

VOTE FOR GAS BONDS AND KEEP THE POWER COMPANY OUT

Tomorrow our citizens will decide at the polls whether we will give the power company a foothold in our city or whether we will keep ourselves free from the clutches of the power trusts by purchasing and operating the gas plant ourselves, and we make this last appeal to our right-thinking people to pursue the latter course by voting FOR THE BOND ISSUE. Of course, there is and has been considerable opposition to the purchase of the gas plant by our city, but when you are so advised we suggest that you question the motives of those who try to get you to let the power company come into our city. While we give credit to some of those opposing the bond issue for being sincere and conscientious in their objections, we feel that there are others prompted by other motives, either owning power company stock or otherwise paid to fight this bond issue in order that the power company might get the gas plant. We make this statement in view of the fact that we are aware that power company stock is owned by some of our citizens and we are also in possession of (Continued in regular Editorial column.)

GERMAN GOVERNMENT ATTEMPTS TO SAVE NATION FROM RUIN

Issues Emergency Decree Taking Over Guarantee of the \$30,000,000 Darmstadter and National Bank Which Has Suspended Payment Because of Drain on Its Resources By Rising Demand for Foreign Currencies; Government Closes Stock Exchange to Prevent Spread of Panic

Berlin, July 13.—(AP)—Directing all its energies towards saving the nation from financial ruin, the German government today issued an emergency decree taking over guarantees of the \$30,000,000 Darmstadter and National Bank, which has suspended payments because of the drain on its resources by constantly rising demands for foreign currencies. The run which ruined Darmstadter extended in some degree to other banks this morning but to prevent the panic from spreading further, the government closed the stock exchange for today and tomorrow.

Meantime the cabinet, whose members are worn by the constant sessions of several days past, remained on the job.

Dr. Hans Luther, whose efforts to obtain French participation in a foreign credit for the Reichsbank were unsuccessful in that the government declined to accept conditions imposed by France, left by plane this morning for Basel to attend a meeting of the World Bank directors there.

Chancellor Brüning's government in an appeal today to the German people asked that they keep their heads in this time of financial distress and not to make things worse by losing confidence in the Fatherland.

"President Hoover's moratorium plan afforded a great relief to our economic situation," a proclamation issued in the name of the government, asserted, "a large sum which Germany was entitled to claim to retain could, by virtue of that, plan be restored to the banks. The weeks during which the struggle in connection with this plan has gone on have, however, done enormous damage to private business. Millions loaned to Germany from abroad have been withdrawn because of the uncertainty of the situation.

"Even today complete tranquility has not been restored. Although our aim must be that the German economic system shall once more be enabled to work with its own means, it is now necessary if severe interruption are to be avoided, that further withdrawals shall cease.

"Efforts of the Reichsbank and the Gold Discount Bank are directed to obtain from abroad credits of the long as possible term to aid private business and to relieve their distress.

"Despite all efforts, in the course of these events one of our largest banking institutions—the Darmstadter National Bank—has suspended payments.

"It is not a question of saving the bank's assets, but of saving the property of hundreds of thousands of its customers, thereby saving their business from interruption or even from ruin.

"From these viewpoints, alone the government will, in case of deficiencies, step in. It is self-evident that the bank's business will be watched by the government's trustees.

"No irregularities contrary to law have been discovered. It is essential that the German people in this difficult situation retain their courage and not increase the trouble by losing their self-confidence."

N. H. WHITFIELD BURIED SUNDAY

Former Greenville Man Dies At Home of His Daughter in Farmville

N. H. Whitfield, 70, died at the home of his daughter, Mrs. B. O. Turnage, in Farmville last Saturday afternoon at 2 o'clock following long illness.

Funeral services were conducted from the home yesterday afternoon at 4 o'clock and burial was made in the Farmville cemetery. Rev. H. L. Hendrick, pastor of Farmville Methodist church, officiated. Mr. Whitfield lived in Greenville several years and had a host of received news of his death with sorrow.

He had been in business at Ontario, Va., the last several years but his health became impaired and he moved to Farmville where he had been making his home with his daughter the last several months.

He was a native of Franklin county but lived in many parts of the country during his lifetime. He married Miss Ruth Hayes, of Chase City, Va., who preceded him to the grave a number of years ago.

He is survived by two daughters, Mrs. George Buchanan, of Henderson, and Mrs. B. O. Turnage, of Farmville; three sisters, Mrs. B. W. Chavis, and Mrs. J. W. Hester, of Wayco, Texas, and Mrs. J. R. Townsend, of Ontario, Va. He is also survived by several grandchildren.

Active pall bearers were: George Buchanan, N. Y.; B. O. Turnage, Farmville, nephews; G. A. Rouse, J. T. Thorne, A. W. Bobbitt, R. A. Fields, honorary; G. M. Hold'n, F. M. Davis, T. C. Turnage, W. J. Turnage, J. Y. Monk, W. J. Raspberry, Playto Monk, W. Leslie Smith, B. B. Smith, E. C. Beaman.

Twenty Also Injured in Accidents on the Highway, in the Air and At Resorts in Different Parts of State

Charlotte, July 13.—(AP)—North Carolina today counted a toll of five dead and 20 injured, several critically, in accidents on the highway, in the air and at resorts over the week-end.

The most serious of the long list of fatal and near-fatal mishaps occurred near N.W. London, six miles from Albemarle, where three persons lost their lives yesterday at a railway crossing.

Mrs. John Hatley, about 35, of Albemarle, was killed outright when a car driven by M. Luther, Hatley 50, her brother-in-law and

BIG DIRIGIBLE IS DESTROYED

\$60,000 Goodyear Mayflower Burns When Swept Against High Tension Wires

Kansas City, July 13.—(AP)—A sudden storm swept the \$60,000 Goodyear dirigible Mayflower to destruction against high tension wires near the municipal airport here last night.

