doctors making examination for the Veterans Bureau, and asked that he be released from jail to receive hospital treatment. His release was effected through Arthur B. Corey, local attorney.

Harris, a native of Rocky Mount, who has been living in Greenville the last two years, was arrested on a charge of forging his brother's signature to a check for about \$2.50 and obtaining cash for it. He was given a preliminary hearing and remanded to jail to await trial in the next term of Superior court.

He was said to have distributed several other checks in the community, but was being prosecuted only on one charge.

When confined in jail he told officers that his wife and two children were in want and he had been unable to provide for them because of his inability to secure employment. He declared he and his family had actually suffered for want of food, and that he had passed the check to meet what he supposed to be a temporary condition.

The young man received an injury of the spine in a train wreck some years ago, and since that time his mental condition has been below normal. It was stated by those intimately acquainted with him. Long confinement in jail here, combined with the hot weather, tended to intensify his condition and he was reported to have suffered considerably during the last several days.

Harris is a member of a well known Rocky Mount family. He spent his boyhood in Rocky Mount, entered service during the war, and since that time had been employed as a sign painter.

It was understood that his brother who lives in Colorado, had expressed his willingness to stand his bond and that other members of the family were to reimburse those who lost through the bad checks.

Funeral for Marcus Ellen Conducted in Rocky Mount This Afternoon

Funeral services for Marcus Ellen, 22, plumber, who was electrocuted while working with an electric drill in a ditch at the site of the Star warehouse, were conducted in Rocky Mount this afternoon.

The body was carried from Greenville to Rocky Mount late yesterday afternoon following the arrival of relatives here to make preliminary arrangements for the funeral.

Coroner E. S. Williams conducted an inquest into the accident and the decision of the jury was that Ellen came to his death while working in the ditch with an electric drill. Death was believed to have resulted from a shortage in the drilling equipment.

Ellen was working in the ditch with the drill when he was suddenly heard to scream. Workmen rushed to the ditch and found the young man had dropped the drill and fallen backward. He was rushed to the hospital but expire before reaching there.

He was employed by D. J. Rose & Son, Rocky Mount contractors, in erection of the new Star warehouse. He had lived in Greenville about six months, having been reduced to 22 by the death here of Benjamin Franklin Hendrick, 89.

Another Veteran Goes

Wilmington, N. C.—(AP)—Seventy-eight ships engaged in foreign trade entered the port of Wilmington during the fiscal year ending June 30, local customs officials report.

GERMANY'S RADICALS PREPARE FOR ATTACK ON WAR DEBT PLAN

Tokyo Flight Ends In Failure; To Try Again

Robbins and Jones Forced Down at Solomon, Alaska After Having Covered 2,100 Miles of Trip From Seattle to Tokyo; Will Return to U. S. for New Attempt

Flight Fails

Nome, Alaska, July 10.—(AP)—Their attempted non-stop flight from Seattle to Tokyo having ended near here in failure, Reg L. Robbins and Harold S. Jones of Texas today planned an early return to the United States to try it again.

Robbins and Jones brought their monoplane Fort Worth to earth at Solomon, 2,100 miles of the 5,100 miles route and having connected several times with their tri-motored refueling plane, piloted by J. J. Mattem and Nick Greener.

After a long rest Robbins and Jones announced they would use the Fort Worth for their second attempt, but would install a larger engine. They said the same tri-motored ship would be used for refueling.

In explanation of the sudden termination of their flight, Robbins said the Fort Worth had become unweildly after 300 gallons of gas had been taken aboard in eight winds.

It was impossible to hold the monoplane in contact with the refueler, he said, to take aboard sufficient gasoline to complete the 3,000 mile flight to span. The other refuelers near Fairbanks and on the way to Norton Sound, had been successful.

The Fort Worth had not been in the air in test flights before leaving the United States with a capacity load of 435 gallons which the fliers had planned to take aboard from their refueler over Siberia.

Several attempts were made to fill the Fort Worth's fuel tanks above Nome, but the weight of the gas and the high winds baffled them, Robbins said.

Flying here with the refueling crew in the refueler yesterday, Jones and Robbins had a long sleep after having been 26 hours, 53 minutes in the air on their trip from Seattle, arising, they ate heartily.

The men were disappointed in their failure in the quest for the \$25,000 prize offered by a Japanese newspaper for the first non-stop flight between Seattle and Japan. Four previous attempts by other fliers, two by Harold Bromley, Tacoma, also have failed.

SAYS TARIFF CUT PLANNED

Senator Robinson Declares Next Congress Will Make Effort to Reduce Rates

Little Rock, Ark., July 10.—(AP)—Senator Robinson of Arkansas, Democratic leader, said in a statement today an effort will be made when Congress convenes to reduce tariff rates.

His statement was in answer to one issued yesterday by Senator Watson of Indiana, Republican leader, challenging the Arkansas Democrat to assume leadership in a fight to make a "serious revision" in the Hawley-Smoot tariff law.

"I feel justified in replying that when the Congress convenes an earnest effort will be made to reduce tariff rates which, in the sound judgment of business men and economists, have tended to restrict foreign markets for American products, and to inspire retaliatory measures on foreign countries," Senator Robinson said.

"Has the senator from Indiana forgotten the resentment which the Smoot-Hawley tariff act of 1930 aroused in certain countries numbered among the principal customers for American made goods?"

"Does not the senator realize that the true test of the value of the present tariff is not whether it has 'slaughtered export or import trade' but rather whether it has tended to diminish the demand for American made products and the purchasing power of the consumer of such products. This I believe to be true as to both foreign and domestic consumers and is exactly why present tariff rates, many of which are substantially prohibitive, are important factors in causing existing depression."

Senator Robinson said Senator Watson is the same Republican leader who, on the floor of the Senate just before the Smoot-Hawley bill passed, declared that its enactment would cause the return of prosperity to the United States within thirty days.

"Surely the country will not place its confidence in such leadership."

Expresses Regrets

Washington, July 10.—(AP)—The American Government moved today to express its regrets to Mexico for the sentencing in Chicago of Adolfo Dominguez, acting Mexican consul, for contempt of court.

Delegates of All Parties Opposed to Chancellor Bruening's Government Move to Assail What They Term as "Effort to Fulfill Terms of Versailles Treaty Under Veiled Form"; German Banker in Paris Regarding Floating of International Loan of \$400,000,000 to Stabilize Credits

London, July 10.—(AP)—The British government intimated today that she is putting the Hoover moratorium into operation immediately. The intimation was contained in a letter to the Bank for International Settlements informing she will not expect payment of the German annuity due on July 15.

Berlin, July 10.—(AP)—Germany's radical elements are massing their forces for an attack on the Hoover moratorium in the belief that it bulwarks the treaty of Versailles.

Delegates of all parties opposed to Chancellor Bruening's government met last night to consider ways and means of combating what they termed "the attempt of those now in power to continue the policy of fulfillment of the Versailles treaty under veiled forms."

Adolf Hitler, leader of the National Socialist, and Alfred Hugenberg, Nationalist chieftain, both of whom have expressed skepticism that the debt holiday would aid Germany, dominated the deliberations.

Prince August Wilhelm, fourth son of the former kaiser, told a Nationalist meeting in Hanover that he would have approved the Hoover offer if it had subscribed to these conditions.

First, if immediately after its publication the terrible emergency decrees which are bleeding the German people had been abolished and second, if the plan had been headed "this is the beginning of the end of the shameful treaty of Versailles."

The Hitler and Hugenberg press would cord toward the Hoover holiday when first announced, some papers asserting it would not materially affect the economic status of the Reich and others saying it would only postpone the evil days of collapse.

Paris, July 10.—(AP)—Hans Luther, president of the Reichsbank, held a conference this morning with Governor Clement Moret of the Bank of France and Vice-Governor Charles Farnier in connection with a long-term credit loan to bolster German finances.

When Dr. Luther emerged from the conference he said only, "we talked simply as banker to banker." He refused to make any further statement.

Authoritative circles believed Herr Luther would endeavor to obtain long term credits from the strongest French, English and American banks, thereby strengthening the Reichsbank's position and exerting a beneficial, psychological effect on foreign investors.

Long term credits, it was felt, would give the Reich time in which to renew the flow of capital into the country without facing the necessity of continually meeting the strain of short-term obligations.

Echo De Paris said in this connection that Herr Luther was seeking from the banks of France and England a loan of 12,000,000,000 francs (about \$480,000,000) on a longer basis of credit than previously extended by those banks.

Official circles considered that such an abnormal operation would require the closest study inasmuch as it appeared that the withdrawal from Germany were not due to the repatriation of American capital but to the flight of German capital.

Berlin, July 10.—(AP)—Word that Hans Luther, head of the Reichsbank, is returning directly from Paris caused consternation in political circles today, where it is believed that it signifies that the French confronted him with political demands as the price of financial aid.

Dr. Luther, whose position is non-political, naturally could not meet terms of that nature and it is assumed that he is coming home to consult the cabinet.