Capt. Charles E. Brannigan, 35, the pilot, was burned dangerously in an attempt to weather along a high wind that jerked the 140-foot craft from its mooring, mast and a ground crew.

Gasoline spilling from tanks ruptured by a crash against the roof of an army hangar was ignited as the Mayflower hurled against a transformer. The bag was filled with helium gas, which is non-inflammable, but flames poured over the gondola. Captain Brannigan fell with the cage in front of a neighborhood freight train on runway tracks below. The train halted 50 yards away. Brannigan was rescued by a co-pilot, R. H. Hobensack, who with a member of the crew, had dropped to safety a moment before. Hobensack, his clothing drenched by rain, was burned slightly. Hospital physicians said Brannigan's condition was critical.

The Akron, O., airship carried passengers over the city throughout the afternoon. It had been moored to a portable mast for the night less than an hour before the storm struck.

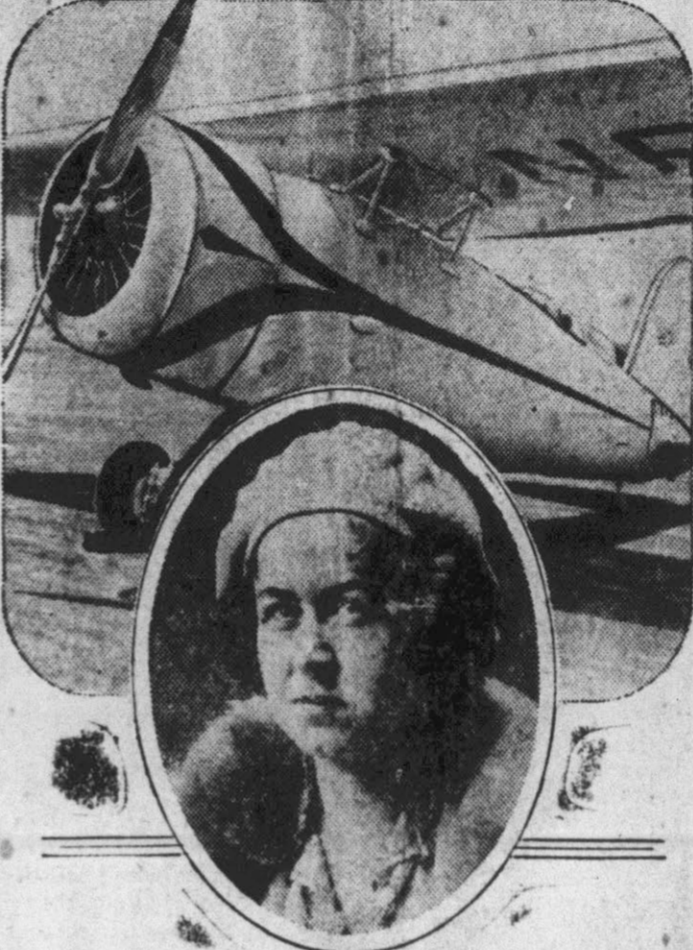

The mast held through the first blow, but indications that it would increase in intensity caused Capt. Brannigan to order the dirigible released to ride it out. A heavy gust, however, caught the dirigible before the crew could act, wrested away ground ropes and tore out the six stakes holding down the mast.

Ray Horton, a crew member, dropped to earth from an outside railing. The ground men were left sprawling. Hobensack and Hendershot seized opportunities to jump from the cabin. Hendershot lost two teeth.

"I don't know how far it was to the ground," Hendershot said "but I took the frames of two windows with me getting out of there."

One gust drove the ship to the ground, the fuel tanks but when another hurled it to the roof of the hangar. The high tension line was struck a moment later.

T. R. MOORE IS LAID TO REST

Funeral for Prominent Citizen and Churchman Held This Morning

Funeral services for T. R. Moore, 80, one of the best known citizens of Greenville, were conducted from Memorial Baptist church this morning at 10:30 o'clock. Rev. A. W. Fleischmann, pastor of the church, assisted by Rev. W. S. Harden, pastor of the Presbyterian church, officiated. Members of the Bible Class were active pall bearers. Burial was made in Cherry Hill cemetery.

The final rites were attended by a large number of sorrowing friends and an extensive floral tribute attested to the high esteem in which the deceased was held by people at home and abroad.

Mr. Moore died at his home on Evans street early Sunday morning. He had been in declining health for several months, but had been confined to his bed only about two weeks.

He was a native of Pitt county and spent his entire life here. He was a member of Memorial Baptist church since childhood, and for many years served as senior deacon.

He was the "grand old man" of the C. J. Ellen Bible Class and every Sunday morning found him seated in a place of honor in the front of the classroom. He always occupied a rocking chair which members of the class purchased several years ago in appreciation of his long and devoted service to the church.

It was his voice that intoned either the opening or closing prayer for development of the church and his community. Having been one of the oldest members of the church, he lived to see the State Baptist convention assemble here last year to celebrate its 100th anniversary. No single figure derived greater inspiration from the convention than did Mr. Moore, because he realized as did others that it represented the culmination of long years of unremitting toil by leaders of the church in all parts of the state.

Even until a few weeks prior to his death Mr. Moore was in his accustomed place in Sunday School and church, and members of the Baracca Class and the convention derived considerable inspiration from his spirit of loyalty to the cause of Christ.

He was twice married and is survived by his second wife, Mrs. Mattie Moore, a brother, W. M. Moore and several nieces and nephews.

DEFER ACTION IN FALL CASE

Justice Bailey Delays Decision Today Without Any Explanation

Washington, July 13.—(AP)—After a lengthy conference with attorneys Justice Bailey in the District of Columbia Supreme court, today postponed action in the case of Albert B. Fall until tomorrow.