OUR ANSWER TO THE ARGUMENTS OF BOND ISSUE OPPONENTS

Replying to our recent invitation to those who are opposing the bond issue for the purchase of the gas plant, to make known their objections to us in order that we might discuss freely and frankly the issues, Mr. E. G. Flanagan has communicated with us on the subject and we print herewith Mr. Flanagan's communication together with our answers to each of his objections.

The Editor of the Daily Reflector has invited anyone interested in the bond election for the sale of the Gas Plant to the town to give their reason why they are opposed to the issuing of \$100,000.00 worth of bonds for the purchase of the gas plant.

I think my record will bear me out as one who has always been interested in the progress of our city. I have always supported bond issues for schools and other things that would improve the town. At the present time Greenville has now outstanding \$886,900.00 in bonds and I think we have gone far enough in bonding our city unless it was for an emergency.

Our Water & Light Plant, the pride of the people, their net earnings from June 30, 1927 to June 30, 1930, three years, was \$334,303.41. They charged to capital outlay \$369,575.75. The audits of the town's books show there has been no charge off for depreciation since June 30th, 1924. I think every year allowances should be made for a fair depreciation on the plant in order that the books will reflect a true value, instead of charging your entire expenditures on the plant to capital outlay, which shows a false profit.

In addition to the amount of gross profit, the commission has retained during these three years \$18,000.00 in bonds and paid interest on their bonded indebtedness. The town of Greenville has paid the Water & Light Commission out of tax levy around \$36,000.00 for by-standers. The commission has given back to the town out of profits during these three years, which the audits show was \$334,303.41 the following: June 30, 1928—\$4,800.00; June 30, 1929—nothing; June 30, 1930—\$10,000.00—making a total of \$14,800.00.

In justice to the commission, I am informed they have given the town for reduction of taxes during the present year 1930-31, \$15,000.00 out of an estimate for the years profit ending June 30, 1931 of around \$115,000.00. The books have not been audited this year is the reason I estimate same. I have every confidence in the splendid gentlemen who compose the board and run the plant but I do think the tremendous profits they are making on the plant in these times of depression when taxes are so hard to pay, the commission should curtail their expenditures on the plant improvements and plant operations where justified like all other businesses in both state and nation and allocate a large part of the profit of the plant for the reduction of taxes. I believe if the proposed \$100,000.00 bond issue is carried for the purchase of the gas plant, the profit the Water & Light Commission is now enjoying will have to be used to take care of the gas plant improvements, enlargement of the gas plant, replacement of worn out gas pipes that have been buried for over 15 years. If these profits are not used, undoubtedly, there will have to be an additional bond issue for the gas plant. I am informed the gas plant has changed hands several times since it was sold by the town, and it has been a losing investment for all purchasers. I am informed Wilson has an investment of over \$900,000.00 in their gas plant and practically all their domestic consumers use gas. There are only two or three electric stoves used in the city. The Wilson Commission recommends gas because they own the plant and they sell gas to the detriment of their revenue to the electric plant. If they did not own the plant, they would try to sell their surplus electric current for domestic purposes, just like Greenville has done successfully.

The same condition regarding Wilson will apply to Rocky Mount, both having large investments in their gas plants and working them to the detriment of their electric plant.

This in an electrical age. Electricity is being manufactured cheaper and cheaper by scientific research and discovery. Gas cannot be made as cheap as electricity and only natural gas can compete with electricity. The Water & Light Commission has got the Gas Company on the run. They are making money on their electric plant and the Gas Company is losing money. Why should the Town of Greenville go in debt by issuing bonds to buy a competitor who is losing money? You may rest assured the Gas Company will be delighted to sell this plant for \$100,000.00. It is purely imaginative on the part of some of our people that the Power Company will have an advantage by owning the Gas Plant and eventually will make the gas rate so very low that the people will become dissatisfied and sell them the Water & Light Plant. I don't believe the voters of Greenville will ever vote to sell their Water & Light Plant. Keep the Water & Light Plant, but don't go in debt to buy a plant that has lost money since its operation.

Our trouble today is too much debt. We have got to conserve our resources and get down on a different plane of living or else we will go bankrupt.

Yours truly, E. G. FLANAGAN.

Dear Mr. Flanagan:

Being informed on Wednesday of this week by one of the opponents of the city purchase of the gas plant, who is closely associated with you that "we (the opposition) are having a statement prepared for you to publish setting forth our objections," we presume that your above letter, while setting forth your individual views, is the statement referred to, and that as such it contains all of the major arguments by the opposition as to why we should not purchase the gas plant. As such we are endeavoring below to answer each of your arguments in the hope that we might convince you, as well as other opponents of the purchase, that it is to Greenville's interest to own the gas plant rather than to let the power company have it as a means of getting a foothold in our city.