There was no explanation for the postponement. Justice Bailey on Saturday had refused to suspend the one year sentence given Fall for accepting a \$100,000 bribe for an oil lease while he was secretary of the interior.

The justice had agreed, however, to permit a consultation to determine whether Fall would agree to have a day added to his sentence so that the Attorney General might be given the discretion of assigning him to a western prison.

Physicians had reported that Fall was a victim of inactive, tuberculosis and that if he were brought to an eastern jail it might become active. Either Texas or New Mexico has been suggested as a place where he might be sent to serve his sentence.

El Paso, Tex., July 13.—(AP)—Albert B. Fall was resigned today to the prospect of serving a prison term on conviction of accepting a bribe while he was secretary of the interior.

Ending a long fight based on the assertion Fall's health would break in confinement, a member of his family announced yesterday that the former cabinet member had agreed to the addition of a day to his one-year sentence in order that the time might be served outside the District of Columbia.

He expressed a desire to enter the penitentiary of New Mexico, his home state. That plea was contained in a message from Mr. J. H. Gambrell, his private physician, to Frank Hogan, Fall's Washington counsel.

Dr. Gambrell said the climate of Washington would affect adversely the health of the former secretary, who was convicted of accepting \$100,000 from E. L. Doherty for leasing of the Elk Hills naval oil reserve.

Members of Fall's family said his side of the case had never been told, and that when the public learned the facts it would recognize him as "the most unjustly treated man in history."

Two Airmen Leave N. Y. On Flight To Budapest

Roosevelt Field, N. Y., July 13.—(AP)—Alexander Magyar and George Enders took off today on their long delayed flight across the Atlantic to Budapest. They planned a stop for fuel at Harbor Grace, N. C. Magyar and Enders had been preparing for their Hungarian flight for more than a year.

They have a black Lockheed plane with radio and planned to follow the great circle northern course by way of Newfoundland.

Their plane is named "Justice to Hungary" and the flight was planned to focus public attention on wrongs done his homeland as a result of the treaty of Trianon, Magyar said.

FRENCH FLIERS OFF FOR TOKYO

LeBrix and Doret Attempting Non-Stop Flight From Paris to Japan

Moscow, July 13.—(AP)—Joseph Le Brix and Marcel Doret, French aviators, were winging their way across Russia today on an intended non-stop flight to Tokyo which may carry them around the world on the trail of Wiley Post and Harold Gatty.

They passed over Moscow at 6:30 o'clock last night (11:30 A. M. EST) after a trip of about eleven hours from Paris. They left Le Bourget airdrome at 4:43 A. M. and were reported over Belgium an hour later.

Their plane is the "Hyphen" in which they broke the world's distance record over a closed circuit several weeks ago. Carrying fuel for 70 hours in the air, they hope to break the present straight line record of 4,900 miles held by Maj. Dieudonne Coste and Lieut Maurice Bellonte of trans-Atlantic fame.

They expected to be in Tokyo in 62 hours, following the course of the trans-Siberian railroad to Mukden and hopping across the Japan Sea on the final leg. Their scheduled call for arrival over Moscow in 12 1/2 hours, Chita in 41 hours, Mukden in 52 1/2 hours and Tokyo in less than 10 hours. The distance is 6,000 miles.

FILES SUIT AGAINST BUTCHER IN ASHEVILLE

American Fliers Bound for Mexico

Mexico City, July 13.—(AP)—The pilot of a Mexican aviation company plane bound for Brownsville reported by wireless this afternoon that he had sighted a plane, apparently the "Captain Emilio Carranza," crashed on the beach between Tampico and Brownsville. He said he saw two fliers near the plane, apparently unhurt.

New York, July 13.—(AP)—Edward Maloney and Set's Yerrington, Long Island fliers, were winging their way to Mexico City today on a non-stop flight from Roosevelt Field from which they took off yesterday—the third anniversary of the death of Cap. Emilio Carranza, Mexican ace, for whom their plane is named.

A plane resembling theirs was sighted over Atlanta, Ga., at 10 P. M. (EST) last night and over Montgomery, Ala., at 2:45 A. M. today.

AIR MISHAPS KILL NINE

Eight Killed in U. S. and Canada Over Week-End; Ninth Dies From Injuries

Airplane accidents over the week-end claimed the lives of eight persons in the United States and Canada, and another died as a result of injuries he suffered in a plane crash last Wednesday.

Chester Bales, 32, Kansas City, and William Warren, 22 of San Antonio, Tex., burned to death in a crash at the Chicago Municipal Airport. Bales was a pilot for the Braniff Airlines, Inc., and Warren a pilot for the Century Airlines, Inc. witnesses said the plane had risen to approximately 700 feet when the motor quit after a take off.

Miss Elizabeth Osborn, 16, and Miss Ruby Hinson, 18, both of Jonesboro Ark., were killed when the plane in which they were riding with H. E. Lawhead pilot, fell to earth near Jonesboro. Lawhead was dangerously injured.

At Harrisonville, Mo., an airplane piloted by Irwin Vrooman, Kansas City became entangled in a tree and crashed in flames burning to death George Colburn 17 of Manhattan, Kas., and Ershul Thomas, 24 Harrisonville. Vrooman was injured critically.

Art Bielby, pilot, and William Bramphall, passenger, both of Sack, were killed Saturday night at Lloydminster. Their plane fell from a height of 1,200 feet.

Charles Sugg, 30, 84 Clair Mich., died yesterday in a Martins Ferry, Ohio, hospital of a fractured skull received last Wednesday when his plane smashed into a hill at Yorkville, Ohio, while he was participating in a national air tour.

Voters Will Go to the Polls Tomorrow and Determine Whether or Not City Will Issue \$100,000 in Bonds for Purchase of Local Gas Plant; Much Interest Manifested Along Streets, in the Homes and Business Houses; Proponents Set Forth Reasons Why Success of the Election is Essential

Greenville voters will go to the polls tomorrow to vote on the proposed \$100,000 bond issue for the purchase of the local gas plant.