You mention at the outset that Greenville now has \$886,900 bonded indebtedness and that you think the town has gone far enough in this direction. You fail to mention, however, that our Water & Light Department has taken over from our city more than \$300,000 worth of these bonds including the water plant and sewer bonds and is paying interest and retiring same out of the earnings of the electric plant instead of out of tax money, as would be necessary but for the earnings of the electric plant. Taking this fact into consideration we feel sure that the bonded indebtedness being paid out of tax money by our city is far less than other cities around us and certainly our Water and Light Commission should have the full credit for relieving our taxpayers of this burden.

Next, you mention the fact that no depreciation has been charged against the plant since 1924, and that as a result of this the books of the Water & Light Commission show a "false profit." We are informed that the depreciation charge has not been shown because that to do so would entail each year a complete appraisal at the cost to the department of several thousand dollars, but that as shown by the town's record of values for land and buildings and equipment the water and light plants are listed at less than their replacement value, which in itself is evidence that there has been no effort to inflate values and show assets to the plant to be greater than they really are.

You state that within the

past three years, the city has paid to the Water & Light Commission for street lighting and water for fire use a sum around \$36,000 and that during this time, the Water & Light Commission has turned over to the city but \$29,800 in addition to retiring \$18,000 in bonds and paying interest on outstanding bonds, and that you feel that out of its large profits the commission should be able to turn over a larger amount for the general tax fund to reduce the burdens of the taxpayers. We would call your attention to further help that has been given the city by the Water & Light Commission, thereby keeping our tax rate far lower than it would have been without this help. You failed to show that in three years the electric plant, in addition to paying interest on \$50,000 worth of sewer bonds, had retired \$4,000 of these bonds (a distinct obligation on the taxpayers and not the electric plant); that during the same period the electric plant profits have paid \$23,232.62 in extensions of sewer lines, that an additional \$1,800 or more has been expended each year in maintaining and operating the sewers for the city; that during the past eight years the profits of the electric plant have paid for over \$80,000 worth of extensions of water mains and hydrants to give the city additional and necessary fire protection, for which the city has paid no increase for the protection and has paid far less than would necessarily have to have been had the plant been in the hands of a power company or other individuals instead of municipally owned. We would also bring to your attention the many occasions in which the Water & Light Commission out of its available funds, it furnishes the city sufficient money to take care of its operating expenses pending collection of taxes, thereby saving the city having to execute notes or other securities on the outside to take care of its operating expenses. Your attention is also called to the fact that our Water & Light Commission has now reached the state in its affairs that it can do even more for the city in the future than it has already done, as set forth above, and therefore it must be admitted that the city has had far more help from the Water & Light Commission than is implied from your statement as to \$29,800 being turned over to the city in three years out of profits of \$334,303.41.

You state that you are afraid that by taking over the gas plant the profits of the electric plant might have to be used for its operation or its rebuilding or upkeep. Our information is that the present physical value of the plant less depreciation is worth more than

the \$100,000 we would be required to pay for same, and that the plant is in condition for operating and is being operated daily and giving service to the people of Greenville by the Tidewater Power Company. We are also informed that by the operation of the gas plant as a unit of the Water & Light Commission that the reduction in overhead will be sufficient together with profits now possible under the present system of operation to take care of the interest and retirement of the bond issue. If this information be correct, we see no grounds for your fears that the gas plant might be a drain upon the resources of the electric plant. You likewise have fears as to condition of the gas pipes because they have been laid under our streets for 15 years. We would call your attention to the fact that the trouble the gas company has had with the pipes was no fault of the quality or condition of the pipes themselves, but due to the fact that the joints were not sealed at the time of the laying of the pipes and therefore they would not hold the gas pressure when the pipes were filled. Practically all of this trouble has been remedied by the gas company and therefore the gas mains are in far better condition than when the town sold them to the gas company. So far as the wearing qualities of the pipes themselves, (the pipes laid by the city were cast iron), we give the following information:

Cast iron pipes laid 260 years ago by Louis XIV of France as water mains under the palace at Versailles are still in use. Cast iron mains in the city of Cincinnati laid 76 years ago are today giving A-1 service. Cast iron pipes laid in Boston 83 years ago are still giving service. Cast iron pipes laid in Pittsburgh in 1849 are still giving service. Cast iron pipes laid in Louisville, Ky., in 1860 are still giving service. The same is true in Kansas City where the original cast iron water

mains of that city are still in use, and so on down the line of other cities in our country. In the face of these official records is there any fear that the pipes under our city streets for the short period of 15 years have so deteriorated that they will need replacing for many, many years to come.