The election is considered one of the most important in the history of the city, and it was the principal subject of discussion along the streets, in homes and business houses today.

The polls will be located at the courthouse and will open at sunrise and close at sundown.

A special registration was ordered by the Board of Aldermen when it was decided that an election was to be held on the question, and when the books closed on July 3 something over nine hundred voters had had their names recorded.

The registration is about half the normal voting strength of the city. Persons who did not register will not be accorded the privilege of casting their vote on the issue.

Proponents of the bond issue have waged an intensive educational campaign the last three weeks, and this reached its height today with the issuance of a circular letter containing salient points as to why votes should be cast for the bond issue. The letter bears the names of several substantial citizens who believe that operation of the gas plant by the city would result in the return of appreciable revenue in future years, and at the same time save the municipally owned water and light commission from the tentacles of a big power company.

The letter sets forth the facts that if the gas plant is purchased by the city, it will be consolidated with the Water and Light department, and that costs, rents and other expenses will be eliminated.

The letter then presents some of the things which the Water and Light commission has done for the city in the past years by retiring bond issues and the paying over of revenue. In addition to this, the letter points out, the commission in 1928 turned over to the city \$4,800 in 1930, \$10,000 and in 1931 \$15,000. The total relief to taxation was estimated at \$310,689.00.

Answering the question as to how citizens have been benefited by the revenues, it is asserted that permanent improvements have been made without bond issues and with a gradual lowering of the city tax rate from \$150 to \$130 on the \$100 valuation.

Opponents of the bond issue launched an attack last week in which advisability of the purchase of the gas plant was questioned. The majority of the questions propounded have been answered by the proponents, and consequently when the people go to the polls tomorrow they will do so with a greater fund of information than they probably ever had on any other question submitted to referendum.

Greenville sold the gas franchise to the Carolina Gas and Electric Company several years ago with provision that should the company ever desire to sell the city should be given an opportunity to bid.

About two months or more ago the company announced intention of sale, and actually sold the plant to the Tidewater Power Company pending action of the City of Greenville on the option. The plant at the present time is being (Continued on page three)

PLETHORA OF HITS FEATURE MAJORS PLAY

By GAYLE TALBOT JR. (Associated Press Sports Writer)

The new and less capricious ball that has given major league pitchers a new lease on life this season evidently is losing its magic quality as the sun beams stronger and the batters begin to reach their top form. At any rate, the deodorized sphere was forced to take a luster beating over the week end.

Hitting predominated in almost every instance yesterday as fourteen contests were untried in the two circuits, including a full set of doubleheaders in the National. Only ten pitchers out of twenty-eight who started were able to go the distance, and no club was held to less than two runs. Thirty runs crossed the plate in one tilt, 20 in another and nineteen in a third. Hits for the most part ran into double figures.

The Chicago Cubs and St. Louis Cardinals gave the day's most boisterous exhibition in the second game of their pair, the Cards pounding six Cub pitchers for 21 hits and a 17 to 13 victory. Three Card moundsmen gave up 16 hits. Chicago captured the first tilt, 7 to 5, largely the result of home runs by Hack Wilson and Homer Cuyler.

The crippled New York Giants took to free-biting contests from the Phillies, 13 to 8 and 9 to 4, to pick up a full game on the Cards. Frank Hogan hit two homers in the first game and one in a pair in the second.

Cincinnati's last place Reds came back after five straight defeats to meet their holiday bill with the Pittsburgh Pirates. R. D. Lucas best three Pirates twirlers, 14 to 7, in the opener. The second, a pitcher's ball, went eleven innings before the Reds won out, 6 to 5.

Adolph League, Brooklyn's veteran Cuban, pitched his fifth victory of the year as the Robins downed the Boston Braves, 7 to 4, in their first, but the Braves fought 12 innings to win the added attraction, 4 to 3.

A pair of Connie Mack's second line pitchers, Waite Hoyt and Larry Mahaffey, gave the Athletics a clean sweep over the Boston Red Sox, 7 to 2 and 6 to 2. Hoyt allowed only six hits in the first, while Simmons and Fox contributed home runs in the champions' assault on three opposing moundsmen. Mahaffey gave up seven in the nightcap, which was called at the end of the sixth to comply with a Sunday law.

The two wins enabled the leaders to pick up a game and a half. Generators, who were tamed by the on the second place Washington Yankee veteran, Herb Pennock, 10 to 4, in a single game at Washington.

Cleveland and Chicago divided their American league double bill, the Indians winning the first behind Wes Ferrell's steady pitching, 10 to 4, but losing the nightcap, 7 to 5.

Elon Hogsett of the Detroit Tigers gave the day's best pitching exhibition when he held the St. Louis Browns to four hits and beat them 7 to 2.

WILSON PLAYS THREE TEAMS HERE TUESDAY

The newly independent baseball team of Wilson will play the locals here tomorrow afternoon at 4 o'clock sharp. This game was scheduled to be played here last Friday but rain washed it out; so it will be played tomorrow.

The locals defeated the Bethel club in Bethel last Saturday by a score of 8 to 3. Dunn pitched fine ball for the locals and allowed only 7 hits. The local club left this morning for Morehead City where they will play the Morehead City team this afternoon at 4 o'clock.

On Wednesday the locals will play Snow Hill in that city for the fourth time this season. Snow Hill having won the past three games from the locals. On Thursday afternoon the locals will return home to play that strong team of New Bern—the Battery D outfit. This club has only been defeated once this season and that was handed them by the local battery. On Saturday afternoon the locals will go to Macesfield for their fifth meeting of the season.

Come out and support the local boys and they will try to give you a better brand of baseball in the future.