You speak of the amount of money invested in the Wilson and Rocky Mount plants and suggest that a like investment will be necessary here for the operation of the plant. Gas Company officials have stated that a small profit was made last year with its present equipment. If that be the case, is not this equipment ample to take care of the needs of our city for the present, and with the reduction in overhead, can't we make money out of it?

The day of manufactured gas is gone, you say, and only natural gas can compete with electricity. Granting that your statement is correct, let us call your attention to the fact that at the present mains for natural gas are being laid along the Atlantic Seaboard States and in the near future will cross our state. That already our local Merchants' Association has had an inquiry as to the possibilities for the use of natural gas in our city. Similar information as to the advent of natural gas in our section of the country was given to us by the manager of the local gas company several months ago before the fact was made known that we would have the opportunity to purchase the gas plant. If it is true that natural gas is a competitor of electricity and likewise true that in the near future such gas will be available in our section, will it not be far better for Greenville to own the gas franchise than for some power company to have it to bring natural gas here for sale below the cost of our electricity? We do not mean that we do not want the natural gas to come in, for we do want anything that will add to the conveniences for

our people, and we want them to have the advantages to be derived by this lower cost fuel, but we likewise want our city to be the ones to sell it to us so that the tremendous profits to be made therefrom can be used to continue to lower our tax burdens.

These, Mr. Flanagan, are our answers to your arguments against the purchase of the gas plant by our city. Our answers are based upon available information and

facts, and we leave it to the registered voters of our city to say whether or not our argument is sound. Naturally we believe them to be, and relying upon this, we urge and trust that our thinking citizens, interested in the future of our city, will cast their votes for the bond issue.

NOTICE North Carolina—Pitt County. In The Superior Court Before The Clerk. Atlantic Joint Stock Land Bank of Raleigh, a Corporation vs. —

Walter D. Flanagan and Wife, Celia Flanagan, et als. The defendants above named, Walter D. Flanagan and wife, Celia Flanagan, will take notice that an action entitled as above has been commenced in the Superior Court of Pitt County, North Carolina, for the purpose of foreclosing Deed of Trust, and the defendants will further take notice that they are required to appear before the Clerk of the Superior Court of Pitt County, at his office in Greenville, North Carolina, within thirty days from this date and answer or demur to the complaint filed in this action, or the plaintiff will apply to the Court for the relief demanded in the said complaint.

This the 11th day of June, 1931. J. F. Harrington, Clerk Superior Court. By E. F. Tucker, D. C. June 12-14-1931.

What Our Electric Plant Means To Our City

For the year ending June 30, 1930, the Water and Light Commission out of its earnings made the following expenditures in addition to paying its operating expenses:

Table with 2 columns: Item and Amount. Improvement to Light Department \$ 78,715.19; Improvement to Water Department 4,397.19; Improvement to Sewer Department 15,593.92; Total Improvements \$ 98,706.30; Turnover to Town for Tax Fund \$ 10,000.00; Bonds Retired 6,000.00; Interest On Bonds 16,770.00; Total Expenditures in Addition to Operating \$131,476.30

This same efficient Water and Light Commission agrees to take over and operate the gas plant if our city will purchase same. As such as our electric plant means to us, should we take chances on having it interfered with by letting an outside Power Company come in? Believing we would make a serious mistake to let any outside interest purchase the gas plant, we urge those citizens who have registered to VOTE FOR THE BOND ISSUE!

J. E. WINSLOW, R. M. GARRETT, L. M. SAVAGE, S. T. WHITE, H. L. HODGES, E. B. HIGGS.

DOROTHY DARNIT

Social and Personal

Misses Vivian and Edith Elwanger of Laurinburg, have returned home after two weeks' visit to their grandmother, Mrs. C. F. Elwanger.

Miss Harriet Fleming of Kinston, is visiting her grandmother, Mrs. H. L. Carr.

Misses Mary Moyer and Marjorie Savage left today for Amhurst, Va. Dr. and Mrs. Joseph Smith, have moved from Evans street to 311 Greene street.

Master Hunter Fleming Jr. is visiting his aunt, Mrs. William A. Darden Jr.

Miss Sonora Bland of Goldsboro, and Miss Sara Slate of Columbus, Ga., who have been guests of Miss Annie Lee Hooker, left Wednesday for Goldsboro.

Attorney Jack Edwards is returned from Virginia Beach.

Mr. K. Blount, who is spending the summer at Virginia Beach, is at home for a few days.

Mr. and Mrs. J. W. Higgs and Master Joseph Higgs Goodson left yesterday for Pamlico Beach.

Mrs. A. M. Moseley left yesterday for Wrightsville Beach.

Mr. and Mrs. W. L. Whichard are spending a few days at Virginia Beach.

Mr. and Mrs. A. C. Elwanger and daughters, Catherine and Mary Eleanor, have returned to their home in Hamlet after spending a few days with Mr. Elwanger's mother, Mrs. C. F. Elwanger, on Eastern street.

Miss Margaret Welch has returned from Wilmington and Carolina Beach, where she was the guest of Mr. and Mrs. Graham W. Robinson.

Mrs. Durwood Tucker and Mrs. Clyde Webb spent today in Raleigh.

Dr. and Mrs. Lundy Abbott of Kinston, were guests of Mr. and Mrs. W. W. Phelps yesterday.

Honored At Bridge.

Mrs. S. M. Woolfolk delightfully entertained at her home on Fourth street Saturday afternoon in honor of Miss Sue Taylor Myers of LaGrange.

The room in which two tables were set for bridge was attractively decorated in summer flowers.

After several propositions of bridge, Miss Gretchen Willard was awarded a deck of cards for high score, and Miss Marjorie Savage received a lovely string of beads as consolation.

After cards were laid aside, the hostess, assisted by Mrs. J. C. Lanier, served a delicious frozen course.

Those present were, Miss Sue Myers of LaGrange, Miss Katherine Davis of Concord, Miss Gretchen Willard, Miss Ruth Horne, Miss Mattie Moyer Gaylord, Miss Marjorie Savage, Miss Marjorie Perkins and Miss Frances Rock.

Something About Wiley Post, The Globe Galloper

By LEON H. DURST (Copyright, 1931 Associated Press)

Once he was out over the Atlantic, a wondering world feverishly followed the flight of Wiley Post and the cream-colored "Winnie Mae."

Through fog, snow and rain—fair weather and foul—flying sometimes low and others high, Post stoutly stuck to the stick while Navigator Harold Gatty sent through earpieces the tale his instruments told.

Names and people strange to the one-time Texas farm lad disappeared on the rapidly running curve the "Winnie Mae" was describing.

Past Chester, Berlin, Moscow, Novosibirsk, Irkutsk, Blagovestchensk—and on around the rest of the circle Wiley fought off fatigue and sleep and other obstacles. Twice his "Winnie Mae" bogged on landing, to be freed only after titanic tugging.

From a potent physique, the heritage of southwest pioneers, which work on farms, in machine shops and on oil wells had rippled with steel muscles, Wiley drew for the mighty energy necessary to fulfill his dream. Years at the controls as a test pilot, a National Air derby winner, and a barnstormer brought ripe skill.

His loss of an eye months before he was given a pilot's license, a spur to him "to be particularly careful in flying," as well as his admitted "sense of feel" also contributed to the triumphant tour of the Winnie Mae.

With 14 great hops behind him, and only about 15 hours of sleep to his credit, he rode out of the sun-set to Roosevelt field 4 days, 15 hours and 51 minutes after the Winnie Mae had left it.

He had eclipsed the earth circling record of the Graf Zeppelin by 12 days, 15 hours, 35 minutes. The world record of Magellan's ship in 1519 was left 1,074 days behind.

New York gave him and Gatty the acclaim deserved only for the most illustrious heroes. World known dignitaries joined famed air argonauts in lauding the feat. Past thronging thousands, Post, the one time air circus performer who did "death-defying stunts" in sparsely populated sections of the southwest was glory-borne, the target of proud eyes. Weary, but happy, the man who wanted only "sleep" when he thundered home, waved often as he rode up New York's trail for the night.

This aviator who got his first training as a wing walker and parachute jumper was called a "citizen of the world."

His pretty young wife, with whom he eloped about four years ago in a plane, was on hand to tell her pride with hugs and kisses and little joyful shrieks. From her Maysville, Okla. home came the "delight" of a mother that her boy "had realized his dreams"; the "boy" who, as a little fellow, was "full of pranks" and preferred reading adventure books with his eyes on the skies and "tinkering with any kind of machinery" to going to school.

F. C. Hall, the oil man who backed him, was there to let his friend know that he was "the best pilot in the world" and the flight was "the greatest of all time."

To the national capital Wiley went with his pal Harold to gather more laurels and to receive acclaim by President Hoover and Vice-President Curtis.