PREPARED TO STOP BEES

Charlotte, July 15. — (AP) — To the tune of Durham, Greensboro and Henderson this week falls the assignment of making a stab at checking the dash of the Charlotte Hornets toward Piedmont League throne room.

Putting on steam as the season advances, the Bees ploughed thru last week's competition with a record of six wins in seven starts—the same mark they hung up the week before.

By last week's performance the picked up three games on the second-place Raleigh club and put themselves eight games to the front in the pennant crusade.

Today, they made a rally to Durham for a two-day stand against the Bees. Wednesday and Thursday they will entertain the Pat's of Charlotte and go to Henderson Friday for the final three matches of the week.

The Caps in succession meet the Pointers at Raleigh, the Twins in Winston, and the Tourists at the capital city.

The Tourists, who last week regained fourth place in the standing from the Twins, open the week with the third place Pats at Greensboro and go back home for a mid-week stand against the Bulls.

Winston plays today and tomorrow at Henderson, and Friday and Saturday at Greensboro. A Henderson at High Point mid-week series and a week-end stand of the Pointers at Durham complete the week's offerings.

SPORTS SLANTS

After a comparative lull of a few years, an open season is on again for umpire batting. Official and otherwise.

In almost every league in professional baseball, the umpires are having their troubles and in many of the leagues the league and club chiefs are deserting their cause.

Manager John McGraw of the Giants has been unusually sarcastic this season in his criticism of the arbiters in the National league and it was through his influence, largely that Umpire Jorda was rejected.

In the American league, the club owners shouted so loud and long against some decisions that the election of a successor to the late President Ernest S. Barnard was pushed ahead six months and the new league chief, William Harridge promptly named the veteran Tom Connolly umpire-in-chief of the league.

It Connolly succeeds in his office, in which he is to be held directly responsible for umpiring with powers to fire and hire almost at his own discretion, it is understood the National league may follow suit.

Rarely in Piedmont League annals has a nine displayed the punch that the Hornet outfit is packing, although they let up a little on the defensive; they clouted out an average of 12 hits for nine runs a game last week to lead in both batting and scoring per game. They also showed the way in homers, getting nine to boost their season count to 54, seven ahead of Greensboro, a second place with 47.

The Bulls capped the defensive honors for the week, limiting their foes to an average of two and a half runs to the match.

SALE OF REAL ESTATE

Under and by virtue of the power of sale contained in that certain Deed of Trust, executed and delivered to H. A. CITIZENS URGED TO VOTE FOR BOND ISSUE

Dear Citizen: You are confronted with a question of vital importance to your town.

By registering for the Special Election to be held tomorrow, you have signified your interest and manifested your willingness to discharge this important duty of citizenship.

Therefore, presuming you have the best interest of Greenville at heart, we beg leave to submit for your consideration the following information:

Ques: If the bonds are voted and the gas property is purchased, what will be done with it?
Ans: It will be consolidated with the Water & Light Department and operated as a part of same. By doing this: management, operating cost, rents and other expense will be eliminated.

Ques: Who will benefit by such saving?
Ans: Those who use gas and pay taxes.

Ques: What has the Water & Light Department done to justify this additional responsibility?
Ans: Well, up to about 1920 the town by taxation paid for every water main extended and the maintenance of same, every street light added and maintenance of same, every sewer pipe extended and the maintenance of same, every serial bond coming due and all bond interest. But, beginning with 1920, the Water & Light Commission gradually took over all these items of expense and paid for same out of its own revenue, at a saving to the taxpayers, to date, of \$280,899.00. And in addition to this, they turned over to the town in 1929, \$4,800.00; in 1930, \$10,000.00, and in 1931, \$15,000.00

Thus, it can readily be seen that taxation has been relieved of \$310,699.00 that has been paid out of the earnings of the Water & Light Department. On the other hand, if this utility had been privately operated, these earnings would have gone into the pockets of its stockholders.

Ques: How have the citizens of Greenville been benefitted by this?
Ans: By permanent improvements that have been made without bond issues and by a lowering of the tax rate from \$1.50 to \$1.30.

Ques: If these gas bonds are voted and issued, who will pay them?
Ans: The Water & Light Department, just as it is now paying the water, light and sewer bonds. These bonds will not raise the tax rate one penny.

Ques: How do the light and power rates in Greenville compare with those of the big power companies in towns of similar size?
Ans: They are as low and in many instances lower than any in the State.

Ques: Are other municipally owned gas plants paying?
Ans: Rocky Mount, Wilson and many other towns consider their gas properties among their most valuable assets.

Ques: What is the condition of the Gas property the town seeks to purchase?
Ans: It is in good condition, and should now be on a paying basis. It showed a profit last year.

Ques: Who will purchase this gas property if the bond issue fails?
Ans: The Tice Water Power Company is already in possession, subject only to Greenville's option.

Ques: Why does this Power Company want the gas property?
Ans: Either to make money that should be saved to the people of Greenville or else to use as a weapon with which to fight our most valuable financial asset.

Ques: What could such fight avail the Power Company?
Ans: Force us to sell to them our Water & Light properties and thus deliver ourselves into the TENDER MERCIES of the Power Trust.

Ques: How is it known that they want our Water & Light property?
Ans: Because for years power companies have been offering huge sums in an effort to purchase same. DON'T FORGET TO VOTE. A vote for the bonds is a vote in your own interest. If you fail to vote, your registration is counted anyway as a vote against the bonds. Greenville will never have the opportunity again.

Respectfully and sincerely submitted, in what we conceive to be, the best interest of our town.

"We decided to close," Mr. Broughton said, "because of general business conditions and the fact we have been unable to make satisfactory credit connections. We now have on hand more reserve than the law requires and we believe that the bank can be liquidated so as all depositors will get 100 cents on the dollar."

KEEPS EYE ON GERMAN CRISIS

President Hoover Makes Study of Financial Plight; Federal Reserve May Act

Washington, July 12.—(AP)—President Hoover turned his undivided attention today to the German financial situation. Returning from his Rapidan camp where he spent the week-end the chief executive found a number of important communications concerning Germany's plight on his desk and immediately began a study of them. All available sources were used by the White House to keep in close contact with the situation, although it was said that the chief executive had not communicated directly with Ambassador Sackett nor with any other official in Germany. New York, July 13.—(AP)—It was up to the Federal Reserve Bank today to decide whether it cared to join European banks in extending

county, announced an inquest would be held today or tomorrow. Oren W. McCall, Charlotte, was fatally injured when a car in which he was riding struck a tree to avoid hitting two other machines on a highway near Charlotte yesterday. Two companions, Daniel Rainwater, driver of the car, and Preston Griffith, both of Charlotte were less seriously injured.

The other fatality occurred near Wilmington where Arthur L. S. Sprink, about 22, of Marion, was drowned while swimming in the surf at Myrtle beach. Howard Wear, Charlotte aviator had a narrow escape from death in an air accident at Caryville. A plane in which he was stunt flying yesterday nose-dived from a height of about 1,000 feet into a tree. He escaped with a broken leg and other injuries.

Four Randolph county young men—David Hinshaw, Winford Vickery, Raeford Kennedy, and Hobson, Vickery—suffered broken bones cuts and bruises when their car blew a tire and struck a bridge railing yesterday at Randleman.

Marth Nicholas, 66, of Orange county, and H. M. Bragg Rougemont—slightly injured in automobile collisions yesterday at Greensboro.

Glenn Yoder of Newton, employed as a paramedic at Shelby, and a Mr. Isenhower—both of Yoder's car struck a machine driven by Britt Mull, of Cherryville, son in law of Isenhower, last night near Cherryville.

John Queen of Hickory, Otto Whitmore, of Kannapolis, and A. Sigmon of Salisbury—hurt when their car overturned Saturday night at Salisbury. Floyd Curren, of Granville, suffered a fractured skull and his brother was badly cut and bruised when their car crashed into a bridge near Oxford.

Philip Wid-nhouse, 20, of Kannapolis, was released on \$200 bond in Durham after a wreck at a street intersection in which three Negroes were seriously injured.

When sold the franchise included several miles of gas mains which the city had installed along with the paving many years ago. The property at this time includes a modern plant, with miles of improved gas mains and several acres of land upon which the plant is located. When the question first came up for consideration, a representative of the gas company admitted that the local plant had a value of \$150,000. It was sold along with several other plants in this section of the state.

sion of the fact that money has been offered directly to some of our influential citizens to use their influence to defeat this bond issue. This latter information comes to us directly from one of the men to whom the offer was made.

Bear with us just to view this picture of what the power trust really is and what it means to the future of our own city and section or any other section in which the trust gets the control. All of us are familiar with the octopus as being a devil fish or demon of the sea with eight long arms or legs with which he first encircles his victims and crushes the life out of them. Taking the word literally though, the dictionary gives another definition, "an individual, organization, or influence which has far-reaching power, usually exerted for injury," and this definition certainly sets forth clearly what we mean when we say the power trusts. Study the records of the power companies in every section where they have come into control. Why is there a continual wrangle between the Federal Government and the power trusts, why does the trust want to own Federal as well as State officials, why is power money spent in tremendous sums every time there is a national election, why does the power trust want to subsidize school professors, maintain news agencies, want to own and control newspapers in every section on which it has designs, why did the power interests during the past session of our own legislature maintain a powerful lobby in Raleigh, why do the power interests keep a battery of lawyers employed in every section, and why does the power company want to gobble up kindred industries before it finally gets into a community? You might ask if these things are true. For answer we refer you to the court records and the daily press throughout our nation for a number of years heralding each day some new scheme or some new angle from which the power trusts are encroaching upon the freedom of the people in an effort to control the lives and habits of our nation. You might be aware that already the power trust owns and controls a local ice and coal business along with similar concerns in various towns in this section of the state, you might also be aware that the power companies have just come into control of several gas plants in this section and are endeavoring to get ours, that they are also trying to get control

every electric plant possible in this and other sections of the state. Does all of this mean anything to us? Certainly, it means that they are working toward the day when they will have complete control of every source from which we can get heat, lights, refrigeration and other necessary conveniences, and when that day arrives, God pity the position in which we will find ourselves. You might say that we are seeing ahead dangers that do not exist, but the records of the power trusts wherever they have come into complete control bear us out in drawing this word picture of what we may look forward to if we do not curb the power trust. Of course, these things might not happen today or tomorrow, for the power trust does not work that way, but looks years ahead to that day when they will have such complete control that no effort will be strong enough to stop their designs against the people.

We could go on and on and recite you specific instances that bear out the above contentions, but if you have kept up with the happenings throughout our nation you only have to be reminded to realize that this evil does exist.

Tomorrow we will have an opportunity to strike a blow at the power company so far as our city is concerned if we vote for the bond issue and keep them from getting the gas plant, but should we fail to do this the opportunity to keep them out will not come again and it will be an everlasting if not losing battle to keep them from getting entire control of our city. The election is different from other elections in that should we make the fatal mistake to defeat the bond issue and let the power company have the gas plant, we cannot go to the polls at some future date and repair the damage caused by our error. It is now or never for us to get the gas plant and thereby protect ourselves from eventual slavery to the power trust octopus and again we appeal to the right-thinking people of our city to go to the polls tomorrow and cast their votes

FOR THE BOND ISSUE

"Our Greenville, Yours If You Come," was not meant to apply to the power trust and it is up to us by our action tomorrow to withdraw this invitation or in the future to expect the company to take this invitation literally and take our city and our people as their own to do with us as they see fit.

Again we urge you VOTE FOR THE BOND ISSUE.