Then to Oklahoma, his adopted state, he flew with his navigator for the home folks to have their say about the young man who made good in the air. It was here that the barefooted, freckled faced boy, who as a 32-year old man carved high his niche in aviation's hall of fame, caught from the Wright Brothers' experiments at Kitty Hawk the air urge that subsequently sent him shooting like a meteor through the skies. It was in this section that he flew his first owned plane, an old Canuck. Here he often wing-walked his way while onlookers almost breathless stood with fixed gaze on his plane.

Home at last was Wiley Post, the youth who had a dream to "do something big in aviation" which

JULY CLEARANCE SALE ATTRACTS CROWDS

The July Clearance sale being held at McKays opened this morning at eight o'clock and has attracted large crowds throughout the day. There are many attractive bargains on sale in every department of the store. The manager feels confident that the general public will take advantage of the opportunities offered at this time.

Little Jerry Garner III.

Friends of little Jerry Garner, son of Mr. and Mrs. John Garner, will regret to learn that he is very ill at his home on Library street.

Roy Harris, Jr., Improving.

Friends of little Roy Harris, Jr. will be glad to learn that he is improving. Roy was seriously injured several days ago in an automobile accident in which he suffered a fractured skull and broken leg. Reports today from the hospital were that his condition is showing steady improvement.

SALE OF VALUABLE FARM PROPERTY

Under and by virtue of the authority conferred upon me in a deed of trust executed by Eva Fleming (widow) on the 28th day of December, 1928, and recorded in book N-17, page 561, I will on Saturday the 18th day of July 1931 12 o'clock noon at the courthouse door in Greenville, N. C., Pitt county, sell at public auction for cash to the highest bidder that certain tract of parcel of land lying and being situate in Pactolus Township, Pitt County, North Carolina, and described as follows:

That certain tract or parcel of land adjoining the lands of Lunsford Fleming, the Davenport lands, and others, and being the identical tract of land conveyed by Mc D. Boyd to Benjamin Fleming by deed dated December 11, 1924 and known as the Joe Fleming Home Place, containing 462 acres, more or less and being the land described in a deed executed by N. O. Warren and John A. Coke, trustees, to Eva Fleming, dated September 4, 1923 and recorded in Book V-14, page 422 in the office of the Register of Deeds in Pitt County.

This sale is made by reason of the failure of Eva Fleming (widow) to pay off and discharge the indebtedness secured by said deed of trust. A deposit of 10 per cent will be required of the purchaser at said sale.

This 17th day of June, 1931. M. L. Turnage, Trustee. W. C. Harris, Atty. June 25—11v—4wks.

ENTERTAINMENTS FOR SUMMER SCHOOL

The entertainments for the summer school at East Carolina Teachers College have been the same as those offered at Duke University and the University of North Carolina. The two that have already been here made this the third stop, going directly from here to New York. Each time the newspapers have had reports of the entertainments on the evenings preceding their appearance here. The Boston Male Choir makes this the first stop, so Greenville will have the chance to tell the others what to expect.

The concert will be tomorrow evening at eight o'clock in the campus building.

Studying in Chicago.

Dr. W. M. B. Brown left today for Chicago, Ill., for two weeks' study at Chicago Eye, Ear, Nose and Throat Hospital.

To Make Home in Warrenton.

Mr. and Mrs. J. B. Bobbitt left today for Warrenton where they will make their home. Mr. Bobbitt will operate a warehouse on the Warrenton tobacco market.

COTILLION CLUB DANCE LAST EVENING

The Greenville Cotillion club held their regular monthly dance last evening in Gorman's warehouse. Music was furnished by the Rhythm Boys.

Chaperones were Mrs. S. T. White, Mrs. R. T. Burnette, and Mrs. L. C. Skinner.

This was one of the most enjoyable dances of the summer.

Leaves for Chicago

W. S. Tyson left this morning for Chicago where he will attend a series of lectures on criminal law at the University.

developed into a "bug to go around the world." With his dream came an unflinching zeal which carried him in pursuit of this pot of gold on a rainbow trip.

He found this pot of gold. He may be even now scanning the aviation heaven for the glow of a bigger rainbow with gold even more glittering.

Friends say that Wiley is "built that way."

GREENVILLE GOES TO MOREHEAD CITY

The local baseball club of the Tobacco Belt League has been rapped out for the past two days. Scotland Neck was to meet the locals yesterday, but a heavy rain washed the game out and again today, Wilson was scheduled to play here, but with a drizzly rain this morning made the field too wet to play on. The locals are scheduled to play in Bethel tomorrow afternoon for the third meeting this season. On Monday the locals will travel to Morehead City where they will meet the strong Morehead-Beaufort team. It was stated this morning that the backers of the local club were trying to secure several new players for the local club.