ABOUT TOWN

Tobacco growers would do well to heed the warning of tobaccoists against the marketing of the lower leaves of the stalk this year. This will help reduce the crop and bring about a pronounced increase in the average price.

Curing process is under way in nearly all sections of the eastern part of the state at this time and the farmers should not make the mistake to prepare the bottom leaves for market.

It has been shown conclusively that the world market is hopelessly congested at this time, and the only way to relieve it is to cut down on production.

The demand for good tobacco will be as good as usual probably, but common grades such as those represented by the lower leaves, will not pay the price of transportation to market.

By co-operating in this movement to free the market as much as possible of inferior grades of tobacco,

the farmers will be directly increasing their chances of better prices.

Tomorrow the registered voters of Greenville will go to the polls and say whether or not they are in favor of the \$100,000 bond issue for the purchase of the local gas plant.

The election is probably one of the most mooted questions of the day at this time, and will hold the center of the stage until the final vote has been counted Tuesday night.

It is impossible to say what the outcome of the referendum will be, but proponents are hopeful the vote will be in favor of the bond issue by reason of the important bearing which the matter has on the future life of the city.

The city needs the gas plant as a source of increasing its annual income. Every progressive and thriving city needs all revenue it can get and it would be foolhardy for Greenville to turn its back on this chance to increase its earnings when numbers of other far-sighted young cities are preparing their own plants at a splendid profit.

Then, too, the purchase of the plant would eliminate the possibility of the constant threat of the big power interests who are constantly entrenching themselves in various communities of the country, and who will do so here if the gas plant is sold to them.

The city has been confronted by many momentous questions in past years, but the gas plant bond issue is decidedly the most weighty and at once the most pressing of them all. What will be done with it will be settled by popular vote tomorrow, and it is hoped that everyone will give it mature deliberation before casting their vote.

Plucky fellows, those Seattle to Tokyo fliers.

After being forced down in Alaska they are returning to New York to try again. This is the spirit that has gradually put America in the lead of the world of aviation. It is the same spirit of faith that caused Lindbergh to fly across the Atlantic and capture the honor as the greatest living flier.

With such courage and perseverance backing the efforts of the American fliers the future bids fair to see even greater achievements in this realm of transportation. It is a broad field and America, leader in virtually every branch of human endeavor, will not be found relinquishing the lead which she has gained through the sacrifice of

blood and money.

That celebration to be held here next Wednesday, July 15, in honor of three Pitt county men who served in the last legislature is going to be one of the biggest things of its kind in the eastern section of the state, in the opinion of the sponsors here.

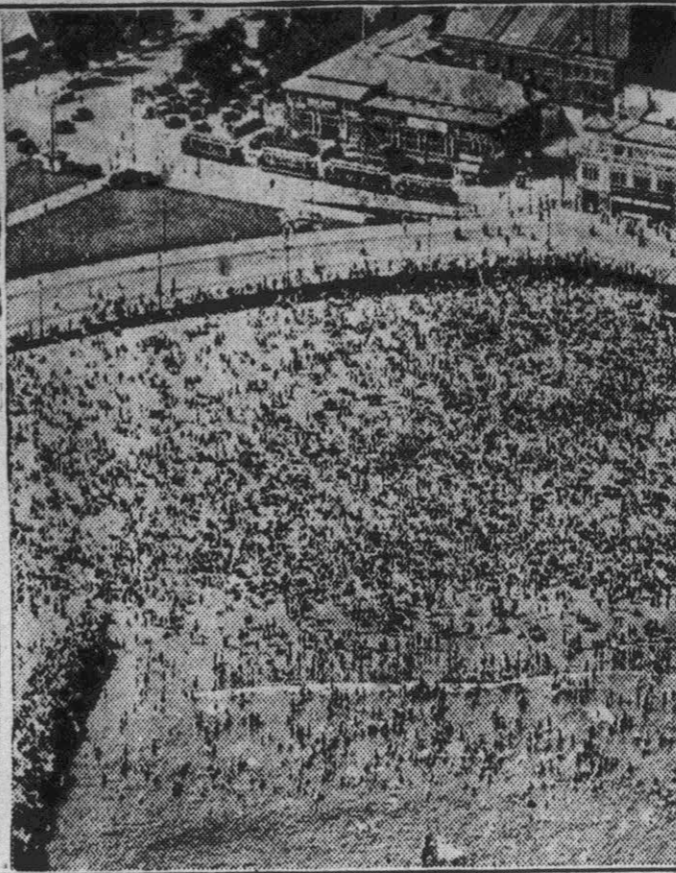

Hundreds of prominent men have already signified their intention to attend the celebration and do their part toward lauding the efforts of these statesmen.

One thousand people in all are expected to be in attendance and the affair will continue from morning until late at night. When the speech making has subsided Pitt county people will have a better impression than ever before of the value of her representatives during one of the most eventful sessions of the legislature in history.

TOO WARM? HERE ARE SOME WAYS TO KEEP COOL

In Chicago they stand on cakes of ice to keep cool. Or at least Traffic Policeman James Brennan does. He is shown atop a cake of ice on one of Chicago's busiest corners.

Hot? Who wouldn't be with the mercury soaring to around the 100 mark? But New York's millions are finding a way to keep cool. They flock to the beaches. The above picture showing a section of the hundreds of thousands of bathers at Coney Island proves that. This is a typical Sunday crowd.

At Coronado Beach, Cal., they beat the heat wave by going aquaplaning. Steve Patrick is holding Mrs. D. W. Heath who in turn is supporting Mary Sullivan.

SALE OF VALUABLE FARM PROPERTY

Under and by virtue of the authority conferred upon us in a deed of trust executed by L. A. Fulford and Sallie F. Fulford on the 22nd day of December 1925 and recorded in Book K-15, page 500, we will on the 1st day of August, 1931, at 12 o'clock noon

at the court house door in Pitt County, Greenville, N. C., sell at public auction for cash to the highest bidder the following land to-wit:

That certain tract or parcel of land lying and being situated in Farnville Township Pitt County, North Carolina, adjoining the lands of D. L. Turnage; M. L. Moye and J. A. Moye bordering on the Grimmsburg Road, and being that identical tract of land conveyed to L. A. Fulford by C. R. Townsend and wife, by deed dated Nov. 17,

BOSTON CHOIR PLEASES AUDIENCE AT COLLEGE

The Boston Male Choir gave one of the most enjoyable concerts the college has had in a long time, according to the verdict of both college girls and others who heard them sing. Eight men who have excellent voices, well trained, getting real pleasure out of a motor tour in lands that are new to them, throwing their souls into their singing, and an audience of college girls catching the spirit, setting the kind of program they like, make an ideal combination for a summer evening's entertainment.

The numbers on the program were well selected for such an audience and such an occasion, all good from a musical point of view, yet some favorites among them; nothing jazzy, but songs with swing, pep life, such as sea chanteys and descriptive songs, and songs with soft melodies for contrast. There was a generous response for calls for encores, many of them request numbers.

The prima donna, Miss Des' Rosiers, has a beautiful soprano voice and gave charming interpretations. Her "Swiss Echo" song was one of the loveliest on the program. She and Mr. Dundon were very pleasing in their duet, "Barcarolle," from Tales of Hoffman. When recalled, they responded with a dramatic singing of "The Keys of Heaven." The final number on the program was "Ave Maria," a very beautiful arrangement, with Miss Des' Rosiers and the choir. They came back with two other numbers sung together, with the soprano singing solo parts, an Italian street song and the "Indian Love Call," with Mr. Simonds singing a solo part also.

Schubert's "Serenade" with the young tenor, Mr. Conley, singing it as a solo with the choir softly furnishing the accompaniment, was one of the favorites of the evening. He and Mr. Simonds, the leader of the choir, sang beautifully Kreisler's "Cradle Song." Mr. Simonds sang two beautiful solos. Mr. Boardman the pianist, gave a group that was well received.

HAYWOOD DAIL WILL BE WITH MCGOWAN-CANNON

Haywood Dail, well known Greenville business man, announced today that he would be associated with McGowan & Cannon, local tobacco warehouse firm, during the approaching season.

Mr. Dail has been connected with the tobacco market for many years, and in addition to knowing the business, has one of the most extended acquaintances of any man in this section of the State.

Darn good—you'll say!

Everybody wants a mild cigarette. And when you find one that is milder and tastes better too—you've got a smoke!

Chesterfields are so much milder that you can smoke as many as you like. They're made to smoke milder. And you know they taste better the moment you light up. They're made to do

that too! Mild, ripe, sweet-tasting tobaccos—the best that money can buy. That's what it takes to make a cigarette as good as Chesterfield. And the purest cigarette paper!

Every Chesterfield is well-filled. Burns evenly. Smokes cool and comfortable. They Satisfy sums it all up!

Market Report Cotton--Stocks--Grain

N. Y. COTTON

New York, July 13.—(AP)—Cotton opened steady today 29 to 31 points lower under more or less general selling which has evidently influenced by the financial news from Germany and the weakness of Liverpool.

There was some trade buying and covering, but the selling was active and sent prices about 34 to 37 points above Saturday's closing quotations with October selling off to 9.08 and January to 9.42. Offerings subsided somewhat after the first rush of selling had been absorbed and the market was less active at the end of the first half hour, with prices showing rallies of 5 or 6 points from the lowest.

Liverpool cables reported continental, London and Bombay quotations and said that business in cotton cloth and yarn was generally restricted. The standard cloth statistics showing a decrease of 4.5 per cent in stocks on hand at the end of last month with an increase of 33 per cent in unfilled orders came in for very little comment at the opening.

GRAIN MARKET

Chicago, July 13.—(AP)—Despite wheat buying here against sales at Winnipeg, Chicago grain values collapsed today to new bottoms unparallelled for many years. Lack of general speculative dealings on either side of the market was a feature, with traders holding off pending developments as to bank troubles in Germany. Most of the pressure on wheat came from hedgers protecting themselves against loss on rural purchases.

STOCK MARKET

New York, July 13.—(AP)—The abrupt turn for the worse taken by a financially sick Germany over the week-end found the New York stock market in a hopeful frame of mind today.

With only the New York and London markets open—Berlin being closed as an emergency measure, and Paris closed for a holiday—heavy foreign selling was expected. Both New York and London, however, quieted down after the first flurry, with the New York market making substantial recovery from the lowest. Foreign exchange trading, however, was almost demoralized, and German bonds were acutely weak.

In stocks, early losses of 2 to 3 points in such issues as American and Foreign Power, Westinghouse, International Telephone, New York Central, American Telephone and Baltimore & Ohio were roughly cut in half by a mid-day rally. Losses of 1 and 2 points in General Motors and American Can were completely regained and U. S. Steel reduced an opening loss of 21-2 to about a point. Atchafalaya lost nearly 5 and regained only a little. Auburn recovered more than half of a drop of nearly 9. Trading turned dull after the first half hour, when 400,000 shares were traded.

All eyes rested upon Basel, where it was hoped that a plan would be evolved at the conference held at the world bank for immediate credit to the Reichsbank, sufficient to restore confidence. Wall Street has had fears of a radical uprising in Germany ever since the gains by the National Socialist and Communist parties in last Autumn's elections, and has little doubt that the leaders of these organizations are using the present situation to stir up the German public.

Private bankers were prepared to participate in an international loan but because of the delicate international political aspects of the problem, were awaiting upon the initiative of the Federal Reserve, which in turn, and for the same reasons, awaited upon the negotiations at Basel.