Market Report Cotton--Stocks--Grain

GRAIN MARKET

New York, July 10.—(AP)—Cotton opened 7 to 10 points lower today under a renewal of Liverpool offerings. The offerings were quite promptly taken by covering and trade buying, but selling increased on reports of showers in the eastern belt, and active months sold about 14 to 17 points net lower by the end of the first half hour with July declining to 9.00 and December to 9.56. According to the New York Cotton Exchange service, domestic consumption for June is estimated at 450,000 bales against 466,000 for May and 405,000 for June last year.

Liverpool cables reported local and foreign liquidation together with short selling in that market, and said that sentiment in Manchester was bearish with cloth and yarn buyers cautious.

STOCK MARKET

Chicago, July 10.—(AP)—Wheat prices flattered nervously downward today to but little above the lowest point ever reached by future delivery contracts on the Chicago Board of Trade. July wheat representing the new domestic crop sold within 2-1/2 cents of the all time bottom record. The fact that a government crop report from Washington was due after the close tended to restrict trading at lower prices.

N. Y. STOCK LIST

New York, July 10.—(AP)—The financial markets continued to drift today, but stocks, while reflecting some uncertainty, failed to indicate uneasiness.

Wall Street still watched intently the efforts of the Reichsbank to raise a large long-term credit, but did not in the main feel that any difficulties would be encountered in taking care of German credit requirements.

Stocks had a sold out appearance after drifting lower during the morning, short covering on publication of U. S. Steel's unfilled tonnage report prompted a general rally, and several prominent issues soon registered gains of a point or more. Early losses of around 2 points in U. S. Steel and Bethlehem were regained.

The shrinkage of 141,129 tons in forward business reported by U. S. Steel for the month of June was perhaps a little larger than expected, but a substantial decline had been generally anticipated. Maintenance of the \$7 annual dividend rate at the quarterly meeting on July 28 is generally, if none too confidently, expected in Wall Street, although operating income for the quarter is believed to have been virtually nil. Bethlehem declined somewhat more substantially than U. S. during the morning selling, and there is less inclination to look for maintenance of the current annual dividend rate at the meeting July 30.

It is notable that monthly statistics are now in some instances making favorable comparisons with last year. The New York Cotton Exchange service estimated June cotton consumption this year at 450,000 bales, compared with 405,000 in June last year.

GIANTS AGAIN SUFFER LOSS

By GAYLE TALBOT, Jr.
Associated Press Sports Writer
Things are not looking so bright for John McGraw's New York Giants, despite the fact they have managed to cling to second place in the National league by a few percentage points. Misfortune has dealt the Polo Grounders a series of body blows lately, just when the fighting appears to be getting good.

The latest jolt to the team's pennant hopes came yesterday, when Freddie Lindstrom, who rapidly faded as he was a third baseman in other years, broke a small bone in his left instep while sliding into third base against the Phillies. The prospects are he will be out for three weeks or a month, and his loss will be keenly felt. Hughie Critz, the club's regular second baseman, has been on the bench for several weeks. Loss of the pair robs McGraw of two of his stead-fast clubbers, both boasting a batting mark of 309 at last averages.

Before he was carried from the field yesterday Lindstrom had hit a home run and a single to start the Giants on their way toward a 9 to 3 victory over the Phils. Carl Hubbell did his share by holding the opposition to seven hits. The win could not have come at a better time, as the boisterous Brooklyn Robins were taking the Boston Braves, 6 to 2, behind Watson Clark's fine pitching. The Giants still had a three point lead over their rivals for second place today.

Notwithstanding their victories, both clubs lost ground in their pursuit of the St. Louis Cardinals, who raked down on the Cincinnati Reds twice, 3 to 1 and 9 to 1.

The Pittsburgh Pirates continued to be tough on their home grounds, making it two straight over the ambitious Chicago Cubs, 4 to 2. It was their sixth victory in seven starts.

Washington managed to pick up a full game on the Athletics by slaughtering the Boston Reds, while the A's were losing their opener at the Yankee Stadium, 9 to 4.

"Lefty" Gomez, slender Yankee southpaw, turned in his second straight victory over the champion Athletics, allowing Connie Mack's slugers only three hits in the first seven innings. Lou Gehrig featured the winner's attack with his twenty-first homerun and a double, driving in five scores.

Vic Frasier pitched airtight ball in the pinches to give the Chicago White Sox a 3 to 0 victory over the Cleveland Indians. The Detroit Tigers fell upon three St. Louis pitchers for 15 hits and an 11 to 7 triumph. Whitehill went the route for the winners.

Wake Up Your Liver Bile —Without Calomel

And You'll Jump Out of Bed in the Morning Rin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resent a substitute.
